Hello
Week

Assembly To Launch Annual 'Hello Week'

Buttons Will Be Distributed Following An Address By Colonel Harrelson

"Hello Week," an annual program to promote friendliness on the State College campus, will begin officially next Monday at noon with the presentation of the first "Hello" button to Colonel Harrelson, dean of administration, by Reese Sedberry, president of Golden Chain. This event will take place before the entire ROTC regiment assembled in Riddick Stadium.

After the presentation, Colonel Harrelson will make a brief talk, and then the regiment will be led in songs and cheers by Dean Cloyd. In the meantime buttons will be distributed among the cadets. "Hello Week" will be climaxed by a "jam-up" pep meeting in Riddick Stadium on Friday night before the Clemson game on Saturday, October 4.

The observance of "Hello Week" was begun on the State campus six years ago by Golden Chain, honorary fraternity, in an effort to promote friendliness on the campus. During this event, every student who passes a fellow student on the campus is asked to exchange greetings. The outcome of this inaugural attempt was so successful that it has been continued since that time. Its intention is not merely to have students exchange greetings with their fellow workers for the duration of one week, but to serve as a prime to keep the pump of friendliness flowing.

Sedberry, student leader in charge of the event, has made a plea that all non-military students be present in Riddick Stadium at noon Monday to receive their buttons. Every student is asked to participate in the event by placing his name on the button and wearing it throughout the week.

To insure the success of any program at State College, the cooperation of the entire student body is necessary, and each student plays a vital part in making possible another successful "Hello Week." All students are urged to carry the "Hello" spirit with them through the year, and to maintain State's reputation as the friendliest campus in the nation.

Student President Appointed Colonel Of ROTC Regiments

Cadet Appointments for New Year Announced At Ceremony in Pullen Hall By Battalion Supervisors

Dudley Robbins of Burgaw, football player and student government president, was appointed cadet colonel of the ROTC regiments at State College last Saturday. The cadet appointments for the new college year were read by battalion supervisors at a ceremony in Pullen Hall.

Lt.-Col. J. L. Lancaster, executive officer of the college's Military Department, announced a new cadet whereby the "tenure of cadet officer" will depend upon the performance of their duties. Heretofore, the officers' terms have been set for the school year.

The coveted post of cadet colonel went to Robbins, who is a senior in agriculture, as the result of his outstanding military record at State College and at summer ROTC camp.

Members of his regimental staff will be E. L. Bryant of Wilmington, lieutenant colonel and executive officer; R. N. Gribble of Charlotte, major and adjutant; E. J. Morgan of Raleigh and E. C. Cameron of Raleigh, majors.

Battalion officers were announced as follows for the First Cadet Regiment: First Battalion: C. K. McAdams of Mebane, lieutenant colonel; B. F. Vaughn of Raleigh, major; D. S. Williams, Jr., of Raleigh, and L. C. Williams, Jr., of Salisbury, captains.

Second Battalion: G. R. Sedberry of Concord, lieutenant colonel; R. S. Risley of Raleigh, major; J. D. Dodge of Asheville and W. E. Bryant of Wilmington, captains.

Third Battalion: W. J. Roberts of Monroe, lieutenant colonel; J. O. Whitaker of Horse Shoe, major; R. J. Granger of Charlotte and L. P. Zachary, Jr., of Taylorsville, captains.

In the newly-formed Second Cadet Regiment, which has one battalion, the following officers were appointed to head the First Battalion: W. L. Fleming of Fuquay Springs, lieutenant colonel; E. G. Gibbs of Morehead City, major; G. W. McCarthy of Charlotte and N. K. Lee, Jr., of Hampton, captains.

R. D. House, Jr., of Scotland Neck was appointed major in command of the military band and the drum and bugle corps.

Presidents To Attend Leadership Banquet

Gardner, Phi Eta Sigma President, Announces Reviving of Old Custom

The first Leadership Banquet in several years will be held in the north end of the YMCA Wednesday, October 1, at 6:30, it was announced Wednesday by Max Gardner, Jr., president of Phi Eta Sigma.

In the past several years no banquet was held, but the annual event was revived because of the importance it plays in making plans for the organizations for the remainder of the school year, Gardner announced. The presidents of all the honor societies and fraternities on the campus will attend the banquet. This is probably the only time during the school year under the present set-up when representatives of each honor organization at State can get together for a discussion of their organizations' plans for the year.

A proposal of the Student Council to form an Honorary Interfraternity Council will be read by Dud Robbins, president of the Council, and will be discussed by the group. This proposed council would be composed of representatives from each honor organization at State. One function of the Council would be to coordinate all dates for events on the campus and to regulate the events so that they do not overlap or run together. More cooperation could also be secured both from the organizations themselves and from the faculty if the societies were organized.

Assistant Dean of Students Ray Holder will say a few words to the assembled leaders, as will Dud Robbins and Cutie Carter, president of Blue Key.

Rayon Research Meet Held At Textile School

Dr. William D. Appel of Washington Called Meeting After Welcome by Dean Nelson

Subscribers to the spun rayon warp sizing research project, which has been sponsored by the United States Institute for Textile Research in the State College laboratories for the past year, met Tuesday, September 16, at the Textile School.

Dean Thomas Nelson of the Textile School, chairman of the advisory committee on warp sizing, welcomed the visitors to State College. The meeting had been called by Dr. William D. Appel of the National Bureau of Standards in Washington. Progress reports were made by Professor William E. Shinn of the Textile School, research consultant in charge of the project; Paul T. Biggers, research associate; and Professor Arthur C. Hayes.

Attending the meeting were: Dr. William D. Appel, National Bureau of Standards; Mr. Don S. Bolley of National Lead Company; Dr. Frederic Bonnet of American Viscose Corporation; Mr. Irving S. Ellison and Mr. Fred P. Ingram of Keystone Glue Company; Dr. Paul (Continued on Page 4)

'Y' To Show Movie On North Carolina

Film Made by Prof. Weaver Portrays Western North Carolina In Technicolor

Opening its program for this year, the YMCA will present a moving picture of western North Carolina in technicolor in the YMCA auditorium Thursday night, October 2, at 7:00 p.m.

The film was made by Professor James G. Weaver of the department of Horticulture, who attended the Southern Student YMCA-YWCA conference at Blue Ridge in June. While making moving pictures is only a hobby with Professor Weaver, those who have seen the picture compare it favorably with the popular "North Carolina, Variety Vacationland."

