## Campus Scrap Drive Set For Wednesday; Colleges Challenged In State-Wide Search

### State's 53rd Birthday Celebrated Tomorrow

Former Gov. Hoey and Graham H. Anthony Are Principal Speakers; Classes Excused At 10:40

Tomorrow State College will observe the fifty-third anniversary of its founding with appropriate ceremonies in Pullen Hall.

All classes will be excused at 10:40 a. m. tomorrow, and students are urged to attend.

The program for the celebration has been released by Dr. L. E. Hinkle, chairman of the Public Lectures Committee, who said that the principal speakers will be former Governor Clyde R. Hoey and Graham H. Anthony, Hartford, Conn., industrialist and an alumnus of the college.

Anthony, who is president of Veeder-Root, Inc., makers of a wide range of precision instruments, will speak at exercises beginning at 11 a. m. in Pullen Hall. His topic will be "What State College Means to Me."

Col. J. W. Harrelson, dean of administration, will preside. Col. Thomas W. Brown, commandant of the Military Department, will be marshal for the academic procession, and the invocation and benediction will be spoken by the Rev. John Armstrong Wright, rector of Christ Church. Music will be provided by the State College Orchestra, conducted by Christian Kutschinski.

Dr. Frank P. Graham, president of the Greater University of North Carolina, will present Anthony, a native of Shelby who has risen high in American industry. He received his bachelor's degree in mechanical engineering at State College in 1914 and in 1921 received the Master of Engineering degree.

Guests of honor will be introduced by John A. Park, editor and publisher of The Raleigh Times.

Governor Hoey will speak at a luncheon honoring the speakers and other guests. Dr. Hinkle will preside over the luncheon, which will begin at 1 o'clock in the College YMCA dining room.

Chairman D. W. Seifert of Waldon has called a meeting of the General Alumni Association's executive committee for 3 p. m.

(Continued on page 4)

### Lane Elected Manager Of 1942-43 Agromeck

Former Business Manager Millsaps Now At U. S. Naval Academy

As its first official of the Senior Class, the class of '43, elected Austin Lane as Business Manager of The Agromeck at a meeting Tuesday noon.

Lane won in a close election over Claude Dawson. The opening was caused by the decision of Lewis Millsaps, who was elected last year, to accept an appointment to the Naval Academy. Bob Dalton is editor.

Dean Cloyd announced to the seniors that only 21 rubies were still available for rings, and that absolutely no more could be had when these were gone. He urged those seniors desiring rings to make their decisions quickly.

A short discussion was held on probable class dues, but the matter remains under further advisement.

### Remember!

Remember Robert Westbrook! Bob was stationed at Pearl Harbor when the Japs came Dec. 7. He was a radio operator in a bomber. But he never got a chance to fight back.

Bob Westbrook was killed. A Raleigh boy, he was the first North Carolina casualty reported on Dec. 7. A few months before Dec. 7, Bob was a student at State College. As an alumnus, he was the first State College man reported killed after this country was drawn into the war.

We must avenge his death!

Enter the huge "battle of scrap" Wednesday.

Remember Robert Westbrook!

### Late Registrants Up First Figures

Although the total number of students registered so far at State College is less than that of last year, it is expected that before the end of the week the number enrolled will surpass the previous year's final result, according to W. L. Mayer, director of registration.

A total of 2,426 entered school last year, as compared with the present number of 2,319, enrolled the first of this week. Included in the figure are 821 new freshmen and 125 transfer students.

Preliminary tabulations reveal that the school of engineering has the largest increase in enrollment. No definite figures are yet available, but it is believed that a greater number of students will study aeronautics than any other engineering course.

The enrollment of the textile school is approximately the same, while forestry and agriculture appear to have less. In the field of teacher education, the number of persons registered is slightly ahead of last year.

Final registration statistics will be available at a later date.

### First Photos Taken In Current Agromeck

Yearbook To Come Out Two Months Ahead of Previous Schedule

First pictures for the 1943 Agromeck are being made this week in the Publications Building and the schedule for the pictures to be made the remainder of this week and next week has been announced by Bob Dalton, editor of the book.

The annual this year will come out in March, about two months earlier than in previous years due to the accelerated war-time program of State. For this reason the pictures are being made much earlier than last year and as a result the schedule for making them must be followed as closely as possible.

Following is a schedule of photograph appointments by which all freshmen are to have their Agromeck class pictures made. In order that there be as little congestion as possible, the schedule should be followed as closely as possible. All students should be dressed in white shirts with a tie, and should be wearing a dark coat.

Friday: 7-11 p. m., 1st floor Bagwell Hall, and all floors in Berry Hall.

Monday: 4-6 and 7-11 p. m., 2nd and 3rd floors of Bagwell.

Tuesday: 2:30-5:30 and 7-11 p. m., all of campus students.

Wednesday: 7-11 p. m., all freshmen who find it impossible to be there previously. This will be the last day; don't be in this last minute rush unless absolutely necessary.

There will be an important meeting of the Agromeck editorial staff at 5:30 on Monday afternoon in Room 101 at the Publications Building. All new men interested in earning a position on the staff of their college yearbook are urged to be present.

### Judging Team Works Preparing for Show

Dr. D. E. Brady Is New Coach of Judging Team

Working out this year under the direction of a new coach, Dr. D. E. Brady, the State College livestock judging team is working out daily in preparation for its first competition at the Baltimore Livestock Show, Monday, Oct. 12.

Dr. Brady joined the animal husbandry department this summer, and hails from the "hills of Idaho." Some of the carryovers from last year's squad are Claude Cockerham, Albert Ramsey, Bruce Eaker, Graham Penny, Harvey Holland, and J. E. Barnhill.

A five man team will be chosen at a squad competition tonight. This group will continue practices until next Friday when they will leave for Baltimore.

### BEHIND THE GUN

### State-Raleigh Day To Feature Parade

For the second consecutive year State College and the City of Raleigh will join in cementing their relationships at a city-wide State-Raleigh Day, Saturday, Oct. 17.

The State-Wake Forest game will be the feature attraction. At a time which has not yet been announced a non-motorized parade will be held on the streets of Raleigh. No conveyances requiring the use of rubber or gasoline will be permitted in the parade, which will include entries from college fraternities and student organizations. Music will be provided by college and high school bands.

A special program is planned for the half-time intermission at the game. The committee expects to get a noted Tar Heel of national fame to take part. Last year Kay Kysner did the honors. Twelve young women will be named sponsors for the game, and will sit in a specially reserved section of the stadium.

College fraternity houses will vie with each other for the trophy which will be awarded to the best decorated. The Raleigh Merchants Bureau is providing free materials for this purpose. Merchants of the city will decorate their windows, using the theme of the day, and emphasizing the State-Wake Forest game.

A committee of student leaders will be named to cooperate with the Raleigh Merchants Committee in carrying out the plans of the day, and promotion of the observance. At the meeting Thursday morning, it was decided by the Merchants Committee to name subcommittees for the following divisions of the program: parade, merchants windows, fraternity house decoration, half-time program at game, and advertising. Wade Lewis and W. D. Crosby will appoint the chairmen of the subcommittees Tuesday afternoon.

