

You'd beam too if your name was Clyde Garrison and you had just been awarded the Southern Conference Cross Country Championship Trophy for 1950-51. Garrison, a sophomore, is also The Southern Conference Indoor and Outdoor 2 Mile Champion. Rates the front page, don't you think?

Speed, ability, and records are three things which seem to go hand in hand with our cross-country champion track man, Clyde M. Garrison, Jr. Also another pair of words just seem to fit in place after his name—Clyde Garrison—ALL AMERICAN.

For speed he has it in terrific amounts—In 1951 he broke the Duke Cross-Country Course Record of 20:21, which was held by Maryland, by an amazing record of 19:51.

For ability one needs only to say, "Watch him run one time and if that doesn't convince you then ask one of his teammates who runs against him and see what he says.

For records he has over his share. During his sophomore year he won the one and two mile conference championship; the cross-country championship and the indoor two mile championship. In the past season he won the indoor one mile championship, the Southern Conference cross-country championship and for two years he has been the outdoor one and two mile champion of the Southern Conference.

As for the probability of his becoming an ALL AMERICAN he could very easily be one this year if he can keep up the pace he has been setting during the past two years.

This year Clyde is Captain of the team and has been a letterman for two years. He is a senior but has another season of eligibility left to play if he wants to run because of an injury he received last season.

Clyde is five feet nine inches of condensed energy, has blue eyes, weighs 145 pounds and is twenty-one years old.

He is in the study of Textile Chemistry and is also a "B" student in his studies. His favorite professor is Mr. Hamby, a teacher of Textiles. He lives in Syme Dormitory, Room 107.

Directory In Making

The "Y" is in the process of printing a new Student Directory and would appreciate it if any students who have changed their campus address since registering would report their new address to the "Y" office.

C. G. Convenes

Campus Government will convene for the first meeting of the Fall term next Tuesday at 12:00 noon in the Conference Room of the Y.M.C.A. All members are urged to attend.

Parking Place Poses Problem

Is the automobile here to stay?? Campus traffic officer Jim Burnette thinks it is, and for a very good reason too. There are now over 1,600 motor vehicles registered on the campus. To many this is a sign of prosperity among college students, but the only signing Burnette can see will be on more parking violations.

Where can the 434 cars in the Owen, Tucker, Turlington, Alexander area be placed? What is to be done when some of these drivers want in or out just before a big basketball game? These are only two of the many problems facing the traffic department. This staff group has drawn up a diagram of a proposed parking system to be effected before the Owen-Alexander area. Samples of this plan have been placed in these dormitories and all car owners asked to observe the plan.

The traffic department realizes those problems all drivers on the campus face; therefore, it asked THE TECHNICIAN to print these suggestions:

All unregistered vehicles used by students be immediately registered; Restricted parking areas are checked from 8 a.m. to 5 p.m.;

Motorcycles, motorbikes, and motorcycles are to observe the same rules that govern automobiles;

A third traffic violation will cause the offender to be brought before the Student Trials Committee of the Campus Government;

Request that the Venville, Owen, Alexander area drivers use Hillsboro Street and turn down by the Textile building during a basketball game.

NOTICE

Renn Drum, Chairman of College Union Forum, announced yesterday that Senator Ralph E. Flanders, Republican of Vermont and Senator Lester Hill, Democrat of Alabama, will appear in Pullen Hall October 10th to Debate "What are the Major Issues of this Presidential Campaign."

The debate which is being sponsored by the Forum Committee of the N. C. State College Union will be open to the general public.

Special Student Prices For Ice Show Announced

Sonja Henie, whose flashing skates have carved out 10 world championships in figure skating and who retired undefeated as three-time Olympic winner, will appear in person as head of her renowned Sonja Henie Ice Revue of 1953 in the William Neal Reynolds Coliseum at North Carolina State College October 20-25.

Request Funds Now From Student Fees

Attention All Campus Organizations that expect to Receive Funds from the Student Activity Fee!

Contact Bob Carlson, Campus Government Treasurer, for application blanks and additional information. Telephone 9412 at 114 Bagwell Dorm, or call the Student Government Office in the Publications Building. This includes all organizations that received funds last year and that expect funds for the first time during this school year.

A form letter will be sent out to the various groups that are to be in need of Student Activity Funds. It is important that all group treasurers make their application early (within the next two weeks) in order that the Budget Committee can take the necessary action, and the entire Student Council Budget can be set up in the near future.

Publications Board Gets \$8,000 From New Print Shop Turnover

Insurance Deadline

October 15 is the deadline which has been set on or before which a student may sign with the Pilot Life Insurance Co. for coverage under the Student's Accident Insurance Plan. Applications may be obtained at the Campus Government office in the Publications Building or at the YMCA. Claim blanks are also available at the Campus Government office, the "Y" and at hospitals throughout the State.

Editor's Note: The first claim was filed on Sept. 30 by a student who injured himself while doing gymnastics on his bed in the dorm. An operation has been performed, according to Campus Government officials. No further information is available.

Psychology In Parade

Research work done by the Department of Psychology at North Carolina State College will be featured in the Sunday, October 5, issue of *Parade*.

The illustrated article, entitled "Do You Hate to Drive at Night?" was written by Edward D. Fales, Jr., associate managing editor of *Parade*, who spent two days at the college collecting the material.

The article deals with the effect of glare on night motor vehicle drivers and cites proposed ways of overcoming these problems.

Tests described in the two-page article were run by a group of North Carolina State College staff members, headed by Dr. D. J. Mof-

(Continued on Page 2)

The ownership of the State College Print Shop has changed hands again. Ever since last May, this junior-size bonanza has been attracting as much attention as the Comstock Lode.

