STATE COLLEGE STATION, RALEIGH, N. C., OCTOBER 17, 1947

Offices: 10 and 11 Tompkins Hall

Publication Heads

John D. Mackie of Yadkinville, right, and Fred A. Kendall, Jr., of Johns have assumed their duties as business manager and editor, respectively, of The Agriculturist, official student publication in the School of Agriculture at State College. Kendall is majoring in soils, and Mackie is specializing in animal industry. Both men are members of Alpha Zeta, honorary agricultural fraternity, Blue Key, leadership society, and the Agricultural Club. They have announced that six issues of The Agriculturist will be published during the current school year, with the first edition appearing about the middle of October. The circulation stands at approximately 2,000.

Sixty-Four Men Are Pledged By Campus Fraternities

Freshmen Rush Week has now ended and sixty-four freshmen have been pledged by eleven fraternities here at State.

The policy this year was that only freshmen would be pledged during Pledge Week. However, the social fraternities may now submit any additional names of men that they would like to pledge. This includes all students except "special" students who are not eligible to join.

The following freshmen were pledged:

Kappa Alpha Fraternity

Henry A. Brown, Jr., Greenville, S. C.; Edward Pete Craig, Jr., Bassett, Va.; William M. Fetzner, Brevard; Robert E. Hardaway, Columbus, Georgia; Albert Sumney Orr, Monroe; Roy W. Smith, Jr., Raleigh; Robert A. Willard, Wilson.

Kappa Sigma Fraternity

Edward T. Barnes, Greensboro;

Percy D. Cloud, Lilesville; William A. Poe, Rockingham; Caldwell Ragan, Gastonia; Robert H. Rankin, Gastonia; Thomas D. Wall, Wadesboro; Leslie Weisiger, Salisbury.

Lambda Chi Alpha Fraternity

E. F. Brown, Jr., Concord; S. M. Downs, Fayetteville; K. P. Econo-

mou, Fayetteville.

Phi Kappa Tau Fraternity

John P. Alexander, Elizabeth City; Charles W. West, Charlotte.

Pi Kappa Alpha Fraternity

S. G. Conrad, Greensboro; J. H. Jones, Charlotte; T. A. McAdams, Jr., Greensboro; H. N. Nunis, Charlotte; W. T. Simpson, Burlington;

D. T. Spencer, Greensboro; F. F. Stafford, Greensboro; R. H. White, Bladenboro; K. W. Winston, Raleigh.

Sigma Alpha Epsilon Fraternity

Joe B. Atkinson, Edinburg, Texas; Elwood L. Boyles, High Point;

Rules For Beauty Contest Are Announced by Agromeck

Officers Elected In Vetville Election

Jim Reece, Apt. 15-F, was elected mayor of the Vetville government at an election held last week. Other officers elected were secretary-treasurer, Fred Whitfield, Apt. 8-B; recreation director, Ish Cook, Apt. 34-C; sports director, Ed Robinson, Apt. 3-F; fire marshal, Tom Power, Apt. 20-A; and publicity director, Bill Ailor, Apt. 9-C.

Term of office begins immediately and will run until the beginning of the spring term in March. One alderman will be elected by each ward to round out the Vetville Council. Over 250 votes were cast in the mayoral election.

The issue of whether to tolerate pets, if confined, was a no-decision one, with 126 votes being pro and a like number against.

A major problem to be considered by the new council will be the erection and operation of a new recreation building. Mr. King of the YMCA is assisting in the creation of this project.

Cadet Officers Club Installs Officials

The State College Cadet Officers' Club held its first meeting of the term Wednesday night in Leazar Hall, and elected its officers and Board of Governors for the present school year. Hurley D. King was installed as president, C. W. Ballard as vice-president, Richard Crews as treasurer, and A. S. Linthicum as secretary. Representatives appointed to the Board of Governors are, by sections, as follows: Infantry, Lawrence Rapp and James D. MacDonald; Air Corps, H. S. Addor and J. B. Coward; Signal Corps, W. C. McLean and D. N. Spainhour; and Quartermaster Corps, W. F. Wyatt, Jr. Ordnance and Engineer sections were not represented in sufficient strength for an election, so their positions will be filled at a later date.

Membership in the club is open to all advanced Military students, and all those who have not already joined are urged to do so at once. For full particulars, contact one of the club officers or Major Shimer, Faculty Advisor.

Do You want your girl's picture in the Agromeck—College Yearbook—this year? If the answer is yes, then here is how you can accomplish this without having to pay a cent.

The Agromeck in cooperation with the TECHNICIAN is offering space for ten pictures of girls in a newly added "Beauty Section." In a move to offer the average Joe College a chance to show his beauty-getting ability, the section has been added to create a more well-rounded Yearbook. This, by no means, will mean the abolishment of the Sponsor Section, which is reserved for the B.M.O.C.'s for pictures of their girls, but merely as an addition to it.

Since the number of pictures will exceed the number of spaces available, a system of elimination has been worked out with the following judges: Editor and Business Manager of the TECHNICIAN; Editor and Business Manager of the AGROMECK; Managing Editor of the TECHNICIAN and AGROMECK; Feature Editor of the TECHNICIAN; and Beauty Editor of the AGROMECK. This process of elimination will be based solely on BEAUTY plus BEAUTY.

All pictures entered should be of the snapshot variety, a full-figure pose being preferable. Contrary to an announcement last week, the pictures that will go in the AGROMECK will be the snapshot sent in and not a studio pose. The TECHNICIAN will print two pictures at random each week in an effort to stimulate further interest. The pictures printed will not necessarily be winners, but merely some of the first entrants. It has been decided that the winners will be kept secret until the AGROMECK is published. All pictures will be kept until that time and then returned so that the winners will come as a complete surprise to all.

