## Hold Campus Elections Next Thursday

Registration for campus elections closed finally last Thursday with 37 candidates seeking election to the leading campus positions.

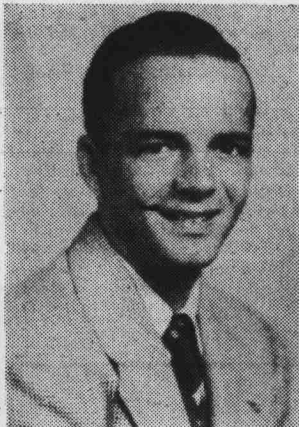

Election day is Thursday, April 26, which will be preceded by a big political rally Tuesday night.

Leading the list are two candidates for President of the Campus Government, Bill Herrmann and George "Buck" Pruden.

and Blade, honorary military society.

He is a member of Sigma Phi Epsilon social fraternity and its representative to the Inter-Fraternity Council where he is chairman of the Projects Committee, Chairman of the Junior Class Ring Committee and Civil Engineering representative to the Engineer's Council. He was Treasurer of his Freshman Class and was tapped this week for membership into Blue

### New Treasurer

... Dick Pitts

ly. With the coming of the College Union and much still to be done on the problem of student handling of student conduct, next year will be one of the most important years for student government at State College. If I am elected I will make an earnest effort to build a Council that will serve each of you and one that you will be proud to have represent you."

### Vice-President

Douglas Lionel Powell and H. G. "Hank" Smith are the two contenders for the position of CG Vice-President.

Smith is a rising senior in Mechanical Engineering. He has been active in Verville affairs and just recently elected to Sheriff of Verville. He is a member of Phi Eta Sigma, Theta Tau and the Institute of Aeronautical Sciences. Smith has also served as Treasurer of his Sophomore Class and Vice-President of his Junior Class.

### CG Secretary

Morton Gluck and Vincent Outland are competing for the Secretarial post of Campus Government.

Morton, a Junior from New York City, has been the Textile School's representative in CG this year. He has worked on the TECHNICIAN, Wataugan and Textile Forum and he is a member of Thirty and Three, Delta Kappa Phi and the

### New Editor

... Paul Foght

Inter-Fraternity Council and is a past President of the Hillel Foundation.

Outland is a veteran from Rich Square, N. C., and is a rising Junior in Industrial Engineering. At present he is President of the Sophomore Class and a member of Thirty and Three.

### Pitts Unopposed

Richard Pitts, a sophomore in Industrial Engineering, is unopposed for Treasurer of CG.

been affiliated with the station since his freshman year.

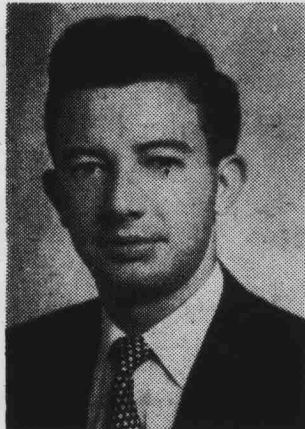

### Technician

Running unopposed for Editor of the TECHNICIAN is Paul Foght, a rising senior in Textiles.

The three men running for Business Manager of the TECHNICIAN are Robert Mathews, Lindsey "Tom" Spry and Gerald D. Washburn.

Washburn, a junior in Dairy Manufacturing, has served on the

### CG Presidential Candidates

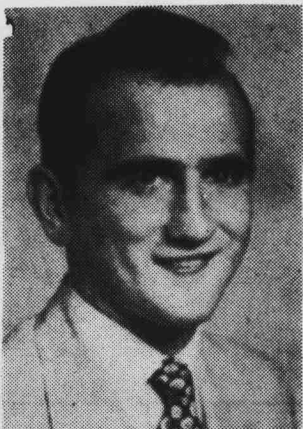

... Buck Pruden

### Herrmann

Herrmann is a junior in Textiles and Pruden is a junior in Civil Engineering.

Herrmann, a native of Kenosha, Wis., has served this year as the Textile School's representative on the CG Council and is a member of the Textile Forum staff and two textile fraternities, Sigma Tau Sigma, an honorary organization, and Delta Kappa Phi, textile pro-

... Bill Herrmann

Key, national leadership fraternity. Also, he is member of the American Society of Civil Engineers.

### Herrmann's Statement

Herrmann has no set platform but states, "I am running for this office because I like the work, have the time and sincerely believe that I can be an asset to the students in this position. I have served as a member of the Council this year

### WVWP Hopefuls

... Joel Heim

essional fraternity. He is working with the IDC on its dancing instruction program.

### Pruden

Pruden, a native of Raleigh, is a veteran and is married. He is a member of the Civil Engineering Department Honor Committee, Campus Social Functions Committee, Chi Epsilon, C.E. honorary fraternity, Secretary of the Junior Class and a member of Scabbard

... Adrian Troeleman

and am thereby in a position to profit by my experience. If elected I promise to remember the most important item which has been forgotten in the past two years—that the interests of the students come first, last, and always."

### Pruden's Position

Pruden asserts that "our Campus Government should represent the interests of each student and should meet their problems square-

### For CG Secretary

... Vincent Outland

### WVWP Manager

Earl Engersol and Joel Heim are running for Station Manager of WVWP.

Heim is a rising senior who has served on the staff since his freshman year, and has served as Business Manager this year. He is a member of Phi Eta Sigma and Sigma Tau Sigma honorary fraternities.