Last week, during a meeting of the Publications Board, a measure was approved by that body which puts the Print Shop under the final jurisdiction of the trustees of the Greater University. In May the shop had been transferred to the Alumni Association of the College in a move which insured its being considered a legal entity.

The Publications Board stands to gain, as a result of last week's transaction, immediate payment of almost \$8,000 which represents the Board's original investment in the Shop.

The terms of the agreement are listed below.

WHEREAS, it is now agreed by all interested parties that the State College Print Shop should be established as an educational trust fund with its operations supervised by the College Administration and controlled by the Board of Trustees, as provided in the Trustees' regulations governing merchandising activities on the three campuses of the consolidated University;

NOW, THEREFORE, BE IT RESOLVED that the Board of Trustees hereby authorizes the establishment of the State College Print Shop as an educational trust fund and approves the following:

The appointment by the Chancellor after consultation with and the final approval of the President of the consolidated University, of an Advisory Management Board

(Continued on Page 5)

Pictured here are Sonja Henie and her leading skating partner Marshall Beard, who will head the list of artists in the Sonja Henie Ice Revue of 1953 to be given in the William Neal Reynolds Coliseum at North Carolina State College October 20-25.

Clark-Technician Collaborate

In response to a specific request from the Editor, Professor Joseph D. Clark of the English Department at State College has made available for publication, a list of words based upon a study of 3,552 commonly misspelled words listed in thirty-six handbooks of college English. Professor Clark is the co-author (with Hudson and Hurley) of *College Caravan*, editions 1936, 1939 and 1942. He is also co-author (with Philip Davis and A. B. R. Shelley—all of this College) of *Handbook of English*.

The Technician is making this list of words available to students, professors and staff members alike as a part of a program which it is hoped will result in the betterment of every interested reader's vocabulary. The first seventy-five words, in this series, are those that appear to give trouble to students according to data on hand. Some of these words have been found on two tabulations of recent data here at State College.

In the word lists to follow after the use of the five sections that comprise the seventy-five words, special emphasis will be placed upon specific problems in spelling, such as confusion of words similar in spelling and pronunciation, confusion of suffixes, words misspelled because of mispronunciation, doubling the final consonant, transposition of letters such as -ei- and -ie-, dropping the final e, and so forth.

Says Prof. Clark, "It should be stated that most of the misspelling is due to sheer carelessness, poor penmanship, insufficient proofreading, and other personal weaknesses."

TAKE ADVANTAGE OF THIS SERVICE. No one is immune to the misspelled word disease; however, a cure can be effected. This is it. Don't ignore this opportunity to refine your vocabulary.

(Some of the words given below are misspelled. Spell them accurately, and then turn to page . . . for a list of correct spellings.)

Incorrect List

- accidentally
- accommodate
- across
- aggravate
- amateur
- apparent
- appearance
- argument
- business
- cemetery
- changeable
- choose
- conscience
- courteous
- definite

Used Book Sales Boom

The Student Book Exchange, sponsored by Alpha Zeta, reports that sales have far exceeded expectations as the term gets underway. The volume of sales would have been larger, say the boys in charge, if more students had brought in their used books. The Exchange will be kept open for two more weeks in order that those who have not previously done so will have an opportunity to replenish the stocks on the Alpha Zeta shelves. The savings which can be realized have long been apparent, never more so than this year as a student prepares to part with a sizable chunk of his spending money at the book store.

The office is in room 140 on the South end of the 1911 Building, just across the hall from The TECHNICIAN Office. BRING IN THOSE USED BOOKS TODAY.

PARADE—

(Continued from Page 1)
fie, chairman of the college's Psychology Department, and Prof. Howard Olson.

They were assisted by officers of

the North Carolina Highway Patrol and Highway Safety Division.

Six pictures, illustrating the article, were made in Raleigh and nearby communities. The photographer was Ralph Mills of the Visual Aids Department, North Carolina State College.

Parade is the Sunday picture magazine of 35 major newspapers in the United States, which have a combined circulation of over 5,000,000 and an estimate 12,000,000 readers.

Sears Awards Made

Thirteen North Carolinians have been awarded Sears Roebuck Freshman Scholarships in the School of Agriculture at North Carolina State College.

The list of scholarship winners announced today by Dr. C. H. Bostian, director of instruction in the college's School of Agriculture, who said each scholarship is valued at \$150 and is good for one school year only.

Dr. Bostian said the winners and the alternates are all top-ranking high school graduates and have demonstrated their leadership capacities in a number of extra-curricular affairs.

Poor Family

"Yes, Johnson comes from rather a poor family."

"Poor? Why his parents sent him to the university, didn't they?"

"Yes, that's why they're poor."

Socialism

Dad (a socialist): Son, I simply cannot understand why you want to play hookey so much. Why is it you want to stay away from school?

Kid: Class hatred, father.

189 AWARDS LAST YEAR!

Write a Lucky Strike jingle!

No box tops! NO ENTRY BLANKS! It's easy!

Just write a 4-line jingle based on the fact that

LUCKIES ARE MADE BETTER TO TASTE BETTER!*

I've heard the same in every class—
In history, psych, and ec—
For cleaner, fresher, smoother smokes,
It's Lucky Strike, by heck!

I like a better-tasting smoke
And mildness counts with me.
So when I buy I keep in mind
That L.S./M.F.T.!

Here's your chance to make yourself \$25. Just write a 4-line Lucky Strike jingle, based on the fact that Luckies are made better to taste better.*

Then, if we select your jingle, we'll pay you for the right to use it, together with your name, in Lucky Strike advertising . . . probably in this paper.

Read the sample jingles on this page. Then get the gang together, break out the rhyming dictionary, and start writing. It's fun! And we're buying jingles by the bushel!

Hint—if you can sing your jingle, it's a good one!

