COLISEUM OPENS TODAY

Wolfpack Cagers Meet Washington & Lee

Big Rush To Open

By LLOYD V. CAPPS
This is it! State Wolfpack opens its 1949-50 basketball season Friday, December 2, at the gigantic new William Neal Reynolds Coliseum against Washington and Lee. The Coliseum is finally near completion after a delay of eight years. The huge indoor arena was previously designed by Ross Shumaker, official State architect, in 1940, and at that time it was planned for the building to cost \$541,000, seat 10,000 and open in September, 1942. The war stopped construction, and it was 1948, before the building actually was started again.

Very Cooperative
Athletic Director Roy Clogston said that the authorities and employees in charge have been unusually cooperative in helping get the coliseum ready for the first game. "The building isn't complete yet. It will probably be sometime in January before the inside is in perfect condition, and the grounds will definitely not be in shape until June," Clogston asserted. "However, the contractors have agreed to allow the game to go on as scheduled," he asserted.

Although the property is insured, spectators are requested not to damage the coliseum in any manner. The building will not officially be turned over to the college until sometime next month.

Anticipating that the Coliseum might not be ready, Clogston had rented the Memorial Auditorium for the first three games. "Over 2,000 advance season tickets had been sold, and the auditorium seats approximately 3,500," Clogston said. "Heaven knows what would have happened if the arena couldn't be ready. Under these conditions, students would not be permitted to see the first few games," he pointed out.

Long Wait
"This is the opportunity I have been waiting for nearly four years," Coach Everette Case declared. "I had no idea we would have to wait this long. But after seeing how beautiful and efficient the Coliseum is, I have decided that the delay was well worthwhile," Case said.

Dick Dickey, Warren Cartier, Joe Harand and Charlie Stine are the players left who originally came with Coach Case to State in 1946. All are expected to see action Friday night.

"At least 10,000 are expected to attend the game," W. Z. Betts, Manager of the Coliseum, reported. "All of the seats will not be in."

(Continued on page 8)

Coliseum To Be Ready Tonight

Shown above is the interior of the William Neal Reynolds Coliseum as it looked Monday night just after the portable court was laid. Work has been rushed on the Coliseum for the past few weeks in order that the building will be ready to accommodate the large crowd

that is expected at the arena tonight to see the Wolfpack open their cage season against Washington and Lee's Generals. The freshmen will play a preliminary game with Louisburg. (Staff photo by James Haywood.)

Big Crowd Expected For Opening Game

By JACK BOWERS
The 1949-50 edition of the Wolfpack basketballers will be unveiled tonight when Coach Everette Case's lads tangle with the Washington and Lee Generals in the first game to be held in the new William Neal Reynolds Coliseum. The 2½ million dollar structure, which holds 12,000 fans, will enable the entire State student body to see the Pack perform at every one of this year's home games.

Dark Horses
W&L's Generals have been established as the dark-horse of the Southern Conference. Led by the high-scoring duo of Sophomore Jay Handlan, who dumped in 370 points as a GI freshman last year, and Bob Goldsmith, the bounding center who tallied 332 points, the Virginians are optimistically hoping for their best team in over a decade.

Industrial Manager To Address Engineers

Karl B. McEachron, Jr., manager of Technical Education Division of General Electric will address the engineering juniors and seniors at 11:10 today in Pullen Hall at State College. All other students and outsiders are invited to attend.

His subject will deal with education and its relationship to industry. A graduate of Purdue in Electrical Engineering with the class of 1937, Karl McEachron, Jr., has worked with General Electric since then. His father has been with General Electric since 1922 and has made numerous advancements in the field of lightning.

Ohio Native
Karl McEachron, Jr., was born in 1915 at Ada, Ohio, where his father was a professor of Electrical Engineering at Ohio Northern University. The family moved to Pittsfield, Mass., in 1922, and Karl attended grade school and high school there, graduating as valedictorian.

After graduating from Purdue, he started his career with General Electric on Transformer Testing. In the fall of 1937 he was selected for the "AV" Class of the Advanced Engineering Program. After three years he graduated from the class and supervised it the following year.

Program Leader
In 1942 he was placed in charge of the Advanced Engineering Program as assistant to the late Dr. A. R. Stevenson, Jr. He was placed in charge of Educational Activities for the Chemical Department in 1946. Then in October, 1948, he was named to the present position as Manager of Technical Division of the Executive Department at Schenectady.

He is a member of Eta Kappa Nu, Tau Beta Pi, Sigma Xi, AIEE, ASME, and ASEE. Numerous articles have been authored by Karl McEachron dealing with industry's responsibilities in the educational field. He is married and has three children.

Final Edition
This edition will be the last TECHNICIAN for the fall term. The next TECHNICIAN will appear the first Friday of next term.

Handlan was an All-State performer last season, and Goldsmith was a member of that mythical quintet at the close of the 1947-48 campaign. Coach Con Davis calls Handlan "as fine a shot as I've ever seen."

Two more regulars from last year's quintet are back. They are guard Joe Auer, a senior from Rich Creek, Va., who scored 164 points, and Charlie Compton, senior forward from Ashland, Va., who had 179 points to his credit. Auer's speed is a welcome factor in the fast break employed by Davis, and the rebounding ability of Compton was a highlight of last season.

The other letterman returning are all guards. Steve Ulaki, Jim Fahy, Don Ferguson, and George Pierson are available for duty.

Last year's freshman squad which took 12 of 13 tilts, contributes 6'4" Dave Hodge, 6'1" Charles Grove, and 6'4" Talbot Trammell. Hodge is considered the best prospect of the three.

Pack Loaded
Despite the loss of four men from the 1949 squad, Coach Case has his one-two scoring punch back on hand in the presence of All-Southern Forward Sam Ranzino and Dick Dickey. Behind these two, Case has five other experienced lettermen, Centers Paul Horvath and Warren Cartier, Guards Vic Bubas and Joe Harand and Forward Charlie Stine.

The Sophs who will play an important part in State's cage record this year are inexperienced in the Case system, but as frosh they won 14 of 15 games. Forwards Joe Stoll and Bob Cook, a pair of highscoring Indiana boys, head the list. Stoll tallied 230 points as a freshman for a 16.5 points per game average, and Cook hit the net for 213 points for a 14.2 figure. Guards Lee Terrell and Peter Jacknowski also have definite varsity aspirations.

Johnson Dead Shot
Other reserves are forwards George Pickett, and Robert Wiggins, Guards Harry Johnson, Bobby Holt, and Howard Lumley and Center Grady Anderson. Johnson, a 6'5" New York native, is a deadly set-shot and will more than likely see plenty of action.

Next week the State cagers will play host to the Davidson College Wildcats on Monday night and the George Washington Colonials Thursday. After taking a week off for exams, the locals again will go into action in the coliseum with games scheduled December 15 with Loyals of Los Angeles, and December 19 and 20 with the University of Michigan Wolverines.

Ends Social Season
The Loggers Ball marks the end of the social season for this term on the campus, and heralds the beginning of the holiday Christmas season. The Forestry Club will have the gym gaily decorated in Club colors of green and white with pines, evergreens, and the traditional crepe paper. A large Christmas tree will be in the middle of the dance floor to lend a little of the festive spirit to the occasion.

Dance Committee Chairman, Bill Broadwell, promises a lively evening with a special attraction at intermission.

Veterans Wives Club

There will be a meeting of the Veterans Wives Club at 7:30 p.m., Tuesday at the Vetsville Y.

All members are cordially invited to be present so a group picture may be taken for the Agromeck.

There will be bridge, beginners bridge, refreshments, and prizes for each event.

Origin Of Dairy Barn Blaze Has Not Been Determined

Damage to the State College dairy barn that burned last Thursday afternoon has been set by college officials at \$50,000. The blaze, of undetermined origin, left only cracked walls and charred feed. Quick thinking on the part of Raleigh firemen, under the direction of Fire Chief A. B. Lloyd, saved a second barn by running 1,000 feet of hose from a nearby pond and keeping the second building wet.

Embers from the burning barn started another fire that burned over an acre of pasture land. Firemen battled the blaze for five hours before it was brought under control.

Ten Tons of Grain
A herdman for the dairy barn, D. D. VonMater, stated that the barn contained about 10 tons of grain valued at \$75 per ton and about \$3,000 worth of hay. Only the tops of two of the silos were burned and the contents were thought to be only slightly damaged.

According to the dairy farm employees, the fire originated in the hay loft where smoke was first noticed at about 2 p.m. None of the cows were harmed in the blaze, since they had been turned out to pasture earlier in the day. The fire was prevented from spreading to the ground floor by the concrete second floor and brick walls of the first floor.

Cause of Fire
Col. Harrelson stated that there was a possibility of spontaneous combustion causing the fire since it had been reported that some of the hay in the barn had not been completely cured before it was stored. Col. Harrelson also stated that he thought it unlikely that there was any connection between the dairy fire and the recent alleged attempts to burn property on the campus proper. The SBI and Fire Underwriters are investigating.

