Offices: 10 and 11 Tompkins Hall

Candidates For President

IRA HELMS

DOUGLAS HOUSE

FRED WAGONER

Here Are Your Nominees

IRA HELMS
Ira Helms graduated from Scotland Neck, N. C. high school in 1941. He served in the Air Force from February, 1943, until August, 1945. During his Army service he piloted a B-24 with the 15th Air Force in Italy.

He returned to college in September, 1945, and is now a junior in Mechanical Engineering. During this school year he has been a member of the debate team, the YMCA cabinet, and editor of the Wesley Annual. Helms is president of the International Relations Club, which recently joined with the Meredith College I. R. C. to present a statewide I. R. C. conference. He is a member of Theta Tau, the Veteran's Club, ASME, Pi Kappa Delta, Delta Sigma Phi fraternity, and has recently received a bid to Pi Tau Sigma, honorary mechanical engineering fraternity.

When asked to give his platform, Helms had this to say: "I propose (1) A thorough investigation and revision of the cut-system, (2) a return to pre-war, or higher, levels of student government here at State College, (3) to dedicate my efforts in creating student interest and a school spirit through the student government, (4) to appeal to the student body for support of a student government which, both in thought and action, will be a bulwark against injustice, (5) to cooperate with other organizations in presenting more social functions, particularly during the fall and winter terms, and (6) to continue and intensify the fine committee investigations and actions which have become a part of the Student Government."

DOUGLAS T. HOUSE
The only candidate running for Student Council President with previous experience on the campus government is Douglas House. Doug, as he is known on the campus, has shown a keen sense of responsibility and integrity in the governing body this past year, and has considered his duties of real moment to the welfare of the college.

In 1940 he enrolled in forestry, which he is still taking, and schooled here for two years before being called for pre-induction examination for the Army. However, Doug was not called into service because of a partly amputated hand. Disillusioned, he set out to be of some benefit to his country by working as transit man with an engineering company. After three years working with the engineering at the Edenton Naval Air Base, and Cherry Point Marine Base, Doug returned to school. On his return, he became acquainted with Bill Gatlin, then editor of *The Technician*, who interested him in working on the editorial staff. Since then Doug has been quite active and has devoted a great deal of his time to extra-curricular efforts towards improvements on the campus.

Doug is secretary of the College YMCA, dormitory assistant, business manager of *The Pioneer*, student publication of the Division of Forestry, and is a member of the Board of Publications, Forestry Club, *The Technician* staff, Alpha Zeta, honorary agricultural fraternity, YMCA cabinet, and the Student Council.

His platform is as follows: The possibility of getting more efficient janitorial service in the dormitories; the possibility of starting (Continued on Page 4)

FRED H. WAGONER
Fred H. Wagoner is a junior from Gibsonville, majoring in Animal Production. He attended N. C. State from 1940-1943 until called into military service. Wagoner served for over 32 months in the Army, fighting with the 104th "Timberwolf" Division in the European theater of operations.

Wagoner is a tackle on the football squad and has won letters in both football and wrestling. He is president of Blue Key, national honorary fraternity; vice president of Golden Chain, highest campus honor fraternity; and scribe of Alpha Zeta, honorary agricultural fraternity. Fred is a member of the "Y" Council, business manager of *The Agriculturist*, member of the Monogram Club, and a dormitory assistant.

For his platform Wagoner says, "I am genuinely interested in improving conditions here at N. C. State and I will do it with the following platform:

- (1) Coordination of student-faculty interests.
- (2) Better food and housing.
- (3) Improvement of social activities.
- (4) Genuine support of all athletic teams.

"I expect to accomplish this by arranging for an open system for suggestions for any campus improvements, by letting the students know more about the inside workings of the student government, by working for a better cut system on classes, by supporting the minor as well as the major athletic teams and improving the athletic fields and seating arrangements, by making the plans open to more of the students, by opening reception rooms for guests, and by making worthwhile suggestions to the authorities for cafeteria and housing improvements.

Rally Will Precede Primary Elections

Glee Club, Orchestra To Present Combined Concert Here Sunday

Sunday afternoon at four o'clock, in Pullen Hall, the State College Orchestra and Men's Glee Club under the direction of Geraldine Cate will unite in the presentation of a festival concert as a feature of the observance of National Music Week.

The Orchestra personnel includes: Violins—John Dughi, Mrs. Eugene Dawson, Rachel Rosenberger, Margaret Spiro, Olive Hamrick Miller, Mrs. Earl Franklin, Lillian R. Kohloss, Jack Ratts, B. W. Ratts, Theodore Kovac, Mary Lee Parker; violas—Evelyn Koehler, George Bennette; violoncellos—Geraldine Kutschinski, Tommy Matthews; string bass—William Avery; flutes—H. Archie Corriher, Jr., Doris Carroll; clarinets—A. B. Fleming, Robert Byrd, Robert Houston; bassoon—Emilia Kutschinski; horns—Clay Crisp, R. W. Maddrey; trumpets—Ruth Wyman, Neil O'Neil; trombones—Jack Norwood, Harold Grant; timpani—Charles George; drums—Fred Butner; piano—Lillian Parker Wallace.

Ag Club Picnic Plans Discussed In Meeting

The Ag Club held its regular meeting Tuesday night in Withers Hall at 7:00.

