

# MERRY CHRISTMAS

# THE TECHNICIAN

of NORTH CAROLINA STATE COLLEGE

Vol. XXVIII, Number 11

STATE COLLEGE STATION, RALEIGH, N. C., DECEMBER 5, 1947

Offices: 10 and 11 Tompkins Hall

## YMCA To Begin Drive On Faculty For Funds

Officials of the State College YMCA, who are determined to get the new Y annex in Vetsville up as soon as possible, got the financial ball moving faster last Tuesday at noon with a luncheon held in the college cafeteria for the committee which will canvass the faculty and staff.

Mr. Ed King, general secretary of the YMCA, assigned to the members of the committee the part of the campus they were to cover. The office buildings and departments of the college were divided into sections and each committeeman will be responsible for the canvassing of a particular section. This arrangement was worked out to avoid overlapping and overlooking in the Y's drive for funds to pay for the \$12,000 Vetsville YMCA.

Mayor of Vetsville Jim Reece expressed the thanks and appreciation of the citizens of Vetsville to the officials of the Y and to the members of the faculty serving on the Canvassing Committee for their interest and work in providing for Vetsville this social and religious center.

Pat McDonald, president of the Y and designer of the proposed building, spoke briefly on the physical aspects of the building. Present plans call for seating accommodations for 200 people, a stage, two offices, a projection room, two wash rooms, a kitchen, and room in the basement for a Co-op store. The basement for the new structure has been dug and construction of the building started.

Although the meeting Tuesday was primarily for the purpose of planning the faculty drive for contributions, it was pointed out in a budget statement that was circulated that students have already contributed \$3,809 toward the students' goal of \$4,500. The Y has set aside \$4,375 of their year's budget of \$14,800 to apply to the cost of the Vetsville Y Building. The remainder of the cost of the building must come from special contributions and reserve funds.

In a letter to the Board of Directors and the Cabinet of the Y, Chancellor Harrelson expressed his whole-hearted approval and co-operation of the project. Chancellor Harrelson further stated that the College Administration could not undertake the project since there is no item in the legislative budget for it.

## State Man Appointed Railroad Executive

Officials of the college have been informed of the appointment of Felix S. Hales, a graduate of State College, to the office of vice president of the New York, Chicago, and St. Louis Railroad Company, with offices in Cleveland, Ohio.

A former instructor in mathematics at State College, Hales joined the railroad company's staff in 1916 and advanced from the position of draftsman to vice president.

Hales has been connected with Riddick and Mann, Raleigh engineers, and the Brett Engineering and Contracting Company of Wilson. While employed by the latter company, he worked on the Lake

## Engineers' Council Is Planning To Reactivate Annual Its Fair

The Engineer's Council, which has been strangely quiet all term, came out this week with plans for the Annual Engineer's Ball and the Engineer's Exposition, an innovation on the old Engineer's Fair.

The Ball, slated for Saturday night, February 21 in Memorial Auditorium, will be the biggest dance of the year. As yet there has been no band contract signed, but the council can probably boast of being the organization which has more money to spend on a dance than any other on the campus. Last year's council had terrific headache trying to distribute the 700-odd Ball tickets among the several thousand engineering students. Having the dance in Memorial Auditorium will go a long way to relieving the situation this year.

According to Johnny Boyter, publicist for the Engineer's Council, everyone wishing to attend this year's ball must register to be eligible for a ticket. A registration desk will be set up in the YMCA lobby beginning next Thursday night at six o'clock. Someone from the council will be at the desk from 6 until 11 Thursday night, all day Friday and all day the following Monday. Boyter stated that anyone who does not register during the times stated above will not be eligible for a ticket to the dance. It was further alleged that every effort would be made to secure the services of a well known orchestra for the dance.

### Engineer's Exposition

Although the plans announced to date are largely tentative, the Engineer's Council is working very hard on the reactivation of the Engineer's Fair.

The Fair, at which high school seniors of nearby towns will be guests, will feature exhibits made by the various degree granting departments of the college.

Before it was discontinued the Fair was one of the most important events of the entire school year. Hundreds of high school seniors from all over the state came down to view it and the next fall many enrolled as freshmen.

The tentative date for the Fair has been set for Friday and Saturday, April 16 and 17, according to Jack Armstrong, president of the Engineer's Council.

The TECHNICIAN wishes to express its sincerest sympathy to Mr. and Mrs. H. E. Millsap of 34-G Vetsville for the loss of their son, Walter, age 3 months, who was found smothered in bed last Sunday morning.

### VETERAN'S NOTE

Veterans desiring to apply for Advance Military Science beginning with the winter term must report to the Military Department, Room 1, Holiday Hall, before 12 December, 1947 and make application.

## Palmer Wins Ambassador Trophy

Leslie "Footsie" Palmer, versatile fullback-tailback for the fighting Wolfpack is shown shortly after receiving the Ambassador Trophy which is given each year to the most outstanding member of the team. Alongside Footsie is Jack Jordan, Manager of the Ambassador Theater, who made the award. Other Wolfpack members in the picture are left to right: Al Phillips, end; Dick Peacock, center, (just behind Palmer's shoulder); Pemberton Hobbs, tackle; Bernie Watts, guards; and Charlie Musser, guard. The player behind Jordan is unidentified. -Photo by Burnice W. Batchelor

## Registration Permits Will Be Distributed Next Week

State College students will begin registration for the winter term this week in order to speed up the lines at the gym at the first of next term. This arrangement is somewhat similar to the procedure used at the beginning of the fall term, but by completing the preliminaries before the end of the term, students will not have to return earlier than their final registration day.

Each student should have consulted his adviser to secure advice and registration material this week, December 1-6. This includes securing roster blanks and schedules.

After receiving any aid required for registering and getting the registration material, each student should make out a tentative schedule according to the rules set forth in item five, page one of the "Temporary Codification of Rules and Regulations." A copy of this booklet has been placed in each dormitory room and each fraternity house. Any off-campus student who does not have one should call at the office of the Dean of Students to secure one. Each student is also requested to read item six on page two of the Rules.

### Permits Issued Next Week

During the week of December 8-12 the students will secure their permits to register and registration directions from the Registration office. Students whose last names begin with any of the letters from A

through L should call for their registration permits on Monday and Tuesday, December 8 and 9; those students whose last names start with M through Z should get their permits on Wednesday and Thursday, December 10 and 11. Students must secure their permits on the days assigned to their group or they must return for their permits on Friday, December 12. Friday is the last day that permits will be issued this term.

Final registration and class assignment will take place on January 2 and 3. Students whose last names begin with any of the letters from A through N will register at the gymnasium on January 2, while those whose last names begin with any of the letters from O through Z will register at the gymnasium on January 3. A definite hour will be assigned to each student on his permit.

## Kingsbury, Litchford Honored By ASCE

It has been announced by Col. William N. Carey, Executive Secretary of the American Society of Civil Engineers, that two men in the Civil Engineering Department have been enrolled as respective Junior and Associate members of the Society.

Henry L. Kingsbury, Jr., was enrolled as a Junior member and James O. Litchford, as an Associate Member.

## More Students To Enroll at Morehead

Provisions have been made for the enrollment of additional students at the Morehead City Technical Institute, a functional branch of N. C. State College, Director Edward W. Ruggles of the College's Extension Division announced recently.

The Institute, which began operation last September, will register another group of students in Morehead City on January 2, Ruggles reported. The term beginning in January will end on March 18.

