Honored

EDWIN D. COX

Edwin D. Cox Judged Outstanding Engineer

Edwin D. Cox of Charlotte was adjudged recently to be the most outstanding senior in the School of Engineering at State College, Acting Dean L. L. Vaughan of the School of Engineering announced. After considering the records of the leading students in the school from the standpoint of scholarship, leadership, and personality, a faculty committee unanimously chose Cox for the coveted honor. He will be given an engraved gold watch by the Engineers' Council.

In addition to making a scholastic average of 92.8, Cox has been highly active in campus affairs during his four years as a student at State College. As a freshman, he was a member of Phi Eta Sigma, an honorary society, and the Red Coat Band. During his senior year Cox is president of Sigma Chi fraternity, an assistant instructor in the Department of Physics, and a member of the YMCA Cabinet, Phi Kappa Phi, and the Engineers' Council.

Agromeck Pictures Completed Next Week

Schedule Announced for Taking of Pictures for College Yearbook; Freshmen Begin December 6

Freshmen will definitely be photographed beginning Monday, December 6. All freshmen are asked to watch the bulletin boards and the College Blue Bulletin for the time and place of their particular picture. Please be on time for these appointments so as to facilitate completing all pictures before examinations begin.

The Agromeck staff regrets that last year's proofs of upperclassmen have to be used against this term. Any student not wishing to have last year's print used this year may check by Daniel and Smith Studio beginning Wednesday, December 8, and select any other proof from their files. The difference in using last year's picture and taking another one this year amounts to forty cents. This amount has not been deducted from the two dollar picture fee, which covers engraving, space, and photograph, because the reduced size of the student body has forced the Agromeck to draw on the reserve fund of the Publications board. The additional forty cents has been

Hinkle Says Many Scientific Volume Translations By Dept.

Foreign Scientific Publications Translated By Language Group At College

Translation of 52 foreign technical publications during the year ended November 1 was announced yesterday by Dr. L. E. Hinkle, head of the Modern Language Department and director of the Translation Service at State College.

Copies of the translations, which are valuable to research workers and scientists, are now available for consultation in the State College Library, the library of the United States Department of Agriculture, and the American Documentation Institute in Washington. The Institute's copy is available through microfilm, and leading scholars throughout the world have been notified of the availability of the publications.

The new translations include scientific works originally written in German, French, Spanish, and Italian. Russian literature is now coming to the front, and Dr. Hinkle's department is working on several Russian translation projects at the present time.

The total number of translations completed and deposited since the establishment of the Service six years ago is 364. In addition to this number of formal bulletins, approximately 2,500 requests for the translation of letters and advertisements—most of which are in Spanish and Portuguese—are answered annually. The work is done by students, faculty members, and others.

State College's Translation Service is on the mailing list of the leading research centers and institutions of the world, and it translates the more important releases from these centers for use by American scientists. Thus, American investigators are able to interpret the achievements of eminent authorities in all parts of the globe.

Dr. Hinkle's work has carried the reputation of State College entirely around the world. Before the war began, he received inquiries from learned men in China, Hawaii, Greenland, Iceland, Argentina, and Europe. Other institutions have started translation services since State College opened its service, but N. C. State remains the national leader in the field. Dr. Hinkle plans a broad expansion program after the war.

A leading American educational institution has recently sent State College a congratulatory note on its work in the translation field and suggested that Dr. Hinkle formulate plans for the establishment of a great international translation center after the war to make available to all people the thought and actions of all nations in all phases of human activity.

Last year's output of translations cover a wide variety of subjects ranging from "The Dyeing and Preparation of Textiles by Means of Pigments" to the "Recent Progress of Our Knowledge on the Structure and the Disintegration of Atoms" and "On the Carotenoids of the Cryptogams."

The outbreak of war brought many restrictions on the mailing of foreign literature, and Dr. Hinkle said that his department was cut off from numerous "wonderful

Top Scholars Honored By Pine Burr Society

Nine Juniors and Four Seniors Initiated Into Oldest All-Campus Honorary Society

Thirteen top-ranking scholars have been admitted to membership in Pine Burr Society, oldest all-campus honorary fraternity, it has been revealed by Ray Lyerly, president of the organization.

