Vol. XXII, No. 29

STATE COLLEGE STATION, RALEIGH, N. C., MAY 15, 1942

Offices: 10 and 11 Tompkins Hall

## First War Graduates

Shown here are a part of the members of the 53rd graduating class of State College as they sat in Frank Thompson Gymnasium and heard the Honorable Josephus Daniels make the final address. The class of 1942 was the first one to

finish under the new speed-up plan adopted earlier in the spring. The graduating exercises for the military seniors were carried out in Riddick Stadium preceding the ceremony pictured here. (Courtesy News and Observer.)

# DEAN VAN LEER GOES TO ARMY DUTY TODAY

## Larry Hardin Says Four Problems Face New Student Council

New President Lists Activities, Legislature, Reorganization and Attitudes As Campus Obstacles

"Four major problems face the Student Council," Technician Larry Hardin told a TECHNICIAN reporter as he took over the reins of Student Government last week.

"Student activities are bound to come under close scrutiny next year by the council and by the administration," Hardin said. "There have been statements that the campus is over-organized, that students mess with too many insignificant matters. The activity point system is on trial, and the council will exercise stricter control."

"Nineteen hundred and forty-three brings a new State Legislature," Hardin continued, "and the Student Council will be expected to lead the drive for larger appropriations for State College. As a technical school, a larger appropriation for State will be of direct benefit to the war effort."

"Council Reorganization. Rumors have told of possible Student Council reorganizations. These rumors can be believed because this administration will bend every effort to unify the council's activities with those of other groups and lead them where necessary."

"The fourth problem," Hardin concluded, "is one of student attitudes. There seems to be a lack of awareness on the campus of the great waste of electric power, paper, and student man-hours. Few of us have adult thoughts about our part in the war effort. Perhaps the Student Council can do nothing about these things, but it most certainly will try."

## Leaves

BLAKE R. VAN LEER

## "Will Miss Him"

Col. J. W. Harrelson, dean of administration, told The Technician last night:

"Dean Van Leer has done an exceptionally fine job in building the engineering school; he has improved the equipment, staff and reorganized the curricula. He is recognized as an outstanding man in the field of engineering education, and has done much to increase faculty interest in the technical engineering societies. He is being given a military leave from college duties. We will miss him greatly and hope that the war will not keep him away long."

## Engineering School Head Called For Active Service

Will Go To Fort Bragg For Induction Prior To Being Stationed In Washington; Recommends Three Men Board To Assume His Duties

By BOB POMERANZ

State College is loaning one of its most able teachers and administrators to the United States Army.

This morning, Blake Ragsdale Van Leer, Dean of the School of Engineering, reported to Fort Bragg for a physical examination. Monday he will be in Washington to assume the duties of an Army Major, on the staff of General Brehon B. Somervell, head of the important supply section of the War Department.

Dean Van Leer assumed the leadership of the college's Engineering School in 1937, bringing with him wide experience as a teacher and administrator in some of the well-known engineering schools of the nation. Under his far-sighted guidance, the School has been undergoing the greatest period of progress and expansion in its history.

## Three Men Picked

## Navy Office Busy As Students Apply For Reserve Commissions

Complete Facilities Now Available for Entire Examination; Staff Has Already Been Supplemented

State College is really doing its share in supplying the navy with officer material, according to the reports coming from the new office of navy officer procurement now located in Tompkins Hall.

The office, first of its kind in the state, has been in operation for only a week, but has been busy during the entire time handling the many applications from students at State, Wake Forest, Duke, and Carolina. It has been emphasized that the office is not just for the convenience of the State students, but all applications from surrounding schools must be handled through it.

Complete facilities have now been installed for medical examinations and all necessary procedure in examining applicants.

Hartley Heads Staff  
The staff of the State College branch, which was opened May 11, under Lt. (j.g.) Lodwick Hartley, formerly head of the English department at State College, has been flooded with applicants for officer training. The overworked staff has already had several additions and now includes: Lt. Hartley, Lt. Vincent Biondo, attached to the Medical Corps of the regular Navy, a Chief Pharmacist Mate, and four enlisted men.

Applicants for commission must be between 18 and 50 years of age, college graduates, or students in the junior or senior class of their college. Engineers and engineering students are eligible to apply, and non-engineering students who have had extensive training in physics, chemistry, and mathematics may also apply. Students will not be taken from school until they graduate. However, juniors may be put on active duty the summer preceding graduation, at regular intervals.

Men accepted will be commissioned as ensigns in the Naval Reserve for ultimate assignment to shore (or sea) duty, after a short period of specialized training.

Engineering School in 1937, bringing with him wide experience as a teacher and administrator in some of the well-known engineering schools of the nation. Under his far-sighted guidance, the School has been undergoing the greatest period of progress and expansion in its history.

Three key men have been recommended by Dean Van Leer to take over his duties while he is on military leave. Prof. H. B. Briggs of the mechanical engineering department, head of the mechanical drawing division, has been chosen for a post as Assistant Dean, where he will assume the administrative duties of the office.

Prof. H. A. Fisher has been recommended for Dean Van Leer's spot on the Faculty Council. Prof. Fisher has several times served as Dean Van Leer's alternate. And, Prof. Greaves-Walker is slated to be acting head of the Engineering Experiment Station. The recommendations are tentative on approval by Dean Harrelson, President Graham and the Board of Trustees.

Major For 14 Years  
Now 49 years old, Dean Van Leer has been a major in the Army Reserve for fourteen years.

As an undergraduate at Purdue University, from which he graduated as a mechanical engineer in 1915, Dean Van Leer was Lieutenant Colonel of the Cadet Corps, which resembled our present ROTC. In 1917, before the United States entered the World War in April, he was commissioned a Second Lieutenant in the Reserve Corps, and attached to the 316th Engineers, 91st Division.

His war service included five major engagements in the front lines, including action during the famous Meuse-Argonne and St. Mihiel operations. On duty with Belgian troops in 1918 he was awarded the Croix de Guerre for exceptional work in a hazardous task.

Early in 1918, Dean Van Leer was promoted to the rank of First Lieutenant, and at the close of the war, he was advanced to Captain. Promotion to Major in the reserve came in 1928.

