Offices: 10 and 11 Tompkins Hall

## Agromeck to be Bigger, Better, Earlier

An Engraved Gold Watch . . .

### Bob Schmidt Receives 'Most Outstanding Engineer' Award

Robert Perry Schmidt, senior in chemical engineering, has been named the most outstanding student in the School of Engineering. He was awarded an engraved gold watch at the Engineer's Ball last Saturday night.

The award was given by the engineer's council and the presentation was made by Dean J. H. Lampe of the School of Engineering. Schmidt was nominated for the award by Dr. E. M. Schoenborn, head of the department of chemical engineering. Dr. Schoenborn said in his letter of nomination, "He has a pleasing and forthright personality, originality, and imagination, and possesses many qualities of leadership."

Schmidt, a graduate of Needham Broughton High School, has 212 credit hours and 454 honors points and will graduate in June. He is president of the local chapter of AI Ch.E., president of the Phi Eta Sigma, a member of the business staff of the *Southern Engineer*, and treasurer of the Gamma Sigma Epsilon. He is a member of Theta Tau, professional engineering fraternity, Tau Beta Pi, and the Executive Honor Council.

### Break Out Overalls; Barnwarming Coming

Gingham dresses and overalls will be the height of fashion next Saturday night, March 6, when the Ag Club presents its annual barnwarming in the Frank Thompson Gymnasium. Music for the occasion will be provided by Tommy Farr and his Duke Ambassadors.

Highlighting the evening's festivities will be the crowning of the queen, Miss Mirian Scott of Mebane. Entertainment features will include square dances and hog and cow calling contests.

The barnwarming is famous for its complete informality which has always made it one of the most enjoyable dances of the year. Guests are required to dress "country style" if they wish to be admitted.

In the past the barnwarming was open to all students, but due to the increased enrollment in the School of Agriculture and the limited capacity of the gym, only Ag students will be eligible to attend this year.

Tickets may be secured from Paul Church in 201 Welch, or at the Ag Club meeting in Withers Hall on March 2. Registration cards must be presented in order to obtain tickets.

Members of the dance committee in charge of making all the arrangements are Don Biggerstaff, Cecil Wells, John Mackie, business manager of *The Agriculturist*, Harold Stinson, chancellor of Alpha Zeta, and Paul Church, Jr., chairman.

#### MOST OUTSTANDING ENGINEER

### Religious Emphasis Week Will Feature Scotty Cowen

By JOE HANCOCK

"The Christian Faith and the Issues of Life," will be the central theme of Religion and Life Week which will be observed on the campus beginning Sunday, April 11, and continuing through Wednesday night, April 14.

A four-day program of public addresses, seminars, talks to class meetings, faculty and student luncheons, dormitory and fraternity discussions, and personal conferences will be conducted.

Rev. Cowan is Featured Speaker  
The speaker for evening public addresses will be Rev. T. B. "Scotty" Cowan of Lexington, Kentucky. Rev. Cowan was one of the principal speakers during Religion and Life Week at N. C. State College in 1941 and 1942. For seven years he was pastor of the Norris Religious Fellowship, Norris, Tennessee, a community which includes in its membership representatives from twenty denominations. Rev. Cowan is now pastor of Everybody's Church in Lexington, Kentucky. A native of Scotland, he was in the British Army during World War I and saw four years active service in France and Belgium, and six months with the army of occu-

Scotty Cowan

pation in Germany. In 1922 he came to America to work in the steel mills and coal mines of the Pittsburgh area. He studied in Boston before receiving his A.B. degree

### State College Pictorial Slated For Distribution by May 14-17; Many New Features are Added

By GEORGE HARRELL

Completion of the 1948 Agromeck, State College yearbook, has entered the final phase, according to Editor B. Atwood Skinner, Jr. and Bus. Mgr. Tom Millsaps, who released the poop on the popular yearly pictorial of State College this week. "This year's Agromeck promises to be the biggest and best of any yet, and probably will be ready for distribution earlier than any previous State yearbook," Skinner said when interviewed.

Over half of the book is on the presses now and all other material is at the printers, ready to go, with the exception of the winter sports copy. It is hoped that the annual will be ready between May 14 and May 17. The Agromeck is by far the largest ever put out at State and is the largest being printed in North Carolina this year. Reliable sources tab it as the largest in the South.

Over 5,500 Pics Used  
Approximately 3,600 class portraits will appear in the annual, with a total of about 4,200 portraits in all. Including the informal snaps and sports pictures, the book will contain over 5,500 pictures. Skinner states that the number of pages will run well over 400, and that the estimated total cost of producing the masterpiece is \$34,000.

The annual has an attractive two-tone color scheme, which is carried through the entire book. "We have tried to adhere to the conventional patterns wherever possible, but we have made a few changes and added a few surprise attractions, which we hope the students will like," Skinner and Millsaps added.

Taylor Praised  
Skinner thinks that the current issue of the Agromeck has one unique feature, one that could not be detected by looking at it. As best can be determined, this is the first year that the entire art work in the book has been done entirely by the students. Skinner singled out

Horace "Hosse" Taylor, hard-working Architectural student from Raleigh, for his excellent work in this department.

More Men Cited  
Coming in for their share of credit were Oscar Miller, indispensable Associate Editor from Charlotte, and George Harrell, experienced Managing Editor of Raleigh.

Another mammoth job has been done by M. A. "Mac" McDuffie. Mac has compiled the entire sports section. Special emphasis has been put on this section of the book, thus highlighting his excellent work.

Sharing equally in the credit were Jennette Simpson, who handled the features, Bob Bird, make-up department, and photographers Bob Houston, James Deal, Vernon Stack, Richard Wooten, and Charlie Pressley. This could go on all night. Look in the staff list when the book comes out and give them all mucho credit. They deserve it.

#### NO BID RECEIVED

No bid has been received by the State Wolfpack to play in the National Invitational Tournament in New York later this month. The latest inquiry made by The TECHNICIAN on Thursday revealed a flat, "Nothing definite." Earlier in the week, State's basketball team was knocked out of a bid to the NCAA tourney when it was ruled that freshmen could not participate in the games, and when the NCAA district 3 committee chose Kentucky over State. Athletic Director J. L. Von Glahn admits that State had a "feeler" early in the week for the Invitational Tourney but nothing definite had come in from NIT officials at presstime.

### University Prexy Will Visit Campus Thursday

President Frank Porter Graham, who has recently returned from Indonesia to his duties as president of The Greater University of North Carolina, will address a mass meeting of students and townspeople in Pullen Hall on Thursday, March 4, at 8 p.m. under the auspices of the Campus Government, Golden Chain, Blue Key, YMCA, and the campus religious groups.

President Graham left this country last October to serve as the American representative on a three-man commission of the United Nations, charged with the responsibility of negotiating an agreement between the Indonesian Republic and the Dutch Government. President Graham made his report to the Security Council of the United Nations last week and returned to his office last Monday.

#### Public Invited

Invitations are being extended to the student bodies of Meredith, Peace, and St. Mary's and to the citizens of Raleigh to hear Dr. Graham's address. The topic assigned Dr. Graham is "Indonesia and World Peace" but it is probable that he will have something to say about Palestine, Greece, Turkey and other hot spots.

Plans call for special music for the occasion. A public address system will be sent up so that President Graham may be heard from any seat in Pullen Hall.

#### Dinner Given

President Graham has expressed a desire to spend some time going around on this campus and visiting Vetsville. Following the tour, he will be the guest of the Campus Government at a dinner in the cafeteria. The Faculty Council and various campus leaders also will be invited.

# More Engineering Labs on Way

By W. S. BULL

Plans for the new engineering building to be erected on University drive between the college laundry and the zoology building have been completed, Dean Lampe of the Engineering School announced this week. The structure, to be called the Engineering Laboratory building until the person to be honored can be decided upon, will house the chemical and industrial engineering and engineering mechanics departments, the Engineering Research Laboratories as well as have eighteen classrooms, two large lecture halls with a ramp-type seating arrangement, student shops, and precision shops.

Chancellor Harrelson approved the work of the building committee, headed by Dean Lampe who is assisted by Drs. Schoenborn, Brennecke, and Van Note and Professors Hanson and Vaughn, and the plans were drawn up in December of last year by Northup and O'Brian, Winston-Salem architects. One and a quarter million dollars have been appropriated by the state, and as soon as the funds are released by Governor Cherry bids will be opened to contractors.

Building plans are now complete and the building committee is drawing up detailed specifications for the furniture, and the architects are now working out the structural steel design.

This is only the beginning of the long-needed expansion of the Engineering School, Dean Lampe stated. Plans are also to be developed for a new mechanical engineering building to be placed next to and incorporated in the present diesel building, and to build a four-story wing between Daniels Hall and the Civil Engineering Building.

## Inspection of ROTC Scheduled for May 24

An inspection of the college ROTC cadet corps by the Department of Army and the Department of Air is scheduled for May 24 and 25, Col. Samuel A. Gibson, Commandant of the Department of Military Science and Tactics, announced this week. The inspection, consisting of written examinations, practical tests, company and platoon drill, and a review of the Regiment, will be conducted by a group of officers from Third Army Headquarters, who are representative of the six R.O.T.C. branches taught at State. The college's military units received a rating of "Excellent" in last year's inspection.