Pine Burr Society was founded on this campus in 1922 to promote high scholarship; it invites to become members only those juniors and seniors who have not failed a course, whose scholastic average is not lower than 85 (out of a possible 95), and who have distinguished themselves in some college activity.

Of the 13 new members, who have been seen this week wearing the traditional pledge insignia of the society, a pine burr worn with a red and a blue ribbon, nine are juniors and four are seniors.

The juniors are: Edgar R. Cole, Phoebus, Va.; Ivey K. Collins, Forest City; Stephen L. Furches, Jr., Winston-Salem; Frank R. Geluso, Brooklyn; Benjamin I. Mann, Pendleton, N. C.; Hugh C. Merrill, Weldon; William M. Nicholson, Winston-Salem; Dwight L. Waynick, Greensboro; and Robert A. Zachary, Jr., Charlotte.

The newly-initiated seniors are: Joshua Reese Bailey, Rocky Mount; John K. Beasley, Louisburg; Robert A. Holcombe, Teaneck, N. J.; and Beverly Leak Rose, Wadesboro.

A short business meeting was held after the initiation ceremony.

News Editor

RUDOLPH PATE

Rudolph Pate New Director News Service

Rudolph Pate, above, has been named Director of the State College News Service, succeeding C. A. Upchurch, Jr., who resigned November 1 to become assistant managing editor of The News and Observer, announces Frank H. Jeter, Director of State College Publications Services.

Pate, a 1943 honor graduate of State College, resigned a position as teacher of agriculture at Barker-Ten Mile School, near Lumberton, to accept the State College post. He has had journalistic experience as a reporter for The Robesonian at Lumberton and as editor of The Agriculturist, magazine of the State College School of Agriculture, during his senior year. He has also had experience in filling special newspaper assignments. Pate is a son of Mr. and Mrs. Robert Pate of Lumberton, Route 1.

Resigns

DWYER UMBERGER

Umberger Resigns As YMCA Secretary

C. Dwyer Umberger, for nearly two years assistant secretary of the State College Y.M.C.A. in charge of self-help work, has resigned that position effective December 1.

Umberger leaves the college to accept a position with the Shell Oil Co. at Emeryville, Calif., as a research engineer, it was announced Tuesday by Ed. S. King, secretary of the college Y.M.C.A. A native of Mt. Ulla, N. C., Umberger is a 1942 graduate of State College.

Succeeding Umberger as self-help secretary will be Horace E. Lupton, a student in Electrical Engineering at the College.

A.I.Ch.E. Initiates Twenty-Two New Men

Majority of Initiates Sophomores; Ceremony Held In Winston Hall

At the first initiation this term held by the student chapter of the American Institute of Chemical Engineers, twenty-two new men were taken into the organization, it has been announced by President Harry Taylor. The initiation took place on Monday night in Winston Hall.

Following the regular custom, eligible men included only those chemical engineering students who have been in school at least two terms, or who have transferred from some other school.

Of the twenty-two initiates, five were taken from the freshman class, fifteen from the sophomore class, and two from the junior class.

The new members are: Walter Horton Corwin, Ahsoskie, N. C.; Jesse Gray Camp, Jr., Ahsoskie, N. C.; John S. Moore, Tampa, Fla.; Lewis S. Hovis, Dallas, N. C.; J. C. MacLachlan, Jr., Raleigh, N. C.; A. W. Smith, Jr., Charlotte, N. C.; David L. Bouldin, High Point, N. C.; James Edward Deas, Canton, N. C.; Marshall E. Propst, Jr., Charlotte, N. C.

George J. Lamprinakos, Asheville, N. C.; Oscar S. Whitescarver, High Point, N. C.; Richard W. Jones, Pelham, N. C.; J. W. Smith, Raleigh, N. C.; G. M. Farrior, Raleigh, N. C.; Arnold S. Marks, Greensboro, N. C.; William Allen Carr, Farmville, N. C.; H. S. Welsh, Wilmington, N. C.; Frederick Leon Page, III, Zebulon, N. C.; W. C. Thomas, Weldon, N. C.; C. William Teague, Hickory, N. C.; R. B. Patterson, Littleton, N. C.; and Ernest P. Cain, Jr., Raleigh, N. C.