Other Jobs  
In addition to serving as Dean of Engineering, a member of the Faculty Council, and as director of the Engineering Experiment Station, Dean Van Leer has been regional director of the Engineering, Science, and Management Defense Training program in the states of North Carolina, South Carolina, (Continued on Page 4)

# First War Time Class In 25 Years Graduates 336

## Seniors Hear Daniels In Spirited Address

Tells of Supreme Devotion and Sacrifice Ahead Before Members Can Take Their Allotted Places

By C. A. UPCHURCH, JR.

State College's class of 1942, its academic career shortened by the war, marched from the campus this week with the sober realization that upon its sturdy shoulders weighed the responsibility for carrying on the glorious tradition of those other classes which left the college to shoulder arms in the last world conflict and the Spanish-American War.

Confidently accepting the burden and glad of the chance to serve, the seniors completed the college's 53rd commencement program after hearing Josephus Daniels tell them:

"I would insult your intelligence to picture the days ahead as containing anything but supreme devotion and supreme sacrifice with hardships and denial of the cherished delights of peace which have brightened your prospects after graduation."

To Mail Diplomas

In flag-bedecked Frank Thompson Gymnasium, filled with their parents and friends, the candidates for degrees filed by administrative officials and Governor Broughton to receive the certificates proving completion of the work required of them by the college. The diplomas will be mailed to them later dated June 8, original date of the commencement until the United States was drawn into the war.

Putting its full power behind the war effort, the college moved shortly after December 7 to speed its program for turning out engineers.

## Dormitory Dance

In a novel move this week, the Social Functions Committee approved the application of residents of Welch Hall to hold a dormitory party.

The event will be a dance at the Woman's Club, next Friday, May 22, and will serve as an experiment to show whether or not informal and inexpensive dormitory parties are worth while.

Dormitory President Bill Allred appointed Banks Muse, C. F. Tarleton, Tom Stewart, Buck Sutton, John Carter, and Teet Troxler as the committee in charge.

## Citizenship Trophy Awarded To Sedberry

Receives Elder P. D. Gold Medal for Best Exemplifying Highest Qualities of Citizenship

Reece Sedberry made it two top honors in a row during the graduation program when he won the coveted Elder P. D. Gold Citizenship medal given annually by the Charles W. Gold family of Greensboro to the State senior who, during his college career, exemplified the highest characteristics of good citizenship.

The presentation was made at the commencement exercises along with announcement of other award winners and presentation of the honor lists.

Sedberry previously had won the honor of being judged the best senior cadet in the ROTC regiments. Immediately upon receiving this award he was called to Fort Bragg for a physical examination prior to receiving a permanent commission in the regular army. He was one of only fifty youths throughout the nation to be selected for such an appointment, with only seven students being chosen from the Fourth Corps Area which has twenty ROTC schools.

Serving as president of Golden Chain, senior honor society, for the past year, Sedberry was graduated with high honors scholastically.

Other honors were also bestowed on Sedberry, among them the Sigma Tau Sigma award given to the outstanding senior in Textiles, and a Tompkins Textile Society Key. He accepted for the Golden Chain the Inter-honor Council award given to the honor organization having contributed most to the college during the year.

## Y Begins Relations Institute In June

International Relations Institute To Present Four Outstanding Speakers, E. S. King Announces

An Institute of International Relations will be conducted at State College next month under auspices of the college Y.M.C.A., with four outstanding authorities scheduled to speak, "Y" Secretary E. S. King announced today.

Speakers and their dates will be William Henry Chamberlain, June 22; Philip Jacob, June 23; Carl Hambro, June 25; and Harold Bosley, June 26.

Hambro, internationally known author and statesman, is a former president of the Norwegian parliament and the Assembly of the League of Nations.

Chamberlain, an author, lecturer and foreign correspondent, has lived in Germany, Russia, and Japan and is regarded as a cogent interpreter of Russian and Far Eastern affairs.

## Blue Key

Pictured here are recently-initiated members of the State College chapter of Blue Key, national honor fraternity which recognizes outstanding qualities in character, scholarship and service. Front row, from left: Durwood Finn, Jim Kelly, Tom Hughes, Max Sayah, and Nick

Geluso. Middle row: Branch Whitehurst, Bob Pomeranz, Glenn Farthing, and Tom Bivins. Back row: Moyle Williams, Jim Martin, Bob Dalrymple, and Bob Boyce. Don Barksdale of Bluefield, W. Va., another initiate, was not present for the photograph.

## Mial, '13, Will Head Alumni Association

Chosen At General Meeting To Succeed "Dutch" Seifert; Taylor Receives Meritorious Service Award

T. K. Mial of New York, class of 1913, has been elected to succeed D. W. "Dutch" Seifert as president of the State College General Alumni Association.

Alumni Activities were conducted at the final portion of the graduation exercises last week. Mial, who is vice president of the Johns-Manville Sales Corporation, has been highly active in alumni affairs in organizing State alumni clubs in the North and East. He was unanimously elected although he was unavoidably prevented from attending the meeting.

Mial graduated from State with a degree in mechanical engineering after working his way through school.

Harmon W. Taylor of Raleigh, connected with the Agricultural Extension Service, won the 1942 Meritorious Service award presented by the association to the outstanding alumnus of the year. He was instrumental in securing over 200 new members in the association and was active in other alumni affairs.

In addition to Mial other new officers for 1942-43 are: Raymond Matwell of New Bern, first vice president; L. G. Atkinson, Greensboro, second vice president; Miss Maud K. Schaub, Raleigh, secretary; J. K. Coggin, Raleigh, assistant secretary; A. F. Bowen, Raleigh, treasurer; D. W. Seifert, Weldon, chairman of the executive committee; W. H. Sullivan of Greensboro, representative on the Athletic Council; Blain Chapman of Norfolk, Va., member of the print shop committee; and H. G. Shelton, Speed, T. C. Powell and H. W. Taylor, Raleigh, R. R. Fountain, High Point, and H. C. Kennette, Durham, members of the executive committee.

Elected honorary members of the association were R. G. Turnbull, New Bern; E. E. Jones, Charlotte; F. H. Jeter, Herman Hickman, Dick Herbert, and Wesley Williams of Raleigh.

