STATE COLLEGE STATION, RALEIGH, N. C., MAY 28, 1946

Offices: 10 and 11 Tompkins Hall

106 Students Will Receive Diplomas

57th Commencement Begins Friday, May 31

On Monday, June 3, 1946, State College will hold its fifty-seventh annual commencement at which Governor Gregg Cherry will confer degrees upon a total of 106 candidates. The finals will begin on Friday, May 31, with the Alumni Meeting. The following day, the Alumni has planned a program to aid the former students who are expected to be present, to meet their old class-mates and their former faculty. The Baccalaureate sermon will be delivered in Pullen Hall on Sunday, June 2, by Dr. Daniel A. Poling, pastor of the Baptist Temple Church in Philadelphia, Penn. The service will begin at 8:00 in the evening. The commencement service will be held in Pullen Hall, Monday afternoon at five o'clock. The speaker for the program will be Governor Gregg Cherry and President Frank P. Graham.

Luncheon Is Friday

The main feature of the alumni program will be the luncheon that is to be served cafeteria style in the east side of the college cafeteria on Friday afternoon at 8:00. Many of the former graduates of State College will be present. Mr. John M. Clark, president of the Alumni, will preside over the luncheon meeting. The main speaker will be Mr. W. H. Sullivan, class of 1913, who will speak on "State College and the Economic Development of North Carolina." On Sunday morning at the Baccalaureate Service, everyone will have a treat in store for them. Dr. Poling, who is going to deliver a message, is not only well known in religious circles but is an author of many books and radio programs. Dr. Poling was at one time the editor-in-chief of the *Christian Herald Magazine*. During the last World War, Dr. Poling served in France and Germany as a Major in the Chaplain's Corps. Assisting Dr. Poling in this service will be Rev. Thompson, pastor of the Fairmont Methodist Church. The Fairmont Church choir will furnish the music for the service.

Final Exercises

The final part of the exercises will begin Monday afternoon at five o'clock with an academic procession to Pullen Hall, where the commencement exercise will be held. Chancellor J. W. Harrelson will be the presiding officer during the exercise. Governor Gregg Cherry and President Frank P. Graham will both address the candidates for degrees. Governor Gregg Cherry will present the diplomas to the graduates. There will be a total of 106 degrees.

Resigning Editor

"Rudy" Pate, College News Editor, Resigns

Rudolph Pate, News editor of our College News Bureau, has tendered his resignation to Mr. Frank H. Jeter, Head of the News Bureau, and will leave his post in the near future to assume the editorship of a newspaper in Lumberton, N. C. Rudolph, as he is known to all, has been a member of the Bureau since he graduated from the College in 1943. As a student Pate was an outstanding journalist and was editor of the *Agriculturist* for one year. He did such a good job as editor of this publication that he was asked to join the News Bureau. Since 1943 "Rudy" has done an efficient and loyal job as News Editor and has won the admiration and respect of his associates. In a letter to Rudy, Mr. Jeter said, "I regret very much to learn that you have decided to sever your connection with the News Bureau as of June 22. I have known, of course, that Mr. Sharpe, publisher of *The Robesonian*, has been anxious to have you associated with him; and because of the fine opportunity offered to you on this paper, I do not blame you at all for accepting the offer made to you by Mr. Sharpe."

(Continued on Page Seven)

Blue Key Selects Twenty Outstanding Men for Honor Frat

In an impressive initiation ceremony, featured by an address by Dr. A. F. Greaves-Walker, Blue Key Honorary Fraternity tapped a total of twenty outstanding campus leaders—nine seniors and 11 juniors—at the YMCA last Friday night, May 24. Dr. Greaves-Walker congratulated the initiates upon receiving this high honor and urged them to make Blue Key the working, important campus organization that it was prior to the war.

The outstanding campus leaders initiated are: Mike J. Andrews, Raleigh; Joseph M. Monroe, Hamlet; William J. Daniel, Henderson; Douglas T. House, Beaufort; Chester A. Fiesler, Ivanhoe; Edward T. Sullivan, Douglaston, Long Island, N. Y.; Maurice B. Dunn, Charlotte; James T. Moss, Youngville; Vernon W. Barnes, Jr., Wilson; Harrison C. Wroton, Norfolk, Va.; William B. Hand, Jr., Portsmouth, Va.; Grady A. Martin, Stony Point; Edgar A. Orr, Rocky Mount; Robert E. Wooten, Raleigh; W. Dennis Loftin, Kinston; Stephen C. Willour, Charlotte; Maurice J. Pickler, New London; Lucian W. Gatlin, Charlotte; James T. Johnson, Raleigh; and Curtis R. Fincher, Matthews.

Blue Key on the N. C. State campus has been inactive until recently when five of the old members returned to school and reactivated the chapter here. Fred H. Wagoner, new president of student government, was elected president of Blue Key at its first meeting this term. Other officers were: David H. Michal, vice president; Robert H. Smithwick, secretary; Robert H. Reynolds, Treasurer; and Jack Fiesler, Sergeant at Arms. Mr. Frank H. Jeter, head of the college News Bureau, is faculty adviser for this organization.

Blue Key is a national honorary fraternity which has as members only men of proven superior leadership, character and scholarship, who are selected from all the schools in the college. Blue Key has always been instrumental in initiating many activities for the progress and upbuilding of the college with special emphasis on citizenship.

Even with a membership of only five, Blue Key has this term sponsored a petition to make every student an associate member of Alumni Association through the addition of a \$2 fee to the general college fees. This petition is now in the hands of the Faculty Council.

Freshmen Initiated Into Phi Eta Sigma

Twenty-five men were initiated into Phi Eta Sigma, freshman honor society, Friday afternoon, May 24. The initiation was conducted at the College YMCA. Following the ceremony, the annual dinner was held at the S & W Cafeteria.

Membership in Phi Eta Sigma is the highest scholastic honor to which freshmen are eligible. The Society was founded at the University of Illinois in 1923 by the late Thomas Arkle Clark, who was Dean of Men at Illinois. The State College chapter was installed May 16, 1930. Since its installation approximately 300 men have been initiated into the Society.

Following is a list of the new members of Phi Eta Sigma: Robert A. Baker, Rocky River, Ohio; H. A. Corriher, Jr., Hendersonville; H. L. Cox, Greensboro; O. B. Glasgow, Norfolk, Va.; M. E. Griffing, Bridge Hampton, N. Y.; F. J. Hawley, Jr., Roanoke Rapids; S. E. Hirsch, Winston-Salem; E. W. Hesse, Morehead City; K. L. Horton, Jr., Raleigh; C. R. Ibach, Jr., Charlotte; G. C. Kirkman, Jr., Charlotte; Robert E. Lee, Raleigh; E. G. Oakley, Gastonia; J. A. Reece, Crumpton; S. N. Richardson, Norfolk, Va.; W. C. Rye, Asheville; Jules Silverstein, Winston-Salem; C. M. Stallings, Enfield; N. E. Taney, New York, N. Y.; F. E. Thompson, Salisbury; Charles C. Tripp, Raleigh; Walter L. Whitsett, Reidsville; H. B. Williams, Wilson; E. C. Yates, Jr., Raleigh; and James M. York, Jr., Tampa, Florida.

Notice!

All off-campus students who have not been receiving a copy of *The Technician* may pick up their final edition at the Technician office in the basement of Tompkins Hall.

Theta Tau Initiates

HERBERT S. GLENN, JR. EDWARD W. MAHONEY GREY E. STONE CARL H. WALKER

IRA L. HELMS JAMES E. ATKINS MARTIN V. B. DAVIS, JR. JAMES E. DEAS, JR.

From Our Governor

Dear Editor Fiesler, Please permit me, through the medium of your N. C. State College newspaper, to express my congratulations to the graduating members of the State College Senior Class.

Graduation from college in 1946 carries a responsibility unlike that faced by any other graduating classes of the past. These are challenging days and the ones ahead will be filled with all the post-war problems that we anticipated and many that we did not anticipate. I commend our Seniors of the class of 1946 to today's world, knowing they are well trained and ready for the task ahead.

I urge strong consideration on the part of these North Carolina trained men and women to give every consideration to North Carolina as a place for the building of a future. North Carolina needs such men as State College is producing, and I feel very strongly that these graduates can find here in our State prospects for a future as bright as anywhere in the world.

With kind regards, I am,
R. GREGG CHERRY.

From Our Chancellor

To: The Graduating Class You have been students in a period of great change in the nation's social, economic, and industrial history. You have just witnessed the power of this country to produce the necessary facilities for winning the world's most destructive war.

The power to create and use the machines of war is the quality of power necessary to advance the economic development of our republic. Yours is the opportunity to change the objective of our creative power from the building of instruments for destruction to the building of instruments for construction.

You are entering life's work in a period of unequalled opportunity. Please be assured of my best wishes.

Sincerely,
J. W. HARRELSON, Chancellor.

Outstanding "Ag" Men Honored

Fifteen outstanding leaders in the School of Agriculture were elected to membership in the National Honorary Fraternity of Alpha Zeta at a meeting held recently in Polk Hall. Alpha Zeta is an agricultural professional organization which promotes the profession of Agriculture and encourages leadership and scholarship in the School of Agriculture. Show here are 14 of the new members. Stuart L. Zolendorf of Newark, Ark., N. J., being absent when the picture was

made. Front row, left to right: Grady L. Martin, Stony Point; Robert O. Brown, Charlotte; J. Douglas Wilson, Littleton; J. Bruce Stinson, Booneville. Second row: Phillip W. Taylor, Brevard; Douglas T. House, Beaufort; Dennis L. Loftin, Kinston; Harold E. Stinson, Booneville; J. Phillip Strick, Chadburn. Third row: Charles M. Hartcock, Raleigh; Maurice L. Pickler, New London; James T. Johnson, Raleigh; Frank R. Craig, Lowell; James T. Moss, Youngville.

Final Set Of Dances For School Year To Be Held This Week

Golden Chain Honor Frat Selects Twelve In Tapping Saturday

The Senior honor fraternity of Golden Chain was reactivated on May 16, 1946, in the college YMCA with the following officers being elected: Bob H. Reynolds, Raleigh, Arch-Regent; Fred H. Wagoner, Gibsonville, Regent; and Jack Fiesler, Ivanhoe, Scribe and Treasurer. Reynolds has announced final plans for the traditional tapping ceremony which will be held on the Memorial lawn, Saturday, May 25, 1946, at 1:30 o'clock. All juniors are expected to be present and the public is invited to attend the tapping of the twelve most outstanding men in the rising senior class. Golden Chain is the highest honor fraternity on the campus of N. C. State and the fraternity was originated here in 1926. The purpose of the organization is to promote the activities which go to make up a high standard of character and citizenship at State College. Golden Chain has been on an inactive status during the war but has been reorganized by three returning war veterans whose education was interrupted shortly after being tapped for this high honor in 1943.

FLASH!!!

Golden Chain tapping results have just been announced. Nine outstanding juniors, six honorary seniors and one honorary faculty man were tapped into this, the highest honor society on the campus.

Juniors: Doug House, Maurice Pickler, Joe Moss, Jim Johnson, Grady Martin, Jimmy Pharr, M. A. Meares, "Jack" Barnes, and Ed Orr. Senior Honorarys: Harrison Wooten, Dennis Loftin, Jimmy Deas, and Joe Monroe. Chancellor J. W. Harrelson was elected to honorary membership in the impressive ceremony.

The traditional tapping ceremony will be carried out on the green in front of Holladay Hall. The Junior class will be asked to sit in a circle with spectators in the back. The speaker for the occasion will be Chancellor Harrelson who will address the rising seniors before the tapping begins. The Redcoat band will be on hand to render their usually good support. All student and faculty members of Golden Chain will participate in the tapping when the twelve outstanding men are selected. No notification before hand is made since the Dean of Students does not reveal the selections until the tapping ceremony is begun. It is necessary for each rising senior to be in the circle since his failure to be present disqualifies him for this distinguished honor.

In past years this has been a most impressive ceremony and this year's revival promises to live up to Golden Chain tradition.

