

THE TECHNICIAN

of NORTH CAROLINA STATE COLLEGE

Vol. XXVI, No. 25

STATE COLLEGE STATION, RALEIGH, N. C., APRIL 26, 1946

Offices: 10 and 11 Tompkins Hall

Periodicals Nominees Approved By Board

At the last meeting of the Publications Board the following students were approved as candidates for editor and business manager of the various campus publications:

The Agriculturist: Editor, Grady A. Martin; Business Manager, J. T. Moss and Harold E. Stinson.

The Agromeck: Editor, Jimmy Johnson; Business Manager, Curtis Hobson, J. T. Jones, Cyma Saltzman, and J. A. Strauss.

The Pinetum: Editor, W. J. Ellis; Business Manager, Norman Hodul and T. F. Isard.

THE TECHNICIAN: Editor, no nomination approved; Business Manager, I. N. Tull.

The advisory committee for the *Southern Engineer* has not yet decided upon the candidates for editor and business manager for next year's magazine. The editor and business manager of the *Textile Forum* will not be elected until next fall.

The publication heads for the *Agriculturist* will be elected by the Agriculture Club, the *Agromeck* editor and business manager will be elected by the rising senior class, the *Pinetum* editor and business manager will be elected by the Forestry Club, and the *TECHNICIAN* editor and business manager will be elected by the entire student body.

Of course in the case of the editors of the *Agriculturist*, the *Agromeck*, and the *Pinetum* and the business manager of the *TECHNICIAN* no election will be necessary since only one candidate has been nominated.

The magazines of the various schools were not published during the war years and have made their reappearance on the campus since Christmas. Despite the difficulties encountered in reorganization, some excellent issues have been produced. All publications have suffered this year because of an insufficient number of students on the staffs. Most of them have been put out by a small number of students who have been burdened with a number of other extra-curricula activities. It is to be hoped that next year the courses in journalism will be offered again and that a larger number of students will take an active interest in the publication.

The only magazine which has not yet been reactivated is the *Watauga*. This was a humor magazine which was widely read by college students throughout the South. Because of the rather obscene jokes and illustrations featured, the Faculty Council has frowned upon the magazine and having the *Watauga* appear as the same kind of magazine it was before the war. If it is reactivated, it will probably be in the form of a literary magazine.

ASCE Hears Two Talks At Recent Meeting

The A.S.C.E. held their regular meeting Tuesday night, April 23, in the Y.M.C.A. Pres. Floyd Seay called the meeting to order and Harold Edgerly, chairman of the minutes and the reports of the Committees. Prof. A. Mitchell of the faculty and all new pledges were recognized and welcomed to the meeting. After the business was completed, the program was turned over to Ed Mahoney, chairman of the program committee.

The program consisted of two speakers. The first of these speakers was A. W. Foster who spoke on "New Construction Materials". After a brief history of construction materials, Mr. Foster brought out some of the help and hindrances that have come up in the use of building materials including the advantages and disadvantages of prefabricated materials. Mr. Foster discussed several new types of materials. These new materials included plastics, aluminum, cement and plywood.

The second speaker was Tom Heritage who spoke on "Modern Education and the Engineer". In his talk, Mr. Heritage stressed the facts that the Engineering student is not being fully educated for his profession. The college student has not been able to sell his qualities to his employer so that he could use them more profitably. Some of the remedies suggested by Mr. Heritage were that the engineering curricula include more liberal subjects and that the engineering curricula be extended to a five year course. Mr. Heritage ended by suggesting that the students aid in improving the Engineering school. Some possible changes that could be made were discussed by those present. The meeting adjourned and refreshments of ice cream and cake were served.

Wooten Resigns As Editor Of Technician

Bobby Wooten, a senior in mechanical engineering from Raleigh, resigned this week as editor of the *TECHNICIAN*. His resignation which is effective April 30th was announced approved by the Publications Board. Wooten has been editor of the newspaper for the past eight months and served as sports editor last year. In his letter of resignation he stated, "It is with deep regret that I tender this resignation, but I feel that I should do so because of scholastic difficulties. I plan to stay on the staff and help with the remaining four issues, but I cannot take the time away from my school work to keep the responsibilities as editor."

Wooten's recommendation to the Board that Woody Williams be appointed as acting editor until the editor for 1946-47 is elected was also approved. He also recommended that the Board should renew its policy of having the newly elected editor and business manager take over the paper as soon as the election results are known. He pointed out that under this policy they will have an opportunity to get very helpful assistance from the retiring editor and business manager.