Hint—the more jingles you write, the more money you have a chance of making.

Hint—be sure to read all the instructions!

HERE ARE THE INSTRUCTIONS

1. Write your Lucky Strike jingle on a plain piece of paper or post card and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on any qualities of Luckies. "Luckies are made better to taste better," is only one. (See "Tips to money-makers.")
3. Every student of any college, university or post-graduate school may submit jingles.
4. You may submit as many jingles as you like. Remember, you are eligible to win more than one \$25 award.

*TIPS TO MONEY-MAKERS

To write a winning Lucky Strike jingle, you're not limited to "Luckies are made better to taste better." Use any other sales points on Lucky Strike such as the following:

- L.S./M.F.T.
- Lucky Strike Means Fine Tobacco
- Luckies' cigarette-tearing demonstration
- Luckies taste cleaner, fresher, smoother
- Be Happy—Go Lucky
- So round, so firm, so fully packed
- So free and easy on the draw
- Buy Luckies by the carton
- Luckies give you deep-down smoking enjoyment

Agromeck Organizes Staff

The staff of the 1953 AGROMECK will hold its first meeting on Wednesday October 8, 1952, at 7:30 p.m., in the Alumni Building. All students who desire to work on the yearbook staff are urged to attend. Note: Students having yearbook picture appointments scheduled for October 4th and 5th are requested to change them to October 6th and 7th. Freshmen who still have not had their pictures made for the AGROMECK can still do so without making appointments. This is your yearbook, do your part!!

Cadet Officers Meet

The Cadet Officers Association will hold its first meeting of the year on Wednesday Night, October 8, at 7:30 in the Y.M.C.A. Auditorium. The military students that are members of C.O.A. are urged to be present, and all other military students are extended an invitation to join the C.O.A. Plans for the forth-coming Military Ball will be unveiled at this meeting.

C. G. Holds Pre-School Trial--Admits Student

A student reported for disturbance and drunkenness in a dormitory has been recommended for readmittance on probation by a Campus Government jury.

At the pre-school trial before a jury of seven students and two faculty members, an unidentified student was reprimanded for his spring term antics. This trial was conducted according to article seven of the C. G. constitution which states the defendant's name is to be withheld.

Last May the defendant was reported by fellow students for being drunk and disturbing the study hours commonly observed in all dormitories. The incident, occurring too late in the spring term for a trial to be held before the end of school was shelved until the return of a full C. G. Council.

A jury appointed by the C. G. president issued a sentence of probation for a two term period during which time the student is on his honor to comply with dormitory regulations. Failure to fulfill this obligation is to result in automatic suspension.

The jury recommendation will go before a Faculty Council meeting and if approved by this group the student will be readmitted to school.

C. G. Prexy Vincent Outland believes this may be a significant incident in the attempt to promote better conditions for study within dormitories. By their action in this case C. G. members have shown their determination to investigate and if necessary prosecute individuals who become a chronic menace to reasonable dormitory serenity.

Inferior Man

Science Instructor: Johnson, it's evident that present day man is physically inferior to prehistoric man, is it not?

Student: That's OK by me. I'd a lot rather be inferior than prehistoric.

School of Design Honored At Festival

The School of Design at North Carolina State College is one of 12 schools participating in the Edinburgh Festival of the Arts now in progress at Edinburgh, Scotland.

The Edinburgh College of Art invited the State College School of Design to take part in the festival, which will continue through September.

Dean Henry L. Kamphoefner said the State College unit sent ten panels depicting the work of students in the school. The photographs used in the exhibition were made by the college's Visual Aids Department.

In a letter to Dean Kamphoefner, D. P. Crease, who is in charge of the architectural division of the Edinburgh Festival, said:

"The standard of the exhibits is very high, but your own perhaps provokes the most comment, and is adding most materially to the success of the exhibition."

Eduardo Catalano, acting head of the Department of Architecture in the State College School of Design, was in charge of the preparation of the N. C. State contribution to the festival.

Here's To The Aulde Dining Haul Of Particular Merit

Occasionally on the pages of the DAILY TAR HEEL there appears an article or letter of particular merit. Last year a student at Carolina apparently lapsed into a bitter mood and penned the following letter to the editor. It is reprinted purely for TECHNICIAN reader enjoyment.

RAG-G MOP-P

Editor:

That was a swashbuckling series of letters you printed on changes in the curriculum. This is the picture in brief:

First we got the A-Bomb then Russia gets the A-Bomb. We develop an H-Bomb, much more powerful than the A-Bomb, and soon Russia's goona counter with a Q-Bomb, designed to make Rocky Mountains look like the Great Basin. Then we come back with a Z-Bomb, made by splitting the atoms of a sun-bleached zebra's gonad. This one's guaranteed to spread chromosomes from the Ukraine to Vladivostock. Then we add more letters to the alphabet. Russia develops a cosmic cloud which prevents the sun from shining on continental North America except on Ground Hog Day. We throw something in their water to make it taste like Anahist and they throw something in ours to make us sterile. The world's resting on the brink of inevitable chaos and what are we doing about it?

We go to English class and learn that in the fifth act of Henry IV, Shakespeare makes reference to the fact that the cookoo lays her eggs in the sparrow's nest. Then over to the Zoo Building where we learn that if you cross a hippopotamus with a dill pickle you get a mongoose with green eyeballs and a sour alimentary canal. This

is all very nice to know but in this radio-active age we've got to step things up a bit. Here are two revisions in the curriculum which would help:

1. Throw out Latin and put in Russian. How can we neglect such an important language? What if a verb conjugation does sound like an asthmatic sneeze; we can learn. It ought to be pretty obvious by now that we're going to have to deal with Russia one way or another. Why not get started by trying to understand him. As for Latin it serves an indispensable function. I can already hear the profs crying, "Latin trains the mind!" A study of glass blowing in pre-renaissance Estonia would train the mind, also, and probably be a good deal more useful. LATIN IS NOT THE MOTHER OF ALL LANGUAGES. It's the mother of five and only three are of major importance. I might add that Russian should be taught as a spoken language and not butchered as a grammatical monstrosity like our Spanish courses here at the University.

