Vacation Cancelled At Request Of ODT

The Faculty Council at State College has voted to cancel the customary spring holidays for State College students in compliance with requests from the Office of Defense Transportation and the United States Office of Education to reduce travel to a minimum, it has been announced by Dean of Students E. L. Cloyd, secretary of the council.

The action, affecting three dates on the college calendar, moved up the opening of the spring term from March 20 to March 15 and advanced the ending of the spring term from June 2 to May 26. Commencement exercises will be held Sunday and Monday, May 27 and 28, instead of Sunday and Monday, June 3 and 4.

"It is," Dean Cloyd said, "the patriotic duty of all persons connected with State College to comply with the requests of the two Federal agencies—Office of Defense Transportation and the United States Office of Education—in foregoing the spring vacation.

"It will be noted that in canceling the spring vacation at State College, the spring term dates are so set that school days for that term are reduced by one, and the change allows a two weeks' vacation between the spring term and the summer term."

Dean Cloyd explained that John W. Studebaker, United States Commissioner of Education, is supporting the ODT request that "all individuals forego all travel not absolutely essential."

IFC Dance Sponsors

Pictured here are the sponsors who represented the Interfraternity Council for a combined dance set at State College Friday and Saturday, Feb. 9-10. Sponsors, with their escorts, are: Miss Charlotte Rickman of Perryville, Mo., top left, with William J. Boney of Wilmington, chairman of the dance committee; Miss Betty Jane Powell of Greensboro, top right, with James S. Hepler of Greensboro, member of the dance committee; Miss Jo Bishop of Laurinburg, bottom left, with Dwight L. Waynick of Greensboro, member of the dance committee; and Miss Martha Rand of Louisville, Ky., lower right, with Charles J. Nackos of Wilson, vice president of the Interfraternity Council.

Students and Faculty Members Knighted

Animal Diseases Are Contagious To Human

A warning that the world should "become cognizant of the fact that animal diseases are a threat to the human race" was issued by Dr. W. C. Glenney, a noted veterinarian of Elgin, Ill., in an address at the closing session of the seventh annual North Carolina veterinary conference at State College.

Dr. Glenney, citing "an increasing prevalence of tropical diseases threatening the human population and animal kingdom," listed as acquirable diseases from animals such maladies as undulant fever, rabies, rabbit fever, septic sore throat, and other streptococcus diseases.

"It behooves the public," Dr. Glenney cautioned, "to keep in close touch with their physician and veterinarian to recognize early these conditions so that immediate control and remedial measures can be instituted."

Final features of the veterinary conference were a discussion on current problems in small animal practice, an animal clinic, and the presentation of technical reports.

The conference was sponsored by State College and the North Carolina Veterinary Medical Association, headed by Dr. R. E. Taylor of Hendersonville. Dr. C. D. Grinnells of State College presided over the meetings.

Nicholson Selected Outstanding Engineer

Eighteen top-ranking seniors in the State College School of Engineering and five faculty members Saturday were knighted into the vaunted Order of St. Patrick in traditional ceremonies in the Frank Thompson Gymnasium.

A total of 18 leading freshmen, two from each department in the School of Engineering, were dubbed Companions of St. Pat, one of the highest honors bestowed upon first-year engineering students. Exercises were conducted during a tea dance in which Dean Hudson and his Orchestra provided the music.

Reigning over the ritual as St. Pat and Princess Pat were Marion C. Sasser of Selma, vice president of the Engineers' Council, and Miss Gloria Vann Batchelor of Raleigh. The Order of St. Patrick was named for the legendary saint who, in chasing the snakes from Ireland, "invented the first worm drive" and thus became the patron of engineers the world over.

Following the knighting ceremonies, Prof. L. L. Vaughan, acting dean of the State College School of Engineering, announced that William M. Nicholson of Winston-Salem had been selected by a faculty committee as the most outstanding senior in the School of Engineering, and Dean Vaughan awarded Nicholson an engraved gold watch from the Engineers' Council in recognition of Nicholson's scholastic accomplishments.

