Vol. XXVIII, Number 2

STATE COLLEGE STATION, RALEIGH, N. C., OCTOBER 3, 1947

Offices: 10 and 11 Tompkins Hall

Requests For Social Functions Due Now

All Student organizations who expect to request dances or other social functions during the fall term or the early part of the winter term must file their applications at once, it was announced by Dean of Students E. L. Cloyd. The social calendar last year returned about to normal so far as the number of organizations and spread over the year was concerned, according to Dean Cloyd.

Organizations should express their first, second, or third choice of dates when making application. Dean Cloyd suggested that the Social Functions Committee meet as early as possible to consider all applications. Blanks may be secured in the Dean of Students' office, 108-109 Holladay Hall.

Little Theater Opens Season Monday Night

The Raleigh Little Theater will begin its new season Monday night with a production of "Dream Girl" by the celebrated playwright Elmer Rice.

"Dream Girl" was written by Rice as a vehicle for his wife, Betty Field, who starred in the production during its first season on Broadway.

Included in the cast of the local production will be Fitzhugh Dade, an old timer in little theater productions, who portrays the character of Jim Lucas, a disturbing influence in the dream girl's reveries. Dade is Secretary of the Board of Publications at State College. Sheryl Berin, a student at State will also be a member of the cast.

Several student memberships are still available to State College students and may be had by contacting Professor Robert Wynne in Room 3 in Pullen Hall. Student memberships entitle students to attend five shows for \$3.50.

The box office will open Monday night at 7:00 and the curtain will rise promptly at 8:00.

State-Davidson Game To Be Aired by Campus Station

The up-and-coming campus radio station, which is sporting new call letters—WVWP—by virtue of a recent FCC ruling, has completed arrangements to broadcast a play-by-play account of the State College-Davidson game tomorrow night.

Telephone lines have been rented at considerable expense and the services of two sports announcers have been secured.

C. A. Dillon, a former sports editor of THE TECHNICIAN, and Ed Storey, State College director of sports publicity, will handle the announcing duties.

The broadcast will begin tomorrow night at 7:45. A play by play account will be relayed via phone lines to WVWP's studios in the Publications Building and then transmitted over the station's constant frequency of 580 kilocycles.

For the convenience of those men living off the campus and those men who do not have access to a radio, a loudspeaker will be installed in the Y.

50th Anniversary Set For Today

Fitzhugh Dade Is Named As Publications Board Secretary

H. F. Dade of Raleigh has been appointed executive secretary of the Student Board of Publications at N. C. State College, Frank H. Jeter, chairman of the board, announced Tuesday.

A native of Henderson, Ky., Dade will maintain the business records and act as adviser for the seven student publications at State College, Chairman Jeter said. He has already assumed his duties.

Dade is a former assistant dean of students and administrative assistant in the School of Engineering at the college. He earned his B.S. degree in business administration at Davidson College in 1938 and has done graduate work in sociology and English at State College and at the University of North Carolina in Chapel Hill.

He is the first full-time executive secretary of the board. Previously, the assistant dean of students handled the duties as secretary. During the war, in the absence of C. R. Lefort, assistant dean of students, the post was filled by the news editor of the State College News Bureau.

The growth of the college and the expansion of the student publications have increased the duties of the board secretary to such an extent that a full-time man is necessary, Chairman Jeter said.

Dade is unmarried and resides at 2212 Hope Street.

Vesper Services

The Y. M. C. A. will again sponsor student vesper services this year. The vespers will be held every weekday at 6:30 pm in the conference room of the "Y." All students are cordially invited to attend this period of Christian meditation from the trying events of the day.

Mu Beta Psi Meets

Mu Beta Psi, honorary music fraternity held its first meeting last Monday night. The members are trying to arrange a joint meeting of the Clemson and State College chapters during the week end of the State-Davidson game. This will be possible if lodging arrangements can be worked out for the Clemson Band, it was announced by F. W. Jarvis, president of the State College Chapter.

HENRY F. DADE

Positions Still Open

There are still some positions open on the TECHNICIAN staff for those men who are interested in writing. Especially wanted are freshmen who can train for the ensuing years, but anyone, with ability will not be overlooked if he de-

Officials Of Alumni Tour Various Colleges Throughout The Country

By HARPER THAYER
H. W. Taylor, Alumni Secretary, and R. D. Beam, Director of Foundations, took a trip from August 10 until August 23 to visit other colleges and alumni clubs throughout the nation to see how we rated with the other schools of the nation. The six schools they stopped at during their journey were Penn State, Ohio State University, Purdue University, the University of Illinois, the University of Louisville, and the University of Kentucky.

All the schools visited seemed to have the same problems of housing married students and other general student congestion that State is confronted with. Most of the schools have even less dormitory space than State, on a percentage basis, as the majority of students in pre-war days roomed in the towns.

Another very noticeable thing was the absence of any college operated dining hall such as the one we have. Most of the eating places are either run by fraternities or by college unions with profit as the main aim. Therefore, the meals are all higher than obtained here.

A very cordial welcome was extended to Mr. Taylor and Mr. Beam everywhere they went. At Penn State they were escorted about the campus by an alumnus of N. C. State, Prof. J. T. Larkins, class of '19, who is in the School of Engineering there. There are between 7,000 and 8,000 students at Penn State.

At Ohio State, with its 27,000 students, they were toured by Joe

Vesper Services End Freshman Week

More than 500 freshman left Pullen Hall last Sunday night truly inspired by a Vesper message brought by Dr. W. A. Smart of Emory University.

Dr. Smart, speaking on "Religion and the Student," singled out for special attention the student who took religion for granted at home, but found himself losing religion as he gained an education.

"Stop concentrating on things you don't believe," said Dr. Smart, and concentrate on those things in which you do believe." Using stories showing the power of great strength and faith the speaker developed his point.

Dr. Smart was introduced by Dean of Students E. L. Cloyd. Chancellor J. W. Harrellson presided over the services which brought to an end Freshman Orientation Week Rev. Newton J. Robinson led prayers and hymns.

