## Charlie Spivak Plays For Annual Lintdodger's Ball

### NSA "Ghost" Faces CG As Money Matter Rises

By PAUL FOGHT

A reverse English, corkscrew pitch tossed the mossy question of NSA into Campus Government debate again at Tuesday's session.

The fun began after Treasurer Harvey Scheviak presented a financial report showing only \$423 in the Council's accounts. When a request for a \$100 appropriation to help pay for a sound system in the gym was presented, Scheviak commented, "I don't see where I'm going to loophole it in, but I guess we can end up in the red."

#### Back Again

NSA came back to haunt the Council when representative Bill Herrmann answered Scheviak with, "We gave \$100 for NSA and haven't seen anything for it. Now we haven't got the money for a sound system for dancing lessons which benefit the student body in a way which they can appreciate."

In further debate Herrmann pointed out that this was a good opportunity for the Council to do something worthwhile for the students, while Scheviak stressed the point that the funds should come from the Student Activities Fee. The vote to appropriate the money passed without dissent.

#### And Again

Before the Council could adjourn Hillary Daugherty dragged NSA in again with a motion to authorize the NSA committee to proceed with the renewal of contracts and the promotion of the Purchase Card System. This motion was tabled until next week to hear a report from Charlie Culp, NSA committee chairman.

President McCracken also announced that Chancellor Harrelson had agreed to call a meeting of the faculty to discuss the Honor System in an effort to promote the actual practice of such a system in the college.

McCracken also stated that "Buddy" Boyles, president of Golden Chain, will call a meeting of campus organization heads to discuss the coming "Honor Week" now set for April 16 to 22.

#### Record Sale

In response to numerous requests, disc recordings of "FESTIVAL FINALE" as performed by the Massed Bands and Glee Clubs of State, Carolina and Woman's College at the inauguration of President Gray in the Coliseum last October will be available at \$1.25 each.

As there is no trust fund through which the project can be handled, the records will be made on a "pay-in-advance" basis. The deadline for payment is Monday, April 9.

Those who desire to place an order may make their payment on or before Monday, April 9, to James A. Shuping, Ralph Compton, Dick Mitchell, Sergeant Langhorst, or to Major Kutschinski.

### Spill Your Blood; Save A Life

#### Drive Begins Tuesday; 1000 Pint Goal Set

"I can be here because someone, I don't know who, donated their blood."

The Rev. Lucius Hall, Methodist student chaplain and a disabled veteran of World War II, can personally evaluate the worth of the campus blood donor program he is now helping to organize.

The campaign was authorized by the chancellor at the request of the Defense Department. A 1000 pint goal has been set for the three day drive which will begin April 10. It is expected that 1500 persons will have to be examined to find 1000 donors. Of these 1200 will be students. Blood cannot be accepted from those who are not in satisfactory physical condition.

#### Seven Days to Korea

Two physicians and eight nurses will comprise the Bloodmobile teams who will be on duty in the YMCA on April 10 and 11 from 10 a.m. to 4 p.m. All Bloodmobile personnel from noon to 6 and on April 12 are paid by the Department of Defense, operating through the Red Cross. However, none of the blood donated will go to the Red Cross; most of it will be in Korea within seven days.

Since November over 35,000 units of whole blood have been used in Korea. Because of the forth-coming spring offensive it is expected that the need for blood will be intensified. Department of Defense authorities expect the casualty rate to exceed 2500 a week.

During the drive the entire first floor of the "Y" will be turned over to the Bloodmobile crews. In full operation the unit can receive a pint of blood a minute.

Each donor will be given a glass of orange juice when he enters the Y, and a sandwich and a soft drink when he leaves. Ten days after making a donation each donor receives a card stating his blood type and RH factor.

Unmarried donors between the ages of 18 and 21 must have the

(Continued on Page 5)

#### Calling All Politicos

All prospective candidates for Campus Government offices must file their intentions to run for office with Dean Wood before Monday noon, April 9. An announcement was made that a political rally sponsored by the Y.M.C.A. and the Campus Government would be held on April 17, 1951. Suggested speakers were Governor Scott, Secretary of Agriculture Ballentine, and Secretary of State Thad Eure.

#### 'It Was Close, But He'll Make It'

That's what the doctor said after giving a blood transfusion to this seriously wounded soldier in Korea. Sped by air from this country to the Korean battlefield is as little as seven days, blood provided through the American Red Cross becomes literally the liquid lifesaver.

### Tau Beta Initiates 8 Seniors, 20 Juniors

Twenty-eight State College students have been initiated into the membership of Tau Beta Pi, national engineering honor society.

Announcement of the list of new members was made yesterday by Prof. Frank S. Roop, faculty adviser to the local chapter of the organization.

The present membership of the State College Chapter totals approximately 100, out of 850 upperclassmen in engineering. Members are chosen on the basis of top-ranking academic accomplishments and exemplary character.

Eight of the newly chosen members are seniors in the School of Engineering. They are James M. Bowerman, Lockport, N. Y.; Wilbur G. Bryant, Elm City; Melvin A. Dewar, Raleigh; James R. Hatch, Mt. Olive; Richard B. Kemper, Shelby; C. Don Marshman, Birmingham, Ala.; Clyde C. Neely, Charlotte; and Raymond K. Robbins, Concord.

The others, all juniors, are as follows:

James B. Baker, Reidsville; Frederick S. Bergman, Winston-Salem; Jerry A. Berrier, Winston-Salem; Richard L. Berry, Greensboro; Charles T. Bradshaw, Norfolk, Va.; Reginald Buie, Clarkton; Wesley D. Doggett, Jr., Brown Summit; Thomas C. Fite, Charlotte; Donald F. Hostetler, Raleigh.