Nearly 200 alumni attended the luncheon. It was announced that the association had 1,103 members, largest number in its history. The invocation was spoken by the Rev. J. R. Williams of Atlanta, Ga., and special guests were presented by Alumni Secretary Dan Paul.

## No Figure Tomorrow At Soph Hop; Ticket Sales For War Bonds

Freddie Johnson's Orchestra and Harry Sutfenfield Will Play; Goodbye to Flags

As the finale of an active spring social season, the Class of 1944 will present the annual Sophomore Hop tomorrow night in Frank Thompson Gym.

Music for the event will be furnished by Freddie Johnson's Orchestra, local band which has seen service at several other functions this year. Lead six man with the crew is Harry Sutfenfield, popular PIKA.

With all expenses for the dance paid out of the class dues, Max Gardner stated earlier this week that all money from the sale of tickets will be converted into war bonds, which will later serve as part of the Class of 1944's gift to the school.

Flags Are Out

"Also," Gardner said, "the gym will be nicely decorated. The flags which have become so familiar at recent dances will definitely not be used this week."

Taking a forward step in a matter which has caused some campus comment in recent weeks, the dance committee has decided that no figure would be held. Music will last from 8:30 'til 12 o'clock.

Tickets can be purchased in advance at the "Y" or from any committeeman.

## Golden Chain

In an impressive ceremony recently, 12 juniors were tapped for membership into Golden Chain, campus honorary society. Before the tapping, Richard J. Reynolds, mayor of Winston-Salem, addressed the group. Shown above are

the new members of the organization. Left to right they are (Front row): Robert Dalton, Larry Hardin, Bill Womack, Nick Geluso, Moyle Williams, Walton Thompson; Second row: Woody Jones, Bob Boyce, Bob Dalrymple, Jim Martin, and Addison Hawley.

## Be An American—First

(From *The News and Observer*, Monday, May 11)

We cannot have all we want if our soldiers and sailors are to have all that they need.

—FRANKLIN D. ROOSEVELT.

George Reece Sedberry, Jr., of Concord, 1942 graduate at State College, was doubly honored prior to his graduation. He was the recipient of the P. D. Gold Citizenship Medal, a high honor at any time and one particularly coveted at this time. In addition, he was adjudged the best senior cadet in ROTC regiments at the college and has received a permanent rather than a temporary commission in the Army.

All young men cannot win the distinctions given to this one, but all of them can display, as most of them are doing, the same devotion to duty and the same single minded purpose of placing their country first in this hour of crisis.

## It's The New Activities

How is the success of a campus organization measured? Is it by the dances and social events that it holds for its members? Yes, if it is a social group. Is it by the campus drives and services that it puts across? Yes, if it is a service organization. Is it by the increased technical interest it gives to its membership? Yes, if it is a technical organization.

But, and here is the point, no campus group can consider itself successful unless it takes on new obligations, holds new social activities, sponsors new drives.

One group has been making annual deputations to the State's high schools for the purpose of spreading information about State College. It is truly a worthy endeavor. But, even if the deputations themselves are very successful this year, that group's success is not assured. Those deputations are part of their status quo, part of their base. We expect them to hold those deputations this year. Their real success will come mainly from their new endeavors this year.

Sure, campus leaders, keep up the good work which your predecessors have begun. But let the new ideas flow forth for real success for your organization and for State College.

## Quietly, But Firmly

Blue Key is working hard to spread the new dormitory names. Here's how you can help: Learn and use the new name of your dorm, and as many of the others as you can. And, when someone says, "Meet me at the Cafeteria," reply quietly, but firmly, "I'll meet you in Leazer Dining Hall."

## Democracy In Action

So democracy doesn't work? It not only works at home but it works at the front. A 23-year-old American doughboy in Australia who used to get spending money in \$100 bills, now chauffeurs a lieutenant who used to be a soda-jerker. He likes the job.

And, at Fort Bragg, a former State College prof who is a private, is being bossed by a recent student who is a Second Lieutenant.

## ALPHA SIGMA SIGMA BALLOT

(Vote for three)

2. ....
3. ....

Clip this ballot, vote for three students, and drop in box in Agromeck office before next Friday)

## CAMPUS WEEK

### AGROMECKS

Last chance for all students to get their Agromecks will be on Monday and Tuesday afternoons, from 2 to 5 p.m., at the warehouse, according to business manager Bill Brewer.

### NEW OFFICERS

H. M. Johnson has been chosen president of the campus chapter of Kappa Phi Kappa, professional education fraternity, for 1942-1943. Other new officers are J. A. Duncan, vice president; Curtis F. Tarleton, secretary; Douglas S. Chambliss, treasurer; and Wallace J. Dickens, historian.

### WATAUGAN STAFF

Staff meeting will be held Tuesday at 5:30. It is important that everybody be there.

### FFA

Earl Price is the newly-elected president of the N. C. State chapter of the Future Farmers of America. Other new officers are Warren Shaw, vice president; Thorne Reynolds, secretary; Joe Somers, treasurer; Gerald James, Publicity chairman; Wallace Dickens, parliamentarian; Tony Calhoun, Farm Watch Dog; and Marion Nobles, chairman of the program committee.

### ORGANIZATIONS

Dean Cloyd has asked that all organizations turn into his office the names of their new officers to aid in the preparation of the new handbook.

### PI TAU SIGMA

A meeting of Pi Tau Sigma, honorary M.E. fraternity, will be held Tuesday at 8 p.m. in Page Hall.

### VAUGHAN TO SPEAK

Prof. L. L. Vaughan, will address the mechanical engineering curriculum next year at an ASME meeting next Tuesday at 7 p.m. in Page Hall. All M. E. juniors, whether ASME members or not, should attend.

I. J. HETHERINGTON, Pres.

### GAMMA SIG'S

Gamma Sigma Epsilon will have a special meeting Tuesday at 8 p.m. This last meeting of the school year is of utmost importance, and all members are expected to be there promptly.

BOB EFFES,  
Grand Al. hierist.

### ADDRESS FRIDAY

"Post-war Population Policy for the South" will be the topic of discussion by Dr. Rupert B. Vance at the forum of Rural Affairs Friday, 7:30 p.m. in the YMCA Faculty Club room.

