## Al Parker Receives Vote Of Confidence

### Sagging State Leans on Meredith

About 100 Meredith girls attended the last pep rally. These Wolfpack admirers are, from right to left: Patsy Emory, Marjorie Tolan, Beth Hord and Becky Rice. Photos by Dick Wooten.

### "Parker OK" Pep Club Coeds Favor Leader

Apologies and explanations competed with heavy cigarette smoke to fill the air of a heated Pep Club meeting Wednesday night.

When the battle's mist finally cleared, all that remained was a unanimous vote of confidence for Head Cheerleader Al Parker.

Gone, for the present, anyway, were the complaints of the Coed Club that they were not given chances for the cheering squad. In their place there was lodged a pledge that the girls' organization will take an active interest in the Pep Club by sending at least two coeds to every meeting.

Pep Club President Harold Strawbridge, who continuously used mystic powers which enabled him to speak one minute as leader of the group and another as a private individual, tried to squirm out of his last week's statement by saying that he was misquoted. (He had previously promised the girls "that something will be done between seasons," which was taken by many to mean that another squad would be chosen for basketball.)

#### Strawbridge Squirms

The last obstacle that blocked complete harmony was the charge by one coed that the cheerleader tryouts were controlled by "politics." When two cheerleaders jumped to defend Parker and his methods, she refused to discuss the matter further.

Thus the floor was cleared for carrying out the business of the Club.

#### Vote of Confidence

Following several speeches of endorsement of Parker's record, the Club unanimously extended a vote of confidence for Al Parker and his cheerleaders.

Last minute details of tonight's pep rally were checked. Parker expects a large turnout.

Attendance picked up considerably over last week's number of nine members. There were 19 boys on hand with the Wolfpack Cheerleaders from Broughton High School and Meredith College. Four members of the Coed Club were present.

### Student Fee Study

A committee to study all non-academic fees paid by students was appointed this week by Chancellor Harrelson.

Composed of five faculty members and five students, the group will make a detailed analysis of the present fee rates with the investigation of a possible increase.

Recommendations of the committee, which will convene next week, will be given to the administration and, on approval, will be submitted to the Board of Trustees of the Greater University for final action.

The three groups of fees in question are the student activity fees, school fees and the athletic fees. At present the student activity fees pull ten dollars a year while the school and athletic fees draw another four dollars and 15 dollars respectively.

### Apathetic and Lethargic State Men

Part of the crowd at the last pep rally. These are the boys whose spirit is now reported to be at the lowest point in years. For story on State College spirit, See Page 12.

## "UN Not Debating Society" Says Indonesian Delegate

"The recent success of the United Nations forces in Korea has highlighted the UN as something more than a debating society," Dean Henry Brandis, of the University Law School, said in an address at State College Tuesday afternoon.

The Dean's remarks were directed to the Freshman Assembly during the celebration of the fifth anniversary of the birth of the UN.

#### Peace Agency

"The Korean situation," Dean Brandis said, "has caused the entire world to realize that the United Nations is a powerful and effective peace agency. This is a healthy development, but we must do more by supporting the United Nations in its efforts to uphold the peace of the world," said the Dean.

Brandis traveled to Indonesia with Dr. Frank P. Graham and observed the results of UN action in this area of the world, and is firmly convinced of the effective action of the UN in this situation.

"We must not," the Dean continued, "overestimate the power of the United Nations even though it has demonstrated its ability to stop aggression wherever it may develop."

"The State Department of the United Nations has moved to strengthen the United Nations, by proposing that all member nations make contingents available on UN call, and enlarging the powers of the General Assembly so that it can take effective action when the Security Council is rendered ineffective by the veto. When put into effect, these proposals would strengthen the United Nations.

"Such measures require the support of the world at large. It is essential that we here in the United States strengthen the United Nations as rapidly as possible. These steps are by no means final, and it will inevitably become apparent that if the UN is to have sufficient power to keep the peace it must be strengthened still further. Other nations will help to make the decision. Whether we have World War II will depend upon the courage and wisdom of the people and their leaders when they make their decisions."

The State College Glee Club, directed by Christian Kutschinski, led the audience in singing "The United Nation Hymn" and "We Are United Nations."

## Fraternity Row Rests; Fall Pledge Class Named

Hank Odom, president of the Interfraternity Council, has results of the fall rushing activities. His list, which is complete according to Dean Wood's office, lists 114 freshmen pledges. A total of 40 upper classmen have also pledged. Following is the list of freshmen pledges, complete as of October 18:

#### Alpha Gamma Rho

John M. Clement, Raleigh, N. C.; Larry Hester, Roxboro, N. C.; Ted James, Statesville, N. C.; Billy Lewis, Red Springs, N. C.; Jim Oliver, Fairmont, N. C.; and Baxter Williams, Currituck, N. C.

#### Delta Sigma Phi

William E. Perry, Raleigh, N. C.; and Robert S. Vail, Plainfield, N. J.

#### Kappa Alpha

A. C. Banner, Greensboro, N. C.; Peter S. Gough, Melbourne, Australia; W. J. Griswold, Durham, N. C.; Robert W. Kost, Raleigh, N. C.; L. Thomas Lassiter, Raleigh, N. C.; George C. Marsh, Raleigh, N. C.; John S. Miller, Pineville, N. C.; Louis F. Pease, Charlotte, N. C.; Paul B. Smith, South Charleston, W. Va.; John L. Stickley, Jr., Charlotte, N. C.; and John H. Tolledano, Greensboro, N. C.

#### Kappa Sigma

Anglos Marvin Lindsey, Lexington, N. C.; Wade Peter Loftis, Charlotte, N. C.; Robert George Min-

shull, New Rochelle, N. Y.; Arthur Rowell Newcombe, Charlotte, N. C.; Larry Kenneth Petty, Gastonia, N. C.; and Turner Bartlett Thackston, Spartanburg, S. C.

#### Lambda Chi Alpha

Ronald Norfleet Chappell, Potocasi, N. C.; Richard Homer Ferrill, Moyock, N. C.; Robert E. Ferrill, Moyock, N. C.; Fred Joseph Landreth, Winston-Salem, N. C.; Billy Edward McDowell, High Point, N. C.; William Reeves Males, Brockton, Mass.; and Broadus Stone Rose, Rocky Mount, N. C.

#### Phi Epsilon Pi

Mark Epstein, New York, N. Y.; Robert Harte, White Plains, N. Y.; Thomas McNamara, Lynbrook, N. Y.; John Phillips, New York, N. Y.; Paul Smigell, Philadelphia, Pa.; and Richard Strauss, Long Island, N. Y.

#### Phi Kappa Tau

B. Thomas Cottingham, Jr., Fayetteville, N. C.; John Henry Croom, III, Fayetteville, N. C.; Arthur R. Hagstrom, Winston-Salem, N. C.; Ernest A. Isley, Elon College, N. C.; Robert M. McIntyre, Advance, N. C.; George R. Parrott, Raleigh, N. C.; and Augustus M. Sharkey, Brunswick, N. C.

#### Pi Kappa Alpha

Cleve Bateman, Greensboro, N.

(Continued on Page 6)

# Blind Students "See" State With Aid Of Map

The students at the State School for the Blind will benefit from the first project of the State College Chapter of Alpha Phi Omega Fraternity, a national service society.

Under the direction of Willis Overby of Lawsonville, the fraternity constructed a dissected map of North Carolina, with uplifted and indented areas denoting the varying topography, the rivers, lakes, sounds, adjoining states, and county seats. The project required six months of work by the students.

