## "Spirit" Reported Recovering From Successful "Operation"

The fellow pictured above is Tommy Ward, a hustler in any man's language and the student who originated "Operation Spirit" and has been its guiding force and coordinator ever since. Tom is also Vice-president of Campus Government and as such has officially been named Chairman of the "Spirit" committee, an adventitious branch of C.G.'s Promotions Committee.

One of the main problems facing (Continued on Page 2)

### Campus Government Gives Cut System Careful Consideration

By EARL POPLIN

At the Campus Government meeting on January 6 several things of interest to the students came up.

The proposed plan to discard compulsory class attendance for juniors and seniors was discussed further. This plan would also provide for eight unexcused absences for freshmen and twelve for sophomores. Some of the members seemed to feel that the plan was asking for too much and that the faculty council would not approve it; however, it was decided to wait and see whether it was approved before revamping it.

The fact that the Consolidated University Day won't be held this term was brought to light. It was originally to have been held at the time of the Carolina-State basketball game that is to be played here on January 24. This date conflicted with the exams at W.C. and (Continued on Page 2)

### Advisory Committee For Campus Stores Meets For 2nd Session

The Campus Stores Advisory Committee held its scheduled meeting on the first Tuesday of each month on January 6 in Chancellor Harrelson's office at 1:00 p.m. Present were faculty committee members C. M. Asbill, Jr., H. B. Briggs, and Howard M. Nahikian, Chairman. Also present were Bob Horn, student committee member, J. G. Vann, Assistant Controller and Chancellor Harrelson.

Two student members of the committee were unable to attend the meeting, Jay Bryan and Bill Brittain, Secretary. Mr. Ivey, the Campus Stores Manager with whom the committee is supposed to meet was also unable to attend the meeting.

At the first meeting of the group in December, a decision was made by those assembled to encourage all those who wished to discuss the practices under which the Student Supply Stores were being operated to appear before the committee (Continued on Page 2)

## Engr's Ball In Coliseum Tonight

Christy Connor, vocalist who will appear with Claude Thornhill and his orchestra when the Engineer's Ball gets underway in the Coliseum on Friday night at 8:00 p.m.

Pictured here are the sponsors of the Engineers' Ball to be held in the William Neal Reynolds Coliseum on Friday night, from 8 until 12 midnight. The ball is presented annually by the Engineers' Council of State College. Music will be provided for this year's ball by Claude Thornhill and his orchestra. Shown here are the ball sponsors, with their escorts listed. Top row, left to right: Mrs. Robert D. James of Raleigh with her husband, who is vice president of the Engineers' Council and chairman of the ball; Harriette Anthony of Shelby with Robert F. Carlson of Greensboro, secretary of the council; and Edna Jacquelyn Steed of Raleigh with Charles Hasbrouck of Bladenboro, chairman of the publicity committee. Bottom row, left to right: Emily Fisher of Raleigh with C. Herman Mauney of Kings Mountain, council treasurer and floor committee chairman; Dolly Trusselle of Nashville with Jack Batchelor of Sharpsburg, chairman of the decorations committee; and Joan Rider of Forest City with Ernest W. Dobson of Forest City, president of the Engineers' Council.

## Student Parking Lots Readied

By BOB HORN

In an age where a great deal of emphasis has been placed on proper dress, ties of assorted colors, shapes and designs have become quite prominent. There are four-in-hands, painted, knit, silk, satin and bow ties, but they are strictly passé now that the new day-student parking area has been defined below the 1911 Building, for with the opening of this lot, the almost forgotten and unglamorous railroad tie has come into its own . . . and in an upright position at that.

Yes, a veritable forest of these sturdy ties now mark the boundaries of a newly opened haven for off-campus automobiles and other vehicles which State students pass off as such. The new parking lot, with an entrance just south of Tompkins Hall, will be restricted to off-campus students who have been given special parking permits which are easily distinguishable from those granted to on-campus vehicle owners. Jim Burnette, campus traffic officer, estimates that there are between 3,000 and 3,200 cars parking on the campus everyday. Since it will be Mr. Burnette's duty to route illegally parked cars from the new lot, he has stated that the students' cooperation will be solicited.

Said L. I. Parrish, Superintendent of Campus Maintenance, "For years the student's parking needs have been overlooked, but with the establishment of this new lot beside the Quonset huts an attempt has been made to meet the needs." He went on to say that as it becomes available, space for more student parking lots will be allocated.

J. McRee Smith, newly named Director of the Division of Maintenance and Operation offered several noteworthy comments pertaining to the allocation of student parking space. Mr. Smith, formerly known as the College Engineer, explained that no matter how extensive the parking accommodations became, they could not be expected to handle students living on-campus who persist in the notion that they

should be allowed to drive from class to class. As an example Jim Burnette told of having tagged a car illegally parked in front of Riddick Hall bearing a student parking permit which identified the owner as one who was living in the Alexander-Turlington area . . . a distance of a few hundred yards from Riddick Hall. The ticket was given on a clear day, thus ruling out the oft-used inclement weather excuse. Mr. Smith pointed out that other parking facilities are being provided for students behind Owen and Tucker dorms, behind the Textile Building and to the west of Polk Hall a temporary lot is being established.

As these expanded facilities are being made available to the local motorists on the campus other facilities in adjacent areas, it has been indicated, may be closed to students. Officials from the City of Raleigh are reviewing plans to beautify and relandscape Pullen Park. This operation may involve the abandonment of the Park commission's laissez-faire policy as it affects indiscriminant student parking near the Armory in the northern sector of Pullen Park.

The lot adjacent to the Quonsets has not been surfaced, and will be repaired only when the need for it becomes apparent, but the fact that it was not cindered apparently did not discourage space-starved motorists from utilizing the area as soon as it was opened. It is expected that the bumper brigade will occupy the area with great speed and dispatch.

## Parade Magazine Features Thesis

**What's Better Than Money? Title Of Article Based On Thesis By Mrs. Vera Smith**

*Parade Magazine*, which has a circulation in excess of 5,000,000 and an estimated 12,000,000 readers, will tell the story of a research study conducted here in its issue of Sunday, January 11.

"What's Better Than Money?" will be the subject of the *Parade* article, written by Karl Kohrs, a staff writer.