Any full-time student attending N. C. State may enter this contest, with a few exceptions. No staff member of the TECHNICIAN and the AGROMECK will be eligible in the contest. Furthermore, no students who, by virtue of his positions, gets a sponsor page will be eligible. All entries should be addressed to the Managing Editor of the TECHNICIAN and a return address listed. The girl's name and the student's name should also be given. No pictures will be accepted after December 1, 1947.

All lovers on the campus who have been raving over the charms of their one and only are thus given the opportunity to enter her picture in competition against the field. A student may enter his wife if he has one. Competition is expected to be heavy, so all students who would like to see their girl's picture gracing this year's AGROMECK had better start getting those snapshots in immediately. Watch next week's TECHNICIAN for two of the contestants. Yours might be one of them.

"Russia Fears US" Yates Declares

Keynoting his address with a plea for understanding and world peace, the Right Honorable Victor Francis Yates, Labor Party member of the British Parliament, spoke to a group of more than 65 students and faculty members in the Grill Room of the cafeteria Monday night.

Mr. Yates called for less fear between the United States and Russia. He said, "Russia fears the United States, because she—Russia—is incapable of waging another war now."

He expressed bewilderment at the American press and American politics. Mr. Yates stated that, although the United States is strong enough to fear nobody, she shows fear in her every action. He opined that our country must do an about-face in its policy in order to assure peace.

Mr. Yates declared, "The prospect of world peace is poor unless we appreciate the situation in Europe and formulate a plan to furnish the necessities of life to Europe."

The prominent Laborite blamed the unusually severe winter of 1946-47 and failure of the world's food crop in 1946 for England's slow post-war economic recovery. He said that his country has cut imports and stepped up production to cut the national deficit from 2½ to 1½ billions of dollars.

Mr. Yates, in answering charges that the British people were "lazy," stated, "The British people are keyed up to a point of realizing that they must lift the country from its economic lapse, and production now stands at a higher

VICTOR FRANCIS YATES

level than in 1938, Britain's previous all-time peak. The Labor Party did not promise to bring about Heaven on Earth in a year, or even two. We have encountered difficulties, but the people of England have borne them without complaint."

He cited as a menace to world peace the fact that the nations of the world are spending more for armaments now than in the years immediately preceding the war.

Mr. Yates pleaded with his audience to "Be workers for peace and bring the Kingdom of God on Earth."

Bob Friedman introduced the speaker, and Ira Helms presided over the meeting. After his speech, Mr. Yates answered questions from the audience as time allowed.

LEARN THIS!

N. C. STATE'S ALMA MATER

Words by A. M. Fountain, '23

Music by B. F. Norris, '23

Where the winds of Dixie softly blow
O'er the fields of Caroline;
Where the tall pine tree sentinels stand
As a guardian at thy shrine;
Where the bravest hearts of men are found
That are loyal through and through,
There stands, ever cherished, N. C. State
Firmly, strong and true.

Chorus

Then lift your voices! Loudly sing
Our Alma Mater's praise!
Over all the earth her song shall ring,
Whose notes we proudly raise;
Her glories we shall sound afar
From hill to ocean side;
Our hearts ever hold you, N. C. State
In the folds of their love and pride.

Alumni Association Plans Active Future

With 85 county club meetings scheduled before Christmas, the State College Alumni Association is really on the move, according to H. W. Taylor, Alumni secretary. Plans now call for one faculty member to speak once each year to every club. There are 97 organized counties in North Carolina, and 19 out-of-state clubs. The Alumni Association claims 2,500 paid memberships, and is constantly driving for more.

The Association's officers and members of the Executive Committee are in charge of this series of meetings. They include Edwin Pate, '21, president; Roy L. Williamson, '17, first vice president; E. U. Lewis, '25, second vice president; H. W. Taylor, '26, secretary; J. G. Vann, '20, treasurer; and John W. Clark, '06, chairman Executive Committee. Members of the Committee are: R. D. Beam, '26; W. Z. Betts, '18; A. H. Harris, '20;

John F. McNair, Jr., '24; Glenn M. Swicegood, '30; R. N. Gurley, '20; Carl R. Harris, '17; Guy F. Lane, '25; Forrest F. Shuford, '24; R. V. Terry, '18; C. E. Ballés, '22; Roy L. Blaylock, '32; L. N. Boney, Jr., '40; J. B. Speight, '33; and Cecil D. Thomas, '34.

Faculty members from the agriculture, engineering, and textile schools will speak before the clubs. Besides Dean L. D. Bayer of the School of Agriculture, Professors D. W. Colvard, R. W. Shoffner, R. W. Cummings, R. S. Dearstyne, J. H. Hilton, D. S. Weaver, R. L. Lovvorn, C. H. Bostian, H. B. James, and W. E. Colwell will appear on the programs.

Representing the School of Engineering will be Dean J. H. Lampe and Professors W. F. Babcock, W. G. Van Note, K. O. Beatty, Karl P. Hanson, J. L. Stuckey, L. L. Vaughan, C. G. Brennecke, and R. L. Wiggins.

Dean M. E. Campbell and Professors G. H. Dunlap, Harry B. Garden and J. F. Brogdan will speak on behalf of the School of Textiles.

Ceramic Society Meets

Last Tuesday night the State College Branch of the Ceramic Society held its first meeting of the fall term. Strong resolutions were made at the meeting concerning the objects and aims of the society for the present school year, the chief of these being the reading and discussion of papers pertaining to ceramic subjects both of a general and technical nature.

