Reception in Honor of the Senior Class

Dr. and Mrs. W. C. Riddick De-
lightfully Entertain the
Class of 1922

Saturday night, May 13, the home of Dr. and Mrs. Riddick was the scene of a delightful reception given in honor of the Senior Class. The home was beautifully decorated with aromatic flowers filling the atmosphere with springtime and joyfulness.

The receiving line, headed by W. N. ("Red") Hicks, representing the Y. M. C. A., Dr. and Mrs. Riddick, J. H. Norwood, president Senior Class, accompanied by Miss Eugenia Reney; A. G. Floyd, president Student Government, accompanied by Miss Sarah Boyd; R. M. Stikeleather, military, accompanied by Miss Elizabeth Gibson; F. H. Corpening, Agromeck, accompanied by Miss Eunice Bowen; H. S. Hill, Technician, accompanied by Miss Jane Staudt, welcomed the guests as they arrived.

Cheerful voices filled the air, for everyone seemed to be happy. The girls from Peace and Meredith and girls from Raleigh were gladly welcomed with the seniors to partake of the hospitable festivities.

Despite the fact that the Senior Class was the largest in the history of the college, it was evident that the 136 boys were there, and long after they have gone away from Old State there will linger in their minds the thought of the wonderful Reception at the home of Dr. and Mrs. Riddick.

SENIOR CLASS PROPHECY

Soft breezes, carrying the odor of a thousand and one flowers, fanned my fevered brow and blew me into the soft arms of Morpheus. Awakening suddenly, I arose to find that I had grown stiff and old. The beard on my face was ragged and unkempt. I was in a strange land, among strange, yet in some way familiar figures. What was I? Who are these people that I see? These questions arose in rapid succession and demanded answering. Walking up to a very learned and imposing figure, I inquired of my whereabouts. Turning to me with a look of concern on

Mechanical Engineer Seniors Entertained

Mr. Wm. T. Harding, Sr., Gives
Unique Reception in Honor
of the M. E. Seniors

Mr. Wm. T. Harding, owner and general manager of the Raleigh Iron Works Company, entertained the 22 members of the Senior Mechanical Engineering Class of State College, Friday evening, at the Bland Hotel. A four-course dinner was served. A descriptive menu card was placed at each plate, bearing a design consisting of the number "22" in each figure of which were shown pictures of eleven of the twenty-two classmen. Mr. Wm. T. Harding, Jr., presided as toastmaster. Intermingled with the courses were interesting and encouraging talks by the professors to the class. Following the dinner and on until near midnight there was a continuous expression of good fellowship as each member of the class made his farewell address to his pals and to the mechanical department. As a climax to the occasion, a one-hundred-dollar cash prize, offered at the beginning of the year by Mr. Harding, was awarded to Mr. C. O. Butler, of Wilmington, as the winner in a close and hard-run race. The rules of this competition required a successful graduation, in which scholarship counted as 25 per cent, personality 35 per cent, commonsense 25 per cent, general knowledge in mechanical engineering 15 per cent. Before adjourning, Mr. Wm. T. Harding, Jr., of Raleigh, was elected permanent president and Mr. R. M. Stikeleather, of Taylorsville, permanent secretary of the class, and were instructed to prepare for a reunion in 1927.

The guests were: Professors L. L. Vaughn, W. J. Danna, J. M. Foster, C. B. Park, E. L. Cloyd, D. B. Worth and G. B. Price, with members of the class, B. A. Brackett, C. O. Butler, C. A. Cilley, F. H. Corpening, W. O. Crary, P. K. Ewell, G. P. Floyd, J. E. Fortescue, W. F. Graham, A. C. Hamrick, W. T. Harding, Jr., W. N. Hicks, H. J. Kinard, O. C. McKinne, K. S. Nissen, R. W. Olive, D. D. Overton, H. M. Shaw, R. Van Sisk, R. M. Stikeleather, W. A. Stillwell, R. W. Williams.

EDITORIAL

The commencement season is upon us and more. The Technician takes this opportunity of wishing for all our friends and alumni the happiest time ever.

We are very fortunate, indeed to secure Aaron Sapiro as commencement speaker. Mr. Sapiro has been in demand as a speaker in almost every section of the country for the past two years and no one can afford to miss his address.