Students inducted into the Order of St. Patrick were Charles J. Nakos, Wilson; Paul N. Howard, Jr., Charlotte; Albert C. Smith, Mooresville; Edward W. Bailey, Goldsboro; Robert G. Ross, Jr., Charlotte; Herbert V. Poe, Apex; Marion C. Sasser, Selma; Daniel M. Matusow, New York City; W. Eugene Wade, Jr., Union City, Tenn.; Nick J. Ponos, Wilmington; J. D. Boone, Pendleton; Victor B. Shelbourne, Washington, N. C.; Drury R. Burton, Mebane; Harry G. Taylor, Greensboro; W. M. Nicholson, Winston-Salem; W. P. Moore, Salisbury; and H. H. Goslen, Kernersville.

Faculty members chosen as Knights of St. Patrick were Professors Richard Bright, W. F. Babcock, T. C. Brown, and J. H. Nichols and Dr. T. C. Doody.

Freshmen named Companions of St. Patrick were Gerald F. Brummitt, Winston-Salem; S. G. Flannagan, Henderson; C. H. Grantham, Jr., Greensboro; G. A. Gray, High Point; Robert M. Merritt, Mt. Airy; David W. Sewall, Greensboro; W. C. Turrentine, Greensboro; H. J. Lewis, Louisville; W. C. Fitzgerald, Raleigh; Ross L. Fogleman, Greensboro; Basil Paaffe, New Bern; Edward S. Noel, Jr., Durham; A. R. Gresham, Jr., Mooresville; Lois M. Madden, Bridgeport, Conn.; William C. Roe, Concord; Richard K. Worsley, Greenville; Charles G. Bingenheimer, Burlington; and Wilbur G. Bryant, Elm City.

The Redcoat Band will hold practices every afternoon from Monday through Friday at 5:00 in preparation for a concert to be given on Sunday, February 25.

Dr. Metcalf Publishes New Book On Insects

By RUDOLPH PATE

Handling the responsibilities as associate dean of the Graduate School and head of the Department of Zoology and Entomology at State College are two man-sized jobs, and yet Dr. Z. P. Metcalf, who fills those two posts, recently announced the publication of two more books on insects—exhaustive volumes on the Homoptera, a group of tiny insects.

Dr. Metcalf, who has set himself the task of writing 31 lengthy books on entomology, has now completed the fifth volume in the series and estimates that he will finish the entire series within six more years. The first appeared in 1932.

The State College author, who is regarded as one of the top-ranking men in his field in the world, has spent 30 years collecting notes for the series of books. He has read and checked over 20,000 books and papers concerning insects and has visited all the principal libraries in the United States to obtain material.

Title of the new volumes, published by the State College Printery, is "A Bibliography of the Homoptera" (Auchenorrhyncha). Not expected to be best-sellers because of their technical nature, Dr. Metcalf's new books are not recommended as light reading for a drowsy winter's evening, but they will be highly useful to entomologists and students the world over.

The books are just what the name implies, a bibliography of all references which have been published about Homoptera, an order of insects having sucking mouthparts such as cicadas, aphids, and scale insects. Theme of the books is to standardize the literature about the order as a basis for sound

(Continued on Page 4)

Powerful Jet Engine Is Amazingly Simple

Simplicity in design and operation of the powerful G-E Turbo Jet engine developed and produced by General Electric Company for swift fighter planes of the Army Air Forces has eliminated many maintenance problems and sharply reduced others, it is reported by both AAF ground crew men and G-E engineers.

Staff Sergeant Earl Kohler, a jet crew chief at Wright Field, Air Technical Service Command headquarters in Ohio, says that maintenance of one of the G-E Jets now being used by the AAF to propel propellerless Bell P-59A planes requires "less than a fifth" of the time and labor that would be necessary on a conventional airplane motor.

The jet engine was described as being so simple that "I can't understand it" by Sergeant Kohler in Air Force, official AAF journal.

"Air comes in the front and goes through the compressors, mixes with kerosene in the combustion chambers and is ignited," he said. "It blasts out through the flame pipe, and that's all there is to it." The fact that the G-E Jet has only approximately one-tenth as many moving parts as does the ordinary reciprocating motor explains much of the savings in maintenance.