The map was formally presented to the students of the State School for the Blind by Overby yesterday and was accepted on behalf of the students in the institution by Principal T. E. Stough.

Through the use of the map, the students with visual handicaps will be able to locate the 100 counties of the State, each of which may be removed from the map and replaced in a manner similar to completing a jig-saw puzzle. They will also be able to study the comparative locations of the principal geological areas of the State and to study a wide variety of factors about topography and the rivers and streams.

The five major cities are denoted by brads, and Raleigh, the State capital, is denoted by a corrugated brad. Thus the students will be able for the first time to obtain an idea of State geography never before available to them.

Overby and other State College students who assisted him constructed the unique map with various types of plywood and used carving instruments, jig saws, coping saws, and a sanding machine in perfecting their map. It was a tedious undertaking.

They made the map in the laboratories of the College's Industrial Arts Department, where they were able to use a wide variety of intricate woodworking devices.

Overby conceived and directed the project and did most of the work on it. In addition to his interest in establishing the Alpha Phi Omega chapter at State College, he also is highly active in other extra-curricular affairs. He is a member of the Agricultural Club and is editor of The Methodist Student, publication of Methodist students attending the college.

He also is a tenor in the College Glee Club and is a member of the YMCA and the Wrestling Team. He is master of Boy Scout Troop

# Back Into The Army Latest Campus "Fad"

Twenty-four students who registered for the Fall term have left school to enter or return to military service. The majority of these were members of reserve units and were placed on active status, however several boys dropped out to enlist.

The engineers were hardest hit, losing nine men; the ag school lost five. Many of those who were called were not in school last Fall, or were graduate students.

Those who have withdrawn to enter service are: C. L. Anpel, engineering, entered the Army; Carl Beaver, engineering, recalled to active duty; Charles J. Brown, engineering, called to the Army; John Colley, Jr., engineering; George A. Davis, engineering; James E. Dial, agriculture, enlisted USAF; Park C. Doral, grad, recalled to active duty.

William N. Earle, engineering; Norman G. Foster, engineering; James A. Holt, agriculture, enlisted U. S. Army; W. L. Hurst, forestry, called by the Navy; Henry E. Keniston, engineering, recalled to active duty; Richard H. Koontz, agriculture, enlisted; Harold E. Lloyd, engineering, recalled by Navy.

Pou H. Mallie, agriculture; Edward Nichol森, recalled by the USMC; Edward Leo Price, grad, recalled to active duty; Joe G. Price, agriculture, recalled by the Navy Department; Neil C. Russell, education, entered the Army; John K. Shields, recalled to active duty; Alvin C. Sheetz, recalled by the USMC; William S. Vann, architecture; Jesse L. Wilson, recalled by USNR.

112 in Lawsonville and has assisted with Boy Scout work in Wake, Surry, Forsyth, and Wilkes Counties.

# The Time is Now

So you didn't do so well in that last math quiz? And/or you are in a deep, dense fog in C.C. Or maybe it's that last English theme that misfired. Could be that chemistry or physics or cloth calc or design or something else is giving you a bad time. Maybe you figure you'll just ride along until after midterm, hoping for miracles. And then after midterm reports are out you'll try desperately to recoup. Fella, it won't work. Whatever you do, start doing it now.

And WHAT can you do? Put in more hours? Mmm—well, maybe. Cut down on the outside activities? Possibly. All depends. The way you use your time is more important than how much. No recreation is as bad as too much. Speaking positively, here is a list approved by the Inter-Dormitory Council of some of the things you can do to make more likely A's and B's and C's and to make unlikely D's and F's.

1. Talk to your instructor. He can help you locate the particular weaknesses and suggest ways of overcoming them.
2. See your adviser. Do this if things in general look bad.
3. Analyze your use of time. Do you give yourself a chance by studying when conditions are favorable—your hardest subject when you have the most energy, etc. Do you study too long at a stretch. Keep regular hours. Adopt an efficient routine.

# Pills, Pains, Pans All In a Day's Work

Have you visited the college infirmary lately?

If you have, you probably were not aware of the time and effort spent to keep the students healthy.

The 24 hour service rendered by the infirmary is under the directorship of Doctor Joe Combs. The Doc holds a sick call each day except Sunday from 9:00 a.m. to 10:30 a.m.

The infirmary staff includes Miss Trollinger, Head Nurse, three graduate nurses, one undergraduate nurse, a lab X-Ray technician, two ordilies, and a maid during the day. During the night, an evening supervisor and a graduate associate nurse, are on hand.

Last year more than 8000 students were given attention at sick call by Dr. Combs. An unbelievable number of 15,000 students was administered first aid by the nurses.

The infirmary beds were filled with 709 students for a total of 2097 days.

### Treatment

The extensive list of treatments includes 21 operations, 34 fractures, and dislocations, 2148 immunizations, 4587 laboratory specimens examined, 692 X-Rays, and 759 doses of Penicilin administered.

### Combs Has Other Duties

The infirmary meals are prepared by the cafeteria, under the supervision of Doctor Combs.

Another of the doctor's tasks is checking water from the Frank Thompson pool. The man with the little black bag who sits through most of State College's athletic contests is Doctor Combs.

In addition to 1927 X-Rays made by the Mobile Unit from the State Board of Health, last year, 3969 X-Rays have been made this year.

**Rock Pickers Meet**

Approximately 25 students and five faculty members of the State College Department of Geology attended the meeting of the Carolinas Geological Society which was concluded in Albemarle Sunday.

Prof. E. L. Miller, Jr., of the State College faculty is vice-president of the society. Other faculty members attending the meeting were Dr. Jasper L. Stuckey, head of the department, Dr. J. M. Parker, III, Prof. Warren G. Steel, and Prof. Glenn E. McKinley.

**WANTED**—Did you miss the free samples given away last week in THE TECHNICIAN? Read the ads in your paper and get on the band wagon of free goods.

**Bird Man Makes Hit With Canada West Pic**

Monday night the Audubon Screen Tour series once again proved its popularity with the public and the appeal of nature lore to young and old alike. The more than 600 persons who turned out to hear Bert Harwell in the Textile Auditorium, gave his bird imitations and color movies of western Canada a warm reception.

The response to this public lecture was so encouraging that the Leopold Wildlife Society, in cooperation with the Public Lectures Committee, is planning to bring other similar speakers to Raleigh in the future.

**Owens, Satterfield New Ag Chem Club**

Officers for the 1950-51 school year were elected at the October 12 meeting of the Agricultural Chemistry Club, according to the club's secretary. Although the meeting was primarily organizational, plans for the group's booth at the Ag Fair were deliberated.

The elected officers are: Kenneth Owens, president; O. H. Satterfield, Jr., vice-president; E. R. Jones, secretary; Charles Davis, treasurer; and Cliff Ammons, reporter.

Time and place of the next meeting is October 23, 7:30 p.m., in the Withers Library.

**Women Say Sex Needed Before Marriage**

Modern woman is possibly even franker than today's male and in a new book "An Inquiry Into the Intimate Lives of Women" (Cadillac Publishing Co., New York, Oct. 9, \$3.00) Marc Lanval reveals much about the personal lives of women which until now has only been hinted at. Dr. Lanval's book is, according to Vivre d'Abord, France, "the result of a most instructive inquiry to which Belgian and French women answered with frankness."