The purposes of the training offered by State College at Morehead City were listed by Ruggles as follows:

"1. To give technical training to young men interested in the maintenance, operation, and design of small craft as operated in the fishing industry, inland waterway transportation, and yatching in the waters of the Eastern Seaboard.

"2. To train young men interested in the electrical, radio, telephone, metalworking, woodworking, sheet metal, building, automotive, Diesel, heating, and other industries where technical training is essential."

Students who satisfactorily complete the requirements of the training will be given a certificate by State College and will be allowed to transfer many of their credits to the college in case they wish to take further academic training later.

Veterans are eligible for the education under the provisions of the "GI Bill of Rights," Director Ruggles explained.

### WVWP Finishes Best Term

This has been the most successful term in the history of the State College radio station, WVWP. Ably managed by Peter W. Swanson and his assistant, Bryant Williams, WVWP completes a term that has been distinguished by a high state of organization.

As an example, the station now has a program director for each night in the week. He gives assignments to the announcers and sees that appropriate records are played at the right time.

For the readers not reached by the station, we will explain that WVWP is limited by law to the campus. By a unique system, the signals go directly to selected buildings on the campus, not through the air, but through the power lines. "WVWP", an unfortunate name, was assigned by the FCC at the beginning of this term and stands for (W) the Voice of the Wolf Pack.

The local station is a member of a national network, the Intercollegiate Broadcasting System. IBS reaches 100,000 listeners through 52 members like WVWP and 18 "trial" members. IBS furnishes to members scripts, transcriptions, and advertising which runs into six figures annually.

Robert Landon, a Boston University graduate, is touring Europe interviewing young composers in each major city. His comments and their works will be put on 26 platters for distribution to all IBS members. WVWP also hopes to receive transcribed plays and concerts next term.

Pete Swanson, WVWP station manager, worked with the IBS main offices in New York last summer, exchanging ideas and picking up valuable tips. He introduced the policy of broadcasting out-of-town games. In order that the Davidson and Maryland games be presented, Frank Jarvis, chief engineer, spent most of his time at the beginning of the term building the necessary equipment.

WVWP has at the present one transmitter, located in the basement of 1911 Building under the VA offices. The studio and office is Room 202 in the Publications Building. For perfect coverage there should be a transmitter for every three or

### Lambda Chi's To Give Annual Xmas Party

On Monday the Lambda Chi's moved into their new house at 222 Hillcrest Road, and immediately made plans to revive an old pre-war custom; that of giving a Christmas party for the underprivileged children of Raleigh. The affair will be held at the chapter house Sunday afternoon, December 7.

The first of these annual festivities was held about ten years ago, and various local welfare organizations have, through the years, contributed towards making the event a worthwhile endeavor. This year the fraternity is receiving the hearty cooperation of the Raleigh Good Will Center.

The tiny guests will participate in various games and contests, and will all receive prizes and favors, but their supreme moment will come when good old St. Nick arrives with his bag of gifts.

four buildings, but WVWP is not well enough endowed for that.

### Band Climaxes Work in Parade

Leading the spectacular Christmas parade Wednesday afternoon, the State College Band completed a busy fall term schedule. It played at six pep rallies, three street parades, all of the home games, and three out-of-town games (Duke, Carolina, Virginia).

Despite limited rehearsal time, a different "half-time" show was prepared for each game. The most memorable of these were the wip-mill, formed while the band played "By an Old Dutch Mill;" the "C" which transformed into a revolving "S"; and the "choo-choo" which rolled down the field as the band played "Chattanooga Choo-Choo."

Bill Parks, lead Drum Major, proved an able drill master. Assisting in his twirling exhibitions were Francis Meiser, Bill Jenkins, and Ed Thomason. Officers of the Red-coat Band are "Montez" Goldston, president, Hurley Kind, vice-president; Paul E. Hine, secretary; and Jim Madre, librarian.

### Cadet Officer's Club Plan Military Ball

The Cadet Officers' Club held a business meeting Friday night, November 28. Primary purpose of the meeting was to discuss plans for the Military Ball. Although final details must still be ironed out, the following program was tentatively agreed upon. The Ball will be held in Frank Thompson Gymnasium on May 18, during Army Week, with ticket sales being restricted to R.O.T.C. students.

In addition to making plans for the Ball, the Club elected H. C. Marshall, first year advanced student, as Sergeant at Arms for the following year, and voted to adopt a Regimental insignia in the familiar wolf's-head design.

Christian Kutschinski, the director, announced that the band will concentrate, for the balance of this term, on preparing a repertoire of varied types of concert music. This is in preparation for a series of concerts to be presented during the winter and spring terms.

### Freshmen to Receive Engineer Information

By W. S. BULL

Dean J. H. Lampe of the School of Engineering announced last week that a new policy to aid freshmen in choosing the profession which they wish to follow has been adopted. Since so many of the freshmen in the future will be just out of high school and consequently will not have a sufficient knowledge of the various engineering fields to enable them to make a wise choice, entering freshmen will not be asked to give their choice of a curriculum in the School of Engineering. The policy calls for the freshmen to wait until the spring term to specify their choice.

This new policy will give the students time to think the matter over, find out around the school what goes to constitute each type of engineering, and then make a more intelligent decision.

The new program will endeavor to educate the students and not to guide him. All the facts will be placed before the interested young men. Efforts have been made to allow the new students to inspect the engineering labs and classrooms, talk with seniors in a particular field and find out exactly how they feel about that field; these will be no high-pressure sales talks—just plain facts.

Beginning in January, a day will be designated for each department to play host to those freshmen who will be ready to take advantage of this opportunity. Although each student who attends will be asked to register, it was emphasized by Dean Lampe that attendance to any of these functions will be completely voluntary and will have no effect on the student's schoolwork whatsoever.

This new "freshmen education" will be coordinated between the various departments and Dean Lampe's office. When applying for information from any department, the students will be shown around the department and given pertinent information.

### Hillel Meeting

Hillel Foundation will hold a Chanukah party at the State College Y.M.C.A. A symposium on the Palestine question will be conducted by C. C. Spectorman, Eliahu Swernowsky and Leonard Katzin, all recently from Palestine and at the present students at this school.

Movies on Palestine will be shown and supper will be served. All Hillel members are invited and urged to attend the party.

### Student Panel

A student panel will be conducted at the Wesley Foundation, Sunday evening, December 7, on the subject "Do Religion and Education Mix?" The program will include talks on "A Senior Looks Back on His Four Years at College," by Keith Howell, a graduate student; "A Senior Looks Ahead to His Work in a Community," by Jennings Teal, president of the Campus

Government; and "A Young Lady's Impressions of the Fall Programs," by Marianna Mizelle, a student at Meredith. A social period will follow the program.

Wesley Foundation meets Sunday night, at 7 p.m., at the Fairmont Fellowship Center, 2511 Clarke Avenue.

The Christmas Party will be held Saturday night, December 13, at 7 p.m., instead of the regular meeting December 14.

"My demands are a two-hour week on my homework—and a pack and a half of Dentyne Chewing Gum for overtime."

"Fact is, Pop, it'll even be a treat to study overtime—for a bonus of swell, nifty-tasting Dentyne Chewing Gum! And don't forget, Dentyne helps keep my teeth white, too."

## "MY HOW THE TIME GOES BY..."

when you're listening to HAL McINTYRE'S newest (MGM) record

ONE OF the grooviest ork-pilots on the MGM record roster is Hal McIntyre. Like so many other top-notch performers, Hal is a Camel fan from 'way back. He prefers Camels because: "Camels suit me best all ways."

For the same reason—more people are smoking Camels than ever before! A great new record for a long-time favorite.