"Most mechanics are surprised to learn that there are only eleven bolts holding the engine in place," Sergeant Kohler said. "And not very big bolts at that. In that engine there are but two main bearings and one shaft.

"I can pull an engine with an inexperienced crew in thirty-five minutes, and four men can pull

(Continued on Page 4)

Capt. Claude E. Clark Killed In Leyte Action

Capt. Claude E. Clark, Jr., a 1938 graduate of State College, was killed in action on November 23 on Leyte Island in the Philippines, where he was a member of Lt. Gen. Walter Krueger's United States Sixth Army, friends and relatives here were informed recently.

Capt. Clark went overseas in April of 1942 and was awarded the Distinguished Service Cross for gallant action in the New Guinea campaign. The young hero, then a first lieutenant, mowed down five Japs with his tommy-gun on November 22, 1942, in New Guinea before he was nicked in the arm by an enemy bullet. He soon recovered from the flesh wound.

A former resident of Danville, Va., young Clark married the former Miss Jeanette Bagwell of Raleigh, who survives. Mrs. Clark resides here with her parents, Mr. and Mrs. W. L. Bagwell of 1305 College Place. Capt. Clark's parents, Mr. and Mrs. Claude E. Clark, Sr., are citizens of Hickory.

Young Clark made a splendid record at State College, where he was graduated in textile management. He was president of Golden Chain, senior honor organization, and was a member of several other professional, military, and scholastic groups. He served four years on the editorial staff of The Agromeck, college annual, and was a cadet captain in the College's ROTC regiment during his senior year.

Captain Clark held a textile position in Rockingham prior to his entrance into the Army as a reserve officer.

Leading Student

W. M. NICHOLSON

W. M. Nicholson of Winston-Salem, shown above, has been adjudged by a faculty committee as the most outstanding senior in the School of Engineering at State College and Saturday was presented an engraved gold watch from the Engineers' Council by Prof. L. L. Vaughan, acting dean of the School of Engineering. Dean Vaughan, lauding Nicholson's accomplishments as a student, presented the coveted award during ceremonies in which the college's leading engineering students were knighted into the vaunted Order of St. Patrick. In addition to maintaining a high scholastic average, Nicholson, a student in Chemical Engineering, has been elected into membership of a host of honorary collegiate societies, including Tau Beta Pi, Pine Burr, and Phi Eta Sigma. He is president of the college chapter of the American Institute of Chemical Engineers.

Indignation

Naturally we are all prejudiced in expressing our opinions of the State-Carolina game, but it would seem that many of these are not entirely biased.

It appears that the booing Norfolk received was entirely justified, and when a double foul was called we began to wonder just who was paying the referees. It is certainly true that Richkus ran in front of Norfolk, but isn't it also true that the elbow and hip he received weren't merely "congratulations, pal." When a man is thrown practically half the length of the court and a double foul is called, those that have observed the play are naturally a bit perturbed, to say the least. Other decisions were rendered during the game that seemed to be slightly off color; but, again, who is in a better position to see the play than the referees? Full credit should be given then, and while doing this full criticism should be given.

The chief criticism to be offered here is against the double foul called when Richkus and Norfolk collided and also against the statement made by the radio announcer that "Norfolk is being unduly booed." At this point in the game the fans were excited into a frenzy by the fast pace of the game and when Richkus, already limping from an injury received earlier in the game, was sent sliding across the floor into a crumpled heap, such actions seem entirely justifiable.

When the learned sports announcer, Ray Reeves, sets himself up as an authority on sports, he may be entitled to his own opinion of the game, but certainly he is not supposed to convey to the radio listeners any false impression of the State fans being rowdy and poor sportsmen. The author of this article wonders, as do many others, just why Norfolk's berating was not, in some measure, deserved by him. Certainly the sheepish look that he carried around wasn't caused by his modesty over the attention that he received.

It is a well known fact that State College students have been only slightly less than fanatical in their support of their teams. Both the teams and the students have received much praise. Why, then, should they be subject to so much criticism for their so-called "un-sportsmanlike" display at the game?

By PAT FUGATE.