PROPOSED ENGINEERING LAB BUILDING

## ROTC Cadets Honored

Six ROTC cadets at State College have been chosen as distinguished military students and are qualified to make application for regular commissions in the Army and Air Forces, Col. Samuel A. Gibson, commandant of the College's Department of Military Science and Tactics, announced recently.

The students selected for the honor are Carl Welch Ballard of Swannanoa and Orin Henry Fagala of Durham, both cadets in the Air Unit of the ROTC; Gilbert Mitchell Farrow of Raleigh and Robert Thomas Wilkerson of Raleigh, cadets in the Infantry Unit; James Francis Ritchie of Richfield, cadet in the Signal Corps Unit; and Irving Feldman of Brooklyn, N. Y., cadet in the Engineers Unit.

Following the filling of applications, the students who desire commissions will appear before a Board of Officers, and upon the recommendation of the board and final approval of the Department of the Army and the Department of the Air Force, these men will be tendered regular commissions as second lieutenants in their respective branches, Colonel Gibson stated.

## Dorm Furniture Has Been Ordered

"Furniture has been ordered for State College's two new dormitories," said Mr. W. F. Morris, superintendent of buildings and grounds, today. "Half of this furniture will be delivered May 1 while the other half will be delivered Aug. 1.

The new three-story dorms, expected to be completed for occupancy by this fall, will have 200 rooms each and a total capacity of 1400 students. The rooms are each about 17 by 12 feet and contain two closets, lavatory, and mirror. Each dorm will have a reception room and lobby and will contain two large storage rooms. These dorms have terrazzo floors and tile baths and showers. There will be 16 showers on each floor and each floor will be supplied with two public telephones.

LOST: Ronson, chrome plated cigarette lighter on the south side of University Ave. between forging shop and Trailwood last Monday Feb. 23. Owner J. C. Richards, Lot 160, Trailwood.

## YMCA To Entertain At Open House Friday

State College students are invited to "Y" night at the YMCA next Friday night from 7:30 to 10:30, Y prexy Pat McDonald announced early this week.

The entire Y building will be "open house" for the occasion, planned to be the first of a series of similar events. Feature event of the evening will be dancing in the lobby, but that is only one of the many attractions of the night. A full-length movie will be shown in the Y auditorium; dancing and bridge instructions will be given upstairs. In addition, refreshments will be served in the North End, and the game room will be open.

All other activities of the Y will be suspended, and students and their dates are welcome to drop in and join in the fun. Approximately one hundred girls from the local colleges will be present as guests of the Y.

The number that can be safely

accommodated must necessarily be limited, but every effort will be made to let everybody in on the fun. More announcements will be made during the coming week, and students are warned to keep a weather-eye out for posters to that effect. Dave Kirkman is in charge of recreation for the affair and says that he has something cooking, but suggests that the best way to find out about it is to come around to Y night Friday night.

## Industrial Breaks Frosh Visit Record

As the period set aside for Freshmen to visit the various engineering departments drew to a close, the Industrial Engineering Department, on Tuesday, registered 66 interested frosh to capture the attendance flag. The previous highest total of 52 was registered by the M. E. Department.

## Stripes

that are stoppers...

### Civil Service Needs Undergrad Engineers

Applications are being accepted by the Executive Secretary, Board of U. S. Civil Service Examiners for Scientific and Technical Personnel of the Potomac River Naval Command, Building 37, Naval Research Laboratory, Washington 20, D. C., for filling Student Aid positions in the fields of Engineering, Mathematics, Chemistry, Physics and Meteorology.

This examination offers to college juniors the opportunity of participating in special training programs at the National Bureau of Standards, the Naval Research Laboratory and the Naval Ordnance Laboratory. Satisfactory completion of the training course may lead to appointment to positions in the professional service for which the appointees are qualified.

The salary for Student Aid positions is \$2,394 a year. To qualify, applicants must pass a written test and, in addition, they must have credit equivalent to at least 3 years of college study in one of the above subject-matter fields. Applications must be received not later than March 9, and will be accepted from students who expect to complete the required study by June 30, 1948. Age limits for Students Aids, 18 to 35 years, are waived for persons entitled to veteran preference.

In the field of kiln-fired ceramics has been offered by the Edward Orton, Jr., Ceramic Foundation. The American Refractories Institute Fellowship for study in ceramic engineering also has made available from \$1,000 to \$1,350 for

(Continued on Page 12)

### Walter Clark Professorship . . .

## Henderson Named Head Of I. E. Department

Appointment of Mr. David E. Henderson to the Walter Clark Professorship of Industrial Engineering and head of the Industrial Engineering Department here at State was announced recently by Dean J. H. Lampe, head of the engineering school.

Mr. Henderson, former assistant to the general manager and chief project engineer of the Indian Motorcycle Company in Springfield, Mass., was unanimously elected for the position by a faculty committee of the School of Engineering and will begin his duties on the campus soon.

The Walter Clark Professorship was established by Judge Clark's surviving children in 1946 in honor of their father who was Chief Justice of the North Carolina Supreme Court in 1924.

#### Charlotte Native

Professor Henderson, a native of Charlotte, will become the first Walter Clark Professor. Mr. Henderson received his bachelor's degree in industrial engineering at Chapel Hill, and later did graduate work in that field at State and the University of Iowa.

Since graduation from U.N.C., Henderson has been employed by the N. C. Highway and Public Works Commission and Wright's Automatic Machine Company in Durham. In 1940 he was an instructor here at State in mechanical engineering and in 1941 was transferred to the Industrial Engineering Department as an assistant professor.

Professor Henderson resigned his post here at school to join the staff

DAVID E. HENDERSON

of the Edwards Company in Sanford, and there was responsible for the supervision of cost estimating, production, time study and methods departments. He left this position in 1946 to go with the Indian Motorcycle Company as industrial engineer in charge of the processing and time study departments. In May, 1947, he was promoted to assistant to the general manager and chief project engineer, the position he held when confronted with State College's tempting offer.

#### Deep Interest

In commenting on Professor Henderson's appointment, Dean

(Continued on Page 12)

From \$900 to \$1,200 Per Year . . .

## Graduate Fellowships in Engineering Offered

Fellowships for graduate study in the School of Engineering at State College have been made available to holders of the bachelor's degree in science or engineering, Dr. J. H. Lampe, dean of the School, announced this week.

The fellowships carry stipends varying from \$900 to \$1,200 each per school year. Appointments will be made for one year and renewed for a second year upon satisfactory completion of the first year's assignments, Dean Lampe said.

Fellowships will be awarded to applicants on the basis that half time be devoted to research or teaching duties in their respective fields. Graduate study leading to the master's degree is offered in

the following fields of engineering: ceramic, civil, chemical, diesel, electrical, geological, industrial, and mechanical. Engineering mathematics, and physics are also offered.

In addition to the regular engineering fellowships offered by the School, four special fellowships have been made available.

Two fellowships will be awarded by the Sperry Gyroscope Company of New York City for full-time graduate study in the fields of aeronautical, electrical, or mechanical engineering. These fellowships are valued at \$1,200 per academic year.

A \$1,000 fellowship for study in ceramic engineering with research

## Don't Let It Drop . . .

For the past week or so little has been said about the teaching situation. When the teaching situation was brought to a head several weeks ago, the Campus Government immediately began to plan for some organized system of handling student complaints.

If such a system as was suggested by the Campus Government were installed, it would do wonders for the college. It would be a great loss to drop the plans.

Human nature being what it is, it is understandable that students are reluctant to criticize their instructors in a way providing a chance of repercussions.

Still there are ways that instructors can be evaluated by their students in a manner that personalities would be eliminated, and baseless complaints would be screened out.

The college needs some such plan. It should not be allowed to drop:

## Better and Better . . .

Improvements of almost every kind have been made at State College during the past few years. The department that has shown possibly the greatest improvement is the cafeteria.

In spite increased prices — a thing that no one on the campus can control—cafeteria service is now better than ever before in the history of the college.

For the most part these improvements have been due to the industry and ability of one man—Harry Stewart—the cafeteria manager.

Those who remember the days of great noise, marble-top tables, and bread throwing in the cafeteria can best appreciate the attractive interior and vastly improved service that the cafeteria now has.

Most every week Harry Stewart adds some new service or courtesy that is designed to increase the pleasure of eating in the cafeteria. He is making every effort possible to make eating at the cafeteria as inexpensive and pleasurable as possible.

The TECHNICIAN would like to commend Harry on his work and assure him that it does not go unnoticed.

## The Increase . . .

Many people are very loud in their denunciation of the recent increase of veteran's

educational subsistence allowances. They are people who easily forget.

There was a time when the nation could not do enough for the veteran. Now, some people want to forget promises that were made back when.

The increase, as welcome as it is, is still not enough to compensate for the huge jump in living costs.

No thinking veteran feels that the world owes him a living, but many industrious veteran student has been forced to neglect his studies in an effort to support himself, and often his wife and children. It is no laughing matter to be constantly aware of a wolf howling outside your door.

Veterans are thankful for the raise, and, in general, they will make good use of it. And above all, they deserve it.