Try Camels. Discover for yourself why, with smokers who have tried and compared, Camels are the "choice of experience."

*Hal W. McIntyre*

Nothing suits me like a **CAMEL**. I've smoked them for years!

R. J. Reynolds Tobacco Co., Winston-Salem, North Carolina

And here's another great record—

More people are smoking **CAMELS** than ever before!

(Addison)

Cartoon by Bill Addison

Prof. Santa dips into his Christmas Grade Bag.

**Merry Christmas**

With the end of one third of the year's work in sight we would like to look back on the past term with the idea in mind of profiting from the mistakes we have made and trying to avoid similar mistakes in the future.

On many occasions we have been criticized for omitting announcements and small news articles about various lesser organizations on the campus. Some people, usually those directly connected with the organization in question, seem to labor under the delusion that the omissions have been planned and premeditated. Such is not the case. Every week we have at least twenty small articles turned in that have interest to only a few. Each week we use as many of the small articles as we possibly can. There is no set pattern for choosing the small items that are to go in. The inclusion or omission of the articles is a function of several variables—the space available that week; the size of the article; the time the copy was turned in; and other things. We should not be condemned for occasionally omitting a small item which, at best, has dubious news value.

at the post office at Raleigh, North Carolina,  
under the Act of March 3, 1879.

Another point we would like to make is the excellent cooperation we have enjoyed from the members of the faculty and administration. Almost without exception they have been more than willing to give us every aid possible.

The print shop, which in other years, has been a source of many grey hairs to TECHNICIAN editors, has done a wonderful job in getting the paper out on time and advising us on technical questions. We should like to thank each member of the print shop force for the help and efficient service they have rendered.

Once more we would like to urge students—especially freshmen to join the staff. Anyone has an equal opportunity to make a place for himself on the TECHNICIAN.

With these observations we conclude publication for this term.

We would like to wish everyone a very MERRY CHRISTMAS and a HAPPY and FRUITFUL NEW YEAR.

**Congratulations Wolfpack**

The Wolfpack of State College, which may be down at times but never out, has once again proven that they are one of the football powers of the South. Head Coach Beattie Feathers and his staff have shown beyond the shadow of a doubt that they are in the select class of coaches that can produce winning ball teams. The players themselves have never given up for one minute, practicing and scrimmaging until long after dusk each night and then trudging home, or to their rooms, tired and sore only to have those tough engineering and textile studies smack them in the face; the same tough studies that we less brawny mortals spend every available moment on and still opine that "if there were 36 hours in a day I could get that stuff done."

Even after the humiliating defeat at the hands of the Tar Heels, they did not give up and say "Oh! What the hell is the use anyway," as many of the students did. They kept plugging away, day after day, never giving in to the pang of defeat and the many injuries that have plagued them all season. They kept fighting. They had that State College fighting spirit that won't let them say die, and their hard labors bore the fruits of three major upsets in a row.

Every loyal State College Student should be truly proud of the Wolfpack. They have exemplified the true spirit of State while some of us have merely stood around and mouthed about not having any spirit. Every student could well learn something from these men. They have given something to State College. What have you given?

G. O. H.

**According to Hoyle . . .**

The Wolfpack ended up a very satisfactory season by playing an inspired game against "favored" Maryland last Saturday, and all the boys deserve a big hand from the student body. We can think of no more appropriate phrase to bestow than that used by Lee Kirby last week, when he interrupted his broadcast from Chapel Hill to refer to that "amazing N. C. State team." We are sorry that more people weren't down at the station Friday night to give the 'Pack a better send-off, but considering the hurried and impromptu nature of the arrangements, the turn-out was about as good as could be expected. Zeb Jones and Bruce Beaman did a fine job of getting a lot of noise from a small crowd, and we are sure that the team realized we were all pulling for them. From now on our attention will be focused on a smaller and faster Wolfpack—our basketball team, rated among the best in the nation.

**WITH the GREEKS**

By TED WILLIAMSON

By TED WILLIAMSON

Delta Sigma Phi will celebrate Founder's Day with a banquet and dance at the Club Bon-Air Saturday night. Presentation of "The Darling of Delta Sigma Phi" will be one of the highlights of the occasion. The celebration will be attended by many alumni and friends of the fraternity.

The social life on the State College campus is slowly giving way to more serious matters, such as trying not to "bust out" of school. Most of the fraternity houses will be scenes of study and last minute cramming between now and the, oh-so-welcome, Christmas Holidays. Until then, the news from the Greeks will be at a minimum. Maybe then, this would be a good time to look at fraternities from a distance.

It was in 1776, the year that means so much to every citizen of the United States, that Phi Beta Kappa, the first American college Greek-Letter Fraternity, was born. Soon after, however, it became, and has since remained, a purely honorary society. The Kappa Alpha Society (not the KA Fraternity) is, therefore, the oldest secret fraternity of a social nature which has been in continuous existence in our colleges. It was founded at Union College, Schenectady, New York, on November 26, 1825. This society has remained very small, having only 8 active chapters. Following in the pattern of the Kappa Alpha Society at Union College, two other Greek Societies were founded in the next two years, Sigma Phi and Delta Phi. These three have been the pattern of the American Fraternity

system. Sigma Phi was the first to place its second chapter, doing so at Hamilton College in 1831. One year later Alpha Delta Phi was formed at the same place. From there the fraternity system was extended to Miami University, Oxford, Ohio. Miami was the birthplace, in 1839, of another fraternity, Beta Theta Pi and, a few years later, Phi Delta Theta. Then in June, 1855, a disgruntled faction of Delta Kappa Epsilon at Miami, organized Sigma Chi.

About the same time that Sigma Chi was being formed at Miami University, a group of eight students at the University of Alabama were giving consideration to the founding of another new brotherhood, with the result that, on March 9, 1856, Sigma Alpha Epsilon was born, the first Southern Greek-Letter fraternity. It was after the Civil War, especially in the South, that many new fraternities were born. Thus, at the Virginia Military Institute in 1865, Alpha Tau Omega was formed and followed by Kappa Sigma Kappa and Sigma Nu in 1869. Washington and Lee University was the site of the formation of another Southern fraternity, Kappa Alpha, in 1865. The following year, Kappa Sigma and Alpha Gamma were formed at Cumberland University.

Fifty years ago, the fraternities were classified quite generally according to the place of their origin. Today, however, they are classed according to geographical distribution, National, Southern or Eastern. Those Nationals found on our campus are: Lambda Chi Alpha, Kappa Sigma, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu and Sigma Phi Epsilon. Southern group consists of: Kappa Alpha, Pi Kappa Phi and Pi Kappa Alpha, though the latter has placed some chapters in the North.

The college fraternity has its human ends and purposes and, like everything else, it has its faults. As an institution it is human. It promises to profit by its errors, to avoid repetitions of wrongs and at the same time, to serve its members and their colleges in a wholesome and honorable way. We hope that the institution of the college fraternity may continue to grow and to prosper.

**Sharps and Flats**

A new production called "High Button Shoes" has been vibrating up and down the "Musical Corridors of the Great White Way." Many musical hits have already been acknowledged by the public. Among them are "Papa Won't You Dance with Me?" and "I Still Get Jealous" ". . . Jealous" is a bright bouncy tune to which Harry James and Buddy Di Vito do honors. Harry opens with a playfully brilliant muted trumpet solo; Buddy Di Vito takes the vocal after a dazzling full-band modulation and ends the record on a sustained note with the band in a rousing background climax.

