

# THE TECHNICIAN

of NORTH CAROLINA STATE COLLEGE

Vol. XXIX, Number 21

STATE COLLEGE STATION, RALEIGH, N. C., APRIL 1, 1949

Offices: 10 and 11 Tompkins Hall

## Book Exchange Doing Booming Business

Business at the student book exchange is overflowing the shelves. Success of the exchange seems assured as scores of students use its facilities.

The exchange is run on a non-profit basis as a service to students. It is operated by Alpha Zeta under the auspices of the Campus Government.

The exchange operates under the following rules:

1. A student with a book to sell writes his name and address along with the price on an envelope which goes in the front of the text.
2. He returns later to get the money which the buyer has placed in the envelope.
3. He pays Alpha Zeta \$.10 to cover operating expenses.

## Mu Beta Psi Contest Well Under Way

The singing contest sponsored by Mu Beta Psi is well under way. All of the dormitories and fraternities have been contacted and several groups have already entered the contest.

There is still time to enter the contest. The judging date has been tentatively set as April 8th. The judging contests will be open to the student body. The three winners of the preliminary contests on April 8th will appear on Stunt Night, April 15th, for the final judging.

## More Next Issue

Due to the number of candidates seeking election in the coming campus elections, the TECHNICIAN was swamped with pictures. It is the intention of the TECHNICIAN to give space impartially to all candidates, but several candidates brought their pictures in too late to be engraved in time for this issue.

The elections have been postponed one week and therefore more candidates are likely to file. So those pictures and sketches this week do not constitute the entire group seeking any one office. The TECHNICIAN, therefore, contains about two-thirds of the pictures of candidates on hand this week; the others will appear next week.

## Juniors Get Thornhill; Rings Arrive Next Week

Claude Thornhill and his orchestra will furnish the music for the annual Junior-Senior Ring Dance, to be held this year on April 16 at Memorial Auditorium. The announcement was made early this week by Irving Gower, chairman of the Dance Committee, as he revealed the nearly-completed plans for the event.

The dance will be formal this year, as a large majority of the members who voted as they paid their dues indicated a preference for this type of dance, and will last from 8:30 until 12 midnight. The featured event of the evening will be the Ring Ceremony, at which time there will be the traditional presentation of class rings to members of the Class of 1950.

# Campus Elections Postponed For One Week Pending Action By C.G.

## Three Enter Primary For Treasurer Post

Anson Bruce Liverman, a native of Newport News, Virginia, is a candidate for treasurer of the Campus Government. A junior in Mechanical Engineering, Liverman entered school in September, 1942, left for service in the Naval Air Force, and then reentered after the war. He is a member of ASME and Delta Sigma Phi, of which he is pledge-master. Liverman favors having the Campus Government function in keeping with what the students want it to do. He advocates one free day before exams begin, and says that if he is elected

he will strive to bring about greater interest in the Student Government. Larry B. McDade, a junior in Civil Engineering from Cedar Grove, N. C., is running for treasurer of the Campus Government. He is a veteran, married, and lives in Verville. McDade is a member of Theta Tau and Chi Epsilon, the honorary Civil Engineering fraternity. In addition, he has served as president of Phi Eta Sigma, and ASCE and will be a member of the Engineers Council next year.

Hank Odom, a sophomore in Industrial Engineering, is a candidate for treasurer of the campus Government. A veteran of service with the Merchant Marine, Odom entered State in September, 1947. He was chairman of the freshman honor committee, and this year has been a member of the Order of Thirty and Three, the Society of Industrial Engineers, and vice president of the sophomore class. He represents SIE on the Engineers Council and has served as chairman of the Dance Committee for the Sophomore Hop.

## Ag Club Will Hold Election Primary

All Agriculture students are urged to attend the Ag Club meeting next Tuesday night, April 5. Primary elections will be held for the editor and business manager of The Agriculturist. Sam Furches, program chairman for this term, will also have something in store.

Two candidates were selected from the rising sophomore and two from the rising senior class to run for representatives to Campus Government. The sophomores are Lyndon Sykes and Charles Coggins. The seniors are Leon Holland and Burwell Smith.

Class rings will be delivered on Tuesday and Wednesday, April 5 and 6, to those who placed their order for the initial shipment. Emmett Bringle, class president, announced that a representative of Jostens' will be in the college Y.M.C.A. on these dates to deliver rings to the Juniors and make any adjustments that may be necessary. There will also be a desk set up in the Y.M.C.A. on these dates, in order that any members of the Junior Class who have not paid their class dues of five dollars may have an opportunity to do so. Further details concerning the Ring Dance will be published in next week's Technician, at which time notice will be given concerning the distribution of tickets.

## Engineers Promise Best Exposition Yet

The biggest show of the college year, the Seventeenth Annual Engineers Exposition, will be held April 29 and 30. The doors to all the College's School of Engineering buildings will be open for the students and laymen alike, to enjoy and marvel at the scientific displays and demonstrations that will be held. Scores of exhibits depicting recent advances in the engineering world are now being prepared for this big event. Detailed departmental accounts of the exhibits will appear in the coming issues of the Technician.

The 1949 Exposition will open at noon, April 29, with Dr. Clyde A. Erwin, State Superintendent of Public Instruction, making the principal address. The address and ribbon-cutting ceremonies, which will take place at the Memorial Tower, will be preceded by a parade by the college's ROTC regiment.

The purpose of the Engineers Exposition, as announced by W. C. (Bill) English, president of the Engineers Council, is to familiarize the people of North Carolina, especially high school students, with the functions of engineering and the activities of the engineering students at North Carolina State College.

English also announced that the departmental exhibits will be judged by a committee composed of three high school principals, each chosen to represent a distinct part of the state. The prizes for the

best exhibits will be: 1st place—\$25; 2nd place—\$15; 3rd place—\$10.

The awards shall be based upon the following items:

1. Scope and number of exhibits.
2. Originality—whether exhibit is used for the first time.
3. Manner of presentation (interest, thoroughness, brevity).
4. Thoroughness with which the exhibits portray the respective department's field of engineering.
5. Informative value of exhibits (Appeal to laymen).
6. Percentage of students within each department actively participating in the exposition.

English said industrial displays are encouraged, but they will not be weighed as heavily as student displays.

The awards will be presented at the annual Saint Patrick's Dance, which will conclude the events Saturday night, April 30.

The executive committee of the exposition is composed of Chairman English; Louis M. Allen of Raleigh, vice-president of the Engineers Council; James M. Yorke, Jr., of Fayetteville, council secretary; Hugh J. Horne of Roanoke Rapids, council treasurer; O. T. Paul of Washington, N. C.; Maurice W. Lamb, Jr., of Wilmington, Del.; and Charles A. Plank of Asheville.

Henry A. Corriher, Jr., of Hendersonville is chairman of the high school committee, and Robert T. Lloyd, Jr., of Asheboro is chairman

BY HARVEY SCHEVIAK

Campus elections were postponed for one week pending action of the Student Government at a special meeting of that body on April 8.