The next meeting of the Raleigh Merchants State-Raleigh Day Committee will be held next Thursday afternoon. The student leaders committee will be in attendance.

### Girls Lots Prettier And Food Better At Leazer Dining Hall This Year

By BOB POMERANZ

There's no doubt about it, our dining hall girls are getting prettier every day. And, if Bill Thompson has his way, we're going to have nice looking young things around the place.

The stress on nice looking girls is just one point in the program to improve Leazer Dining Hall formulated by E. Graham (Bill) Thompson, newly appointed manager.

After over twenty years of continuous service as Steward, the student's old friend, Louis Harris, decided that he could use a little rest, and some new blood might do our dining hall some good. So, Mr. Harris decided to concentrate all his time on food purchasing, and he turned over the actual management of the cafeteria to Bill Thompson.

Hall. And, if the start he's made is any indication, Bill Thompson is a crack restaurateur.

This business of running an eating place for all the folks on the campus is much bigger than it might appear. On a typical day this week, 5239 meals were served at the three sessions. Wednesday alone, more than 2150 persons ate lunch in the cafeteria.

The figures of the quantity of food consumed are truly astronomical, but we need not go into them now. Suffice it to say that the cafeteria has over eighty regular employees and is seeking twenty student assistants. All bread, cakes, and pies served are baked in the building. And, a higher standard of cleanliness exists than in almost any restaurant in town.

Better Salads Perhaps you've already noticed some of the changes in the menu. Salads are a big item to Bill Thompson, and in recent weeks they've been dressed up considerably, and the variety and quality

### Technician Backs Campaign Engages All State Colleges In Huge 'Battle Of Scrap'

\$57,000 Accessible To State Students Under Gov't Loans

New Government Program Makes Funds Available To Students Needing To Complete Technical Education

A total of \$57,000 has been made available for loans to State College students by the Federal Government under a minimum approved bill to provide \$5,000,000 to help all over the country as students in completing their technical courses.

Since the maximum loan to any one student is \$500 during a 12-month period, a minimum of 114 State students will be able to participate in the loan fund. Only 35 applications have been received so far, and the first group will be considered by the regular college loan committee within the next ten days.

The loans are available on this campus only to students in engineering and textiles who will get their degrees before September, 1944. Actually the maximum sum permitted to any one student will be enough to cover tuition and fees plus \$25 a month, but in no case may the total exceed \$500 during the twelve month period.

Need for the loan is perhaps the major requirement. Only those who will be unable to complete their required courses, and unable to attend the accelerated sessions, will be eligible for loans. Attendees continuously at every session from now until graduation is another requirement.

Repayment to the government will be made through the college, which will also make the loans direct, and account started one year after graduation in four equal annual sums. If the student is drafted while still in school, the loan is cancelled, and should be called into the army after graduation the repayments will not start until 12 months after discharged.

### Get Your Dough

Distribution of money collected for the more than 500 books which have been sold this year through the Student Book Exchange will be started Monday, Leonard Linten, manager, stated Thursday.

Actually, the sale of books will continue until next Wednesday, but students who have left their books may check by the Book Exchange office in Publications Building starting Monday to collect for those sold. The Exchange will be open from 1:30 to 6 p. m. next week.

The Book Exchange is operating again this year under the guidance of Bob Boyce, Student Council president, and Marvin Hagan is working with Manager Linten.

Entire Manpower of State Needed; Drive Starts At 1 p. m. In Riddick Stadium

State College students are urged today to get into the scrap!

The greatest project ever undertaken by State College men will be staged on the campus next Wednesday afternoon when a mammoth scrap metal round-up will be conducted under sponsorship of The Technician and the Student Council. It will be our big chance to show State College men on the fighting fronts that we are backing them to the limit!

Every student not on class Wednesday afternoon is expected to help!

Report in Riddick Stadium at 1 o'clock Wednesday and wear your working clothes! If you can't come at 1 o'clock come as soon thereafter as possible. But come!

The nation's steel mills need the scrap metal to keep our fighting forces armed. The need is urgent and all-important.

We must do our part! Confident that the campus scrap round-up will be a great success, Don Barksdale, Technician editor, and Bob Boyce, Student Council president, last night issued a challenge to all other schools in North Carolina—regardless of whether they are colleges, universities, prep schools or what.

They challenged these schools to meet State's total tonnage of scrap. So it will be a gigantic "battle of scrap"—a battle of world-wide implications because today our armed forces—and they include hundreds of State College men—are the hope of the world.

Preliminary plans for the scrap round-up have been accorded enthusiastic support. Col. Harrelson and the administration are solidly behind it. W. F. Moore, head of the service department, has pledged his support. The State salvage campaign committee, with a hundred newspapers aligned behind it, is ready to give the State College drive widespread publicity.

A preliminary survey of the scrap metal on the campus has been made, and there is plenty of it. One of the first items to go on the scrap heap will be the Spanish-American War cannon in front of Riddick Hall.

Trucks will be available to help move the scrap. Funds from the sale of the metal will be used in campus beautification projects.

Arrangements for the "battle of scrap" are practically completed. All that is needed now is manpower—and more manpower. This college possesses it in abundance. Every available student must help Wednesday.

We must not have any slackers! At assembly yesterday, several hundreds of freshmen volunteered to help, showing a wonderful spirit that should inspire every other class and organization on the campus.

Group leaders will be announced at the scrap rally Wednesday, and each group will receive definite assignments.

Col. Harrelson is requesting members of the teaching and administrative staffs to cooperate to the fullest extent possible. They will notify the College News Bureau of available scrap in and around their buildings, and squads will be sent to get it.

The scrap will be piled in a central place, a temporary monument to the patriotism and labor of State College students, and will be hauled away and sold under supervision of the State Division of Purchase and Contract, which will give the receipts to sponsors of the drive. (Continued on page 4)

### Thompson Chairman At '43 Student Meet

Walton Thompson of Black Creek, senior in horticulture at State College, has been elected chairman of the Southern Student Conference, held annually at Blue Ridge, for next year's session. It was announced yesterday following a meeting in Greensboro of the executive committee of the Southern Field Council of the Student YMCA.

The conference is held each year in June under auspices of the student YMCA's and YWCA's in 10 southern states. Miss Sarah Flynn of the University of South Carolina has been elected co-chairman for the YWCA Council. (Continued on page 4)

### Speaker

Principal speaker at N. C. State College's 53rd anniversary celebration tomorrow will be Graham H. Anthony, Hartford, Conn., industrialist and an alumnus of the college. He received his bachelor's degree in mechanical engineering in 1914 and his Master of Engineering degree in 1921. He is native of Shelby, and now is president of Veeder-Root, Inc., makers of a wide range of precision instruments.

### Rushing Nears Close; Greeks Still Sweating

Greeks Wrangle and Sign As Contest For Men Intensifies

Saturday will mark the close of the 1942 rush week for State College's 15 Greek fraternities. For the nearly 1100 new men on the campus, it will be a novel and exciting affair, but to the members of the various fraternities, it will mean a lot of hard work and real cooperation trying to select the men that best fit their particular group.