## According To HOYLE . . .

State and national political activity, and the tensions of the international situation seemed to leap rather sharply into focus this week, and college students, as future leaders of the nation, are obligated to make some effort to keep up with the news of the rest of the world, even though the pressure of school work may frequently force current events into the background.

## SOUTHERN REVOLT . . .

Some Southern Democrats are kicking over the traces right and left over the issue of the President's proposed civil rights program, and in so doing, they are once again proving their devotion to backwardness, and their allegiance to their own prejudice, while at the same time they continue to pay lip service to the ideals expressed in the Constitution. The incongruity of the situation has apparently never struck them, for if it had they would surely be unable to continue expressing such conflicting viewpoints. Of course the question of states' rights is being used to camouflage the real issues, but that old excuse cannot forever stand between the South and its coming era of progress and prosperity. We are happy that North Carolina has thus far resisted any temptation to get into the act, and we hope that our state will serve as a calming influence upon our more volatile neighbors. We must consider the facts not just as they apply today, but as they will appear tomorrow, and act accordingly.

## WHO'S NEXT? . . .

The Russians have once again given the world a practical demonstration of Soviet technique and intentions. Communist diplomacy in action would indeed be a pretty sight, were it not for the human misery that must accompany it. Americans admire efficiency, and the bloodless conquest of Czechoslovakia this week was indeed the epitome of efficiency, but Americans cannot sit idly by always while the Hammer and Sickle subjugates nation after nation. By definition, an insatiable appetite can never be satisfied, and that's the kind of appetite Brer B'ar has. The slow march towards the inevitable seems to have gained a slight momentum, which we can stop only by achieving stability here at home, while at the same time instilling faith and confidence in our friends abroad.

# WITH the GREEKS

By TED WILLIAMSON

Plans for the PiKA Ball, oldest annual dance on the State College Campus, are all but complete this week with the announcement that Dean Hudson, a favorite of State men for several years, will furnish the music. The PiKA Ball, held each year on Easter Monday, will come this year on March 29 and is to take place in Frank Thompson Gym. As usual the function will be black and white formal. State men will remember this dance as being one of the best dances of the year last year and it is always looked forward to with pleasurable anticipation. The PiKA Fraternity will also hold a banquet on the Saturday evening preceding their Easter Monday dance. This, a yearly affair like the ball, will be held at the Raleigh S and W Cafeteria.

Two State College Fraternities have birthdays this week. Sigma Pi was 51 years old yesterday, February 26. Their first chapter was founded at Vincennes University in 1897 and the State College Chapter was installed in 1921. At present Sigma Pi has about twenty-eight active chapters. Monday, March 1 is the founders day of PiKA. Their first chapter was at the University of Virginia and dates from 1868. The State College Chapter, Alpha Epsilon, was installed in October 1904. They are a national fraternity

and now have seventy-nine active chapters.

The Greek sports program for the winter term will play itself out in the next few days. A few finals remain to be held and a few games remain undecided but it won't be long now. Those play-offs will be hot stuff and we would advise you to go down to the gym (only 1200 of you that is) and witness them.

Next term will be rife with competition as the softball teams take to the diamond. Probably more so than any other sport, except possibly football, the softball will draw large crowds and should be good.

It has long been known that fraternity men liked to sing and that fraternity songs are among the most popular. At least two of the State Chapters have had the pleasure to hear their Fraternity Song played by big names in the past few weeks. Ted Weems, at the Mid-Winters, played the song that he has sold so many recordings of in the past year, Violets. This is the SAE Fraternity song. The only thing wrong with the way Ted did it is that he plays it in the tempo of the Samba, like he does Heartaches. "He should be wised up . . ." say the Sig Alph's! Last weekend we all heard "The Sweetheart of Sigma Chi" played so very well by Claude Thornhill.

## TEACHING . . .

### The Tradition of the Understanding Heart

(Editors Note: Periodically the TECHNICIAN receives copies of "The Saturday Letters", written by R. E. Manchester, Dean of Men at Kent State University. Dean Kent's wisdom and insight into the problems of many things connected with college life are sources of inspiration.

His latest letters contain several articles which have direct relation to a question that the TECHNICIAN has been voicing itself on—the question of teaching.

This letter is being printed in the firm conviction that the thoughts in the letter deserve to be shared.)

We have heard and reheard the story of round pegs in square holes and square pegs in round holes so there shouldn't be too much trouble with the peg and hole situation. Life, however, seems to specialize in situations and there are some that are not solved by trite remarks or stereotyped answers.

When one signs on the proper line of the proper contract and by so doing agrees to teach, it appears on the surface of things that a simple business arrangement has been completed to the mutual advantage of all parties concerned. It soon becomes apparent to the signer that there are some intangibles connected with teaching that are not tied up with the job of selling potatoes or the task of re-

pairing a smashed fender.

Teaching is not merely a job or a task. Teachers, through the centuries, have known this, have talked to the point, have written extensively relative to the matter and have, through their efforts, their objectives, their ideals and their visions, created a profession in the practice of which the contract, the salary and the specifications dealing with definition of duties have only passing significance. The standards, codes and goals are in the unwritten traditions.

The Understanding Heart! The biologist doesn't think much of such a statement unless, by chance, he is also a parent. In such case he has two notions of the meaning of heart, one of which isn't in his text book. We can be technical about words, if we like, but we can't be so narrow minded when we deal with an attitude toward learners that is based on understanding and sensitivity to human needs.

The tradition of the Understanding Heart is as foundational as the Golden Rule or the Ten Commandments and as basic as the laws of the Universe. No person can claim the title Teacher who lacks the desire and ability to give the student that first essential of learning—the trust and confidence that opens the mind to suggestion and guidance.

## The Silver Lining

By MAX HALBER

As thunder and fire in fury the cosmos disturb  
And Hades with Satan the luckless in laughter pursue;  
Like waters the desert in taunting the thirsty perturb  
To lighten his craving for water, to torment anew;  
Thus blatant and raucous my spirit in anguish proclaims  
My soul' pain, that sorrow to heartbreak and weeping inflames.

Asunder, however, the breezes the shadows dispel,  
And sunlight with vigor exhibits harmonious delight;  
Unshackled are terror and panic, not ever to dwell  
'mid roses of beauty, 'long courses that passion excite.  
Let therefore the rages of madness their climax attain:  
The raptures of wonder and true love forever remain.

# Graduate EE Student Develops Machine For Research Department

By ED PULSIFER

When Dr. Cell of the Math department at State announced complex mathematical calculations involved in plotting electric and magnetic fields, stress lines in beams, and streamlines around airfoils, Paul E. Green, Jr., graduate in Electrical Engineering, found the answer in a machine of his design dubbed *Green's Automatic Thesis Writer*.

Paul, a Chapel Hill boy, graduated from Carolina in '44 and has been doing graduate work in Electrical Engineering department since September 1946.

The project was sponsored by the Engineering Research department and advised by Dr. Cell, and William D. Stevenson, associate professor of the E. E. department. Equipment for the machine was secured from war surplus and E. E. department stocks. Work on the equipment has lasted over a period of two quarters beginning at the end of the summer term. Approximate cost of the project was \$100.

Uses of the machine can best be explained by an example problem. It so happens that the flow of a fluid such as air or water is specified theoretically by the same mathematical equations which determine the lines of an electric field. Therefore, by building electrode models of airfoils or channels of various shapes and plotting their electric fields, a picture of their streamlines results.

### Scale Model Immersed

This is accomplished by immersing a scale model of the problem in a tank containing water, impressing a voltage across these electrodes, and then moving a small probe about in the liquid. The probe is made to follow streamlines automatically by means of a series of motors and amplifiers. The course of the probe along these streamlines is reproduced graphically by means of a pantograph coupled to the probe.

A large number of these lines are plotted automatically in sequence and after the last one the machine is turned off.

Plotting of fields by use of models has been commonly used in engineering for a number of years, but the procedure has never before been made fully automatic. By employing electronic circuits the equipment can be operated more accurately and quickly than is possible with manual operation. Examination of resulting plots eliminates the necessity of employing complex mathematics in the solution of these problems.

Contrary to implications of the machine's title, Paul still uses the age old method of pen and paper in his thesis writing.

PAUL GREEN AND HIS NEW PLOTTING MACHINE

## Campus Red Cross Drive Begins Monday

Donations for the operation of the world famous Red Cross will be collected on the State College campus the entire week of March 1. The campus drive will begin Monday and continue through Saturday, according to Dr. R. C. Bullock of the Math Department, who is chairman of this year's campus drive.

A tentative quota of \$3,500 has been set for the campus. This quota is to be met from the students, the faculty, the government officials working on the campus, and all other personnel.

The Red Cross has achieved world fame in its endeavors to re-

lieve the suffering and anxiety of stricken peoples. Notable among the things accomplished in the United States have been the aid given in devastated areas where tornadoes and floods rampage, nursing services, setting up of blood banks, and many other worthy deeds. There have been cases where the Red Cross loaned money to veteran students when their checks failed to arrive on time.

The students in the dormitories will have a chance to contribute through their dormitory assistants, Dr. Bullock announced. The Mayors of Verville and Trailwood will handle the solicitation in those areas. Students off campus will have a chance to contribute through collection boxes.