"Papa Won't You Dance with Me" done in a polka style with a heavy two-beat orchestra backing, Doris Day captures the exuberant mood of this lively dance. Doris' omphly and devastating feminine voice is right at home on the wistfully attractive ballad.

"Rhumba Fantasy" is an entrancing adaptation from Rimsky-Korsakov's "Capriccio Espagnol" and captures the wonderful spirit the title implies. Cugat's full range of melodic, harmonic and rhythmic possibilities is exploited and this is unquestionably one of his greatest records.

**Termite Sounds Off**

States Collich  
West Raleigh, N. C.  
December 5, 1947

Dear Santa,  
It has been a long time, suh, since I took time out to write you. You and the "Y" are about the most dependable friends we students have. I have a few favors to ask of you. Yes sir, I have been a good pest. I haven't reamed the administration much, not very much, not enough anyway. I have busted my share of quizzes; so I think that I been as much trouble as the average student here—maybe more. My needs follow. . . .

Bring me a pair of snow shoes so that I may negotiate the Court of N. C. in the rainy seasons. Also include a sky hook so that I might have something to hold to when riding a city bus. Then, too, I will need some extra vitamin pills to survive the long lines for registration and books at the beginning of the Winter term.

Seriously, please include some more understanding so that we students can understand all those decisions the administration makes for us. Let us realize that most of the time that they are for our own good. Also, leave a little understanding with the big boys, 'cause they don't always appreciate our plight.

Now back to my other "needs." Please bring the clerks at the Mop-up more pleasing dispositions. And could you return those generous helpings to the cafeteria? And everybody has to have something sweet at Christmas; Santa, so bring us a whole sleigh load of beautiful coeds to landscape the campus! Well, I guess that these few presents will get me over the hump until June. Wait! Hold it! The freshmen have requested that I ask you to hold the flunks in chemistry to 99 per cent this term. That is all.

Your ever faithful wood worm,  
Termite.

Zuckerman Says...

# Price Controls Only Solution To Inflation

By BERT ZUCKERMAN

About a month ago, in the TECHNICIAN of Oct. 27 to be exact, I wrote an article on the rising cost of living. As a possible solution to this untenable situation I suggested that price controls be reinstated—price controls comparable to those of O.P.A. days. Several weeks elapsed during which time grumbings were heard from all parts of the country, all heading in the same direction, Washington. Then it happened! Congress reconvened in emergency session at the request of President Truman. In his opening address the President tossed an economic bombshell right into the laps of Congress. He outlined a plan of economic controls which overshadowed by far any powers previously held by a peacetime President.

Briefly summarized they are as follows:

1. Reimposition of price ceilings on essential cost of living items (food; clothing, fuel, etc.) and basic industrial materials.

2. Ration basic cost-of-living items as a preparedness measure.

3. Prevent wage increases.

4. Extend and strengthen rent controls.

The purpose of these drastic measures is to prevent high prices and hold down ruinous inflation. But how do they affect us?

It is obvious to every student who has been in school the past few years that the American Standard of living has fast been lowering. Ex-G.I.'s are doubly aware of this because they are forced to live on a fixed income.

You might have scraped by at \$65 per when you first came back to school if you had had to, but try it now and you will soon look like an adherent of Mahatma Ghandi. There

are large segments of our population with incomes such as this—there is even a larger segment whose salary never keeps up with the price rises.

If and when these points are ever written into law and passed by Congress there will be plenty of griping. Big business will howl about the government interfering with free enterprise and point out the impracticability of enforcing such measures. Maybe the government will be meddling in business, maybe the law would be enforced only with difficulty; but at least the American people will have a toehold on the problem which threatens to ruin our economy. If the start isn't sufficient to cope with the problem, we can adjust it, and readjust it if necessary. But there is one thing you can be darn sure of. We will never lick inflation and its associated evils by talking about it. Remember! Inflation means less radios, less cars, less of everything including vitamins for your children. So, friend student, this is your problem and mine too. How we live in the future will depend on how we act today.

## New Dormitories Near Completion

The rough framework of concrete and steel that once stood to the southwest of our campus is now fast becoming two modern dormitories. Work is progressing steadily in both of the buildings and most of the rooms are complete except for the hanging of doors and installment of fixtures and heating units.

Mr. Morris, Superintendent of Physical Plant of the College, stated that it is doubtful whether the buildings will be ready for occupancy at the beginning of the win-

ter term, but that they should be ready by March.

The physical appearance of the two dormitories is modern both inside and out. Constructed of brick, each building is low and built in the shape of an L. The buildings face each other so that a large space for shrubbery and walkways is left between them. The individual rooms measure 14 by 11 feet, and number 200 to each dormitory. Terrazzo flooring is used in the rooms as well as in the halls. Each room has one large window, two individual closets with locks, lavatory and shaving closet. Three students will be permitted to a room.

## Business, too, must have expert navigation

IN the telephone business, much of the knowledge of "where we are" and guidance as to "where we are headed" comes from the analysis of statistics.

Telephone statisticians and engineers are constantly studying trends and figures. They assemble the facts, analyze them, correlate them, discover their significance, draw guidance from them.

The work of these men is vital to our never-ending task of improving telephone service. In such work many college-trained men have found satisfying and rewarding careers.

And this is but one of the many interesting phases of the telephone business.

There's opportunity and adventure in telephony.

## "Y" Has Varied Fall Program For Students

By GILBERT MAXWELL

Adding many special projects to its usual services, the State College YMCA has had one of the busiest terms in its long and eventful history.

The Y began the term in grand fashion with a pre-college retreat for about 80 promising freshmen and a retreat for cabinet members at Camp Edgerton. However, the biggest projects of all were the short course in love, courtship, and marriage by Mrs. Mildred I. Morgan; and the construction of a community center in Verville. Interest ran high at Mrs. Morgan's lecture series, with large audiences and numerous questions and personal interviews. The community center is supposed to be completed at a reasonably early date at a cost of \$12,000. This project has the support and approval of the administration and practically every campus organization.

In line with its regular service program, the Y has handled an average of 800 telegrams a month this term, as well as operating a directory for telephone calls. Also, the YMCA opened a barber shop in the basement for the first time since 1943.

### Freshmen Fellowship Formed

A Freshman Fellowship Club was formed midway of the term, and it has sponsored programs, speakers, and deputations as part of its program. It has brought Mrs. Isabelle Henderson and Warren Barfield to the campus and sponsored parties at Peace College, the Woman's College at Greensboro and Rex Hospital.

Among the more notable persons brought to the campus by the Y were Victor F. Yates, member of English Parliament; Wilmer Kitchen, WSSF Secretary, and his associate, Mrs. Phillip Farley; and Dr. Clarence Shedd, noted program authority for religious organizations.

In addition to this, the Y has sponsored a pep rally, published the State College Handbook, sponsored Vesper Services in cooperation with other religious groups on the campus, and sponsored a Thanksgiving service for students who could not go home for the holiday.

### Coffee Hour Again

On the program for the last two weeks of the term is a drive for old clothes to be used for local welfare, a Christmas program on Thursday night featuring readings by Mrs.

C. G. Doak, and coffee hours from nine until twelve every night during exams.

Members of the Y have assisted in registration and in giving the personnel department's placement tests while members of the cabinet exchanged programs with the Y cabinet of Shaw University. Marshall Propst, vice president of the Y, will attend a conference on American religious frontiers in Lawrence, Kansas during Christmas holidays. He will be accompanied by cabinet members Worth Stinson and Frank Hildebrand. The Y also contributed as an organization to the construction of the State College Day Nursery.