President Fred Kendall called a special meeting of the Student Government at 8:00 p.m. on Tuesday night. Action of the Student Government has moved the primary to April 14 and the final elections to April 21. Filing deadline for candidates has been extended to 12 o'clock noon Saturday, April 9.

Faculty Council ruling on interpretation of the Constitution by the Student Government in the passage of an amendment to change the scholastic average requirement of offices rated above six extra-curricular points, caused immediate action by the Government.

At its regular meeting on last Tuesday afternoon, the Student Government passed, by a two-thirds majority, the amendment to change the requirement from the 75% average rule to the class rank "C" average rule for such offices.

Council Calls Technicality Under the Student Government interpretation of the Constitution concerning such action, the bill of amendment was first read at a previous meeting, and then read again and passed by a two-thirds majority in a period of more than 10 days and less than 30 days between readings.

The Faculty Council, which met later on Tuesday afternoon at its regular meeting, interpreted the Constitution to specify that the amendment must be passed by a two-thirds vote both times at both readings of the bill within the same specified period. The Council stated that the action of the Student Government on Tuesday would constitute the first reading and passage of the amendment rather than the effective vote.

Twenty-seven of the members met in a session which lasted two full hours to decide the course in which the Student Government was to follow.

Adopt Precinct System The meeting opened with the passage of a proposal presented to the organization by the Interdormitory Council which had just met an hour previous to the Student Government's night session. A motion was made and passed for the division of the campus into precincts. Voting by students in the West section of the campus may be done at a polling place which will be located in the Owen-Tucker dorm area.

To prevent double voting by a student in both the YMCA and West section polls, the registration cards of the student will be marked at the polls at which he votes. The Interdormitory Council has volunteered to furnish necessary clerks for the new precinct. Polls at the western dorm area will be under the supervision of a Student Government representative.

Amendment Debated The meeting was then fanned into a blaze by debates on the action of the group in respect to the amendment. Should the Student Government drop the proposal of changing the 75% rule, or should it wait another 10 days and vote on the amendment once more? Just

**Campaign For Technician Posts**

**HARVEY H. SCHEVIAK**

Harvey H. Scheviak, candidate for editor of the *Technician*, from Kenosha, Wis., is a rising junior in textiles. He has served for two years on the *Technician* staff, beginning as a reporter and serving as assistant managing editor for the past term.

Experience in publication work has also been garnered from two years work on the college *Handbook*—during which time Scheviak edited three of the sections. He was associate editor of his high school paper for two years and at present is the reporter for the Tompkins Textile Society. He is also a member of the Order of 30 and 3.

Gilbert Maxwell, a rising junior in Industrial Engineering from Seven Springs, N. C., is a candidate for editor of the *Technician*. He has been a member of the *Technician* staff since entering college in September, 1947, and has served as reporter, columnist, make-up man, and other similar duties.

He has been managing editor of the college *Handbook* for two years and was editor of his high school paper for two years. He was publicity director of the YMCA this year and also unofficial public relations man for the dormitory organization.

Maxwell is the chairman of the publicity committee for the Sophomore Hop, and he is a pledge of Lambda Chi Alpha fraternity. As a freshman, he was vice-president of the Y Freshman Fellowship.

He plans, if elected, to continue "to give in the *Technician* full and

**GILBERT MAXWELL**

**ROSS W. LAMPE**

complete coverage of campus events." He hopes to "make the *Technician* a sounding board for student opinion on any and all matters of general interest to the student body."

Ross W. Lampe of Raleigh is the sole contender for the position of business manager of the *Technician*. He is a sophomore in chemical engineering and has spent two years on the business staff. This year he has served as assistant business manager.

In addition to his publication work, he is a member of the Order of 30 and 3, Theta Tau, and AICHE. He is a campus government representative for the sophomore class and a member of Sigma Alpha Epsilon fraternity.

**Chem E's Inspected Industrial Plants**

A three-day plant inspection trip through several North Carolina industrial plants was recently completed by the Chemical Engineering Department of the School of Engineering. Thirty-four chemical engineering seniors and five faculty members made the trip on March 23, 24, and 25. The purpose of the trip was to acquaint the seniors with actual plant processes and operations and the industrial opportunities in North Carolina.

The National Carbon Company, Inc., in Asheboro; was the first plant visited by the group. From there they went to the Carolina Aluminum Company in Badin. Visits for the next day included the Ecusta Paper Corporation in Pisgah Forest, the Champion Paper and Fibre Company in Canton, and the American Enka Corporation at Enka. Plants visited on the third day were R. J. Reynolds Tobacco Company in Winston-Salem, and

the American Agricultural Company in Greensboro.

The thirty-four seniors who comprise the group were: Carey M. Ashley, Apex; Eugene W. Barnhardt, Winston-Salem; Robert L. Bird, Raleigh; Brantley A. Brock, Rocky Mount; Arthur A. Cline, Taylorsville; Robert T. Currin, Littleton; Robert G. Ellis, Gastonia; Robert R. Garey, Raleigh; Joseph D. Hartsoe, Weldon; Robert E. Hine, Jr., Winston-Salem; Samuel A. Hodnett, Durham; Hugh J. Horne, Jr., Roanoke Rapids; Edwin H. Hutchins, Raleigh; Maurice A. Kearney, Greensboro; Homer R. Ketchie, Kannapolis; Harrell J. Lewis, Louisburg; Alan M. McGee, Jr., Winston-Salem; Charles H. Manning, Greenville; Glenn P. Moser, Lewisville; Robert E. Overing, Raleigh; George H. Parker, Asheville; Charles A. Plank, Asheville; Robert A. Plyler, Jr., Waxhaw; Robert E. Poole, Raleigh; Lewis B. Potter, Charlotte; William J. Price, Whitakers; Gordon O. Smith, Kannapolis; Vernon T. Stack, Jr., Walkertown; Alston W. Stafford, Asheville; Jonathan T. Thigpen, Avon Park, Md.; Roy S.

**Sophomore Hop**

Bids to the Sophomore Hop may be picked up Tuesday and Wednesday at the YMCA between 6:00 and 7:00 p.m. It will be necessary to present the receipt for class dues in order to get the bids. Anyone who wishes to pay his dues may do so at this time and receive a bid.

The Hop will consist of two dances, an informal dance Friday night and a semi-formal affair Saturday evening. Both dances will run from eight-thirty until twelve and will be in Frank Thompson Gym. The Gym will be decorated night club style, with reserved tables and a floor show at intermission. The Duke Ambassadors, one of the South's best college bands, will play for both dances.

Thomas, Jr., Raleigh; James W. Watson, Murfreesboro; Hewitt S. Welsh, Denbigh, Va.; and Robert A. Yoder, Raleigh.

The plant inspection trip was planned and organized by Professors D. S. Arnold, F. P. Pike, and J. F. Seely

7,200 years of college... and still learning

**T**HE Bell Telephone Laboratories is known as a leader in communications engineering. On its staff are 1,622 engineers and scientists with college degrees. Among them they have 7,200 years of college training... and they are still learning.