### AG FRESHMEN

There will be an assembly for all freshmen in Agriculture Tuesday at noon in the chemistry lecture room in Withers Hall.

### IAES

Initiation of new members will take place at a meeting of the Institute of Aeronautical Sciences, Tuesday at 7 p.m. in Room 101, Page Hall.

### 4-H CLUBBERS

State 4-H Club Leader L. R. Harrill will give his annual wiener roast for former 4-H members at State College, Monday night at 7 o'clock.

## Any Bonds Today?

Contributed by the American Society of Magazine Cartoonists.

## The Wind Blows

—and so does

DON BARKSDALE

### Correction

Our attention has been called to the statement in the last issue of THE TECHNICIAN that the new map of the campus was prepared by Professor Paulson. This was made in error, the survey and map actually being made by Professor C. L. Mann. More than a year was required to complete the survey and necessary preliminary sketches before the actual map was drawn and we are glad to make this correction. We would also like to alip in a note of thanks for the copy of the new map that now adorns our wall as a gift from Professor Mann.

### We Stood for It

Office workers all over the campus spent the latter part of the week standing after the service department confiscated all of their chairs for use in the gymnasium during graduation exercises. Truckloads of the wicker bottom chairs were collected by a three man crew hustled to Frank Thompson Gym. It looks as if anyone wants to sit down he will have to tote his own chair back across the campus or do without.

### Maybe Its Lucky

Many boys would be glad to receive their commission in the navy, but few would have kept the one that Bill Friday is now serving under. It is valid and all that and has all the necessary trimmin's. BUT it is dated Friday, March 13. It is a good thing that Bill isn't superstitious.

### Appointed

Dr. A. F. Greaves-Walker, head of the Department of Ceramic Engineering at State College, has been appointed chairman of an advisory board set up by the American Institute of Ceramic Engineers to work with the War Production Board on problems involving ceramics. The Institute's board was appointed at the request of the government and is composed of recognized authorities on refractories, glass, abrasives, structural products, electrical porcelain and enamels.

### King of Swing

It has long been rumored that the fraternity houses of State are full of snakes, much to the disgust of the poor guys who drag the girl friend, but it was left for the brothers of the Kappa Alpha lodge to really prove they had one. Four feet long, black, and with a leer on his pan, the slinky devil was removed from their record pick-up immediately after finals. How or why he picked out the records to sleep on is still in doubt, but Marvin Perry will attest the fact that there are more pleasant things to do than to find a king snake roosting in one's favorite jook-box.

### Whoa, Dobbin!

The days of the immortal campus woo-wagon are near to an end. Gasoline rationing starts today with a three gallon limit on the petrol purchases. You can't go far and you can't do much on that allotment, but if it will do any good and help put a crimp in the Japs plans, then we are for it all the way. Anyway, it begins to look as if we will have to get some lessons from Dad on how to court in a buggy or however they did it in the era of Sweet Adeline and bustles.

### \$10,000

According to the April issue of *Billboard*, North Carolina State has an annual dance appropriation budget of \$10,000. The only other schools having budgets equalling this figure are Cornell, University of Michigan, and Georgia Tech. You figure it out...

### Alpha Sigma Sigma

Balloting is again under way for membership into that ancient and dishonorable society of Alpha Sigma Sigma for those "outstanding" men of the campus. Voting for this not-wanted and little sought after honor may be done by means of the special ballot printed elsewhere in this issue of the paper. Use great care, gentlemen, in making your choice for the decision of the judges is final and no protest can be filed as to the outcome. In case of a tie, duplicate honors will be awarded.

## Big Shots Trembling With Fear; Alpha Sigma Time Draws Near

Out of the ranks of students at State College always arise several who are possessed of special characteristics that should entitle them to extraordinary honors. In order that these "outjutting" men may get all the glory that they think they deserve, the Ancient and Honorable Society of Alpha Sigma Sigma was established on the campus.

For the benefit of those who don't know the history and meaning of the society, it can best be explained by saying that the name implies some relation of the "honored" students to a portion of a horse's anatomy; or some scholars insist that the meaning is derived from a small Biblical pack animal. In either case, however, the meaning is the same, for after all, what's in a name?

The selection of these "men without a country" is left to their fellow students. In this week's TECHNICIAN appears the ballot which is used for this important selection. The selection is for each student to

clip the ballot in his paper, fill it out with the names of the three students that he thinks are deserving of the honor, and drop the ballot in the box in the door of the Agromeck office in the Publications building.

The men who poll the greatest number of votes will be named as brethren of the famous fraternity, and the ones receiving the majority among their brothers will be given the ranking offices of the association. The president is given the title of G.H.A., and his subordinate officers draw similar titles. *Wataugan* Editor Jimmy Kelly has announced that the society will again be given a page spread in the next *Wataugan* and has asked that all ballots be returned by next Friday morning. Kelly further urges the students to be careful in their selections, for "The personnel of this noteworthy organization must be kept up to the standards set throughout its years of existence." In the old days of the bitter

feuds between the editors of THE TECHNICIAN and the *Wataugan*, many lurid tales of subterfuge ran rampant about the campus, hinting at stuffing ballot boxes, soliciting for votes for candidates through the dormitories, and other similar practices. Sometimes while reminiscing, the older members of the staff mention the time when THE TECHNICIAN editor had an extra thousand ballots printed to make sure that the *Wataugan* editor of that year would be elected president; also the time when two members of the football team framed each other, each without the other knowing it, and the final results placed both of them among the "chosen."

So there's the set-up. Unfortunately, there is a rule against voting for faculty members, but surely you can think of three people on the campus who are deserving of the "honor." The ballot appears elsewhere in this issue, so get busy with your scissors, clip out the ballot and pick your candidates.

Now we do give up.

## GLEANINGS

### Carolina Scandal Brewing

There's a slimy scandal brewing at Chapel Hill and only the slightest whispers have found their way over to this campus. It all revolves about what has happened to \$750 which was to be converted into war bonds after a 60% cut in a \$1500 dance budget. The rumors tell that the bond money found its way into the hands of a group of students and, the rumors continue, the result was the biggest drunk in Carolina history. One fraternity alone is reputed to have drunk up \$400 of the \$750.

