## Over One Thousand Dollars Collected for WSSF to Date

By GILBERT MAXWELL

With the second week of soliciting drawing to a close, WSSF Chairman Lewis F. Dunn reported yesterday that the campaign has enjoyed general success, despite recent snowfall which has slowed up off-campus returns.

Dunn stated, "The success of the drive as a whole has been gratifying, and interest on the part of the student body very encouraging."

To date the drive has amassed more than \$1,000 with some reports yet to be turned in. Solicitations are to be sought from members of the faculty during the coming week.

Dunn expressed his appreciation to those workers who have helped and are helping in making collections for the drive. He especially complimented the poster committee, headed by Leon Mann, for its work in creating an awareness of "World Citizenship" and the meaning of WSSF prior to the start of the actual campaign for funds.

A breakdown of returns to date shows that dormitory solicitations are more complete than those of any other single group. Several fraternities have turned in their contributions, with about half their number yet to be heard from. Bill Thornton's organization of the dorm assistants and Laverne Kick-enbacker's work with the fraternities have been instrumental in keeping donations streaming into the YMCA office, headquarters of the drive.

At least one phase of the WSSF organization, the poster committee, seems destined to become a permanent feature at State College. The committee resolved Tuesday night at its regular supper meeting at the college cafeteria to reorganize along the lines of a political awareness group, in an effort to get a larger percentage of the student body to vote in the campus elections. President Jennings Teal of the Campus Government spoke briefly on the need for such a group, and Committee members discussed the possibilities of a poster campaign similar to the one it conducted for WSSF.

## Appointed

George H. Dunlap, technical consultant in the School of Textiles at State College, has been nominated by the Civilian Steering Committee of the Industrial College of the Armed Forces to attend

To Coordinate Efforts . . .

## STUDENTS COLISEUM COMMITTEE WORKING

What can State College students do to hasten the completion of the greatly-needed coliseum?

This question is what the Student Coliseum Committee met last Tuesday night to find out. The committee, composed of Jennings Teal, Andy Patton, Dick Fowler, Oscar Miller, Don Lampke, Bob Manning, and Emmett Bringle, chairman, was appointed by the Campus Government to coordinate the efforts of various campus and alumni groups who are interested in seeing the State College Coliseum completed as soon as possible. The committee will also keep the student body informed of the progress made and the part the student body can play

## New Housing Area For Vets Completed

The third emergency housing area for married veterans attending N. C. State College has been established and is known as Trailpark, a trailer camp, T. S. Johnson, veterans adviser at the college, announced recently.

The new area has 58 trailer lots and is now occupied by 48 trailers, Johnson said. Approximately 130 persons are residing at the site, which is located on the southern side of the campus near Western Boulevard.

State College has arranged sewage, water, and electrical connections and has built a central bath house for the use of all the residents. The college also maintains a network of roads through the area.

Trailpark's population brings to around 800 the number of persons living in trailers at State College. Trailwood, the first trailer camp opened, has about 250 trailers and approximately 675 residents. Vetville, the prefabricated housing project for veterans and their families, has 850 residents and 310 apartments units.

The total population of all the emergency housing areas for married veterans at the college now amounts to around 1,650 persons.

Trailpark, like Vetville and Trailwood, already has established a community government. Levent Baker of Marion has been named the first mayor of the area.

Johnson said that plans have been made to move an additional 10 or 12 trailers to Trailpark soon.

In addition to housing areas for married veterans, the college also maintains 40 prefabricated apartment units for faculty members and graduate students.

About 40 unmarried veterans reside in 20 trailers in another section of the campus known as Bachelor's Corner. This area is located south of Alexander and Turlington Halls, near Rocky Branch.

a course on economic mobilization in Birmingham, Ala., February 9-20.

Announcement of Dunlap's selection was made by Brig. Gen. E. B. McKinley, commandant of the Industrial College.

in the program.

The committee's first step was to find out from the various informed sources the whole story on the work completed to date and the impediments in the way of furnishing this greatest of State College's needs. Each member of the committee has some special phase of the problem with which he will become thoroughly familiar. When this is done the committee will compile the information and pass it on to the student body.

In effect, the committee will attempt to clarify the immediate status of the coliseum building program and do everything possible to bring about a hasty completion of the building.

## Engineers' Ball And Exposition Scheduled

TO PLAY FOR BALL

CLAUDE THORNHILL

## Campus Gov't Postpones Action On Disputed NAS

President Teal postponed indefinitely action concerning the affiliation of State College with the National Student Association. The delay was granted until further information concerning the organization and certain of its members can be obtained. The association was the subject of much criticism when it was formed. Many observers thought and still think that the organization is a communist front. Others believe that the communists are trying to break up the organization. Both groups seem to agree that the communists are in the organization, but can't agree on whether the red group is trying to disorganize or to use it for its own purpose. What should be done about it? Some believe that State should join and encourage the other schools to affiliate in the hope that these votes would be strong enough to have a voice in the convention. Others doubt that enough schools would join from this section to accomplish that purpose. Also the opponents wonder how much control the communist agitators will have through the school year, when the executive group is in Wisconsin running the organization, publishing a paper, and sending out pamphlets and letters, while the State College delegates are here in school. State College delegates could express their opinions at the national congress each summer, but would have little to do with the active organization during the most important part of the year—the nine month school year.

Since the real intent of the organization has been doubtful to so

many people, the Campus Government wants to be doubly sure of what they are doing when they take definite action. The members of the Council would appreciate hearing from any person who has any information or views on this association.

## Monograms Given To Rifle Team

Master Sergeant George Prestridge, coach of the State College R.O.T.C. rifle team, has announced the presentation of monograms to fourteen members of last year's squad.

Receivers of the letter awards were: Lenwood Edge, Ben Porter, George Fields, Robert Dodge, Ben Cooke, Ed Palmgren, Clyde Robinson, Robert Butchart, John Gillet, Claude Allen, James Cranford, William Glass, Abram Merritt, and John Gilbert.

This season's team of fifteen members have already fired one match and have a dozen more scheduled. Plans are being laid for shoulder-to-shoulder matches with Carolina and Duke Universities. These matches would be on a home-and-home basis, each team firing on the opponents range as well as its own. Coach Prestridge has hopes of seeing his team in action with visible competition. Twelve of the scheduled contentions are postal matches.

