

Coliseum Rink Expected To Be Ready In April

The ice rink in the William Neal Reynolds Coliseum will be used for ice skating, hockey, and ice shows upon its completion about the middle of April, W. Z. Betts, manager of the Coliseum said this week.

Stahl-Rider, Inc., of Raleigh, has the contract for installing the ice-making machinery.

Installation of the ice-making equipment is the last step in completing the ice rink, which is 90 by 200 feet.

Other work toward the rink's erection was done by the Bonita Insulation Company of Greensboro, which insulated the rink; the W. H. Sullivan Company of Greensboro, which installed the piping; and the Kalman Floor Company of Charlotte, which laid a monolithic floor.

In addition to the rink, the Coliseum, Betts said, will have a skate concession room and skate repair room. Skates, he said, will be rented, repaired, and stored for patrons of the rink.

Operation of the rink will begin as soon after its completion as possible, Betts said.

The Coliseum's arena includes a floor adaptable for conversion into the ice rink. The rink floor has over 12 miles of piping for use in freezing water on the floor.

The ice-making machinery, now being installed by Stahl-Rider, Inc., is capable of producing 380,000 pounds of ice every 24 hours.

Making ice for the rink, Betts said, is just like freezing water in a home refrigerator.

Electric motors pump brine, with a temperature of 20 degrees below freezing, through the floor piping at the rate of 48,000 gallons an hour. This process is begun before the water is sprayed on the floor.

After the floor has been chilled the proper amount, water hose connected to supply outlets on each side of the Coliseum floor spray a thin layer of water over the floor.

When the first layer of water freezes, more water is sprayed on the floor. This process is continued until the proper thickness of ice has been built up.

About one-half inch of ice is required for ice hockey, a game requiring a hard surface, while about one inch of ice is necessary for public ice skating and for ice shows, events which require softer surfaces.

Round brass plugs for the installation of ice hockey barriers and hockey nets, locking flush with the floor surface, already have been installed in the Coliseum. These plugs will also be used for guy wires supporting circus facilities and for other installations requiring extra supports.

One chute was built into the Coliseum floor for the purpose of disposing of the ice following ice games or exhibitions. The discarded ice will travel down this chute to an ice pit in the coliseum basement, where it will melt and flow out of the building through drain pipes. Drains also have been built along the floor to catch any ice which may melt before reaching the chute.

Vann To Present Athletic Petition

By PAUL FOGHT

Alex Vann, chairman of the Physical Education Committee, has been notified that the executive committee of the College Board of Trustees will meet in Gov. Scott's office at 11 a.m., January 21. Vann will present to this group the proposal of the physical education department, along with petitions bearing the signatures of over 2,300 State College students who have demanded improvement.

To Visit Members

In the next week Vann plans to travel across the state, visiting each of the 13 members of the committee. He hopes to win their support before he presents the plan at the meeting in the governor's office. This group must pass on the proposal. Vann is the only student who will be permitted to attend the meeting.

The plan which Vann will present calls for an additional physical education fee to be collected from every student for the exclusive use of the Department of Physical Education. This fund will be administered by the Physical Education Committee who will give final approval to a budget submitted by the Director of the Department of Physical Education.

Ag Club To Meet
The Ag Club will meet Tuesday, January 17, at 7 P.M. in 118 Withers Hall. A movie will be shown on "The Science of the Dairy Cow."

E. T. Hollowell, Reporter.

Vaughan To Direct Mechanics Department

Prof. L. L. Vaughan, who retired last July 1 as director of instruction in the School of Engineering at State College, has been appointed on temporary basis as acting head of the College's Engineering Mechanics Department, Dean J. H. Lampe announced recently.

Dean Lampe said that Professor Vaughan, who served on the college's faculty for 41 years prior to his retirement, has agreed to direct the department's operation until June 30. He assumed his duties yesterday.

Smith III
"This adjustment," Dean Lampe said, "has been made necessary because of the illness of Dr. G. Wallace Smith, head of the Department of Engineering Mechanics, and the fact that a convalescing period is in order which most probably will not permit him to return to take up his full duties before July 1, 1950."

As acting department head, Professor Vaughan, Dean Lampe explained, will have full responsibility "for the operating program and for planning as to staff needs and scheduling for the remainder of the year and for the school year 1950."

The School of Engineering, the dean continued, "looks forward to his counsel and effective contributions."

To Develop Curriculum
In addition to his departmental duties, Professor Vaughan will also assist in the further development of the new curriculum in heating, ventilation, and air conditioning. The curriculum was established last September and is offered as a part of the work of the Mechanical Engineering Department.

Professor Vaughan, a native of Southampton County, Va., was connected with State College from 1902 when he entered school as a freshman until his retirement last July with the exception of two years, 1909-1911, spent at Columbia University. During his 41-year tenure with the college, he worked his way up from the rank of instructor to head of the Mechanical Engineering Department. Under his direction, the department was brought to a foremost position in the South.

He was appointed acting dean of the College's School of Engineering in June, 1942, when Dean Blake R. Van Lear was called to active duty in the U. S. Army. Dean Van Lear was later appointed president of Georgia Tech and Professor Vaughan held the job as acting dean until Dean Lampe was named to direct the School of Engineering in 1945.

Blue Key Initiates Ten New Members

Six seniors and four juniors were initiated into Blue Key, junior honorary society, at a special initiation program held in the YMCA on January 6. Dr. Lodwick Hartley, head of the English Department, was guest speaker.

Blue Key is one of the top national leadership and scholarship fraternities represented on the State College campus. Its members have distinguished themselves in almost every part of the United States. Selection for membership in Blue Key is one of the top honors that can come to a student at State and its members come from all departments on the campus.

Seniors Selected
The seniors selected for membership and their activities on the campus are:

Richard David Dillenger, Jr., Keramos, Theta Tau, Phi Eta Sigma, Tau Beta Pi.
Russell Mayo Sannett, Tau Beta Pi, scribe of Theta Tau, president of Eta Kappa Nu, A.I.E.E., Engineer's Council.

Herman Eugent Seibel, Pi Tau Sigma, president of A.S.M.E., vice president of Tau Beta Pi.

Sanford Oliver Gluck, Organizations Editor of Agromuck, Textile Forum, Watauga, North Carolina Press Association, Greater University Student Council, Acting Secretary of the Campus Government, vice president of Cadet Officer's Association, Seaboard and Blade, Glee Club, Sigma Alpha Mu, WVVP, Delta Kappa Phi.

