

Campus Is Decorated To Welcome Alumni

Dormitories to Hold Open House Saturday; Blue Key is Sponsor

By G. P. FOREHAND
State College, under the sponsorship of the BLUE KEY, has a full weekend in store for all the Alumni who can get back to the campus for the weekend.

Among the main features on the program, will be the Stunt Night, Planner

DOUG HOUSE

which is being held in Pullen Hall tonight at 8:00 o'clock. At present, all of the school's fraternities and one dormitory are scheduled to present stunts. There is a swell hour of entertainment in store for all who attend, for according to reports received all the contestants are out to win one or all of the three prizes offered. The prizes will be awarded for the most humorous stunt, the most original stunt, and the best presented stunt.

Campus Decorated
Upon arriving on the campus, the Alumni will find many elaborate decorations. These decorations are being put up to show the alumni that the State students extend them a hearty welcome back to their Alma Mater.

The Student Government has given \$100 to be used in decorating the dormitories for this weekend. The fraternities will be decorated elaborately, for all the fraternities are making it a point to be awarded trophy that will be awarded for the best decorated fraternity house.

Civilians Give Liberally
The Raleigh Civilians Club has given liberally toward making this weekend a big success. The Civilians will present to the best decorated fraternity a beautiful trophy. The dormitory that is judged to have the best decorations, will be awarded two footballs and other athletic equipment. One of these footballs is given by the Raleigh Civilians Club and the other by Johnson & Lambie Sporting Goods Co.

The Raleigh merchants are also doing their part to make the homecoming a gala affair. Most of the city's merchants are decorating their store windows to offer the Alumni a welcome back to Raleigh. The Raleigh Civilians Club also is arranging to have two large banners reading "Welcome Alumni" over the two entrances to the campus.

Dormitories Hold Open House
It has been announced by Mr. Doug House, Chief Dormitory Assistant, that an open house of all dormitories will be held Saturday, November 16 between the hours of 4:30 and 6:00. This means that the students may bring their parents and friends into the dormitories during these hours. It is expected that all the students living in the dormitories will cooperate with these plans and will conduct themselves accordingly.

Blue Key Plans Homecoming
A large part of the credit for making this weekend a success must go to the BLUE KEY. This organization has put a lot of time and effort into the plans for this homecoming and we feel that their efforts will show in the fine results of the homecoming. The following committees from the BLUE KEY (Continued on Page 6)

Homecoming Festivities Begin Tonight With Broadcast Pep Rally

This weekend will be the biggest one on the campus this year, for it is this weekend that the students of State College welcome the Alumni back to the campus.

The pep rally will be broadcast over WRAL starting at 7:00 o'clock. Mr. Ray Reeves, well-known sports announcer for the Tobacco Network, will act as master of ceremonies. Mr. Reeves will interview several very important guests at the pep rally. Among those being interviewed will be Mr. Gus Tebell, who was coach of the 1927 Wolfpack. State College students will be interested in Mr.

Tebell's opinion of Saturday's games, for Mr. Tebell was the coach of the Wolfpack's last championship team. Our own coach, Mr. Beattie Feathers, will also be heard from during the pep rally. The State College Cheer Leaders and band will be on hand to lend their support to the pep rally. Song sheets will be passed out, so that all the students will have the chance to learn all the songs

and yell before the big game tomorrow. It is hoped that all the students that can possibly get out for the rally will attend, for we want to show the Alumni that the spirit of State College, which they helped to build, is not dead.

After the pep rally, a stunt night program will be held in Pullen Hall, and it is hoped that all students will go up to Pullen Hall and lend their support to the stunt night. The complete program for the homecoming weekend is as follows:

Saturday, November 16
9:00-1:00 — Alumni Registration in YMCA.
11:30-1:00 — Luncheon for Alumni in Southeast Cafeteria.
2:00-4:30 — STATE-Virginia Football game.
4:30-6:00 — Open house in Dormitories and Fraternity Houses.
9:00-12:00 — Homecoming Dance in Frank Thompson Gym.

THE TECHNICIAN

of NORTH CAROLINA STATE COLLEGE

Vol. XXVII, No. 8

STATE COLLEGE STATION, RALEIGH, N. C., NOVEMBER 15, 1946

Offices: 10 and 11 Tompkins Hall

Public Lectures Committee Announces New Program

After a period of inactivity, the public lectures' committee has announced an interesting program for the next two terms.

Heading the list of top-notch speakers, writers, actors, and magicians is Mr. Lennox Robinson, eminent Irish playwright and director of the Abbey Players of Dublin. Mr. Robinson is a guest of the Carolina Playmakers at the present time. Among his plays, the best known are "The White Headed Boy," "The Far Off Hills," "Church Street," and many others.

The fraternity of Sigma Xi, nationally known scientific organization is sponsoring a series of lectures by group men who are leaders in their field of work.

The lecture program will include A. H. Sturtevant, Professor of Genetics at California Institute of Technology, who will speak on "The Evolution and Functions of Genes"; and Raymond Cox, American's Ace Magician, the title being conferred him at the National Convention of American magicians. Mr. Cox is the author of several books on magic; Charles E. Kellogg, chief, Division of Soil Survey and Head Soil Scientist, U. S. D. A.; the subject of lectures is "Monocots"; C. G. A. Rosby, professor of Meteorology, University of Chicago, and assistant chief for research, U. S. Weather Bureau. Dr. Rosby's topic will be on new developments in the field of meteorology; Arthur M. Hanning, P. D. president of the University of Arkansas; internationally known scientist who has done much to popularize Astronomy. His lecture will be illustrated and entitled "Glimpses of Other Worlds."

In addition to the foregoing program, a series of motion pictures will be offered from time to time. The first of these have already been shown and future dates will be announced in THE TECHNICIAN.

The Public Lectures Committee has as its members the following faculty representatives: L. R. Hinkle, chairman, L. C. Armstrong, L. D. Baver, R. C. Bullock, E. B. Grover, E. G. Hofer, Romeo Lefort, E. S. King, C. D. Kutschinski, L. C. Hartley, Charles Daniels, W. J. Peterson, G. H. Satterfield, G. Wallace Smith, B. W. Wells, and J. W. Patton.

Student members of the lectures committee are Jack Fiesler, Ezra L. Howell, Richard W. Kenison, Leon A. Mann, Merlin A. Meares, C. E. Schreyer, Donald B. Stillwell, and Fred H. Wagoner.

Correct Addresses

Complaints are still being made that some of the off-campus students are not receiving their copies of THE TECHNICIAN. These students must come to THE TECHNICIAN office in the southeast corner of the basement of Tompkins Hall on Tuesday or Wednesday night and leave their correct addresses.

Wins Contest

FRED WAGONER.

Fred Wagoner of Gibsonville, president of the North Carolina State College student body and a hard-hitting tackle on the football team, has been awarded first place in the College's 1946 essay contest sponsored by Swift and Company, it was announced today by R. H. Ruffner, State College professor of animal husbandry and dairying.

Wagoner, whose essay was entitled "Marketing of Meats, Poultry, Eggs, Butter and Cheese by Meat Packers," will receive an expense-paid trip to Chicago to attend the International Livestock Exposition, ending December 7, and to participate in a market study program to be held by Swift and Company, December 8-11. Wagoner won over 17 other entrants from State College.

The Swift contest was open to all agricultural students enrolled in state agricultural colleges. Each college participating will send a representative to Chicago.

Wagoner, also a member of the top State College meat judging team, will leave for Chicago on December 6. He will be accompanied by Mrs. Wagoner.