GLEANINGS

Well (YAWN), we hope that all you fellows and gals have at least partially recovered from the week-end: we haven't. And we also know of at least one girl who hadn't recovered by Monday noon either. It seems that one of the P&W gals was walking (?) along in front of Andy's and lo and behold she walked right smack into a mail box! And her companions (feminine by nature) weren't too much help in trying to carry her away. It seems that everybody had a wonderful time! . . . And it also seems that most of the Dean's men entered the Chi house on one side and made a rather hasty exit on the other side, and when they left all the sandwiches were gone. And they spent a very lively night at the Sig Ep house—the most regular party we've hit. At 6 a.m., dancers "et al" were still going strong. Maybe the Chi's just weren't too cordial to the boys (?) . . . "Wee Willie" Daniels is braggin' or complaining, we can't figure out which, about the tremendous amount of sleep that he didn't get last week-end. Maybe he was waiting for a train. But what do you think?

Reports say that the Delta Sig house was quiet. Wonder what they meant? ? ? Where were they hiding? ? ? Behind the couch? ? ?

They also say that the Sigma Nu house "quieted down" after a lot of "singing." Some week-end!

A certain girl, B. J. Hicks by name, just came out with the remark that she had just been through an experience that she bet that we wished that we had been through. *WHAT DID SHE MEAN?* . . . And we hear that the Sigma Pi Snyder went after the bottle (milk) with a vengeance! Early in the evening, however, he was sober (we hear) . . . A gang of girls, and one boy, were talking the other day and the statement was made that "she certainly is a 'regular' girl." She must eat Wheaties!" The remarkable rejoinder by the boy was: "No, she's just 'regular' like every girl wants to be." Who were they talking about? ? ?

The boys from Watauga say that this guy Tart became so ill after hearing the results of the Alpha Sigma Sigma election that he went home over the week-end to recover from the aroma of the stinkweed. . . . We wonder what Bill English meant when he said: "It's what you do after the dance, not at the dance." We'd like to have seen him . . . the freshman. . . . Every time we see Alton Wilson, Ellis Parker, Earl Stubbs, and "Chuck" Gardner they are shouting something about "He's just *blooming* with it." Some stuff they must have picked up from the Colonel of N. C. State's history department. . . . Hooray for Freeman! He finally did talk, argue, or wheedle his Meredith gal into going to the dances with him. And was he happy! Note: With a Meredith girl? . . . When a fellow goes home every week-end there must be something waiting for him . . . how about it, Sink? . . . And that man Pierce, Grafton by name, certainly was hopping along last Saturday morning about 8 o'clock. He looked as fresh as Four Roses, walked like Old Grand Dad, and was singing like an Old Crow. More power to him. . . .

FLASH . . . THE ARMED SERVICES . . . Boone Isley's was the scene of a beautiful "pickup" Sunday. George Hardesty, D. C. May, and Basil Paaffe really went to town and turned up with two gorgeous army wives. Watch out, boys, they say the war might be over soon. And we wonder why PiKA Dillon and "Merry Hell" spent most of the week-end at the Sig Ep house. S'pose it was because the PiKA house was too crowded with wolves (the human variety)? With all that twenty-four hour cocktail there could have been a lot of them around (if it's as good as we hear) . . . And what nice young co-ed blushed when someone said, in the course of a discussion about a band, "It must be good if it's *free*!" That's O. K., B. J., we understand.

And "they" also say that the ALT house was, or rather looked, deserted last Saturday night. From the tone of voice in which this info was transmitted to your author it would seem that there were at least thirty persons in said house and that they were "hiding."

The Gremlins also say that the Dean, you know, the orchestra leader, was snaking on a certain PiKA's date last Saturday night. Maybe he really does appreciate college "life" after all. He is a college man, you know (and a Kappa Sig, too! ! !)* And didn't Boney have a real honest-to-gosh long, tall Texas gal for the dances? "They" say she was really "smooth." Too bad we weren't in on it, too!

Well, my wad is completely shot because we've decided to give the late daters a rest this week. So until next week we'll just have to say YAWWWN!
Signed, STAFF.