College officials estimated that the cost of replacing the barn would probably be about \$40,000 and damage to feed and equipment would run the total up to about \$50,000. The building was insured under the state insurance plan.

World Traveler To Speak Here

Wednesday, December 7, 1949, at 8:00 p.m., in the Auditorium of the State College YMCA, Mr. Donald Grant, world traveler and internationally known lecturer, will give a lecture on "Germany, the Question Mark."

In his person and his language Mr. Grant is a product of Highland-Scotland, England, and Europe. Graduate of Edinburgh University, student of European and World Affairs since World War I, he was honored by the ancient universities of Vienna and Innsbruck for five years of Student Relief Work. Visiting India and Australia he worked for four years in New Zealand, has studied and lectured on the problems of the Pacific.

Visited Europe
Back in Europe in the nineteen thirties, he covered the Continent once more, centering in Vienna and Geneva, kept close to the League of Nations and became acquainted with the challenging ideologies of Europe.

In 1936, brought to American Colleges by the Institute of International Education, he found a responsive new field for his message; was invited again and again — 1937, 1938, 1941, 1946 — and now makes his sixth tour in this country.

In World War II, the Ministry of Information used him to explain the War and the World to the British people. In 1948, invited to Germany by the American Military Government, he visited other parts of Central Europe, renewing academic contacts made in the nineteen twenties.

Religious Institute Schedules Speakers

Put a red circle around January 23, 1950 and also the five following Mondays. Six lectures that you certainly do not want to miss will be given on these dates. The lectures, the eleventh Annual Institute of Religion, are sponsored by the United Church in Raleigh. According to Professor Joseph D. Clark, Institute Committee Chairman, six prominent speakers are scheduled for the lectures to be held in the United Church on Hillsboro Street.

Ralph Bunche to Speak
On Jan. 23, David Bradley, a young doctor who is an authority on atomic radiation, will speak. On Jan. 30, Ralph Bunche will give a talk concerning the United Nations and world peace. On the following Monday, Feb. 6, Max Lerner, author, teacher, and economist; will lecture.

The next speech, Feb 13, will be given by Dr. Dorothy Fosdick, a long-range planner in the State Department. On Feb. 20, Elton Trueblood, noted Quaker and author, will speak. The final lecture will be given by Robert M. Hutchins, president of the University of Chicago and probably the best-known educator in the U. S.

Lecture Plans
Each lecture will be divided into three parts. At 6 p.m. a dinner will be served for those who wish it. At 7, study courses will be held. The lecture, starting at 8, will last about one hour. After each lecture there will be a half-hour question period.

Registration Plans Released By Mayer

By JOHN THOMPSON
Plans for the registration of students for the 1950 winter term at State College have been released by the Director of Registration, W. L. Mayer. All students will register on either January 2 or January 3. Enrollment is expected to be slightly less than the enrollment of the Fall Term.

Students will register according to the beginning letters of their last name. The schedule is as follows:

Monday, January 2 — 8 a.m. Br-Cok; 9 a.m. Col-E; 10 a.m. F-G; 11 a.m. H-I; 12 noon K-M; 2 p.m. N-Q; 3 p.m. R-Sc.

Tuesday, January 3 — 8 a.m. Se-Sr; 9 a.m. St-T; 10 a.m. U-Wh; 11 a.m. Wi-Z; 12 noon A-Bo; 2 p.m., students not in school fall term.

Permits for registering may be obtained from the Office of Registration starting next Monday, December 5. Students may go any day from December 5 to December 9 between the hours of 8:30 and 4:30 to get their registration permits. The Registration Office is located on the second floor of Holladay Hall. Students are requested to bring their fall registration cards when reporting for winter registration permits.

Students are reminded that they should complete their pre-registration by seeing their advisers this week. The student with his adviser is to make out five copies of his roster and have them signed and retained by his adviser until January 2 or 3.

Looking Back

This edition of the Technician marks the end of the quarter's work so far as the staff is concerned. Now they can have a little time to themselves and bone for exams.

A quick review of the fall term brings to mind several outstanding accomplishments which have been made here on the campus.

Perhaps the outstanding accomplishment is today's opening of the Coliseum. After almost nine years of waiting, the college has one of the finest arenas in this section of the nation. It's something to be proud of.

Another project that deserves commendation is the work being done on the Student Union by Dean Cloyd and his committee. Dean Cloyd has been working hard on this project and although it will be a few years before it is actually in operation, nevertheless, the work will assure its completion as soon as humanly possible.

The Campus Government has really been hustling this quarter, with President Hoyle Adams really putting on an active campaign for a "live Campus Government." Several of the projects have been completed and many are in the process. Outstanding among their projects was the fine "Hello Week" program and as co-sponsor of the first pep rally.

The building going on around the campus indicates that the College is really planning big things. In addition to the Coliseum, Engineering building, and the new addition to the Textile School, Dean Lampe has announced that bids will be opened soon to construct a new Mechanical Engineering Building. More progress.

Some of the most outstanding accomplishments made this term have been made by the Interdormitory Council led by its able President Alex Vann, and guiding arm, J. J. Stewart, Director of Dormitories. The Interdorm Council has really brought life in the dormitories up from a drab existence to something alive and interesting. With its promotion of social, athletic, and other campus events the Council has really improved the life of the student in the dormitory. It makes him more school-conscious, helps him to meet other people, and develops his social life. Half of going to college is meeting people and learning to face life, and the Inter-Dorm Council is certainly doing a bang-up job in fulfilling this end of a college's duties. Congratulations Alex, you and your committees have really done a swell job. Keep up the good work.

We could go on like this for inches and inches. Many outstanding things have been done that may not be mentioned here, but nevertheless, they have helped the college and that is what counts. Let's all try to make next term one of more fine progress for State College.

I Resolve

With the spirit of Christmas just around the corner and with another New Year and its resolutions winking at us, let us stop a while to consider three things: moderation, consideration, and contemplation.

It is only with moderation that real happiness and contentment can be attained. You may get home in less time going 80 mph in your Chrysler convertible, but then again you may not make it. You may gorge yourself with Christmas goose and stuffing, but then again you may look green for the next few days. And you may kill a "Fifth" a day, but you'll never be the same.

Consideration for the other fellow carries a twofold compensation: really doing something for a less fortunate guy than you makes him happy, and you will derive from your actions a gratification that comes only from the knowledge of having helped others. If you have it in you, you'll find plenty of application.

During the holidays you will undoubtedly find time for consideration for the other fellow carries a twofold compensation before speaking and just before acting. And lastly, as college student, you can utilize it in discerning the truth in everyday life, in the newspapers, on the radio, in the movies.

Let these things guide you when you make your 1950 resolutions, they may pay off in dollars and cents in years to come.

ARE YOU DOING YOUR PART?

It costs more than \$5,000.00 each year to pick up the trash carelessly thrown on the grounds of State College. This is one improvement WE can make!

Pins 'n Posies

There's no denying, the I.F.C. did a bang-up good job on the recent Pledge Dances and plans for the Midwinters look even more promising, so says I.F.C. Prexy, Woodrow Bass.

However before Midwinters these few words to the wise are given: (1) Be she ever so proud of her pin, your date should be reminded that fraternity insignia just aren't worn on the two extremes of dress (can't be seen too well on a bra anyhow.)

(2) It is a long standing tradition here at State that flowers will not be given to dates, especially at I.F.C. dances. Exceptions, of course, are sponsors and honored guests but the "gentleman's agreement" holds for all others.

So, if you must spend money on your girl, ply her with bonbons and beer. She'll love you just as much and you'll be in far better taste. And too, that pin will stand out much better on her sweater than on the ruffles of her evening gown.

J.H.M.C.

Policy

This week's issue of the TECHNICIAN is carrying an article (written by a non-staff member who writes with a very biased pen) which may bring about such controversy. It is the purpose of this editorial comment to make clear that the policy of this paper is in no way connected with the views stated in the column "With the Greeks."

H.H.S.

With The Greeks

By TED WILLIAMSON
(Editor's Note: The views expressed herein are not necessarily those of Greek Writer McQuinn, but rather are given as a timely discussion on a topic near and dear to all Greeks.)

Last week the National Interfraternity Conference accepted by a misleading majority a recommendation to the effect that all member fraternities, which is to say all of the major fraternities, which have any kind of discriminatory clauses in their laws or membership requirements remove these clauses and requirements. This was accepted by a majority of those who voted. Surprised? We were too, until we thought about the matter a little while. Let's think about it a little while.

This is not the first we have heard of such a move by some elements but it is the first we have heard of any such action by the N.I.C. Now we wonder if the N.I.C. has really done an about-face in their stand taken a year ago when they refused to take action on a recommendation that they attempt to put a stop to discrimination in membership selection by member fraternities. It is not likely that they have changed their stand at all.