Harold R. Lominac, Raleigh; James H. McLain, Jr., Charlotte; Forest O. Mixon, Raleigh; John W. Schlirf, Winston-Salem; Francis H.

(Continued on Page 5)

### Crusaders Male Group To Sing In Pullen Hall

The forty-voice Crusaders Male Chorus of Hampton, Virginia, will give a concert in Pullen Hall on Sunday, April 8, at 8:00 p.m.

Sponsored by the State College YMCA, the group is under the direction of Charles H. Flax, General Secretary of the Student Christian Association of Hampton Institute.

The group will appear for a two-fold purpose; for entertainment, and to promote good will and understanding between races.

Selections for the program will include "Cool Water" by Noland, "Carolina In The Morning" by Donaldson, "O My Dear Heart" by Bach, and "O Holy Night" by Adams. There will be five soloists and a piano accompanist for the chorus.

The Crusaders Chorus was organized in 1939 by twelve men. These men wanted to sing because they enjoyed it and because they felt they could be of more service to their community through the medium of song.

The group is composed of mail carriers, building tradesmen, laborers, and professional men. They work together toward promoting better relations among racial, fraternal, religious and educational groups.

The Chorus has appeared before such organizations as the American Medical Association, The International Lions Club and the Merchandise Utilities Association.

### Fun Begins Tonight With Parties, Picnics

Charlie Spivak and his nationally known band will provide the entertainment for this year's colorful "Lint Dodger's Ball." Spivak's Band is composed of 14 pieces and 2 vocalists.

He will hold a concert in the Textile Auditorium on Saturday afternoon, April 7. Following the afternoon concert he will provide the music for the Linthead's annual dance which will be held from 8 to 12 o'clock that same night.

The dance will be held in the Frank Thompson Gymnasium. The Tompkin's Textile Society, sponsors of the dance, will decorate the Gym using Textiles as the main theme.

Phi Psi and other Textile Fraternities are planning to start the Linthead's big weekend with private parties on Friday night.

The sponsors for this week-ends festivities are: Miss Love Lindsey from Ocala, Fla. with Bob Hardaway, Miss Aurelia Fulton from Walnut Cove, N. C. with Fred Stafford, Miss Frances McDaniel from Martinsville, Va. with Dudley Walker, Miss Ann Buchanan from Durham with Albert Summey Orr, Jr., Miss Anne O'Quinn from Lillington, N. C. with Rubert Barnes, Miss Doris Miller from Spencer, N. C. with Sam Ryan, and Miss Pat Tankard from Washington, N. C. with Hal Brown.

Textile students are reminded to pick up their tickets in the Director of Instructions Office before Saturday noon. The Textile Ball and preceding concert are open to all of the Faculty, Staff, and students of the Textile School.

### Gen. Hershey Heads List of Speakers Here

Ways and means of promoting the further economic development of the Southeastern states will be outlined at a regional industrial conference in the School of Engineering at State College on Friday, April 6.

Major General Lewis B. Hershey, director of Selective Service, will head the list of speakers. He will discuss the topic, "A Look At Manpower," in a talk on April 6 at 10:45 a.m.

Approximately 500 students and industrial representatives from throughout the South will hear General Hershey and will attend the other features of the one-day conference.

The event will be sponsored by the State College Student Chapters of the Society for the Advancement of Management and the American Institute of Industrial Engineers and the Greensboro Professional Chapter of the Society for the Advancement of Management.

Dr. Seymour L. Wolfbein of Washington, D. C., chief of the Division of Manpower and Labor of the Bureau of Labor Statistics, will address a luncheon session of

## BLUE KEY CALENDAR

**Friday 6—**  
Religion and Life, Committee Meeting, YMCA, 7:00 p.m.

**Saturday 7—**  
Dancing Instruction, Beginners and Advanced Classes Free. Frank Thompson Gym, 2-5 p.m.

**Sunday 8—**  
Concert by the Crusaders Chorus of Hampton, Va. Sponsored by the State College YMCA. Pullen Hall, 8:00 p.m.

**Monday 9—**  
Band Practice, Gym, 4:10-5:45 p.m.  
Glee Club, Pullen Hall, 7:00-8:00 p.m., Practice.

**Tuesday 10—**  
Red Cross Bloodmobile, YMCA, 12-6 p.m.  
Thirty and Three meeting, Election of Officers, YMCA Conference Room, 8:00 p.m.  
Agricultural Club, 118 Withers Hall, 7:00 p.m.  
Glee Club, Pullen Hall, 7:00-7:30 p.m., Practice.  
Symphony Orchestra, Pullen Hall, 7:30-8:45 p.m., Practice.  
String Orchestra Practice, Pullen Hall, 8:45-9:30 p.m.

**Wednesday 11—**  
Red Cross Bloodmobile, YMCA, 12-6:00 p.m.  
Theta Tau, YMCA, 7:00 p.m.  
Alpha Zeta, A. Z. Barracks, 7:00 p.m.  
Glee Club Practice, Pullen Hall, 7:00-8:00 p.m.  
Baseball, N. C. State vs Duke University, Raleigh.  
Ice Show, Coliseum, 8:30 p.m.

**Thursday 12—**  
Red Cross Bloodmobile, YMCA, 10:00 a.m.-4:00 p.m.  
"The Contribution of Quakerism in Promoting the Christian way of Life." Speaker: B. Russell Branson, Associate Regional Secretary of the American Friends Service Committee. 12:00 Noon, Room A, College Cafeteria.  
Discussion: "Immortality," Dr. Roger H. Crook, 6:45 p.m., Conference Room, YMCA.  
Band Practice, Gym, 7:00-8:00 p.m.  
Ice Show, Coliseum, 8:30 p.m.