Top-Rank Engineers Inducted In Order Of St. Pat At Dance Sat.

Cox Judged Outstanding Senior Engineer; Freshmen Designated Companions of St. Patrick

Thirty-five outstanding seniors in the School of Engineering at State College were inducted Saturday into the Order of St. Patrick, named for the legendary saint who, in chasing the snakes from Ireland, "invented the first worm drive" and thus became the patron of engineers the world over.

Seventeen freshmen, who have the highest scholastic averages in their class in the School of Engineering, were designated as Companions of St. Pat.

Acting Dean L. L. Vaughan of the School of Engineering announced that Edwin D. Cox of Charlotte had been adjudged by a faculty committee to be the most outstanding senior studying engineering. Leading students from each department were considered from the standpoint of scholarship, leadership, and personality, and Cox was the unanimous choice of the committee for the high honor, Dean Vaughan said. In addition to making a scholastic average of 92.8 per cent, Cox has been highly active in campus affairs each of his four years at State College. He will be presented an engraved gold watch by the Engineers' Council.

Presiding over the traditional ritual as St. Pat was James B. Lambeth of High Point, president of the Engineers' Council. Miss Margaret Potts of Kernersville reigned as Princess Pat.

Seniors who were knighted into the Order in the annual ceremony are listed by engineering departments:

Aeronautical—Robert E. Allison, Sylva; J. Reese Bailey, Rocky Mount; Kenneth Wayland Goodson, Mt. Olive; Benjamin W. Greene, Elizabethtown; George Nevitt Jones, Jr., Raleigh; and Charles Haywood McLemore, Godwin.

Architectural—Everett Gordon Spurling, Fallston.

Ceramic—Francis M. Steele, Winston-Salem; and Richard Dammann, Amityville, N. Y.

Chemical—S. Clyde Vaughn, Charlotte; John K. Beasley, Louisburg; Henry Faison Chesnut, Clinton; William Jackson Goodrum, Greenville; Robert W. Smithwick, Jr., Louisburg; Stanley A. Teiser, Henderson; Joseph H. Jones, Jersey City, N. J.; Harry G. Taylor, Greensboro; Buford Wright Penland, Asheville; and A. Thomas Stewart, Washington.

Civil—Floyd B. Barnes, Henderson; and James P. Lambeth, High Point.

Electrical—Charles Rufus McNair, Jr., Rockingham; Espie Flynn Menius, Jr., New Bern; Preston Douglas Page, Fairmont; Peter Doub Strum, Rocky Mount; and Loy Edward Paysour, Jr., Mooresville.

General—Edwin Dexter Cox, Charlotte; and Clarence Ninian Steele, Statesville.

Geological—Robert N. M. Urash, Woodside, N. Y.

Industrial—Edward Peter Breuer, Greensboro.

Mechanical—Ray L. Lyerly, Thomasville; Charles Henry Steele, Charlotte; Eugene LeRoy Briggs, High Point; John Mann Simmons, Jr., Raleigh, N. C.

Still Hopeless

Long has the State College Cafeteria been one of the most undesirable features of the school.

Not only is the food served undesirable to eat, but it is impossible to tell just what you are eating. Many are the times when vollies of vile words issue forth from some hungry, yet unsuspecting student or faculty member when they bite into some choice (?) looking morsel, only to find that it is something that he detests instead of something he can enjoy.

All the food looks exactly the same. Choose carefully the meats, you unlucky people who are forced to eat there, especially those of you who are allergic to liver. The liver has a naughty habit of looking exactly like a juicy steak.

Now to the vegetables. Why is it that the vegetables cost such unreasonably high prices, particularly the green vegetables? All of us are supposed to eat green vegetables on the advice of the government because of their aid to good health, but not so, thinks the cafeteria. Green vegetables cannot possibly cost as much wholesale as their retail price here indicates. But, remember, the cafeteria is a non-profit organization

Bread is a pressing problem. Just why is it that one roll costs one cent, two rolls cost two cents, but three rolls are priced at five cents? Certainly, the waitress cannot expend that much additional energy in placing the third roll on the plate. Or is it that the time involved is so valuable that the extra two cents is added.