Last year Colliers mag published a series of articles by one Mr. Whitman who thinks that fraternities do not have the right to select their members as they see fit. He made a lot of noise and got a lot of fraternity men mad at him. He also, doubtless, made some friends. We commented on his comments and were commented upon, among other things, in turn. (See Colliers' mag, Jan. 7, 1948 and the TECHNICIAN'S With the Greeks, Jan. 14, 1947). Mr. Whitman was very unhappy with us, let it go that if you don't want to bother reading it.

On February 1, 1951, a school called Amherst College told its fraternities to open up or get out. They were trying to force the

Many Opportunities Engineers Are Told

"Your opportunity in the United States is limited only by ability, determination, vision, and business atmosphere," D. E. Stewart, Assistant to the Vice-President of the Carolina Power and Light Company, stated in a lecture for engineering students, held Tuesday, November 22, at 11:00 o'clock in Pullen Hall.

Speaking on "Trends and Opportunities in the Electric Utility Industry," Mr. Stewart gave a brief history of the industry and explained the rapid expansion that the industry had undergone in the past seventy years. He asserted that rates today are less than 30 per cent of what they were in 1926.

In explaining the ownership of the Carolina Power and Light Company, the executive declared that the largest single stockholder in the company owns less than 2 per cent of the industry.

Mr. Stewart pointed out the dangers of socialism creeping into the utility field and declared that it might be "later than we think." He stated that under the free enterprise system, the electric utility industry has helped make America an industrial giant.

The lecture was sponsored by the administrative staff of the School of Engineering and the Engineers' Council. Lewis Allen, president of the Engineers' Council, introduced the speaker.

Dr. J. H. Lampe, dean of the School of Engineering, stated that this lecture was the first in a series of six planned for this year. "We want to take time out from our regular classes to gather here and receive from men in industry a story of operations and conditions that will face you when you leave State College," he asserted.

Debate Team Visits Big City

By BOB HORN

On November 22 one half of the college debate team consisting of Captain Bob Reames and Francis Chadwick engaged several glib members of the Columbia University debate team in an informal discussion which was devoted to exercising problem-solving utilizing the methods of direct clash thinking formulated by State's Professor Edwin Paget of the English Department. The problem discussed: Public Transportation Utilities.

While Reames and Chadwick were thus indisposed, Professor Paget and debator Paul Voght attended a dinner at which a number of State College alumni were present.

Visit Brooklyn

Brooklyn College was visited on November 23. There the entire team took part in the discussions which were again informal, and heard Professor Larson, Head of Brooklyn's speech department, describe the brief verbal encounter as one of the most stimulating he could recall. The debate team will retrace their route through the same eastern colleges again in February.

In the meantime they will busy themselves with such subjects as—Should the United States nationalize the basic non-agricultural industries. A decision as to which end of the argument the team will support will be rendered at a meeting to be held this Saturday at 2 o'clock in 109 Pullen Hall. Incidentally, the outfit is ready to welcome new members any time. The Public Speaking course is not a prerequisite for membership on the team.

Meredith Group Presents "Our Town"

Rehearsals are being held nightly for the Meredith College Little Theater production of Thornton Wilder's "Our Town." The actors and actresses for this play, which is to be given on December 8th and 9th at 8 p.m., are composed of students and faculty members of Meredith and State and other citizens of Raleigh. This will be the first full-length production to be held in the new auditorium at Meredith.

Fitz Dade and Bill Hoffman are the representatives from State appearing in the cast. Bill has recently appeared in Meredith Little Theater plays while this is Fitz's first role in some time at the "Angel Farm." Bill plays George Gibbs, and Fitz portrays George's father, Dr. Gibbs.

Other leading roles are Mrs. Gibbs, Mickey Bowen; Emily Webb, Dorothy Perry; Mrs. Soames, Sonny Burnham; and Stage Manager Harry Dorsett.

The general admission for this performance is 50c. State College students are invited to attend either the Thursday or Friday night performances.

THE KEYHOLE

By MAX HALBER

This term's last bouquet of roses goes to the International Committee of the State College Women's Club. While most of us spent the Thanksgiving holidays at home or with our dear ones, this group of unselfish women under the chairmanship of Mrs. F. S. Barkelov made it possible for nearly fifty of our foreign students to share the season's goodies with college families. As we understand it, genuine friendships have been established, and many re-invitations for Christmas dinners are assured.

Of recent interest to the sidewalk engineer are the excavations across from the Memorial Tower. Contrary to rumors that the lot will accommodate the new girls' dormitory, a triple-store building will be erected there. (Wonder what they'll be selling now?)

Ever since Dr. Frank Porter Graham has been appointed to the U. S. Senate, the Trustees of the Greater University have endeavored to fill the vacancy thus created with a man who most closely approximate the genius and modest dignity of our former president. Last May the Trustees Committee circulated among the faculties of the three institutions questionnaires as to the most desirable qualifications of the prospective successor. The State College forms have now been tabulated and paint a revealing picture.

The fifteen questions were to be evaluated according to "Great Importance," "Some Importance," and "Little or No Importance." In the light of present-day political and partisan turmoil, the answers to the questions "The next president should have shown a concern for democratic procedure in policy making" and "... should have shown a concern for academic freedom" were most significant. Whereas 84% and 82%, respectively, thought these of "Great Importance," the high percentages of 14 and 16 thought this matter of only "Some Importance" and 2% actually deemed it of "Little or no importance". Are we thus adhering to our national principles; are we thus really nurturing higher education?

To the question "The next president should know the South," 46% each thought this of "Great" and "Some" importance. This implies that a man from Iowa or from Oregon is equally well acquainted with the sectional problems of this region as is a man from, say, Greensboro, N. C.

Lastly, barely two-thirds of the faculty ascribed "Great Importance" to the question "The next president should be an effective public speaker." Again, seemingly a high percentage considered a mediocre speaker as articulate as a good, "effective" one. After all, what and where was man before he acquired speech as a means of communication?

Best luck on your exams and a joyous yuletide to all of you.

Prof Likes To Play - Now You Can Do It!

By JOE HANCOCK

An idea conceived from playing an old Chinese game, Wei Chih, has developed into what may become a very profitable enterprise for Prof. A. G. Guy and his wife. Prof. Guy, who is a member of the Mechanical Engineering Department staff, has developed this Chinese pastime into a game called "Circolo," a name which Prof. Guy credits to his wife who is helping in the venture.

The Guys first learned the game several years ago while Mr. Guy was employed at the General Electric Educational Laboratory. He picked up the game from a fellow worker who had learned the game from a Chinese friend. Prof. Guy and his friend played the game often on makeshift apparatus, and he enjoyed the game so much that he decided to present it to the public on a commercial basis.

During the two years that was spent in developing the game, a multitude of problems came up. He explained that getting a manufacturer was difficult and many other problems held their way. He also explained that each part of the game was manufactured at different companies, and that he and his wife assemble the games themselves.

Mr. Guy designed the box that holds the game, for which a patent has been applied for. A copyright on the rules has gone through, and

R. O. T. C. Signal Corps Begins Operations MARS

Signal corps cadets at State College are now receiving training or while in ROTC in order to serve the public in times of local or national disasters.

These students are studying radio communications—an activity which has often afforded a vital link between stricken areas and the outside world when hurricanes, floods, and other emergencies have disrupted telephone and telegraph service.

Col. Samuel A. Gibson, head of the College's Military Department, reported last week that training in all Signal Corps subjects at the college has been facilitated by the addition of a completely equipped mobile radio station.

Modern Station The radio station is of the most modern type, a post war counterpart of one of the most versatile and well known military radio sets. Contained in a large shelter, which is mounted in the rear of a conventional Army vehicle, the radio can be operated either while stationary or while in motion. Initial installation of the unit was accomplished by a group of interested Signal Corps ROTC Cadets, spearheaded by Cadet Lieutenant Jonathan W. Fulton, an advanced Signal Corps student from Greensboro. When the radio set is not used for instructional purposes, the group operates the unit as an amateur radio station. Working under the direction of Lt. Col. Howard E. Price, Senior Signal Corps Instructor at State College, cadets have established radio contact with other amateur stations in all parts of the nation.

Operation Mars The Signal Corps unit at the college is now formulating final plans for the participation of ROTC cadets in the Military Amateur Radio System, more commonly known as MARS. This is a nation-wide military radio network, operated for and by interested radio amateurs.

Planning Institute Hears Designer

Utilization of new design principles in school building construction will save money, Alonso J. Harriman, Me., designer of many of the New England schools, told the delegates attending the Institute of School Planning at N. C. State College Wednesday.

New England school officials, he continued, showed "great resistance" when first confronted with the use of new design techniques but soon adopted the ideas when they witnessed the benefits, including economy and cheerful appearances of the schools.

Harriman addressed approximately 175 architects and school officials attending the Institute of School Planning, which opened Monday under the joint sponsorship of the State College School of Design and the State Department of Public Instruction.

