## Student Supply Store Boss Questioned By CG State Auditor, Students Peer Into Athletic Finances

### Deese Gets a Watch . . .

When it comes to being outstanding, Charlie Deese is the most outstanding of the outstanding! The "outstanding" repeats itself in the above sentence like Charlie's perfect grades. Deese has a straight "A" record for three years work. As a reward for his efforts, he receives a watch from beaming Dean Lampe at last week's Engineer's Ball. Mrs. Deese and Engineers Council President Jim Ficks look on. (Photo by Dick Wooten)

### Proposed State Law And Fee Committee May Change State Athletic Set-Up

By PAUL FOGHT

Funds and finances of the Athletic Department may be subjected to a closer scrutiny by the students and the administration as a result of two separate proposals to streamline financial administration. One change is proposed by the State, the other by the student-faculty committee now studying non-academic fees.

A bill before the General Assembly would require that the books of the athletic departments and the athletic foundations of the Greater University schools be audited by the State Auditor's Office. Private firms now audit the books for these departments, while accounts for other functions of the schools are now audited by the State.

#### Nothing Wrong

State Auditor Henry L. Bridges states that this action "does not intimate that anything is wrong, but is just a small part of an overall program of modernization." Bridges says that the law governing the duties of his office has not been changed since the turn of the century. During this time the func-

tions of State government have expanded and been revised and modern accounting procedures have been developed.

Bridges also remarked that the comptroller of the Greater University, W. D. Carmichael, Jr., had requested that the duty of auditing the accounts of the athletic departments be included among the responsibilities of the State Auditor.

It appears to be the general feeling in the auditor's office and in the college administration that the operations of the athletic departments have become so large as to require an official State audit of their books.

A second check on the activities (Continued on Page 7)

### Monogram Passes Hat For WSSF At Duke Game

WSSF advises that the need for student relief today is as pressing as it was at the close of World War II. WSSF this year will provide food, books, medical care, shelter, student centers and other forms of aid in Europe and Southeast Asia.

#### Refugees Problem

Refugees are a large item on the world's agenda of needs. In India and Pakistan millions of Hindus and Muslims are homeless. The more fortunate are crowded into government camps, where they have a tent over their heads and the basic minimum of food and medical care. Countless others must shift for themselves in the streets of the large cities. Starvation and disease are taking their toll. Among these refugees are thousands of students who will not be able to continue their studies without some form of WSSF aid.

Europe too, has its quota of homeless students. WSSF is still working on its relocation program for DP students. Hundreds of students in DP camps hope that they

### Ivey Answers Students' Questions On Store As Campus Government Puts On Heat

By CHARLIE HAMILTON

Prices and policies of the Student Supply Store were the subjects of a question and answer discussion in the Campus Government Tuesday.

Store manager L. L. Ivey, using a set of prepared questions submitted to him by the Council, explained that his organization operates for the same profit motive as any other Raleigh business.

Prices for "required supplies," those which students must buy for their school work, were set to allow for a smaller margin, while prices of other supplies yield a higher profit, he stated.

A 20 per cent discount, which is set by the publisher, is given on text books bought from Watauga Book Store, he said, and is included in the "marked" sale price of each book.

#### Used Book Prices

In answer to a question about the prices Watauga pays for used text books, Ivey stated that the same policy is used that is accepted by the majority of other campus stores. A flat rate of 50 per cent of the purchase price is allowed for books where they are sure of a resale, he declared.

For other used books Watauga pays a lower price and sells the books to campus stores where the books are still in use.

There are probably variations in both cases, he admitted, and added that he would be glad to take up any problems with students.

#### No Lower Prices Elsewhere

A question charging that students can get "some" supplies at lower prices elsewhere brought a denial from Ivey and a promise that they will be corrected anytime they are called to his attention. There may be instances where items sell for higher prices solely because of a clerical error, he added.

Another Council question asked why Watauga Book Stores sometimes ordered less books than instructors specifically requested. Ivey stated that orders were made on the basis of anticipated enrollment figures and that these often differed with instructors' estimates. Instructors often over-order, causing Watauga to lose money, and he added that "if we ordered all the books requested, Watauga would lose \$250,000 a year."

### . . . Banks Gets a Crown

The Ag School Barnwarming last weekend wasn't all overalls and clod-hopping. The boys from Ag Hill took time out from their festivities to crown a charming little lass from out in Fresh-Air Garner as their queen. Shown here is Miss Nancy Banks getting a little more weight added to her firm frame. We were so dazzled by the smile Nancy is sending out into the crowd that we didn't even bother to ask who the lucky crown-bestower is. We will hazard a guess on Dr. Colwell from Agronomy. (Photo by Fulp and Howard)

## BLUE KEY CALENDAR

**February 9**  
 Illustrated lecture, "Powder Metallurgy As A Research Tool," by Dr. Henry Hausner, head of special products section, Sylvania Electric Products. Riddick Auditorium, 8 p.m.  
 Play, Detective Story, Raleigh Little Theatre, 8 p.m.  
 Wrestling match, State vs. Citadel. Coliseum, 8 p.m.

**February 10**  
 Basketball, State vs. Duke. Coliseum, 8 p.m.  
 Dancing instruction, Frank Thompson Gym, 4 p.m. to 5:15 p.m. Free.

**February 11**  
 Weekly record concert, 108 Peele, 2 p.m. Everyone invited, no charge.  
 West campus YMCA. Church service 11 a.m. Dr. R. H. Edwin Espy, National Executive Secretary, YMCA.  
 Pullen Hall, 4 p.m., free of charge, Mendelssohn's "Elijah." Raleigh Oratoria Society with orchestra furnished by American Federation of Musicians Music Performance Trust Fund.

**February 12**  
 Liston Pope, Dean Yale Divinity School, will lecture on "Christianity and the Race Struggle." United Church, Raleigh, 8 p.m.  
 Band practice, Gym, 4:10 p.m.  
 Glee Club practice, Pullen Hall, 7 p.m.

**February 13**  
 Agriculture Club, 118 Withers Hall, 6:30 p.m.  
 Forestry Club, 105 Withers Hall, 6:30 p.m.  
 Basketball, State vs. Louisville, Coliseum, 8 p.m.  
 Glee Club practice, 7 p.m.  
 Symphony orchestra practice, 8 p.m.

**February 14**  
 Alpha Zeta, Patterson Hall, 7 p.m.  
 Theta Tau, YMCA, 7 p.m.  
 Freshman YMCA meeting, Basement Tucker, 7:30 p.m.  
 Glee Club practice, 7 p.m.

**February 15**  
 Kappa Phi Kappa, 114 Thompkins, 7 p.m.  
 YMCA, 12 noon, Room A Cafeteria.  
 Band practice, 7 p.m.

**February 16**  
 Midwinter Dance, Frank Thompson Gym, 8 p.m. Claude Thornhill and his orchestra.

## Why Are We Fighting?? U. S. Troops In Korea In The Dark

*Ed Note: The following is a letter received at State College by a WW II Marine veteran who was recalled to active duty. It might serve to answer some of the questions in the minds of State College students who are facing draft in the near future.*

Hello Pal,  
 A month ago if you had told me I would wind up over here—I would have let you know that you were bats, but it happened so fast that I am still unable to get accustomed to the fact that I am now chasing and being chased by "Gooks."

This is the prime example of how the Marine Corps backs up their recruiting posters when they advertise—"join the Corps and see the world—" What gripes me most of all is the fact that I never did get a chance to pull a liberty in Japan.

I am now trying to figure out how ridiculous this whole situation would be for us — should China and the United States start a full-scale war, I believe the best thing for me to do would be to head for the mountains and dig a nice comfortable hole and stay there until they square away this whole mess.

I can say one thing for certain and this is—no one over here has a clear idea of what we are fighting for. If the reason is to liberate the Koreans and make this country safe for democracy, then perhaps someone should acquaint these natives with the principles of self government, and as for myself, these people have a long way to go before they will be able to appreciate anything like the Bill of Rights or the Constitution. They know only one thing and that is force. Their whole way of life is dominated by

**February 17**  
 Midwinter Dance, Memorial Auditorium, 8 p.m. Claude Thornhill.  
 All organization wishing to have their meetings announced should leave the information at the YMCA desk. Announcements for the Blue Key Calendar cannot be accepted at the TECHNICIAN office.

The Carolina Playmakers will give Shakespeare's "Romeo and Juliet" in the Meredith College Auditorium February 12 at 8:00 p.m. The play is sponsored by the Meredith College student body and admission for students will be 75 cents. Tickets will be on sale at the door.

prestige. Someone will always be around to tell them what to do—otherwise they are lost.

We are dug in outside of this town. Patrols and skirmishes with the Red Guerrillas sums up our way of life so far. But sooner or later we expect to run into the Chinks and then we will have a little bit of a job on our hands.

This is a good outfit—The fellows are tops even though they are just a bunch of kids. They have had a rough time of it so far and they stood up great, and it will take a lot of Chinks to push this bunch around, and it's that way all the way thru the Division.

I can't tell you anything about the situation over here, because I really don't know anything myself. The people back home have a better idea as far as how this whole Korean problem will turn out. We only hear cheerful rumors over here—such as "Russia and U. S. are at war," Chinks throw 100 divisions into Korea," etc.

Well, Pal, take care of yourself. I got to get my blues—the liberty is terrific over here!