The article deals with a project on "job prestige" carried out by Mrs. Vera Merritt Smith of Raleigh, a graduate student, State College. Results of Mrs. Smith's study comprised her thesis for a master of science degree in industrial psychology at State College. She took her training under Dr. Key L. Barkley, professor of psychology at the college, who is mentioned in the *Parade* story.

In his article, Kohrs reviews a year's work by Mrs. Smith, who sought the help of over 400 Raleigh representatives of various trades and professions in the rating of a wide range of jobs. The information and opinions which they gave her formed the basis of her thesis.

The conclusion which Mrs. Smith drew from her interviews, according to the *Parade* feature, is that people rate job prestige or social standing ahead of wages or salaries in choosing a trade or profession. Security, Kohrs reports, is second, and money third in job appraisal.

*Parade* plans to devote two pages to the illustrated article. Kohrs visited the State College campus early in December to collect data for the story.

## WARD—

(Continued from Page 1)  
Tom has been the proposed establishment of a clear organizational set up under which the people connected with "Operation" could function most effectively. In an effort to streamline this organization, the following students have been named to handle their respective phases of the promotion scheme. Also listed are the student's phone numbers.

Cheerleaders—Don Bullock—2-0268  
Alumni—Jesse Capel—3-4522  
Music—Ronnie Mims—2-0268  
Faculty—Louis Hines—9-119  
Publicity—Bob Horn—2-4732  
Student Body—Bob Styres—3-4522  
Coordinator of:

YMCA—Bill Fulcher—7-184  
IDC—Floyd Sweet—4-5211 Ext. 348

IFC—Leroy Jackson—6-451  
Pro. Org.—Frank Winecoff—3-4522  
Hon. Org.—Frank Goode—9-531  
Coll. Union—Dick Pitts—3-4808

By publicizing the names of these men Tommy Ward hopes to encourage students with ideas relating to the promotion of the spirit campaign to contact those listed for the purpose of conveying the ideas to them. This will insure their proper channeling and final disposition. Any and all ideas are welcomed by the committeemen, said the C. G. Veep.

"Due to" always modifies a noun and not a verb. Therefore, as a rule, no sentence should begin with due to. Do not say, "He succeeded due to his intelligence." Say, "His success was due to his intelligence."

## CAMPUS STORES—

(Continued from Page 1)  
where they would be heard. Since no one took advantage of this opportunity on Tuesday, the members present decided to invite Mr. Ivey at the next meeting to outline the history and evolution of the Student Supply Stores in order that they would be better prepared to discuss issues which might arise in later sessions.

Mr. Vann offered several percentage figures which showed that to date gross sales in the Supply Stores have risen 8 per cent, whereas operating expenses have gone up 14 per cent. The increase in operating expenses, said Mr. Vann, can be attributed mainly to the hiring of several new employees who are associated with the operation of Shuttle Inn in the Textile Building. Mr. Vann continued by stating that the profits represent approximately 7 or 8 per cent of the Stores gross sales.

A brief discussion was held dealing with the manner in which used books are turned in at the Supply Store and the compensation received. Also noted were the methods by which books are ordered for proposed courses, particularly those which are being offered for the first

time. Both issues will be looked into later when the entire body is present.

The next meeting is scheduled for Tuesday, February 3, again in Chancellor Harrelson's office at 1:00 p.m. The invitation to those wishing to appear before the committee is still in effect.

## CAMPUS GOVERNMENT—

(Continued from Page 1)  
it was agreed that Consolidated University Day would be a flop without the W.C. girls. Plans are being made to have a Consolidated University Day in the Spring quarter.

As a result of the financial beating the school took after totaling gate receipts at the football games there have been rumors to the effect that the gridiron sport may be dropped. Several members of the council voiced the opinion that this might be a good idea unless more scholarships were awarded to native North Carolinians. Past experience has shown that the present system does not work. Certainly boys from this state would, it was stated, have more interest in the school, its prestige, and standards. Examples in which good boys from this state have been overlooked were cited.

## WORRIED BECAUSE YOU'RE UNPOPULAR?

Think back to your last party . . . who had the best time? The good dancers, didn't they? Don't let poor dancing rob you of popularity. Come to Arthur Murray's and find out how quick and easy it is to be a sought-after partner. Arthur Murray's exclusive teaching methods can bring out

your dormant ability in just one lesson. So don't wait, come in now. Studios are open from 10 a.m. to 10 p.m.

## Saturday's Heroes

Since practically everyone affiliated with the Greater University has gone out of his way to take a stand on the Saturday Class Issue at Carolina, **The Technician** will follow suite.

The Carolinian said it, and **The Technician** agrees that, . . . of course our Chapel Hill brethren should not be forced to attend Saturday classes.

Over the years, State students have come to realize the merits of an equitable class distribution which extends the spread to Saturday, but then, this is a highly specialized institution. Critics of class scheduling practices here have frequently pointed out that all work and no play will tend to make the Jacks at State dull boys; however, several innovations in the curriculums and the growth of the College Union are rendering this criticism less and less applicable.

The trend is towards educating the "well-rounded" student. Take the engineers. The December 5 **Technician** carried an article entitled "New Curriculum Diversifies Engineers." The introductory paragraphs had this to say:

*A popular notion about the engineer is that he knows his math and mechanics all right, but when it comes to politics or poetry he knows little—and cares even less. This picture of the engineer, however, will not fit the recent graduate or current student of the School of Engineering at North Carolina State College. He is, of course, thoroughly trained in the fundamentals of engineering, but at the same time he has completed a carefully planned sequence of studies in the humanities and social sciences which has run parallel to his technical courses during his four years at college.*

## Building Better Spirit

Long before the first issue of **The Technician** was released in September, the Editor let it be known that one of his primary objectives was to promote a better spirit at State College. Since the mousetrap field was fairly well saturated, one major means to this end was thought to be the building of a better newspaper; however, that's off the subject.

It follows, therefore, that almost from the moment of its conception, "Operation Spirit" was sized upon as a means to further achieve **The Technician's** foremost aim. Immediately, full support for the movement was pledged, and the instigators and key men of "Operation" have been given to understand that the facilities of this paper are at their disposal.

*The dean of engineering is convinced that the best technical schools must teach their students not only how to make a living, but also how to make life worth living.*

Evidently the reigning philosophy at the engineering school is paying off, for the registrar at State tallied in the largest freshman class in the history of the College during the fall term. This group was predominantly comprised of engineering students.