Part of the film is taken up with scenes from the conference grounds and activities, and members of the State College delegation appearing several times. The remainder of the picture was taken in the famous Craggy Gardens and other beautiful places of western North Carolina. The unsurpassed scenery of this section is well depicted in the technicolor film.

The picture is to be shown in colleges in 10 southern states. About 40 minutes will be required to show the picture. No admission will be charged.

SOUTH AMERICANS enrolled at State College are the two young men shown here with Miss Martha Monk, assistant in the College News Bureau. At left is Nadjar George Gallardo of Santiago, Chile, a freshman in textile manufacturing, while at the right is Jose Zelaya of Lima, Peru, a graduate student in animal husbandry.

Need for Teachers Of Industrial Arts Grows More Acute

Schools Forced to Revise Schedules Because of Shortage of Teachers; Students Qualified to Teach Are Urged to Consult Education Department

More than sixty requests for Industrial Arts teachers have been received this spring and summer by the department of Industrial Arts Education at State College, according to reports compiled by Dr. John R. Ludington. These requests for high school teachers came from school administrators in North Carolina and several surrounding states in the southeast. The salaries quoted being for eight and nine month teaching positions and ranging from the state minimum to \$2,000 for persons holding a bachelor's degree in Industrial Arts and a teacher's certificate.

North Carolina State College is one of the 160 colleges and universities in the United States engaged in Industrial Arts teacher education. The growing demand for teachers has far surpassed the number of competent and qualified candidates in all sections of the country. At the present time many excellent positions are unfilled and some school systems have been forced to restrict their Industrial Arts courses because of a shortage of teachers. Twenty-two Industrial Arts teachers from other states were hired to teach in school systems in North Carolina last year. This important field of public education needs many young men as candidates for the teaching profession.

In response to a growing realization on the part of both professional educators and the general public for more practical and functional types of education, State College has recently enlarged its physical facilities and increased its staff. New shop and laboratory equipment has been installed so as to give prospective Industrial Arts teachers orientation and exploratory experience in the following areas: drawing, planning, graphic arts, woodworking, elementary electricity, general metal work, and ceramics.

Ambassador Daniels To Speak To Founders' Day Gathering

Ambassador Josephus Daniels and of K. K. Mial of New York City, an outstanding alumnus, will be the principal speakers Oct. 3 when State College celebrates Founders' Day on the 52nd anniversary of its opening in 1889.

The complete program was announced Monday by Dr. L. E. Hinkle, chairman of the Public Lectures Committee.

Mr. Mial, who graduated in mechanical engineering in 1913, is vice president of the Johns-Manville Sales Corp. He will address a morning gathering, and Ambassador Daniels is scheduled to speak at a luncheon for special guests, including members of the first four graduating classes.

The program will begin at 11 a.m. with an academic procession, for which Col. J. L. Lancaster of the military department will be marshal. Col. J. W. Harrelson, dean

Office Hours

Beginning Monday, September 29, the regular hours for the office workers of the College, Extension, and Experiment Station staffs will be from 8:30 to 4:30 (Saturday 8:30-12:30) Eastern Standard Time. The treasurer's office will also conform to the new hours. It will be determined later whether or not these hours will be continued after November first.

J. W. HARRELSON,
Dean of Administration.

New YMCA Handbook Edited By Patterson

Annual Publication Is Dedicated to Louis H. Harris and William F. Morris

The State College Handbook for 1941-42 was ably edited during the summer by Quentin Patterson, with Franklin Teague helping in his capacity as business manager.

Published annually for students, especially freshmen, and sent to them in the summer before they enter school, the handbook is published by the Y. M. C. A. in the hope that it will enable the student to gain a clearer insight into the life and traditions of the North Carolina State College and that it will familiarize the coming freshmen with the existing conditions that must be met during his first year at the college.

The handbook codifies the various rules and regulations of the college; introduces the student to the school system; shows what is offered in educational and social activities, and offers counsel and advice that is designed to be helpful. It proposes to give in a compact and concise form the information which will aid the student most rapidly in becoming a real member of the State College student body.

Dedication of the handbook this year was made to Louis H. Harris, Steward of the Dining Department, and William F. Morris, Director of the Service Department, two of the most efficient and dependable members of the College Staff.

Citizenship Test To Be Required Soon For Engineering Students

Students Failing to Pass Test Will Be Required To Take Course in American Government

All students now in the School of Engineering, excepting present juniors and seniors, are required to take prior to the end of their sophomore year a citizenship test by order of the faculty council, it was announced last week by the Committee on Citizenship Requirements for the School of Engineering.

The examination will cover the fundamentals of American Government, and in the event that a student fails to pass this comprehensive examination, he will be required to take Political Science 200, American Government.

Students may elect to take the course in American Government offered by the Department of History and Political Science, in lieu of the comprehensive examination if they desire to do so. They must take the course if they fail to pass the examination or fail to take it before the end of their sophomore year. The examination will be given to sophomores only on a specified date, to be announced later, during the spring term of each year and no re-examinations will be allowed.

A student taking and passing the prescribed course, American Government, will be permitted to apply this credit in partial satisfaction of the social science electives required for graduation in the School of Engineering. A student in the School of Engineering must pass the examination or the course before he can graduate.

The following reading list will be found helpful to those students desiring to prepare for the examination in American government: "The Government of the United States; Ogg and Ray, 'Introduction to American Government'; Maxey, 'The American Problem of Government'; Phillips, 'American Government and Its Problems'; Beard, 'American Government and Politics.' The student may select any one of the above books.

State-Raleigh Day To Feature Parade

Final Date

Students who have registered late must have their registration-card pictures made some time between 1:30 and 5:00, Tuesday, September 30, at Room 18, Daniels Hall. If pictures are not made on this date, it will be necessary for the student to furnish photographs at his own expense.

Due to a defect in the camera, a large number of the pictures of the Freshmen and transfer students will have to be made again. A list of these students is posted on the Blue Key bulletin board. If you are a freshman or a transfer student, be sure to check this list to see whether it will be necessary to have a new photograph taken next Tuesday.

GRADY W. BARTLETT.

Religion-Life Week Planned By YMCA

'Scotty' Cowan and George Campbell To Visit Campus For Religious Emphasis Week

With the return of T. B. "Scotty" Cowan, popular speaker on the program of past years, the State College YMCA will present "Religion and Life Week" October 26-30.