## College Visited By AP Editor

By FRANK GOODE

The Science Editor of Associated Press, Howard W. Blakeslee, has just completed a two day period reviewing several of State College's research programs.

The material Mr. Blakeslee collected here will be sent to AP papers throughout the country and many other parts of the world. A celebrated lecturer, Mr. Blakeslee is noted for his ability in translating the scientists complicated theories and experiments into the language of the layman.

Blakeslee stated that he was impressed by the numerous research projects being carried on at State. The new Nuclear Reactor Program was of particular interest to him. The prestige of the college will be greatly raised by the addition of the nuclear reactor, he said.

Ag Projects

Blakeslee also collected material on two projects being dealt with by the School of Agriculture. The School is experimenting on plant

growth, using radio-active phosphorus. Its second big project concerns peanuts. Both of these programs are expected to open up wider horizons in their respective fields.

Information was also gathered on the Industrial Deployment project of the School of Design. This program deals with the dispersment of essential industries in preparation of atomic bomb attacks.

Mr. Blakeslee arrived at State after visiting the H bomb project in South Carolina. After his visit here, his next stops are at the University of North Carolina, Duke University, and the Medical College of Virginia. After his six week tour of southern campuses, Mr. Blakeslee will return to his New York offices.

## Pika Officers Named

## Acquinas and YMCA Open Lenten Program

The Lenten season has given additional impetus to campus religious activities as both the YMCA and the Acquinas Club announce special programs for Sunday.

The Acquinas Club will stage a retreat at the Catholic Orphanage. The retreat will begin with the 9 o'clock mass and will end with the 5 o'clock benediction. All Catholic students are invited to attend, and any desiring transportation should meet in front of the YMCA at 8:45 a.m.

### Vetville Speech

Dr. R. H. Edwin Espy, Executive Secretary, National Student Council of the YMCA will visit the campus on Sunday. At 11 o'clock he will speak at the regular church service in the West Campus YMCA in Vetville, on the subject "Faith For An Uncertain Future." Students, faculty and friends in the city are cordially invited to attend.

### Religion in Education

At one o'clock, the YMCA will give a luncheon in honor of Dr. Espy in the Grill Room of the Cafeteria. At this time Dr. Espy

## Dr. Espy

will speak on, "The Place of Religion in Higher Education."

At 3:30 p.m. in the "Y" Auditorium, Dr. Espy will give his third and last address on the subject, "Christian Work Among the World Over."

Invitations to this speech have been sent to the other colleges in Raleigh and to every student YMCA and YWCA in the state.

## You Get A Cut If You Fail To Read This

### NOTICE TO ALL STUDENTS

Undergraduate students in all Schools are requested to meet with their advisers at 12 o'clock Thursday, February 15. Attendance will be checked.

These meetings are planned to serve three purposes:

1. To discuss the continued registration of students in the present national emergency.
2. To make announcements about pre-registration for the spring term and summer school.
3. To distribute mid-term reports and to arrange for individual conferences where desirable.

For meetings with the advisers, students will assemble as follows:

**Agriculture:** Go to adviser's office; **Design:** Go to adviser's office; **Education:** Go to adviser's office; **Engineering:** Consult departmental bulletin board for meeting places; **Forestry:** Consult bulletin board of School of Forestry for meeting places; **Textiles:** Go to auditorium of Textile Building.

## Get Wounded In Korea, Get Free Education; VA Announces New GI Training Program

### Three Parkers Cited To City Traffic Court

Recent efforts by Mr. Burnett, Campus Policeman, have brought results in the control of campus parking.

One of the longest traffic court sessions in many months was held last Monday in the college warehouse.

### Second Offenders

All of the 15 cited for court action were second offenders. Of the 11 cases reviewed, three were turned over to the city traffic court.

Mr. Burnett reports that a satisfactory wrecker service has been provided by a local motor company for clearance of the Coliseum parking lot after basketball games. The lot is extremely slippery when there is rain and many cars have been stuck in the past.

Regulations outlining conditions under which veterans, disabled after fighting started in Korea, may be entitled to Public Law 16 rehabilitation training, have been issued by the North Carolina Veterans Administration Regional Office.

### Training Extended

The training, previously limited to World War II veterans, was extended to many veterans disabled on or after June 27, 1950, by Public Law 894, signed by the President late last year.

Most of the policies and procedures set up under Public Law 16 have been carried over to the new training program, the VA said. In fact, the newcomers apply for training on the same forms used by disabled World War II veterans.

Under Public Law 894, a veteran must have been disabled after the Korean conflict began and prior to a date yet to be fixed.

The new law requires that the disability be such that the VA may pay compensation at full wartime rates. Such rates are paid for disabilities or injuries resulting from armed conflict, or during extra-hazardous service, or while the United States is engaged in war.

### Nine Years

Under the new law, the July 25, 1956 deadline for Public Law 16 training will not apply to the newly-disabled veterans. Instead, they will have nine years from the end of the current emergency in which to train.

Public Law 894 states that veterans who already had GI Bill or Public Law 16 training, as a result of their World War II service, may be entitled to additional training, if found necessary because of new disabilities.

In determining whether such a World War II veteran needs training, and what type he should get, the VA will consider his previous records of advisement and training as well as his current medical record. The reason, the VA said, is that previous training may be capitalized to the fullest extent practicable.

In the case of a veteran who interrupted Public Law 16 training to re-enter the armed forces, the VA also will evaluate his past training record and present medical file, to determine whether he still is able to go ahead in the same employment objective.

## Travel and study ABROAD this summer

Full-credit... all-expense... university-sponsored... study tours via TWA

Plan now for this perfect summer! Spend half your time sightseeing in Europe, the other half in residence study. Tours planned for this summer (4 to 9 weeks) in: Switzerland, France, England, Ireland, Spain, Italy, India and General European (no residence). All air travel by luxurious TWA Constellations.

For information on tours, mention countries that interest you most when writing to: John H. Furbay, Ph. D., Director, TWA Air World Education Service, 80 E. 42nd St., New York 17, N. Y.

Texas miners, grab your picks, As thru those hills we hike, And whether we find gold or not, We'll have a Lucky Strike.

Glen Furr Texas Western College

### What; No Merit Rating?

Campus Government voted last week to postpone teacher merit rating for a year. They feel that once in two years is sufficient. Probably, with some deans getting their reports on the rating almost a year after they were made, the decision is a wise one.

But we feel that those ratings that we made last year should have been processed and the results placed in the hands of the proper authorities much sooner than last term!

No teacher should be canned because of a low rating for a single period. He should be

called on the carpet and made to understand that improvements are in order.

If subsequent ratings show the same instructors with poor ratings, then is the time to insert the pink slip in his pay envelope.

And with a teacher merit rating being held every two years, some students are going to be subjected to inferior instruction for an extra year.

Get that merit rating out of the moth balls, revise it according to plans outlined by the more-than-willing Psychology Department, and let us have our say about our instructors.

### One-Day Registration

In a recent issue we called the Registrar's Office to task, asking for a one-day registration period.

THE TECHNICIAN received a very nice letter from Mr. Mayer, Director of Registration, explaining the problems confronting him in such a plan as we proposed.

And it all boils down to one group—THE STUDENTS!

One-day registration, even pre-registration, was attempted. And due to lack of student cooperation, the plan was filed in the trash can.

Here's an excerpt from Mr. Mayer's letter: "Some years ago we had a complete registration prior to the opening of the

term except clearing with the Business Office and completing registration. We had two or three hundred students who did not come to the Business Office during the allotted time, and we had great difficulty in determining who actually was on the campus and who had not returned to college.

In closing, let me say I have no objection to a one-day registration if it can be worked out to the satisfaction of all concerned."

This is an excellent example of Administration cooperation with student desires. Here is an official who is willing to do what the students want. Are the people who asked for my editorial willing to submit a better plan than we have in operation now?

### \$3,000,000 And \$3.00

When a student is hungry, he cannot think intelligently about freedom and Democracy nor resist Communist propaganda.

Let's develop tomorrow's world leaders for Democracy by providing food and equipment for today's thinkers—the college students.

One specific example is the University of Indonesia. Dr. Frank P. Graham served on the United Nations Commission which terminated the civil war there and helped to establish a new republic called the United States of Indonesia. The students there never have more than two meager meals a day, and they are in desperate need of books and equipment.

When you are contacted by your World Student Service Fund solicitor, GIVE GENEROUSLY.

Students in Indonesia have the will to learn. Are we too comfortable to help? Give to WSSF.

I was without shoes and I murmured, until I met a man without feet. Many of us are having a tough time financing our education, but very few of us actually go hungry. We have some of the best facilities and teaching staff in the world. Thousands of potential students have no teachers at all. Our extras are their essentials. Give generously to WSSF.

American students spend 3 million dollars a year on "cokes." Is it too much to give three dollars for student relief? HW

### Carolina Forum

The Greater University Student Council recently instituted plans to exchange news of interest between the three branches of the University.

One of the first news releases to reach the editor's desk from Chapel Hill was a schedule of events sponsored by the Carolina Forum of the University.

The Forum offers such name speakers as Mark Clark, Senator Kefauver, and Edward R. Murrow.

The idea to present news of interesting events which are happening on the three campuses should do much to accomplish the aim of the Council to foster better relations.