On the other hand, Carolina's enrollment figures for the fall freshman class showed a disproportionate increase which set university officials to wondering. Perhaps a reasonable explanation can be found though. When prospective Carolina freshmen heard the rumors about the initiation of a six-day class week, is it small wonder that they would have reconsidered and then sought other places in which to feather their academic nests. They cannot be blamed either, for the five-day class week is one of Carolina's strongest lures.

Perhaps this fact helps to explain why many State students transfer to Carolina temporarily in an effort to pick up quality points—in preparation for re-entering State. Add to this the innumerable students who have received degrees from Carolina in liberal arts and have them trekked to State only to re-run the entire academic gamut for the purpose of securing a second degree in a bread-winning profession.

As it serves in the former capacity, Carolina might be thought of as resembling an academic waiting room. After the young man has experienced the birth of a notion as to exactly what he wants to do, he vacates the premises (Carolina) and makes way for the next, hesitant, expectant youth.

How long will it go on you say? Who knows?

One individual, one staff, one entire publicity agency cannot by itself conspire to make a project with the magnitude of "Operation Spirit" a success. Everyone has got to have a hand in it. Everyone must feel that he "belongs" in the scheme of things in order for the project to be regarded as a genuine, collectively-supported success.

So it is that **The Technician**, in earnest, urges every student, every faculty and staff member, and every friend and alumnus of State College to lend maximum support to this project. You can be assured that the efforts will prove rewarding. They already are. Just watch the basketball team's national rating climb. That is your indicator . . . now get out and get with it.

## Spirit Sags at "Old Miss"

Editor's note:

State is not the only college which has been having "Spirit" trouble. There follows an account of the conditions at Mississippi State which closely parallel those here in West Raleigh.

The paragraph which attempts to define spirit is worth noting, for the editor of **THE MISSISSIPPIAN** was dealing with a mighty elusive subject. Who knows—perhaps the establishment of the new student parking lot could conceivably boost the pervading spirit more than any other one factor at State.

At any rate, it is to the credit of the State College students that they did not forget their team in defeat, but rather met them as after the Wake Forest game with one of the most spirited demonstrations ever witnessed on this campus.

Without further delay then, here is what Larry Franck had to say in a recent editorial:

**SCHOOL SPIRIT NEEDS A BOLSTER**  
 . . . Ole Miss Famous for Its School Spirit But Welcome for Players Was Lacking

For many years the students of this University have been known across the South for the intensity of their school spirit. The school spirit exhibited by the student body has, in the past, become practically the trademark of every Ole Miss student, and the term itself has become almost synonymous with the very name of the school.

Just what that spirit is, we are unable to say. It is an intangible thing, a living, growing feeling that envelops and encircles a student from the moment he walks on the campus. It is a feeling that takes hold of you from the start and grows and expands with you as you become more familiar with the intricacies of campus life.

The basis of that school spirit lies in the freshmen. It they are not embodied with the full flavor of that spirit in their earliest days here, they can never learn to fully appreciate Ole Miss and all that it stands for.

In the past it has seemed that the freshmen class has accepted that spirit automatically. They have observed the upperclassmen and from them have learned what true school spirit means.

But this year that spirit has been somewhat slow in developing. For some reason unknown to us, the spark has not been there. The entire student body, and the freshmen in particular, have been rather lackadaisical in their attitude toward school spirit.

That is a sad situation. It is a sad situation because the success of almost every endeavor undertaken on the campus depends on the unflinching support of the entire student body.

Where the blame lies is hard to say.

Perhaps it is with the upperclassmen for not giving to the freshmen the proper example, for not showing the proper spirit themselves and thereby not leading the freshmen in the proper direction.

We cite the case of the "welcome home" rally for the football team last week. The team had just been held to a tie by an underdog Kentucky team. That tie must certainly have put a damper on their spirits.

To bolster their spirit, a rally was planned. The students were asked to turn out when the team returned and to give them a rousing welcome.

But, the rally fell through. When the team came back to the campus, there were no more than a handful of students on hand to greet them. The football team must have felt that we had deserted them, that, because of the tie game, we were withdrawing our support.

We are now in the midst of football season, and that is a time when school spirit should be at its peak. Football is just one phase of campus activity, but if the spirit is

## Staff Shake-Up Finds Drum Out, Meekins In

The **Technician's** masthead was considerably altered with the publication of the December 12 issue of the paper. This was done as Roger Meekins replaced Renn Drum as Managing Editor, the second most important editorial post on **The Technician**. Meekins, a junior registered in the School of Education, from Manteo, was formerly the News Editor. The vacancy he left after the major shift was filled by George Obenshain who had recently become the Inquiring Reporter. Obenshain is a junior in Chemical Engineering from Bristol, Tenn.

The Editor-in-chief, Bob Horn, has announced that Drum will no longer be associated with **The Technician** in any capacity. He further stated that the new staff alignment should insure the continued publication of a newspaper which strives to be the best ever offered at State College.

## Fees Breakdown Shows Where The Money Goes

In answer to many requests, **THE TECHNICIAN** obtained and now lists the fees which every student is obliged to pay at registration time. A portion of the money derived is allocated to the organizations during each term.

**PER STUDENT DISTRIBUTION OF ACTIVITIES FEE COLLECTED PER YEAR:**

|                 |         |
|-----------------|---------|
| AGROMECK        | \$ 3.40 |
| TECHNICIAN      | \$ 1.15 |
| WVWP            | \$ .65  |
| TOWER           | \$ .25  |
| ACTIVITIES      | \$ 1.00 |
| CAMPUS GOV'T    | \$ .65  |
| COLLEGE UNION   | \$15.00 |
| PHYSICAL ED.    | \$ 9.00 |
| INTRAMURAL ATH. | \$ 1.50 |
| Total           | \$33.60 |

lacking during this season, it certainly shows no promise of increasing as the year wears on.

We've got another game this week, and a tough one. If our team is to come through the way we want them to, then we must be there to support them. We must be there, at the game, to cheer them on and to show them we are behind them all the way.