2. Social Science 11 should completely cover World War II, if necessary at the expense of everything else. A few weeks ago I took a personal poll for my own satisfaction on the subject of Norway. Out of ten students FOUR THOUGHT THAT NORWAY WAS A GERMAN ALLY, three had never thought about it, one thought Norway was definitely going to intervene in Formosa and two thought Norway was the capital of Sweden.

So it goes. I would write more but I've got to hurry to find out if the Mexican Onyx commonly has a three note mating call.

Barry Farber

A Few False Starts

After one or two false starts intermingled with an unprecedented series of set-backs, **The Technician** finally came off the press last Tuesday. Its appearance in the dorms and at the post office constituted a minor triumph for a staff which had been laboring for two weeks in order to produce the first issue. You have probably already noted several instances where notices and write-ups took the form of dead copy. This will not happen again, it should not have happened in the first place.

We do not intend to offer any sort of high-flown apology—fact is, there are none left in the itinerary to offer. We can assure our readers of one thing though, and that is that all of the ensuing issues will be stacked with fresh material, of a type never before offered in **The Technician**. You cannot, therefore, afford to miss a single one of them. Remember, **The Technician** is your college newspaper.

P.S. We are not coming out twice a week.

ICE SHOW—

(Continued from Page 1)

Director Betts. This is necessary for identification and bookkeeping purposes.

Director Betts said the complete program ranges through all the moods of skating. There will be at least a dozen large musical production numbers, expensively costumed and brilliantly designed.

This is Miss Henie's second tour of her own show in the United

States, and it marks her first appearance in this part of the country.

This year's production is described as "one of the most lavish and exciting ice revue extravaganzas ever to be presented to the American public."

This, her second and said to be greatest show, is without doubt the most expensive and largest investment in an ice revue the perennial star has ever skated to before.

Betts said she will be supported by a talented cast that features the best in entertainment from both sides of the Atlantic. The entire production cost close to a million dollars to stage, and will bring one of the newest innovations to the ice show business.

Miss Henie for the first time will introduce a series of renowned circus and theatrical greats who will do non-skating acts, along with the leading ice performers in the world.

Perhaps the most unusual of the featured acts will be the great de Rousseau, without doubt the most unusual artist of the present day. This will be his first American appearance, having signed up with Miss Henie in Europe early in the season. de Rousseau "dives from a perch 65 feet above the rink into nothing more than a regulation size athletic mat, defying science and gravity," promoters say.

Several other noted stars, Director Betts said, will appear in the big show. Tickets are now on sale, and mail orders are being received at the Coliseum Box Office, North Carolina State College, Raleigh.

Old Records Show Students Fared Well

Bread at three cents a loaf, peaches at 40 cents a bushel, gasoline at 15 cents a gallon, board for \$8 a month—those are some of the prices paid in 1895 and 1896 at North Carolina State College, according to old records.

Compared with present prices, those may seem like fantastic bargains, notes retired Dean I. O. Schaub of the School of Agriculture who is now writing a history of the Agricultural Experiment Station. But the going wage for farm help then was seven cents an hour and top pay was all of 10 cents an hour.

Schaub, long-time agriculture leader, enrolled in State College as a Freshman student on September 15, 1896. In those days the students all ate at the college mess hall.

Recently, 56 years later, while looking through the old records he found purchases of beef listed at six cents a pound.

"As I recall it, that's all it was worth," Schaub declared. "The gravy was the only thing you could cut."

Schaub obtained the first volume of Experiment Station and college mess hall record books recently during a house cleaning at the library when no one else wanted them.

Since the late 1890's prices of most goods have risen several hundred per cent. But a few have gone down, notably electricity.

The Raleigh Electric Company billed the Experiment Station for 43,400 watts of electricity for November 1897 at 20 cents per thousand, total \$8.68. That was about seven or eight times the present average for home lighting.

In the boarding hall students waited on tables for 12 cents a day.

Among them were C. L. Mann, recently retired professor of civil engineering, and Mark Squires, former Democratic political leader.

B. S. Skinner, in charge of the boarding hall, hired his first cook, Emanuel Bridgeford, for \$23 a month; second cook was W. H. Dunston at \$13 a month; and Haywood Pool and W. H. Bolden were servants at \$11 a month, with Henrietta Smith at \$8 a month.

Potatoes 55 Cents a Bushel
Food prices in 1895 and 1896 are striking, compared with present values. Skinner's second invoice for

September, 1895, was for 22 bushels of potatoes at 55 cents a bushel purchased from D. E. Sauls. Coffee was purchased from Chicago in drums. Called "Cracked Java Coffee," a 538-pound shipment cost 20½ cents a pound. In the same order was 120 pounds of baking powder at 22 cents a pound. Fifty gallons of vinegar at 20 cents a gallon was purchased from W. B. Mann, Raleigh grocer.

Sausage was eight cents a pound, milk cost five cents a quart, butter 25 cents a pound and eggs usually sold for about 15 cents a dozen. "We did have turkey for Thanksgiving when the board of trustees ate with us," recalls Schaub. Turkeys then were nine cents a pound.

Fish appeared on the invoices seasonally. In March and April shad were listed at 50 and 60 cents per pair for buck shad. But on one bill one pair of roe shad was crossed off when listed at \$1. Evidently that was to feed young men who paid only \$8 a month for board. Occasionally mullet appear at 15 cents per bunch.