At this meeting plans were completed for the annual spring picnic which is to be held Friday, May 3. Jim Johnson reported that all arrangements had been made for the fried chicken and trimmings. An abundance of good food is in store for those who attend. All those desiring transportation to picnic should be at the Memorial Tower between 4:30 and 5:00 Friday. Friday you are urged to come out early and get in on all the fun.

Students and faculty members from the various departments were elected to take charge of putting on an exhibit at the Ag Fair. Those elected were: Agriculture—Economics—Al Green, student and Prof. Brooks James, faculty; Ag. Engineering—John C. Daughtridge, student and Prof. G. W. Giles, faculty; Agronomy—Jimmy Wilson, student and Dr. Lovorn, faculty; Animal Husbandry—Philip Strode, student and Prof. F. M. Haig, faculty; Ag. Education—Alton Wilson, student and Prof. Armstrong, faculty; Poultry—Roe Deal and David Williams, students and Prof. Williams, faculty; Dairy Manufacturing—R. O. Brown, student; Botany—Stuart Zechendorf, student. Other departments not represented at the Ag Club will be contacted and urged to put on an exhibit.

Student Council To Present Candidates

Chemical Labs Are Now Being Renovated

A complete renovation of the Chemical Engineering Laboratories here are now in progress, Dr. E. M. Schoenborn, Jr., head of the Chemical Engineering Department announced recently.

The remodeling now under way is being done on the first and ground floors of Winston Hall. Dr. Schoenborn stated that a cost of at least \$25,000 is contemplated, and that the work is expected to be completed by this fall.

Four main items have been considered in the renovation of these labs: (1) reassignment of general lab space available, (2) construction of a room for housing tall equipment, (3) purchase of new equipment for instructional purposes, and (4) purchase of new apparatus and instruments for testing and research activities.

The reassignment of general lab space available includes a plan to retain the present Unit Operations Laboratory for instruction and research work. The utilization of a small room for crushing, grinding, and screening has been planned on the ground floor. The Chemical Lab previously used for a course in water analysis will be made available for senior research projects. Several other smaller rooms will be utilized for graduate instruction and research.

Plans have also been made to remodel the Chemical Engineering Laboratory by removing the cement floor in Room 112-A (a small room at the end of the hall on the first floor) and replacing the floor with a subway grating floor. The purpose of this change is to provide a reasonable two-story section of the lab for housing tall equipment, such as distillation and absorption columns, and other equipment of that size. The room available for this construction is approximately 20 ft. x 10 ft. The concrete floor of the Unit Operations Lab will be reconitioned to provide better drainage facilities. It is hoped to slope the floor and thus provide better drainage.

The installation of new electrical power circuits throughout the ground floor area is planned, and (Continued on Page 4)

The Student Government, in an unprecedented move designed to stimulate interest in the coming student elections next week, has announced that a political rally will be held in Pullen Hall at 12 noon Monday, May 6th.

Candidates for important student offices have in the past put on their campaigns by staging torch light parades, having bands to play, and employing loud speakers mounted on automobiles to go about the campus broadcasting their various platforms. Although this procedure will probably be followed this year, it was thought that a gathering of the student body to hear all of the candidates platforms would ensure greater interest than in previous years. This gathering will bring together all of the candidates and most of the students in one place and will afford all students an excellent opportunity to compare notes on the nominees.

The student Council, in initiating this meeting, has called all candidates running for office in the Student Government to make a four minute speech outlining their platforms and, in general, give their qualifications for the office. Nominees for the offices of representatives to the Student Council will be introduced to the assembly, but because of the time limit these candidates will not have an opportunity to discuss their qualifications.

The center section of the assembly hall will be reserved for all students who regularly take military drill at this hour and a roll call of all ROTC students will be conducted.

Many students are of the opinion that elections in the past have not been conducted properly; too many candidates run for offices that once they have obtained have done nothing constructive in promoting student government. It is hoped that the student voters will take (Continued on Page 4)

Officers For Phi Psi Are Elected

The election of officers for the coming year was held by the members of Eta Chapter of Phi Psi on Monday, the 22. Phi Psi is the largest Textile Fraternity in existence, and Eta Chapter is the largest active chapter. Because of the decreased enrollment during the war, Eta Chapter was forced to become inactive; but with the return of many of its former members from the Services, Eta Chapter was reactivated in the Fall Term.

The officers for the coming year are: John Pharr, President, from Concord, N. C.; Charles Moss, Vice President, from Kings Mountain, N. C.; Ray Miller, Secretary, from Concord, N. C.; M. P. Watkins, Treasurer, from Norwood, N. C.; and Charles Bolin, Chapter Editor, from Mayodan, N. C.

Industries Are Urged To Develop Mineral Resources Of State

Greaves-Walker Outlines Opportunities For Growth Of Ceramics In South

A 29-page bulletin outlining the opportunities for investment in North Carolina's rich deposits of minerals has been published by the Engineering Experiment Station at State College and is ready for distribution to the citizens of the state.

The bulletin was written by Dr. A. F. Greaves-Walker, head of the Department of Ceramic Engineering here, who lists many fields in which industries may develop and expand in North Carolina. The publication is designed to stimulate the fuller industrial development in the state and to boost North Carolina's resources.