It's up to all of us. Not just the freshmen, and not just the upperclassmen, but each and every student must do his part toward regaining that school spirit for which we have so long been noted.—Franck

**"Booing" Unhealthy**

There manifests itself at game time in the Coliseum an unhealthy condition which detracts from both the over-all game enjoyment, and the effectiveness of "Operation Spirit"—not to mention the detrimental effect it has on the players and the referees.

Of course the allusion is to booing and the preponderance of it. Under certain circumstances, the boo can be accepted as a legitimately lodged exhibition of the spectator's dissatisfaction with the general run of things, but lately, the booing has threatened to drown out the cheering. This must not happen. How much easier it is to cheer anyway.

So, from now on, let's keep the booing to a minimum and concentrate an all-out effort on cheering. We are sure that the players would like to see (or hear) evidence that you are all cooperating in this matter.

**ALMA MATER**

Fairest jewel, dear State College,  
Hail to thee, thou art divine,  
For the spirit of power and knowledge  
Is embosomed in thy shrine.  
Thou who fans to flaming rays,  
As we tread life's rocky road,  
The ambitious spark of youthful days,  
Which greatly helps to bear our load.  
Thou who in the darkest hour  
Sends forth beaming rays of light  
Which shall always be a power,  
Arming each for life's great fight.  
Thou who teaches greater things  
In this maddened world of strife;  
Let each one your praises sing,  
And strive to live a useful life.  
Then hail to thee forever more,  
For we know thou art divine,  
And the spirit we adore  
Is embodied in thy shrine.

J. D. Miller, '21.

**\$31,000 Given For Textile Research**

**Southern Textile Mills Give Money To Aid Research On Waste In Cotton Carding**

In a move unprecedented in applied textile research, six Southern textile mills have joined in sponsorship of a \$31,000 research project on reducing waste in cotton carding, at the School of Textiles, it was announced today by William A. Newell, research coordinator of the school.

The School of Textiles did not release the list of mills contributing to the fund although it was indicated that the list includes "some of the largest and most progressive mills in the South."

Newell said the project, to be started immediately, is based on "a by-product result of the recent three-year research project on nep

reduction carried out at the School of Textiles."

Newell further stated that "the textile industry as a whole owed a great tribute to the six mills sponsoring the research project as they have agreed to the public release of the final report on the research some time after its completion."

The School of Textiles at State College requested the release of the information developed because of its status as a state institution set up to further the progress and prosperity of the textile industry. It is estimated that the time required to complete the work will be two years.

The waste-reduction research project will be directed by J. F. Bogdan, director of processing research of the School of Textiles, North Carolina State College.

**Alpha Zeta**

The Alpha Zeta student book exchange, located in Room 140, 1911 Building, is now open and will be open until January 17 from 8:30 a.m. til 5 p.m. Any student desiring to sell books may bring them in and name his own price. Also, a considerable stock of used books is now on sale, some at prices considerably lower than at the school book store.

**State Men Listed Holiday Fatalities**

As the annual holiday accident figures began to mount, the names of several State College students were added to the fatality lists. Larkin Ratchford of Brevard lost his life as the result of a head-on collision involving the Ratchford car and another vehicle in Georgia. Returning from a Florida vacation

Two of the players of LOVE'S LABOUR'S LOST, current touring attraction of Players Inc., national repertory company, which will appear in Pullen Hall on Friday, January 9 at 8:30.

Conceived in the tradition of the old Vic and the Abbey Theater, Players Inc. has established itself as an excellent repertory company. Critics and public alike have acclaimed Players Inc. for its unswerving devotion to high professional standards and its emphasis upon plays of quality.

Students and their dates will be admitted on presentation of their registration cards. Non-Union members must pay \$1.50 per person.

An opportunity for the audience to meet the artists will be provided as the College Union Social Committee has planned a coffee hour after the show. Peele Lounge is the place.

trip, Ratchford and his parents all perished while traveling homeward. The young student was a junior in Construction Engineering.

State students were also served a grim reminder that the Korean War is not too far removed from everyday college life. Two former captains of the State wrestling team were counted as casualties, one in combat, the other in an airplane crash in Alaska. Odus Rucker, Jr., was hit by a Communist shell in September and died in Walter Reed Hospital in Washington about two weeks ago. Reginald Buie was among those who perished when an Army transport plane went down in Alaska just before the holidays. Both men were married. Rucker was the father of a three-year old daughter, Buie was an expectant father. Both were second lieutenants.

**"A powerful force in these difficult times"**

says **FRANKLIN D. MURPHY**  
Chancellor, University of Kansas

"In these days when much is said about 'adult education,' we too often forget that a great deal of adult education is daily carried on by such instruments of public information as The Reader's Digest. In my judgment, The Reader's Digest is one of the powerful and useful forces shaping the thinking of our people in these difficult times."

The articles in each issue of The Reader's Digest cover a broad range of subjects: from travel and politics to science and history, from humor and personal inspiration to headline news. Forty or more articles and a host of short subjects, carefully chosen from hundreds of publications, bring Digest readers more varied and more concentrated information than can be found in any other magazine.

**Benjamin A. Farthing Wins Furniture Award**

Furniture Club of America's \$400 Scholarship Given To Watauga Veteran; Judged On Many Points

Benjamin A. Farthing of Valle Crucis, Watauga County, a senior in engineering at North Carolina State College, has been awarded a \$400 scholarship by the Furniture Club of America for the current year, Dr. J. H. Lampe, dean of engineering, has announced.

Administered through the Furniture Foundation, Inc., of the Southern Furniture Manufacturers Association, the grant, Dean Lampe said, is intended to encourage further interest and study in the field of furniture manufacture and management.

Farthing, a senior in the furniture manufacturing and management curriculum, was awarded the grant on the basis of his scholastic record, his participation in extra-curricular activities, financial need, and industrial experience obtained during summer employment.

He has been largely self-supporting during his college studies, working during vacations and part-time during the school year. He has worked one summer for the Bernhardt Furniture Company in Lenoir, N. C., and one summer for the Empire Furniture Company of Johnson City, Tenn.

A veteran of World War II, Farthing is a member of the Organized Reserve of the U. S. Navy. He is active in the Furniture Club and the State College Student Chapter of the Forest Products Research Society. He plans a career in the furniture industry following his graduation next June.

**Tau Beta Pi Society Elects New Members**

Seventeen Top-Ranking Students Elected To Membership In Honor Society; Officials Participate

The State College Chapter of Tau Beta Pi, national engineering honor society, has elected 17 top-ranking students in the School of Engineering as new members.