**Friday 13—**  
Baseball, N. C. State vs Raleigh Caps, Raleigh.  
Ice Show, Coliseum, 8:30 p.m.

**Saturday 14—**  
Baseball, N. C. State vs Carolina, Raleigh.  
Ice Show, Coliseum, Matinee 2:30 p.m., Regular 8:30 p.m.  
Dancing Instruction, Frank Thompson Gym, 2-5 p.m. Beginners and Advanced.

### Agronomy Club News

A large crowd of students, visitors, and several faculty members attended the March 29 Agronomy Club meeting.

Certificates of membership were given to those members who were initiated last fall, and members were urged to sign up and show an animal at livestock day. E. Y. Floyd of the American Plant Food Institute will sponsor the awards given to seniors in agronomy: the

## Brennecke Made Fellow In National IRE

Dr. Cornelius G. Brennecke, head of the Electrical Engineering Department, has been chosen as a fellow of the Institute of Radio Engineers.

He was one of approximately 30 nationally known engineers who were cited for the institute's top honor at a recent banquet session held at the Waldorf Astoria Hotel in New York.

The Institute of Radio Engineers is one of the largest technical societies in the country. Its membership numbers approximately 30,000, but only 250 members have attained the exalted position of fellow. This rank is accorded in recognition of meritorious professional achievement.

In a citation accompanying the award to Dr. Brennecke, the institute lauded the State College professor for his "excellent work in basic research."

When informed of the development, Dean Lampe of the State College School of Engineering commented:

"Dr. Brennecke came to us in 1945 with the highest recommendations and has since exceeded all expectations. We are most fortunate in having him as a member of our staff."

Before his arrival at State College, Dr. Brennecke was associate professor of engineering at Lehigh University and director of that university's work in electronics and communications. Previously, he was a faculty member of the University of Toledo, where he also directed the training of engineering aides for the U. S. Army Signal Corps.

best all-round student, and the one having the highest scholastic average, it was announced.

Dr. D. D. Hill, head of the Agronomy Department at Oregon State College, spoke to the group and showed slides on seed production, small grain production, and the agronomic conditions in Oregon. He also showed a number of scenic slides of Oregon.

## Coveted Prix De Rome Prize Won By R. C. Bell

Richard C. Bell of Manteo, a 1950 graduate of the School of Design at State College, has been awarded the Prix de Rome Fellowship in Landscape Architecture for 1951-52 by the American Academy in Rome.

Notification of this award to Bell has been received by Dean Henry L. Kamphoefner of the School of Design at State College and Prof. Morley J. Williams, head of the

RICHARD C. BELL

College's Department of Landscape Architecture.

The fellowship, valued in excess of \$3,000, will provide one year of study beginning on October 1, 1951. It is regarded as the top-ranking award open to students in landscape architecture.

It entitles Bell to a studio and living quarters at the American Academy in Rome in association with academy fellows in architecture, painting, sculpture, music, drama, and Roman classical studies. In addition, there is a travel allowance and stipend for study in other European countries.

### Fellowship Renewable

Officials of the academy said the fellowship is renewable for a second year if the scholar's program of independent study is acceptable to the institution.

Bell, a native of Elizabeth City, is the son of Mr. and Mrs. Alexander Q. Bell of Manteo. His father, in collaboration with Playwright Paul Green, designed The Lost Colony Theatre at Manteo.

The 22-year-old Bell is currently employed by John and Philip Simonds, landscape architects of Pittsburgh, Pa.

He is the second State College graduate to win the coveted honor within the past few years. George E. Patton of Franklin, a 1948 graduate of N. C. State, won the fellowship for 1949-50 and has been awarded the fellowship for a second year of study abroad.

## Old Grads Hold Meet Friday And Saturday

North Carolina State College alumni will hold their annual class reunions, luncheons, and other class observances on Friday and Saturday, May 4 and 5.

Announcement of plans for the annual gathering was made here this week by Guy F. Lane of Ramseur, president of the State College General Alumni Association, and H. W. (Pop) Taylor of Raleigh, the association's executive director.

Central meeting place will be the College YMCA where the registration of the alumni will be held both days.

The program for May 4 will include a dress parade by the College's ROTC Regiment, class luncheons, reunion dinners, a reception by Chancellor and Mr. J. W. Harrelson, and a basketball game.

On Saturday morning, May 5, the entire college will observe

"open house" in honor of the visiting alumni. The annual luncheon meeting of the General Alumni Association will be held in the College Dining Hall at noon, and there will be a baseball game in the afternoon.

State College has more than 25,000 living alumni who are now residing in many parts of the world.

### SALE

Don't miss the bargain sale. Make that spring cleaning easy. Stanley Home Products for sale.— Helen Haas, 30-H Verville.

**FOR SALE:** Four burner deluxe Gas Range; good condition. Price \$50.00. Phone 2-3593.

### WANTED

Part time radio repairmen. Also part time Mechanical Servicemen. Some previous experience necessary. Here's your opportunity to have an extra income while attending school. If interested, contact Personnel Department, Sears-Roebuck & Company, Cameron Village.

### Audubon Tours End Year With Color Pic

The Audubon Screen Tours wind up a highly successful first year in Raleigh on Wednesday evening, April 11, at 8 p.m. in the Woman's Club Auditorium when Alexander Sprunt, Jr. presents his technicolor motion picture, "From Coast To Crest."

During the past year, each program added to the popularity and appeal of the tours until they have reached "standing room only" proportions. The response from the public was far greater than antici-

pated by the six sponsors; the Raleigh City Schools, North Carolina State College, Meredith College, the Raleigh Woman's Club, the Raleigh Garden Club, and the Raleigh Bird Club. The popularity of the tours have definitely established Raleigh as an annual stronghold of the Audubon Society's programs.

