

## Services Held For Former Dean

Funeral services for Dr. Thomas Ferrin Harrison, 85, former dean of State College and head of the College's English Department for many years, was conducted at the First Presbyterian Church in Asheville Wednesday morning at 10:30 o'clock.

Dr. Harrison, who formerly resided at 1806 Park Drive in Raleigh, died in Asheville Tuesday morning at 12:12 o'clock. He had been in declining health for a number of years.

Following the funeral service in Asheville, the body was taken to Andersonville, S. C., for interment in the Harrison Cemetery there.

## Harrison Lauded

Upon learning of Dr. Harrison's death, Chancellor J. W. Harrelson of State College lauded Dr. Harrison as "a very fine person who contributed a great deal to the college during an era of expansion."

Chancellor Harrelson designated Dean of Students E. L. Cloyd, who was closely associated with Dr. Harrison in both academic and church work for several years, to represent the college at the funeral services.

Dr. Harrison joined the N. C. State faculty in 1909 and retired and became dean emeritus in June, 1938. Following his retirement, he continued to teach a few classes and do research in the D. H. Hill Library at the college.

## Born in Abbeville

Dr. Harrison was born in Abbeville, S. C., October 11, 1864. He attended The Citadel in Charleston, and after graduation was an instructor in English there from 1886 to 1888.

In 1888, a year before State College opened its doors, he entered Johns Hopkins University as a graduate student, holding an honorary scholarship and later a fellowship.

From 1891 to 1896, Dr. Harrison was assistant professor of English at Clemson College, and from 1896 to 1909 he was professor of English at Davidson College.

English Head  
Soon after coming to State College, Dr. Harrison was appointed dean of the college, and he served for many years as head of the English Department. During the First World War, he served in the Y.M.C.A. and the Army Educational Corps as an "officer without designated rank."

While he was a resident of Raleigh, Dr. Harrison was a member of the West Raleigh Presbyterian Church.

Surviving are one daughter, Mrs. Harrison Dunlop of Asheville; and three sons, James L. of New York City, Dr. Thomas P., Jr., of the University of Texas, and Lewis W. of Arden, Route 1. His wife, Mrs. Adelia Lettwith Harrison, died in 1944.

## Faculty Luncheons Scheduled Next Week

One of the major features of this year's Religion in Life Week will be the three faculty luncheons in the Grill Room on Monday, Tuesday, and Wednesday at one o'clock. Rev. Samuel Levering will speak Monday on "Survival through World Government." Dr. J. Glenn Blackburn will speak Tuesday on "What is Religion?"; Wednesday's program will feature Dr. Hiel D. Bollinger speaking on "The Christian in the University."

Chancellor J. W. Harrelson has made the arrangements for the luncheons, assisted by a separate sub-chairman for each day. Chairman for Monday is Professor M. E. Gardner; for Tuesday, Dean J. B. Kirkland;

Shown above are the recently elected officers of Vetville. Back row, left to right: Alderman Malcolm Ragner, Alderman George Young, Publicity Director Mrs. Bill Riggs, Secretary and Treasurer Mrs. Edward Parker, Recreation Director Mrs. Scott Jennings, Alderman George Andrews, and Alderman Henry G. Posey. Front row, left to right: Senior Alderman Mickey Gould, Senior Alderman Edward G. Robinson, Mayor Everett Stevens, Sr. Alderman Finely Boney, Sr. Alderman Jack Harrell.

## "Hello Week" Program Has Successful Turnout

With 500 enthusiastic students and the fancy-stepping ROTC Band present, Hello Week was launched with an inspiring rally in Riddick Stadium Monday at noon.

"Fiddling" George and his Hill Billy band put the students in good spirits with their rendition of "That Old Mountain Dew," and Scott Eubanks and his cheerleaders lead off with a cheer for State's first football victory of the year.

Eubanks was Master of Ceremonies and introduced the campus dignitaries present.

Burwell Smith, Chairman of Hello Week, reviewed the history of the event and expressed its aims, "to promote friendliness, unity, and school spirit among the students."

Adams Speaks  
Hoyle Adams, President of the Student Government, appealed for the wholehearted support of the students during Hello Week and for increased friendliness during the whole year. He said, "The Hello Week rally launches the two-fold objective of the Campus Government. These objectives are school spirit and scholarship. A person who feels well and is friendly with the world just naturally does better work."

Cloyd Sings  
President Adams awarded the first Hello Week badge to Dean E. L. Cloyd. The feature attraction of the rally was Dean Cloyd's now-famous solo which made a big hit with the students.

In somewhat musical tones he sang:  
Hello, hello, hello,  
We're glad to meet you,  
We're glad to meet you,  
Hello, hello, hello,  
Of Hello Week, Dean Cloyd said, "It takes a little effort on the part of each of us to put Hello Week over, and it pays the biggest dividends of anything that I know."

Bringle on Hand  
Emmet Bringle, past editor of The Watauga, was on hand to lend his support to the occasion. He expressed the opinion that Hello Week was one of the most worthwhile events held at State College.

He said, "After one week of serious concentration and effort to be friendly and say Hello, it then comes easy."

Mr. Jack Turner Wilson of Milwaukee, Wisconsin, physicist of Allis-Chalmers Manufacturing Company, will describe a polar expedition for the study of solar radiation, when he addresses the semi-annual meeting of the North Carolina Section of the American Institute of Electrical Engineers at State College on Friday, November 4. The State College Student Branch of the A.I.E.E. will be host for the meeting.

The expedition which Mr. Wilson will describe was organized and directed by him in 1945. The results of his study have been invaluable for the study of solar radiations radiating from the sun and in determining the times in which power transmission losses may be expected and radio communication interrupted, due to solar radiation.

He has also been actively associated with the development and manufacture of the induction electron accelerator which is known as the Betatron.

## Several Notables Speak At AIEE Convention Here

Other speakers on the program will be Mr. Graham Lee Moses, who is manager of the Developmental Insulation Section of the A.C. Engineering Department of the Transportation and Generator Division of Westinghouse Electric Corporation, and Mr. Albert L. Stone, senior Electrical Engineering student at Duke University.

Mr. Moses will talk on insulation techniques in electrical equipment, and Mr. Stone will talk on the magnetic fluid clutch.