Considering the unusually small staff of the *TECHNICIAN* this year, many students believe that Wooten has done a very creditable job with the paper. At all times he has been alert to publicize student opinion, has advocated more student interest in extra-curricula activities, and has made many helpful suggestions to the Administration concerning student welfare. As a senior representative to the Student Council and a member of the Student Welfare Committee, he has been in an excellent position to get first hand information on student needs and activities.

Wooten is a member of Pi Tau Sigma, honorary mechanical engineering fraternity; Theta Tau, professional engineering fraternity; Pi Kappa Alpha, social fraternity; the Publications Board; and the Social Functions Committee. Last year he served as junior class president and treasurer of Pi Kappa Alpha and Theta Tau.

Last Chance

Dance bids for the freshman-sophomore Spring Ball will be available until Wednesday, May 1. After that date absolutely no bids will be available.

The Spring Ball program will start at 3 p.m. with an informal all-request concert in the Memorial Auditorium. This will be a two hour affair featuring the kind of music that has made Claude Thornhill one of the foremost musicians in our country. Following the concert will be a semi-formal dance in Frank Thompson gym starting at 8:30 p.m.

Those who haven't secured their bids will be able to do so in the following rooms:

- 134 Turlington.
- 324 Becton.
- 224 Bagwell.
- 304 Snye.
- 118 Watauga.

Limited Number Of Tickets Available To Jr.-Sr. Ring Dance

The Junior Class will present its annual Junior-Senior Ring Dance tomorrow night at Frank Thompson Gymnasium. The dance starts at 8:00 p.m., and the traditional ring ceremony will begin at 9:30. Senior bids may be obtained at the door.

Music will be furnished this year by Al Millman and his orchestra. Millman's band has become increasingly popular throughout this section of the state and is rapidly obtaining recognition among the better bands. Al features Tom Good on the tenor sax and Harold Grant on the trombone. Barry Clark has done a fine job in the vocal department.

A limited number of tickets are still on sale, and purchase of these remaining tickets are not limited to members of the junior class. Tickets may be obtained from members of the dance committee or other members of the Junior Class before the dance tomorrow night.

The Guilford College A Cappella Choir

Pictured above is the 45-member Guilford College A Cappella Choir which will present a full concert in Pullen Hall on Sunday night under the sponsorship of the College YMCA. The chorus is directed by Dr. Ezra H. F. Weis, professor of music at Guilford College.

Student Backing Of Spring Ball Needed To Make It A Success

This year it has been made possible through the cooperation of the members of the freshman and sophomore classes to inaugurate the first Spring Ball. This event will renew the custom of friendship found during the pre-war days in the Sophomore Hop, a dance given for the freshmen by the sophomores.

Realizing the dire need for the presence of a "name band" on the campus, the two classes have cooperated and have made possible the Spring Ball in its present form.

The freshman and sophomore classes combined generally include about two-thirds of the entire student body, thus constituting the largest single organized group on the campus. For this reason they are in the position to sponsor the largest social event of the year at a minimum cost to the individual.

This year they are trying what seems to be a very successful experiment. They have planned only a concert and dance, but with this start and the unlimited possibilities for expansion, it seems certain that the following classes will be able to present gala affairs that will add much to the social calendar of the school each year.

This is a challenge to all of the freshmen and sophomores of the future. The ice has been broken and the way is clear. It is now up to each individual to see that he does all that is in his power to help promote bigger and better Spring Balls in the future.

Ag Club Has Guest Speaker At Meeting

Mrs. Estelle T. Smith addressed the Ag Club Tuesday night on the subject of "The Rules of Decorum and Their Importance in Success in Life." Mrs. Smith, a popular member of the Extension staff, has the official title of Assistant State Home Agent. She has traveled widely and is known throughout the state.

The meeting was opened with a singing program, and the speaker was then presented by Philip Taylor, program chairman.

Following the program a short business meeting was held. A committee composed of Jack Fiesler, Philip Upchurch, and Claude Kidd was appointed to investigate the possibilities of raising funds to finance the judging teams next fall. The money will be used to send livestock, poultry, and other teams to the major stock shows. Joe Sanderson then gave an inspiring report on the progress of the Ag Fair.

Several amendments and a preamble to the Ag Club constitution were presented by L. B. Miller. They were voted on and passed unanimously by the club.

The Ag Club will meet again next Tuesday night at 7:00 at which time final plans for the Ag picnic will be announced. All Ag students planning to attend the picnic are urged to come out to this meeting.

Guilford College Choir To Appear In Concert Here Sunday

A well balanced program of the best sacred music will be presented by the Guilford College A Cappella Choir of North Carolina when it appears Sunday night, April 28th, in Pullen Hall at 8 o'clock under the direction of Dr. Ezra H. F. Weis, professor of music at the 109-year old institution.