## — "WE WANT A COLISEUM" —

## Exhibits From Each School To Be Shown

By JIMMIE JONES

The Engineers' Exposition, renewal of the Engineers' Fair held annually until 1942, will be held April 16 and 17 in the various departments of the School of Engineering. The first year of its return since 1942, the Exposition will be sponsored by the Engineers' Council.

A committee headed by Loy F. Thompson and composed of one representative from each department in the School of Engineering, will be in charge of the Exposition. The representatives from each department will head sub-committees within their department. The work will be done by the students.

The Exposition is staged to give the School of Engineering an opportunity to present the various branches of engineering to the students and the public. Approximately 300 high schools have been invited to send representatives interested in engineering to visit the Exposition.

The Saint Patrick's ritual will be held in conjunction with the Exposition this year. It has previously been held at the annual Engineer's Ball.

The exhibits for the Exposition are to be departmental and it is hoped that the Exposition will help to instill cooperation between the various departments of the School of Engineering.

The annual Engineers' Ball, also sponsored by the Engineer's Council, will feature Claude Thornhill and his orchestra February 20 and 21 and will be held in Memorial Auditorium.

Thornhill, rated by *Down Beat Magazine*, the official organ of the musical world, as second only to Stan Kenton, features Fran Warren and Gene Williams on the vocals.

The dance committee, headed by Ray Kendrick, will present three dances; a Friday night dance, a Saturday night tea dance, and a Saturday night dance. The night dances will last from 8:30 until midnight and the tea dance will be from 3:00 till 5:00 p.m. The first two dances will be informal, while the Saturday night dance will be semi-formal.

## — "WE WANT A COLISEUM" —

## Conference Tickets

The State College entire allotment of 200 tickets to the Southern Conference Tournament will be sold to members of the faculty and to the students starting at 9:00 a.m. on Monday, February 16. Each person will be limited to two tickets. No telephone reservations will be accepted. First come, first served. Students must have their registration cards. The price per season ticket is \$9.00.

Tickets to the State-Duke basketball game in Durham tomorrow night are also on sale at the Athletic office until noon Saturday. There will also be some tickets on sale at the game. Price is \$1.50.

Want To Be A Millionaire? . . .

# Adair Thinks N.C. Portland Cement Future Is Bright

By AL PECKMAN

The American Ceramic Society held a joint meeting with the Chemical Engineering Society, February 10, in Winston Hall. This joint meeting was the first that these two societies have held together and because of the marked success of this meeting it is hoped that others will be planned in the future. Indeed, it is hoped that all the engineering societies will be able to invite prominent engineers to speak to all engineering students, this coming year, on problems basic to the engineering field.

R. B. Schmidt opened the Ceramic-Chemical Engineering meeting and Mr. Fred Adair, who spoke on Portland Cement was introduced by David Lowe. Mr. Adair, a former graduate of the Ceramic Engineering Department, has been doing research on Portland Cement with North Carolina materials for the N. C. Department of Commerce in the Research Department for the past eleven months.

Aside from the subject matter, Mr. Adair's talk intensified interest by showing the possibilities that North Carolina possesses in the manufacture of Portland Cement. It is generally known that North Carolina is rich in minerals. Mr. Adair's research has shown that Portland Cement can successfully be made from North Carolina materials. This can be an important item in the future of this state, when it is realized that eight million dollars is spent yearly for this product in this area of the United States.

### Two Difficulties

Mr. Adair, however, mentioned that there are two difficulties that stand in the way of production of Portland Cement in this state. The first is the Portland Cement Association, a national organization of established cement manufacturers, whose main purpose seems to be to maintain the price level of Portland Cement by preventing the entrance of other manufacturers into the field. Mr. Adair mentioned the fact that he was unable to receive any aid or information from the Association regarding Portland Cement and that he was unable to inspect any Portland Cement factories due to the Association's desire to keep all manufacturing processes a secret. Mr. Adair can therefore be congratulated for having done such a complete analysis of his subject, especially against such odds.

The other factor that prevents immediate production of Portland Cement in this state is that approximately three million dollars would be necessary to begin operation. With a yearly market of eight million dollars, a Portland Cement industry in this state need not worry about bankruptcy. It would be an added wealth to this state and will result in a cheaper price of Portland Cement due to a decrease in shipping costs. Portland Cement is now principally imported from Tennessee. Unfortunately nobody at present seems to have the necessary three million dollars.

(Editor's Note: If any reader happens to have three million dollars, please see Mr. Adair of the Research Department. He'll make you a millionaire!)

### "Y" Field Trips

A good "Y" is active in the community which it serves. This term the State College "Y" plans to have several field trips to places of interest around Raleigh. Included on the list are the State Pen, the State Hospital, the County Jail, and other institutions. The purpose of these trips is to give students an insight on how much progress we have made along these lines, and how much remains to be accomplished. The dates for the various trips will be announced shortly. Interested people may leave their names at the "Y" desk if they would like to go on any of the trips.

On The Lighter Side . . .

The Wolfpack competes with Cupid.

### Freshman Class Elects McCracen as Pres.

Freshman class elections were held February 5 in Pullen Hall with only a small share of the class members attending due to the lack of advance notice.

Jack McCracken of Winston-Salem was elected president of the Freshman Class, and Buddy Boyles of High Point received the vice-

presidency. Freshmen also elected Ross Lampe of Raleigh to the executive offices as secretary-treasurer.

Representatives to the Campus Government from the Schools of Agriculture, Engineering, and Textiles were also chosen. Jennings Teal, President of the State Col-

### New Committees For Honor Fraternity

Announcement of the appointment of new committees was made recently by the State College Chapter of Phi Kappa Phi, noted honor society.

The committees follow:

Selection of Faculty Members: W. E. Shinn, Dr. J. L. Stuckey, and Dean B. F. Brown; Selection of Student and Graduate, Student Members: Dr. W. G. Van Note, Dean E. L. Floyd, and Dr. Z. P. Metcalf; Selection of Honorary and Alumni Members; R. S. Dearstyne, Dr. D. J. Moffie, and Chancellor J. W. Harrelson.