One of Best The final tour of the 1950-51 season promises to be one of the best in this season's series. "From Coast To Crest" smacks of the tang and glory of the Rockies, Texas, the Navajo Indian country, and Yellowstone which are the backdrops for the roseate spoonbills, egrets, black skimmers, oyster-catchers, handsome flowering cacti, moose,

bear, and buffalo plus the wonders and beauties of Yellowstone National Park.

Mr. Alexander Sprunt, Jr. who will act as guide on this tour is a native of Charleston, S. C. He is an authority on the logs of woods, meadows, streams, and their wildlife inhabitants. Mr. Sprunt takes you along outdoor trails to see the common birds, mammals, and plants which exist not too far from our homes, to learn something of the ways of the wilderness creatures, to share the fun of discovery on an outdoor expedition into the world that surrounds us.

A matinee performance entitled "Outdoor Holiday" will be given for the Raleigh School children in

the Murphy School Auditorium at 3:45 p.m. The evening performance is open to the public, free of charge. On behalf of the six season sponsors, you are urged to come, to be a part of the exhilarating world of wonders and beauties among America's wildlife creatures.

### Patterson Elected New IDC President

Billy Frank Patterson of Greensboro has been elected president of the Inter-Dormitory Council at State College, officials reported yesterday.

Patterson, who currently is serving as president of Turlington Dorm, succeeds Eugene Jeffords of New York City, who has headed the council during the past year.

Other new council officers are Philip J. Baugh, Jr., of Charlotte, vice-president; Carl B. Wagner of Taylorsville, secretary; and William C. Dalrymple of Sanford, treasurer.

The Inter-Dormitory Council is composed of the student officers of the ten dormitories at State College.

### Psychology Seminar

The Psychology Department of State College has arranged to present Mr. Richard C. Buell, Industrial Consultant of Maywood, New Jersey, at a public seminar to be held on Monday, April 9 at four o'clock in the afternoon in Room 114 Tompkins Hall.

The discussions at the seminar are to be addressed to the general topic of the role of psychologists in the management and conduct of industry. "Industrial Management Needs You" is the formal statement of the topic.

The people who cannot hear Mr. Buell at the seminar may hear him at a dinner meeting to be held in Leazar Hall at six o'clock in the evening. That the two sessions are supposed to be integrated around the same theme is indicated by the title of Mr. Buell's talk to be given at the dinner, namely, "Industrial Management's Needs in Personnel Relations."

A cordial invitation to attend the seminar is extended to all interested people.

### Can You Read?

Students! Are you satisfied with your reading rate and comprehension? Records for the Reading Experiment which was conducted during the Fall Quarter show a highly significant gain in rate and a small gain in comprehension for those students in English "O" who took the course.

The class (non-credit) is being offered again this quarter by Prof. Paul Rust, in Quonset 2, at 10:00 on Tuesdays and Thursdays. The 3-Dimension Tachistoscope exposes slides at speeds up to 1-1/100 of a second and is designed to increase one's speed and span of perception.

Recent publications in the field of reading state that the average reading rate for college students is 250 words per minute. Such figures are indicative of the long hours of individual effort and the barrels of "midnight oil" that are being consumed. Let's save time and oil!

### Notice!

There will be a meeting of all Engineering freshmen, juniors and seniors in Pullen Hall, on April 10, at 12 noon to elect nominees whose names will be placed in the campus elections to represent their classes on the Campus Government.

the plate in all games. Lewis, Smith and Beane have been the leading chuckers to date. Smith has been used mainly in relief roles. Game time for the Duke contest is 3:30 p.m. at the Wolfpacks new baseball diamond.

## Campus Interviews on Cigarette Tests

### Number 16...THE HARLEQUIN DUCK

He might be the merry-andrew of the marshlands, but lately he's been downright glum about these trick cigarette mildness tests. Never one to duck facts, he holds nothing much can be proved by a sniff of one brand or a quick puff from another. Snap judgments can't take the place of regular, day-to-day smoking. That's why so many smokers are turning to . . .

The sensible test . . . the 30-Day Camel Mildness Test, which simply asks you to try Camels as a steady smoke — on a pack after pack, day after day basis. No snap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste), we believe you'll know why . . .

**More People Smoke Camels than any other cigarette!**

### PACK SLUGGERS—

(Continued from Page 7)

die Morris, the basketball star returned for baseball duties. Eddie is a powerful portside hitter and also possesses enough poise in the fielding department to make him a defensive threat.

The infield in general shapes up this way—Eddie Morris (1B), Brinson (2B), Wright (SS), and Pepper Martin (3B). Fly chasing duties have been occupied by Cheek (RF), Fuscoe (CF), with Thompson and Sharpe alternating at the left field zone.

McGillis, a transfer from Bayonne Junior College, N. J. has been in charge of receiving chores. McGillis has shown unusual power at

Tom Ewell, seated, and David Wayne portray the popular "Willie and Joe" roles, respectively, in Bill Mauldin's "UP FRONT" which opened Thursday April 5th for a 10 day engagement. The new Universal International comedy release which features Marina Berti, popular Italian actress brought to Hollywood for the comedy's feminine lead. The picture, as was the best-selling book, captures the dry humor of the rank-and-file dogface.

# Why Fight In Korea?

The most successful and insidious weapon thus far employed by the Cominform is the "band wagon psychology" of defeat. All methods of propaganda are used to lead the people to a feeling of despair and indifference toward all world events. This is then coupled with a fear of an unavoidable disaster.