## Plans Completed For Fuller Horton Day

The chairman of the Freshman Quadrangle Fuller Horton Day Committee has announced that the "Great Day" has been set for Thursday, March 4, at high noon. The festivities will be held in the freshman quadrangle and will feature several speakers, a band, and, undoubtedly, many spontaneous testimonials to Horton's greatness.

Horton, long the hero of the men living in Berry, Becton, and Bagwell, achieved quite a measure of local fame last year when he was awarded a six-inch, two-way Ludlow gate valve for being "most outstanding."

### Throngs Cheer Horton

Last year, as Horton mounted the speaker's platform to accept

his trophy, a hush settled over the throng like a fog. Then came a thunder of applause such as the campus has seldom heard.

With unassuming greatness, Horton lifted his eyes, gazed into the far-off, and began his acceptance speech. For several minutes he spoke in an earnest and forceful manner. It was regrettable that no one heard anything he said since thunderous ovation drowned out every word.

This year's recognition of the "Great One" got off to an early start last Monday night when a group of admirers burned a fiery "H" in the quadrangle in homage to their hero, Horton.

Horton is a native of Sugar Grove, N. C., and is enrolled as a junior in electrical engineering.

## Peirce Leaves Textile Post to Return Home

Dr. Frederick Peirce, former Director of Research of the School of Textiles, has returned to his native land after three years with State College. Dr. Peirce and his family recently left the United States to return to Australia.

Before joining the staff of the Textile School in July, 1945, Dr. Peirce was a member of the Shirley Institute in Manchester, England.

Known to be one of the world's outstanding textile research men, Dr. Peirce was working on woven and knitted fabric projects while at State College. Preliminary results of his work have been published in several scientific papers.

Dr. Peirce has a colorful background. After living 23 years in England, he was called to this country. (Continued on Page 12)

### NEW WAYS TO MAKE THE FAMOUS FINGERNAIL TEST!

If you're not the athletic type, get yourself a Siamese twin to doodle your noodle. Then, at the first sign of dryness or loose dandruff, head (get it?) for the drug store for a tube or bottle of Wildroot Cream-Oil hair tonic. Just a little bit will help you get ahead (get it again?) with women, if you have nothing better to do. Wildroot Cream-Oil grooms your hair neatly, naturally—without that goopy look. Relieves dryness and removes embarrassing loose dandruff. Wildroot Cream-Oil is non-alcoholic. Remember, however, it contains soothing Lanolin. Try Wildroot Cream-Oil hair tonic today. See for yourself why it's "again and again the choice of men who put good grooming first!" For generous trial supply free, send this ad with your name and address to Wildroot Co., Inc., Dept. C-B, Buffalo 11, New York.

# "Great Books" Head Urges More Adult Education

By MAX HALBER

"One of the ways of educating people more is by doing it longer," maintained Lynn Alfred Williams, Jr., president of the Great Books foundation, last Monday night at the United Church. More than 300 people listened to his "The Old Books in Education Today," the concluding lecture of the Ninth Annual Institute of Religion.

Stressing the need for a better world and subsequently for better people, Mr. Williams stated that only through education can we attain this goal and not through science, psychology, or medicine. Neither fear of the atomic bomb nor safer roads offer a solution.

"The problem is one of purpose," continues Williams, "and purpose is the province of religion and education." The average age at which a child leaves school is 14 and eight years of school is not enough. "Good and evil can be taught to eight-year olds, but it cannot be understood by them," said Mr. Williams. Education stops not upon leaving school he declared, but can and must be continued liberally because only adults can understand its higher phases.

Pointing to American spectator-type of culture, witnessed at theatres, movies, and sports, Mr. Williams demanded participation in the cultural, contending that listening and speaking clearly develop

better thinking. If economics, history philosophy, poetry, or the scientific method are discussed by people of all walks of life, problems of child upbringing and convictions may attain new light. Two-hour meetings bi-monthly would enrich people's minds, he declared, by contemporary application of the subject matter of Chaucer, Milton, and Homer's utterances.

"Participation in adult liberal education requires communication about ideas. This process gives practice in speaking clearly... and as these skills increase it may be that thinking is sharpened, too... the Great Books idea meets this test." Thus Mr. Williams told of our forefathers who read these great books, whose ideas have prevailed through the ages. "Plato, Aristotle, and Thomas Aquinas are in our constitution as surely as Benjamin Franklin, Alexander Hamilton, and Thomas Jefferson."

That learning would be more expedient, voiced Williams, may be true, but it would not be democratic. "It is our conviction that in a democratic society the truth will prevail," he added. In answer to the many criticisms of the Foundation, Mr. Williams cites its success and its 35,000 members.

Mr. Williams, vice-president of the University of Chicago, received his B.A. from Yale, his B.L. from Harvard, and was a student at

## Graduating?

Miss Jaunita Stott, assistant registrar, has announced that all seniors who expect to complete their graduation requirements during the spring term should report to their deans (or department heads in the School of Engineering) and fill out a blank which is used in preparing diplomas.

## New Publication Appears on Campus

A new publication, entitled "Engineering Research," appeared on the campus last month. It is published by the Engineering Research Department, headed by Dr. Wm. G. Van Note, and its main purpose is to acquaint any interested person with the work of each department in engineering. The pamphlet, published quarterly, presents a picture of the work in a different branch of engineering each time it comes out. It carries articles on "Meet the Staff" which endeavors to acquaint the reader with more and more of the personnel who play a prominent part in the operations of the engineering programs. It will have abstracts of previously published articles that will keep the reader informed on any back items he may have missed, and will have timely articles on State College's Research and Development department.

The "Engineering Research" pamphlet will mainly show the part that research plays in the development of the college engineering departments.

M.I.T. After serving as attorney for the Servall-Warner Corporation, Mr. Williams became the leading exponent of adult education in America. He was introduced by Dr. Richard G. Stone, president of St. Mary's School. After the invocation by the Rev. Charles E. McConnell, Baptist Church in Franklinton, Prof. Joseph D. Clark of North Carolina State College rendered a word of appreciation. The Meredith College Choir, directed by Dr. Harry E. Cooper, presented "Open Our Eyes" by McFarlane.

WANTED: To rent a jeep for use on engineering field trips. Contact R. E. Short, 307 Fourth. Tel. 9159.

## Mason's Meeting

State College's Masonic Club will meet Tuesday night at 6:30 at the S and W cafeteria in room 3. E. W. Timberlake, Past Commander of the Knights Templar, will be the principal speaker.

## AIEE-IRE Will Meet

There will be a joint meeting of the AIEE and the IRE Wednesday night, March 3, at 7:00 p. m. in room 207-A Daniels. Three student papers will be given. O. A. Palmer and C. S. Wright will give a paper on "A Method of Locating Line Faults." H. M. Gibson will talk on "A Universal Circle Diagram for Synchronous Machines." R. C. Dickinson will speak on "Pulse Code Modulation." The audience will judge the papers and the winner will receive a \$10.00 prize. The best paper will be entered in the AIEE Southeastern meeting. All E. E. Students are invited to this meeting. There will be no business.

## Academy of Science To Be Held May 7, 8

The North Carolina Academy of Science will hold its annual spring meeting at Davidson College on May 7 and 8, Dr. Reinhard Harkema of State College, academy secretary, announced this week.

Dr. Harkema said that Dr. F. G. Hall of Duke University's Medical School, president of the academy, will preside and that a number of awards will be presented to North Carolina high school students for the completion of scientific projects during the past year.

High School students who are interested in science and its related fields were urged by Dr. Harkema to enter any of their work in the contests.

The academy will award prizes of \$20, \$10, and \$5 to the three best high school projects arranged by classes or clubs, and the Carolina Biological Supply Company is again offering the biological exhibit awards of \$20, \$10, and \$5 for the three best preserved specimens of plants or animals.

Mr. and Mrs. E. O. Chapman of Charlotte will present a first prize of \$20 to the winner in the ornithological essay contest, and the State Museum will present copies of the book, "Birds of North Carolina," to the winners of the second and third places in the contest.

The North Carolina Forestry Association will offer prizes of \$20, \$10, and \$5 to the first, second, and third place winners in the forestry essay contest.

Full information on any of the contests may be obtained by writing to Dr. A. D. Shaftesbury, chairman of the awards committee, Woman's College, Greensboro.

### CLASSIFIED

**LOST:** Brown Sheaffer Fountain Pen and 1946 Needham Broughton High School Ring. Initials engraved, E. F. T. Call 4693.

**REWARD** for the return of leather covered drawing kit in BK 17-B on Feb. 11. Contact Ed Rodman, 1903 Hillsboro or telephone 6810.

**LOST**—Post Slide Rule, Old Type Sun Hemmi. Finder please contact Larry Sanford, 8910.

**MODEL AIRPLANE ENGINES** brand new McCoy 60, McCoy 49, Contestor, slightly used Olsen 29, Phantom P-30, and Drone Bee. I am selling out and here are some real bargains. Al. Millman, Apt. 14B, Verville.

**LOST**—Man's wedding band, yellow gold with white gold inlay. Engraved inside with initials M. J. to A. H., 8-2-46. Finder please call Andy Hassell at 2-0943 after 5 p.m. Reward.