Nominations: G. Howard Satterfield, Dr. H. A. Fisher, and Dr. I. V. D. Shunk; Auditing: C. R. Bramer and Dr. J. M. Parker; Banquet and Refreshments: A. D. Stuart and A. C. Hayes; Scholarship; Dr. S. G. Lehman and Dr. J. W. Patton; Publicity: Frank H. Jeter and F. W. Cook; Public Lectures: J. D. Clark and P. E. Moose.

lege Campus Government, presided over the elections.

"WE WANT A COLISEUM"

### Rifle Team Organized By Scabbard & Blade

The Scabbard and Blade, local military fraternity, is organizing a rifle team for the Scabbard and Blade Annual National Rifle Match. The 21 members of the fraternity are competing for places on the nine-man team.

Headed by Ed Palmgren, Bill English, and Ed Wadsworth, members of the State College team, the new rifle team is guided by Sgt. Prestridge of the Military Department. All 70 chapters of the Scabbard and Blade are eligible to enter one team, each composed of nine men, in the marksmanship competition.

When the lucky nine of the local team have been selected, they will fire on official targets. The targets will be sent to the national headquarters for judging on March 15.

# Allotment Increase Bill Awaits Truman's Signature

By BOB FRIEDMAN

From many sources have come reports of an increase in the monthly allotment checks of those veterans attending school under P. L. 346. In an effort to clarify the situation, the State College Veterans Guidance Center was contacted. From an interview with Mr. Simpson of the Center, the following information was obtained.

The local V.A. office has not received any official notice of an increase in allotment checks. Such notice, when it does come, will come from the regional office in Winston-Salem.

At present the only information available is an Associated Press story out of Washington dated February 4th concerning the new increases voted by Congress. Approved by both houses of Congress and awaiting only the President's signature to become effective, this new bill grants the following monthly allotments:

\$75 a month for single veterans.

\$105 a month for married veterans.

\$120 a month for veterans with two or more dependents.

Up until publication time of this paper, the bill had not been signed by the President. He is in the Caribbean at this time and so the bills wait his return to become law. Definite information as to which month the new increases will become effective has not yet been received either.

In the conversations with the V.A. Office, their procedure for relaying all official orders and notices they will receive on the increases was outlined. Upon formal notification by the regional office, all information will appear on the daily blue bulletin and will also be printed in THE TECHNICIAN for permanent individual record.

That is the story on the bigger checks so far; the bill has not been signed yet. The local V.A. office will carry all official information as soon as it is received on the daily

# Taylor Returns From Alumni Conference

Alumni Secretary "Pop" Taylor returned last week from Tampa, Fla., where he attended a meeting of alumni secretaries from District III of the American Alumni Council. The conference was graciously entertained by the University of Tampa, which furnished facilities for the meeting. Conferences were held January 31 and February 1-3.

Featured speaker for the occasion was Kenney Ford, of Kansas State College, President of the American Alumni Council. Other speakers were Dr. E. C. Nance, President of the University of Tampa; and Alice L. Thorpe, Director for Women's Activities of the American Alumni Council.

The conference was attended by more than fifty delegates, with representatives of Meredith, Wake Forest, Greensboro College, U.N.C., Tennessee, and the University of Virginia being there from this part of the district. Mr. Taylor stated that the meeting was very informative and helpful.

blue bulletin, and THE TECHNICIAN will print the whole story as soon as the word comes to us.

One more item comes from the V. A. office and it concerns lapsed G. I. insurance. National Service Life Insurance can be reinstated on a comparative health statement until June 30, 1948. After that date a physical examination will probably be required. Only two monthly payments are required for reinstatement—one payment for the month of grace during which the insurance lapsed and the other for the current month.

19 Years of Faithful Service . . .

# Forestry Head To Retire After End of Winter Term

Dr. Julian V. Hofmann will retire as director of the Division of Forestry at State College at the end of the winter school term on March 18 and will become director of the Hofmann Forest in Jones and Onslow Counties, Chancellor J. W. Harrelson announced.

Chancellor Harrelson also announced that Dr. Richard J. Preston, Jr., professor of forestry at Colorado State College in Fort Collins, Colorado, will succeed Dr. Hofmann as forestry director at State College. Dr. Preston will assume his duties on July 1.

Dr. Preston was educated at the University of Michigan and has been a member of the staff of the Florida Forest Service, the National Park Service, and the Forest Products Laboratory in Madison, Wisconsin. He has wide experience in forestry and forest products utilization, Chancellor Harrelson said.

Dr. C. M. Kaufman, associate research professor at State College since 1943, will become acting director of the Division of Forestry upon Dr. Hofmann's retirement and will serve in that capacity until Dr. Preston arrives, Chancellor Harrelson reported.

A native of Janesville, Minnesota, Dr. Hofmann joined the State College faculty in 1929 and began the organization of the Division of Forestry. He was named director of the Division in 1932 and has built one of the nation's top-ranking institutions of its kind since that date. Graduates of the Division are in great demand throughout the country.

In his new post as director of the

DR. J. V. HOFMANN

Hofmann Forest, Dr. Hofmann will be employed by the North Carolina Forestry Foundation, an organization which he and his associates founded in 1934.

In addition to his work on academic affairs, Dr. Hofmann mapped plans to secure adequate forest laboratory facilities for his students, and he secured the deed for the Hofmann Forest in 1934. This forest consists of over 80,000 acres and is regarded as the largest outdoor laboratory for students of forestry in the world.

Quick Action . . .

Several weeks ago the TECHNICIAN printed an editorial pointing out a specific case of an advisor making a mistake in assigning a first-term freshman to the wrong algebra class.

We were pleased when we were informed that the advisor in question admitted that he was at fault and took steps to have the situation straightened out to the satisfaction of all concerned. It is always gratifying to find people in positions of responsibility who have a sense of fair play and respect for the rights of others. We should like to thank the advisor and the others who played a part in the expeditious correcting of the situation.

do know how to teach, don't try very hard to get it across, obviously not caring whether their students learn or not. These are the worst of the lot.

4. Those who neither know the subject matter nor how to teach. These are definitely in the minority and are a result of this post-war over-expansion period.

