Golden Chain Inducts Outstanding Students In Traditional Ritual

Campus Honor Society To "Tap" Outstanding Juniors In Ceremony Around Memorial Tower

Members of Golden Chain, campus honor society, will induct the twelve outstanding members of the rising senior class in a ceremony to be held on the lawn of Holiday Hall tonight at six o'clock. It was announced yesterday by Reese Sedberry, president of the organization.

Immediately following the traditional tapping ceremony, present members and newly-inducted members will retire to Holiday Hall to elect officers of the organization for the coming school year.

Members will wear the traditional red and white robes for the ceremony, and will march into the center of a ring composed of members of the junior class. The juniors "tapped" will have a gold ring, suspended on a red and white ribbon, placed over them and will then join the members in the center of the ring.

Richard J. Reynolds, prominent alumnus of State College and present mayor of Winston-Salem, will be the guest speaker for the tapping. He will be introduced by Col. J. W. Harrelson, dean of administration.

Membership in Golden Chain is considered one of the highest honors that can be attained by a student at State College. Leadership, character, and citizenship are considered equally when making selections from the junior class membership.

At first it was feared that the picnic planned by the Ag Club would interfere with the tapping ceremony, but arrangements have been made so that juniors in agriculture may catch a bus being run from the campus to the scene of the picnic. Supper will not be served at the picnic until the juniors arrive from the tapping.

It is requested by Sedberry that ALL juniors be in the circle this year rather than the handful that has been present in past years.

4-H Members Attend South Carolina Meet

Nine State College 4-H Club boys attended the Seventh Annual Inter-State Conference of Collegiate 4-H Clubs, held last week-end at Camp Long near Aiken, South Carolina.

Seventy-five 4-H Club members and alumni from the various colleges of North Carolina, South Carolina, and Georgia were attracted to the annual three-day conference, which convened on Friday with a welcome from conference president Ben Leonard of Clemson College. State College delegates included Grady Martin, Edison Keen, Fred Wagoner, Jim Roe, John Wagoner, Denis Loftin, Morrison Trentman, George Wiggins, and Walton Thompson.

Inelle Broadway of Winthrop College was installed as new president of the Inter-collegiate 4-H Club Council, Walton Thompson of N. C. State as first vice president, Dorothy Mann of W.C.U.N.C. as second vice president, Claude Hughes of Clemson as secretary, and Fred Wagoner of N. C. State as recreation leaders.

'Miracles Of The Mind' Demonstrated By Polgar

Several people sat in a "hot seat," others were "drunk," and everyone was astounded by evidence of an enviable memory when Dr. Frans Polgar, internationally-known hypnotist, appeared in Pullen Hall Wednesday night under the auspices of the Public Lectures Committee.

Dr. Polgar took as his theme "Miracles of the Mind," and a truer title could not have been found for the demonstration that took place. The famous hypnotist made the audience sit up when he repeated corresponding numbers of four or five words written on the blackboard when called out from the hall.

The capacity crowd also saw an example of the much-talked-about but seldom witnessed photographic mind. Pages of a current national magazine were distributed at random about the audience, while Dr. Polgar proceeded to give from memory specific details of any given page as the advertisements, cartoons, continued stories, and even details

Joint 'Offense' Ball Tomorrow Night

Hartley To Head New Campus Naval Office

22 Upperclassmen Join Local ASME

Twelve junior and ten sophomore mechanical engineers have entered pledge applications to ASME, President J. Beverly Sibert announced after a meeting on Tuesday.

Induction of new officers took place at the meeting, which was a smoker for all upperclassmen in the M. E. school. Irvine J. Hetherington, incoming president, spoke briefly on his plans for next year. According to a report presented, all mechanical engineering seniors had obtained jobs as early as February. Six men who are in advanced ROTC have been assigned to Wright Field, Dayton, Ohio, where they will be non-flying second lieutenants in the Army Air Corps, engaged in research, testing and development.

Soph Engineers Take Test On Government

All Engineering Sophomores Take Citizenship Examination As Result of New Rule

Engineering sophomores at State College took the first citizenship test recently, complying with a new program designed to assure "a reasonable working knowledge" of the fundamentals of American government for every graduate of the School of Engineering.

Those who failed will be required to pass a regular course in government before they receive a degree in engineering at State College.

Similar tests will be given to sophomores in succeeding classes. Dr. David A. Lockmiller, head of the Department of History and Political Science, was in charge of the examination. Since last fall he has presented a series of questions and answers in THE TECHNICIAN to familiarize students with the type of questions asked.

When the program was adopted last summer, Dean Blake R. Van Leer, head of the School of Engineering, commented: "I believe this is one of the most progressive and far-reaching steps we have taken in the school of Engineering in a good while."

With a broader knowledge of their government, it is hoped engineering graduates will be able to assume responsible positions of civic leadership after they leave college.

Chemical Engineers Hold Picnic Tuesday

The State College chapter of the American Institute of Chemical Engineers took time out from their work Tuesday night to attend a picnic sponsored by the juniors of the organization.

At six-thirty, the members and their dates gathered at the Chemical Engineering building and were transported to the Tar Heel Club, site of the picnic, in cars and trucks.

The members of the Chemical Engineering staff, Dr. Randolph Dr. Van Noy, Dr. Dooly, Prof. Sealey, Prof. Bain, and their wives were the chaperones for the society's picnic.

not noticed by the majority of spectators.

Even when Dr. Polgar's check for the performance was hidden in the audience while the doctor was out of the room, the performer succeeded in finding it by obeying "the thought waves of the person giving the commands."

By far the most entertaining feature of the performance, however, was the demonstration of hypnosis. When given a glass of water by Dr. Polgar, the volunteers all became convincingly drunk (Editor's note: No need for further investigation, Dean Lloyd). It became evident that the hypnotist could be a great help on weekends.

Dr. Polgar studied at the University of Budapest. He has also worked in the Budapest Polytechnic in the psychiatric and surgical department. The speaker has also had rigorous experience in criminology with the Hungarian Secret Service.

Former Head of English Department Now Taking Training For New Post; Principal State Office

A Navy branch office for officer procurement in North Carolina will be established at State College April 29 with Lieutenant (jg) Lodwick Hartley in charge and assisted by another commissioned officer and four enlisted men.

The announcement was made this week by Dr. H. A. Fisher, head of the mathematics department and World War naval officer, who serves as contact man between the Navy and the campus.