Rush week began with two days known as "visiting" days. This year, Saturday and Sunday made up that period when the new men visited the various chapter houses and made dates for rushing. The fraternities really started entertaining the prospective new members Monday and will continue throughout the week until midnight Saturday. Dances, parties, smokers, and feasts are the common affairs. At the end of this time, bids will be mailed out by the individual fraternities to the men selected by them and the new men given a sufficient amount of time to reply.

Several years ago, the State College Interfraternity Council inaugurated delayed rushing, a system whereby fraternities did no rushing until the beginning of the second term. However, due to the fact that the council did not get full cooperation from the fraternities, (Continued on page 4)

### No Slackers!

There must not be a single slacker in the "battle of scrap" Wednesday afternoon.

Every student who is not on class, in a laboratory or sick in bed is expected to be in Riddick Stadium at 1 o'clock—or shortly thereafter—to work in the scrap round-up.

Men who spend the afternoon loafing will be slackers. All of us must help.

Put on your working clothes Wednesday afternoon and get into the scrap!

## Wanted: Lots of Junk

Get in the scrap!  
In cooperation with other newspapers of the state, the Technician and the student council are sponsoring a drive for scrap metal on the State campus next week. To lend a competitive air to the campaign, the Technician has entered the race with all of the other newspapers in the state that are participating in the drive and with the help of every one of 2,500 students, we will show the rest of the Tar Heels what a real scrap pile looks like.

Colonel Harrelson has allowed the old cannon that has long stood guard over the campus to be dragged in as salvage and with this for a start the drive will produce an enormous quantity of redeemable metal.

Now is your chance to really do something that will have a direct bearing on the success of the offensive for which America has been preparing. Picking up a chunk of an old auto frame or the remnants of an iron fence may seem like a trivial thing to do, but the continued production of the necessary equipment for our fighting forces from Alaska to India and from Ireland to Australia depends on just how many frames and fences we do pick up. Donald Nelson, head of the War Production Board, has called attention to the serious shortage of scrap metal and unless the intake can be picked up considerably in the fall months, war production will slow down or even stop in the winter months.

And that is where State comes in.  
For years we have been turning out the finest officer material in the South for our armed forces and now we are called upon to do our share in supplying them something with which to fight. About the campus are untold tons of valuable metal that can be carted to the salvage bins and begin their journey to the far-flung fighting fronts as tanks, guns, shells, and planes. All sorts of metals are wanted—steel is needed primarily, but all types of metal can be used including old iron, tin, aluminum, brass, and copper.

Trucks have been provided on the campus to haul the metal to a central pile, and all students should make it a part of their daily schedule throughout the week to beat a path to the trucks with some sort of scrap. Just toss it in brother, and we will see that it gets tossed all the way across both oceans and right into the laps of A. Hitler and cronies.

## We Salute Him

— On September 29, 1918, B Company of the 120th Infantry regiment from North Carolina led an attack against the Hindenberg Line that culminated in the breaking of the German offensive power and brought World War I to an end that fall. Two hundred and fifty native sons of the Tar Heel State formed B company of the Thirtieth Division on that morning. By the fifth of October there were only a dozen or so men left alive in that fighting outfit, and by the end of the war over 300 replacements had been assigned to the 120th.

Wednesday of this week, twenty-four years later, less than a score of the remaining veterans of B Company met in the State College Armory for a barbecue dinner in a quiet observance of that day. No fanfare preceded their celebration, yet this meeting was the first gathering since that other September morning that had been held under war time conditions. Most of the men were residents of Raleigh and even though their paths had diverged since the end of the other war, this meeting brought them together again with the same unity of purpose that had bound them together before. But this time their task is different; they will not be at the front this time—they did their part before—their task is greater now. The youths who are receiving their training in such schools as State to be better fighting men and better Americans are depending on them for guidance and backing; depending on them for help and advice when the going gets tough; depending on them to help mark the path toward a permanent peace.

And so to Professor W. S. Bridges of the State College faculty who, as a staff sergeant of the 120th on that day helped lead that attack, the Technician extends its highest compliments. We are indeed fortunate that we have such men to guide us and we take great pride in knowing that he was one of the men of that great company, and yet greater pride in knowing that such men are now backing us to the limit.  
Our congratulations, sir!

## NOTICES

**AICBE**  
A meeting of the AICBE will be held Tuesday night, Oct. 6, in Winston Hall. All new students are invited to attend.  
TOMMY HUGHES, Pres.

**USNR**  
There will be a meeting of all State students holding a commission in the Naval Reserve on Monday, Oct. 5, at 2100, in the Council Room of the YMCA.  
GEORGE E. LANGLEY.

**PI TAU SIGMA**  
The members of Pi Tau Sigma, honorary mechanical engineering fraternity, will meet this afternoon at 4:30 in Page Hall.

**A.S.C.E.**  
The A.S.C.E. will have a short but important meeting on Tuesday at 7:00 p.m. in Room 203, Civil Bldg. All members are urged to attend.  
JIMMY KELLY, Pres.

**WATAUGAN STAFF**  
All men interested in working on editorial staff of the Wataugan... A meeting will be held on Tuesday at 5:30 p.m. in the Wataugan office, Room 201 Publications Bldg.  
JIMMY KELLY, Editor.

**GAMMA SIG'S**  
There will be an important meeting of Gamma Sigma Epsilon Tuesday night in Room 113, Winston Hall, at 8:00 p.m. It is urgent that every member be there.  
BOB EPPES.

**S.A.M.**  
There will be a meeting of the Society for the Advancement of Management Tuesday night in 1911 Building. This is the first meeting of the year and all old members are expected to attend. Freshmen in Industrial Engineering are invited to be there.

**I. A. E. S.**  
There will be a meeting of the I. A. E. S. Tuesday, October 6, at 7:00 p.m. in Room 100, Page Hall.

**MONOGRAMMERS**  
The meeting of the Monogram Club October 6 will be held in Leazer Dining Hall at 6:00 p.m.

**SOPHOMORES**  
A meeting of the Sophomore Class to elect officers is scheduled for Tuesday noon, Oct. 6. Attendance is compulsory.

**SOUTHERN ENGINEER**  
Meeting of Southern Engineer editorial staff Monday at 7 p.m. Freshmen are invited.

## Our New Female Tells A Gal's Side of State

By LURLINE PARKER  
Every year you have coeds, but this year you have more! We "newly arrivals" have been somewhat amused at the various attitudes adopted by the gentlemen of the campus. Let us hasten to add that the dog-eared expression about chivalry is not entirely false! The overwhelming amount of attention has proved that the Y.M.C.A. is a definitely fine, upstanding Christian organization—but there should be a special department set aside for the guidance of lost, strayed, or stolen females.

We know very well that you have seen skirts around before, but that old characteristic American whistle is still there. You men are frankly as curious as we are about the thing being. It is hard to disguise that "Johnny Eager" gleam in your eyes. We venture to add that it will disappear after a week or so when something else new and different looms on the horizon to divert your attention.