Thomas A. Wood, president of Beta Psi, president Glee Club, Orchestra, Rpd Coat Band, secretary Senior Class, Phi Eta Sigma, Textile Forum, Seaboard and Blade, Cadet Officer's Association.

Leon G. Ballance, vice president of Alpha Zeta, Eta Sigma, Ag Club, president of Agronomy Club.

The juniors selected for membership are John H. Beaman, Charles Ray Pugh, Harvey H. Scheviak, and Jack G. McCracken.

New Manager

Charles G. Buie, of Biscoe, N. C., has become Business Manager of the Textile Forum, the magazine announced this week. Charlie, formerly Circulation Manager, was elevated to the Business Management on the graduation of Pate Forehand, who has held the office since the spring of last year.

Succeeding Charlie as Circulation Manager is Julius Lasmick, of Morristown, Tenn., who was previously a member of the Business Staff.

Both students will hold their positions until the end of the present academic year.

A.I.A. Exhibit Now At School Of Design

The "1949 National Honor Awards" exhibition of the American Institute of Architects is now on display in the exhibition galleries of the State College School of Design on the third floor of Daniels Hall.

The exhibition, sponsored jointly by the American Institute of Architects and the American Federation of Arts, will be shown at the college through January 22. The showing is open to the public without charge.

Among the items in the exhibition are photographs and plans for a home in Marin County, Calif., and a school in Corona Del Mar, Calif., which won the top ratings for "distinguished design" in the AIA's national honor awards program held last spring in Houston, Texas.

The residence—a \$19,000 two-bedroom house located near a hillside and commanding a view over a valley—was designed by architect Frederick L. Langhorst of San Francisco. It was "the best interpretation of the needs of an individual family and the best use of the building site," the jury decided. The exterior is composed principally of glass and also contains wood and stone.

The Corona Del Mar School was designed by Marsh, Smith and Powell, a Los Angeles architectural firm. Built in 1945, it accommodates 390 students, is on one level and contains 18,000 square feet. It cost \$142,000 and is made of wood frame and stucco erected on a concrete slab.

Lectures Here

Pictured above is Dr. Sherwood Eddy, noted world traveler and lecturer, who will speak on "Asia in Revolution" Thursday night at the College Y.

Publication Staff Makes Changes; Scheviak, Culp Head Handbook

To Edit Handbook

This week several staff appointments were announced by campus publications.

The Publications Board has announced that Harvey Scheviak, Jr., Textiles, of Kenosha, Wisconsin, will edit this year's COLLEGE HANDBOOK. Charles B. Culp, Sophomore, Agriculture, is to be business manager.

Scheviak Resigns
Scheviak has resigned as managing editor of the Technician to take this post. He has served on the editorial staff of the HANDBOOK for the past two years.

Scheviak states that he "has hopes that the issue will be up to the standards set last year by editor Bill Barnhardt and business manager Earl Dicks."

The COLLEGE HANDBOOK was formerly a project of the YMCA, but for the past two years it has been under the supervision of the Publications Board. The book is prepared during the winter and spring terms for publication in the summer and distribution at fall term registration.

Technician Editor Joe Hancock has announced that former Technician editor Bill Haas, Sr., Engineering, from Wilmington, N. C., will replace Scheviak as managing editor.

Lintdodgers Ball To Feature Elliot Lawrence's Orchestra

Elliot Lawrence, Lintdodgers Ball Front Man

One of the youngest bandleaders in the nation, Elliot Lawrence fronts his campus-favorite orchestra at the tender age of 24. Lawrence has been named by LOOK, ORCHESTRA WORLD, DOWN-BEAT, and METRONOME as one of the nation's top orks. The young musician also is among the "Ten Best Dressed Men in America."

Concert To Be Given At Pullen Hall On Saturday

The annual Lintdodgers' Ball, sponsored by the Tompkins Textile Society, will be held on Saturday, January 21, from nine until twelve o'clock at night in the Frank Thompson gymnasium.

Elliot Lawrence and his Orchestra will provide the music for the dance and will also present an afternoon concert in Pullen Hall from four until five-thirty o'clock on Saturday afternoon. This concert will be open to all students and their dates. There will be no admission charge for the concert.

Record Concerts

The weekly record concerts will be resumed this Friday evening in the YMCA Conference Room from 7:30 to 9:30. This week's program will consist of Symphony in G-Major by Sowerby, Sonata on the 94th Psalm by Reubke, and Concerto for Organ and Strings No. 3 by Felton.

AICHE

The American Institute of Chemical Engineers will hold the first meeting of the winter term in Room 117 Winston Hall on Tuesday, Jan. 17, 1950 at 7:00 p.m. A movie on tin plate will be shown.

Informal Affair

The dance, which will be informal, is being given for the entire membership of Tompkins Textile Society. (All students registered in the School of Textiles belong to Tompkins.)

The Lintdodgers' Ball, the first large dance of the Winter Term, has proven year after year to be an outstanding social event, featuring some of the nation's finest in musical entertainment. The "Heart to Music" of Elliot Lawrence is certainly in keeping with this tradition.

Winner of the Billboard Magazine Campus Poll for the third consecutive year, the Lawrence orchestra has been hailed as the greatest college prom band in many years. Not since the Casa Loma Orchestra was at its peak has a name orchestra so dominated the prom scene.

Band of the Year

Just beginning its fourth year in the business, the Lawrence band has won more awards than any other young group. Named as "The Band of the Year" by Look magazine, the orchestra came in for a similar accolade from the editors of Orchestra World. In addition it placed high on the Down Beat and Metronome popularity polls.

Featured with the orchestra in their appearance here will be vocalists Rosalind Patton and Jack Hunter, who are rated as the most capable singing team with a name band today. Outstanding instrumentalists and the piano magic of Lawrence himself highlight the orchestra's presentation.

Unusual Instrument

Never one to steer on the straight and narrow paths of common instrumentation, bandleader Elliot Lawrence has added still another unusual instrument to his orchestra's array. The youngster who introduced the oboe, French horn, bassoon, and the "saxophone" section to popular dance bands, boasts a genuine theramin, the instrument that is played on a beam of light.

Theramins are as uncommon as snows. There were only one or two in the country before "The Lost Weekend" used a theramin for their weird effects. Now there are about ten of them around but only one in a dance band.

Played on a beam of light, the instrument is an electronic affair, employing many tubes and light cells. The ethereal sounds are created when a hand or wand is passed between the two electric eyes, breaking the circuit.

