Claude Thornhill Brings Brand New Band To State

Will Play For Frosh-Sophomore Dance

By RONALD BOLING

Composer-arranger and pianist par excellence—that's Claude Thornhill, the great bandleader who brings his fine musical aggregation to play for the freshman-sophomore Spring Ball, May 4, 1946 after 32 months overseas in the navy.

Claude is a triple-threat man and the lovely theme song of the Thornhill orchestra introduces all three of the maestro's talents simultaneously. Claude is the composer and arranger of the hauntingly beautiful "Snowfall," which also features himself at the piano.

The other richly colored band arrangements are all written by the maestro. Thornhill has a big advantage over most of the current bandleaders in being able to combine a classical background with the current trend of popular music. The result is music that bears a distinctive Claude Thornhill stamp.

He has worked for such musical greats as Bing Crosby, Benny Goodman, Charlie Spivak and the late Glenn Miller. Maxine Sullivan will long be in his debt for his arrangement of "Loch Lomond," with which she soared to fame.

His present orchestra is comprised mainly of musicians who served under him in the Navy and who have been carefully selected as to their merits as individual artists and as an ability to blend easily into their instrumental section. Mr. Thornhill has come forth with something new on the musical horizon. The rich quality achieved by the orchestra is due to an uncommon arrangement of the reed and brass sections. Thornhill has four trumpets, two trombones, five men doubling on sax and clarinet, and two French horns which are an innovation to the dance world. The French horns, usually identified with symphonic orchestras are being used to blend with the colorfully harmonious arrangements of the leader. Two vocalists round out the group.

Thornhill's appearance on our campus will mark the return of name bands to our social calendar in an absence of over four years. It is sincerely hoped that all of the freshmen and sophomores will turn out on the night of the dance and give our "Progressive Social Functions Movement" a flying start. With everyone's cooperation this will be merely a sample of the things to come in the future.

Textile Society Elects New Officers

At the regular meeting of the Tompkins Society held last Tuesday night in the Auditorium of the YMCA, new officers for the coming school year were elected. They were Donald B. Stilwell, Jr., of Charlotte, N. C., President; Marshall F. Watkins of Norwood, N. C., Vice President; John M. Pharr of Concord, N. C., Secretary; John R. Keziah of Kannapolis, N. C., Treasurer; and James West of Charlotte, N. C., Reporter.

The officers that were elected at this meeting are to take office immediately. They are capable and have proved their ability in other activities on the campus and it is hoped that they with the aid and cooperation of the Textile students will put the Tompkins Textile Society back on its feet and make it one of the leading organizations on the campus as it rightly should be.

The Tompkins Textile Society is an organization of Textile students to promote their welfare. The meetings of the society are well attended and are very interesting and informative. During the past year the society was fortunate in securing speakers who were leaders in fields closely related to phases of the Textile industry. Mr. Forest H. Shuford, Commissioner of Labor for the State of North Carolina, spoke on the problems of labor in the state. At the time when he spoke the Erwin Cotton Mill strike

Honorary Fraternity Reactivated Recently

Formal Ceremony Marks Return Of Alpha Zeta

STATE COLLEGE STATION, RALEIGH, N. C., April 16, 1946. (Special to THE TECHNICIAN).

The North Carolina Chapter of the Fraternity of Alpha Zeta was formally reactivated in the State College YMCA on April 16, 1946 after three years of inactivity. Speaking before a large gathering of alumni members, all of whom are now in the state, Dr. I. O. Schaub, Director of Extension for North Carolina, urged the members of Alpha Zeta to cling to the ideals and principles for which they have fought but warned against anyone in any station of life and at any age turning a deaf ear to youthful ideas or any ideas which may be brought about by the changing times. He stated that a man who reaches the point in life where he is no longer receptive to Joe Ganterson's thoughts has lost his usefulness to mankind. Dr. Schaub cited the student members for their interest and spirit in the reorganization of Alpha Zeta and expressed his hope for the Chapter's renewal of a constructive program for development of agricultural education on the campus and service to agriculture in general.

After the restoration of the Chapter Charter by Mr. Jack Rigney, chairman of the Faculty Advisory Committee, the following officers were installed to lead the North Carolina Chapter: Jack Fliser, ex-paratrooper, as chancellor; Harry L. Jordan, ex-air force pilot as censor; Fred H. Wagoner, twice-wounded combat engineer, as scribe; Curtis R. Fincher, air force bombardier, as chronicler; and Joe Ganterson, Four Oaks, as treasurer. Mr. H. W. Taylor, secretary of the General Alumni Association, paid tribute to the Alpha Zeta alumni killed in service. Chancellor Fliser then introduced Mr. David S. Weaver, High Chronicler of Alpha Zeta, who was the speaker of the evening. Dr. Schaub. The reactivation ceremony was preceded by a dutch supper in the private dining room of Leazer Hall.

Initiates of Alpha Zeta Undergoing the rigors of the greatly modified "rite of passage" are the following newly elected members of Alpha Zeta who will be initiated formally into the North Carolina Chapter on Wednesday evening, April 17 at 7 o'clock in Polk Hall: Robert O. Brown, Charlotte; Frank B. Craig, Canton; Charles M. Hartsock, Raleigh; Douglas T. House, Beaufort; James T. Johnson, Raleigh; Dennis Loftin, Kinston; Grady A. Martin, Stone Point; J. T. Moss, Youngville; Maurice Pickler, New London; Harold E. Stinson, Booneville; J. Bruce Stinson, Booneville; J. Phillip Strode, Chabourn; J. Phillip Taylor, Enfield; J. Douglas Wilson, Littleton; and Stuart L. Zekendorf of Newark, New Jersey.

Dean Campbell Goes To Princeton Meeting

Dean Malcolm E. Campbell, head of the School of Textiles here, left this week to attend a three-day meeting of the National Association of Textile Deans at Princeton University. The semi-annual meeting of the association will be held at the headquarters of the Textile Research Institute, Dean Campbell, who is vice-president of the association, will speak on his findings as a member of a commission to study textile research and education in Europe.

Nominations

Freshman and sophomore nominees for the Student Government were chosen this week in the School of Engineering and the School of Teacher Education.

The nominees for engineering are: Freshmen: Jesse Chouteau and L. M. Allen. Sophomores: Woody Williams and M. B. Hayes.

In Teacher Education the following were nominated: Freshmen: George Sledge and B. W. Jackson. Sophomores: Matilda MacDonald and Douglas Wilson.

Engineering Frosh Elect Council Member

In a recent meeting of the Engineering Freshmen, J. T. Watts, Jr., Industrial Engineering student, from Greensboro, was elected as the Engineering Freshman to the Student Council. B. W. Trueblood, Mechanical Engineering, from Lumberton, was elected as alternate representative.

Sponsors For 37th Annual Pika Ball

Pictured above are the sponsors of the 37th annual Pika Ball which will be given Easter Monday in Frank Thompson Gymnasium. They are: Miss Sally Reid, of Raleigh, with Jimmy Johnson, of Raleigh, president of the fraternity; Miss Mary Helen Wilson, of Raleigh, with Don Freeman, of Greensboro, chairman of Dance Committee.