"Modern nutritionists probably would not approve the diet of those days because of lack of green vegetables," says Schaub. "In the Fall we ate roasting ears at eight cents a dozen, and snap beans at 75 cents per bushel. During the Winter, cabbage was our only green vegetable. Invoices show it cost about \$1.50 per hundred pounds."

Union Movie

The Ox-Bow Incident, a grim, absorbing story of a brutal lynching will be the movie shown by the College Union this Sunday night in the Textile Auditorium at eight o'clock.

The second in a series of outstanding films to be presented by the Union this year, the picture stars Henry Fonda in one of his finest roles as a stubble-bearded cowpuncher opposing the hanging of three innocent men accused of murder by a sadistic lynch mob in a little Nevada town in the 1880's.

Moving soberly and soberly from start to finish, *The Ox-Bow Incident* is a startling piece of cold-blooded realism.

Students and faculty will be admitted free on presentation of their registration cards and Union membership cards respectively.

PRINT SHOP—

(Continued from Page 1)

for the Print Shop, to serve without compensation, composed of three members, as follows:

(1) The Assistant Controller and Business Manager of State College (ex-officio). He shall serve as treasurer and shall sign all checks, contracts, and purchase orders.

(2) A student representative of the Student Publications Board elected in such manner as may be prescribed by the Student Government of the College.

(3) David Clark of Charlotte, North Carolina, as Chairman, representing the Board of Trustees, for a term of eight years, his successor to be appointed by the Chancellor of State College after consultation with and with the final approval of the President of the consolidated University.

BE IT FURTHER RESOLVED, that the Executive Committee approves a loan by the State College Print Shop Trust Fund from the

Escheats Fund, in the amount of \$70,000 to bear interest at 4% per annum, payable annually, the loan to be repaid:

- \$14,000 on October 1, 1953
- \$14,000 on October 1, 1954
- \$14,000 on October 1, 1955
- \$14,000 on October 1, 1956
- \$14,000 on October 1, 1957

This loan is to provide funds to liquidate all outstanding indebtedness of the State College Print Shop.

BE IT FURTHER RESOLVED that any profits distributed by the State College Print Shop Trust Fund shall be divided as follows:

1. One-third (1/3) to the Student Publications Board;
2. One-third (1/3) to the State College Scholarship Fund for grants-in-aid to students participating in intercollegiate athletics as provided in the regulations for grant-in-aid awards as laid down by the Board of Trustees on May 26, 1952;
3. One-third (1/3) to a fund to be

known as the State College Alumni Scholarship Fund for general scholarships.

BE IT FURTHER RESOLVED that this resolution shall not take effect until the following releases have been duly enacted and filed with the Assistant Controller-Business Manager of State College:

(1) The General Alumni Association of North Carolina State College shall have surrendered to the Trustees of the consolidated University of North Carolina any claim, legal or equitable, it may have upon the State College Print Shop.

(2) The Student Publications Board shall have surrendered to the Trustees of the consolidated University any claim it may have, legal or equitable, upon the State College Print Shop.

(3) David Clark, organizer of the State College Print Shop, shall have surrendered to the Trustees of the consolidated University any

claim, legal or equitable, he has on behalf of the State College Student Aid Association, Inc., or other organization.

Faculty Pay Cut

Approximately 225 faculty members in the University of North Carolina's summer session at Chapel Hill have had their salaries cut 25 per cent because of a sizable reduction in the enrollment, it was learned Tuesday.

Dean Guy B. Phillips, director of the summer session, said the reduced enrollment this summer was due in large part to the draft. There are fewer freshmen and veterans here now than last year. The enrollment for the first term last year was 3,560 while it was 2,480 for the term just ended.

New Engineering Prof

V. M. Faïres, a nationally-known authority in the field of mechanical engineering, has accepted appointment as Professor of Mechanical Engineering at North Carolina State College.

"Professor Faïres is considered one of the top teachers in his field in this country," said Professor K. P. Hanson, head of the Mechanical Engineering Department, in announcing the appointment. "He will be a most valuable addition to the department, and will considerably strengthen both our undergraduate and graduate programs.

Professor Faïres is very highly recommended as an exceptional teacher of machine design and thermodynamics. He was formerly with Texas A. and M. College, where he taught over 25 years. In his capacity there as Professor of Mechanical Engineering, he headed a curriculum in management engineering and also a department of post graduation studies.

A registered professional engineer in Texas, Professor Faïres is a member of the American Society of Mechanical Engineers, the American Society for Engineering Education, the American Association of University Professors, and Pi Tau Sigma, the mechanical engineering honorary society.