Elliot Lawrence and his orchestra hold a unique record in the dance field. They have been invited back, and in most cases returned, to every place they have ever appeared.

Other Awards

Along with all the other awards he's captured, bandleader Elliot Lawrence has been named to the "Ten Best Dressed Men in America" list.

Members of the Dance Committee for the Lintdodgers' Ball are: Bob Spilman, Chairman; Bill Barnhardt, President of Tompkins Textile Society; Hall Wingfield, Secretary of Tompkins; Dick Wilkins, Treasurer of Tompkins; Weldon Cable; and Rodney Coleman.

Bids for the dance will be distributed to members of Tompkins Textile Society on Tuesday, January 17, from eight-thirty until nine-thirty at night and on Wednesday, January 18, from seven until nine o'clock at night. No bids will be given out except at these times.

Russian

All students interested in studying Russian are advised to contact D. V. Pikner, 114 Peele Hall, for admission to the course.

This is a private course which carried no credit; however, records will be kept and turned over to the Modern Languages Department for filing.

Dr. Pikner is available for interview Monday, Wednesday, and Friday from 11:00 to 12:00 and Tuesday, Thursday, and Saturday from 10:00 to 11:00.

Wolfpack Ninth In Nation According To A. P. Poll

Dr. Beck Speaks On Recent Atomic Power Developments

"In dollars and cents, it appears that nuclear power could even now compete with other sources of power in certain parts of the world," Dr. Clifford K. Beck, head of the Department of Physics at State College and war-time atomic scientist, said in an address at the college Monday night.

Dr. Beck, speaking at a public meeting of the college chapter of the Society of the Sigma Xi, said that atomic power production could not compete with other sources in the United States at the present time and that this development "may not be so here for many years."

Large scale establishment of nuclear power plants on a practical basis, Dr. Beck said, depends upon several factors, including the supply of fissionable fuels and the demand or need of new sources of power, technical problems, and costs.

Dr. Beck, who worked on the world-famed Manhattan Project during the war and later directed research toward the peace-time development of atomic energy at Oak Ridge, Tenn., said that the amount of power produced annually in the United States from coal, oil, natural gas, and water is equal to that "which would be obtained from the fission of about 800,000-pounds—or 400 tons—of uranium."

The present known supply of natural uranium, he stated, would supply America's power needs from one to ten years. He pointed out, however, that there is "a process, known as breeding, which may place at our disposal 600 or 800 times as much nuclear fuel, namely: uranium 238 and thorium 232."

"Uranium 238," he reported, "is 140 times as plentiful as U-235, and thorium 232 is 500 times as plentiful. Neither of these are naturally fissionable. Yet, upon exposure to the radiation from a nuclear reactor, these isotopes may be converted into a form which behaves similarly to the U-235 isotope."

"Thus, in 'burning' a pound of nuclear fuel, 450,000 kilowatt days of power will be released for useful purposes, and a large part of a pound, or perhaps even more than a pound, of new fuel will be synthesized."

In this week's Associated Press basketball poll, State's twice-beaten Wolfpack was rated as the ninth best team in the nation. The Pack dropped from seventh to ninth after the stunning upset at the hands of Duke's Blue Devils.

LaSalle, the team the Pack will entertain tomorrow night, is currently holding down the 13th spot. And Long Island University, who will be met next Tuesday at Madison Square Garden, is resting in the third position behind St. John's and Kentucky.

The Brooklyn Redmen, knocked out of the thinning ranks of the nation's major undefeated teams by CCNY, held their slim lead over once-beaten Kentucky in the second of the weekly A.P. ranking polls.

Indiana, which was ranked its first listing last night by Michigan, took fourth place followed by Holy Cross, Bradley, CCNY, Duquesne, North Carolina State, and UCLA in that order.

St. John's with 26 first place ballots, accumulated 92 points in the voting of 122 sports writers and sportscasters. Kentucky, receiving 24 No. 1 nominations piled up 87 points. LIU collected 820 points and was named for first place on 30 ballots.

With one exception, CCNY, the first 10 teams are holdovers from the previous week. Improving City vaulted from 14th to its No. 7 rating.

The voting was based on games played through the last weekend. Thus, Indiana moved up one peg, from fifth to fourth; Holy Cross advanced from sixth to fifth; Bradley dropped from third to sixth and St. Duquesne, who had slipped from seventh to ninth, UCLA slipped from ninth to tenth. Duquesne remained in the No. 8 slot.

Undefeated Cincinnati, unranked the week before, jumped to 12th place. Cincinnati and Duquesne, two of the four unbeaten quintets in the top 20, met tonight. Holy Cross and Siena, No. 14, are the two other all-winners.

The top teams (first place ballots in parentheses, and records including Monday night's games) with first place worth 10 points, second place nine points and so on down the line:

Team	Record	Pts.
1. St. John's (26)	13-1	929
2. Kentucky (24)	9-1	871
3. Long Island (30)	13-1	820
4. Indiana (18)	10-1	755
5. Holy Cross (19)	11-0	702
6. Bradley (3)	12-2	659
7. C.C.N.Y.	9-2	302
8. Duquesne	9-0	238
9. N.C. State	10-2	208
10. UCLA	10-3	194
THE SECOND TEN		
11. Minnesota	8-2	164
12. Cincinnati	6-0	102
13. LaSalle	7-2	102
14. West. Kentucky	8-3	78
15. Ohio State	7-2	68
16. Missouri	9-2	56
17. Villanova	8-2	46
18. Siena	14-0	45
19. Oklahoma	6-3	38
20. Washington	12-1	35

New Managing Editor

Named as Managing Editor of THE TECHNICIAN is Bill Haas, former Editor-Elect of the student paper. Haas was elected to head the paper last Spring but dropped out of school for the Fall Term. The new Managing Editor recently stated that he would like to "run again for the job in the Spring elections."

March of Dimes

An urgent call has been issued by the National Foundation for Infantile Paralysis to all college students to back an organized March of Dimes Campaign on the campuses. The Foundation points out that an alarming number of polio cases during last year's record epidemic were of college age.

Clarification

It seems that a clarification of the TECHNICIAN'S editorial policy is necessary. Everywhere on this page is a letter to the editor objecting vigorously because the TECHNICIAN permitted a non-staff writer to be a guest columnist several weeks ago.

So Shall Ye Reap

As you sow, so shall ye reap. . . There is no more education in a college than the student wants to get out of it. . . The average student must be led to the water and must also be made to drink! One of the evils that is becoming increasingly obvious as the influx of college graduates hits the labor market is the lack of education of the average student.