What's This? Girls!!

Well, this is it, boys!! Ninety, yes 90, of those beautiful, lovely creatures from our sister institution, W. C., are on their way to State College! TECHNICAL Editor Jack Fiesler in a telephone conversation with Betty Sutton, Editor of the W. C. CAROLINIAN, learned Tuesday that a total of at least 90 girls would invade the campus for the Homecoming celebration tomorrow.

These lovely fugitives from Saddle Hawkins Day will arrive by bus Saturday around noon from Greensboro. Seats for the game have already been reserved but it is hoped that the girls may be seated in our cheering section.

The YMCA is preparing a date bureau for any Wolf-man who would like to play host to our beloved "sisters." First come, first served. Leave name, credentials, references and C-number at the "Y" desk!

Chemical Engineers Hear Talk by Lampe

The meeting of the Student Chapter of the American Institute of Chemical Engineers on November 5 featured an address by Dean Lampe of the School of Engineering. He told the group that while State College has many fine traditions to meet, it must never cease to look to the future. He then told of the plans the school has for the Chemical Engineering Department.

The present building program calls for an engineering laboratory building, one wing of which will be occupied by the Chemical Engineering Department. Here, there will be ample room for undergraduate, graduate and research work.

Dean Lampe said that the department hopes to soon be accredited, and toward this end the curriculum is being revised. Some specialized courses are being dropped or revised while several courses in the humanities are to be added. A fifth year is being planned for those interested in research or teaching.

The chapter also elected five more members to the Engineer's Society. The three voting members elected were R. M. Jones, Ed Cole, and Henry Chestnut.

Homecoming Dance Climaxes Gala Weekend At N. C. State

To Be Honored at Dance

JACK McDOWELL

N. B. NICHOLSON

Herb Gupton, Band Featured in Affair

Final preparations are complete for the Homecoming Dance Saturday night in Frank Thompson gymnasium, according to Chick Doak, president of the Monogram Club. The honorary guests this year will be the members and coaches of the 1927 Wolfpack team that won the Southern Conference football championship. Sharing the spotlight will be this year's State and Virginia football squads.

The dance, which is sponsored by the Monogram Club, is expected to be one of the main highlights of the Homecoming week-end. Starting time will be 9 o'clock and Doak stated that a sell-out was anticipated. In revealing preparations, he also stated that the gymnasium will be decorated in a "most unique" manner.

Herb Gupton and his orchestra will play for the dance, which will be semi-formal. Gupton will be remembered for his fine performance at the auditorium during the summer. Plans have been made for one of the surprises of the evening to be centered around the orchestra.

One of the events on the program will be the introduction of the new members of the Monogram Club. The members of the 1927 squad present will also be introduced, along with the coaches. Among those expected to be present are Gus Tebell, coach of the '27, Doc Sermon who acted as an aide to Tebell, and such players as Jack McDowell and Butch Slaughter. It is also expected that a large group of alumni will attend, some from as far as Illinois and Alabama.

Tickets for the dance will be on sale at the ticket office on the east side of the stadium until 3 o'clock this afternoon.

New System of Serving Announced By Cafeteria

By GENE ENGLISH

Beginning Monday, November 18, a new system of serving will be tried in the State College Cafeteria. The purpose of the new system will be to save the customer time, both in the serving line and at the cash register.

The new system will be tried out on the south line on the west line on the west side (right line in the rear), and will include dinner and supper every day except Saturday evenings and Sundays.

Offers Fixed Menu

The new system offers a fixed menu at fixed prices. The prices are fixed at fifty cents for dinner and fifty-five cents for supper. There will be no substitutions given unless a food gives out near the close of a meal period due to a greater number of people eating that meal than was estimated. In

this case, a food equally as good will be substituted.

There will be copies of the following day's menu posted each day on the bulletin boards on either side of the cafeteria. This will enable a person to decide ahead of time whether he will eat a plate lunch, and therefore save time running around finding what is to be served for that particular meal.

A balanced diet will be offered at all times. The following menu will be offered Monday, November 18:

Dinner—50c
Beef Steak
Creamed Potatoes
String Beans
Rolls
Pie
Milk, Coffee or Juice
Supper—55c
Meat Loaf
Creamed Potatoes
Stewed Tomatoes
Rolls
Cake and Ice Cream
Milk, Coffee or Juice

If this system of feeding proves satisfactory to all concerned, it will possibly be expanded to both lines on the west side.

Helpers Wanted

The Raleigh Little Theatre invites any and all interested State students who like working backstage in pleasant surroundings to help build sets, electrical work, make public lighting, and many other varied activities to get in touch with Melvin Pape or Roger Hoffman at the Little Theatre.

CAUTION !!!

The Court of the Campus Government on October 17, 1946 found three students guilty of dishonesty on an examination and applied the penalty of one term suspension in the case of two of the defendants and one year probation in the case of the third.

Wanta' Know Sumpin'?

Professor Quiz Is Coming To State College Thursday

By LOIS MADDEN

"One, the only, the original Professor Quiz" will be at State College November 19, with a quiz for college students at 8:30 in Pullen Hall.

In keeping with his usual custom, lavish gifts will be awarded those who are fortunate enough to answer the questions correctly. Since the Professor expects his audience to be composed of high I.Q. college students, the queries will be more difficult than those designed for the average American public.

Professor Quiz himself is a bit of a character. Before he became famous as the leader of a trend in radio shows he walked a tightrope and did ballet dancing in roadshows in Europe. His 6 feet tall, 250 pound frame rapidly gained

fame in Europe as a graceful classical dancer. When his health would no longer stand the tedious strain of physical exertion, he became proficient at slight of hand tricks.

Tired of show business, he came to America and entered a medical school in New England. When he completed his course, he became a lecturer, again on the open road. Finally, and inevitably, he was caught up with him, and shortly afterward, the Professor Quiz program was originated.

Professor Quiz comes to State College under the auspices of the Public Lectures Committee. His appearance at the college marks his regular Thursday night broadcast, which will take place from Memorial Auditorium in Raleigh, Thursday evening, November 21.

Sponsors For Homecoming

The Monogram Club of North Carolina State College will present the annual "Homecoming Dance" Saturday evening, November 16, in the Frank Thompson Gymnasium, following the Homecoming game with the University of Virginia that afternoon. Sponsors for the game and dance are pictured above. They are left to right, top row: Mrs. Charles Doak of Raleigh, for her husband, President of the Monogram Club; Mrs. John D. Barr of Raleigh, for her husband, Vice-President of the Monogram Club; Miss Dorothy Godwin of Raleigh, for W. E. Avery of Brunswick, Ga., club secretary and treasurer; Second row: Mrs. Doris Talton of Clayton, for Frank Craig of Mt. Holly, chairman dance committee; Mrs. Fred Wagoner of Raleigh, for her husband,

dance committee; Bottom row: Miss Emma Southerland of Smithfield, for Carlton Jones of Pittsboro, dance committee; Miss Margaret Murphy of Raleigh, for J. C. Hofmann of Raleigh, dance committee; Mrs. J. W. Morgan of Raleigh, for her husband, dance committee and club faculty advisor.

Other sponsors for the game not pictured above are Miss Evelyn White, of Atlanta, Ga., for John Wagoner, president of the Golden Chain; Miss Margaret House, of Beaufort, N. C., for Doug House, president of Blue Key; Miss Martha Ivey, of Aebmarle, for Maurice Pickler, president of senior class; and Miss Edith Merritt, of Ivanhoe, N. C., for Jack Fiesler, editor of The Technician.