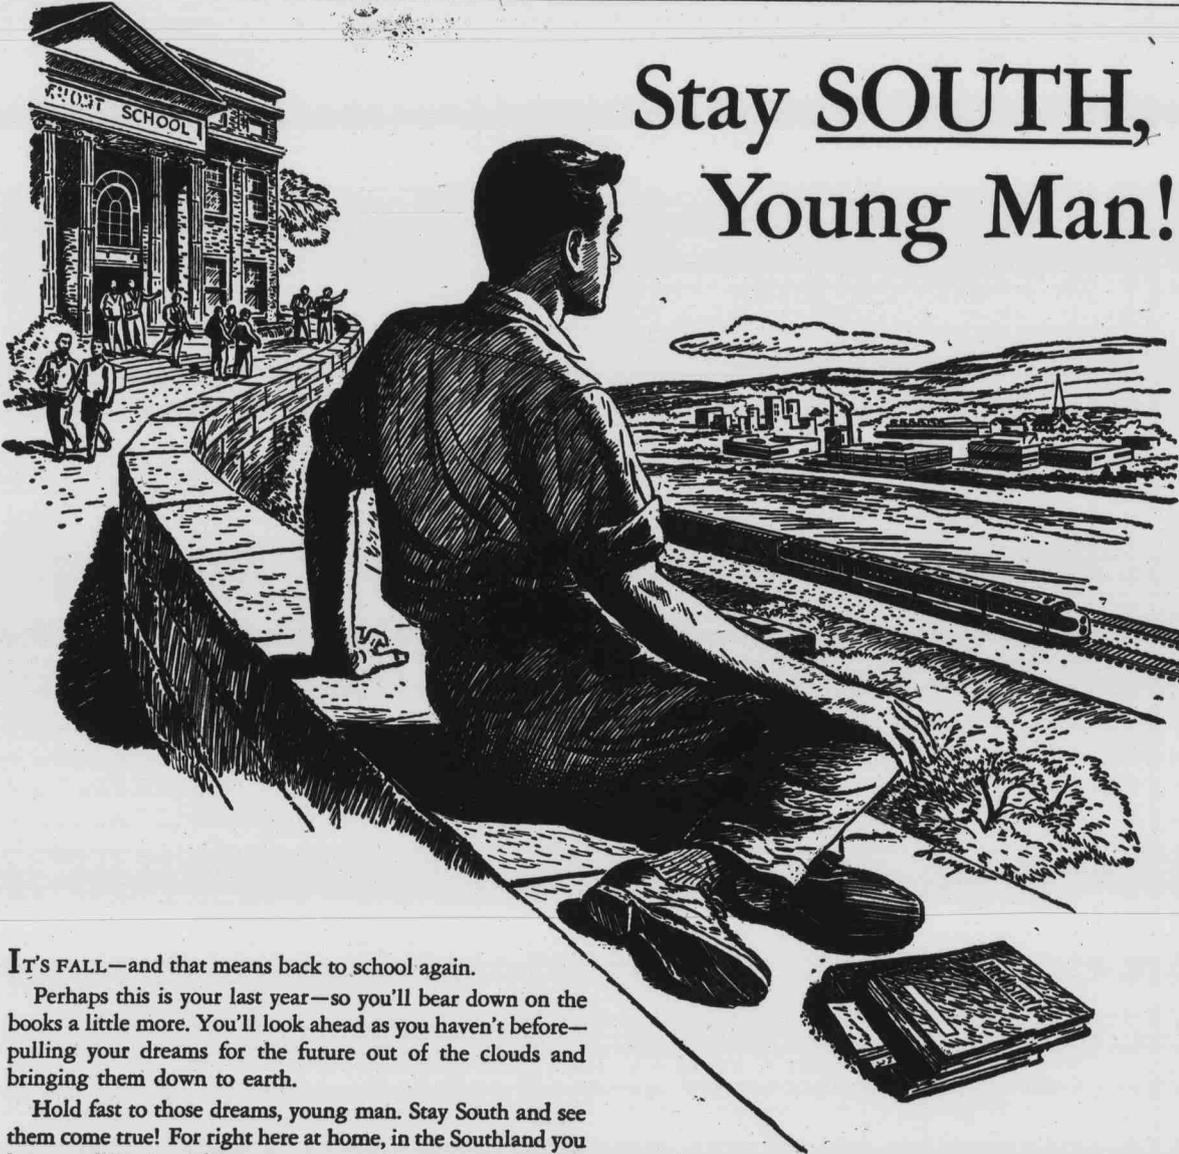

Dr. William W. Austin, formerly of the staff of the Southern Research Institute in Nashville, Tenn., will be in charge of instructional programs and some research in the field of metallurgy.

John F. Lee, coming from the University of Maine, is a specialist in the field of Heat Power.

Stay SOUTH,
 Young Man!

IT'S FALL—and that means back to school again.

Perhaps this is your last year—so you'll bear down on the books a little more. You'll look ahead as you haven't before—pulling your dreams for the future out of the clouds and bringing them down to earth.

Hold fast to those dreams, young man. Stay South and see them come true! For right here at home, in the Southland you know and live in and love, a great new "opportunity-land" is coming of age, where dreams can take root and grow into reality.

In Southern industry, agriculture and commerce, new frontiers are opening up on every hand. Here, horizons are limitless for young men of courage, competence and vision. You are the youth of the South today. You will be the leaders of the South tomorrow.

Look ahead—stay South, young man!

State Given Nod Over Davidson

the Technician SPORTS

Views and Previews

FRANK DUNAGAN, Sports Editor

George Washington Might Win Conference

George Washington might be the 1952 Southern Football Conference champions. The schedule lists seven conference games, remaining ones with Washington and Lee, Virginia Tech, VMI, West Virginia, Davidson, and Richmond. Washington and Lee will be the toughest one and that game will be played tomorrow. The Colonials certainly impressed the State fans as they walloped the Wolfpack last weekend. They are composed of a well-rounded attack that makes few mistakes.

The State squad has a long ways to go to develop a winning ball club. The game last weekend certainly pointed out weakness in every department, with a possible exception in the passing attack. It's too bad that we lacked the pass receivers last weekend.

Off-Night Saturday

The Wolfpack has a much better team than was shown last weekend and I'm sure the boys will prove it before the season is over. The young State players failed to play under pressure Saturday. There was much talk of the power State had to offer in practice, but none of the power was shown under game conditions against GW. Experience is the main trouble at the present because the ability of the players is of a winning type. The slaughter Saturday might be all it takes to snap the players into the power that they have and have shown in practices.

A big showing tomorrow will help the team greatly. The Big-Four parade begins next week when the Pack journey to Chapel Hill to meet our loved "cousins." An upset win over the winless Tar Heels would be the greatest thing in the world for most State followers. Following this brings on the powerful Duke Blue Devils and then the mighty Demon Deacons from Wake Forest. The Pack can give these teams a hard battle, but a lot has to be done in the meanwhile. But for now, let's beat Davidson three or four touchdowns.