A rules committee consisting of Willard Midgette, chairman; Arthur Lucier, and Robert Stoops; a membership committee of Alton [Faire, chairmans Willis Moody, and Richard Knight; and a papers and programs committee of Hugh Wilson, chairman, Richard Crouch, and David Low were appointed.

Dr. W. W. Krieger, head of the Department of Ceramic Engineering, gave a brief talk on the professional ethics and responsibilities of an engineer, and Alton Thomas, a senior in the department, read and discussed a paper on "The Processing and Enameling of Refrigerator Interiors." The paper explained enameling as it is generally done by present day refrigerator manufacturers and contained much information useful to ceramic engineers planning to enter that field.

A.S.C.E. MEETING

The American Society of Chemical Engineers invites all sophomores, juniors, and seniors to attend the next meeting on Tuesday, Oct. 21 at 7 o'clock in room 113, Winston Hall. There will be refreshments and a movie.

Nathan R. Sewell presented a technical report at this fall's first seminar of the State College Department of Engineering Research. His subject was "The Damp Extrusion of Red Clay Products."

Glee Club Rehearses

Pictured above at one of their thrice-weekly rehearsals are members of the College Glee Club under the direction of Major Kutschinski. The Glee Club now has an enrollment of over 68 members.

ASME Holds Meeting Forms New Policy

The first meeting of the ASME was held last week. Since many of the students felt that they did not receive sufficient advantages from membership in the organization during the past, the branch decided to initiate a new policy of student participation in the meetings. Student participation will consist of technical papers, prepared and presented as lectures by student members, and programs in which student members will give short talks on different aspects of one general

topic. Preparing and presenting technical papers will give training of great value to the student in his career as an engineer. Several meetings will be set aside for guest speakers, prominent in the field of engineering.

The program committee was appointed, consisting of E. B. Morrison, S. B. Burwell, N. M. Fowler, J. C. Hobbs, and E. D. Peebles. On the recommendation committee are B. Greene, J. L. Robinson, W. S. Griffith, M. J. Fowler, and D. R. Barineau. The publicity committee consists of J. O. Darholt and W. L. Rose.

CAMPUS REPRESENTATIVE WILLIAM BRADSHAW PHONE 7785

The Die is Cast: Save Europe Or Destroy the World

Last week a message broadcast to the American people from the White House opened a campaign for voluntary food conservation on a nation-wide basis.

The object of the program is to provide adequate food supplies to be sent to Western Europe, where the people are faced with starvation this winter; and its essentials are as follows:

1. Use no meat on Tuesdays
2. Use no poultry or eggs on Thursdays
3. Save at least a slice of bread a day
4. Public eating places will serve bread and butter only on request.

These recommendations are to be followed in every home, restaurant, and institution throughout the land, and in its present phase the plan calls upon us primarily to "waste less," not "eat less."

Urgency Is Stressed

The gravity and urgency of the situation were emphasized by State Secretary Marshall, Agriculture Secretary Anderson, Commerce Secretary Harriman, and Mr. Charles Luckman, Chairman of the Citizens' Food Conservation Committee, following which President Truman added his wholehearted approval of the plans previously outlined. The success of this conservation program is imperative and will require the complete cooperation of all of us. Since every individual in the United States is therefore responsible for contributing a fair

share to this national effort, it is essential that the issues be carefully examined and clarified, and frankly stated for the better understanding of all.

Attempting to relieve the suffering of distressed peoples is a simple act of practicing Christianity; moreover, it is an old American custom. If this were the only reason for our cooperation it would be sufficient for most of us, and we would doubtless rise to the occasion in characteristic fashion. But in the chaotic situation of international affairs today we find an air of desperation—thus self-survival becomes a stronger motivation than Christian charity.

Survival at Stake

And our survival is indeed at stake. Recently a new Communist International organization was formed, with the avowed intention of "fighting United States imperialism" and wrecking the Marshall Plan for Western Europe. This is in fact the rebirth of the old Comintern, buried four years ago amid official Russian protestations of friendship and good will. We have noticed during the past few months that utterances by American officials regarding difficulties with Moscow have become much more frank and revealing, and it is well that such has been the case, else the recent Russian attacks upon the U. S., spearheaded by Mr. Vishinsky in the United Nations Assembly, would have been even more shocking and disillusioning.

As TIME magazine noted a few weeks ago, there are two good reasons why we are forced to believe that the Communists intend to eventually destroy our nation:

1. They have told us so.
2. They act as if they mean it.

Idle talk, wild speculation, and "warmongering" are admittedly rampant in America today, and they are foolish and dangerous activities for us to engage in. But it is equally foolish and dangerous for us to attempt to ignore the hard facts, for we will not be able to ignore the future toward which they are directing us.

Not as we Hoped

The postwar world certainly has not shaped up as we had hoped and expected it would, and we have reached the point where some of us, when asked to help others less fortunate, are prone to say: "My God, we've done enough for them. Let 'em help themselves for a change." It is true that we have tried to assist other peoples in countless instances, but we have never really strained ourselves, and now we have no choice but to throw our every resource into the effort to

Senior is Assistant Dean of Engineering

The appointment of Clinton E. Jones to the position of assistant to the Dean of Engineering has been announced by Dean J. H. Lampe, Dean of Engineering. Mr. Jones has taken over his new duties on a part-time basis until January 1, 1948, when he will assume the full time job.

Mr. Jones' chief duty will consist of coordinating student affairs

with the Office of the Dean of Engineering. He expects to work in close contact with student organizations, technical societies, and honorary fraternities. He will be in charge of scheduling the arrival on campus of men from various industries who wish to interview seniors for the purpose of employment upon completion of their requirements for degrees.