—HAAS.

With The Greeks

By JACK McQUINN Last term this writer has the self-appointed honor of taking at least one meal with just about every Greek brother in the building which serves food to its membership. This little dinner time jaunt around "the circle" was strictly for the purpose of becoming better acquainted with the clubs whose names appear in this column each week.

THE KEYHOLE

By MAX HALBER

To most of us, extracurricular lectures are something that we can take or leave, and unfortunately all too often we leave it. If there is a sexy movie on at the Palace, if there is a party at W.C., if the basketball fever has us in its grip, or if Penelope from first floor Jones (on the Angel Farm) is just dying to go dining and dancing, then to hell with Professor Grope A. Long or Dr. Flye A. Kyte have to mumble about the immortality of Janebrugs.

Here is good news for the adventurous. Have you ever dreamed of visiting the Taj Mahal, of going up the Eiffel Tower, of riding camels, of spending a night at the foot of the pyramids? Most of us have, and we get itchy feet thinking about it.

Dorm Doings - - -

It would certainly be a task to try to keep up with everything that is happening in all the dorms. One dorm, one floor and sometimes one room is enough for one person. We give you the things that we hear and see. Last Saturday morning out in Tucker a couple of fellows were reading their "Technician". As I passed by, one fellow made this remark: "I notice that the Inter-Dormitory Council has something to gripe about every week in this column 'It Does Count'."

Recital

A program which has previously been very well received in Greensboro, Chapel Hill, Durham and Winston-Salem will be presented in Raleigh next Wednesday evening, January 18. At that time Elisha Katin, aided by ten students, will present a lecture and recital featuring Jewish music.

World Traveler

To Speak Thursday

On Thursday, January 19, at 8:00 p.m. in the Auditorium of the State College YMCA, Dr. Sherwood Eddy, world traveler and internationally known lecturer, will give a lecture on "Asia in Revolution."

Public Lecture

On Wednesday, January 18, at 8:30 p.m. in the lecture hall of Mr. Charles Stein, distinguished architect of New York City, will give an illustrated lecture on "The Evolving City."

Chi Epsilon Plans

For National Conclave

A meeting was held by Chi Epsilon Fraternity Thursday night, January 6, to make plans for the national conclave to be held here on February 24 and 25. The North Carolina State College Chapter will be host to representatives from schools in all sections of the country.

Agronomy Building

Work Begins Soon

Bids for the erection of an Agronomy Building and a Headquarters for Greenhouses at State College will be received at the office of J. G. Vann, assistant controller of the college, until February 16 at 2 p.m., according to an advertisement now being circulated by the institution.

OPEN FORUM

When the National Interfraternity Council met in Washington on November 26, 1949 and recommended that fraternities open their membership to all on an equal basis, I hoped that the TECHNICIAN would run an editorial on this decision.

Before dealing with the article itself, I should like to have one point of TECHNICIAN policy clarified. Why is Ted Williamson extended the courtesy of a column where he can express his opinions as a "guest columnist?" An editorial statement makes it clear that the policy of the TECHNICIAN "is in no way connected with the views stated in the column 'With The Greeks'."

IT DOES COUNT

Sponsored by the Interdormitory Council Are you a marker? Can you guess just how much of your money is spent annually because some students carelessly mark up dormitory walls? Nope, you're wrong. It's more than that.

Contracts For Engineering Building Awarded; To Be Ready For Use Early Next Year

Goldsboro Company To Do Construction

Bids for the erection of the new Mechanical Engineering Building at State College were opened at the college Dec. 7.

Lowest base bids for the general construction of the building and for the installation of plumbing, heating, electrical facilities and other features amounted to a total of \$549,325—a figure which is \$200,274 less than the amount appropriated for the building.

A total of \$929,600 was appropriated by the 1947 and 1949 sessions of the General Assembly for the building and equipment. Of this sum, \$749,600 was to go for the building itself, and the remaining amount of \$180,000 was earmarked for equipment.

The low bidders and the amounts of their bids are as follows:

For the general construction—T. A. Loving and Company of Goldsboro, \$434,434; for the electric facilities—Cheney Electric Company of Charlotte, \$45,860; for the heating system—Sam E. Beck Company, Inc., of Winston-Salem, \$31,684; for the plumbing system—Bieman and Rowell of Raleigh, \$30,470; and for a freight elevator—Westbrook Elevator Company of Danville, Va., \$6,878.

College authorities said they expect that the contracts will be awarded to the low bidders.

Officials of the institution who assisted in opening the bids included Chancellor J. W. Harrelson; J. G. Vann, business manager and assistant controller; W. M. Murray, of the business office; W. F. Morris, director of services and superintendent of buildings and grounds; and Prof. Karl P. Hanson, head of the Mechanical Engineering Department.

Architects for the building are

Northup and O'Brien of Winston-Salem.

Construction work on the new structure is expected to start shortly after the awarding of the contract. Dean J. H. Lampe of the College's School of Engineering predicted that the building will be ready for use by January, 1951.

The building will be located on University Avenue between the Diesel Engineering Building and the Bureau of Mines Building in the central section of the State College Campus. The structure will be built in the shape of an "L" and will be similar in exterior design to the Engineering Laboratories Building now nearing completion on University Avenue.

The Mechanical Engineering Building, long regarded as one of the most urgent needs on the campus, will be combined with the Diesel Engineering Building, which was completed in 1944, to provide for an exchange of facilities between the two departments.

Ag Club Hears School Dean

Dr. J. H. Hilton, Dean of the School of Agriculture, spoke to the first winter term meeting of the Ag Club Tuesday night, January 10 on "The Proposed Building Project at N. C. State College". Dr. Hilton was introduced by Jack Jenkins, the program chairman.

Dr. Hilton showed the group the architect's sketches of the Agronomy, Forestry, Horticulture, Botany-Zoology, and Poultry Science buildings which will be constructed on the present Trailwood site of the campus. Dean Hilton told the club that when these buildings are completed, N. C. State College will have facilities for experimenting and testing in the field of Agriculture equal to any of the land grant colleges in the nation.

Square Dance

Becton and Bagwell Dorms are making plans for a big round and square dance at the Armory on Friday night, January 20th, 8 until 11.

The two dorm clubs will have approximately 75 girls, from various places, there for the dance. If you desire to bring your own date, the tickets are the same—50¢ stag or drag.

The State College Hill Billy Square Dance Band will furnish the music for the square dancing. So all you boys in Becton and Bagwell see your club presidents or social chairman and make plans to attend this big dance.