Membership in Tau Beta Pi is regarded as one of the highest honors open to students in engineering colleges and universities. New members are named on the basis of top-level academic achievement and personal character.

College officials participating in the initiation rites included Chancellor J. W. Harrelson of State College, Dean of Students E. L. Cloyd, Dean J. H. Lampe of the School of Engineering, Former Engineering Dean L. L. Vaughan, Dr. F. W. Lancaster of the Physics Department, and Dr. G. W. Smith, head of the Engineering Mechanics Department.

Chancellor Harrelson, Dean Cloyd, and Professor Vaughan are charter members of the State College Chapter of Tau Beta Pi and were primarily responsible for the granting of a charter to the local chapter in April, 1925.

The list of new members follows: R. E. Deitrick, Winston-Salem; C. A. Dickens, Mount Gilead; T. F. Haggai, Hendersonville; F. A.

Hargrove, Scotia, N. Y.; R. M. Raleigh; W. R. Wisseman, Greensboro; H. R. Boyette, Hamlet; W. C. Winston-Salem; E. D. Fox, Nashville, Tenn.; A. C. Henderson, J. L. Michal, Waynesville.

**CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.**

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the beginning—

your opportunities for advancement are unlimited.

**ARE YOU ELIGIBLE?**

To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

**YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER**

If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

**New Aviation Cadet Training Classes Begin Every Few Weeks!**

**HERE'S WHAT TO DO:**

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination.
3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

**Where to get more details:** Visit your nearest Air Force Base or Air Force Recruiting Officer. OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.

## Development Council To Meet January 24

The Development Council of State College will meet in Williams Hall at the college on Saturday, January 24, at 2 p.m., Chairman E. Y. Floyd of Raleigh has announced.

A review of progress reports of various phases of the development program will be made during the meeting.

In addition, Dean James H. Hilton and his associates in the School of Agriculture will describe pro-

grams of teaching, research, and extension now underway in the school.

"This should be," said Chairman Floyd, "a most interesting and informative occasion as we recognize that we have at our State College one of the great agricultural schools in the country."

Following the council's business session and the report from the college's School of Agriculture, the members of the organization will attend a dinner in the college dining hall on Saturday, January 24, at 5:30 p.m. and will later go to the Coliseum to see the basketball game between UNC and State College.

## State Students Back Their Team

Win or lose, the State students were behind the Wolfpack all the way. Here is Floyd Sweet (right arrow) directing cheers as he led a group of students who came out to welcome the team after their Wake Forest encounter in December. The group ended up in the Coliseum where they were addressed by Vic Bubas and thanked for their interest. On this particular evening Floyd Sweet had organized a motorcade to Wake Forest before the game. He was assisted by Bill Collins (left arrow). (Photo by Aubrey Pope)

# MASTER OF SCIENCE DEGREES

Hughes cooperative plan for

**Purpose** TO ASSIST outstanding graduates in obtaining their Master of Science Degrees while employed in industry and making significant contributions to important military work.

**Eligibility** June 1953 college graduates and members of the armed services being honorably discharged prior to September, 1953, holding degrees in the following fields:

ELECTRICAL ENGINEERING  
PHYSICS  
MECHANICAL ENGINEERING

Those chosen to participate in this plan will be from the upper portion of their graduating classes and will have evidenced outstanding ability. They must also have displayed some degree of creative ability and possess personality traits enabling them to work well with others.

**Citizenship** Applicants must be United States citizens, and awards will be contingent upon obtaining appropriate security clearance, as work at the Hughes Research and Development Laboratories may be related to National Defense projects.

**Universities** Candidates for Master of Science Degrees must meet the entrance requirements for advanced study at the University of California at Los Angeles or the University of Southern California.

**Program** Under this Cooperative Plan, commencing June 1953, participants will follow this schedule of employment at Hughes:  
FULL TIME—from June, 1953 to Sept., 1953.  
HALF TIME—from Sept., 1953 to June, 1954.  
FULL TIME—from June, 1954 to Sept., 1954.  
HALF TIME—from Sept., 1954 to June, 1955.  
Recipients will earn five-eighths of a normal salary each year and attend a

university half time during regular sessions working on their Master's Degree.

The salary will be commensurate with the individual's ability and experience, and will reflect the average in the electronics industry. Salary growth will be on the same basis as for full-time members of the engineering staff. In addition, the individuals will be eligible for health, accident, and life insurance benefits, as well as other benefits accruing to full-time members.

For those residing outside of the Southern California area, actual travel and moving expenses will be allowed up to ten per cent of the full starting annual salary.

Tuition, admission fee, and required books at either the University of California at Los Angeles or the University of Southern California, covering the required number of units necessary to obtain a Master's Degree, will be provided by Hughes Research and Development Laboratories.

Approximately one hundred Cooperative Awards are made each year, if sufficient qualified candidates present themselves.

Candidates will be selected by the Committee for Graduate Study of the Hughes Research and Development Laboratories.

Application forms should be obtained prior to February 15, 1953. Completed applications accompanied by up-to-date grade transcripts must be returned not later than February 28, 1953. Selections will be made during the month of March.

## Consolidated University Institute Of Statistics Is Granted \$606,000

President Gordon Gray has announced that financial grants totaling \$606,000 have been made to the Institute of Statistics of the Consolidated University of North Carolina, which includes departments at North Carolina State College in Raleigh and the University in Chapel Hill.

The grants, the University president explained, will enable the Institute of Statistics, which already is regarded as a world center of statistical research and training, to develop a long-range program of work.

President Gray said the grants consisted of \$250,000 from the General Education Board, \$170,000 from the Rockefeller Foundation, and \$186,000 from the Federal Defense Agencies. The latter grant was made in five contracts for research work to be conducted by the Institute of Statistics.

"The University is gratified," President Gray said, "not only to receive this substantial amount of money, but also to have the outstanding work of its Institute of Statistics given this recognition."

The General Education Board at its last meeting granted \$250,000 to be matched in five years by the University from other sources, "to establish a stabilizing fund of \$500,000 to be used as needs and opportunities arise for the support of basic research in statistics."

In addition, the Rockefeller Foundation this month allocated \$170,000 to the Institute of Statistics as further assistance to continue a program in quantitative genetics.