Finishes at Tarboro High

Mr. Jones completed his high school education at Tarboro High School in 1939, and entered State College in September 1941. He entered the U. S. Army in April 1943 where he served until his return to State College in January 1946. Mr. Jones is presently a senior in Mechanical Engineering and will have completed requirements for his degree in December of this year.

The office of Mr. Jones is located in 104 Civil Engineering Building, and he has stated that he will welcome any student or student organization representative who has a problem which he might help solve. He has expressed a desire to cooperate with the student body whenever possible.

combat communism. The dilemma which Europeans face today is not entirely their own fault. Internal turmoil, insecurity, inflation, low production and ideological conflict have been intensified by disastrous floods and droughts, and the cycle of shortages might truly be termed vicious.

It is noteworthy that the President pointedly referred to our aid as being extended to "Western Europe," and vital to help keep us from "losing the peace." The

Scoop on Picture Fees

(EDITOR'S NOTE: This editorial was printed at the request of Atwood Skinner in an effort to clear up the prevalent misunderstanding concerning picture fees.)

In the past, certain phases of the operations of various parts of the publications have not been well known to the students. This has created an unhealthy situation which I would like to correct by the publication of some information for the students. As editor of the Agromeck this year, I have constantly run into the same misunderstandings.

The point that I would like to discuss is the \$6.00 publication's fee and the \$2.50 picture fee for the yearbook. The \$6.00 fee, compulsory for all students each year, is collected with other fees by the college. This entitles each student to copies of the *TECHNICIAN*, *Wataugan*, and the *Agromeck*.

The picture fee of \$2.50 is for the sole pur-

pose of putting a student's picture in the yearbook. The *Agromeck* is no weekly publication; it is the summary of a year at State College. It is a permanent book and a record of each student's life and accomplishments while at State and it could not be that unless it had, within it, the pictures of the students who make up the college.

The picture fee covers the following expenses: taking the picture, developing and retouching, then printing it, having a plate made at the engravers, and finally having the completed picture printed in the annual. For the veterans, the \$6.00 publications fee is borne by the Government. Everyone, veteran or non-veteran, who has his picture in the yearbook, pays the \$2.50 fee. It is not compulsory for a student to have his picture in the annual; the majority of students, however, we like to think, are interested in having the own faces as well as their friends' shining out at them.

This system is not new; it has been in use since the college annual was launched at State.

I hope that these few words have cleared up in some measure the questions that seem to be in the minds of many of the students.

FROM THIS END OF THE LINE

By BRINGLE

Peeping timorously into the *TECHNICIAN* office, we spied our editor sitting languidly at his desk, gnawing hungrily on a pencil. Seeing us, he strewed a sheaf of copy onto the floor with a sweep of his hand, and, gritting his teeth in the best Alan Ladd fashion, muttered, "Get to work!"

A search of the next room revealed our No. 4-F drawing pencil and heel-marked scratch pad right where we'd left them last spring. Settling ourselves in a cane-bottomed chair, we began to think of the coming year and 5,364 students who have probably looked forward to it just as we have. There are mixed emotions of anticipation, exultation, and dread as the experiences of last year indicate the trend of this year's events. There will be beefs and praise; magnificent deeds and small deeds; there will be love affairs and marriages—even births. There will be ball games, dances, conventions, awards—"A" students and "F" students, joy and sorrow; justice and injustice. A confused jumble, certainly, but all an integral part of the melange of life at State College.

We hope that this column can serve as a clearing house for these events; satirizing the stupid, praising the praiseworthy and bringing

to the attention of the student body that collection of miscellany which wouldn't find its way into a news story.

We're told of a prof who used up the first part of his class period by publicly berating a student for wearing a T-shirt to class. A well-dressed student body is certainly desirable, but we're inclined to place a much higher premium on a tactful faculty. On second thought, perhaps the gent in question is a frustrated clothing salesman.

The idea is so old that it's trite, but perhaps repetition is effective. Everyone seems to take delight in trampling the little vestige of grass that is left around State College; yet these same students develop a catch in their voices and shake with emotion when talking about campus beautification. It all boils down to the same statement, why don't we all take a little more time and use the sidewalks?

It's time someone explained to some of the frosh that there's only one school monogram recognized on this campus. The fact that you lettered in nine sports at Podunk Consolidated School was vitally important last year, but why not put that bit of chenille in the little book alongside the lipstick-smeared handkerchief and program for the senior play?

WITH the GREEKS

By TED WILLIAMSON

With silent week over and the freshman decisions made we find that the score for rush-week is 64 new pledges divided between 11 social fraternities. Since there were 127 bids sent out, half of those who are new pledges had one or more of the campus frat's to choose from. Of the men who pledged fraternities, 14 chose Sigma Chi, 9 went the way of Pi Kappa Alpha, Sigma Alpha Epsilon greeted 6, Kappa Alpha, Kappa Sigma and Sigma Phi Epsilon took 7 each, while Sigma Pi, Sigma Nu, Lambda Chi Alpha and Sigma Alpha Mu got 3 each with Phi Kappa Tau picking only 2. For the rest of the term now, any fraternity can rush and pledge any man on the campus provided the man is eligible to join a fraternity. Since upperclassmen were not rushed during rush week, there will probably be more men pledged from time to time this term.

Intramurals Started

The fraternity football and volleyball season has started and several games have been played already. Later in the term there will be boxing and tennis and indica-

tions point to large turnouts both of players and spectators. Almost any afternoon the athletic fields will be seen with nine-man teams from the fraternities working out plays or practicing for the next games. There's nothing soft about this two-hand football the way it's played by the frat' teams either. Blocking is full force and, even though the ball carrier is not to be tackled, no one will say that these games are not played to win.