The A.I.E.E. Student Branches at N. C. State and Duke take an active part in the activities of the North Carolina Section, whose membership includes many prominent in the electrical engineering profession. The policy of the national and local organizations is to encourage student participation in institute affairs.

Traditionally one of the papers at each North Carolina Section meeting is presented by a student at N. C. State or Duke. At the next Section meeting, to be held at Winston-Salem, a N. C. State student will give a paper.

## Religion and Life Week Begins Here Sunday Night

### Fraternity, Dorm Discussion Groups Will Be Conducted

With a bit of something new added to the old recipe, State College's annual Religion in Life Week will begin Sunday night with a service in the West Raleigh Presbyterian Church for fraternity men and a regular service, the first of four, in the YMCA auditorium. Both services will begin at seven-thirty. Religion in Life Week is sponsored each year by the Protestant Religious Council.

This year, the plan for the Week will be somewhat different in that the major services will be held in two groups, rather than having all of them at Pullen Hall. Another change will find all singing at the services done by the congregation, instead of having special music from choral groups.

## Services in Tuckers, YMCAs

The full-scale services will be held in the Y auditorium and in the recreation room of the dormitory. Reverend J. Glen Blackburn, Chaplain of Wake Forest College, will deliver the four addresses at the YMCAs. Students attending the services in Tuckers will hear Dr. Hiel D. Bollinger, well-known author and lecturer.

## Hartley Authors Hymnal Study

The mid-year issue of The Journal of Religion, one of the quarterly publications of the University of Chicago, carries as a leading article "The Worm and the Thorn: A Study of Cowper's Olney Hymns" by Prof. Lodwick Hartley, head of the English Department at N. C. State College.

The article deals with William Cowper, author of such well-known classics of English hymnology as "O for a Closer Walk with God" and "There is a Fountain Filled With Blood." It views the poet's entire body of hymns as a "vivid spiritual record of a struggle with doubt and as representative expressions of religious literature in the Evangelical Movement of the eighteenth century."

Professor Hartley is the author of a standard critical work on William Cowper published in 1938 by the University of North Carolina Press and of several magazine articles on the eighteenth century poet and letter writer.

## Campaign to End Monday Night

Plans have been made to wind up the Athletic Petition campaign this weekend, it was announced today by Alex Vann, Campaign director. Petitions will be available in the cafeteria until Monday, Vann said, and Monday night will be the last day for signing.

According to latest tabulation, out of the 200 petitions circulated 123 have been returned, and 2,010 names have been recorded as favoring the plan to improve recreational facilities here.

In announcing the deadline for signing, Vann emphasized that in order to make the campaign a success 3,000 names will be needed, and he urged that everyone who has not signed to do so by Monday night.

## Council Meeting Here Sunday

There will be a meeting of the Greater University Council here on the campus Sunday afternoon at 2 p.m., in the YMCA. Representatives from WC and Carolina will meet with the regular delegation for the business session.

The Council has held two meetings thus far this year; one at Carolina in September, and the other at WC.

State College members of the Council are: Sam Furchow, Woody Bass, Hoyle Adams, Sandy Cluck, Preston Andrews, Jack McCracken, Beverly Ross, Hank Odom, Jack McQuinn, Joe Hancock, Avery Brock, Charles Musser, Gil Newton, and Earl Dicks.

## Sonny Dunham to Play For Annual Pledge Dances

Plans for the annual pledge dance have been announced by the Inter-Fraternity Council. Two dances will be held this year at Memorial Auditorium, November 18 and 19, from 8 to 12 p.m. Sonny Dunham, his orchestra, and a featured vocalist, Pete Hanley, will furnish the music.

Admission  
Attendance is restricted to Fraternity men, pledges, their dates, and recipients of guest bids. Anyone interested in attending should see one of the Fraternity men to obtain a guest bid. Admission on guest bids will be \$2.00 per couple on Friday night and \$3.00 on Saturday night.

Two Dances  
Those who are unable to attend on either Friday or Saturday nights, but would like to hear Dunham's orchestra, may attend the concert to be held in Pullen Hall on Saturday afternoon, November 19, from 4 to 5:30 p.m. No admission will be charged at the concert.

## Staff Meeting

All men who are interested in working on the business or editorial staffs of THE TECHNICIAN are invited to the regular Monday night supper meeting in dining room "B" of the Cafeteria at 6:15. There are several openings for re-write men and copy-readers and all interested persons are invited to attend this meeting.

## No Pep Rally

The Pep Rally scheduled for tonight has been called off, it was announced late today by Scott Eubanks, head cheerleader. A misunderstanding in plans and a delay in receiving fireworks is the reason for the postponement, Eubanks said.

## Judging Team Takes Honors

State College's student dairy products judging team captured first place in the Southeastern Dairy Products Judging Contest held at the University of Tennessee, college officials were informed yesterday.

The N. C. State squad, coached by Dr. W. M. Roberts of the College's Department of Animal Husbandry, took top spot in the milk and butter, and ice cream divisions of the contest and second place in the cheese competition.

Glazner High Scorer  
Bruce Glazner of Brevard, a member of the State College team, was the high scoring individual in milk and ice cream. Other team members taking high individual honors were L. H. Boykin of Wilson, third in butter and third in cheese; and Clifford Walton of Hartsville, Pa., fourth in butter, third in cheese, and fifth in ice cream.

The State College students placed as follows in the total number of points scored in the contest: Glazner, second; Walton, fourth; and Boykin, fifth.

Dr. D. W. Colvard, head of the College's Department of Animal Industry, praised the team's accomplishments and said the entire faculty in the department is pleased with the squad's efforts.

# Campus Survey Reveals Trends in Tastes and Preference of Students

Undergraduate heads on high school and college campuses are filled with other things besides history, languages and math, according to a survey recently completed for Brand Names Foundation, Incorporated, by the Student Marketing Institute of New York. Along with the more usual subjects in every school curriculum, students know their brand names and trademarks and are current on the latest in advertising. The survey showed that America's students rely on manufacturers' brand names in making 7 out of 10 of their purchases.