Alumni President

JOHN W. CLARK

Clark Re-Elected As President of Alumni

John W. Clark of Franklinville and Greensboro, a prominent textile industrialist and newspaper executive, was re-elected as president of the State College General Alumni Association in an election conducted by mail, it was announced yesterday by the College's Alumni Office.

President Clark, a trustee of the Greater University of North Carolina and a director of The Greensboro Daily News Company, was unopposed. He is a son of the late Chief Justice Walter Clark and is a former president of the Southern Textile Association.

Also included in the Alumni Office announcement were the names of 12 other officers who will handle various activities of the association.

Named are James M. Peden of Raleigh, first vice president; Neill M. Dalrymple of Fieldale, Va., second vice president; H. W. (Pop) Taylor of Raleigh, secretary; J. G. Yarn of Raleigh, treasurer; and E. Y. Floyd of Raleigh, chairman of the Executive Committee.

New members of the Executive Committee are R. N. Gurley of Newton, Carl R. Harris of Durham, Guy F. Lane of Ramseur, Forrest H. Shuford of Raleigh, and R. V. Terry of Newport News, Va.

G. C. Lassiter of Spring Hope was selected as a member of the Athletic Council, and J. M. Johnson of Raleigh was named as a member of the Print Shop Committee.

Wataugan Reinstated As Literary Magazine

At a meeting of the Publications Board on Wednesday, May 22, it was decided to reactivate the *Wataugan* as the college literary publication. Two men, John Boyter and Andy Patten, were appointed as co-editors and Doug Hose and Bill Boylan as co-business managers. Their duties will be to work cooperatively to publish the first issue, after which an election will be held to select one man for each job. This publication has been inactive for the past three years because of wartime conditions. It is hoped that with the greatly increased student body that more creative writing can be obtained for this publication than in pre-war years.

The Board also approved the following proposal submitted by Bob Wooten regarding salary increases for the *TECHNICIAN* staff.

	Old Salary	New Salary
Editor	\$350.00	\$450.00
Bus. Manager	350.00	450.00
Managing Ed.	100.00	125.00
Sports Editor	100.00	125.00
Asso. Editor		125.00
Asso. Bus. Mgr.		125.00
Circulation Mgr.		100.00

These salary increases were proposed in the hope that a larger and better staff could be secured to publish the *TECHNICIAN* next year. In the past, the insufficient financial consideration has prevented the proper interest in journalism from being shown in campus publications.

The *Wataugan* was formerly the most popular student publication on the campus. Because of the fact that the average State College student is more mentally mature than in previous years, the magazine will be published on the order of a literary journal, substituting humor for "copied dirt." It will be published twice in each term of the regular school year, making a total of six issues.

Two Orchestras Will Be Featured As IFC Ends Social Season

The final set of dances to be held at North Carolina State College will commence on Friday, May 31, 1946, with the music of Tommy Reynolds and his orchestra. Saturday afternoon will feature the music of Ray McKinley, his drums, and his orchestra. During the past dances a tea dance has been the customary event for the afternoon. However, arrangements have been completed for a concert to be given by McKinley in the amphitheater of the "Little Theater." In the event of rain this concert will be held in the gymnasium.

Saturday night McKinley will hold forth in the college gymnasium. The dances Friday and Saturday nights will begin at 9:00 p.m. The concert will begin at 3:00 p.m. and last until 5:00 p.m. All members of the student body, the faculty, citizens of Raleigh, and any other interested persons are invited to the concert on Saturday afternoon. No charge will be made for admission. The only restraint will be the seating capacity of the amphitheater.

Tommy Reynolds has recently been recording for Columbia and should provide the top-notch music for Friday night. Ray McKinley has just come back from overseas where he was director of Glenn Miller's band after the untimely death of that great musician.

Thousands of G.I.'s heard his music in the ETO. Most of the playing was done in Paris. McKinley's band is the talk of the music world. Its roster is comprised of all ex-G.I.'s and includes some of the finest musicians in the country.

The "Finals" are sponsored by the Inter Fraternity Council. Fraternity sponsors will come from those fraternities who have representative bids to this dance may be obtained from any fraternity man on the campus. Each of these men is given three guest bids for the purpose of distributing them to those who desire to attend the dances.

New Decorations

A new scheme is being used in the decorations for this dance. All of the streamers will be joined in the center of the ceiling of the gymnasium. Below these will be fastened a huge spherical mirror which revolves in the beams of multi-colored lights. The effect produced is strange and fascinating. Millions of tiny lights playing about on the floor create an effect that is hard to equal.

During the years before the war "Finals" was the big dance set of the year. This was as it should be and history promises to repeat itself. Hundreds of students are already making plans to spend the last week-end of the spring term in school with nothing to do. This is not a "busman's holiday" because it is the dream of all students to remain in school with nothing to do but have one continuous and "large" time.

Watts Returns As "Y" Self-help Secretary

N. B. Watts of Raleigh has resumed his work as assistant secretary of the State College YMCA in charge of self-help work, it was announced Friday morning by Edward S. King, secretary of the College YMCA.

Watts recently returned to Raleigh following a tenure of 50 months as a major in the Army. During his Army service he spent most of his time in England, France, and Austria. He entered the service in March of 1942. A 1938 graduate of State College, Watts served as assistant secretary of the College "Y" from the time of his graduation until he entered the Army. He resides at 902 West South Street.

Joe Moss Is Winner Danforth Fellowship

James T. Moss, Junior in Animal Production at Youngville, has been awarded the Danforth Fellowship for being the outstanding junior in the Agricultural School, it has been announced by Dean C. H. Bostian of the School of Agriculture. Moss was chosen for this honor over four other applicants for this fellowship and will receive a trip to the Purina Mills in St. Louis, Mo. and a two weeks stay at Camp Minnewaska on the shores of Lake Michigan. The Freshman selected is Osco Jackson from Goldsboro. He will spend two weeks at the Danforth Foundation at Camp Minnewaska, also.

Graduation Edition

This week's TECHNICIAN is dedicated to the seniors who are graduating next week-end. In their honor we have endeavored to present something a little extra for the last TECHNICIAN they will receive as students of North Carolina State College.

In the graduation exercises you will be given adequate encouragement and inspiration, we feel sure, on what to do with your life from here on out. State College has given you a good foundation and we have every confidence that you, as graduates of this institution, will have no difficulty in finding your place in life.

Thirty

"Thirty... the end—said of, or written on the final sheet or every college newspaper editor has a tendency to sound off with a last farewell editorial when he is prepared to graduate.

In looking back over this year's TECHNICIAN, I am inclined to agree with those who say that it hasn't been quite so good a newspaper as some in the past. None of the other college publications have as yet come up to prewar standards; but it is my hope that next year the students of State College will have a newspaper, a yearbook, and various magazines which will be second to none.

While serving as editor of the TECHNICIAN, I have been accused of many things—of being a cynic and a radical, of offering too much criticism without enough solutions, and of making indiscriminate personalized attacks.

I wish to express my appreciation to the students who have served long and well on the staffs of the TECHNICIAN. More than an ordinary amount of work has fallen on their shoulders because of the fact that few students were interested in working on the newspaper.

Better Newspaper

With the curtain falling on this year's TECHNICIAN, we would like for you to project your thoughts toward your campus newspaper of next year. With the increase in enrollment will come more responsibility for the newspaper.

State College Campus Centrifuge

By BILL GATLIN

Farewell Notice
Campus Centrifuge is finally about to wind down. The whirl of State College which has kept this student in a daze and which the column has attempted to describe is in no danger of slowing its pace, and that realization is a comfort to graduating seniors and to ambitious underclassmen alike.

The dearest treasures of every man are those that have a relation to the past. Stability is demanded by society; yet, everything changes regardless of its race. Progress is a debatable thing, but change is not subject to argument. State College is destined to move constantly under the pressure of perennial youth. Wisdom and experience can affect only its direction—never block its path.

As president of the student government I have enjoyed very much this last year and want to thank the members of the council for their cooperation. Much interest has been evinced in the program of the campus government, and it has been with pleasure and pride that I have officially represented this year's students.

Members of the student government have been sincere with their projects this year and whether much has been accomplished or not their recommendations are still available to the students. Further study and promotion may yet gain more of these changes for the students.

The most challenging project confronting next year's council seems to me to be building a real live honor system from the organization.

A Bell For State College!!!

By JACK FISLER

So they're finally putting the quietus on "Old Faithful". Well, I guess it's okay but by golly, they should have at least given us a little fore-warning. Like it is now I feel like I've just lost a very dear old friend who I knew must go sooner or later yet who held a spot dear in my heart, and deep in my memories, and who was beginning to think of as never dying.

In its stead comes the new—a bell to sit on top of Withers Hall and try to take the place of the "old master" whistle. Yes, a bell to gently wake the sleeping "wolf-beauties" instead of blasting them out in the mornings; a bell to discreetly remind the long-winded wisemen that the class should be dismissed instead of being told to shut up; and a bell to shout our victories, to warn of our enemies, to tell us when to go and when to stay! But good or bad, said

Do you like the tabloid size (about half the size of the present TECHNICIAN)? And will you support and contribute to your student newspaper next year? Any comments on this are welcome.

Publishing a college newspaper is a big job for anyone and requires some time and effort. Especially is this a strain on an editor and his staff when their number is small. Bobby Wooten, the retiring editor of the TECHNICIAN, has had to operate under several handicaps this year. The one which has probably caused Bobby the most grief is the shortage of students who have worked on the staff.

Looking into the future, we must have more students to work on our publications next year. Anyone interested in working on the editorial or business staff of this paper should leave his name and address at the TECHNICIAN office. The experience and training alone in newspaper work should be an incentive for a student's participation in such valuable extra-curricular activities.

Faculty Council

Recently we had the honor of being asked to sit in on a Faculty Council meeting for the presentation of the alumni fee petition and the Student Council salary proposition. Having heard various comments on our Faculty Council, we were curious to find out what kind of men we did have in that body and just how they operated.

OPEN FORUM Spring Ball Report

Dear Freshmen and Sophomores:
You are to be commended for the excellent backing you gave your Spring Ball. It is hoped that a precedent has been set and that future combinations of these two classes will present even bigger and better Spring Balls.

The most gratifying outcome of this year's Spring Ball was the balance remaining in the Freshman-Sophomore Dance Fund's bank account—\$205.75—after all bills had been paid. This report has been delayed only because it was several days ago that the last of numerous bills was paid.

You will be interested in knowing that the dance fund's only asset, when original dance plans were worked out, was a check for \$45.25 belonging to the Sophomore Class and which represented an award to that class from the Alumni Income Class.

The response given this affair is a very definite denial of the charge that State students lack a sense of school spirit and cooperation. Let's publicize and plan for an enlarged social calendar.

Bill Thornton,
Sophomore Class President.

Doings Of Your Campus Government

(Prepared by the Promotion Committee of the Campus Government Council and dedicated to the creation of a better informed and more responsible civic consciousness on the campus.)

Credulity First Year
As we come to the close of the first year of operation under the new constitution of the Campus Government and Honor System of the North Carolina State College it would be fitting for every student and faculty member to read again in a spirit of recollection the Preamble of the constitution.

"We, the students and faculty of the North Carolina State College of Agriculture and Engineering, in order to form a more perfect community of scholars, afford opportunity for the American citizen, and secure the blessings of liberty, learning and integrity for ourselves and those who come after us, do ordain and establish this constitution of the Campus Government and Honor System of the North Carolina State College."

Students and faculty at State College are committed to the idea of "playing on the same team," and working cooperatively as colleagues in the search for truth, personal integrity, and lasting joy.

President Waggoner's Council
The first official meeting of the newly-elected Campus Government Council has been called by President Fred Waggoner for May 30, 1946, at 12:30 p.m. in the cabinet room of the YMCA.

At this time preliminary organization of the Standing Committees of the Council will be made, and other important matters relative to next year's program will be considered.

Remuneration for Officers
The Faculty Council at its regular meeting on Tuesday approved the recommendation of the Campus Government Council of this year relative to the financial remuneration of Campus Government officers in the future.