### Monument in Asia

It is altogether fitting that State College should have chosen to aid the struggling University of Indonesia. We can feel a kinship with that university for two reasons. First, Indonesia is one of the newest members of the family of nations. Her people are locked in an uphill struggle to win not just a higher standard of living but real independence, and actual survival.

North Carolina fought the same battle to win her independence and to establish a new nation. Later, establishing State College to furnish her leaders, she began to fight to win a strong position in the new industrial economy.

The second body of kinship was established by our own Dr. Frank Graham. His work as a member of the commission that established the republic is reflected in its constitution. It is fitting that we should forward his work. WF

## Leanings and Gleanings

By BILL HAAS

SEEMS that State isn't the only school that has poorly-officiated basketball contests. The Kentucky Kernels sports ed complains, "... officiating at the UK-Notre Dame game probably wasn't what it should have been... hardly ever gets bad enough to justify the roar of boos that continued through the game... even worse when we're 15 or 20 points ahead." So Rupp and his boys have it rough, too, huh?

AND at The Peetra (where State got an alleged rooking at the hands of refs) the Penn U. boys and Villanova's students are having their troubles. Penn students yell for the Wildcat's opponents and vice versa. What, no brotherly love? Ha!

AGAIN from the Keystone State. Duquesne at Pittsburgh gets its share of poor whistle-tooting. The local sports scribes and visitors are yelling "homer," which, according to our translation, means that the visitors feel that the Dukes get the benefit of the not-so-doubtful calls.

OUR own impression is that the game recently has become too fast for the officials humanly to keep up with it. Either some rule changes will be necessary, or serious instruction and training must be offered the officials. There are few refs in the country now who can call an entire game without having their family background questioned.

COACHES can help to stem the tide of "kill the ref" demands by keeping their seats on the close calls. Raise hell when you have really been hooked, but keep quiet otherwise.

IT can't happen here! According to the Miami Hurricane, some interesting articles were turned in to the Lost and Found Dep't recently. The errant essentials made a week's tour of the campus and finally wound up in the owner's embarrassed possession. Included in the articles were a white lace bra, size 34B, and a pair of white nylon panties. (We prefer black). What is the significance of that B, girls?

CLASS officers are not necessary raves a University Echo writer from Chattanooga U. What's more, they aren't even desirable! The writer feels that "it is more desirable not to have class officers than to have them in name only." More quotes; "... Class officers... about as useless as mammary glands on a bull." Can you Ag boys enlighten us on this point? We say that class officers are necessary. Don't abolish the office, just throw out the man who isn't doing a good job. (Have I put ideas in your heads?)

MIAMI U. students will soon get the chance to rate their teachers. Seems like the idea is catching. And it's a good one! Only last week Campus Government President Jack McCracken reported that a committee on teacher rating at State College felt that a yearly rating was not necessary, and that "it should be conducted every two years." What's the matter, too much work involved? We would like the opportunity of rating our profs every year. And if they are interested in their work, they should welcome such a rating. Results of the last State College teacher rating (how long ago was it?) show that a sane, fair rating can be made by students. Let's make it an annual affair, Jack.

## With The Greeks

By FRANK PERKINS

With the term almost half over and mid-terms well on their way the "greek" has something for which to look forward.

Mid-Winters this year, will be held the 16th and 17th of February. The Dance Committee has planned to use the Gym for the Friday night dances and Memorial Auditorium for the formal dance Saturday night.

The reason for using the Gym is because in the past the percentage of fraternity men that go to the Friday night dance is much lower than for Saturday night. With the number of fraternity men under the 600 mark I feel sure that the Gym will take care of the crowd on Friday.

There will be a concert at the Textile Auditorium with Claude Thornhill and his Band. As the band contract is for 10 hours, the dances will last four hours, from 8 until 12 and the concert from 3:30 until 5:30.

Greek Week Out

At the last meeting of the I.F.C. it was voted, after very little deliberation, to dispense with Greek Week for this school year. What

was going to be a very enjoyable week, and one which was supposed to bring closer harmony among the fraternities on the campus, was dropped without good reason. I sincerely hope that this plan will not be thrown in the trash basket and forgotten, but rather that in the coming years it will be revived and carried on for many years.

Open House

Now to get a closer view on plans of the fraternities, we turn to the individual fraternities. A few of the fraternities on the campus have had open houses for their neighbors and other guests. An act of this kind benefits all of the fraternities because it tends to bring the "greeks" closer to those who know very little about greek societies.

Pi Kappa Phi plans to have their Annual Founders Day Banquet in conjunction with Mid-Winters. As their plans stand now, it will be held at the Club Carlisle. The Executive Secretary is expected to attend along with many other guests and Alumni. The Banquet will start at 6:30 and last until 9:00. John Ross, who hails from Morganton, will act as M. C.

## Dorm Doings

Dormitory elections for President, Vice-President, Secretary, and Floor Representatives are underway. Election chairmen in the dormitories report that primaries and some final elections will be held this week. From all indications, interest in the elections is very keen. A great many close races are predicted in many of the dormitories. Every dorm student is urged to take part in these elections and any other activity that the dormitories sponsor and take part in.

Another in a series of Winter Term dormitory parties gets into swing tonight. This time the men from Alexander and Turlington dorms are putting on the show. The party gets underway at 8:30 and continues until 11:30 in Frank Thompson gym.

The popular Gene Wallace five piece band will provide the music while the Industrial Recreation Department will furnish the intertainment. Parties, similar to the one tonight, have proved most successful lately.

## Frosh Hear WSSF Talk On Life In Indonesia

On Tuesday, Feb. 6 at noon in Pullen Hall, the Freshman class heard two short talks on the WORLD STUDENT SERVICE FUND and the State College WSSF Indonesian project.

Miss Ruth Hawkins, instructor in Social Studies, described the political situation in the United States of Indonesia. She commented that Japan had occupied the new republic of Indonesia in 1941, and that at the termination of World War II it was given as a Dutch mandate.

### Rebellion

A rebellion in the form of a civil war broke out in 1947. A Commission appointed by the United Nations under the leadership of Dr. Frank Porter Graham arbitrated it, restoring independence. The United States was one of the first nations to recognize it as a republic and it is stated as a member of the United Nations. Their constitution guarantees all of the basic freedoms that ours does and

the name of their new republic, United States of Indonesia, shows American democratic influence.

### Benefactor

The University of Indonesia, which will receive the proceeds from our campus WSSF drive this year, is very similar to our Greater University. It is composed of three separate units in different cities, including a technical school and an Academy of Forestry and Agriculture.

This university, lacking food, housing, books, and medical facilities, can accommodate only 3,000 students out of 80 million people, even with three to six students living in rooms meant for two.

Tom Englehart, Traveling Representative of WSSF, quoted the following statistics: This is the fourteenth consecutive year for WSSF, sponsored by the World Student Christian Council, the Newman Club, Hillel Club, and the National Student Association. Two and a half million students on 750 campuses in the United States donated \$850,000 last year. 600,000 students and faculty members benefited from the two million dollar international WSSF budget last year.

## Looking For A Job? Civil Service Has One

The Civil Service Commission has just announced an Engineer examination for filling positions in all branches of engineering at salaries ranging from \$4,600 to \$6,400 a year. The positions to be filled are located in various Federal agencies in Washington, D. C., and vicinity. Sanitary Engineer positions in the U. S. Public Health Service located throughout the country will also be filled.

To qualify for these positions, applicants must meet a basic requirement of appropriate college education, experience in technical engineering, or both. In addition, they must have had professional engineering experience. Graduate study in engineering may be substituted for all or part of this professional experience, depending upon the grade of the position. No written test will be given.

Applications will be accepted until further notice by the Commission's Washington office; however, persons who wish to receive early consideration should have their applications on file not later than January 9, 1951.

# Farm Folk Form Ag Scholarship

## Easy Cash Offered In Marketing Contest

Enrollment of graduate and undergraduate college students in the Uhlmann Awards Student Contest on some aspects of grain marketing was officially opened in November. Letters outlining the competition and the rules of the contest were in the hands of the deans and marketing professors this morning.

Under direction of the Educational Advisory Committee for the Board of Trade of the City of Chicago, the contest is open to students in all recognized colleges in the United States and Canada. Included in the group of committee members is George S. Abshier, Marketing Specialist of State College.

Prizes to be awarded will be in cash: First Prize—\$300.00; Second Prize—\$150.00; Third Prize—\$75.00, and Four Honorable Mentions Awards of \$25.00 each. Duplicate prizes will be given in each division—graduate and undergraduate.

During farm and home week, held at State College July 31 to August 3, farmers, farm women, and other interested persons contributed approximately \$5,000 to a fund for the purpose of establishing at State College an "I. O. Schaub Scholarship Award" in honor of Dr. I. O. Schaub. The fund will be handled through the State College Foundation.

The first \$100 award will be made at the annual "Honors and Awards Day" during the school year of 1950-51, and at each annual "Honors and Awards Day" thereafter.

### Goets to Frosh

The award will be made to a freshman studying Agriculture or Forestry, who is in the upper one-fourth of the class scholastically, with preference given to a former 4-H Club member and consideration also given to extra-curricula activities and leadership.

The award will be payable to the recipient upon registration for the next school year. If the recipient does not return for either the fall or winter term, an alternate, selected on the same basis as the recipient, will receive the award.

### Committee

The recipient will be selected by a committee appointed by the Dean of Agriculture. Two members of the committee will be the Associate Dean of Agriculture and the state 4-H Club Leader.