Pratt & Whitney Fellows

Just about a month from today and this bunch of female Engineers (?) will be New York bound . . . we're taking Teenie with us, but just for a visit. It will be Jo's and Mary's first trip to the big city . . . we'll all probably succeed in getting lost. As anxious as everyone seems to be to get to Hartford, it's still going to be a sad day when we have to say goodbye to State . . . we're really going to miss you people . . . enuf of this.

Juvenile Dept. . . . or second childhood . . . call it what you will, but never let it be said that little things don't amuse little minds. Jo and Kay headed for the Mop-up the other day with thermo books, physics books and slide rule tucked under one arm and a dollar bill clutched in the other hand. They left the Mop-up with the same thermo and physics books and slide rule but in place of the dollar was a book called "Me Too" . . . all about a little duck . . . about second grade . . . etc. They actually sat down and read it from cover to cover. The procedure was repeated the other nite with Thurber's new book . . . they even took it to the concert and read at intermission. "The fairy tales may be old stock, but the morals Thurber adds are strictly 20th Century," says Jo.

We're going to have to open up a private post office for Kathy. She writes more letters and gets more than any ten people. That must be the secret of her success. That's all right, though . . . the rest of us collect things in our boxes too . . . yeh! DUST . . . JUST US.

Chat by Pat

Last week, Tuesday to be exact, many of our college chums came out with "sporty" outfits of blue. Many of us were wondering what brought about this sudden burst in fashion—certainly not K.P. Comments from co-ed: "I think they're cute" and "Rugged, that's the way I like 'em."

The lights were low, soft music floated into the cozy room; two figures huddled close on the couch for obvious reasons (fuel shortage). The gentleman spoke to his lady softly, "Dear, we haven't known each other long, but we have become more than friends—otherwise I wouldn't dare ask you, I wouldn't think of asking you, but—since you and I, well—" (Now on knees) "gulp,—have you got a cigarette?"

So the co-ed: "The swimming pool each Tuesday and Thursday night. Those lucky (or are they?) lifeguards! We hear the co-ed: protest against the lifeguards, saying they can take care of themselves and don't need the men there. Personally, I wonder if they do need any males around or if they are using that as an excuse. Saturday night can be lonely, can't it girls—and boys, too. Why not be lonely together? Or if you were together, would you still be lonely?"

The comment "I love that boy" has been abruptly changed around our fair campus to "I love the O. D. T." Don't we though? Ah, Spring.

Asperin, bromos, tomato juice, and sleep—that's what was on the menu for Sunday morn. Boy! what a week-end—rough, tough; and all that there—these State B. T. O.'s. And Monday everyone was wondering what happened to Sunday. It wasn't tears that flowed like wine, and it wasn't beer either—"baby mine." Carry on, old fellows, and fly "high." It makes no difference how high you fly, though, the flack will get you 'fore long. How many wanted to bring their heads to class Monday? No matter, State College keeps fighting along. What this writer wants to know is who the slap happy "Joe College" was that walked his girl home singing "I'm the happy to make you happy" and then got a definite "No" for all his work. You have my deepest sympathy, T. S.

With that I leave you. See ya' round.

PAT.

SCHEDULE OF FINAL EXAMINATIONS. WINTER TERM

Classes Having a Recitation On:	Will Take Examinations On:
Tuesday at 10 o'clock	Thursday, March 8—9 to 12 o'clock
Monday at 10 o'clock	Thursday, March 8—2 to 5 o'clock
Monday at 3 o'clock	Friday, March 9—9 to 12 o'clock
Monday at 9 o'clock	Friday, March 9—2 to 5 o'clock
Tuesday at 9 o'clock	Saturday, March 10—9 to 12 o'clock
Tuesday at 11 o'clock	Saturday, March 10—2 to 5 o'clock
Monday at 2 o'clock	Monday, March 12—9 to 12 o'clock
Monday at 11 o'clock	Monday, March 12—2 to 5 o'clock
12 o'clock classes	Tuesday, March 13—9 to 12 o'clock
Tuesday at 8 o'clock	Tuesday, March 13—2 to 5 o'clock
Monday at 8 o'clock	Wednesday, March 14—9 to 12 o'clock
Arranged examinations	Wednesday, March 14—2 to 5 o'clock