The 1922 Agromecks have come, and credit is due to the editor and his staff for the splendid book. It is the best Agromeck that has been put out at State College, and we are proud of our annual.

It was only two or three weeks ago that we turned the paper over to the new staff with a long breath of relief, and it goes without saying that we were as well pleased as anyone with the last issue published under their direction. It savors of good things for next year. But as the time approached for publishing the last issue our editor-elect and his fellow members of the staff have allowed their fancies to lightly turn to thoughts of love of calculus and other equally enticing subjects of this lovely examination season. Having become absorbed with such trivial matters, they considered themselves in no frame of mind to enter upon the more serious matter of getting out a Technician. Thus it is that the task has fallen to the careworn staff of '22. We offer our apologies for assuming the task, but the new staff is largely responsible in getting us to do this. In the rush of the season we are going to get out such an issue as we can, and we feel sure that the '23s will at once see the error of their ways.

Senior Class History

At last we have reached the plateau of our college career. Here we have found heavy duty and great responsibility. We have worked, we have suffered hardships and disappointments in making the ascent. We have fallen, but each time to rise again. Many have been the difficulties and obstacles surmounted, many are the scars and sacrifices, but we are better men for having made the climb.

Now, as we pause for breath on this elevated tract and look around about us, we are happy and hopeful. From this position we see clearly the path of our climb. It is wonderfully short, but steep and dangerous in places. It is obvious that we could never have made the ascent alone. We will never be able to express our thanks and appreciation to those who guided us safely.

There is each footprint, clear cut and deep. There is every mistake, every

(Continued on page 7.)

THE TECHNICIAN STAFF OF '22

COACH HARRY HARTSELL

In Coach Harry Hartsell we have portrayed all of those fine qualities of leadership, athletic powers, pep and enthusiasm which make up a strong athlete or a successful coach. His record while in college and as coach is sufficient proof of his ability as an athletic director.

He came from Asheville, N. C., in the fall of 1908, and registered at State College in electrical engineering. Four years later he graduated with a B.E. degree.

During his four years here he kept up all his academic requirements, and at the same time was a four-letter man in football, baseball, basketball, and track.

After graduating in 1912, he assumed a responsible position in civilian life; but in 1916, when the football team was in a demoralized condition and in need of an efficient leader, he returned to State, and the following year won the state championship in football. He remained as coach until called into the service.

In 1921 he returned the second time and took charge of the baseball team. He soon had a strong, fighting team which was hard to beat. In the fall of '21 he again won the state championship in football.

It is impossible to give too much credit to Coach Hartsell for the splendid services that he has rendered to Alma Mater as coach at this institution. His interest and attention to each member of the team, his patience and pleasant nature, have won for him the admiration of not only the players, but of every man in the student body. His love and affection for Alma Mater is great, but greater is the love of State College for her splendid coach and loyal son.

RANGE OF ENGINEERING

The College of Engineering offers four four-year courses leading to the B.E. degree. In all of the courses the fundamental work in mathematics and physics is the same, but as the student progresses he takes up more advanced work in the sciences and applications peculiar to the fields of work of the civil, electrical, mechanical or textile engineer, thus giving the student a specialized training in the work or profession which he has decided upon.

It is the purpose of the College of Engineering to give the student as broad a training in general subjects as possible, and at the same time to give him practical experience in the laboratories and shops in applying the scientific principles which he has learned in the class room, thus graduating men who have some idea and appreciation of the value of practical training and of the relation between theory and practice.

New buildings are being erected and especially equipped for engineering practice, so that the college can take care of the ever-increasing number of engineering students.

State College has contributed in a great part to the industrial and economic development of the state, and the indications are that in the future she will occupy an even more important place in the broad field of service to the state and nation.

WANTED—A street car with all modern conveniences. See "Sloppy" Pasour.

WANTED—A lease on some glass factory. See Pegram.

WANTED—A gasless Ford. "Spec" Starr.

WANTED—To know the time required to walk from Zebulon to Raleigh. Ask "Simon Taylor."

REPORT OF THE GENERAL SECRETARY

of the

N. C. State College Y. M. C. A. From
January 1, 1922, to May 9, 1922

Bible Study

By far the most important work of the association this term has been that of Bible Study. Prof. C. M. Heck has continued his course in the "Life of Christ," and Dr. J. B. DeRieux has continued his course in "Teacher Training." In addition to these, thirty-four student-led groups have been conducted. These groups have met right in the dormitory sections. These student leaders have been coached by Dr. J. A. Ellis, pastor of Pullen Memorial Baptist Church. The course used was Dr. Weatherford's "Introducing Men to Christ."