Until last week, when he was commissioned, Lieut. Hartley was head of the English Department at State College. He is now at the Charleston Navy base for training for his new duties, which he will perform while on leave from the college.

The State College branch office for officer procurement will be the principal office of its kind in North Carolina, Dr. Fisher said. At the beginning, applicants for commissions will not be taken from school until they graduate. However, juniors may be put on active duty during the summer preceding graduation at the regular pay for enlistees.

Dr. Fisher said State College was selected for the branch office because of its central location in relation to other schools and because

Students To Donate Blood For War Needs

Women Needed In Engineering Courses

Ruggles Issues Appeal For Women In New Defense Training Courses

An urgent appeal for women to enroll in a proposed new series of Engineering, Science and Management Defense Training Courses soon to be begun has been issued by Director Edward W. Ruggles of the State College Extension Division.

Pointing out that war industries are making an increasing number of calls for technically trained women, Director Ruggles said: "As women must perform jobs in time of war that are usually performed by men, they are urged to enroll in any course in which they can meet the qualifications for admission."

The new series of short courses, lasting from 10 to 24 weeks, will be presented at State College, the Woman's College in Greensboro, the University at Chapel Hill, Wake Forest College, and in other communities where sufficient numbers of prospective students apply.

The minimum educational requirement for enrollment is high school graduation or its equivalent in practical experience. State College, a leader in the training program since it began in January of 1941, has turned out hundreds of technically trained workers for defense and war production, and demands for more workers are continually increasing.

Next Entertainment Announced By Hinkle

Dr. Hinkle, Chairman of the Public Lectures Committee, announced that the next attraction on the entertainment series will be a symphony concert in Pullen Hall at 4:30 on Sunday, May 3, at State College's observance of National Music Week. For this concert the State College Orchestra will be augmented by outstanding musicians from Meredith, St. Mary's, U. N. C. and Duke, to round out a well-balanced symphonic group. The program will include Mozart's G minor Symphony, Plovot's Stradella Overture, Ernest Williams' new tone poem "America" and Johann Strauss' "Emperor" Waltzes. Christian Kutschinski will be the conductor.

Forestry Students Buy Defense Bond

Members of the Forestry Club bought a \$350 Defense Bond recently, with money that had been saved over a period of years. The members of the club voted unanimously in favor of spending the money for the bond and to let a proposed cabin wait until at least after the war. Professor G. K. Slocum, faculty adviser of the group; Jim Etheridge, acting president; and Jim Maynard, treasurer, were the buyers of the bond.

The bond is made out to the Forestry Club, N. C. State College and is payable only when a majority decision rules with the approval of the Faculty Adviser. The club intends to leave the bond untouched at least through the duration of the war.

Interfrat Conference Opened By Dr. Potat

Three-day Undergraduate Conference Represented By Nine Southern States

Obligations of fraternities toward society in general were discussed at State College last week by Dr. Hubert Potat of Wake Forest, speaking on the opening program of a three-day Undergraduate Interfraternity Conference for the Southern region of nine states.

Dr. Potat said some criticism of social fraternities as being flippant, frivolous and extravagant was justified, while much of it was not. It is the duty of fraternities to conduct their affairs so such criticism can not be justified, he advised. An outline of the history of organized groups and the reasons for fraternities were presented by Dr. Potat.

Delegates registered at the College Y. C. A. during the afternoon and were welcomed to State College by Col. J. W. Harrelson, dean of administration.

The conference concluded Saturday afternoon following a summary by State College's Dean of Students, E. L. Cloyd and a fratemon, Dean Cloyd is director of the Southern region of the National Interfraternity Conference.

Academy of Science Meets In Greensboro

State Faculty Members To Participate In 41st Annual Meeting of Academy

A large number of State College faculty members and research specialists will participate in the program of the 41st annual meeting of the North Carolina Academy of Science and the spring meeting of the North Carolina Section of the American Chemical Society at the Woman's College in Greensboro today and tomorrow.

Dr. Ivan D. Jones, biochemist in the horticulture department, is chairman of the chemical society section and will preside over its meeting tomorrow. Assisting in the Academy program, Prof. C. Howard Satterfield of the chemistry department will serve as secretary for the biochemistry and physiology group; Dr. J. L. Stuckey, head of the Department of Geological Engineering, will preside over the geology section; and Dr. F. E. McCutcheon and Dr. Z. P. Metcalf of the Zoology Department will serve as chairman and secretary respectively of the zoology section, in which Dr. McCutcheon also will present a paper.

Women Requested By Textile Industries

Young women finishing colleges this spring and looking for an opportunity to prepare for service in the war emergency should consider the textile industry, Dr. Thomas Nelson, dean of the Textile School at State College, declared yesterday.

"We have had a number of requests for young women who have taken textile courses and there is an excellent opportunity for them in this industry," Dean Nelson said. He explained that graduates of academic institutions can complete the requirements for a textile degree at State College in one and one-half to two years.

Engineers And Officers Combine Annual Dances

Tomorrow night in the Municipal auditorium, the first combined Engineers' Brawl and Officers' Club ball will be given with Bobby Byrne and his Orchestra furnishing the rhythm. The dance replaces the annual dances of the two organizations and will be presented as an "Offense Ball."

During the tea dance to be given Saturday afternoon, the annual ritual of the Order of Saint Pat will be followed and at this time outstanding seniors in the school of engineering will be inducted into the order.

Room Reservations To Be Accepted Monday

Rising Seniors To Get First Choice of Next Year's Dormitory Room

T. T. Wellons, Superintendent of Dormitories, has announced that reservation of dormitory rooms for the coming year will get underway Monday, May 4, when rising seniors will have the opportunity of applying for their choice of rooms to house them during 1942-43.

The seniors will be able to contact Mr. Wellons at any time after May 4 and before noon, May 9, but since the administration has ruled that all applications will be considered in the order received, Mr. Wellons urges all students to make their reservations as early as possible.

On Monday, May 11, rising juniors can begin their application and will have through noon, May 16, to file their choices of rooms and roommates. The present freshman class has been allotted from Monday, May 18, until noon on Saturday, May 22, as the period when the upcoming sophomores can pick their rooms and roommates.

Housing plans now provide that freshmen will continue to room in the order received, Mr. Wellons says. The present freshman class has been allotted from Monday, May 18, until noon on Saturday, May 22, as the period when the upcoming sophomores can pick their rooms and roommates.