Milk is one of the most health-giving beverages known, but why is it that the price of one-half pint of milk here is seven cents? Since the majority of the milk, as well as the ice cream, is produced at the State College Dairy, just why are the prices higher for these items than at any other establishment in Raleigh? Certainly, the State College farms do not raise the price of their products when they sell to the College, but evidently, this is the case, since the cafeteria is a non-profit establishment.

We realize that this is war, and that there is a shortage of food, as well as labor, but four years ago, we were not at war, and the same impossible situation was here.

Let us hope that in the future, either by a new management or by an improved management, the students, faculty members, and college employees will be served nourishing food in a more efficient manner in more pleasant surroundings!

GLEANINGS

The bus station was really crowded Saturday. Those girls from W.C. certainly get around. Did she ever get here, Furches? Woodall, Spruill, V. Poe, and Dickinson also had a long wait, but Vernon seemed to think that it was more than worth the delay and we are inclined to agree. . . .

Ike had a little trouble Thanksgiving. Caroline caught him at the Ambassador with another woman, after he had broken a date "to study." Gooch goes to Durham every weekend now—she is a high school kid. "Mush" is stealing J.S. from a Marine Lieutenant. Careful, son, we've heard that the Marines build men. We see that the *Chronicle's* dirt column is under fire. Any student who can't stand a little gossip doesn't belong in college, not even Dook. In our opinion it's the most cleverly written dirt column in the state.

Overheard:

Mary has a little swing
It isn't hard to find.
Everywhere that Mary goes
The swing is right behind.

Questions of the Week: Which will make the most money this year—the "non-profit" cafeteria or the profiteering Students Supply Store? Why is it that milk costs more in Ptomaine Hall than it does at other places? Even the members of the armed services stationed here suspect that the cafeteria is making money. This item appeared in *The Dodo* on October 22, 1943. "One of the members of the squadron and its reporter were talking last week with the publisher of the *Raleigh Times*. He told us that while he was a student here at State College, students paid eight dollars a month for board. He maintained that the Dining Hall Steward was a former superintendent of the experimental farm, and that he managed so well that the college made a profit. We could only say the same situation seemed to be in existence today and doing well." Now is the time to make New Year's resolutions. Let's turn over a new leaf!

In a few days another group of Aircrew Students will leave for Nashville. This time there will be several members of the staff of *The Dodo*, including the editor, Walter Elder. Those of us on THE TECHNICIAN staff who have had the pleasure of sharing office space with *The Dodo* want to express our best wishes to Walter in his next and greater venture. He and his staff have done a magnificent job of informing the students of State College and the general public just what the 59th C.T.D. has been doing. We, as civilian students who may write as we darn well please, do not think that the present officers of the 59th have given due credit to *The Dodo* nor have they shown the proper attitude toward the members of its staff.

—TERMITE.

FAREWELL!

May we take this means of thanking the student body for what they have done toward facilitating the publishing of the paper in this, our final edition of this term. The students have been most cooperative in helping us publish the news of the campus.

The staff, though small in number, has made up what they lack in quantity by quality, gained only through hard work. Thanks particularly to the Sports Editor and the Managing Editor for their help. Both have done a great and laborious task well. The same is true of the Business Manager who has the toughest job of all.

The next issue will be put out by the present Managing Editor who has been promoted by the Publications Board to the post of Editor-in-Chief.

Many important and interesting things have happened on the campus this term. These we have tried to bring you in the clearest manner possible. The organizations sponsoring dances have had beautiful cuts made which were printed not only here, but also in the papers throughout the state. These events attract the attention of those outside the school, so keep up the publicity of your organizations, fellows. Cuts (pictures) as well as new stories, help gain outside recognition for yourselves and the school, so keep them coming in to the new editor and to the news bureau.

Best of luck next term, Mr. Editor. Don't drop too many galleys of type or lose too many stories around the office.

Keep Fighting Along

Once again comes the close of a term. Examinations are upon us once again. For many of you, these will be your first set of exams, but for many others, they will mark the close of a rocky four-year college career.