Davidson and Davis

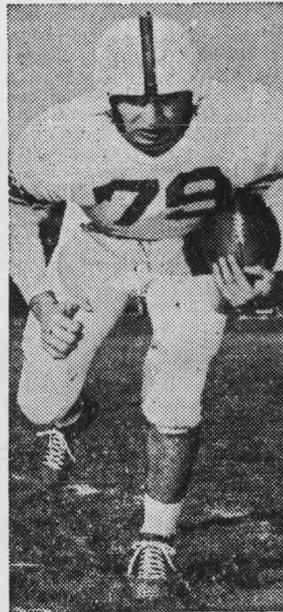

Davidson has a tough and spirited squad that will come to West Raleigh tomorrow with the intentions of beating the shaken Pack squad. One of the best linemen on the Davidson roster is a small pint-sized guard that weighs just 175. He's a friend of mine and I'd like for you to just watch him on a few plays tomorrow. He was not offered a scholarship by any of the Big-Four schools because of his small size, but as a freshman last season he was one of Davidson's most feared linemen. He was selected by the Davidson coach to play against the toughest opposing lineman in each game last season, including our great Elmer Costa and Georgia Tech's All-American Ray Beck. Watch for a little husky guy wearing number 51 on his red and black uniform and note his determination, spirit and genuine ability.

Davidson is slightly shy on experienced men also. Only 16 of its squad are lettermen. The backfield is probably the strong spot of the team with two stars in Quarterback Jack Ruth and Halfback Jimmy Thacker. Ruth is a dangerous passer and Thacker is a fast break-away runner. But, like Davis, these men are light. Ruth weighs 170 and Thacker 165. Davidson offers fewer scholarships and usually gets the left-overs from bigger schools, but the Cats always find stars that the big schools overlook and would love to have. The boys are always high-spirited and are known to pull upsets here and there.

Odds and Ends

Apologies are due to a great baseball player, Lunsford Lewis. Lewis pitched the powerful State team to most of its wins this spring as State placed second to a nationally rated Duke team in the conference. Lewis was chosen to the All-Southern baseball eleven along with many other deserving

(Continued on Page 8)

Fullback Don Langston, a rising sophomore, will lead the Pack offense tomorrow night against Davidson. Langston impressed the fans last weekend as he collected 121 yards through the strong Colonial line.

Track Team

This year's Wolfpack Track Team is without a doubt going to be one of the best in the records. It has to be because Coach Fitzgibbons told me personally that he was planning on taking the Southern Conference and placing very high in the National Meet in Lansing, Michigan.

If you don't believe Coach Fitzgibbons then come out tomorrow at 4 o'clock when they meet Davidson for the first meet of the cross-country season here at the field behind the Coliseum and see them in action.

Returning lettermen this year are—Clyde Garrison, Joe Shockley, William Sawyer, Edward Beall, Darall Winslow, and David Miller. Some new additions to the team are—Buddy Wright, David Spangler, Harold Martin, Mike Jones, Charles Helms, and Clay Lambuth. (Continued on Page 8)

Pack Determined To Win Over Cats Tomorrow Nite

State is again given the favorite role when it meets the Davidson Wildcats tomorrow night at 8 o'clock in Riddick Stadium, and this time the Pack intends to win.

Davidson, coached by newcomer William E. Dole, will be composed of an inexperienced eleven that shows offensive power and spirited fight. Although the Cats have lost their opening games, a tough battle is expected tomorrow night. The Cats lost to Virginia Tech and Washington and Lee with both defeats being determined after the half-time intermissions.

Davidson features a strong offense that has scored 28 points in its opening games. Top offensive men are Halfback Jimmy Thacker, Quarterback Jack Ruth and End Dick Kelley. Thacker, at only 160 pounds, starred as a freshman last season turning in a running average of nearly six yards in 80 carries. Ruth, a three year veteran, completed 50 out of 122 passes for 616 yards and three TD's in 1951 and promises to be even more dangerous this year. The top pass receiver is Kelly who caught 13 passes for 145 yards last season.

Pack Offense
Coach Hendrickson expects Full-

back Don Langston and Halfback Alex Webster to do most of the ground-gaining for the rebounding Wolfpack. Quarterback Carl Wyles will handle the passing attack, with added help from Eddie Frantz, Eddie West and Webster. State has capable receivers in such men as Steve Kosilla and Freshman Don Davidson. The receivers were very unimpressive last week, but Hendrickson promises a better showing tomorrow.

Big Tackle Bob Paroli turned in a fine defensive job last week and will lead the linemen in the Davidson battle. Ed Butler, Jim Hillman,

What happened to the old rah rah spirit?

IT WENT OUT WITH RACCOON COATS and rumble seats. And we say good riddance.

Today's college man doesn't die a thousand deaths when the school loses the big game. And his clothes are no longer flashy, fancy and gaudy.

For his apparel, he looks to Manhattan® to reflect his quiet, self-assured manner... his insistence

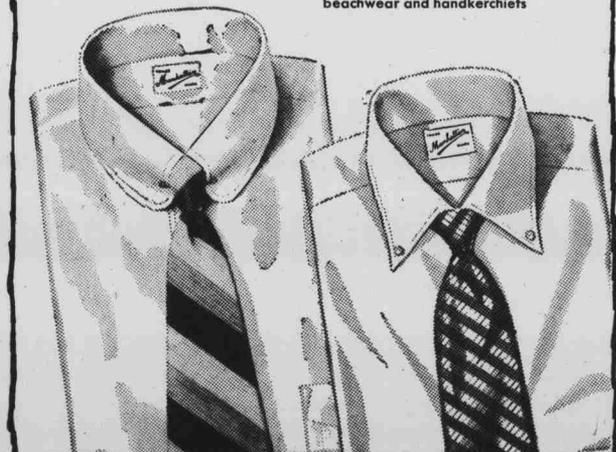

on quality, comfort and casualness.