Wins Honor

Neill A. McFarland, Jr., above, of Greensboro, Route 1, a senior in animal industry at State College, has been chosen as the winner of the Swift Essay Contest for 1949. McFarland won the contest in competition with other agricultural students at the college. His essay was entitled "Contribution of the Packing Industry to the United States." He will be given a free trip to the International Livestock Exposition in Chicago, Ill., November 28 to December 3, a scholarship to the Swift Market School, and will be carried on a supervised tour of Chicago's educational and cultural centers. McFarland, son of Mr. and Mrs. N. A. McFarland of Greensboro, Route 1, expects to complete his work for a B.S. degree at State College in December and plans to do graduate work during the school term beginning in January.

ASHVE — Speaker

Mr. Frank C. Hackett of Bell and Gossett Company will speak on "Steam and Hot Water Applications in Heating" at Page Hall room 100 Thursday, December 8 at 7 p.m. Mr. Hackett will show picture slides to illustrate some of the systems manufactured by Bell and Gossett, one of the outstanding manufacturers of forced circulation hot water heating systems. The student branch of ASHVE invites all who are interested to attend the lecture.

Textile Society To Hold Social

Sigma Tau Sigma, textile scholastic fraternity will hold its first social of the term at the Cabin-by-the-Lake tomorrow night from 6:30 until 10:00.

Dancing will follow the informal supper, at which fried chicken with all the trimmings will be served. Dates and wives of the members have been invited by the fraternity.

The party was planned by the Social Committee, consisting of: Weldon Cable, chairman; Hugh Cash; Bill Riggs; Harris Ruben; and Jim Sharpe.

Committee Appointed To Study Latest Union Plan Revision

Insurance Deadline Near VA Warns

A deadline in connection with National Service Life Insurance is coming up December 31, 1949, for veterans with service-incurred disabilities less than total in degree, the Veterans Administration warns.

Generally a World War II veteran who applies for new insurance or to reinstate a policy that has lapsed, must furnish VA with satisfactory evidence of his good health. But so long as he applies before January 1, 1950, a service-incurred disability, if less than total in degree, will be disregarded in determining good health for this purpose. The disability must have been incurred in service between October 8, 1940, and September 2, 1945.

Be In Good Health

A veteran who applies for the NSLA total disability income provision also is required to furnish evidence of good health. In this case, too, a disability incurred in service between those same two dates, if less than total in degree, will be disregarded in determining good health. The application for the total disability provision must be made before January 1, 1950.

World War II veterans eligible for automobiles have June 30, 1950, as their deadline, before which applications must be made. Such veterans who in service lost, or lost the use of, one or both legs at or above the ankle may be entitled to receive an automobile or other conveyance at Government expense.

Nebraska Native

Dr. McAuliffe, a native of Nebraska, received his A.B. degree from Nebraska Wesleyan University in 1941; earned his M.S. degree from the University of Minnesota, where his major interest was in biochemistry; and was awarded the Ph.D. at Cornell University.

New Forestry Professor Named

Appointment of Dr. James Samuel Bethel, former plant manager of the Tidewater Plywood Company at Brunswick, Ga., as associate professor of forestry at State College was announced recently by Dr. Richard J. Preston, Jr., director of the College's Division of Forestry.

Dr. Bethel, who has already assumed his duties at the college, is a former faculty member at Pennsylvania State College and at the Virginia Polytechnic Institute. He was educated at the University of Washington, where he obtained his bachelor's degree, and at Duke University, where he earned his master's degree and doctorate in forestry.

His appointment has been approved by Chancellor J. W. Harrelson of State College, Acting President W. D. Carmichael, Jr., of the Consolidated University of North Carolina, and a special committee of the board of trustees.

Dr. Bethel, a native of New Westminister, British Columbia, served in the Air Force as a captain during World War II and was chief of the Wood, Glue and Packaging Branches of the Procurement Division of the Army Air Force Materiel Command during the war.

He has written a number of publications relating to forestry and forest products and has prepared articles for The Journal of Forestry, Tropical Woods, and The Paper Industry and Paper World.

His honorary and professional affiliations include membership in the Society of American Foresters, the American Society for the Advancement of Science, the Forest Products Research Society, Sigma Xi, and Phi Sigma.

Animal Industry Adds Professor

Appointment of Dr. Clayton D. McAuliffe, former faculty member at Cornell University, as associate professor of agronomy at N. C. State College and the director of the college's stable isotope laboratory was announced today by Dr. W. E. Colwell, head of the College's Agronomy Department.

Dr. McAuliffe, a scientist on Columbia University's famed Manhattan atomic project during World War II, will direct the laboratory's work with isotopic nitrogen which will be used in studies relating to soil chemistry, fertility, and nutrition.

Work Important

"Nitrogen," Dr. Colwell said in announcing the appointment, "is one of the extremely important elements in the fertilization of North Carolina crops. Through the use of the mass spectrometer and the stable isotope of this element, it can be tagged, and this technique offers the same sort of tool as does radioactive phosphorus."

Dr. McAuliffe's work will be in cooperation with the research staff in soil fertility. This program offers much promise for a better understanding of many of our soil fertility problems in this State.

There was unanimous approval of the overall building design and facility arrangement by the committee.

Committee Members

The following students were on the Chancellor's Committee: Emmet Bringle, Past President of the Junior Class; Avery Brock, Senior Class President; L. E. Boyles, Junior Class President; Eugene Jeffords, Sophomore Class President; Scott Statham, Editor, Agronomist; Virgil Mims, President, Golden Chain; Lewis Allen, President, Engineers Council; Max Erwin, President, Agriculture Club; Bill Thompson, President, Monogram Club; J. E. McCormick, President, Phi Eta Sigma; Harry Dalton, President, Phi Psi; Larry McDade, President, Tau Beta Pi; Hoyle Adams, President, Campus Government; Woody Bass, President, Interfraternity Council; Alex Vann, President, Interterritory Council.

In another two months, if all goes well, bids will be out for our North Carolina State College Union building. Then a month while bids are accepted. Then up goes the building. Sophomores will be seniors by the time the building opens.

Since we have never had a union building at State, a logical question to ask is: "What will a union do for me?"

The question is a difficult one to answer, but not because there are not answers.

"Home" Away From Home

For one thing, the union is the campus "living room" of the college—a home away from home for the students. Colleges with unions have a simple proof of this fact. Students and alumni always bring their visiting friends and parents to the union before the rest of the campus tour commences.

The union is a place of recreation. One may play billiards, table tennis, cards, etc. One may learn new games and further perfect games already known.

The union is a place to dine healthfully at a budget-wise price. (Incidentally, as a student, you spend more money for food than on any other budget item, with recreation fourth on the list.)

The union exposes one to conditions where you may develop skills and techniques in art, craft, photography, leadership, dancing, etc.

Student Management

The union is a laboratory of student management, a place for individual and group self-discovery; it is the site of an informal course on getting along with people—on making friends and being a friend.

The union strives to expose one to the best music, books, art, and a strong emphasis is placed on the cultural aspects of our college community, city, state, nation and the world.

Primarily, the union is concerned with the social side of one's life. But nothing much goes on in the union that is purely social—likely, rather, most union "activities" involve the social, cultural and recreational sides of the individual simultaneously, in varying degrees.

The union is a laboratory in democracy; practicing to understand the processes of the American way of doing things, sciences and recognition.

Help the Student

The union's broad hope is to be an integrating force for the student, helping to make him a mature individual on all fronts. To accomplish this goal, the union must fully cooperate with each college school, furthering their educational objective on an informal level. The union must provide an atmosphere where the student has real power and responsibility in the democratic manner pointing toward his becoming a good citizen. For well-rounded growth the student must experience a high level in social, cultural and recreational climate!

Insurance Deadline

A deadline in connection with National Service Life Insurance is coming up December 31, 1949, for veterans with service-incurred disabilities less than total in degree, the Veterans Administration warns.

Generally a World War II veteran who applies for new insurance or to reinstate a policy that has lapsed, must furnish VA with satisfactory evidence of his good health. But so long as he applies before January 1, 1950, a service-incurred disability, if less than total in degree, will be disregarded in determining good health for this purpose. The disability must have been incurred in service between October 8, 1940, and September 2, 1945.

Be In Good Health

A veteran who applies for the NSLA total disability income provision also is required to furnish evidence of good health. In this case, too, a disability incurred in service between those same two dates, if less than total in degree, will be disregarded in determining good health. The application for the total disability provision must be made before January 1, 1950.

World War II veterans eligible for automobiles have June 30, 1950, as their deadline, before which applications must be made. Such veterans who in service lost, or lost the use of, one or both legs at or above the ankle may be entitled to receive an automobile or other conveyance at Government expense.