Interested persons are invited to attend the staff meeting on Monday nights at 6:00 p.m. in the private dining "B" on the east side of the cafeteria. Dinner will be served and will be on a dutch basis.

Blickle, who worked here in the Ag Engineering Dept. for several years. Ohio State boasts one of the finest faculty club buildings in the nation and has many other notable features lacking here.

Formerly at Purdue
Dr. J. H. Hilton, head of Animal Industry here, formerly at Purdue University, arranged another cordial welcome at Purdue. The Dean of Agriculture and the Alumni Secretary both gave their Saturday afternoon conducting our visiting twosome around the campus. Of special interest at Purdue is an auditorium with a seating capacity of 6,000 persons, with practically perfect acoustics. Purdue also boasts a magnificent Alumni building with 10 rooms for guests. The enrollment there is around 14,500.

The University of Illinois was the largest of the schools visited. With 22,000 students at Urbana last year and 14,000 in other sections of the University, they carry an enrollment of some 36,000.

Louisville Next
The next stop was the University of Louisville. Louisville is not a public-supported school and practically all students are from a 30-mile radius of the city. Beam and Mr. Taylor inspected the School of Engineering there through the courtesy of Dr. R. C. Ernst, class of '21 in Chem. E. Louisville falls in the category of State as far as enrollment goes, with some 6,000 students.

In concluding the trip, our alumni officials toured the University of Kentucky, also through the arrangements of Dr. Hilton.

State Moves To Top Since Birth In 1889; Anniversary Program Begins At 11 Today

U. S. Senator Clyde R. Hoey of Shelby will deliver the principal address during the exercises marking the 58th anniversary of the opening of State College in Pullen Hall today at 11 a.m.

Following Senator Hoey's address, the U. S. Navy will present a bronze plaque to the College in gratitude for the training provided by the institution to Navy personnel during World War II. Over 1,300 Navy officers were trained in Diesel Engineering here during the war.

"The presentation will be made by Capt. Clifford G. Richardson, USN, chief of staff and assistant commandant of the Sixth Naval District in Charleston, S. C. The plaque will be accepted on our behalf by the Hon. Joseph Daniels, editor of The News and Observer and Secretary of the Navy during President Wilson's administration.

Chancellor J. W. Harrellson will preside over the ceremonies.

Special Music

Special music will be furnished by the State College Orchestra, under the direction of Major Christian D. Kutschinski, director of music.

Prior to the formal program in Pullen Hall, the academic procession will form on the lawn of Memorial Tower. Col. Samuel A. Gibson, head of the Department of Military Science and Tactics, will be the chief marshal.

All classes will be suspended during the exercises in order that we students may attend. Chancellor Harrellson also announced that the public is invited to attend.

Beginning Was Hard

Establishment of State College on October 3, 1889, was due largely to the militant efforts of Col. Leonidas L. Polk, hard-hitting editor of The Progressive Farmer, the Watanga Club, and the Morrill Act of 1862. From our humble beginning, the college has marched straight ahead to a position of leadership among the institutions of technology in the United States.

The college has grown from its one building in 1889 to a physical plant valued in excess of \$7,000,000 today, with a building program of over \$6,000,000 now in progress. The enrollment has advanced from 72 students—who reported to President Alexander Q. Holladay during the first academic year—to over 5,100 today.

The teaching faculty has jumped from President Holladay's original staff of 20 to approximately 400 now.

Yearbook Pictures

Last chance to have Freshman pictures made—Monday night from 7 to 11 p.m. Coats and ties should be worn. All Freshmen please make a special effort to be at the Publications building to have their pictures made on this night.

All students in Watanga Dormitory will start having their Agreemack pictures made on Tuesday night, October 7 from 7 to 11 p.m. This includes all classes in Watanga. Come soon and avoid the rush.

Campus Gov't Growing As Students' Champion

Student Cooperation Essential for Progress

By ISH COOK

Your Campus Government can serve you to the fullest extent while you are at State only with your cooperation and assistance.

One way of giving your assistance is by joining the men that you elected to the Council of the Campus Government in the Campus Beautification program which they are sponsoring. Through the efforts of the Council, a number of trash cans have been placed about the campus to aid in the proper disposal of scrap paper which, heretofore, has littered the campus.

Appropriations for campus beautification are scarce at this time due to projects of greater importance such as the new dormitories and other accommodations to meet the demands of a school that is fairly "busting at the seams." Therefore, let us strive to take care of what we already have.

Active in Summer

The Campus Government has been very active during the summer months. One of the projects, which might be listed under old business, is that of installing a sound system in the cafeteria to provide music during meals. Money has been appropriated by the Council for the installation of several small speakers at various places in the cafeteria. Music and announcements will be piped from the studies of the campus radio

station. Arrangements are being made with a professor in the electrical engineering school to formulate plans and to engineer the installation of this system.

During the summer, Council members made a series of talks over the College Radio Station in a program designed to familiarize the students with the procedure and doings of the Campus Government. Later in this term, there will be another series of talks in order that the students may be "in the know" about the present undertakings of the campus legislature.

If the other barbers who promised to work in the new barber shop on the campus do not decide to run off to Carolina like some have already done, another project which was started by the Campus Government will become a reality.

Signs for Buildings

In the near future you will be able to find the right building without having to ask someone its location. You may aim your thanks in the direction of the Campus Government for this. The Council intends to have signs placed on the buildings with the name or number of the building in large, legible print.

One of the biggest programs undertaken by the Council this year was the orientation of the incoming freshmen. The Council took advantage of an excellent opportunity to assist the new students in becoming active citizens in the government of which they were becoming a part.

Without the insistence of the Campus Government, the long overdue remodeling of the campus streets might not have become a reality. If it is at all possible, the Trailwood streets will be paved or at least the dust situation alleviated soon. Add the Pep Rally before the Duke game as another activity sponsored by your government.