Extremes of good and bad can be found within each of the above groups. Some professors seem to wander constantly along a side track during lecture periods but expect their students to lay it right on the line during quizzes. Others take the opposite side and simply read from a textbook, without any discussion or new ideas being brought forth. Some few have prepared a lecture syllabus which their students can purchase at the book store, and this is a great help, although it might not be feasible in all cases.

Many complaints have been received about students not knowing exactly what the instructor is asking for on exams, or what type of answer he expects, as these factors differ with each individual professor. This situation is most acute with students in Engineering General, as their courses fall under many different departments, and inconsistencies in terminology are alone sufficient to cause a great deal of confusion.

There seems to be general agreement on the point that while the college has jacked up its scholastic requirements, it has not compensated for this with higher teaching standards. We believe this is a temporary situation which will be balanced as soon as possible.

Now let us discuss departments. First we would like to say that a great many students acclaim the Math Department as being tops, and rate the English Department very highly too, with the exception of a couple of rather obnoxious members. These two departments are as difficult as any in the school, and the praise they merit shows that students can form an unprejudiced judgment on teaching ability. On the other hand, we have heard numerous complaints about some of the other departments such as Physics and Mechanical Engineering. And we have been shocked to hear of inter-departmental squabbling over such things as the use of equipment needed by more than one group. This is particularly pathetic in view of the fact that we are, in many cases, short of equipment which is greatly in demand, and so that which we do have must be shared and used to the fullest extent. No one should be permitted to hog the facilities available on the campus, and if your department head seems to be buffaloes by another department head, let the right people know and changes will probably be made.

These items are a few of the many student grievances which have come to our attention from time to time. We should like to point out that student griping does no good unless it is heard. Therefore, if you have an elaboration to make on these matters, or any new ones you'd like to present, write a letter to THE TECHNICIAN and give us the facts. Please make your criticism constructive, and please be sure you know what you are talking about. We are certain that the Administration, Department Heads, and members of the faculty all are anxious to correct deficiencies whenever possible, but they can't do it if they don't know about it. Your letter must be signed, or it cannot be printed. However, your name will be withheld upon request, and will not be released to anyone under any circumstances.

WITH the GREEKS

By TED WILLIAMSON

By TED WILLIAMSON

Effusive Chancellor Robert M. Hutchins of the University of Chicago has put his foot in it once again with his statement that "football, fraternities and fun were designed to make college life palatable for those who shouldn't be there." How a man of Hutchins education and position can make such a statement, obviously a back-handed slap at the majority of the educated men and women of our country, is beyond us. True, we have come to ignore the statements of such men in recent years but this one seems too cry aloud through its own irrationality. The obvious fallacy of such an assertion can be seen by a look at the facts. From the President of the United States on down the line of men who seem to have had some business going to college, one can see that the lovers of fun, football and the members of fraternal organizations also made a success of their college career. Some of our greatest leaders and men of the business world were football fans, fraternity men and, for that matter, still are both. This fact alone is proof that the "football, fraternities and fun—" joke is about as far off-key as a two-dollar trom-

bone. Perhaps there are times when the sports and extra-curricular things take a little too much time from the main purpose of college attendance, but this is only a human failing. We should be thankful that there are so few misguided men in high places who think that life is only a bowl of decimal places!

Last weekend the Greeks were treated to some of the best music and band-standing which it has been our pleasure to enjoy for many moons. The fire departments rule of allowing only 1200 persons on the floor, while it may deprive a few of us of the chance to attend the dances if we happen to be unlucky and come late, works for the good of those who do attend since it prevents such painful overcrowding as was seen at some social functions last year. Instead of complaining about the rules, which are well founded and for the good of all, we should do what we can toward getting action on our Coliseum. A few letters to those who are in office through our votes would do more good than a million words of complaining about the Raleigh Fire Department and College Administration. Maybe that million, more or less, words "WE WANT A COLISEUM" which the students used last week at the Chapel College track meet did some good though.

Several of the State College fraternities have elected new Chapter Officers. Two chapters have announced the names of those who will lead them for the coming year. Sigma Alpha Epsilon has elected Pate Forehand as President; John Snoddy, Vice President; Mack Arnold, Secretary; Ben Merritt, Treasurer; Ted Williamson, Corresponding Secretary and Charlie Tripp, Historian. The election of Pate Forehand as chapter president was for the second time since this is a new chapter and his former term was for less than a school year. Pi Kappa Alpha also has chosen a new set of officers of which Bill Kelly is President, taking office from Don Lampke. Lewis Perry was elected Vice President; Bob Hicks, Secretary; Bob Merritt, Treasurer and Kelly Batson was reelected steward.

"WE WANT A COLISEUM"

Dr. A. G. Guy Develops New Filing System

A new filing system for metallurgical and other scientific literature has been developed by Dr. A. G. Guy, a member of the Mechanical Engineering Department of State College.

The new method of filing, which was designed to reduce the difficulties of cross-referencing in personal files, is described in detail in a current issue of "Metal Progress," a General Electric publication.

In Dr. Guy's system, pertinent information is recorded on cards in the conventional manner; but references to authors, subject matters, and alloys may be listed in a simple but effective manner. Cross-indexing is accomplished by punching slots in the proper holes on the edges of the cards.

Work on the punch card system, which permits simultaneous attainment of ease and efficiency as well as other desirable features of practical filing systems, was completed at State College recently. Dr. Guy and his associate, Dr. A. H. Geisler, of the General Electric staff, initiated the project at GE's Research Laboratory in Schenectady, N. Y.

"WE WANT A COLISEUM"

So What?

By BILL PROCTOR

Another week of weather, another hundred busted sacroiliacs. A big orchid should go to Shorty, the janitor at 1911 building. Each morning after the last two big snowfalls, Shorty has had paths open up the steps to his building. At least, Mr. Morris, you have one good man on your staff. And frankly, sir, we think your department has done a bum job of clearing steps and walks about the campus after the three storms this winter. Admitting a shortage of labor, funds, and anything else you want to add, there seems to be no excuse for not requiring the janitors in each building to shovel snow from all entrances to their respective buildings. To us personally, our years here at State College have revealed all too many inefficiencies in the operation of the College. It shall be our charge as an alumnus to do all we can to see that they are corrected.