A distinct feminine type emerges from the responses to the detailed questionnaires, according to the author. She is between 33 and 34, was married by a clergyman, has one child, works, wants to enjoy complete equality of civil rights and wants to vote on all issues.

She wants certain changes in the customs controlling sexual and moral mores; and 95% believe that births must be controlled, is sympathetic toward the sexually abnormal and disabled; a slight majority find prostitution unacceptable, although nearly half "admitted its need."

This woman, French or Belgian (the study was made in Belgium), approves of birth control organizations; does not know how to swim; coffee is her favorite drink. She would prefer to be a judge rather than policewoman or soldier. This Continental woman prefers an experienced husband, but after marriage expects him to be faithful, although 64% will accept unfaithfulness as "bearable."

Divorce is favored in marriages "really impossible" and she is somewhat critical of organized religion. She wants to retain her maiden name and 68.9% of these Lucy Stoners want their own children

registered under their own names, although 53% would prefer to be men. The preferred age for marriage should be about 25 for the woman and close to 30 for the man.

The "standard woman" is engrossed in her children; desires for them a sound sexual education and 82.6% of the women consider that "the young girl can have pre-marital sexual experiences." Only 6.9% believe that the woman should be chaste before marriage, but faithfulness is considered desirable on the part of the woman by 37.7%, while 27% demand absolute faithfulness for their sex. And the institution of marriage should be conceived, according to 36.7%, in a spirit of freedom, as a comradeship, "where the respect of one another's individual personality is made secure."

This average woman (75.4%) will grant her daughter sexual freedom and 81.7% believe that sex should have a place in family discussions. Although she (88%) is not a nudist, she voices no objection to her children seeing their parents nude.

Other more intimate details are studied through both statistics and actual excerpts from questionnaires. But despite this collective woman's modern views, she (51.6%) will admit to being jealous.

**Civil Service**

The United States Civil Service Commission has announced its annual examination for Junior Scientist and Engineer for filling positions of the following kinds: Chemist, physicist, metallurgist, and engineer (\$2,650 to \$3,825 a year), and electronic scientist and mathematician (\$3,100 a year). The positions are located in Washington, D. C., throughout the United States, its territories and possessions, and in a few cases, in foreign countries.

To qualify, applicants must pass a written test and, in addition, must have completed either appropriate college work or a combination of college work and technical experience in the field for which they apply. The jobs paying \$2,650 and \$2,875 a year are open only to college sophomores and juniors for special on-the-job training. Appointments to such positions are usually for employment during school vacation periods or for the periods of employment of students in co-operative courses. The maximum age limit for all positions paying up to \$3,100 a year is 35 years; for the \$3,825 positions, 62 years. Age limits are waived for persons entitled to veteran preference.

"OUR CARE SAVES WEAR"

### Union, Now or Never?

For well over a year a College Union for State has been making its painful way toward the light. If all goes well, the actual construction on the building will begin by spring.

When the initial plans for the Union were made it was hoped that it would answer a long felt need. One educator has stated that "Colleges are turning out Grade A physicists and Grade D humans." The College Union has as one of its cardinal purposes the development of social competence in students. The Union considers itself a laboratory in productive living. The actual experience in working with people, the actual experience of skillfully completing a community project, are great helps in toning and conditioning social and citizenship skills in the individual.

At present, the Union plans are being processed by the state budget bureau. It is hoped that they will not be delayed there as long as at the previous stages leading to final approval.

PRF.

### Clean Up!

Now that we have one new classroom building and several more are in the construction stage, can't we get rid of those unsightly quonsets and barracks on the campus?

One very definite need that could be filled by the vacated space is a parking area. The grounds bordered by Page, Tompkins, 1911 Building, and the cafeteria, and the large area on Ag Hill, could be turned into landscaped parking lots.

Everyone agrees that we need parking space. We must get off Hillsboro Street for two reasons: The Bluecoats stick you a buck if you stay over an hour, and it is unfair to take up the parking space in front of the Hillsboro Street merchants' establishments.

Everyone on the campus would benefit from a parking area on the campus.

The two large spaces now occupied by the ugly, dilapidated shambles could be landscaped by State College Landscape Architecture students as a practice assignment; Both students and faculty members would have a place to park off the street; State College would be rid of the unsightly buildings; everyone would be happy!

We feel that no better use could be made of these two areas.

### A Muffed Chance

Last week's Technician carried an editorial on the surplus of organizations on the campus and asked for a check-up.

No later than Saturday night, one of the newer groups at State College was given a perfect chance to accomplish one of its prime missions.

State's hard-fighting football team finally got some of the glory it has deserved all season in the "upset" win over Maryland. The deed was evidently a surprise to the entire sports world, and certainly an eye-lifter on the State College campus.

Ed Storey, Sports Publicity Director for State, announced immediately after the game that State's victorious Wolfpack would arrive in Raleigh at 7:00 p.m. Saturday.

With one of the nation's top victories under their belts, the team deserved a 4,000-strong welcome from the Student body when they got off that plane. But . . .

Only a handful of State College representatives was on hand to greet the team.

What a wonderful opportunity for the young State College Pep Club to get in a whale of a lot of goodwill and also create a little pep (which is, we suppose, one of its primary aims).

In the two and a half hours before the plane arrived, a sizeable welcoming committee could have been rallied on the campus. Even if the Pep Club hadn't deemed it advisable to meet the plane, they could have had a little music and lots of noise ready on the campus when the ball club came in.

We aren't trying to step too hard on toes, but this is just one of many examples of organizations on the State College campus failing to function as they should.

Get on the ball, or get off the campus!

### Freshman Elections

On most campuses throughout the state and the nation fall elections have been held. On most campuses the new freshmen classes have been organized and are now taking a part in the activities of their schools.

No elections have been held for State's frosh and none will be held before the end of the quarter. There are no class officers to represent the freshmen in campus activities; no one but the administration to plan their program.

The excuse generally given for this situation is that the newcomers have had no opportunity to make acquaintances. Actually few upperclassmen are at all acquainted with their class officers. What the situation does mean is that the officers of the class, when belatedly elected, have too little time to become acquainted with their duties. Too little time to make responsible plans.

This was clearly demonstrated last spring when the musician's union blacklisted the Frank Thompson Gym because a non-union band had played there for the Freshman Dance. The officers of that class will testify that this trouble arose because they did not have sufficient time following their elections to make plans.

We call upon the Campus Government and the Dean of Student's office to prepare to hold the election of freshman officers as soon as possible. Even if they are held on Monday it will not be soon enough. Plans must be made so that next year's elections can be held before the middle of the first quarter.

PRF.

# With The Greeks

By FRANK PERKINS

Many of the fraternities are having parties for their new pledges this week-end. The SAE's seem to be rushing the halloween season by having a costume party. They have been working very hard to complete their basement for this occasion. If they fix the basement as nice as they fixed the den then it will be something that everyone should see.

Along with their costume party they are planning to have a banquet which will terminate the initiation for four new brothers. The boys who will be wearing the SAE pin for their first time are; Buck Cheatham, Burlington; Max Thurmond, High Point; Ray Hayworth, High Point; and Johnny Bell, Greensboro.

#### Pi Kappa Phi Officers

In a recent meeting the following officers were elected to lead Pi Kappa Phi in the coming year: James Plemmons, Archon; James Muse, Secretary; Richard Hinson, Treasurer; Edwin Chapman, Asst. Treasurer; James Blue, Chaplin; Bill Joyner, Historian. Under these fine officers the Pi Kappas are looking forward to one of their best years.