Also to lead in the campus-wide religious emphasis week are George Campbell, nationally known leader of songs and inspirational humorist, and Albert C. Outler, instructor in English Bible and historical theology at Duke University. Both men are nationally known as leaders in religious education.

During "Religion and Life" week, public meetings will be held nightly, with current problems of youth of today as subjects of the discussions. The speakers will talk in classes and at invitation of the instructors, and it is hoped to arrange special meetings of each class. The visiting leaders will conduct discussion groups in the dormitories and fraternities to which they are invited, and time will be set aside for individual conferences.

"Scotty" Cowan proved a very popular speaker last year. Born in Scotland and educated there until he came to America in 1923, his speech still bears traces of the Scottish brogue. Before coming to America, he served four years in France during the first World War. Since completing his theological training at Yale and Vanderbilt, he has been in charge of churches in Tennessee.

Roy E. Dickerson, author, lecturer, and consultant, will visit the campus November 9 and will remain here for a week or more. As an authority on mental hygiene, personality, and education for marriage and family life, he will give several lectures here. He will also be available for individual conferences or to lead discussion groups. With the cooperation of the physical department, it is expected that physical activity classes may be arranged to hear Dickerson for consecutive lectures.

Van Leer Praised By Education Commission

Dean of Engineering School Complimented by J. W. Studebaker, U. S. Commissioner of Education

Dean Blake R. Van Leer, head of the State College School of Engineering, has received a highly complimentary letter from J. W. Studebaker, U. S. Commissioner of Education, regarding the Dean's work as regional adviser for the engineering defense training program.

The letter also requested that Dean Van Leer continue as regional adviser for the Carolinas and Virginia, a function in which he has been successful for several years. "The splendid service you have rendered during the past year as an engineering defense training regional adviser is very sincerely appreciated," Studebaker wrote to Dean Van Leer. "The advice and assistance you have so generously given have been of great value to us in administering the EDT program, and have thus been a substantial contribution to the national defense."

Through the program, the government is providing short courses for co-ops, desiring technical training of college level for government service or jobs in defense industries. State College, a leader in the enterprise, has turned out several hundreds of "graduates", practically all of whom have secured jobs.

Fathers of Students Invited By Golden Chain To Attend Day To Be Climaxed by State-Wake Forest Game

An entirely new affair, State College-Raleigh Day, will be inaugurated the day of the Wake Forest game, October 18, by the Raleigh Merchants' Bureau, the State College Interfraternity Council, and the State College Student Council, it was announced yesterday by Bill Friday, campus coordinator of the event.

A gigantic parade will be held Saturday afternoon at 4 o'clock in conjunction with the affair. The parade will feature the State College Redcoat Band and Drum and Bugle Corp, the Wake Forest band, bands from the Raleigh high schools, the Cadet Sabre Corps, and numerous floats sponsored by the merchants of Raleigh.

Fathers of all the students enrolled at State College are now being invited to attend the first annual "Dads' Day" on the campus, also on Oct. 18. Golden Chain, senior honorary organization, is mailing letters of invitation to approximately 2,500 men. The dormitories and fraternity houses are now being decorated on the theme "Welcome Dads," while open house will be held at all the fraternity houses for the fathers.

The Merchants' Bureau is planning to furnish all the decorations for the dormitories and fraternity houses with the understanding that the students will put up the decorations themselves.

The Merchants' Bureau is also going to award a trophy 29 inches high to the fraternity having the best decorated fraternity house.

Six sponsors from each school and four from the Merchants' Bureau will sponsor the State College-Raleigh Day parade. Mr. Wesley Williams, secretary of the Bureau, will act as chief marshal for the parade.

Mr. Don Wilson is the chairman of the State College-Raleigh Day committee in charge of the decorations in town. Most of the downtown stores are planning to decorate their windows with displays featuring pictures of players on both the Wolfpack and the Wake Forest team.

In connection with the State-Wake Forest game will be the giant pep meeting scheduled for Friday night, October 17. The rally will be featured on a state-wide broadcast by both of the Raleigh radio stations.

The awarding of the Sportsmanship Trophy, originated in 1939 by E. E. Durham, former president of the student body, will again be revived at the traditional game with Wake Forest College.

Ag Fair President Announces Progress Of Student Project

Agriculture and National Defense Proves Popular Theme for This Year's Exhibits

Plans for the annual students' Agriculture Fair, to be held in conjunction with the North Carolina State Fair, October 14-18, are being made, Ag Fair President Albert Banadyga announced recently. The Ag Fair will be held in the east wing of the main exhibit hall.

Following the custom originated in 1939, the booths will be divided equally on each side of the hall, and one booth allotted to each of the eleven departments in the Agricultural School. Most popular theme in this year's exhibits is the relationship of modern agriculture and the national defense, a theme which won first place for the Horticulture Department last year.

In addition to the exhibit booths, one booth will be fitted up and decorated as a recreation booth by Alpha Zeta, national honorary agricultural fraternity.

The fair is presented yearly by the students in agriculture to show to the public the trends in modern agriculture and to demonstrate the best agricultural practices as determined by the experiments and research of State College. The fair was originated in 1913 under the leadership of former Professor C. L. Mann, who inaugurated a corn show which was presented on the campus in the fall of each year. The corn show grew into a fair as other departments joined the agronomy department in preparing exhibits, and, as the fair increased in popularity among the agricultural students, it was moved out to the exhibit halls at the State Fairgrounds and presented in conjunction with the State Fair.

Assisting President Banadyga in planning for the fair this year are Vice President M. E. Hearn and Secretary-Treasurer J. G. Hoffman.

A Famous Tradition

Monday at State College will mark the beginning of the college's eighth annual "Hello Week," sponsored each year by Golden Chain, senior honorary fraternity, in an effort to stimulate friendship and congeniality among the members of the student body and members of the faculty. It is largely through the efforts of Golden Chain that State College has gained the reputation of being one of the most friendly colleges in the South.

Monday at noon the entire ROTC regiment will assemble in Riddick Stadium, where traditional red and white buttons will be distributed. These badges have upon them places for the names of students, who are expected to wear the buttons for the remainder of the week. After Monday, students are urged to speak to everyone they meet on the campus—including professors, deans, students, and janitors. Don't just speak to those fellows you already know—speak to everyone you meet and make an effort to remember as many names as you possibly can. Enter into the spirit as well as the practice of the affair and put some feeling into the greeting "Hello." Don't just nod when you walk by—put some warmth into it.