The money collected will be invested and the money earned shall be held until such time as the amount is sufficient to make additional \$100 awards.

THEY'RE both good basketball players. But if we were to judge them the way we judge telephone equipment, we'd take the small one.

You see, telephone equipment occupies valuable space, uses costly materials. Paring down its size helps keep down the cost of telephone service.

Take voice amplifiers, for example. Telephone engineers put the squeeze

on size, came up with a new small type. When 600 of these new amplifiers are mounted on a frame two feet wide and eleven feet high, they do a job which once required a roomful of equipment. Size was cut—but not performance!

This is one of many cases where the Bell System has made big things small to help keep the cost of telephone service low.

New Philosophy Prof Hails From Penn., Yale Universities

Appointment of Paul A. Brenden- berg as assistant professor in the Department of Philosophy and Religion at State College was announced by Dr. John W. Shirley, dean of the College's Basic Division.

Approval of the appointment has already been made by Chancellor J. W. Harrelson, the administration of the Consolidated University and by a special committee of the board of trustees.

A native of Pennsylvania, Professor Brendenberg began his undergraduate work at the University of Pittsburgh. After three years of service in the U. S. Navy during World War II, he enrolled at the University of Pennsylvania and there received his A.B. degree in 1947.

Since that time, Brendenberg has done graduate work in the Department of Philosophy at Yale University, where he has completed all the requirements for the Ph.D. degree. His recently completed dissertation is on the subject, "Metaphysical Foundations of the Laws of Thought."

Professor Brendenberg has already assumed his duties at State College and is teaching courses in philosophy and logic during the current school term.

He is married to the former Gladys Ellis of Kingstree, S. C. They are residing at 508 Phelps Avenue, Raleigh.

In commenting upon the appointment of Professor Brendenberg, Prof. W. N. Hicks, head of the State College Department of Philosophy and Religion, said:

"Technical schools are becoming more and more aware of the necessity of graduating scientists who have a firm grasp of the underlying concepts of science and the scientific method. The appointment of Professor Brendenberg fills a gap which we have long recognized in our instruction, particularly in the training of advanced and graduate students of the sciences."

Bed Early, Up Early Old Rule On Campus

The late President George Tayloe Winston of State College was a stickler for military discipline among his students.

His first recommendation following his election to the presidency was submitted to the board of trustees on August 1, 1899. It was discovered recently by Dean I. O. Schaub, former director of the College's Extension Service, in the D. H. Hill Library among other historical documents. The board adopted the recommendation as submitted:

Aim "Military discipline was adopted with a view to secure the most useful and economical distribution of each student's time from rising to retiring. There will be no more drill than heretofore, but students will be required to employ every moment profitably and will not be allowed to visit the city.

"Drinking, card playing, smoking and such vices will be absolutely prohibited. The idea is to form good business habits of system, punctuality, regularity and good habits

LEE'S CHINESE HAND LAUNDRY Special Bachelor Laundry Service 330 W. Hargett St. RALEIGH

Concert Offered By Symphony Orchestra

The string section of the State College-Raleigh Symphony Orchestra, Christian Kutschinski, Conductor, presented a Chamber Orchestra concert in Pullen Hall Tuesday night, February 6, at 8:30 p.m., under auspices of the Raleigh Music Club, guests of State College for their current monthly meeting and concert.

The program opened with three short pieces—an Overture, Air and Minuet by the early English composer, Henry Purcell. Then follows the Concerto in B minor for strings by the early Italian Antonio Vivaldi, scored for four solo violins, two violas, two violoncellos and bass accompanied by the rest of the strings. Soloists for this number will be: violins—Wallace Grieves, Roberta Heaton, Dorothy Park and Philip Michel; violas—John Dughi and Theodora Kovac; violoncello—Eleanor Mann, Beatrice Anderson, Olive Miller, William Sumner, Mrs. Edwin Preston, Elizabeth Meier, Ruth Franklin, Rebecca West, and Zo Smith, violins, Geraldine Kutschinski and Tommy Matthews, cellos, and Richard Bean bass, complete the ensemble.

The third offering was an Adagio for Clarinet and strings, by Wagner, featuring Curtis Craver as soloist. The closing number was the Serenade in G Major—"Eine Kleine Nachtmusik" by Mozart, consisting of four movements in conventional sonata form.

of life by early rising, early retiring and freedom from vicious and extravagant indulgences."

Selenium, a metal little known outside the industrial field, has a unique role in the manufacture of glass. It neutralizes the green color caused by iron impurities, and when added in sufficient quantities, turns the glass to a ruby color.

Within recent years research men of International Nickel have developed two tough materials that help make jet engines practical: Nimonic 80 and Inconel "X". Both are alloys of nickel.

Trucking is a tough job and requires tough equipment to stand up. That's why nickel alloy steels are used for transmissions and other important parts of trucks which are subjected to severe shock and constant hard wear.

Promotions Awarded To Physics Profs

Appointment of four new faculty members and the promotion of another staff member in the Physics Department at State College was announced yesterday by Dr. Clifford K. Beck, department head.

Approval for the appointments and the promotion has been granted by Chancellor J. W. Harrelson, Dean J. H. Lampe of the College's School of Engineering, the administration of the Consolidated University, and by a special committee of the board of trustees.

Dr. Arthur W. Walter, who has been on the faculty of the college since September, 1948, was promoted from assistant professor to the rank of associate professor. He is a native of Kansas and was educated at Bethel College, Kansas State, and the University of North Carolina.

Prior to joining the State College faculty, Dr. Walter served as an instructor at the University of North Carolina in Chapel Hill. He is a member of the American Physical Society, the American Association of Physics Teachers, and the Society of the Sigma Xi. He has conducted a number of research projects in addition to his teaching work and has recorded his research accomplishments in a number of physics journals.

The new appointees to the Physics Department faculty include Dr. Lee G. Gildart, assistant professor; and Albert W. Blackstock, Leon H. Robinson, Jr., and V. E. Pilcher, all instructors.

Dr. Gildart, a native of Albion, Mich., was educated at Northwestern University and the University of Michigan and was employed as a teacher and research scientist at each of those institutions before joining the N. C. State staff.

Blackstock, who holds degrees from Texas A & M College and from Rice Institute, is a former staff member at Rice. He is a native of Waco, Texas.

Robinson earned B.S. and M.S. degrees in physics from Clemson College and worked at both Clemson and Vanderbilt University before coming to State College. He was born in Greenville, S. C.

Pilcher, who earned both A.B. and M.S. degrees from Emory University, formerly was an instructor at Armstrong College in Savannah, Ga. He is a native of Savannah.

All of these staff members, Dr. Beck said, will have both research and teaching assignments at State College.

For the first nine months of the year the 25-34 age group had more killed and injured than any other age group, the North Carolina Department of Motor Vehicles reported.

Happy Birthday Paris

Peace In Paris Is Motto Of Europe Bound Students

Have you seriously considered going to Europe this summer? No, we don't mean in uniform. Have you noticed one constant factor in the press of these past few months? First it blows hot, then it blows cold. Every other day there seems to be a good reason for putting off making plans and then suddenly the sun shines again and everything seems to be calming down. TRAVEL & STUDY Inc., An Organization for Study Abroad, of New York City has analysed certain long term pointers which are worthy of attention.

The conviction is growing in Western European Capitals that there will be peace. The acts of ordinary men and women are in this respect more significant than the pronouncements of politicians.

Look at the way in which the French are preparing to celebrate the 2,000th Birthday of Paris. They have planned evening concerts of sacred music in La Sainte Chapelle with floodlights illuminating the radiance of its stained glass from without, a special birthday song to be composed and sung by Maurice Chevalier, lectures at the Sorbonne — that time hallowed institution of learning, a medieval fair to be held in the Quartier St. Germain des Pres, a Montparnasse week with young artists acting as guides through the studios of world famous painters and sculptors and with displays and discussions at the Ecole des Beaux Arts and the Ecole du Louvre, a bicycle race round the streets of Paris from midnight till 3 a.m., a gargantuan dinner and Rabelais night, in Les Halles, the great central food market of Paris, with spectacles of jugglers and troubadours from the middle ages; all this and much more, not to mention the wealth of special plays, concerts, ballets and artistic manifestations at which the French excel.

Or again, look at the riches in store for the discriminating traveler in other lands. The Festival of Britain is going forward with gathering momentum. On the site of the theater in which Shakespeare played on London's South Bank—his "Wooden O" of Henry V—finishing touches are now being put to a vast new concert hall, the first in Britain since the war. Though our age has evolved far from the confident optimism of the Victorians, of which the Great Exhibition of 1851 was a supreme example, something of that same spirit remains and, for the 1951 Anniversary, has spilled over from the metropolis into the cities and even the villages of England.

There are riches here seemingly without end—a drama festival centered on Cambridge's Arts Theater, a festival of chamber music and opera under the presiding genius of Benjamin Britten, the greatest living British composer, in his home village of Aldeburg on the East Anglian coast, and some twenty other festivals including the world famed Edinburgh Festival and Welsh Eisteddfod.

If further proof were needed of confidence over Europe, think for a moment of the artistic offerings of other countries—Austria with the Salzburg Festival; the first post-war Wagnerian Festival at Bayreuth, Germany; the music festival at Lucerne, Switzerland; the Film and Arts Festival at Venice, Italy and the Holland Festival. Finally consider the fact that the Organizing Committee for the XVth Olympiad has now started work in Helsinki, Finland for the games in 1952.