#### SPE History

The North Carolina Beta Chapter of Sigma Phi Epsilon was established on the campus of North Carolina State College in 1904. Its history shows the same strength and determination that characterizes the growth of Sigma Phi Epsilon. This strength and determination have kept the doors of Beta open continuously from 1904 till the present day even though many fraternities closed their doors during the times of depression and war. North Carolina Beta takes an active interest in scholarship, campus government, publications and intramural athletics. Sigma Phi Epsilon is looking forward to one of its best years during 50-51 school year.

Just as our great democracy, the United States of America had its beginnings and its founders, so must all institutions. So had Sigma Phi Epsilon. It was born on November 1, 1901, on the campus of Richmond College in Richmond, Virginia. There were twelve friends who joined together for the sole purpose of friendship and with

their farsightedness founded a fraternity that has now taken its place among the great ones of the fraternity world.

#### Hard Battle

In the face of opposition from the existing fraternities, twelve friends founded a group which they called the "Saturday Night Club," the program of which was "to recruit the best men of the college that they might be more closely bound together." The members tried first to affiliate with an old established national fraternity and when this did not work out as planned, they succeeded finally in the establishment of a new national Greek-letter.

It was a hard, courageous battle in the struggling years, but an enduring spirit prevailed.

Sig Ep growth has made exciting and interesting history. Its growth has been carefully planned and regulated so that today Sig Ep Chapters are to be found on the campuses of nearly every important college and university in America and alumni groups in 93 of the nation's leading cities. From that little group of twelve founders, its membership has grown to over 35,000 brothers all over the globe.

#### Field Secretaries

Sigma Phi Epsilon was also one of the first fraternities to recognize the need of a traveling representative for the national fraternity. In 1921 the office of Field Secretary was created. Sigma Phi Epsilon has grown so rapidly that six Field Secretaries are now on the staff. These officers travel through the country making visitation and inspections of all the active chapters and alumni groups of the fraternity and report on their conditions and progress to the national fraternity.

Sigma Phi Epsilon will be forty-nine years old on November 1, 1950. Forty-eight years have passed that are a testimonial of stability and growth and an assurance of rugged continuance. It is 8th among national fraternities in the number of chapters. Today it has 103 chapters in 39 states and 93 alumni chapters and associations in 38 states. The chapters own or maintain 103 meeting places with an aggregate value of several million dollars.

## Open Forum

Dear Sir:

After hearing the speech concerning the United Nations Assembly at last Tuesday's Campus Government meeting, I noticed an unusual lack of attendance of campus Government members.

I decided that Dean Brandis said more in his few minutes talk than anyone else has said at any Campus Government meeting in weeks!

#### Members Avoided Meeting

I fully believe that a deliberate effort was made by some members to avoid that particular speech. This, I suggest, is not in the interest of the students who are represented by these delegates.

Any member of Campus Government who deliberately avoided hearing that speech (or any other) because of prejudice or narrow-mindedness is unfit to be a representative.

There are other important matters to come before the council and this sort of attitude cannot be tolerated.

Each member has an alternate and should inform him of the member's inability to attend in such is the case.

Jeff Brooks, Representative School of Design.

Ed. Note: We feel that too many men on this campus are accepting responsibility just for the title, with no desire or intention of doing the job for which they have been appointed.

## Dorms In Social Whirl, Another Dance Tonight

The second big dance sponsored by the Inter-Dormitory Council will swing away in Frank Thompson Gym tonite at 8:00 o'clock.

Gene Wallace's 10 piece band will feature a vocalist for the big night. Admission is free and tickets are available from the Dormitory presidents.

More girls than ever are expected with delegations from Meredith College, Rex Hospital, Dix Hill Hospital, Peace College and the working girls from town.

The first dance for all the dormitories was given last spring. Its success prompted the Council to put on another affair with the idea of repeating it every quarter.

The Industrial Recreation Department will handle entertainment as it did for the "upper dorms" two weeks ago. They promise a program to rival its gaiety.

Reports that have come back from the schools represented at the dance two weeks ago all say that the girls had a wonderful time and are looking forward to the next dance.

Although, Meredith was not represented at the last dance, last minute reports from there say that "at least a 100 girls" have signed up to be here.

Wallace's Statesmen are playing free of charge to the Dormitory Council. Their pay is coming from their Musician's Union.

### Tea for Seventy

Chancellor and Mrs. Harrelson welcomed some seventy foreign students at their home on Tuesday night. The reception line included faculty members and their wives: Dr. and Mrs. Anderson, Mr. and Mrs. Barkalow, Dr. and Mrs. Snyder, Mrs. Hoffman and others.

Refreshments were served during the reception by hostesses for the State College Women's Club.

### IAS Hears Jet Pilot

The October meeting of the student branch of the Institute of Aeronautical Sciences had Major G. E. Lundquist of the U. S. Air Force, as a speaker.

Major Lundquist is a graduate student in Nuclear Engineering and has had considerable experience flying the supersonic XS-1. His talk covered his experiences while testing the XS-1 for the Air Force.

The time of the next meeting was set at 7 o'clock, October 31. All students in Aeronautical Engineering are urged to attend and become a member of the Institute.

The Chancellor welcomed every student individually and wished him a pleasant stay at State College and in the United States.

North Carolina State won the Southern Conference crown for the fourth year last season and laid claim to the All-South title after Kentucky had declined to meet them in an NCAA district playoff.

## Gray to Get Bible From Coliseum Ceremony

By MAYNARD SHIELDS

This is the story of a Bible. Not just any Bible, but a Bible with a story that should be told. This particular volume will be presented to University President Gordon Gray and the Consolidated University by Mr. George Eason of the Military Department at State College.

The story actually began when Mrs. Eason presented the Bible to her husband on his birthday in memory of the young son. The boy was killed on August 5 when he fell from a two-story window at the home of friends whom the Easons were visiting in Danville, Virginia.

Inauguration Day came for Gordon Gray, and it was discovered that no one had brought a Bible for President Gray to take his oath. W. Z. Betts, Coliseum Director, asked his secretary, Mrs. Margaret Gouge, if she could get one for the ceremony.

Mrs. Gouge went to her home and found that her Bible was not suitable for such an occasion. She then went to the Eason Home, and Mrs. Eason agreed to lend her husband's Bible for the inauguration.

At the end of the ceremonies, President Gray expressed a desire to keep it for sentimental reasons. Mr. and Mrs. Eason agreed to this. When President Gray heard the story of the death of the Eason child, he said that the Bible would be inscribed in memory of the boy. He also said he hoped the Testament would be used in future inauguration ceremonies.

The inscribing of the Bible will be done by Professor J. D. Paulson of State College.

The story of this Bible does not end here because future University Presidents can always look at it and be reminded of a tribute paid to a boy by his father and mother.

## Ag Chem Department Wins National Accreditation

The Department of Agricultural and Biological Chemistry at State College has been fully accredited by the American Chemical Society, the national accreditation agency for such departments, Chancellor J. W. Harrelson and Dean James H. Hilton of the School of Agriculture announced recently.

With the society's approval, the department, headed by Dr. Walter J. Peterson, now has equal academic rank with any division of its kind in the United States. It has to meet certain rigid requirements in teaching and research personnel and facilities to gain the recognition.

### Lauds Training

Notification of the department's accreditation was dispatched to Chancellor Harrelson and Dean Hilton by the ACA's Committee on Professional Training which lauded State College's training and research work in agricultural and biological chemistry and said it was "very much impressed with the improvements which have been realized during the past two years."