This cancerous psychological growth is started by carefully cultivating the attitudes of authoritative and intellectual persons and institutions. When these groups have become soft enough and are unconsciously won over to the feeling of hopelessness, the rest of society quickly follows. Thus a favorable ground for communist aggression has been prepared.

### Finns Resist

The resistance which the Finns demonstrated toward a Cominform attack employing the "band wagon psychology" can serve as a lesson for all nations. In 1945 and 1946 the Russians tried to make use of the propaganda tactic, but they failed utterly. They failed, first, because of the extraordinary individualistic character of that brave people, and, secondly, because the Finns knew the Russians and their ways all too well.

Stopped in Finland, the Cominform turned on Czechoslovakia where the "band wagon psychology" swept away the Czechs' will to resist.

### Defeat in Italy

A near success was achieved in Italy before the Western World and the Catholic Church mobilized their forces to fight that communist conquest. Had the Cominform succeeded in Italy it would have meant

an avalanche of fatal panics in Europe.

When the Italian elections halted the Cominform's European band wagon, communist attention was turned on Asia. Molotov was "dismissed" and then took over a much more important post in Asia. Vyshinsky then became the Soviet foreign secretary. Within a short time things began to develop in Asia, particularly in China. The attack had been switched from the King's to the Queen's side of the world chess board.

China was conquered and a new important position gained. The Soviet's great and easy successes in Manchuria and Mongolia softened the will of resistance in China and elsewhere in Asia. With Mao-Tse-Tung's success first in North China and later in the south, an irresistible "band wagon psychology" for communist victory was created among Chinese and other South Asian peoples.

### Use the Masses

These great uneducated masses have always lived on very low standards and they knew nothing or very little about the Cominform and its policies. The Cominform utilized this situation and promised them everything they wanted, creating a temporary mass psychology of relief, which, however, will not last long.

These misled masses have enabled the Cominform to grab much of Asia, and they will be useful in holding that territory until the Cominform is able to establish a firm secret police regime and to liquidate all potential resistance.

The United Nations forces must now fight for South Korea because the Cominform regarded it as a potential base of Western resistance to Red expansion.

When the communists invaded South Korea the great Soviet successes in Asia were still fresh and melodious in the ears of the masses of China; developing a mass psychology favorable for further conquests.

### Romantic Period

One must consider that the Chinese are at present in the romantic stage of their communist revolution and that this stage in every revolution usually stirs people to extraordinary actions and to dangerous adventures. At this stage the masses still believe in a salvation and in the creation of a paradise. This frame of mind might last for one or two years before it ebbs and turns into a reaction.

In Russia this romantic stage passed long ago and the Russian masses will now never fight with the vigor and enthusiasm of the Chinese. The Russian masses have lost their faith in the coming paradise. They didn't have that faith when they surrendered to the Germans in great numbers in 1941 and 1942.

*Ed. Note: This is the second of three articles by Dr. Pikner. The series will be completed next issue.*

## Short On Tender Care? Try The Infirmary

Bob Hadlow is getting some of that tender love and care from Miss Ida Mae Crump, College Infirmary Nurse. Bob is from Rocky Mount, and Miss Crump is from Smithville. The infirmary has a 90-bed capacity, with dental clinic, lab, first aid room, and an isolation room for contagious diseases. Photo by Fulp and Howard.

By BOB HORN

Every student at one time or another during his stay at State College has occasion to visit the infirmary. This is an attempt to recognize those who operate the institution and help to make it one of the best college infirmaries in the South.

While a student, if confined in the infirmary, may not find the care loving, he will most certainly find it tender—and efficient. Available for ailing students are 90 beds and a ward. Oddly enough, not since the war have they all been occupied at the same time.

We Dare Them All . . .

to match the meals served infirmary patients. Prepared, with a few exceptions, by the cafeteria, the meals strictly adhere to standards set by the head physician, Dr. Combs. Only on holidays are the meals prepared in the infirmary kitchen, but even they meet the same exacting standards.

Also, the breakfasts are prepared and served directly from the kitchen, along with salads and special meals.

The bulk of the food is transported from the college cafeteria in insulated containers. During the Thanksgiving holidays the few convalescing received what they described as "the best steak we ever had while at State College." They went

on to commend the nurses with, "We were waited on hand and foot, and couldn't have asked for better care." These statements are in sharp contrast to those which have been issued by convalescing in the Wake Forest, Carolina and Woman's College infirmaries not to mention many of the local hospitals.

### No Deaths

In July, 1945, the late Dr. A. C. Campbell, who treated the aches and pains of State College students for a quarter of a century, reported that there hadn't been a death in the college infirmary during his entire administration. The students have, however, had virtually every known disease. During Dr. Campbell's 25-year span, two major epidemics swept the campus, but the efforts of Dr. Campbell and his staff brought full recovery to all patients in both epidemics.

Although a patient has never died in the college infirmary, one need not infer that a patient was never lost during Dr. Campbell's tenure as college physician. Two died at Rex Hospital, where they were carried because of their critical conditions, in addition to one who died in Richmond where he succumbed to a severe case of spinal meningitis.

Several students have been injured fatally in accidents off the (Continued on Page 6)

## A Penny's Worth?

The prices for milk and ice cream in the cafeteria have been increased by one cent. The wholesale price for these items has not gone up at all, a fact which the cafeteria does not deny.

Is this more sly trickery by Harry Stewart? Double dealing? Penny pinching? Profitteering?

No, not at all. After investigating a complaint, the TECHNICIAN finds that the increase was justified and well-intended.

Harry Stewart has quoted figures to show that the price of meat has increased 24 per cent, which means an actual loss on every serving of meat sold in the cafeteria. This loss could have been met by a five cent increase in meat prices. However, to more widely distribute the loss, one cent was added to the price of the 3000 bottles of milk sold daily. By doing this the same amount of money will be taken in as if the price of the meat dishes themselves had been increased.