A full evening's program by this choir, which has appeared in most of the eastern states, includes four groups of numbers. "Wake, O Wake! The Watch is Calling," first in the series, was composed by the famous organist of St. Peter's Cathedral in Hamburg, in the 18th century, Jacob Praetorius. Other numbers in the first group are by De Pres, Hassler and Teschner.

The second group includes representative compositions by three of the world's finest musicians, Bach, Schubert and Mozart. "Jehovah, I Would Sing Thy Praise," the Bach number, has been arranged for four-part women's voices by Morton J. Luvas.

Numbers by Raymond Rhea, of Corpus Christi, Texas; H. W. Monson, of Concordia College; Gounod and a traditional 13th century melody comprise the third group. "Now Behold and Jerusalem" from Gounod's cantata "Galilee" has solo part with chorus, arranged for women's voices by Wensel and Raboch. The final group includes numbers by four prominent musicians of the present day. They include (Continued on Page 4)

Sponsors For Junior-Senior Ring Dance

GLENDA NORMAN
 JOAN HASSLER
 DORIS BROWN
 SALLY REID
 MARTH MONK
 LAURICE JACKSON
 FRANCES THOMPSON
 JEAN DAVIS
 MONA FALLIN

The sponsors for the annual Junior-Senior Ring Dance which will be held tonight from 8:00 to 12:00 in the Frank Thompson gymnasium are shown above. They are: Miss Glenda Norman of Elkin, with Philip Strole of Chaubourne, secretary of the junior class; Miss Sally Reid of Raleigh with Charles M. Colhard of Elkin, chairman of the dance committee; Miss Joan Hassler of Thomasville with Charles M. Horne of Roanoke Rapids, dance committeeman; Miss Doris Brown of Salisbury with Charles Mose of Kings Mountain, dance committeeman; Miss Martha Monk of

Student Government Candidates Announced

Orchestra And Glee Club Plan To Observe National Music Week

The first week in May, designated as National Music Week, will be a busy one for the State College musical organizations. The Orchestra and the Men's Glee Club under the direction of Christian Kutshinski are collaborating with the Saint Mary's Girls' Glee Club under the direction of Miss Geraldine Cate in the preparation of a festival program to be presented in Pullen Hall on May 5, and to be repeated at Saint Mary's on May 7. On May 8th the Redcoat Band will play a concert at the Raleigh Memorial Auditorium. The program is to consist of music representative of seven of the United Nations, and will be the opening feature of the 3rd garden show sponsored by the Garden Clubs of North Carolina.

All band musicians who have not been attending rehearsals regularly, or not at all this term, are requested to come to the Thursday night rehearsals at 6:45, to assure a reasonable balance, and if possible, to attend the 5:00 o'clock rehearsals Monday and Wednesday.

- Rehearsal Schedule**
- Friday, Apr. 26—7:00 Glee Clubs at St. Mary's.
 - Monday, April 29—5:00 Band; 6:45 Men's Glee Club; 7:30 Mixed Chorus and Orchestra.
 - Tuesday, April 30—6:45 Men's Glee Club.
 - Wednesday, May 1—5:00 Band; 6:45 Men's Glee Club.
 - Thursday, May 2—6:45 Band.
 - Friday, May 3 (Final)—6:45 Men's Glee Club; 7:30 Chorus and Orchestra.
 - Sunday, May 5—4:00 Concert in Pullen Hall.
 - Monday, May 6—5:00 Band; 7:15 Glee Clubs and Orchestra at St. Mary's.
 - Tuesday, May 7—8:00 Concert at St. Mary's.
 - Wednesday, May 8—2:00 Band Concert Raleigh Auditorium.

Student Chapter ASCE And N. C. Section To Hold Joint-Meet Soon

On Friday, May 3, 1946, the North Carolina Section of the A.S.C.E. and the Student Chapter of the college will have a joint meeting at the Carolina Hotel in Raleigh. This meeting will be the regular spring meeting of the North Carolina Section of the A.S.C.E. with the Student Chapters at State and Duke attending and taking part in the program.