Regular Office Hours

Regular office hours will be maintained in the Campus Government office which is located on the first floor of the Publications Bldg. next to the Library. The office will be open from 4 to 6 in the afternoon so as to make the services of the Campus Government readily available to the students.

The Campus Government—your

Pictured above is the 20-piece orchestra of Al Millman, a State College student who has been leading a band on the campus for the past two years. Millman and his aggregation recently completed a very successful summer season at several of the leading supper clubs on the East Coast.

Al Millman's Band Goes Into Third Year Here

Fronting a 20-piece band is no easy task; even if you have a full day every day in which to do it. We have a New Jersey lad on our campus who for the past two years has been fronting his own band in addition to trotting out to the Textile Building several times a day.

The man of whom we speak is Al Millman, a junior in Textiles from Camden, N. J. Al has had a broad background in many different kinds of showmanship. At a very young age he began to take a deep interest in music and organized his own band while still in high school.

After finishing high school in 1937 Al entered MGM's Great Waltz Contest and came out runner-up. This little jaunt resulted in a contract to tour Loew's theaters in every major city in the country. So, for the next two years Al was a very busy boy performing before the footlights with his dancing partner, Jill. Their act was billed as "Jack and Jill."

Organizes Second Band

Al states that after two years of steady dancing he just plain got tired of it so he organized his second band.

government—has a big job to do, a task that can be done only with the cooperation of the student body and the faculty members.

Freshman Fellowship Club Meets

Last Thursday night the Freshman Fellowship of the Y. M. C. A. held its first regular meeting in the "Y" auditorium at 7:15. The meeting was presided over by Marshall Propst, chairman of the Freshman Fellowship Committee.

The meeting Thursday was an organizational conclave, with the club's purpose explained and plans for the coming year discussed. Members of the Committee showed a movie on various "Y" activities all over the world.

Invitations for new members of the club was rendered. The organization will hold its regular meeting every Thursday night at 7:15. Propst urges that all new men who are interested in this program make a special effort to attend.

Dave Kirkman, chairman of the Recreation Committee for the "Y" Cabinet, has already shown his ability for arrangements with a State-Peace College party last Saturday night. He is reportedly working on more of the same.

Dr. Combs Appointed College Physician

Appointment of Dr. Joseph J. Combs of Raleigh as the State College physician has been announced by Chancellor J. W. Harrelson.

Dr. Combs, who has been practicing medicine here since June, 1929, will succeed Dr. A. C. Campbell, who died in June after 27 years of service at State College. He assumed his duties at the beginning of this term.

A native of Columbia in Tyrrell County, Dr. Combs is a former president of the Raleigh Rotary Club. He is a member of the Wake County Medical Society, the Raleigh Academy of Medicine, the American College of Physicians and Surgeons, and a member of the First Baptist Church.

Dr. Combs is an alumnus of the University of North Carolina, where he studied for two years before transferring to Columbia College, a branch of Columbia University. He earned his degree in medicine from the College of Physicians and Surgeons of Columbia University.

The new college physician will work at the institution on a part-time basis and will maintain his practice here.

Dr. Combs is married to the former Isabel Meekins of Elizabeth City, daughter of the late Judge I. M. Meekins of Elizabeth City. They have three children and reside at 1101 Harvey Street in Raleigh.

Freshman Killed In Freak Accident

Word was received Tuesday that Lester Howard, freshman student from Martinsville, Virginia was killed last weekend in a freak accident in Richmond, Virginia. Howard, who had a habit of carrying a pistol above his rear view mirror, was killed when the gun became dislodged and discharged, it was reported. No further details were available at press-time.

Feature Must Serve Its Purpose Without Dogpatch

By BERT ZUCKERMAN

Your daily paper features a comic strip named "Li'l Abner," which is commonly read by all people between the ages of 64 and 65 (and a few others). Behind the scenes Al Capp, the creator of "Li'l Abner," cleverly manipulates his characters so as to satirize certain flagrant infringements of our inherent rights. We of the Feature Department are neither as clever nor as highly paid as Mr. Capp. If we attempt to follow in his footsteps we must deviate from his method and stick to straight prose style.

The TECHNICIAN is in the very fortunate position of not having to depend on outside interests for financial support. In view of this

fact the Feature Department may report on topics of current interest without confronting the bugaboo which inhibits so many other papers; namely, the fear of treading on the monetary toes of powerful corporations which contribute financial backing by way of advertising. If we think that something is "fishy" about some particular subject, we can and will say it. In this way, we may serve the student body by presenting a new trend of thought on a particular controversy.

One of our professors commented that "a healthy skepticism" was a desirable asset for a college student. A skeptic will always question—he will always think. We ask you, the student body, to think along with us and enter into our

NOTICES

● Will all students interested in beginning a "Chess Club" at State College please come to the cabinet room of the YMCA at 7 o'clock, Wednesday evening, October 8.

● Any student of the Engineering School interested in working on the staff of the Southern Engineer please attend the regular staff meeting Wednesday night at 7:30 in the Southern Engineer office on the second floor of the Publications Building.

● The A.I.Ch.E. will hold its first meeting on Tuesday night in Daniels Hall, room 115. All members are urged to be present for this important meeting at 7:00.

controversies through the medium of letters to the editor. They will be printed, for the false can always be refuted, and we have no fear of the truth.

ROTC Doubles Size; Adds Men to Staff

State College's R.O.T.C. program for the coming year got underway Monday with an enrollment of 883 cadets. This is an increase of 400 over last year's figures and brings the Regiment to its highest strength since before the war, when it numbered approximately 1,600 men. The cadets, numbering 173 advanced students and 710 elementary men, will take training in six military sections: engineer, quartermaster, ordnance, infantry, signal corps, and air corps.