In a brief foreword Dr. Greaves-Walker declares: "The ceramic mineral deposits of North Carolina are among the richest in the United States. For many years past the development and operation of these remarkable deposits, to a considerable extent, has been in the hands of northern companies. These operators have mined and beneficiated the minerals and shipped them to northern plants for manufacture into products. This practice has resulted in leaving to North Carolinians only the wages of labor and the salaries of a few administrative officers. The real wealth produced by manufacture into products has gone to other states and at the same time the mineral wealth of the state has been steadily depleted.

"This bulletin is published in an effort to interest North Carolinians in investing in manufacturing projects which would use some of the minerals which occur in considerable quantities and as a general rule are readily available.

"For the first time since the War Between the States a great many North Carolinians have money available for investment. It can be invested to advantage in establishing plants for the manufacture of products from our splendid mineral resources.

"The products suggested for manufacture have an established market in North Carolina and the South and as plants manufacturing such products in other states are being operated at a profit their success in this state is assured." (Continued on Page 4)

Freshmen-Sophomores Sponsor Spring Ball

Thornhill Featured In Dance Tomorrow

Claude Thornhill's melodies are almost here, and the campus is scheduled to see its biggest social event of the year a whopping success.

The dance has already crossed its first hurdle. The sale of tickets has been suspended and the dance is a financial success. With an anticipated crowd of 1,000 couples dancing to Thornhill's litting tunes Saturday evening, the affair should be a social success of the first order as well.

Claude Thornhill, in addition to being a pianist of note, is a composer-arranger acknowledged among the best. His originality in arranging for the two french horns he has added to his orchestra. These instruments, rarely found outside of a symphony orchestra, have provided a mellow blend of harmonies not found in any other dance band.

Thornhill's originality is not something new. He started the study of music at the age of four, and gave his first piano recital at six. A child prodigy, he perfected his talents at the famous Conservatory of Music in Cincinnati. Later he left the conservatory to play in a dance band featured in a speak-easy in the Middle West. This bit of truancy was quickly ended by his parents, and he enrolled in the Curtis Institute where his arranging abilities came into prominence.

Claude then joined Curtis Wylie's orchestra, and it was here that he first met Aris Shaw. Later he played for Hal Kemp, and followed (Continued on Page 4)

Meeting!

American Legion, N. C. State Post, meets Tuesday, May 7, 109 Tompkins, at seven-thirty o'clock.

Chemical Engineers Hold Special Meeting

At a special meeting of the chemical engineers Tuesday, the plans for an all department party were discussed. The Tar Heel Club has been reserved for May 16th, but the committee needs definite information on the number of students and guests who will be present. There will be another meeting of the department next Tuesday, May 7, at 7:00 in 113 Winston Hall. The final plans for the party will be made and everyone who plans to attend is requested to be present.

Institute Of Aero Sciences Reorganized

Officers were elected for the Institute of Aeronautical Sciences at a meeting held Tuesday night, April 30th. With the cooperation of the old members who have returned to school, reorganization of the club was established.

The following officers of the club were elected at this meeting: Pinky Dunn, chairman; Andrew J. Patton, vice chairman; Bill Bland, secretary; Glenn Adair, treasurer; Bill Dixon, representative to the Engineering Council, and Dave Michael, alternate representative.

Notice!

The International Relations Club will meet Friday, 7 p.m., in the YMCA.

Sponsors For Spring Ball

Pictured above are the sponsors of the annual Freshman-Sophomore Dance which will be held in the Frank Thompson Gymnasium tomorrow night. They are, with their escorts: Virginia A. Schweitzer, Baltimore, Md., with Bill Thornton, president of the Sophomore Class from West Point, Va.; Mrs. Robert Mills, Raleigh, N. C., with Robert Mills, president of the Freshman Class from Raleigh, N. C.; Jane McConaughy, Red Springs, N. C., with Ronald Boling, chairman, Sophomore dance committee from Hendersonville, N. C.; Anarah James, Charlotte, N. C., with Bill Bundy, chairman, Freshman dance committee, Charlotte, N. C.; Mary Ellen Wellons, Raleigh, N. C., with Harold Grant, Selma, N. C.; Janie M. Taylor, Greensboro, N. C., with Henry Winslow, Greensboro, N. C.; Jackie Withner, Raleigh, N. C., with Henry Biggers, Charlotte, N. C.; not shown, Miss Jo Ann Sample, Hendersonville, N. C., with Grady Jones from Hendersonville, N. C.

Teacher Training For Faculty!

Each member of the North Carolina State College faculty should be a master of his field of knowledge and, above all, should be a master of the art of presenting his subject matter and getting it across to his students.

We offer this observation fully aware that we have on our faculty staff many of the nation's foremost technically educated men and professors. There stands at the head of each of the schools which comprise our college a young, progressive, capable dean.

We could point out numerous "eccentricities" of instructors on our campus which sometimes cause anxiety among students but which is, more often, nothing more than a trait in teaching or a method of teaching that distinguishes one professor from another.

We suggest that all members of our faculty take stock of themselves occasionally and endeavor to find ways of improving the manner and method they use in presenting subjects to their students.

Voting!

Every member of the student body is a member of the Student Government and, therefore, has the prerogative of voting in the coming elections for Student Council officers.

State College
Campus Centrifuge

By BILL GATLIN

The Guilford College Choir Last Sunday night, State College was visited by a group of singers from the little Quaker College in Guilford County.