**FOUND:** Man's yellow gold pocket watch in TB-18. Owner contact H. Edgerton, 2502 Vanderbilt Ave. Phone 22302.

**WANTED:** Men with dance band experience to supplement newly formed college orchestra. Steady work. Dick Levin, 2226 Hillsboro Street, Phone 81539.

**LOST:** K & E Desitrig Slide Rule, No. 303972, in black case Friday, Feb. 13. Reward. George W. Fruth, Room 306, 9th Dorm.

## Publications Staffs To Be Feted Friday

Student journalists and radio men, their advisors and guests will be honored next Friday night at 6:30 p. m. when the annual Publications Banquet will be held. The banquet will be at the Raleigh Woman's Club on Hillsboro Street.

W. T. Bost, veteran newspaper correspondent, serving on Capitol Hill, will deliver the principle address. Chancellor Harrelson will present publications keys to those students eligible.

Following the banquet Al Millman and his orchestra will furnish music for dancing.

Any publications which has not yet informed the banquet committee as to how many people to expect from that publication should contact Dick Fowler at THE TECHNICIAN office or at 4788 at once.

## COLLEGIATE PHOTOS WANTED

Kappa Alpha Mu, national collegiate honorary fraternity devoted to photo journalism, announces its third annual 50-print COLLEGIATE PHOTOGRAPHY EXHIBITION. *Science Illustrated*, co-operating with Kappa Alpha Mu, will award the grand prize which includes a trip to New York with traveling expenses paid, seven working weeks with the magazine at a salary of \$50.00 a week, and promise of a job if the winning photographer proves acceptable.

Entries will be accepted in five classes from now until April 30, 1948. First place awards will be made for the best pictures in the News, Pictorial-Feature, Fashion,

Sports, and Industrial classes. The grand prize will be awarded to the best of these five winners. A complete list of awards will be announced at a later date.

Students regularly enrolled in any college or university are eligible to enter up to ten prints with no more than five entries in any one division. Prints may be 5X7 or larger but must be mounted on standard 16X20 board. There is no entry fee, but pictures must be sent prepaid and will be returned express collect.

Entry blanks and contest rules may be obtained by writing to W. J. Bell, secretary, 18 Williams Hall, University of Missouri, Columbia, Missouri.

## "The Rivals" is Latest Theatre Offering

"The Rivals," an eighteenth century comedy by Sheridan, will be the fourth production of the current season to be presented by the Raleigh Little Theatre. There will be six evening performances, starting Monday, March 1, through Saturday, March 6.

An "all star cast" has been assembled to fill the sixteen parts called for. State College will be represented by Lindsay Wichard of the English department, Fitzhugh Dade, executive secretary of the Publications Board, and Mrs. Francis Greene, student wife. Other members of the cast include several who gave outstanding performances in previous plays, and among these are Mary Alice Spivey, Saravette Royster, Betty Lokey, and Marie Van Hoy.

"The Rivals" was first presented in 1775 at Covent Gardens, England, and has been a continued favorite of both theatre-goers and actors. Many famous American stage families, including the Booths and the Barrymores, have displayed their talents at one time or another in this old-time hit.

According to the director, Ainslee Pryor, the production is to be staged just as written, without any attempts having been made to "modernize" it. It will thus retain much of its original charm and naivete, and the colorful costumes of the players will undoubtedly add much to the audience's appreciation.

Reservations are now being accepted, but they must be picked up before 6 p. m. on the night for which they are made. The box office will open at 7 o'clock, and curtain time will be at 8 sharp.

## New Bed Press Slow Starting; But on Way

Good news for the editorial staffs of the campus publications broke this week when it was learned that the long-awaited bed press for the College Print Shop was on the way.

The press, a bed-type Kelly Number Two, has been on order since last fall. At that time the manufacturer promised delivery within 90 days but several delays have developed since the press was ordered last fall.

Purchase of the press was authorized by the Print Shop Committee at their meeting last term. The committee arranged to buy the press in an effort to alleviate the serious bottleneck which had developed in the print shop because of the lack of large press facilities.

Mr. Phillips, manager of the print shop, has been working all week to get the floor cleared and ready before the press arrives.

## Moving Fast

Steak and chicken dinners have been taking a back seat in the cafeteria's Grill Room since manager Harry Stewart added a half-buck spaghetti dinner to the menu.

The spaghetti, served in a round shallow dish and in ample portions, is prepared in the best Italian fashion—with plenty of tangy meat sauce. As an added treat to the discerning eater, two hard-crust rolls are served with each spaghetti dish.

## Debate Teams Return From Yankee Tour

State College debate teams concluded a series of debates last Tuesday with colleges and universities in New York, New Jersey, and Pennsylvania.

The State students met debate teams from Columbia University, New York University, the College of the City of New York, Princeton University, Brooklyn College, Fordham University, and Swarthmore College.

Floyd Harper of Charlotte, a junior in industrial engineering at State College and a member of the debate team, won national individual ranking in direct clash debating during the northern trip.

Other members of the State College debate teams who made the trip are Walter Parham of Franklinville, Walter Keller of Washington, D. C., Robert Reams of Apex, and Newton Mandel of New York City. They were appointed by Prof. Edwin H. Paget, director of debating at State College and originator of direct clash debating in 1932.

## Postponed Concert Scheduled for Sunday

A concert by the Redcoat Band, which was postponed recently due to a conflict with an Army Ground Forces Band concert, will be given Sunday afternoon at 4:30 in Pullen Hall.

Featured on the program will be the first local performance of Director C. D. Kutschinski's "Overture in F minor for Symphonic Band," which last year won the Distinguished Merit Award in the State Federation of Music Clubs composition contest and first honorable mention in open competition sponsored by the Columbia University Band. "The Major" will conduct the Redcoat Band himself for his overture.

The college symphony orchestra resumes regular Tuesday night rehearsals Tuesday night at 8.

Nylund of the college faculty, adviser; George Sledge of Nashville, advisory committee chairman; and J. E. Sherrill of Greensboro, reporter.

## New Men's Store To Open Across The Street

By SAMMY DOWNS

Have you seen Lewis' new men's store, located next door to The Griddle at State College Station? If not, then you're in for a pleasant surprise when the store holds its grand opening on March 5.

A great deal of planning has gone into the store and the builders have tried to consider every detail to suit college needs. The store was built primarily for State College and the surrounding vicinity. Although the firm will be chiefly operated on a "college clothes" basis, the owners plan to carry

a complete line of conservative dress clothes for the non-college residents who live nearby. The firm wants to cater to student styles and will do its best to obtain any article of clothing or footwear that a majority of the students like. The store will feature such popular items as complete evening accessories, slacks, all types of dress shirts, popular style shoes, hats, and a complete assortment of men's jewelry. Students will be interested to know that the store will carry tuxedos, both for sale and for rent.

The manager of the new store is very anxious to carry exactly what the students want, and welcomes everyone to come in after the opening and let him know the styles that they prefer.

# 'Pack Concludes Season Against Deacs

## WRESTLERS TACKLE VIRGINIA IN FINALE

### Saturday Scrap Slated For Local Gym

Coach Al Crawford's varsity wrestling team will conclude their regular season competition tomorrow afternoon when they meet the University of Virginia matmen in Frank Thompson Gym. The grappling Wolfpack has won four matches this season while losing only three and tying one.

The State matmen will enter the contest as a definite underdog. Virginia is expected to offer a tough aggregation of bruisers. The Cavaliers have defeated a strong Maryland team this season, and it is on this basis that they are conceded the edge. Maryland trounced Coach Crawford's crew earlier in the season, 24-6.

Coach Crawford will depend largely on his three heaviest contenders in the season finale against Virginia. Don Troxler, 165 pounder and conference champ in the 165 pound class, Fred Wagoner, 175 pounder, and Charlie Musser, heavyweight, have provided the spark for the State victories all season.

#### Musser Undeclared

Musser is the only State man who hasn't lost a match this season. He is a star football player for Coach Beattie Feathers. This is his first year on the wrestling squad. Wagoner has lost but two matches this season since dropping down from the heavyweight class, in which he competed last year. He completed the regular season last year without a defeat in nine contests.

#### Lewis in Shape

Letterman Ben Lewis who has

been out most of the season with injuries, will be back in form for tomorrow's tilt and will probably get the nod in the 136 pound class. Lewis is considered to be one of the smartest wrestlers on the team.

John Poplin will get the nod in the 145-pound class and freshman Doug Martin will hold down the 155-pound class. Either Frank Steed or Bill Rickard will wrestle in the 121-pound class, while Jack Ratts will probably represent State in the 128-pound class.

Following the Virginia scrap, the grapplers will begin training for the annual Southern Conference tournament, to be held in Lexington, Va. on March 7 and 8. State grabbed a second place tie in last year's tourney, the first to be held since before the war.

### "Wanta Play Ball In Intramurals?"

Any Fraternity, Dormitory, or off-campus organizations who were not in the winter term's intramural program and who wish to participate in the spring term activities, are asked to contact Mr. Miller in the gym before the end of the present term.