These Boys To Perform Tonight

VIC BUBAS, Guard
N. C. State

PAUL HORVATH

Playing his third year at the pivot slot for the Wolfpack, "Stretch" as he is known to his teammates, has consistently improved and may be headed for his greatest season this year. Horvath moves well for a big man, weighing 205 pounds, and standing six feet, seven inches. Paul is an expert on tip-ins using his big hands to advantage. He can handle the post assignment in the State attack capably, feeding to the other players, and hitting with his specialty—an overhead hook shot. On defense, Horvath is an exceptional player, always hustling and striving to do his best. Paul scored 305 points as a freshman, and 301 points last year as a sophomore. The only member of the current team who had no high school experience, Horvath got his first cage experience during World War II with the 16th Armored Division.

RICHARD L. DICKEY

An All-American selection in 1948, Dick had his troubles last year. He started slow because of a tonsil operation, then encountered injuries, which kept him out of three games. Despite all this, however, he emerged as one of the team's top scorers getting 355 points in 30 games for a 11.8 average. His total for three years of varsity play now stands at 1,184 points, an average of better than 13 points a game for 89 games. Last year he was named All-Southern for the third consecutive year and also made the All-Tournament first-team for the third straight season. The 1950 season is Dickey's last and no matter what he does he has established an all-time record for an individual scorer in the Southern Conference. Chances are that Dickey will have a better year. He is a top ranking figure in the national cage picture and is among the handful of stars leading pre-season All-America predictions. Dickey is not only a great scorer, but is also an excellent defensive player. He is often fouled because of his driving, one-handed shot at the bucket, but opponents usually find that stopping Dickey from the field simply means he'll rack 'em up at the free throw lines. In three years he has converted 312 charity tosses. The State star got his prep school training at Pendleton (Ind.) High and as a Navy yeoman at St. Mary's Preflight School in California. He stands six feet, one inch and weight 180 pounds.

DICK DICKEY, Forward
N. C. State

FRESHMAN SQUAD ROSTER

The Forwards

Name	Hgt.	Wgt.	Age	High School	Hometown
Roger Craig	6-4	178	19	Durham High, Durham, N. C.	
William E. Crull	6-2	175	18	St. Mary's, Anderson, Ind.	
Bucky Seif	6-3	188	18	Charleston (High), S. C.	
William Kukoy	6-3	195	22	Lew Wallace, Gary, Ind.	

The Centers

Robert W. Speight	6-6	175	19	Buchtel High, Akron, Ohio
Bobby Goss	6-8	205	17	Needham Broughton, Raleigh
Larry Lovington	6-9	200	19	Staten Island, N. Y.

The Guards

Ed Morris	6-4	190	18	Reynolds, Winston-Salem
Bernie Yurin	6-3	190	18	Horace Mann, Gary, Ind.
Kenneth Moseley	5-7	145	19	Leaksville (High), N. C.
Warren Remensnyder	6-2	175	18	Oak Park, Oak Park, Ill.

VICTOR BUBAS

One of the Southern Conference's greatest competitors, Bubas, hails from Gary, Indiana. Vic made the All-Tournament team at the annual post-season Southern Conference Tournament held at Duke last year. He also was selected on the Second Team All-Southern team. Bubas is a topnotch scorer, despite his chief role as a backline defensive man. He drives hard for the basket and he is a deadly set-shot. One of the team's most accurate passers, he is a dangerous floor man in every respect. Bubas was the most improved player on the team last year over his '48 freshman form. After attending Lew Wallace High in Gary, Indiana, he played service ball for the 15th Army Corp team during World War II. Standing 6 feet two inches, Bubas weighs 188 pounds.

JOE HARAND

After waiting for a chance to make the varsity grade, Harand came through last year to become one of Coach Case's most valuable men. Joe did a great job on rebounds and his defensive play was brilliant. He will likely pair with Bubas as a starting guard this season. Joe didn't develop into a potent scorer last year, but has shown definite improvement in the point making department in early drills. Joe stands 6-4, weighs 194 pounds, and is from Tenafly, N. J.

HARRY JOHNSON

Harry is a candidate for a guard position on the varsity and will likely see action this season as replacement for Bubas or Harand. Johnson was held out last season, but worked out with the varsity all season. Harry is a hard worker, and is always seeking to improve his game. He lacks deceptiveness, but makes it up in speed. He is an excellent ball handler. Johnson, who is 6-5, is from New York City.

JOE STOLL

Leading the scoring on the frosh club last year, Stoll hit 230 points in 15 games. He has an eagle eye for the basket and is very much in the varsity picture this year. Hailing from Princeton, Indiana, Joe is 19 years old and stands 6 feet, 3 inches. Stoll earned three high school letters at Princeton, making All-Regional first-team both as a junior and senior.

BOB COOK

As a freshman last year, Bob poured in 213 points for a 14.2 average in 15 games. Last spring he was converted to forward as plans were made for the coming season. Cook is considered rough and rugged under the basket and has a neat one handed set shot. A cinch to see plenty of action on the varsity. Bob is a former high school star from Columbus, Ind. He is a fast 200-pounder and stands 6-3½. He will likely work behind Ranzino and Dickey.

Paul Horvath

PETER JACKMOWSKI

"Pete's" hustle and stamina as a freshman guard last year has earned him a varsity chance this season. In early practice he's shown marked improvements and looks certain of getting into some varsity play. Standing six feet, three inches, Jackmowski is 21 years old and is the only married sophomore. Pete was named All-Brooklyn Center at East York High in 1946. He should see plenty of action this season on the varsity and he will be a capable replacement for either Harand or Bubas.

I exchanged gray gabardine topcoat with someone at the college cafeteria Grill Room on Wed., Nov. 23. Will be glad to re-exchange. Ronald B. Greene, 806 Welch, Telephone 9119.

More Brief Sketches

SAM RANZINO

Called "the sharpest shot in college basketball" by the experts who have seen his amazing exhibitions, this Gar, Ind., lad of Italian descent is State's No. 2 All-Southern from last year. After starting slowly, Sam found the range in the later portion of the season and wound up with the team's largest total number of points, 381. His average was 11.5 points per game, slightly less than his running mate at Forward, Dick Dickey. But the real story of Ranzino's success was his amazing shot record on field goal tries. Against LaSalle Sammy dropped in nine goals in 12 attempts. Ranzino dropped in 10 field goals on 14 tries against William and Mary and 8 for 11 shots against Wake Forest two nights later. But Ranzino's value to the team is not for his scoring alone. He, like Dickey, is a great defensive player. His uncanny ball-handling, head fakes and accurate passes have set-up scores time and time again. He is the team's most deceptive dribbler and his change of pace is terrific. Excellent team player and particularly good in the clutch. Very hard worker, always striving to perfect his play, practicing tirelessly on any particular phase of the game which he feels needs improvement. Despite his size (6-1) Ranzino often grabs more than his share of rebounds with his excellent timing under the basket. He hustles constantly and drives in hard to follow his own shots. His one-handed wrist shot, which arches the ball toward the basket, is most difficult to stop, since Ranzino turns the ball loose at the end of his fingers. He has marvelous control over the ball and appears to fire his shots with the least possible effort. Only 21 years old and still has another year of eligibility remaining after the 1950 season. Is a leading candidate to repeat his All-Southern honors of last year and is high on the list of All-America prospects. Prepped at Emerson High, Gary, Ind., where he scored 450 points his senior year. Might well get that many at State this season if his deadly accuracy for the basket continues.

SAM RANZINO, Forward
N. C. State

State Night Planned At The Meadowbrook

A North Carolina State College Night has been planned for December 21st at Frank Dailey's Meadowbrook, Route 23, Cedar Grove, New Jersey.

The following arrangements have been made:

Entertainment: Elliott Lawrence and his orchestra.

Time: Music starts at 7:30 p.m., and continues until 2:30 a.m.

Radio: Coast to coast broadcast over WOR Mutual Network.

Activities: Featured band will play school song. College banner will be displayed.

Admission: \$1.50 per person minimum. If fifteen or more couples desire dinner, it may be had for \$5.00 per couple including the tax and tip.

Reservations: May be made with Ted Dostanko, Room 3, Stadium Dormitory, or Gene Jeffords, Room 125, Owen Dormitory.

Anyone not prepared to make a reservation while at school may make one direct at the Meadowbrook on his return home. There are ample facilities for all who wish to attend.

WARREN CARTIER

One of Coach Everett Case's most valuable men, Cartier seldom gets the credit he deserves. Warren can do just about anything on a basketball court and during his three previous seasons has played center, guard, and forward. Cartier is consistently near the top of the squad's scorers, dropping in 228 points in 1947, 269 in 1948, and 237 last year. Called "Swede" by his teammates, Cartier is a great team man. His ability to take over at any spot on the club enables Case to make full use of Cartier's jumping push-shot. One of the Pack's best clutch players, Warren has come through in many a tight game. Last year, Cartier was voted the team's most Valuable Player by his teammates. "Swede" played service ball under Coach Case at Greencastle (Ind.) Naval Preflight School, and he played high school ball at Green Bay, Wisconsin, where he was captain of the squad during his senior year. Cartier is 25 years old, stands six-feet, three inches, and weighs 190 pounds.