Col. Samuel A. Gibson, commandant of the College's Department of Military Science and Tactics, has announced the addition of five officers and eight non-commissioned officers to the staff of the Military Department to serve as instructors and administrative and property maintenance personnel. Increased supplies and equipment already have arrived on the campus for use in training the cadets, he said. State College now has facilities for training an R.O.T.C. enrollment of at least 1,200 students, Col. Gibson stated.

Glee Club Rehearses

The Men's Glee Club rehearses in Pullen Hall at 7 p.m. on Mondays, Tuesdays, and Wednesdays. Election of officers for the current school year will be held Monday night. Plans for this term include the presentation of a concert program in November and a joint concert with the orchestra and the Meredith Choir in December.

D. C. Kutchinski, director, issued a call for pianists to try out as potential accompanists.

"Y" Open To All

The Y.M.C.A. is definitely NOT a "closed shop," according to the president of the State College "Y." The "Y" wants everybody who is interested in its program and will welcome them into its fellowship. Putting it boldly, the "Y" has a positive interest in any and all students.

Rockhounds Meet Next Wed. Evening

The first meeting of the year of the Rockhound Society will be held at 7:00 p.m. on Wednesday evening, October 8th, in Primrose Hall, home of the Department of Geology and the curriculum in Geological Engineering.

Mr. William C. Hayes, Jr., new instructor in the Geology Department, will give an interesting talk on "Copper Mining in Nevada." This will be followed by a short business meeting. All students in Geological Engineering will be present. Anyone else on or off the campus who is interested in Geology or Mining will be welcome.

The Rockhound Society is composed of students, faculty and others interested in geology, minerals, mining, and other phases of the Minerals Industry. Many striking and interesting mineral and paleontological specimens have been added to the Geology Department's collections by Mr. Edward L. Holt, another new instructor in the Department. These will be on exhibit for those attending the meeting.

McAdams Resigns

Mr. Charles K. McAdams, former Program Secretary of the State College Y.M.C.A., has resigned to accept a position as instructor of vocational agriculture in Chapel Hill Public Schools.

AG Club Holds Initial Meeting

The Ag Club held its first meeting of the year last Tuesday night in the Blue Room of the college cafeteria with a record-breaking number of 420 members in attendance.

Plans for the forthcoming Ag Fair were discussed and several new officers were elected. Don Biggerstaff was appointed parliamentarian; Paul Church and Wilbur Byrd were appointed to the program committee; and Glenn Hunt and George Patton were elected to serve on the poster committee.

The next meeting will be held Tuesday night at 7:15 in room 118, Withers Hall. President Ben Coble urges all members to attend.

"Dancing with a Deb" GREAT RECORD! ★

—"Skitch" Henderson's Newest Disc for Capitol

"Skitch" and some of his side-men looking over an arrangement of "Dancing With a Deb."

IT'S CAMELS WITH ME!

The platter that's causing plenty of chatter in juke circles is "Skitch" Henderson's latest instrumental—"Dancing With a Deb." Boy—what a record!

It's obvious "Skitch" has had plenty of experience in tickling those ivories, and he follows that experience rule in smoking too. "I smoked many different brands and compared," says "Skitch." "My choice from experience is Camel."

Try Camels. Compare. Let your own experience tell you why more people are smoking Camels than ever before!

Raleigh, North Carolina, under the Act of March 3, 1879.

Are Your Fenders Suffering?

To Begin With....

As each new editor assumes his duties at the beginning of the school year there generally is a simultaneous appearance on the editorial page of the first issue a great statement of policy. In this statement of policy the new editor vaguely outlines the worlds he plans to conquer and lays down his battle strategy he plans to use in bringing Truth to the unenlightened.

We are not going to attempt any such impossible undertakings this year. Our main policy will be printing news of interest to the students, features which are entertaining and informative, and such opinionated material as is needed to aid in the upbuilding of State College and its students.

There will be no unwarranted attack on any member of the student body, staff or administration; but we shall constantly be on the lookout for anyone who overlooks the needs and feelings of the students.

We will consider it a privilege to give any aid we are able to any campus organization on any project they seek to sponsor, providing that project will work for the best interests of the students and the college.

There are several positions on the staff of the TECHNICIAN still open. Especially needed are men from the freshman class who are willing to work and learn.

The TECHNICIAN offices in 10 and 11 Tompkins Hall are open almost all day every day. Drop by any time you can.

New Size

Many of you were probably somewhat surprised to find that your TECHNICIAN has grown shorter but thicker during the last week. In an effort to do a better job all the way around we have decided to streamline the paper somewhat, and, it is hoped, that the reduction in page size will go a long way in the streamlining we need and desire.

Heretofore, each page in the TECHNICIAN was seven columns wide and the problems of typesetting, make-up, and folding got to be almost more than the understaffed print shop and bindery could handle. By using an eight page, five column tabloid newspaper we

can materially lessen the mechanical difficulties of printing and handling.

In the matter of assembling the copy and coordinating the efforts of the various departments of the staff the smaller-but-thicker paper will be by far the best arrangement.

All last year we were forced to have all copy in the print shop Wednesday morning. This was a very unsatisfactory arrangement since it kept us absolutely hamstrung about anything of news value happening after Tuesday night. But putting out the smaller sized paper we can arrange our deadlines so that we may adequately cover events happening as late as Thursday morning.

There is a very definite trend among college newspapers for the adoption of the smaller size paper and many of the leading papers in the field have long since been using this style.

As it becomes possible the number of pages in the paper will be increased and it is hoped that someday soon State College can issue a bi-weekly newspaper.

Taking all the above things into consideration, we have made the change, hoping that it will meet with your approval.

Football Special A Success

The special twelve-car train to provide transportation for us students to the Duke game last Saturday was a complete success. Officials of the Campus Government arranged for the train and did a creditable job. As a point of clarification, there was no profit realized by the Campus Government for their work in providing facilities for the students, but merely a feeling of satisfaction that they were able to serve the students. In fact, there was actually a small shortage in the transactions with some 1300 students transported.