Give credit to those Kappa Alpha boys who thought up the swell publicity stunt which found its way onto the front page of *The News and Observer*. Imagine their surprise, they told the reporter, when they found that snake in their radio. But it wasn't any surprise to Banks Muse, resident of Welch Hall, who loaned them the tame reptile. And, you could hear much gnashing of teeth by Larry Hardin, Kappa Sig prexy, who muttered, "Those darned KA boys beat us out this time, but we'll get 'em yet."

### A Traditionless Campus

One senior honor organization (to quote a phrase) has started a scrapbook of newspaper items of the group's activities. It certainly seems like a worthwhile endeavor, and it could easily be undertaken by other organizations on this traditionless campus... And speaking of honor organizations, how about Bill Wommack's crack that there were 234 honor groups on the campus. That 1/2 group, he explained, is a certain sophomore honor organization of which he was a member.

The new dormitory names are becoming popular in student usage, and it seems as if the Blue Key drive may prove a success before the end of next year... One campus wiseacre took a look at the list of men who had registered for rooms next year in *Watauga* Hall and promptly announced that he was petitioning to have the name of that building changed to *Politicians' Hall*.

### Another Milestone Passes

Bill Friday's marriage on Wednesday to Ida Howell was a simple ceremony, but it certainly seemed to mark another milestone on the campus. Bill has been a friend to many of us; there has been no doubt that he belonged here. Tomorrow he goes off to Notre Dame for Naval indoctrination school, and the fact that he's married now makes the break even cleaner. In days to come Bill will return and bring glory to State College and North Carolina, but meanwhile we're wishing him the best of everything.

This year's accelerated graduation permitted many of us to view the solemn proceedings for the first time. Percy, for instance, was visibly impressed. "Gosh," he exclaimed the other day, "those boys got on line to get in this place, and here they are on line again to get out."

### Mial's Selection Wise One

Most students don't know about the hard work that the small band of alumni, who are members of the Alumni Association, do all the time for the good of State College. Last week the association elected Mr. T. K. Mial, of New York, a 1913 mechanical engineering graduate, as its president. In view of Mr. Mial's past efforts in the college's behalf the selection was a most wise and appropriate one.

Word has leaked out about the spirited Theta Tau meeting Wednesday night that lasted over four hours. On one stage brother Paul Ausman is reputed to have started a lengthy filibuster... Jimmy Hobbs is satisfied with all recent election results.

Finals dances last week-end were a huge success, and the Saturday night affair seemed the best of all. Though not too widely known on the campus, Mitchell Ayres' band proved itself a versatile outfit. Lots of stories which are worth hearing (but not worth printing) have resulted from the week-end. One concerns Fee-wee Mimms who woke up at 12 midnight, last Saturday night, and found himself flat on his back in the middle of the Court of Ceres. And, another is about a certain student council president, whose initials are L. H., and his payment of a pack of cigarettes for a debt incurred by his date.

Keep 'em flying.

BOB POMERANZ.

## SAY "BOO" TO BAGGAGE BOTHER

### ...AND TAKE YOUR TRAIN CAREFREE!

Don't start your vacation cluttered up with luggage problems when a phone call to RAILWAY EXPRESS relieves you of all such troublesome details. We'll call for your trunks and bags, speed them to your home, and save you time and expense. The low rates include insurance, and double receipts, to say nothing of pick-up and delivery at no extra charge within our regular vehicle limits in all cities and principal towns. MORGAN'S MUSINGS

May 15, 1942

Andrews, McDougall In Conference Meet

A Statement of Policy I've been jumped on, cussed out, and generally raked over the coals by a few students who thought I displayed bad sportsmanship in last week's paper when I wrote "An extremely lucky, and at the same time an extremely unfortunatemanlike Carolina news proved yesterday that the old one-run jinx is still with the Red Terrors" and "the game was continually marred by the gripings of Coach Bunn Hearn and his Chapel College charges."

when the Tar Heels of Chapel College took a ninth-inning sprint to steal the game right out of his hands. "Peanut" pitched nine hit ball, and looked good all the way until he tired in the ninth. It was Mack Morris, one of the boys that Doc Newton coached in Legion Junior ball circles at Gastonia, that broke up the game in that fatal inning. His single with the bases loaded brought in two runs to reverse the final decision.

On the Limb One of the most important games in the fraternity softball league is on top this afternoon. The ALT's and the SPE's, both undefeated and both in the same bracket, will clash on Red Diamond at about 4:30. Although both teams have met and liked the same opponents, we'll pick the ALT's this afternoon, because their wins have been far more impressive.

Alpha Kappa Pi's Plan All-Campus Golf Meet

"Campus Open" To Include Two Divisions; One For Fraternity Teams, And One For All-Campus Low Score

The members of Alpha Kappa Pi, one of the colleges fifteen social fraternities, yesterday announced their plans to sponsor an interfraternity and all-campus golf tournament.

Since golf is a summer sport, and since the majority of the student body will return to Raleigh on June 11 for the "Fall term," the tournament will be put on this year during that term. However, after the war is over, the "Campus Open," which is to become an annual affair, will probably be sponsored during the regular spring term.

Neale Patrick Calls Terrors Mystery Club Team Has Good Pitching, Fielding, and Hitting, But That One-Run Jinx Lives On

State College seems to be a good spot for a jinx! At least that's the way we look at it, and from the looks of the Raleigh Times sports page, Sports Editor Neale Patrick shares our opinion. In one of his columns a few days ago appeared the following observations:

"A bunch of the Carolina wins this year have been on late-inning rallies.

Holy Cross Completes Grid Schedule

Game To Be Played In Worcester, Mass.; Date Vacated By NYU

The only open date on the Wolfpack's 1942 grid schedule was filled this week with the signing of Holy Cross for a game on October 24. The game, to be played in Worcester, Mass., will be the first time the two schools have ever met on the gridiron, and the addition helps the prestige of the Tech schedule quite a bit.

State had the October date open, but when New York University dropped intercollegiate football, Holy Cross was contacted, and the Wolfpack was scheduled in place of the Violets.

Other newcomers to the schedule are the University of Miami and Wake Forest College. They replace Furman, Virginia Tech, and William and Mary who were on the 1941 schedule.