Ag Chemists

The Society of Agricultural Chemists will meet on Tuesday evening December 6, in Room 112, Withers Hall. Dr. Marvin L. Speck will speak on "Industrial By-Products of Milk." Members of the Society of Agricultural Chemists are urged to attend and all others interested are cordially invited.

A.I.Ch.E.

The Chem. E's met in hole 117 of Winston Loft Tuesday, Nov. 29th. A film on the production of Copper was enjoyed by all. The gullotine for the removal of deadwood (members who have not paid their fees and dues) was honed and stropped for use on Dec. 1st.

WARREN CARTIER, Center
N. C. State

Freshmen Basketeers Promise Bright Future

By ED STOREY

Possibly the best assemblage of freshman talent in the history of the school indicates that Coach Carl (Butter) Anderson may turn out a potent aggregation of Wolflet yearlings this season. He is equipped with the three ingredients for success—height, speed and aggressiveness.

The entire early season drills for the frosh have been devoted to fundamentals. Anderson has worked hard to teach the newcomers those little skills of ball-handling, footwork and shooting which go into making any Case-coached team a success. He has laid the ground work, the rest is up to the individuals.

Lovington Rates Edge

Positions on the freshman squad are all wide-open and there is already plenty of hot competition for each berth. At center a close three-way fight is on between Bobby Goss, Larry Lovington, and Bob Speight. Each has height and good rebound ability. Scoring ability likely will decide the issue with Lovington deadly accurate on his hook shots and rated a slight edge over the other two.

Setting the pace for the forward jobs are Bill Crull and Bill Kukoy. Both are good one-handed push shot artists, drive well for the basket, and handle the ball with finesse. Not far behind, however, are Craig and Seif, Seif particularly, has shown improvement recently and he'll definitely see plenty of action.

Ed Morris and Bernie Yurin look like the top guard candidates. Morris can hit well from far-out and can give and go on his drives. Yurin is a clever floor-man. He hits well from the side court and has plenty of speed. He feeds the ball excellently. Moseley and Remenayder

are certain to be used extensively. Moseley is perhaps the fastest man on the squad and hits his shots well from near the free throw line. Remenayder is aggressive and drives well.

Man-size Schedule

The Wolflets have a man-size schedule, headed by four contests with Duke, Carolina, and Wake Forest. Coach Anderson's team also has a pair of games with William and Mary, Wilmington College, and Presbyterian. Lees-McRae and Louisburg of the North Carolina junior college circuit.

The 16-freshman home contests will all be played as preliminary games to the varsity headline attractions in the new William-Neal Reynolds Coliseum. Each game will begin at 6:30 p.m.

Wrestling Team Opens Season January 7

By LLOYD CAPPS

State's wrestling team opens its 1950 season January 7, against Maryland, at College Park. Duke furnishes the competition for the first home match on January 10.

"We have been working out now for about four weeks," Coach Al Crawford said yesterday at practice. "The team is shaping up nicely and should be in good condition by the first meet."

Coach Crawford has scheduled a practice match with the Cherry Point Marines Saturday, December 3, in Frank Thompson Gym at 2 p.m.

Veteran Wrestlers

The team will be without the services of only three of last year's men. Charlie Musser, John Poplin, Rouston Rudolph, Douglas Martin, and Roger Troxler are returning lettermen. Others out for the squad include Robert Jenkins, Reginald Buie, Van Williams, Dennis Fortune, John Thompson, Robert Dew, Harold Stevens and Tom Morse.

Cosmopolitan Club

Friday, November 25th, the members of the Cosmopolitan Club at N. C. State College were invited to attend a square dance at the State Hospital for the insane at Dix Hill.

Upon arrival the group was ushered around the clinic, by doctors of the ward, to acquaint them with the dwellings, game-rooms and consulting rooms for the patients. Later, the guests watched the patients enjoy themselves at a square dance.

Finally Dr. Pleasants kindly answered various questions and explained the problems such an institution has to solve.

The excursion was very pleasant and educational for the students of other countries.

Public Lecture

Thursday, December 8, 1949, at 8:00 p.m., in Withers Lecture Hall, Dr. George W. Corner of the Carnegie Institution of Washington, Department of Embryology, Baltimore, Maryland, will give an illustrated lecture on "Ovary and Embryo: The Reproductive Cycle of The Rhesus Monkey."

Dr. Corner is a member of the National Academy of Sciences and the American Philosophical Society and has been president of the American Association of Anatomists. He is a frequent speaker at medical and scientific society meetings and has lectured on his researches and on topics in medical history in Great Britain, Canada, Argentina,

Red and White

The Pop Club requests that all students and their dates attending the game Friday night please wear apparel with the school color.

Uruguay and Brazil as well as in the United States. His writings include a large number of articles and several books, chiefly on the anatomy and physiology of reproduction and on the history of medicine.

He comes to the campus under the sponsorship of the North Carolina State College Chapter of Sigma Xi. The students, faculty and public are cordially invited to attend.

Sport Mag Names Dickey All-American

The first All-American team of the '49-'50 basketball season selected in the December issue of SPORT magazine now on the newsstands, features on the first five Dick Dickey, North Carolina State; Paul Arisain, Villanova College; Don Lofgran, University of San Francisco; Paul Urub, Bradley Tech; and Hal Haskins, Hamline.

Stan Lomax, veterans sports reporter and basketball specialist, made the selections for this year. About Dickey, Lomax said, "The fourth member of our all-star quintet is a young man whose name must sound as familiar to college basketball fans as the name of Charlie Justice does to followers of football."

On his second club, Lomax selected Johnny Filch, Wyoming; Jim Riffey, Tulane; Charlie Share, Bowling Green; Bob Cousy, Holy Cross; and Billy Joe Adcock, Vanderbilt. Third Team selections were Whitey Skoog, Minnesota; Joel Kaufman, NYU; Jack Shelton, Oklahoma A & M; Kevin O'Shea, Notre Dame; and Bill Sharman, USC.

The fourth team quintet is composed of Jack Brown, SMU; Bill Erickson, Illinois; Larry Foust, LaSalle; Charlie Cooper, Duquesne; and Jim Line of Kentucky. Other than Dickey, local fans will be able to see Arisain of Villanova, Lofgran of San Francisco, and Foust of LaSalle when their respective teams meet the Pack in the Coliseum.

Coat Lost?

Mr. J. D. Hamilton, teacher of French, Walkertown High School in Walkertown, N. C., writes that a State College student to whom he gave a ride from Goldsboro, N. C., to Raleigh, N. C., on November 27 left a nice overcoat in his car, but there is no mark of identification on it.

Mr. Hamilton states that if the student will identify the coat and describe his car, he will gladly mail the coat to him.

E. L. CLOYD, Dean of Students

FRATERNITY INTRAMURALS

Hi, gang, let's catch up on all the results we missed on account of the Thanksgiving vacation. First, the football games, so here we go—Sigma Pi topped the KA's by a 14-0 score. Pickett was outstanding for Sigma Pi as they remained undefeated. The PIKA's also remained undefeated as they swept by Pi Kappa Phi, 16-0. Sigma Chi took two games, beating AGR 12-0 and trouncing Delta Sig 13-0. AGR and Kappa Sig played a scoreless tie but Kappa Sig led on first downs 5 to 3. "Subby" Culbertson and Woodlief were outstanding in this one. Sigma Nu edged SPE by a 7-0 count. The game was protested by SPE because a Sigma Nu player was ineligible, since he had played with a dorm team this year. The PIKA's won by a forfeit over Phi Ep, and Sigma Chi scored a safety in the last quarter to edge by Kappa Sig 2-0. Ned Council was outstanding for the Chi's. SPE vanquished SAM 15-0, Pi Kappa Phi took SAE into camp 6-0, and Pi Kappa Tau won by a forfeit over Lambda Chi. The playoffs will be held this week with the winners meeting in Riddick Stadium at 8 o'clock on December 6th to determine the frat football champs for 1949.

The regular schedules are completed in volleyball, and the playoffs will be held this week with the finals scheduled for December 7th at 8 o'clock in the gym. Here are the results of last week's games and those of the week before. SPE dumped Sigma Phi, Sigma Chi topped KA, PIKA subdued

TKE and AGR, and Sigma Nu scored over SAM. SPE vanquished Delta Sig, KA was the victor Lambda Chi, and the Sammy's won over Delta Sig, Pi Kappa Phi was the winner over Sigma Nu by a forfeit, Sigma Chi conquered SAE, and Sigma Nu swept by Phi Ep.

The first team championship was decided last week as Phi Ep won the handball championship for their straight year. They topped the Sammy's in three games. The PIKA's won the consolation playoff for third place by a forfeit over Sigma Nu.