They study many things. How to speed your voice across the street or around the world. How to keep your voice natural in tone and volume. How to make central office equipment capable of switching your call even faster. How to produce in laboratories the materials which are hard to get in their natural form—quartz, for instance. How to conserve the scarce metals which go into wire and cable, by making one circuit carry many conversations.

From such studies they learn how to make your service better and better, and keep its cost low.

File For Secretary

GIL NEWTON

Gil Newton of Yonkers, N. Y., is a junior in textiles. He is vice president of the Owen Dormitory Club. A member of the Cadet Officers Association, he is Sergeant-at-Arms and a member of the Military Ball committee. Newton is a member of Sigma Tau Sigma and the Textile Forum staff. He was a member of the Redcoat Band and participates actively in intramural sports.

OSCAR WILLIAMS

Oscar Williams of Raleigh is a sophomore in Civil Engineering. He is engaged in Campus Government work, being the Technician correspondent. His reports are published weekly as the column, "The Campus Dispatch." He is a member of ASCE. Williams served on the Freshman engineering honor committee and on the Sophomore finance committee.

FACULTY AT DINNER

Dean J. H. Lampe announced today that sixty-five staff members from the School of Engineering attended the Oliver Max Gardner Award Dinner held Tuesday night, March 22, at Lenoir Hall in Chapel Hill. Some seven hundred repre-

Will Campaign for Agriculturist Post

Burwell Smith, of Monroe, N. C., has announced his candidacy for editor of The Agriculturist, the magazine of the agriculture school. Smith is a junior in Field Crops, and is a member of Alpha Zeta, the honorary agriculture fraternity. In addition he is a member of the YMCA cabinet. This year, Smith is serving in the capacity of assistant editor of the magazine. Past activities include president-elect of his sophomore class.

Lolo A. Dobson, a junior in Agronomy, is campaigning for the office of editor of the Ag magazine which will be voted upon at the regular Ag Club meeting April 12. Dobson is managing editor of the Agriculturist, vice president of the Ag club, junior class secretary, departmental honor committee chairman, and a member of Alpha Zeta.

How much FUN can you cram into a record?

Hear Ray McKinley's musical kidding in "SUNFLOWER" (an RCA Victor Release) and you'll know!

You'll have a lot of fun with Ray McKinley, his band and his vocalist serving up a platterful of "corn" for your listening and dancing pleasure. Yes! Ray knows about musical pleasure—and smoking pleasure, too! As Ray beats it out on his drums—"Camels are a great cigarette—they're mild and full-flavored!"

How MILD can a cigarette be?

Smoke Camels for 30 days—and you'll know!

In a recent coast-to-coast test of hundreds of men and women who smoked only Camels for 30 days—an average of one to two packs a day—noted throat specialists, after making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION DUE TO SMOKING

Camels

Money-Back Guarantee! Test Camel mildness for yourself in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you've ever smoked, return the package with the unused Camels and you will receive its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

Drummer Ray McKinley talks it over with his featured vocalist, Jeanie Friley.

THE MILDDEST CIGARETTE? WHY, CAMELS, OF COURSE! I LEARNED THE ANSWER WHEN I MADE THE 30-DAY TEST!

30 DAYS? I'VE SMOKED CAMELS FOR YEARS. I KNOW HOW MILD CAMELS ARE. AND WHAT RICH, FULL FLAVOR THEY HAVE!

According to **Hoyle**

**Good Luck, Senator . . .**

Congratulations from the students of State College to Governor Scott and Senator Graham are certainly in order. The appointment of Dr. Frank is in every way a commendable one.

There were several good men available for the appointment, and several political hacks. The Governor picked the best man in the state for the job, once again demonstrating his indifference to our traditional "machine" methods. Senator Graham is well known, both nationally and internationally, as a hard-working, courageous liberal. He is a distinct cut above the calibre of many Southern (and Northern!) senators, and we believe his wisdom and tolerance will exert a beneficial influence in the legislative halls.

Dr. Frank has frequently been accused of being a Communist, or at least a fellow-traveller, and it cannot be denied that some of the organizations with which he has been associated have had a rather pinkish tinge. However, there is not the slightest justifiable doubt as to his love and loyalty to his country and to the democratic principles of government. He believes passionately in freedom and the rights of the individual, and that belief has been both the source and cause of much of the criticism which has been hurled at him. He has never hesitated to stand firmly for that which he believed to be right, and many people, particularly those in a position of some influence, resort to all types of she-nanigans to hurt, hinder, or smear that kind of man.

While it is true that Frank Porter Graham could have rendered many more years of service to the university, we think that his

leaving the presidency is a far cry from being the catastrophe some would have it. He has made consolidation a successful reality, and has skilfully directed the progress and growth of the Greater University during the past nineteen years. Although some students and alumni may doubt it, he has been a good friend of State College, and this institution is much farther along the road to greatness because of him. At Carolina, he has succeeded in fostering an eternal spirit of liberty, and has given our brother institution a form of student self-government free from faculty control, jealously proud of its privileges and responsibilities. But nineteen years is a long time, and the pressure to remove Dr. Frank from office seemed to be increasing rather than decreasing. There could not have been a more auspicious time for him to leave the university than now, full of honor, and filled with the satisfaction of a job well done. Nor could there have been picked a more auspicious time for new blood to come into the university, a new head and hand to guide the destinies of the Great Triad, to carry on the magnificent work which Dr. Frank has begun.

Senator Graham, the students of State College join the people of North Carolina in sending you sincerest congratulations. We wish you well!

**Cry Wolf! . . .**

It has come to our attention that last term at least two students were accused by instructors in the English Department of having cheated in writing their term papers. We know for a fact that neither of those students was guilty of cheating in any way, shape, fashion, or form, and we hope that such a regrettable circumstance will not occur again for a long, long time.

There was no great disturbance over the matter. The students concerned explained their situations to their instructors, and redid part of the assignment upon request without much protest. Nevertheless, it rankles for an honest man to be accused of cheating, and his resentment is not likely to dissipate very quickly. Besides, there is enough real cheating going on here without anyone inventing any more, and with such a grave charge as that one should be very, very sure that he is right in his accusation.

We think it would be extremely difficult to be positive that a man had cheated in writing an English term paper, but we do know that teachers are frequently confronted with some mighty suspicious looking cases. One very confusing case that occurred before the war is especially vivid in our memory, and although it seems funny now, it certainly didn't seem so at the time. On a final examination in a math course, two boys who sat on opposite sides of the room, and who hardly knew each other except to speak, both made a mistake on the same problem, and they made the identical error. Naturally, when the professor saw the same mistake on those two papers and no others, he was sure that somebody had done a little "cooperating". However, when he recalled the seating arrangement, he knew that it was impossible for them to have cheated, and that coincidence, which looked like evidence, has remained a mysterious, "believe it or not" gremlin's joke ever since. Guess how we happen to know that story!