Heim states that "I would like a

## BLUE KEY CALENDAR

**Saturday, April 21:**  
 High School Day, All Day.  
 Freshman Tennis, Charlotte High at Raleigh  
**Monday 23, 1951:**  
 Band Practice, 4:15-5:45 p.m.  
**Tuesday 24, 1951:**  
 Political Rally, Auditorium  
 YMCA, 8:00 p.m.  
 Agriculture Club, 118 Withers Hall, 7:00 p.m.  
 Delta Kappa Phi Initiation, 124 Textile Bldg. 7:30 p.m.  
 Orchestra Practice, 7:30 p.m.  
**Wednesday 25, 1951:**  
 Alpha Zeta, Alpha Zeta Room, 7:00 p.m.  
 Theta Tau, Conference Room, YMCA, 7:00 p.m.  
**Thursday 26, 1951:**  
 YMCA Program, Room A, College Cafeteria, 12:00 Noon (Come through line and bring tray).  
 Speaker: Dr. E. L. Freeman, Emeritus Professor of Religion, Meredith College. Subject: Church and State Relationships in the USA. Presentation ends at 1:00 p.m., with discussion for all who can stay.  
 F.F.A. 114 Thompkins Hall, 7:00 p.m.  
 Band Practice, 7:00 p.m.  
 Free Dancing Instructions, 7:30-9:30 p.m., Gym  
**Friday 27, 1951:**  
 Record Concert, 8:00-9:30 p.m., Lounge Room, 108 Peele Hall  
 Varsity Baseball, State vs Furman, at Raleigh  
 Registration—Delta Kappa Phi National Convention, Textile Bldg. All Day  
**Saturday, April 28, 1951:**  
 Varsity Baseball, Clemson vs State, at Raleigh  
 "Mr. Roberts," Stage Play at State Theatre, 2:30 p.m. and 8:30 p.m.  
 Delta Kappa Phi National Convention—Business Meeting at Textile School—Banquet.  
 Sophomore Class Dance, 8:30 p.m. Frank Thompson Gym  
 K. A. Old South Ball, Banquet and Dance, Hotel Sir Walter

## More And Peppier Pep Predicted At State After Recent Meeting

Delegates of 28 leading colleges and universities in the Southland attended the 3rd Annual Southeastern Pep Conference in Chapel Hill on Friday and Saturday, April 13th and 14th.

At the conference were members and officers of the pep clubs and card sections, cheerleaders, and bandmembers of the different schools.

The host school was the University of North Carolina. The purposes of the convention were 1) to increase campus spirit, 2) to establish better relations between schools of the South, and 3) to enable the schools to profit materially in songs, yells, torchlight parades, floats, and other campus activities.

### State Members Attend

In order to carry out the functions of the Pep Club of State College, four of the officers and members of the club attended the S. C. P. C. Since there is no readable and workable pattern schools can follow to promote spirit on their campuses, the Pep Club was anxious to take advantage of this opportunity to get new and better ideas on cheers, decorations, and card stunts.

In the panel on card stunts, technicolor films of the flash card sections of the University of Kentucky, the University of Florida, and Carolina were presented and explained. The cost and instructions necessary to start a card section were discussed. The most inexpensive ways were outlined, based on the experience of the other member schools.

Another big topic was how to instill, enlarge, and control school spirit. Some of the schools complained of poor attendance to pep rallies and organized cheering—these same schools are commonly

believed to be "loaded" with school spirit, but this seems to be a carry-over from earlier days. Other schools had so much spirit that vandalism often resulted.

### Not All Work

But all was not toil for the hard-working delegates. On Friday night a party was arranged in the American Legion Hut. If anyone was unable to secure a date, the University Date Bureau took care of this. (Two of the State delegates highly praised this service.) At the end of the general sessions on Saturday, a banquet was held in the Monogram Club, after which N. C. State and the other new schools were admitted to membership.

Member schools in the Conference include the Universities of Florida, Kentucky, Georgia, Tennessee, Maryland, Houston, Georgetown, Duke, Florida State, Miami, Alabama Polytechnical Institute, Georgia Tech, Catawba, East Tennessee State, Okla. A & M, Mississippi Southern, East Carolina College, Wake Forest, the Citadel, Lynchburg College, William & Mary, N. C. State, Emory & Henry, Johns Hopkins, Lenoir-Rhyne, and U. N. C.

## State Profs Enter Race For City Council Seats

Perhaps infected by the current politicking, two State professors have announced their candidacy for seats on the Raleigh City Council.

Professor Ffred Wheeler and Professor E. L. Miller, Jr. have entered their names for the May 8 general election. Wheeler, an incumbent, has served on the Council since it was first organized in 1947 and now seeks his third term.

Wheeler, a mechanical engineering professor, says that he is very much interested in the engineering projects that have been started in Raleigh, especially the sewage disposal plant and the water system. In announcing he stated that he would "try to solve every problem that comes up to the best of my ability, trying to do the best for the most people."

Miller, an assistant professor of geology, has been at State for nine years, during which he took a M.S. degree in addition to teaching. A member of the North Carolina So-

## Agronomy Club News

At the April 12 meeting of the Agronomy Club Harry Simmons was chosen as the best all-round senior, and Jack Sheets has the highest scholastic average. Their awards will be presented at the annual Honors and Awards Day.