Don't forget, what is worth doing is worth doing well, so forget the movies, dates and other distractions for a week and make a hundred on all the exams.

Those of you that are so fortunate as to remain here longer have the opportunity to increase your technical knowledge until you are qualified to take your place in the engineering world.

Those of you that are leaving have completed your training and are now entering upon an important phase of your lives. Just remember that it was State College that gave you the opportunity to get ahead. When the going gets tough, whether you go into the service or into some branch of the industries producing the materials of war, just remember that State College men are always leaders.

No matter what you are doing, fighting the Japs, trying to improve the production of your company, or trying to lick a set of exams at State College again, just remember that the men from here always come out on top.

Carrying more calls— with the help of

QUARTZ CRYSTALS

BEFORE the war Bell Laboratories' scientists put quartz crystals to work in such a way that twelve conversations are carried on two pairs of Long Distance wires at one time.

Now with strategic metals so scarce, the Bell System is using only 6,000 tons of new copper a year instead of 90,000. And these tiny crystals are helping to provide more communication for each pound used.

They serve on the battle fronts, too. Western Electric has manufactured some eight million quartz crystals for use in the dependable communications equipment Bell System research is giving the armed forces.

In the better days ahead this experience will again be directed toward keeping this country's telephone service the best in the world.

BELL TELEPHONE SYSTEM

War calls keep Long Distance lines busy
... That's why your call may be delayed.

Sigma Chi Defeats Fourth Dorm To Win Championship

Fowler's Fancies

The 1943 grid season has taken its place with the others in the passing parade, leaving us only the memory of hard-fought games and that last-second pass thrown by Steve Lach which messed up Notre Dame's chances for a perfect season.

Now our attention is turned to the coming basketball contests. It looks as if the Duke Blue Devils will be the big noise in North Carolina cage circles.

More than 70 Blue Devils reported for the early practice sessions called by Coach Gerard two weeks ago.

In addition to Bob Gnat and Gordon Carver, there are more than a dozen stars who have played for various college teams before coming to Durham.

The Duke cagers are going to be the ones to watch in the Big Five this year.

There were a lot of sad faces around Raleigh when the news came in that the Raleigh High School Caps had been defeated in the championship against Charlotte. From all that we can gather the Caps were just out played by the Charlotte eleven. Maybe they

can win the championship next year.

The Sigma Chi's copped the intramural football championship in fine style. They are the only team which completed its season undefeated. The S.P.E.'s came close to stopping them in the game to decide the fraternity champion, but the Horne Street boys proved just a little too much for their opponents.

It will seem funny not going over to the gym to a dance this weekend, we've had so many during the past few weeks. But it is high time we began to think about those final exams which will begin all too soon.

Thrilling Grid Games Here In Bygone Years

Fans Will Remember These Thrill-Packed Contests Played In Riddick Stadium

(Continued from Last Week)

A freshman game with the Blue Imps of Duke two years ago possessed all the drama of a New Year's Day classic. The Wolflets opened the game by marching down to pay territory. But a first down fumble three yards from the goal line saved the opponents from early embarrassment. Later a Techlet player fumbled again, this time within his 20-yard line. From here, the strong Blue Imps pushed the ball over for a score.

Both teams continued to fight fiercely in the third and last periods. The defenses were growing stronger as the backs tried to break through. Finally, the Duke frosh began a steady drive to score again. They reached the Wolflets one-yard line for a first down. Four times they sent backs crashing into the line. But a gallant stand was made and when the players untangled for the last time, the ball was just one foot short of a touchdown. The crowd was screaming in admiration as the State frosh took the ball. Then, the seemingly impossible occurred. Inspired with the State spirit, they ran and passed, using everything they knew. They were not stopped until a Wolfcub back crashed into the end zone for the tying marker. The placement was wide, but they had driven 99% yards to earn a tie and remain unbeaten. Has any team ever driven further than that to score?