Post-War 'Wataugan' Is Scheduled To Be Out Soon

The Wataugan, North Carolina State's "literary" magazine, has at last cast off its bonds of inactivity and is about to emerge from its wartime cocoon.

The staffs are headed this year by Andrew J. Patton, Junior in Aeronautical Engineering, Editor; and John C. Boyter, Junior in Mechanical Engineering, Business Manager.

The Wataugan which former students read and enjoyed is being replaced by a milder, more literary magazine due to an ultimatum issued by the College Publications Board and the Faculty Council.

"But despite restrictions," declares Editor Patton, "we are going to put out a magazine which will entertain the students, not educate them." Our cultured brethren over at Chapel College are getting enough culture for both schools; therefore, we shall waste neither the space nor the energy to repeat work being done at the Hill."

The Wataugan, which is experiencing a re-birth this year, had to begin its nativity by acquiring

staffs, both editorial and business, office space and furniture. The office which formerly housed THE Wataugan has been taken over by the Student Engineer. This group had to be evicted before the humor mag could occupy its old home. Then through a process of looting, Patton and Boyter acquired office furniture.

Although both staffs have capable and willing workers, there are still vacancies to be filled.

After the delay caused by building staffs, obtaining an office and furniture, work was actually begun on the first post-war Wataugan. Further delay was caused, not by crowded conditions in the print shop, but by the printers' taking a break to read the copy, according to one Wataugan staff member.

Assistance in reorganization has been given by R. B. Wynne, faculty editor of the Wataugan. Barring further delays, your first copy of the post-war Wataugan should be out in the near future.

Welcome Back, Alumni

The gates of State College are thrown wide open to receive back into its folds of fellowship all the alumni of the college. From the farms, from the factories, from all walks of life come the men who once called State College their home.

The homecoming weekend has been carefully planned; a program of interest and fun for all is scheduled to begin tonight in Riddick Stadium. Student participation in these events is a necessity. Get into the swing of things by attending the pep rally. This is a good chance to let the team know we're still behind them.

Whatever we do this weekend, many visitors and grads will be watching us. Be as helpful and polite to our visitors as you can. Get your dorms and rooms in good shape so that you would not be ashamed to have your Mother come into your room. Make the alumni feel at home and let's make this a weekend long to be remembered.

Vespers

The need for more religious consciousness on the part of students of American colleges was recognized by several organizations on the campus. The culmination of the thought and action of the Westminster Fellowship, the BSU, the Wesley Foundation, the Canterbury Club, and the YMCA is a fifteen (15) minute vesper service each night from 6:30 to 6:45 in the "Y" conference room.

These services began this week and, in the words of those who attended, they were "impressive," "inspiring," and "beautiful." Fifteen minutes could not be spent in a more profitable way than attending Vespers. Regardless of your religious convictions, drop into these services whenever you can. They are planned for our spiritual nourishment. No one can sanely deny the need for "the spiritual maturation of us all."

Glad To Have You Here, W. C.

Some of the best news we've heard lately was the good word from Betty Sutton that at least 90 W. C. students would attend the game tomorrow. Our relations with the fairer part of the Greater University have been most pleasant, especially during a recent press convention in Chicago. All N. C. Statesmen will join with THE TECHNICIAN staff in praise and admiration for our Woman's College and the ladies who go to school there. We're proud to have you back with us and we hope that your visit tomorrow will make you want to come to see us more often.

Paragraphics

The first issue... of the TEXTILE FORUM has "hit the streets." THE TECHNICIAN extends its congratulations to Editor Newell and staff for one of the best college publications we have seen. The make-up and use of contrasting colors is particularly good, especially in the advertisement display. We have but one criticism. There are not enough articles written by students. We hasten to remind the editor of the FORUM that this magazine is a student publication. Surely, there is enough talent in the Textile School to warrant more articles by students.

We have nothing... but praise for the Wolfpack for its fine stand against a strong Vanderbilt team. Better luck tomorrow! Our hats are off, too, to the loyal supporters who have given the team a send-off each week and have rallied at the train station to hail the returning warriors, victorious or not. The Redcoat Band led by Bill Parks and the cheering squad led by Bruce Beaman are to be highly commended for their work in keeping some spark of spirit alive.

Corsages are... to be worn only by those girls who are sponsoring a dance or similar event. This rule is of long standing on our campus and eliminates the confusion and financial strain of buying corsages. The only accepted exception to this rule is when the dance committee stipulates that corsages may be worn by lady guests. Stories of conflicts on other campuses over this subject makes us very grateful for the foresight of the makers of this rule at State College.

The laundry is taxed... at the moment with the heaviest load in its history.

Grin And Bear It...

THE EXAM SCHEDULE

Grunts and groans were mixed along with expressions of joy over the week-end as the Faculty Council announced the schedule of examinations through the Blue Bulletin. Examinations will begin Thursday morning, December 12 at 8 a. m. and end at 6:00 p. m. Wednesday, December 18.

The examinations will be held in the rooms where the classes meet for recitation. The examination for any class not covered by the examination schedule may be arranged at the convenience of the teacher and students sometime during the examination week.

Students are urged to familiarize themselves with their schedule of examinations and attend these appointments promptly, because examinations will be held only between the hours indicated.

The schedule is printed below for your convenience and should be clipped for reference.

Table with columns: Classes Having Their First Weekly Recitation On, Will Take Examination On, and dates/times for various classes.

Aeronautical Engineering Has Taken Flying Leap; Crashed Short Of Goal

By BILL BLAND
Last spring an article appeared in THE TECHNICIAN describing the plight of the Aeronautical Engineering Department. At that time, from all outward appearances, it seemed as though this important phase of engineering would be eliminated from our campus. In the years from 1940 to 1945, Aeronautical Engineering had been taught in the laboratory and the classroom in the small brick building a few yards west of the college laundry; however, last spring the Department was forced to leave its established "home" and become "homeless."

The Aero students, finding themselves on what appeared to be a one-way street ending in a "dead end," let it be known how much they desired to continue the study of aeronautics and its related subjects. They appealed to everyone who was in a position to aid them. Finally, a partial solution was reached and arrangements were made to permit the Aeronautical Department to place its equipment in the north side of the basement of Page Hall. The equipment was moved there and nothing more. The rest depended on the interest, the doggedness,

We are forced to stretch our meager supply of white shirts over a period of three weeks until the soiled ones are cleaned. The workers at the laundry are working to the limit of their capacity. The quality of their work is praiseworthy, too. We believe, however, that if the laundry manager would stage a drive to recruit laborers, a second shift could be added and the laundry could give reasonably good service to the students.

The idea... of providing a special 50-cent plate to be served on the southwest side of the cafeteria is a good one. Since students sometimes run up their food bill by taking extra salads and desserts, this balanced plate will stabilize their food costs as well as provide better nourishment for book-wearied bodies. The saving in time alone makes this project worthwhile.

Unfortunate students... particularly veterans, have been ordered to follow a diet. We would insist that Clark Hospital set up a feeding system whereby these boys could get the food they need to regain their health. Most of the cases are results of the war (diabetics and ulcerates) and are worthy of special attention.

Some of the nurses at Clark are extremely nice but others appear to have little regard for students as individuals. Doc Campbell should see that this attitude is changed.

The scarcity... of pencil sharpeners in classrooms should be remedied. The cafeteria bulletin boards stay in sad shape. Some individual or organization should maintain these bulletin boards and anyone posting notices should remove same when their timeliness has lapsed. Could the ever-faithful "Y" do this, too?