To complete this study, the Institute made more than 61,000 inquiries with the help of teachers and professors. Campus undergraduates numbering 1,895 were quizzed at forty-four colleges and high schools. Researchers asked students how they bought, six different products in an effort to find the influence or influences which shaped shopping decisions. Among the alternatives in the questionnaire were: (1) demand for one specific manufacturer's brand name; (2) preference for one of several makers' brand names; (3) reliance on store recommendation and reputation; and (4) the convenient locations of stores.

### Student Fashions

The survey uncovered many interesting sidelights on student fashions and buying habits and proved that today's crop of academicians, in addition to being the so-called "shoppers of tomorrow," constitute a healthy portion of today's buying public. Examining the total number of buying attitudes recorded, the findings showed that 69.3 per cent of the purchases made by all students were brand-influenced, with students requesting one specific brand name or accepting one of several specific makes. Store reputation and recommendation were reported to be the primary guide in only 19.1 per cent of all purchases. Apparently students are willing to go out of their way to find the specific brand names they like, for only 11.6 per cent named "store location and convenience" as a consideration governing purchases.

Brand names mean just about as much to boys as they do to girls, the survey revealed, with girls being slightly more brand-minded, percentage-wise. Regarding the other alternatives listed in the survey, the findings showed that store recommendation and reputation are slightly more important to boys than to girls; while boys are slightly more influenced by the convenience of near-by stores. On the question of "high school versus college students," the survey showed that 72.3 per cent of the former's purchases were governed by brand loyalties as contrasted with 66.1 per cent for college students.

### Hat Trend

Of interest to fashion experts is the increase in the trend toward hat wearing revealed by the survey. Bare "noggin's," according to the findings, are on their way out and students are becoming increasingly "topper" conscious. Twenty years ago, the theory prevailed that wearing hats leads to baldness. Today's crop of less impressionable students seems to place its faith in the medical research and experimentation which has demonstrated that hat wearing is not only a matter of fashion but of health and comfort as well.

The days when parents have to struggle with recalcitrant "Toms and Marys" to brush their teeth regularly are numbered, the survey also revealed. Not only do boys and girls clean their teeth regularly at

### Co-ed Club Convenes

Pictured above are the smiling feminine contributions to this masculine institution. Snapped at a recent meeting are the following Co-Ed Club members: left to right: Robin Thomas, Dorothy Wooten, Eloise Lancaster, Adelaide Haynes, Elizabeth Lee, Betty Jones, Martina Fillmore, Betty Anne Cline, Ann Burnside, Jeannette Simpson, Hilda Massengill, Evelyn Garner, and Peggy Walker. The Co-Ed Club is currently seeking status as a regularly recognized campus organization.

### Ceramic Students Hear Whitaker

By GEORGE HARRELL

"The greatest opportunity in the world is right here in the South," L. R. Whitaker, president of the Carolina Clay Products Co., of Columbia, S. C., told some 50 Ceramic Engineering students and faculty Tuesday night at the regular meeting of the American Ceramic Society.

A well known ceramic consultant and author throughout the South, Mr. Whitaker appealed to students not to sell the South short. "The resources are here — the money is here — but what we lack is the know how," Whitaker stated. "Too many graduates in the South have been going North, leaving a progressing South badly unman-

### Progress Made

Mr. Whitaker related the progress that has been made here and told his audience that it was up to them to stay here and further the development. "The South needs you and you'll be better off in the long run," he continued.

Turning to the question "What's expected of graduates in industry?" Mr. Whitaker asked today's graduates to be more patient until they are worth more. "You will have to study harder when you finish that you ever did in school."

### Learn Details

"Some of the most important assets in industry are: the ability to learn details, to practice your ideas, and present your ideas in an orderly and understandable way," he continued. In conclusion, Whitaker stated that being able to adapt yourself to the many problems which may arise is probably the criteria for selecting personnel.

Mr. Whitaker was introduced by Phillip D. Pearce, program chairman and vice-president of A.C.S. Durard Linn, president, presided.

### YMCA Secretary Attends Conclave

Edward S. King and N. B. Watts, general secretary and associate secretary respectively of the State College YMCA have just returned from the annual meeting of the Southern Area YMCA secretaries held at the University of Mississippi on October 28-30. Mr. Watts served as president of the group that represented colleges in the ten southern states.

Purpose of Meeting According to Mr. King, the purpose of the meeting was "to promote fellowship among YMCA workers and to encourage the exchange of ideas." Represented at the meeting were members of the staffs of collegiate YMCA's, Southern Area secretaries, and members of the national headquarters.

"The highlight of the conference," continued Mr. King, "was the banquet at which Fred Miller, member of the national office, discussed the national picture of YMCA work." Later Charles Wharton reviewed the situation in the Southern Area.

Next Year's Meeting The meeting next year will be held at the University of Kentucky. Ernest Price of the Louisiana State University was elected president, succeeding Mr. Watts, and Wiley Critz of the University of Mississippi was named secretary.

### F.F.A. Meets

F.F.A. will meet next Thursday, November 10th in Tompkins Hall, 114.

## College Men! Here's Your Chance To Get All The Facts About A Career As A U. S. AIR FORCE OFFICER!

If You Can Qualify for Aviation Cadet Training...

You'll Be on Your Way Toward a Future as an Aviation Executive...

A U. S. AIR FORCE INTERVIEWING TEAM WILL BE HERE TO GIVE YOU FULL DETAILS on age, educational and physical requirements for pilot or navigator training as an Aviation Cadet. Also ask about the many opportunities for a non-flying career!

WATCH FOR DATES

U. S. AIR FORCE

Only The Best Can Be Aviation Cadets!

## Major Ed Wall, Harvard, '40 - Flying Executive, U.S. Air Force!

Born in Newark, N. J., he moved to Boston at an early age, graduated from the public Latin high school in 1936, entered Harvard the same year, where he majored in economics and government.

"Active on the campus" — he played football, earned his letter on the boxing team. He worked part-time in a variety of jobs from busmer to baby sitter, received his AB degree in 1940.

He enrolled in Harvard Law School, left at the beginning of the war to become an Aviation Cadet. In December, 1942, he won his pilot's wings, received a Reserve commission as Second Lieutenant.

Assigned to anti-sub patrol duty, he flew B-25's and B-17's before going overseas in 1944, where he flew 50 missions as a B-24 pilot. Shot down over Germany, he was a prisoner of war for 9 months.