The American Chemical Society has a membership of 62,684 scientists, who are affiliated with 135 local sections located in various parts of the United States.

Dr. Peterson, who has been head of the State College Department of Agricultural and Biological Chemistry since January 1, 1949, is a member of the executive board of the Agriculture and Foods Section of the ACS.

### Visit Campus

The ACS approved the department following a visit to the campus by one of its representatives, a study of the department's facilities and personnel, and an interview with Dr. Peterson who discussed the department's work with the entire accreditation committee at a recent gathering in Chicago.

When notified of the development, Chancellor Harrelson and Dean Hilton commented:

# Frustrated Engineer? Stop Muttering Try Pottery Puttering

We at State College are very proud to be enrolled here, for we know that this is one of the leading engineering institutions in the United States. Many of us upon arriving here were vaguely informed about the types of engineering and hastily chose one or another in which to major. But how certain are you that you are majoring in the right engineering field which offers the greatest possibilities of advancement and success in the future?

The important thing is not that you get a degree in some engineering field but that you get your degree in the type in which you can do the most good—both to yourself and to other people. True, mechanical, civil, electrical, and all other types of engineering have their importance in our present civilization. But there is the question, how many of these engineers do we need?

Engineering, like so many other things, has a supply and demand; and statistics are proving more and more every day that many types of engineering are being overcrowded. But, contrary to this fact, ceramic engineering is not one of these overcrowded fields. Then why do so many incoming freshmen and other students choose other types of engineering as a profession? I believe it is because so many of these students know little or nothing of what ceramic engineering really is.

### Need For Ceramic Students

In proportion to the number of students graduating in engineering, the greatest need is for more ceramic engineers. Each year increasing numbers of industries are realizing the need to employ more ceramic engineers; but strangely enough the enrollment in this field at State has been decreasing for the past three years to such an extent that this year only five entering freshmen have chosen ceramics as their field of endeavor.

The majority of students entering State are from North Carolina and other Southeastern states. Over 80% of the graduation group are employed in these states and a great number of these are employed right here in North Carolina.

So these facts are evident: the work is interesting; and, moreover, you can stay right here in your own back yard and take advantage of these opportunities.

### No Need For Fancy Fixin's

We in the Ceramic Engineering Department do not have a fine classroom building with beautiful blond furniture, nor do we have the most modern laboratories; but we do not need them, for what we do have means a lot more. We have excellent instruction under very competent professors and the necessary facilities to make us one of the leading departments in the country. Above all, we have very determined students who realize Ceramic Engineering profession has a great need for more men, the possibility of advancement is exceedingly great; the pay is good, that however difficult the attainment of their goal is, they will reach it. Further still, there is a fraternal feeling among students and professors as exists in no other department. It is from this feeling that a student feels that he has an active part in his department and one who counts when decisions are being made.

If you are definitely sure that you are in the right field of engineering, then don't change, but if any doubt exists in your mind compare the potentialities of your field with those of Ceramics. You cannot be happy in life until you are happy in what you are doing. Drop by the Ceramic Department and see what Ceramic Engineering really is and talk with Dr. Kriegel, the department head. He will be most anxious to answer questions to further inform you about this field.

## Honor Committee Named By Engineers

Kenneth W. Hansen, a junior in ceramic engineering from Staten Island, N. Y., was elected chairman of the executive honor committee for the School of Engineering, it was announced today by Dean J. H. Lampe.

Hansen will represent the engineering school on the campus government the coming year. He is active in campus affairs, being a member of Keramos, honorary ceramic engineering society, the Engineer's Council, and the American Ceramic Society.

## Shutterbugs Shoot For \$50 Prize Money

Campus camera fans are being offered a \$50 inducement to change an avocation into a vocation in a new college contest announced by Campus Merchandising Bureau of New York today.

Don Pike, Chesterfield Campus Representative has posted contest rules in prominent locations on campus and can answer all inquiries.

Photographers have a chance to submit a series of three photographs of student models taking the Chesterfield Mildness Test: "Open 'em; Smell 'em; Smoke 'em." Pictures should be taken on campus, and poses should duplicate those appearing in the current series of Chesterfield ads in the TECHNICIAN.

# Defense Dept. Orders ROTC Changes

Assignment of Technical Sgt. Harry K. Coleman and Staff Sgt. John W. Rogers as instructors on the staff of the Division of Military Science at State College was announced yesterday by Major Jerome C. Bicholz, professor of air

science and tactics at the college. Technical Sergeant Coleman entered service in the Army Air Corps in October 1941. He served 48 months in the Southwest Pacific during the last war with assignments at Hickam Field, Hawaii,

and various bases in the South Pacific area as flight engineer. Sergeant Coleman, prior to coming to State College, was technical inspector for 14th Air Force Headquarters at Warner Robins Air Force Base, Georgia. He will teach aircraft maintenance and engineering at the college.

Staff Sergeant Rogers entered service in 1937 and saw duty with the Infantry in Hawaii until 1940. He reenlisted in December, 1941, and served with the 422nd Signal Aviation Company and the 396th Signal Aviation Company served in Panama, North Africa, and the China-Burman-India Theatre.

Ohio State in the Big Ten was the Midwest's basketball leader. The Buckeye basketball team gave their school its second successive Big Ten major sport title.

## Too Many???

## Over-dose of Females Spiked IDC Dance

If you didn't make it over to the National Guard Armory last Friday night for the dance, you really missed one of the most enjoyable informal dances seen hereabouts.

The dance was sponsored jointly by Gold, Welch, Berry, Becton, Bagwell, and Syme Dormitories, and Gene Wallace was on hand supplying some fine music. The officers and the recreational directors in these dormitories deserve a bow for sparking the beginning of the dorm socials in this manner.

### Sappenfield

But the primary figure in the goings-on was Jack Sappenfield from the Industrial Recreation Department. Under the new and wonderful assistance which that Department is giving the Inter-Dormitory Council, Jack made a project of last Friday night. There wasn't a dull moment with the games he had up his sleeve—most of them enabling everyone to get much better acquainted. There is real promise from the Industrial Recreation Department if this is a sample of their work.

### Too Many Females

Unfortunately, one sad thing must be reported about the dance. There were invited ladies of striking symmetry and gracious manner who had to spend most of the evening just looking. "The Wolf-pack can do something about this!" it was suggested. With a gala occasion such as this for only 50c, getting some fellows to keep beautiful women happy should be no problem whatsoever. There's another party coming up next week, so see your president or recreational director for tickets.

Gene Wallace is going to add a half dozen or so pieces to the band he had the other night, and really do it up proper for the coming second annual free I.D.C. Dance to include all dormitory residents as possible receivers of invitations. The invitations will be distributed by the dormitory club presidents. The date for the big dance will be announced shortly.

## Military Department Adds Three-Strippers

The Department of Military Science and Tactics at State College has been reorganized to meet policies of the U. S. Department of Defense.

Formerly known as a department, the unit has now been designated as the Division of Military Science and will be headed by a director of military training. The division is composed of the Department of Military Science and Tactics and the Department of Air Science and Tactics.

The senior officer of the Armed Forces assigned to the college, officials said, will normally serve as director of military training.

### Gibson Still Head

Col. Samuel A. Gibson, U. S. Army, will continue as head of the Army ROTC under the designation of professor of military science and tactics. As senior officer on duty at the college, Colonel Gibson will also head the Division of Military Science.