OPEN FORUM

November 9, 1946. Mr. Buzz Barton THE TECHNICIAN Campus

Dear Buzz; In your column of the 8th of November you suggest that State should have dances and other entertainments as good as, and better than, those at the "country clubs." Buzz, those are my sentiments exactly, but you seem to have overlooked one little thing.

No matter how many dances you may organize they are still not a helluva lot of fun unless there are some gals of the opposite sex around and so far we haven't had any chances to meet them. I know, without being told that there are three "Angie Fairs" in Raleigh, but water fountains in Hell wouldn't be any good unless there was a chance to get to them.

Why doesn't the "Y" or Blue Key or some other outfit on the campus organize another (or several more) dances like the one they threw for the frosh and the dance of two weeks ago. Affairs of this sort are the only way that the fellows and gals are goin' to get to know each other.

Hope that you may be able to help in alleviating the sad situation in Raleigh, I remain Yours for the WOLVES of State, "Quintilianus."

(Ed. Note: This letter was unsigned but we're running it anyway. We suggest that this poor lonely heart do a little "woofing" on his own. If this doesn't pay off, there are numerous campus organizations that offer social outlets. Try any of the Church fellowship groups—they're just what you're looking for.)

and the resourcefulness of the faculty and the students. It was up to them to supply the energy and determination that would be required to set up the test equipment, arrange the laboratory, build the necessary items, and gather the information that would be used in their quest for knowledge.

The prospect of being able to continue their work in Aeronautics was more than enough to make the students "seize" to apply the "elbow grease" to get the job done. Now, only a few short weeks since the beginning of the fall term, the huge and jumbled mass of tables, equipment, instruments, and tools has been transformed into a workable laboratory. There is still much to be accomplished and the job will not be finished for many months; but at least an inroad has been made.

If the finished product is to be as good as the best in the country, as the college desires to have all of its departments, a lot of money will be required to do the many

HECK! Well, we dropped another one. That's O. K. big team. We just want you to know that we are uncommonly proud of you and homesick to see you come running into Riddick Stadium again. It seems like a year since we last saw you do your stuff. Everybody will be yelling their heads off for you tomorrow.

CAFETERIA— It seems to us that the cafeteria should be talked to and about a little. We realize what a tremendous job the manager has done with the present facilities, but we would like to mention some of the shortcomings that we have noticed and other people have talked to us about. Mr. Manager, you need some great big tough K.P. pushers. Several times there have been vacant tables, but they couldn't be used because dishes and glasses were stacked a mile high on them for too long a period of time. The tables are not cleaned any too well either. The food is just slung on the plates. Whether the powers that be know it or not, we too are human beings. We have feelings. The bus company takes the attitude, THE STUDENTS BE JAMMED. Looks like the cafeteria will string along with, THE STUDENTS BE CRAMMED. Just a little "pushing," and a little care in preparing and serving the food will help so many so much.

NEW PROFS— State College is indeed fortunate in having several new professors. We sure hope we can keep them, for they are an asset to our school. Their lectures are well organized and they put their knowledge across so that even Bob Simmons can understand it. They are O.K. We like them and hope that they will make North Carolina State College their home.

DANCES, MORE DANCES— The Homecoming Dance is coming up tomorrow. Most everybody will be going to that time honored affair. It is always a great dance. Then, on November 30th, Blue Key and Golden Chain sponsor The Blue Gold Dance. Our boy, Bill Allen, plays for this one, so it should be another sharp shindig. November 30th should get encircled on everybody's social calendar. Start planning for it now.

A COUPLE OF JOKES!!!!— This week we have a couple of so called jokes that are rotten, however we will stick a clothespin on our overly handsome nose and start— Says Joe Orland, Textile Graduate Student (?), "It's a smart corks that knows its pop." Gerald James says he is profiting tremendously from Prof. Hick's marriage course. He says that almost anything works on the gals since he has been taking the course. Anyway, so Gerry claims, it works like this—Gerry: "I'm a man of few words. Will you or won't you kiss me?" Sweet young thing: "I wouldn't normally, but you've talked me into it." The course name and number for marriage is Ethics 409. Frank McDowell surely must be talking marriage also, because he runs around saying, "Give a woman an inch and she becomes a ruler." Let's celebrate Homecoming and go out and watch our Wolfpack walk all over the University of Virginia.

things that remain to be done. This money must come from the State. We realize that the State of North Carolina does not have an appreciable aircraft industry, and we know that that may be one of the primary reasons why the Aeronautical Department has not been nurtured as it could have been. There is, however, another approach to this problem that may be used to encourage improvement of the situation. Isn't it true that some industries have been moving into North Carolina because of certain resources that are plentiful here? Why, then, can't aviation industries be induced to expand into North Carolina by providing them

with an ample supply of a very necessary "resource"—well-trained aeronautical engineers? At the present time there are 237 students attending North Carolina State College who have expressed a desire to study aeronautics. With this much interest already apparent it seems that this would be the time to begin a program that would give State College the finest Aeronautical Department in the country. This action would act as a stimulus to attract more students; and these students with an influx of aviation industry would be able to put the State of North Carolina "on the map" in aviation.

Information gives YOU the answers... who gives them to HER?

A lot of people take the Information Service of the Bell System for granted. Little do they realize what it takes to answer some two and a half million questions during a normal day. Of course it takes operators... over 12,000 highly skilled "Information" operators. But, in addition, it takes a staff of trained executive personnel. They plan this service for cities and towns across the country so that "Information" can quickly find the latest listings of the many telephones within her area—from records that are brought up to date daily. And it is they who study operating methods and equipment in the never-ending search to make this service ever faster, ever better. Is it any wonder that today, more than ever before, management is interested in young men with imagination and ambition... men to develop with the industry?

There's Opportunity and Adventure in Telephony BELL TELEPHONE SYSTEM

State College Is Moving Out Apex - Cary Way

Expansion Program Moves Center Of Campus To Ag Hill

Definite plans for an overall building expansion program have been submitted to the Advisory Budget Commission by the administration for approval. Nearly \$8,000,000 has been requested to enlarge the State College physical plant. It has been apparent for the last several years that State College must expand its facilities before it can become the foremost technological school in the South.

On this page you will see perspective sketches of the new building projects which are examples of the type and appearance of the dozen or more buildings requested. The expansion program has been divided into two phases: those buildings that are urgently needed for the present time, and those that will be needed within the next three years. The \$8,000,000 requested from the General Assembly this coming January are the funds needed for the first phase of expansion. The new buildings will be constructed on the West Campus between Ag Hill and the Textile Building on both sides of the railroad tracks. The items listed below are in order of priority and the expenditure of each is included. Installation of new boilers in the power plant, to take care of the present plant plus a fifty per cent

expansion, \$600,000. A new cafeteria to be placed near Alexander and Turlington and will also serve the new dormitories that are and will be under construction, \$393,000.

General Engineering laboratory to provide space for experiments and to help some of the engineering courses to become accredited. The amount asked for will be shared by Chem. Eng., Aero. Eng., Ind. Eng., and their administration, \$1,843,000.

A consolidation and the further equipping of labs and classrooms for teaching and research in the field of Agronomy, \$920,000.

Annex to the Textile Building for expansion of research and housing of textile machinery, \$676,000.

A place for the Poultry Department to further experimentation and teaching, \$280,000.

Two Barns to provide better segregation and larger expansion for teaching and research, \$40,000.

Four Greenhouses to supplement the Agronomy Dept., \$12,000.

Head House to serve as a headquarters and as a wind break for the other greenhouses, \$40,000.