One very bright spot in the whole event was the statement, made by the Southern Railroad personnel who worked on the train, to the effect that the State students were the best behaved delegation of that nature they had ever transported.

Both the Campus Government and the student body have started the year with commendable records. Let both be ever aware and keep the record unblotted. You know what we can do; let's do it and make State College the best in the state.

The Open Forum

Write to a Fraulein

Dear Sir:

After having established an INTERNATIONAL CORRESPONDENCE BUREAU, I on the behalf of members on my waiting list, take leave to apply to you. May I request you to put me in touch with readers of your paper who are interested in friendly correspondence?

Having been secluded from the outside world these long years, and yearning for a real democratic enlightenment and a personal contact from man to man across borders, my members would only too gladly welcome and answer letters from abroad. Most of my members (among them scientists, students, experts, businessmen and other well-educated ladies and gentlemen, and also hobbyists, housewives and even young boys and girls) have a fairly good knowledge of English, but would also be pleased to write in German, if desired. I am sure my members will try and give their pen-friends every satisfaction.

Individuals and groups of persons may communicate with me direct, stating their particulars and interests. All letters will be attended to and all applications linked up. If possible, two or three reply coupons should be enclosed to cover expenses, and also to save time and introductory letter to future pen-friends over here will be appreciated.

Pen-friendships are a step towards the creation of that international friendship and good will that is so essential to understanding and peace, don't you think so?

Yours hopefully,

Miss Anna-Maria Braun

YMCA Plans Program For Upperclassmen

Definitely included in the Y.M.C.A.'s plans for this school year is a program especially geared for upperclassmen. The program will be aimed to touch on each of the four fields of personal development—Christian Heritage, Personnel and Campus Affairs, Social Responsibility and World Relatedness.

The upperclassman program will be handled by a commission for each one of the four fields. These

Extension Service Offers Night Classes

A series of night classes to be offered during the fall term were announced this week by the State College Extension Service. The classes will meet once each week for two hours for a period of 15 weeks.

In addition to the \$2.00 registration fee there will be a charge of \$3.00 per credit hour or its equivalent in case of a non-credit course.

It is not necessary to submit an application for any of these courses previous to the first meeting of the class. Anyone interested in taking advantage of these courses should attend the initial meeting of the class at which time an application form will be given out.

Veterans eligible for training under the G. I. Bill may take these courses. Veterans must bring their certificate of eligibility to the first meeting of the class.

The courses to be offered are:

- Monday, October 13 at 7 p.m.
French or Spanish, Mr. Ballenger, 112 Peele Hall.
Industrial Arts for Adults (Non-Cr.) (Avocational Wood Working), Mr. Ludington, 8 Tompkins.
Farm Management (Non-Cr.), Mr. Green, 8 Patterson Hall.
Home Floriculture, Mr. Randall, Greenhouse.
- Tuesday, October 14 at 7 p.m.
Algebra* or Trigonometry* (Registration 8 p.m.), Mr. Cooke, 226 Tompkins Hall.
History 360—Recent U. S. History, Mr. Raab, 1 Peele Hall.
Psy. 302—Psychology of Personality, Mr. Johnson, 113 Tompkins Hall.
Econ. 801—Accounting, Dr. Leager, 108 Peele Hall.
M. E. 101—Engr. Drawing,** Mr. Briggs, 208 Page Hall.
- Wednesday, October 15 at 7 p.m.
Eng. 101—Composition, Mr. Blair Dickenson.
- Thursday, October 16 at 7 p.m.
Eng. 282—The Short Story, Mr. Wynne, 6 Pullen Hall.

Scholarship Awarded Aeronautical Senior

Winner of the L. W. Cartwright Scholarship for the 1947 academic year at State College is E. Carlison Yates, Jr., senior student of aeronautical engineering. The announcement was made by Dr. J. H. Lampe, Dean of the School of Engineering last week.

The scholarship was established in 1943 by Lt. Commander and Mrs. L. W. Cartwright of St. Petersburg, Florida, in memory of their son, a former State College engineering student, who was killed in World War II. Lt. L. W. Cartwright, Jr., was a member of the class of 1940. Tuition and fees amounting to \$200 are paid for by the award.

A faculty committee awarded the scholarship to Yates, son of Mr. and Mrs. E. C. Yates, Sr., of Raleigh, on the basis of his fine scholastic record and his interest in engineering.

Yates, formerly on the staff of

Students' Wives Club To Meet Next Tuesday

Attention is called to the first meeting of the Students' Wives Club of State College. This club was formerly called the Veterans' Wives Club. The meeting will be held Tuesday, October 7, 1947, at 8 o'clock in the College Y.M.C.A. and will be an Open House for the wives of all students at State College. During the evening, plans for the year will be discussed and definite plans will be made to form a bridge club for the November meeting. All students' wives are invited to this meeting. Membership dues of \$1.00 for October through January may be paid in advance if you wish to join.

the Raleigh News and Observer, is a member of The Wataugan staff. He is also a member of the Phi Eta Sigma and the Institute of Aeronautical Sciences. Interested in aviation since his childhood, Yates has excellent scholastic accomplishments in aeronautical engineering.

The Price Of Being A Frosh

By BOB FREIDMAN

While sitting around the office one evening last week, a group of us were discussing the new State College freshmen. It was decided then and there to interview one in the hopes that his viewpoints on things, though garnered in just two short weeks, would be of interest. A rush call was sent out for a "typical freshman" who naturally does not really exist except as a myth. Two well known upperclassmen scouts came back with their roommate in tow and they assured us that "he" was "typical."

Our man was seated in a position from which he could not readily rise and the interview began. Bill Wilson was his name and he hails from Bakersville, N. C. (270 miles in the hinterlands). Bill was wearing a sport jacket, sport shirt and slacks, and thick rubber soled moccasin-type shoes (as pictured in Pic).

No Reception

His arrival in Raleigh was one day before Freshman Week and we pried the information out of him that there was no reception at the station. First impressions of the campus were that all those nice grey barracks were for living quarters and not for classes.