Previously, the Foundation had provided \$59,500 to the Institute of Statistics which was used to supplement the Agricultural Experiment Station funds, enabling the initiation and development of a program of research in quantitative genetics. These funds were appropriated during the period from March, 1949, to June, 1952.

The Institute of Statistics of the

Consolidated University of North Carolina maintains its headquarters in Patterson Hall at State College, where Director Cox has her office. It is composed of the Departments of Statistics at State College and at Chapel Hill.

Professor Cox, outlining the Institute's program, said that its functions are "(1) coordinating the teaching programs in statistics between campuses, (2) promoting research and consulting services in statistics, (3) engaging in cooperative research to advance the use of statistical methods, and (4) administering the Institute of Statistics budget, including grants and contracts."

"The Institute has secured funds from sources other than State appropriation, especially for research and consultant work. In the last 12 years, one million dollars, out of a two million dollar expenditure in this program, has come from foundation grants and research or defense contracts."

The institute now consists of 26 faculty members, two resident associates, nine assistant statisticians, 23 computers and secretaries, 25 graduate assistants and 29 other graduate students majoring in statistics, she said. Under the Technical Assistance Program of the Government, 26 foreign students from 12 countries are being trained in statistics at State College, she added.

"The need for consulting services was the primary reason for setting up the Department of Statistics at State College," Professor Cox explained. "Because of the increased demands for their services, the consultants have had little time for the development of new theory based on actual problems."

Grant of \$250,000 will be used to focus research on the vital problems that have been encountered by these consultants, who will concentrate on methodological research, promoting additional pure research."

### Sixteen Seniors Go Phi Kappa Phi

National Scholastic Honor Society Elects Seniors On High Academic Attainments

Sixteen top-ranking seniors at State College have been elected to membership in the college chapter of Phi Kappa Phi, national scholastic honor society.

The list of new members was announced today by Prof. F. W. Cook, president of the chapter, who said all the seniors in the group have made outstanding academic records.

The new members, their home towns, and the courses in which they are majoring at State College:

Harry Geddie Beard, Route 1, Fayetteville, agricultural education; William Edward Berner, Swannanoa, textiles; Robert Willis Brittain, Jr., Brevard, agricultural engineering; James Ramsey Buchanan, Jr., Sylva, chemical engineering; Jack Wertz Burnette, Evansville, Ind., textile chemistry; Aubrey Lolan Calton, Jr., Lattimore, electrical engineering; Jack Calvin Coss, Anaheim, Calif., civil engineering.

John Robert Duffett, Laurinburg, textiles; Warren Emmett Dungan, Chester, W. Va., nuclear engineering; Clayton Reavis Eldredge, San Angelo, Texas, nuclear engineering; Dewey Wakefield Hennessee, Route 2, Bostic, animal industry; Demetrios S. Meletiou, Greensboro, mechanical engineering; James Martin Norman, III, Leaksville, chemical engineering; William Tally Scarborough, Route 1, Harrisville, Miss., nuclear engineering; Fred Murphey Taylor, Jr., Kinston, architecture; and Aubrey Bruce Williams, Route 1, Cleveland, agricultural economics.

"Don't" is the contraction of do not. It should never be used with he, she or it. You do not say, "He don't believe me."

### State Graduate In 'Operation Sea Scape'

Maxwell R. Thurman, a senior at North Carolina State College, was one of 21 Army ROTC cadets from southern colleges and universities observing the recent "Operation Sea Scape" at Litte Creek, Va.

He represented State College during the joint Army-Navy amphibious exercise. An amphibious assault against an "enemy-held" beach at the U. S. Naval Amphibious Base climaxed the exercise, which included Army, Navy and Marine Corps personnel.

Thurman, a leading cadet in the State College Army ROTC Regiment, is the son of Royster Thurman of High Point.

### First 1953 Meeting Held By Ag Club

The first meeting of the Ag Club for the Winter term was held Tuesday night in 118 Withers Hall. During this meeting, Bill Collins was appointed program chairman and Jack Snow was appointed vice-program chairman.

Upon completion of the business, the club was entertained by a group of girls, the Blue "J's" of Cary. They sang a number of songs and the meeting was adjourned until the next meeting Tuesday night at seven o'clock.

### 'Passport To Pimlico' Student Union Movie

British Comedy Features Many Good English Stars; Good, Subtle Humor Characteristic of Film

"Passport To Pimlico," a rollicking British comedy, will be the next film on the College Union's winter schedule.

Making fun of themselves with a deft art that no one else has succeeded in equaling, the British have blended some of their richest satire into this movie.

The trouble starts when an exploding bomb uncovers a fifteenth century manuscript that officially delivered a section of London known as Pimlico over to the dukes of Burgundy. Upon reading the manuscript, the citizens of this borough immediately secede from the commonwealth and set up a little government of their own, proclaiming their independence by tearing up their ration books and setting up their own foreign trade bureau. England responds by cutting off the water and electric power of the Lilliputhian empire, adding to the prankish confusion.

Starring Stanley Holloway, Hermiore Beddley, and Margaret Rutherford, the movie also features Naunton Wayne and Basil Radford, as the Foreign and Home Office officials who are presented with the problem of clearing up the situation.

Frosh: Should one hyphenate the word head-ache?

Prof: Well, yes, if it's a splitting head-ache.

### Textile Visitors Have Guide Service

Visitors to the School of Textiles now are given a look at the complex processes underlying America's mighty textile industry.

Tours through the building, where a broad range of textile training and research is underway, are conducted by a new guide service recently established by the student chapter of Phi Psi, national textile fraternity.

The college's School of Textiles is a favorite stopping place for textile industry representatives, teachers, fashion-wise women, and tourist traveling U. S. Highway Number 1, which passes the building.

Through the new voluntary guide service, visitors now get a complete tour of the building, facts on how yarns and fabrics are made, and answers to textile questions.

Either . . . or, neither . . . nor. "Or" is used with "either," "nor" is used with "neither." Either red or blue, neither red nor blue.

### Views and Previews

JERRY ARMSTRONG, Sports Editor

#### Casemen Explode During Holidays

While most of State's students were home enjoying the Christmas turkey and the New Year parties the Pack was rampaging around the country taking some very important conference and non-conference games. They first traveled to Washington for an important tilt with strong George Washington and turned in one of their most impressive victories 75 to 68.