On Sunday night, May 2d, a supper was served to all the men in the classes who had a record of 100 per cent attendance, the Bible Study ead-cent attendance, the Bible Study lead-281 of the 100 per cent men. The supper was served by members of the College Woman's Club.

There were fourteen out of the thirty-six classes conducted that has a perfect record of attendance. To each member of these fourteen classes a watch fob, bearing the association emblem, was presented. Col. Fred A. Olds made the speech of presentation.

As an expression of appreciation to Dr. J. A. Ellis, for his services in leading the normal class, the 281 100 per cent men and the leaders presented him with a check to defray his expenses in attending the Southern Student Conference at Blue Ridge, N. C., this summer.

Evangelistic Campaign

Dr. W. D. Weatherford, of Nashville, Tenn., was with us for three days in January, to deliver a series of four evangelistic addresses. These addresses were forceful and convincing and well adapted to meet the needs of college men. At the close of the third address, forty-six men signed cards, indicating their purpose to live the Christian life. Most of these men were afterward enrolled in Bible Study. A number joined the Promotion Force and Friendship Council, the working forces of the Y. M. C. A. A few of these men were not members of churches. These men were referred to the pastors of the churches of their choice.

Needed Equipment

Through the influence of Mrs. W. C. Riddick, the trustees of the college appropriated \$200 with which to buy a set of dishes bearing the monogram of the association and the college. These dishes were received in February. The design is very pretty and the china is of the best quality.

Luncheons can now be served to one hundred or more people.

Eight Old Hickory rockers have been bought for the front porch.

A new typewriter has been bought to replace the old one, which was worn out by ten years of hard service, and a mimeograph machine has been added to the equipment.

The swimming pool has been put in good condition at a cost of \$40.

Contributions

For the relief of the suffering students in central Europe, \$133 has been raised by voluntary contribution. For the extension of the Y. M. C. A. among the students of the orient, \$112 in contribution has been raised.

Finances

There are sufficient funds on hand to meet all obligations for the year, and to leave a small balance in the treasury to begin work on next fall. The books will be audited and a detailed report published in September.

Blue Ridge Conference

The Blue Ridge delegation this year will be the largest that has ever gone from State College. At least fifteen men will go, and the prospects are that at least three more will be added to the list.

Next Year

The officers for next year have been elected and the chairman of committees chosen. These men are representative college men and genuinely Christian. The work of the association will be safe in their hands.

About fifteen members of the Promotion Force will graduate this year. There are, however, 41 men who have been trained in the Freshman Friendship Council who will take their places.

P. T. Dixon has been chosen to head up the work for new students. He and his committee will keep in touch with the prospective students during the summer. When they arrive in Raleigh, there will be a committee to meet them at the train and direct them to the college.

An Information Bureau will be maintained in Holladay Hall. This committee will do all in its power to show a friendly spirit to the new men and help them to get started right.

All new men will be given a chance and urged to take an active part in the work of the Y. M. C. A., and especially in the work of the Friendship Council.

Respectfully submitted,

E. S. KING, Secretary.

WANTED—The latest news about everything. See Charlie Barbour.

WANTED—A yard of skirmish line. See Freshman Maxwell.

WANTED—To know who borrowed my socks. See Bonnie Norris.

WANTED—To sell a half interest in the campus. See George Parker.

SENIOR CLASS PROPHECY

(Continued from page 1.)

his face, he said, "You are in the land of 'yesterday,' and the people you see are your former classmates." I was astounded! Could it be the old Class of '22? The class that brought fame to her Alma Mater, N. C. State? But it was! Slowly the dim figures grew plainer, and standing before me was none other than Bill Townsend. With a judicial look and appearance, he was turning the pages of a huge brass-bound book. Looking more closely, I saw that this was the "Director of Men." I asked my old friend and classmate if I might peep into this book and he kindly consented.

The first name that I saw in this book was none other than the keeper of the book himself—F. A. Townsend, mayor of Ninety-Six, director of the home-town bank, and owner of the one cotton mill.