## New Assistant

## Weaver Gets Appointment

Prof. David S. Weaver, head of the Department of Agricultural Engineering at State College since 1923, has been appointed assistant director of the College's Agricultural Extension Service, effective January 1, Director I. O. Schaub announced.

Director Schaub said Professor Weaver will be responsible for the coordination of subject matter information to be distributed to the farmers of the State and will coordinate the work of the specialists on the Extension Service's staff.

The new assistant director will also keep in close contact with the research work being handled by the North Carolina Agricultural Experiment Station in order that he may dispatch the results of the

research directly to the farmers of the State, Director Schaub stated.

In an effort to maintain a closer relationship with the farmers and their families, Professor Weaver will bring back the technical problems arising in the field to the college's research laboratories for study and possible solution, Director Schaub said.

Director Schaub said that John W. Goodman, who has been assistant director of the Extension Service for many years, will remain in his present post and will continue to be responsible for the supervision of the Extension Service's functions, working through the district agents and the county farm and home agents in all of the 100 counties of North Carolina.

Are you dough-shy? Get us! We give the stuff away. Folding money, too. Yes sir, Pepsi-Cola Co. pays from \$1 to \$15 for gags you send in and we print. Why worry about an honest living? This is easier. Just send your stuff, along with your name, address, school and class, to Easy Money Department, Box B, Pepsi-Cola Co., Long Island City, N. Y. All contributions become the property of Pepsi-Cola Co. We pay only for those we print.

There's nothing to it—as you can see from the samples below. If, by coincidence, the words "Pepsi-Cola" turn up somewhere in your gag, don't worry about it. We don't mind. (Matter of fact, we kind of like it.) So start your stuff in now—for Easy Money.

### GOOD DEAL ANNEX

Sharpen up those gags, gagsters! At the end of the year (if we haven't laughed ourselves to death) we're going to pick the one best item we've bought and award it a fat extra

**\$100.00**

### LITTLE MORON CORNER

Our well-known moron-about-campus, Murgatroyd—now a student in the school of agriculture—has developed a new theory on sheep-feeding. He makes a daily ration of Pepsi-Cola an important part of their diet. "Duuuuuuuuuh, of course," said Murgatroyd recently, when questioned as to his reasoning, "everybody knows that Pepsi-Cola is the drink for ewe!"

*\$2 apiece, believe it or not, for any of these we buy!*

## Get Funny . . . Win Money . . . Write a Title

This is easy as falling off a log. A small log, that is. Just send us a caption for this cartoon. The best line gets \$5. Or you can send in cartoon ideas of your own. For cartoon ideas we buy, we pay \$10 apiece . . . \$15 if you draw them.

## HE-SHE GAGS

If you're a He, and know a She—or vice versa—this should be your meat. Here's your chance to strike a blow for the home team in the battle between the sexes—and maybe win three bucks besides!

He Ubangi: I hear that Mbongo has left his wife.

She Ubangi: Really? Why?

He Ubangi: He says that every time she drinks a Pepsi, she smacks her lips, and he can't stand the clatter.

He: Why do you call my date "Pepsi," when her name is Betty?

She: Oh, we all call her "Pepsi" because she goes with anything!

He: I never knew what real happiness was until I married you.

She: Darling!

He: Yes, and by then it was too late.

Three bucks apiece for each of these we print. Let your conscience be your guide.

## Daffy Definitions

Here's a column that must have some deep underlying significance. Darned if we know what, though. All we know is that these rate a buck each—and the daffier, the better.

Frustration—having a Pepsi-Cola and no bottle-opener.

Stork—bird with a big bill.

Professor—textbook wired for sound.

Thirst—obsolete term; dates back to pre-Pepsi-Cola era.

Cooperation—one bottle of Pepsi with two straws.

Paying \$1 apiece for these is like giving you a license to commit burglary. But—\$1 apiece for those we buy.

## Course In Journalism To Be Offered Here

"Principles of News and Article Writing," a course in journalistic writing, is being offered for the winter term provided a large enough class can be enrolled. The response as yet has not been adequate to warrant the scheduling of the course. All students interested in this style of writing are urged to see Dr. Hartley, Pullen 102, in order that he may have some estimate of the number desiring to enroll in the course. Dr. Hartley is attempting to make it possible for students to take this course in place of Business English.

This is to be a test case for Journalism courses on the campus. In past years, several such courses were taught here but recently none have been available. If enough students enroll in this course, an attempt will be made to establish Journalism courses here.

One of the main hinderances to date has been the absence of a suitable instructor. Mrs. A. T. Wallace, graduate of the journalism school at the University of Georgia, is now on the English staff and will conduct the course, provided a sufficient enrollment is in the offing.

Mock U. N. Assembly

The International Relations Club of State College recently held a mock session of the United Nations General Assembly as a means of becoming more familiar with UN procedures and of achieving a fuller understanding of current world-wide problems. Top picture shows Secretary of State Thad Eure (extreme left) as he presided over the meeting, which was attended by students from Meredith, Peace, and State College. Representatives, whose countries are indicated by the name card shown in front of the seats, were assigned to all 57 nations in the UN organization. Ernest Colton of Hendersonville, a State College student, arranged the event, which featured a full agenda of international issues.

Co-op Planned By Verville Residents

By BILL AILOR

With the new Community Center expected to be finished in about six weeks, plans are underway to set up the Verville Mutual Plan Store in the basement. A committee headed by Alderman Eddie Copeland, and including Aldermen Phil Moore and Joe Brice, has drawn up the following program. Secretary Fred Whitfield acted as advisor for the group.

It is proposed that the store be established on the mutual plan, with a minimum cash base of \$3,000. To provide this sum, 200 or more shares of stock at \$15.00 per share must be sold. Other general provisions include:

1. Members may be residents of Verville or vicinity as long as they are veterans and are enrolled at N. C. State College. (Faculty members filling these qualifications will be eligible.)
2. Stock will be sold one share

per person only.

3. Withdrawal from membership may be at any time up to the adoption of by-laws, after which time withdrawal will be controlled by the by-laws. (These by-laws will be voted on by all members at the organization meeting.)

4. Distribution of earnings may be set annually, based on patronage, and at dissolution. State laws control the distribution at the time of dissolution.

5. Groceries, meats, soft drinks, ice cream, tobacco, baby food, and other items will be sold on a cash basis.

Prices will not be wholesale—any saving will come from sales volume only. The plan is to provide a convenient store for Verville residents. Purchases will not be restricted to stock-holders.

The deadline for subscribing for a basic share of stock is 6 p.m. today. The Council will meet at 8:15 tonight to report the results.

Persons qualified to manage a store or to clerk in a store should contact Eddie Copeland at Apt. 16-A at once.

Initial costs will total approximately \$2,523, with the refrigerator costing \$1,000, the drink box \$200, cash register \$150, and insurance, charter, membership cards, fuel, taxes, and equipment making up the balance.

Concert To Feature Meredith Choir

The State College 30 piece Little Symphony Orchestra and 50-voice Men's Glee Club in combination with the Meredith College Choir of 80 voices will present two performances of a special Christmas program on Sunday, December 14. The afternoon performance will be staged at Meredith College Auditorium 3:30, while the evening performance will begin at 8:00 o'clock in Pullen Hall. Last year both performances were attended by capacity crowds. This year's program is entirely different, but is predominantly in the Christmas spirit.

Handel, Bach, Haydn, Bortnianski, Tchaikowsky, Rimsky-Korsakoff, and Pietro Yon are among the composers represented. In addition there will be a sprinkling of old French and English carols of the 14th and 16th centuries; and, to bring the Christmas spirit up to date, Irving Berlin's "White Christmas" will be included.