1. Examinations will begin Thursday morning, March 8, at 9 o'clock.
2. No examinations will be scheduled or held by any member of the faculty before Monday morning, March 8 (afternoon physical education classes excepted).
3. Examinations will be held only between the hours indicated.
4. The examinations will be held in the rooms where classes recite.
5. Courses having both recitation and laboratory hours should use the first class meeting in the week for determining when the examination will be given.
6. In the schedule the term "Monday" applies to M.W.F. classes and "Tuesday" applies to the T.Th.S. classes (i.e., a class holding its first meeting of the week on Wednesday at 10 o'clock will take the examination as a Monday 10 o'clock class provided no student in the group has a regular class on Monday at that hour. If so, the examination will be an "arranged" examination.)
7. Arranged examinations are for those examinations not provided for elsewhere in this schedule. All scheduled classes shall take their examinations at the hours indicated.
8. Final examinations must be given to all students in all courses. Any exceptions must be approved by the Dean or Director of Instruction.
9. All examinations will be given in accordance with this schedule.

Dillon's Dallyings

The main topic of conversation after the UNC-NCS basketball game Monday night was the officiating at the contest. The State student body seemed very much annoyed at many of the decisions which were made by referees Joby Hawn and Footsie Knight. It is rather obvious that the officials were weak on calling UNC fouls, but it is also true that NCS miscues were allowed. Many of the students were especially perturbed at Footsie Knight. This is especially surprising, because it was Footsie who called the majority of Carolina's thirteen personals. In our opinion it was Joby Hawn who allowed Carolina to get away with so many errors, and it was Joby Hawn who was calling most of the fouls on State. Footsie had no rea-

son to favor the Phantoms, and it is our belief that he called the game as he saw it. This is the first year that Knight has refereed a Carolina basketball game since 1942. During that year ex-coach Bill Lange of the Phantoms had words with Footsie after a UNC-Wake Forest game, and he refused to referee any Carolina game from that night until this year.

The support which the team got from the student body Monday night was superlative to any it has had all year. . . . Credit should be given to the White Phantoms for their excellent brand of ball. Carolina has a team of which any school could be proud. . . . Fred Swartzberg did a swell job of guarding John Dillon's hook shots. Johnny didn't sink but three the

whole night, but they were beauties. . . . Howard Turner was, by far, the best player on the floor. His overhead shots from all angles were nothing short of miraculous. . . . When the two teams played at Chapel Hill, Coach Ben Carnevale of UNC was unable to attend the tilt. Monday night, Coach Jay couldn't be at the game. . . . Charlie Richkus has taken some mighty hard falls this season, but husky Ira Norfolk's collision with him Monday night sent Charlie to his hardest one. . . . Duke comes to town tomorrow night. This game should be a repetition of the UNC game, so far as thrills are concerned.

Sunday afternoon, the Southern Conference basketball committee will meet to pair the eight teams which will play in the annual tournament that begins here next Thursday night. The quints most likely to receive bids are South Carolina, Duke, North Carolina, State, Citadel, William & Mary, Clemson, and V. P. I. The mumps epidemic at Richmond will prohibit Coach Mac Pitt's Spiders from playing here.

Coach Tom Hines is planning to have a track team next term. If enough boys are interested in participating in the sport, Hines will arrange a schedule with other collegiate track teams in the Southern Conference. . . . Beattie Feathers will coach this year's baseball team, State, Pre-Flight, Duke, and Carolina are expected to form a league, as they have done during the past two seasons. The teams meet each other four times during the season.

There will be a meeting of the Technician staff next Tuesday night in the Technician office at 8:30.

A.I.Ch.E. will meet on Tuesday night at 7:30 p.m. The meeting will be held in 113 Winston Hall. All Chemical Engineering students are invited.

VIC SHELBOURNE, Pres.