Repair Shop and Garage for the Physical Plant to take care of maintenance of the campus and the buildings, \$40,000.

Two floors added to the C. E.

building to house the School of Architecture and the Landscape Design School and also provide space for the C. E. department, \$320,000.

Add an annex to the E. E. and Physics building to include modern electronic and radar apparatus, \$225,000.

Completion of the Army-Colossem before the steel frame deteriorates, \$350,000.

Utilities Tunnel to increase efficiency of piping steam to the West Campus, \$60,000.

A new building for the M. E. department because of the great advances in new machine tools and laboratory apparatus. Then the moving of the Geology and the Ceramic departments to the present M. E. building, \$929,600.

New buildings for the Botany and Zoology departments, \$950,000.

Renovate the gym after 20 years of hard service, \$30,000.

A vehicle underpass at the west end of the campus, \$90,000.

That is the sum and substance of the report. Now this is what can be done by each student who believes in the school and wants to see it grow to national prominence. The University of North Carolina has petitioned for \$12,000,000 and the Woman's College asked for \$6,000,000. That figure, plus our ap-

These two buildings pictured above are the new dormitories already under construction just on the other side of Alexander and Turlington. They are being built through a loan secured by the

North Carolina State College Foundation from the Wachovia Bank and Trust Company. When completed the dormitories will house well over eight hundred men.

Pictured above is the artist's conception of the new cafeteria which will serve the needs of the men who reside on the west end of the campus. Besides the cafeteria proper it will have one wing

which will be used as a lounge. Situated in the basement under the lounge will be a modern play room equipped with ping-pong and billiard tables.

This is the proposed Agronomy building which will be located between Ag Hill and the Textiles building. It will contain adequate classrooms and laboratory facilities with three wings extending from the rear. A large portion of the building will probably be used for a soils testing laboratory.

proximate \$8,000,000 adds up to 25 million dollars. There are however, only 21 million dollars to split between the three schools. Some school's request is going to get slashed. The legislature simply does not have enough money to go around. One way to assure that we are not left out is to fight, politic and organize any way you see fit to influence the legislature not to cut our requested budget more than it that this will be the first year in its proportional share. Let's see to a long time that Carolina has not gotten a lions share of the appropriations.

ATOM SPECIALIST

The Story of **HERB POLLOCK**

IN 1937, after receiving his doctor's degree as a Rhodes Scholar at Oxford, Herbert C. Pollock came to work in the General Electric Research Laboratory. He knew that at G.E. he would find facilities, opportunity and encouragement to continue his fundamental research into the secrets of the atom.

This was important to Herb. As a senior at the U. of Virginia in 1933, he had studied methods of concentrating isotopes. His doctor's thesis at Oxford was on isotope separation.

When war approached in 1939, isotopes—specifically the uranium isotope 235—became the subject of feverish study, as men sought to exploit the atom's enormous energies. Herb put aside his research into pure science. Working with another G-E scientist, Dr. K. H. Kingdon, he succeeded in preparing a sample of U-235 which was used to confirm the fact that it was this isotope which fissioned under slow neutron bombardment. Later he joined Dr. E. O. Lawrence's Manhattan Project group which was at work on the atomic bomb.

With the Research Laboratory again today, Herb has resumed the fundamental research he began at Virginia and Oxford. Using such complex electronic "tools" as the G-E betatron, he studies the atom that man may have, not bombs, but new sources of power, new weapons against disease, new truths about the physical world.

Head to schools and the U. S. Government, General Electric is the largest employer of college engineering graduates.

GENERAL ELECTRIC

At Virginia and at Oxford Herb specialized in problems of isotope separation.

Today in the G-E Research Laboratory he uses the betatron in his atom studies.

Wolfpack Meets Virginia Here Tomorrow

Vanderbilt Defeats State Wolfpack, 7-0

Strong Defense Set Up By Vandy Checks State's Attack

Coch Beattie Feathers' 1946 Wolfpack suffered their second defeat of the season by bowing to a very potent team from Vanderbilt in a game which featured the Commodores' homecoming at Nashville, Tennessee. The game, played last Saturday, drew a crowd of 20,000 fans to Dudley Field.

Coch "Red" Sanders of Vandy set up a defense which was virtually impenetrable. It held the Wolfpack to a 4 yards rushing for the day, and it failed to allow the Pack to get off on any long runs.

Meanwhile, the passes of Howard Turner and Ogden Smith were true on only six of twenty-one occasions, and the six completed passes netted only 53 yards.

On the other hand, State's line, which has allowed less yardage than any other in the country, yielded 198 yards. Vandy didn't attempt but four passes, but three of these were complete for 32 yards.

Despite the heavy advantage the Commodores had in statistics, they were unable to score but once all afternoon. After ten minutes of the second half had passed, Palmer kicked to Allen who raced the ball to the State 42. On first down, Fuqua advanced the ball to the State 20, from which Bobby Berry, husky fullback, tore through the Wolfpack line to the 12. On second down, scabbard Jimmy Allen raced wide around his right end for the marker. Bobby Berry's conversion was true, and Vandy led, 7-0.

The Commodores threatened the next time they took possession of the ball when they drove to the State 15, but Hiram Sykes recovered Allen's fumble to end the threat. The Wolfpack threatened one time in the second quarter, when Palmer's kick to the Vandy 41 struck Berry and John Wagoner recovered the ball for State. Smith heaved a 16 yard pass to Paul Gibson on the 25, and the Wolfpack appeared headed for pay dirt, but two runs and two passes failed to gain any yardage.

Coch Beattie Feathers was especially pleased with the fine play of end Paul Gibson, 20-year-old senior from Winston-Salem. Other stalwarts in the Wolfpack line were center Hiram Sykes and guards Barney Watts and Bill Manning.

1946 Wolfpack Squad

The varsity football squad at North Carolina State College in the usual order: First row—Bob Edwards, Wilmington, end; June Cheek, Laurinburg, end; Paul Gibson, Winston-Salem, end; Al Phillips, Raleigh, end; Fred Miller, Jeanette, Pa., end; Bob Courts, Reidsville, end; George Blomquist, Austin, Tex., end; Chuck Spencer, Raleigh, end; Billy Smith, Rocky Mount, tackle; Tom Gould, Raleigh, tackle; Taylor Moser, Burlington, tackle; Curtis Ramsey, Crumpler, W. Va., tackle; Bert Dressler, Cabin Creek, W. Va., tackle; Theodore Dostanko, Paterson, N. J., tackle; Second row—Fred McGrath, Morris Plains, N. J., guard; Charles Musser, Frankford, W. Va., guard; Ralph Burnett, Pampa, Tex., guard; Ralph Barksdale, Whiteville, guard; Tom Joyce, Winston-Salem, guard; John Wagoner, Gibsonville, guard; Ray Stewart, Raleigh, guard; Barney Watts, McDonald, O., guard; John Peacock, Lexington, center; Harold Saunders, Statesville, center; Hiram

Sykes, Durham, center; Bob Gibson, Winston-Salem, center; Charlie Rickus, Hillside, N. J., tailback; Jim Rees, Shelby, O., tackle; Jim Gibson, Kings Mountain, fullback; George Allen, Kings Mountain, fullback;

Back row—Bob Durant, Tryon, blocking back; Winston Naugler, Beverly, Mass., blocking back; Bill Stanton, Rowland, wingback; Howard Turner, Rocky Mount, tailback; Oscar Boseman, Baton Rouge, La., wingback; Harry McLeod, Cleveland, Tenn., wingback; Ogden Smith, Galveston, Tex., tailback; Gordon Goodman, Bremerton, Wash., wingback; Gwyn Fletcher, Barium Springs, tailback; Bob Bowly, Clifton, N. J., blocking back; Leslie Palmer, Cedar Grove, W. Va., fullback; Harlow Sheets, Charleston, W. Va., wingback; Fred Wagoner, Gibsonville, tackle; Bill Moser, Burlington, fullback; Tommy Hutchins, Durham, student manager.