The youthful voices displayed rare beauty and surprising volume - an excellent bass. With rapt attention centered on the great director, Dr. Weis, the group imparted a reverential atmosphere to the hall, and the great songs of Christianity enjoyed an extraordinary reception.

Students absent from the performance missed a considerable treat. The next musical program scheduled for the campus will be presented in Pullen Hall at four o'clock Sunday afternoon.

Campus Elections

With elections for all major campus offices coming up, a survey of the list of candidates, reveals a distressing situation. The jobs that entail any considerable amount of work rarely produce more than one qualified candidate.

The plan for physical consolidation of the greater university, in the hands of politicians, was decisively defeated; still, a student finds it hard to see the logic behind the move when a strictly technical program practically prohibits extra-curricular activities.

Certainly the school of engineering, with two things in its student body, has an equitable share of men with the initiative, vision, and intelligence to competently manage offices to have a keener sense of responsibility regarding the duties inherent in these positions.

Doings Of Your
Campus Government

(Prepared by the Promotion Committee of the Campus Government Council and dedicated to the creation of a better informed and more responsible citizenship on the State College campus.)

Remuneration for Officers

The Campus Government Council at its regular meeting on last Thursday night adopted the following recommendations with reference to the monetary remuneration of Campus Government officers beginning with the fall term of 1946:

- I. The President shall receive \$40.00 per month for the months of October through June.
II. The Secretary shall receive \$15.00 per month for the months of October through June.
III. The Treasurer shall receive \$15.00 per month for the months of October through June.
IV. It is not recommended at this time that the Vice President be given monetary remuneration, since the time required by his office is about the same as that of the Council member or the chairman of a standing committee.

At this time all nominees for the Campus Government Council and its offices for next year will be introduced and the several candidates for offices will speak briefly on their platforms.

These recommendations are made on the theory that partial compensation for time devoted by campus government officers to their official duties is appropriate, since this time might otherwise be otherwise devoted to self-help work.

-J. F. F.

a campus office; yet, the Ag-men consistently garner the lion's share. Although only a discouragingly small percentage of students have responded to the repeated call for help on the different staffs, State College publications have achieved unparalleled records this year with their few volunteers.

The newly revived Textile Forum also announces that this year's sale of advertising exceeds all previous records. Mario Cohen deserves the commendations for this achievement.

The student government performed its function on the campus with unusual energy also; consequently it displays a record of creditable achievements.

All four faculty members of this year's Council will appear on the ballot for next year's Council. Each has done a splendid job. The one professor deserving a very special commendation for his services to the campus government is Doctor W. N. Hicks.

Another student who has already established his value and ability to the welfare of State College students is Bill Thornton, a representative of the nation's armed forces.

SHARPS & FLATS

The latest album to come from Columbia is "Goodman Sextet Session," featuring the Benny Goodman Sextet. This album has Benny on clarinet, Slam Stewart on bass, Mel Powell and Teddy Wilson on the piano, Mike Bryan on guitar, Mosey Field on drums, and Red Norvo on the vibes.

"Tiger Rag," a familiar Goodman favorite, is now recorded with Slam Stewart's "growls" and the excellent low register clarinet chorus. Mel Powell, who plays on this side, brings a style to the piano which is difficult to distinguish from Teddy Wilson, particularly in the left hand passages in Mel's solo.

"Ain't Misbehavin'," a tune from an old show entitled "Hot Chocolate," was first made immortal by Louis Armstrong. Now the boys wax a smooth arrangement of this jazz standard in which Red Norvo's vibes are a highlight.

"She's Funny That Way" includes the only vocal on these sides. With piano by Teddy Wilson and a string quartet, the vocal is sung by Jane Harvey takes the vocal. The song has long been one of the best jazz ballads, and Jane's deeply-felt interpretation of it is an exciting experience.

"Just One of Those Things" again features the piano of Teddy Wilson, playing at a medium tempo on one of his favorite tunes. Benny's clarinet is outstanding on this side, and Slam Stewart again provides the low notes.

"China Boy" is a standard which Benny has played for many years, and in the new album, the number is one of his best. The clarinet takes the opening chorus with fine

GLEANNINGS.

Last week-end was an exciting one, especially for E. O. - he gave his girl friend a peck on the neck as she slipped that ring on his little finger. Contrast this with Gene House. We all thought we would have to throw cold water on Gene after his brand new ring melted, so the next couple could take their turn.

"Pop" Bowen was in his glory last Sunday night when he escorted fifty-one Guilford College "goils" through the cafe line - they all ordered turkey, in spite of Earle's bragging of the cafe meat loaf. A good time was had by all at the Publications Banquet a week ago.

When Bob Powell asked Mary Miller if she had completed Problem No. 6 of Exercise 46 in chemistry lab, Mary's face turned a beautiful crimson red. You will have to ask Mary about that.

We would like to apologize for an error of two weeks ago. Jimmy Osborne contracted his poison ivy in the woods near Carolina, not Meredith, therefore any Carolina co-eds with recent cases of poison ivy are guilty of Jimmy's companionship.

Someone told us that Jean Baskerville plans to attend Brigham Young University next fall. She thinks the life of a Mormon would be more exciting.

Tommy Garrison has a limited supply of cigars on hand as he does not figure he'll have use for all of them. Some of the political figures plan on passing out pipe loads of tobacco - this will help to solve financial difficulties.