Tom Turner Elected To Head Senior Class

New officers for the rising senior class were elected at the last meeting of the junior class.

For president of the next year seniors, Tom Turner, junior in General Engineering from Washington, D. C., defeated William Wommack, junior in Chemical Engineering from Winston-Salem, N. C., by the close margin of only 19 votes.

Jerry Stockard, junior in General Engineering from Raleigh was elected vice president of the class, defeating Paul Cummings, mechanical Engineer from Phoenix, N. Y., and Moyle Williams, junior in agriculture from Burston of Secretary-Treasurer over Burton Sides, textile junior from Winston-Salem.

In addition to the officers of the class, the senior representatives on the Student Council were elected from each of the various schools. Those elected with the schools they will represent are: Lawrence Holding of Raleigh from the School of Engineering; and Claude Dawson, of Cramerton, N. C., from the Textile School.

Sigma Xi Sponsors Talk Last Night By Dr. Marks

Main sources of power immediately and practically available were discussed and appraised at State College last night by Dr. Lionel S. Marks, professor emeritus of mechanical engineering at Harvard University, who spoke under auspices of the State College Club of the Society of Sigma Xi.

Solar energy is the only important source of power, Prof. Marks stated. It is the cause of winds, of rain and of plant growth. The solar energy of earlier ages, he explained, is stored in coal, petroleum and natural gas, while the solar energy of recent times is stored in vegetable and animal matter and in water above sea level.

Recent developments in power generation described by Dr. Marks include a large power windmill, a more efficient water turbine, new alloys that withstanding higher temperatures and thus permit higher steam temperatures, the mercury-steam turbine, the high-compression airplane motor with its superchargers, and the gas turbine. The Diesel engine alone, he remarked, has shown no important improvement in thermal efficiency

The Offense Ball is being held in the Memorial Auditorium instead of the Frank Thompson Gymnasium this year, in order to bring the event closer to the general public, and so that students from both the Engineering School and the Officers' Club may be admitted. The gymnasium will not hold the number of students eligible to attend the dance.

The general public will be admitted to the balcony as spectators. These spectators tickets are on sale at Thiem's, and the proceeds from the sale of such tickets will be used to buy United States War Savings Bonds and Stamps.

Officially, and as "This year's young man of music," Byrne comes to the campus with a string of successes behind him, the likes of which any of the top name-dands in the country would be proud of. When he was booked at the Cafe

Tickets for ALL engineers may be secured from the heads of their respective departments upon presentation of their picture registration cards from 2-5 Friday and 9-12 Saturday morning.

Tickets for the remainder of the Officers may be secured at the Publications Building Friday 2-5 or Saturday 9-12.

Basic military students may secure their bids from the Agromeek Office at the same time as the Officers. Registration cards with pictures must be presented by everyone. Black and white tickets will be \$2.85, while spectator tickets may be purchased by anyone for \$.55 for the afternoon performance and for \$.85 for the evening dance.

Route of New York's Hotel Pennsylvania for six weeks last year, his tremendous popularity brought him a hold-over contract for ten more weeks with four NBC broadcasts weekly! At Frank Dalley's Meadowbrook in Cedar Grove, New Jersey, he broke repeat engagement records by being booked for three return engagements in six months. Among Byrne's other engagements are the Glen Island Casino where he made his debut as an orchestra leader, the Strand Theatre in New York, Hotel Roosevelt in New Orleans, a 13-week contract for the Raleigh Cigarette program on the NBC, and a smashing success at the Valley Dale in Columbus, Ohio.

Bobby recently started a new Southern tour after spending quite a while at the Hotel Sherman in Chicago. While at the Sherman, Bobby's music thrilled the nation again over the NBC network. His arrangement of "Danny Boy," his theme, is hailed as tops in sweet music. Among his files are many more first-rate orchestration, most

(Continued on Page 4)

In the last 30 years, but he termed it still the most efficient small or medium-sized engine.

The first large power windmill is being put into operation on a mountain summit 2,000 feet above sea level in Vermont. Dr. Marks related. Its capacity is 1,000 kilowatts—over 1,300 horsepower. Instead of the usual "wheel," it has but two blades like an airplane propeller, designed according to aerodynamic theory. These blades, 16 feet in maximum width, sweep out a circle 175 feet in diameter. They have a variable pitch controlled by a governor which maintains a constant speed of 30 revolutions per minute for wind velocities from 15 to 70 miles per hour.

Perhaps the most remarkable achievement of the power engineer, Dr. Marks said, is the development of the modern airplane engine with its exacting demands of maximum reliability, economy, light weight and compactness.

Dr. B. W. Wells, president of the Sigma Xi Club, presided over the meeting, which was open to the public.

Entered as second-class matter, February 10, 1920, at the post office at Raleigh, North Carolina, under the Act of March 3, 1879.

Act Now . . .

The Student Council recently inaugurated one of the most worth while plans it has ever sponsored when it opened its drive to sign up students to donate a pint of blood for the Plasma Bank for civilian and military victims of the war. This offers an opportunity for every student to help in the present national crisis, even though his part will be very small in comparison with that played by the boys in the front lines.

The Student Council has set a goal of at least several hundred who can donate their share of blood. And we should be able to pass this goal easily, with 1,500 physically sound students in our R.O.T.C. alone.

Any student wishing to help make this program a success should see Dud Robbins or some other member of the Council immediately. It won't hurt you. . . . And it certainly may save someone's life.

Aid To Morale

During recent days the cadet corps has been undergoing tactical maneuvers in Pullen Park. Although the noon drill periods are all too short for any extensive operations, the maneuvers have already imbued the student officers and men with a new morale, with a new spirit of action under fire.

To a non-military student, who can feel this spirit spreading out from every man in the corps, these operations are very impressive. They indicate live, hard-working officers in charge of our military unit, and they denote better training for our army's future officers.

B. P.

Thanks . . .

THE TECHNICIAN wishes to take this opportunity to extend a vote of appreciation to the Faculty Council for the action they took last Tuesday afternoon that will permit the graduating seniors in military to leave immediately after the graduation ceremony. At most, the action will mean only a few days difference in the college career of the majority of seniors. . . . A few days they can well use for straightening out their affairs before reporting for duty with the Army of the United States.

More On Maestro BOBBY BYRNE . . .