Last week brought news of one of the best subjects our old-time column, Gleanings, ever had. A large black three kol banner in our other favorite newssheet proclaimed that a pretty North Carolina girl was going back to the farm. The girl was, you guessed it Snooks, Nancy Bunker. We hear she has ambitions of running for the general assembly. That is really good poop from several angles. Not only is the gal young, intelligent, and honest (politics can stand more), but she ain't bad on the eyes either. She would make a nice decoration for the old black-stained capitol. Nancy, by the way, put in some good work here on the wartime TECHNICIAN. Yep, little "Bunk" is still making news, and if we know her, buddy, she loves every bit of it. The best of luck to you, honey.

The South is going to bolt the Party. Nuts, it will never happen! The Claghorns are just blowing off steam. Where could they go? The "grand old party" probably wouldn't have them. Tie them high-horses fellows. Remember the Golden Rule and quit raising hector about the "niggers getting out of hand" and get down to working for better relations.

Think Before You Throw . . .

Snowballs still fly around State College. In spite of the many words printed by this and other papers about the dangerous results of this rather childish pastime snowballs are still flying.

The fact that an engineer was severely hurt as his train went through the State College campus was given wide publicity in newspapers throughout the state. At the same time State College receives bad publicity. It is not fair that the entire school suffer because a few think it is great fun to throw things at a train.

Don't be guilty of such childish acts. If you must throw things, go off by yourself, where you won't cause any injury to anyone.

According to Hoyle . . .

A potful of student gripes which has been simmering quietly all year was brought to a merry boil by the letter in last week's "Open Forum" about instructors and textbooks. Therefore, we think that now is a good time to air some of these complaints and let the chips fall where they may.

First let us discuss instructors. On this campus, as on many others, there seem to be about four main types:

- 1. Those who know their subject matter and know how to teach it. These constitute the majority here at State.
- 2. Those who sometimes seem a bit uncertain of the subject matter but nevertheless have the knack of presenting what they do know in such a way that their students can get a lot from the course.
- 3. Those who know their subject matter but don't know how to teach it, or, if they

### Military Ball

The Military Ball, a new event on the State College social calendar, will be held in Frank Thompson Gym April 10. Jointly sponsored by the Cadet Officers association and Scabbard and Blade, the Ball will be for all R.O.T.C. men.

Negotiations are being made to secure Frankie Carle and his orchestra to play for the dance. Invitations will be sent to Governor R. Gregg Cherry and the Commanding General of Fort Bragg. Carle W. Ballard heads the dance committee, completed by Hurley King, Richard Crews, Jennings Osborne, F. L. Rapp, and R. S. Linticum, Jr. R.O.T.C. members may secure tickets from any of these men.

This will be the first year that

## Vetville News

By BILL AILOR

Directors for the Vetville Mutual Store have been elected and held their first meeting this week. Permanent officers have not been announced as yet, but will take over in the next few days.

First big problem of the new Board will be to select a full time manager for the store so that he can have the store ready to operate soon after the completion of the new Community Center where the store will be located.

Directors elected are: Frank Fonvielle, Ward 2; A. L. Millman, Ward 3; Ralph Burnett, Ward 4; A. J. Jabbusch, Ward 6; Joe Westbrook, Ward 7. To date no directors have been elected for Wards 1 and 5, and the new Trailer Camp.

Ralph Burnett, Apt. 9-B, is acting as temporary chairman for the Board. Anyone having qualifications either for part-time or full-time work in the Store should contact him.

Mrs. Charles E. McCrary, Apt. 38-G, is heading up the WSSF drive in Vetville. Working with her on the committee asking donations in the area are: Mrs. H. L. Fritz, UK-36, Ward 1; Mrs. B. G. Greenberg, UK-6, Ward 2; Mrs. C. J. McCann, Apt. 4-B, Ward 3; Mrs. C. R. Burnett, Apt. 9-B, Ward 4; Mrs. C. M. Glaherty, Apt. 27-B, Ward 5; Mrs. J. R. Rees, Apt. 19-E, Ward 6; and Mrs. F. Fansler, UK-45, Ward 8.

Colonel H. H. Hutchinson, manager of Vetville, has announced that any resident of the area may secure a coal stove of a surplus Army type for ten dollars. This stove is suitable for homes of the type at Vetville.

## Edsall Named Head History Department

Dr. Preston W. Edsall, a member of the N. C. State College faculty since September, 1945, has been appointed head of the College's Department of History and Political Science, Chancellor J. W. Harrelson announced today.

Dr. Edsall will succeed Dr. James W. Patton, who resigned to accept the appointment as assistant director of the Southern Historical Collection at the University of North Carolina in Chapel Hill, effective July 1.

A native of Roxbury, N. Y., Dr. Edsall holds the B. S. degree from New York University and the A. M. and Ph. D. degrees from Princeton University. His teaching experience includes a brief tenure in the Department of English at State College some 23 years ago and posi-

tions in the departments of history and political science at Emory, Rutgers, and Princeton Universities.

The new department head served as a teacher of history for the Army Air Corps program at State College during 1943-44, and on January 1, 1945, he became a professor of political science at East Carolina Teachers College, a post he resigned to return to State College at the beginning of the fall term in September, 1945.

From 1935 to 1943, Dr. Edsall held responsible positions in the service of the United States Government, in the Department of Justice, the National Archives, and the Civil Service Commission.

Dr. Edsall's publications include "The Journal of the Courts of Common Right and Chancery of East New Jersey, 1683-1702," published

## WINS POPULARITY CONTEST

NO, the man in this picture is not upside down! You must be reading this standing on your head. Little wonder you can't pass the Finger-Nail Test. Better straighten up and streak down to the corner drug store for a bottle or tube of Wildroot Cream-Oil Hair Tonic. Just a spot of Wildroot Cream-Oil grooms your hair neatly and naturally—gives it that neat, well-groomed "college" man look. Relieves annoying dryness and removes loose, ugly dandruff. . . It's non-alcoholic, so don't try drinking it. Remember, however, it contains soothing Lanolin. Get Wildroot Cream-Oil hair tonic today and see for yourself why it's "again and again the choice of men who put good grooming first." For generous trial supply free, send this ad with your name and address to Wildroot Co., Inc., Dept. C-D, Buffalo 11, N. Y.