The program that has been planned for this meeting will be of great interest to all those who attend but it should be especially interesting to all those from State College who will attend because there are several State men who are taking part in the program. The program also will be a big help to those Civil Engineering students who attend and are soon planning to start to work in their profession. Among the committee reports that will bring special interest to the student who is soon to graduate will be the report on present employment conditions. Another of the important committee reports will be a report on students relations in the Civil Engineering schools at Duke University and State College. The report on the State College Department will be made by Floyd Seay, president of the student chapter, and Prof. W. F. Babcock, faculty advisor. The technical session will be divided into two sessions, the morning session and the afternoon session. A luncheon, to be held in the ballroom of the hotel, will divide the two sessions. Dr. C. C. Brenneke, head of State's Electrical Engineering Department, will be the speaker at the luncheon. Dr. Brenneke will speak on "Electronics." Two seniors in Civil Engineering at State will speak at the technical session. A. W. Foster will speak on "New Construction Materials" at the morning session and T. P. Heritage will speak at the afternoon session on "Modern Education and the Engineer." Other speakers on program will be Mr. John Watson, Consulting Engineer, who will speak on a phase of the manufacture of the atomic bomb and Mr. F. G. Tattall of the research department of the Baldwin Locomotive Works who will speak on the SR-4 steam engine. An interesting feature also to be on the program will be a movie on "Satellites," to be presented by Mr. A. B. Scott of the Bethlehem Steel Company.

Final Plans Are Made For Vets' Next Dance

The Veterans Association held their regular weekly meeting last Thursday night in the auditorium of the Y.M.C.A. At this meeting final plans were made for the Veterans Dance to be given on May 11th in the Frank Thompson Gymnasium. This will be the second dance given this year by the Veterans Association, the first was given during the fall when Woody Hayes' orchestra furnished the music. The services of Al Millman and his orchestra have been secured for the 11th. Tickets will be on sale next week and a large turn-out is expected.

Living up to their reputation of furnishing recreation for its members the Veterans Association was host at a wicker roast and moonlight skating party last Monday night at Pullen Park. There were approximately 50 couples present and everyone had a good time. H. C. Palmer, general member of the Association, took the prize as the best skater.

Aero Meeting

The Aero Society will hold a meeting Tuesday night at 7:00 on April 30 in the Aero Laboratory. All old members are urged to attend this meeting.

Registration for the meeting will begin at 9:30 Friday morning and will take place at the mezzanine of the Pullen Hall. (Continued on Page 4)

Dormitory Plans

We are glad to hear that plans for two new dormitories have finally been completed. The negotiations have been in progress now for the past five months. A change in the original plans, along with the slowness of the various boards' approvals and the consequent red tape, account for so much time being spent in preparation. This week all the bids for the construction work and the final plans were approved when the executive committee of the Board of Trustees met in Governor Cherry's office.

There is only one item in the contracts which had us puzzled, and that is the letting of contracts to the Northrup and O'Brien architectural firm of Winston-Salem. We cannot understand why the college architect was not called upon to draw up the plans. Professor Ross Shumaker, head of the Architectural Department and the college architect, did a very creditable job in designing the beautiful Alexander and Turlington Halls. From our view point it seems that Professor Shumaker would be in an excellent position to know the needs of the college expansion program and keep the buildings in similar design to the existing buildings.

Any casual observance about our campus will attest the fact that little attention has been paid heretofore to the overall plan of building. Most of the structures have been built one by one and none of them correspond to any particular design, except the freshman quadrangle and the comparatively new Alexander and Turlington Halls.

We do not contend that Northrup and O'Brien are not competent architects or that they do not know the needs of the building program, but it seems to us that a permanent building committee should be appointed to see that all building in the future will follow some standard type of design no matter who the architects are. We believe that the new buildings should preferably be planned along Greek classic lines which are embodied in the Southern colonial style. Many of the present buildings are built along these classic lines and the most logical idea is to have the new buildings correspond in design so that a pleasing effect will be given to the overall campus view.

We understand that the plans for the new dormitories call for a flat roof, because of the lower cost in construction. The students who will live in these dormitories during the summer months will have to suffer from the heat which will be caused by this design. If the students are to be considered, this plan is certainly not good. The flat roof will also be another change in design when compared to other dormitories.

We hope the Administration will consider the plan for an active building committee which will be responsible in seeing that all new buildings are designed in accordance with one architectural style. We believe that the college architect should head this committee and give his approval to any construction job to make sure that the buildings are not too far out of line.

—W. M. W.

The Veteran's Friend

In a world occupied with problems of grief, famine and readjustment, it is comforting to know that there are compassionate influences energetically at work. There is the Red Cross. There is UNRRA and the Salvation Army. Missionaries are renewing their calls abroad. And here at home there is another group active, seldom in the news but doing a vital service.

This latter group is administering to the veterans of both World Wars. These benefactors perform service for the less fortunate, the helpless, the unskilled. They help the G. I. present his application for a loan, or search for a job for him. They pass the hat among their friends to give a lift to a temporarily destitute veteran. Many of them are accorded powers-of-attorney for use in unsnarling the red tape surrounding a veteran's claim for a pension or compensation.