Of special interest to American students thinking about Europe this summer is an Essay Contest on Paris sponsored by the French Government. The prize will be a three months visit of Paris. All information about this contest may be obtained from TRAVEL & STUDY Inc., An Organization for Study Abroad, 110 East 57 Street, New York 22, N. Y., which will also be pleased to provide information about travel opportunities to Europe and Latin America. A detailed Brochure will be mailed on request.

## Textile Students Win \$2,400

### Ralston Purina Offers Fellowship Awards

State College graduate students, along with those from other land-grant colleges and universities, are eligible to apply for the seven Ralston Purina Company research fellowship awards, college officials have been notified.

The awards, designed to assist in the training of additional personnel for furthering the interests of agriculture, will be made in the fields of nutrition and physiology research as applied to dairy, poultry and animal husbandry; and research in transmissible diseases of livestock and poultry.

Applications for the annual \$1,440 fellowships must be in the hands of the Awards Committee by March 1, 1951.

Application blanks for these awards may be obtained by writing J. D. Sykes, Ralston Purina Company, St. Louis 2, Mo.

Ralph M. McGehee of Raleigh and Thomas E. Cole of Dallas, Texas, each have been awarded \$1,200 graduate fellowships at State College by the Sperry Gyroscope Company, Dean J. H. Lampe of the College's School of Engineering announced recently.

Dean Lampe reported that the fellowships provide full-time study in the School of Engineering and are effective for the 1950-51 school year.

A former Air Force lieutenant, McGehee received a Bachelor of Arts degree in mathematics from Louisiana College in 1943, and was graduated from N. C. State College with high honors in electrical engineering in 1949. During the past summer, he received the Master of Science degree in engineering mathematics at N. C. State.

While studying under the Sperry fellowship, McGehee hopes to complete work toward a Doctor of Philosophy degree in electrical engineering. He will specialize in communications.

McGehee is a member of the American Institute of Electrical Engineers, Eta Kappa Nu, honorary electrical engineering society, Phi Kappa Phi, scholastic society, and Sigma Xi. He is married and has one child.

Cole is a graduate of Southern Methodist University in mechanical engineering and will work toward his master's degree while studying under the Sperry fellowship at State College.

A Navy veteran, Cole is a member of Sigma Tau, honorary engineering society, the Society of Automotive Engineers, and the American Society of Mechanical Engineers.

While at SMU, he worked for two years on a co-operative basis in engineering design work with the Vultee Aircraft Corporation of Fort Worth, Texas.

During 1949 about 6½ million cars and trucks were produced, a new high in the history of the industry. It is estimated that in passenger cars, trucks and replacement parts, 39,000,000 pounds of nickel in the form of alloy steels, irons, nickel plating, mill products and other alloys were consumed during the year.

## Campus Meeting To Hear Hershey Speak (Two Stars, No Bars)

Major General Lewis B. Hershey, director of Selective Service for the United States, has accepted an invitation to speak at State College on April 6.

He will address an industrial engineering conference, sponsored by the State College Chapters of the Society for the Advancement of Management and the Society of Industrial Engineers.

In a letter to Kent C. Moore of Marshville, president of the student chapter of the Society for the Advancement of Management, General Hershey said that if complications do not intervene he would talk on "Manpower."

Topic of the conference will be "The Industrial Southeast—A Management Challenge."

Student sponsors said that at least 500 persons, including students, industrialists, scientists, and teachers, are expected to attend the one-day program, which will include both luncheon and dinner sessions. Several other notables will appear on the program.

General Hershey's talk is scheduled for April 6 at 10:45 a.m.

Wallace Wade of Duke well remembers the day in 1931 when Coach Beattie Feathers of State College, then a player for Bob Neyland at Tennessee, grabbed a Duke pass and galloped 80 yards for a touchdown.

The North Carolina Department of Motor Vehicles states that more accidents occurred on Saturday than any other day and fewest on Tuesday during the January-September period of 1950.

During 1949 the diesel locomotive continued to replace the steam locomotive, and probably accounted for the largest share of nickel alloy steels in this field, with important quantities going into low alloy high tensile steels for freight cars.

Nickel silver, a copper-base alloy containing nickel and zinc, is used as a base for silver-plated flatware and hollow ware.

## Theta Tau Adds Members

New members of Theta Tau, Engineering Fraternity, are: Seated, left to right, Henry C. Quay, Jr., M.E., Harrisburg; Robert E. Hadlow, Jr., M.E., Rocky Mount. Standing, Carlisle Campbell, Jr., M.E., Leaksville; Francis H. VanLandingham, Jr., E.E., Greensboro; John LeRoy III, Jr., M.E., Lynchburg, Va.; and Henry G. Smith, Jr., M.E. (Aero), Akron, N. Y.

### ATHLETIC COUNCIL — (Continued from Page 1)

of the State Athletic Department will probably result from action of the joint committee on non-academic fees.

It is reported that the committee now plans a major revision in the fee set-up. Current plans are said to call for placing each non-academic activity into one of several major groups called "areas of interest." A joint student-faculty board for each "area" would then be responsible for apportioning the funds collected from the students to the activities in their "area."

#### Separate Programs

One major change reportedly resulting from these plans is the separation of the intramural and intercollegiate athletic programs. Supposedly, the support for both of these programs now comes from the 15 dollar athletic fee paid by every undergraduate.

A student member of the joint fee committee has reported that the group's investigation indicates that only an insignificant portion of the athletic fee is used to maintain the intramural program. Its support has come from the \$2.25 student activity fee while the intercollegiate program got virtually the entire athletic fee.

The student who reported these investigations stated that he believes that the joint board will require the Athletic Department to account for its funds and expenditures. He said that he believed that the board would demand a voice in the policies of the department.

### Feature Fun Fest At Next Ag Meet

Campus talent will beam next Tuesday night when the stunts get underway at the Ag Club meeting. The faculty, the campus secretaries, and the student body will take part in the program. Prizes will be awarded for the best stunt.

Freshmen are urged to attend this meeting in order to elect their representative to the council of Campus Government. The meeting begins at 6:30.

The movie "N. C. State vs L.S.U." was substituted for the Governor's speech at the meeting this week. The Governor was unable to speak due to a previous engagement.

The Barnwarming, the big affair in the Ag School for the winter term, will be staged in "Squire Miller's Barn" (Frank Thompson Gym) tomorrow night. Joe Cash is chairman of the gala affair.

### Dancing Lessons

The dancing classes co-sponsored by the College Union and the Inter-Dormitory Council will begin tomorrow afternoon at 4:00 o'clock in Frank Thompson Gymnasium.

Non-dancers from Meredith, Peace and St. Mary's will be dancing partners during the six week lessons period.

Instruction in rhumbas, congas and other modern dances are planned in addition to modern ballroom steps. Students may sign up for the classes by contacting their dormitory officers.

### Valuable Silver Shown

Dewey Barich, recognized leader in industrial arts, will give a lecture-demonstration on sterling silver at the N. C. State College Textile Auditorium on the evening of February 6th at 7:00 p.m.

Mr. Barich is Professor and Head of industrial arts at Kent University, Kent, Ohio. He has been past president of the Ohio Industrial Arts Association and has taken a very active part in industrial arts education on a National scale. At the present time he is on the advisory committee of the Industrial Arts Awards, sponsored yearly by the Ford Motor Company.

Mr. Barich started working with sterling silver as a hobby soon after World War II and since that time has designed and made a complete set of silver. This set of silver is valued at \$1600 and was made from just \$75.00 worth of silver blanks. During his demonstration he will make either a spoon or a fork and present it to someone in the audience.

# OPEN FORUM

Dear Editor:

I started to write this letter last night, but had to give it up when I discovered my blood pressure steadily rising.

Say Bill, were you one of the unfortunate ones who wasted an entire evening by attending the "rat race," ere—excuse me, I meant the I.D.C. Dance last Friday night? I thought Gene Wallace and the Statesmen played some very good music, but who goes to dances to listen to the music? That is about all one can say in praise of the affair.

Maybe some of the Wolves would like to know why they are so outnumbered at these dances Friday night after Friday night. Maybe some of the fellas would like to know that it is deliberately fixed to have three, four, and five girls for every boy. Undoubtedly they already know that the ratio then turns out more closely to seven or eight to one. Maybe it would also be of interest to some of the boys to know that we at State don't particularly care if the boys have a good time at these dances, but only of the girls having a bang up time so they will come back next week for the next "rat race." I know fellas that this is a fact because I have attended several of these dance planning meetings when the men in charge have set their vicious plots, a demand to be challenged.

Last week I thought the Berry-Becton dance was a pretty good affair and mentioned it to several individuals. There were only about 1½ boys to every girl, a proper ratio in my estimation. I believe the boys and girls alike really enjoyed themselves for a change. When I praised certain individuals for the fine dance, they told me it was a flop, a disgrace, and in short, no good. You see men, it wasn't a success because there wasn't a ratio of 7:1!

At the I.D.C. last Friday I saw numerous car loads of men leave the dance to go back to the dorm disgusted, or drive out to Dix Hill in search of happier hunting grounds. I know; I was one of them! Just what is the purpose of these dances? Could it be to get the men away from the books for awhile only to come back to the dorm dejected and too disgusted to try and renew studying attempts?