I turned another page, and before me was the name of E. O. Clarkson, my old roommate, president of the Eureka Motorcycle Company of Kolum, S. C.

Turning page by page, I saw the names of all my former classmates. "Sergeant" Blakeney, instructor in dyeing and coach of track at old N. C. State.

"Tom" Alexander, king and lone survivor of the famous Spot Derider. "Sug" Laughlin, proprietor of Madame Lofto's beauty parlors.

"Shorty" Bailes, the towering six-foot manager of Cotto Mills, Inc.

"Red" Kennette, professor of carding and spinning at N. C. State.

"Bill" Steele, clothing merchant in one of North Carolina's leading cities.

Ralph Wilson, the father of thirteen children manufacturer of Wilson's Mills, N. C.

P. K. Chu, dictator and manufacturing expert of all China.

Bruce Conner is chief highway engineer of Northampton County.

"Skeeter" Deal, chief of the U. S. Board of Inquiries.

Earl Betts, leading laundryman of New York City.

R. L. Davis, prominent farmer and planter.

Charlie Barker, politician and orator. High mogul of cooperative marketing.

Tau Shen Foo, chief dye chemist of the Chinese Consolidated Mills.

"Pick" Pickens, president of the Como Commission Co., New York City.

"Al" Sears, professor of social dancing, "ladies a specialty."

Ralph Farrel, king of the cotton brokers, money master and politician.

"Bud" Johnston, proprietor of the Hickory Feed Sales Company.

"Cal" Harris, multimillionaire sport follower.

"Charlie Reisner, "Who's Who and Why" in mill circles.

"Mack" McLaughlin, author of "Cards and Their Uses."

Jen, designer for Jen Foo Chu Mills, Peking, China.

B. A. Brackett, now engaged in calling stations on an ocean liner. He has finally landed a position where he can exercise his vocal organs sufficiently.

C. O. Butler, when last heard of was buying and selling old automobiles.

C. A. Cilley—his modest manners won for him a position as ladies "hose fitter" in the Hickory Hosiery Mills.

F. H. Corpening, professor of dancing at Martha Washington Seminary, while working in the Bureau of Standard, Washington, D. C.

W. O. Crary, builder and contractor. Office, 111 Patton Avenue; residence, 131 South Liberty, Asheville, N. C.

P. K. Ewell & Co., manufacturers of E-Z Push baby carriages, cradles and all family necessities.

G. P. Floyd, author of "Calculus Made Easy."

J. E. Fortescue, after searching for a job requiring mechanical skill, finally accepted a position as operator of a sewing machine in a ladies' furnishing department.

W. F. Graham. All latest dances taught by mail. Learn at home. Take lessons from a man who has had the experience.

A. C. Hamrick, now employed with the Ford Motor Company, Detroit. (He is assistant chauffeur of the manager's wife.)

R. W. Olive is now president of Rylan-Thompson co-educational institution.

D. D. Overton, operator of the Mormon Interurban Raleigh-Apex Taxi Line.

H. M. Shaw, dealer in cork legs for unfortunate professors, also author of "Four Years in Raleigh Society."

R. D. Sisk, after working with Western Electric Company for several years, invented an automatic machine for capping whiskey bottles.

R. M. Stikeleather, after teaching in a blind institution for several years, is now working on a thesis entitled, "Rosy Cheeks An Essential in Successful Vamping."

W. A. Stillwell was last seen on the Raleigh-Durham highway selling hair tonic for blondes.

B. W. Williams, after ten years'

service with the Southern Cotton Oil Company, has retired at "Sunshine Cottage," Lillington, N. C.

W. T. Harding, Jr. Through the influence of his wife, "Tubby" finally decided to take up the ministry as his profession.

W. N. Hicks is now secretary of the Pineville "Y." During his spare time he is trying to discover "why men walk in their sleep."

H. J. Kinard, Ninety-Six, S. C. Truck farmer and district recruiting officer for the army.

O. C. McKinnie, chief engineer on the "Dump-and-Jar-You Railroad."

K. S. Nissen & Sons, manufacturers of "Perfecto" balanced class-room chairs.

E. D. Barr, union farmer in Kentucky.

C. D. Buchanan is general manager of a large electrical railroad in southern Spain.

D. L. Cannon and R. F. Matthews are captain and first mate, respectively, in the Merchant Marine, on the good ship "Hardship."