The finals of the wrestling championships were held last Monday in the gym and here are the results:

- 115 lb—Prongay (AGR) over Glasgow (Sigma Chi)
- 125 lb—Odom (SAE) over Tharrington (PKA)
- 135 lb—Williams (Kappa Sig) over Barnes (Sigma Chi)
- 145 lb—Chamberlain (PKA) over Armstrong (Sigma Nu)
- 155 lb—Thompson (PKA) over Rochelle (KA)
- 165 lb—Dew (KA) over Liverman (Delta Sig)
- 175 lb—Rucker (SPE) over Culp (AGR)
- Unlimited—Weeks (KA) over Wingfield (PKA)

"Mystery" Runner Enters Track Meet

During the cross-country meet last week between the colleges of the state, a mystery runner picked up the runners as they made the first lap to Pullen Park and ran true to form as he paced the leaders of the contest.

John Norrell, the judge on the down hill stretch, was flabbergasted as the runner approached his post without a number. John said that he was running two strides behind Dubow, State's ace, and threw up his arms as a signal not to count him. He was identified as a stocky built man with a dark mustache, and a crew hair cut.

Some think the mystery runner was a pace setter for one of the teams, others believe he may have been some show-off. But regardless of who he was, he did not finish, but just kept running up the hill behind the Coliseum and disappeared.

'J. Paul Sheedy' Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

YOU'D never guess to see him now, but just two weeks ago there was a sad, forlorn look in Sheedy's beady eyes. People picked on him because his hair looked like he was moulting. Not a gal on campus would even carry a conversation with him. Then he bought a bottle of Wildroot Cream-Oil hair tonic and he's been a gay old bird ever since. Non-alcoholic Wildroot containing Lanolin keeps hair neat and well-groomed all day long. Relieves annoying dryness, removes the loose ugly dandruff that can make you a social outcast. So if your hair is giving you trouble, set your corpse for the nearest drug or toilet goods counter and get a bottle or tube of Wildroot Cream-Oil hair tonic. And ask your barber for professional applications. It's the best treatment your hair cadaver get.

* of 327 Burroughs Dr., Snyder, N. Y.

Wildroot Company, Inc., Buffalo 11, N. Y.

PROVE TO YOURSELF
NO CIGARETTE HANGOVER
when you smoke PHILIP MORRIS!

HERE'S ALL YOU DO!
In just a few seconds you can prove PHILIP MORRIS IS DEFINITELY LESS IRRITATING than the brand you're now smoking!

1... light up a PHILIP MORRIS
THEN, just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? AND NOW...

2... light up your present brand
Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but only ONE cigarette has really done something about it. That cigarette is PHILIP MORRIS! Remember: less irritation means more pleasure. And PHILIP MORRIS is the ONE cigarette proved definitely less irritating, definitely milder, than any other leading brand. NO OTHER CIGARETTE CAN MAKE THAT STATEMENT.

YOU'LL BE GLAD TOMORROW— YOU SMOKED PHILIP MORRIS TODAY!

CALL FOR PHILIP MORRIS

VIEWS ON SPORTS

By BOB CURRAN

Tonight in William Neal Reynolds Coliseum, The North Carolina State Wolfpack will play host to the Washington and Lee Generals. Ordinarily that wouldn't make too much news, but this isn't an ordinary happening. Tonight will mark the initial appearance of Coach Everett Case's 1949-1950 Wolfpack Basketball Team, and it will also be the initial basketball game played in the largest indoor stadium ever constructed in the South. This game will not be the official opening of the Coliseum. That honor is being reserved for the University of Louisville on January 25. Coach Case tried desperately to schedule the University of Kentucky for the opening ceremonies, but Coach Adolph Rupp of Kentucky couldn't quite make it. I can't say that I blame old Adolph, because I don't believe in sending a boy on a man's errand either.

Last Friday afternoon, while most of the troops were taking a Thanksgiving break from the old grind, the basketball team took a trip down to Fort Bragg to scrimmage the soldiers. At the end of the game, the unofficial score was 108 to 21, in favor of you know who. I wonder if that same fate could be in store for the debutantes from Chapel Hill? Speaking of Chapel Hill, I wonder what the possibility would be of playing both the games in the Coliseum? You know, sort of a reciprocation for a couple of football games that State played in their backyard.

In the December issue of Sports Magazine, Stan Lomax, the well known sports announcer picked Dick Dickey on his 1949-1950 All-American Basketball Team. He could have gone two better and picked Sam Ranzino and Vic Bubas too. At the same time in another magazine, Adolph Rupp (theres that man again) picked his choice for the ten best basketball teams in the U. S. He didn't mention State, but that was just a case of wishful thinking on his part. Maybe when the March winds cometh to New York, he'll blow in on one of them and the Wolfpack will get to meet him in the N.I.T.

Villanova, W & M Win In Pack's Final Games

By JOHN LAMPE

Two northern jaunts, one to Philadelphia and the other to Villanova, proved rather disastrous to the hard fighting State grid warriors who dropped contests to Villanova 46-21 and William and Mary 32-7 in their last two games of the season.

The Pack, underdog in both engagements, gave a good account of itself in both outings, but was finally overwhelmed by more superior foes.

The Villanova Wildcats, led by their giant Fullback Ralph Pasquariello, were manhandled by the Wolfpack in the first half but took charge in the second and third periods to run up a decisive score.

Quick Lead

The Pack jumped to a quick lead, scoring when the contest was only a minute and 30 seconds old. Guard Charlie Musser broke through the Wildcat line and blocked a Villanova kick. He then picked up the ball and scampered over the goal line. Westbrook's kick was good and the Pack led 7-0.

However State's margin was short-lived as the Wildcats scored a T.D. in the second period and kicked a field goal to lead at half time with a 10-7 lead.

The second half saw Villanova get into high gear and run up 35 points while State could only score 14.

The last tangle of the season with the Indians of William and Mary, who, spearheaded by Tailback Buddy Lex and Fullback Jack Cloud, took command of the contest at the outset to score their sixth victory.

The Tribe scored with only six minutes gone in the first period as the result of a pass from Buddy Lex to All-Conference End Vito Ragazzo. The Indians tallied again before the half ended. Marching 73 yards, the Tribe's Jack Cloud and Buddy Lex moved the ball to the State 27 where Lex pitched to end George Hefflin for the touchdown. Lex added the point and William and Mary led 13-0.

Hit by Injuries

The Wolfpack, bogged down due to injuries sustained in the Villanova game, could not get their attack rolling. Tailback Ed Mooney, suffering from a shoulder injury, took part in only five plays and Fullback Jim O'Rourke played only briefly on defense.

However in the third period State put together a drive which tallied for the Red and White. Filling the air with passes, State's Orden Smith led the drive for paydirt which was climaxed by his plunging over the goal.

The Wolfpack almost caught fire in the waning minutes of the second period. A 51 yard pass from Fullback Dick Johnson to End Tony Romanowsky carried to the Tribe 16, but the Indians held and pushed the Pack back to the 26.

William and Mary added 20 more points in the second half as the result of two passes and a run. Ragazzo and Hefflin each snagged an aerial for T.D.'s and Lex scored one on a pitchout from the blocking back.

Corter To Direct Psychological Clinic

Appointment of Dr. Harold M. Corter, former faculty member at Pennsylvania State College, as director of the Psychological Clinic in the Department of Psychology at N. C. State College was announced recently by Dean J. Bryant Kirshland of the College's School of Education.

Dr. Corter, who has already assumed his duties at the college, will devote half of his time to the teaching of psychology and will direct the clinic during the remainder of his time. He is a specialist in clinical psychology.

A native of Pennsylvania, Dr. Corter was educated at Lock Haven State Teachers College, where he received his B.S. degree, and at Pennsylvania State College, where he earned his master's degree and doctorate.

Dr. Corter has had approximately four years of experience as a teacher, counselor and principal in secondary schools. He saw service in the Navy for three years, was a clinical psychology trainee for nine months in the U. S. Veterans Administration Hospital at Lyons, N. J., where he worked with neuropsychiatric cases and completed his internship at the Veterans Administration Mental Hygiene Clinic in Newark, N. J.

Everett Case Boasts Outstanding Record Of Cage Achievements

By BILL THRONEBURG

Had you mentioned the name Everett N. Case to even the most avid sports fan in North Carolina prior to the winter of 1946, you would have been hard put to find one who recognized the name. Yet on July 1, 1946, Everett Case became head basketball coach at North Carolina State College.

Actually it isn't too surprising that he should be relatively unknown in the state, for until the winter of 1946, basketball occupied pretty much of a back-seat in the sports world of North Carolina. Certainly it was played in the schools, but it flourished only in the small country schools where football equipment couldn't be had.

Dynamic Figure

Then came a grey, dynamic Mr. Case into the sports scene. He immediately set out to infuse every basketball stashed away in every gymnasium in the state—quite an undertaking in the face of a wave of football fever set up by one Charlie Justice.