Plans For Jr.-Sr. Ring Dance Are Completed

Final plans for the Junior-Senior Ring Dance are rapidly developing into definite shape. At the last meeting of the Junior Class plans for distributing tickets to the Juniors and Seniors were made. All of these class members can get their tickets at the YMCA on Monday and Tuesday, April 22 and 23 from 12 noon to 2:00 p.m. and 7:00 p.m. to 9:00 p.m. There will be some member of the dance committee present at these hours. The only requirement is that you present your registration card at the desk.

Posters have been put up on the campus announcing that Al Millman and his orchestra will play for this annual event. Millman's aggregation has been praised far and wide by those who have had an opportunity to listen to the band. The Junior-Senior will be the third dance that Al has played for on the campus. Since his band has been organized he has played any number of one night stands in Eastern North Carolina, and all the criticism has been directed in favorable channels. All features Tom Good on the tenor sax and Harold Grant on the trombone. Barry Clark has done a fine job in the vocal department.

There is an opportunity for all members of the student body to attend this dance. You do not necessarily have to be a member of the junior or senior classes. Ticket sales for the dance will be handled by the dance committee. Tickets will be on sale before the occasion at \$1.25 each, tax included. All you men get in touch with your best girl and come out to the dance. It is requested that all those planning to attend the dance purchase their tickets early, for the sale of tickets will definitely be limited.

Ag. Club Picnic

The Ag Club decided in its last meeting to hold its annual picnic on May 3 at the Tar Heel Club. Jim Johnson, chairman of the Ag picnic, reported that he had secured 150 chickens and other trimmings so that the Ag boys may expect an excellent supper. The Tar Heel Club is located on the Neuse River about seven miles from town. Transportation will be furnished from the campus to the club and back. This is a chance for a hay ride with your best girl.

You are urged to bring your dates, but if you have no date, that too can be arranged. Anyone desiring a date should see one of the members of the picnic committee.

So all you Ag students turn out for the picnic—the more the merrier.

RUGGLES RETURNS

Director Edward W. Ruggles of the State College Extension Division returned yesterday from Baltimore, where he attended the annual conference of the Maryland Utilities Association.

Director Edward W. Ruggles of the State College Extension Division returned yesterday from Baltimore, where he attended the annual conference of the Maryland Utilities Association.

Blue Key, Honorary Frat, Is Reorganized

The North Carolina chapter of Blue Key, national honorary fraternity was reactivated here on the campus last week. Members of Blue Key are those students who possess high qualities of leadership, high moral character, and a high scholastic standing. Blue Key became inactive at the end of the spring term in 1943 when nearly all the members were called into the armed services.

The following men were elected to serve as officers for the coming year: president, Fred H. Wagoner, Gibsonville; vice-president, David H. Michal, Candor; secretary, Robert W. Smithwick, Lenoir; treasurer, Robert H. Reynolds, Jr., Raleigh; sergeant at arms, John F. Fliser, Ivanhoe.

Mr. F. H. Jeter and Professor A. H. Grimshaw, honorary members, were at the meeting to assist in the reactivation. Plans are being made to initiate new members sometime this term.

Nominations Deadline

Today is the last day that nominations for Student Government officers for next year can be turned in. If you wish to put anyone up for president, vice president, secretary, or treasurer turn in your nomination to the Student Council office in the Publications Building or to the YMCA desk today.

Math Association Meets At State

Dr. Gordon T. Whyburn, chairman of the University of Virginia mathematics faculty, will be the principal speaker at two-day meeting of the Southeastern Section of the Mathematical Association of America here today and tomorrow.

The Virginia educator will address a dinner meeting in Leazer Dining Hall Friday evening at 6:30. Dr. M. A. Fisher, head of the Department of Mathematics, will preside over the meeting.

The Section's opening session will be held in the Withers Hall auditorium Friday afternoon at 3:30. Chairman J. W. Easley, Jr., of the University of North Carolina will preside over the Friday afternoon meeting and the Saturday morning session which will get underway at 8:30. Dr. Whyburn also will appear on the Saturday program.

Speaking on "Surface Topology and Mapping" and "Analytic Functions in Interior Transformations" Dr. Whyburn will twice discuss recent developments in analytical topology, one of the newest and most active branches of higher mathematics, yet as old as the first maps made by man.

Dr. Whyburn is one of the nation's foremost authorities in this highly technical mathematical field.

In 1940 he was invited to discuss this subject in the four College Lectures of the American Mathematical Society, a series inaugurated 50 years ago to give outstanding mathematicians the opportunity to explain their specialties to workers in other mathematical fields.

A native of Texas, Dr. Whyburn holds three degrees from the University of Texas. He spent a year doing study and research in Vienna and Warsaw as Guggenheim Memorial Fellow. He taught at the University of Texas and at John Hopkins University before joining the University of Virginia faculty in 1934. Until the war he taught during most summers at Stanford University.

During the war he directed the Army's Pre-Meteorological Training Center established at the University of Virginia and was also a member of the War Policy Committee for Mathematics.

He is the author of a book on Analytical Topology published by the American Mathematical Association and of more than 100 research articles in pure mathematics. In 1938 he was awarded the Chauvenet prize of the Mathematical Association of America for the

best research published during the three previous years.

He is a member of many leading scientific and mathematical societies, several of which he has served as an officer.

Other educators participating in the Friday afternoon meeting include A. T. Brauer of the University of North Carolina; J. D. Novak of the University of South Carolina; L. A. Dye of The Citadel; Josephine Mitchell of Winthrop College; E. A. Cameron of the University of North Carolina; W. W. Rankin of Duke University; Ruth W. Stokes of Winthrop College; and T. F. Hickerson of the University.

Speakers on the Saturday program will be P. M. Hummel of the University of Alabama; J. B. Coleman of the South Carolina Highway Department; Y. K. Wong of the University of North Carolina; C. L. Seaback of the University of Alabama; W. H. Spragens of Georgia; L. V. Robinson of the University of South Carolina; Tomlinson Fort of the University of Georgia; H. J. Zimmerman of N. C. State College; and Dr. Archibald Henderson of the University of North Carolina.

Low Bids On Two New Dorms Total \$1,003,697

PiKA Presents Its 37th Annual Ball

Final plans have been completed for the Pika Ball, traditionally presented on Easter Monday.

The occasion will begin with a house dance on Saturday afternoon, and an informal banquet will be given at the S & W Cafeteria on Saturday night. Only active members and pledges will attend this portion of the celebration. The guest speaker for the dinner will be Mr. Lester Rose, Secretary of the Raleigh Chamber of Commerce, Master of Ceremonies for the occasion will be Dr. Lodwick Hartley, head of the English Department at the College. Dr. Hartley, who was recently released from military service, has served as faculty advisor for the fraternity for several years.

On Sunday night, a picnic and weiner roast will be given for alumni and active members of the fraternity. The entire group will assist in preparing the gymnasium for the dance on Monday night. Decorations will be handled by Jimmy Johnson, who did a creditable job for the Black and White Formals.