# These Three Have Filed For Head Cheerleader

### SCOTT EUBANKS

Scott Eubanks, a rising junior in Mechanical Engineering, is a candidate for head cheerleader. Scott is a native of Greensboro, N. C. He has served for two years as a cheerleader on the State College squad.

In addition to his duties as a cheerleader, he has been active in other fields. He is the Recreation Chairman for Watauga Dorm, a member of the Dormitory Council, Watauga's representative to the Interdormitory Council and a member of ASME. With all these responsibilities, he has maintained a "B" average for his two years work here.

### DWIGHT J. HAM

Dwight J. Ham, hailing from Charlotte, N. C., is a candidate for head cheerleader. Dwight is a sophomore in Floriculture.

He served as a cheerleader in high school and was one of the All-State Shrine Bowl cheerleaders for two years. While he has been at State, he has also served as a cheerleader.

### ALEX VANN

Alex Vann, a rising senior in Agronomy, is a candidate for head cheerleader. Alex is a native of Monroe, N. C.

In addition to being a cheerleader here at State, Alex was head cheerleader at Monroe High School for three years. He is the vice-president of Becton Dorm and is their representative to the Interdormitory Council.

DWIGHT J. HAM

ALEX VANN

Don't Forget the Primary, April 14

## Hoadley Returns

Dr. E. B. Hoadley, professor in the Electrical Engineering Department of the School of Engineering at North Carolina State College, has recently returned from the Annual National Convention of the Institute of Radio Engineers and the Radio Engineers Show held in New York City.

This convention and show gave the radio engineers an opportunity to present their latest development to other radio engineers.

As chairman, Dr. Hoadley conducted the meeting of the Professional Recognition Committee. This committee is composed of five men whose objective is to consider those fields of activities in which radio engineers become interested in labor laws and any matters which affect the professional standing of radio engineers such as registration of engineers by various states. Although this committee is purely advisory, it makes recommendations to the board of directors of the Institute of Radio Engineers.

## Government Opens Engineer Positions

The U. S. Civil Service Commission has been accepting applications for several months for engineer positions; however, sufficient eligibles have not yet been obtained to fill existing vacancies. The Commission wishes to bring these examinations to the attention of qualified persons who have not yet applied. The jobs are located in various Federal agencies in Washington, D. C., and vicinity, and pay entrance salaries ranging from \$2,974 to \$5,905 a year.

No written test is required for any of the positions. To qualify, applicants must have had education or experience in engineering or a combination of such education and experience. For positions paying \$3,397 and higher, professional engineering experience is also required. The maximum age limit for jobs at \$2,974 is 35 years; for other jobs, 62 years. These age limits are waived for persons entitled to veteran preference.

Announcements and application forms may be obtained by interested persons from the U. S. Civil Service Commission, Washington 25, D. C. Applications for positions at \$2,974 will be accepted in the Commission's Washington office until further notice; for the higher-paying positions, until June 30, 1949.

WANTED: Second hand typewriter, desk or portable model. Write Ward, 106 E. Whitaker Mill Rd. I'll come see what you have.

# MILITARY DEPARTMENT TO SHOW OFF ROTC BOYS

The President of the United States has proclaimed Wednesday, April 6 as Army Day. This day will be observed in many principal cities of North Carolina and other states throughout the country with parades in which Army and Air Force troops will participate. There will also be open house at army posts throughout the Nation.

The regiment will join in the observation of Army Day with a parade and review on the college campus during the regular 12:10 P.M. drill hour on Wednesday, April 6. Governor W. Kerr Scott has been invited as guest of honor of the ROTC to receive the review. State and city officials, presidents of civic and patriotic organizations of Raleigh and local Army, Air and Navy representatives have been invited to the parade and review as special guests of the ROTC. The ceremonies which will start on Doak Field adjacent to the gymnasium at 12:10 P.M.

The ROTC enrollment this year numbers 1150 students of whom 212 are enrolled in the advanced courses in preparation for commissions in the Officers' Reserve Corps of the Army and Air Force. The ROTC regiment is organized into a regimental headquarters, band, drum and bugle corps and three battalions. Two battalions are composed of Army ROTC students and one of Air ROTC students. The Army has five ROTC branch units at the college: Infantry, Signal Corps, Quartermaster Corps, Corps of Engineers, and Ordnance Department. The Air ROTC offers two courses of instruction.

Each company of the ROTC regiment carries a guidon indicating the branch and service in which students of the company are enrolled. E. Preston Andrews of Charlotte, is Cadet Colonel of the ROTC regiment. His cadet regimental staff officers are: Lieutenant Colonel William Calvin Campbell, Jr., of Winston-Salem, Executive Officer; Major James Boyce Sharpe of Raleigh, Adjutant; Major Floyd R. Pickett of Raleigh, Intelligence Officer; Major Irving W. Gower, of Greensboro, Operations and Training Officer; Major Benton K. Partin, of Chadbourn, Supply Officer. The cadet leaders of the band are Major Henry G. Miller, of Hickory, and Captain Richard L. Hedgepeth, of Warrenton. First Lieutenant William M. Jenkins, Jr., of Charlotte, is leader of the drum and bugle corps. Three battalions are commanded by Lieutenant Colonels Charles E. McCrary, of Raleigh, Ralph K. Younger, of Burlington, and Clyde W. Moore of Morehead City.

Eighty-nine graduates of State College who completed ROTC courses concurrent with academic courses have received commissions in the Officers' Reserve Corps of the Army and Air Force since reactivation of the ROTC in 1946. Of this number two have been commission-

Sponsors of Sigma Chi Sweetheart Ball at N. C. State

Pictured here are the sponsors of the sixth annual Sweetheart Ball to be held by the Delta Epsilon Chapter of Sigma Chi Fraternity at N. C. State College in the ballroom of the Hotel Carolina in Raleigh on Saturday night, April 2, from 9 until 12 o'clock. Jimmy Perkins and his orchestra will provide the music. The sponsors, with their escorts listed, are shown here. Top row, left to right: Miss Lizzette Crocker of Raleigh with George M. Wood of Camden, dance committee member; Miss Jean Millikan of Greensboro with Fred Frissell, 111, of Burlington, chairman of the dance committee; Miss Jane Hodnett of Gastonia with Bill Owen of Gastonia, secretary; Miss Margaret Ann Clayton of Roxboro with Martin Michie, Jr., of Roxboro, treasurer. Bottom row, left to right: Miss Dell Carter of Raleigh with Bruton Fitzgerald of Candor, vice-president; Miss Ann Finch of Leland, Miss., with Charlie Harris, Jr., of Roxboro, dance committee member; Miss Anne Carrington of Lynchburg, Va., with Rodney Coleman, Jr., of Burlington, president; Miss Jean Kelly of Gastonia with Bob Adams of Gastonia, dance committee member.

ed in the regular Army and one in the regular Air Force. Seventy-two graduates of State College will receive commissions in the Officers' Reserve Corps this coming June. Of this number three have applied for commission in the regular armed services and should receive these commissions upon graduation. It is estimated that after this year about 130 students at State College will receive commissions as reserve officers in the Army or Air Forces each year.