SAE Installation Planned

A week from today, Friday, October 24, the new chapter of Sigma Alpha Epsilon will be formally installed. The local chapter has been planning for that week end since school started and they plan to make it a big affair. The National Officers of the Fraternity will be in Raleigh for the occasion as well as many local alumni from the Duke, Davidson and University chapters. The program will get underway on the morning of Friday 24, and will include, in addition to the Chapter installation, a formal banquet on Friday night, initiation of pledges, and will end with a formal dance at the Sir Walter Hotel Saturday evening.

musical marvel is "Morton Gould Showcase."

On his concert and radio programs, Morton Gould has always saved his "Power House" arrangements for the final number. Here is an album made up primarily of these closing displays of musical fireworks, all popular tunes of the past two decades in characteristically sparkling Gould arrangements conducted by Mr. Gould himself.

Included in the album are the gypsy-like "Two Guitars," and the stirring and characteristically American "Birth of the Blues." Other styles and tastes are represented by Loeb's "Masquerade," Simon's "The Peanut Vendor" (El Manisero), Cole Porter's "Begin the Beguine," "Georgia on My Mind" by Carmichael, "Blues in the Night" by Arlen from the film of the same name, and Braham's "Limehouse Blues."

Sharps and Flats

By DAN SECHTIN

Last Saturday eve those present at the State-Clemson game witnessed two spectacular feats: the magnificent ball playing of the fighting Wolf Pack and the excellent precision marching, formation, and playing by our Redcoat band.

For so early in the season the Redcoat band seems to be in tip-top condition. During the half, the band showed us their marching and formation ability. The Redcoat band rated top place on my roster in precision maneuvers and clinched the musical honors with their rendition of "Hold That Tiger."

This week Columbia Records will release an album of four twelve-inch records worth casting an ear to. The title of this collection of

What's Wrong

A number of the students as well as the alumni of the College are asking the question, "What's wrong with the school spirit at State College?"

The particular reason for this question is the attitude that the students seem to take toward the Alma Mater being played at the football games. There is no reason whatsoever why a student should be in such a hurry to leave the stadium after a game that he can't remain standing in the stadium and take part in the singing of the Alma Mater. In fact, after the football team has worked hard for two hours winning the game, it is the least that can be expected of the student body to show their appreciation and backing of the team by remaining for an extra five minutes and singing the Alma Mater.

We do not believe that the student body is entirely to blame, for it is our opinion that the Red Coat band should take its share of the blame.

October 11, 1947

Dear Friend:

I am writing to ask your help at the suggestion of a friend. It is a difficult moment in which to write. All about us we see the wreckage of great hopes which mankind held for the building of peace. The gulf between East and West which men of good will have worked to close is widening daily. Some people believe that no reconciliation is possible and that another World War must decide the issue; we scientists reply that it is no longer possible to decide any issue by such means—an atomic war will bring no real decision but only unprecedented death and devastation on both sides.

Such a time in history breeds defeatism and despair. But there are those among us who believe that man has within him the capacity to meet and overcome even the great tests of our times. What we must not lose, or we lose all, is our willingness to seek the truth and our courage to act upon the truth. If we maintain these, we cannot despair.

We scientists believe upon ample evidence that the time of decision is upon us—that what we do or fail to do within the next few years will determine the fate of our civilization. That is the gist of the enclosed statement of this Committee which was published on June 30th, 1947. We call for a "higher realism which recognizes that . . . our fate is joined with that of our fellowmen throughout the world." Great ideas may often be expressed in very simple words. In the shadow of the atomic bomb it has become apparent that all men are brothers. If we recognize this as truth and act upon this recognition, mankind may go forward to a higher plane of human development. If the angry passions of a nationalistic world engulf us further, we are doomed.

The task of the scientists, as we conceive it, is untiringly to explain these truths, so that the American people will understand all that is at stake. We believe that with such understanding, the American people

will choose from among many paths to reach a peaceful solution and that they will move toward such a solution and not toward war. And we believe that, in the long run, security for all nations demands a supra-national solution.

We will strive unceasingly to bring this understanding to the American people through all the avenues of public discussion open to us. If we are to have any hope of influencing the Russians and of convincing them that America wants peace and security for all peoples, we must understand the reasons for their profound distrust of everything foreign, which has become the sickness of a stubborn isolationism. We will work for understanding, not abject appeasement.

Each of us, whether as scientists who worked to release atomic energy, or as citizens of the nation that applied the knowledge, stands accountable for the use we make of this tremendous new force. To our generation has come the possibility of making the most grateful decision in the recorded history of the human race. By an act of the collective will, we can ensure that this great and painful achievement of man's intellect, instead of turning upon humanity, may be secured for the benefit of future generations. I believe that mankind, capable of reason, restraint, and courage, will choose this path of peace.

No one can predict the events of the coming year but each of us has it in his power today to act for peace. I do not hesitate to call upon you to help.

Faithfully yours,
A. EINSTEIN.

Pre-Registration Seen As Possibility Soon

Pre-registration for the Winter Term is a definite possibility according to Registrar W. L. Mayer. Mr. Mayer stated that he hopes to arrange an effective method of registering students before they leave for the Christmas holidays.

This method of registration presents many problems such as the failure of students to clear with the business office at the beginning of next term and the changes which will have to be made in the event students do not return to school.

Registration for the fall term was accomplished with a minimum of friction and delay Mr. Mayer pointed out. Almost 3,500 students went through the gym on registration day at a rate of about 500 an hour.

Mr. Mayer expressed hope that even if pre-registration proved to be impossible there would be some advanced line-up of courses by students and their advisors.