We often wonder what would happen if you men could see yourselves as women see you. Those smug, self-satisfied, confident looks that some of you wear; those superior attitudes that confront us. Yet sprinkled throughout these superficial observations we are pleasantly surprised to find you are Good Samaritans—those who are sincerely helpful.

## Now He's Getting Smart

## State's Phenomenal Growth Noted On 53 Birth Date Tomorrow

By C. A. UPCHURCH, Jr.  
Raleigh's biggest business is North Carolina State College. Civic pride and elation would reach towering peaks if within the city there had grown up a dozen manufacturing plants spending annually a quarter of a million dollars each, plus several \$100,000 enterprises.

Yet, all those industries combined would not exceed this year's budget of the college, including the Agricultural Experiment Station and the Agricultural Extension Service. Few have recognized State College's powerful impact on Raleigh's business structure, its vast contribution to the community's economic well-being. Most of us have taken the college's phenomenal growth for granted, little realizing the tremendous financial benefits which accrue to Raleigh through the college.

Combined budgets of the college, experiment station and extension service this year allow for the expenditure of \$3,155,468, excluding financial dealings of the Athletic Association and numerous non-reportable activities of the college. Neither does it include the estimated \$250,000 (at about \$100 per head) which students spend off the campus each year or the money spent here by their parents for services and commodities offered by local enterprises.

In addition, by providing space for the Agricultural Adjustment Administration and Farm Security Administration headquarters, the college has been instrumental in adding another \$800,000 annually to Raleigh's payroll.

It's a pretty valuable industry, isn't it? And the money angle, of course, is only one facet of the college's many-sided contribution to a higher standard of living not only in Raleigh but throughout the State and wherever State College graduates settle down to put their invaluable technological training to work for humanity's benefit.

The State itself—and this is of interest to local taxpayers—is scheduled to put out only \$744,203 in this year's budget of more than \$3,000,000. Students will contribute more, \$233,000 to be exact, not counting what they will spend off the campus.

And the Federal government will put in \$1,191,389, with \$141,000 going to the college itself and the remainder to the experiment station and extension service. The remainder of the budget will come from sales, gifts, rents and other miscellaneous receipts.

## GLEANINGS

**Don't Expect Too Much.** Despite all the big talk you heard at the end of last year, it looks like very little action can be expected from our big-shot seniors this year. A certain lethargy has overtaken most of them, and the idea of graduating predominates in all their minds.

There's one big exception to this, though, and that's Bill Womack, who seems to be set for another year of important work. Senior Class meeting Tuesday was just one indication—Bill was named chairman of one special committee, made a member of a second, and asked to do a third job for the class. And, he's presy of Golden Chain, besides.

It seems that some of our venerable dorm assistants may be acting like big kids—they're feuding with their new boss. A few of them are up in arms, however, and the difficulty should be ironed out at once. It sounds like a misunderstanding, and no doubt a good crying session among all concerned will help iron out the difficulty.

**Look At Him Now** The story was told by Engineering Dean Vaughan the other night, and it concerned Graham H. Anthony, who will be principal speaker at the Anniversary celebration tomorrow.

Mr. Anthony entered State in 1906, busted out after the first year, re-entered a couple of years later, and finally graduated in mechanical engineering in 1914. Now he's a top industrialist, and reputed to be in the \$100,000 annual salary class. You figure out the moral to this.

Again this year, this newspaper is being printed in the College Print Shop, which is owned jointly by the Publications Board and the General Alumni Association. These folks who run the Print Shop are top-notch professional printers, and the quality of the printing is easily seen. We get most other college newspapers at the office, and in comparison the Technician stands out like a shining beacon for the excellence of its printing job. Thought you'd like to know.

**Some Salty Naval Stories** A bunch of seniors who were off working for the Navy as probationary engineers this summer have returned with interesting stories. For instance, you might ask the venerable editor of this paper exactly where it was that he had to take those six stitches.

After wearing uniforms all summer, some of them have been having trouble sticking to the Navy rule about remaining in civilian clothes except for military occasions. You know how the gals will go for those Navy blues. The other night Max Sayah decided that his date with a Naval Captain's daughter at St. Mary's was a military occasion. Boy, did he look good!

Continuing on the military situation, the new salute rule sure adds a certain something to the campus. It appears that the freshmen are happier about the whole thing than the upperclass officers.

And, the new Signal Corps battalion has gotten started with a rush. All the upperclassmen are genuinely pleased that they've been assigned to the new group, even though all are not electrical engineers. It could be the "walkie-talkies" but we hear that the real reason is their swell new officer, Lieut. Quinlan.

**No Hand-Picked Frosh** Take a run out to the Track Stadium some afternoon to get a look-see at our brand new freshman football squad. It's the first in recent years around here that doesn't contain hand-picked players—that is, men who've been given scholarships to play for State. The reduction in Wolfpack Club funds made it necessary this year, but that doesn't mean we won't have a fine fighting frosh ball club, under Coaches Woody Jones and Jack Singer.

By now even the slowest among us has gotten his room settled, and all the junk put away in the place it will rest for the balance of this year. How few of us have guts enough to throw out the useless stuff instead of holding on to it with the hope that it might be of some use one day.

There's one thing you can do. Each dormitory door should have a card with the names, hometowns, courses, and class of the occupants. It helps loads all around, make one out first chance you get.  
Keep 'em scrapping. BOB POMERANS.

## BULLETIN

### ALL STUDENTS MUST FILE TIME SCHEDULES

The changes in Registration Procedure made this summer include the following items:

1. On the day designated, after the final date for changes (Saturday, October 3), each student must file two copies of his time schedule (the hours at which all his classes are held) for the fall term in the office of the Dean of Students. Thereafter, each student will be held responsible for keeping his time schedule corrected.
2. A fine of fifty cents will be imposed on each student for failure to file his schedule on time. This fine will be used to pay for extra labor costs in the office of the Dean of Students made necessary for the collection of late schedules.

For convenience in filing these TIME SCHEDULES, the following arrangement has been made:

1. Students whose last names begin with A through G will file their time schedules on Monday, October 5.
2. Students whose last names begin with H through P will file their time schedules on Tuesday, October 6.
3. Students whose last names begin with Q through Z will file their time schedules on Wednesday, October 7.
4. Delinquent schedules may be filed without penalty up to 4:30 p.m., Thursday, October 8.
5. Thereafter, a penalty of 50 cents will be charged.

This time schedule shall include courses for the fall term only.

For the convenience of students, blank time schedules may be secured at the following offices:

1. Dean of the Basic Division.
2. Dr. Z. P. Metcalf, Zoology Building.
3. Dean L. L. Vaughan, Civil Engineering Building.
4. Mr. T. E. Browne, Tompkins Hall.
5. Dean Thomas Nelson, Textile Building.
6. Dean of Students, Holiday Hall.
7. English Department, Pullen Hall.
8. Mathematics Department, Tompkins Hall.