As head of the Division of Military Science, Colonel Gibson will co-ordinate both the Army and Air Force ROTC under joint policies announced by the Department of the Army and the Department of the Air Force. He will also be responsible to Chancellor Harrelson for administration of the institution's policies with respect to military training.

Major Jerome C. Eichholz, U. S. Air Force, is head of the Air Force ROTC under the designation of professor of air science and tactics.

# Be Happy-Go Lucky!

I'm pretty bright, I make straight 'A's,  
I'll soon have my degree,  
I know the facts you've got to know—  
Like LS/M.F.T.

By Robert S. Kaiser  
Colorado School of Mines

Enjoy your cigarette! Enjoy truly fine tobacco  
that combines both perfect mildness and rich  
taste in one great cigarette - Lucky Strike!

Perfect mildness? You bet. Scientific tests,  
confirmed by three independent consulting  
laboratories, prove that Lucky Strike is milder  
than any other principal brand. Rich taste?  
Yes, the full, rich taste of truly fine tobacco.

Only fine tobacco gives you both real mildness  
and rich taste. And Lucky Strike means fine  
tobacco. So enjoy the happy blending that com-  
bines perfect mildness with a rich, true tobacco  
taste. Be Happy—Go Lucky!

It's not in any book, I know,  
But just the same it's true,  
If you would like a perfect smoke  
It's Lucky Strike for you!

Ivey to Speak

# Mop Up Draws Attention of Campus Gov't

**Editor's Note:**  
This is the third of the TECHNICIAN'S weekly contributions to better inform the students on the accomplishments of the Campus Government.

The meeting was called to order by President McCracken and the roll was called. Members absent were Brown, Crutchfield, Gluck, Miller, Raper, Sappenfield, and Thurman.

McCracken read a letter from Bob Lasater, Chairman of Religion and Life Week, in which Lasater stated that he would like to hold a discussion period with the Council during its weekly meeting in the week of November 5-12. The discussion was to be held in connection with the observation of Religion and Life Week. Although the opinion of the Council seemed to be against such a meeting, final decision on the matter was delayed until next week.

**Welfare Committee**  
Henderson Scott, Chairman of the Welfare Committee, reported

that his committee would begin work soon on the Teacher Merit Rating. The Welfare Committee, Scott said, had also continued formulating ideas for promoting friendliness on the campus.

Ralph McAlister, Chairman of the Investigations Committee, reported that he had talked with Mr. Ivey about the problem of students purchasing supplies from the Student Supply Stores. Mr. Ivey offered to come before the Council and tell them something of the manner in which the supply stores handled their sales and their profits. After much discussion Bill Herrmann moved that Mr. Ivey be invited to appear before the Council at the Council's meeting on November 14. The motion was passed.

**Activity Fee**  
Harvey Scheviak reminded the Council that the Student Activities Fee Committee had promised to turn the matter of proper allocation of the fees over to the Council for approval in order that the al-

location might be handled more directly by student representation, but that the committee as yet had failed to do so. McCracken replied that the Council is still pressing the matter before the Chancellor and that action is pending until a report is made on the manner in which similar fees are handled at Carolina and at the Woman's College.

Scheviak suggested that the Council follow the plan of last year's Council by revising a master schedule of all meeting places and dates of all organizations on campus in order that the Council might know at any time if a meeting is being held by another group and thus eliminate conflicting meetings. No definite action was taken.

Reports on the National Student Association meeting held this past summer were completed by Charlie Culp and Jack McCracken.

The Council had lunch with the YMCA Cabinet after which the two groups heard a most interesting

### Methodist Mixer

The Wesley Foundation, Methodist fellowship group of State and Meredith, will have a Methodist mixer in the old auditorium at Meredith from 8:00 until 11:00 p.m., Saturday, October 21st.

All freshmen and members of Wesley Foundation are invited to attend and meet the Meredith Methodists. John Brendle will lead recreation.

talk by Henry Brandis, Dean of the Law School, University of North Carolina. The talk was made in connection with the observation of United Nations Day. Mr. Brandis was introduced by Mr. King, general secretary of the "Y."

The meeting was adjourned at 1:55 p.m.

Respectfully submitted,  
Robert W. Scott,  
Secretary.

## LEADING SELLER IN AMERICA'S COLLEGES

# Big Elmer Costa Best In Nation

By BOB CURRAN

Climaxing two and one half seasons of rugged line play, Elmer Costa this week was named "Lineman of the Week" by sportscasters all over the nation. This notable honor is a stepping stone to being named All-America, which Elmer so rightly deserves. Costa received this distinction in reward for his tremendous play against the Maryland Terrapins last Saturday. Big Elmer personally took charge of the Wolfpack defense whenever the Old Liners threatened, and he continually threw the Maryland backs for losses.

When the Navy turned Elmer Costa loose after the war, it was actually decommissioning a destroyer. When Elmer played his first game for the Wolfpack in 1948, he was recommended for active duty, and for two and one half seasons he has been faithfully

carrying out his job of destroying. Unlike a Navy destroyer, Elmer is content with destroying any plays that the opposition may care to run in his direction, or any other direction for that matter.

### Hits Peak

Last Saturday afternoon Elmer supposedly hit his peak of greatness, when he almost single-handedly stopped Jim Tatum's Maryland running attack. The only trouble with that statement is that big Elmer Costa hit his peak of greatness when he played his first game for the Pack, and he has stayed at the same high level ever since then. Costa has been playing great games for Saturdays on end, but it took State's stunning upset of mighty Maryland, to bring this fact to light. After the big man's brilliant defensive effort Saturday, Coach Jim Tatum personally nominated Costa as "Lineman of the Week."

Against this same Maryland team last year, Elmer played such a great game that he was selected the Associated Press selection as "Sophomore of the Week" in the Southern Conference. That honor could have been bestowed on the big tackle every Saturday last season, and it wouldn't have been far from wrong.

In the Maryland game Saturday, Elmer was competing against two of the best linemen in the country, in Ray Krouse and Bob Ward. When the smoke of battle had cleared away, Elmer was still leading man, and the pre-season All-America candidates from Maryland had to be content with second billing.

### Big 73

A very familiar sight to see on any Saturday afternoon is to have the officials unpile a mass of football players after a play, and to have the big No. 73 come up from

the bottom of the pile. It's a case of Beattie Feathers' prize tackle getting there "the fustus with the mostest."

Line Coach Al Rotella, who has played quite a bit of line in his day, offers to match Costa's line play against any tackle in the country, and he'll produce the game, pictures to prove he's the greatest of them all. To anyone, that has seen the big tackle perform, this would be unnecessary, to those that have not been lucky enough to see one of Elmer's performances, all they have to do is witness a State football game sometime in the future.

Probably the greatest praise that could be showered on the big 225 lb. tackle from Paterson, N. J., would be for him to be picked for All-America, but regardless of what team he is picked for, he'll still continue to star comes Saturday afternoon.

## Views and Previews

By PAUL HODUL

The return of the Wolfpack to the win column was certainly a most welcome sight, but to earn this victory against mighty Maryland (ranked 8th in the nation) makes it all the more welcome. The State eleven finally won that big game for a change.

After playing Duke and Carolina, and losing two heartbreakers it seemed like asking too much, for the Wolfpack to rebound against Maryland, and get a major victory. About the only real thumping State got this year was at the hands of the Clemson Tigers.