We inquired about Freshman Week and Bill told us that all those

meetings, one a night, filled the bill in preparing him for registration. Our freshman was quartered in Becton Hall and was fortunate enough to draw two experienced upperclassmen as roommates, who promptly proceeded to tear down all his illusions about college life as painted by some lecturers.

Registration for Bill only took three and one half hours, which proves how well the system has been improved since last year. The book line was easy for freshmen this time as they got their books prior to registration day. The length of the line after registration impressed our "man" as it impressed those of us that had to buck that line.

Had Train Tickets

For the big football game our Bill had train tickets and rode the special, wearing a red knit tie (a gift from a knowing aunt). His hoarse voice attested to the vigor and enthusiasm of his yelling and cheering for State.

For his three 8 o'clock classes, Bill used his roommates "shake well before using" alarm clock. Since he still gets up for breakfast on 8 o'clock class mornings and still eats in the college "cafe," our freshman resets the alarm for two minutes to eight (usual awakening time for his roommates is eight

o'clock) and silently tip toes out for breakfast.

An aside conversation with his roommates reveals that our "man" has brought enough soap with him to last, seemingly, all four years.

Sweet Young Girls . . .

We now turn our attention to the social situation of this new arrival and Bill Wilson is looking forward to meeting one of those sweet young Meredith College girls of whom he has heard so much about (Meredith College please copy). Bill's date situation is now non-existent. Aside conversations with his upperclassmen roommates reveals that their date situation is in the process of "being re-organized" and so they are in no position to make up for their using all of his soap except through the continual use of their alarm clock.

About this time, some one mentioned food and so all three, the "typical freshman" and his two wizened roommates departed for parts unknown, I wonder who paid the check?

STUDY MUSIC

For good study music without the traditional singing commercials listen to State College's radio station at 580 kilocycles.

With the addition of 82 new faculty members, the faculty here has increased to well over 400.

State Wolfpack Tangles With Davidson Wildcats

Feathers' Squad Shows Improved Offensive

State's Wolfpack, fresh from a 7-0 defeat suffered at the hands of the Duke Blue Devils, tangle with Davidson's Wildcats in a Southern Conference battle in Charlotte on Saturday night at 8 o'clock in Memorial Stadium. A capacity crowd is expected to be on hand for the kickoff, but plenty of seats are still available.

Coach Beattie Feathers' outfit proved its defensive ability last week against the Blue Devils, but was a complete failure on offense. State's coaching staff has sent their charges through long and hard drills this week in an effort to strengthen their scoring punch.

The Wildcats' line will be no pushover, however. They held the William and Mary Indians scoreless in the first half last Saturday. The Indians are rated as one of the top teams in the loop, and are given a slight edge to win the conference title in some quarters. Davidson, like State, demonstrated very little offense.

Important Game

Annually, Davidson points to the State game as the contest it would like most to win. The Wildcats called it a moral victory last year because they held the Wolfpack scoreless in the first half, but this year they make no secret of the

fact that a true victory is about the only thing they are willing to take home. Coach Bill Story's squad are a spirited crew, and are unafraid of the Wolfpack whom they seldom beat.

The addition of Oscar Bozeman to State's backfield will be a great help, but the loss of Bob Bowlby will probably offset the gain. Bozeman was in for only one play against the Blue Devils, and Bowlby was injured in the third quarter. He will miss about two games.

The cheerful note in the Wolfpack camp is its line. State's forward wall played a great game against the Blue Devils, whose line is usually acclaimed the greatest in the South, and emerged without any injuries.

The same line that played against Duke will probably start against the Wildcats. Harold Saunders has an apparent edge at center, and Bernie Watts and Charlie Musser were all over the Duke backfield from their guard positions. The two boys that rated the highest praise for their performance against Coach Wade's line were Tackles Jim Rees and Ted Dostanko.

At the ends, Al Phillips and George Blomquist should get the starting nod, but T. S. Ary and Bill Stanton will be standing by for plenty of action.

Duck hunting season officially opened at the Pullen Park Lake on registration day. This is one of the favorite pastimes of State students.

SPORTS TALK

By MAC McDUFFIE

The Duke Blue Devils announced that their main purpose in last Saturday's game was to prove that State's victory in 1946 was a fluke. Well, "they ain't proved nuthin'."

Certainly, the Duke line charged hard all afternoon and played a magnificent game, but its intention was to stop the State offense and not to break up a pass and win the ball game. Some quarters have contended that Duke plays a defensive game and capitalizes on its opponents' errors. True, the Blue Devils have won games by blocking punts or intercepting passes; however, they are not the only team in the nation with that distinction. As a matter of fact, a note in the program sold at the game stated that Duke was the first Southern Conference team to be a nation's high scorer. It takes more than a defense to claim that honor.

Nobody can take the victory away from the Blue Devils. The type of game that State and Duke were playing usually ends with one of the teams scoring unexpectedly on an unorthodox play. Neither the Wolfpack or the Blue Devils displayed any offense and most of the 38,000 fans had already been convinced that the game would end in a scoreless deadlock.

Last year, the Wolfpack played brilliant ball to defeat Duke. Oscar Bozeman and George (Buck) Blomquist caught passes that Blue Devil followers called "flukes." No grid fan will deny the fact that passes are completed in practically every game that look almost im-

possible. Bozeman and Blomquist are tops among the pass receivers in the conference and played sensational football all last season.

Louis Allen is good. He rates All-Southern in most books although it is difficult to believe that he outplayed Ted Dostanko or Jim Rees last Saturday.

Of course, Duke may really have planned to play strict defensive ball against the Wolfpack. Their offense did not prove that they had any great talent, and it is highly possible that the game was won exactly as Coach Wallace Wade had planned.