# Wolfpack Cagers Tackle Duke Saturday

## Intramural Front

By HERB BRENNER

Basketball continued its potent pace in this term's intramurals as the loop games dominated most of the sport's events of the past week and together with Table Tennis were the only two divisions contested.

### Sigma Pi Victorious Over SAE

LeGrand and Sherrill were the main plugs in this all-important win for Sigma Pi and the wide margin of victory showed that the winners were to be watched by all their future opponents. The final tally was 34-15. Sherrill posted 11 points to lead his teammates with LeGrand scoring 10 points to run him a close second for top scoring honors. Floyd of the Sigma Pi's also aided well with a total of 8 points. For the losing SAE's it was Arnold who showered in five points to pave the attempted come back. Pendley helped him in the job of handling the ball. Although the SAE's did not win the encounter they looked as if they might have potential abilities to hit the win column in their future games.

### AGR Defeats PET

The PETs, newest fraternity to enter State campus, lost 26-14 to the gentlemen from Alpha Gamma Rho in their battle on the 2nd. Mackie, Curtis, and Stinson were the featured players for the point happy AGR's and looked exceptionally well as they drove all out to take a victory in this important loop contest. Goodman scored the major portion of the losing PET's 14 points.

### PKA Wins—Sigma Nu Loses

Ace loopmen, Bridger, Lovin, Steen, and Jones stopped nothing short of victory as they rolled over the Sigma Nu's 26-14. Steen scored nine points for the PIKAs, Bridger scored 6, and Jones hit for 5 as these three gentlemen swept away with scoring honors in the evening's battle. For the Sigma Nu's, it was Francis who packed the power to rack up 8 points.

### Sigma Chi Whips SAE

The SAE's lost their second encounter of the week to the Sigma Chi's by the wide margin of 36-14. Glenn, Davis, and Ligon handled the majority of the victors points and were assisted on the court by a splendid supporting team. Ligon and Glenn each tallied for 6 points to take individual scoring honors. On the other side of the center line, Coble and Arnold pressed the SAE's attack, Arnold scoring six points also, to tie for top honors of the evening.

### Pi Kappa Phi Licks the K. A. s

26-15 was the final score to come out of this important fraternity game on the 4th. We bow to gentleman "Foxy" Fox who hit the loop for a grand total of 12 points. Fox looked mighty sharp in his floor maneuvering and basket shooting—we expect to hear from him lots more as the season progresses. Fowler was his understudy in the loop contest scoring 8 points. Willard and Sherrill were the main stays for the losers.

### SAM Bows to AGR

Stinson and Curtis packed the

(Continued on Page 8)

## Grapplers Tackle Two Loop Foes This Week

The State wrestling team will invade Virginia this week end for two Southern conference engagements, meeting Washington and Lee today and tackling the Cadets of VMI on Saturday. Coach Crawford's crew will be seeking their third and fourth conference victories, having defeated VPI and Davidson, while tying Duke and losing to Carolina and Maryland in conference competition. In a non-conference tilt the grapplers have defeated the Naval Apprentice team from Newport News.

Still plagued by early season victories, the team broke back into the win column last Saturday afternoon with a decisive 25-3 victory over Davidson. State won all but one decision in taking the victory. Ruston Rudolph in the 128-pound class and John Poplin in the 145-pound class collected the only falls of the match.

Following the Virginia trip, the grapplers will return to Raleigh for their final match of the season, meeting the University of Virginia on Saturday, February 21.

### Davidson Results

121, Jung (D) decisioned Rickard; 128, Rudolph (S) pinned Griffithin 5:21; 136, Lewis (S) decisioned Fesperman; 145, Poplin (S) pinned Charles in 6:59; 155, Martin (S) decisioned Evans; 165, Troxler (S) decisioned Price; 175, Fred Wagoner decisioned Barnard; unlimited, Musser (S) decisioned Alexander.

## Case's Quint Boost Game Average to 78.7 Davidson Here Tues.

Coach Everett Case's rampaging Wolfpack basketball team, currently leading the nation with a 78.7 game average, will put their offensive power on display to three foes during the next week.

Moving over to Durham tomorrow night, the high-scoring Pack will meet the up-and-down Blue Devils of Duke for the first time this season. Duke has been beaten by Carolina but dropped Wake Forest in a close tilt earlier in the week. Coach Jerry Gerard will bank heavily on his 6-6 center, Ben Collins, in an attempt to stop the high-scoring State quint. Little Tommy Hughes and Corren Youmans are two other Dukes that will attempt to hold the score down.

Victorious in 20 of 22 games, State has racked up the amazing total of 1,732 points, already exceeding their regular season total of last year. Last Saturday night, following their 81-42 victory over Carolina, the Wolfpack continued the hot pace by trouncing the Georgetown cagers 87-46.

Leading Case's quint against the Blue Devils will be two All-American candidates, Sophomores Dick Dickey of Alexandria, Ind. and Jack McComas of Shelbyville, Ind. Dickey, a great one-handed shot maker, ran his season's total to 317 in the Georgetown scrap by popping in 18 points. McComas a break-away dribbler with the speed of a crack flyer, hit the nets for 20 points against Georgetown to raise his total to 243 points and a 11.0 average. Dickey's average is currently 14.5 points per game. Guard Ed Bartels racked up 19

## Undefeated Jayvees Meet Duke, Carolina

The Wolfpack Jayvee basketball team continued their winning skeen by posting their eighth straight victory over Campbell Junior College last Saturday, night in a preliminary game to the State-Georgetown game.

Center Chester Gurski, freshman from Ford City, Pa., continued to set the scoring pace for the Baby Wolfpack by looping in 14 points. Big Joe Davis, who hails from Raleigh scored nine points to grab runner-up honors. Alan Geist, steady guard, emerged as the defensive leader with a stellar floor game, as well as collecting five points.

Last night, Coach Carl "Butter" Anderson's basketeers traveled to Carolina for a return game with the Baby Tar Heels. Tomorrow night they will journey to Durham for a game with the Duke Jayvees in a preliminary affair to the Duke-State tilt.

points to emerge as one of the leaders in last week's affair.