### Harvey Hook Honored For E.E. Paper

Harvey O. Hook, a senior in the Electrical Engineering Department of the School of Engineering, recently won honorable mention for a paper which he presented at the Southern District Student Branch Convention of the American Institute of Electrical Engineers, held in Baton Rouge, La. The paper, entitled "A Stereophonic Broadcasting System" was presented in competition with eleven other papers.

First place was awarded to Stephen D. Maxley, Jr., of the University of Alabama for his paper entitled "An Electronic Dynamic Pressure Gage." Another honorable mention went to Guy L. Robbins of Duke University for a paper entitled "The Transistor—A Crystal

Triod." For three consecutive years a North Carolina State College student has placed in the first three of this competition.

Nineteen schools were represented at this annual convention. Attending from the Electrical Engineering Department at State were Hook, Elon College; George L. White, Fayetteville, president of the local branch of the American Institute of Electrical Engineers; Edwin D. Palmgren, Winston-Salem, secretary; and Professor W. D. Stevenson, faculty counselor.

### Research Work Done In Pulp And Paper

Professor J. Frank Seeley and Dr. Russell F. Hazelton, faculty members of the Chemical Engineering Department of the School of Engineering at State, are currently doing research work in pulp and paper. They are carrying on experiments in the by-products field and in pulping. At present, the two are working with turpentine and the components of sulfate turpentine.

In connection with the research being done in the Chemical Engineering Department, Prof. Seeley recently attended the annual meeting of the Technical Association of the Pulp and Paper Industry held in New York City. Various problems were discussed, and as a result of this meeting, Prof. Seeley and Dr. Hazelton are contemplating working with the equilibrium condition for basic salts, water and sulphur dioxide. Another problem which they may experiment with is the basic method of determining the wet strength of kraft paper.

The findings of the research being done, will be of great value of industry. Not only will it introduce new products, but it will also improve the products already on the market.

## Graduates Interested In State Employment

"The members of the 1940 graduating class have indicated a strong preference to work in North Carolina industries," J. H. Lampe, Dean of the School of Engineering stated recently.

"Many North Carolina industries have already sent representatives to our campus for the purpose of interviewing seniors for employment," Dean Lampe said, "and we are looking forward to visits from many more industrialists."

The Engineering School Dean indicated that he will be happy to arrange for such visits, giving North Carolina industry representatives the opportunity to speak to groups of students as well as to individuals. "For," he said, "it is to the economic advantage of our industries and to our State at large, to employ the engineering graduates in North Carolina."

The June graduating class is expected to include a total of 506 engineering students. Each department will graduate the following number of students: Ceramic Engineering, 20; Chemical Engineering, 39; Civil Engineering, 69; Electrical Engineering, 79; General Engineering, 6; Geological Engineering, 3; Industrial Engineering, 40 (with one additional graduate in the Furniture Option); Mechanical Engineering, 95 (with 25 additional graduates in the Aeronautical Option).

Six students will receive their M.A. degree in Diesel Engineering, a program built around exacting requirements in the field of Diesel design, Diesel power plant design, experimental Diesel engineering, and Diesel operation and maintenance.

In addition to these graduates, 129 students will receive B.S. degrees in Engineering-General. The basic preparation for this degree is that same as that for the other engineering curricula. It includes a number of carefully planned survey courses in the various specialized fields, and in addition, courses in personnel management, accounting, business and statistics. "I hope," Dean Lampe asserted, "that the graduates in this group will be of special interest to furniture manufacturers, textile mills, railroads, and operating companies."

North Carolina industries that have sent representatives to the School of Engineering thus far this year are as follows: Cannon Mills Company, Kannapolis; Duke Power Company, Charlotte; Grinnell Company, Charlotte; Heritage Furniture Incorporated, High Point; Jefferson Standard Life Insurance Company, Greensboro; Mooreville Mills, Mooresville; Metropolitan Life Insurance Company, Winston-Salem; Southern Bell Telephone and Telegraph Company, Charlotte; Western Electric Company, Winston-Salem; and Factory Mutual Engineering Division, Charlotte.

## Mumford To Speak

Wednesday, April 6, at 8:00 P.M. in Pullen Hall, Dr. Lewis Mumford will give a lecture on "The International Problems of Democracy."

Dr. Mumford comes to our campus as a visiting professor and lecturer in the recently established School of Design. This lecture is one of his series of discussions on the future of modern civilization. He is a well-known scholar and author and has lectured extensively throughout the country.

This event on our Public Lecture series comes under the sponsorship of the School of Design. There are no admission charges and the public is cordially invited to attend.

## Construction Begins Engineering Building

Construction work toward the erection of the Engineering Laboratories Building was started Monday.

The structure, which will cost \$1,245,151, will be built by the J. A. Jones Construction Company of Charlotte, recipient of the general construction contract.

Dean J. H. Lampe of the School of Engineering estimated that the building will be completed by June, 1950, and that it will be occupied by September, 1950.

When completed, the building will be one of the most modern structures of its kind in the nation. It will contain space and facilities

for the Department of Chemical Engineering, the Department of Industrial Engineering, and the Department of Engineering Research. It will also include laboratories and equipment for the use of the other departments and divisions of the college.

The administrative offices of the School of Engineering, including Dean Lampe's office, will be located in the new building. There will also be 12 class rooms and two large lecture and demonstration rooms, with seating arrangements for 150 persons in one room and 350 in the other.

In addition to other training equipment for engineering students the building will house special facilities for high frequency testing—including television, radar, and frequency modulation instruments.

Dean Lampe said that the building and its accompanying space and intricate equipment will enable State College to extend its service to a larger number of the people of the State and to offer the highest type of training for students enrolled in technology.

The three-story structure, which will relieve the congested conditions in the School of Engineering, will be in the shape of an "E" and will be of simplified brick construction. The building will be treated throughout for proper acoustics and will be illuminated by fluorescent lights.

It will be located between the college laundry and the Zoology Building in the central section of the campus and will include the present Research Building.

# Sporting Around

By HAAS

Before we get too deep into the spring sports activities, let's go back to the Southern Conference Basketball Tournament. The officiating was much better than regular season reffing. No gripe at all with any of the officials. They had some fast, rough games to call and they called them well.

It's a little late for this discussion of basketball, but this is our first issue since the tournament, and we want to get a few things into print. Our choice for the team with the most "pure old fashioned guts" is George Washington. It was a sight to see the way they came from behind after a slow start and held William and Mary through three overtime periods and won the semi-final game.

The real test for the Colonials came the last night of the tournament when they met State for the championship. It was a tight affair for three quarters of the game despite the fact that the George Washington team was out on its feet from the game with W. & M. But, when the ever-popular champs from State turned on the fore-court press late in the game, GW didn't have a prayer from there on out!