A Wolfpack veteran will tell you that it takes courage and football cunning to break a jinx. Two years ago State hadn't beaten Carolina in thirteen years. The experts were picking the Tar Heels to continue their series of wins but the players and students knew this time it would be different when they invaded Chapel Hill. In the first quarter, the Tar Heels recovered a fumble and turned it into a touchdown. "Chapel Collegians" thought the outcome would be the same old

Wolfpack Completes Fair Gridiron Season

Team Makes Mistakes But Gains Valuable Experience; Coaches Do Fine Job

By DON SAPP

State College had a fair season on the gridiron when you view the whole scope of conditions that existed. Not one player on the squad had ever played in any varsity game until this year. A few first stringers were drafted during the fall and others missed a game or two because of injuries. These factors were insurmountable handicaps in contests with teams having numerous college stars in their lineups. We were favored to defeat Apprentice, Greenville Air Base, and Davidson, and we did just that. Clemson and Navy Pre-flight beat us by two touchdowns. The statistics were in our favor in these games but the breaks went to the opponents. Affairs with strong elevens like Camp Davis, Wake Forest, Carolina, and Duke were too much for the Wolfpack youngsters. We were slated to lose by a wide margin against these teams having more experience, weight, age, height, men available, and any other advantages they didn't need.

Coach Newton and his assistants have done well. The team made countless mistakes in their games, but they gained invaluable experience in college football. You may be sure that we'll be glad to have each of these boys back next year, or whenever they can come back to wear the Red and White again.

story. But through the drizzling rain, spirit drove State onward, and they scored. We trailed at the intermission by 7 to 6 but that was only the half.

The Wolfpack continued to fight like hungry wolves in the outposts of civilization. Slowly the Heels were forced backward. Then it happened. Woody Jones blocked a punt and recovered on the sixteen. A 'Pack aerial fell incomplete. On the next play, the wingback came around behind the spinning full-

(Continued on Page 4)

PiKA To Play Welch To Decide Winner Of Volleyball Play-Off

S.P.E.'s Lose Out In Semi-Finals; Jones and Geluso Star For Champs

The Sigma Chi's won out in the intramural touch football championship this week by trimming the S.P.E.'s last Monday and polishing off Fourth Dorm two days later.

The S.P.E. team was on the receiving end of all the bad breaks as a fourth down pass from center went over Fetner's head and the Sigma Chi's took over on the S.P.E. ten.

A completed pass then put Sigma Chi in the lead. Although the S.P.E.'s threatened several times after that they couldn't muster enough strength to push the ball over the Sigma Chi goal.

The game ended in a victory for the Horne Streeters and entitled them to play Fourth Dorm for the championship of the campus.

They succeeded in nosing out the dorm team by a count of 7-0 to cop the championship. Geluso and Jones were the stars of the afternoon as they turned in good running and pass receiving performances.

In the volleyball play-off, the PiKA team will play Sixth Dorm to decide the campus champions. The PiKA's defeated the Sigma Chi's last Tuesday to make them the winner in the Frat section.

Here are the standings, not including the championship games:

Football	Won	Lost
Pi Kappa Alpha	3	3
Delta Sig	0	6
Lambda Chi Alpha	3	3
Sigma Chi	6	0
S.P.E.	6	0
Pi Kappa Phi	2	4
Alpha Lambda Tau	2	4
Sigma Pi	2	4
Fifth Dorm	2	2
Sixth Dorm	0	4
North Watauga	2	2
Fourth Dorm	3	1
South Watauga	3	1

Air Corps' Canteen

New Canteen Opened For Air Crew Students

Store Operated By L. L. Ivey; Will Remain As Permanent Part of College Expansion

The new canteen for the 59th Air Corps College Training Detachment opened for business last Tuesday afternoon, less than two months after the actual construction of the building was begun.

The canteen is operated by L. L. Ivey, manager of the Students Supply Store, and will be operated solely for the Aircrew Students stationed here at the College.

To expedite the opening of the new store, aviation students from the Detachment joined in last minute window washing and poling the area surrounding the new building, and transferred the YMCA furniture from the north end of Alexander Hall to the large social rooms in the new structure.

W. C. Barber is the manager of the new store, and the tentative hours of operation are from nine o'clock in the morning to 7:30 P.M.