W. O. Powell has recently purchased the largest ladies' boot shop in Portsmouth, Va.

D. R. Wright was recently elected president of the Bachelor's Union of America.

F. T. Vance is now president of a large company manufacturing skyscrapers.

H. B. Robinson is now professor of mathematics at Columbia, where he went after graduating at State.

C. F. Churchill, having graduated at Boston Tech, is now a consulting engineer in New York.

E. E. Inscow is now manager of one of the largest wireless telephone companies in the world.

W. D. Hampton, having grown tired of the electrical profession, has opened a kindergarten.

J. T. Alderman, after performing wonders in the electrical world, has now gone back to his violin. He is now touring Europe.

T. F. Stradley, the champion featherweight boxer at State, is now after the world title.

O. L. Bradshaw is now president of one of the largest banks in Lenoir, and it is rumored that he is the next candidate for mayor.

J. W. Moore recently broke the world record on the auto track.

W. W. Starr has bought controlling interest in the company's racer and is going to enter the next cross-country race.

W. H. Browne III is now commander-in-chief of the N. C. National Guard.

J. B. Mabry, having won fame as a speed demon at State, is entering the cross-country race at the Olympic games this year.

R. L. Townsend is now professor of electrical engineering at Cornell.

H. S. Hill has recently accepted the presidency of the largest direct-current transformer company in the world.

H. H. Bangs is president of the Littleton Power & Light Company.

E. W. Ruggles has been located in Greensboro since graduating. He is installing "moonlights" in girls' colleges.

J. F. Ervin has recently moved to New York and opened a dancing school, teaching all the latest steps.

G. T. Parker, Jr., entered the army soon after graduating and is now a

battalion adjutant in the engineers. "Shorty" Barnes is in the soap-box manufacturing business.

"Buck" Blue is married and in the real estate business at Fairmont, N. C.

George Cherry is city manager of Windsor and sells clothes as a side line.

"Country" Clark is mayor of Ansonville. He is known as the "Pride of Anson."

(Continued on page 5.)

An upper classman interested in selling pennants and college novelties for the remainder of this year and for next session, write M. W. H., 618 N. Elm St., Greensboro, N. C., and give references.

SENIOR CLASS PROPHECY

(Continued on page 4.)

"Peter" Freeman is married and is living on his wife's income.

"Johnnie" Gill, still a bachelor, is making his seventeenth trip around the world.

"Pip" Harris is teaching dancing at Elon College.

Henry Ivey is a prosperous business man, still "socialing."

D. B. Jenkins is city manager of Greenville.

"Sam" Lemmond is a prosperous famer in the foothills of North Carolina.

"Preacher" Lancaster is now a millionaire. He has just discovered a new hair tonic.

"Shorty" LeGwin is married at last and is assistant engineer on the A. C. L. Railroad.

"Susie" Mong is the ambassador to China.

T. G. Mondy is representative from Haywood County in the General Assembly.

W. C. McKoy is a consulting engineer in Utah.

Hugh Norwood is head coach of athletics at Oak Ridge Institute.

"Nat" Pierson is in the "non-breakable" glass manufacturing business.

"Tom" Roberts is in the manufacturing business at Montgomery, Ala.

E. G. Singletary is in South America in the engineering field.

Carl Taylor is director of the celebrated "Taylor Band."

"Dick" Turner is county surveyor of Yadkin County.

T. S. Williams is in the engineering business with his son at Fayetteville.

A. M. Worth is teaching mathematics at his Alma Mater, and is also the director of the children's playgrounds at Raleigh.

"Charlie" Wilson is singing bass in the world-renowned quartet known as the "Wilson Singers."

L. W. Groome, director of the organic laboratory of the Fixit Chemical Company.

S. F. Mauney, Dec. 27, 1927. Old Forty, N. C. Convicted of running a "moonshine" still near Old Fort. He is now serving a sentence at the Federal prison.

C. F. Paxton. It was rumored that he lived for three hours in an atmosphere of chlorine gas, but his present address is unknown.