The Duke and Carolina game could have gone either way, but the breaks always seemed to favor our opponents. I'm not taking any credit away from Duke or Carolina, but any observer of football realizes that when two good teams meet, the winner usually has to receive a few breaks, at the proper time.

The ironic twist to all of this is that Maryland will probably dump Duke and Carolina by comfortable margins. That's what makes this unpredictable game of football so interesting.

Last Saturday Maryland was a three touchdown favorite. No doubt many of the Terp players were still reading their press clippings in the locker room before game time. When will athletes realize that each game is a new one and you don't win on past performances.

Don't get me wrong, the State victory included more than just an over-confident opponent being too cocky. The "Big Red" still had to play brilliant football before they attained their victory. Maryland expected an extensive aerial attack, but much to their surprise the Wolfpack limited their offense to a ground game. This was a huge factor in disrupting the Maryland defense.

Another major point in the Wolfpack victory was the outstanding play of the line, defensively. Led by Elmer Costa, Vince Bagonis and Tony Romanowsky, the line formed a miniature maginot line which was just too powerful for the Maryland backfield to crack. Mighty "Mo" Modzelewski didn't look too mighty against this fine defensive wall.

Another gratifying sight was State's ability to score, especially inside the 15 yard line. Many times it appeared that the Wolfpack could play great ball on 80 yards of the field, but when they got down near the opponent's goal line they became impotent. Paced by Ed Mooney, two touchdowns were made inside the twenty yard line on runs, so I guess that hypothesis has been exploded. That this scoring punch will continue for the remainder of the season and bring the Wolfpack some more victories is something only the future will reveal.

After four long weeks of this guessing game with football predictions, Jack Bowers, former sports editor, leads the hit 'n miss parade with a cool .785 pct. He calculates the results each week, so its easily seen why he's leading. Next week, if Bob Curran learns some long division, he's going to do the calculating. If he's leading after the next batch of predictions,

(Continued on Page 11)

## Wrestlers Make With Moaning & Groaning

If you heard a lot of moaning and groaning coming out of the gym either Monday or Tuesday night, don't bother checking around to see if some mad freshman had Dean Cloyd cornered there. It was just the wind-up of the campus wide wrestling tournament that was co-sponsored by the Athletic Dept. and the Dept. of Ind. and Rural Rec.

In a tournament open to all comers, there emerged a group of men that will be ready to thrill anybody that cares to lock arms or legs with them. Matches were staged in all classes, and trophies will be presented to the winning teams later on. The winners:

- 121 lb. class—Corn (Tucker) de-cisioned Prongay (SPE)
- 128 lb. class—Sideris (Syme) de-cisioned Ramsay (KA)
- 136 lb. class—Nobbs (Tucker) de-cisioned Strange (PiKA)
- 145 lb. class—Chamberlain (PiKA) de-cisioned Brevoort (Tucker)
- 155 lb. class—Taylor (Owen) pinned Rochelle (KA)
- 165 lb. class—Strong (Tucker) on forfeit from Townsend (Tucker)
- 175 lb. class—Craig (Sigma Pi) pinned Townsend (Tucker)
- Unlimited—Johnson (PiKA) pinned Glenn (Tucker)

## Syme Teams in Action

Syme No. 1 had a hand in all phases of intramurals this week. She won the football game from Turlington one by the score of 6 to 0. The game was hard fought all the way with a few breaks for Syme giving them the nod. Sterling defensive play by the line and defensive backfield held the Turlis to a single first down. Paul Sweat, Tucker and Neil Alexander were constantly breaking up plays before they could get started. Harold Anderson also sparkled at end keeping the other boys in the air through most of the game. Syme No. 1 took its first handball game from Bagwell No. 2 by forfeit, but lost her volleyball encounter to Verville by the scores of 15 to 7 and 15 to 9. Those Verville boys just can't be stopped on the gridiron or on the court. Ralph Jones, Paul Sweat, Harry Anderson and Neil Alexander were standouts for Syme.

Syme No. 2 won her football game from Turlington No. 2 the hard way. Syme made 5 first downs to Turlington's four. Bill Linder, a star back, made several beautiful passes to end Charles Osborne.

Syme No. 2 lost her volleyball game to West Haven by forfeit, but won the handball encounter from Turlington No. 2 by forfeit. Bill Windley and Herbert Paul looked like a powerful backbone for the handball team.

## Pack Plans Feast On Tech Gobblers

By DON PIVER

The Wolfpack can expect a determined battle from the winless Gobblers of Virginia Tech tomorrow night in Riddick Stadium when these two teams clash in a Southern Conference battle.

Although the Wolfpack will remember last week's 16-13 upset of the nationally prominent Terrapins of Maryland for a long time Coach Beattie Feathers' aggregation have no plans for resting on their laurels this week, when they tangle with the Gobblers. State played its greatest ball game of the year in upsetting Maryland and it's up to the coaching staff to keep the team at its peak. Feathers warned the Pack they'll be much in the same situation this week that we were in last week against Maryland and they're sure to play one of their best games of the year."

## Conference Standings

	W	L	T	Pct.	Pf.	Op.
W. Forest	4	0	0	1.000	116	7
W.&L.	4	0	0	1.000	120	25
Duke	3	0	0	1.000	62	0
Clemson	1	0	1	1.000	41	14
G.W.	3	1	0	.750	78	46
VMI	2	1	0	.667	63	48
N. Car.	1	1	0	.500	20	20
S. C.	1	1	1	.500	21	34
Furman	2	2	0	.500	65	75
W.&M.	1	2	0	.333	73	72
Citadel	1	2	0	.333	26	53
West. Va.	1	2	0	.333	64	54
STATE	1	3	0	.250	23	60
Maryland	0	1	0	.000	13	16
VPI	0	2	0	.000	7	96
Davidson	0	3	0	.000	45	98
Richmond	0	4	0	.000	21	156

This week's schedule:  
 Saturday—Wake Forest vs. Clemson; Davidson vs. Erskine; Duke vs. Maryland; Furman vs. Florida; North Carolina vs. William and Mary; VMI vs. Catawba; West Virginia vs. Virginia; Washington and Lee vs. Tennessee.  
 Saturday night—STATE vs. VPI. Richmond not scheduled.

## Gobblers Determined

Although the Gobblers are having a poor year and have been thoroughly mauled in their five losses they have never lacked in spirit and determination. Past history records some hotly contested battles between these two gridiron rivals. Last year's 14-13 win for State is just one example of the close games of the series. Also this year the Techmen have developed some top flight offensive stars who are expected to come into their own any time now. Halfback Sterling Wingo, a 9.9 second 100-yard dash man, is regarded as one of the fastest backs in the Southern Conference. Three-year veterans Bruce Fisher, Dick Goodman, and Jay Radloff provide the Gobblers with depth and experience.

## Costa To Lead Line

The Wolfpack forward wall, led by All-Southern tackle Elmer Costa, end Tony Romanowsky, and guards Walter Schacht and Vince Bagonis, stopped Maryland on the ground and the Terrapins had to

(Continued on Page 11)

### Welch Swamps Owen In 40-0 Football Win

Welch Dorm, moving almost at will, registered a 40-0 win over Owen No. 2. On the second play of the game, Twyford passed to Bagenore on the midfield stripe and he carried it all the way to the goal line. Choppel caught a pass for the extra point and Welch was leading seven nothing. A few minutes later, Chappel intercepted a pass on the Owen forty and, behind good blocking, went all the way for Welch's second touchdown. Hoffman caught a pass for the extra point, and at the half, Welch was leading 14-0. The rest of the game was a nightmare for the boys from Owen. As the final whistle blew the score read 40-0. Tekel, Price, Cooly, English, Banner and Cathey were standouts on a defense that held Owen to a single first down.