Although designed primarily for the fulfilling of the immediate needs of the aircrew students, the building is not a temporary structure, and will remain as a permanent part of the westward expansion plans of the College after the departure of the Air Corps students.

The new store is a civilian enterprise, and therefore, is not classified as a post exchange.

THRILLING GAMES

(Continued from Page 3)

back. They were tackled viciously, but where was the ball? Bob Cathey had taken the pigskin on a quarter-back sneak and had ran over the goal standing up to bewilder the Tar Heels. The jinx was up and State won the game 13 to 7.

Games like these will make football last long after those who frown upon it are forgotten.

Beaux Arts Society Inducts New Members

The initiation of eight new members of the State College Beaux Arts Society was announced yesterday by Everett Spurling, president of the student chapter of the organization.

The Beaux Arts Society is the engineering society at the College for students in Architectural Engineering.

Selwyn N. Bryant was in charge of the initiation which was held in Daniels Hall, Monday night, November 30.

The new members are: M. L. Travis, J. S. Holloway, I. A. Sigmon, W. F. Freeman, I. G. Crutchfield, Marshall Rich, F. C. Snyder, and Katherine Marshall.

added to the budget to help defray the deficit.

Any fraternity men or transfer students who were not photographed last week will be photographed from 9 to 11 P.M., Monday, December 6, in the publications building. Military students who were called out in March and have returned to the campus will be notified as to the time of their picture by card.

All students who have not been by the Agromeck office to fill out their class and organization records may do so Monday, Tuesday, or Wednesday of next week from 2:00 to 6:00 P.M. This must be done before Wednesday, December 8, in order to have a picture in the annual.

ST. PAT

(Continued from Page 1)

Greensboro; and Carlyle A. Wiggins, Jr., Kinston.

Freshmen designated as Companions of St. Pat were: Joe Masten Monroe, Hamlet; Gerhard Frederick Schafer, Jr., Princeton, Mass.; Fred Conrad Snyder, Winston-Salem; Donald Edwin Stewart, Raleigh; Gene Hoey Kendrick, Monroe; George Hunter Howerton, Black Mountain; John Sult Moore, Tampa, Fla.; Morris Alfred Kline, Columbia, S. Student Book Store Opens December 29

The State College Student Book Store, under the sponsorship of the Student Council, will open the first week of the Winter Term, beginning on December 29 and continuing through January 4.

The student-operated store will be located in the Publications building.

All students desiring to sell text books through the student exchange are requested to turn in these books at the beginning of the week starting December 29.

Music Appreciation Program Given In 'Y'

A music appreciation program was presented at the College Y.M.C.A. Wednesday night from 6:30 until 8 o'clock, under the sponsorship of the Y.

Ed. S. King, Secretary of the Y, was in charge of the arrangements for the concert.

Selections were given by means of recordings and they were: These Are My Favorites, by Fritz Kreisler; Emporer Waltz, by Johann Strauss; Humoresque, by Dvorak; Tea for Two and Begin the Beguine, by Cole Porter; Dance of the Hours, by Ponchielle; Pomp and Circumstance, by Elzar; Perfect Day, Londonderry Air, and the music of Stephen Foster.

Disney's 'Air Power' Film Opens At Varsity

The Varsity Theatre proudly announces the first Raleigh showing of Walt Disney's Technicolor picture of "Victory Through Air Power," a combination live-action and animated cartoon feature of full picture length, adapted from Major Alexander P. de Seversky's best-seller.

The new film, which opens at a late show Saturday night for a four-day regular run beginning Sunday, has a running narrative which develops the theory of de Seversky's book on air power. It does not attempt to say that air power alone can win the war or any other war, but it does show in the most graphic sort of animated cartoons the very vital way in which air power must fit into the war picture.

These animated scenes are naturally the most amusing in the film, for it is impossible not to be entertained when viewing Disney's in comparable cartoon characters carrying on the almost primitive air fighting methods of World War I. Realism, however, soon takes the place of amusement, when one sees how this early form of air warfare has been developed and expanded to the catastrophic pitch it has achieved today. The live action sequences depict Major de Seversky expounding his theories to the audience while moving freely through his office and drafting rooms.