I don't particularly consider it an honor to write a letter like this, but I do believe that a little more consideration should be given to the boys for whom the dance is supposed to benefit. Unless I have been completely misinformed and am wrong in establishing the above statement, and instead these dances are for the good will and benefit of the girls alone, disregarding the boys entirely, then I take back all that I have written.

Therefore, I plead with those individuals who have charge of the next dance that they remember that the dance is primarily for the State students. Let's have more Berry-Becton type dances, or it won't be long and we'll be throwing dances and no boys will show up. Wouldn't that be difficult to explain to Miss McClelan?

Let's have the optimistic Wolves who start out for the dances return howling instead of whimpering like a bunch of sick cats as has been the policy in the past.

Bill Herrmann.

Persons under the age of 25 hold 30 per cent of the driver's licenses in North Carolina but are involved in 53 per cent of the accidents on the State's highways, says the North Carolina Department of Motor Vehicles.

More fatal accidents occurred at speeds of 31 to 40 miles per hour during the first nine months of 1950 than in any other speed range, says the North Carolina Department of Motor Vehicles.

## The Inquiring Reporter

By BOB CARLSON

Question: What is your opinion of the annual inspection trip by the Seniors?

W. C. Johnson, Jr.  
Senior Ag. Eng.

The trip will provide information to some of the seniors relative to various phases of engineering work in industry. It probably will not be beneficial to many. It may provide the necessary pointer as to what direction for some to follow after graduation who have not made up their minds.

M. J. Barnett  
Senior E.E.

In my opinion the "Senior Inspection Trip" is well worth the time and trouble required. It not only offers the student a chance to evaluate the engineering industry but affords him a chance to choose the most appealing branch for future employment.

James A. Purser, Jr.  
Senior E.E.

I think that the E.E. Dept. takes an inspection trip that is complete in its coverage; however, I think that the trip might be taken closer home so the cost would be less.

Herman Nunis  
Senior Geo. Eng.

Since I have not yet been on an inspection trip, I cannot give an opinion as to their value, but I do believe that they furnish a grand opportunity if properly conducted. I think that these trips should be conducted during the junior year in order that the students may begin to correlate their observations with their studies in the senior year.

Grady Tharington  
Senior M.E.

I believe that the knowledge gained from these inspection trips is not enough to warrant them, because of the expense and time involved. It is admitted by many of the faculty that little can be gained other than a small insight into the practical mechanics of industry and of its size and scope. I believe that in any job which one may acquire, these two facts would be evident and impressed on us in a minimum amount of time.

The lack of this little supplementary knowledge would be to no one's disadvantage or embarrassment when taking a job.

## State Men In Service

Three recent State graduates have been assigned to the 101st Airborne Division, Camp Breckinridge, Ky., after completing processing at the 2053rd Reception Center, Fort Meade, Maryland.

Ret. Allen N. Thompson, Mooresville, formerly assistant industrial engineer for the American Yarn and Processing Co., Mooresville, was graduated with a Bachelor of Science degree in textiles.

Ret. Charles H. Deese, Albemarle, formerly an apprentice supervisor for Burlington Mills, also received a Bachelor of Science in textiles.

Ret. Joe Jenkins Allen, Greenville, N. C., a State graduate, has also been assigned to the 101st Airborne.

The North Carolina Department of Motor Vehicles says that more accidents occur between the hours of five and six p.m. than at any other time during the day.

By passing a "validation semester" at Columbia, a student will be allowed to begin undergraduate studies.

## State's Christmas Gift Wins Appreciation

In appreciation of the Christmas old clothes drive conducted on the campus by the YMCA, Mrs. J. S. Kirk, Superintendent of the Wake County Welfare Department, has addressed the following letter to the student body:

"The Wake County Welfare Department wishes to express its appreciation to the student body of State College for the contribution of \$102.75 which made it possible for us to provide Christmas for twenty-seven children from Wake

County who are in boarding homes and correctional institutions. These youngsters would not have been as happy as they were at Christmas-time if it had not been for the generosity of the State College students.

"The clothing drive that was sponsored by the Y has meant much to many of our families and will mean more as the rest of the clothing is given out. The clothing was in splendid condition, and we appreciate the efforts made by all of those who helped to make this drive such a successful one.

"As I said the night you had your Christmas meeting, I know of no group of young people who are more interested in people who

are less fortunate than they than the young people at State College."

One of the activities on this campus with which Blue Key has become best associated is Homecoming. It joins with the Monogram Club annually to offer the college a pep rally, half-time activities, the Homecoming Dance. Also it helps select Miss Wolfpack.

Cupro-nickel, an alloy of 70 per cent copper and 30 per cent nickel, continues to find favor over other materials for condenser tubes and salt water lines and this alloy is employed fairly extensively in replacing ceramic plumbing fixtures on naval vessels.

By MAYNARD E. SHIELDS  
 "One of the greatest defensive stars in the history of Southern Conference Basketball." This is a tribute well deserved by Victor Bubas, State College's versatile 6'2" guard.

Bubas will soon end a four year career at N. C. State that has brought him many honors both on and off the basketball court. Among these honors there is his selection to the Southern Conference All-Tourney First Team in 1949, his All-State selection in 1949 and 1950, and his being named to the All-Southern Team in 1949 and 1950.

### Great Playmaker

As a scorer, Bubas is not the team's most outstanding man, but as a ballhandler and playmaker, he is surpassed by very few men. His two-handed set shot earned him the best percentage from the floor of any man on the squad last year. His outside set-shot is considered by many as the best in the Southern Conference. Last year Vic hit on 59 of 145 shots from the floor for a healthy 40.7 per cent accuracy.

If Bubas has any fault, it is his failure to take enough shots. He is continually passing off to men under the basket and setting up

plays. He has uncanny ability to drive in under the basket for lay up shots, and on several occasions has provided the necessary punch for the Wolfpack. Over the past two years, Bubas has become one of the steadiest influences on the State College squad.

### Hampered by Injury

During last season, he was hampered somewhat by an ankle injury, but he managed to man his position very effectively while he was in the lineup. In 33 games, Bubas tried a total of 145 shots from the floor, hitting on 59 of those for a 40.7 per cent accuracy. He also dumped in 63 charity tosses from the free throw line out of 100 attempts for a 63.0 per cent accuracy. He collected a total of 181 points during the entire season.

The old injury "jinx" has appeared again this year to plague Bubas, but he has managed to play in most of the games. In 16 games, he has made a total of 48 field goals out of 113 attempts for a 42.5 per cent accuracy, and also 43 free throws out of 62 attempts for a percentage of 70.0 from the free throw line.

Bubas is considered a very important part of the State College "pressing" game. Because of his

clever ball handling and speed, he can work in the press very effectively. Coach Everett Case considers Vic as one of his most adept pupils. Says Case, "Vic is certainly a great defensive man and one of the best guards that I have ever coached."

Vic attended Lew Wallace High School in Gary, Indiana where he got his start in basketball. He also played a lot of basketball for the 15th Army Corp team during World War II before coming to N. C. State.

### Versatile Vic

Bubas is a Senior at State College majoring in Industrial and Rural Recreation. Last year he served on the State College Athletic Council. During the off-season, he is a summer camp counselor where he also coaches basketball. He is also an excellent track man, specializing in the broad jump, and on several occasions has done 22 feet.

After graduating in June, Bubas hopes to enter the coaching field. He will go with the full blessings of Coach Case, who believes that Bubas has a great future as a coach.

Vic is married and has a two-year-old daughter.

## Views and Previews

BOB CURRAN, Sports Editor

Tuesday night I had the opportunity to view the much publicized, high scoring Bill Mlkvy, "The Owl Without a Vowel." The Vowelless Owl definitely had an eye missing, and all he could do was hit five for 41 shots. Even with an "off night" Mlkvy managed to collect 18 points. This is the lowest that the nation's highest scorer has been held to all season. I wonder what he'll hit some night when he's hot?

Most of the credit due for holding the Temple ace down, belongs to sophomore guard, Eddie Morris. Eddie held Mlkvy to 4 points in the first half, and when Morris fouled out early in the second half, Mlkvy's point total was only seven. Another sophomore Bernie Yurin took over when Morris left, and he too did an excellent defensive job.

\* \* \*

The most important thing that happened Tuesday night, was not the Wolfpack's victory over the Temple Owls, nor was it the new low for Mlkvy. A new high in sportsmanship was hit by the Coliseum rooters! When the officials were announced at the start of the game, they were actually cheered by the crowd. Let's keep it up, and maybe they'll come back to officiate again. A pat on the back should also go to Coach Josh Cody and his Temple basketball team. Unlike "Krying Kenny" Loeffler and his club from Philly, the Temple Owls did not try to officiate the ball game as well as play it. They stuck to the playing end, and let the officials handle the whistle blowing. Maybe Philadelphia really is "The City of Brotherly Love."