By JACK THURNER
Air Mail To Technician
Lake City, Fla.—From the city of lakes we want to tell you some more about that swell Bobby Byrne band which is going to give out for the Engineers Officers Club Hop. Bobby is the youngest big-time leader in the band business while the musicians in his band also run in the low twenties. Byrne is from Detroit, where his father is a music teacher in the local high schools. At about 15 years of age Bobby asked the famous Dorsey brothers for a tryout, but at the time there was a man named Tommy Dorsey playing the slip horn, so he was sent home with the caution not to forget the big time. When Tommy and Jimmy had their many-voiced breakup, Jimmy wired Detroit for that sweet sliphorn man.

ACP Says

(By Associated Collegiate Press)

A cow chained in the living room of Phi Kappa Pi fraternity house at Belmont (Wia) College surprised the housemother when she came down stairs on a recent morning.

A note attached to one of the cow's horns said: "This little cow walks in her sleep. If she walks into your house, scold her and return her to the south side of town."

Dormitory students at Newcomb College, New Orleans, have devised a type of "sweetheart insurance" which, they believe, will eliminate rivals in affairs of the heart.

Should a student suddenly become unpopular and wish to no avail for phone calls from her "sweets" she can consult the dormitory "date book."

There, in black and white, she may discover the trouble. For in that book are recorded all dates of dormitory girls, with the exact time of departure and return and the name of the escort.

Failure to sign out, or errors in signing, are taken up by the Campus Honor society and delinquents are confined to the campus for several days.

There is a way to beat the game, however. If one girl's boy friend takes a fancy to another of the students, the "chiselers" can have a strolling date on the large campus, in accordance with regulations, without recording the meeting.

Austin, Texas—(ACP)—Art is paying its way—for 29 members of the University of Texas radio musical unit.

These students are holding "work fellowships" to compensate them for the ten hours weekly that they must rehearse and appear on the air to furnish musical accompaniment and background for university-sponsored radio programs.

A \$5,000 fund for this purpose was recently given to the university's Radio House, campus studio, by Karl Hoblitzelle of Dallas.

The fellowship fund, available for the current year through July 15, permits paying 12 chorus members and 16 orchestra members and a music copyist \$15.60 a month each.

Columbia, Mo.—(ACP)—Despite the recent prominence of the imperative bugle and the swing-blatt trumpet, the delicate harp is coming into its own. Students at Stephens College have evidenced such interest in the ancient instrument that they now comprise the largest harp class in the country's educational institutions.

Ames, Iowa—(ACP)—College students are taking their work more seriously if use of the Iowa State College library is any criterion.

Dr. Charles H. Brown, college librarian and president of the American Library Association, reports that while winter term enrollment at Iowa State was down 8 per cent, use of the library was 25 per cent heavier than ever before.

Lake Placid, N. Y.—(ACP)—The earnings of a backwoods guide will finance Paul Smith's College of Art and Science when it opens in the heart of the Adirondack wilderness next fall.

The endowment of approximately \$2,000,000 comes from the estate of the late Paul Smith, who amassed a fortune as host to city hunters and vacationers.

The institution will be developed under leadership of Earl C. MacArthur, president, who left the faculty of exclusive Peddie School in New Jersey to organize the college in the mountains where he was born.

A highbrow is a person educated beyond his intelligence. Penn Chronicle.

By the way, in these days of propaganda, it is advisable never to believe anything until it has been officially denied. Quaker Campus.

CAPITAL to CAMPUS

ACP's Jay Richter Reports from Washington

JOBS . . .

Washington—(ACP)—The pressure of war has prompted the Federal Civil Service Commission to offer its "Junior Professional Assistant" examination to college people for the second time this year.

In previous years it has been offered only once—in January. Also for the first time, it is open to every college senior or graduate, regardless of his major. Each applicant will take the same two-hour examination, designed to test his general knowledge and adaptability. Openings exist in Washington and in "the field."

More than 3,000,000 workers have been trained by the nation's

schools in special technical lines to serve the armed forces and war industries.

Since the report two weeks ago that 9,500 of Norway's 10,500 teachers had resigned in protest against Nazification of the Norse schools, 2,000 Norwegian schoolmasters have been arrested by the Nazis. Almost all Norwegian schools are closed.

Student self-help under NYA may become a war casualty unless it can prove itself a war-time necessity.

When the President asks Congress soon for funds to operate NYA and CCC during the coming fiscal year, he will probably suggest that the war functions of the two agencies be merged, and that their peace-time functions be scrapped.

Austin, Texas—(ACP)—Art is paying its way—for 29 members of the University of Texas radio musical unit.

This, Then, Is Times Square

Sudden thought: the Japanese are suffering from a brand-new, terrible ailment: MacArthuritis. . . . Radio Row is cherishing the amazing success of the "Spotlight Bands" shows, many of which have been originated from college dances. Although on the air only three and one-half months, "Spotlight Bands" placed sixth in the New York World-Telegram poll (of 350 radio editors) among the one-fourth hour programs. This, mind you, in competition with programs such as "Easy Aces," "Amos 'n' Andy" and "Vic and Sade," which have been on the air for an average of seven years each. . . . It's astounding, the many remarkable cases of stars who survived natural physical handicaps or temporary misfortunes and managed later to step to the front rank. You know, of course, of Connie Boswell, who

battled the paralysis that resulted from a fall in infancy, and of Bing Crosby, whose throat tumor, instead of putting a stop to his career, gave his voice a unique quality that made it world-famous. But you did not know that Arthur Tracy, the Street Singer, once lost his voice for seven months; or that young Jerry Wayne, stricken by infantile paralysis of the throat but managed to win out? Barry Wood still shudders when he recalls the accident he suffered while playing water-polo at Yale which almost cost him his career. Listening to Mugsy Spanier's theme song, "Relaxin' at the Touro," reminded us he spent 18 months in that New Orleans hospital. Les Hite only recently took up his sax again, after the car accident which stopped him from playing for four years. Oh, yes, Alec Templeton and Art

Aatum are both grand artists, too, though blind. And who can ever forget brave Chick Webb, who got to the top, in spite of his disease, which finally killed him? And, yes, Wingy Manone is a splendid example of an artist who proves it doesn't take two hands to become a good musician. . . . At the RKO Palace, Benny Goodman hails us to tell about his new baritone sax star, Art Carlson, who, last week, again won a prize for his new exhibit of colored photographs. This doesn't mean a thing, unless you know that Raylston is color-blind. . . . From Manhattan to Charleston; from Florida to Seattle, people are traveling more at the behest of Secretary of the Interior Harold L. Ickes, who inspired the United States Travel Bureau slogan: "Travel strengthens America—it builds the nation's health, wealth, and unity!"