And when you put away the red and white buttons don't put away the habit you'll get into next week. Keep right on saying hello to everyone and make this college not just one of the most friendly schools in the South—but the most friendly.

Congratulations

Major C. Kutschinski deserves laurels for the fine job he did of whipping a good band into shape in the few days before the game last Saturday night with the Richmond Spiders. Since the upperclassmen registered only the day before, very little time remained for rehearsals, but still the band succeeded in giving an excellent performance and in adding a little sparkle between halves.

Part of this success can be credited to the freshmen, who made up a considerable part of the band. The freshman component of the band played in several of the freshman chapels last week, as well as at the game. We know that in order to perform well, much practice and hard work is required—but keep it up, fellows!

Out of Place

We were sorry to hear comments last week about the language that is being used over the dormitory telephone system. Frequently, it seems, someone from off the campus puts in a call to one of the dormitories and is really shocked by some of the language heard at the other end of the line.

Let us say right here that little episodes like that will do little to help the reputation of State College, and will actually do much to harm it. After a rather vituperous greeting on the phone, most of us would be shocked, to say the least, if we were to discover that the person on the other end of the line was our mother or sister calling us long distance. Remember, when we answer the phone, our voices may be going across the state, so think before you speak.

Also, the switchboard operator is a young lady. Students at State College should at least have enough respect for her to talk on the phone in an orderly manner.

Most of the complaints state that the trouble seems to be concentrated in the upperclass dormitories. How can the trouble be remedied if the freshmen hear the upperclassmen, who they are supposed to look up to, using language which no student would use in his own home? You upperclassmen are supposed to be the leaders on the campus. Don't lead the freshmen into habits which they would not acquire if left to themselves.

OPEN FORUM

To the Students:

In the rush and excitement of getting to State College there are perhaps many, especially freshmen and transfers, who have failed to remember certain rules and regulations to which students must adhere in order to remain in this institution for a profitable length of time. For those who might have forgotten, the following regulations should serve not so much as a warning, but rather as a reminder to "burn mid-

night electricity" and "get up for the 8 o'clocks." Do these things and the "C" average will virtually take care of itself.

RAY HOLDER,
Assistant Dean of Students.

CLASS ATTENDANCE AND CREDIT POINTS

A student is expected to attend every meeting of each class. We operate on what is known as the credit-point system. In order to graduate, a student is required to earn a minimum number of credit points equal to the minimum number of credit hours required for graduation. For example, if a minimum of 198 term credits are required for graduation, a student must also earn a minimum of 198 credit points. A grade of A carries with it 3 credit points per credit hour, grade B carries 2 credit points, grade C one credit point, and grade D no credit points.

Any student will lose one (1) credit point who is absent from class three times without a satisfactory reason. This loss of points decreases the number of credit points he has earned toward a "C" average and toward graduation.

First and second year students, if absent from ten (10) classes during a term, or from twenty (20) during a College year, without a satisfactory reason, are placed "On Probation" automatically (without notification).

Third, fourth, and fifth year men, and transfer students who are classified as juniors or seniors are limited to ten (10) unexcused absences per term. They go "On Probation" automatically (without notification) when they have been absent from 11 classes during a term, without satisfactory reason.

Any junior or senior having a cumulative scholastic average of "B" (85) or higher is exempt from the College rules limiting the number of unexcused absences. The student must, however, maintain an average of 85 thereafter, or the present rule pertaining to unexcused class absences will apply during the remainder of his stay at State College.

Students who are absent as many as three times while on probation become subject to the action of the College Disciplinary Committee. This committee has authority to suspend students from College, subject to the final approval of the Faculty Council.

Permission to be absent from class, or from any other College duty, must be obtained from the Dean of Students.

Reason for classes missed must be given to the Dean of Students within one week immediately following the date of the last consecutive absence; otherwise, the absence is automatically unexcused.

A new student will be permitted to make up laboratory work if he presents to his teacher a statement from the Dean of Students showing that his absence was excused.

A double penalty will be imposed for absences two days before and two days following an authorized College holiday, such as Thanksgiving Day.

Parents sometimes write us something like this: "It was necessary for my son to be at home over the week-end." Frankly, a statement of that kind does not constitute a "satisfactory reason" for a student's absence.

We recognize parents' right to call their sons home at any time, but the administrative officers of the College reserve the right to determine whether the reason given is one which justifies his being excused from college duties.

Our quality-point system is such that students who are making "A" or "B" in their studies can be away occasionally without loss to themselves except in quality points, but students who are barely maintaining a "C" grade cannot afford to be away from any college duty, except in extreme emergency.

Aside from any question of discipline involved, students cannot afford to lose credit points, nor to cultivate habits of neglect of duty. Regular, prompt attendance is necessary for a successful College Career.

ATTENTION, FRESHMEN ENGINEERS

Each Tuesday, 12 noon, you are to meet with the respective heads of your departments except on the second Tuesday of each month when you meet at 12 noon with the Dean of Engineering in Pullen Hall.

The places of these meetings, and the professors in charge, are as follows:

Aeronautical Engineering Freshmen—	YMCA Auditorium
Architectural Engineering Freshmen—	307 Daniels Hall
Ceramic Engineering Freshmen—	1 Ceramic Bldg.
Chemical Engineering Freshmen—	113 Winston Hall
Civil Engineering Freshmen—	222 Civil Eng. Bldg.
Electrical Engineering Freshmen—	207 Daniels Hall
General Engineering Freshmen—	203 Civil Eng. Bldg.
Geological Engineering Freshmen—	3 Primrose Hall
Industrial Engineering Freshmen—	132 1911 Bldg.
Mechanical Engineering Freshmen—	100 & 102 Page Hall

BLAKE R. VAN LEER,
Dean of Engineering.

RADIO CLUB

The Radio Club begins the new school year with a special invitation to freshman amateur operators and other interested newcomers. Interest in radio from a technical viewpoint is the only prerequisite for entrance into the club.

So all radio "Fans" and "Hams" be present tonight at 6:45 in Room 107, Daniels Hall, for the initial meeting of the year.

WATAUGAN

There will be an important meeting of the Wataugan editorial staff Tuesday afternoon, Sept. 30, at 5 o'clock in Room 201 Publications Building. The deadline for the first issue is not far off. Any students not on the staff now (including freshmen) who would be interested in working on the college humor magazine please attend.