To Share Podium

The conductor's podium will be shared by Dr. Harry E. Cooper, director of music at Meredith College, and Christian Kutachinski, Director of Music at State College. The Meredith Choir and the State College Glee Club will each present a separate group of numbers in addition to the mixed chorus offerings accompanied by the orchestra. The orchestra, before accompanying the large chorus, will open the program with a potpourri of familiar Christmas songs. They will also play the Pastoral Symphony from Handel's "Messiah."

There will be no admission charge, and it is hoped that the two performances will make it possible for everyone who desires to attend at least one of the performances.

The U. S. Air Force offers you

**\$336 a month** one year after graduation

THAT'S what you can earn after completing one year of pilot training and winning your wings in the Air Force.

It is a good deal from the start. While you're an Aviation Cadet you draw \$75 per month, plus food, quarters, uniforms, medical and dental care. After successfully finishing the course, you are commissioned a Second Lieutenant, Air Force Reserve, and assigned to active duty with the Air Force at \$336 a month (including flight pay), with excellent chances for further increases as promotions come through.

In addition, you get an extra \$500 for each year of active duty, and will be given a chance to compete for a commission in the Regular Air Force if you are interested in a service career.

This opportunity, which cannot be duplicated anywhere else at any price, equips men for well-paid, responsible positions throughout the aviation industry, at high pay from the beginning. It

is open to you if you're single, between 20 and 26½ years old, and have completed at least one-half the requirements for a degree from an accredited college or university (or pass an examination measuring the equivalent). Ask for details at your U. S. Army and U. S. Air Force Recruiting Station, or write to Headquarters, U. S. Air Force, Attention: Aviation Cadet Section, Washington 25, D. C.

U. S. ARMY AND U. S. AIR FORCE RECRUITING SERVICE

**NOTE:** If you were awaiting assignment or taking training when the Aviation Cadet program was cut back in 1944-45, you can re-qualify simply by passing the physical examination, provided you meet the other requirements listed above. Write for information to Headquarters, U. S. Air Force, Attention: Aviation Cadet Section, Washington 25, D. C.

CAREERS WITH A FUTURE

# Many Beauties Entered In Contest

HELEN TOMLISON

Last Sunday night marked the end of the beauty contest that has been sponsored jointly by the TECHNICIAN and the Agromeck to find material for a special beauty section in this year's annual. With last week's announcement of the ending of the contest came a deluge of entries from the students, bringing the total number entered to the astronomical figure of . . . about 80. Pictured here are two more of the entrants, the last two the TECHNICIAN will print. The pictures will be judged at the end of this term and all pictures will be returned as soon as possible. Students who entered a picture are requested to refrain from inquiring at the office about the pictures. Notice will be given when the pictures are ready to be returned. It is hoped that this will be soon. The TECH-

LUCILLE KIRK

NICIAN and the Agromeck wish to express their appreciation for the interest shown by the students. Their are many good pictures, and consequently judging will not be easy. We hope you approve of our selections.

# To Aid Shortage Of Agricultural Workers

State College this week announced plans to help relieve the shortage of trained workers in agriculture and allied businesses.

Five short courses, offering intensive training in essential farm skills, will be held during January and February, Eugene Starnes, assistant director of the College's Extension Division, reported.

Four-week courses in dairy production and in crop growing will be held from January 5-31. A fieldmen's short course will be conducted January 22-23, and a short course in market milk will be offered February 2-14. The final course in the series will be an instruction period on ice cream making extending from February 16-28.

Bulletins explaining the content of the various courses may be obtained by writing to Starnes at

# Alpha Zeta Presents Ag Club Program

Plans for the Ag Club's annual Barnwarming were discussed at this week's meeting of the organization. Final plans will be announced at a later date.

Alpha Zeta, Agricultural Honor Society, presented the program which consisted of everything from solos to a debate on the superiority of the safety pin over the button.

State College. Application blanks for admission to the courses also may be secured from him.

Starnes urged prospective students to apply for admission immediately in order that college authorities may make final provisions for the instruction.

Veterans may take the training under the provisions of the "GI Bill of Rights," Starnes stated.

# Sophomore Hop Scheduled For Spring

In a meeting held in Pullen Hall on Tuesday, the Sophomore Class voted to collect dues from its members in order to have funds with which to hold the annual Sophomore Hop. As has been done in the past, the Hop will be held in the Spring term on a week end soon after the opening of school. The band which will furnish the music for this function has not been chosen; but plans are to make this the biggest and best Sophomore Hop yet, according to information received from the dance committee.

Dues of two dollars for each member of the class are to be collected at Winter Term registration and all members not paying their dues will not be considered members in good standing and will not be entitled to attend class social functions. All members of the class are urged to pay their dues since plans for the dance can not be made until funds are on hand to cover the cost. It was also pointed out that since there are about 2,000 members of the Sophomore Class, the largest ever at State College, those who pay their dues first will be given first consideration should the dance have to be divided between two dates. Members of the class should be ready to pay their dues when they come to school on January 2 and 3, since these are the only dates on which collections are planned.

# Special Rehearsal

The Glee Club and the Orchestra will have a special rehearsal at Meredith College Auditorium Sunday afternoon at 2:15. Rehearsals next week will be in Pullen Hall at 7 o'clock Monday, Tuesday, and Wednesday for the Glee Club, and Wednesday at 7:30 for the Orchestra.

# Respite From Exams — Free Coffee

The YMCA has made arrangements to serve coffee during exam week. From 9-12 p.m., during the week beginning Thursday, December 11, and ending the following Wednesday, hot coffee will be served at the YMCA.

Students are requested to bring old clothes for needy Raleigh families when they visit the Coffee Room.

## SPORTS TALK

By MAC McDUFFIE

After one of the most successful seasons in their history, the Red Terrors have died, but, under the label of Wolfpack, Coach Everett N. Case's basketball quint are seeking new laurels. It has been decided to drop all names for athletic teams at State except Wolfpack in an effort to obtain greater recognition and less confusion.

The basic reason for adopting the name Wolfpack instead of Red Terrors was that it was known in more areas. Whether that be a fact or not, it is known that teams at State have been called Wolfpack longer than Red Terrors.

Dr. David A. Lockmiller, who compiled and wrote "History of North Carolina State College," says that the football team of 1921 was called the Wolfpack. His first reference to Red Terrors was in 1923. Well, now it is Wolfpack and may every sports fan in the nation know where the Pack is from within the next few months or years.

Incidentally, if you'd like to know more about State, Dr. Lockmiller's book is interesting, educational, and entertaining. He was formerly with the history department here at State. A few facts collected from his book trace the growth of athletics at State.

In 1893, the Board of Trustees decided that State's athletic program needed enlarging, so \$50 was voted for that purpose. An additional \$30 was appropriated in 1899 to

equip a gym which was to be in Main Building.

A victory over the University of Tennessee in 1893 was the first football game that a State team had ever won. The Vols were trimmed, 12-6, on a field marked off with a plow and which had ditches for the goals. The contest was played without coaches, money, and suitable uniforms.

Rivalry between engineers and agriculture students at State during the first ten years of existence was greater than intercollegiate competition, however. Occasionally, the two groups would meet in free-for-alls. According to Dr. Lockmiller, the Ag boys received a considerable portion of their education in the fields and were usually able to turn back the engineers.