Time Marches On

Several years ago this columnist was looked on with horror because he mentioned that Bunny Berigan's band was a failure and why. In a recent issue of the Maryland Diamondback in Duke Jacobs "Bandwagon" column appeared this article.

"Cancel the Flowers." . . . Bunny Berigan, whose trumpet work once provided us many musical thrills, has just completed work on the "Young Man with a Horn" movie and is supposedly sprinting (in Bunny's case staggering might be more appropriate) back into the "name" class. We're glad to hear that B. B.'s popularity isn't dead. Moreover, we sincerely hope that Berigan means business this time and has learned to stay away from the bewildering beverages which had him singing, "When I See an

Elephant Fly." Perhaps this time "I Can't Get Started Berigan" has discovered that the kind of alcohol he used was meant for starting automobiles and not men. From now on when we hear of Bunny Berigan's "terrific toots," we hope that reference is made to his trumpet work and not his drinking escapades.

Choo Choo
Some refugee from a statistics lab figured that if the grooves on the million records of Glenn Miller's " Chattanooga Choo Choo " were straightened out and laid end-to-end, 123,106 miles of track would have been built for the "Choo Choo." It would circle the world five times. And predicting that each record has been played a hundred times the "Tennessee Traveler" has now crossed 12,310,600 miles. Incidentally, Miller has been made Honorary Mayor of Chattanooga.

GLEANINGS

Once again the Junior-Senior Prom has come and gone, and the band, though not so well known in these parts (ask Grosse about that), was mighty good. According to Grayden Paul, the chief difficulty was the shortage of rings for the ring ceremony. He tells of one ring that saw action four times before the dance was over!

Those of you who didn't go to see Doctor Polgar in Pullen Hall Wednesday night missed quite a show. The good Doctor was a master at the art of mass hypnotism, and some of the things he uncovered about our fine upstanding students were, to put it rather mildly, embarrassing.

When Polgar offered a group of hypnotized students some water, and told them that it was 90 proof, Dick Edkins could hardly get his hands on it quickly enough. And you wouldn't think a Sig Ep could get drunk off of water the way he did. The Doctor also gave the boys pieces of paper, and told them that when he counted to ten, the paper would be too hot to hold. Evidently Dick has extremely sensitive hands, because on the count of eight, he couldn't hold on any longer, and from the expression on his face, that hot paper must have done some damage.

Howard Massey was another of the guinea pigs that were martyrs for Polgar's experiments. Massey, who still doesn't know how he ever got past freshman algebra, promptly multiplied eighty-nine by twelve in his head, when the Doctor told him to. Maybe Professor Fisher ought to get Polgar in the math department to help out those fellows that just don't respond.

And I imagine it was rather disconcerting, too, to wake up from a hypnotic spell only to find yourself walking around with one shoe in your hands trying to sell it because you need money. Just another of Polgar's tricks.

I'll probably catch it from the editor for what I'm about to say, because the policy of saying anything bad about another campus publication is against his wishes.

When The Wataugan blossomed forth week before last with their two-page spread of advertisements so appropriately called "The Students' Blotter," we all thought they were pretty good, but even better was the advertisement just inside the back cover that read "Easter corsages by Fallons are distinctive—order early!" No doubt their corsages are distinctive (who am I to say otherwise?), but just the same, Easter is almost a year away, and even Fallons can't make a corsage that will last that long.

Now to get serious for a minute about The Wataugan. According to the Publications Board, our humor magazine is supposed to be published twice a term. In the Fall term they barely got under the wire by distributing the second issue just as exams got under way. But in the Winter term, only one copy reached our hands, and the second, although dated February, just came out during the second week in April. It makes us wonder just when (if ever) the two issues we are supposed to get this term will come out. We have to pay a fee on registration day that covers The Wataugan and it seems that we ought to get something in return.

The Technician comes out on time every Friday during the regular school year. Why can't The Wataugan staff, when it is at least three times as large as ours, put out two magazines per term?

Seen at the A.L.C.H.E. picnic Tuesday night: Cham Laughlin heading for the lake early and coming back late; too late, in fact, to get any punch. . . . Tommy Hughes running around feeling everybody's hip pocket (I wonder what for?) . . . Max Sayah and Ray Marks monopolizing the boat, and not because they like rowing . . . Frank Wooten trying to get his date lost in the woods. Boy, what a picnic!

Quite a lot has been said, and more written, about the combined Offense Ball this week-end. From all advance reports, the band is tops, and our praisings go to the committee that is handling the booking. You've done a swell job.

JIM MORGAN.

On Alert... the Task Force of the Telephone army!

Wherever the call, a mechanized army of more than 27,000 Bell telephone trucks stands ready. Each has a skilled crew . . . armed with hand tools and power equipment designed especially for the job to be done. They are ready and efficient and can be mobilized anywhere, anytime.

This is just one way the Bell System is prepared to keep lines open and ready for war-time service — no matter when or where the test may come.

Hickman Takes Thirty To Carolina AAU Meet Tomorrow

SPOT SHOTS

By Bob Pomeranz

The word hasn't yet spread to the far reaches of the country, but all we State students know that Mike Andrews is without a doubt the most terrific track and field performer in these parts.

Sure, Skorer of Duke might beat him in the 100, or Luch and Gastig of Duke might do better in the shot put, or anyone of several men in the conference may beat him out in their events, but Mike is a veritable powerhouse when it comes to the track meet as a whole. He takes part in from 5 to 8 events.

For instance, at the Virginia Tech meet on Wednesday, State lost simply because the other team made more points than Andrews did.

But, speaking seriously, you can get a clear idea of what a great performer Mike really is when you understand the feeling of the track team for him. There isn't a fellow on the squad who doesn't idolize the handsome boy, and considering the publicity he draws, he must really be great.

Track Takes Boost
Track as a whole has taken a great boost on the campus since it was returned as an intercollegiate sport in 1939 after an absence of several years. The Track Stadium is regarded as one of the best in the South.

Coach Green's Netters Take Year's 1st Win; Crush Elon Bears, 5-2

Coach Ralph Green's tennis team racked up their first court win of the season here on Tuesday, defeating the Elon Bears, 5-2.