Back in the States with his English wife, he earned his Regular commission. Then he returned to Harvard under the Air Force college training program, receiving his LL.B. degree in 1948.

Now, he is confident about his future and security. As a pilot and legal officer of Bolling Air Force Base, D. C., Major Ed Wall is a typical U. S. Air Force flying executive... with a challenging career.

If you are single, between the ages of 20 and 28, with at least two years of college, consider a flying career as an officer in the U. S. Air Force. You may be able to meet the high educational and general requirements and be accepted for training as an Aviation Cadet. If you do not complete Aviation Cadet training, you may return to civilian life or have opportunity to transfer to other branches of the Air Force for an assignment in non-flying fields.

Air Force officer procurement teams are visiting many colleges and universities to explain these career opportunities. Watch for their arrival—or get full details at your nearest Air Force Base, local recruiting station, or by writing to the Chief of Staff, U. S. Air Force, Attention: Aviation Cadet Branch, Washington 25, D. C.

U. S. AIR FORCE

ONLY THE BEST CAN BE AVIATION CADETS!

Long... Slim... Smooth... that's the smart new style slant in Fall Suits by Campus Top

\$45.00 UP

And, believe us, it's an all-out flattering style. The lengthened lines, deep roll lapels, full drape of this one button, double breasted model are a welcome innovation in youthful suit trends.

In soft doeskin flannel, gabardine, the new gab twist, sharkskin, and it lends a brand new personality to classic covert.

It does a lot for your figure — and it's kind to your budget.

Seniors Take Top Honors At Annual Forest Rolleo

By BOB PHELPS

The 17th annual forestry school Rolleo was held last Saturday, October 29, at the Hill Forest Camp near Durham...

The seniors took first place in volleyball by defeating the juniors, who earlier in the preliminaries had barely edged the sophomores...

Senior Program To Be Continued

The Executive Committee of the School of Engineering and the Faculty Council have approved a request made by the Mechanical Engineering Department...

Since there will be no graduates in the Heating and Air Conditioning curriculum until June, 1952, this program will provide a transition from the Heating and Air Conditioning Option...

Table with 5 columns: Program, Credits, etc. Rows include Humanities (3 3 3), Power Plants, Heating and Air Conditioning Lab, etc.

COMPLETE MEALS WITH Home Made Cakes, Pies, and Rolls Roger's Tasty Foods. Meals From 11:30-2:30 and 5:30-8:30.

Comfortable Formality! ARROW DRESS SHIRTS. Whether you're prom chairman, glee club man, or stag at eve, you will be correct and comfortable in Arrow's formal shirts, dress ties and collars.

Room Assignments

Room rent for the winter term will be due in the Business Office at Holiday Hall, between December 1st and December 10th.

On December 12th, students living in Watsuga Hall (except short course students) will be re-assigned to other dormitories...

Beginning December 13th, other room changes may be made. All room changes must be completed by the end of the term.

Students who do not reserve rooms for the winter term must vacate their rooms and turn in keys by December 17th.

No room changes for the fall term will be approved after November 5th.

Picture fee of \$2.50 for the Agromech will be added to the room rent bill. For students not living in dormitories, the picture fee will be collected during the same period.

J. S. Fulghum, Jr. Supervisor of Dormitory Rentals

Veterans May Get Share Cut

North Carolina veterans who owe the Government money as the result of overpayments on veteran's benefits may find all or part of their share of the forthcoming special dividend payment on National Service Life Insurance deducted to cover their debts.

Records of the North Carolina VA Regional Office here show that about 7,757 veterans owe the Government approximately \$749,000 as a result of overpayments on subsistence allowances on GI Bill schooling and training, pension, compensation, readjustment allowances, and losses made good to leaders on defaulted GI loans.

Phi Eta Sigma Holds Initiation

On Tuesday, October 25, the Conference Room of the Y.M.C.A. provided the setting for the formal initiation and awarding of "shingles" for those members of Phi Eta Sigma who were elected as freshmen of last year.

They had previously been awarded their keys at a banquet held last spring. The initiation was conducted by Larry McDade, president, and Dean Cloyd, faculty advisor. Following the initiation Larry McDade, as retiring president, presented the members their "shingle" and then turned the meeting over to Jack McCormick, the new president.

Phi Eta Sigma is a national honorary fraternity organized for the purpose of promoting scholarship among freshmen. It is the only freshman honorary fraternity on the campus, and it is the only fraternity that permits freshmen to wear a key.

Entertain Pledges. The S.P.E.'s, throwing caution, and the budget, to the winds, will entertain their pledges and dates Saturday afternoon and night at the Chapter house.

Total Figure. Just how much of the total figure will be collected from dividend deductions cannot be ascertained this far in advance.

With The Greeks

Before reviewing the Greek social picture this week a very humble apology to "the Deans Office" is in order. Facts concerning the job being done by Dean Wood's office in returning bids to the fraternities were misrepresented in this column.

Kappa Sigma royally entertained their pledges last Saturday night at a Halloween Houseparty. Orange and black decorations, costumes and other accessories gave just the right atmosphere for the gay "ole time" which was had by members, pledges and dates.

Rumors from the Pi Kappa Nu houses say there may be a "crew race" between the two fraternities this weekend.

The Delta Sigs will entertain at a House Party after the game Saturday night. Delta Sigma Phi pledges have been invited to present a short skit for the amusement of guests and members.

My cigarette? Camels, of course! 3. EVENING STOLE BY BETTE DORRITY—JEWELRY BY CARTIER.

Engineers Elected Honor Committee

Charles Bodwell, senior in the Industrial Engineering Department, was elected chairman of the Executive Honor Committee of the School of Engineering.

Harry J. Suggs, senior in Chemical Engineering, was chosen vice-chairman, and Prof. E. L. Miller, of the Geological Engineering Department, was elected secretary.

One faculty member and one student member were elected from each department to membership on the Executive Committee.

Handball Results. October 26. No. 1 Tucker over Gold-Watsuga by forfeit; No. 1 Bagwell over No. 1 Owen by forfeit; No. 2 Alexander 2, Vetville 1; No. 2 Burlington 2, No. 1 Syme 1.

FOR SMART MEN'S CLOTHES SHOP AT... THE Sport SHOP. 205 S. WILMINGTON ST. Always First With All That's New.