E. L. CLOYD,  
Dean of Students.

# Pack Meets Clemson Tomorrow

## Wolfpack Mentor Serving Sixth Year

Tall, slow spoken Doc Newton is now in his sixth year as director of the Wolfpack. So popular has he become at State that his contract, due to expire at the end of the 1941 season, was renewed in 1940 for three more seasons. In 1937 he came to Raleigh to take over a very difficult job and has been successful in bringing about more harmony than the college has enjoyed in a long time.

Doc Newton's story is an example of how the high school coach can work his way up the ladder to a big time position. His first experience came in 1924 as Coach of Jones Valley high school in Alabama. In 1925 he entered the college field and until 1930 was an assistant and freshman coach at Birmingham-Southern and Howard Colleges.

In 1931 he served as scout for the University of Tennessee, and the following year he was named head coach at Davidson College. In five years at Davidson he produced teams which won popular favor because of their fine showings against higher ranking opponents. His record with the Wildcats was 28 victories, 17 defeats, and 5 ties.

Coach Newton is a native North Carolinian. His father is a retired Baptist minister of Thomasville. Doc began his athletic career at Cluster Springs Military Academy in Virginia, and his college days were spent at the University of South Carolina.

However, the World War broke into his athletic career and he obtained the rank of captain in the Army. Professional baseball claimed his attention after the Armistice and he played in the high minor leagues, being a member of the famous Baltimore Orioles of the early 20's. Now he serves as head coach of baseball at State, and he has coached the famous Gastonia American Legion Junior Baseball team which won a national championship and which sent several players to the big leagues.

Since being at State he has carried out a promise to send the Wolfpack against the best possible opponents. Because of the difficult schedules, the won and lost record isn't so impressive. However, State followers feel that the brand of ball offered by Newton's teams is the best seen in Raleigh in more than a decade.

He is married to the former Miss Annie Dee Rogers of Birmingham, Alabama, and they have two children, Jean and Jimmy. Coach Newton is an excellent golfer. The family lives on a 45-acre farm located five miles from Raleigh.

This is the third year that Newton has employed the straight Tennessee system. A keen student of the game, he is the originator of several well known plays which have been copied by numerous coaches.

## Schedules Posted For 'Mural Teams

October 5 is the opening date for intramural touch football and consequently starts the competitive ball rolling for this school year. At a meeting last night, Prof. J. F. Miller told 28 managers and representatives that the intramural sports program this year was slated to supersede all previous seasons. First round football rosters were distributed.

Rules governing protests, forfeits, postponements, and other facts are posted on the gym bulletin board. Every member of a club is urged to read this information.

**First Games**  
The first tussles in the dormitory division take place on October 5 with Berry Dorm meeting Clark, the game to be played on 1911 Field, and with first floor Beeton meeting second floor Beeton on Freshman Field. The fraternity season opens on the following day with Pi Kappa Alpha meeting Al-

pha Kappa Phi on Freshman Field and with Sigma Phi Epsilon meeting Sigma Pi on 1911 Field. The next games in this division take place on October 8 with Pi Kappa Phi taking on Sigma Nu on Freshman Field and with Phi Kappa Tau meeting Lambda Chi Alpha on 1911 Field.

**Swimming Starts Soon**

The competition in swimming this year will be run on a slightly different schedule from that of last year. The entire fraternity slate will be run off on October 26 at 7:30. Three days will be given to the running off of dormitory swimming events. The freshman dorms will have preliminaries on October 29 and the upperclassmen will run their dormitory prelims on November 2. The finals in dormitory competition will be on November 17.

No organization will be allowed to enter more than two men in any one event, and no individual will be allowed to compete in more than three. The events are: 25 yard dash, 50 yard back stroke, 100 yard swim, 4 man relay of 100 yards, fancy diving, plunge for distance, and underwater swim for distance.

**Wrestling Plans**

Three days will be devoted to fraternity wrestling competition—November 3, 11, and 24. The dormitory prelims for the 120 lb. through 160 lb. classes will be held on November 5, while those weight classes above 150 lbs. will meet on November 12. Finals will be run off on November 19, and finals on November 24. All campus meets will be held at a later date.

## ASME Fetes Vaughan In Rise To New Post

At a supper meeting Tuesday night, the campus chapter of the American Society of Mechanical Engineers, congratulated Prof. L. L. Vaughan, head of the M. E. Dept., on his elevation to the post of Acting Dean of Engineering. Plans were laid by the ASME for several activities for this term. A welcome party will be held in a few weeks for all fresh M.E. students. Induction of new members will take place shortly thereafter, from among eligible sophomores and junior students.

President Irv Hetherington told of the progress which had been made in refurbishing the senior drawing room, which will serve this year as ASME headquarters. Some decorations remain to be obtained, but formal opening of the room is planned in the next few weeks.

**CORDUROY Reversible COATS \$6.95**

**FINE'S Men's Shop**  
Cor. Fayetteville & Hargett Sts.

## "Peanut" Doak

The crowd was small but the noise was big when stocky Peanut Doak taught the Richmond Spiders how punts should be returned last Saturday night. There is no doubt in anyone's mind that Doc Newton was right in naming Peanut the most improved player on the Wolfpack squad last year, and he hasn't stopped improving yet. The crowds can look for more and better football from Doak as the season progresses.

## Queen City Plays Host To Four College Teams

**Newton's Squad Set for Revenge; Seek Reversal of Last Year's Score of 27-6**

Football fans of the Queen City will get their biggest pigskin treat of the season Saturday when State College and Clemson play in Charlotte's American Legion Stadium at 4 o'clock, and Davidson meets Rollins in the same arena at 8 p.m.

The State-Clemson game is a "natural." Teams representing the two schools have previously met 16 times on the gridiron, and Clemson eleven hold a big margin of victory with 12 triumphs, only three losses, and one tie. Last year's encounter resulted in a 27-6 win for Clemson before a crowd of 16,000, the largest in Charlotte football history.

Clemson and State have almost identical records as they come up to their third games of the current season. State opened up with a scoreless tie against Davidson at Wilmington, then improved considerably to whip Richmond University's Spiders 13-0, here in Raleigh last week-end. Clemson scored a convincing 32-13 victory over Presbyterian on September 19, then was held to a scoreless tie by VMI last Saturday.

Coach Doc Newton of the Wolfpack will take a small but talented squad to Charlotte for this week's game. Only 37 men comprise the State football roster, but among them are Peanut Doak, the Raleigh boy who thrilled the fans last Saturday night with his punt return; Art Faircloth, blond-haired passing ace from Washington, D. C., and a host of other well known performers.

Head Mentor Frank Howard of Clemson has only eight lettermen on his squad, but among them are such powers as Captain Charlie Wright at end and John "Bully" Cagle at tackle. The Clemson squad is largely made up of sophomores.

## Wolves' Right Flank

After the game was over last Saturday night, Coach Doc Newton told newsmen that he was especially pleased with the play of Big Hoot Gibson, the Gastonia boy who holds down right end of the starting eleven. Up against an extremely tricky T-formation, against which the

ends have one of the hardest jobs to perform, Hoot's quick diagnosis of the Richmond plays was responsible for smashing a lot of those end runs and off-tackle plays that the Spiders tried so often.