State Favored To Win Homecoming Feature

Both Teams At Top Strength For Non-Conference Tilt

Tomorrow will be homecoming for thousands of State College alumni, and Coach Beattie Feathers' 1946 Wolfpack will feature the day's attractions by meeting the University of Virginia in Riddick Stadium at 2:00 P. M.

The Wolfpack, losers to Vanderbilt last week, will be attempting to cap their sixth win of the current season. State holds victories over Duke, Clemson, Davidson, Wake Forest, and VMI. Virginia Tech and Vanderbilt both hold single touchdown victories over the Wolfpack.

Two weeks ago, the Virginia game was expected to be a breather for the Techmen, as the Cavaliers have had a none too successful season, but last week, Coach Art Gueppie's Virginians pulled a major upset by defeating Princeton's highly touted Tigers, who the week before had downed mighty Pennsylvania, 17-14.

The Cavaliers ripped off an amazing total of 275 yards through the Tiger line last week, which the week before had held Penn's line dead cold.

The Virginia backfield is led by 195 pound Bruce Bailey, a former Navy lieutenant. George Neff, George Grimes, and John Duda

round out the Cavalier's backfield—one which is mighty hard to stop.

Leading the line is Tom Dudley, brother of Virginia's famed Bill Dudley, who graduated several years ago. Tom is an ace pass snatcher out on the left end slot.

The Wolfpack suffered no serious injuries in the Vandy scuffle, and should be in top shape for the big homecoming day game tomorrow.

The game tomorrow will be the fifth homecoming game in which the Wolfpack have played this season. They have furnished the opposition for homecomings at Clemson, Wake Forest, Virginia Tech and Vanderbilt.

The Wolfpack meet Florida at Tampa next week, and return home to play Maryland on November 30.

Starting Lineups:

Pos. Virginia	N. C. State
LE—Dudley	Phillips
LT—Kirkland	Ramsey
LG—Jones	Watts
C—Fizell	Saunders
RG—Barbour	J. Wagoner
RT—Schulte	Dressler or Moser
RE—Yates	Gibson
QB—Neff	Bowly
LHB—Grimes	Turner
RHB—Bailey	Bozeman
FB—Duda	Allen or Palmer

Calvin (Smokey) Simmons, State College Wolfpack Negro waterboy and guardian of the rabbit's foot, has carried more than 3,000 gallons of water onto the field for Red and White teams during the past 16 years.

Meet Barney Watts: Outstanding Freshman Leads Wolfpack Line

Well, let's give a yell for "Barney" Watts! (Bernard "Barney" Watts, that is.)

This lad, although only 21 (and he celebrated his birthday the day after our victory over Duke) packs some power in that "Big Red" line. Barney, as he so often is called by his friends, has set up a record hard to beat by any football player. He's deadly on the defense and dynamite on the offensive; (er, did I say dynamite? His teammates often refer to him as "little stick of dynamite!") and his ability for breaking up opponent's plays is uncanny.

Coming to State from the town of McDonald, Ohio, Barney is a freshman in Forestry and finds our

fair alma mater "a fine school." The position, in case you don't already know, is left guard. He stands 5 ft. 9 in. in stature, weighs 180 lbs. and has the agility of a cat.

Barney, a former Marine and veteran of 18 months' overseas is a converted quarterback, starring in this position at Girard High School in McDonald, Ohio. He gained more valuable experience while playing guard with the Cherry Point Marines. A short time ago he was elected "Frosh of the Week" by the Associated Press. As Barney is only a 1st year man, he stands the opportunity of playing three more years of football, and the chance of capturing quite a few laurels before he quits the game.

After Barney's collegiate career has ended, his pet ambition is to play Pro ball, hoping to play with the Cleveland Browns at the first opportunity, although, he also plans to use his knowledge of forestry, possibly in connection with the Forestry Conservation program now going on back in Ohio.

When any leisure time is available, Barney is likely to be found on a golf course, or else at a bowling alley, but finds both (like so many of us) rather expensive. He rolls quite a game of duckpins, too.

Support can go a long way in helping a team obtain a victory. Let's show our boys in the future that we are solidly behind them one hundred per cent.

Ex-Grid Greats Return To Campus For Homecoming

Slashing Jack McDowall, football coach at Rollins College, Winter Park, Fla., and former all-southern halfback at N. C. State College, will be among the members of the 1927 Wolfpack, winner of the Southern Conference title, who will return to the campus Saturday as Homecoming Day guests of the college.

McDowall gained national prominence by running and passing the '27 Pack to eight victories and a lone defeat. Other members of the team, along with their great coach, Gus K. Tebell, now of the University of Virginia and a Southern Conference football official, who will attend Homecoming festivities are: R. S. (Bob) Warren, all-State fullback, of Raleigh; W. F. Metts, center, of Hampton, Va.; R. K. Evans, tackle, of Auburn, Ala.; Don

Childress, all-State end, of Washington, D. C.; Fred Crum, halfback, of Richmond, Va.; John M. Lepo, tackle, of Evanston, Ill.; John D. Floyd, tackle of Highland Park, Ill.; John E. Ford, guard, Greensboro, N. C.; E. L. Jordan, end, of Nashville;

S-Sgt. William A. (Chink) Outen, halfback, of Ft. Belvoir, Va.; Fred Vaughan, guard, of Tarboro, N. C.; Captain George E. Hunsucker, halfback, of Box 104, APO 959, San Francisco, Cal. (Army); Frank P. Goodwin, end, of Memphis, Tenn.; C. A. Ridenhour, quarterback, of Concord; J. G. Adams, quarterback, of Alhambra, Cal.; R. N. Jeffrey, fullback, of Goldsboro; Basil K. Melton, halfback, of Morganton, and H. L. Sullivan, manager, of Atlanta, Ga.

CLEAN, FRESH, PURE America's FINEST Cigarette!

Smoke as much as you like—the flavor's *ALL yours*, when you smoke PHILIP MORRIS! And here's why . . .

There's an important difference in PHILIP MORRIS manufacture that makes PHILIP MORRIS taste better—smoke better—because it lets the FULL FLAVOR of the world's finest tobaccos come through for your complete enjoyment—clean, fresh, pure!

Try PHILIP MORRIS—you, too, will agree that PHILIP MORRIS is America's FINEST Cigarette!

NO OTHER CIGARETTE CAN MAKE THIS STATEMENT!
Of all the leading cigarettes, PHILIP MORRIS is the only cigarette with an exclusive difference in manufacture recognized by eminent medical authorities as being in the advantage of those who smoke!

CALL FOR PHILIP MORRIS ALWAYS BETTER... BETTER ALL WAYS

Dillon's Dallyings

Tomorrow afternoon, the State College grads, who will return to the institution for homecoming, will witness the performance of the finest football team ever to assemble at State College since the 1927 Southern Conference Champions.