Of course, the net result is that we pay more for the meat anyway, but we just don't see it. In fact, if you buy a meal which includes milk but not meat you are being cheated. Such is life in this marvelous, modern world.

PRF

## Administrative Prejudice

There's a cartoon on this page that needs a little explanation.

The State College track team went down to Camp Lejeune last week for a meet. Marine officials sent a bus to the State campus to transport the Wolfpack Harriers to Camp Lejeune and back home after the meet.

The Statemen lost, but the score is not the point of discussion. The sad part about the whole story is the fact that Camp Lejeune can never come to State College and compete against the Wolfpack under existing conditions.

Why?

There are Negro performers on the Leath-erneck squad, and some administrative officials would die rather than see the State boys compete against Negroes on the college campus.

If we can send a team down to Lejeune, and have that team compete against the Negro members of the squad, then what in hell is wrong with the Negroes participating in a meet on the campus?

We feel that we represent the student body when we say that there would be no student objection to the competition between State trackmen and Negro athletes from the Marine squad, or, for that matter, there would be no objection to any State College athletic team meeting any squad with Negro members.

Certainly, the coach and members of State's team have no objection to meeting the Lejeune on any track, with any person on the team.

Then why must prejudiced administrative figures step in and say that the meet couldn't be held here?

If the supposedly educated leaders of American colleges take such a bigoted attitude, what will the students do but develop the same attitude? Higher education? Ha!

**Three EE's Win Awards in Writing Contest**

Three students in the Department of Electrical Engineering in State College's School of Engineering have won top awards in a technical paper contest which featured the presentation of research reports.

As the local winners, they are entitled to enter a similar contest sponsored by the Southern Regional Conference of the American Institute of Electrical Engineers to be held in Miami, Fla., April 11-13.

The State College students winners are William D. Windley of Pinetown, Donald E. Lawrence of Pinetown, Donald E. Lawrence of Forest City, who were awarded first, second, and third prizes, respectively.

The regional student prize paper contest will be part of the program of the regular AIEE convention at Miami. The three State College students will compete against students from 19 other schools in the Southeast.

In past years, State College students consistently have won awards at the regional conference.

**PB Fetes Journalists At Banquet Tonight**

The Board of Student Publications at State College will be hosts tonight to over 100 student journalists and their guests at the annual Publications Banquet at the Club Carlyle.

The main event of the evening will be the presentation of Publications keys to staff members who have done outstanding work on their publications, for six or more quarters. The awards will be presented by Chancellor J. W. Harrelson.

Toastmaster for the banquet will be Dr. Frank H. Jeter, Chairman of the Publications Board. Dean Ned W. Wood and H. Harrison Jenkins, Secretary of the Publications Board, will make short talks.

After the introduction of Board members and guests and the presentation of keys, the evening will wind up with entertainment by the comedy team of Paul Montgomery and Eddie Woodell and dancing to the music of the Three Deuces.

Joel Heim, Manager of Station WVWP, is chairman of the banquet committee.

**Advanced Air Force ROTC**

Major Jerome C. Eicholz, Professor of Air Science and Tactics of the Air Force ROTC unit, announced that applications for Advance Training in the Air Force ROTC program will be accepted effective 9 April 1951.

Requirements for advance training are either one of the following: Veteran students who have completed one year of active federal service may register for the advance course; non-veterans must have completed the pre-requisite basic course of two years. Satisfactory completion of the required physical examination is also required.

At the present time graduates of the advance Air ROTC program are commissioned as either Communications Officers or as Aircraft Maintenance Officers depending on the individual course of study.

Applications for advance training may be obtained in Room 145 of the Coliseum.

**BLOOD DRIVE—**

written permission of a parent. Post cards for this purpose have been distributed to lower classmen and may also be obtained at the "Y" desk.

**Air Force 'Makes Use' Of Engineer Grads**

Sixty-one State College seniors now enrolled in the Air Force ROTC Unit at the college will be affected by the Air Force's policy of calling all 1951 graduates into active service following their graduation in June.

Announcement of this development was made this week by Major Jerome C. Eicholz, professor of Air Science and Tactics at the college.

Major Eicholz stated that arrangements are being made to insure "appropriate assignments for engineering students through the Research and Development Section of the Air Force Headquarters." "This action," he said, "will insure utilization of engineering skills in the rapidly expanding Air Force."

Col. Samuel A. Gibson, director of the State College Division of Military Training, had previously reported that 115 Army ROTC students now enrolled as seniors at the college will be affected by the Army's recently announced policy of calling into active service the ROTC cadets who will graduate in June.

**TRY THE INFIRMARY—**

(Continued from Page 4)  
campus, and an Army student was killed by a bolt of lightning while he was jogging around the college athletic field.

**Staff Has Grown**

In 1920 the infirmiry staff consisted of one matron, one orderly, and one maid. There was sufficient equipment to accommodate 32 patients. The present staff is composed of five nurses, a head nurse, a night supervisor, two record clerks, and two resident student aides. Today the college's four-story hospital has a 90-bed capacity and includes a dental clinic, laboratory, first aid room, doctors' offices, clerical offices, reception room, records room, diet kitchen, nurses' offices, main kitchen, treatment room, 15 semi-private rooms, two large wards, and an isolation ward for patients with contagious diseases.

The hospital building, formerly Clark Hall, an unfinished dormitory in the old Freshman Quadrangle, was named in honor of Walter Clark, Jr., a graduate of State College and son of the late Chief Justice Walter Clark.