Camels for Mildness. WITH SMOKERS WHO KNOW... IT'S Camels for Mildness. Yes, Camels are SO MILD that in a coast-to-coast test of hundreds of men and women who smoked Camels—and only Camels—for 30 consecutive days, noted throat specialists, making weekly examinations, reported NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking CAMELS!

Lighting System

HAVE YOU BEEN GRIPING ABOUT THE LIGHTING system here on the campus?

Chances are that you have, and if the present situation continues, possibilities are that you will continue to grumble for some time to come.

It is the duty of the maintenance department of the campus, among a multitude of other headaches, to see that the campus is properly lighted.

Whether these acts of vandalism have been committed by State students we can't say, but we do know that it is up to YOU, the students, to see that it stops.

If you want something added to the campus, first prove that you can take care of what you already have.

The Real Truth

IT'S TIME THE REAL TRUTH WAS TOLD ON THE coliseum setup.

Contrary to the belief of most students, the William Neal Reynolds Coliseum will not be available for general student use.

The coliseum is the property of the state and will be used by the Athletic Department only for scheduled athletic contests for which the general public will be invited.

This misunderstanding has caused many of the students to oppose the petition that has currently been circulating the campus relative to an increase in fees to provide a better recreational program.

It is imperative that this plan be ratified by a majority of the students. But this is not all. It will need your support to put it through.

If you haven't signed the petition yet, be sure to see your dorm or fraternity representative and sign immediately.

Too Soon? — Yes!

IT IS DURING THE FIRST FEW WEEKS OF SCHOOL that almost every freshman here at State feels like he's in a never ending whirlpool.

Rushing during this period occurs while the new student is trying very hard to adjust himself to school.

Last year the TECHNICIAN editorialized the fact that fraternity rushing comes too soon after the beginning of school.

In fairness to everyone concerned, we feel it to be the responsibility of the I.F.C. to act at once on this situation.

Congratulations

Congratulations to Burwell Smith and his committee for a successful "Hello Week" program.

J. This employment is part of the re-entrance program of Retaining at the University of New York in order to provide graduate students with on-the-job experience...

IT DOES COUNT

REMEMBER THE OTHER FELLOW (Maybe He Will Think of You) Quiet Hours For Study, after 8.00 P.M., on Monday through Friday, were established by your Dormitory Club and approved by the Inter-Dormitory Council. Observance of these study hours has been excellent. YOUR CONTINUED COOPERATION WILL BE APPRECIATED BY YOUR DORMITORY CLUB, THE OTHER MEN ON YOUR FLOOR, AND EVEN YOUR ROOMMATE. NOW THAT THE DRIVE TOWARDS EXAMS IS ON, PLEASE DO YOUR PART AND BE CONSIDERATE OF OTHERS.

THE KEYHOLE

Do you remember last winter's instructors rating sheets? Boy, how we used them for kigemies! After they had been filled out, the forms went to the Statistics department where they were tabulated and where now the gruesome story can be told. Well, let's see whether they'll dig a big hole behind the chancellor's mansion or whether we'll see some new faces on the teaching staff. "Four Roses" to one B. G. Parker who faithfully pilots his Meredith College bus to and from the angel farm over the weekends. When taps are sounded at 10:30 and all the li'l chicks must scramble to sign in, there starts also a frantic last minute a-huggin' and a-kissin, with our wolves gradually peeling themselves off the sugar and trotting to the waiting bus, usually the last one, with B. G. at the controls. When his schedule begins to get squeezed by those lovers who ought to marry the gal, our hero gets out and with index and little finger spreading his lips he gives with a curved whistle. There is another scramble.

Unlike their bathing suits, the new French Flaminaire Crillon cigarette lighter is considerably substantial. The three and a half ounces of machinery burns butane gas instead of the conventional lighter fluid and is supposed to give 3,000 lights. (Wear a glove if you want to check this.) Simply press a knob, simultaneously spinning the thumb wheel and presto!... there is light. Seems like good old French ingenuity and gadgetism, ahem! So if you want to get on the good side of your gal's pa, dust off a silly old subsistence check and send half of it to the nearest large department store, 'cause the dang thing costs from 17 to 30 departmentknicks. Roses are also due a little group of fresh air fiends who not quite a year ago banded together to form the State College Outing Club. Come Sunday, these fellows (and gals) don their boots and dungarees and tramp through the woods and parks to get away from the carbon-monoxide and the Hollywood cinema. During the year they have an occasional square dance, and three weeks ago they went to Hanging Rock State Park on an overnight camping trip. Last Sunday, when most of us had our feet propped up on our Buddy's bunk, reading the funnies, fourteen guys and a cute little number from the 1911 Building defied the drizzly elements and went to Crabtree Park. (What's this about Social Studies? 'Real life's values?')

Dorm Doings - - -

Readily admitting that the old man—We're glad he's on our side. Dwight Ham, Burlington's social chief, is likewise on the proverbial ball. Dwight has a party coming up on the eleventh, the day before Tucker's. None of the plans have leaked out so far, but if the parties of the past are any standard, there should be the cat's pajamas. With Syne already in the planning stage of a big bust-out for this term, every dorm club will have had at least one social before Christmas rolls around, with the exception of Welch. They have concentrated so far on their intramural program, and their singleness of purpose has paid off in a most successful football season. Long noted for the prowess of its part-time athletes, Welch is living up to tradition one more year. Sidney Credle, the athletic director, has an undefeated grid machine as of this week. The Green Years We don't want anybody to get the wrong idea about what we are going to say right now. Certainly the dorms that were painted this summer look much better than they did last spring, but we can't help but wonder why the college bought so much green paint. They got light green, dark green, and in-between green—but all green. Now, there's nothing wrong with green as a color, but there certainly is a lot of it around State College, and it isn't all on the freshmen. Like we said, we aren't complaining about the idea of paint and painting, but we do wish there weren't so much green. There is probably a very good reason for using green paint, but we hope it gives out before time to paint desks and bunks gets here. Before putting the cover on the typewriter for another week, let's say a good word for the improvements made around the dorms since last year. The new walks and grass make a real improvement in appearance. Now, if somebody would just do something about some lights along the street leading out to Owen and Tucker, your reporter could find something else to crusade for. Have patience, all things come to pass in due time.