Under this arrangement the President, the Secretary, and Treasurer of the Campus Government will receive compensation for their services on a basis comparable to that of the staff members of college publications.

These officers are not being paid to do their normal "civic duty," but are being given partial compensation for the time that they might otherwise devote to self-help work.

Congratulations and Thanks
To the officers and student council (Continued on Page 7)

GLEANINGS

May 24, 1946

Everyone is curious these last few days before graduation as to whether or not Prof. Paget is going to deliver a graduation speech out of mere courtesy for his many friends who are receiving diplomas from this institution.

Among Prof. Paget's many friends who will be leaving next week to seek fame and fortune in the outer cruel world is Ed Mahoney. Ed will be departing for Brooklyn with a southern accent, as Ed has been washed and dyed and is almost a true son of Dixie.

Another of the good professor's most intimate friends (in fact, he happens to be a publicity man), is Bill Gatlin, otherwise known as "Cotton Ed" Gatlin. "Cotton Ed," or Bill, has been cheered, feared, and almost reared on this campus, but it didn't cause him to lose any hair— or did it? We understand Bill will venture to New York, so he'll be close to The Times.

By the way, we understand (or at least it was rumored) that the Sigma Chi's have taken in their wash from the Siegfried Line.

Ask Bill McLendon if the candy he received from a certain English professor (these English profs sure receive their quota of publicity these days) for writing the second best love lyric, was good.

Tony LeMay seems to think that he can make lots of money by operating a concession on the forthcoming housing reservation if he can sell old rusty pocket knives and pistols to the couples who do not desire each other's companionship any longer, but will have to share apartments under the new set-up now outlined by Dr. Wood.

What's this we hear about "Terripin" Bill Lynn that is associated with wedding bells? It seems as though Bill is about to get married to Lizzy Fiat, his best, truest, and most cherished friend.

How does this dorm assistant on 2nd floor, Bagwell, rate screens when no one else in Bagwell has them?

Top honors this week go to Prof. Babcock! It seems as though the ASCE "weeny roast," which was scheduled for last Saturday, was cancelled because of rain. What a beautiful day it was—not a cloud in the sky. Prof. B., don't believe everything you hear over the radio—it's propaganda.

Things have quieted down on 3rd floor Turlington—no more bottle-throwing parties—no more bottles left, I guess.

We understand that Tom Icard has a 1941 convertible Pontiac for sale, cheap. In fact, it's a dead give-away... Quote: Bob Dorcas: End of quote...

Discard Aeronautics?

By BILL BLAND

Is the airplane practical or is it merely a mode of transportation that is rapidly vanishing from the scene with the passing of time and the diminishing of its glamour?

Those of us who have just returned to school with ambitions of being able to graduate with an Aeronautical Engineering Degree, have met with a situation that seems to defeat our plans from the very beginning. Even in the first few weeks we were approached by different persons who urged us to transfer from the Aeronautical Department to some other that was, in their opinion, more important to everyone's admit that at first I was awayed by this overwhelming offensive put on by some very prominent persons on this campus, until I wondered how I would be able to design a steel truss and power it with a reciprocating steam engine, and hope that it would be able to fly and compete with an average aircraft of the period immediately following the Wright Brothers' first successful flight.

Indications do not point to the fact that interest in the study of aeronautics is lacking in the departments that are now in school. The number of students in the basic division that have indicated a desire to study and major in aeronautics is fourth largest when compared with the numbers desiring courses in the other ten departments of the Engineering School.

Therefore, in the light of what I have seen, heard, and read, I ask, why is the Aeronautical Engineering Department not given the support that it so rightfully deserves and needs by the persons in control of our education? This is a period in which advance and not regression should be made.

Exam Schedule... Good Luck!

Table with 2 columns: Classes Having a Recitation on... and Will Take Examinations on...

Old Faithful To Blow Her Top For Last Time

By BEN LEMLICH

The tower at Adams and State College have nothing on each other. They now both have bells. Yes, my fellow ear-drum-shattered students, "Old Faithful" by next quarter will have entered the hall of State College Immortals. The new bell will be installed on the top of Withers Hall and will be operated by an electric timing device so that every period will be exactly 50 minutes long of exquisite agony depending on the class you have. Consequently, the statement — "a ten million dollar institution run on a damn dollar watch" muttered by some irate student whose 8 o'clock class and alarm clock don't jive, will soon be a thing of the past.

The bell is replacing the whistle partly because of inconsistency of operation and the complaints of the surrounding neighbors who also on occasion are knocked flat on their ears by the blast. The bell is the old fire bell of the number one fire house of Raleigh, and when rung is claimed to have been heard as far away as West Raleigh. It does have a very melodic tone as yours truly can testify by having climbed to the belfry on Withers Hall and striking it with his head — they both have nice tones. It was cast in Baltimore in 1870 by John Register and is made of ceramic building. When the school enlarged, the whistle, then made louder was moved to the present power plant. The official blower is the fireman who has been blowing for the past 25 years. The whistle has been blown on more than one occasion other than that of ending or starting a class. It blew joyfully on VE and VJ day, blew alarmingly on the day the dairy barn burned; it also blew warningly for the raid drills.

Aero Engineers Hear Talks, See Movie

The Institute of Aeronautical Engineering held its final meeting of the school year in the auditorium of the YMCA last Tuesday night. The chairman opened the meeting by giving a short discourse on the purpose of the organization to those present, and he was followed by a short impromptu informal discussion on the future of the Aeronautical Engineering Department here at State, by Robert Truitt, instructor in the Department.

Agronomy Society Reactivated Tuesday

The Agronomy Society, an organization of the students in the School of Agriculture who are majoring in Agronomy, was reactivated at a meeting in Withers Hall, Tuesday night, May 21. The society elected Chet Williford, rising senior, to head the club for next year. Gene House, Scotland Neck Field Crops major, was elected vice president; F. C. Stallings, Jr., of Jamesville, secretary; and A. M. Sink of Lexington, treasurer.

Ring In The New!!

Workers are shown here installing the new bell on top of Withers Hall. The bell is the old fire bell of the Number One Firehouse in Raleigh

and was given to the College by the City Commissioners when the fire alarm system in Raleigh was converted to electricity.

(Editor's Note: This article was published in The News and Observer, January 23, 1942. This feature is so interestingly written we deemed it worthy of republishing with permission of and through the courtesy of our College News Bureau.)

By C. A. UPCHURCH, JR.

First time "Old Faithful" belted across the countryside it created one hell of a stir.

That was 30 years ago. For the ensuing 15 years the iron-throated monster, anchored atop the State College power plant, shattered the calm of Raleigh and environs every time the engineer showered down on the whistle cord.

People as far away as Clayton, over the line in Johnston County, could tell when classes changed at the college.

Had aerial warfare on civilians been the custom in those days, "Old Faithful" would have done nobly as an air raid warning, for few people in the city could have escaped its unearthly blast. The puny sirens tried out recently in Raleigh gave out biddy peeps compared to "Old Faithful's" hoarse snort, to hear oldtimers tell it, and records give some substance to their descriptions of the massive-voiced steam whistle's prowess.

The whistle introduced itself to the Capital City and the neighboring countryside thoroughly and without warning. From then on it was a personality.

Its debut came on a wintry morning. When the roar swept the campus, students accustomed to the mild two-toned squeak of "Old Faithful's" predecessor, figuratively were blasted from their beds. Wide-eyed youths manned every window in an effort to localize the bedlam.

Some thought a battleship had steamed up Rocky Branch, while others with a more serious turn of mind looked, said a contemporary, "toward the east for the first glimpse of a tiny cloud 'no larger than a man's hand' which mark the end of all things earthly."

Husky bulls on a nearby farm slunk to a secluded corner of their pasture, convinced that the greatest of them all was on his way. In a barn near Cary, a cow, peacefully giving forth milk, cut off the flow in fright when the roar swept through her hailwick.

One report goes so far as to say a cloud, parked above the "power house, split into several parts which hustled away to less disturbed points of the universe.

Students were responsible, in a way, although their troubles could be blamed on the whistle which preceded "Old Faithful." Sometimes the whistle gave out in a well-modulated, adequate toot, but often all it could manage was an asthmatic wheeze. The State College men, always keen on the pick-up, thus had a regular excuse for lateness at class.

But Prof. Charles B. Park, member of the mechanical engineering faculty, got tired of the same old gag: "I didn't hear the whistle." He looked over manufacturers' products and decided none of them would do. Then he set out to build a whistle worthy of its job.

Campus Coverage

Forestry Club Holds Last Meet of Year

Promptly at seven o'clock Tuesday night thirty-five mighty good men walked up the north stairs of Ricks Hall to attend the last meeting of the Forestry Club. Aside from being the last meeting this term, it was not unusual; "Kasy" Kaczynski sat on the back row and laughed at practically everything and everybody, as usual. Professor Slocum, the "grand old man" of Forestry here at State, continued to get the boys out of trouble when they got stuck on some parliamentary technicality and frequently had a wisecrack "off the record." Bill Ellis objected to every proposal that was made, as usual; and Ed Sullivan had a few impromptu words to say.

Officers for the next two terms were elected Tuesday night. Jay Hardee was elected president. The other officers are ready for distribution within a week.

So long, Pal; we'll see you next fall. Meanwhile, take it easy.

He succeeded.

Until 1925 that whistle blasted away on the hour every day, immune to the hard things spoken about it. It was entirely effective.

Housewives over a large part of Wake County, legend has it, set clocks by the college whistle, and there was one report of a mule on a farm far removed from the campus who, when "Old Faithful" boomed at noon, wouldn't plow another lick until the 1 o'clock whistle blew.

Finally, when the new power plant was built, "Old Faithful" was taken down and replaced by a whistle more in tune with modern cars. It had weathered a growing storm of squawks. Students joined with the plaint that its bellow jarred their drawing boards. Even Frank Thompson, power plant engineer, dubbed it "a relic of barbarism."

But "Old Faithful" had its friends. When it was retired they mounted it on heavy boarding and gave it a place of honor on a wall in the mechanical engineering shops. It's there yet, muted while whistles of lesser power wail feebly in dismal try-outs on the capitol and city hall.

And the identifying label says: "A Relic of Barbarism."

"Lib" Frazier Heads Textile Fraternity

The Textile honorary scholarship fraternity of Sigma Tau Sigma elected new officers for the coming year at a meeting here Tuesday night. Elizabeth Frazier was elected president; Jack Harris, vice president; Cyma Saltzman, secretary; Robert Levin, treasurer, and Tex Wallner, publicity chairman. Two new faculty advisers were elected. They are A. C. Hayes and G. H. Dunlap.

Plans for the coming year were discussed and the main point in selecting next year's membership was resolved to be scholarship.

New members taken in are: Cyma Saltzman, Brooklyn, N. Y.; E. M. Carley, Greenboro; H. M. Scherr, Asheville; Kathleen Phillips, Lumberton; Tex Wallner, Jacksonville, Texas; and Harry Forrest, Mount Airy.

Officers Are Elected For Ag Club at Meet

The Ag Club held its final meeting Tuesday night, May 21. After the smoke from the hot political battle had cleared away the following officers were elected. Curtis Fincher, senior in Animal Production from Hillsboro, was elected president by acclamation. Joe Cline, senior from Shelby, vice president; Kieth Gregory, junior from Franklin, secretary; Cedl Wells, sophomore from Leicester, treasurer; L. R. Roper, freshman from Franklin, reporter; Professor J. C. Pierce, of the Animal Husbandry Department, faculty adviser. Eugene Berryhill, junior in Animal Production from Paw Creek was elected chairman of the Barnwarming.

Mr. Fincher gave a very inspiring speech on the future plans of the Ag Club. Some of his aims are: (1) to make an effort to get a higher percentage of the Ag boys out to the meetings; (2) a closer cooperation between the Ag faculty and the Ag students; (3) to give the club's whole-hearted support to the Ag Fair which will be held this fall.

Aeronautical Club Holds Final Meet

The Institute of Aeronautical Sciences held a meeting in the YMCA auditorium last Tuesday night. All rising Sophomores, Juniors, and Seniors in Aeronautical Engineering were invited to attend.