In the feature battle of the afternoon, Captain Frank Owens handed Elon's Bill Johnston a 5-7, 6-4, 6-2 defeat. It was Owen's first win of the year.

The only Tech losses were suffered in the number 2 singles and in the number one doubles.

The summary: Frank Owens (S) defeated Bill Johnston (E), 5-7, 6-4, 6-2; Jimmy Lightbourne (E) defeated Emmet Shoffner (S), 6-3, 6-4; Elliot Winston (S) defeated John Barney (E), 1-6, 6-4, 7-5; Arnold Katterman (S) defeated Bob Lee (E), 6-2, 7-5; and George Barbee (S) defeated Bob Lee (E), 7-5, 6-2.

In doubles play, Johnston and Lightbourne defeated Owens and Barbee, 4-6, 6-1, 7-5; and Shoffner and Winston defeated Barney and Johnston, 6-1, 6-3.

Next match for the State netters will be tomorrow when they enter into Duke University's team on the local courts. The matches will begin at two o'clock.

Next week the Green Wave meets Davidson here on Wednesday, and then moves over to Elon College for a return match with the Bears.

Big crowds have viewed recent meets, and they haven't been disappointed in the performance of the Hickmen. Many excellent performers are in the freshmen ranks, and next year should be a great big one on the track and field.

Win AAU Meet?
At the AAU meet tomorrow, every indication points to a possible victory for the Techs. Look over the list of entries in the story on this page, and with the scoring 5, 3, 2, 1 for the first four places add up what you think we could score tomorrow. It should take between 60 and 70 points to finish on top of the heap.

Disa and Data

J. C. Ritchie insists that the State freshmen did beat Richmond, although *THIS TECHNICIAN* ignored the happening last week. It's true—the score was 68-47. . . Rumor has it that Doc Newton will shake up his team next week to produce victories over Wake Forest and Duke.

There's a possibility that the Southern Conference track meet may be held in the State Stadium next year, if Coach Hickman wants it. . . Things just don't seem the same at athletic events without Coach Nig Waller's dry comments.

Mike Andrews Paces Terrors Track Squad

Paced by handsome Mike Andrews, Coach Herman Hickman's varsity track team handed a 95-30 licking to the North State conference champions, Catawba, last Saturday. On Wednesday, the Hickmen lost to Virginia Tech, 78-48.

The sophomore star won the 100, 220, shot put, and discus throw in both meets; he won the broad jump against Va. Tech, and placed second in the Catawba meet; and came in third in the javelin against Catawba.

Last Saturday, Bill Brewer and Ed Jones tied for first in the broad jump. Boyette won the pole vault; Peyton Holloman took the 440. Ed Jones also won the high hurdles. Ray Small won the 2 mile, and Nevada Lee topped the broad jump. Second places were taken by: McKay, discus; J. Jones, 440; Fleming, mile and 880; Norman Pease, 100; Howard Maddry, 2 mile; Stiles, javelin; Dick Mahone, low and high hurdles. Third places by: Ott, shot put; Coble, mile; Holloman, 220; and Brewer, broad jump.

Against Virginia Tech, Andrews took the only clear firsts, but co-captain Jimmy McDougal tied for first in the high jump. Second places by: Holloman, 440; Ed Jones, high hurdles; Nevada Lee,

Techs Drop Tough One To Blue Dukes, 5-4; Ray Hardee Homers

Hits By Constant And Stewart Produce Tech Runs; Hardee Spaces 10 Hits

Duke Park, Durham, April 23.—Doc Newton's Techs dropped a heartbreaker here this afternoon to Jack Coombs' Duke Blue Devils by a 5-4 score. Ray Hardee, who went the route for the Techs, deserved a better fate. However, for the first time this season the State crew was not able to produce the hits which might have meant victory.

Pitcher Ray slammed a 320-foot home run in the top of the third to temporarily knot the count at 1-1 all. In the third, Duke went into a 4-1 lead.

Newton's club was right back in the fifth to tie the score. A walk, a hit batsman, and two doubles—by Captain Benny Constant and Earl Stewart—gave the Techs their runs.

In the eighth inning, Byam singled to center, went to third on Scott's hard line through short, and scored on Burns' infield out. That proved to be the winning margin for the Blue Devils.

Rugged Ray, who has lost 5-4 games to Wake Forest and Carolina, was touched for 10 blows by Duke, but kept them fairly well scattered. He fanned five, passed only two.

broad jump; McDougal, low hurdles; and Boyette, pole vault tie. Third places by: Fleming, mile; Joe Jones, 440; Bill Lambe, 100; Ben Coble, 880; and Norman Pease, 220.

SLUGGING HARD Gracie Wheeler has been a powerful player at bat and at field for Coach Newton's Techs. He has connected for 14 hits in 29 chances, for a .483 average, and has an excellent defensive record at his third base post.

Wake Forest, Duke On Tech Slate This Week

Sports Week

Saturday: Both frosh and varsity tracksters will be in Chapel Hill to partake in the annual Carolina AAU Meet, which starts at 3 p.m.

The varsity and frosh tennis teams play host to the Duke netters on the State courts starting at 2 p.m.

Bob Warren's frosh baseballers play a return engagement with the Carolina Tar Heels on Freshman Field, starting at 2:30 p.m.

Monday: Coach Newton's varsity nine will be seeking revenge for the earlier defeat by the Deacons in Wake Forest.

Wednesday: The frosh diamond squad meets Louisburg College in Freshman Field starting at 3:30 p.m.

The varsity netters meet Davidson here starting at 3:30 p.m., and the freshmen team plays Carolina in Chapel Hill.

Thursday: The Duke nine appears against the Tech crew on Freshman Field starting at 4 p.m.

Varsity tennis team tangles with Elon College on the opponents' courts.

Peanut Doak Probably To Get Mound Assignment For Deacon Game; Wheeler Leading Hitter

Return engagements with two tough Southern Conference foes are on tap for Coach Doc Newton's varsity baseball team next week.

On Monday the Techs meet the Demon Deacons in Wake Forest, and on Thursdays the Techs play host to the Duke nine. The Newtonmen dropped a tough one to the Deacs three weeks ago when a last inning drive ended one run short of a tie; yesterday they dropped a 5-4 heartbreaker to the Durham lads.

Peanut Doak will probably get the mound assignment in the Wake Forest game, although Doc Newton feels that Ray Hardee could keep the Deacs under control. Both men will see action during the week's activities although the exact starting order probably won't be decided until game time.