### Y Nominations

P. H. McDonald, president of the YMCA has announced that the nominating committee for YMCA officers is asking for nominations from the student body for the next two weeks. Nominations should be turned in to Franklin Teague, chairman of the committee, at the Y.

### Rangy Center

Pictured above is Paul Horvath, 6-6 center for Coach Case's rampaging Wolfpack. Paul has received the starting nod during the season and is a capable performer. Native of Chicago, Ill. Achieved great record in Army as star of 16th Armored Division cage outfit.

"We Want a Coliseum"

### Case's Quint a Cinch To Enter Tourney On Thursday Seeded First

By BILL HAAS

The State basketball wizards will offer a tough job tomorrow night to the Wake Forest Deacons when the rival Wake County hardwooders play a return engagement in Memorial Auditorium.

The Deacs will present a so-so ball club to the high flying attack of the Wolfpack. Gentry and Company are expected to do little towards stopping the scoring rampage of the 'Packers, who now lead the nation in the scoring department with a 77.5 average per game.

In the first meeting of the two outfits, the Casemen turned a weak Deacon team inside-out to the tune of 72-43. With a few more scalps to their credit and a tournament bid in the Garden in the offing, it is likely that the 'Pack will be out to do all the damage it can in this grand final of a great season.

#### Records Topple

Those unlucky men who have the task of making the books (record, that is) have been having a full-time job the last few days trying to keep up with the record-breaking antics of the basketball-happy Wolfpack.

Before entering the Carolina game over in Chapel Hill last Saturday night, the 'Pack had topped the old Carolina high score record for a season in the conference by 48 points. In this meeting they were out to sink the first 2000 points to be scored in Southern Conference history. With his usual super-deceptive ball handling, Sam Ranzino slipped up to the nets and drop-

### Golfers to Make Plans Good Season Expected

Members of last year's golf team and aspirants for this year's squad are requested to attend a meeting on Tuesday night, March 2 at 7:00 p.m. in the College YMCA. Charlie Tripp, student manager and coach, states that the team should make an excellent showing this year and he asks that all persons interested in trying to make the team to be present at this meeting.

#### Four Lettermen Returning

Four lettermen from last season's team which won five and dropped four in dual competition and placed fourth in the Southern Conference Tournament, are returning to bolster the current squad. Robert Turnbull, Weston Dixon, Roy Dearstyne and Charlie Gibson are the returning stars that should offer a real threat to their opponents with the experience gained in the past year.

Bad weather during the past several months has prevented much practice, but with the coming of spring—just around the corner you know—prospects for the season look bright. The schedule is not complete as yet, but Coach Tripp expects to arrange about twelve matches. The team will also compete in the Conference tournament. A trip in South Carolina during the spring holidays is also planned.

Don't forget golfers, Tuesday, March 2, 7:00 p.m., YMCA!

ped in the 2000th marker with a one-handed push shot, adding to the score of Coach Case's 50th win in less than two full seasons at State.

#### Carolina Fights Hard

The Scottmen tried every trick they knew to slow down the fancy ball handlers from State last Saturday night, and they succeeded for one half of the game.

Their efforts were in vain, for (Continued on Page 12)

### ARROW GORDON OXFORDS BACK IN CAMPUS STYLE PICTURE!

N. Y., Jan., 1948... Cluett, Peabody & Co., Inc., makers of Arrow products, announce the return of their fine Gordon oxford cloth shirts for college men.

1. FENWAY—Arrow's new oxford shirt with a button-down collar which comes in white, stripes, and solid colors.
2. DOVER—The classic of the button-downs with a medium point roll collar.
3. SUSSEX—Smartest of the wide-spread stay collars.
4. DOUBLER—The shirt that doubles for dress and sports. A regular length collar.
5. BROCKLY—Another fine oxford in medium point collars.

See your Arrow dealer now and place your order for your favorite style in Gordon oxford.

### ARROW. SHIRTS and TIES

UNDERWEAR • HANDKERCHIEFS • SPORTS SHIRTS

### NOTHING QUITE AS RIGHT...

### AS ARROW OXFORDS!

For years college men have preferred Arrow's selection of fine Gordon oxford cloth shirts above all others.

With good reason, too, for these shirts in various flattering collar styles are especially designed for college men.

The Sanforized label guarantees better wear and shrinkage less than 1%, the buttons are anchored on, and the famous Mitoga fit eliminates excess material around the waist.

Come in and see us for Arrow Gordon oxford shirts, priced at \$4.00.

# State's Unbeaten Mermen Meet Tough Carolina

## Intramural Front

By HERB BRENNER

### K.A. Bows to PKA

The rolling PIKAS outmaneuvered a game bunch of KA fraters on the 19th to take their fifth straight victory against no losses . . . the score 24-8. "Looper" Lovin was the high shooting hardwood gentleman that paced the winner's attack with a total of six points from field and one shot from behind the foul line.

He was aided in the win by Cramer, Steen, Holloman, and Jones, who each featured some excellent talent throughout the battle. For the KA's, Willard, Dalton, and Bell were the lads that handled the major portion of the floor work.

### PET Defeats SAM

Goodman lead the Phi Epsilon Tau gentleman to a 16-13 win at the expense of the fraters from Sigma Alpha Mu . . . Goodman scoring 8 points, together with Friedman, Gottlieb, and Jacobs, had to fight desperately to move their percentage total in games to the .500 mark. Herb Kahn was the major standout from the Sammy camp and was assisted in the point department by Al Fisher and Cy Olanoff.

### Sigma Pi Whips Sigma Chi

23-18 was the final score to come out of the two team's loop contest on the 19th, and the winners, pushed by Legrand, Floyd, and Sherrill looked "superb" in their ball handling on the Frank Thompson Gym floor. Legrand was high scorer for the victors with a total of 10 points to his credit. Buie was the main offensive threat for the losing Sigma Chi's with three field goals and one foul mark. Moffatt and Plank were the other two wheels in the Sigma Chi ball movement.

### DORM RESULTS

1st Becton Swamps 3rd Bagwell  
The high shooting Becton aggression defeated the 3rd Bagwell lads 31-12 in their league contest on the 23rd. Young, Frazier, Winstead, Hepler, Parts, and Jones all aided exceptionally well in the loop encounter and proved to be a hard punch to whip. Winstead scored 8 points to take individual scoring honors in the game.

Little and Brown were the two main offensive floor operators for the losers. Little hit the loop for 4 points and Brown racked in 2. Boothr also added two in the scoring department with two foul shots.

### Vetville Whips 3rd Syme

The potent Vetville five, scoring 28 points, outclassed a fighting 3rd

Syme team, who were only able to make 9 points. Palmer, Norell, Hege, and Turner were the Vets who bucketed the major portion of the winner's points, and looked "good" in their floor maneuvering.

Four of the 3rd Syme's points came from the talented finger tips of Green who offered the Vets a great deal of trouble with his hardwood play. He was assisted by Caldwell who hit for one basket.

### 3rd Becton Defeats 1st Turlington James Stars

"Jolloking" James, racking in 13 points, was the big star in this all important win for the high powered 3rd Becton lads. The final tally for the contest was 39-15. Whitehurst also played a great offensive brand of ball as he accounted for 11 points in the Becton win. Hardy also shot in 6 points to help in the victory for the Becton lads.

The Turlington gentlemen were bolstered by a gent named White, who made the majority of their 15 points. He tossed in 3 field goals and 1 foul shot for a total of 7 points. Hinson and Bobbitt were the other two standouts for the losers. Basement Syme Noses Trailwood

### Bryant-Mangrum High Scorers

Paced by "Baskets" Bryant, who accounted for 4 baskets in the last half, the Basement Symemen were able to defeat a fighting crowd from over Trailwood way. The tally at the end of the cage encounter was 19-17.

Mangrum of the Trailwood team looked like a varsity man in the first half as he continually spearheaded the Trailwood five by racking in 5 field goals. He was only able to toss in 1 other field goal in the last half due to the fine defensive play of the Syme team.

### 2nd Becton Barely Beats 1st Syme

Playing close ball all the way, the lads from Becton were barely able to push across 18 points to take the game away from the 1st Symemen, who tallied for 17. Wheeler, shot in 6 points in the last half to pace the winner's attack and had a total of 8 points for the entire game. Fox was his understudy in the scoring column with 6 points.

The losing Symes had a host of individual scorers, their points being more evenly distributed. Rogers and Lane each had 4 points; Payne and Heger had 2 points apiece. Both teams produced some well developed offensive and defensive play, which contributed to the closeness of the score.

## Battle of Champs Is Slated for State Pool

### Records Expected To Fall in Crucial Test

Two undefeated Southern Conference swimming teams, State and Carolina, will run head-on into each other next Wednesday afternoon in the State pool. The contest stacks up as the battle of champs, the winner being a cinch to enter the conference tournament seeded No. 1.

Coach Willis Casey's State mermen will enter the contest with a victory string of eight this season, four of the wins being in conference play. Carolina sports an equally impressive record. The two teams did not meet last year because the State team was badly crippled with illness at the time. Attempts were made to postpone the meet but they could not be worked out and Carolina was conceded a forfeit.