Speaker at Church Service in Verville

Mrs. Louise Gates Eddy will be the speaker at the 11:00 a.m. Church Service in the West Campus YMCA in Verville Sunday, January 15th. A special feature of this service will be a baritone solo, David Guton's "Prayer" which will be sung by Lyndon Sikes, Sophomore from Greensboro.

Mrs. Eddy is a graduate of MacMurray College, B.A., 1912, LL.D., 1943, and is President of the Alumnae Association of the college. She has served the YWCA in Toledo, Rio de Janeiro, Brazil, Montreal, and, from 1939 to 1946 she was General Secretary of the National YWCA of Canada. She has a pleasing personality, is an excellent public speaker, and is well received by students either in public address or in informal discussion. She has had wide experience, and like her husband she has visited the principal countries of Europe, Asia, and South America.

Sunday night, January 15th, at 7:30 Mrs. Eddy will speak in West Raleigh Presbyterian Church under the auspices of the Westminster Fellowship on the subject, "The Mission Enterprise in the Orient." Students, faculty and citizens are cordially invited to attend both of these meetings.

Department Head Honored By Sociological Society

Dr. C. Horace Hamilton, head of the Department of Rural Sociology here, has been elected president of the Rural Sociological Society of America for 1950, college authorities were notified recently.

Election of Dr. Hamilton to the top post in the national organization took place at the society's annual convention in New York City recently.

The society's membership is composed of professional workers, research authorities, extension service specialists, and others interested in rural welfare. It has members in all of the 48 states and in several foreign countries.

Dr. Hamilton, managing editor of the Journal of Rural Sociology for the past nine years, has been a leading figure in the organization for several years. In addition to handling all of the society's administrative functions during the next year, he will also preside over the national convention in Denver, Colo., next September.

Dr. Selz C. Mayo, another faculty member in the State College Department of Rural Sociology, was named acting managing editor of the Journal of Rural Sociology and will handle the journal's editorial duties during Dr. Hamilton's tenure as president. The journal, widely known among professional magazines in the United States, is published at State College.

Mom, Pop, Kiddy Course Offered

Professor W. N. Hicks, Head of The Philosophy and Religion Department at N. C. State College, will offer a course, "Parent-Child Relationships" for the benefit of Students' Wives of West Haven and Verville. The texts to be used are "Growing Together"—Bacmeister and "Your Child's Religion"—Eakin.

The class will meet in the West Campus YMCA for six consecutive Thursday nights beginning January 19th. The class period will be from 8:00 to 9:30. The six topics Professor Hicks will present are:

January 19, A Sufficient Philosophy of Parenthood; January 26, The Positive Concept of Discipline in the Home; February 2, Helping the Child Gain Mastery of Language; February 9, Logic and Semantics for the Child; February 16, Sex Education in the Home; February 23, The Functional Approach to Religious Education.

Professor Hicks is generously giving his services, so there will be no charge for the course. In his letter accepting the invitation to give the course Mr. Hicks said, "I am glad to have this chance to render what may be a small service to the Verville and West Haven groups and I trust that this program will be in the nature of a contribution to your total 'Y' program for the Winter Term."

Feltner To Direct Clay Products Research

Charles E. Feltner, head of fluid mechanics courses in the Department of Engineering Mechanics at State College, has been named research director of the Clay Products Research Institute, Inc., of Raleigh and Atlanta.

Announcement of Feltner's appointment to the regional post was made here last week by Dean J. H. Lampe of the College's School of Engineering and Dr. William G. Van Note, head of the College's Engineering Research Department. Dean Lampe and Dr. Van Note said that Feltner will direct a survey of all available structural information related to clay products building materials and their industrial application, will make an analysis of this data, and will compile

the knowledge in this field of study for publication in a handbook.

Feltner's new duties will also include the work of directing experimental work suggested by the regional survey. His work will be centered in North Carolina, Georgia, Tennessee, and other Southern states.

He will maintain his offices on the State College campus and will continue to teach courses in fluid mechanics and handle other faculty assignments. He will have a staff of

one or more research engineers to assist him with the clay products research.

The regional project will be conducted by Feltner through the College's Department of Engineering Research and under a contractual agreement with the Clay Products Research Institute, Inc., headed by President Guy H. Merry of Augusta, Ga. The Institute will finance the project, which may lead to new industrial possibilities for clay products.

Outing Club

Starting their new winter program with a hike in Crabtree Park, followed by a winter roast, about twenty members of the State College Outing Club took advantage of the clement, yet crisp January weather last Sunday afternoon. Mr. Winkler from the E. E. department was the faculty representative, while two Meredith College girls and two Raleigh girls brought to eight the number of feminine representatives.

Among the weekly hikes, two overnight camping trips have been planned for the Club's winter term program, and on February 10, 1950 the Anniversary Square Dance will be held to which students and faculty are invited and welcome.

NEW career opportunities for you in the U. S. AIR FORCE as an OFFICER AND NAVIGATOR

In this era of long range flights, the role of the navigator has become increasingly important. The U. S. Air Force now offers new opportunities to young college men between the ages of 20 and 26½ who are single and can qualify for such training.

You'll be an Aviation Cadet! And, you'll receive the best available training—including 184 hours in the new T-29 "Flying Classroom."

Then, graduation! You'll win your wings as a navigator... and a commission as a Second Lieutenant in the Air Force. After a 30-day leave with pay, you'll be ready for challenging assignments as navigator with one of the famous commands in the U. S. Air Force. Your office will be the "front office" of mighty bombers or long-range transports!

Be among the first to win your wings as a U. S. Air Force navigator under the new navigator training program—be a key man on the Air Force team!

Air Force officer procurement teams are visiting many colleges and universities to explain these career opportunities. Watch for their arrival—or get full details at your nearest Air Force Base, U. S. Army and U. S. Air Force Recruiting Station, or by writing to the Chief of Staff, U. S. Air Force, Attention: Aviation Cadet Branch, Washington 25, D. C.

Other Flying, Non-Flying Careers

Aviation Cadet pilot training is also available to young men between the ages of 20 and 26 1/2. See about the many satisfying assignments, too! Never before in peacetime has there been such a good opportunity for college-trained men and women to obtain regular commissions in the United States Air Force.

WIN YOUR WINGS

U. S. AIR FORCE

ONLY THE BEST CAN BE AVIATION CADETS!

STUDENTS: Look at this typical menu from our files. We feed about one thousand (1000) of you every day and we hope to make that figure one thousand five hundred (1500) by the end of this term! Come out and see us!