The College's present hospital is regarded as one of the largest and most modern in the South, with the exception of colleges with medical schools and was, in 1944, voted coveted recognition in the American Medical Association's Register of Hospitals. Based on certain high standards in regard to organization, physical plant, medical staff, pathology, laboratory diagnosis, radiology, anesthesia, nursing service, pharmacy, medical records and ethics, the high rating accorded the infirmiry prompted this response from Chancellor Harrelson; Addressed to the late Dr. Campbell, the letter of commendation read:

*"We are all delighted over the recognition extended to Clark hospital by the American Medical Association Register of Hospitals.*

*This recognition speaks well for you and your staff. We point with pride to the fine over-all records of your student service."*

**\$12 Health Fee**

A breakdown of college fees reveals that under the heading "academic" there is included a \$12.00 health fee, which is subtracted from the total 78.00 payment. The remaining \$66.00 covers such items as library, laboratory supplies and physical education. No specific amount goes to any of these items. Said amount goes into the general fund and the department concern-

ed gets support from its budget. From this source, the college physician realizes a salary in excess of \$12,000 a year, this is in addition to his private practice. Dr. Combs has an office in the Professional Building downtown. When questioned about the amount of the physicians salary, the college officials pointed out that there is included in that fee more than meets the eye.

Dr. Combs also supervises the weekly examination of the college swimming pool and makes a monthly inspection of the college cafeteria to protect the health of the students. You may have observed him, little black bag close by, attending many of the State College athletic events.

**24 Hour Service**

A 24-hour service is rendered by the infirmiry. Sick call is held daily except Sundays, from 9 to 10:30; however first aid treatment is available at any time. During the day Miss Trollinger, head nurse, three graduate and one undergraduate nurse, a laboratory X-ray technician, two orderlies and a maid are on duty. At night, a supervisor and a graduate associate nurse attend to the patient's needs.

The forefront of the week is usually the busiest for both the doctor and the nurses. This is especially true after a grueling football contest. The X-ray technician is given plenty of work checking for bruises and broken bones after nearly all such games.

To every student head nurse Trollinger has this to say, "The infirmiry could be of the greatest value to students if the students would take advantage of its facilities when they first feel the signs of sickness. The hemming and hawing helps no one and more often than not hinders recovery."

Miss Trollinger therefore urges every student who needs medical attention to waste no time in coming to the infirmiry for treatment.

**Youngest Director**

CHARLES B. CARNEY

Charles B. Carney is the new director of the U. S. Weather Bureau at North Carolina State College. A native of Baltimore, Md., Carney, now 34 years old, is the youngest section director in the nation. He was educated at the University of Richmond and New York University. The weather station, which Carney heads, is the climatological section center for North Carolina. In addition to conducting the weather service and forecasting duties, Carney reports and forecasts the stages of the Tar, Neuse, and Roanoke Rivers and participates in a cooperative research program with State College.

-campus life has certainly changed these past 100 years. Back in 1851 there were only 160 colleges in the entire country. Today, there are 1,849. No Rose Bowl game at the end of the football season in those days. No football season as a matter of fact. Open surreys were standard equipment of college Romeos—there wasn't a cream-colored convertible on the landscape. It was then, a century ago, that Arrow started manufacturing their famous collars... and in a few years they were setting campus styles. That's one thing that hasn't changed. Arrow is still style leader on America's campuses. College men everywhere know that the Arrow label always stands for smart styles, fine fabrics, meticulous tailoring... the superior quality that reflects good taste.

# Pack Sluggers Try Comeback At UNC

The varsity baseball team under the watchful eye of Coach Vic Sorrell hopes to make an impressive reversal of past performances cometh Saturday against UNC, at Chapel Hill, after a very sluggish start.

### Win Close Ones

In UNC, the Wolfpack will face a formidable foe. The Tar Heels although not overflowing with power seem to possess the knack of pulling out those close ones, as was indicated by their victories over Michigan State and Yale when they scored lone runs in the bottom half of the ninth to pull both games out of the fire.

formance may be found in the person of Billy Reeves, the center-fielder. Reeves has been hitting the ball with authority since the season opened.

Other standouts in the Tar Heel line-up are Brookshire, Henning and Smith. The first two being infielders and the latter an outfielder. Port has been chucking in the more important contests and is a likely choice to face the Wolfpack to-

morrow. Weiss will probably do the catching duties for the Tarheels.

### Play Devils Tuesday

Tuesday the Wolfpack will again see action against another Big-Four opponent, the opposition being a powerful Duke Blue Devil nine. The varsity will return home for this contest. The Blue Devils have convinced everyone that they will not be push-overs for any aggregation this year.

Led by basketball star Dick Groat and Bill Werber (son of the famous major leaguer), the Dukes have been tough customers from the outset. Groat has banged hits in all directions since the season got underway, to provide himself with a very impressive batting average. Just recently Groat collected five for five against South Carolina. Davis will probably get mound duty against the Pack. Catching for Davis will be Bensinger, a receiver from New Rochelle, N. Y.

### Sorrell Juggles Line-Up

Coach Sorrell has not used any regular line-up so far this season. He is still in the process of juggling his players to get a more balanced line-up. The Wolfpack received a shot in the arm recently when Ed-

## Views and Previews

BOB CURRAN, Sports Editor

For the past few weeks, there have been notices in the TECHNICIAN asking for candidates for the Track Team. Coach Tom Fitzgibbons is in dire need of candidates for the Track Team, and anybody that wants to tryout for the team is more than welcome. A very attractive schedule has been arranged, and men are needed in all events.

In the first meet with the Camp Lejeune Marines, the Wolfpack didn't do too well. Two bright notes in the otherwise unsuccessful meet were the running of Clyde Garrison in the mile and two mile, and Chuck Moore in the hurdles. Its a pretty pathetic situation when a coach has to plead for men to represent the school, but it's just about reached that state of affairs.