## Fat and Feeder Show Announced by Barnhill

The Eastern North Carolina Fat and Feeder Calf Show and Sale will be held October 13-14 at State College, J. B. Barnhill, president of the Ag Club, announced yesterday. Archie Sink is student manager for the event, which is being sponsored by the Ag Club and the North Carolina Bankers Association. The association will pay premiums totaling about \$500, and there will be a number of special awards.

4-H Club boys and girls from Piedmont and Eastern North Carolina will predominate with entries in the show. All animals shown will be placed on sale. Animals will be housed under the stadium in stalls arranged by agriculture students, and the show and sale will be conducted at the north end of the east stands. Judging will begin at 1 o'clock October 13 and the sale will start at 1 o'clock of the following day. Dean I. O. Schaub, head of the

School of Agriculture, will be toastmaster at a supper in the west cafeteria the night of Oct. 13 for exhibitors and other invited guests. About 75 animals are expected for the show and sale. Dr. J. E. Foster, professor of animal husbandry, will be the judge, and Oscar Pitts, director of the State

penal division, will be the auctioneer. L. I. Case and H. W. Taylor of the Agricultural Extension Service will serve as manager and sales manager.

E. A. Wayne, secretary of the N. C. Bankers Association, is in charge of arrangements for his group.

**MORGAN'S MUSINGS**  
By JIM MORGAN

**About Punt Returns**  
Nothing in the Richmond game thrilled the spectators any more than the spirited punt returns of Peanut Doak. One thing we noticed particularly was the fact that no matter how close the opponents were to him, Peanut invariably picked up the drunched ball and struck out with a will. You just can't stop a team that has a fellow on it with Rock's driving power. "Daddy" Doak has been smiling ever since.

**Teague's Tops Too**  
Sophomore Eddie Teague took advantage of a prime chance to make a touchdown—one that the first string had been working for during the whole fourth quarter. His drive over from the one yard line just three minutes before the

### Seniors Are Overcome; They Eat Privately In New Dining Hall

#### Two Private Dining Rooms In Rear of Leazer Hall Give Seniors Exclusiveness

Whether they like it or not, our wanted seniors are going to get a special privilege on the campus, at long last.

Starting next Thursday, the two private dining rooms which were constructed this summer in the rear of Leazer Dining Hall will be reserved for the express use of the senior class, and will be known as Senior Dining Rooms, at any meals when no other campus organization arrangements for their use.

Placards posted at the entrance to the rooms and a flag or a placard at the front of the cafeteria will show whether or not the room is available to the seniors.

The idea of having a Senior Dining Room was discussed last year, and when the matter was brought up at the Senior Class meeting Tuesday, Bill Womack, Bob Fomernan, and Addison Hawley were named as a committee with authority to make the arrangements.

The approval of Mr. Ed King, Y secretary who sponsored the building of the rooms; Mr. Bill Thompson, manager of the dining hall, and Dean Harrelson was quickly gotten. It was felt that some State College tradition might result from

### Lecturer

Roy E. Dickerson, well known on the State campus from his past visits here, returns to Raleigh tomorrow for another series of lectures. He will speak on "This Business of Falling In Love."

the move. The official Dining Room Steering Committee voted last night to give the proposition a trial.

Whether the creation of a Senior Dining Room will pass from the trial stage to something permanent depends greatly on how the seniors accept it. Over 100 seats will be available for use at any one time, and it is expected that the whole class will be easily accommodated during the regular hours. Seniors must go through the regular cafeteria lines, and then may enter the Senior Dining Room.

### Forty-One Students Are Awarded Degrees Harrelson Announces

#### Degrees of Those Who Completed Work During Summer Session Approved by Faculty

The State College faculty has approved the awarding of degrees to 41 students who completed their work during the recent summer session. Col. J. W. Harrelson, dean of administration, has announced.

Diplomas, which will go to the graduates by mail, include four master's degrees awarded to Y-Sun Cohn Ding of New York City and Samuel Melver Watson, Jr., of Sanford, in chemical engineering; Everett Kermit Veach of Sassafras Neck, in agricultural education; and Ralph Wiggins Wrenn of Raleigh, chemical engineering.

Bachelor's degrees were awarded as follows:

Agricultural chemistry, Anderson Moore Oldham, Durham.

Agronomy: William Hundley Hoyle of Henderson and George William Wilson, Jr., Danville, Va.

Animal production: George Mark Goforth, Jr., Lenoir, and Clawson Alexander Wilder, Carthage.

Pomology: Arnold Krochmal, New York City.

Aeronautical engineering: Edwin Braxton Gordon Heath, Statesville.

Ceramic engineering: Charles David Taylor, Portsmouth, O.

Chemical engineering: Silas Edward Carroll, Jr., Raleigh; John Thomas Rose, Jr., Rocky Mount; Richard Robertson Saunders, Jr., Reidsville; and Charles Willard Whittington, Snow Hill.

Civil engineering: Roland Francis Duncan, Dunn; Pasquale Paul Ingrissano, Brooklyn, N. Y.; and Harry Gordon Heath, Statesville.

Electrical engineering: Wade Vance Baise, Jr., Raleigh.

Geological engineering: Roy Howard Boone, Spruce Pine.

Industrial engineering: James Sheridan Gray, Elkin; William Edward LeLoudis, Rocky Mount; and Edward F. Parnell, Jr., Charlotte.

Mechanical engineering: William Eugene Jordan, Jr., Charlotte; Robert Berry Stevens, Jr., Camden; George Vincent Strayhorn, Spencer; and Ernest Harris Curtis, Greensboro.

Agricultural education: William Cox Shaw, Richlands.

Industrial arts education: Robert Frederick Elliot, Rich Square.

Textile chemistry and dyeing: Hobart Garland Ferree, Jr., High Point, and Gene Woodall McGarity, Charlotte.

Textile management: Milo Lemert Gibbs, Bath, and Morton Henry Lamport, New York City.

Textile manufacturing: John Allen Aray, Jr., Raleigh; James Edgar MacDougall, Jr., Charlotte; Evan Wilkins Norwood, Jr., Beaufort; Flay DeWitt Quinn, Jr., Washington, D. C.; and Alfred Henry Pierce, Hamilton, Ontario, Canada.

Weaving and designing: Betty Ruth Thompson, Raleigh.

### Sig Ep's Buy Bond

Proudly holding a \$2,300 defense bond are George Culberson, left, and Ted Hardaway, members of the Sigma Phi Epsilon fraternity of State College. The picture was made at the chapter house just after the fraternity had turned the money from its building fund into the purchase of the bond. Culberson is the alumni secretary and Hardaway is the comptroller of the local chapter. (Courtesy News and Observer.)

### Senior Spotlight

By BOYLE ADAMS

The Spotlight, roving slowly over the members of the Senior Class pauses first this year to sharply outline the figure of Robert Davis Boyce, president of the Student Body.

Better known as "Bob" Boyce, this B.M.O.C. was born in Woodland, N. C. on July 13, 1922. He claims that his grammar school and high school days were comparatively uneventful. He does admit, however, that he was a "bear cat" with the girls, and regretfully states that whatever attraction he may once have held for the fair sex seems to have worn off with the passing of time.