The speakers were Mr. W. D. Lee who spoke to the club about the Geology of North Carolina; Dr. York reviewed the draft status and the possibility of being deferred, and Dr. Colwell described the new Agronomy building into which the Department will soon be moving.

ciety of Engineers, Miller says that he has "a particular interest in construction work—something that Raleigh expects to do a lot of in the next few years."

Politics is not a foreign subject to the State faculty. Last spring Dr. Preston Edsall, head of the department of History and political science, ran for the Wake County seat in the General Election. A graduate student, Robert Bobbit, ran for the Warren County seat in the same election. Neither was successful in his candidacy.

# Engineer's Fair Highlights High School Day

## No Quorum--No Vote

The Campus Government found itself powerless Tuesday when only 21 representatives were on hand for its weekly meeting. When the council got around to new business, it discovered that there was no quorum--no vote.

The announcement came after 45 minutes of old business and minor announcements. Julius Lasknick pointed out that he had some important business to introduce to the council, but after finding there was no quorum, he saw no point in bringing up the business this week.

President McCracken appointed Ralph McAllister to replace Bill Herrmann as chairman of elections. Herrmann decided last week to enter the race for the presidency. He further appointed Ossie Shackelford and Dick Mitchell to replace Sappenfield and Gluck.

Gluck is running for secretary of Campus Government.

### Alleviate Suspicions

McCracken stated that he was making the changes to give the candidates more time on campaigning and to alleviate any suspicions of stacking ballots that might be raised.

Several other appointments were presented; but as the appointees were not on hand to accept, they had to be postponed until next week.

Plans for an Honor Week are underway. Form letters are being sent the different organizations on campus to get their opinions on the honor system. The IDC and IFC will be contacted also. McCracken announced that he is drawing up a model constitution to be presented in the near future.

Although the engineering exhibits are only a part of High School Day, they will include some new and interesting features this year.

The Geological Engineering department will be the first visited on the engineering tour. One historical exhibit will show models of prehistoric animals and fossils which are 500 million years old. A three dimensional model will illustrate the structural features of the earth's outer crust. Also planned is an exhibit of the economic minerals in their raw and finished states, complete with production figures and values.

Highlights of the Electrical Engineering exhibit will be a display of the inner working of a radio, and the modern magic of short waves and high-frequency heating. Emphasis will be upon the dependency of modern civilization upon electricity.

### Ceramics

The Ceramic Engineering boys are out to demonstrate the exten-

siveness of the ceramic industry. Alumni of this department from all over the country are sending in samples of the ceramic products with which they work. Spectators here will gain an appreciation of the number of ceramic materials used in every day life.

A cut away German jet engine used in World War II will be a prime exhibit of the Aeronautical Engineering boys. Among many others will be a demonstration of the supersonic shock waves resulting from the flow of air over a wing at speeds greater than the speed of sound.

The Mechanical Engineering display will be divided among several large laboratories, each containing a number of exhibits. Equipment displayed will include heating and air conditioning apparatus, the facilities of the Steam Laboratory, including turbines, generators, etc., and the mechanisms of the Junior Laboratory, used in analyzing properties of various fuels.

The exhibits of the Industrial Engineering students follow the manufacture of a typical product through all the industrial processes until its final emergence as a finished product. The boys in the furniture manufacturing curriculum have built a three-dimensional model factory, completely equipped with machinery, and will use this in a demonstration of means of facilitating process flow and eliminating inefficient industrial practices.

Transportation students in the Civil Engineering Department have built a model of a proposed redesign of the intersection of highways number 1 and 1-A here in Raleigh. Another attraction here will be a large model of the State College campus, complete with ground contours.

Nuclear Engineering, run by the Physics department, will show a small model of the nuclear reactor soon to be built on the State College campus, and will give a down-to-earth explanation of its workings. They have also planned other demonstrations concerning radioactivity, light rays, and radiation.

Equipment in the new chemical process laboratory will be featured by the Chemical Engineering boys. One attraction here will be the three story distillation towers. Others will be exhibits of flotation, filtration, testing of plastics, and many more.

Boys in the Diesel Engineering department will emphasize the application of the diesel engine in ships, trains, buses, tractors, and other diesel powered vehicles. The Southern Railroad has donated the use of a display unit for the occasion. The unit comprises a diesel locomotive from which the sides have been cut away to permit inspection of the engine while in motion.

Athletic Trophy

Victor Albert Bubas, Donald Grady Cheek, James Frederick Davis, Jr., Paul Charles Horvath, John Everett Hunter, Jr., John Charles Martin, Jr., Edward Washington Mooney, Jr., Anthony Romanowsky, Otis Gray Rucker, Jr., Leon Ronald Simon, Robert Frazier Smith and John Joe Tencick.

Gerald D. Mann and Howard A. Wells are candidates for the presidency of the N. C. State Y.M.C.A. for the year 1951-52. Gerald is a rising senior in Mechanical Engineering from Newport, North Carolina, while Howard, a rising junior in Nuclear Engineering, hails from Winston-Salem. The loser in the presidential race is automatically elected to vice-president.

Mann has been secretary of the "Y" for the past year and co-chairman of the Blue Ridge Student Conference which is being held in June. Gerald is also a cheerleader, a member of the American Society of Mechanical Engineers, recreation chairman of Wesley Foundation, a member of the Engineers Council, and the Arnold Air Society. A student in advanced R.O.T.C., he has served as chairman of the Social Responsibility Commission of the Y.M.C.A., a member of the dance committee of the Sophomore Dance and the Military Ball.