An open house will be held at the fraternity, 1720 Hillsboro St., on Monday afternoon. All members of the student body are cordially invited to call between the hours of 3:00 p.m. and 5:30 p.m. The formal dance will begin at 9 p.m. and last until midnight. Al Millman and his 17-piece Orchestra will play for the Ball.

A blanket bid has already been extended to all the active and inactive fraternities on the campus and to chapters of Pi Kappa Alpha all over North Carolina. A limited number of bids will be available to the active members for distribution to their friends in the non-fraternity portion of the student body.

Alpha Epsilon Chapter of Pi Kappa Alpha extends a cordial invitation to its friends in the non-fraternity group and to all fraternity men to "stag or drag" to this new version of the traditional Pika Ball and help promote better student and interfraternity relations on State College campus.

Notice!

DATES FOR ROOM ASSIGNMENT

Summer and Fall Terms

Dormitory room assignments for the summer session and for the next school year 1946-47 should be read carefully by each student.

- From April 24th through May 1st, students will have the privilege of signing up for the rooms they now occupy for the summer session and/or for the fall term.
- Beginning May 2nd, all rooms not assigned will be considered vacant and reassignments will be permitted through May 6th.
- Beginning May 7th, students now in school but not in the dormitories may apply for assignment.
- Beginning May 10th rooms will be assigned to new students entering for the summer term.
- Berry Hall and the third floor of Becton Hall will be reserved this summer for special students in short summer courses. These rooms are NOT available to any student enrolled in the regular summer term.
- Mr. Wellon's office will remain open from 8 a.m. to 5 p.m. on all week days except Saturday when it will close at noon.

Note: For the fall term, and possibly for the summer term, it will be necessary to place three men in all the standard size rooms. It is, therefore, suggested that three students desiring to room together, place their application at the same time.

T. T. WELLS, Supt. of Dormitories.

Telephones Installed

Mr. Ed King, General Secretary of the Y.M.C.A., announced this week that telephones have been installed at the trailer camp, in Burlington Hall (C Dormitory), and in Gold Dormitory. The new telephone in Gold is one replacing the one which was torn out at the end of last term. The Y.M.C.A. was instrumental in obtaining the greater majority of the dormitory telephones and is responsible to the telephone company for their upkeep.

The new numbers are:
Trailer Camp 9488
Gold Dormitory 9263
Turlington Hall, not known yet.

The lowest bids for the general, plumbing, electric, and heating contracts for two dormitories at State were submitted last week by a Charlotte firm and two Raleigh firms. The dormitories are being built to relieve the extreme housing shortage which has been caused by the influx of veterans.

The dormitories are being financed by the State College Foundation, Inc., which has made an agreement to borrow \$1,000,000 from the Wachovia Bank & Trust Company of Raleigh in accordance with an arrangement with the Council of State and the Board of Trustees of the Greater University of North Carolina who have given the foundation a 99-year lease on the building grounds.

McDevitt and Street of Charlotte submitted the lowest figure, \$835,898, for the general contract. Low bids for plumbing and heating were \$58,900 and \$83,400, respectively, and were submitted by Bierman and Rowell of Raleigh. Thompson Electric Company of Raleigh had a low bid of \$25,499 for the electrical work.

The low bids totaled \$1,003,697. This figure, however, does not include the fee of the architects, Northrup and O'Brien of Winston-Salem, which will be approximately \$35,000 nor the estimated cost of equipment which is \$40,000. Thus the total cost will approximate \$1,100,000.

Since an agreement to borrow only \$1,000,000 was made, the State Council met Monday and authorized the State College Foundation, Inc., to borrow \$100,000 more from the Wachovia Bank. This agreement will be acted on by the executive committee of the Board of Trustees next Tuesday afternoon at 8:00.

It is believed that a governmental order issued last week broadening priority assistance to educational institutions will greatly help with the construction.

Prominent English Scientist Visits Textile School

Dr. F. C. Toy, president of the Shirley Institute of England, the world's oldest and largest research organization, told of plans here recently to expand his staff of 400 research experts to 500 and announced that the institute now is spending more than \$1,000,000 annually to carry out its vast scientific program.

Dr. Toy, on a visit to State College's famed School of Textiles, said that he now is touring several southern states in an effort to determine the possibilities of installing the Shirley Analyzer to clean cotton at gins instead of after it reaches the manufacturing process.

In discussing the background, history, and functions of the Shirley Institute, the English scientist emphasized the importance of the work of 20 liaison men in his organization who demonstrate the practical applications of fundamental research to England's mill operators. He said that the Shirley Institute, which was organized following World War I, now is working on all fibers but is stressing research on cotton.

Dr. Toy spoke at a luncheon meeting given in his honor by Dean Malcolm E. Campbell, head of the School of Textiles at State College. President Frank P. Graham of the Greater University of North Carolina and Chancellor J. W. Harrelson of State College also made addresses at the luncheon.

Charlotte Club Meeting

There will be an important meeting of the Charlotte Club on Thursday, April 25 at 7:00 p.m. in the YMCA lounge. All Charlotte boys are urged to be present at this meeting.

FOWLER WOODSIDE, President.

Easter Egg Party

Mrs. Pat Watson, Recreational Director of Trailwood, announced today that an Easter Egg hunt would take place on the campus near the trailer settlement at 3 p.m. Sunday.

All the children of Trailwood and their parents are invited. Three prizes will be given to the youngsters collecting the most eggs. There will also be prizes given to the adults who are winners in competitive games that are planned. Refreshments will be served.

Flying Time For Students

We would like to present an idea which we have seen expressed in other college newspapers and which has been adopted in one or two universities. Many students who are now in school served during the war in either the Army or Navy Air Forces and are interested in continuing their flying.

The University has shown no qualms of conscience in making the Government pay out-of-state tuition for all veterans, even though the great majority of them are residents of North Carolina. It seems feasible that if the University can do this, they could also take action to add an aeronautical engineering elective in which the veterans could either get additional flying time or take flying lessons.

Here is another opportunity for the Administration to serve the students. We hope they will investigate the possibilities of this plan.

The Duty of An Engineer

Following is an excerpt from the third issue of The Technician printed. Just as the principles set forth in this column were true twenty-six years ago, so are they true today not only in engineering but also in all technological professions.

No man should be satisfied until he has done the best that he is capable of doing, and he must remember that it is vastly more important to himself that he sets and maintains a high standard in his work than it is for the teacher, or later, his employer, to set it for him. The least duty of every man is to help make the world a little better. This can't be done by merely sitting back approving and imitating what others have done.

One of the greatest wrongs which the age of machinery imposes upon men is to grasp from them their medium of self-expression. The giant industry is changing many of us into mere cogs in the mechanism of modern civilization. The debt of service is a debt of honor, and how best to discharge that debt should be the desire of every honorable man.

- 'The honesty which is unswerving.
The truthfulness which abhors a lie.
The helpfulness which lightens the burdens of life.
The human sympathy which gladdens aching hearts.
The honor which scorns to take a mean advantage.
The courage which always dares to do right, and
The courtesy of kindness.'