At the head of the current aggregation is, in our opinion, the finest group of coaches this institution has seen since football originated here. In Beattie Feathers, State College has one of the brilliant young minds of the football profession. After four successful years at Tennessee, and a short tenure of service in the professional football circles, Beattie headed southward to Appalachian in the early forties. He assisted Doc Newton here in 1943, and when the Wolfpack found themselves without a head coach, and the ensuing football season swiftly approaching, the athletic council gave him a one year contract. Feathers was given a light, inexperienced squad with which to work, and two assistants to help him with the coaching and the scouting. With this dismal setup, he won seven of nine games on the '44 schedule, losing only to powerful Wake Forest, 21-14, and to Clemson, 13-7. Last year, his team won only three of nine games, but in each game, the Wolfpack extended the opponent to the limit.

This year, Feathers has done something that no other coach has done here at State since 1931—that is beat Wallace Wade. That's something that Peabody Walker has tried to do at Wake Forest ever since 1936, his first year in Deacontown, in fact, Wake Forest has never licked a Wade coached team. Feathers' Wolfpack also licked a very potent Wake Forest eleven on October 14 to sew up at least a tie for the state championship. If Carolina loses to either Wake Forest or Duke, our State team will win the state title.

Yes sir, we have a mighty fine coach in Beattie Feathers. And the assistants aren't so bad either. There's backfield coach Babe Wood, line coaches Lyle Rich and Bob Suffridge, and assistant coach Butter Anderson.

Tomorrow afternoon, thousands of old grads will see the Wolfpack for the first time in several years. The team is primed for a good showing which should produce victory.

BIG DANCE

N. C. State's very fine Monogram Club is going social on us tomorrow night, and is presenting their annual homecoming dance. This feature is always a highlight in the year's social activities, and the boys are going all out to have an even better one this year. Here's a personal recommendation for the Monogram Club dance being held tomorrow night at the gym.

PREDICTIONS

Last week, yours truly led the others with nine incorrect predictions. Mr. Doak and Charlie Daniel missed ten each, and Ray Reeve erred on thirteen. The winner of the theater tickets was Bill Hawkins in 331 Turlington.

It seems as if no one can correctly guess the outcome of State's contests. Last week, each contestant but one picked State to win, and the one picking Vanderbilt guessed the score as 13-7. And we all know, Vandy won, 7-0. This week since it is homecoming and everybody's giving more expensive prizes, the person who guesses the outcome of the State-Virginia tussle will get FIVE DOLLARS. Turn all guesses (and that's only one per customer) to the Y desk by noon on Saturday. Of course, in case of ties, the money is split. We like State, 21-0.

Here are this week's predictions:

Teams	Doak	Reeve	Daniel	Dillon

Intramural Wrestling Meet Finals Carded For Tuesday

16 Matches Scheduled To Determine Frat And Dorm Champions

The final round in both the fraternity and dormitory wrestling divisions will be held next Tuesday night at 7:30 in Frank Thompson gymnasium. Sixteen matches have been carded, with the survivors of the quarterfinal and semifinal rounds meeting to determine the fraternity and dormitory winner in each weight. Competition is keen in both divisions. The PIKA's lead the fraternities in the number of men reaching the finals with four survivors of the preceding rounds. The Sigma Chi's are second with three men in the finals. S. Watauga leads the dormitory group with three men in the final rounds. The winners of next Tuesday's card will meet in an All-Campus championship meet on Wednesday night, November 27. Here is the list of matches scheduled for next Tuesday night.

Fraternity

115-lb.—Tritt (Sigma Chi) vs. Roddick (SPE).
125-lb.—Moore's (PIKA) vs. Holmes (Kappa Sig) — Gillette (Sigma Chi) winner.
135-lb.—Foster (KA) vs. Alexander (Sigma Chi).
145-lb.—Jones (PIKA) vs. Sykes (Sigma Nu).
155-lb.—Burrner (Sigma Pi) vs. Dalton (KA).
165-lb.—Tate (PIKA) vs. Cloud (Kappa Sig).
175-lb.—Huffsteler (Sigma Pi) vs. Dixon (SPE).
Unlimited—Hobbs (PIKA) vs. Peeler (Sigma Nu).

Dormitory

115-lb.—Wilson (2nd Bagwell) vs. Smithson (S. Watauga).
125-lb.—Saylor (Berry) vs. Kontoulas (3rd Sigm).
135-lb.—Kirkman (3rd Sigm) vs. Deaton (2nd Becton).
145-lb.—Johnson (1st Becton) vs. Porter (Gold).
155-lb.—Martin (S. Watauga) vs. Van Denan (1st Alexander).
165-lb.—Steven (2nd Bagwell) vs. Beam (Gold).
175-lb.—Warren (3rd Becton) unopposed.
Warren and J. B. Edwards, a candidate for the wrestling team, will put on an exhibition.
Unlimited—J. Wagoner (Berry) vs. Hampton (S. Watauga).

Paul Gibson of Winston-Salem, veteran State College end who was forced into a tackle assignment last year by the shortage of players at State, says the "Pack is "much, much better" this year.

Let's Make This Homecoming The Daddy of Them All
COME ON WOLFPACK CHARGE!!
POWELL & GRIFFIS

THE INTRAMURAL FRONT

By GEORGE HARRELL

Last week Sigma Chi clinched the tag football crown for their bracket by downing a stubborn Delta Sig team. In the other fraternity brackets, the SPE's seem sure of victory if they win one more game and the PIKA's have to win only one of their two remaining games to be assured of a berth in the semi-finals. In the dormitory races, it's anybody's crown so far. At the present, Berry and 3rd Bagwell are leading the race with 3 wins each. These two teams play this week and somebody is going to topple. In dormitory bracket No. 2, N. Watauga and S. Watauga are ahead but face each other this week also. Running right behind them are Trailwood, Gold, and 1st Alexander.

In the tennis playoffs, the SPE's and PIKA's will play off for the fraternity crown, while Sigma Nu and Pi Kappa Phi will play to determine 3rd and 4th place. The dormitory tennis hasn't reached the semi-final stage yet, but 3rd Becton and 1st Turlington are matched in one quarter-final play off.

Don't forget the wrestling finals on Tuesday, Nov. 19 at 7:30 p. m.

TAG FOOTBALL RESULTS

Kappa Alpha 6—Sigma Nu 0
Although they were outplayed 3 first downs to 2, Kappa Alpha scored a 6-0 win over a scrappy Sigma Nu team to take their first victory of the season. The K's score came in the third period on a 45 yard pass from MacManus to P. McCarple who took the ball on the 5 and raced over. Although only one touchdown was made, the ball moved up and down the field all afternoon.

Trailwood 12—Welch 0

Showing that they have the caliber of champions, Trailwood won their second game of the season by defeating Welch by the score of 12-0. Both teams got off to a slow start with Trailwood having the edge, but in the second period, Montague passed to Meador for 5-yards and Trailwood's first touchdown. The final and clinching score came in the fourth quarter when Meador passed to Kenny for 20-yards and a touchdown.

Sigma Chi 4—Delta Sig 0

Sigma Chi clinched the title in their bracket with a close 4-0 victory over a determined Delta Sig team. Neither team was able to

score but the Chi's won on Delta Sig's mistakes. One safety came on a fumble and the other was caused by a hard charging line. The Chi's made five first downs while holding the Delta Sig's to 0.

Gold 26—B. Syme 0

Gold remained in the running by posting their second win against one lost. Never was the strong Gold defense in trouble as they won handsily, 26-0. In the first quarter, Mays passed to Throver for the first score. Mays also ran end for a score in the second quarter, while Beam passed to Gibson for another score.