# Pack Edges V.P.I. 14-13 For First Win

## Welch Defeats Second Becton on Downs

By SIDNEY CREDLE  
A groggy Welch team edged out a first down victory over No. 2 Becton. Welch's offense never got started against the rugged No. 2 Becton line backed up by an alert secondary defense. Game date: October 24.

Welch opened the game with a play that was good for 20 yards and a first down on the No. 2 Becton 20 yard line. At this point the No. 2 Becton defense stiffened with the brilliant play of guards Stokes and "Bulldog" Richardson. The most spectacular play of the game came a few minutes later when John Safely passed to Karl Mayer who made a circus catch of the pass on the Welch 5 yard line. However, the play was nullified by a penalty.

### Second Half Defensive Battle

In the second half both teams were unable to muster enough offensive punch to score. The play of Irvin Micholove in the line and team mate Tom Rhyma in the secondary held Welch in check while "Choo Choo" Gibson's booming punts for Welch kept No. 2 Becton in their own territory.

In statistics Welch had a slight edge of 5 first downs and 70 yards rushing to No. 2 Becton's 3 first downs and 50 yards rushing.

Outstanding players for Welch were "Blue-fingered" Turner, "Flash" Twyford, "Choo Choo" Gibson, "Heavenly" Angell, "Nic" Hicks and "Crazy legs" Hoffman.

## Mooney & Thompson Outstanding For State

By JOHN LAMPE  
Scoring early in the ball game, the Wolfpack held the battling Virginia Tech eleven in the second half to register their first win of the season 14-13 before a capacity crowd of 23,500 in Norfolk's third annual Oyster Bowl game. Charles Westbrook's two perfect conversions spelled doom for the Gobblers.

Led by Tailback Ed Mooney and Wingback Bill Thompson, who scored the State touchdowns, Coach Beattie Peathers' team had the upper hand in the first half of the contest, but the Techmen took the offensive in the second half and almost provided an upset.

### O'Rourke Stylish VPI Threat

State opened the ball game fast by scoring a T.D. early in the first period. Fullback Jim O'Rourke snagged a Tech pass on the State 10 and getting good blocking scampered to his own 47. With Ed Mooney engineering the drive, the Pack picked up a first down on the Gobbler 36. Then Mooney pitched to Blocking Back Bowly on Tech's 30. O'Rourke took over and in two plays rammed his way to the V.P.I. 18. On the next down Thompson took the ball on a reverse and galloped the remaining yards to the goal line. Westbrook's kick was good, and State led 7-0.

The Wolfpack must have fired

## Scores On Long Run

Ed Mooney, shown above, faked a handoff to Bill Thompson in last Saturday's 14-13 victory over VPI and after eluding the entire Gobbler team, ran 33 yards to score State's winning touchdown.

up the Techmen for early in the second quarter, the Gobblers scored from deep in their own territory. On their own 12 and second down the Tech's took heart. Halfback Sterling Wingo took a hand off from quarterback Fisher and running wide up the side lines outdistanced the Wolfpack secondary, crossed the midfield stripe, and scampered on to score. Guard Ralph Beardskick was good and

the game was tied up.

### Mooney Scores on Long Run

However, in the second period, the Pack scored again on a 33 yard run by Mooney. With the Gobblers deep in their own territory, Halfback Bob Gilley kicked out on the V.P.I. 33. On the first play from scrimmage elusive Mooney faked a hand off to Thompson and deceiving the entire V.P.I. team crossed the goal line standing up. The second half was all V.P.I. They threatened to score three times during the last two quarters, but were only able to hit paydirt once.

Late in the third period, Thomas and Fisher led a drive from their own 22 all the way to the State goal. However, a bad pass from center ruined the attempted conversion and cost the Tech's a tie.

The Wolfpack forward wall was directly responsible for halting the V.P.I. team in the second half. Guard Charlie Musser, Tackle Elmer Costa, and End Tony Romanovsky were particularly active.

Fullback Jim O'Rourke did excellent work as a defensive back intercepting one pass to break up a Tech threat and getting another to set up a Pack T.D.

## Smith Outstanding For Turlington Dorm

By ROBBY WRIGHT

Second Turlington sees bright hopes of taking the intramural championship. The reason for this bright outlook and the teams undefeated record half way into the season is a triple threat ball player, name of Bob Smith. To all of Turlington, Smith stacks up with the best players in the league.

Smith, a junior in the Heating and Air Conditioning curriculum, hails from Charlotte, N. C. To look at him, you would say that he was a born athlete. He is six feet two inches tall, and weighs 175 pounds. An active participant in intramural sports, he excels in most of them. Evidence of this is shown in the fact that he won the trophy last year for the best all around dormitory intramural athlete.

Last year Smith held down a stanking position on the Turlington team. Even at that time he showed bright prospects of becoming a tailback. At practice he excelled in running, passing and kicking.

### Converted to Back

This year he was converted to a tailback where he has become the backbone of the No. 2 Turlington team. His fine kicking, his dazzling running, and his "dead eye" passing has constantly kept the No. 2 Turlington team out of trouble as well as giving the team that necessary scoring punch.

Smith's ability can be shown in cold hard statistics. So far this year No. 2 Turlington has scored a total of forty-three points in two games. Smith has passed for nineteen of those points and ran personally for eighteen. These facts themselves show his ability as well as his importance to the No. 2 Turlington team.

To add to all of this, he is just as good defensively as he is offensively. He is the only No. 2 Turlington player to play a complete game.

### Also Baseball Player

Although Bob is a good touch football player, he enjoys playing baseball better. Last year as a rookie pitcher on the varsity squad, he had a record of two wins and two losses. Only the lack of experience could have caused these two losses say the men from Turlington. This year he will be pitching again for the varsity squad.

## INTRAMURAL FRONT

By NEILL POSEY

Last spring quarter the Intramural Athletic Board and other interested parties, such as Alex Vann, President of the Inter-Dormitory Council, asked the committee for Allocation of Student Activity Fee for a 25 cent per student per quarter intramural fee.

The committee was favorable toward the fee but put off action on it until the fee could be re-studied in the fall term—this term. However, the committee saw the need for money to carry on the intramural program and allocated \$1,000 for the fall term.