DORMITORY INTRAMURALS

By NEILL POSEY

This column's name has changed from "Intramural Front" to "Dormitory Intramurals." This writer has reported dormitory intramural sports along with news concerning the intramural program as a whole. However, since the name of the column was "Intramural Front" the dormitories did not feel that they had a column corresponding to Peter Koch's "Fraternity Intramurals."

This writer will continue to report news and his views about dormitory intramurals. Furthermore, the intramural program as a whole will be reported on since the dormitories are interested in it also.

Congratulations

My congratulations to the student intramural touch football officials. P. E. staff officials were replaced by student officials for intramural games. Frankly, I was worried about the student officials being able to do as well a job of officiating as the P. E. staff had done in the past. The student officials did an excellent job. They, perhaps, did a better job than the P. E. staff in that 3 good men were able to work a game instead of two men as the P. E. staff was forced to use.

Credit should go to the student officials and the P. E. staff supervisors for their excellent record in regard to protests. Only two protests were made by competing teams. In one the protest was upheld and the game replayed. In the other a "no protest allowed" decision was made by the protest committee.

cause of its championship in the major sport, touch football. Although No. 2 Burlington did not even reach the intramural touch football playoffs it gained second place through winning in the minor sports. No. 2 Becton, third place, won in the minor sports like No. 2 Burlington.

A. P. Jervey, Athletic Director of Tucker dormitory, carefully selected his team managers for this term. Tucker, often a week sister in the intramural dormitory league hopes to better their teams with these managers. In basketball Dale Jones will manage No. 1 Tucker while Bob Pakestran will manage No. 2 Tucker. In swimming, No. 1 by Ligon Flynn and No. 2 by Bill Spense and in Table Tennis, No. 1 by Bill Macintyre and No. 2 by A. P. Jervey.

Both Tucker teams should turn out excellent table tennis teams. They play regularly in their own recreational room.

Financial Status

The financial status of the Intramural League is good because of the \$2,000 appropriation made available for the league by the committee for the Allocation of Student Activity Fee. The league this year thus has a \$9,000 budget to operate under.

At the Intramural Athletic Board meeting last quarter, fall term expenditures were reported and winter term and spring term expenditures were estimated.

\$1068.15 was spent for equipment. Fall term officials and supervisors pay was estimated at \$385.00. These two items accounted for \$1453.15, thus leaving \$1546.85 of the original \$3,000 to spend as needed in the winter and spring quarters.

Anticipated expenditures were reported as, officials and supervisors, \$585; softball supplies; year trophies; pictures for publicity; Big 4 Field Day; intramural handbook; badminton club supplies; and a Ditto machine (P. E. pay one-half). Some of these items may not be obtained because of the lack of funds. The board will meet again soon to assist Mr. Miller in apportioning the available funds.

Bright Prospects

Sydney Credle, Athletic Director of Welch dormitory, whose touch football team ranked second in the dormitory league, sees a none too bright prospect for his basketball team. Only a few men remain from his last years squad which had a .500 season average.

The Welch team will average only 5 feet 11 inches in height. Credle says that the squad will have to overcome the lack of height with speed and accurate shooting.

The temporary squad members are Harvey Horne, John Jones, Felton Turner, "Flash" Twiford, Charles Gibson, "Eagle Eye" Cathy, Dwight Beaty, "Silent Slim" Bryant, George Andrews and "Bosse" Maynard.

Golf

All Freshmen and upperclass men interested in trying out for the freshman or varsity golf team should report to the field house at 7:00 Wednesday, January 18. Coach Charlie Tripp reports that no lettermen are returning from last season and that this is an excellent opportunity for interested students.

Wolfpack Faces LaSalle, Long Island In Two Tough Intersectional Battles

Meet LaSalle Here And LIU In Garden

By LLOYD V. CAPPS

Coach Everette Case's State Wolfpack will face two of the nation's top teams when they meet LaSalle Saturday and Long Island, Tuesday.

The LaSalle Explorers of Philadelphia move into Raleigh Saturday with a 7-2 record and are rated thirteenth in the nation. They have lost only to San Francisco and U.C.L.A.

Six-Nine Center

LaSalle is paced by 6'9" center Larry Foust who scored 453 points in 28 games last season. As a junior last year, Foust was mentioned on several all-American teams. Other Explorer leaders include guard Bob McCann and forward Jim Phelan.

This is Coach Ken Loeffler's first year as mentor of the LaSalle College team. He succeeded Coach Charles J. McGlone who had a 27-7 won-loss record last season. One of these losses was to the Wolfpack, 60-56.

Coach Loeffler works a five man screen type of offense. All five players may move in and out of the pivot position. He uses both a zone and man-to-man defense.

Meet L.I.U. Saturday

State takes to the road to meet Long Island University in Madison Square Garden on Tuesday. The once-defeated Blackbirds are ranked third in this week's Associated Press poll. At present they boast a 11-1 record, losing only to Kansas State by 58-51.

The skyscraping Long Islanders are led by Juniors 6'7" Sherman White and 6'1" Leroy Smith. So far White has scored 238 points in 12 games this season for a 19 point average and ranks seventh in the nation in total points scored. The Blackbird's tallest man is senior Herbert Scherer who stands 6'9". Coach Clair F. Bee's cagers won 19 and lost 12 last season. They defeated the Wolfpack 65-61 last year in Madison Square Garden.

The Islanders will be no strangers to Madison Square Garden. They have already played nine games there this season. This will be the only scheduled game for the Wolfpack in the Garden this year.

Lojko, Ward Set Pace In Double Win

By JIM PLOTT

Coach Willis Casey's tankmen opened their Southern Conference season last Saturday by defeating Virginia Tech 43-22 at Blacksburg. Wolfpack mermen copped six first places in the contest.

The Tech meet was the second triumph for the Wolfpack, who previously swam against the Norfolk (Va.) Division of William and Mary in a non-conference match.

Four stars in the distance and sprints give the Pack a strong core for its tank effects this year, but reserve strength is lacking. Co-Captains Matt Lojko of Providence, R. I., and Freddie Stafford of Greensboro are the top sprinters while Bill Despres of Providence, R. I., and Bill Ward of Raleigh are State's best distance performers. Ward, a senior, dropped out of school last year to work, but enrolled at the beginning of the winter term on Jan. 2, and is eligible to compete for the Wolfpack. He has earned three letters on previous State tank squads.