### Win 16 Straight

During the two years Coach Casey has been tutoring the water tracksters at State, the tank squad hasn't lost a dual meet in 16 outings, other than the Carolina forfeit. The State mermen also ended a nine-year reign of Carolina by copping the Carolina AAU meet last year.

The meet between the two undefeated brothers of The Greater University will pit the two teams who hold ALL the Southern Conference records. State currently holds three of the records while Carolina boasts four. Both teams can lay claim to the breast stroke mark. Bill Kelly, star water ace for State, set the record in 1945 while a Navy V12 student at Carolina.

### Five Records in One Week

State established what is believed to be a new mark in breaking records last week when Coach Casey's tankers shattered five marks in one week. The Wolfpack broke records in the 50-yard and 100-yard freestyles, the 300-yard medley relay, the 400-yard freestyle relay and the 50-yard freestyle, again. Carolina captured the 400-yard relay from the 'Pack later in the week, however.

Last Saturday afternoon, the mermen continued their quest for top spot in the conference by swamping the Colonials of George Washington University, 56-19, in Frank Thompson pool. One conference mark and three pool records fell by the way as Coach Casey's water aces churned through the water in record time.

## Jayvee Star

Chester P. Gurski . . . rangy center and star for Coach Butter Anderson's jayvee basketball team. Gurski hails from Ford City, Pa. and is a freshman. He has scored 183 points this season in 11 contests, for an average of 16.6 points per game.

## Ward and Kelly Star

Letterman Bill Ward, conference champ and record breaker from Raleigh, started the ball rolling by shattering the 50-yard freestyle mark of 24 seconds that he set the previous Monday. His new time was 23.9 seconds. Former AAU champ Bill Kelly, another Raleigh product, set a new pool record of 2 minutes, 19.3 seconds in the 220-yard freestyle. His time was only 2 seconds off the conference records.

Ward and Kelly teamed with freshman Matt Lojko and Letterman Bill Despres, natives of Providence, R. I., to smash the pool mark in the 400-yard freestyle relay. Their winning time was 3 minutes, 43.5 seconds.

The Wolfpack posted first place in eight of the nine events, losing only in the 440-yard distance swim. Coach Casey used many reserves in the one-sided triumph.

Corman Gold, Bill Johnson, and Dick Shober were the reserves taking first place honors. Harry-Cramer won the diving. Bill Bedford,

## Baby Pack Meets Deac Jayvees; Win Eleventh

State's junior varsity basketball team will conclude their season tomorrow night when they tackle the Wake Forest jayvees in a preliminary game to the State-Wake Forest headliner. Coach Butter Anderson's quint already holds a one-sided victory over the Baby Deacons.

Chet Gurski continued to pace the Baby Pack in scoring as he looped in 17 points against Campbell Junior College on Tuesday night. State won the ball game, 44-33. The win was the second over the Campbell cagers, and the eleventh straight victory of the season for Anderson's proteges.

Gurski is rated as one of the finest cage prospects ever to come out of Pennsylvania. He weighs 190 pounds, stands 6 feet, 3 1/2 inches, and is 18 years old. He was top scorer for his team, which went to the semi-finals in state competition three seasons in a row.

Steady Joe Davis, a 6-3 forward from Raleigh, grabbed runner-up honors with 12 points. Davis starred three years on varsity high school outfit and is also a track man.

Alan Geist, 5-10 guard from Brooklyn, N. Y., swished the nets for 8 points. He earned letters in track, football, and baseball in high school.

George Pickett, track and "B" football performer, scored 6 points, while Joe Harand, dependable guard from Tenafly, N. J., made one free throw to complete the scoring. Pickett hails from Raleigh.

## Practice Begins For Tennis Team

Coach Walter Seegers has announced that all lettermen from last year's tennis team and all candidates for the tennis team, should report on the courts for beginning practice and instructions on Thursday, March 4, weather permitting.

Percy Cloud and Fred Stafford teamed to win the 300-yard medley relay, while Bill Morris, Pete Harris, Bill Patton, and Tommy Wahab took seconds for the swimming Wolfpack.

Julien Rattelade

# State Track Teams Enter Southern Invitation Meet

George Pickett, Jim Byler Score At Maryland Meet

By JOE HANCOCK

Track teams from nineteen Southern colleges will clash tomorrow in Chapel Hill along with more than a score of freshmen and scholastic aggregations in the Sixth Annual Southern Invitational Games sponsored by the University of North Carolina.

The meet first was founded in 1930 as the Southern Conference Indoor Games, and in 1943 switched its name to the Southern Invitational Games. During the past eighteen years Carolina has won the event twelve times, Duke three, and Navy, N. C. Pre-Flight, and Washington and Lee once apiece.

### Second Contest

State will be facing its second contest in as many weeks when the local tracksters compete in the Indoor Games tomorrow. In the University of Maryland Indoor Games last week Coach Tom Hines' boys scored two points, while Maryland won the event by amassing 33 points. Competition in the meet was high, with nine teams consisting of 182 contestants entered in the meet.

Jim Byler placed third in the shot put and George Pickett tied with two other contestants in the high jump to account for State's scoring. Coming in for praise from Coach Hines were John Tencick in the low hurdles, R. T. Curran in the 60 yard dash, Dusty Dostanko, shot put, Norm Orrmins in the 880 and Hans Egelund in the 660. Coach Hines stated that one reason for the low score was that all of the teams with which State had to compete had the facilities to work with, while State has not.

### Distance Events Good

Competition is expected to be highest in the middle distance events, with Ed Matthews of Maryland and Roger Neighborgall of Duke expected to retain their titles in the 440 and 880 respectively. Neighborgall's winning time in the half mile last year was 2:03.7, far off the Indoor Games record of 1:59.6 set in 1944. His title will be challenged by a half dozen stars among whom are Mark Burnham, Carolina, Frank Magill, V.P.I., and Norm Orrmins of State, who paced

the half mile in 2:05 at Maryland last week.

State's freshman outfit will be out to retain the title which they won at last year's event, but will have to do without the services of several of its stars who have moved up the varsity.

Freshmen entered in the event are:

60 yard dash—Ed-Mooney, C. B. Cain, M. B. Vernon.

70 yard high hurdles—A. W. Jenkins.

¼ mile—Vernon, John Hunter, Sam Homewood, C. R. Davenport.

Mile relay—Skaarup, R. P. Karkiker, D. M. Shuford, Vernon.

The following varsity men are scheduled to appear in the Indoor Games tomorrow.

60 yard dash—G. H. Landau, H. S. Goldberg, R. T. Curran, and Chuck Chambers.

70 yard high hurdles—Gordon Goodman, John Tencick, and Chambers.

70 yard low hurdles—Goodman, Tencick, and Chambers.

2 mile run—David Dubow, Jimmy Adams, Jim Boles.

Mile relay—Norm Orrmins, E. L. Rasbury, Charles Shuford, and Hans Egelund.

Shot put—Jim Byler and Dusty Dostanko.

440 and 880—Egelund and Orrmins.

Mile—Dubow.

High jump—George Pickett and Hal Owens.

Pole vault—L. C. Lousada.

## Fieldhouse Quint Ends Season Undeclared

State's basketball domination in these circles continued at full steam as the Fieldhouse hoop aggregation downed a stubborn Rocky Mount High School team, 43-35, on Thursday, February 19, to complete their season undefeated. The Wolfpack footballers posted their fourth victory, having previously defeated the Wake Forest football team twice and downing a strong Wilmington, N. C. College Center five, 51-49.

Leslie "Footsie" Palmer led the team in scoring for the season. If

## Dependable Reserve

Vic Bubas, freshman guard, has been a standout reserve all season. Steady floor man and excellent set shot. Starred for three years on Gary, Ind. team which won sectional and regional championship of Indiana in 1942-43. Played on XV Corps team which became European Theater regional champions and finished third in E.T.O. tournament. Bubas is also a great track man.

it wasn't for the fact that kicking the ball in a cage game is illegal, one might be inclined to think that "The" Palmer was using his accurate toe to swish the nets for so many points.

Flashy Tony Romanowsky, reserve end for the football team, was runner-up in the scoring. Other football and baseball players who made up the team are: John Foster, Charlie Richkus, Gwyn Fletcher, Bob Edwards, Ogden Smith, Red Stine, Ed Mooney, and June Cheek. Fletcher was the coach and Pem Hobbs was the manager.

A tournament between football teams from State, Carolina, Wake Forest, and Duke could not be arranged.

When all the talk about the NCAA tournament died down, there were quite a few disappointed people walking around the State campus. The decision to select Kentucky to represent this district in the tournament kinda took the wind out of State's sails. The fact that the Wolfpack boasts the highest game scoring average in the nation and ranks among the top three teams in the country, seemed to have little effect on the bid. Besides that, the Pack has been breaking scoring records right and left. Twice they have soared over the 100 point mark in one game. They broke the season total points record for the Southern Conference and shattered the nation's season total points record on Wednesday night.

## KENTUCKY TOPS—BUT STATE BETTER

Having been privileged to see both State and Kentucky play in the Garden last year in the NIT tourney, we feel that we can safely say the Wolfpack is better. Kentucky won the game but State sure looked ragged that night. We'll concede that Rupp's team was better than Case's last year, but not more than 5 points. The Blue Grass boys have done fine this year, but they haven't made any big strides in improvement over the '47 team. State, on the other hand, has literally been bustin' at the seams.