These benefactors arrange care for the widows and orphans of America's war dead, and look to the needs of the ex-serviceman confined to hospitals operated by the Veterans Administration. These "watch-dogs" for humanity are the confidant for the troubled and the counsellor for the confused, always holding information in sacred trust. Few of them are paid, yet they devote endless hours to individual cases, and study of new legislation in order to be equipped for rendering service to veterans. They accept as their reward the satisfaction and privilege of succoring their comrades of war association, exemplifying a spirit rising from the battlefields.

Who are these benefactors? Who is the local representative?

He is the service officer of The American Legion post. He is one of more than 25,000 throughout the nation. They are performing immeasurable service in rehabilitating veterans to the ways of civilian life.

Cynicism
Most reformers or liberal thinkers are sooner or later termed cynics. Regardless of the appropriateness of the term, any person honestly attempting to determine the truth about man and his world finds many things to criticize.

To carelessly adopt a generally cynical attitude is very dangerous. Even to criticize occasionally with the full strength of one's convictions and unrestricted observations can easily place a person in opposition to the strongest powers of organized man and subject to unprincipled pressure. Still, man's progress or hope for improvement rests on the initiative of people with the courage to criticize. Although the road is dangerous, the heights of success and the adoration of millions lies in wait for the man who correctly judges the desires of the masses and possesses the courage and skill to attain them.

Reckless criticism achieves nothing but unpopularity for the critic. Constructive and successful criticism requires careful planning. No great intelligence is required to recognize distorted values, waste, disorganization, instability, selfishness, etc. Recognition of room for improvement and even a conviction as to the most desirable change is but a small beginning for progressive action.

The great opinions, ideas, and theories held by the people of this world do not rest primarily on detached, factual, or even humane reasoning. The great organizations, habits, and methods of men derive their stability and their enthusiastic support largely from emotions—pride, fear, greed, love, hate, etc. Our largest and oldest institutions originated and received their organizing impetus from small and often self-interested groups, rather than from a disinterested, democratic process. The ideal democracy has never existed as a government of any major nation.

None, not even the greatest intellects, are unaffected from base emotions. The great majority of people accept most of their opinions from family prejudices or the prevailing attitude of their society. Persons capable of original analysis often convince themselves of untruths through rationalization.

Without attempting to judge the merits of utilizing the leadership of the important point is to recognize that the establishment of any reform must take into primary consideration man's prejudices and non-rational nature.

Beyond the support of long-established programs, the leadership is rational if not ways broad-minded and strictly factual. Some individuals rationalize and refuse to admit, even to themselves, their true motives, but any institution or custom that has lasted through several generations has very definite aims and motives. Many are often hidden with substitute theories offered for popular dissemination, but the reformer must understand the true motives and make allowance for them also.

Any state or society is totalitarian to a certain extent. Government, or the group in control which holds the ultimate in force, can and somewhat does affect every activity of the people. Therefore, the true aims of the government or local political party must be very carefully analyzed. Any government that is not totalitarian leaves a sphere, to that extent, of anarchy. If anarchy is to be at least contained, the government must have some part in every activity.

Relation To Student
All this theorizing is obviously opinion and the responsibility of every student is to come to some understanding along this line alone. In forming a basic philosophy, a great deal of liberal thought is required of any person. To have an ideal democracy, every citizen should have at least a frank understanding of the society in which he lives. If his fundamental opinions are selfish, racialistic, nationalistic, or just plain cruel, he should at least realize and admit it in his own heart. The world is filled with Christians that have actually sold themselves on terrible falsehoods and expect to enter Heaven after having lived a "pretty good life."

Ordinarily one would expect a college to be the place for a person's developing an unbiased philosophy—a place where only proven truths were taught. Maybe liberal arts schools do teach that way. However, at State College, where the lecture system is used almost entirely, many outright falsehoods are taught. The scientific departments, from my view, are free from this charge, but the sociology department seems to be carrying on a partisan political program. Even the political science department, which has a very capable and broadminded professor, uses a textbook that supports some very questionable theories.

In the few non-scientific courses offered at State College, either a discussion system should be used in the classroom or nothing but factual information should be submitted to the student. Otherwise, State College should call for program indoctrination instead of education. Originally the phrase "liberal arts" included those studies open only to free men. Slaves were taught only the sciences and other arts. In order that that motto be kept, today's scientific schools must make provision for liberal arts as well.