Five contests are scheduled for Riddick Stadium. Four of these, with Davidson, Richmond, Wake Forest, and Wake Forest, will be played at night. The Carolina game will take place in the afternoon.

Miami and Wake Forest were not played in 1941, but they have appeared on State schedules of previous years. In 1939 Miami defeated the Wolfpack 27-7, in Miami. In 1920 State trounced Wake Forest, 90-7. Holy Cross is the only completely new team to the Wolfpack.

The schedule: Sept. 19—Davidson in Raleigh. Sept. 26—Richmond in Raleigh. Oct. 3—Clemson in Charlotte. Oct. 10—Wofford in Raleigh. Oct. 17—Wake Forest in Raleigh. Oct. 24—Holy Cross in Worcester, Mass. Oct. 31—North Carolina in Raleigh. Nov. 6—Miami in Miami, Fla. Nov. 14—Georgetown in Washington, D. C. Nov. 21—Duke in Durham. \* Night games.

Athletic Equipment Called In By Coaches

No Grades or Diplomas To Be Given Unless All Equipment Is In

The following men please turn in all athletic equipment at once. Grades and diplomas will be held up until all equipment issued by the athletic department has been turned in.

Those holding track equipment are: Bob Ankers, H. A. Allen, Jr., M. J. Andrews, J. E. Blue, Ralph P. Bell, C. E. Berger, C. R. Boyette, W. P. Brewer, W. J. Brooks, W. T. Brown, T. M. Bradford, Dick Callaway, Luther Canaday, Henry Cabe, C. B. Coble, Dick Dammann, J. A. Dean, Jake DeLamar, Joe Davis, John Fowler, Paul Ginnings, Tom Gould, Max Gardner, Thomas Gray, Matty Hamon, W. B. Haywood, Gordon Heughan, Charles Hinnant, R. P. Holloman, R. B. Isenhour, Harry Lee Jordan, Joe H. Jones, E. L. Jones, Morehead Jones, Bill Lambe, W. B. Little, J. G. McGowan, J. E. McDougall, F. W. McGrath, Clifton Matthews.

"On the other hand, things are just the reverse for Coach Doc Newton's Wolfpack. On paper, and on the field, State looks like a baseball club. The boys are big and powerful. They can hit, and hit long. Settling down of late, State now fields as well as any of the clubs about here. In Ray Hardee and Peanut Doak, State has the pitching. But as good as the 'Pack looks, they keep on losing games. And that is the mystery.

"Leading by a one-run margin seems to have grown as a complex on State. Five of the six losses to Big Five have been by the margin of one run. And in almost every incident, the winning run came late in the game, and under heart-breaking circumstances.

"Hardee, in particular, has been the hard-luck boy for the States. He has suffered four of the one-run defeats, three of them by 5-4 scores. He and Pudgy Doak have pitched well enough to win. But they haven't accomplished the feat against their foes of this season."

Tracksters Gather For Event In Durham

Big Mike Pulls Leg Muscle In South Carolina Meet; Not In Top Form

Contrary to the announcement printed in THE TECHNICIAN last week, Coach Herman Hickman will take only two of the Terror Tracksters to the Southern Conference Track and Field Meet in Durham this afternoon and tomorrow.

These two, certainly the outstanding men on the team, are Big Mike Andrews and Co-captain Jimmy McDougall.

Continuing the terrific pace that he has set during the whole season, Andrews will be entered in no less than five events—two dashes, the hundred and the two-hundred; and the broad jump, discus throw, and shot put. Mike has proved the nearest thing to a Southern track team in these parts this year, starting all by copying 28 points against Richmond University. In other meets, Big Mike has scored like this: V.P.I., 25 points; Catawba, 24 points; Davidson, 23 points; South Carolina, 20 points; and the Carolina's AA meet, 19 1/2 points.

In the Carolina Relays, held at Chapel Hill, Andrews amazed the fans by placing in more events than any other entrant. Only a sophomore and competing for the first time in varsity meets, Mike has yet to reach the peak of his career. His unofficial time of 9.4 seconds in the hundred last season is his goal, and he may attain it officially yet this year.

Mike pulled a muscle in his leg at the meet in South Carolina last week when he stepped in a hole. He may not be in the best shape as a result, but you can bet he'll be in there fighting.

Co-captain Jimmy McDougall, though not entered in as many events as Mike, is just as good as the big boy in his own field. Jimmy is entered in the high jump, an event in which he has pulled down quite a few firsts this season.

McDougall hasn't had the time to get in shape this year that most of the other tracksters have, because along with his athletic activities, he has served as editor of the college annual. However, it would seem that getting in top condition might not be a requirement where Jimmy is concerned. This will be McDougall's last tour of duty with Hickman's team. He has shared the captaincy of the team this year with Bill Lambe, and only last week scored first place in the high jump and third in the low hurdles, in meet with the University of South Carolina.

ENDING THE SEASON Doc Newton's Red Terror charges left Tuesday for a three-game trip that will end the 1942 season. Wednesday, the Gobblers of the V.P.I. took the measure of the Techmen by the count of 14-10. Yesterday, our boys moved on to Winston-Salem for a game with the Hanes Knitters, and today, they end the season with a return engagement at Davidson. Watch The Technician next week for a complete season record of how the team batted, and how the pitchers performed.

player of the game. Last of the games is the game in which Up South failed to show up for, thus giving 2nd 7th the game by forfeit. Incidentally, rumor has it that one of the coaches of the freshman 2nd 7th softball clubs has resorted to hiring 10-year-old umpires.

Softball Schedules Cut By Rain This Week

Wrestling equipment is still out to Lloyd Ott, William Ellis, M. Horowitz, Harold Rothstein, T. M. Urquhart, Purcell Kinsey, Henry Alexander, Roy Coggin, W. W. Barrow.

Baseball equipment is still out to Milton Hobbs, R. Shadrach, James McCormick, Andrew Holliday, Douglas Reid, Albert Chappell, M. G. Wetherington, Joe Johns, Dick Nichel, Ed Morris, Leo Katkaveck, and Ed Barton.