G. S. Arthur is now teaching chemistry and coaching baseball at Goldsboro high school.

R. L. Mills, although a graduate in chemistry, is still operating on cats and lame mice.

W. L. Adams, president of the Boll Weevil Club for teaching etiquette to boll weevils.

W. F. Armstrong editor of Young Men's Fancy magazine.

V. L. Ashworth, traveling secretary for the Old Maids' Relief Society.

G. L. Booker, official organizer of the Hobo's Union.

T. F. Beamer, experimental chemist for R. J. Reynolds, to make better chewing tobacco.

A. P. Cates, ambassador to Porto Rico.

J. D. Groome, experimental psychologist to determine easier ways of studying.

Q. E. Colvard, instructor in etiquette at Shaw.

L. R. Harrill, professor of argumentation at Harvard.

H. D. Green, ambassador to Brazil.

J. F. Johnson, breeder of pedigreed giraffes.

C. A. Jackson, plant pathologist.

R. M. Kinzey, entertainer of guests at the Waldorf Castoria Hotel, New York City.

J. A. Glazener, professor of extensive and intensive conversation at Columbia.

N. B. Chestnutt, editor of Breezy Stories.

W. B. Liles, chief of police at Lillesville, N. C.

H. R. Madry, consul to Northern Siberia.

E. J. Morgan, professor of applied affection at N. C. College.

W. T. Midyette, fairy dressmaker.

J. A. McIntyre, humorist lecturer for old maids and bachelors.

F. G. Elliott, coach and trainer of Berkshire hogs for speed.

A. G. Floyd, doctor of athletics at Mossville Cotton Mills.

P. L. Moore, superintendent of agricultural experiment station in Algeria.

W. M. Monroe, professor of serious thought at Chicago University.

J. G. Olive, leading politician and statesman of Apex, and deputy sheriff of the town.

E. D. Pasour, mechanical experimenter for the Seaboard Railroad, to devise pleasanter accommodations on the trains.

C. W. Pegram, manager of social engagements at Peace Institute.

D. M. Farmer, grower of pure hayseeds on the islands of Spitzbergen.

E. C. Tatum, caddy for professional female golfers.

C. M. White, representative of the Jersey Cattle Club in Acquitania.

H. L. Whitsell, society and club reformer in New York.

G. L. Winchester, official solicitor of subscriptions to the Police Gazette.

H. E. McComb, professor of etiquette at the University of Illinois.

F. B. Meacham, salesman of apples to little children and women only.

J. C. Foscue, manufacturer of a "grow-tall" tonic.

R. E. Dunning, chicken and sparrow raiser.

J. F. McLeod, peach grower and community singer.

A. H. Veazey, county demonstration agent and community uplifter.

As I read this last name, faces and figures began fading in the distance. The book grew dimmer and dimmer, fainter and fainter. Suddenly awakening with a start I found the old mule where I had left her, quietly grazing, unaware of his master's travels.

W. W. CANTRELL.

Handbook

The Student Government Council and the Y. M. C. A., jointly, will publish a Handbook to be given to each student when he registers. This book will contain much information which new students need, and full write-ups of the Athletic Association, Student Government, Court of Customs, and the Y. M. C. A., and a directory of all student organizations. Such a handbook has long been needed at State College. It will be of special benefit to new students, but it will be of use to all.

Raleigh, N. C.

The commutation of uniforms, amounting to \$30.00, which the advanced R. O. T. C. students will be paid in the future is a decided advantage to the student. If he ever cares to avail himself of the summer training offered Reserve officers after graduation, he will have a decent uniform to wear. The uniform decided upon by the new cadet officers is a stylish looking whipcord with a serge cap. The actual cost to the student will be small, since the government pays \$30.00 toward the uniform. All R. O. T. C. students will have to buy standard shoes, as they did this year, so the cost of shoes should be considered as a necessary rather than an additional expense.

* * *

All sophomores who expect to take the advanced course next year should stand the physical examination given by the college physician, Dr. Campbell, at the infirmary, and then be measured for their uniforms before they leave college this year.

* * *

The summer camp for the "1923" class this year will be held at Camp McClellan, Anniston, Alabama, about 100 miles south of Atlanta. The Seaboard has arranged for a "N. C. State Special" to leave Raleigh on the afternoon of June 14. All boys who live near Raleigh would do well to arrange to join the gang here and go down together. There will be a four-hour stop in Atlanta to see the village, and Pullman accommodations all the way.