Bill Thornton has that old feeling again. Miss Baltimore is to be honored guest at the Freshman-Sophomore dance tomorrow night. It's not known around here whether or not Bill is a Freshman or a Soph.

Well, Dick Alves finally broke the ice and caught a 2 1/2-lb. bass at Boone Pond. Young Alves has been playing hockey off and on for the last month, so he could feed the fish their daily worm, always hoping that some day he would be fortunate enough to hook him.

Elbert Barry found himself in a rather unusual position after being kicked out of the bowling alley for disorderly conduct. The footprints are still imbedded in the seat of his best Sunday school pants.

We noticed that Terripen Bill Lynn looks more like a Terripen since he acquired that head shave he's sporting around the campus.

support from the bass. There are exciting choruses from the piano, bass, and vibes, and the King himself takes a wonderful solo midway through the record.

"Shine" is one of the numbers new to most Goodman fans, although it is a tune long well-known to jazz. The Sextet offers it now with their original treatment, starting out with clarinet, then a Powell piano chorus, followed by a good interplay of piano and guitar.

"Rachel's Dream" is an original named for Benny's daughter. It is brilliantly arranged, with unusual passages for clarinet, vibraphone, and guitar, as well as some fine solos by Benny and Red Norvo. This album is a good bet for all Goodman fans.

World Student Fund
Drive Successful

The drive for the world Student Service Fund drew to a successful end with a collection of \$1090.15 from the State College campus.

Mr. Chester A. Fiesler
North Carolina State College
Raleigh, North Carolina

Hunger, disease and despair continue to take their frightful toll on the legs of long years of bloody conflict and of economic disorganization, and as the concomitants of present confusion, uncertainty, and insecurity. Universities, students and professors have been and are deeply enmeshed in the destruction and suffering in the war-stricken lands.

With understanding, compassion, and hope you have shared recently in our program of world-wide student relief and rehabilitation. In these days when university communities in Europe and Asia are valiantly picking up the pieces of educational life and reassembling them into a coherent pattern for the future, such gifts not only provide the material necessities of life but give our fellow students the certainty of intellectual and emotional fellowship, and of moral purpose for constructing a rational and humane society.

Your gift will provide rest and health for tubercular and debilitated students, food and shelter, books and supplies for those resuming their studies in Europe. In the evacuated colleges and universities in China it will enable students to continue their studies in spite of inflation, disease, and poverty, and will assist them as they effect the difficult return to their restored universities in the months ahead.

We solicit your enduring support support of this unique fraternal mission within the universal academic community during the baffling period of reconstruction stretching out before us. In the light of the present food crisis in the world and of diminished harvests this summer, the needs for direct relief in the essentials of living - food, shelter, clothing and medical care -

... by wire
and radio!

Maybe you've thought of the Bell Telephone System as using only wires. It uses and pioneers in radio too.

Radio waves are used to carry your voice across the seas to telephones in other lands... across water barriers here at home... to vessels plying inland waters and to ships out at sea. And before too long, radio links will provide telephone service for cars and trucks.

Radio relay systems that will carry long distance messages from city to city are now in the advanced experimental stage.

In every case the Bell System uses the kind of transmission, wire or radio, that provides the best service for the most people.

Dillon's Dallyings

Commander Russell Case, who assumes the position of head basketball coach at State on July 1, will be in town during the weekend to look over prospects for next year's team.

Carolina is now on the look-out for a new basketball coach to take over the reins from Ben Carnevale, who takes over the position of head coach at Annapolis on July 1.

Jerry Gerard, Duke's head basketball mentor, is all smiles these days. His Southern Conference champs will be back intact next season.

Turning to baseball, the Terrors take on Wake Forest at Wake Forest tomorrow, and will travel to Chapel Hill twice next week for games with Carolina on Monday and Wednesday.

Red Terrors Defeat Davidson Nine, 12-3

Last Monday afternoon the State College Red Terrors defeated the Davidson Wildcats for the second time this season. The final tally was 12-3. Jimmy Wilson, first-string outfielder, was State's moundsman for the first six stanzas, giving up only one hit. Rogers, another ace outfielder, showed his ability as a hurler during the last three innings of the contest, allowing only five hits to the Davidson nine. Guy and Briggs were on the mound for the Wildcats.

Stanton led State's hitting attack racking up four out of the 18 Terror knocks. Hege, second string hot corner man, played an excellent game on the third sack.

The box:

Runs batted in: Newborn 2, Evans 2, Hege 2, Owens, Stanton 2, Bethea, Bowman, Mapes. Two base hits: Richkus, Hege, Gardner. Stolen bases: Richkus, Rice, Kohler. Left on bases: Davidson 7, State 10. Base on balls: Wilson 1, Rogers 3, Guy 2, Briggs 1. Strikeouts: Wilson 6, Rogers 3, Guy 3, Briggs 1. Hits, off Wilson 1 in 6 innings. Rogers 5 in 3, Guy 16 in 6, Briggs 2 in 2. Winning pitcher: Wilson. Losing pitcher: Guy. Umpires: Reiber and Ridenhour. Time 2:02.

Notice!

The AIEE will hold a special election meeting Tuesday, May 7, at 8:45 in room 109 Daniels Hall. Officers for the next year will be elected. After the election, the long-awaited tour of the Diesel engineering building will be taken. All members are urged to be present.