From there they returned to the Coliseum to meet Texas Tech, who last year nosed the pack out in one of the hottest battles of the year, but they were no match for the sharp shooting of Bobby Speight and Dave Gotkin as they easily took it 80 to 55.

Then the big day arrived in Madison Square Garden, the Pack faced the Red Men of St. Johns and had the roughest day of the season as they could never get their offense started and were over-powered by the Vincentians 67 to 56.

They returned to the Coliseum with revenge in their souls and took most of it out of the hapless cagers from Dartmouth, who didn't seem to know whether they were coming or going, as the Casemen hit from everywhere to take their most one-sided victory 96 to 50.

During the New Year's week-end the team traveled to Cincinnati to show the Ohioians what the Dixie Classic champions were like as they manipulated an offense that wouldn't be stopped to roll over them 77 to 72.

#### A Message from Brigham Young

After the Classic was over Ed Storey received a letter which seems to be one of the best examples of sportsmanship possible. This is a letter written by a Brigham Young student, Gordon Thomas.

Please let me take this opportunity to thank you. I express not only the gratitude of myself, but of all the other Brigham Young University students with whom I have discussed the Dixie Classic Tournament.

We appreciated the opportunity to participate in the Classic, and the gracious and generous hospitality which you extended to our team and their aids. We who listened to the games over the radio heard a great deal about the sincere friendliness and hospitality with which you welcomed our boys.

We also heard much about the extremely fair officiating at all of the games, and for this we are deeply grateful also.

Sincerely yours,  
Gordon Thomas

#### Track Team Leaves For Washington

Coach Tom Fitzgibbons takes his boys tomorrow to one of the most outstanding and colorful indoor track meets in the nation, the Evening Star Meet in Washington, D. C., at the National Guard Armory.

This is purely an invitational meet and assembles the greatest track stars in the nation today, to compete against each other.

In tomorrow's meet Buddy Wright, the speedster from Dallas,

will make his debut for the Pack and Coach Fitz is expecting him to be one of the top contenders for the dash events. He will compete in all three of the dash events, the 70, 80, and 100-yard event.

Clyde Garrison will run the one-mile event and is rated as one of the brightest contenders. Also Buz Sawyer is expected to compete in the two-mile event.

The two-mile relay team will be composed of Clyde Garrison, Buz

### Packmen Favored In Rival Battle

Duke's basketball Blue Devils hope to be on the rebound tomorrow night when they tangle with the Classic Champions at Duke.

The Devils, who won four of their first five games, had a disastrous Christmas holiday mark, losing four of five games played and balancing the record in the first 10 games at five wins and five losses.

It was expected that the club would be less potent than last year's club after the completion of the career of the brilliant Dick Groat last year, but with a well-balanced group of candidates around, it was also expected that the team would be one that would improve steadily through the season and would show much hustle and fight.

The team to-date has definitely not lived up to advanced billing. In the first five games the team showed a great offense and little defense as it averaged 90.8 points per game against such clubs as Vanderbilt, Wake Forest, Tennessee, Washington and Lee and Davidson. But beginning with the Dec. 20 game with Temple at Philadelphia, the Dukes have had a hot and cold offense and have still to find a suitable defense.

Duke lost to Temple by 67-64, lost the next Monday night to George Washington's Colonials at Washington by a tremendous 113-87 score and then turned in the annually poor showing in the Dixie Classic at Raleigh. Brigham Young trailed throughout the Classic opener with the Devils only to rally at the last possible moment and win out by 69-68 and Penn, which also lost by a close score in the first round, thumped the Devils by 97-80 in the second round with the great Quaker center, Ernie Beck, hitting for 47 points—highest total of his three year collegiate career and a new record for the Classic.

In the final day of the Classic Coach Harold Bradley's club met Princeton, a team that had also lost its first two games, and rolled up a 74-59 decision. Bradley said following the Princeton game that he was pleased with the way the team had come through with a win after dropping four straight games and almost losing a good lead in the fifth.

Tomorrow against the Wolfpack the Devils will be starting out anew with things about as even as possible. The overall record to date is five wins and five losses with the Conference mark standing at two wins and two losses. Pointwise, the team has averaged 82.7 points on offense and allowed 81.1 markers on defense.

Coach Bradley will probably start a team of Bill Reigel and Rudy D'Emilio at guards, Rudy Lacy at center and Bernie Janicki and either Ronnie Mayer or Don Cashman at forwards. Janicki is the scoring leader with 165 points or a 16.5 average while D'Emilio is next with 159, Reigel third with 137, Lacy fourth with 124 and Mayer 5th with 64. Cashman has scored 33 in eight games.

Sawyer, Darrell Winslow, and Dave Miller.

One of the things Coach Fitz said to remember about the meet is that a good showing of any kind in this meet would mean the worth of the team.

Bobby Speight

Senior Bobby Speight is one of the leading candidates for the 1953 All-American basketball team and is expected to be the key to the Pack's battle with the Blue Devils tomorrow at Duke. He is leading the club this year in scoring with an average of 17.6 per game.

### Wolfpack Ninth

Here are the top twenty basketball teams in the nation, after the shattering holiday games, according to the voting of Associated Press. State before the holidays was in twelfth place but after taking the Dixie Classic and games over George Washington, Texas Tech, Dartmouth, and Cincinnati moved up to ninth.

#### Top 10

1. Kansas State (7-1) (31) 758
2. Seton Hall (13-0) (20) 647
3. La Salle (11-1) (17) 623

### What a BECK

The inevitable Mr. Beck, Penn's expressionless center with the white in his hair, came into the Dixie Classic almost unknown, but by the second game he had the fans bewildered with a style of ball which hasn't been seen here since the Ranzino machine.

He all but rewrote the Classic records for scoring by breaking both the total number of points for one game (35) with 47 and the total number of points scored in three games (71) with over 95 points for an average of over 30 points per game, also he tied the coliseum record of Sam Ranzino's 47 points.

After the Classic he took over the nation's scoring with over a 30 point average slightly nosing the Seton Hall giant, 6-11 Walt Dukes, who is averaging 29 a game.

The 20-year-old Philadelphia owns most of the Ivy records and seems well on his way to setting several more and latching onto an All-American berth before finishing a career as the highest scorer in red and black history.