\* \* \*

Tomorrow night another one of the nation's leading scorers will make an appearance at the Coliseum. Dick Groat, a certain All-America choice, will lead the Dook Blue Devils against All-America Sammy Ranzino, and the Wolfpack. In their last meeting, these two took all the play away from the game itself, when they held a personal scoring duel. Groat came out on top, when he scored 36 points to Sam's 32. Hitting thirty or more points used to be considered a phenomenal performance, but Groat and Ranzino have done the trick on numerous occasions. Every time either one of them scores, a new record goes into the books. Dick Groat has already broken so many Duke scoring records that he is being touted as the greatest basketball player in the history of Duke University. With Ranzino, the story is a little different. Sam has broken about every scoring record there is at State College, but there are some people who still think that Dick Dickey was better, I for one will cast my vote for Ranzino. Wouldn't it be a pleasure to coach

(Continued on Page 12)

## Turlington Tops Owen; Syme Takes W. Haven

By BILL GEILER

Turlington number two's basketball squad, using the fast break to their advantage in the late stages of the game came through for a 38-23 victory over an outplayed team from Owen. It was a tight game, however for the first half. Turlington's big advantage was only gained in the last four minutes in which they pulled away. The scoring leaders for the winners are Smith and Garman, each of which scored eleven points. In the back court it was Franklin and Mauney that stood out for the winners.

Turlington No. 2 garnered another victory to add to their string and it was a real beauty. For the second straight year the "Turlies" took the swimming meet away from everyone else, when they amassed a total of 30 points. Taking first place in the relay, breaststroke, and diving events they won going away. This is the second straight year that the boys from Turlington took the event. The leaders were Deal, Pippenger, Parker and crews. Deal set a new record for the intramurals when he did the breaststroke in 35.2 seconds.

Wade Teague and Don Pace won the two singles of the ping-pong tournament in the first round of the event and that was enough to defeat a game Alexander No. 2 outfit. This victory put Turlington No. 1 into the quarter-finals with Verville.

### Berry

In table tennis, Berry had a fairly easy time of it winning over Owen No. 2 by forfeit. Berry's team this year includes Frank Morgan, Dick Kemper, E. B. Taylor and Frosty Coile. In swimming, Berry managed to gather two places. Frank Billings placed third in the 100-yd. freestyle and the relay team placed a fast third. Other members of the team include Bill Hall, Willis Beasley, and George Cathey.

### Bagwell

In the table tennis tournament, Bagwell No. 2 lost a close decision to West Haven by the score of two to one. J. Bulluck of Bagwell lost the first singles match to Smith of West Haven in two straight games. Lowell of Bagwell came back to take the second set in two straight

(Continued on Page 11)

## Pack To Send Dook Blue Devils To H

The State College Wolfpack recovered quickly from the effects of a disastrous road trip and walloped the Owls of Temple 86-58.

The next test for the torrid Pack will be Duke in the Coliseum tomorrow night, and this game promises to be a thriller to end all thrillers.

State pulled out a 77-71 victory in an overtime game with the Blue Devile at Duke Indoor Stadium early this season.

### Great Great

In that game the highly touted Dick Groat played magnificently. The guard from Swissvale, Pa. bucketed 36 points and was the spark that kept the Blue Devils in the game until the closing minutes of the overtime period when he fouled out.

Groat is exactly 6' in height, and he moves with the speed and agility of an antelope. "The Great" can score from any place on the court, and it is rumored that he has shots he hasn't used yet.

The other guard position will be filled by Captain Scotty York who is completing his fourth year as a letterman on the Duke squad. York is very aggressive under the boards, and he has a fine set shot that adds strength to the "Devils" attack.

Rounding out the starting five for Duke will in all probability be Dick Crowder and John Engbern, 6'6" and 6'2" respectively, at forward, and Keston Deimling at center. Deimling, a 6'4" sophomore, has been bothered by an ankle injury, but he will be in shape for Saturday's game.

### Pack Lineup

In part the Wolfpack starting lineup will be Captain Sam Ranzino, Vic Bubas, and Paul Horvath, but who will fill the other guard and forward positions will not be known until game time.

The other guard will be either always-dependable Lee Terrill or Eddie Morris.

Morris started the Temple game Tuesday night as a defensive measure against Bill Mlkvy, the Owl's high scoring ace, and the sophomore guard did an excellent defensive job before he fouled out in the second half.

Paul Brandenburg or Bob

Speight will be at the vacant forward position.

### Brandenburg Key Man

Brandenburg was a key man in the last Duke game. He scored the basket that sent the game into the overtime period, tied up the game with another bucket in the extra period, and then sent the Wolfpack ahead with another tally.

Basketball fans have been eagerly awaiting this clash between these Big Four rivals. The game has been sold out for weeks.

The highly publicized scoring duel between Dick Groat and Sammy Ranzino has attracted a great deal of interest.

In the last contest Groat bettered Ranzino's 32 points by four.

Coach Harold Bradley will have his team in top condition for this game, for the Blue Devils need a victory to insure a spot in the Southern Conference Tournament.

A preliminary game between the freshmen of State and Duke is due to get underway at 6:30. Tap-off time for the varsity game is 8:15.

Assistant N. C. State Basketball Coach Carl (Butter) Anderson, 267 pounds of good nature, starred at tackle and end for Southern California's Trojans in the middle '30's.

## Handball Tourney

An open handball tourney will be conducted this winter term. Any student or faculty member living on or off the campus is eligible to enter. AN ENTRY SHEET WILL BE PLACED ON THE BULLETIN BOARD IN THE GYM BASEMENT AND THE GYM OFFICE. Entries are urged to sign up, for the closing date is Feb. 16. Play will start Feb. 19 at 6:00. The winner will be awarded a trophy.

# AGR Defeats PiKA's; Sammy's To Play TKE

By T. E. RICKS

Out of a week of basketball, in which all but one of the seventeen fraternities had a chance to show their talents on the courts, came three teams still playing the role of undefeated. The S.A.M. team goes into their next game with a 2-0 record; the same goes for the T.K.E. cagers, which took a rest last week. The athletes over at the Sigma Chi house sport a 3-0 record. An undefeated PiKA team tasted defeat by the A.G.R. boys.

Theta Chi was taken for a mighty fast ride last Tuesday night when the undefeated Sigma Chi's made good 39 big points. They held their opponents to 7 points. The loser's only field goal was contributed by Hux, but their high scorer was Sharpe with 4. Loflin led the winners with 10.

Another victory was marked up by the Kappa Sig's at the end of their game with Lambda Chi. The 23-16 game was the second loss with his 9 points. Carrow led his team with 6.

The S.A.E.'s are back in the winners column as a result of their contest with the Nu's which ended 21-14. Harvin and Webster tied for honors with 7 points each, two-thirds of the winners points. Romanowsky and Cotten did most of the Nu scoring. They were responsible for 10 of the 14 points, each man having 5.

### PIKA's Defeated

Ted and Max James sparked the A.G.R. victory against the until-then undefeated PiKA squad. Ted led with 11 points and Max followed closely with 9. The PiKA's trailed by only 3 points at the end of the hard fought game, but the score was 24-21. The two teams stand neck and neck in the race for high spot in section 1. Spencer and Lassiter led the PiKA team with 6 marks each.

The S.P.E.'s took revenge on the P.K.P. boys Thursday night by defeating them 21-18. The P.K.P. squad beat the S.P.E.'s by 3 points in their first game. The winners had a 7 point margin at the half, but their opponents managed to cut the margin down to 3 before the final whistle. Powell held high man title for both teams with 8 points. Goldner of P.K.P. followed closely with 7.

### S.A.M. Still Undefeated

S.A.M. remains undefeated after their game with Delta SIG. The game was theirs by a 12 point the 29-17 victory for the S.A.M. edge. Free of added 11 points to men. Shields was top man for the Sig's with 7.

It was the second win for the K. A. team last week, after falling to the A.G.R.'s the week before. They made a fast and certain comeback by ditching P.K.T. 34-17. The K.A.'s played a steady game, getting 17 points in each half. Miller helped out his team by hitting good for 10, the games high score. Martin and Heilig shared P.K.T. honors with 4 each.

P.E.P.'s record stands 2-1 after their close 30-26 win over Sigma Pi last Thursday night. Epstein contributed 13 of the P.E.P.'s 30 points, which made high man in the game and at the same time high scorer for the week. McManus and Porter topped the other Sigma Pi players with 8 points each. Sigma Pi has a 1-2 record currently.

# Tourney Tickets Go On Sale Today At Noon

Orders for season tickets to the 30th annual Southern Conference Basketball Tournament will be accepted today beginning at 12 noon.

Tournament Manager Willis Casey said today that all was in readiness for the acceptance of the first orders, which will begin to pour in beginning at the 12 noon deadline.

Cage fans all over the 17 member conference circuit will be asked to observe the following set of seven rules governing the purchase of season books.

1. Orders must be postmarked after 12 noon, Friday, Feb. 9 and no orders will be filled postmarked prior to that time.

2. Each order will be limited to four tickets.

3. Tickets are priced in three ranges, \$9.00, \$7.00 and \$5.00 for season books. Twenty-five cents should be added to the total amount of each order to cover the cost of insured mailing and handling.

4. All checks or money orders should be made payable to the Southern Conference Basketball Tournament and addressed to: Coliseum Box Office, Box 5245, N. C. State College, Raleigh, N. C.

5. Priority on choice seats will be established according to the postmark on each envelope containing order. Only mail orders will be accepted.

6. No individual session tickets will be sold until the day of the tournament. All orders placed after 12 noon, Feb. 9 must be for season books.

7. Colored patrons should request tickets in Section 22. A limited number of these tickets will be available for the first time in the history of the tournament.

A field of eight teams will vie for the Southern Conference championship March 1-2-3 in the 12,500 seat William Neal Reynolds Coliseum. Four games will open play on Thursday, March 1 with two in the afternoon and two at night. Two contests will be played in the semi-finals on Friday night, March 2 with the championship game set for Saturday night, March 3.