Abstract Thought
Dorothy Thompson recently accused Americans of avoiding all kinds of abstract thought. The best brains of the nation are encouraged to deal entirely with material things or mathematical relationships. Abstract thought is considered unessential, even wasteful. She blamed our lack of capable diplomats and an integrated foreign policy on our material-mindedness. Possibly the nation's colleges bear a considerable part of the responsibility.

Impressions Of A Returning Vet

By JACK FISLER

Being somewhat of a sentimentalist, I just couldn't keep that lump in my throat from bobbing right up and knocking a fevory dry eye out of me. I gazed on our beautiful Memorial Tower last March after three long, long years of drilling, KPling, griping, jumping from airplanes, and in general, making a monkey out of myself and the Japs. There came to my mind, too, that I'd have to start building another such memorial soon or else dedicate the one we have to Emil, Morehead, Calvin, and all the others who would not stand and gaze and reminisce as I was so fortunate to be doing. Yes, so great to get out of those GI boots and get into "civvies" again but it was an equal thrill to be able to say, "I'm back in school again."

For the past several weeks my life has been so occupied with getting back into the grind or groove (take your choice) that I have hardly had time to take stock of any situation here at our dear Alma Mater. Renewing old acquaintances has been one of the more pleasant phases of my readjustment but even there I have noticed the need for a new rule in social etiquette. Any number of times I have run into familiar faces which should have a name, but for the life of me, the name just would not come out of the cobwebs of my memory. The "face" was having the same (take your choice) that I have hardly had time to take stock of any situation here at our dear Alma Mater. The "face" was having the same (take your choice) that I have hardly had time to take stock of any situation here at our dear Alma Mater. Renewing old acquaintances has been one of the more pleasant phases of my readjustment but even there I have noticed the need for a new rule in social etiquette. Any number of times I have run into familiar faces which should have a name, but for the life of me, the name just would not come out of the cobwebs of my memory. The "face" was having the same (take your choice) that I have hardly had time to take stock of any situation here at our dear Alma Mater. Dillon's Dallyings

The athletic department here at State should definitely be commended for the steps that they have been taking recently towards building better athletic teams.

In the person of Beattie Feathers, we have one of the keenest young football minds in the country. Feathers, who is much younger than most collegiate mentors, has the ability of teaching his stalwarts the smart type of ball—the brand of ball which usually wins games.

About eight weeks ago, the college signed Vic Sorrell as head baseball coach. Again, State is fortunate in having an experienced man who has spent many years on the diamond, having been one of the greatest pitchers to take the mound for the Detroit Tigers.

And last week, the signing of Everett Case as head basketball coach climaxed a period in which the athletic department has been seeking newer and better coaches. Mr. Case has one of the most impressive records of any coach in the country.

Tennis, golf, and track have resumed this spring, and wrestling will be added next winter.

With all of the good coaching material coming in, it's a crying shame that this Raleigh unit of the Greater University can't have a physical education course in which athletes can major.

Despite the difficult courses our athletes must take, the signing of new coaches marks a new era in intercollegiate athletics for State College.

THE WORLD'S MOST HONORED WATCH Longines WINNER OF 10 World's Fair Grand Prizes, 28 Gold Medals and more honors for accuracy than any other timepiece.

Case Signed As Basketball Coach Will Start New Job On Release From Navy

Six Reasons For A Good Team

Pictured above are the baseball players that are now helping Coach Vic Sorrell make his first year as coach of the Terrors a successful one. They are from left to right: Paul Gibson, Charlie Richkus, Curt Ramsey, Chick Dock, Bill Stanton, and Bobby Courts.

State Nine Loses To Blue Devils, 11-0

The State College Red Terrors dropped their first loss of the season last Saturday afternoon at Durham to the Blue Devils of Duke. The final score was 11-0.

Duke took an early lead as they connected for four singles in the second inning to score three runs. In the fourth frame the Durham players tallied two more runs off of one hit, two batters hit by pitched balls, two errors, and a walk.

Jimmy Wilson took over the mound duties in the eighth when Gibson was taken out of the game. The Blue Devils tapped Wilson for four hits and four runs.

This was the Techs' first loss as compared to one win in Big Four play.

Table with columns: State, ABRHOAE, Uteley, 3b, Richkus, ss, Edwards, cf, Wilson, cf-p, Courts, lf, Kohler, 2b, xEvans, Stanton, lb, Owens, rf, Gardner, cf, Gibson, p, xxHege, Newborn, rf. Totals: 33 0 4 24 12 4.

xx-Batted for Kohler in 9th. xx-Batted for Gibson in 8th.