The meeting was held primarily for the purpose of acquainting the non-members with the aims and objectives of the organization. Chairman Pinky Dunn opened the meeting with a short discussion of the present need for a strong student support of the department and stressed the fact that the department might possibly be abolished unless the students were strongly organized to prevent this occurrence. Since the I. A. S. is the official student organization of the department, it is up to the students to support this organization and work through it to improve the Aeronautical Engineering course if they are really interested in this field.

Bill Bland, secretary of the chapter, pointed out the fact that since most of us were primarily interested in the aeronautical engineering and not some other field of engineering, it would behoove us to do everything possible to build up the course and make it one of the accredited courses on the campus.

Mr. Truett, of the departmental teaching staff, explained briefly his idea of a well balanced aeronautics department and the present status of the courses available to our men.

After this discussion, a film on the production and development of aviation fuels was shown. When the film was over, a short bull session was held and refreshments were served.

The meeting was attended by the following men: Charles L. Shuford, Roy C. Evans, Ralph D. Gardner, E. B. Smith, Glenn Adair, Sidney L. Green, J. D. Davis, J. A. Penland, A. J. Ratton, E. E. Grigby, Eldred H. Helton, Richard B. Fehrer, Fred Peacock, Ned Hart, Ted Morris, Emerson E. Sharpe, Bill Dixon, M. B. Dunn, H. C. Wroton, Robert Reynolds, Bill Bland, and David H. Michael.

This was the final meeting of the chapter for this term.

Band Officers

The State College Concert Band, directed by Christian D. Kutschinski, Friday announced a new slate of officers for the next academic year.

The officers, all of whom are veterans of World War II, are as follows:

William R. Parks of Lenoir, president; R. Lamonte Goldston of Kannapolis, vice president; James T. Maddrey, Jr., of Raleigh, secretary; George Wilkins of Hendersonville, librarian; and Harold W. Grant of Solna quartermaster.

SPECIAL FOR VETERANS

We have just received a letter from Mr. E. C. Hemmingway, Chief, Vocational Rehabilitational and Educational Division, North Trade Street, Winston-Salem, North Carolina, reading as follows:

"Since the Spring Quarter will be closing within the next short while and many veterans will be dropping out of training during the summer months, we wish to be in position to interrupt training in that case and to hold those in training who plan to continue their work.

"Please have veterans, who plan to discontinue their training at your institution for the summer months, notify this office at the close of the Spring semester, and furnish us with their new address. This is most important, since it will be impossible to send their checks without this information from the veteran."

"If the veteran plans to continue his training in the summer program of studies, it will not be necessary to interrupt his training, even though the interval of interruption might equal or exceed thirty days. The veteran should be notified that this time will be counted against the number of months allotted him for training.

"In order to interrupt the training status of a veteran now enrolled in your institution, it will be necessary for you to furnish this office with a statement indicating the last day on which the veteran was in attendance."

Veterans should comply with this request immediately, being sure to give their claim number in their letter. Veterans not in school for the summer term should designate June 1 as the date for the close of the spring term, except those veterans who are graduating where the date should be June 3. Veterans should also keep in mind that every day for which they received subsistence pay counts in the total training period allowance. Thus it is of advantage to veterans to discontinue subsistence as soon as possible unless they are sure they have more training time than they will use in the next eight years.

W. L. MAYER, Registrar.

Job-Seeking Girl Students Cautioned To Observe Six Hints

As a warning to girl students who will be seeking employment this summer, Mrs. Anne V. Zinser, Director of the Zinser Personnel Service, cautioned girl students to select employment through the application of six major job-hints. She outlined these pointers in a speech recently at the University of Indiana and the University of Illinois.

The job hints that Mrs. Zinser mentioned were: (1) a girl should analyze herself and determine her personal desires; (2) she should

apply this self-analysis to her educational training; (3) check the industries for priority rating on field selections; (4) check offices of the selected industries in community in which she makes her home, or would prefer to live; (5) learn the name of the proper official in charge of the specific department in which she seeks employment; and specifically why she wants employment in that particular company and department."

Anyone wishing further information on this subject may write to: W. A. Dashi-Franklin 6244, 228 N. LaSalle, Chicago 1, Illinois.

Textile Scholarship Donors

Two scholarships, valued at \$2,000 each, will be awarded this spring in the School of Textiles by President Ralph Y. Cooper and Vice President A. Y. Kneibler of Coopers, Inc., of Kenosha, Wis., noted manufacturers of men's underwear. Dean Malcolm E. Campbell, head of the College's School of Textiles, who made the announcement of the scholarships, also reported that two additional awards will be made next year to increase the number of Coopers scholarships to four. Total value of the awards amounts to \$8,000.

Helping Others To Help Themselves

A factor that has prevented the farm income in the Carolinas from rising to its proper level in comparison with incomes of other groups, is that farmers have always purchased their farm supplies at retail prices, and then sold their produce at wholesale prices.

More than 40,000 farmers in the Carolinas have found a solution to this problem through membership in the Farmers Cooperative Exchange—a farmer-owned and controlled manufacturing, purchasing, and marketing organization.

Farmers Cooperative Exchange

RALEIGH, NORTH CAROLINA

Dillon's Dallyings

Another collegiate sports year has come to a close here at State, and with this close, comes the end of a comparatively successful sports year for State College's athletic teams.

Coch Beattie Feathers' football squad, although winning only three of nine games, was one of the best ever to represent this institution. The Wolfpack were always serious threats to even the best opposition. A good example of this may be cited by the fine game the Pack played against the always potent Duke team at Durham. The Techs and Wake Forest put on the best exhibition football fans saw in North Carolina all year. The Deacons eked out a 19-18 decision in this hard fought contest, which kept a sell-out crowd at Riddick Stadium on the edge of their seats for the full sixty minutes. Howard Turner, State's nomination for All-Southern half-back was the spark-plug of the Techs attack, and was the main factor in State's dangerous passing attack.

In the basketball wars, Coach LeRoy Jay's boys were one of the gamiest in the loop. They reached their peak in the opening rounds of the Southern Conference Tournament when they almost upset Duke, whose quint eventually won the tourney. State led all the way up to the closing minutes when the Blue Devils rallied to knot the score and send it into an overtime period. The Dukes won handily in the extra period. Nevertheless, the surprising smoothness which the Terrors showed was the talk of the tourney.

And this spring under the capable guidance of Vic Sorrell, the State baseball nine won their first baseball title in eighteen years. The "never-say-die" spirit which the baseball team showed was really an inspiration. In our opinion, the spark plug behind the whole team was Jimmy Edwards, who along with Ed Little of Duke, are two of the best catchers in collegiate baseball — certainly the best two in the Southern Conference. It was really good to watch Edwards work and keep the team's morale at a high peak.

Our golf, track, and tennis teams didn't do so bad either. Coach Armcoos's golf team handed Duke's linksmen their first loss in intercollegiate competition since 1941. We believe it was the only loss suffered by the Duke team this year. Next year, wrestling will be added to the minor sports schedule.

It will be interesting to see how Coach Case's basketball team comes out next year in its win-lost record. In Coach Feathers' first year as head football coach in 1944, his squad won seven of nine games, and this spring, Coach Sorrell's team won the Big Four Championship in his first year as head baseball coach. Next year will be Case's first year as basketball coach. He'll have rough competition, especially from Duke and Carolina, but if the form sheet runs true to form, his boys will beat one of the two mentioned teams, if not both.

Play By Play Account of State-Duke Baseball Game

There's about five minutes to go before the start of the game. All is tense in the State dug-out. The two umpires are chattering about the rule which they had missed at the State-Carolina game last week. Coach Sorrell appears rather cool, but is very anxious for the game to start. He wants to get it over. Curt Ramsey is down in the bull-pen getting warmed up. Word is going around that Duke's excellent catcher, Ed Little, is going to miss the game because he's marrying a Duke co-ed this afternoon. Our chances of winning have gone up. . . .

Now it's time for the game to start. Jimmy Wilson, State captain, and Umpires Matthews and Danderlake are meeting with Duke's acting captain McCarthy at home plate. It won't be long now. . . .

Wilson now heads back for the dug-out and calls the team in for a huddle. With Coach Sorrell in the middle, the team groups around. The Coach speaks. "O. K. boys. This is the one we want to win. Go in and get 'em." And with these words, the team hustles onto the field. . . .

We were all excited when Charlie Richkus smacked his homer over the fence in the first inning. The team congratulated him en masse as he crossed the plate. . . .

But it was Duke's turn to cheer when Grady Stott knocked his homers in the first and sixth innings. Both homers tied the score; and both homers came when Ramsey threw the big Duke left fielder straight pitches. After the second homer had been knocked, some rabid State fan entered the dugout and shouted, "Don't let Ramsey throw Stott another straight ball. That **** will knock it over the fence every time."

We're in the ninth now. Pinch-hitter Smith has struck out. Only two more to go, but Carlye Groome is up. He's a dangerous hitter. There goes a short fly over third base. It's hitting-in fair territory, and there goes Groome all the way to second. And Vann is up. He's mighty dangerous. There goes a grounder to second. Nice stop Stan; but Groome's gone to third and two are away. Here comes D'Alonzo up. He's not too good a hitter, but. . . .

STRIKE THREE!!! The game's over. WE'VE WON! WE'VE FINALLY BEATEN DUKE AND CAROLINA IN A MAJOR SPORT!

THE INTRAMURAL FRONT

One of the greatest intramural softball mound performances ever made was turned in during the past week. This outstanding pitching feat was a no-hit, no-run game, the first of its kind this year.

Lower Becton and second Syme swapped blows in tying 10-all, week before last. These two clubs met again last week and behind Side's beautiful no-hit hurling, lower Becton shutout second Syme, 14-0. Becton jumped on the victory run early in the game with eight runs in the first inning. Sides gave up only two free passes as the batters from Syme went down in 1-2-3 order. Macon was the losing pitcher.

Third Alexander forfeited a game to the off-campus Vets in the week's only give-away contest.

The other dorm game was second Turlington's 12 to 7 triumph over

third Bagwell. The winners scored four times in the initial frame to go on to victory. Rizzler was the winning pitcher as Scheld, with three for three, helped the batting attack. Glaser was the loser.

There were only three games in the fraternity league. The PIKA's continued on their victory march with an 18 to 8 win over Sigma Nu. The winners scored in every inning and used three hurlers, Lovin, Delamar and Bridger, in the win. Stewart was on the mound for the losers.

After losing one game in the first part of the week, Stewart of Sigma Nu came back to pitch and bat his mates to a 7 to 0 victory over A.L.T. Stewart mastered the A.L.T.'s throughout the game in allowing only three scattered hits. He had three hits for four trips to the plate. Spindola was the los-

Becton Softball Champs; Pika's Win Cup

Our Successful Golf Team

Here we see Sonny Ham showing the boys how its done. They have proved that they know pretty well how to play golf as the N. C. State linksmen have come through the season with a 3-3 record and have the distinction of being the first team to beat the Duke golf men in 6 years. From left to right: Alfred Green of Durham,

Charles Gibson of High Point, Captain Roy Dearstyne, Jr., of Raleigh, Robert Turnbull of Raleigh, Coach Rowland Armcoos, Floyd Harper of Charlotte, Bill Furr of Raleigh, Gonsaenz of Columbia, South America and Sonny Ham, the demonstrator, from Greensboro.

INDIVIDUAL SCORES

One-half Mile Relay

Won by PIKA (J. Jones, Ivey, Skinner and McDowell) Sigma Pi, second; SPE, third; Sigma Nu, fourth. Time: 1 minute, 45.8 seconds.

Won by Lower Becton (Neal, Hepler, Watts, Johnson) Welch, second; Second Turlington, third; Upper Becton, Fourth. Time: Not recorded.

Broad Jump

Won by Allen (Sigma Chi) and Barksdale (ALT); tie. Masters (SPE), third; Jones (PIKA), fourth. Distance: 19 ft. Won by Smith, (Welch); Hepler, (Lower Becton), second; Breedlove (Welch), third; Murphy (Upper Becton), fourth. Distance: 18 ft. 4 in.