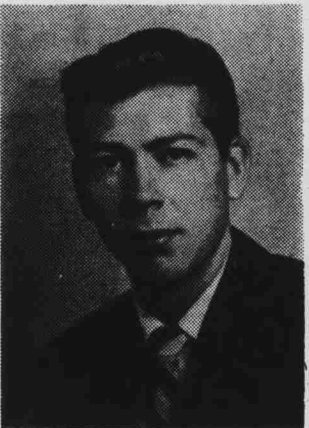

Wells has served as chairman of the World Relatedness Commission of the Y.M.C.A. cabinet, publicity chairman of Owen dormitory, vice

president and dance committee chairman of the Sophomore class and co-chairman of the W.S.S.F. Steering Committee. Howard is a member of the Red Coat Band, Glee Club, R.O.T.C. Band, Institute of Radio Engineers and the American Institute of Physics.

Treasurer

Robert Jeter, a native of Ahoskie and a rising junior in Mechanical Engineering, is a candidate for treasurer of the Y.M.C.A. Bob has served as a member of the World Relatedness Commission during the past year and has been active in

For Technician Business Manager

... Gerald Washburn

intramural sports and the Glee Club. He attended the Blue Ridge Student Conference in 1950.

Bill Perry, another candidate for "Y" treasurer is a rising Junior in Chemical Engineering and a Raleigh native. He holds membership in the Red Coat Band, a Commission of the Y.M.C.A. and the Sophomore finance committee of the Y.M.C.A. and the sophomore finance committee. He is co-chaplain of the Delta Sigma Phi fraternity. Bill, who headed the Old Clothes Drive for State College during the fall term, attended the National Student Assembly in December, 1950.

Athletic Council

... Walt Kasman

Y Secretary

... Bill Brittain

Bill Williams, a rising junior from Charlotte, majoring in Mechanical Engineering, is also a candidate for treasurer of the Y.M.C.A. Bill has served on the "Y" cabinet this year, and as a member of the business staff of "The Tower." Other activities include vice-presidency of the Freshman Y.M.C.A., Treasurer of the sophomore class, freshman dance committee, and departmental honor committee. Bill is a member of Thirty and Three, Phi Kappa Pi and the Westminster Fellowship.

Secretary

Ralph Cool, is a rising Junior in Chemical Engineering from Asheville, N. C. He is a member of the Social Responsibility Commission of the Y.M.C.A., Wesley Foundation Treasurer, member of the planning Committee for the Methodist Recreation Camp, member of A.I.Ch.E., Gamma Sigma Epsilon and the Glee Club. He is a member of the finance committee of the sophomore class and is a member of the Editorial staff of the Tower for 1951.

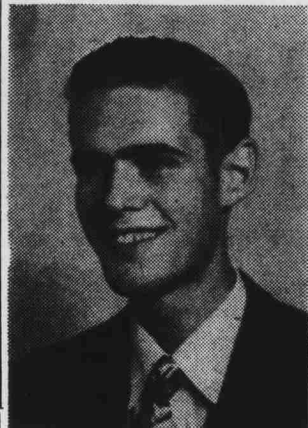

Ben Kirkland is a rising Junior, in Agricultural Education from Tarboro, N. C. He is an active member of the Y.M.C.A. cabinet serving as publicity chairman for both the upperclassman and freshman groups. He was a Y.M.C.A. delegate to the National Assembly of Student Christian Association movement during the past year.

Bill Brittain is a rising Junior in Agricultural Engineering from Brevard, N. C. He is a member of the Y.M.C.A. cabinet, a member of the American Society of Agricultural Engineers, editor of the Westminster Fellowship paper and was a delegate to the National Assembly of Student Christian Association movement during the past year.

Now A Sleeping Generation?

We have contented ourselves with indicting our Campus Government with utter lassitude; now a fellow editorial writer makes that charge against our entire generation of college men in the University of Wisconsin's DAILY CARDINAL.

In an editorial entitled, "A Generation of Jellyfish," the paper charges that as future leaders we are "a sterile assemblage of prisoners of orthodoxy. A group with little curiosity, content to munch chocolates and watch a television set while the rest of the world staggers blindly to destruction, a group hungry for a rut to cover in; a collection of youngsters already middle aged, lulled by life into a state of vegetative smugness."

Speaking of a subject close to our hearts, the writer continues, "In the realm of action, we forfeit control of our organization to either a small minority of students or to the university bureaucracy. On the campus a hapless Student Board shuffles on aimlessly in its sandbox and argues about election by-laws."