ASME Meetings Invite Mech Students

The North Carolina State College Student Branch of the American Society of Mechanical Engineers cordially invites all sophomores, juniors, and seniors in mechanical engineering to attend the regular meeting on Tuesday, October 21, 1947 at 7 P.M. in room 100 Page Hall. The purpose of the meeting is to present a program of the history, objectives, and advantages of membership of the A.S.M.E.

Publications Smoker

At the initial Publications Board meeting held last week plans were formulated to hold a smoker for the staffs of the various campus publications and the freshman class. This event was an annual affair before the war and served to give the new students at State College an opportunity to meet the staffs of the campus publications.

The smoker will be held in the North Parlor of the Y next Friday night, October 24, at 7 o'clock. Refreshments will be served. All freshmen are invited to attend and meet the various publications staffs.

New Members Report At Glee Club Meeting

The presence of seven new members at the Monday Night meeting of the Glee Club swelled the total membership to sixty-eight men.

In view of such response to the current membership drive, it has been decided that new members will be accepted throughout the coming week.

Major Kutschinski has requested, however, that all persons interested in becoming members please report to rehearsals by next Wednesday night, Oct. 22.

There will be no rehearsal next Monday night, due to a Civic Music Club Concert in Raleigh, but the Tuesday and Wednesday rehearsals remain unchanged.

All students are invited to listen to rehearsals at Pullen Hall.

Wolfpack Wins 18-0 Victory Over Clemson Tigers

SPORTS TALK

By MAC McDUFFIE

AN EXAMPLE

Those who are already giving State the Southern Conference basketball championship again this year might take a look over toward Chapel Hill. Many grid experts rated the Tar Heels second only to Notre Dame in pre-season ratings and the Carolina eleven was an early favorite to defeat any conference team it met.

After three games, the Tar Heels have a record of one victory and two defeats. The lone victory could easily have been a loss, but the set-backs were decisive. In the most recent Associated Press poll of sports writers, the Tar Heels failed even to place among the honorable mention. The highly-regarded Notre Dame outfit fell to second behind Michigan.

Publicity for the 1948 Red Terrors has already started appearing in magazines and newspapers, and even if Coach Everett Case's cagers are better than last year, the going will be rougher because college teams have a way of preparing for favorites. Usually special defenses are planned to halt outstanding forwards, and small teams can gain untold recognition by defeating an outfit such as last year's Terrors.

ODDS AND ENDS

Last Saturday night following the surprising Wake Forest victory over Carolipa, a fellow called the AP night bureau in Raleigh, explained that he was a graduate of Carolina and asked that the AP put a story on its wire service complaining of the publicity given the Tar Heels.

Over 50 boys are out for cross country. It is one of the largest groups ever to participate in the fall sport, according to Coach Tom Hines. The schedule has not been announced, but the harriers are expected to open in a few days. No time trials have been held.

In the back of the gym, Coach Willis Casey had so many boys answer his call for swimmers that he was worried about inadequate facilities. After two days, however, he decided that his chief worry was to find candidates that did not have so many labs so they could practice.

Coach Al Crawford, who brought wrestling back to State last year after a lapse because of the war, may have trouble finding grapplers for the lighter divisions, but he should be strong at the heavy spots. Fred Wagoner, loser of only one bout last year, is back in school. Jim Rees and Charlie Musser should add depth to that position, and Freshman John Huzvar was the high school heavyweight champion of Pennsylvania. Musser was not eligible last season.

DON'T OVERLOOK

State's guards, Charlie Musser and Bernie Watts, certainly should not be overlooked when the time comes to pick All-Southern candidates. The two early favorites to win the nomination were Ed Royston and Bob Leonetti of Wake Forest. The two Deacs are living up to expectations, but Coach Bob Suffridges' charges have shown the offensive and defensive punch that has sparked State's great line.

Actually, most sports writers—the fellows who vote for the All-Southern team—will probably make their guard selections on the day that State and Wake Forest battle in Riddick Stadium.

Ag Club

The State College Ag Club held its weekly meeting last Tuesday night, and the future programs were planned.

Claude Kidd awarded the prizes for the winners in the Ag Fair exhibits. First place was given the Animal Industry Department, second place went to the Ag Chemistry Department and the Forestry Department was in third place.

The budget for the year was adopted by the members.

Paul Church was elected chairman of the Ag Barn-warming, which will be the highlight of the winter term.

The motion picture of the State vs. West Virginia basketball game was shown and enjoyed.

By DAVE FRANKLIN

The Wolfpack from State College, on the books as one of the best defensive teams in the country, made good offensively last Saturday night by scoring in the last three quarters to defeat the highly-regarded Tigers from Clemson, 18-0. And what may well be an astounding fact, the Big Red came close to throttling the Clemson attack, which has proved so effective in the past, and at the same time beating the Tigers at their own game.

Two of State's scores came at the end of sustained drives. Charlie Richkus, senior tailback, pitched a pass to "Big George" Blomquist for the first score in the second quarter and Richkus scored himself on a beautiful fake pass play in the final stanza. State's score in the third quarter came when "Footsie" Palmer intercepted a pass thrown by Bobby Gage, Clemson's ace, on his own 35-yard line and went 65 yards to cross the Tiger goal line. There were ten other men in red on the field for that play, too, who did a good job of blocking for their teammate.

Bozeman in Game

Oscar Bozeman, first-string wingback, saw action for the first time this year against the Tigers and, in the two times that he handled the ball, gained 48 yards. He was particularly good at handling the ball on reverses, a chore which requires the precision and coolness that comes from experience. Gwynn Fletcher, Bill Thompson, and John Huzvar also looked good on offense. But it was little Charlie Richkus

who kept State in the game with masterful deception on fake passes and hard running on straight line plays. Richkus reminded this writer about another game just a year ago, when the big State line outplayed its opponents and all that was needed was a hard charging, elusive back to go through the holes that the forwards were opening; the game, when State outplayed and outlasted a bewildered blue team from Duke.