High Jump

Won by Boger (SPE); Barksdale (ALT); Lawson (SAM); White (PIKA); and Cooke (Sigma Chi). 5 feet 3 inches.

Won by Maynard (Welch); Smith (Welch); Johnson (L. Becton); Tucker (U. Becton). 5 feet 2 inches.

Discus

Won by Satzman (SAM); Ivey (PIKA); Powell (SPE); Hayes (SPE). 96 feet 3 inches. Won by Parnag (Berry); Waggoner (2nd "C") Marks (U. Becton); Williams (L. Becton). 86 feet 4 inches.

440 Yard

Won by Skinner (PIKA); Walner (Sigma Chi); Hester (PIKA); Bain (SPE). 56.4 seconds.

Won by Turner (Welch); Johnson (Lower Becton); Frillman (2nd "C"); O'Brunt and Mallard tied for fourth. 60 seconds.

1 Mile

Won by Woodside (PIKA); Fisher (SAM); Levenson (SAM); Wilson (Sigma Pi). 5 min. 43 seconds.

Won by Waddell (U. Becton); Ormsby (Welch); Johnson (L. Becton); Hard (Welch). 6 min. 3 sec.

12 lb. Shot

Won by Ivey (PIKA); Powell (SPE); Moore (Sigma Chi); Roberts (Sigma Pi). 42 feet 2 inches.

Won by Parnag (Berry); Marks

Sigma Chi and Sigma Pi Battle For Second

The PIKA's completed another successful intramural year as they captured their twelfth straight championship cup. The PIKA's were runners-up in football, campus champions in volleyball, winners of the combined swimming meet, and took the fraternity bracket in the track meet. They also won the fraternity championship in tennis and softball.

The battle for the second place position is a close race between the Sigma Pi's and the Sigma Chi's. The outcome of this race depends on the softball finals which match the Pi's against the PIKA's and the battle for third place in tennis between the Chi's and the Pi's.

Close Race

In the dormitory bracket, the winner is not yet determined with tennis finals still to be played. Lower Becton defeated upper Becton while Welch beat 2nd Turlington for third place.

In the tennis league, Berry will play the victor of 2nd Turlington and Lower Becton for the championship while the loser of that match will meet 3rd Turlington for third place.

The SPE's and PIKA's were undefeated in their respective tennis brackets as they went into the finals but the PIKA's completed their season without losing a set as they downed the SPE's 7-5, 6-2 and 6-2, 6-4. The Sigma Pi's and Sigma Chi's have yet to play.

The SPE's beat the Sigma Chi's in their battle for third in softball by the score of 12-9. The PIKA's defeated the Sigma Pi's in the softball finals 9-0 behind the two hit pitching of Bridger. The winners collected nine safeties while Bridger famed eight batters.

Dorm Finals

In the dormitory championship, the Lower Becton team came from behind to take a 3-2 victory from the Upper Becton squad. The three run rally came in the last half of the last inning as the victors got seven safeties while the losers were getting a like number of hits.

100 Yard Dash

Won by Lampke (PIKA); Snyder (Sigma Pi); Bingenheimer (PIKA); English (Sigma Pi) and Lawson (SAM) tied for fourth. 11.8

Freshman Chambers Shows Sign Of Track Greatness

By MARSHALL BRYANT

When the 1946 track season rolled around, coach Tom Hines had several men out fighting for positions on the varsity team. Several of the prospects developed into top-flight chindermen, but also from this group came a ready made star, Charlie Chambers, one of the greatest track men at N. C. State in many years.

Charlie is from Daytona Beach, Fla. where he participated in track and football at Daytona High School. He earned four letters in high school track, a letter in football and was captain of the track team for two years.

His record of 22.5 sec. for the 220 yard dash in high school still stands at Daytona High. Besides running the 100 yard dash, the 220 yard dash, the low hurdles and the high hurdles, he also ran the half-mile and quarter-mile in high school. On several occasions, he even participated in some of the field events and placed, too!

Charlie finished high school at mid-term of his senior year and immediately enlisted in the Navy. He spent the next twenty-four months in the Navy, part of this time as a Naval Aviation Trainee in the V-5 Preflight Program at Chapel Hill. While at Chapel Hill he entered several of the inter-battalion track meets, setting the record in the low hurdles.

Last January, Charlie entered N. C. State to take Industrial Engineering and is now completing his second term.

When the call for track entrants was given, Charlie reported to Coach Hines for a position on the team. Little did coach Hines realize the star that Charlie Chambers was.

In the four meets that N. C. State entered, Charlie racked up a total of 56 points, high for the season, which is an average of 14 points per meet; a top spot on any

ing moundman. Getting off to a good four run star in the first stanza, Sigma Pi went on to defeat S.P.E., 8-2. Keziah was the winner while Castleberry suffered S.P.E.'s defeat.

team. In the regular season competition, Charlie was undefeated in the 220-yard dash, the low hurdles and the high hurdles. He didn't run against South Carolina in the low hurdles or the high hurdles; or against Davidson in the high hurdles, though.

Ratlift, the South Carolina track star, was defeated by Chambers in the high and low hurdles in the Southern Conference trials held at Chapel Hill last week. Because of an injury on the high hurdles, Charlie was only able to place third in the 220-yard dash and fourth in the low hurdles. He scored only 5 1/2 points in the meet because of this injury.

Charlie has three more years eligibility on the varsity track team and next year he'll be the one man from N. C. State out to defeat South Carolina's great Ratlift.

Welch And PiKA Take Honors In Track Meet

The PIKA's walked away with the fraternity track meet last Tuesday as they scored 36 points with 17 points. Welch lead the dormitory race as they out-pointed Lower Becton 31 1/2 to 21 1/2.

Welch took three first and two second places in scoring their points while the PIKA's gathered five firsts out of the possible eight. The PIKA's placed in every event except the broad jump while the Welch squad placed in all but two events.

State Beats Duke For League Championship

18-Inning Thriller Is Lost To Carolina

Last Saturday afternoon saw State and Carolina play one of the longest baseball games ever played at Devereaux Meadows, when the Tar Heels chalked up a 8-5 victory over the Terrors after an 18-inning struggle.

Johnny Hearn's error in the last of the ninth with two out gave State the tying tally and sent the game to a nine-inning addition. Curt Ramsey, State's undefeatable slabster, went 16 frames for the Terrors, and in the seventeenth, gave way to Ernie Johnson, who was charged with the loss. Vinny DiLorenzo gave way to Hamp Coleman in the twelfth, and Coleman received credit for the win. This was Johnson's first loss of the season with two wins to his credit.

Coch Vic Sorrell announced that the Terrors were playing the game under protest after "Chick" Doak was called out for not announcing to the umpire when pinch-hitting for Josh Mewborn. When Doak was called out, there were two outs and Stanton was on first base. The official rule book states: "An umpire announced substitute batsman cannot be called on the theory that he is not the proper batsman." If State wins the protest, the game will be completed, beginning with Doak coming to bat. Some have questioned the right of a college team to protest a game, since there is no higher authority to go to. In that case, the decision of the umpire on the playing field would be the final decision. In any event, the umpire has made a mistake.

In the top of the eighteenth, the Tar Heels scored three more runs, and State was put down in short order to end the contest.

Ramsey sent 11 men down swinging, bringing his season total to 53. Hank Utley led the Terror's attack work with four safeties, while Gregory led the Tar Heels with the same number. Edwards and Gregory both got 3 hits. Both teams racked up a total of 15 hits.

Hits First Homer

Charlie Richkus, pictured above, played shortstop on this year's championship team that ended up their season with a 4-3 victory over the Blue Devils of Duke. Richkus connected for a 340 foot home run in the first inning and played his usual heads-up game on defense.

Tech Trackmen Cop 9 1-2 Points In Meet; Chamber Gets Hurt

Duke scored 76 points to win the Southern Conference track meet at Chapel Hill on Saturday, May 18. Doug Ausbon, speedy Duke cinderman, won the 220, the high and the broad jumps, and nosed out Chuck Simmons of Carolina for individual honors. State scored 9 1/2 points, VMI scored 20 points, South Carolina scored 19 1/2, and William and Mary, 15.

Andrews, of State, placed fourth in the shot put, and third in the 220. State came in fourth in the one-mile relay with 3:26.6.

The Blue Devils excelled in the field events, taking first places in the discus, broad jump, shot put, and high jump.

The summary:
Shot put — O'Leary, Duke, 47 feet, 6 inches; Lizana, W&M, 46 feet, 3 1/8 inches; Kuz, Maryland, 46 feet, 1/2 inch.
Javelin, Wenning, W&M, 173 feet, 6 inches; Simmons, N. Carolina, 169 feet, 8 inches; Buck, S. Carolina, 166 feet, 6 inches; Tandy, N. Carolina, 162 feet, 4 1/2 inches.
Mile—Burnham, N. Carolina; Downes-Duke; Kahoe, Maryland; Wilson, W&M, 4:26.7.
High jump—Ausbon, Duke, 5 feet 11; Totten, VMI, 5 feet 10 inches, tie between Holt, N. Carolina, Ward, N. Carolina; Morgan, Clemson; Waler, Maryland; Foote, S. Carolina, and Heggie, N. Carolina, 5 feet 8 inches.
440 — Matthews, Maryland; Neighborgall, Duke; Young, Duke; Simons, Duke, 49.6.
100—Chewning, VMI; Maxwell, Duke; Ausbon, Duke; Hutchinson, VMI, 10.4.
220 Hurdles—Simmons, N. Carolina; Ratliff, S. Carolina; Heggie, N. Carolina; Taylor, N. Carolina, 15:1.
Discus—O'Leary, Duke, 137 feet, 8 inches; Hutchinson, VMI; Lizana, W&M; Kozay, Maryland.
880—Neighborgall, Duke; Devlin, Maryland; Burnham, N. Carolina; Turner, N. Carolina, 2:00.7.
220—Ausbon, Duke; Maxwell, Duke, Chambers; State, Matthews, Maryland 28.6.
Broad jump—Ausbon, Duke, 22 feet, 9 7/8 inches; Simmons, N. Carolina, 21 feet 6 1/4 inches; Carnes, South Carolina, 21 feet, 5 inches; Terrell, N. Carolina, 21 feet 1 1/4 inches.
Two-mile—Tietien, N. Carolina; Lidell, VMI; Davis, Duke; Palmer, Duke, 10:02.2.
120 Hurdles—Simmons, N. Carolina; Ratliff, South Carolina; Scupine, Duke; Chambers, State, 24.7.
One-mile relay—Won by Duke Ausbon, Neighborgall, Simmons, Young; Second, Maryland; third, North Carolina; fourth, State, 3:26.6.
Pole vault—McLeod, N. Carolina, 12 feet, 8 inches, second, tie between Bowles, Duke, and Badgett, South Carolina, 12 feet, 4 inches; fourth, Hickman, N. Carolina, 12 feet.

Ramsey Pitches Techs To Great Victory Over Devils

Terrors Defeat Deacs For the Fourth Time

State's Red Terrors maintained their top position and gained a full game in the league race when they rallied for three runs in the eighth to defeat Wake Forest, 6-4 at Wake Forest Thursday afternoon. Ernie Johnson turned in his third win of the season as he scattered seven safeties throughout the contest.

Jimmy Wilson, who was a league leader in the swat work last year, headed the hitting list. He collected four hits for five trips to the plate, driving home three tallies.

Bobby Courts opened State's big eighth inning with a single to center. Mewborn was hit on the elbow, and Courts was thrown out on an attempted sacrifice by Johnson. Utley singled to left and scored Mewborn. Richkus fouled out and then Jimmy Wilson drove a long one over second for three bases and two more runs.

In the third, with one out Wilson tapped out a single past second, stole second and took third on a wild pitch by Catcher Williams. When Pearce balked, he crossed the plate for the first State run. Jimmy Edwards drove in the second run with a hit good for two bags.

The Terrors had men left on base in all except the sixth inning. The sacks were full in the first stanza, but State failed to score.

Red Cochrane was not in his usual position for Wake Forest yesterday due to an injured leg that he received in the Duke game on Wednesday.