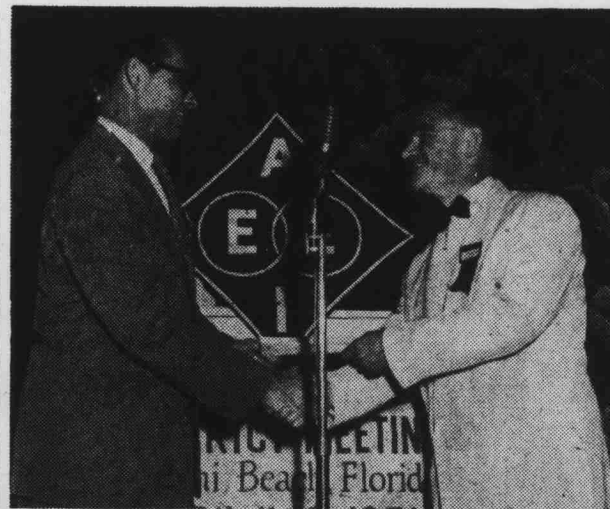

The disinterest in student government that is found at State and at Wisconsin also extends into the classroom. The CARDINAL

presents an outstanding example; "one young professor recently stopped in the middle of a course and told an astonished class that the course was a failure. 'Have I failed as a teacher,' he asked wondering, 'or is something else wrong? For 12 weeks I have tried to prod you into discussion and disagreement. Yet you sit back and never respond. Have I failed to interest you in the course?' He had not failed; we students had failed."

Perhaps we have failed. Perhaps it is already too late. Perhaps, however, we are just exhibiting the common symptoms of the Great Plague. The Great Plague which causes the Great Debates wherein we grasp at the superficial because we are afraid to see the truth. The terrible disease which results in our acceptance of dogma because we dare not think for ourselves; that moves us to accept the policy of the dismal past because we fear to force ourselves into what might be a more horrible future.

This is a universal disease; our failure as students is not in having caught it, but in not sooner recognizing its appearance. The sooner we cleanse our classrooms and campus of its virus, the sooner we can drive it from the halls of Congress, the UN, the churches, and the homes and business places of our world.

AIEE Winner Windley

Winner D. Windley, Senior in E.E. won first prize last week in the student papers contest at the Student Convention of the Southeastern District of AIEE held in Miami. Windley is shown receiving his award from Professor W. J. Seeley of Duke University, Vice President of the SE District of AIEE. For complete story, see page six.

**Riddick Dedication Set for Friday 27**

Dedication ceremonies for the new Riddick Engineering Laboratories Building at North Carolina State College will be held Friday, April 27 in the School of Engineering.

The Honorable W. Kerr Scott, Governor of North Carolina, will be present and will make a short

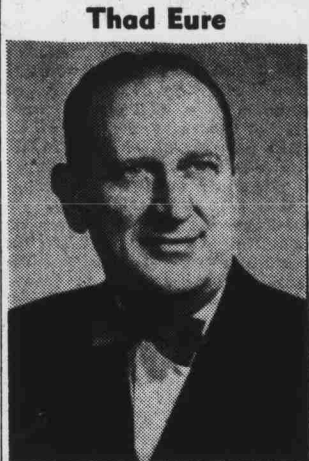

address, as will Colonel J. W. Harrelson, Chancellor of State College.

The key-note speech will be delivered by Louis V. Sutton, President of Carolina Power and Light Co. Mr. Sutton will discuss "Engineering and Industry in the South-east."

Completed in August, 1950, the Riddick building is an outgrowth of the increasing need for teaching and research facilities to better serve the students of engineering and the industries of the State. It is equipped with the latest devices for instruction, research, and industrial services.

The building is named for Wallace Carl Riddick who was the first Dean of Engineering, and who served State College in many other capacities including its presidency, for many years.

You are almost three times as likely to be killed in an automobile accident between seven and eight in the evening as you are between seven and eight in the morning.

**Thad Eure**

... Rally Speaker

**Students, Prof Secure College Sound System**

The need for a good, modern sound system for the Frank Thompson Gymnasium has been evident for several years. Students have suggested installing such a sound system and students and students' organizations are financing it.

The initial move and sponsoring of the proposed sound system was made by the IDC dance committee of which John Fulton is co-chairman. The committee proposes two methods of running the system: (1) users will operate all the equipment free of charge, (2) a small charge will be required for the use of an engineer to operate and maintain the equipment.

Two weeks ago several organizations made contributions toward the much needed system. The campus government has given \$100, the IDC and IFC have given \$100 each, and contributions are expected from the Intramural Fund and the Engineers Council.

The equipment will consist of 10 speakers, a record player, an amplifier, and an ultra-modern microphone. A cabinet made from wood donated by Dr. Preston of the Forestry School will encase the system.

The \$1200 worth of equipment and labor costs will cost the students only \$380. Professor Fred Willard of the E.E. Department is supervising the project and securing the system.

The completed sound system will be dedicated Thursday, April the nineteenth.

for Turlington to come out the winner. The only winner for the Becton aggregation was Sam Seine who took the first set. A ringer by Murphy of Turlington was the deciding factor in the last game of the doubles match.

Ninety-eight percent of drivers involved in fatal automobile accidents in the U. S. last year had at least one year's driving experience.

**Scabbard And Blade Honors Students**

Scabbard and Blade, national honorary military society, held its formal initiation and election of officers recently.

Selection of candidacy for initiation into the society is considered the highest honor for students in the Military Department. The society's purpose is to increase efficiency, promote fellowship and raise the standards of military training in colleges and universities.

Those initiated were; Jack Bowers, Van Williams, George B. Pruden, H. Hampton Rothwell, Clyde Erwin, Paul E. Smathers, A. S. Browning, III, Charles Deese, A. Hugh Harris, Jr., H. R. Caldwell, William M. Ingram, Clifford Jones, Paul Goodwin, Richard L. Hinson, Ray Karkiker, Milton Madison, Robert R. Mathews, Robert L. Miller, C. B. Smith, Jr., Donald H. Spencer, Norman Tate, F. H. VanLaudingham and William H. Wilson.