The engineer's obligation to serve is not limited to the duties for which he is paid; he owes it to his subordinate and to the public at large. In him should be found the help of good example, a friend whom anyone could approach for counsel, one who is willing to impart his knowledge of life and dealings with men to aid others in shaping their lives, conduct and purpose according to the principles above. It has often been said, "They also serve who only stand and wait," and it may be characteristic of those who, through misfortune of some kind, have been cut off from the activities of life's highways, but it is not so with the engineer.

Never should an engineer in any way favor his client or contractor by reason of the source of his income. This service

State College Campus Centrifuge

By BILL GATLIN

Why must State College forever meekly accept an obscure position in intercollegiate standings? A Bible passage blesses the meek, and those blessings are evident enough. Every State College student realizes the virtues of his school and appreciates them. Still, almost every person connected with State is dreaming of the day when the old school will perk up and emblazon its name before the whole nation.

The spotlight of public attention is constantly shifting, carefully following success, novelty, and glamour. Colleges, just like individuals, enjoy and grow under liberal publicity. Also, like people, colleges are prone to grumble and criticize the institutions that achieve prominence as being flashy, crass, and distasteful to the basic purposes of college education.

The University of Chicago and Massachusetts Institute of Technology and other colleges which have withdrawn from intercollegiate football. Neither were very successful in this activity, and both make a great bid for prominence in other fields. Chicago is the second wealthiest college in the nation and boasts a very progressive educational program.

Some responsible persons at State College take consolation from the fact that a few great American colleges would emphasize intercollegiate athletics. They shy from the substantial problem of organizing great teams here. They would have you believe that ambitions along that line are unworthy the sacrifice entailed in scholastic standards.

The lot of the failure of the world over has always been to rationalize his mistakes into proprieties. Plentiful sympathizers are found among the other losers. Some people actually think that State College is noble in neglecting to make an ambitious bid for athletic success. Other persons watching smaller schools romp on State for so long think that it is shameful.

A little glamour may be what State College needs, even if it is short-lived. To come out and announce to the world that North Carolina has a state college would thrill thousands of students and alumni much more than a smug

boast that State College is important to athletes while other schools offer them an open road. Mediocrity can be more gracefully borne after a great reputation has once been established.

A program for building a successful athletic department requires more than an amateur's analysis, but some prerequisites are noticed by this column. At least the sympathy of the faculty must be enlisted behind the project. A major effort should be made to secure authority for offering an attractive and passable curriculum to athletes.

State has displayed losing teams so long that the school's honor is at stake. Colleges half our size have run over us. State supported teams from the smallest states in the South seem to refuse us games. Probably difficult obstacles stand in the way. Still much smaller schools win and they have problems. Students have a right to look to those in authority for the solution of what are real problems.

Some people design to remark that the student sentiment for fame, showiness, even cheap publicity is a mark of youth. All students are youthful. Competent athletic teams is to them a matter of honor. Competent standing in any relationship affects that honor. Even obtaining of big name bands is important.

A worthy project for the students of State College in any year is a campaign to secure either a major or minor curriculum in physical education. Without it, State will never have a national championship in any branch. Furthermore, the consolidation of the Greater University allows for varsity athletics at State and subsequent allowance should be made for a supporting curriculum.

Doings Of Your Campus Government

(Prepared by the Promotion Committee of the Campus Government Council and formed and more responsible civic organizations on the campus.)

Campus Council Meeting Time

One of the unsolved problems in connection with the effective functioning of the State College Campus is that of finding an appropriately convenient time for the Campus Council meetings. Though some thought and effort have been given to this matter, no real solution has yet been found.

According to the new constitution, the Campus Council shall meet twice each month at a regular time and place. The Standing Committees of the Campus Government Council, under this arrangement, can then hold their meetings every other week and give due consideration to matters to be presented to the larger governing body.

During this school year, however, the Campus Council has been meeting on Friday of each week at five o'clock, which is far from a convenient time. During the present term it has been very difficult to get a quorum, the meetings have been late in getting started, and business has been transacted under pressure due to the lateness of the hour and the understandable desire for adjournment.

Looking to next year, it is highly desirable that some better hour be chosen for the Campus Council meetings. The idea of a 12 to 2 luncheon meeting on the second and fourth Thursdays of each month has good promise, particularly if the new Campus Council members will make it a point to arrange their class schedule for next year so as to have this time clear.

Nominations By Campus Council

Faculty members were nominated by the Campus Government Council on last Friday to run for Council membership in the final student body elections to be held on May 14. Nominees for a one year term are Dr. Donald B. Anderson and Dr. John W. Cell; nomi-

nees for a two year term are Professor T. C. Brown and Dr. William McGehee; nominees for a three year term are Professors Elliot B. Grover and F. W. Lancaster; nominees for a four year term are Professors W. N. Hicks and J. D. Paulson.

Beginning with the spring elections of 1947, one faculty member on the Campus Government Council will retire each year and one new faculty member will be elected to take his place.

School Nominations

By arrangement made with Chancellor Harrelson, and upon recommendation of the Chairmen of the School Executive Honor Committees, Wednesday, April 17, was designated as the date for the nomination of the rising sophomore and junior class members for the 1946-47 Campus Government Council. These elections of nominees are scheduled for 12 o'clock on the above date and all freshmen and sophomores are excused from classes in order to be in attendance at the elections.

John R. Fessenden, John R. Harris, David C. Starling, and James Wilson are the respective chairmen of the Engineering School Executive Honor Committee, the Textile School Executive Honor Committee, the Division of Teacher Training Executive Honor Committee, and the Executive Honor Committee of the School of Agriculture. School nominations are held under the auspices of the School Executive Honor Committees.

Faculty Suffrage

Under the new constitution, the faculty enjoys the right of suffrage and it is hoped that all members of the faculty will follow the common political campaigns on the campus with real interest, and turn out to vote in the campus elections of May 7 and 14. These elections will be a test of faculty interest in the new joint student-faculty Campus Government at the North Carolina State College.

demands that he need no word or act to compromise his inability or offend his sense of justice or right. The chief aim of every engineer should be to stand upon the watchtower of time, warning against danger and showing the way to better methods in dealing with problems of engineering. It is "Lest we forget." A code of right living accepted by a great body of professional men, in the declaration of their faith, is the chart by which they direct their course in the voyage of life. To this chart one who is in doubt may go for suggestion as to the right course to pursue in any time of perplexity, and by the principles laid down in this chart transgressors will be judged and disciplined by their fellows. A. L. White, '20.

From The Administration

Building Program

Several years ago, a study was made of the needs in North Carolina for college trained agriculturists, engineers, textile operators, and teachers of vocations in the lower schools. The study revealed the fact that the State College was graduating only about one-half the number of people needed in these fields.

The College was filled to capacity at that time, yet the number of graduates met only about one-half of the needs. On the basis of the needs, it was estimated that the capacity of the College should be doubled. The Committee on Buildings and Grounds went to work on a building program designed to double the capacity of the State College. The completed program was submitted to the Advisory Budget Commission in 1944.