Hits have continued to rattle off the Tech bats, and although the win-loss record stands all even at 4-4, the States have displayed considerable power in every encounter. All four of those losses were by one run margins, but the wins were chalked up with 1, 6, 9, and 16 run margins.

Team Batting .314
Warren Bailey, Tom Turner, Gracie Wheeler, Earl Stewart and Hoot Gibson—all regulars—are hitting above a .400 clip. Team batting as a whole is .314, which is first rate in any league. The Techs have gotten 94 hits in 7 games; better than a 13 hit average.

Some experimenting is going on in the infield. Jack Singer and Josh Mewborn have been battling for the regular shortstop berth all season, but in recent games Russ Stevens

Mike Andrews Expected To Be Leading Scorer

Chief Opposition Expected From Carolina, Duke, and Davidson in Senior Loop

A squad of 14 varsity men and 16 freshmen head for Chapel Hill tomorrow to represent State at the annual Carolinas AAU track and field meet.

Leading college, prep and high school athletes from this State and possibly from South Carolina will compete. College freshmen and prep and high school athletes will meet in the junior division. Preliminary heats will get underway at 3 o'clock.

Coach Herman Hickman's charges will be seeking to win the senior championship, after placing second last year. Carolina, Duke and Davidson will furnish the strongest opposition. In the junior division, State's frosh will find fast going from these three and Belmont Abbey.

Andrews Potent
Mike Andrews is potentially the high scorer of the meet. Several times this season he has scored 25 points in one meet, and tomorrow he is again entered in five events, besides running on the 440 and mile relay teams.

Altogether the 14 varsity men have been entered 33 times. Peyton Holloman, winner last year of the 440, will seek to hold his championship in that event, and in addition will run in the 220-yd. dash and both relay races. Norman Pease and Co-Captain Bill Lambe, other dash specialists, are scheduled to run in the 100, 220 and the 440 relay.

In the junior division, assistant Coach Ike Hanff's 16 boys have been entered 30 times. Jim Elue, Hanff's star pole vault protege, leaped 11 feet 9 inches into the air last week, and has an excellent chance of winning the AAU crown tomorrow.

Bob Phillips, speedy dash man, J. C. Ritchie, Ed Thurman, and R. L. Paramore will run the sprint relay besides going in their individual running events.

Senior Entries

Mike Andrews—100, 220, shot put, discus, broad jump, 440 and mile relay; Bill Brewer—high jump and broad jump; Ben Coble—880, mile relay; Peyton Holloman—440, 220, 440 and mile relay; Edgar Jones—120 high hurdles, mile relay; Joe Jones—440, mile relay; Bill Lambe—100, 220, 440 relay; Nevada Lee—broad jump; Jim McDougal—high jump; 220 low hurdle; R. W. McKay—discus; Howard Maddry—2 mile; Dick Mahone—120 high hurdle; Norman Pease—100, 220, 440 relay; and Ray Small—2 mile.

Frosh Entries

Wynfred Barrow—discus; Jim Blue—pole vault; Rene Burnett—440; J. E. Fowler—broad jump, high jump; Ed Jursik—discus; J. G. McGowan—mile; T. J. Meyer—broad jump, 220 low hurdles; R. L. Paramore—100, 220, 440 relay; C. S. Patterson—shot put, discus.

R. M. Phillips—100, 220, 440 relay; Joe Pisano—shot put, discus; J. C. Ritchie—120 high hurdles, 220 low hurdles, 440 relay; B. A. Skinner—440, 880; Ira Strauss—high jump, pole vault; E. B. Thurman—100, 220, 220 low hurdles, 440 relay; and George R. Trotter—high jump.

has also seen action, with Singer going to second once.

Four games are on the schedule to be played after the May 9 graduation, and there is a possibility that several men will be lost. Stewart, Wheeler, and Captain Len Constant are seniors and may leave before the season ends.

Volleyball is really finding its place this term with most of the different teams putting all the vigor they can possibly muster into their games.

Sig Nu decidedly outplayed ALT with Sig Nu's A. G. Rembert and ALT's Graham doing some outstanding playing. As was expected, the Sig Eps defeated the Del Sig. Outstanding players in this game were Sig Eps' Boger and Peele. W. Jayne and A. Seifart led the Phi K.T.'s to a victory over the Kap Sig's in a somewhat one-sided game. This week's forfeit team was that of AKPI who gave Lam Chi a victory by that route.

The dormitory teams have also been active this week. The freshmen of 3rd 8th defeated the upperclassmen of 6th in a very exciting game. Nichol of 3rd 8th and Vera Arsdale of 6th were the outstanding men of the game. Tabscott of 3rd 7th led his team to a victory over 1st 8th, and 2nd A' fell before 3rd C's rugged team. Last of all was the game between 9th and 10th dormitories in which 9th emerged the victors.

Softball Sked Light

The softball schedule this week was rather a light one although there were some interesting games played. Phi Kappa Tau beat Phi Kappa, 10-4. The N. C. S. Chapter of SFE played the Wake Forest Chapter of SFE in a game of softball Wednesday afternoon on 1911 Field. It seemed to be the Deacons' day, and so it was that they won the game.

Over in the dormitories it seems as if all of last week's first-rate teams have taken the back seat this week. 2nd 7th fell before the men of Lower South to the tune of 27-8. 1st A' was only able to take 10th by a score of 5-4. 5th dorm took 3rd 7th, 13-5, and 3rd A' beat the boys of 2nd 8th, 6-3. Last of all was the game between 3rd C and 3rd 8th in which 3rd C came out victorious.

Lamba Chi's Hold Bridge Tournament

The fourteenth annual interfraternity bridge tournament sponsored by the Gamma Upsilon Zeta of Lamba Chi Alpha will be held in the chapter house on April 29.

The system this year will be the same as the one used last year, the tournament being run on a match point basis. This system makes for fairness in determining the winner since all teams eventually play the same hands, eliminating the possibility that one team will hold the good cards for the duration of the tournament.

The tournament will consist of one two-man team from each of the fraternities on the campus, and the name of the winning fraternity, together with the names of the men playing on the team, will be engraved on the tournament plaque, which is annually presented to the winner. The trophy is kept by the winners for one year, and the defending champion this year is the team representing Pi Kappa Phi.