Second Turn

State's mermen turned in their second loop triumph Tuesday afternoon at Frank Thompson Gym pool by defeating William and Mary's tank squad 50-27. Casey's tankmen captured eight of the nine places for an easy victory. Lojko broke the eleven year old record in the 150 yard backstroke for State's pool. The old record time was one min-

ute: 42.8 set by Sid Ingram of State in 1939. Lojko's new record time is 1:41.3. One of the most decisive races was the 440 yard free style. Bicky Morris of State finished the course two and one half laps ahead of the first William and Mary swimmer. Dick Shober of State finished one half lap behind Morris. Trailing in the meet the Indians came back in the 400 yard relay to cop their only match in the contest in a slow 4:14.1.

Summary

In a brief summary of the William and Mary meet, State took first in the 300 yard medley relay in 3:28 while in the 200 yard and 50 yard free style races the pack placed first with two William and Mary tankmen right behind them. Ray Lofin of State took the Diving contest with 192 points. Ward took the 100 yard free style in 56.8 and Lojko captured the 150 yard backstroke in a record time of 1:41.3 for the Wolfpack.

In the Tech meet, State copped first place in the 300 yard medley relay and the 200 yard free style, but bowed to Tech in the diving match. Ward of State took the 100 yard free style in 56.2 and Lojko captured the 150 yard backstroke for the Wolfpack in 1:44.5. Morris took the number one spot in the 400 yard free style with Wells Denyes right behind him for State. His time for the course was 5:40.2. Tech came back in the 400 yard free style relay in 3:50.2 to cop the final race of the meet.

Grapplers Lose To Duke

With four lettermen to carry the hopes of the State matmen, Coach Al Crawford's grapplers opened their Southern Conference season last Saturday against the Old Liners of Maryland.

One of the top men on the squad is Charlie Musser, a heavyweight, who went undefeated in nine matches last year, but did not enter the Southern Conference championships because of heavy studies. An All-Southern guard on the State 1949 football squad, Musser weighs 195 pounds and is regarded as one of the best wrestlers in the South.

Drop Opener

The matmen dropped their opening loop match to Maryland at Col-

lege Park 21-12. Musser won the only match for State by pinning Lamont Whipp in 5 minutes, 35 seconds. The Wolfpack picked up other points on a forfeit in the 175-pound division and a draw by Doug Martin with Joel Adelberg in the 155-pound bout.

In their first home appearance the State grapplers bowed to a powerful Duke squad Tuesday night in the Coliseum 21-11. Musser remained undefeated in the heavyweight division by pinning Elsieck of Duke in 4 minutes, 15 seconds. A forfeit in the 155-pound class and a decision by Jenkins accounted for the remainder of points for the Wolfpack.

VIEWS ON SPORTS

By BOB CURRAN

As a result of losing the Duke game last Saturday night, State was not leading the Southern Conference in basketball. This is the first time that this has happened in many moons, and probably the last. Duke played a good game against State over in their 9000 seat "bandbox," which is to be expected.

In the five games played there since Everett Case became coach at State, the biggest margin of victory for either team was eight points. The last time Duke beat State, which was in 1947, the Blue Devils got the surprise of their life when they came over here. History will no doubt repeat itself when the two clubs meet again in our "man sized" Coliseum next month. The Duke student body finally got some use for their handkerchiefs, other than crying in them, when they waved them at departing State men who had fouled out. Can't say that I blame them, because I'd be mighty happy to see Dickey and Ranzino out of a game in which I was playing for the opposition.

Tuesday night, the Wolfpack had another close call, when they played the Davidson Wildcats in Charlotte. The Cats, led by Whit Cobb, did a very effective job of slowing the Pack down to a walk—only this wasn't slow enough.

With a minute or so to go, Davidson was behind by seven points, and they still persisted in "freezing the ball." This is good, smart basketball when winning, but certainly not when losing. The Cats can claim a moral victory for losing by only nine points, but if all they want out of a ball game is to be beaten by a small score, they might just as well forfeit the game and lose by only two points.

The vogue with the rest of the Southern Conference will be to hold the score of the State game as low as possible, especially Carolina and Wake Forest. Speaking of Carolina, I still think we ought to play both games in the Coliseum. When State can play a "home" football game in Kenan Stadium, the Tar Heels can certainly reciprocate by playing their "home" basketball game over here. Since the football game is played over at the "Hill," supposedly because of the higher monetary intake, it seems as though more money could be made with a crowd of ten to twelve thousand than from one of approximately 6000.

New Tennis Court To Be Added

By BOB HORN

The long range aim of the Athletic Department, says Director Roy Clogston, is the development of the entire area between the freshman dorms and the creek running parallel to them as tennis courts.

The six courts, when surfaced with a quick-drying composition material, will be safe for use one half hour after a rain. Already

engaged to finish the job are contractors Feise & Co., who have constructed over 90 per cent of the better tennis courts on the nation's campuses.

Student Funds Help
\$5000 for this project came from student funds and the Athletic Council appropriated enough additional funds to improve the existing facilities. The new courts

(Continued on Page 6)

Wolfpack Dumps Davidson In Low Scoring Contest

Dickey Paces Cagers In Conference Test

After losing to the surprising Duke Blue Devils last Saturday night 58-55 on their home court, State's Wolfpack bounced back into the win column Tuesday by out-scraping a fighting Davidson Wildcat aggregation, 44-35. A very partisan crowd of over 3500 witnessed the contest which was held in the Cats new gym.

The Wolfpack had a bad night on its shooting and couldn't make its set shots to bring out the zone defense which Davidson used very effectively.

The State boys were able to get only an 18-17 lead at the end of the first half and all through the second the score remained close until the Wolfpack went into its pressing tactics in the final stretch.

The score was tied at 35-35 with only four minutes left when the Pack put on a nine-point spurt while holding the Wildcats scoreless.

A push shot by Joe Harand started the rally and Cartier followed with a free throw to give State a 38-35 advantage. Then Sammy Ranzino stole the ball and laid in a crisp to ice the issue. Cartier got a basket and Dick Dickey scored two free throws to close out the scoring.

Pep Club

The Pep Club will hold its regular weekly meeting on Monday at 8 p.m., on the second floor of the Shop Building.

All old members are urged to attend, and anyone interested in becoming a member is invited to join the group.

State	G.	Ft.	Pf.	Tp.

Halftime score: State 18, Davidson 17. Free throws missed: Ranzino, Dickey, Horvath, Harand, Cartier, Brooks, Coleman, Lazenby, McLean, 2, Turk.