SENIORS ACCEPT COMMISSIONS IN OFFICERS RESERVE CORPS

The following members of the Senior Class have accepted commissions in the Officers' Reserve Corps of the United States Army:

William Franklin Armstrong, Thomas Watkins Alexander, Vernon Leith Ashworth, Charles Raine Barber, Gerald Thomas Barnes, Terry Fulton Beamer, Earl Ray Betts, Garnett Lee Booker, Olin Link Bradshaw, William Hand Browne III, Clyde Davis Buchanan, Charles Ormande Butler, Doyle Leroy Cannon, William Walker Cantrell, George Bryan Cherry, Norwood Bennett Chesnutt, Edwin Osborne Clarkson, Quincy Ethan Colvard, Averette Gaston Floyd, Alva Justin Floyd, Giles Pittman Floyd, William Franklin Graham, Luther Wilson Greene, Alexander Caswell Hamrick, Henry Selby Hill, James Oscar Holt, Donald Burton Jenkins, John Frank Johnson, Heath Owen Kennette, Paul Frederick Lancaster, Lewis Burleyson Laughlin, Leonidas Rosser LeGwin, Hiram Samuel Lemmond, Sidney Franklin Mauney, Thomas Gilbert Moody, Paul Lyman Moses, Koyt Samuel Nissen, Earl Deaton Pasour, Charles Fisher Paxton, Nathaniel Dunn Pierson, Calvin Winchester Pegram, Wesley Irwin Pickens, Watson Odean Powell, Charles Franklin Reisner, Edward Wolfe Ruggles, Henry Marchand Shaw, Jr., Emory Gordon Singletary, William Weaver Singletary, William Alexander Stillwell, Jr., Robert McIntosh Stikeleather, Thomas Francis Stradley, Alexander Holloway Veazey, Henry Harward Weaver, Albert Macon Worth, David Ralph Wright.

In case of an emergency these men may be called into active service with rank of second lieutenant or higher.

CLASS SONG

(First verse and chorus.—To tune of "A Long, Long Trail.")

Days are growing very lonely,
Nights are very long,
We are growing wearily only,
For we'll soon be gone.
Old remembrances are thronging
Through our memory,
Till it seems as if our hearts would break

Just to think of leaving thee.

Chorus:

It is hard for us to leave here,
But guess that we'd better go;
For the world is calling to us
That she needs us so.
But for us you need have no fear,
We'll do you credit anywhere,
In any land, in any clime,
In either hemisphere.

Willie: "Paw, what is the difference between capital and labor?"

Paw: "Well, the money you lend represents capital, and getting it back represents labor, my son."—Cincinnati Enquirer.

"Sis" Hedgepeth was awarded the beautiful vanity case offered as a prize for the best embroidery at a recent meeting of the State College sewing circle. "Sis" Fortesque ran "Sis" Hedgepeth a close second, winning a pair of beautiful pearl earrings. He will be expected to wear these at the finals. "Sis" Hedgepeth was elected president for the coming year.

SENIOR CLASS HISTORY

(Continued from page 2.)

wrong choice of pathway, every act—not things soon to be forgotten, but altogether they form a blazed route that will influence those who come after us.

It was September, 1918, that we began our career as freshmen at North Carolina State College. In a sense this is to us the date of the beginning of the world. The fall term of this year was one full to the brim with action and events. Military restrictions, wartime measures, and the terrible epidemic of influenza were the greatest and gravest of our experiences. On account of these conditions we learned but little of what it really meant to be a first-year college man. But with the spring term came brighter days and a host of varie surprises. There came an end to the strict military regime. This gave us hope, and we looked forward eagerly for freedom, serenity, and plain sailing—but, lo! the sophomores had an idea that sailing was obsolete—they believed most conscientiously that the proper method of propulsion was by paddling. Never will we forget the stiffness and formality of our first military experience, nor the shocks given our feelings and anatomy by the sophomores. But these will be cherished among the richest and dearest memories of our college days.

There is in every man's life the sophomore stage, and most especially is this true of the college man. With the beginning of our second year's work we naturally reached that stage of freedom and power that words cannot picture. At this stage the entire college was ours. The world and humanity seemed so small and insignificant; the freshman was to us so absolutely green and backward. We hate now to admit this, but it was true, and will always be the experience in a varying degree of college men. Under the power of this dominating influence of the sophomore stage we committed unfair deeds that brought on complications; but now, to our satisfaction, this brought about the beginning of the end of the crude form of hazing that had predominated in our institution for many years. Sophomores will always be sophomores, but we are proud to know and are glad that we did our part towards placing the sophomore spirit of State College on a higher and cleaner level.