I could suggest that the Athletic Department offer a few more scholarships, but that costs money, and I understand that a war is going on.

\* \* \* \* \*

Coach Beattie Feathers has the football team out for a little Spring training once again. This year he skipped the usual Winter training program, so the Spring training will probably more than make up for the Winter vacation the football squad enjoyed.

Just before the training began, Ed Hughes, one of the most promising of the freshman stars left school. Ed was one of the leading ground gainers and scorers on last year's freshman team, and he was being counted on heavily for next season's varsity.

Coach Feathers has one consolation, and that is that it wasn't one of his coaches that left. Since last season, Beattie has lost three of his staff members, Jim Gill, Wade Walker and Darrell Royal. One addition has been made in the person of Gwyn Fletcher, former Wolfpack great.

Once again I have another suggestion. Why not continue to keep the jobs in the family and hire Bernie Watts. Bernie could sure teach the lineman how to get into the Duke backfield, having been a past master at getting into the Blue Devil backfield. In 1946, Watts spent so much time in Duke's backfield, that the officials over at the Durham school were thinking of giving Watts a Duke monogram. That was the last time that the Pack beat the Devils, and with Watts on the staff maybe they can do it again.

## Plans Are Underway For Big 4 Sports Day

Have you seen the Big 4 Sports Day Trophy which is on display in the Students Supply Store? It's a beauty and we want to keep it at N. C. State for another year. The Big 4 Sports Day this year will be held at Duke University on May 15. The events are: golf, handball, table-tennis, horse shoes, volleyball, softball and tennis.

### Help Wanted

Do you know a student or do you rank above the average in any of the above named sports? If so, please see the name is left in the P.E. Office. We must find the best men in our student body if we are to hold our own in competition with the Big 4 Schools. This cannot be done unless each student in college makes it his duty to help locate these men. **ESPECIAL HELP IS NEEDED IN GOLF AND TENNIS.**

Start right away in turning in prospects in each of the sport groups. Starting April 23 time will be devoted to selecting our representative teams. Every person who expects to try out for any team should report at the gym so we can see where we stand. Practices will be arranged so we can get our timing and distances back in shape. Future announcements will be made.

### Table Tennis Tourney

Don't forget to sign up for the Open Table Tennis Tourney which is open to both faculty and students. Enter your name at the gym before April 20, as the brackets will be drawn and play will start April 23.

ROY S. CLOGSTON  
Athletic Director

VIEWS & PREVIEWS—

(Continued from Page 7)

Whoever said that in the Spring a young man's fancy turns to love, wasn't just whistling Dixie as far as Athletic Director Roy Clogston is concerned. This week the leader of Wolfpack sports did the trick and got himself married. Congratulations Mr. C. If this keeps up, I'm liable to try it myself one of these first few New Years Eves.

\* \* \*  
For the past four years the baseball Team has used home field, and the attendance at the games was two

degrees lower than pathetic. The excuse given by the student body was that it was too far to travel to see a game. Well this year baseball is being moved back to the campus, and the Pack will play their home games on the field behind Tucker and Alexander Dorms. Maybe the attendance will perk up again now that the travel excuse is eliminated. If moves like this keep up, someday they might even move the State-Carolina football game back to Raleigh.

Aeros Notice

A new civil service examination has been announced for aeronautical research intern in science and engineering to fill positions paying \$3,100 a year in various field laboratories and stations of the National Advisory Committee for Aeronautics.

To qualify, applicants must have completed a 4-year college course with major study in a field of work appropriate to the option for which they apply. No written test will be given. Applications will be accepted from students who expect to complete the courses required for graduation within 9 month of the date of filing application.

The age limits, 18 to 35 years, will be waived for persons entitled to veteran preference.

Full information and application forms may be obtained from most first- or second-class post offices, from Civil Service regional offices, or from the United States Civil Service Commission, Washington 25, D. C. Applications for this examination will be accepted until further notice. See the announcement (as amended) for places to file application.

Draft News

Draft jittery students will have to wait until the 15th of April or later before complete details on the Defense Department's qualification test will be available, reports Lyle B. Rogers of the Student Personnel Office.

Meanwhile, Chancellor Harrelson has appointed Dr. Roy Anderson as supervisor for the tests to be given at State College.

Mr. Rogers says he has been informed by Col. H. H. Upton of the State Selective Service that it will be about the middle of the month before complete details for executing the Executive order are completed.

Col. Upton advises that students should wait until then before attempting to schedule their tests.

The test will be given on three dates at a number of centers throughout the state, as well as the campus here. The three-hour examination will be given May 26, June 16 and July 30. Students must register through their local draft boards and may take the test at any one of the State centers.

The Student Personnel Office will continue to serve as a source of information for students and their draft problems.

Letters to the Editor

Dear Editor:

At the risk of appearing to be stepping out of line, I want to sound off on the subject of the forthcoming campus elections. Under the present setup, our Campus Government is only as good as its leadership, and it behooves us to seek out and elect the very best man available as CG President.

Therefore, I'd like to submit the name of Jack McCormick, a junior in Mechanical Engineering. I've worked on a committee with Jack for the last year; I know his academic achievements by reputation. If there's a better man on the campus I've yet to hear of him.

Jack has leadership, drive, and imagination. He consistently carries a great load, but has one of the best averages in the School of Engineering. He is vitally interested in making State College a better place to go to school. To top it all off, he's one helluva good guy.

Here's the fella for the job. He has a lot to do, but a busy man will get your job done better and quicker than anyone else. I'm for drafting him, by gosh!

Wade Foy.