Terrors Meet Devils Here Tomorrow Night

INTRAMURAL

By BUDDY BINGENHEIMER

Last week an inspired Lambda Chi quint thoroughly defeated their Sigma Chi opponents by the score of 40-7. For the Lambda Chi's, Daniels ran up points until he had accounted for 25 of the winners' score. For the Sigma Chi's, Sigmon, Sewell, and Walner each hit the basket for one field goal each. At the half-way mark the score stood at 15 for the Lambda Chi and 2 for the Sigma Chi.

In the second game of the evening, the Delta Sig's beat a weak PIKA combination with the score at the end of the game standing at 13-11. In the first half both teams scored 4 points but the Delta Sig's managed to stage a comeback in the second period. For the Delta Sig's Edwards and Frazelle both scored 6 points, while Ernest scored 8 tallies for the losers.

In a fast, rough game the 4th Dorm quint defeated the 1st Bagwell combination by the score of 18-8. The half-time score was 13-3. Gresham scored 6 points and Hardesty tallied 5 markers. For the losers Stillwell scored four.

In the North Gold-Berry game, David got "hot" to rack up 16 tallies to help N. Gold defeat Berry by the margin of 23-16. For the Berry combination, Poitras was high man with nine points. At the half-time, Gold was leading by six points, 16-10.

Intramural Schedule

3rd Bagwell-S. Wat.	Feb. 20—8:00
N. Gold-N. Welch	Feb. 20—9:00
S. Welch-2d Bagwell	Feb. 22—8:00
1st Bagwell-Berry	Feb. 22—9:00
PiKA-Sigma Pi	Feb. 19—8:00
ALT-Sigma Chi	Feb. 19—9:00
Delta Sig-SPE	Feb. 21—8:00
Lambda Chi-SAM	Feb. 21—9:00

Lose Conference Tilt To Carolina, 43-35

The Terrors meet a strong Duke team here tomorrow night in a game which is expected to be filled with action. The Blue Devils have won every conference encounter so far this season, defeating Carolina twice in doing so. They have already defeated State in Durham 48-38. Though the Terrors have been improving steadily all season, the odds will be heavily in favor of the Duke quint. Richkus suffered a leg injury in the Carolina game, but it is hoped that he will have recovered enough to play tomorrow night. Duke, in her past games this season, has been able to roll up very high scores, and it will take a good defense to stop them.

Last Monday night the Carolina White Phantoms staved off a last minute rally and beat State, 43-35. The game started off rather slowly with Carolina taking an early lead and holding it throughout the game. Turner kept State in the game by scoring ten points during the first period. The half time score was 23-17.

At the beginning of the second half the Terrors closed the margin between the scores to four points, but the Phantoms got hot again and ran the score up to 36-27. Then with five minutes remaining in the game, the State squad, sparked by Turner, pulled the score up to 36-35. Again the Phantoms started hitting the basket, and with scores by Anderson, Dillon, and Paxton, they sewed up the game at 43-35. The outstanding performer was Turner, who with a newly-developed overhead shot, took the scoring honors with 19 points. Swartzberg and Richkus also turned in a good game for the Terrors. For Carolina, Jordon and Dillon with 11 and 9 points respectively, were the high scorers.

This makes the tenth victory in the Southern Conference for Carolina. State has won seven and lost four conference games.

JET ENGINE
(Continued from Page 1)

both engines and install new ones in a day. Where we used to spend five days doing a certain job on a conventional plane, we can do the same thing for a jet in a day. Where other mechanics would use twenty-five wrenches for a certain type of job, we generally use five." The jet engines also save time in another way for the AAF ground crews. The jet engine doesn't have to be warmed up. A

METCALF

Acompañenos... Have a Coke
(JOIN US)

MUY BARATO

...or how to be hep in Puerto Rico
In Puerto Rico, as in Punksutawney or Pasadena, Coca-Cola is a friend-maker your American soldier can count on. To natives and to his buddies alike, *Have a Coke says How ya doin', pal.* It's a simple gesture of friendly courtesy. Yes, Coca-Cola is truly an American symbol of a refreshing way to make friends.
BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
THE CAPITAL COCA-COLA BOTTLING COMPANY, Inc.
Dial 2-1179 Raleigh, N. C.

Coke = Coca-Cola
It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke.