### Dickey and McComas Lead Cagers to Win

Coach Everett Case's defending Southern Conference basketball quint opened their season with a decisive 77-56 triumph over Hanes Hosiery in Winston-Salem last Tuesday night, after being deadlocked 35-35 at the half. It was the first regular season game for the Wolfpack which had already posted smashing victories over the 82nd Airborne Division and Chatham Mills in practice games.

Jack McComas and Dick Dickey were the stars of the win. Each collected 18 points to tie for high-scoring honors. Ed Bartels ripped the cords with 13 points. Greer, with 17 points, paced the Hanes' attack.

#### 13 Players

Coach Case used 13 players against the Winston crew, and his starting lineup consisted of three sophomores, one senior, and one freshman. Dickey and McComas got the starting nod at forward, Bartels and dependable Leo Katkaveck got the guards berths, and Freshman Paul Horvath of Chicago drew the bid at center. Katkaveck is the lone senior on Coach Case's 15-man squad. He is serving as captain until the team selects one.

Horvath is filling in at center, replacing Pete Negley who transferred to American University. Paul, a rangy six-foot, six-inch pivot man, has already established himself as a great defensive player,

### Coach Everett Case Starts Second Year With Wolfpack

Coach Everett N. Case is on the spot. He came to State last year and won the Southern Conference championship with nine freshmen and one sophomore. In addition, his cage quint was invited to the National Invitational Tournament where he beat St. John's and West Virginia, despite the fact that he was not expected to beat any of the teams in the tourney. Kentucky, the team which eliminated State, was the only outfit that defeated the Wolfpack last year without losing to Coach Case's outfit in a return game. Kentucky played State only once.

This year, fans, students, alumni, and opponents are putting the favored finger on the Wolfpack. Coach Case, however, realizes that his team has one of the toughest schedules in the history of the school and also that opponents will be at their best in an effort to stop the Wolfpack.

Coach Case has quite a record behind him. He was graduated from the University of Wisconsin in

and a good shot from the ring.

In early games, the Wolfpack has played fast ball, but the shooting has not been too accurate. However, State's average scores for three games have been over 78 points.

1923 as a major in physical education and education and later earned his masters degree at the University of Southern California.

He began his coaching career at the age of 18 years, starting at Connersville, Ind., High School. There but a year, he shifted to Columbus High in Indiana and in the next two seasons he took his teams to the Hoosierland state tourney.

Case moved to Frankfort, Ind., High in 1922 to begin a 20-year coaching reign that is unequalled in Indiana's hotbed of basketball. His Frankfort teams played in every state tournament from 1922 to 1931, winning the championships in 1925 and 1929.

In 1931 Case went to Anderson, Ind., High, remaining there two years, then moving to the University to assist Sam Barry with the Trojan junior varsity. On the side, while there, he coached the Firestone Californians, who won the all-Pacific A.A.U. title in 1933.

Case then returned to Frankfort, Ind., High, and won the State championship in 1936 and 1939.

In the 19 years Case coached at Frankfort his teams were in the state tournament 17 times. In winning state titles in 1925, 1929, and 1939, he has the distinction of coaching the only teams ever to win the Indiana championship four times.

Case also coached the Hammond, Ind., Cieser's in the National Pro league in 1941.

He was commissioned in the Navy in 1942, took his indoctrination at the United States Naval Academy at Annapolis and was sent to the cadet selection board in Chicago. He later served for a time at St. Mary's Preflight on the West Coast and at the Naval Air Station at Alameda.

Assigned to DePauw University at Greencastle, Ind., he coached the Navy team to 29 wins in 32 games, his outfit taking the Indiana State Service championship and, among others, beating Purdue in the 1943-44 season.

Following his tour of duty at DePauw, Case was made athletic director at Gross Ile, Mich., and he was assigned to the Ottumwa Naval Air Station in January of 1945. Named athletic director of the station, he also assumed the basketball coaching duties. His Iowa Seahawks won 27 of 29 games, beating, among others, the Wright Field Kittyhawks of Dayton, Ohio, generally rated one of the toughest service teams in the country, and the St. Mary's Preflight team of the West Coast.

During his 20-year career as an Indiana high school coach, he developed such stars as Jay McCreary, Indiana University ace; Ralph Vaughn, Southern California star, and Bob Kessler of Purdue, all of whom gained All-American intercollegiate fame.

### Charlotte Club Meets Next Wednesday

The Charlotte Club will hold its last meeting of the Fall term next Wednesday night in the Auditorium of the YMCA. All members of the Club are requested to attend this meeting, as assessments must be in by this time. All honorary members of the Charlotte Club are requested to get in touch with their Dormitory or Fraternity representative in order to pay their assessments for the Christmas dance.

# Fall Intramural Program Entering Into Final Stages

## Brenner Offers Comments About Teams and Players

By HERB BRENNER

The curtains are about to be dropped on the initial quarter of intramural sports, a quarter that has been filled with some of the keenest competition ever witnessed on State campus as the fraters and the dormmen are preparing to play their final games of the season in football and volleyball. While we will not be able to bring you the final scores as this paper goes to press, we will pass on to you the names of those teams who have played a successful enough season that they have found themselves in the championship playoffs.

### Top Teams

As we look on the gridiron side of the picture, in the frat division we see the mighty, potent P.K.A. nine preping to match wits with the "Slinging" SPE's for first place honors. The PIKA's, bolstered by one of the hottest men of the turf, "T.D." Holloman will feature their ever determined attack through the air and on the ground to attempt to take first place glory when these two strong teams meet. Cramer, Muller, Freeman, and Sutton will give well-supported aid to the PIKA attack. Meanwhile, the all important SPE's are not to be overlooked as they too present a strong and talented aggression in the final game of the season. Hobbs and Fetner, the two gentlemen that have made the SPE's click all season are expected to turn in the top performance of their brilliant intramural careers, and aiding these two will be Fleming, Foreman, Helms, and Swartz, all of whom have seen plenty of action during the term and who will be in high gear for the all valuable tilt.

### Runnersup

In the game preceding the championship tilt, students will see two great teams battle on the turf for 3rd and 4th place honors. Sigma

Chi, the fighting 'SIGS,' versus Sigma Pi in a game which will be filled with all the splendor of old traditional rivalry. There are going to be nine men on the field that will make it plenty hot for the Sigma Pi's to travel the yardage. Among these Sigma Chi's that will attempt to stop the Sigma Pi's will be Thompson, Sheppard, Coleman, Glenn, Moffatt, and Smith plus a lot of able subs who will, if the game permits, or should I say the score permits, see limited action. However, on the Sigma Pi side of the fence, the victory looks bright as Sherril, Hoffman, Myatt, Moore, and Groves prep for this all important encounter. These fighting "PI's" will make the turf look plenty hot for the Sigma Chi's when the initial whistle blows and until the final gong is sounded.

### Volleyball

In the Volleyball side of the fraternities, we again see the same two rivals battling it out for first place honors, the PIKA's and the SPE's. These two teams are also playing for top place honors in the football division. Playing for 3rd and 4th place honors AGR, lost to Sigma Chi by the scores of 15-2 and 16-14. A fine game all the way.

And over in the dorm part of State campus, we find a strong and talented 3rd Bagwell team waiting to play the winner of the 2nd Turlington-1st Becton game. These three teams plus Trailwood and Vetville are the remaining teams in the dormitory league who will fight out for top titles in the remaining games to be played. In the Dormitory volleyball division, the teams

who will compete for the championship crowns are Berry, 1st Becton, Vetville, 3rd Becton.

That more or less closes the frame on intramural sports for the present, but we would like to let all those tennis enthusiasts who were deprived of their sport due to some terrible weather, that the sport will be continued in the Spring term.