This year, the College will submit to the Advisory Budget Commission the first phase of the expansion program, which will cover the immediate vital needs of the institution. The first phase will include the following items: Mechanical Engineering and Steam Laboratory. General Engineering Laboratories Building. Boiler Plant Expansion (First phase). Completion Steam and Utilities Tunnels. Botany-Zoology Building. Agronomy (Main Building, with four wings). Agricultural Engineering Building. Greenhouses (four). Head House for Seven Greenhouses. Completion of Armory-Coliseum. Addition to Textile School. Renovate Winston Hall. Two Floors on Civil Engineering Building. Railroad Underpass. Repair Shops for Physical Plant. Poultry Science Building. Student Union, West Campus. Additional Dormitories. Student Union, East Campus. Renovate Gymnasium. Two Livestock Barns. Equipment for Animal Industry Department.

The total cost of the first phase is estimated at about \$5,000,000. The second phase, which will be submitted to the Advisory Budget Commission in 1948, will cost about \$4,000,000.

The items listed herein are not in order of priority. Each item is considered a part of the vital needs, and for that reason, a priority list has not been arranged.

J. W. HARRELSON, Chancellor.

Former State Student Receives Coveted DFC

James A. Galloway, Jr., 23, aviation fire controlman, first class, son of Mr. and Mrs. J. A. Galloway, 5 Terrace pl., Jamestown, N. Y., has been awarded the Distinguished Flying Cross at a Pacific Base before being transferred for discharge.

He won the award for distinguishing himself as a crewman on a Navy plane in flights in the vicinity of Korea. He aided in attacks which destroyed three enemy ships, damaged two others, and damaged a lighthouse, powerhouse, railroad tunnel and bridge.

GLEANINGS

It has been nearly three weeks since we have heard from Brother Stallings. Consequently, I trust our bit of literature is on the straight and narrow path again.

When Frank Craig broke his ankle a few weeks ago, he landed in the infirmary in a semi-conscious state. When he regained full consciousness, he didn't realize where he was—he blew the foam off his medicine and drank it down.

Ed Sullivan sent Bob Dorsen a card last week, which read "change to Textiles before it's too late." Did you know that there are two hounds on the campus; Brother Baskerville and Sister Baskerville. Yes, and Sister Baskerville has calmed down quite a bit since big brother returned.

We understand that a certain State College Prof is thinking about operating a Chinchilla farm. Oh well, State College Professors have to do something to make a living.

In case you-all are tired of drinking inferior brands of beer—well Andy and Charley heard all of their better brands in the far end of the cooler behind the counter.

Smilax briars didn't stop Casy Kazzyinsky when he met up with that 350-pound black bear last week down at Hofmann Forest. Casy hopped, skipped, and jumped to the first tree he came to, climbed it with the bear behind.

A certain well known Junior on the campus is apparently in his second childhood. At the Ag Club meeting last Tuesday he was singing "One'sy, Two'sy, I love you'sy." Such baby talk from a big, spreading two-hundred-pounder.

The Sigma Nu's went on a fishing trip a few weeks ago. All they caught were eels, crabs, and suckers—boy, what a bunch of suckers. Jimmy Osborne caught a terrific case of poison ivy in the woods behind Meredith College last week. If there are any recent cases of poison ivy among the co-eds at Meredith, you know they couldn't have been out with Jimmie!

Call all PiKa's—remember the house is dry all day Monday before the ball. After the brawl, you can start to crawl.

Footnote: Ed Mahoney is full of bolony. Incidentally, Ed, you better be careful or Syma S. will sandwich you in.

From Box 5308

A column in the University of Georgia Red and Black defines a kiss as "20 per cent lipstick, 40 per cent nicotine, and 40 per cent Schenley's Black Label."

Buddy, you just ain't been around! From the College Topics of the University of Virginia we quote: "Spring is in the air, Easter Week around the corner, and supplies of alcoholic beverages start accumulating in our dear institution. . . . Some of them had started their inebriation practices which in part explains the percentage of absentees in classes immediately before and after weekends. A leading authority in Economics statistices this situation in the following manner: 'Forty per cent of the students are absent Friday because of anticipation, while fifty per cent are not in classes on Monday because of recuperation.'"

The Daily Tar Heel of Carolina is bemoaning the fact that they have been consigned to the Naval Academy. We heartily sympathize with them; but suppose they hadn't even had a regular coach last year. And from the Duke Chronicle comes the news that editor Jimmy Alexander, has resigned his position from the newspaper and has left school to enroll in Tulane University. In departing he says, "With my eyes fully open to both the good and evil of Duke University as it stands in the spring of 1946, I cannot hesitate to say what others still around the university also believe and too often repeat: 'Duke is not what it pretends to be.' No further elaboration is needed for that obviously, totally unoriginal statement." He also men-

tion "the false barriers, the pretentious, shackled attitudes which make Duke just another college." The fraternity clique at Wake Forest has announced through the campus newspaper, The Old Gold and Black, its candidates for Student Body officers and sophomore, junior, and senior class officers and representatives to the Student Council. The University Hatchet of George Washington University has this to say about cliques: "Should any sorority or fraternity take it upon itself to oblige its members to vote a certain specified ticket, all is practically lost for the 'good ol' American System!' Nothing savors more of Fascist plebesitics where the people were expected to vote 'ye' or 'no' vote, than a decision by a small group of people on just which candidates are to be preferred above all others."

In reference to the clique system, the editor of the University of Maryland Diamondback says, "Begin now to abolish secret cliques that challenge the integrity of democratic voting." Politics is rough business! The University of Virginia has signed Stan Kenton and Randy Brooks to play for the Easter Week dances. The Men's Pan H of Duke University had Shop Fields for its dance on April 13. Purdue University has contracted Tex Benekle (Glenn Miller's old orchestra) and Tommy Dorsey to play on the same night, April 26. Carolina has signed Claude Thornhill and Wake Forest has Sully Mason. Even State College plans to have a good band—Claude Thornhill—for a change. Peacetime days are here again!

RESEARCH AND ENGINEERING KEEP GENERAL ELECTRIC YEARS AHEAD

LIGHTING AT GENERAL ELECTRIC

THE amount of knowledge accumulated in lamp making is enormous. Some of this knowledge is committed to paper, but much of it is to be found only in the minds of technical and production men in the laboratories and in the factories. Among these men are scores who, on leaving their technical colleges, have since directed their special training to developing better lamps for less money.

The manufacturing operations of General Electric's Lamp Department are far-flung, its 36 plants being scattered about the country in 17 cities.

Altogether they add up to 94 acres of floor space roughly equivalent to an eight-story, mile-long factory a hundred feet wide.

The goal of G-E Lamp Research has always been to produce the best possible lamps for every lighting service—at the lowest cost. Over the years lamp prices have been repeatedly reduced while lamp efficiency has steadily improved. For example, the present 60-watt lamp bulb is 56 per cent brighter than its ancestor of 1923, yet costs only one-quarter as much. General Electric Co., Schenectady, N. Y.