Still more about the tournament. Lots of the fans get a little sore about having to pay \$2.50 for one game on the night of the finals. All good tournays have a consolation game for third place in the conference or tournament, why not the Southern? That extra game would fill out what sometimes is a slow card. The teams that are scrapping for third place usually put up as good a fight as the main-eventers of the evening. It would make that nine buck ticket look a little easier to swallow!

Of course, there has been no definite plan to move the Southern Conference Tournament back to Raleigh now that we have the coliseum on the campus, but the thought is in the back of everyone's mind. Maybe, if, and when, students will be allowed to buy single night tickets. It is probable that not as many tickets would be sold to the prelim games if this plan is instituted, but after all, college athletics is primarily a student benefit, or is it? Many college students of the competing schools are forced to stay away from the tournament because they don't have the nine bucks to smack down for a season ticket. Let's hope that the students who make college athletics possible get a break soon!

New rules have just come out of the NCAA meeting held recently in Seattle, Washington. One of the best is the change in regard to fouls in the final minutes of the game in an effort to break up freezes. As the rule stood before the change, the team fouled got its choice of a free throw or an out-of-bounds play. Now the fouled team is allowed a free-throw and then takes the ball out for a pass-in.

Every foul called in the last two minutes of play will come under the new ruling. This is one rule that has been needed in basketball for many seasons. A team that held a one or two point margin hoped to play out the clock on a freeze. The lagging club had nothing to lose on a foul and therefore the last few minutes was more like a dog fight than a basketball game.

There is only one catch in the rule. Players and officials will not be notified of the two minute period. What good is the rule if the players don't realize that they have gone into the penalty period? Some signal should be devised to let them know that they are playing the final two minutes so that they will not unknowingly break the rule.

A balancing rule to help the team which is behind also was passed at the meeting. The team which is freezing the ball will be called if the ball is held more than five second without an attempt to pass off.

The rule will give the losing outfit a fair chance to get the ball and will also eliminate the "pants-hitching" and "hair-combing" that some of the fancy ball players have been doing during those last minute freezes. Now we can forget basketball until next season and look to the spring sports schedule.

Baseball heads the list of sporting activities this term, with track, tennis, and golf close behind. You tennis fans have finally got a place to sit comfortably and watch the home matches. Coach Seeger has worked his crew into good shape for the season. Next match is with South Carolina tomorrow afternoon on the local courts. Watch Weathers, a new man on the State team. He played here a few years back and is out again this season. Will probably give Co-Captain Art Culberston a rough ride for number one spot.

Something new in baseball is in store for State fans tonight. The Wolfpack diamond squad makes its first appearance under the lights. Technicalities at Devereaux caused the switch, which may be a good one. Gives more students a chance to see the game. Michigan is a strong contender for Big Nine honors. Should be a good game to watch. Tootsie Holding may finally get his chance to show that he is a good hurler.

Don't miss the UNC golf meet this afternoon at Carolina Country Club course. The clubmen have a 3-1 record to date and meet one of the strongest teams of the schedule when they play the University.

## Netters Get Tie In Short Game

Coach Walter Seeger's Varsity Tennis Team opened its season last Monday in Raleigh against the netters of Colgate University in an abbreviated contest which was halted by rain before the doubles matches could be completed. Going into the doubles, the contest was all tied up with Colgate and State

College each taking three singles matches. State won the second, third, and fourth single berths for their three points while Colgate took the first, fifth, and sixth.

The number one singles match was the most stirring of the afternoon. Bill Weathers, playing in the number one slot, dropped the first set 6-1 to Colgate's Frank Warren but came back strong in the second set and played Warren on even terms until the tenth game when Warren surged ahead, winning two consecutive to take the set 12-10.

## Pack Downs W&L For Initial Victory

Last Wednesday afternoon before 1,200 fans at Devereaux Meadow, Coach Vic Sorrell's State College Wolfpack chalked up their first victory of the current baseball season with a 6-3 triumph over Washington and Lee's Generals.

Led by the sharp pitching of sophomore Bob Smith and the hard hitting of Don Cheek, Hank Utley, and Jack McComas, the 'Pack displayed signs of power they lacked all last season.

Smith, who pitched for the jayvees last season, showed signs of being able to take the slack out of the all important job of pitching. He exhibited excellent control and mixed his pitches well in allowing the Generals only six hits.

Leftfielder Jack McComas became the first State player to knock out a home run when he connected for a line drive over the leftfield barrier in the fifth.

Rightfielder Don Cheek and Third Baseman Hank Utley, each with three hits in five trips, were the big guns in the State attack. McComas, the 'Pack's leading hitter last season, gathered one blow in two attempts.

The robust hitting of the State nine proved to be the downfall of the Generals. The 'Pack drove out a total of 12 safe blows with McComas' homer and Cheek's double being the feature of the attack.

Yesterday afternoon in the Meadow, the charges of Coach Sorrell showed that they have the ability to come from behind in defeating the Davidson College Wildcats 6-5.

John "Tootsie" Holding started the game for State, but in the third inning after blowing a 3-0 lead was replaced by Everette Lail. Lail, relieving with the sacks loaded, quickly put out the fire, and pitching excellent ball went on to get credit for the win.

Trailing by a 5-3 count going into the last half of the ninth inning, Coach Sorrell elected to use a pinch hitter. B. Livingston, batting for Norrell, pounded out a well hit single and H. Livingston, batting for Lail, was safe on an error. Third Baseman McLaughlin was out on a fielder's choice but a man scored on the play making the count 5-4. Bill Fowler, regarded as a dangerous man by Davidson coach Charlie Jamerson, was intentionally passed. Then Don

Cheek, lanky rightfielder, promptly broke up the ball game with a terrific wallop to leftcenter field, driving in two runs to make the final count 6-5.

# Pack Nine Plays Michigan in First Night Game

State College baseball fans are in for some history making baseball tonight when they see the Wolfpack diamond crew work under the arcs at Devereaux Meadows against Michigan State College in the week's second inter-sectional game.

The night contest, scheduled for 7:30 marks the first time in the history of baseball at State that a Red and White team has worked in an evening performance.

The Michiganders come to Raleigh from two straight contests with the Tar Heels from Carolina. In the first meeting in Chapel Hill, the Spartans kept in the game for nine innings against the Tar Heels until the game was called on account of darkness. The 5-5 tie was to have been played off Thursday afternoon.

The Spartans bring a couple of excellent hitters to the local camp tonight in Ed Sobczak, centerfielder, and Dan Urbanic, third baseman.

Star pitcher for the Michigan team is Buzz Bowers, who was forced to work the first Carolina meeting as a relief hurler. Bowers may open the pitching duties for Michigan tonight, but southpaw Wally Beggs is the likely starter.

#### Holding Due To Start

Coach Vic Sorrell will probably assign the mound tasks to Tootsie Holding, star scholastic hurler and a performer on State's team for two seasons.

#### Virginia Tech In Town

The second conference meeting for the Wolfpack comes tomorrow afternoon at "Smoky Hollow" when the Pack entertains Virginia Tech's nine. Ernie Johnson is expected to do the tossing for State.