# Air Corps Officers Return To Examine Student Applicants

For Men Interested In College Deferment Plan; Here Today And Tomorrow

Army Air Corps officers from Craig Field, Selma, Ala., will return to State College today and tomorrow to enlist students interested in the new College Deferment Plan under which they may complete their college education before being called to active duty.

Major John S. Snyder, flying officer from Craig Field, visited the campus several days ago to explain the new Air Corps plan. Many students expressed interest.

When Major Snyder returns this week, he will bring an entire cadet examining board set-up equipped to give both the mental and physical examinations for enlistment as aviation cadets.

On Inactive Reserve  
Students accepted under the new program, available to qualified college men between the ages of 18 and 26, inclusive, will be placed on the inactive reserve lists of the air force.

Upon graduation or voluntary withdrawal from school, they will be taken in as aviation cadets and trained to win their commissions in about eight months.

While in training as aviation cadets, the men will receive \$75 per month pay and \$1 per day subsistence. Then upon graduation, they receive second lieutenant's commissions with salaries ranging from \$183 to \$245 monthly.

Several branches of work are available under the Air Corps Aviation Cadet training. Flying officers may train as pilots, navigators, or bombardiers. Ground crew officers may train in meteorology, communications, armament, photography or engineering. The fly-

## Elected

New president of the National Association of College Book Stores, is L. L. Ivey, manager of the State College shop. Ivey served the past year as vice-president of the organization and at their annual meeting in Chicago this year was chosen to head the group.

He is a charter member of the organization which was founded in 1923, and is the third southern member to become president. At present 165 colleges and universities in the United States and two from Canada are represented.

Mr. Ivey succeeds Harold W. Jordan of the University of Indiana as president. The newly elected vice president is E. C. Rafter, of the University of Texas. Directors are W. K. Ackerman, N. Y. U., Donald Ross, University of Iowa, Douglas Stewart, University of Wisconsin, and C. W. Grover, Reserve University.

ing classifications require no specific academic training, but certain qualifications are required for the ground crew specialists.

Special Section  
A special section will be designated for the work of the Examining Board, and information on this may be secured from Prof. L. B. Parkinson, the faculty Air Forces Advisor. Also secure applications from the Air Force Advisor. Major Snyder will be on hand throughout the period of examinations to answer any questions on the new Deferment plan.

Any applicants for the examinations must furnish birth certificate, three letters of recommendation, and if under 21 years of age, written consent to join with their parents.

4-H Officers Elected  
Fred Wagener was elected Wednesday night as president of the State College 4-H Super Club for the 1942-43 academic year.

Other new officers include Franklin Teague, vice president; Grady Martin, secretary; Lemuel C. Laney, treasurer; Lewis Reep, historian; and Edison Keen, reporter.

Movies pertaining to national defense were shown at the meeting by John Fox, assistant editor of the State College Extension Service.

DEAN VAN LEER  
(Continued from Page 1)

and Virginia. Recently as a member of the State College's national defense committee he prepared a complete report on the college's activities for national defense.

Temporarily, none but the first three jobs will be assigned to other members of the college staff.

Dean Van Leer is the twenty-second member of the staff to enter duty with the armed forces. Only two weeks ago, Dr. Lodwick Hartley, head of the English department became a Lieutenant (jg) in the Naval Reserve and was assigned to active duty on the campus as chief of an office of officer procurement.

J. C. Cheatham, instructor in M.E., has also received orders to report for active duty as an Army Captain on May 22.

Several of the other recent losses have been Major Moore, Captain Forney, Lieutenant Romeo Lefort and Lieutenant Carter Williams who were assigned to the campus ROTC; Captains F. F. Gropelose and Privates Baker Wynne and J. A. Shaddock, now stationed at Fort Bragg.

## Private Dining Hall Blueprints Readied

Plans Complete To Install Private Rooms In West Side Of Leazer Hall; Drive Continues

The blue print for the two private dining rooms in Leazer Hall has now been completed and Mr. W. F. Morris, Superintendent of the Service Department of the College, is ready to issue orders for the work to be done.

The Council of Student Government, Blue Key and the Y.M.C.A. have already taken action definitely pledging financial support. It is hoped many other student and fac-

ulty organizations will take action without delay, since Assistant Controller, Mr. J. G. Vann, says most of the money must be in hand before work can start.

At a meeting of students and faculty men interested in the project, held in Colonel Harrelson's office on May 6th, an executive committee of five was selected. The members of the Committee are: J. D. Martin, Addison Hawley, D. B. Finn, E. L. Cloyd, and E. S. King. Organizations interested in helping in the project should get in touch with any one of these men.

These private dining rooms will be of great service to campus organizations. They will be about the most useful things that can be added to the college equipment.

Alpha Zeta this week voted \$25 to the movement. Theta Tau has pledged \$15, and the YMCA Cabinet has given \$100. Several other campus organizations are planning to take similar steps to enable the improvement of the dining hall.

Sigma Tau Sigma  
Sigma Tau Sigma, honorary scholastic textile fraternity, has recently taken in 17 members because of their high scholastic standing. These boys are considered leaders possessing the incentive of raising even higher the standards of N. C. State College Textile men for the industry.

The newly inducted members are J. D. Hardin, J. M. Swannick, J. W. Gell, J. E. Sampson, C. S. Dawson, R. E. Levin, R. I. Dalton, E. F. Coble, C. L. Hedrick, F. C. Allen, B. E. Sides, D. B. Finn, W. E. Beaver, E. H. Winston, L. E. Golding, Allen Gordon, and Stanley Garfinkel.

At a recent meeting new officers were elected. The new officers are B. E. Sides, president; C. S. Dawson, vice president; and J. E. Sampson, secretary-treasurer.

Special Training  
Emphasizing the increasing need for more and more technically-trained youths, Mr. Daniels declared:

"Not a day passes when young men with classical education—lawyers, teachers, bankers, salesmen, business men—are not greatly troubled as to how they can best serve their country in this emergency. In normal times they are among the most useful and capable members of society, but they are without engineering or agricultural or military knowledge. They see their brothers—no more capable or patriotic—State College graduates, sought after and given commissions while they, not possessing the qualifications required, are not called."