State Cindermen Lose To South Carolina

The State College cindermen lost their first meet of the new season as the University of South Carolina outpointed the State runners, 85% to 40%.

The summary: 100—Ratliff, SC; Andrews, NCS; and Humeicut, SC. Time 10.6. 220—Chambers, NCS; Andrews, NCS; and Riggs, SC, 23.0. 440—Braley, SC; Riggs, SC; and Orr, SC, 54.1.

High jump—Foote, SC; Farrier, SC; Bolo, SC; (tied for first) 5 feet 9 inches. Pole vault—Badger, SC; Dellerba, SC; (tied for third place) Buck, SC; Garrison, NCS; Rutledge, NCS, 10 feet.

Terrors Take 6-3 Win Over Demon Deacons

INTRAMURALS

Last week proved to be one of the busiest weeks of intramural activities since the beginning of the term. There were only two forfeit games during the week.

Two postponed dorm games were made up. Third Bagwell eked out a 8-7 win over the Off-Campus Vets. Glaser was given credit for the win while Pate was charged with the loss.

Psychological Service Center Enters Ninth Year Of Service

Students and professional people, who struggle along to make passing marks or worked unusually hard to complete on even terms with their associates, now have turned to psychological technique to discover their handicaps and aptitudes, and many times they find that they have chosen the wrong field of work.

Colleges and universities long have enrolled students in certain curricula and have found, in many cases, that these students do not belong in the various divisions of study which they have selected for themselves. Harried administrative officials pondered solutions to the vexing situation for many years and finally struck upon the idea of clinical diagnosis and therapeutic assistance to members of the college communities.

State College organized a Psychological Service Center in 1938 to handle various guidance activities and has made use of the facilities. The Service Center, which is operated as an integral part of the College's Department of Psychology, soon will enter its ninth year of functioning. Administrators already are contemplating a broader range of service in aiding students and townspeople who have problems dealing with emotional, educational, and vocational adjustment.

Dr. William McGehee, head of the College's Department of Psychology, and Dr. D. J. Moffie, director of the Service Center, returned to their duties at the institution a few months ago following tenures in the armed services, and they are expanding the services of their staff and facilities to cope with post-war complexities. "It is the intention of the Service Center," Dr. McGehee explained, "to use such techniques as depth interviews, psychological testing, and careful case study methods ordinarily not available to counselors in helping students solve various personal problems and in helping counselors to deal more adequately with problems presented by the students."

In mind with this, two types of cases are usually referred to the Center. The first type is the individual on the verge of a decision or a dean may need some additional information or recommendation concerning vocational or curricular adjustment which may be secured by clinical psychological techniques. The second type of case is that of the individual who, due to many circumstances, presents a personality problem which requires extensive psychological therapy.

"For the first type, the Psychological Service Center is prepared to furnish to the individual who made the referral, psychological test data and other information gained in a clinical interview which might bear on the problem at hand. For the second type, the Psychological Service Center expects to do extensive therapeutic work with the individual referred, consulting with the counselor who made the referral and attempting through all the ways possible to bring about a more adequate adjustment in the student."

Emphasizing the myriad of personality and psychological angles facing the personal life of the center, Dr. McGehee said:

"This Psychological Service Center is not just a testing service. In addition to administering psychological tests the Center attempts by means of interview, inquiries, and case histories to get an overall picture of the individual with whom the Center is working. It is believed that individual problems of an involved nature cannot be solved without securing all possible data."

In commenting on the work of the Center, Dr. Moffie said that the academic problems arise not only from the lack of aptitude but from emotional problems which can be put in proper perspective in careful clinical interviews.

The State College organization, Dr. Moffie said, is not making an effort to build up a heavy case load, but it is given thorough consideration to the individuals appealing to it for aid. The faculty member stated that his staff had handled a total of 500 cases since the Center was opened, but he explained that there was little activity during the war years because of a smaller student body and because both Dr. McGehee and Dr. Moffie were employed in defense activities.

Plans, however, are being formulated to expand the facilities of the Center to take care of around

250 to 300 cases per year, Dr. Moffie announced. Meantime, several tests are being given to accomplish the current tasks of the Center. Included in the group are general college aptitude tests, interest inventories and personality tests, aptitude tests of engineering, mechanical, in a n a n l, clerical, and business fields, and tests to determine the academic achievement in English, mathematics, physics, and chemistry.

Only students who have significant problems are examined, and curiously so-called "discouraged" from taking the tests.

INTRAMURALS
(Continued from Page 3)
Lower Beeton smashed Second Bagwell for a 16-3 victory in the other make up game. Sides fanned two to win the contest while Lewis was the losing pitcher. Jones with three for four was the best at the plate.