Johnson and Courts got three each of the 13 hits for the Terrors. Pearce went eight innings on the Wake hill before he gave way to Skelding. Johnson was in complete charge of the game on the State side.

Big Four Standings

	W	L	Pct.
State	9	3	.750
Duke	6	4	.600
Wake Forest	4	8	.333
Carolina	3	7	.300

By C. A. DILLON

Our Hero

The ace of Coach Vic Sorrell's pitching staff, Curt Ramsey of Crumpler, W. Va., is shown above. "Big Curt" finished the season with a 4-3 triumph over Duke, which brought his season record to 6-0. Ramsey also pitched 16 out of 18 innings in the thriller against the Tar Heels.

The victory was the sixth for Ramsey in Big Four competition. He holds three victories over Wake Forest, two over Duke, and one over Carolina. He also is credited with State's 12-2 victory over Ohio University. His only setback was in his initial appearance on the mound for the Techs in March when the Michigan State Spartans beat him 4-2.

Lefty Lee Griffith pitched beautifully six hit ball for the Devils, but the hits came at the wrong time for him, and the two Duke errors cost him two of State's runs.

The Tech victory ended a very successful season for Coach Vic Sorrell in his first year as head baseball coach here at State.

The Terrors scored first in the opening frame when Charlie Richkus homered over the left field fence, but Grady Scott, husky Blue Devil left fielder, opened the Duke half of the second by smashed

Ironman

Bill Stanton of Rowland, N. C., was the ironman on this year's baseball squad as he played all the innings of the season. He was the only man to accomplish this feat.

ing Curt Ramsey's first pitch for a 350 foot homer to knot the count at 1-1.

State took the lead again in the fourth on some smart base running by Edwards and Gardner. With two outs, Gardner on first, and Edwards on second, and a 2-2 count on Bill Stanton at bat, Duke's catcher McCarthy caught Gardner off first. Gardner, realizing he couldn't beat the ball to first, headed for second, and while the Duke infield were relaying the ball in attempt to tag Gardner, Edwards scored all the way from second.

But Stott tied the game again in the sixth when he slammed another 350 foot homer over the left field fence.

The Terrors won the game in the seventh. With one out, Stanton doubled to left field and Ramsey walked. Owens hit a grounder to Frye at second who threw to Palmer covering second base to force Ramsey, but the throw to first to get Owens was low and got away from first baseman Mueser. Stanton scored. Then Stan Kohler doubled against the left field fence to score Owens with what proved to be the winning run.

Duke tallied once more in the eighth on doubles by Frye and Palmer.

Architect' Conception of New Dormitories

BUILDING EXPANSION PROGRAM

Several years ago a committee was appointed to study the needs in an expansive building program which would enable State College to enlarge its physical plant and teaching facilities and be better able to turn out more graduates in the technical professions. The study revealed that State College was graduating only one-half the number of people needed in these fields.

At that time the college was filled to capacity, as it is now, and it was still not meeting the needs of the state at large. The Committee on Building and Grounds went to work on a program which was designed to double the capacity of State College. The completed program was submitted to the Advisory Budget Commission in 1944.

This year the College will submit to the Commission the first phase of the expansion program, which will cover the immediate, vital needs of the institution. The dormitories now under construction are not included in this report, for they are set up under separate contract entered into by The North Carolina State College Foundation, the Wachovia Bank and Trust Company, and the Greater University of North Carolina. The first phase to be submitted will include the following items:

Mechanical Engineering and Steam Laboratory.

General Engineering Laboratories Building.

Boiler Plant Expansion (First phase).

Completion Steam and Utilities Tunnels.

Botany-Zoology Building.

Agronomy (Main Building, with four wings).

Agricultural Engineering Building.

Greenhouse (four).

Head House for Seven Greenhouses.

Completion of Armory-Coliseum.

Addition to Textile School.

Renovate Winston Hall.

Two Floors on Civil Engineering Building.

Railroad Underpass.

Repair Shops for Physical Plant.

Poultry Science Building.

Student Union, West Campus.

Additional Dormitories.

Student Union, East Campus.

Renovate Gymnasium.

Two Livestock Barns.

Equipment for Animal Industry Department.

The total cost of the first phase is estimated at about \$5,000,000. The second phase, which will be submitted to the Advisory Budget Commission in 1948, will cost about \$4,000,000.

The items listed herein are not in order of priority. Each item is considered a part of the vital needs, and for that reason, a priority list has not been arranged.

Shown above is an artist's conception of how the new dormitories will appear when completed. They are now under construction on a site located on the West Campus near Alexander and Burlington Halls. All of Burlington and a portion

of Alexander are shown at the left. The building in the center of the quadrangle is proposed as a Student Union Building, but no funds have yet been made available for its construction.

Shown above with Chancellor J. W. Harrelson, as he breaks ground for the construction of the new dormitories on the West Campus, are from left to right Mrs. Mary Beasley, Secretary of the

North Carolina State College Foundation; W. Z. Beitz, Director of the Foundation; Clyde Council, Director of the Foundation; and R. D. Beap, Executive Secretary of the Foundation.

"In There Pitchin'" For State College Is Alumni Association

By PHILLIP UPCHURCH DAVID R. SMITH

The progress of an educational institution similar to State College, may be compared with the growth of an animal. It is confronted with obstacles from the time it is young until it grows to maturity. The weak are done away with and only the aggressive and mentally alert reach maturity.

There is no institution of higher learning that can reach the self-satisfied place where it may rest in serene content. It can never afford to become complacently smug about its position, its influence, its accomplishments or its services to the people.

Certainly this is true of a state-supported institution such as our college. Our college is the technical branch of the educational system in North Carolina. It is responsible for the technical training of North Carolina youth. It is responsible to be made in the fields of technology. It has the stern responsibility, for which it must account to the people, of keeping the young men and women of North Carolina abreast of all other students. They must be abreast in their knowledge of the skills, methods, procedures and controls of scientific advancement in the fields of agriculture, textiles, engineering, forestry, and other basic systematized information.

In a supreme effort to make this college run smoother and more efficiently; the formation of the Alumni Association of N. C. State became an urgent necessity. This association is a brotherhood federation of all people who have attended State College, at one time or another.

The active membership of the Alumni Association is more than 3,100, whereas three years ago the total membership was less than 1,000. More than seventy organized clubs cover eighty-two counties in North Carolina. Four active clubs are maintained outside of the state. The administration of the Alumni consists of a president, two vice presidents, chairmen of the Executive Committee, fifteen members of the Executive Committee, five members of the Athletic Council, and two members of the Print Shop Committee.

The program of the Alumni As-

sociation is to do everything it can to increase the service and usefulness of N. C. State College to all citizens of North Carolina. Through this organization it has been possible for the alumni to maintain contact with former students, and to act as guardians of the college.

The relationship which is maintained between the alumni, the faculty, and the present students instills inspiration and spirit into every individual connected with State College. What the Alumni has done for State is enumerated in the following paragraphs:

a. Through the local clubs, the members of the General Assembly of North Carolina in late 1944 were told that an appropriation to State College is an investment in the economic development of North Carolina. The alumni told this story very well and the result was the best appropriation to State College in its history as well as increased personal donations.

b. The General Alumni Association, through its president and chairman of the Executive Committee, called on Governor Cherry in July, 1945, in regard to the housing situation. They estimated that we would have a very large number of students desiring to enroll by September, 1946, and suggested to Governor Cherry that the N. C. State College Foundation be authorized to borrow money from private sources with which to build dormitories. This matter was approved by the Council of State, the Board of Trustees, the Directors of the State College Foundation, and the Wachovia Bank and Trust Company. Bids were received on Friday, April 12, and the total exceeded one million dollars; therefore, it was necessary to secure an additional loan of one hundred

thousand dollars from the same bank. If money had not been borrowed from private sources, no provisions would have been made by the General Assembly until 1947 and dormitories probably would not have been ready for occupancy before September, 1948. Under present arrangements we expect dormitories to be ready by January, 1947.

c. The General Alumni Association has taken a very active part in trying to secure housing for married veterans. The Federal Public Housing Authority has promised to furnish 350 housing units to State College for married veterans.

d. The General Alumni Association has published a brochure entitled "Unfinished Business" and has mailed a copy to every member of the General Assembly and every member of the Board of Trustees together with a letter stating further the needs for buildings and equipment to be used in teaching and research. The total estimated cost of the building program to be provided by the 1947 General Assembly is five million dollars. The local clubs have been visited and they are enthusiastically helping to present our building needs to the members of the General Assembly.

e. Our request for our regular operating appropriations to be provided by the 1947 General Assembly will be presented to the members by the legislative committees of the local clubs.

f. The General Alumni Association sponsored and financed the expenses of establishing the N. C. State College Foundation. Since its incorporation on December 11, 1942, more than \$65,000 has been received in gifts from alumni and other interested friends.

g. The General Alumni Association has cooperated in helping to promote the progress of the other foundations to help make State College a greater institution.

h. The Alumni Association furnishes the names and addresses to student organizations for mailing lists. This service will be much improved soon because the Association will have the access to an addressograph.

i. Through its Alumni Speakers Bureau, the General Alumni Association has carried on a broad educational program through the local clubs.

j. The Memorial Tower had a debt of more than \$3,000 and the General Alumni Association has paid the entire debt and is encouraging gifts with which to complete the tower.

k. The Alumni Association is promoting gifts for a memorial to alumni who served their country in the armed forces in World War II. The building will be especially dedicated to those who lost their lives in service.

Recently the Association delved

into a new field of service, that of initiating student associate members. The main purpose of Student Associate Membership is to acquaint the students with the activities of the General Alumni Association and through the State College News help them to become more familiar with the Alumni. Student associate membership carries all the privileges of active membership except voting and holding offices in the General Alumni Association. It carries membership privileges in local State College Clubs.

COMMENCEMENT
(Continued from Page One)

grees conferred this year. Of these degrees; twenty will be in Agriculture, eight in Education, twenty-five in Textiles and forty-one in Engineering. The degrees given in the Engineering Department will be as follows: Aeronautical option in Mechanical, six; in Mechanical, thirteen; in Chemical, eleven; in Civil, five; in Electrical, three; and in Architectural, one. The first degree in the five-year curricula in Architecture will be given this year. There will be one degree in Bachelor of Science in General Engineering. There will also be thirteen advanced degrees given. Twelve of these will be to candidates of Master's degree and one will have a professional degree in Textiles.

This Commencement program will close Monday afternoon with Chancellor and Mrs. Harrelson entertaining the graduates and the retiring members of the faculty at their home.

1945-46 With the YMCA

By EDD ORR

In the fall of 1945, the Y started its twenty-seventh year of activities under the leadership of Mr. Ed S. King, the Y secretary. The load of student leadership was borne most efficiently by Earl "Pop" Bowen as President. This team, with the cooperation of many others, started out with Mr. King's red-inked letters and Pop's big grin backed with lots of personality and ability to reconvert from a war-time schedule to one of peace and one in accord with the needs of the new and returning State College students. Pop and his co-workers met the students as they arrived on the campus in the fall and helped them to readjust once more to school life routine. The "Y" with its usual facilities were also available for student use. The lobby with a good selection of magazines and newspapers was available, or one could just relax and listen to the radio or go in and play the piano. The struggle to keep the campus in touch with the outside world by means of telephone and telegraph was also carried on by the YMCA. By the tireless efforts of Mr. King, telephones were obtained for all dormitories except Fourth. Besides these features, some students found time for fun in the YMCA game room.

side of student life, the Y arranged parties at Meredith and Peace and also arranged to bring girls from all the girls schools here to appear on the Y programs. Rev. Newton J. Robinson and Mrs. J. T. Lynn appeared frequently to help brighten YMCA programs, and Mrs. C. G. Doak and Dean Cloyd both helped immeasurably to make Y programs better with their readings and the Dean's jokes.

During the first week in April, the YMCA had Mrs. Mildred Morgan here for a week-long "Short Course in Marriage," of which many students took advantage, and from which many profited.