Next Wednesday, the squad moves over to Davidson for a return contest with the Wildcats.

### Attention! Monogram Club Members

Important meeting to plan for picnic and initiation banquet Thursday, April 7. Be there!

## Baseballers Tie Cornell In Opener

BY FRANK PETTINELLI

Coach Vic Sorrell's diamond squad opened the season last Monday against Cornell University on the local diamond and held the Ithicans to a 2-2 tie before the game was called on account of rain.

After five and a half innings of good ball, the rains came, washing out the 2-2 pitching duel.

The starting pitchers, aided by darkness and drizzle splattered spit-balls past hitters all afternoon, holding the batters to a minimum of hits.

Ernie Johnson, Coach Vic Sorrell's starting nominee on the mound, looked very effective against all the New Yorkers except their short-stop, who rapped a few into the outer pastures.

State's big scoring threat came to naught when, with one down and a man on first, Bill Fowler blasted a triple off the right centerfield wall. The man on first hesitated just a bit too long and found a big fat horsehide staring him in the moniker as he slid into the meaty Cornell backstop.

Cheek, State's big first sacker then fled out to end the inning and the shooting match, as the pedestrians found the downpour too hard to fight.

## Netters Open Loop Play Against Birds

By John Lampe

Tomorrow at 2:30 the varsity netters of State College will meet their first Southern Conference opponent when they tangle with the Gamecocks of South Carolina University on the State courts.

The match with the Gamecocks will be the second of the season for the Wolfpack tennis team. The Statemen tied Colgate 3-3 Monday in the season's opener. The South Carolinians promise to give State

## Linksmen Meet Amherst Saturday

BY BILL HAAS

Back home from the golf wars in upper South Carolina, Coach Charlie Tripp's linksmen will go after some more out-of-conference meat tomorrow morning at the Carolina Country Club course.

The State club wielders are scheduled to meet Amherst College from Amherst, Mass., starting at 10:30 tomorrow morning. Little is known of the strength of the Amherst team, but since they are coming down from the cold country, the team probably hasn't had time to get into shape as yet.

Charlie Gibson and Maurice Brackett will play the one-two positions, with Bob Turnbull and George Preisinger in the 3-4 spot. The match is to be a five-man meeting, with the fifth man undecided at this writing.

Coach Tripp will take his team to High Point Monday for a match with High Point College.

#### Southern Tour Successful

The Wolfpack golfers, impressive in their fire-engine red jackets, opened the season with a 23-4 win over Davidson on Charlotte's Caro-

lina Country Club greens. Low men were Maurice Brackett and Charlie Gibson with 74's on the par 72 course.

Newberry College in Newberry, S. C., was the second victim of the Pack clubmen, as the Statemen took a 17½-½ victory. Brackett was again the low scorer with an excellent five under 67. Charlie Gibson and George Preisinger came home with one over 73's. Bob Turnbull, number three man on the team racked up a 74 for the day. State's first defeat came at the hands of a strong University of South Carolina team 15½-11½. Low score for State was carded by George Preisinger, with a 74. Low for the match was Dave Smith of the Gamecocks with a three under par 69.

One practice match with the Greenville Country Club rounded out the South Carolina trip. Brackett carded a low of 69 in the match. The feature of the afternoon was the George Preisinger - Charles Dudley meeting. Preisinger held his own against the favored Dudley and both men came home with 71 cards. Coach Tripp was very well satisfied with the trip and feels that he has a winning club. The team's average for 24 rounds on the trip was 74.5, which is an exceptionally good score for early season play.

Anyone planning to see the Amherst match had better bring a lunch, because the five man meet will probably last from 10:30 until at least 2:30 Saturday afternoon. The meet originally scheduled with UNC has been postponed until April 14th. Carolina is one of the strongest teams that State will meet this season and the match should be an excellent one to watch.

## TOWN HOUSE RESTAURANT

### Delicious Food

We Cater To Parties

Breakfast 7:00 to 9:30 a.m.

Supper 5:00 to 8:30 p.m.

Dinner 11:00 a.m. to 2:00 p.m.

Dial 3-3965

2510 Hillsboro St.

RALEIGH, N. C.

March 28, 1949

Hi, Gang,

We sure did miss you-all! Why our place was so sad and quiet it hurt.

But you're all back now and we are ready to serve you the best food in town and the best service in town, and last, but not least the lowest prices in town, bar none!

Each day, both on the cafeteria and at night via table service, we will feature three sixty cent dinners and on the cafeteria we will also feature in addition to our three sixty cent dinners, a "forty cent" hot plate! This is a special plate prepared each day for you. Hot rolls always! Good coffee always! And for your "wake up hour" a good breakfast! Try our breakfast 'cause it's the only restaurant in town where "every one" is happy! Come in and see our chef cook your breakfast in front of you! Oh yes, 'fore I forget, don't forget we do sell meal tickets—\$5.50 for \$5.00!

Bye now, and see you at breakfast!

Mary, Chuck and Buck

### E.E. Seniors Enjoy Inspection Trip

The Electrical Engineering Department of the School of Engineering enjoyed a successful senior inspection trip lasting from March 20 to 26. Eighty-two students and two faculty members made the trip.

The trip included inspection of eight plants in the New York area. The group visited the Crocker-Wheeler Company, the oldest manufacturer of electrical equipment in the country, located in Ampere, N. J. They inspected both the Lamp Division and the Meter Division of Westinghouse Electric Manufacturing Company located in Bloomfield and Newark, N. J., respectively. While in Newark, the group went to the American Transformer Company, where power transformers and audiofrequency transformers are made.

Perhaps the most historical of the plants visited, was the Consolidated Edison Company, located in Manhattan. In one of the buildings, Thomas Edison and Nickoli Tesla performed some of their original experiments. This plant has the finest example of high pressure generating stations in the world.

Visit New York  
The trip also included inspection of the Long Lines Headquarters of the American Telephone and Telegraph Company in New York City. This is the central office where all switching for broadcasting and television networks is handled. Overseas and long distance telephone equipment is housed here. Along the same line, the group visited the Federal Telecommunication Laboratories of the International Telephone and Telegraph Company in Nutley, N. J. Telephone and microwave radio equipment research is carried on in these laboratories.

Other interesting stops included the Motor Assembly Plant of the Lincoln-Mercury Division of Ford Motors, located in Metuchen, N. J., and the Broadcasting and Television Facilities of the Columbia Broadcasting System.

Instructor F. R. Willard of the Electrical Engineering Department who organized the trip, stated that its purpose was "to show the men the actual manufacturing processes

### Alumni Will Invade Campus May 6 and 7

State College's alumni will hold their annual meetings May 6 and 7 and will be entertained by a record-breaking series of campus programs and events, H. W. (Pop)

and to give them some appreciation of the practical aspects of their chosen field."

The group was broken down into two parts consisting of men taking the Power Option and men taking the Communications Option. Mr. Preston Cocke, instructor in the Electrical Engineering Department accompanied the power group, and Mr. Willard accompanied the communication group.