GENERAL ELECTRIC

Dillon's Dailies

Spring Football Practice Begins

The traditional Easter Monday baseball game between State and Wake Forest, played here annually before the war, will resume next Monday afternoon when the Deacons and the Terrors play for the second time this season.

Professional baseball will return to Raleigh for the second year, as the Raleigh Capitals open their Carolina League schedule by meeting Durham here next Wednesday night.

Last term, we published a week-by-week schedule of the 1946 State, Duke, and Carolina schedules, with a few of the Wake Forest games that have been announced.

Sept. 28—Duke at State; VPI at Carolina; Wake Forest at Georgetown.

Oct. 5—State at Clemson; Tennessee at Duke; Carolina at Miami.

Oct. 12—Davidson at State; Maryland at Carolina; Clemson at Wake Forest; Duke vs. Navy at Baltimore.

Oct. 19—State at Wake Forest; Richmond at Duke; Carolina vs. Navy at Baltimore.

Oct. 26—State at VPI; Florida at Carolina; Duke vs. Army at New York; Wake Forest at Tennessee.

Nov. 2—State at VMI; Carolina at Tennessee; Wake Forest at Chattanooga; Georgia Tech at Duke.

Nov. 9—State at Vanderbilt; Wake Forest at Duke; Carolina vs. William and Mary at Norfolk.

Nov. 16—Virginia at State; Wake Forest at Carolina; Duke at South Carolina.

Nov. 23—State at Florida; Duke at Carolina.

Nov. 30—Maryland at State; Carolina at Virginia.

INTRAMURALS

Old man weather won every game in the intramural softball schedule last week, except two, as nearly all of the scheduled contests were rained out.

In the fraternity league, the PIKA's downed the ALT's 7-3. The losers jumped into a one run lead in the initial inning but the PIKA's scored twice in the second frame to take the lead.

The only dormitory game was South Wataguga's 4-2 victory over First Bagewill. The winners scored three times in a big 4th inning spurt and added one in the fifth.

Last Tuesday, the Sigma Pi's took over first place in their softball bracket by downing the SPE's 10-4.

Also on Tuesday, Bridger struck out 8 batters as the PIKA's edged a 4-2 win over the Sigma Chi's to hold onto the lead in their bracket.

THE INTRAMURAL FRONT

The State College Red Terrors completely outclassed the Davidson College nine in their game last Monday as the Terrors collected 10 hits to score 15 runs.

Hurling his first game of the year, Jimmy Wilson, regular centerfielder, went the route for the States and knocked out two hits to help win his own game.

This was the second win of the season for the hard-hitting State Terrors.

State, Duke Golf Match Postponed

The golf match between State College and Duke, which was scheduled to be played in Raleigh today, has been postponed to May 6 because of religious observances on Good Friday, it was announced yesterday by J. L. VonGlab, business manager of athletics at State College.

The next match slated for Coach Rowland Armacost's State team will be held here on April 26 when the local group plays Clemson here.

Trailer Camp Takes Name, "Trailwood"

The trailer camp, which is situated on the west end of the campus, has been officially named "Trailwood." "Trail" was taken from the word "trailer," and "wood" is taken from Dr. Wood, whose ideas and efforts have made the camp possible.

The streets thus far laid out have been designated Picket Lane, Rosedale, and Walnut Street.

State Athletes End Busy Week Of Sports

On Monday State College began its busiest week of spring sporting events since the pre-war days.

The State baseball team, coached by Vic Sorrell, started the ball to rolling by meeting Davidson's Wildcats in a Southern Conference game at Davidson. Sorrell's squad continued the heavy schedule on Tuesday by meeting Wake Forest's Deacons at Wake Forest, and Wednesday they journeyed over to Chapel Hill where they met Coach Bunn Hearn's strong Tar Heels.

Coach Walter Seager's State tennis team, delayed in opening its season by rain last week, met Wake Forest's netmen at Wake Forest yesterday and will conclude the week's tennis slate by meeting Davidson on State courts tomorrow afternoon.

Meantime, a golf match between State and Duke was postponed from Friday until May 6 because of religious observances to be held on Good Friday.

Activities will pick up again tomorrow when the track team, coached by Tom Hines, opens its schedule by meeting South Carolina at Columbia and when the baseball team meets Duke at Duke Park in Durham.

In addition to the heavy tennis, track, and baseball cards, Coach Beattie Feathers is holding daily spring drills getting his football prospects in shape for the fall campaign.

ELECTRICAL ALMANAC

100 Years Ago Professor Wilhelm Eduard Weber, German physicist, announced his hypothesis concerning the molecular current system of electro-dynamics.

75 Years Ago Elisha Gray, an inventor, transmitted music from Milwaukee to Chicago over his harmonic telegraph.

50 Years Ago First partnership of surgery and X-ray took place when lead pellets were removed from hand of Prescott H. Butler, New York lawyer.

25 Years Ago The first radio championship broadcast (the Dempsey-Carpenter fight, July 2) is put on the air by Major J. Andrew White and David Sarnoff.

'Number Please' Now Heard On Car Phone

A new mobile radio telephone, demonstrated recently in New York, makes immediate contact possible with any telephone reached through regular central office systems.

The telephone is designed for installation in vehicles operating in urban areas. Calls may be placed simply by removing the handset and giving the operator the number. In order to carry on a conversation all the user has to do is press a button in the handset while talking, and release it while listening.

To make a call to someone in a vehicle, you ask for the mobile service operator. Each car will have an individual telephone number so that only the bell in the vehicle called will ring.

Hot Stuff On Planes

Electrical emersion heaters built into vacuum bottles and jugs were designed during the war by an electrical manufacturer to keep coffee and other liquids at 140 to 150 degree temperature for crews on planes flying in the Arctic Circle where outside temperature gets as low as minus 65 degrees.

Davidson Netmen In Match Here Tomorrow

Tomorrow afternoon the State College Tennis Team will meet the Davidson netmen on the State College Tennis courts at 2:30 p. m. The first scheduled meet of the season, with William and Mary, was rained out last Thursday. The State squad met the Wake Forest team on Wednesday at Wake Forest.

The players that will probably see action tomorrow are E. Winston, W. D. Weathers, H. C. Kiger, J. T. Woo, R. W. Kennison, R. L. Rabb, J. E. Messick, Warren Lawson, and C. A. Northcutt. There will probably be six single and three double sets.

Since last week new matches have been scheduled. This is a corrected schedule:

April 20—Davidson, here; April 25—Wake Forest, here; May 1—Carolina, Chapel Hill; May 3—U. of Va., here; May 8—Davidson, Davidson; May 15—Carolina, here; May 17—U. of Richmond, Richmond; May 18—William and Mary, Williamsburg; May 24—Duke, Durham.

All matches that are scheduled to take place on the State College courts will start at 2:30 p. m.

Burlington Pros Take 7-6 Win Over Terrors

Last Saturday afternoon the Burlington Bees of the Carolina League came through in the last half of the ninth inning to take a 7-6 victory over the State College Red Terrors in an exhibition game that was played in Burlington.