PLATTER PATTY

September 6 brought to the airwaves the new million dollar band of Artie Shaw in his first coast-to-coast broadcast. This new band approaches Paul Whiteman's band of the twenties in size, both as to the number of stars and number of players. The band has been on the road playing the larger cities throughout the East and Mid-West.

Artie has a new singer, Bonnie Lake, and 31 musicians, plus his new understudy, Artie Baker. The string section is 15 deep and is the only section which does not have any ex-leaders in it.

The sweet trombone of Jack Jenny plus Morel Samel and that gutbucket stylist Ray Conniff compose the slide section. Comedian Trumpeter Hot Lips Page; Maxie Kaminsky, ex-Tony Pastor; Dickie-land star; Leo Castaldi and Steve Lipkins finish out the trumpet section.

The sax section is now the best in the business, having Mickey Folus, Les Robinson, and George Auld as the stars, helped out by Charlie Di Maggio and Artie Baker. Backing up the band is that remarkable drummer, Davey Tough, bass played Ed McKinney, pianist John Gunnardi and guitarist Mike Bryan.

To get this setup for his band Artie had to make the biggest raids in swingdom history, with Benny Goodman, Will Bradley, Tommy Dorsey and Tony Pastor suffering the heaviest losses. With this bunch of musicians, Artie now has the most perfect musician's band in the country. Arrangements and style will be simple. No set style will prevail because a good band of musicians will set its own style, Artie believes.

Etri

The music world mourns the death of Charlie Barnet's great swing guitarist, But Etri, and vocalist Larry Hunding. They were killed in a car wreck near Culver City, Cal.

The finding of marijuana in the smashed car led to the arrest of drummer Cliff Leeman and his wife, at whose apartment the two musicians stayed. This accident has caused the musician unions to start an investigation among their members as to who are "tea-hounds" and possibly tear up their union cards.

The Turntable

There are no outstanding sides at Thiem's this week, but Sonny Dunham's "Memories of You" and "As We Walk Into the Sunset" show the versatility of this fine young band. The first is a Lunceford-styled work with Sonny's trumpet and trombone taking the spotlight. The other is a slow commercial-type tune with a very pretty vocal by Ray Kellogg.

The foxy piano of Thornhill and Dick Harding's vocals make this record, "Mandy Is Two" and "Lovers in a Glass House" are the two sides and this band will continue to rise if they keep producing waxes like this.

The good and bad of Duke Ellington's band shows up on "Moon over Cuba" and "Just A-Sitting and A-Rocking." The first is a Latin American number while the other, which is an Ellington-arranged Billy Strayhorn number, the band gets back into its negroid groove.

The white Ellington, Charlie Barnet, gets off on a negroid kick on two Ellington sides. "Harlem Speaks" is better than "Swingin' On Nothin'" which has a Ford Leary vocal. These sides feature solos by Etri and are the last ones that he will make. Charlie's tenor and Bernie Previn's trumpet also come in.

GLEANINGS

The first week of the current school year has already gone with the wind, and here I am again, trying to think of the minimum copy for this column—two and a half typewritten pages. I can see right now that this little job is going to be pushed around from one staff member to another throughout the term—save you the monotony of reading the same old stuff, anyhow.

Doc Newton and his Country Boys are to be congratulated on the excellent showing they made in Riddick Stadium last Saturday night. The game was the kind that couldn't be termed "swept up" until the gun went off at the end of the second half. We still haven't figured out how those little backs from Richmond could drag so many State players along with them when they cracked through the center of our line. They were either mighty, mighty tough little men or they were too small for big boys like Woody Jones, Dink Caton, Mike Andrews and the rest of the State squad to get their hands on. But they were certainly elusive, anyhow.

It seems that everyone and his brother—or sister, as in my case—is going to be at the game in Greensboro this Saturday to see us shellac Davidson. Davidson is another team with flashy backfield men—just watch little Davey Spencer carry that ball for the Wildcats. Only weighs around one hundred and forty-five pounds, if I'm not mistaken.

More big events are taking place around here than a fellow can keep up with. We hear now that the business men of Raleigh are planning a big time for the day of the Wake Forest-State College grid battle. They're going to supply posters and crepe paper for decorating the dormitories and fraternity houses if the boys agree to put up the trimmings. And all that in addition to what is put up around and about the campus for our Homecoming Celebration. Getting to be quite a frivolous place, isn't it?

But the business men aren't going to stop doing things for State College that fast, it seems. We hear now that a giant affair in the form of a party for all the freshmen at Meredith, Peace, St. Mary's, and State is being planned for sometime in the very near future. Last year was the first time anything like this was attempted, and it really went over in a big way. Oh, for the life of a freshman so that we could go, meet and dance with all the cute little freshies of the female species we've seen fluttering about downtown.

But, seriously, we wish to take this opportunity to thank the Raleigh Junior Chamber of Commerce for the fine spirit they have extended to us. Years ago, State College had an unenviable reputation about the City of Raleigh. But recently we have enjoyed a much better name, largely because of the cooperation of the student body and the Raleigh merchants. Let's try to keep it that way, fellows.

The freshmen are finally getting a taste of army life. Walk about the campus any Monday, Wednesday, or Friday at noon, and at every area larger than fifty feet square, you will find hundreds of ROTC boys mastering the technique of right, left, and about facings. I could feel a lot more sympathy for them if I didn't have to get out there, too. Now, I'm too worried wondering whether or not I'll live myself to worry about anyone else. But I think I've found the remedy for the heat. Every time I feel perspiration trickling down my back, I think of the camp down at Clemson. And every time I think of Clemson, cold shivers run up and down my back. Imaginary air conditioning!

We forgot to mention earlier in this column that our annual "Hello Week" starts this Monday. Buttons will be passed out at the meeting in the stadium. Please cooperate and print your name on the badge and wear it throughout the week. And when you meet some one—no matter if it's a student, professor, dean, or just the janitor—say hello to him. You'll get a greeting and a big smile in return. State has acquired the name of being one of the most friendly schools in the South. Don't let this name get away from us now.

Well, if you've waded through all this stuff, you'll be glad to hear that I was serious when I said that I was going to let other members of the staff handle this column for a while. And once in a while we'll get a professor or two to write in to present the views of the other half of the campus. Next week you'll see a new name tacked on the end of this. Thank Heavens!
CARL SICKEROTT.

NO SLIDE RULES FOR SALE!