To follow up the Short Course on Marriage, the Y sponsored an informal dance to which the entire student body was invited to come and dance with very nice delegations of girls from Peace and Meredith. The enthusiasm with which the dance was received was encouraging to the boys working in the Y to try ever harder to work with the student body to make better recreation available to all students.

In April, the Y joined with the Public Lectures Committee to sponsor the appearance of Dr. T. Z. Koo on the Campus, and in May, Dr. Frank Graham made his second appearance of the year on the Y program in which he discussed with students some of the problems facing the world today and some remedies for them.

November came, and in accordance with the policy of reconversion from war to peace, and getting back on a regular Y schedule, the Y elections were held for the first time since the fall of 1943. Ed Orr was elected President along with Leon Mann as Vice President; Doug House as secretary, and Earl Bowen as treasurer. The new officers were installed just before the Christmas holidays, and they started functioning under Mr. King's capable guidance in the winter quarter. The new cabinet soon started discussing plans of advancement for the YMCA and then proceeded to put them into action. Just before Christmas, the annual old clothes drives and collection for underprivileged children was held netting many clothes and money to make the Christmas of seventeen children much more happy.

May has proved to be a very busy month for the Y. On its annual tour, the first rate A Capella Choir from Guilford College stopped in Raleigh and sang to a full audience in Pullen Hall under the sponsorship of the College YMCA. On the week-end of May 11, N. C. State College YMCA was host to the spring retreat of collegiate YMCA's and YWCA's from all over the state. To help with the strain of increasing duties which came with increasing student body, the Y regained the services of Mr. N. B. Watts, self-help secretary in the YMCA, who served a tour of duty in the European theater. Mr. Watts has already started to work diligently on the State College YMCA Handbook which has not been published since 1943.

Religious Emphasis Week was observed in February with several local and out of town speakers including: Rev. Lee C. Sheppard, Rev. I. Harding Hughes, Rev. Ray Holder, former Assistant Dean of Students; Mr. Henry T. Ware, Southern Area Y Secretary; Mrs. Kay Ferrell, and Mr. William Foster, Y secretaries at UNC; and Dr. Frank P. Graham, President of UNC. A great addition to the Y came when Mr. Charles K. "Professor" McAdams joined the Y staff in February after a tour of duty with the army in the Pacific. Joining forces with Mr. King and the students under the leadership of Chester Fisher, he helped to push the World Student Service Fund to a thousand and fifteen dollars conclusion in late February.

Not wanting to neglect the social

With the excitement of Student Council elections coming on, the YMCA also found it is time for election of officers. In the recent election held in conjunction with Student Council primaries, Leon Mann was chosen as president of the YMCA for 1946-47, and served with him, Earl Bowen, Craig Stone, and Alton Wilson were chosen to serve as vice president, secretary, and treasurer respectively. With the new officers and the new opportunities that come with the new year, the YMCA looks forward to an even more prosperous year made possible through cooperation with other organizations and the continued generous contributions of time, money, and effort of State College students.

Model Airplane Enthusiasts Active; Students Take Top Prizes In Contest

By ANDY PATTON

State College model airplane enthusiasts and their midge aerodynamic creations succeeded in carrying off the majority of the prizes at a model airplane contest held recently at Devereaux Meadows under the sponsorship of the Civil Air Patrol. Filling the air with the whine of their tiny engines and the pungent smell of exhaust fumes, the entries from the campus turned in top-notch performances to take first honors in both the speed and aerobatic events, as well as secondary awards in some divisions.

D. C. May, a member of SPE, clocked a speed of 81.39 miles per hour to win the speed test. He also drew first prize in the aerobatic division. He was assisted by Bell H. Payne, also from State. Roger Bean was a runner-up in the aerobatic division. His assistant was W. D. Bell.

Several other less fortunate State College modelers participated in the contest while others were in the audience.

Interest in model building has shown an increase on this campus since the end of the war. During the war, this hobby was affected by shortages of materials and by the lack of participants. Now that materials are once more becoming available and model builders are being released from the armed forces, this sport shows signs of becoming more popular than ever before.

The only value of model building, however, is not its importance as a means of entertainment. It has done much to foster an active interest in both flying and aeronautical engineering. Now that pilotless aircraft are being constructed as weapons of war, the dividing line between models and full scale aircraft has become very thin. Recently, experiments have been conducted with a model jet engine that has proved quite successful. Actually, the notorious V-1 buzz-bomb was no more than a jet-propelled model airplane carrying an explosive load. It is to be hoped that these local modelers will develop something more constructive than bombs, but this does show how much importance can be attached to model building.

So far the pleasure derived from building and flying these little airplanes has been of primary importance to most of the fans, and the weightier problems of designing has taken a back seat. The long tedious process of building a model is enough to scare many people away from the hobby, but the increasing popularity of the sport would seem to prove that it has a great many merits.

Before the war, a model club was active on the campus. Frequent meetings and contests were held

A group of models that were entered in the recent contest at Devereaux Meadows.

D. C. May prepares his model for flight. This is the model that won the speed contest.

PATE RESIGNS

(Continued from Page One)

"I want to thank you for the fine service you have rendered the North Carolina State College during the years that you have been associated with the News Bureau and to thank you for your loyal and interested efforts to promote the good of this institution before the people of the State.

"I accept your resignation with regret because your loss will be deeply felt not only in this office but on the campus and in the newspaper offices of the state. I can only wish you continued success, however, and to say that I envy those with whom you will be associated in the future."

and the club served to arouse interest in model building. This organization died out during the war. At present there are enough modelers on the campus to reorganize the club, but so far this has not been done.

State College Is Represented at AIEE Meeting in Asheville

Nine students from the Electrical Engineering School here and five State College faculty members from that department attended the Southern District Meeting and Student Branch Convention of the American Institute of Electrical Engineers in Asheville last week. The scene of the three-day affair was the beautiful Grove Park Inn at Asheville. The convention was held on May 14-16 and was attended by approximately 111 students in addition to the many faculty representatives attending the Southern District Meeting of AIEE.

Members of the State College faculty attending were Dean J. H. Lampe, Dr. C. G. Brennecke, E. W. Winkler, L. W. Keever, and W. S. Carley. Dean Lampe served as chairman of the Attendance and Publicity Committee.

The meetings included several technical sessions, readings of student papers, open sessions, and inspection trips to industrial plants in the vicinity of Asheville. The plants visited included the Ecusta Paper Corporation, Glenville Hydro Plant, Clifford Steam Plant, and the American Enka Corporation. Subjects discussed at the technical meetings included the different viewpoints on the Electrical Engineering industry as seen by the manufacturer, design engineer, etc.

Discussions were also held on electric utility, electronic heating in textile manufacturing, design engineering, prices and wages, and the responsibility of AIEE to high schools. Further forums were held on the Maintenance of rectifiers in Electrochemical Installations, Industrial Power of Distribution, Lightning Protection for Industrial Plants, and Factors Affecting the Range of Radar Sets.

The student program was equally interesting. Around eighteen branches of AIEE from as many engineering schools in the Southern Region were represented. Student branches are located in the Universities of Alabama, Florida, Kentucky, Louisville, South Carolina, Tennessee, Tulane, Vanderbilt, and Virginia; Alabama Polytechnic Institute, Clemson, Duke, Georgia State, V.M.I., and Virginia Polytechnic Institute.

Campus Publications Have Made Good Comeback In First Post-War Year

Publications on the State College campus have renewed their war-suspended activities with increased strength and vigor during the past school year. College publications are extremely important in that they are largely responsible for molding public opinion among the students on that campus. Here is a brief review of the progress of the most important publications at this college.

Agromeck

This week (we hope) the students of State College will receive their 1946 Agromeck — an Agromeck which has all the earmarks of being bigger and better than any since 1943. The "we hope" was added in the last sentence because of the fact that during the last two years the Agromeck was not delivered to the students until the summer session.

The 1946 Agromeck will have approximately 350 pages and will have the pictures of 1600 students. In addition to the regular class pictures, nearly all organizations will be represented and about 300 snapshots of college activities (girls, girls, girls!) will be liberally sprinkled throughout. Many other innovations will appear.

Full color photographs will head each section. The cover will be hard instead of stuffed as has been the custom. Two of the biggest and most noticeable changes are the different arrangement of the sections and the use of a different kind of type for heads and for write-ups. The first section of the book is the faculty, next come the publications, then the classes, then sponsors, organizations, fraternities, R.O.T.C., athletics, and annotations in approximate order named. The "Annotations" section is a new one and will attempt to portray in retrospect the different phases of college life.

The Agriculturist

At an Ag Club meeting early last term it was decided that the publication of The Agriculturist should be resumed. Dennis Loftin and Fred Wagoner, both returning veterans, were elected editor and business manager.

The first issue made its appearance in March and another issue is expected off the press very soon. In the past the magazine came out six times a year—twice each term. This year, due largely to the shortages of finances, it was deemed necessary to limit the publication to two issues.

Fifteen hundred copies of each issue are printed. These are distributed on the campus to students of Agriculture, the Ag faculty, and extension and research workers, and are mailed to the parents of the Juniors and Seniors in Agriculture and the Ag teachers and

Reserve Officers To Hold Meeting

Reserve Officers of Raleigh and Wake County will hold a meeting in the Superior Court Room at the Wake County Court House next Wednesday, May 29, at 8:00 p.m. to discuss affairs affecting the ORC and to reactivate the Raleigh Chapter. All members of the Officers Reserve Corps are urged to attend and get acquainted with the officers in charge of reserve affairs in the State.

Forestry Honorary Frat Reactivates

Xi Sigma Pi, national forestry honor fraternity, was reactivated on May 17 at a meeting of active members now on the campus. Officers for the current year were elected as follows: President, W. Campbell; Vice President, C. M. Hartscock; Secretary-fiscal agent, Austin Pruitt.

The North Carolina State Chapter of Xi Sigma Pi was first installed at State College in 1940.

Drummer to Present Concert and Dance On Saturday, June 1

In bigtime baseball they call Charlie Gehring, the 2nd baseman of the Detroit Tigers, "the ballplayer's ballplayer" which means that his playing is respected by his team-mates and those against whom he plays alike. In popular music Ray McKinley, the singing and drumming personality, who brings his orchestra to the Raleigh Little Theater for a concert on Saturday afternoon and to Frank Thompson Gymnasium for the final dance set Saturday night, holds a similar position of honor among his fellow musicians. They consider him just about "tops" in his field and the best all-around skinbeater in the Southeast. Whenever any musical trade papers' popularity contests you'll always find McKinley's name right up front, along with the spectacular Gene Krupa, but Krupa himself is one of Ray's biggest boosters. Gene said that the only time he gets nervous is when he sees McKinley drumming on that record and before very long the fans were all clamoring for him whenever the band played.

Following the Dorsey stay, McKinley was a co-partner with Will Bradley in an orchestral venture that clicked with such tunes as "Beat Me Daddy, Eight to the Bar," "Scrub Me Mama, With a Boogie Beat" and others. When Will Bradley decided to retire, Ray formed his own band and was rising rapidly until the war. Mac was assigned to the Glenn Miller Army Air Force Band, later became its leader when Major Miller was lost in an airplane crash.

RAY MCKINLEY

groups and then joined Smith Ballew where he again ran into a trombone player named Glenn Miller. When the Dorsey Brothers were forming their first band in 1933 Miller recommended "the kid" and so McKinley went to work for the brothers. Ray stayed with Jimmy Dorsey's band for several years, playing the Bing Crosby radio program from California for over a year, and he first caused a sensation among swing fans on the Dorsey record of "Dusk in Upper San-dusky." It was all McKinley's drumming on that record and before very long the fans were all clamoring for him whenever the band played.

Following the Dorsey stay, McKinley was a co-partner with Will Bradley in an orchestral venture that clicked with such tunes as "Beat Me Daddy, Eight to the Bar," "Scrub Me Mama, With a Boogie Beat" and others. When Will Bradley decided to retire, Ray formed his own band and was rising rapidly until the war. Mac was assigned to the Glenn Miller Army Air Force Band, later became its leader when Major Miller was lost in an airplane crash.