THE INTRAMURAL FRONT

Going into the last lap of the intramural net season finds the PIKA's leading the first section while the Sig Eps are ahead in Section II. Both teams sport a 4-0 record.

In the dormitory league, Third Bagwell, with a 2-0 record is leading the teams in Section I. Welch and Berry are tied for the lead in the second section with one victory apiece while each has postponed match to be played. Second Turlington is leading Section III with a 3-0 record.

Many of the tennis matches have been rained out and have not been made up as yet. Mr. J. Miller is not setting new dates for the matches but is leaving the matter up to the team managers.

Play in the softball sections was stepped up this week as six games were played.

In the first game of the week, 2nd Turlington took a 10-4 victory over the Off Campus Vets behind the steady pitching of Mintz. The winners got off to a fine start as they scored five times in the opening stanza. The Vets big frame was the third when they tallied three times. White was charged with the loss.

Behind Frank Yarbough's five hit hurling, the Upper Becton squad bested the Third Syme team, 8-4. Yarbough fanned five batters while Moore was charged with the loss. Hayes was the leading batter

for the day as he made two hits for three attempts at the plate.

The teams representing Second Syme and Lower Becton battled to a 3-3 deadlock. Becton took the lead with a marker in the first, but Syme came back to score twice in the first of the second. Becton tied the contest up with a run in their half of the second and both clubs scored one each in their respective sides of the fourth inning. Miller did the pitching for Syme, while Sides was on the field for Lower Becton.

The week's biggest score was Berry's 19-8 win over Third Syme. Both teams scored also at will, with Berry finishing with the highest. The two teams had things tied up at 4-4 in the second frame, but Berry put on the heat in the remaining stanza to win.

It was Hunt's perfect day at the plate and Smith's pitching that led Welch to a 6-4 victory over South Watauga. All of Watauga's runs came in the second inning while Welch scored all but one of their six runs in the top half of the third.

The make-up game of the week was the Sigma Pi's 5-1 win from the SAM's. The losers' lone tally came in the fourth inning, while three of the Pi's total markers were made in the third. Snyder smashed a homer with no one on the sacks in the first inning for the Pi's.

Devils Fall Before Mighty Terrors State Takes Lead In "Big Four" Standings

CURT RAMSEY

Ramsay Pitches Techs To 5-3 Victory Here

Table showing Big Four Standings with columns for Team, W, L, Pct. Rows: N. C. State, Duke, Carolina, Wake Forest.

By C. A. DILLON

State College took over undisturbed possession of first place in both Big Four and Southern Conference standings when big Curt Ramsey hurled Coach Vic Sorrell's Red Terrors to a 5-3 victory over Duke's Blue Devils on Doak Field here last Wednesday afternoon.

On the other hand, the Duke ace, Lefty Lee Griffith, who held the Terrors scoreless when the two teams met in Durham, was reached for all of the five runs scored by State. Hal Stephenson replaced him on the mound in the eighth inning.

State opened the scoring in the second inning. Stanton was safe on 3rd baseman Sailer's error. Wilson forced Stanton at 2nd; but he, in turn, was safe at 2nd when Kohler's drive to the short stop was bobbled by Palmer. With runners on first and second, Ramsey singled to right field scoring Wilson. Kohler attempted to score when Hege hit to the infield, but was thrown out at the plate.

Duke tied the score in the sixth inning when, with two outs, Groomer singled to left field, and Vann hit a high Texas Leaguer to short right field which dropped safely for the scoring. Groomer fielded Richkus left off the home half of the sixth with a sharp single to left field. Courts laid down a perfect sacrifice bunt sending Richkus to the plate.

State Golf Team Loses To Carolina

The State golf team, in its initial game of the year, lost to Carolina by a score of 24 1/2 to 2 1/2 on the Hope Valley Golf Course in Durham on Tuesday of this week. L. M. (Sonny) Ham, who was playing third position of the six men, was the low scorer for State, shooting a seventy-eight over the unfamiliar and tough links of Hope Valley. Sonny was responsible for 1 1/2 of the 2 1/2 points made. Members of the golf team who participated in the match were, Captain Roy Dearstyne, Co-captain Gonzalo Saenz, Robert Turnbull, L. M. Ham, Charlie Gibson, and William Furr.

Low score for the day was posted by Liles of Carolina who shot seventy-three for the par seventy-eight. A return match with the Carolina team is scheduled for May 14th at the Carolina County Club in Raleigh. It is expected that the State team will award due "hospitality" to the visitors on that date.

Other members of the State team are: Milton Hobbs, Alfred Green, who is the secretary-treasurer for the team, Ed Schnedl, Floyd Harper, and Errol Marshburn. The golfers visit Hope Valley again this week when on Friday they clash with the Duke Blue Devils. Then on Monday, May 6th, a return engagement with Duke takes place in Raleigh. Coach Armacost expects his players to hit their strides after the second or third match since they have not played late while most of the other teams have already completed four or five tournaments.

State 6. Base on balls—Johnson 3. Strikeouts—Dilorenzo 4, Johnson 1. Umpires—Reiber and Fidenhour. Time—1:35.

Tech Cindermen Lose To Wildcats, 76-54 Ramsey Leads League Pitching 2-0 Record

Curt Ramsey, State's ace twirler, is leading the race for top honors in the early stages of the Big Four race with a perfect record of two games won and none lost through Saturday.