The slide rule you would ordinarily buy this term has been drafted for National Defense. Sorry, it can't be helped. Although we have increased our production tremendously the Defense Program still absorbs more rules than we can make right now. But we are still increasing production. Within four months, your slide rule will be ready for you...

but we'll lend you one!

Meanwhile, we have found a way out. To meet this temporary emergency we have made a quantity of mass production slide rules that will tide you over until your standard rules are ready. These rules are not for sale. We will lend you one upon the deposit of One Dollar...and give you a full trade-in allowance when your standard rule is ready. No charge for wear and tear. Use this special rule with our compliments as long as the emergency lasts! Your campus bookstore has K&E "loaned-on-deposit" slide rules in stock for immediate delivery.

FOUNDED 1867

SPORTS STUFF

By ROBERT POMERANZ

The varsity-fresh scrimmage under the Riddick Stadium lights last Tuesday night proved at least two things. First, the 1941 Wolfpack is probably the hardest working bunch we've had on the campus in several seasons. Second, in just about every position on the field, Doc Newton has reserves who are just about as good as the first stringers.

Sitting on the bench at the scrimmage you could actually feel the hard working spirit as an actual factor in the club's outlook. And, it's just as real a thing as if there was another coach on the staff or if some magic formula had been discovered to make the Wolfpack backs able to outrun any opponent.

To the veteran scribes in the press-box that tough first half last Saturday night was just the medicine that was needed to cure the Pack's apparent cockiness. But, look our boys over, fellows. That isn't cockiness. It's just an increased confidence in their coaches and themselves that the 1941 Wolfpack has. It comes with the knowledge that everyone is working hard and that there are good reserves to plug the gaps that occur.

Coach Warren's Problem
Coach Bob Warren has two top-notch freshman fullbacks and has been trying to arrange for them both to play in the same backfield. Probably one of them will move to wingback. Both weigh over 200. No names yet, but you can pick them out easily enough at practice. One is a whizz-bang passer and runs like a 75 mm. shell going through cheese. The other was a top-scoring back in high school last year.

Odds and Ends
Dud Robbins says that the lip bruise earned in Tuesday's scrimmage won't put him out of action Saturday night—and he means about midnight. . . . Ask John Barr about his "shirt-switch" story and find out about what he's got that he's going to keep for a while. . . . Take a look at the group picture that Bill Friday keeps in his last year's Agromock—it betokens a phase in his life before all those presidencies came along.

Wolfpack Striving for Season's Second Victory

Battle Davidson's Cats In Greensboro Tomorrow

Prof. Miller Visions Most Successful Campus Sports Season

By JIM MARTIN
Sept. 30 is the opening date for intramural touch football and consequently starts the competitive ball rolling for this school year.

At a meeting Tuesday night, Prof. J. F. Miller told 28 managers and representatives that the intramural sports program this year was slated to supersede all previous seasons. First round football rosters were distributed.

Rules governing protests, forfeits, postponements, and other facts are posted on the gym bulletin board. Every member of a club is urged to read this information.

Top Teams Practice
Winners of last year's football contests, 3rd "A" and PKA, as well as a strong 2nd "C" outfit, have been holding practices. First tussles in the dorm division take place Sept. 30, with Fifth and Sixth clashing, while 1st "A" meets 1st "C."

Because varsity football practice is being held at noon and the fresh gridders drill in the Track Stadium, all games—originally scheduled on 1911 Field—will be played on Freshman Field, leaving 1911 Field open for practice except for dates when postponed games must be played. Two grid fields will be lined off on Freshman Field to accommodate this change.

Wrestling and Swimming
Wrestling and swimming dates were announced. Oct. 14 and 15 have been set aside for wrestling preliminaries, with swimming to take place on Nov. 11 and 12. Five entrance points are given for each wrestler and two entrance points for each swimmer with additional points for victories.

Big Tennis Tourney
New and promising is the tennis tournament to be conducted this fall. This new elimination tourney is wide open to every student, on or off campus, and participation is

Gym-Pool Schedule

Professor J. F. Miller, head of the Physical Education department, has announced the schedule for use of the gym, pool and tennis court facilities by students and members of the faculty. Footballs, basketballs, skip ropes, handballs, and other equipment are available and can be checked out at the gym office.

The Frank Thompson Gymnasium will be open for use on Mondays through Thursdays from 4 to 6 p.m.; Fridays from 8 a.m. to 6 p.m.; and Saturdays from 2 p.m. to 5 p.m. Gym and pool facilities are closed on Sundays.

The pool may be used Mondays through Fridays from 3 to 6 p.m., and on Saturdays from 8 a.m. to 6 p.m. The tennis courts may be used at any time.

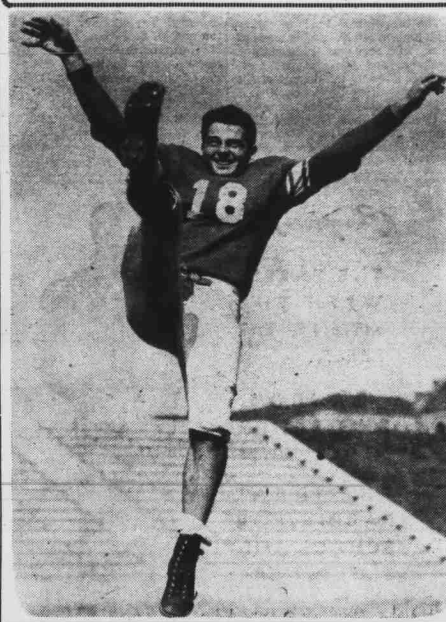

The Monogram Club will hold its initial meeting of the year at 7:30 p.m. next Thursday, in the Monogram Clubroom in Frank Thompson Gymnasium. **WOODY JONES**

urged. Monogram and numeral men will not be eligible.

Entries containing the name, address, and telephone number of the participant must be in by Oct. 10th and play starts two days later. Here is competition and individual participation linked into what promises to be a popular campus recreational program. Place your entry as soon as possible and start practicing.

Four sports are on schedule for this term: football, wrestling, swimming and tennis. Let's give them the spotlight!
Those organizations (2nd "A," 3rd "C," Upper South, 3rd Seventh, Sigma Pi, and Pi Kappa Phi) which were not represented at the intramural meeting last Tuesday are requested to have their managers see Prof. Miller at once.