I guess that the State-Duke series, rapidly becoming one of the outstanding games on the Southern grid schedule will have to be named the "Fluke Series." But, if Duke decides to play a defensive game against the Tennessee Vols and wins by blocking a pass or punt, then the State fans will have to concede that Duke's triumph last Saturday was no fluke. Just for the records, State is not going to rely on defense. The Wolfpack is going to try to score while it is on the offense.

Athletic Director J. L. Von Glahn commented that he was very pleased with the student behavior at the Duke game. Even the most critical writers, who usually reserve a few bitter words for the State students, failed to call us names.

State will be represented in each of the following sports this year.

Football, cross country, basketball, wrestling, swimming, tennis, golf, track, and baseball. Eligible players in each sport will be awarded monograms. That big S is difficult to earn, but each student has an equal opportunity. The monogram owners should wear it with pride.

State has an unusually large number of students who were good high school athletes that earned letters. They have just as much right to be proud of their letter, but let's make it a policy at State to wear only a letter earned here.

Practice Begins For Tank Outfit

Coach Willis Casey has announced that swimming practices will be held each afternoon from 4 until 6 o'clock. Any interested swimmer is asked to report to him at the pool any afternoon.

The swimmers have a tough schedule arranged for this season and will need a great deal of depth to compete with such teams as Georgia Tech, and Duke. The completed schedule has not been announced, but several meets are expected to be held prior to the Christmas holidays.

The outfit from last year, which had the best record ever compiled at State, is back intact, with the exceptions of Captain Bob Reynolds, Bill Nufer, Bill Menke, and Tinker Heyward.

Reynolds was a sprinter, Nufer a backstroke, Menke a distance swimmer, and Heyward a diver.

Be sure to tune in to the College Radio Station for the State-Davidson game Saturday.

ARROW SHIRTS

Duke Blue Devils Defeat State Wolfpack

Devils Get Quick Victory In Rough Defensive Tilt

State's Wolfpack suffered a quick 7-0 defeat at the hands of the Duke Blue Devils in their Southern Conference opener in the Duke Stadium last Saturday.

In a battle that appeared to be headed to a scoreless deadlock, Bert Lyle, Duke guard, broke through State's line suddenly to knock one of Fotsie, Palmer's passes into the waiting arms of Tackle Louis Allen, who raced over untouched for the lone score of the game. Paul Stephanz converted.

State's line played a brilliant game and held the Blue Devils' backs to a net of 51 yards rushing. The outstanding factors in State's play was the slashing style of its guards—Bernie Watts and Charlie Mussers—and the devastating power of the tackles—Jim Rees and Ted Dostanko.

Rees and Dostanko erased all the worries of those who had been thinking about the gaps vacated by Curtis Ramsey and Taylor Moser.

Scoring Chance

Coach Beattie Feathers' team had a scoring opportunity early in the first period. Gordon Goodman intercepted a Blue Devil pass and carried it to the 16. In four attempts the Wolfpack picked up only eight yards and lost the ball. Again

in the second period, State got into scoring position. From the Duke 12, Leslie Palmer attempted a field goal at an angle, but the ball fell short.

State's offense clicked some better than the Blue Devils', but both teams gained very little. State led in first downs, 7 to 6, and gained 20 more yards rushing than did the Blue Devils.

Four ends turned in good performances for State. Captain Al Phillips and Buck Blomquist started the game, but were aided by T. S. Ary and Bill Stanton. Phillips and Ary were demons on defense.

Injuries were high during the contest. Charlie Richkus, Odgen Smith, Gwynn Fletcher, and Bob Bowlby all sustained injuries. The Blue Devils were also shaken up and several of their key men had to leave the game.

The State College Charlotte Club will hold its first meeting of the school year on Wednesday evening, October 8, in the "Y" auditorium at 7:30. All members, and students from Charlotte wishing to join the club are urged to attend this important meeting.

Harriers Open On October 25

Coach Tom Hines' cross country team is busily preparing for its opener with South Carolina there on October 25. It is not too late to go out for cross country, however, and experienced freshmen or upperclassmen are asked to report to Coach Hines.

State will be represented by a varsity and freshman team this year. It is remembered that State's track team last spring was especially weak in the distance events and cross country is excellent conditioning for the track season.

Returning lettermen from last year's team are Capt. Davis DuBois, Jimmy Adams, and Jimmy Boles.

More Vehicles Here; Parking Space Scarce

Approximately 980 motor vehicles owned by students and over 500 automobiles owned by staff members have been registered with the State College traffic committee for the 1947-48 school year, T. S. Rhodes, the college's traffic supervisor, has announced.

Vehicles are still being registered, and the total number is expected to be between 1,800 and 2,000 before the week's end, Rhodes reported.

A larger percentage of freshmen have cars than ever before, the official stated. The student vehicles, he said, vary from new automobiles to jeeps and scooter bikes.

Moving to avert a traffic problem, the traffic committee announced that the following campus streets have been designated as one-way drives: Memorial Drive from Pullen Road to Watauga Drive; Quadrangle Drive from University Avenue to the railroad; and Primerose Avenue from Morrison Drive to Watauga Drive.

Limited parking is permitted in areas marked by white lines, and

Basketball Drills To Begin Monday For Red Terrors

NOTICE!!

All students who paid a locker deposit last school year and have not called for their refund must attend to this not later than Friday, October 10, which is the deadline.

Signed:

J. F. Miller, Prof. Head P. E. Dept.

Basketball practice will begin on Monday night. Coach Everett Case has announced that he will hold workouts about three nights a week until December.

The Red Terrors have games scheduled early in December and play West Virginia, St. John's, and Tulane during the Christmas holidays. The battle with Tulane is the feature game of the Sugar Bowl program in New Orleans.

Nine lettermen are expected to report to Coach Case on Monday night along with a large group of newcomers. Only Pete Negley will be missing from the outfit that won the Southern Conference title last season and played in the National Invitational Tournament.

Monogram winners back are Leo Katkaveck, Dick Dickey, Charles Stine, Norman Cartier, Bob Hahn, Jack McComas, Ed Bartels, Harold Snow, and Norman Sloan. Katkaveck is a senior and the other eight are sophomores.