Four teams, N. C. State, William and Mary, South Carolina and West Virginia, have already cinched tournament berths while eight other schools are battling for the four vacant spots. Official selection of teams will be made on Sunday, Feb. 25 by the conference basketball committee.

### Caps In Coliseum

The Raleigh High School Capitals will meet the Rocky Mount Blackbirds in the Coliseum next Wednesday night, February 14.

Raleigh's only defeat came at the hands of the Birds, and the game should be a thriller. The Rocky Mount cagers are currently tied with Wilmington for top place in the AAA circuit.

High school basketball has im-

Irvin Page of Wilson, student at Morehead City Technical Institute and former pitcher with the State College Wolfpack looks over the contract that he recently signed with the New York Giants. Page will leave the Technical Institute after the Winter Term for spring training at Sanford, Florida. Shown in the picture with Page are (l. to r.) Melvin Smithson, Hickory, Va.; James Gibson, Swannanoa, Page, Charles King, Beaufort and Laddie Clark of Virgilina, Va.

## Bernie The Basher

After sitting on the bench during the early part of the season, sophomore guard Bernie Yurin of Gary, Indiana has finally come into his own. In recent games Yurin has been substituting for both Terrell and Bubas, and has shaped up so well, that he has become the No. 3 guard for the mighty Wolfpack. Yurin is in the ROTC, and barring the draft or any other similar misfortune, he will be the replacement that Coach Case will need next year for Vic Bubas.

### DORM SPORTS—

(Continued from Page 9)

games and then the doubles team could not quite make it in the doubles event and went down to defeat. Jackson and Applegate were the boys from Bagwell who played the doubles.

#### Syme

Syme No. 2 had to play two legs of the tournament on the same night to qualify for the quarter finals. They came out like champions in both contests as Bill Southerland and Hank Kearns won both singles matches. The doubles team of Bill Windley and Herbert Paul did not fare as well.

In basketball, it was an upset victory for the Syme team as they upset a highly regarded West Haven team. It was a very tight game for three quarters when Syme started to hit from the outside. West Haven's last minute rally fell just three points shy of the Syme score and Syme came out the winner 19-16. West Haven's loss leaves just three teams in the unbeaten class now. On the other hand, Syme's win put them into a tie with West Haven for the first place in section one. Outstanding players for Syme were Waddell, Tate and Liner.

The other half of Syme dorm, Syme No. 1, also took their first table tennis match. Pete Patterson won his singles match in the first event, but Henry Mitchell ran into a little trouble and lost his singles event. Howard Thompson and Tom Duncan preserved the Syme victory by romping to a win in the doubles event in two games.

Syme number one's basketball team kept rolling right along with a win over the boys from Tucker No. 1. It was the second time Syme had beaten them. Barr led the Syme attack with fifteen points and was closely followed by Ralph Jones with ten. The final score was 36-20.

The results of these games leaves just three teams that have not been defeated. Syme No. 1 (4-0), Welch (3-0) and Bagwell No. 1 (3-0) are still in the select circle. Each have a tough game coming up this week and anything can happen.

The School of General Studies at Columbia University has announced that "mature students" over 20 years of age may earn a bachelor's degree without ever having graduated from high school.

## "Gorgeous Gordon" Eyes Conference Tourney

### By JOE BENNETT

When State and the Citadel take to the mat tomorrow night, all eyes will be focused on one of the outstanding wrestlers in the Southern Conference, Gordon Nobbs.

Nobbs, a sophomore from Roselle Park, New Jersey, has been one of the shining lights on State's wrestling team this season. He learned his wrestling under Coach Ralph Williams at Roselle Park High School where they really take their wrestling seriously. Nobbs wrestled for years on the varsity during which time Roselle Park High was N. J. State Champs in 1946 and runner up in 1948. He had a 45 won 7 lost record while in high school. Nobbs was a runner-up in the state championship matches in 1947 and 1948 losing in the finals both years. In 1947 he had a 14-2 record, and in 1948 he won 15 straight losing only in the state finals.

Last season Nobbs was the stand-out on the undefeated freshman squad winning five and losing none. This season, moving up to the varsity in the 137 lb. class, Nobbs has

won five and lost two. Both losses were to Hampton of Camp Lejeune who was Navy Champion last year. He is the only man to defeat Nobbs during his collegiate wrestling career. With only three remaining matches, "Gorgeous Gordy" is pointing for the Southern Conference Championship, to be held next month.

To look at Nobbs one would not classify him as a wrestler. At least not until they saw him go into action. He has all the qualifications of a good wrestler: speed, poise, confidence, good sense of balance, and he knows wrestling inside out. His nonchalant air turns to one of all business the moment the whistle blows.

State College's Assistant Basketball Coach Carl (Butter) Anderson, at 267 pounds, looms as one of the most talented after dinner athletic speakers in the state. Even his nickname would be most welcome at most banquets and quarterback club sessions.

### Frosh Cagers Roll On; Boast 14-1 Record

By PAUL HODUL

Playing under the shadows of their big brothers should have given the Baby Pack an inferiority complex, but from all indications this supposed inferiority has rebounded and developed into a superiority complex.

The freshman basketballers under the watchful eyes of Butter Anderson have continued their blistering pace all season long. Except for a short lapse against William and Mary (Norfolk Div.) the team has been superb. The team at present is sporting a 14-1 record.

#### Buchanan Stars

Led by Forward and Center Kim Buchanan, Raleigh's gift to the Wolfpack, the Pack has been almost unbeatable. Kim has compiled an average of over 20 points per game. Besides being a potent scorer Kim possesses a knack for clever timing off the backboards. Another stalwart in the Packs climb to recognition is Forward James Stevenson, a Winston-Salem lad. Jim's left-handed push shot is about as graceful as they come.

### Sigma Nu's Campus Swimming Champions; Fraternity Men Win Five Out Of Six Events

By T. E. RICKS

Fraternity swimming finals were held last Wednesday night. The fraternity men took five out of six of the all-campus titles. All campus medals will be awarded these swim champs. This is something new this year. Heretofore, the medals were given for only basketball, football, softball, and volleyball; they are being given for all sports this year.

#### Sigma Nu First

So far as team champions go, the Sigma Nu team took first spot with a total of 75 points. The PiKA boys came in second with 68. Third and fourth places went to Kappa Sig (45) and Sigma Chi (39).

Winston of PiKA took the 25 yard relay on a count of 12 seconds. This bested the dorm champ who made the 25 yards in 12.7 seconds.

Bobby Adams, Dick Tyler and Le-Roy Halpern usually round out the starting five. Herbie Applebaum, an All-Metropolitan selection from N.Y.C. had the inside track at one of the guard positions until he was sidelined by an appendectomy.

Twyford of Welch was the runner-up.

Don Bulluck of Sigma Pi outswam the other Greeks in the 50 yard breaststroke finals to win the heat. He made the distance in a count of 41.3 seconds.

#### Pierce Wins 100 Yd. Relay

The 100 yard relay all-campus title goes to Pierce of Sigma Chi. His time was a minute and 4.4 seconds. Casler of Tucker No. 2 was best among the dormitory men with 1:09.5.

Sharpard's low time of 35.2 in the 50 yard backstroke won him the fraternity championship. He took the all-campus title also by a very small margin of one-tenth of a second. Greenberger from Becton No. 1 finished in 35.3 seconds.

The Kappa Sigma 150 yard medley relay team bested the Turlington No. 2 team for the all-campus title in that event. The fraternity team finished the heat in 1:43.4. Turlington's time was 1:47.3. Sharpard, Ragan, and Guion are the winners—the runners-up, Pippinger, Deal, and Parker.

### VIEWS AND PREVIEWS—

(Continued from Page 9)

a team that had all three of them, with Mlkvy thrown in for good measure.

\* \* \*

At the present time Ranzino, Bubas and Horvath are still ineligible for the NCAA Tournament, if the Wolfpack does get a bid, and from all indications the ruling will not be changed. If the Pack wins the Southern Conference Tournament in March, they will automatically receive a bid to the NCAA, but whether they decide to accept it is another story. Many think that State will accept a bid to the NCAA, and others think they will bypass it and go to the NIT. This week the sportswriters were considering them as a possibility for both tournaments. Whatever decision is made will be a tough one to make. The NIT starts right around exam time, which will make it tough on the ball players. The NCAA eliminates three out of the first five players, which will make it even tougher.

Why not stage a tourney down here and do away with all the worry? They could invite Bradley, another club that will suffer by the NCAA ruling, LaSalle, Villanova, and CCNY. For halftime entertainment "Krying Kenny" Loeffler can do one of his famous courtside routines, without fear of a technical being called. I heartell that he uses words that would put HST to shame.

AS IT MIGHT BE SEEN IN LIFE

## "EASIEST TEST IN THE BOOK"

### TULANE STUDENT JIM OWENS '52 MAKES TOBACCO GROWERS MILDNESS TEST, THE TEST YOU CAN MAKE YOURSELF

OPEN A PACK of Chesterfields. Compare them with the brand you've been smoking.

SMELL CHESTERFIELD'S milder aroma. Prove—tobaccos that smell milder, smoke milder.

SMOKE CHESTERFIELDS—they do smoke milder, and they leave NO UNPLEASANT AFTER-TASTE.

# CHESTERFIELD