DASHING DICK Watts wove and tore through 63 yards of Richmond territory to tally the deciding T.D. in the Pack's 14 to 7 victory. Despite two neat angle kicks which went offside within the opposing ten yard stripe, Dick's trained toe racked up a 40.2 yard average in ten punts. Winner of the Black Improvement Trophy last year, State's slight star tailback displayed excellent field generalship in the season's opener.

New Cheerleaders

Earl Light and Jack Rose were selected as co-head cheerleaders for this year by the Student Council at its meeting last Tuesday. Ed Grosse, Frank Masters, and Joe Buice carry over on the yell squad. Tryouts for freshman cheerleader were announced by the

new head men for 5 p.m. this Monday in Riddick Stadium. Interested first-year men must be at this audition to rate a chance for the squad.

There will be an important meeting of the State College Life Saving Corps next Tuesday at 1:15 p.m., in the "Y" auditorium. All Life Saving, Water Safety, and swimming instructors are urged to attend.

Hard Drills Prepare Newtonmen; Carter May Start, Gordon Probably Out

Coach Williams (Doc) Newton's State College Wolfpack goes after its second straight win of the current season, and their fifth in a row over Davidson, when they meet Gene McEver's gridders tomorrow night on the turf of Greensboro's Memorial Stadium.

All this week Coaches Newton, Hickman, and Wood have been sending their charges through some of the hardest drills of the year. Noon-time practice sessions, running from 11 to 1, were the order of the week. Tuesday night saw the varsity run through a hard scrimmage with Bob Warren's brawny freshman squad.

Co-Captain Cutie Carter will probably be at his regular starting post at center when the whistle blows at game time tomorrow night. Carter has been out for the past two weeks with a leg injury.

Gordon Probably Out
Robert (Flash) Gordon, sparkling sophomore back, has been added to the injury list, however, and probably will not get to see any action against the Wildcats. He suffered a possible foot fracture in the contest with the Spiders last week.

Things have been humming at Davidson ever since the varsity players first reported last spring. The Cats are pointing for a win over the Pack and are making no bones about it. The 0-0 tie that McEver's squad played against little Rollins College last week will serve to make them all the tougher to defeat.

One of the best backfield combinations in the South will face the State team. Johnny Frederick, Davey Spencer, Claude Hackney, and Johnny Miller are set to be turned on the loose against the boys from West Raleigh. Red Bethea, a soph from Dillon, S. C., has also been stepping high in the Davidson camp. Already he is being billed as the best sophomore back in the country and the successor to Harry Nunkle as the top kicker of the nation. They're a few the Pack will be against.

Clemson Next
Following the game tomorrow night, the Wolfpack will begin work for the Clemson game at Charlotte the following Saturday. After that game, the Wolves will be away from home one more week before returning to entertain the Wake Forest Deacons.

Last year the Wolfpack breezed through the Davidson encounter with an easy 34-0 win. A repeat performance may not be as easy. Other meetings between the two teams in Greensboro have always yielded close tallies. Two seasons ago, State eked out an 18-14 win over the Cats at Greensboro and writers the state over say that tomorrow's tilt should prove to be just as close and thrilling.

Both WRAL and WPTF will carry flashes of the State-Davidson score on their news broadcasts which run from 11:00 to 11:05 p.m. Saturday night.

Let's Go to the Game

State students will be admitted to Greensboro's Memorial Stadium for 50c upon presentation of their registration cards at the special student gate. Faculty members may purchase reserved seats for \$1.00 in Mr. Von Glahn's office in the gym. Regular admission to the game is \$2.00.

Busses leave Raleigh for Greensboro at 1:00, 2:15, 2:30, and 3:30 p.m. Saturday. The return trips can be made at 11:30 p.m. or 3:10 a.m. by bus, or at 11:30 p.m. by train. One-way fare is \$1.35, round trip is \$2.45.

Football Broadcasts

SATURDAY, SEPT. 27:
WPTF—2:15 p.m.: Play by play of the traditional Duke-Wake Forest grid encounter.

WRAL—3:15 p.m.: South Carolina tangles with U.N.C. at Chapel Hill. Ray Reeves and Tom Latimer will do the play by play, and this broadcast will go coast-to-coast over the Mutual Broadcasting System.

"Scholastic Trouble" Hits 'Pack Again

Once again the old State College football jinx, scholastic difficulty, has taken its toll of grid talent. Latest victim is junior back "Sonny" Gilbert, Mt. Airy boy, who made the fatal mistake of repeating a course in summer school he had already passed.

This misfortune struck doubly hard at Gilbert, as he had participated in pre-season practice and had broken his hand in the scrimmage game with Hampden-Sydney.

The greatest loss to the Wolfpack was the departure of giant 235-pound Curt Ramsey because of a deficiency in school work. He had earned a starting position for the current season, and been counted upon by Coach Hickman to perform yeoman work in the line.

Doak Missing Too
The national emergency snatched guard "Chick" Doak off the playing field and installed him in a camp at Marion for conscientious objectors. Doak is a Quaker, and is conscientiously opposed to war. In addition to his activities on the gridiron, he was co-captain-elect of the 1942 baseball team.

A promising sophomore back, Don Marriot, failed to return as did junior back Jim Barber, both of whom were afflicted with that dreaded disease—"F-titis."

On the brighter side of the ledger is the return to school of sophomores Barret Wilson and Ray Sawyer. Wilson played freshman ball two years ago, and turned in some splendid performances as an end. He spent the past year at Fort Jackson, S. C., with the North Carolina National Guard. Ray Sawyer, a freshman two years ago, is a burly 220-pound tackle, who was a standout yearling.

New Professor Added To Aero Department

Rautenstrauch Appointed Assistant Professor in Department of Aeronautical Engineering

Appointment of Robert F. Rautenstrauch as assistant professor in the Department of Aeronautical Engineering at N. C. State College was announced this week by Prof. L. R. Parkinson, head of the department.

A native of Palisade, N. J., Rautenstrauch received his preparatory education at the Horace Mann School for Boys in New York City. He received his Bachelor of Science degree in mechanical engineering at Princeton in 1938 and in February of 1940 he received his master's degree in aeronautical engineering from New York University.

Rautenstrauch was a graduate assistant in engineering mechanics at N. Y. U. for a year ending in the fall of 1939, when he began work with the Summit Aeronautical Corp., Bendix, N. J., where he assisted in the construction of the first plastic-plywood plane. He joined the Vidal Research Corp. in October last year to work on the design of plastic-plywood plane parts and last March he joined the Allied Aviation Corporation of Baltimore, which company he left for the State College position.