Leading in the strikeout list is Griffith, of Duke, with 25 bating the dust in three games. Ramsey is second with 13 in two games. Leon Whiteheart, Carolina slabster, has set down 11 in his initial trip to the mound.

Table showing league pitching records with columns: Name and Team, G, IP, R, H, BB, SO, WP, W, L, Pct. Rows: Ramsey, State; Whiteheart, Car.; Johnson, State; Griffith, Duke; DiLorenzo, Car.; Gibson, State; Guess, W. F.; Pearce, W. E.; Pethick, W. F.; Stevenson, Duke; Skelding, W. F.; Wilson, State.

Johnson Pitches Two-Hit Ball In 5-0 Win

Last Wednesday afternoon the Carolina Red Terrors of State College handed the Tar Heels of Carolina a 5-0 whipping behind the two-hit pitching of Earnest Johnson, freshman righthander. This was the third win in league play for the hard hitting Techs while they have lost one game.

This was the first game of league play for the defending champs but the outlook for the remainder of the season did not look too rosy for the Tar Heels.

Carolina had the reputation of having the hottest pitchers in the league and started one of their mainstays against the Techs. This did not phase the Terrors as they collected 12 safeties off the offerings of Vincent DiLorenzo.

Johnson was the undisputed star of the day as he pitched his first complete game of the season and kept the Carolina team in the hole the entire game. Johnson helped win his own game by driving in one run on one hit. Richkus and Edwards were the best at the plate for the Techs as each of them connected for three hits for four trips to the plate.

Candidates For Vice-President

TOMMY GARRISON

Tommy Garrison from Charlotte, N. C., has been active in campus activities since his arrival. He is a member of the YMCA cabinet, BSU Council, helping reorganize the BSU at State College, president '46-47, Student Council summer of '45, member of the I. R. C., member of the newly formed Charlotte Club, and is on the track team. Tommy was appointed a dorm assistant for the present school year. He is taking Mechanical Engineering and is in his junior year. Tommy has shown a great deal of interest and has been active in all the campus wide drives.

BILL THORNTON

Bill Thornton from West Point, Va., arrived at State College January, 1945, and registered in the Forestry curricula, later changing to Textile Management. He is a dorm assistant, charter member of the Vets Association and also acting president of the Vets Association in the summer of 1945. Bill was a member of the Student Council and was on the dance committee for the Student Council Summer Hop in 1945. During the present school year Bill has been president of the Sophomore Class, member of the I. R. C., promoter of the Sophomore-Freshman Spring Ball, member of the Social Functions and Student Activities Fee Allocation Committee, and he has been active in the various drives on the campus.

RALLY

(Continued from Page 1) note of all the candidate's qualifications and weigh them carefully. As one student put it, "Elections in the past have seemed to be more of a personality contest rather than a contest of real ability." This rally will go a long way in eliminating this type of election.

Listed below are the names of the nominees whom you will meet Monday.

For President: The Student Government: Ira Helms, Junior in Mechanical Engineering; Douglas House, Senior in Forestry; Fred Wagner, Senior in Animal Production.

For Vice President of The Student Government: Tommy Garrison, Junior in Mechanical Engineering; Bill Thornton, Sophomore in Textile Management; Carl Wagner, Junior in Electrical Engineering.

For Secretary of The Student Government: Bill Daniel Junior in Chemical Engineering; Maurice Pickler, Junior in Agricultural Economics.

For Treasurer of The Student Government: George Harrel, Sophomore in Ceramic Engineering; John Martin, Junior in Chemical Engineering.

Candidates for representatives to The Student Council from the various classes are listed below:

For Representatives: From the rising Senior Class: From Teacher Education, Philip Taylor and Howard H. Harper; Engineering School, M. A. Meares and W. L. Woodall; Agricultural School, J. T. Moss and C. L. Hobson; Textile School, Steffried Walmer and William Newell.

Representatives from the rising Junior Class: From Teacher Education, Matilda McDonald and Douglas Wilson; Engineering School, Woody Williams and M. B. Hayes; Agricultural School, Dave Franklin and Cecil Wells; Textile School, Joe Houston and George Clayton.

Representatives from the rising Sophomore Class: From Teacher Education, George Sledge and O. W. Jackson; Engineering School, L. M. Allen and J. H. Conter; Agricultural School, Fred A. Kendall and Henry Winslow; Textile School, J. H. Gardner and B. F. Mullin.

GLEE CLUB

(Continued from Page 1) The Orchestra will open the program with the Introduction to Act III of Wagner's "Lohengrin." The combined glee clubs will sing an a cappella group consisting of Bach—"Now Let All the Tongues Adore Thee," Vittoria—"Jesu, dulcis memoria," and Handel's "Hallelujah, Amen" from "Judas Maccabaeus."

The State College Glee Club and the Saint Mary's Glee Club will then each sing special groups of numbers.

The closing group, in which the combined glee clubs will be accompanied by the orchestra, will include a special festival arrangement of the well-known Negro spiritual "Go Down Moses," a medley of Victor Herbert Favorites, and "The Dance of the Comedians"

REVENGE (Continued from Page 3)

kus to 2nd, Richkus took 3rd on Gardner's fly to right field, and scored when Vann dropped Stanton's long drive into center field. Thus, State held a 2-1 advantage after six innings.