PIKA 27—Pi Kappa Phi 0

The PIKA's found themselves only one game away from being the bracket winner by thoroughly trouncing Pi Kappa Phi 27-0. The scoring ran as follows. Fonville ran 15-yards, Holloman ran extra point, Holloman passed to Fonville for 25-yards, who ran 20-yards. Holloman passed to Lampke for the extra point. Whew! That's a lot of scoring.

Sig Phi Eps 25—Sigma Nu 0

After being held to a standstill during the first half, Sigma Phi Epsilon broke through and smothered Sigma Nu 25-0. Haynes ran 5-yards for a touchdown and passed to Fetner for another in the second quarter. In the third period Haynes again passed for a T. D. this time to Rierson. In the final stanza, Haynes again dominated the spotlight by running 10-yards and also passing to Boger for the final scores. You Nu's should have sabotaged that guy Haynes.

State Cross Country Team Meets Virginia

Coach Tom Hines' cross country team, victors over the Quantico Marines and the South Carolina harriers, will get their first real test of the season tomorrow morning when the University of Virginia cross country team races the Red and White on the local course. The time for the meet will be 11:00 A. M.

Last week, the State cross country team placed their eight runners in the first eight positions to rout the South Carolina team, 15-55. David Dubow led the State squad by running the three and one-half mile distance in 19:51.

Tau Beta Pi Initiates

JOSEPH E. STEVENS ROBERT S. HOUSTON WILLIAM M. BLAND JOHN R. FESSENDEN ROBERT W. HOLTZCLAW

ROY F. KENDRICK VERNON M. BARNES RALPH G. KNIGHT CLAUDE L. BURKHEAD

The Alpha chapter of Tau Beta Pi, honorary scholastic engineering fraternity at State College, today disclosed the initiation of ten new members, nine of whom are shown above. Eight of the initiates are Tar Heels. In the usual order, bottom row, are Kendrick of Shelby; Barnes (recording secretary) of Wilson; Knight of Ronoke Rapids; Burkhead (corresponding secretary) of Candor; Top row: Stevens of Raleigh; Houston of Monroe; Bland of Portsmouth, Va.;

Fessenden of Raleigh; and Holtzclaw of Canton. Initiate James R. Turbeville of Atlanta, Ga., is not in the picture. Tau Beta Pi attempts: "To mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates in engineering, or by their attainments as alumni in the field of engineering, and to foster a spirit of liberal culture in the engineering colleges of America."

Charlotte Club Will Hold Meet Wednesday

The boys from Charlotte who were here last winter held a meeting recently and formed a club made up exclusively of their number. The purpose of this formation was to enable the boys to become better acquainted and to form an organization for sponsoring social functions both in Raleigh and Charlotte.

Regular meetings as announced in THE TECHNICIAN and on the bulletin boards are held, and every Charlotte student is invited to attend. The full cooperation from all of us is needed if the purposes of the organization are to be achieved.

Plans are in progress for our sponsoring a dance in Charlotte during the Christmas holidays and it should prove to be one of the best. Final plans for this dance will be discussed at a meeting which will be held next Wednesday night, November 20, at seven o'clock in the Y.M.C.A. Every Charlotte boy is urged to attend.

Forestry Club

Bob Dorse, Program Chairman of the Forestry Club, announced that a member of the North Carolina Fish and Game Division of the Bureau of Conservation and Development will speak on "Hunting and Fishing" to the Forestry Club next Tuesday night, November 19, at 7:00 P. M. in 110 Polk Hall.

Foresters Plan Club Cabin On Campus

Plans that have been "in the making" for ten years culminated at the meeting of the Forestry Club last Tuesday night in a round-table discussion on the possibilities of building a cabin for the Forestry Club and the appointment of Frank Spivey, freshman from Asheville, as chairman of the Committee on the Forestry Club Cabin.

Professor G. K. Slocum told briefly of the past plans for a cabin. "At one time the club had the lot, the logs, and the roof for a cabin," Professor Slocum told the Foresters. He also said that he had been collecting money for the past ten years that are raised in favor of a cabin this year must be the hands that swing the hammers in the construction of the cabin.

Future plans and progress on the cabin project will be announced at later meetings of the Forestry Club. J. Saylor was elected Secretary to serve until the end of this term, when officers for the Winter and Spring terms will be elected.

Student Legislature Set For December 6-7

The Council for the Student Legislature of North Carolina announced Tuesday that the Tenth Annual Student Legislature Assembly will be held in the State Capitol here on December 6-7. Invitations are being issued to all of the colleges of the state. This year's assembly, coming in the regular General Assembly year, is expected to be particularly significant.

The purpose of the Assembly is to teach the fundamentals of law-making as practiced by the General Assembly; and, at the same time, to serve as an outlet for student thought. State College originated the idea for the assembly in 1936 and has sponsored the event each year since. E. W. Paget, Professor of English, has been the advisor for the assembly since its origin, but he will not be available for assistance this year.

The Student Legislature Council which is sponsoring this year's session is organized on a state-wide basis. Watch the TECHNICIAN for future news of the Assembly.

Hillel Meeting

There will be an open-house and business meeting of Hillel on Sunday, November 17, at 2:00 P. M. at the College Y.M.C.A.

Bible Study

Dr. John Easley, Professor of Old Testament at Wake Forest College, upon the invitation of the Baptist Student Union, will appear for his second discussion on "The Formation of the Bible" in the Faculty Club Room of the Y. M. C. A., Friday, November 15, at 6:45 P. M. Everyone is cordially invited.

Attention Masons

If you are a Mason and are interested in taking part in this Masonic Order while in college, meet us in Room 6, Peele Hall, Monday, November 18, 7:30.

Masonic Committee
Fred Leathers, Chairman

HOMECOMING PLANS

(Continued from Page 1) helped make this homecoming weekend a success:

Stunt Night
Contact Committee: Maurice (Finky) Dunn, chairman, Jim Johnson, Steve Wilbur.

Arrangement Committee: Edgar Orr, chairman, Bill Bland, Moyle Williams, Jack Barnes.

Pep Rally
Max Gardner, chairman, Bill Daniel, Joe Monroe, Gene Legendrand.

Duke Professor Talks At Durham ASCE Meet

On Friday, November 8, forty-five members of the Student Chapter of the A.S.C.E. and several members of the faculty attended the fall meeting of the North Carolina section of the American Society of Civil Engineers. The meeting was held in the Washington Duke Hotel in Durham, N. C.

The first part of the meeting was presided over by the president of the N. C. Section, Mr. Mason Garber, and consisted of the usual business. The first topic of the meeting was presented by Dr. William M. Piatt, Consulting Engineer and Director of the A.S.C.E. Dr. Piatt's topic was "Aims and Objects of the A.S.C.E." and was presented mainly to the student members present. In his talk, Dr. Piatt explained how the national society was divided into a number of technical committees and divisions that gather papers and reports and publish them in the journals published by the society, "Civil Engineering" and the "Proceeding," a more technical publication. He also brought up several questions that were under discussion in the national society that were discussed by the meeting later on.

The feature during the luncheon, that was served in the Dining Hall of the Hotel, was a talk by Dr.

Frank de Vyver, professor of Economics at Duke University. Dr. Vyver presented some facts and opinions on the international question of labor legislation. In his talk, he told of three types of labor legislation: (1) Laws for minimum standards, (2) Social Insurance laws and (3) Laws on hours and wages. In this discussion, Dr. Vyver gave several suggestions as to how these laws could be carried out and improved. Dr. Vyver had first hand information on this subject because he is Vice-Pres. in charge of Labor Relations at the Erwin Cotton Mills.