Rightmeyer allowed seven hits as he pitched his North Watauga team-mates to a 9-8 victory over the Second Bagwell team. Schlman was the losing hurler as he gave up only six safeties. Bagwell staged a six run rally in the final stanza that fell just short of victory. Bowen, with two for three,

led the losing cause while Brantley duplicated the feat for Watauga.

Combining a fourteen hit attack with three hit pitching by Lawson, the SAM's pounded out a 13-5 win over the Delta Sigs. The winners scored at least once in every inning. The ALT's shut out the Sigma Nu's, 15-0, behind two hit pitching by Wadsworth. The contest was on an even basis until the Nu's defense went completely to pieces in the sixth inning and the ALT's

FORESTRY NEWS

By DAVE FRANKLIN

Dr. J. V. Hofmann, Director of the Division of Forestry, spoke to the members of the Forestry Club Tuesday night; his topic was "Observations on the Future of Forestry."

Dr. Hofmann told the foresters how he had watched forestry grow and said that forestry had "arived" as a profession and that forestry was generally recognized as a firmly established vocation. Dr. Hofmann said that graduate foresters no longer had to look to the Federal and state governments for employment, because private industries realize the importance of hiring technically-trained foresters.

Dr. Hofmann related some of his experiences with private industries and told how one company which refused to employ foresters twelve years ago today has forty-five graduate foresters on its staff. He stated that the Chief Forester of the Federal Forest Service recently estimated that two and one-half million graduate foresters are needed in the United States today. He said that these facts were indicative of the general trend in forestry; i.e., the establishment of sound forestry practices and the employment of graduate foresters to carry out these practices.

In view of these facts, Dr. Hofmann advised the student foresters to be worried about the prospect of getting a job in forestry after they graduate. He also advised the students to begin thinking seriously about what particular branch of forestry they wanted to enter. He said that college was the place for students to decide definitely what profession they wanted to prepare themselves for as well as the place to begin the preparation. Dr. Hofmann told how some students come to college without knowing exactly what they want; and in this respect, he said that to be successful in forestry a person must enjoy the kind of work that a forester is required to do. Dr. Hofmann advised the boys to give serious consideration to this too.

In a business session which preceded the program, Bob Dorsen was elected editor for the *Stabs and Edging*, a paper which was printed monthly several years ago by the Forestry Club; Dorsen plans to publish one issue this spring.

Lampe, Van Note To Attend SPEE Meet

By DAVE FRANKLIN

Dr. J. H. Lampe, Dean of Engineering, and Dr. W. G. Van Note, Assistant Director of the Engineering Experiment Station here, left Tuesday night for Nashville, Tennessee, to attend and participate in a joint meeting of the Southeastern Section of the Society for the Promotion of Engineering Education and the Research Branch of the same organization. The convention was scheduled for April 25, 26, and 27.

The Research Branch of the SPEE held their sessions yesterday, with various discussions and forums being held.

The Southeastern Section of SPEE began their two-day affair this morning at the Hotel Hermitage in Nashville. The morning sessions included talks on such subjects as "Training of Veterans under Public Laws 16 and 346," "Co-operative Education," and "The Five Year Program in Engineering Education." Tomorrow morning sessions will continue at Vanderbilt University, host for the convention. Special entertainment is in store for the visitors tomorrow afternoon including golf, an inspection trip of the University, and sightseeing.

Dean Lampe and Dr. Van Note are expected to return Sunday morning.

Faculty Participate In Work Conference

By DAVE FRANKLIN

Dr. John R. Ludington, head of the State College Industrial Arts Department, and Dr. Seltz Mayo, acting head of the Department of Rural Sociology at State College, are participating in a Southern Work Conference of selected educators, research experts, and administrators from 13 states at the University of North Carolina at Chapel Hill this week.

The conference is studying Southern social and economic problems and is working out objectives and techniques for education in the scientific use of regional resources as a means of improving the health, housing, economic status and general level of living of the Southern people. The meeting is sponsored by the Division of Research Interpretation of the Institute for Research in Social Science, and directed by Dr. John E. Ivey, Jr., executive secretary of the Committee on Southern Regional Education and Education of the American Council on Education.

Most of the participants are directing workshops for school teachers in their own states during this summer, and the conference was planned partly to help the workshop directors increase their knowledge of Southern resources and problems, and receive consultation and advice in planning their own workshops.

Graham Will Speak Here Wed.

President Frank P. Graham will be the speaker at the Y.M.C.A. meeting Wednesday, May 1st, at 7 p.m.

The subject of President Graham's talk has not yet been announced, but whatever subject he