Taylor, executive director of the College's General Alumni Association announced recently.

The thousands of former students who are expected to return to the campus will attend athletic contests, class meetings, luncheons, and receptions, and will witness engineering displays, a livestock exposition, and the additions to the campus since last year.

Governor W. Kerr Scott, Class of 1917, will be the principal speaker at the annual alumni luncheon in Leazer Dining Hall on Saturday, May 7, at 12:30 P.M. The concluding feature of the Saturday program will be a reception at the home of Chancellor and Mrs. J. W. Harrelson from 5 to 6 P.M.

Director Taylor said that extensive plans, which include the efforts of both the students and faculty of the college, have been made

to entertain and inform the alumni. Former students from North Carolina, South Carolina, Georgia, Virginia, Tennessee, Maryland, Ohio, Kentucky, West Virginia, New York, Pennsylvania, Illinois, and the District of Columbia have already indicated their intentions of attending the gatherings.

Here's the schedule for Friday, May 6:

10 A.M. to 4 P.M. Registration—YMCA; 12 noon to 10 P.M., Hours of Inspection of the School of Engineering; 3 P.M., Basketball Game, Reds vs. Whites—Frank Thompson Gymnasium; 4:30 to 5:30 P.M., Reception—Alumni Building; 6 P.M., informal class dinners at places to be designated by the various classes; 6 P.M., "Old Timers" Dinner for the classes of 1893 to 1899 in Room A of Leazer Dining Hall; 8 P.M., Track Meet,

Wake Forest College vs. N. C. State—Riddick Stadium; and 9 P.M., informal class parties.

The schedule for Saturday, May 7:

9 A.M. to 12 noon, Registration—YMCA; 9 A.M., Tours of various schools of the college; 9 A.M. Livestock Day Program—Dairy Barn Pavilion; 10:30 A.M., Executive Committee Meeting—Alumni Building; 11:45 Meetings of all class officers—YMCA; 12:30 Annual Luncheon—Leazer Dining Hall, Governor Scott, speaker; 2 P.M., Varsity Baseball Game—Duke University vs. N. C. State, Devereux Meadow; 5 to 6 P.M., Reception—Chancellor and Mrs. Harrelson's home.

Director Taylor said that the meetings had originally been set for April 29-30, but an academic conflict caused a postponement.

**CAMPUS CAPERS LAFF 'N LEARN**

**JOHNNY DIRECTS MELVIN TOWARD A DITHYRAMBIC TRIUMPH!**

THAT'S MEL, THE CLASS POET—IN ONE OF HIS FRENETIC MOODS

IF YOU SKITTERING HENS DON'T ABSQUATULATE I'LL MACERATE YOU!

I DON'T MEAN TO EXPOSTULATE, BUT EVEN IF YOU ARE SALUTATORIAN, YOU'RE GETTING MEANER EVERY DAY

I CAN'T HELP IT—TRYING TO BEAT OUT THIS ELEUSINIAN RAPTURE AND SMOKING TILL MY THROAT FEELS RAW AND RASPY

O-O CIGARETTE HANGOVER

I CAN'T UNDERSTAND WHAT VI SEES IN SUCH A GOON!

MEL, YOU'VE GOT CIGARETTE HANGOVER YOU OWE IT TO YOURSELF TO CHANGE TO PHILIP MORRIS, THE ONE CIGARETTE PROVED DEFINITELY LESS IRRITATING!

PLEASE DO, MEL

TIME AND PHILIP MORRIS WORK WONDERS

THIS CLASS ODE IS REALLY GOING GREAT GUNS, VI, THANKS TO YOU AND JOHNNY

Come tune the string—and let us sing a clear triumphant chorus—The cigarette, the finest yet is that called Philip Morris! — WAIT THAT'S THE WRONG ODE...

BUT THE RIGHT DENOUEMENT... YOU'VE 'ODE' A LOT TO PHILIP MORRIS!

OKAY—I'LL TRY ANYTHING ONCE

THANKS TO PHILIP MORRIS YOU MEAN, MY GOOD PENTAMETRIST!

I mourn, alas! we graduate—and so incontinently shatter the finest class in any state—and that's no laughing matter

EXCELLENT, MELVIN, EXCELLENT!

HE'S MY FAVORITE POET—YOU TAKE A BOW, TOO, JOHNNY!

**Use These Words with Tongue-in-Cheek!**  
(Plan to use one every week!)

**ABSQUATULATE** (ab-squat-u-late)—To scam.

**CIGARETTE HANGOVER** (don't pronounce it, but please don't ignore it)—That stale smoked-out taste, that tight dry feeling in your throat due to smoking.

**DENOUEMENT** (day-noo-ment)—The final wind-up.

**DITHYRAMBIC** (dith-ee-ram-bik)—Ectatic.

**ELEUSINIAN** (ee-loo-sin-ee-an) — From Eleusis, where Greek orgies took place.

**EXPOSTULATE** (eks-pes-tew-late) — To remonstrate.

**FRENETIC** (fren-ett-ik)—Frenzied.

**INCONTINENTLY** (in-con-tin-ent-lee)—Without control.

**MACERATE** (mass-or-ate)—Chew up.

**PENTAMETRIST** (pen-taim-et-rist) — Devotee of pentameter, a popular poetic meter.

**SALUTATORIAN** (sal-ute-ah-tor-yan) — One who pays official tribute.

### Veterans Information

1. Leave. PL 346 veterans (G. I. Bill) will receive an automatic extension of 15 days subsistence at the end of the school year on June 10 unless it is refused at least 30 days prior to the end of the quarter by the veteran in writing. Eligibility time will be charged those who accept it. Veterans who enrolled in September had an opportunity to reject it during registration. Those who enrolled in January or March and desire to reject it may do so by writing Mr. E. C. Hemingway, Veterans Administration, Winston-Salem or by seeing E. S. Simpson, VA Training Officer, room 107, 1911 Building.

2. Dependents. Veterans desiring increased subsistence because of marriage or other increase in number of dependents should see Mr. Simpson. The increase will be effective only from the date that full proof of dependency has been supplied the VA.

3. Outside Work. Veterans with no dependents are permitted to have a total income, including subsistence, of \$210.00 per month; with 1 dependent, \$270; and, with 2 or more, \$290.

4. Veterans transferring to other schools on to on-the-job training must have supplemental certificates of eligibility from the Veterans Administration. Applications for these certificates should be filed through Mr. L. B. Rogers, Asst. Dir. of Student Personnel, in Peel Hall.

*All good stories point a moral:*

Behind our playful plot, our intentions are serious: we want you to discover for yourself the welcome DIFFERENCE in cigarettes that PHILIP MORRIS can bring you.

Established PROOF of that difference is too extensive to be detailed here—but pre-medical and chemistry students, who will be especially interested can get it in published form FREE, by writing our Research Dept., Philip Morris Co., 119 Fifth Ave., N. Y.