Coach Case will floor his usual starting line-up against the Dukes. Dickey and McComas will pair at the forwards. Freshman Paul Horvath will hold down the center slot, while "Smiling" Eddie Bartels and dependable Captain Leo Katkaveck will man the guard positions. The Pack will have the services of some of the best players in the game to back up the starting team. Center Warren "Swede" Cartier, forward Sam Ranzino, despite his haircut, and guard Norm "Sharpeyes" Sloan will lend capable assistance along with Charlie "Firsthalf" Stine and freshman Victor Bubas.

Following the Duke scrap tomorrow night, the Wolfpack has five remaining games on the schedule. Next Tuesday the cagers will return to Raleigh for a return engagement with Davidson. After that only Carolina, Wake Forest, VMI and Duke remain to be played.

## LADIES! THROW AWAY THOSE BEAR TRAPS

Lasso your Lil' Abners come Valentine's Day with a couple of well-chosen Arrow ties.

We suggest a couple of Arrow knits in solid colors or stripes, \$1.50 (made especially for college men) or some smart Arrow stripes and English patterned foulards from \$1.00.

Drop in at your Arrow store and pick out a brace of beauties.

Arrow handkerchiefs with your man's initials from 35c.

**ARROW SHIRTS and TIES**  
UNDERWEAR • HANDKERCHIEFS • SPORTS SHIRTS

## How to get your man the EASY way

### 1. Buy one of Arrow's neat-knotting ties.

(We have some brand new patterns for college men.)

### 2. Slip it around the Boy Friend's neck.

(He will purr like a kitten.)

### 3. Tie a knot! There! You have him!

(He will love the way his Arrow ties up into a full, firm knot.)

### 4. The cost? Very low—ties, \$1 up.

(You might get him a box of handsome Arrow Handkerchiefs while you're at it.)

*Use in West Hargett*

FOR ARROW SHIRTS

Dear Old Dook — how we love 'em!  
Just wait 'til we start to shove 'em  
The huge score by which they'll lose  
Will make them want to drown in brooze

# Pack Gridders Have Ten Game 1948 Schedule

## Newcomers Added To Slate—Two Dropped

By ED STOREY

Three former opponents of North Carolina State College resume football rivalry with Coach Beattie Feathers' Wolfpack in 1948, according to a ten-game schedule announced by John L. VonGlahn, director of athletics.

William and Mary, last year's Southern conference champs and Dixie Bowl representative, Villanova and Duquesne are the additions to the schedule, but none of the trio of teams are new rivals for the Wolfpack. The powerful Indians of William and Mary return to the Wolfpack card after a lapse of two years, Villanova resumes grid warfare with State for the first time since 1929 and Duquesne is back on the schedule for the first meeting since 1940.

Both Maryland and Florida have been dropped from the schedule, because of previous conflicts. William and Mary replaces Maryland as a conference opponent and Villanova has been added in the spot held in 1947 by Florida. Duquesne's addition provides State with 10 games, compared to only nine last year.

Four of the ten opponents are scheduled to meet the 'Pack in Raleigh's Riddick Stadium. Duke University's Blue Devils come here to open the season on Sept. 25, Davidson's Wildcats hit State in Raleigh on Oct. 9, Virginia is booked in Riddick Stadium on Nov. 6 and Villanova journeys to Raleigh to close State's schedule on Nov. 27. The William and Mary game is scheduled for Williamsburg, Va. on Nov. 20 and the Duquesne affair will be run off at Pittsburgh, Pa. on Nov. 13.

Six Southern conference affairs

## Undefeated Swimmers Meet George Washington Today

### Meet Starts at 4 P.M. Duke Here on Monday

Coach Willis Casey's undefeated swimming team, boasting five straight wins over Virginia, Florida, Georgia, Georgia Tech and Virginia Military, face George Washington University's mermen in a Southern conference tiff Friday afternoon at four o'clock in the Frank Thompson pool.

The State swimmers, who have set new pool records in three meets this year, will reign as a heavy favorite over the Colonial water squad, but hot competition is ex-

pected from the visitors in at least two divisions of the eight bracket clash.

The Colonials, while not one of the conference's strongest teams, boast one of the top divers in the South and two cracker-jack back stroke men. The Wolfpack mermen will be expected to cop the other divisions, especially the 300-yard medley relay, the free style relay and the sprints.

In last week's 40-35 victory over V.M.I., Coach Casey didn't use Bill Ward, Conference sprint champ, or Jim Ritchie, breast stroke performer. Bill Despres, letterman distance swimmer, competed in only one event, the 400-yard freestyle relay. Bill Kelly won the breast stroke event and swam in both winning relays. Wells Denyes, freshman star from Kenosha, Wis., won the 440-yard freestyle race in the time of 5:25.1, just 3.5 seconds off the Southern Conference record of 5:21.6.

Freshman Frank Mandel splashed home in the backstroke event to round out the State first-place winners. Matt Lojko placed second in the backstroke as well as performing in the winning relay teams.

Following the George Washington meet today, the tank squad has three remaining meets on the schedule. Monday, February 16, they will meet a strong Duke team here in the State pool. The postponed meet with Virginia Tech is tentatively scheduled for February 25. Coach Casey's crew will complete the season by playing host to the University of North Carolina here on March 3.

Having learned long ago not to be superstitious, we have just about decided to have a change of heart. Fully decided that we don't have enough delays in getting the Coliseum built, Kismet has decided to give us another healthy delay in the form of all this frozen white stuff that has been laying around on the ground for the past two weeks. Even though the College has decided to go ahead with the work and complete what they have the money for, it will still be some time before construction can be started. We'll probably have a drought this summer to hold up work.

While scanning over the Old Reliable Sunday morning we came across an article written by Ken Alyta which had a very interesting phrase which we would like to pass on to you in case you missed it. While discussing the merits of the Wolfpack, Mr. Alyta made this unique but true statement, "Capt. Leo Katkaveck, usually too busy playing basketball to shoot much, and sub Norm Sloan are others well over the 100 mark." Leo is certainly not one of the highest scoring players on the team but he plays a brilliant game. To bad most sports writers look mainly for scoring totals when picking All-Americans. Katkaveck is right up near the top of our All-American list.