### Miller Saves on Supplies

The \$1,000 allocation carried a stipulation that it be spent for supplies only. Mr. Miller, Intramural Athletic Director has spent that \$1,000 for footballs, horse shoe sets, volleyballs, basketballs, softballs, table tennis sets, handball equipment, etc. By buying in quantity he has saved 10 per cent on many items. Furthermore by selective shopping he has bought some equipment at very reduced prices. For example: He bought 3 footballs 10 yard chains at \$4.50 each. They normally would have cost 2 to 3 times that amount.

Ned Wood, committee member and self-admitted suggester of the re-study of the proposed 25 cent fee, now seems to be favorable toward the fee. His original delaying action was based on his belief

### Furthermore, the Intramural Athletic Board has asked Mr. Miller to provide volleyball, horse shoe, etc. units near college dormitory units. This would benefit the dormitory units and remove some activity from the already crowded gym.

A large saving on table tennis tables was made when the City Recreation Department offered to make their tables in their hobby shops if they were provided with the wood. This was done. The wood hasn't been paid for as yet but must be paid for by the end of the quarter. The tables will be used for intramurals. Most of the wood bill come out of the P.E. fee also?

### The Intramural Athletic Board is at a loss in fostering a progressive intramural program without a known sum of money to spend wisely. I hope the committee will meet soon.

Next week predictions are in order.

## Turlington Seeks Wrestling Title

By JOHNNY EVANS

Tonight, No. 2 Turlington hopes to win the battle of the matmen in the intramural dormitory wrestling prelims. The only team now expected to field a man in each weight, the powerful No. 2 Turlington team will give "heap much trouble" to their opponents.

The winner of last year's 135 lb. weight, Bobby Wright, is expected to repeat again in this class.

Charles Heely, a wrestler with experience, has entered the 145 lb. weight. All the men from Turlington are relying on Heely to win this weight.

John Hancock, a 145 lb. man last year, has moved up to the 155 lb. weight, where he feels more at ease.

Carl Cahoon, another veteran wrestler, has moved from the 155 lb. weight to the 165 lb. weight. Cahoon is a good wrestler and will be very hard to beat.

In the 175 lb. weight is Bob Smith. Smith wrestled in this weight last year and although he lost, he showed signs of becoming a skillful intramural wrestler.

Wrestling in the 115 lb. weight will be Hillary Dougherty. Although he is inexperienced, he is a highly regarded wrestler among his fellow wrestlers.

In the 125 lb. weight will be another newcomer to the team. This man, "Muscles" Miller, is expected to be a tough man to beat in his weight.

To round out the full team, Ray Holbrook will enter the unlimited weight. He is big and quick.

### Syme Has Good Week In Dorm Intramurals

First Syme produced a good record this week. Its teams won a touch football game, two volleyball games, but lost a handball match.

They won a hard-fought touch football game from Gold-Watuga on October 26. The game ended in a 6-6 tie but No. 1 Syme led in first downs, 7-4.

No. 1 Syme scored their touchdowns in the second half on a long pass from Ralph Jones to Harold Ballard. Gold-Watuga scored in the first half after a long drive made on a series of short passes.

Stuart Gooden and Ralph Jones in the backfield and Harold Stevens, Henry Champion, and Lonnie Gaddy in the line were outstanding for Syme reports "Icky" Burroughs, Athletic Director for Syme.

In volleyball, Welch was defeated 2-0 with Buddy Rogers, Ralph Jones and "Icky" Burroughs leading the attack. Wally Moore led the No. 2 Syme volleyball team to victory over an outclassed Gold-Watuga.

No. 1 Syme was eliminated from the handball elimination by No. 2 Turlington. Buddy Rogers won his singles match while Lonnie Gaddy lost a singles match and Hank Utley and Harold Ballard lost the doubles match.

### WRESTLING

Dormitory wrestling prelims will start tonight at 8:00. Coach Crawford and his varsity squad will officiate. He will explain the regular rules of scoring college matches. However, wrestlers will wrestle 1-2-2 periods with a total of 5 minutes.

Biltmore Is Famous N. Y. Meeting Place

With the advent of fall and the reappearance of large groups of college students, that old familiar parting salute: "Meet me under the clock at the Biltmore," again echoes throughout the country. Indeed, this famed New York East Side hotel has become an accredited stand-in Alma Mater for the undergraduates of nearly one thousand universities, colleges and schools. Besides the several hundred students who weekend at the Biltmore with the permission of their deans, youngsters visiting friends elsewhere in the city always manage to get to the Palm Court Lounge at some time during their Manhattan stay because they are sure to see familiar faces there.

The development of the idea for the Biltmore's College Department is interesting. About 1924 a group of American college girls was invited to spend the summer in a garden-surrounded 14th Century Mansie in England. Properly chaperoned and having for its purpose a mental and spiritual expansion, this venture was called "The Houseparty" and proved so successful that some of the girls made repeated requests for a place in New York where they could come and to some extent be on their own.

The idea of a hotel where students might be under the supervision of a watchful staff without really cramping the style of these young people was broached to Biltmore executives who immediately appreciated the possibilities of such an undertaking. This innovation likewise appealed to college authorities, students themselves, and particularly to uneasy parents who had previously feared unsupervised metropolitan safaris.

Therefore the Department of College Relations of the Biltmore was carefully organized. That was seventeen years ago. The first year 150 students registered. The next year the number was augmented to 1500. In 1941 the records showed 18,000—a figure that was increased to 35,000 in 1942. The department, now "co-educational," is by no means a cloistered setup which prescribes a guard or chaperone for every student who calls forth, but is rather a friendly series of guides who make reservations for incoming students and faculty members, acts as a contact with the school itself, and functions in many other capacities as well.

Mrs. John Hammond is the director of this unique department which, over the years, has developed in a highly efficient manner not only to the benefit of student and faculty members who avail themselves of a considerable saving in the college rate, but also to the hotel for its methodical indexing of information about schools and their personnel.

In line with the services rendered to universities, colleges and private schools, there is a department living room constantly available for interviews between students and college authorities, and frequent consultation with the college deans enable Biltmore officials to keep in close touch with student requirements.

Vetville News

Vetville has progressed in a great number of ways since its first council was organized in January 1947. There are paved roads leading in and around Vetville, sidewalks instead of muddy pig paths, street lights, and a recreation house.