There is a third stage in our development. Here we began to realize the seriousness of our task, to realize the part that the blessing and privilege of a college was to play in making us men. We began to assume college responsibilities; we began to realize the greatness of our institution. In each man's heart there began to predominate a desire to do something that would help make State a greater and better State.

We have been privileged to see marvelous steps of advancement and growth in our dear institution. It has been our privilege to help and to see student government established—one of the great factors which is so necessary and which will do so much for our college in the future. We have seen a new spirit grow up and predominate the life and purpose of our student body. The Class of 1922 has a four-square record; from the start to the finish we have held a foremost place in athletics, in scholarship, in moral and spiritual endeavor. Looking forward and upward, we are able to see but dimly into the future that looms with a great challenge on our horizon. Through the mist we know the sun is shining above. Our hope and purpose is to climb up and up until at last we will get above the haze, there to find life with all its beauties and joys.

Our college and college community have moulded our lives to the extent that they can never be made over again. No one can fully realize our feeling as we leave the institution, as we leave the home that has been ours for so long. From this time the responsibility of life is upon us. But with the direction pointed out, with the worth-while goals shown us, the task should be easier. As we go out we carry a heart full of pride and love for North Carolina State. Our hope is that State College is a better place for our having spent four year here.

W. N. HICKS, Historian.

Senior Class Poem

The world was mad with war and strife when first we entered here.
Our task begun, there was lots to be done, and sure we got our share.
'Twas drill and regulations strict, with guard-post night and day,
And a wave of influenza came to darken our way.

But, lo! There came a brighter day when war was cast aside,
Which brought new life in every way with a real true college stride.
With this new life we labored on to reach our goal sublime,
And footsteps clear, we've left each year, as upward we did climb.

With friendships made, each tried and true, we've labored hand in hand,
Till now, old pals, it's really true, we've reached our promised land.
With retrospective thoughts let's pause and look back o'er our days,
When this plateau to us below appeared in mystic haze.

Through four long years of college life we've tried to wield and wrest
A place for you, dear N. C. State, among the very best.
Each day of toil, each night of rest, it's been our desire
To help along with word or song, and place Old State up higher.

But, lo! My friends, we soon will part, to go we know not where,
Yet we are richer now by far than when we entered here.
And though we roam o'er land or sea, we'll do our very best;
We'll pledge our all, though large or small, for a better N. C. S.

LOVERS' LANE, ON THE CAMPUS

GAME

The grandstand at Asylum Park
was filled. All the nuts were out and
became "bugs" when the umpire
called "Play ball." Cigar was in the
box and had plenty of smoke. Small-
pox was catching. Horn was playing
first base and Fiddle second. Mo-
lasses was sticking at third. Long
was playing short and Spider, Corn
and Grass were in the field. Apple
started to umpire but was rotten.

Ax came to bat and chopped a sin-
gle past second. Song made a hit.
Balloon went in to pitch but went up
in the air. Knife was put out for cut-
ting first base. Sawdust walked and
filled the bags. Cake walked; J. Cab-
bage had a good head and John Drew
a pass. Boiler went in to pitch and
had the steam. Hornet stung the
ball, but Spider caught the fly. Sun
came up. Organ refused to play,
when Crook stole home. Corn was
canned. Right now playing left.
Wind came up and blew. Hammer
began to knock. Ice kept cool until

he was cracked with a pitched ball,
and then Ice Cream-ed. Grass was
covering a lot of ground. Meat hit a
sizzling triple, but was out at the
plate. Everybody kicked when Light
was put out. Bread went to umpire
but wasn't kneaded. Peanut was
roasted through the whole game.
Measles broke into the game in the
ninth and the game was called when
the trees began to leave. Door said
that if he had pitched the whole game
he would have to shut them all out.
There was some betting on the game
and Soap made a clean-up. Egg said,
"Can you beat it?"—Ex.

A farmer's son came home looking
as if he had been through a tornado.
His father inquired the cause. The
son replied:

"It's that darn correspondence
school again. I got a letter from the
sophomores telling me to haze my-
self."—Grit.

WANTED—Something for my
complexion. "Crum Mabry."