And with the closing of one term, we look to the opening of another and in the intramural sports at State we will find basketball, table tennis, swimming, and wrestling on the card, so there will still prove to be keen rivalry when school begins again in '48. This is the bright side of coming back to school after a long Christmas vacation. These schedules of events in the above-listed sports will be posted as soon as they have been compiled and events should start rolling off around January 7.

### Outstanding Players

I would just like to mention to you, followers of intramural sports a few of the men that have distinguished themselves throughout this term in such a manner that we think they deserve a little space and a little pat on the back. On the head of my list comes invincible Holloman, ace star for the PKA nine and a gallant football gridster who has without a doubt been the main plug in the strong PIKA attack. Likewise over in the Welch side of the campus, we salute chocky "Rock-aby" Credle, Durham lad who made an impressive show with his superb passes which led Welch to a few victories, though they did not come out with a record that was too impressive, Credle powered their surge and deserves a lot of credit in the aerial department. Fetner, S.P.E. tiltman has lead his fraters to the final game

## Al Phillips Gets Mention On All-American Selection

Al Phillips, senior end for the Wolfpack, was among the honorable mention on the Associated Press All-American selections. He represented the only candidate from State to get mentioned on the all-star outfit.

It was a honor befitting Al, who came back to State after duty in the army and has played two of the best

years of football in his career. Al has been one of the workhorses on the team and one of the greatest boosters of spirit and moral among teammates that has ever played with a Wolfpack squad.

Al has been selected as captain for the past two years by Coach Beattie Feathers. For his great defensive ability, he gets the nod from End Coach Lyle Rich, who lists Al high among the defensive ends in the nation.

Al is a senior in textiles. He is a native of Cary, N. C., where he was a star athlete. Before coming to State, he played some football for Raleigh High School. He is married and has one child.

of the season, a lad who has showed strong abilities in all departments, and his fraternity mate Hobbs, also a strong threat to S.P.E. opponents. Foreman of the SPE's has also made a favorable impression on the gridiron this past season. While it (Continued on Page 12)

## WHAT IS A "THRIFTY"?

WELL ...

We made an adjective

Into a noun, that's all.

A "thrifty" is a person who looks for

Three ingredients in every clothing purchase:

1. Style—good looks, comfort, fit.
2. Quality—fine fabrics, fine workmanship.
3. Value—your money's worth and more.

It means a person who buys Arrow products.

PS—You'll always get a good deal at your Arrow dealer's.

## ARROW SHIRTS and TIES

UNDERWEAR • HANDKERCHIEFS • SPORTS SHIRTS

Do you buy \$50 shirts?

\$35 neckties?

... if so—read no further

BUT ...

If you are a veteran—on a G.I. budget ...

If you don't light your cigars with five dollar bills ...

If you want VALUE, QUALITY and AMERICA'S FAVORITE COLLEGE STYLES ...

### "ASK FOR ARROWS"

Shirts .....	from \$3.25
Ties .....	1.00
Shorts .....	1.00
Undershirts .....	.85
Sports shirts .....	4.25
Handkerchiefs .....	.35

*Lewis West Hargett*

ARROW SHIRTS AND TIES

The end of the season draws nigh  
The Wolfpack came thru flying high.

# Wolfpack Plays Maryland Terps to Scoreless Deadlock

## Grid Team Finishes Season With Third Straight Upset

The State College Wolfpack battled the Terrapins from the University of Maryland to a scoreless tie in their last game of the season at College Park, Maryland, last Saturday. Both teams came close to scoring, but could not find the extra push necessary to carry the ball over the double stripe. State was a pre-game underdog, a role which they have filled for the last three games; and the Wolfpack surprised the Terrapins just as they did the Cavaliers and Demon Deacons.

### Costly Penalty

The Wolfpack scored in the second period on a pass play from Gwynn Fletcher to Fred Miller that covered seventy yards, but the play was called back when State was

penalized for holding. Another pass, which George Blomquist took from Charlie Richkus, almost resulted in a score; it was completed on the fourth down to the Maryland one-foot line.

The Terrapins drove inside the State twenty yard line four times before the Wolfpack stopped them and kicked out. Both teams had more strength on defense than they had on the offense. And what offensive power was displayed was on the ground. State tried ten passes and completed three. Maryland tried fifteen tosses and completed three. Each team intercepted two of their opposition's passes.

The punting by both teams was effective in getting out of a hole.

"Footsy" Palmer did the kicking for the Wolfpack; Roth was the kicker for the Terrapins. Both men averaged a little over thirty-five yards per boot.

### Gambino Ran Well

Lu Gambino, Maryland's All-Southern halfback, ran well for the Terrapins. But the State line bottled him up very effectively inside the ten yard line.

The entire State team played well in their last appearance of the 1947 season. Fletcher, Bob Bowlby, Richkus, George Allen, and Palmer were the standouts for the Wolfpack in the backfield. Linemen who played exceptionally well were Bill Stanton, Charlie Musser, John Wagoner, Al Phillips, and Miller.

State had five players on the field who wore the Red and White of the Wolfpack for the last time. Seniors playing their last game for State against Maryland were Al Phillips, end from Cary, N. C.; John Wagoner, guard from Gibsonville, N. C.; Fred Wagoner, tackle from Gibsonville, N. C.; Charlie Richkus, tailback from Hillside, N. J.; and George Allen, fullback from Kings Mountain, N. C.

## Meet Coach Butter Anderson

Carl H. (Butter) Anderson, 260-pound former Southern California football and basketball star, is the assistant football and basketball coach here at N. C. State College.

Anderson has just completed his duties as assistant to Coach Beattie Feathers' 1947 version of the Wolfpack, which won 5 games out of a nine-game schedule. He was coach of the "B" squad also.

Anderson entered the Navy's athletic program as physical instructor and athletic director in 1942, being released to inactive duty in the rank of Lieutenant-Commander in February of this year. His Navy tour of duty included coaching posts at Bunker Hill Naval Air Station, and the Naval Air Technical Training School. He joined Combat Aircraft Service Unit 11 in August, 1944, and stuck with that outfit through the invasion of Okinawa where he later served as naval athletic director under the watchful eyes of thousands of Japs trapped on the northern end of the bloody island.

After starring in football, basketball and track at Anderson, Ind., high school, the six-foot-two-inch athlete burned up mid-western semi-pro football and basketball circles as a member of the Delco-Remy

Corporation teams from 1931 until 1934 when he entered the University of Southern California. Before graduating from Southern California in 1938 with a bachelor's degree in education, Anderson won two letters as a Trojan footballer and climaxed a brilliant, three-year basketball career in being selected team captain as a senior.

Coach Case, who knew Anderson "when," says that the big fellow is a "great spirit-builder and should add the spark needed here at State to build a really great basketball squad."

Any student who wishes to try out for the State College Golf Team is requested to report to Charlie Tripp in the "Y" at 8:00 p.m. on December 10.

(Continued from Page 10)

is almost impossible to mention all the other stars who have made their names stand out along the line, we would like to say that all those students who took part in the sports

that were offered deserve a bouquet of orchids; for your active interest has made this past term a huge success in all phases of intramurals. We look with pleasure to have the opportunity of greeting you again in 1948 . . . we'll see you when the whistle blows.

For records, can you top this one? In 1919, State blasted Guilford, 80-0, trounced Roanoke, 78-0, walloped Hampton Roads, 100-0, and lost to Carolina, 13-12, and was soundly spanked by Navy, 49-0. Revenge was enjoyed the following year against Carolina and Navy.