CAMPUS GOVERNMENT

(Continued on Page 2)

Members of the 1945-46, a word of thanks and appreciation is in order. Some have worked harder and more effectively than others to advance the welfare of the college dear to the hearts of all of us, but to a man there has been, and will ever be, an abiding concern for the progress and usefulness of our alma mater. The training in the democratic process that has come through this experience will be of genuine value as a supplement to technological education. The positive contributions made to the evolving life of State College as it serves the people of the state and nation will live through the years as a monument to student integrity, courage, and unfolding ability.

Pi Tau Sigma, National Honorary Mechanical Engineering Fraternity, recently selected these men to become members. Initiates are selected on the basis of scholarship, leadership and general participation in student activities.

Veterans Co-Op Grocery Store

The Veterans "Co-op" store is progressing extremely well. Favorable contacts with local wholesalers have been made and the details of buying are now in the process of being worked out. A tentative plan for organization and management has been made and is briefly explained as follows: Any veteran, whether he is a member of the student body or faculty, is eligible to purchase a \$25.00 share. The share is repaid upon request in full after four months of actual operation of the store. Dividends will be paid at the end of each school term on the basis of the operation of the store.

Membership cards will be issued to each member and only upon presentation of such a card will groceries be sold. Scarce items will be rationed and only until everyone has had his allotment will additional sales of that item be made. When the "Co-op" store is complete in all its details there will be found meat, canned goods, produce and numerous other items. Shares are not on sale at this time but anyone who is interested in becoming a member must fill out an information card at 104 Peele Hall. There must be at least 50 subscribers for shares before the organization can be completed. The salary for the manager has not yet been determined, but anyone interested in undertaking that responsibility will leave his name and record of experience at 104 Peele Hall.

Van Note Appointed Head Of Engineering Research

Dr. William C. Van Note has been appointed as director of engineering research in the School of Engineering at State College effective on July 1, it was announced yesterday by Dean J. M. Lampe, head of the College's School of Engineering.

The new director has served as assistant head of the Engineering Research Division for the past two years. During that time, he also has been professor of metallurgy in the College's Department of Mechanical Engineering.

Dr. Van Note is the first man to be appointed to the position since the appointment of the late Prof. Harry Tucker, who was granted a leave from Public Utilities Commission. Since that date, the division has been under the direction of the office of the Dean of Engineering. Dean Lampe has held the directorship since he entered upon his duties at State College last April.

The Engineering Research Division is a part of the School of Engineering and is under the administration of the Dean.

In announcing the promotion of Dr. Van Note to full responsibility in handling the far-reaching research projects in engineering, Dean Lampe also announced his intention to broaden the experimental work in engineering in a concerted effort to foster industrial development in the State and to extend the results of the research to a larger number of the citizens of North Carolina.

In reviewing past accomplishments and in outlining the future work of the division, Dean Lampe said:

"The Engineering Research Division during the past year has increased its services in many ways and will continue at an increased tempo to carry out development and investigational projects of interest to the industries, various departments of the State Government, and the people of North Carolina. It is intended that the research projects and engineering services be, as far as possible, coordinated with the engineering graduate program of the Engineering School.

"It is believed that both applied and pure research projects, as well as engineering services, carried out by the Engineering Research Division under the direction of Dr. Van Note, will make increasing substantial contributions to the industrial development and economic welfare of the State.

Research Head

DR. W. G. VAN NOTE.

"During the war period, the activities of the Engineering Research Division were limited except for research sponsored by the U. S. Government. Major work in ceramics was done under this sponsorship. For the past year, the Division has operated on a more extensive basis than at any earlier period in its history, and plans for further immediate extension of its services are under way.

"The Engineering Research Division has been in continuous existence since its inception in 1923, and through its agency many studies have been conducted by the faculty in various engineering fields. As a result of this work, the Research Division has published over thirty bulletins, ranging in topic from the use of trees from North Carolina forests for electrical line poles to the investment opportunities of North Carolina minerals. There is a continuous demand for these bulletins, and requests have recently come from Europe, India, Central and South America. One Italian university has asked for a complete set to aid them in restoring their technical library, which was totally destroyed by the war.

"The function of the Engineering Research Division is to serve the industry of the State through studies involving the physical resources of North Carolina and the proffering of technical assistance to operating industry. The Division will also support researchers in the pure sciences.

Legion Post Installs Next Year's Officers

At its regular meeting Tuesday night N. C. State Post No. 293 of the American Legion elected officers for the coming year. The new officers are: Post Commander, William R. Parks; First Vice Commander, Curtis L. Ramsey; Second Vice Commander, Ernest Durham; Post Adjutant, Grady W. Bartlett; Post Chaplain, A. L. Finkler; Finance Officer, Clement L. Chambers; Sergeant-at-Arms, Walter G. Ruple, Jr.; and Post Historian, William McGehee.

The Post members named W. R. Parks and G. W. Bartlett as delegates to the State Convention to be held in Winston-Salem next month.

N. C. State Post has one of many college posts that have been organized recently and is the first such post in North Carolina. The Post was organized last month with a Charter Membership of approximately forty members. Since that time this number has grown steadily. All veterans are cordially invited to share in the services and associations of the Post while here in school. The Post will continue to be active through the Summer and plans are being made for a wide range of activities of interest.

N. C. State Post promises to be one of the most active organizations on the campus.

The Post meets regularly on the first and third Tuesday nights of each month.

"Formerly, these activities have been carried out exclusively by the engineering faculty. While the continuation of such faculty activity is anticipated, a separate research staff of the Engineering Research Division is being assembled, and its members will devote their full time to the promotion of the Research Division's investigations and growth. The laboratory and offices are being moved to a new and well equipped building on the campus."

Dr. Van Note came to State College from the University of Vermont in 1933, when he joined the Department of Chemical Engineering. Aside from three years while on leave for further study, he served in that department until 1942, when he joined the Department of Mechanical Engineering to be in charge of the work in metallurgy.

He holds degrees from Rensselaer Polytechnic Institute, the University of Vermont, and the Pennsylvania State College and has also studied at the Carnegie Institute of Technology and McGill University. He is a member of Sigma Xi, Phi Lambda Upsilon and Delta Phi, the American Society for Metals, the American Institute of Mining and Metallurgical Engi-

10 Men Are Initiated Into Tau Beta Pi

On May 10 the following engineering students were initiated into the Alpha Chapter of North Carolina of Tau Beta Pi: Vernon M. Barnes, Wilson, N. C.; William M. Bland, Portsmouth, Va.; Claude T. Burkhead, Candor, N. C.; John R. Fessenden, Raleigh, N. C.; Robert W. Holtzclaw, Canton, N. C.; Robert S. Houston, Monroe, N. C.; Roy F. Kendrick, Shelby, N. C.; Ralph G. Knight, Roanoke Rapids, N. C.; Joseph R. Stephens, Raleigh, N. C.; and James R. Turbeville, Atlanta, Ga.

Tau Beta Pi is a national honorary fraternity open to all juniors and seniors in engineering. The State College Chapter, which was founded in 1922, was the first chapter in North Carolina.

Initiations into Tau Beta Pi is the highest honor that can be bestowed upon an undergraduate engineer. Each candidate, in addition to his high scholarship, is judged on character, leadership, adaptability, and personality.

A banquet honoring the initiates was given at the Woman's Club on Friday, May 17. Many faculty members and their wives were present. Ed Mahoney livened the proceedings as Toast Master. A very interesting address on the Social Obligations of the Engineering Profession was given by Dr. C. G. Brennecke, head of the Electrical Engineering Department. Dr. Brennecke pointed out that the increasing complexity of modern living is placing more and more responsibility on the engineer.

Officers for the coming year were elected after the initiation. They are: President, Stephen G. Wilber, Jr., Charlotte, N. C.; Vice President, David H. Cichal, Canton, N. C.; Recording Secretary, Vernon M. Barnes, Wilson, N. C.; Corresponding Secretary, Claude I. Burkhead, Candor, N. C.

neers, and the Society for the Promotion of Engineering Education, as well as several state and local technical societies.

For the past two summers, Dr. Van Note was employed in the Research Laboratory of the General Electric Company in Schenectady, New York. He is the author of several technical papers and has been consistently and actively interested in the professional development and the growth of the college.

Dr. Van Note married the former Rachel Poling of New York, and they have two children. He is a member and Sunday School Superintendent of the United Church and a member of the Ravenscroft School Board.

Baptists From State, Carolina In Session

By DICK DUNCAN

Saturday afternoon, May 10, nine members of the State College Baptist Student Union Council journeyed to Crab Tree Park, where they met sixteen members of the Carolina Council, including four co-eds, for a week-end planning session. Mr. Bob Lasater, prospective Baptist student secretary for State, and Mr. J. C. Herrin, Baptist student secretary for the Carolina Council, accompanied the group.

After the council members had become acquainted with one another, several of them decided to go swimming in the nearby lake. The most picturesque swimmer was Tommy Garrison, president of the State B.S.U., adorned in his layd's bathing cap. The swimmers found it necessary to exercise self-control during the picnic supper which followed.

The evening program began with several group entertainments. A play was given by members from both councils. This was followed by an amusing article read by Mr. Herrin giving the report of the Recording Angel on the activities of a business man. A song fest concluded the evening program.

Sunday morning a Sunrise Service was held somewhat after sunrise. Mr. J. C. Herrin provided the morning thought. Breakfast was prepared under the able direction of chief cook Garrison, using mass-production methods. As yet, no cases of indigestion have been reported!

After breakfast the group convened for a discussion on the topic of "What Our B.S.U. Needs." Concluding a lively hour and a half discussion, the group gathered outdoors for a worship service, at which the message was presented by Mr. Bob Lasater. Following this service, several of the group went swimming before dinner.

The dinner was imported from Chapel Hill and proved to be quite gratifying after a hearty swim. At the afternoon meeting the theme for discussion, a continuation of the morning topic, was "How We Shall Meet These Needs." The planning session ended with this discussion.

All of those attending this meeting agreed that they had greatly benefited from the many suggestions and ideas that had been offered by both councils for future B.S.U. activities. The State College B.S.U., having been inactive for the past two war years, is planning for a banner year next year, especially since Mr. Bob Lasater will be our first full-time Baptist student secretary.

PERFECT FORM! Dan Leonard, American Red Cross water safety instructor, is telling an Aquatic School student that form is essential to diving. The eyes say she has it! This summer a Southerner will have the opportunity to attend one of five National Red Cross Aquatic Schools: Pine Mountain State Park, Chipley, Ga., June 18-27; Northwestern State College, Natchitoches, La., June 3-13; Camp Carolina, Brevard, N. C., June 8-13 and Aug. 19-29; and the Negro Aquatic School at Tennessee A. & I. State College, Nashville, June 17-27. For information on enrollment, see your local Red Cross chapter.

Bostian Named Head Of Sigma Xi Society

Dr. C. H. Bostian, a member of the faculty of the School of Agriculture, was installed as president of the College Chapter of the Society of the Sigma Xi, America's highest honor society in the general sciences, at a dinner meeting of the organization here last night.

Other officers installed at the meeting were Dr. J. H. Jensen, vice president; Dr. J. L. Etchells, treasurer; Dr. T. Kerr, secretary; and Dr. Alton Reid and Dr. D. B. Anderson, members of the Executive Committee.

Brief addresses were made by President Frank P. Graham of the Greater University of North Carolina and by Chancellor J. W. Harrison of State College.

The following faculty members were elected to full membership and were initiated at the meeting: Dr. J. E. Foster of the Department of Animal Industry; Prof. H. C. Gauger of the Department of Poultry; Proff E. B. Grover of the School of Textiles; T. T. Hebert of the Department of Botany; Dr. W. W. Kreigle of the Department of Ceramic Engineering; D. D. Mason of the Department of Agronomy; Dr. F. T. Peirce of the School of Textiles; and Prof. C. F. Williams of the Department of Horticulture.

The chapter also elected to associate membership the following graduate students:

M. K. Berkut of the Department of Chemistry; D. S. Chambliss of the Department of Agronomy; R. S. Cox of the Department of Botany; and A. Kellman of the Department of Botany.

Congratulations Class of 1946!