The Pack has lost only two games while winning 25. Both teams that licked us couldn't get more than a five-point advantage and these same two teams have lost very few games too. Kentucky has the same won-lost standing, but their losses have been by margins not resembling closeness and were rendered by teams with many defeats. We wonder if Davidson Coach Shepard and his committee would consent to a play-off between State and Kentucky next year if a similar situation existed then.

The fact that freshmen are barred from participating in this year's Gotham event probably influenced the decision somewhat, but we still doubt if we would have got a square deal if that rule did not apply. To be sure, Coach Case would be a foolhardy man if he tried to enter the NCAA tourney without the services of three valuable freshmen, Sam Ranzino, Paul Horvath, and Vic Bubas; and he, being the wise man that he is, realized that. So there was no alternative, but, still, we aren't sure whether the committee was stupid enough to think Kentucky better than State.

Now that the NCAA door has been slammed in our face, there is still a possibility of getting a bid to the National Invitation Tourney. Even so, the only thing that would allow us to go would be for the faculty council to make suitable arrangements for the team to take their exams without too much pressure. Last year they had only a week to make them up, having to continue spring term classes at the same time. To be sure that is no fair advantage for the team. Let's hope the faculty council comes across. Oh well, we have to get the bid first.

## COACH CASE FOR REFEREES

Following our misconstrued attempt to instill a sense of fairness in basketball fans for the referees, we inquired of Coach Case as to his stand on the issue (we already knew he was for what is right.) Commenting on the conduct of the State student body at home games, Coach Everett Case said, "I do not feel that our students are any more belligerent toward the officials than any other student body in the Southern conference, but I would like to see a general change in attitude of all students toward the officials." Case continued, "The official, regardless of his school affiliations, is usually an impartial judge, who attempts to do his best on the court. After all, he is not working as an official simply to earn a living, but also because he enjoys the game and believes he can further the development of the sport by officiating."

"I believe," Case said, "that we should all try to temper our criticisms of the officials with good judgment and place ourselves in the position of the official who is attempting to call the game as he sees it. We cannot set ourselves up as the judge and jury and condemn his actions, unless we are thoroughly familiar with what the official is trying to do. We should not be too quick to condemn, for no two people would see the same foul in the same way."

"I should like," Case concluded, "to have the State student body adopt the attitude of applauding the officials instead of initiating a round of jeers when their names are first announced for the game." We are behind you 100 per cent, Coach Case, aren't we fellas?

## NEED FOR INDOOR TRACK

After the reeling off of the first track meet that State has entered this season, one fact became quite evident. State College needs an indoor track. Coach Tom Hines' cinder team gathered only two points in the Maryland Invitation games, but many of the Wolfpack tracksters showed exceptional ability. Coach Hines has the material to produce a championship team, but even a champion needs practice regularly. With weather like Raleigh has had in the past two months, it is almost impossible for the men to practice. All other teams in the conference have good indoor tracks to practice on. If we are going to have a good track team, we need an indoor track. Why let good material go to pot. Plans should be made for a track in the Coliseum, if not already planned.

**RELIGIOUS EMPHASIS**

(Continued from page 1)  
from Cumberland University. His studies for the B.D. degree were divided between Yale and Vanderbilt, with summer study at the University of Chicago.

**Seminars to be Held**

For the first time at State College, the Religion and Life Week Program includes seminars by schools. Mr. Authur F. Raper, United States Department of Agriculture, Washington, D. C., will conduct a seminar for the School of Agriculture; for the School of Engineering, Dr. W. G. Van Note, Head of the Department of Engineering Research, N. C. State College; for the School of Textiles, Mr. William McLaurine, Charlotte, N. C., retired Secretary-Treasurer of The American Cotton Manufacturers Association.

In addition, Rev. Warren Carr, pastor of the Watts Street Baptist Church, Durham, N. C., will conduct a seminar on "The Christian Faith" and Rev. Howard Wilkerson, pastor of the Haywood Street Methodist Church, Asheville, N. C., will deliver a series of addresses in the Vetville "Y."

Dr. Roy N. Anderson, Director of Student Personnel, will head the Faculty Luncheon Committee.

The Protestant Religious Council, sponsor of Religion and Life Week, is composed of the Canterbury Club, Wesley Foundation, Baptist Student Union, Westminster Fellowship, Lutheran Student Association, and the Young Men's Christian Association.

**CASE'S QUINT**

(Continued from Page 9)

the Statemen came back from the intermission and walked away from the Phantoms to end play at 69-45. This score is the highest ever scored on the Carolina court against the Chapel Hillers.

**Dickey Hurt**

Before leaving the game with an injury that had both the Carolina and the State fans holding their breath, the high score artist, Dick Dickey, dropped 19 points through the hoop to take scoring laurels for the meeting.

**Dickey Breaks Record**

The Indiana red-head is breaking some records for himself, and is the fourth man in Tar Heel basketball history to top the four century mark in a season. With 20 tallies in the VMI game, and with the Wake Forest engagement coming up tomorrow night, Dickey has beaten Ed Koffenbergers top of 416. And in the Southern Conference tournament, the high score technician can drop Dillon's mark of 452 markers by the way-side. There is little chance of Dickey's topping Glamack's all-time high of 578, unless he can connect with 23 points per game through the Conference Tournament. HOW 'BOUT A TRY, DICK?

**'Pack Wallops VMI**

State's red-hot basketekers put the celler-dwelling VMI aggregation a little deeper in the hole Wednesday night when they tossed in 90 points for the 11th conference win and the 25th victory in 27 starts.

The 'Pack was ahead at the half 48-24, and the final score told a sad tale for the outclassed VMI Squad. The 90-47 win put the Wolf-pack back into the national scoring lead, probably for keeps, since Rhode Island now has an average of 75.9 to a State mark of 77.5.

Dickey continued his point making to drop in 20 points, with Bartels following suit with an equal number. Freshman Sam Ranzino was second with 18 tallies.

**I.E. HEAD**

(Continued from Page 3)

Lampe said: "As a native North Carolinian, Professor Henderson comes to State College with a deep interest in the industrial develop-

**Student Short Story Writer is Honored**

Nathan L. Evans, Jr., a sophomore in the School of Engineering, has received notice that his short story, "Rain in the Afternoon," has been selected for discussion at the Fifth Annual Arts Forum to be held at the Woman's College in Greensboro on March 11, 12, and 13. The story will also be published in a special issue of CORADDI, the literary magazine of the Woman's College.

Annually short stories and poems from colleges all over the Southeast are submitted for discussion by a panel of nationally known professional writers. Out of scores of stories submitted only about twelve are selected as representative of the best creative writing of the area. Inclusion in the list is considered to be a distinct honor.

Mr. Evans' story was written as a part of the requirement in English 222, a course in creative writing conducted by D. Lodwick Hartley, head of the English department. This course, like the one in news writing, has recently been revived as a part of a program of the English department to stimulate creative writing on the State College campus.

**Wives Meet**

Students' Wives Club will meet on Tuesday, March 2, at 8:00 at the YMCA. Mrs. Rowena Linthicum will make a talk on "Baby Care." In addition there will be a St. Patrick's party and the usual games of bridge and rummy. The faculty hostesses are Mrs. John Goodman and Mrs. Graves Vann.

**FELLOWSHIPS**

(Continued from Page 3)

the academic year. Research work for this fellowship will be in the refractories field.

Awards of the fellowships will be announced in May and August, Dean Lampe asks that all applicants indicate their major field of interest as well as their qualifications and experience. Detailed information and application forms may be obtained by writing to Dean Lampe, School of Engineering, State College, Raleigh.

**PIERCE LEAVES**

try during World War II as a special consultant to the United States Army Quartermaster Corps. During his stay in this country he resigned his position in England to accept the offer of the School of Textiles. At the request of the Australian government, Dr. Peirce spent two months there as advisor of a wool research program.

ment of the State. He has had broad experience and training in industry, particular in North Carolina industries. He is highly qualified technically and has had much experience in dealing with human problems, economic relations, and labor situations in industry.

"His selection for this position came as a result of his excellent educational preparation, his outstanding accomplishments in industry, and his strong interest and faith in the industrial development of North Carolina."

**Active Supporter**

Professor Henderson has been an active supporter of State College for a number of years. He served as president of the Lee County State College Glee Club while employed in Sanford. He is a member of Tau Beta Pi, the Society of Automotive Engineers and is now serving as president of the Western Massachusetts Chapter of S.A.E.

**Engineer Appointed As ME Instructor**

Appointment of M. L. English of Jeannette, Pa., former research engineer with the Elliott Company, as an instructor of mechanical engineering at State College was an-

nounced by Professor Karl P. Hanson, head of the College's Department of Mechanical Engineering.

English, a 1941 graduate of South Dakota State College, was on the mechanical engineering staff of the University of Minnesota before

joining the Elliott Company. He served in the machine gun branch of the War Department in Washington, D. C., during the war and is a former employee of the Westinghouse Electric Corporation.

He is married to the former Lois Woodard of Princeton.