New officers for the society are: Captain, Albert S. Browning; 1st Lieut., Ray P. Karkiker; 2nd Lieut., Paul E. Smathers; 1st Sergeant, Milton Madison.

**Syme and Becton—**

(Continued from Page 8) stages of the game he might have had an easier time of it.

Vetville, 12 Syme No. 2, 3 On the other side of Syme the boys did not fare as well. A power laden group of men from Vetville came over and showed the boys the art of the game. Shining a little light on the losers was Charley Osburn, Hal Waddell and Slick Sledge who tried to avert defeat.

In the first round of play in the horseshoe tournament there was no less than two forfeits. Becton No. 1 and Syme No. 1, the two top point makers in the dormitories, each got a gift in their first encounter. West Haven eliminated Berry from further competition in this event by beating them in three straight sets. Turlington and Becton No. 2 tangled in a real battle and it took two wins in the final two events

**ATTENTION: Amateur Radio and Short Wave Fans!**

**Colorful Show Made By Industrial Engrs.**

A series of colorful exhibits attracted scores of persons at the 12-state regional industrial management conference in the School of Engineering at North Carolina State College last week.

Several commercial companies contributed exhibits for display at the conference. These were located in the main lobby of the Riddick Engineering Laboratories Building.

The largest exhibit was that of the Western Electric Company of Winston-Salem, manufacturers of radar and electrical equipment. It included an experimental, full-size model of commercial marine radar, including the antenna, a console containing the projection screen, and radar cabinet. Such equipment is used on ships operating in foggy areas and has a range of about 40 miles.

In the background was a graphic presentation of the relation of the Western Electric Company to the various sciences, demonstrating that Science is the foundation of electronics. It was in pyramid form, with physics, mathematics, and chemistry comprising the base.

The Drexel Furniture Company of Drexel and Tomlinson of High Point, also a furniture manufacturer, both contributed photographic displays of factory operations and their productions. There was also a photographic display from the Seaboard Air Line Railroad.

The Lane Company of Altavista, Va. donated a specially prepared step-by-step operations chart, complete with illustrations. Among the illustrations was a full-size cedar chest in blond wood, as an example of the finished product.

Also attracting wide attention was several discussions which were the principal features of the afternoon portion of the conference.

The topics concerned broad problems confronting management, and a three-man panel headed each discussion, comprised of representatives of management, education, professional consultants, and students in the field.

Panel participants were Serge A. Birn, president, Serge A. Birn Consulting Engineers of Louisville, Ky.; R. W. Newsome, Jr., of the R. J. Reynolds Tobacco Company; R. P. Calhoun, professor of personnel management, University of North Carolina; C. T. McNary, personnel director of Blue Bell, Inc., of Greensboro; Prof. H. L. Manning, head of the Industrial Engineering Department at the Virginia Polytechnic Institute; Mary B. Gilson, retired industrial personnel worker and consultant of Chapel Hill; Prof. H. P. Emerson, head of the Department of Industrial Engineering at the University of Tennessee, and W. G. Muller, of the Western Electric Company of Winston-Salem.

Students participating in the panels were Roy W. Smith, Jr. of Red Springs, George M. Burgess of Falls Church, Va., William P. Karst of Greenville, S. C., and Henry S. Odom of Norfolk, Va. All are seniors studying industrial engineering.

Three out of four traffic accidents happen in clear weather on dry roads.

# Newsweek Editor To Speak At NCCPA Convention

Two outstanding American journalists are scheduled to speak at the three day convention of the North Carolina Collegiate Press Association opening in Raleigh April 26.

NCCPA President Paul Foght announced that Harold "Hal" Lavine, Associate Editor, Newsweek Magazine, will be the keynote speaker at the opening session in the Sir Walter Hotel. Lavine, former associate managing editor of PM, now defunct New York daily, handles political news for the magazine and has just returned from a stint as a war correspondent in Korea.

Professor John Paul Jones of the University of Florida will appear on the convention program on Friday, April 27. Jones is the author of a book, *The Modern Reporter's Handbook*, which has been adopted as an official guide by several metropolitan papers.

Also slated for appearances on the convention programs are some of North Carolina's most outstanding journalists. Tom Bost, Sr., dean of North Carolina newspapermen and Capitol correspondent for the *Greensboro Daily News* will speak at the convention banquet. Sam Ragan, managing editor of the *News and Observer*, and Ben Park, managing editor of the *Raleigh Times* will both speak to the delegates of some 30 North Carolina college publications.

Clinics have been arranged so that all phases of collegiate publishing problems can be discussed. Fred Dixon will address the business managers; S. Herbert Hitch of the Charlotte Engraving Company will speak to the editors of college yearbooks; and W. A. Thomason, Southern Editor of the *Textile World* will speak to the editors of college magazines.

Awards to outstanding publications and individuals will be presented at a luncheon on April 27 by Dr. E. E. Folke of Wake Forest, permanent secretary of the Association.

## Junior Notice

There will be an important meeting of the Junior Class, Tuesday May 1 at noon in Pullen Hall. The purpose of the meeting is to elect officers for the rising Senior Class.

## Ice Rink Opens

The Coliseum Ice Rink will open for the season tonight at 7:30. Experienced skaters will be on hand to help the novices.

Skates may be rented in the Coliseum skate room, or you may use your own skates.