State's passing game was improved over the Davidson game and the total offense was much more effective, especially when the going got tough down toward the Tiger goal line. But, except when Bozeman performed at the wingback position, the Wolfpack was weak on reverses. Part of this was the result of poor blocking and part was the result of much needed experience on the part of some members of the

University of Florida Team Plays Here Tomorrow

State Tangles With 'Gators In Interconference Battle

State's Wolfpack, fresh from two straight Southern Conference victories, tangles in an interconference battle with the University of Florida 'Gators in Riddick Stadium tomorrow night at 8 o'clock.

The 'Gators bring a record to State College—that of not having won a game in the last 13 attempts. Coach Beattie Feathers' outfit on the other hand has not lost a contest in Riddick Stadium since Wake Forest turned the trick in 1945 by defeating the Wolfpack, 19-18. Coach Ray Wolf's Florida eleven is not as impotent as the record indicates, however and is capable of defeating any team.

The Florida aggregation has the advantage of being in the position where it has everything to gain and nothing to lose. Coach Wolf's team uses a T-formation and is expected to use the air lanes frequently.

State supporters were given new hope last week when the Wolfpack showed an offensive spark for the

first time this season. Coach Feathers' gridders played the same sterling defensive ball that has characterized the club in earlier games, holding the vaunted Clemson passing attack to a net of three yards and stopped the running yardage at less than 50.

Footsie Palmer continued to add greatly to the team's defense with his sensational kicking. His average was not as high as early games, but on several occasions last Saturday, he was aiming for the sideline. His 69-yard run was the feature of the Clemson game.

Notice

There will be a staff meeting of both Editorial and Business staffs, at the Publications Building, Monday, October 20, 5:00 p.m. All staff members are urged to be there—both old and new—and anyone else that is interested in working on the Agromeck.

Smith Added To PE Staff

One of the newcomers to the staff of the Physical Education Department is William Edward Smith. Smith has been active in physical training and coaching for several years and is a very valuable addition to Professor Miller's department.

Smith was born in Raleigh, where he attended Hugh Morson High School. At Hugh Morson, he earned varsity letters in football, basketball, and baseball, and was elected captain of the junior varsity and varsity football teams. He was also president of the Monogram Club and vice president of the Hi-Y Club.

As a freshman at State College, Smith earned a letter for action with the freshmen gridders. Later he transferred to WCTC, where he was awarded a degree in Physical Education. At Western Carolina Teachers College, he earned varsity monograms in football, basketball, and baseball. Smith was also a member of the Student Senate and

president of the Monogram Club.

Smith was graduated from U. S. Navy Midshipman's School, Northwestern University, and received a commission as Ensign in the United States Navy. He served as Lt. (jg) in the Navy during World War II and saw service in the Southwest Pacific and European theaters.

During the past summer, he completed all work toward a M.A. degree in Physical Education at Carolina. Last year, he taught health at Needham Broughton High School in Raleigh and was on the coaching staff.

from SPE defeated a stubborn and fighting SAE aggregation 27-0 on Monday, October 13, in the initial game of the 1947 season. The SPE's, taking advantage of every opportunity, tallied in all four quarters and were not greatly threatened during the entire course of the game.

Without a doubt, the man of the game was big Jim Boger, 175-pounder, who ably held down the fullback position for the victors. Boger started the pace early in the first period when he intercepted Roberts' pass and raced down the field for the score. Assisting Boger in the backfield and equally sharing the glory of the victory were Bud

Military Assignments Announced by Gibson

Col. Samuel A. Gibson of the Military Department of N. C. State announced the following assignments and appointments of cadets in the Reserve Officers' Training Corps for the school year 1947-48.

REGIMENTAL HEADQUARTERS
Cadet Colonel, Regimental Commander—Carl W. Ballard, Swannanoa, N. C.; Cadet Lt. Colonel, Executive Officer—William J. Ford, Raleigh, N. C.; Cadet Major, Adjutant (S-1)—Orin E. Fagnola, Durham, N. C.; Cadet Major, Intelligence & PIO (S-2)—Wade C. McLean, Addor, N. C.; Cadet Major, Plans & Training (S-3)—Charles W. Townsley, Raleigh, N. C.; Cadet Major, Supply (S-4)—Robert T. Wilkerson, Raleigh, N. C.

FIRST BATTALION
Headquarters: Cadet Lt. Colonel, Battalion Commander—Clarence A. Smith, Jr., Cary, N. C.; Cadet Major, Executive Officer—William E. Faysoux, Gastonia, N. C.; Cadet Captain, Adjutant—John F. Dawson, Raleigh, N. C.

Company A: Cadet Captain, Company Commander—David F. Reid, Jr., Charlotte, N. C.

Company B: Cadet Captain, Company Commander—Wallace L. Krueger, Charlotte, N. C.

Company C: Cadet Captain, Company Commander—Joseph F. Tyndall, Pink Hill, N. C.

Company D: Cadet Captain, Company Commander—John L. Leonard, Raleigh, N. C.

SECOND BATTALION
Headquarters: Cadet Lt. Colonel, Battalion Commander—Hurley D. King, Winston Salem, N. C.; Cadet Major, Executive Officer—Samuel E. Cooper, Oxford, N. C.; Cadet Captain, Adjutant—Herbert H. Smith, Cary, N. C.

Company E: Cadet Captain, Company Commander—Carroll D. Strider, East Flat Rock, N. C.