State Freshmen Beat Duke Frosh Grapplers

State's freshman wrestling team defeated Duke's Blue Devil yearlings, 21-13, last week in the preliminary events of a wrestling program at the Coliseum.

The summary:
121 pounds: Fisher (State) pinned Wiley (D), 5:21.
128: Borrell (D) decisioned Sideris, 2-0.
136: Knobbs (S) decisioned Gross, 4-0.
146: Chamberlain (S) pinned James, 4:36.
155: Simmons (D) won on forfeit.
165: Long (S) decisioned Katz, 7-2.
175: Earhardt (D) pinned Cox, 4:18.
Heavyweight: Buza (S) pinned Eddy, 8:00.

ASME

There will be a meeting of the American Society of Mechanical Engineers Tuesday at 7 p.m., January 17, in Room 101 Page Hall. Professor L. L. Vaughan will speak on "Fifty Years of Progress in Engineering." Membership cards will be given out. Be there.

FRATERNITY INTRAMURALS

By PETER KOCH

Hi fellas, hope you have all recovered from the rigors of the XMAS vacation, and are all ready to continue your fine work on the intramural front. Let's make the winter term even better—Here are the official standings at the close of the winter term.

1. Sigma Chi	470
2. PiKa	461
3. Sigma Pi	358
4. Sigma Nu	356
5. KA	340
6. SPE	320
7. Kappa Sig	260
8. PEP	240
9. SAE	234
10. SAM	238
11. AGR	228
12. PKP	190
13. Delta Sig	180
14. TKE	145
15. Lambda Chi	128
16. PKT	95

Let's catch up on the playoffs in football and volleyball—In touch football, Sigma Chi came out on top with the championship—In the first round Sigma Pi topped the Chi's by a 7-6 score, and the PiKa's vanquished Sigma Nu 12-0—In the second round, Sigma Chi beat Sigma Nu 14-0, and Sigma Chi took the measure of PiKa by 14-0. Sigma Pi also beat PiKa 14-7. In the playoffs, Sigma Chi ran up a 13-0 score against Sigma Pi and this necessitated a playoff since both teams had beaten

each other once in the playoff. It couldn't have been closer either as the Chi's won on First downs in a scoreless tie. It was 4 to 3 in first downs. Congrats to Sigma Chi— In volleyball, Sigma Nu took the Championship—They beat PiKa, and Sigma Chi twice to take the spoils, Sigma Chi came in second as they topped SPE and PiKa—That's the windup on the fall sports.

A glance at the winter schedule shows four sports on tap—Basketball heads the list that also includes ping-pong, boxing, and swimming. The prelims in boxing are scheduled for Jan. 27th, with the semis on Feb. 2nd, and the finals on Feb. 7th.

The swimming prelims will be held on Jan. 30th, and the finals on the tenth of Feb. Next week I hope to have the all-frat teams in football and volleyball, that's it for now—More news next week.

Dorm Table Tennis

January 17

Berry vs. Gold-Watuga at 7:00
No. 1 Bagwell vs. No. 2 Syme at 7:00
No. 1 Turlington vs. No. 2 Owen at 8:00
No. 2 Tucker vs. No. 1 Owen at 8:00
No other games for week of 13 to 20.

Ranzino, Dickey Lead Wolfpack In 72-48 Win Over Indians

Ranzino Outscores Chet Giermack, 27-18
By BILL THRONEBURG

The two teams that promise to battle all the way down the line for the Southern Conference Crown tangled at William Neal Reynolds Coliseum last night before a crowd of 9,500. William and Mary, sporting a perfect conference record, bumped into a fired-up State College five that found its conference crown tetering somewhat precariously after a loss to Duke and a hard-fought victory over Davidson in its last two games. But the Wolfpack, paced again by the magic fingers of Sammy Ranzino, found its eye again and rattled the boards for a 72-58 victory.

Ranzino, held in check pretty much for the first half, flicked the nets from all angles after intermission to roll in a total of 27 points. Dick Dickey followed in the scoring with 17 points and Warren Cartier contributed nine for the Wolfpack.

Giermack Faces Indians
The highly-touted battle between Ranzino and Chet Giermack of the Indians materialized only on a minor scale, for the Wolfpack managed to keep the ball away from the lanky center a large part of the game. But the hook-shot artist still pumped in 19 points, seven in field goals, most of which were hooks, to lead the Indians in scoring.

The Indians started the scoring after three minutes of play with a long push shot by Benjamin. Morvath knotted the count with a looping push from the side. Giermack then proceeded to pop in three of his familiar hook shots to match baskets by Dickey and Ranzino. But the Wolfpack gradually pulled away then and with Dickey and Ranzino hitting consistently, led at half-time by 34-23.

Pack Pulled Away
After intermission, it was Giermack and MacMillan, a little guard who played a whale of a ball game, who kept the Indians in the ball game. But there was no holding the red-hot Wolfpack. With Ranzino popping the basket from all angles, aided no little by the rebounding of Lee Terrill who started the second half in place of Vic Bubas, the Wolfpack pulled rapidly away from the green-clad Indians.

With a comfortable margin built up and about four minutes to go in the game, Coach Case sent in his reserves to finish out the tussle. The Indians managed to close the gap slightly in these last few minutes, but the score still showed a comfortable 14-point bulge for the Wolfpack when the whistle sounded.

The Summary

State	FG	FT	PF	TP
Ranzino f	12	3	3	27
Dickey f	6	5	3	17
Stoll f	0	0	0	0
Cook c	2	0	1	4
Stine f	0	1	0	1
Cartier c	3	3	3	9
Horvath c	3	0	2	6
Harand g	2	2	3	6

New Tennis Courts

(Continued from Page 5)
will necessarily be restricted to those whose playing ability and equipment meets the standards set by the Athletic Council.

John Kenfield, son of Carolina's John Kenfield, Sr., has been secured as head coach. He comes to State College well recommended with an enviable record—an established star in his own right. The Athletic Department, enthusiastically describing him as potentially the best young coach in the business, is certain that his presence will stimulate much additional interest in tennis. Coupled with the department's plans for expansion and improvement of the still inadequate court facilities, the new arrival fits into a scheme with a joyously progressive bounce.

Night games will be featured as soon as funds for lighting equipment make that improvement economically feasible. The primary argument in favor of after-dark encounters: a majority of the students, freed from their academic pursuits, can best witness the contests at that time. Eventually bleachers will be set up and the entire area fenced, including the proposed baseball stadium to be erected on the site of the present diamond in the adjacent lot.