## Don't Miss It!

Time is growing short, so be sure and hurry down to the State Theater to see Judy Holliday, Academy Award Actress of 1950 in *BORN YESTERDAY*.

## Windley Wins

A paper entitled "A Photoelectric Congestion Indicator" won William D. Windley, E.E. senior, first prize in the student papers contest at the Student Convention of the S.E. District A.I.E.E. held in Miami April 9-14.

His paper was judged in competition with student technical papers submitted by nearly every engineering school from Virginia south and west to Louisiana. The author of a paper to be judged must research and develop his material and present his paper in a twenty-minute speech at the convention. Twelve papers were formally presented in this year's competition.

Over the last five years, State students have won 2 first place awards, one second, and 2 third places in this annual contest. The electrical engineering department gives a large portion of the credit for this record to two members of the department: Professor W. D. Stevenson, A.I.E.E. faculty advisor 1946-50; and Dr. A. R. Echels, advisor since June, 1950.

Twenty-four percent of all drivers involved in fatal automobile accidents in the U. S. last year were between the ages of 18 and 24.

## Sports Profiles—

(Continued from Page 7)  
inch senior has attempted to combine good fielding with his hitting. So far this season Don has been doing a good job in both departments. He has been hitting around the .300 mark and has shown improvement in the outfield.

Don hails from Shelby, North Carolina where he played basketball and baseball for Shelby High and also swung a bat for the local American Legion team.

### Has Excellent Record

His excellent record as a ballplayer in Shelby won Don the admiration of many major league scouts, but a stubborn determination to get a college education brought Cheek to State College rather than attempting to win a berth with the pros.

Barring any serious injuries, Don is headed for one of his best seasons this year, and come graduation this June he will have concluded a glorious career with the Wolfpack.

## Politicos Talk

A big political rally Tuesday night at 8:00 p.m. featuring Secretary of State Thad Eure and all candidates for campus posts is scheduled to highlight election week.

Eure, who has been prominent in North Carolina political circles for years, will point out to the candidates and their followers their present political responsibilities as campus citizens and how participation of any type is important after graduation.

Eure will speak after the introduction of the candidates. The rally will be followed by a social hour so that candidates and their constituents may become acquainted.

The affair is sponsored jointly by the Campus Government and the YMCA. Members of the joint committee are Charlie Pugh, Max Sink, Sam Furches, Jack McCracken and Ralph McAlister.

will be Don Cheek and Ed Horbelt.  
Vic Sorrell will stick with the same infield that has been so successful against Duke and Carolina. Eddie Morris will be at first base, Captain Roland Brinson at second, Mark Wright, a three hundred hitter will be at short, and Pepper Martin will hold down the hot corner.

The likely starting pitcher for the Demon Deacons will be either portsider Rip Coleman or Stan Johnson. Both of these men have already beaten the Pack.

The Deacs are one of the weak-

est hitting teams in the history of Wake Forest, and Coach Jack Sanford is hoping they'll start getting some base knocks. Centerfielder Johnny Alford is the leading hitter on the Deacons, batting well over three hundred.

**DON CHEEK**

It has been four long years of baseball for Don Cheek, the Wolfpack's converted right fielder.

Here's his story. When Don first reported to Coach Vic Sorrell for the 1948 season, he was a first baseman with high school and American Legion baseball experience behind him. It wasn't too long after that first day of practice that his ability to hit a long ball—and hit it consistently—won him a starting position. His skill at the plate soon earned Don the job of cleanup man. He finished his freshman year with a good .300 batting average and almost a flawless record on defense.

**Switched to Outfield**

In his sophomore year Cheek had another good season and he looked forward to his remaining two seasons with the Pack. But prior to the 1950 season coach Sorrell posted a plea for outfielders and so Don took it upon himself to fill up the ranks wherever he was needed, and tried out for the outfield. Although many Wolfpack followers doubted whether Cheek would make the grade as a fielder, Don worked hard to develop his arm and pick up some speed which he needed to cover that vast territory to be protected. Concentrating on his fielding caused Cheek's batting average to slip to a very low .215 clip.

This year the big six foot two (Continued on Page 6)

### Pack To Face Deacons; Fuscoe Leading Hitter

With victories over Carolina's Tarheels and Duke's Blue Devils, the Pack still needs a victory over Wake Forest's Demon Deacons to gain a clean sweep of the Big Four. Tomorrow afternoon, the Pack will get that chance when they journey over to Baptist Hollow to meet Coach Jack Sanford's Deacons. In the two previous meetings this season, the Deacs beat the Pack by identical scores, 6-2.

In an effort to break the ice against his alma mater, Coach Vic Sorrell will call on either Lunceford Lewis or Bernie Beane, with Bob Smith being held in relief. Dick McGillis, a sophomore from Bayonne, N. J., will do the receiving for the Wolfpack.

#### Fuscoe Leads Hitters

John Fuscoe, the Wolfpack's leading batter, and one of the leading batters in the Big Four, with a better than .500 average, is being counted on by Coach Sorrell to lead the batting for the run-happy Pack. With Fuscoe in the outfield

## Syme And Becton Lead In Dorm Softball

By BILL GEILER

As baseball ducks its head through the door of another season we find the dormitory intramurals well on their way. The forfeits are becoming less and less and we are finding a much improved type of softball being played all over the campus. Here is how they signed in at the end of last week.

Bagwell, 8 . . . Owen No. 2, 6 . . .