Company F: Cadet Captain, Company Commander—William I. Farmer, Carolina Beach, N. C.

Company G: Cadet Captain, Company Commander—John A. Sweet, Raleigh, N. C.

Company H: Cadet Captain, Company Commander—John N. Johnson, Charlotte, N. C.

SPECIAL TROOPS
Band: Cadet Captain, Commander—Francis J. Clendenning, Boothwyn, Penn.
Drum & Bugle Corps: Cadet Captain, Commander—Needham C. Holden, Jr., Raleigh, N. C.

Theta Tau Elects Officers For Year

Rho Chapter of Theta Tau, National Professional Engineering Fraternity, recently elected the following new officers to serve during the coming year: R. C. Hinkle, whose hometown is Lexington, N. C., was elected Regent; Grey E. Stone from Mt. Gilead, N. C., Vice-Regent; Roy Yelverton, from Raleigh, N. C. will be the new Scribe; N. Scott Ireland, from Pleasantville, N. J., will be Treasurer; and Riley N. Little, from Greensboro, N. C., was elected Corresponding Secretary.

INTRAMURALS

(Continued from Page 7)

Foreman, ace passing specialist, and Charlie Fetner, who was on the receiving end of many of Foreman's passes.

That combination, Foreman to Fetner, accounted for the fourth quarter score. Driven back deep into their own territory as a result of an SPE punt, the SAE's attempted a reverse, Roberts to Merritt, which was fumbled and hard-crashing Don Swartz came in to recover the ball over the goal and chalk up another SPE touchdown. This was the tally racked up midway of the second quarter; the other six points came when Dennis Fleming intercepted a pass thrown by Roberts and ran to pay dirt. Three out of the four attempted extra points were good.

Not to be slighted, though, was the fast and shifty backfield of the SAE's, supported by Clair Roberts and Ben Merritt. The expert kicking of Merritt and the superb running of Roberts were the main cogs in the SAE's offensive attack.

On No. 3 at Doak Field, victory

was proclaimed by the Delta Sigs as they drove to a hard-earned 12-0 win over the KA's. The two boys responsible for the points were Dick Brown and Bill Britt who made up a spectacular passing combination. Both teams tied on first downs which is one factor in proving that the game was close and hard fought.

In Tuesday's encounters, the TKE's defeated a strong and powerful Kappa Sig squad by the score of 12-0. Diehl was the fleet footed gentleman that stole top honors by his running ability and was credited with making the first touchdown.

The SAMMY's lost a heart breaker to the Pi Kappa Phi men as a last quarter touchdown proved to be the fatal blow. Tied, up until the final three and a half minutes of the game, the Pi Kapps sparked a last minute surge and brought home a hard earned and well deserved 6-0 victory.

Sigma Pi won over AGR 12-0, scoring in the first and last periods. These were the first games played in the current intramural season, and judging from the enthusiasm

THE DIE

(Continued from Page 3)

phrase "lose the peace" directly implies the possibility of another war; "Western Europe" simply refers to those countries not at present under Russian control. These western European nations must be restored to self-sufficiency so that as their standards of living are raised their susceptibility to communist dogma will be lessened. Economic stability will help establish political stability, but starving men cannot work and produce in sufficient quantities for this end, therefore they must be fed. Furthermore, in the event that all our efforts fail and war does engulf us, these potential allies must, for our sake, be in a position to help us. Once again, food is the fundamental factor. We have plenty, and we must share it, as there is no other logical course to follow.

that has so far prevailed, competition will be keen.

Kappa Sigs Invited

All Kappa Sigs transfers are invited to contact R. B. (Dick) Boyd in room 215 Watauga Hall as soon as possible.

LITTLE CHARLIE

(Continued from Page 6)

backfield in ball-handling. The Wolfpack's defensive game was the same aggressive, sterling play which has characterized the Big Red in two previous games.

Jim Rees, tackle, John Wagoner, guard, Al Phillips, end, and Harold Saunders, center, were standouts in a line that looked good from end to end. "Footsie" Palmer, Gwen Fletcher, and Bob Bowlby played exceptional ball on defense for the Wolfpack.

Prof. T. C. Brown has been elected chairman of the State College Branch of the American Society for Engineering Education. He succeeds Dr. Thomas C. Doody, who recently resigned his post at State College to accept a position at Purdue University.

*They're on their
way up!*

*will you join
them after
you graduate?*

You probably know a number of men in your class who were pilots in the wartime Air Force. They are the best advertisements for the Aviation Cadet program. Talk with them about it.

Chances are, they'll tell you their service as pilots was one of the most interesting and exciting phases of their lives. Fast action, comradeship, and the chance to serve their country paid them dividends they don't forget . . . added something to their stature and poise that they couldn't have gotten anywhere else.

Cadet life today is no different. As a potential pilot in the new U. S. Air Force, you serve at a time of equal importance to the nation. Freedom, responsibility, the chance to use your own initiative are all yours.

The training you get is the finest your government can provide — \$35,000 worth for every Cadet.

You're taught by skilled instructors, fly the best airplanes. Your living facilities are excellent.

Learning to fly today opens profitable fields to you in aviation — which is expanding more rapidly than at any other time in history.

Pilot training is open, now, to single men, 20 to 26½ years old, who have completed at least one-half the credits for a degree from an accredited college or university — or pass an equivalent examination. Cadets completing the course will be commissioned Second Lieutenants, ORC, and assigned to active duty as pilots with the Air Force. During their tours of duty they will be given a chance to qualify for Regular Air Force Commissions. This is *your* opportunity! Look into it today at your nearest U. S. Army and Air Force Recruiting Station.

U. S. ARMY AND AIR FORCE RECRUITING SERVICE