State's big scoring inning came in the 7th. Ramsey doubled to right-center field and took 3rd on Hege's single to right field. Edwards was safe at first when his grounder to 3rd was erred by Sailer. With the bases loaded, Richkus fouled out to the catcher, but Bobby Courts grounded one to the 2nd baseman. He threw to the

short stop covering 2nd forcing one out, but the throw to first drew 1st baseman Muse off the bag, and two runners scored. Then Finky Gardner singled to left-center field scoring Courts. Stanton flew out to left field retiring the sides.

Palmer led off the Blue Devil half of the eighth by lining out to Kohler, but Hege erred Little's grounder and the big Duke catcher went to 2nd on the miscue. Sailer tripled to right field scoring Little. Smith, pinch-hitting for Griffith, flew out to Hege at 3rd, but Groome beat out an infield hit scoring Sailer. Vann grounded out pitcher to 1st to retire the side and end the scoring for the day.

Batting Averages . . .

Charlie Richkus, State's ace shortstop, is pacing the big four sluggers with a .500 average for the four league games played through Saturday. Richkus, a holdover from last year, is also a Wolfpack veteran of the gridiron.

Several other sluggers are close behind in the race for the lead, with Newborn, of State hitting .667, but he has only been at bat three times so far this season.

Muse and Ericson of Duke, and Cochran of Wake Forest are leading in the runs batted in section, each having pushed four across the plate. Cochran, Whitner of Wake Forest, and Stanton of State boast one round-tripper each.

Big Four batting leaders are:

Name and Team	G	AB	R	H	2B	3B	HR	SH	SB	RBI	Pct.
Newborn, State	2	3	1	2	0	0	0	0	1	0	.667
Richkus, State	4	14	4	7	2	0	0	0	1	0	.500
Hayworth, Car.	1	4	0	2	0	0	0	0	0	2	.500

Cole, Car.	2	6	1	0	0	0	0	0	0	0	.167
Griffith, Duke	3	7	2	1	0	0	0	2	0	0	.143

whereby these organizations will function together progressively and in harmony to produce a closer union, resulting in a friendly and desirable school spirit, and needed improvement of the general welfare of the student body.

If elected President of the Student Council, Doug says, I promise to promote and stand up for the platform I have set forth, and will endeavor to uphold the duties as Student Council President."

CHEMICAL LABS

(Continued from Page 1) will provide for 110-volt single phase and 220-volt three-phase electrical power for pumps, blowers, electrical air compressors and lights. Laboratory furniture (desks, tables, etc.) will also be repaired, and fume hoods and instrument cabinets will be installed.

MINERAL RESOURCES

(Continued from Page 1) Dr. Greaves-Walker recently wrote a series of articles for the Sunday morning newspapers in the state, and the information which he revealed in the articles led to such a large number of inquiries and requests until it was necessary to issue the bulletin.

Copies of the bulletin may be obtained by sending a fee of 35 cents to Dr. William G. Van Note, assistant director of the Engineering Experiment Station. Dean J. H. Lampe, head of the School of Engineering at State College, is director of the Station.

WORLD STUDENT FUND

(Continued from Page 2)

will be about as great next year as this.

The World Student Service Fund is nothing more than the students and professors in American colleges and universities united and organized for this great task. It is a living reality because of the participation of North Carolina State and of all other college communities of good will and compassion.

Sincerely yours,
CLARA SHAPIRO
Administrative Secretary

Candidates For Secretary-Treasurer

GEORGE HARRELL

George Harrel from Raleigh, N. C., has announced his candidacy for Treasurer of the Student Council. George is a sophomore in Ceramic Engineering and is a member of Delta Sigma Phi social fraternity.

JOHN MARTIN

John R. Martin, candidate for treasurer, from Cramerton, N. C., is a junior in Chemical Engineering. He is a dorm assistant, member of AICHe, BSU Council, Vice President-elect, member of the Student Council, Southern Engineer staff, and he is on the golf team.

MAURICE PICKLER

Candidate for the job as Secretary of the Student Council is Maurice J. Pickler, a junior in Agricultural Economics from New London, N. C. Maurice entered State College in 1941 on a Sears Scholarship and was active in the Sears Scholarship Club before being called to service in 1943. Pickler returned to State College this past March after three years of service in the Air Force where he was pilot of a B-24. Since returning to the campus, Pickler has been active in the Ag Club and Wesley Foundation. He was recently elected to membership in Alpha Zeta, honorary agricultural fraternity.

FOR SECRETARY WILLIAM J. DANIEL

Bill Daniel, a junior in Chemical Engineering from Henderson, N. C., is one of the two candidates for secretary of the Student Council. Daniel, president of the Junior Class, has been active in campus activities for the past three years. He was vice president of his Sophomore Class, member of Theta Tau, Mu Beta Psi, Sigma Pi Alpha, Lambda Chi Alpha, Publications Board, Social Functions Committee, Student Appropriations Committee, BSU, Glee Club, Orchestra, Red Coat Band, Interfraternity Council, and American Institute of Chemical Engineers, and has served as business manager of The Technician and president of the State-wide International Relations Club.

Attention Sigma Tau Sigma Members

The meeting for the initiation of new members will be held Friday night, May 3, 1946, in the conference room of the YMCA. It is important that all members be present.

Band Leader, Extraordinary