"They suddenly are face to face with the truth that their education is one-sided, whereas industrial and military education has fitted their brothers for efficient service in both peace and war. They understand now—and we all do—that no education is well-rounded that neglects the hand. The three H's—head, heart and hand—are as essential in our day as the famed three R's."

Only one honorary degree was bestowed by the college. It went to Dr. Carle Clark Zimmerman, native of Missouri and member of the Harvard University faculty, now on leave for service with the Army

also with TVA. Both Hall and Ingle are employed as geological engineers on dam construction. Mason K. Banks, who graduated in Geological Engineering on May 9, will go immediately to the Mineral Industry Division of the TVA as junior geologist.

There is an increasing demand for geological engineers due to the expansion of the mineral industry in the South and the demands of the war effort.

This demand has exceeded the supply of available students. Dr. J. L. Stuckey, State Geologist and head of the Department of Geological Engineering at State College, has been having difficulty finding qualified students to act as field assistants for necessary summer work. This shortage is creating a good field for prospective young college students.

The Geological Engineering Department at State, though small, has been very effective in placing all of its men in vital positions in industry.

## Sophomores Hop With These

Sponsors for the sophomore dance are pictured here. With their escorts, they are: Miss Cecelia Davis with O. Max Gardner, Jr., president of the class; Miss Helen Byrd with Roy Byrd, secretary-treasurer; Miss Kay Brown with Bob Jor-

dan, chairman of the dance committee; Miss Betty Lee Spruill with Guy L. Jones; Miss Beth Perry with Bill Upchurch; Miss Emma Joe Beam with Gene LeGrand; Miss Doris Kinmon with Harry Allen; and Miss Violet Sinclair with Ben Coble.

## DANIELS

(Continued from page 1)

neers, reserve officers and students drilled in modern agricultural practices. Candidates for degrees totaled 336, so yesterday well over 300 technically trained youths—including 137 new officers in the U. S. Army Reserve—stood ready to answer their country's call a full month earlier.

While Mr. Daniels pointedly refrained from indulging in "flamboyant optimism," he did not spare his praise for the college's contribution, today as in other war periods, to the nation's battles. Its military training, its preparation of men to make and man modern machines and its training for an approved agriculture—all were cited as an enormous boost to the war effort as well as a powerful force for rebuilding the world in the peace to follow.

Mr. Henry Ware, Secretary of the Southern Field Council of the Y.M.C.A., and Bishop Paul Derling of V. P. I. were visitors on the State College campus this week as guests of the Y.M.C.A.

## Scores In Mechanical Comprehension Test Released By Van Leer

Quiz Taken Recently By Fresh Engineers; Edward Travis and Gregg Trospen Head List

Scores earned in the recent mechanical comprehension test taken by all engineering freshmen have been released by Dean Van Leer, and the Psychology Department.

Three hundred and sixty first year men took the 60 question exam which was designed to show the ability to understand common mechanical principles. Edward Travis ranked first in the results with 87 right, and Gregg Trospen stood number two with 86 correct. Getty Dixon Hoyle, Jr., and R. B. Ienhour each had scores of 85 right.

The range of scores was from only 3 right to 87, but two thirds scored between 23 and 41. The mean score was 33. One student finished the quiz in 12 minutes, and the slowest needed 42.

Engineering Success  
In releasing the results, Dean Van Leer stated, "We are not yet sure about the correlation between the results of this test and success as an engineering student at N. C. State College. However, it is my own personal belief that any student who could not make a score of at least 20 on this test very likely does not have sufficient mechanical comprehension to make a very successful engineer or engineering student."

"On the other hand," Dean Van Leer concluded, "anyone who made a score of 35 or better certainly looks like very promising material."

The tests were given by Dr. William McGehee and Dr. Dannie Mofie of the Psychology Department. Engineering freshmen may see their scores in the department office.

Top Ten Per Cent  
Names and scores of the top ten per cent are as follows: 51 right—John D. Berry, Forrest P. Char-

nock, Jimmy Greene, John Haltiwanger, Andrew Hassell, Ira Joyner, and Walter McGehee; 50 right—Vernon Barnes, Allen Fuller, Fred Pearce, and George Reid.

The following students made 48 right—Raymond Chestnut, Jennings B. Edwards, Woodie G. Mad-drey, Jr., A. J. Patton, Joe Stevens, Rex Willard, and Charles Wright; 47 right—Arthur Black, William Boyer, Chic Homes, Theodore Meyer, M. T. Neuman, Edward Saleeby, Edward Smith, Bennie L. Spencer, and Durward L. Sutton.

## Geologists Play Important Part National War Effort

That geologists are playing an important part in the country's defense effort has come home with a vengeance to State College.

Within two months the Geological Engineering Department lost two of its faculty members to government agencies. Dr. John M. Parker is working with the United States Geological Survey on high-alumina clays, and Mr. J. Frank West has recently joined the War Production Board as a field engineer in the program to speed up the production of strategic minerals.

Not only has the faculty joined the effort, but also undergraduates have been able to secure such good positions as to keep them from returning to school. D. D. Arden, Jr., rated as a junior at State, holds a position with the U.S.G.S. in Mississippi where he is working on bauxite. R. S. Ingle, rated as a senior, has a job with TVA at Douglas Dam, Jefferson City, Tenn. Kenneth Hall, a 1940 graduate, is

## DO YOU DIG IT?

MATHEW OPPENHEIM, BOSTON U. '42, GETS TEN BUCKS FOR THIS SLANG!

"HEY, DILLY, WHEN ICHABOD CRANE DOES A HOUDINI, LET'S BLITZ THE JUNKMAN'S DELIGHT TO THE TOWN PUMP AND MILK THE WHITE PEPSI-COLA COW!"

## \*ENGLISH TRANSLATION

Joe Phihtakappa is suggesting to his fellow inmate that, as soon as class is over, they hop in the car and hurry down to the campus hangout where they can slip a jit or two into the Pepsi-Cola Cooler. That's a nice thinkin'—and plenty nice drinkin'.

## WHAT DO YOU SAY?

Send us some of your hot slang. If we use it you'll be ten bucks richer. If we don't, we'll shoot you a rejection slip to add to your collection. Mail your slang to College Dept., Pepsi-Cola Company, Long Island City, N. Y.