But Case had worked with high schools, large and small, before in Indiana and proceeded to go about his determined way conducting cage clinics, coaching schools, and speaking at schools throughout the state. How effective was his campaign? You need only drive thru the small towns of the state where new gymnasiums are mushrooming up, or notice the backboard and goal in a circle of hard-packed red earth beside the crossroads store to find your answer.

Rules Southern Conference

For three years now, Everett Case has ruled the Southern Conference with an iron hand—his State teams having won three consecutive Conference titles. His overall record at State shows 81 victories against 16 defeats and a record of having lost only three conference battles of 60 played and of never having lost a tournament contest.

Actually, any awesome record Coach Case compiles at State College will come as a surprise only to those who are unacquainted with his previous work in the coaching field. For his has been a crowded career and one that began at the tender age of 18 years. At that time he coached his first team at Connersville, Indiana. From then until he graduated from the University of Wisconsin in 1923, his education occupied space not taken up by coaching. He later earned his masters degree in Physical Education at the University of Southern California.

Reign Began in 1922

Case's greatest and longest reign as a cage mentor began in 1922 at Frankfort, Indiana. There for 10 years his teams were the scourge of Indiana basketball circles. His quints played in every state tournament from 1922 to 1931 and carried away state titles in 1925 and 1929.

In 1931 Case went to Anderson, Indiana for two years, then moved on to the University of Southern California to assist with the Trojan junior varsity.

Frankfort called Coach Case back in 1935 and his teams bagged the state titles again in 1936 and 1939. For his 13 years of coaching at Frankfort, Case had compiled a record of four state titles and the distinction of being the only coach in Indiana's history to cop the highly-regarded tournament four the first time. But it will be more than a dedicatory game for Coach Case—something more in the nature of a personal triumph actually. For it was largely thru his never-failing drive and initiative that completion of the structure was assured. So the entire State student body will gather in the Coliseum Friday night to express in some measure its gratitude to the man who brought new life to a somewhat routine existence at State College. We are proud of our position in big-time basketball. It's a relatively new mantle we wear, but with Coach Case directing court fortunes, it is one that promises to settle comfortably in years to come.

In 1942 Case was commissioned a lieutenant in the Navy and in 1944 was assigned to DePauw University at Greencastle, Indiana, as athletic director and basketball coach. His winning ways followed him there, for his teams won 29 of 32 games and bagged the Indiana service team championship.

From DePauw, Case moved thru Navy channels to Ottumwa, Iowa. There he concluded a brilliant Navy coaching career by carrying the Iowa Seahawks to a season of 27 wins in 29 games played.

Coached All-Americans

Coach Case has directly coached four All-America players—Jay McCreary of Indiana University prepped under him; Ralph Vaughn, Southern Cal. star; Bob Kessler of Purdue; and of course the great and familiar redhead Dick Dickey.

Always a conscientious basketball man, Case is constantly at work to improve the game both for the spectator and player. Yet, perfectionist that he is, Coach Case never forgets that the individual makes up the unit, and is a constant advisor in his players' studies and on any other matters that concern them.

Due recognition of Coach Case's untiring efforts in promoting greater interest in basketball has finally come during these three years at State College. He has been the subject of a feature story in *Colliers Magazine*; has been named to the National Collegiate Athletic Association basketball committee, has been appointed to National Basketball Coaches Association rules group, and the Quaker Oats National Basketball Board. He is the author of articles for various athletic publications and also recently completed a book entitled "The Pressure Game in Basketball".

Personal Triumph

Friday night will find a basketball game being played in the William Neal Reynolds Coliseum for

Shown above are some of the members of the Junior Citizens of Raleigh getting Coach Beattie Feathers autograph following a big Thanksgiving banquet given them by the State College Monogram Club. The Club plans to make this banquet an annual event.

Monogram Club Plays Host At Thanksgiving Feast

Redcoat Band Will Play Tonight

The "Redcoat" Band, which had a busy season providing peppy sideline music and interesting halftime pageantry at the four home games and four out-of-town games during the football season will be on hand for the opening basketball game in the new coliseum tonight.

The band will also furnish music at some of the games throughout the basketball season as well as present one or more concerts in Pullen Hall during the winter term. The Glee Club and the Symphony Orchestra will also be heard in concerts as soon as they get back into practice after the holiday season.

The Glee Club and a Brass Choir selected from the Redcoat Band will participate in the huge Christmas Festival at Raleigh Memorial Auditorium on Saturday night, December 10.

Last week the Monogram Club sponsored a turkey dinner for some fifty-odd members of the Junior Citizens of Raleigh. The boys, ranging from 8 to 12 years, came at 5:30 and were fed turkey and all the trimmings. After the dinner, pictures of the State-Wake Forest game were shown and narrated by several members of the football team.

Special Programs The Club printed special program souvenirs for each boy, and had the names of all club members on them. When the coaches and football players arrived they were swamped for autographs, and each kid was not satisfied until his program card was filled.

Bill Thompson, President of the Club, termed the banquet a big success and said that plans were being made to make it an annual Thanksgiving affair.

The YMCA of Raleigh has recreation classes for these boys during each week, and it was through their help that the club was able to entertain these boys.

Student Exchange To Open December 12

The Student Book Exchange will open Monday, December 12. The hours of the Exchange will be from nine until four through Thursday of exam week. Beginning January 2, the Exchange will be open from eight until five for the first two weeks of the winter term.

Slight Change

There has been a slight change made in the fee charged for selling books, beginning this term. Previously, a fee of ten cents was charged by the Exchange for each book sold. Beginning with the Winter term a fee of ten cents will be charged for all books priced \$3.99 and under. A fee of five percent of the selling price will be charged for all books and equipment priced \$4.00 and above.

New Cadet Colonel

Shown above is Edwin B. Gentry, recently appointed ROTC Cadet Colonel, being congratulated by Col. Samuel A. Gibson, Head of the College's Military Department, Gentry, an advanced Signal Corps Student, is from Greensboro, N. C.

Edwin Gentry Named ROTC Cadet Colonel

Edwin B. Gentry, a Signal Corps Advanced ROTC student, has been selected to command the North Carolina State College Reserve Officers Training Corps Regiment, it was announced recently by Colonel Samuel A. Gibson, Head of the Military Department at State College.

The son of Mrs. J. E. R. Gentry of Greensboro, N. C., Gentry resides with his wife at Apt. 36-H, in Verville, on the State College Campus.

Combat Veteran

A combat veteran of World War II, Gentry served for over two and one half years with the Marine Corps. He graduated from Greensboro High School in 1944 and en-

tered State College in 1946.

Colonel Gibson stated that Gentry's selection as Cadet Colonel was a fitting climax to his distinguished career at State College. His academic grades and leadership in campus activities have been outstanding. By virtue of his demonstrated leadership, he was designated last Spring as both a Distinguished Military Student and as the outstanding ROTC Cadet. During his attendance at the Signal Corps ROTC summer camp at Ft. Monmouth, N. J., Gentry was named as one of the three outstanding cadets of well over six hundred from Colleges and Universities all over the nation.

Vetville Day Features "Beauty" Contest

By EDWARD G. ROBINSON
There have been many spectacular events on the State College campus, but none so spectacular as the beauty contest in Vetville last Friday night.

Seeing the male sex stroll across the stage in a graceful manner and showing all signs of feminine beauty, was the climax of the hilarious evening.

Bill Venable, otherwise known as "Miss Rosie Glo Turner," was crowned Queen of the charming beauties, and he was presented a bouquet of flowers and a petticoat as a gift.

Mac Larrabee, the charming "Miss Vera Vivacious Cague," was runner-up in the beauty contest.

All the contestants were congratulated for their fine work in making the contest a success. The judges for the contest were Professor Hayes of the School of Design, Mr. Franklin, supervisor of Vetville maintenance, and Mr. Franklin of Raleigh.

Mrs. Mary Parker and Mrs. Becky Riggs were in charge of the committees that made arrangements for the "Vetville Day" celebration.

are temporary until the interior of the arena is finished.

Portable Court

The DiNatale Brothers of Boston, who installed the \$12,000 portable basketball court, said that the indoor arena is one of the nicest they have ever seen. The basketball court is made of the best materials obtainable, they explained.

Sport reports, Radio Announcers, news photographers, etc. throughout the country will be here for the

game. Governor Scott and many prominent authorities are expected to attend.

No Cars

No cars will be allowed in the immediate vicinity of the Coliseum, but parking facilities will be furnished at Doak Field.

State's strong freshman team gets the programs started at 6:30 against the Louisburg College team. The Varsity contest is scheduled to start at 8 o'clock.

"Beauty" Contestants

Shown above are the contestants in the "Beauty" contest held in connection with the "Vetville Day" celebration. Front row, left to right, Edward Robinson, Bill Venable, winner of the contest, and Mac Larrabee. Back row, left to right, Sam Inman, Eugene Kenny, and H. Q. Simmons.