The Terrors looked like they were going to take the game from the professionals as they collected 13 hits and 6 runs to lead 6-3 going into the last inning. The Bees batters tagged Johnson for five hits and a base on balls as they pushed across 4 tallies in the final frame.

Pitchers Curt Ramsey and Paul Gibson held the Bees hitless for the first six innings. Bobby Courts, hard-hitting left fielder, drove out a long triple in the second inning and scored two plays later. State's big scoring spree came in the sixth when Bill Stanton knocked a long home run over the left field fence with two men on base.

Johnson, who came in the game in the eighth inning was charged with the loss while Nance received credit for the victory.

The box:

Spring football drills were launched at State College Monday by Coach Beattie Feathers and his assistant coaches for the benefit of grid prospects who enrolled late in the spring term and for other members of the squad who are not participating in baseball, tennis, and track events.

Coach Feathers said that the drills would be held for four weeks and that most of his key players from last year's team would not take part in the exercises on account of their activities in the other sports this season. He added, however, that his veteran performers will be present when fall practice is opened.

The oldplock mentor, who is beginning his third year as boss of the State grid team, said that his 1946 squad will be a heavier combination than last season's eleven, but he pointed out that he was not certain at this time of whether the additional weight would count so much. The extra weight and experience may increase the power and versatility of the State squad, the coach said, but he stated that the amount of improvement resulting from those two factors will be determined later.

Feathers opined that ex-GIs going out for the team have been, in most of the cases, shown as much "pep" as they did in the pre-war years, but he believes that they will round into form after the conditioning sessions are completed.

The coach is building his 1946 squad around about 15 hold-overs from last year's team, several war veterans returning to the grid battles, and a few promising freshmen whose football prowess on the college level has not yet been determined.

Among the prospects who have recently enrolled at the college are Ralph Barksdale of Whiteville, brother of the Navy's famed Dave Barksdale and a guard prospect; Gwyn Fletcher of Winston-Salem, a tailback and a transfer from Davidson; Dan Loney of Montreat, Canada, a center; and Hal Sanders of Statesville, a center. Loney and Sanders are expected to replace John Bonner of Wilkes-Barre, Pa., who was the starting State center last fall and who will probably be shifted to backfield.

Feathers and his assistants, End Coach Lyle Rich and Line Coach Bob Suffridge, are holding the spring drills. They will be joined later by Babe Wood, now a Navy commander, who will probably assist Feathers in tutoring the field. Wood was a member of State's pre-war coaching staff.

Meantime, J. L. VonGlab, business manager of athletics at State College, has announced the addition of Maryland's Old Liners to the Wolfpack's 1946 schedule. Clark Staughtness's boys will clash with State here in Riddick Stadium in an afternoon game on November 30.

The addition of the Old Liners to the card gives the Wolfpack four home games and six out-of-town contests next fall. Duke, Davidson, and Virginia also will be met in Riddick Stadium, and Clemson, Wake Forest, VPI, VMI, Vanderbilt, and Florida comprise the list of teams to be played away from home.

The complete schedule: Sept. 28—Duke at Raleigh; Oct. 5—Clemson at Clemson; 12—Davidson at Raleigh (night); 19—Wake Forest at Wake Forest; 26—VMI at Blacksburg, Va.; Nov. 2—VMI at Lexington, Va.; 9—Vanderbilt at Nashville, Tenn.; 16—Virginia at Raleigh; 23—Florida at Gainesville or Tampa; and 30—Maryland at Raleigh.

E. B. Grover Attends Wash. Conference

Prof. Elliot B. Grover, head of the Yarn Manufacturing Department of the School of Textiles at State College, left Tuesday for a three-day conference in Washington with Secretary of Agriculture Clinton P. Anderson, Congressman Pace, and other members of the House of Representatives. Purpose of the conference is to formulate legislative proposals for an enlarged research program on cotton utilization.

4, Johnson 2, Leeper 1, Nance 1. Strikeouts: Ramsey 2, Gibson 2, Johnson 1, Leeper 9, Nance 2. Hits: Off Ramsey 0 in 3; Leeper 9 in 6; Gibson 1 in 3; Nance 5 in 3; Johnson 6 in 3. Hit by pitcher: By Ramsey (Zernial), Wild pitches: Leeper. Winning pitcher: Nance. Losing pitcher: Johnson. Umpires: Reiber and Ridenhour.

Helping Others To Help Themselves

A factor that has prevented the farm income in the Carolinas from rising to its proper level in comparison with incomes of other groups, is that farmers have always purchased their farm supplies at retail prices, and then sold their produce at wholesale prices. More than 40,000 farmers in the Carolinas have found a solution to this problem through membership in the Farmers Cooperative Exchange—a farmer-owned and controlled manufacturing, purchasing, and marketing organization.

Farmers Cooperative Exchange RALEIGH, NORTH CAROLINA

Languages Fraternity Has National Meeting Here; Elects Officers

Dr. Quentin O. McAllister, head of the Department of Modern Languages at Meredith College, was elected president of Sigma Pi Alpha, national languages fraternity, at the organization's 15th annual congress which met here last Saturday in the YMCA.

Other new national officers are Ruby Caulfield of Mississippi State College, vice president; Maxelyn Mounane of Peace Junior College, recording secretary; Prof. S. T. Ballenger of State College, corresponding secretary; and Dr. L. E. Hinkle of State College, treasurer. All of the officers are professors of modern languages at the institutions which they represent.

The election of officers was held following a business session and an address by J. Frank Jarman of Durham, manager of Radio Station WDNC. Jarman, an alumnus of State College and a charter member of Sigma Pi Alpha, discussed the early history and growth of the fraternity since the original chapter was established at State College in 1927.

The speaker said that the objective of Sigma Pi Alpha, as stated in the constitution, is "to stimulate an interest in and to acquire a more intimate knowledge of the geography, people, language, life, customs, history, industries, and culture of foreign countries and to make a contribution towards bringing about a better understanding between these countries and ours by having a better knowledge of them."

Announcement was made that awards will be presented to the following students for high scholastic attainments in the study of languages:

Mary Louise Moulton and Ann Prothro of Saint Mary's School and Junior College; Margaret L. Hardie, Jane M. Keefe, Shirley Palmor, Jean Louise Moore, and Harriet Brogan of Brenau College; Rachel Brooks, Mary Cameron Dixon, Josephine Gibson, and Mary Blane Justus of East Carolina Teachers College; Dorothy Whitley and Margaret Marley of Peace Junior College; Esther Hooker, Evelyn Koerber, Jean Parker, and Margaret Wilson of Meredith College; Jerome M. Weyne of N. C. State College; and Beatrice Guldage of Wake Forest College.

The following students were initiated into the membership of Sigma Pi Alpha:

Charles Robert Shields, Barbara Edythe Brown, George Julius Jeronigan, Jr., John Campbell Leitch, William Lamar Rankin, Jr., Robert Hester Pearce, Robert Guirette, Joseph Bertram King, and Alvaro Guirrero Urdaneta of N. C. State College; Louise Bass, Amy Wyche, Josephine Joyner, Madeline Cole, Marie Mason, Jelene Weathers, Elizabeth Snipes, and Gussie Ruth Greene of Meredith College; Elizabeth Taylor of Saint Mary's School and Junior College; and Mary McPherson, Mary Lou Freshly, Natalie Neal, Annanette Bobbitt, Jean May, and Jacqueline Narron of Peace Junior College.