The credit for these luxuries does not rest upon the shoulders of one man, or ten men, but to every mayor, councilman, and resident of Vetville.

The leaders responsible for the progress of Vetville are: Malcomb Edwards, first mayor; Jack Hammer, second mayor; Jim Reese, third mayor; Phil Moore, fourth mayor; Johnny Medows, fifth mayor; and Everett Stevens, sixth mayor who is now in office.

Each mayor had a group of aldermen, and with the combined knowledge of each group through months and months of debating and hard work, Vetville has become one of the best organized civic minded groups on this campus.

The old saying is, "You have got to have something to start with to do anything," but in this case the old saying does not hold true, for when Vetville was organized the residents were put on their own and told to organize. It took a while, but the deed was finally accomplished.

The council today has solved a lot of problems, but there are still plenty of obstacles to overcome before Vetville can settle down and live a comfortable and quiet life during the remaining time.

LOOKING BACKWARD...

By JOE HANCOCK

It's an old American tradition to browse around in old newspapers, scrapbooks, magazines and the like. A quick glance into the years gone by always bring laughs, tears, and thoughts of "oh, my how things that indeed times have changed.

For example, the Sept. 19, 1941 TECHNICIAN carried a front page story with the lead reading, "With 'reasonable luck' in procuring the necessary steel, State College's \$300,000 combination auditorium-armory-coliseum should be ready for dedication by next September 1. Prof. Ross Shumaker, college architect, announced yesterday." It certainly is ironic what two little words like "reasonable luck" can mean.

Wataugan

It seems that even the "good old days," the appearance of the WATAUGAN created quite a stir on the campus. A TECHNICIAN scribe in the Nov. 12, 1937 edition leads off thus: "Strange as it may seem, and much to the surprise of everybody, including its staff, the supposedly humor magazine of State College—commonly called the Wataugan—has actually made its initial—and for all we know, maybe the last—appearance for this year before the students." Well, things haven't changed much in 12 years, have they?

War Edition

And now a glance into a war edition. Things really must have been dull around here then because the first edition of 1943 read, "The civilian enrollment for the college has dropped from the approximately 2,500 students registered last fall to only 982, it was announced recently by college registrar W. L. Mayer." The services must have really combed through the ranks of collegians that year. Things really reached rock bottom when the March 24 edition announced that "The enrollment of State College registration on March 15.

It seems that time waits for no man and the future is unpredictable. But still "glancing backward is an old American custom."

How We Met

My favorite tune at the moment (it's pure coincidence that I recorded it for Victor) is "Give Me Your Hand." The lyrics go: "Give me your hand, let me be your hand, let me be your hand, let me be your hand."

Here is a classy proposal of marriage set to music, which should help a lot of beautiful swains.

PERRY COMO

"Give Me Your Hand" started me thinking about married couples in show business. I looked around and came up with a few sightings on well known couples, how they met, and how their marriage influenced their careers.

Take Bea Wain and Andre Baruch, known to the butcher and baker as Mr. and Mrs. Baruch. They met on a Liza Smith show. Just said "hello" casually, as you do on a big program. What followed sounds like a gag to me, but Andre swears it's true. Seems he hadn't been feeling too well. As the show went on, he felt worse and worse. He hung on until the program was over, then picked a quiet corner and fainted. (So he says.) In the confusion, Bea was the only one who noticed the limp bundle of Baruch. She (to quote Andre) "rushed over with a pitcher of water which she poured all over my new tuxedo." Things like that take the formality out of a first meeting. Andre says he got even by marrying the girl.

Stanley and Helen Melba share one of the most unusual careers in show business. Their firm produces shows and supplies entertainment for a large hotel chain, for conventions, charitable events, society parties, and anything else which calls for top entertainment. You just call them up and say, "A few hundred inch-wide friends are dropping in next Tuesday. Will you please put on a fashion show and send over a few jugglers, a mandolin and a name band?" They take it from there.

Stanley and Helen met at a party when Helen was 16, Stanley a few years older. They had a long engagement, and Helen was every bit of 19 when they married. At that time, Stanley was playing saxophone in Ozzie Nelson's band. He switched to

a job on Wall Street, intending to be the standard model husband. But, Wall Street failed to reward him properly, and he had to take an orchestra job on the side. Finally, he organized his own band. He mixed up the books so thoroughly that Helen stepped in as bookkeeper. Now, she's a full-time partner, staging shows and helping with the management of seven orchestras.

Tex McCrary and Jinx Falkenburg met when Tex interviewed Jinx for the Daily Mirror in 1941. She was a student and an up-and-coming model. Tex wrote editorials and did a daily feature column for the Mirror. Their paths kept crossing during the next few years. This was remarkable, because both of them were traveling all over the world. Tex in the Air Force and Jinx with the USO. At last, Tex discovered that Jinx was about to leave the United States for Europe just as he was due back. He called a mutual friend in New York: "Locate Jinx. Tell her to stall. Guy who wants to marry her en route home." It worked and today—well, you know what a change marriage has made in those two careers.

While we're on the subject of early romances, I just can't resist mentioning "he-man" Mitch Ayres, our conductor on the Chesterfield Supper Club. You know, most people don't think of Mitch as a Romeo, at least not the kind of a guy who falls in love with a gal and can't eat. In 1918, Mitch met his wife, Georganna, in Hollywood while he was working on a movie at an outdoor location scene. He made quite conversation with her between the scenes, dated her a few times and then left the coast on a tour. Strangely enough, he found himself re-creating dates after that and suddenly realized that he was up to his neck in love. He married Georganna shortly afterward, that is, as soon as he could get back to the coast.

One of my favorite "how-we-met" stories comes from a versatile and distinguished show business couple, Kitty Carlisle and Moss Hart. Author-producer Hart and actress-singer Carlisle, when pressed for a story on how they met, came up with a beautifully simple one. "We can't remember," they said. "We've known each other for years."

Two things every college man should know!

1. This is an English major. Goes from bed to verse. Glows when Johnson waxes poetic. Thinks Ogden Nash is funny but knows John Greenleaf is Whittier.

2. These "Manhattan" Repp ties open a new chapter in smart fall styling. And best of all, the stripings are in your own Alma Mater colors.