Coach Case plans to have a junior varsity this year and a schedule will be arranged.

Meeting Called For Intramurals

A meeting of dormitory and fraternity intramural managers will be held on Tuesday at 7 o'clock in the gym. Every fraternity and every dormitory floor is asked to have a representative present to discuss the schedules and plans for the fall term.

Vetville, Trailwood, and off campus students are also asked to send a manager to the meeting.

Professor Miller has announced that he is planning a large intramural program this season and the cooperation of every student is needed to make the program a success.

Sports that will be played during the fall term will be discussed at the meeting, but football will probably be the main sport.

F.F.A.

F.F.A. meets Monday night at 7 p.m., Room 114, Tompkins Hall. Let's everyone be present, and start the new club year right!

staff parking only is allowed in areas marked by yellow lines. Unrestricted parking is permitted on all streets not marked.

76 Graduate During Summer School

Seventy-six students completed requirements for degrees during the summer session which ended August 15. Although these men have completed their courses, formal presentation of degrees will not be held until commencement exercises next June.

The total summer enrollment was 2,362. The enrollment in the School of Engineering was the largest—totaling 1,264. The students were divided in other schools as follows: 378 in the School of Agriculture; 92 in the Division of Teacher Education; 383 in the School of Textiles; and 245 special students.

Power Plant Has Record Of Twenty-Two Years Service

By RUDOLPH PATE

Proverbial jokes about Saturday night baths don't apply to State College students, who use from 55,000 to 60,000 gallons of hot water each day in the week.

Authority for the statistics on the collegiate water consumption is A. A. Riddle, who, in his capacity as chief engineer of the State College Power Plant, has heated the bath water and provided electricity on the campus for about 24 years.

Engines, with approximately 400 horse power, are required to keep the hot water flowing to the dormitories and other buildings, and the daily volume of water used, according to Engineer Riddle, does not vary from day to day, except on Sunday or in the summer months when the student body is not as large as it is in other seasons.

When Riddle completed supervising the installation of the college's modern power facilities in January, 1925, 58,000 feet of radiation spanned the campus in the heating system, but today the figure stands at more than 169,000 feet. The electric capacity has jumped from 57 kilowatts in 1924 to 1,050 kilowatts today.

Operating for 22 Years

The plant, which generates its own power, has been in continuous operation since its installation. Only once during the 24-year history has the college had to call for outside power, and that was on May 7, 1946, when John L. Lewis' coal miners had staged a walkout, precipitating a critical coal shortage. A connection was made at that time with the Carolina Power and Light Company.

Boilers are now operating at the rate of 2.7 per cent greater efficiency than was guaranteed when the installations were made almost a quarter of a century ago. The boiler capacity, including three boilers, now stands at 1,012 horse power.

Plans have been laid for replacing the present boilers with modern boilers with three times the capacity of the present ones. These proposed additions will, according to Riddle, make it possible for the plant to serve the expanded campus, even after the completion of the new building program which will amount to \$6,440,000.

Training for Students

A notable feature of Engineer Riddle's work has been the training which he has provided to State College students, who have worked to pay part of their expenses through college. A few who received training as assistants in the plant during their tenures as students were R. M. Rothgeb, general manager of the North Carolina Hospitals Board of Control; Walter Freeman, assistant superintendent of steam plants for the Duke Pow-

er Company; Henry West, superintendent of the power plant at the University of North Carolina; and the late Col. Bill Holloman, famed Wright Field aviation inventor and Army officer.

A native of Chatham County, Riddle joined the State College staff in July, 1923. He was awarded his marine engineer's license at the age of 21 at which time he gave up sea going to enter Elon College, where he received his formal education. After completing a tour of duty as an engineer in the Navy during World War I, he became superintendent of plants for the Piedmont Power Company in Burlington in which capacity he served until coming to State College.

Millman

(Continued from Page 2)

ond band—"Al Millman's Esquires." None other than the famous Glen Miller gave Al invaluable aid in the organizing of the "Esquires."

With his band Al was all set for another two years. The U. S. Army Air Corp brought things to a focus in August 1941 and Al suddenly found himself working for a new boss.

Undaunted, Al soon found himself with another band—a cadet outfit at Maxwell Field. Millman did the fronting with this aggregation and G. Miller was, once again, the man behind the scenes.

After getting overseas to the ETO, Al organized another outfit which he stuck with until he came home.

Within the same month that he was discharged Millman entered

State College and—you guessed it—he soon had another band all squared away.

This year begins the third that Al and his band have been playing in and around Raleigh during the winter and all over everywhere in the summer.

Plays at Wrightsville

During the past summer the band had several very successful engagements at such favorite North Carolina Coast spots as the Lumnia at Wrightsville Beach and the Surf Club at Atlantic Beach.

Al has issued a call for musicians interested in trying out for his organization to contact him as soon as possible. Weekly practice sessions are held every Wednesday night in the band room of the gym. Anyone interested in contacting Millman for an engagement should write him at Box 5716, College Station.

WATCH SPEEDING

Students on the campus who are in the elite class of automobile owners are urged to watch their speed and be careful of the pedestrians. With over 5,100 students floating back and forth across streets, the situation is extremely dangerous. Make it a point to personally warn violators of your safety, outsiders as well as students—and especially taxis.

Musicians Needed For College Orchestra

The State College "Little Symphony" Orchestra held its first rehearsal last Tuesday night. There are several openings in the string section and some in the woodwinds. Students, faculty members, and their wives who have had orchestra experience are urged to join at once. Rehearsals are held regularly in Pullen Hall at 8 o'clock on Tuesday nights.

The presentation of a concert program is planned for November, and a pair of concerts in December in collaboration with the Glee Club and the Meredith Choir are also on the slate. For further information contact Christian Kutschinski, Director of Music, Room 10, Holladay Hall; or report for the next rehearsal Tuesday night.