Rautenstrauch was one of the first students in the nation to complete CAA flight training started by the Federal government in 1939 as part of the national defense program. His hobby is building model planes.

Lt. Fornes Promoted

Colonel T. W. Brown, professor of Military Science and Tactics, announces he has received the following War Department telegram:

GASTON GRAHAM FORNES ON ACTIVE DUTY. YOUR STATION PROMOTED CAPTAIN INFANTRY RESERVE EFFECTIVE SEPTEMBER 24, 1941.

Adams, Washington, D. C.

Captain Fornes, Assistant Professor Military Science and Tactics, was an Assistant Professor in the Mechanical Engineering Department, State College, until March 9, 1941, when he entered on active service with the Army.

Dormitory Assistants Named for New Year

Thirty-six High Ranking Students Chosen To Act As Counselors and Dormitory Custodians

Selection of 36 student leaders to serve as dormitory assistants at State College during the school year beginning Sept. 22 was announced today by William C. Friday, chief dormitory assistant.

The appointees, all of whom rank high in studies and campus affairs, will serve as counselors to freshmen and other students and as custodians of the dormitories to which they have been assigned.

The dormitory assistants are J. F. Carney, Bethel; Marvin J. Clay, Hester; A. E. Gibson, Greenville; W. L. Corbin, Otto; I. H. Hanf, Scotland Neck; E. L. Bryant and

W. E. Bryant, Wilmington; E. J. Levin, Mount Iron, Minn.; K. L. Phillips, Mayville; Jack Tabcock, Washington, D. C.; E. F. McClain, Washington, Miss.; G. W. Jones, Roxboro; J. D. Martin, Roanoke, Va.; W. W. Wommack, Winston-Salem; Collin McKinn, Louisville; M. D. Martin, Liberty; R. D. Moyce, Woodland; H. C. Cameron, Oxford; H. G. Ferree, High Point; Frank Colenda, Morehead City; F. R. Regan, Lexington; H. C. Ferree, Camden; E. G. Riddick, Coopersville; L. A. Constant, Grafton, Mass.; G. R. Sedberry, Concord; H. L. Miller, Mooreville; L. P. Zachary, Taylorsville; G. E. Patton and M. S. Patton, Franklin; W. M. Sutton, Rocky Mount; I. J. Hetherington, Baltimore, Md.; M. P. Young, Princeton; J. D. Barr and F. A. Owens, Charlotte; Foy Clark, Mount Airy; and C. E. Fitchett, Dunn.

In addition, Prof. W. L. Clevenger of the School of Agriculture will serve as a dormitory assistant.

F.F.A. MEETING
 The F.F.A. will hold its first meeting Monday evening, September 23, at 7 o'clock, 121 Tompkins Hall. An interesting program has been planned. All boys in Ag. Education are urged to attend.
A. N. BONBARRIE,
 F.F.A. Reporter.

NOTICE
 There will be an extremely important meeting of the editorial and business staffs of The Southern Engineer in Room 202, Publications Building, at 7:00 p.m., Monday, September 29. All former staff members are urged to be present. Any students interested in working on either staff during the coming year are cordially invited to attend.
J. L. RANDOLPH, Editor.

All those desiring to have material published in The Technician must type this material, double spaced, before we can consider using it. The editorial staff is too small to permit us to take time in deciphering hieroglyphics.

RAYON RESEARCH

They all cheer Parker's **SUPER-CHARGED Pen** — a Third More Ink — than average of three well-known sac-type pens — due to revolutionary One-Hand Sacless Filler

The Pen with the smart Arrow Military Clip and the Oil-Smooth, Lubricated Point that won't wear scratchy in a lifetime!

No matter what pen you may happen to be shown first, don't make the mistake of making a purchase until you have seen and tried the Parker Vacuumatic — there is nothing else like it.

This is largely due to the Parker Laboratories, staffed by able scientists in physical metallurgy, chemistry, engineering. No other pen-maker we know attempts the research and development that go on daily here.

Today, in the world of science, it is known that Parker achievements mark the march in Pen progress.

Known far and wide as THE JEWELS of PENDOM, Parker Pens and matched Pen and Pencil Sets are the choice of 50 million people.

So remember, don't buy until you try Parker. Parker's Blue Diamond is a Life Guarantee Contract — makes pens so marked cost less than the poorest.

The Parker Pen Co., New York, Chicago, San Francisco. Factories at Jenneville, Wisconsin and Toronto, Canada.

1—Parker's 14 K Gold Point is utterly different, finer-textured and much less brittle than ordinary 14 K Gold.
 2—It is tipped with oil-smooth Osmiridium, developed under the direction of Dr. Robert Pickus, chief Parker metallurgist, former instructor of metallurgy at Yale University.
 3—Parker's One-Hand Sacless Filler — a basically better principle and the easiest of all to operate — makes room for about a third more ink than the average of three well-known sac-type pens, and substantially more than any one of them.
 4—Parker's patented Television barrel lets you SEE when your pen needs refilling.
 5—Parker's smart laminated styling — streamlined Pen and Jet RINGS — an shimmering as velvet — is wholly exclusive.

Parker

 134 1/2 FAYETTEVILLE ST. RALEIGH

Your Last Chance
 to get Walt Disney's **Song Book FREE** with the purchase of a bottle of **PARKER Quink** at only 15¢

HURRY!
 7 1/2 x 9 1/2
 100 LONG HITS

No box tops to send — no waiting — just get this quick drying, pen cleaning ink at your retailer's and receive your Song Book right then and there!

We might have known that such a swell offer would soon exhaust retailers' supplies, but we didn't dream it would happen so fast. If you don't find any left at the first store, try a second. But act without delay, to be safe.

And when you fill your pen with Parker Quink, be sure to try it without a blotter. See how fast it dries ON PAPER — 31¢ quicker than average of 4 others. And see how beautifully your pen works — a Parker or ANY OTHER. For Quink contains a secret agent that dissolves deposits left by pen-clogging inks. That's really why we created Quink — to guard pens from sediment and gum that stop the flow.

Quink will help keep your pen in your hands and out of repair shops.

To induce you to try it, we are giving Disney's Song Book FREE when you buy Quink for 15 cents. Better clip out this announcement as a reminder. It's probably your last chance.

The Parker Pen Company, Janesville, Wisconsin.