### State-VPI

(Continued from Page 9)

take to the wild blue yonder for the two scores last week. Another such performance may be required of these men to cope with VPI in this week's battle.

Kickoff time is 8:00 p.m., Saturday night at Riddick Stadium. Probable starting lineups:

State	VPI
Butler	LE Raugh
Hillman	LT Kwiatkowski
Schacht	LG Hargrove
Martin	C Nutter
Bagonis	RG Kuhn
Costa	RT Kosko
Romanowsky	RE Casto
Barkouskie	BB Fisher
Smith	WB Hiler
Mooney	TB Stortz
O'Rourke	FB Frederick

### West Haven Thumps Owen; Calverley Stars

The "old men" of Westhaven won their third consecutive victory, when they beat the hard-fighting Owen No. 2 team, 13 to 0.

The play was dominated throughout the first half by Westhaven, who made numerous gains through the middle of the Owen line. The first score came, when Chuck Kohlbecker ran around end for a TD. The extra point was good, and Westhaven led 7 to 0.

A little while later Westhaven really started rolling, and they scored their second touchdown, when big Fred Calverley made a sensational catch of a pass thrown by Kohlbecker.

Owen made only one scoring threat, when they penetrated to the Westhaven three yard line, but Westhaven dug in and held off the Freshmen.

Offensive stars for the Trailermen were Calverley, Kohlbecker and Buff. On defense Ed Wagner and Gresley were standouts.

### Sigma Chi's Edge Out Kappa Sigs on Downs

Lead by the outstanding defensive play of Pete Cloud, and a hard charging line, the Kappa Sigs held the air-minded Chi's to four first downs. This was sufficient margin for the "Boys in Gold" to rack up their fourth straight victory of the year without a defeat.

In the early minutes of the second quarter, Snooky Nunis gathered in a flat pass from Billy Ammons and raced thirty yards for what appeared to be a touchdown. The play was called back because of an offside penalty. The ground attack of both teams was slowed down considerably because of a muddy field.

Along with Ammons' effective pass plays which netted most of the yardage for last years' champs, lineman Jim Sartin and halfbacks Nunis and Crawford played a bang-up ball game.

With the majority of Kentucky's Olympic basketball team departed, there was close competition for top honors in the South. However, the Wildcats beat back Vanderbilt's determined bid for the Southeastern Conference title.

### Bagwell Beats Becton

Bagwell No. 2 emerged victorious last week in volleyball beating Becton No. 2. The boys from Bagwell No. 2 have won two straight while losing one in first round play. Tommy Moore has shown up exceptionally well in volleyball along with Bob Chadwick, Tom Edgerton, Henry James, Jim Murphy, and Jerry "Fatso" Applegate. Going into second round play Bagwell No. 2 expects to make its presence felt and avenge defeats of first round play.

Bagwell No. 1 has won one football game and two volleyball games to date with no defeats in either.

### Dormitory Schedule Football

Nov. 1—  
Becton 1 vs. Bagwell 2, F 1  
Turlington 1 vs. Bagwell 1, F 2

**TKE Overpowers PiKA 12-7 On Muddy Field**

A spirited TKE team, with revenge in their eyes for an earlier defeat, took to a rain-drenched field last Friday and defeated the PiKA's 12-7. The muddy field hampered the attack of both teams, but an intercepted pass and the fleet TKE pass receivers helped provide the margin of victory.

**Pettinelli Stars**

TKE kicked off, and on the third play from scrimmage back Gene Pettinelli intercepted a PiKA pass in the flat and raced 30 yards for the touchdown. The pass for the extra point was incomplete, and TKE led 6-0. TKE missed a scoring chance early in the second quarter when end Bob Phelps dropped a pass in back of the safety man, but Phelps redeemed himself a few moments later as he again outdistanced the safety man and gathered in a pass from Pettinelli and went all the way to score. Again the try for the extra point was stopped, and at the half the score stood TKE 12-PiKA 0.

PiKA scored in the third period on a long pass and a series of short passes and running plays. The touchdown was scored on a run through the center of the line. The pass for the extra point was good, and the score in the third period was TKE 12 PiKA 7.

The PiKA's tried vainly to score again, but the Teke's were determined not let victory slip from their grasp. The line, led by Freddy Miller, Bill Haas, Jack Bowers, and Dick Sly smothered all attempts, both running and passing, aimed at the pay dirt. A third TKE touchdown was nullified in the last period when Bob "the Gazelle" Phelps again got past the safety man, but caught the pass out of the end zone. The game ended with the final score TKE 12-PIKA 7. The victory put TKE in a tie for first place with PiKA.

**Berry Wins over Welch**

During the past week Berry Dorm continued its winning ways in Intramural participation. Although Berry is a small Dorm it is very large in the spirit to win.

There were no football games played during the past week, but Berry is looking forward to its game with Bagwell No. 1 on Oct. 25. By winning this game Berry can attain sole possession of first place in Section No. 3.

In handball, the Berry team composed of Hilary Daughtery, Glenn Eason, Bill Hall, Charles Keely, and Jim Rodgers won their first round match from Verville on forfeit.

In volleyball, Berry won from Welch in a close thrilling contest. The scores ran 13-15; 15-5; and 15-13.

**Spirit At State Bad? No! Students Show Varied Pep**

By PAUL FOGHT

Is it true that our student body has no school spirit? For years various campus hot-shots have echoed the cry that we represent the world's largest, most pitiful collection of lethargic stumble-bums.

**Pep Rallies**

The Pep Club, the cheerleaders, the band and several other campus organizations expend considerable effort to produce four or five pep rallies each fall. At least half of these rallies fall flat because the student body does not turn out to participate. Each year new cheers are introduced and are ignored by the ingrates who sit up in the stands.

It's a part of the formula. Each year we set out to emulate UNC and Duke. These are supposed to be schools with wonderful "school spirit." If we can't find enough coeds to put on the cheerleading squad we import them. It's the only way to get the boys to yell, they say. It is also the only way to compete with the other Big Four schools.

**Really Have Spirit?**

Do these other schools have such terrific spirit? Chapel Hill is alleged to spend a quarter of a million dollars a year to develop a winning football team. How much do they spend for the cheering squad that supports it? The cards employed in their magnificent half-

time displays cost money. And do you recall when a pep rally for the basketball team fell clean off the Hill?

Not everyone over at Duke is happy over their exuberant displays of "spirit." Clay Felkner, columnist for the *Duke Chronicle*, complained recently that there were so many cheers at Duke games that he couldn't see the game for the cheerleaders.

**Registered Disapproval**

The State student body exhibited the same opinion on several occasions during the past basketball season. The crowd registered strong disapproval several times when it felt that former head cheerleader Eubanks was over-eager.

School spirit, is not shown only by pep rallies and cheering sections. It is demonstrated by activities in which the individual takes an active part. This campus had the first intramural sports program in this state. It has grown in scope and is actively supported. We have more publications on this campus than on any other in the state. All of these are staffed and organized by students who must be interested in their school. The IDC and the IFC both made all-out efforts to prepare outstanding Homecoming displays. These were prepared by boys who put in long and late hours to show that they had an interest in their school.