In high school, Bob played basketball and baseball and won letters in both sports. His favorite sport now is tennis. He was an active member of the FFA and won both State Farmer and American Farmer degrees, the highest honors obtainable in that organization.

Boyce entered State College in September 1939, and is due to graduate in March 1943. He is in the school of agriculture, majoring in Plant Pathology. After graduation and with the end of the war, he hopes to work for the College Extension Service.

Last May, Bob was elected Vice-president of the Student Body, with Larry Hardin as President. Upon Hardin's acceptance of an appointment to West Point, Bob automatically became President. He is convinced that this year's Student Council is as fine a one as has ever existed here at State. According to Bob, the Council plans to revise the Constitution and make it one that

can (and will) be enforced. He also says that the council plans to cooperate fully with the Student Legislature and to serve chiefly as the Executive and Judiciary department. He intends to make public to the students, through THE TECHNICIAN, the complete activities of the Council, as he feels that the Student Body is entitled to such information and would take more interest in the council if they knew just what was being accomplished.

Besides being President of the Student Body, Bob is a member of the Ag Club, and the FFA, Censor of Alpha Zeta, Secretary of Golden Chain, and a member of the Officer's Club, Blue Key, the YMCA, and the Ring committee. He is a past member of the "Y" cabinet, and has served two years on the student council, being treasurer last year. He has also served for two years as a dormitory assistant, and is manager of the Student Book Exchange.

Bob has no vices—that is to say he neither drinks nor smokes! He is quiet and soft spoken, and intensely active and conscientious in both his work and his play.

He likes W. C. women best, and among them, he prefers brunettes. If he has any particular one in mind, she's a deep dark secret, because your reporter was unable to make any discoveries at all in this direction.

However, there is enough room left to wish him a successful and pleasant year as our Student Council President.

sure that there's no profiteering going on.

So, let's all overlook some of the troubles during the next few weeks, and give these folks at Leazer Dining Hall a chance to provide us with a first rate eating place.

**RUSHING**  
(Continued from page 1)  
tion, it was decided to return to the old plan of having rush week just after fall term registration.

Any freshman who might want extra information about rush week can get answers to his questions if he will go to see the dean or the assistant dean of students. The YMCA Handbook also contains valuable information about State College fraternities.

### Private Dining Rooms Built By Donations From Campus Groups

#### Sixteen Organizations Contributed \$581; YMCA and Engineers Council Top List

Sixteen campus organizations contributed a total of \$581 towards the \$900 required to construct the two private dining rooms in the rear of Leazer Dining Hall.

The drive to raise the money was undertaken last year by Mr. Ed King, of the Y, and found immediate support on the campus. Blue Key took quick action and contributed the first \$25. Within a few weeks all interested organizations had announced their contributions.

In charge of reservations for the use of the rooms is a steering committee composed of Walton Thompson, Addison Hawley, Durwood Finn, J. B. Barnhill, and E. Graham Thompson. Contributing organizations will be given priority on the use of the rooms. Whenever the rooms are not used for meetings, they will be known as Senior Dining Rooms, and will be reserved for the use of seniors.

Formal dedication of the rooms will be made at a supper meeting next Wednesday night which Dean Harrelson, Mr. King, and officers of all participating organizations will attend.

Contributing groups and amounts were:

Pine Burr	\$ 15
Interfraternity Council	75

### ANNIVERSARY

(Continued from page 1)

State College first opened its doors Oct. 3, 1889, with a half-dozen teachers and about 45 students. It has progressed steadily to become one of the leading technological schools in the nation.

Last year the college registered 2,425 students for the fall term. Tabulations of the current registration have not been completed, but indications are that a new enrollment record will be set. A record number of freshmen and transfer students already has been registered.

Faculty members now number nearly 300, and the value of the college plant—outgrowth of a one-building school 53 years ago—is over \$7,000,000.

### SCRAP DRIVE

(Continued from page 1)

"battle of scrap" for the beautification project.

If you are not on class or in a laboratory Wednesday afternoon, be in Riddick Stadium for the start of the scrap round-up.

And come prepared to work! The job will take plenty of work, plenty of blisters and plenty of backaches. But the result will be well worth all the trouble and pains.

Every piece of scrap will be an added weapon for our boys now face to face with the Axis.

Let's show North Carolina, the nation and the world what State College men can do!

## Onto a Wartime Campus

Brown Alumni Photo

Three Brown University freshmen, setting foot just inside the Van Wickle Gates for first time, provide an interesting study in expressions. They are, left to right, John B. Henderson, Richard H. M. Holmes of England, and E. Kenneth Bates.

**Minor Riots Occur** when cadets of the naval pre-flight training school at the University of Iowa warm up to a game of push-ball. Three of the huge balls are in action at one time with 45 men on a team. Object is to push ball through opponents goalposts.

Collegiate Digest Photo by Long

**Rarin' to Go** — It was the first practice session for Fordham's '42 football squad but from the looks of these charging Rams they are ready for the season's opener. Left to right are Ray Elster, Bill Librera, George Cheverka and Joe McCrane.

Acme

**No Blackout Here** — While the town sleeps University of Michigan journalists burn the midnight oil in the student publications building putting out the paper for the next day. A curfew ruling permits students to stay until 2:15 A.M. when paper goes to press.

**Leads Harvard Gridders** — Coach Dick Harlow has a capable leader for his Crimson team this year in Donald Forte, an end, whose play last season was outstanding.

Acme

**An Old Campus Tradition** at the University of Arkansas is the Senior Walk, shown here through the doorway of a campus building. Names of all graduates from 1876 to date are inscribed on the walk.

**It's Either Spring — Or Fall** — on the Villanova College 340-yard obstacle course, and it looks like one of the boys didn't spring. Clipper Smith, college athletic instructor, has developed the most rugged routine of training being used in college today. Here students are going off a five-foot diving board which gives them enough spring to clear the 12-foot water hazard — or does it? International

**Portable Cooling System** — When the game gets too hot for a Yale man, he does something about it! Here Spencer Moseley, captain of the Bulldog eleven, welcomes a pail of water after a broiling practice session. Yale fans expect that Spence will be "hot" most of the season against their eastern rivals. George Adams posed. APC

**Cover Under Men** — Camouflage technique has become one of the most popular art courses at the City College of New York as modern warfare calls more and more for skilled artists. Students first work out a problem on the blackboard and then construct accurate, to-scale models on which the patterns are tested. The course is offered to advance design students and only to students who have thorough art training. Collegiate Digest Photo by Dworkin

Accelerated War Program Brings . . .

## Registration Rush!

Speeded-up registration this fall was in line with the entire college program as more than 800 colleges and universities shaped their curriculums to meet war demands. Texas A & M College was one of the first to inaugurate an accelerated college course to supply trained men for the armed forces. Freshmen entering this fall will finish the regular four-year course in two years and eight months by attending three summer sessions.