Two boys by the names of Wall and Hughes proved to be more than the young'uns from Owen could cope with. With Laurencé and Walker Wall playing like they owned the Owen team, and T. T. Hughes tight clutch pitching, the gang from Bagwell rolled to an eight-to-six win. Bagwell, after scoring all of its runs in the first inning settled down to playing a defensive style of game. For the losers, the standout was Johney Crosby. Jerry came to bat three times and slapped out two hits. One of them was a long triple. After that disastrous first inning Buddy Brown came into quell the mighty bats of Bagwell and pitched commendable ball from there on in.

Becton No. 1, 7 Tucker No. 2, 1

Now that the defending champions have Slingin' Charley Harrell back in the fold they look like they are off for another stampede of the midget diamond. Behind his superb pitching they rolled to an easy victory over an outclassed Tucker team. Backing up Charley were three men who stood out above the others. These boys were Bill Jenkins, Vincent Outland, and Barry Payne. These boys provided the punch, at the plate that was needed to wrap it up. It was a big second inning that spelled the doom for the Tuckerites. Taking advantage of two costly Tucker miscues, the boys from Becton scored the four runs that sewed up the ball game.

Berry, 12 Turlington No. 2, 11

With a ballplayer by the name of Frank Morgan showing the way, Berry came from behind to defeat a game but bewildered Turlington team. It was Morgan who slammed in the winning run in the final frame all the way. He tied up the game with a tremendous home run earlier in the game and that com-

bined with the sterling relief job turned in by Jack McDade was enough to take the hearts out of the Turlies, who at one time in the game held a seven run advantage. Another standout for Berry was John Kemp, who scored three of Berry's runs. Until the final fuselage of hits that Berry rattled off of their Louisville sluggers, it was all Turlington. And for the Turlies it was Ben Cats who turned in a fine game on the mound only to see his seven run lead vanish in the waning moments when he lost his stuff.

In another ball game this week Berry took a forfeit victory over Owen No. 1.

Becton No. 2, 8 Bagwell No. 2, 4

Bouncing back from their defeat by Syme, Becton No. 2 crawled all over Bagwell in the late inning to win going away. It was a big fourth inning for Becton that turned the trick. Two homeruns, one each by Brawley and Sain, coupled with three Bagwell errors and a base-on-balls gave Becton five runs and the ball game. With a boy by the name of Willy Parks

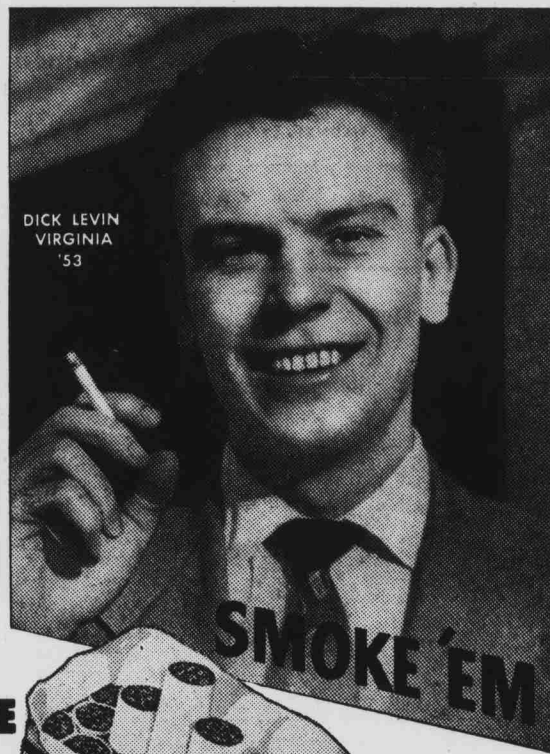

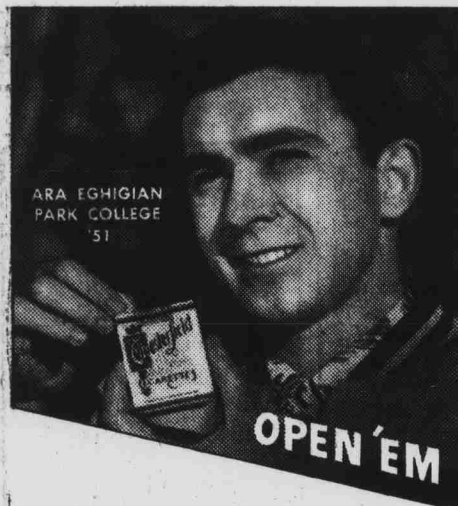

throwing them up, Bagwell just could not find the range. Even after all it was up to a left fielder by the name of Temple to put the game on ice. With runners on base he caught a fly ball in deep left field with his back to the plate and that was it. Leading Bagwell in a losing effort was Muse the shortstop who had a fine day both at the plate and afield.

Syme No. 1, 13 Alexander No. 2, 7

It took the boys from Syme four innings to catch on to the pitching slants of the Alexander pitcher but when they did they really put on a hitting show. Batting around, Syme scored eight runs to wrap up what was a real battle. Leading the Syme attack at the plate was again Ralph Jones who lofted two towering drives over the heads of the guardians of the outer gardens and circled the bases on each. No less than five homeruns were rattled off the Syme bats in that frame. On the mound it was Lonnie Gaddy who pitched the best game of his career. Except for a little loose fielding in the early