If you haven't been keeping up with Coach Willis Casey's swimming team, then its about time you opened your eyes. Undefeated in five starts, the State mermen are a good bet to finish the season with another perfect mark if they can get by Duke and Carolina. Monday afternoon in the State pool Duke will offer some hot competition. This afternoon the tank crew will play host to George Washington. Come out and give them a yell.

We see that Jonas is still giving out towels and spiring the team during time-outs. Glad to hear the students giving him a hand and some yells. He's a full-fledged State Colleger now.

### Intramural Reminders

Note: The five dorm basketball games scheduled to be played on February 18 have been postponed until Monday February 23.

Wrestling: Fraternity matches this coming Monday night, February 16.

### Junior Senior Prom

All seniors who wish to attend the Junior-Senior Prom must register so the dance committee can get an estimate of the number that will attend. Registration will take place in the YMCA at a date to be announced later this term.

(Continued from page 6)

power that defeated the Sammy's game bunch of fighting fraters, 27-16. Stinson, ace scoring artist for the victors, looped in 9 points while his partner Curtis racked in 8. Dick Sontag was the lad who lead the SAM counter battle as he tallied for 7 points, and was assisted in the floor by big Al Fisher.

**Sigma Pi Defeats Kappa Sig**  
Paced by whistful and speedy LeGrand who scored 8 points, the Sigma Pi men barely nosed a game and talented aggression from across "fraternity way," the Kappa Sigs by the slim score of 18-17. The offensive and defensive play on both sides was exceptional. Brooks, Culberson and Poe were the outstanding floormen for the losers who packed plenty of power in an attempt, up until the final whistle, to gain a victory.

**ON THE DORM SIDE OF THE COURT**

**S. Watauga Defeats 2nd Alexander**  
Ingram, sure shot weapon of the South Watauga five, paced his dormmates to an impressive 20-9 win at the expense of the 2nd Alexander aggression. Ingram hit the hoop for a total of three field goals and one foul shot to lead his team's scoring with 7 points. Sifkila and Arthur tallied the larger portion of Alexander's 9 points.

**1st Turlington Loses to 1st Syme**  
It was a battle to see who was the better "1st," Syme or Turlington and as far as the game went the Symemen won 31-17. Gouch was the big star for the high riding Symes as he hit for four points in the first half and added six in the second half. Lane and Beal were also two main factors in the wide margin of victory. Hinson for the Turlington lads accounted for 8 of his team's points.

**2nd Syme Swamps 3rd Bagwell**  
Moving way up "yonder" in the high scoring bracket, the fighting 2nd Symes brought home to their dormmates an impressive 43-12 triumph over their campus mates, the men from 3rd Bagwell. The score, the largest this past week and the largest since basketball began at the beginning of the term, can well be accounted for by a gentleman called Phillips who tallied 12 points to take individual scoring honors in the all-important league game. Cherry, likewise, deserves a lot of credit in the scoring department as he dropped in 9 points. Price, Williams, and Martin all aided in the one sided victory. However, that doesn't mean that the Bagwell lads were to be slighted; for although these points were small, they showed plenty of determination as Procter, Mitchell, and Harty packed the floor power for their team, but it looked as if the Symemen were terribly point anxious that night.

**Off-Campus Downs 3rd Syme**  
Ledford, Lewis, and Plum lead the boys that live off campus to a spirited 30-9 plunge over the 3rd Syme five. Perry and Merritt were the feature players for the Symes. The game, getting off to an extremely slow start began to pep up as the second quarter began with most of the points being scored then. The score at half-time being only 4-3 in favor of the 3rd Syme boys.

**TABLE TENNIS**  
In the game of paddles 2nd Bec-

**Dr. Hoffman**

(Continued from Page 3)

Dr. Hofmann was also instrumental in securing the Hill Forest, near Durham, the Hope Valley Forest, between Raleigh and Chapel Hill, and the Camp Polk Forest, near Raleigh, all for the use of the students in forestry at State College.

When the deed to the Hofmann Forest was secured in 1934, Dr. Hofmann and associates formed the North Carolina Forestry Foundation, a non-profit corporation holding the property for the sole use and benefit of the State College Division of Forestry.

Dr. Hofmann was born and spent his boyhood days on a farm in southern Minnesota. After graduating from high school, he taught in country schools for two years and then spent three years as a traveling salesman. In 1907 he entered the University of Minnesota to study forestry and by 1914 he had secured three degrees, including a doctorate in philosophy.

He spent the field season of 1912 in Kansas and Nebraska with the Bureau of Plant Industry, studying the diseases of forest tree nurseries. In the latter part of 1912 and the spring of 1913 he was an assistant at the Priest River Forest Experiment Station maintained by the U. S. Forest Service in northern Idaho.

In the spring of 1913, Dr. Hofmann became director of the Wind River Experiment Station for the Forest Service, and his work covered the states of Washington and Oregon. Here many forest problems were investigated, and some far-reaching and original results were obtained regarding the natural regeneration of Douglas fir, the most important timber species of the region. The relation of meteorologi-

cal factors and forest fires was definitely established for the first time, and the study opened a new era in the prevention and suppression of forest fires.

Dr. Hofmann resigned the Wind River position in 1924 to become assistant director of the Pennsyl-

vania State Forest School at Mont Alto. There he had charge of the school's forest of 23,000 acres, and in summers he would lead student parties on tours of the great forests of Europe.

**A CIGARETTE CAN BE MILD**

"The more I smoke Chesterfields the more I appreciate how good they are"

*Jack Oakie*

STARRING IN "NORTHWEST STAMPEDE" AN EAGLE-LION PRODUCTION

**WHY I smoke Chesterfield**

(FROM A SERIES OF STATEMENTS BY PROMINENT TOBACCO FARMERS)

"When I bring my tobacco to market I'm always looking for the Liggett & Myers buyers because I know when I've got real good mild, ripe sweet tobacco they'll pay the top dollar for it.

"I've been smoking Chesterfields for about 25 years. I like their taste and I know the kind of tobacco that's in them."

*Arthur Williams*