The nation's largest military school, Texas A & M will send about 80 per cent of her graduates into the army as second lieutenants. As soon as registration was completed, the students donned khaki uniforms and got underway with their war education. Collegiate Digest Photos by Berry

There's more to come as the cadets line up for assignment cards. A few students already are shown in uniform, and it will be only a matter of hours before "civies" are exchanged for the army garb.

And here's the change. When a student puts on his uniform, it then that he becomes a true Aggie. Uniforms are worn at all times from the first formation of the year until the last note of the alma mater song dies out on Final Review Day.

the most popular art courses at the City College artists. Students first work out a problem which the patterns are tested. The course is thorough art training.

Dworkin.

**How You Gonna Keep 'Em down on the farm?** This was a big question to mid-west farmers this year as hundreds of farm boys joined the armed forces, but it was soon answered by college girls as they rushed to give a hand. More than 35 Knox College co-eds took over jobs in the field detasseling corn for next year's seed. Lunch hours were spent talking about bobby pins and permanents. But eating was not over-looked as the girls gained an average of five pounds each.

There's no "Conga" to this line. Pockets and hands filled with schedules, programs and sundry papers add to the weary task of registering.

ange. When a student puts on his uniform, it is a true Aggie. Uniforms are worn at all times of the year until the last note of the alma mater on Final Review Day.

Registering done for some they renew old acquaintances and make new friends. But there's room for all in Texas, and when things get crowded inside, they move out to those wide open spaces.

**Book Learnin'** — Joseph Anderson of Hamilton College, N. Y., shows what the average student would look like if he drew out a full four-years' worth of books from the library at one time. Dr. Lewis F. Stieck, librarian, figured out that the average freshman draws out 10 books; sophomore, 16; junior, 24; and senior, 28. Thirteen are novels and two poetry.

**World's Record Breaker** — Coach Mike Peppe congratulates Keo Nakama, Hawaiian long distance swimmer of Ohio State University, after he set a world's outdoor swimming record of 20:29.0 for the mile course. The mark was established during the National AAU outdoor championship meet.

**Prexies Get Technical** as they learn about the operations of an "ack-ack" from Lt.-Col. Harold J. Conway. Karl T. Compton, president of Massachusetts Institute of Technology and member of Pres. Roosevelt's rubber committee, aims his sights on another war problem as Arthur C. Wilford, president of the University of Illinois looks on. Both men are members of a civilian board now formulating policies for training thousands of technical men needed for field maintenance work of the ordnance department. Acne

**Superman or Frankenstein?** — You're wrong. It's Lou Rymus, 225 pound Notre Dame tackle, wearing new type blocking pads designed by Coach Frank Leahy of Notre Dame, for use in football practice. The outfit is called "Super Fightback." Acne

**Pep Plant Discovered** — Under the guidance of Dr. S. A. Ives, head of the Furman University (S. C.) biology department, these students have developed an energy producing tonic that can be made from these plants which grow wild in the Blue Ridge section. The tonic is similar to that taken by German soldiers to sharpen their wits and give them additional strength for battle. Here they are inspecting a box of plants they dug up on a recent field trip.

## Graduation Oddities

**There Were Three Little Sisters** — William Smith College presented diplomas to the Kirchner triplets after four years of trying to figure out just who was who. Left to right are Marguerite, Catherine and Frances . . . or is it Catherine, Marguerite, Frances . . . or . . . maybe it's Frances, Catherine and Marguerite. They are one of the few sets of triplets ever to be awarded college degrees.

**He Swept School Honors** — Brooms and books are both very familiar to Isadore Goldstein, 23, a New York street cleaner. Goldstein graduated recently from Brooklyn College with Magna Cum Laude honors and a graduate scholarship. He worked days and studied nights to achieve high scholastic standing. International

# Badger 'Commandos' Invade Campus in Raid

Under cover of darkness, the "Commando" unit of the University of Wisconsin carries on its raid against the "enemies." The raid brought to a close six weeks of intensive training for the group made up of more than 100 Wisconsin ROTC members.

Commanded by Lt. Arthur Peterson, the cadets have practiced beach landings, raiding, compass reading, reconnaissance, combat and sabotage. The first unit of its kind in the country, this signaled the start of similar organizations on other campuses.

A boatload of Wisconsin commandos, their faces blackened and wearing lifelabels, leaves for the night trip across Lake Mendota for the raid.

Approaching the "enemy" shore, the commandos leap into the waters of Mendota, wade quietly, quickly to shore to commence the attack.

Sentries overcome, the commandos attack their objectives. In less than a half hour they had captured the life-size dummies of Hitler, Hirohito and Mussolini. The invading party then returned to their boats and headed back across Lake Mendota with the report—"Objective siezed—no casualties."

**No Holds Barred** — Each year Michigan State College Foresters stage a gala Paul Bunyan Shindig. All the men grow beards, and the owner of the longest set of whiskers receives a beer mug. After several weeks of trying, this student showed up with some barely visible fuzz on his chin. But it was all in fun, and he got a mug for his efforts. Prodmore

## YOU

... can make some easy spending money for yourself and at the same time see that your college is represented in Collegiate Digest by sending in pictures of events on your campus. We pay the regular professional rates for all photos accepted. Pictures should be at least 3 x 5 glossies and adequate caption material must accompany all shots. Remember candid or action pictures are preferred to posed photos.

Get your shutters clicking and send the prints to Editor

# ANY MAIL FOR ME?

What a lost feeling when you and your loved ones are far apart, and no letters arrive to bridge the gap and cheer you up. Write those letters! Letters are **YOU IN PERSON**, at long distance! Sheaffer's "TRIUMPH" is the newest *Lifeline*\* pen. We began developing it four years before the entry of the United States into war. At that time "TRIUMPH" was undergoing final rigorous tests by land and sea. It has been sold throughout 1942. Fortunately, practically all of the materials in "TRIUMPH" are of least critical nature . . . Men and women in all walks of life will value this essential gift, now and always.

Note: Fuel all pens carefully. Sheaffer's SKRIP is kind to the rubber and other critical parts of pens—makes all pens write better and last longer.

\*All *Lifeline* pens are unconditionally guaranteed for the life of the first user except against loss and willful damage—when serviced, if complete pen is returned, subject only to insurance, postage, handling charge—35c

THE WHITE DOT IDENTIFIES THE *Lifeline*\* PEN

"TRIUMPH" TUCKAWAY *Lifeline*\* Feathertouch Ensemble, \$16.50, for men or women—carries safely in any position.

There's No Rationing when it comes to Ray "Sugar" Evans Texas College of Mines grid-ders. Evans was nick-named "Sugar" while he was in high school because a deficiency of sugar in his blood caused him to faint in football games. The deficiency has been remedied, and as far as Evans is concerned, there is no shortage of sweetness.

**Co-op Prexy**  
College life takes on added importance for Margaret Rhoads this year as she assumes her duties as president of the Cooperative Government Association at New Jersey College for Women.

**Co-eds Rush to Fill War Courses** — With classics far out of mind, a group of Barnard College girls sign to take "War Minor" subjects. Most popular are economics, engineering, map reading, statistics, economic geography and modern languages. Margaret Giddings, college registrar, explains here how girls can aid the war effort.