Daughtridge Says Mitchell Ayres Will Play Final Dance Set

Three Dances Will Replace Customary Five; Date Set For May 8 and 9

Bob Daughtridge, president of the Inter-fraternity Council announced yesterday that Mitchell Ayres and his band have been signed for the final dances which will be sponsored in Frank Thompson gymnasium by the Council.

"Finals" are the big set of dances each year, serving as a climax to the year's social activity on the campus and honoring the graduating seniors.

Ayres has one of the outstanding bands in the country, having appeared in many of the largest theaters in the country while on his trans-continental tours. He has also been featured in many of the best hotels and night clubs throughout the country, his longest run being in the Bossert Hotel, one of the largest in the world. He is now playing in the Heath-Pelham Inn, one of the leading night clubs in Westchester, N. Y.

The band, featuring its "Fashions in Music" has been featured on many radio programs, including the famous Sunday night "Fitch Bandwagon," and the newly inaugurated Coca-Cola "Spotlight Band" program. Ayres stresses versatility in his band and features both good musicians and vocalists.

For the second time in the history of State College, an entire set of dances will be broadcast over Radio Station WPTF. The first set broadcast in entirety was Finals in 1941, just after WPTF increased their power to 50,000 watts. This station covers the whole southeastern section of the United States, and the program should furnish good publicity for the college.

Although there will be only three dances this year instead of the usual five, the Friday night dance will last until one o'clock. The Tea Dance Saturday afternoon will be from 4 to 6 o'clock, with the final dance of the set scheduled to begin at 9 o'clock Saturday night and end at midnight.

The committee in charge of the dances and the fraternities they represent are: Bill Thompson, Kappa Sigma, chairman; Alton Webb, Lamba Chi Alpha; Julian Hoffman, Alpha Gamma Rho; Dick Watts, Sigma Phi; and Bob Daughtridge, Delta Sigma Phi, committeemen. The members of the council and their dates will be featured in the figure that will be the highlight of the dance.

OFFICERS' CLUB sponsors for the Offense Ball are: Miss Peggy Wallace of Newark, N. J., with Grover Cox; Miss Jane Craig of Montpelier Station, Va., with Kyle Kingsolver; Miss Lulu Fowlkes of Enfield with Claude Kimball; Miss Eloise Rankin of High Point with Roger Taylor; Miss Helen Kirk of Salisbury with Jim Graham; Miss Sallie Cobb of Pinetops with J. W. Andrews, Jr.; Miss Anna Tomlinson of High Point with Gene McGarity; Miss Anne Hayes of Greensboro with William P. Brewer; and Miss Elvira Chenatham of Henderson with Scott Forbes.

ENGINEERS' COUNCIL sponsors for the Offense Ball are: Miss Margaret Gentry with Roy Boone; Miss Annie Day with Bill Blue; Miss Charlotte Ruffner with C. D. Taylor; Miss Lulu Joughin with Hugh Cameron; Miss Peggy Davis with L. C. Williams; Miss Peggy Sinclair with James Sturkes; Miss LuRetta Miller with R. S. Smith; Miss Gerrie Dawkins with G. S. Atkinson; Miss Jean Dunbar with W. S. Johnson; Miss Lola Stroupe with J. L. Beam; Miss Ruth Kincaid with Beverly Sibert; Miss Ladine Few with J. L. Randolph; Miss Margaret Callahan with John Nicholson; Miss Daphne Gibson with W. A. Brown; Miss Rachel Miles with Mason Banks; and Miss Frances Craven with E. F. Wooten of Wilson.

College 'Y' Leaders Plan Annual Retreat

Designed to be a week-end of inspiration and training for the future religious leaders in the colleges of this state, the North Carolina YM-YWCA College Retreat will get underway this afternoon at Camp Nawakwa near Greensboro.

Student religious leaders from all white North Carolina colleges have been invited to the retreat, and it is expected that most of them will be represented. Started four years ago by the "Y" here at State College, this retreat always affords a good opportunity for delegates to meet the student religious leaders of other North Carolina colleges.

Beginning at 5 this afternoon and continuing until 2 P.M. Sunday, the program will include hikes, recreation, discussions, and talks by outstanding men. Rev. Charles Jones, of the Chapel Hill Presbyterian Church will give the principal addresses.

A definite allotment has been allowed each college, and the following men are representing State: Hans Frei, C. D. Umberger, Jake Tinga, Thorne Reynolds, Franklin Teague, Selby Kornegay, Walton Thompson, Hugh Casal, Frank Spain, Horace Teague, Joe Somers, and Johnny Alexander.

'OFFENSE BALL'

(Continued from Page 1)

of them from the pens of Benny Carter and Don Redmond, the band's two arrangers, and both former band leaders themselves. Byrne is putting his rhythms on discs for the Decca recording company.

The featured vocalists with the band are beautiful Dorothy Claire and the romantic Jimmy Palmer. The instrumental solo comes from a group headed by Bobby, himself, on the trombone. Dick Farrell takes the best of breaks on the drums, and Jerry Yelverton will make you think of Artie Shaw when he breaks out with a clarinet ride.

GLEE CLUB NOTICE

All members of the Glee Club are to report to the auditorium of St. Mary's School tonight at 7 o'clock to rehearse "Ballad for Americans," and to ascertain schedule of rehearsals with the symphony orchestra. The full attendance is imperative, as the girls will outnumber us two-to-one.

A.I.E.E.

In order to cooperate with the Blackout Friday night the A.I.E.E. picnic has been postponed until Friday, May 1.

W. C. RANES, Jr.

Give Them a Hand!

Old Customers . . .
. . . Future Ones

Look to find you in The Technician when they want your products. Are you there to help them?

DO YOU DIG IT?

"SHAKE A SHANK, ZOMBIES! THE JOY BOYS ARE TAKING US SHIN-CRACKING AND PEPSI-COLA'S ON THE ME AN' YOU. NO WOOFIN'!"

***ENGLISH TRANSLATION**

This dilly is giving the hurry-up sign to her girl friends because the boys are taking them dancing and Pepsi-Cola's on the menu. (me-u, get it?) Just the thing for a college man's budget, too.

BETTER TASTE . . .

PEPSI-COLA

BIGGER DRINK

WHAT DO YOU SAY?

Send us some of your hot slang. If we use it you'll be ten bucks richer. If we don't, we'll shoot you a rejection slip to add to your collection. Mail your slang to College Dept., Pepsi-Cola Company, Long Island City, N. Y.