Beck holds the Eastern Intercollegiate League's single game high scoring record—45 points scored as a junior against Harvard.

He also holds the single season Ivy League mark of 284 points, and as a junior also smashed his own field goal record with 108. He also equalled the single game foul shooting record of 17. The league's field goal record of 16 in a single game is another Beck mark.

Last season, the remarkable Mr. Beck was the Philadelphia district's highest scorer with 596 points, an average of 20.6 per game.

He won All-Ivy League honors for two years and last season was the league's most valuable player, as a sophomore he was on the Helms Foundation third team and last year was on its second team.

All in all he's one of the greatest players ever to play in the Dixie Classic or in the Coliseum.

"Big Danny" as he is known to most spectators has lived up to his reputation in more than one game this year. He was one of the key men in Case's attack in the Dixie Classic and should see plenty of action in the Duke battle tomorrow in Durham.

**Gotkin and Speight Leads Charity Shots**

Dickie Hemric, Wake Forest's rebound and scoring ace, is currently monopolizing the statistics for the Big Five with the leading scorer, most number of rebounds and second in field goal percentage. State is leading in the free throw percentages with Speight and Gotkin both above 76 percentage, also Thompson is second in the total rebounds.

**SHOT CHART**

| Player, School      | G  | FG | FT | TP  | Avg. |
|---------------------|----|----|----|-----|------|
| Hemric, W. Forest   | 11 | 82 | 79 | 243 | 22.1 |
| Williams, W. Forest | 11 | 75 | 55 | 205 | 18.6 |
| Speight, State      | 14 | 98 | 50 | 246 | 17.6 |
| Dudley, Davidson    | 5  | 36 | 14 | 86  | 17.1 |
| Grimaldi, Carolina  | 8  | 52 | 30 | 134 | 16.7 |
| Janicki, Duke       | 10 | 59 | 47 | 165 | 16.5 |
| King, Davidson      | 5  | 29 | 23 | 81  | 16.1 |
| D'Emilio, Duke      | 10 | 59 | 41 | 159 | 15.9 |
| Gotkin, State       | 13 | 80 | 48 | 209 | 14.9 |
| Thompson, State     | 14 | 66 | 75 | 207 | 14.8 |
| Vayda, Carolina     | 8  | 45 | 26 | 116 | 14.5 |
| Lifson, Carolina    | 4  | 21 | 16 | 58  | 14.5 |
| Riegel, Duke        | 10 | 49 | 39 | 137 | 13.7 |
| Lacy, Duke          | 10 | 51 | 22 | 124 | 12.4 |
| Maddie, Carolina    | 8  | 28 | 31 | 87  | 10.9 |
| Kukoy, State        | 14 | 53 | 43 | 149 | 10.6 |
| DePorter, W. Forest | 11 | 31 | 38 | 100 | 9.1  |
| Lyles, W. Forest    | 11 | 36 | 22 | 94  | 8.5  |

**FIELD GOAL PERCENTAGE**

| Player, School      | Att | Made | Pct  |
|---------------------|-----|------|------|
| Lacy, Duke          | 102 | 51   | 50.0 |

| Williams, W. Forest | 11 | 79  | 7.2  |
| Dudley, Davidson    | 5  | 36  | 7.1  |
| Lifson, Carolina    | 4  | 26  | 6.5  |
| Lacy, Duke          | 10 | 64  | 6.4  |
| Kukoy, State        | 14 | 82  | 5.9  |

**OVERWORK**

"Very" is a greatly overworked adverb. It is better to use it less frequently. Often "very" is used to modify a past participle, as "He was very disappointed" or "Mary was very pleased." Better say, "He was very much disappointed" or "Mary was very much pleased."

**LOOKS BAD . . .**

Many persons use the words "bad" and "badly" incorrectly. "Bad" means ill, sick or in pain. For example, John feels "bad." Henry looks "bad." "Bad" is an adjective modifying John and Henry. "Badly" is an adverb. Therefore you do not say when you are sick, "I feel badly."

Sundays 8 a.m. to 8 p.m. Phone 9217

Winner this week—L. D. Jones, 13 Becton

The boys were really whooping it up after the Wake Forest game, and staged a rally and a parade, which appeared to be spontaneous until Floyd Sweet was uncovered broadcasting from a car which roused students from their chambers and brought them out to participate in a meet-the-team demonstration. The paraders circled the block including Gold and Welch several times and then retired to the Coliseum before breaking up. (Photo by Aubrey Pope)

### English Prof's Good Deed Brought Prize

A helpful deed has brought unexpected recognition to a North Carolina State College professor. Long ago (he has forgotten just when) Prof. Donald Rulfs of the college's English Department learned from a newspaper story that a writer was inquiring for information on Rose O'Neale Greenhow, beautiful Confederate spy of Washington, D. C., who was said to be partially responsible for the destruction of the Union Army at the first Battle of Bull Run.

Upon reading the article, Professor Rulfs dashed off a letter to the inquiring author, suggesting that he get in touch with a Wilmington, N. C., historian—and and that was all.

Recently Dr. Rulfs received an autographed copy of James D. Horan's handsome new book, "Desperate Women," whose foreword contains an acknowledgment of the help given.

Without Dr. Rulfs' brief note, the author said he could never have completed his biographical study satisfactorily.

Professor Rulfs prizes the new gift to his personal library.

# Chesterfield is Best for YOU!

"THEY SATISFY—AND HOW... in school and out, I've been a Chesterfield smoker for 5 years," says John B. Boyce, financial analyst. "They've got what it takes to give me what I want in a cigarette."

*John B. Boyce*

COLUMBIA UNIV. '50

### — And First to Present this Scientific Evidence on Effects of Smoking

A MEDICAL SPECIALIST is making regular bi-monthly examinations of a group of people from various walks of life. 45 percent of this group have smoked Chesterfield for an average of over ten years.

After eight months, the medical specialist reports that he observed . . .

*no adverse effects on the nose, throat and sinuses of the group from smoking Chesterfield.*

CHESTERFIELD—FIRST and only premium quality cigarette available in both regular and king-size.

CONTAINS TOBACCOS OF BETTER QUALITY AND HIGHER PRICE THAN ANY OTHER KING-SIZE CIGARETTE