Dr. L. E. Hinkle, head of the Department of Modern Languages at State College, presided over the afternoon session in the absence of Lena Rivers Boley of Blue Springs, Mo., retiring national president of Sigma Pi Alpha.

A tea was given in honor of the delegates to the congress by Dr. and Mrs. Hinkle at their home on Park Drive following the meeting. The annual banquet was held at the Raleigh Woman's Club Saturday night. Dr. A. M. Fountain, professor of English at State College, was the banquet toastmaster.

New Dam Marks Further Industrialization Of South

Location of Fontana Village and Dam. Fontana Village is located approximately half way between New York and Miami in the heart of an extensive recreation area soon to be opened to the general public, according to an announcement just made by the Tennessee Valley Authority, which constructed the dam, and by Government Services,

Inc., of Washington, D. C., which will operate Fontana Village. Within easy driving distance of most cities east of the Mississippi, Fontana Village is approached from the north and west through Knoxville, or Asheville, N. C., and from the south through Topton, N. C. via Atlanta.

FORESTRY NEWS

By DAVE FRANKLIN

The Foresters met with the Foresters last Tuesday night to elect officers for the Ag Fair of 1946. Joe Sanderson, junior in Animal Production, was elected president; Dick Mahone, junior in Forestry, was chosen vice president and Bruce Stinson, junior in Animal Production, was elected secretary-treasurer.

The program for the joint meeting was presented by pledges of Alpha Zeta, honorary agriculture fraternity. Jack Fiesler, member of Alpha Zeta, acted as master of ceremonies. Each of the pledges introduced himself and then the pledges honored the members of the two clubs with musical and oratorical selections. To start the program Mr. Maurice Pickler and Mr. Bruce Stinson rendered "Sioux City Sue." Mr. R. O. Brown followed with "Who Threw the Whiskey in the Well?" Mr. Pickler then delivered an excellent talk on "Why the Cue Ball Has No Hair"; Mr. Pickler told how scientists have failed to agree as to the probable explanation of why there is no hair on a cue ball, but he predicted that science would solve the problem within the next fifty years.

Mr. Doug Housh and Mr. Charlie Hartsock, the two pledges from the School of Forestry, sang a "touching little tune called 'Onesey-Twosey.'" In a more serious tone, Mr. Grady Martin gave a brief history of Alpha Zeta and said that the principle purpose of Alpha Zeta was to encourage better farming practices and to raise the living standards of rural families through the application of these practices. Mr. Bruce Stinson gave a tear-jerking rendition of "You Won't Be Satisfied Until You Break My Heart." Mr. Phil Taylor discussed "The Lowly Pledge" and sang "You'll Never Know." Several other songs by selected groups of

fly population to practically zero and kept it low for the balance of the season.

"The rapidity of the spraying operation is quite apparent from the fact that 31 barns and 1,550 cows were sprayed in six hours.

Prof. Paget Is Guest Speaker At Brooklyn

Prof. Edwin H. Paget, director of forensics at State College, addressed a called meeting of debaters and faculty directors of debating at Brooklyn College in Brooklyn, N. Y., Monday afternoon.

The State College faculty member discussed the history and the growth of direct clash debating, which he originated in 1932, and outlined plans for an Eastern Direct Clash Sectional tournament in 1947. The invitation to address the Brooklyn meeting came from Prof. Marvin G. Bauer, debate director of Brooklyn College. Debaters and debate directors from Columbia, Hunter College, New York University, the College of the City of New York, Yale and Fordham University were invited to attend the meeting.

Paget's visit represented the third appearance of State College debaters in the New York metropolitan district. In 1937 the State College debaters demonstrated direct clash debating before the Eastern Public Speaking Conference in New York City, and in 1939 two State College teams gave a demonstration direct clash debate over the inter-city municipal radio network.

In 1938, a demonstration direct clash debate was arranged over the National Broadcasting Company network by Mr. Maurice Dreicer, prominent radio executive, who had debated for Rollins College against State College, in their first direct clash demonstration in December, 1932, before the annual convention of the National Association of Teachers of Speech at Los Angeles, California.

The pledges completed the program. Mr. R. W. Graeber, director of the State Forestry Extension Service, will speak at the next meeting of the Forestry Club; his topic will be "Farm Forestry."

Social Functions For Spring Term

The following social calendar has been approved by the Faculty Council it was announced this week by Dean Cloyd, secretary of the Council.

- Monday, April 22 (Easter Monday)—Pi Kappa Alpha Fraternity Dance—Gymnasium.
- Friday, April 26—Publications Board Dinner Dance—Raleigh Woman's Club.
- Saturday, April 27—Junior-Senior Prom—Gymnasium.
- Saturday, May 4—Freshman-Sophomore Classes Dance—Gymnasium.
- Saturday, May 11—Veterans' Association Dance—Gymnasium.
- Monday, May 27—Examinations Begin.
- Saturday, June 1—Examinations End.
- Friday, May 31—Interfraternity Council Final Dances—Gymnasium.
- Saturday, June 1—Interfraternity Council Final Dances—Gymnasium.

DDT Campaign Scores Phenomenal Success

A special DDT campaign intended to reveal its efficacy to the dairy industry against barn flies has been completed at the Walker-Gordon Certified Milk Farm at Plainsboro, N. J., with results considered as "phenomenal."

The tests, arranged by Geigy Co., Inc., of New York division of the Swiss dyestuff house that originated the DDT insecticide, and Henry W. Jeffers, Sr., President of the Walker-Gordon Laboratory Co., were conducted by Dr. John G. Matthyse, Geigy entomologist.

Walker-Gordon was selected for the tests because of its continuous scientific treatment of all phases of operation and because of the extensiveness of its plant and size of cow population. The Walker-Gordon herd comprises some 1,500 cows in 33 similar barns. Tests extended also to several barns on farms outside of the plant but where they were part of the Walker-Gordon set-up.

In many instances dairymen have found that the annoyance of flies resulted in reduced milk production. The experiments, regarded as of highest importance to the dairy industry, established that in the North two sprayings a year will give effective control of flies in barns.

It was found that 21 sprayed barns became relatively fly-free at once, a reduction of 70 to 80 per cent in the fly population still being noted 20 days after application. "In 30 days the comparison was outstanding," said the report, averaging from 0.1 to 0.5 flies on 10 cows in sprayed barns to 16 on 10 cows in unsprayed barns, a reduction of 97 to 99 per cent. . . . At 85 days there was no difference; the spray deposits were no longer effective."

Dr. Matthyse found that "there is far too much movement of flies among open barns in a small area to detect differences other than simple control in sprayed barns versus no control in unsprayed barns."

Various types at different strengths of Need, a Geigy DDT insecticide, were applied. There were no differences between formulations at any given dosage level.