Like this button-down Oxford with just the proper roll to the collar. Or this fine white piqué with an eyelet tab collar with just the right degree of difference.

We understand the modern college man. We concentrate our efforts, not on fads, but on making a better shirt. Ask for Manhattan... and you'll see how true this is.

With The Coaches

A split-T man that adds great strength to Coach Hendrickson's coaching staff is Billy Hickman. Hickman joined the almost completely new Wolfpack coaching staff last March in time to assist with off-season drills.

A native of Baltimore, Hickman is a young man that has as much football know-how as anyone. His experience is strictly with the T-formation, and that's just why he came to State. It might seem unusual, but Hickman has earned five

varsity monograms. He first entered the University of Maryland in 1943 and played regular at quarterback as a freshman under Coach Doc Spears.

In 1944 Hickman was inducted into the Navy training program and was assigned to the University of Virginia where he played football under Coach Art Guepe for one season before going to Cuba for another Navy assignment. In 1946 Hickman was discharged from the Navy and entered Virginia. He was a regular quarterback for Coach Guepe for the next three seasons, 46-47-48. During his stay at Charlottesville Hickman played every position in the Virginia backfield on both offense and defense.

After taking a degree in Mechanical Engineering in 1948 Hickman remained at the University of Virginia to help Coach Art Guepe with the Cavalier backfield. After two years at Virginia, Billy moved to Duke University at Durham in 1950 where he helped Coach Wallace Wade set up defenses against the T-formation.

In 1951 Hickman accepted a position with the Elliott Machine Corp. of Baltimore, Md., as a consulting engineer. During the fall he kept his hand in football by doing some scouting for Coach Guepe at the University of Virginia.

Last March when Coach Hendrickson began a search for a T-formation specialist, Hickman was recommended to him most highly by several leading coaches. A call to Baltimore brought an interview with Billy and after two weeks of negotiations, Hickman finally agreed to return to the coaching field and take the post at N. C. State.

A very serious student of the T-formation, Hickman has become a virtual authority on the subject as far as the Wolfpack staff is concerned. He has set up complete books for every member of the State team on the split-T formation attack and has diagramed every step in executing ground and air patterns.

Hendrickson calls Hickman "a football nut" who is just the kind of a coach that every school needs on its staff.

(The above article was taken from "Meet the New Wolfpack," a booklet issued by Ed Storey, Director of Athletic Publicity.)

WILLIAM HICKMAN
Backfield Coach
N. C. State

Campus Sports

By JERRY ARMSTRONG

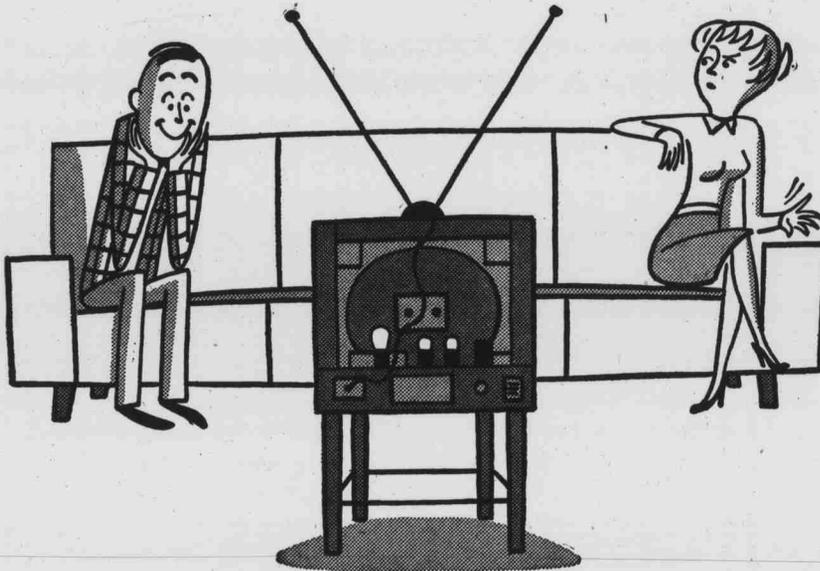

This week it seems there are many kinds of sports getting under way. Some basketball, some soccer, some tennis, some baseball, and some terrific "gripping."

The basketball "bug" seems to be getting into some boys' blood by the way the Frank Thompson Gymnasium is looking these days. Some very familiar faces are being seen there everyday now about 4 o'clock. The most frequent are—last year's Wolfpack Captain, Lee Terrill, Bobby Goss, Bob Cook, Bobby Speight, Mel Thompson, Dave Gotkin, Dan Knapp, and Paul Brandenburg.

As for soccer, the team started practice this week and seems to have the prospects of having a great team. This is one sport that is very poorly known by most students here at State, so let's try this year to see more games and help support the team.

On the tennis courts these days there are a number of the tennis team getting in shape for the com-

(Continued on Page 8)

MODERN TRIANGLE A BOY... A GIRL... TV

Let's face it. Living rooms are still in style. But a third party is inching its way in to form a crowd.

And no wonder. Few can resist this miracle that has brought the world and set it down in front of you. Living history, flowing past your eyes. Politics. U. N. sessions. Sports. Spot news. Personalities.

We in the Bell System help to put you in this front-row seat on history. Bell Laboratories research contributed to TV de-

velopment. Now our radio-relay systems and coaxial cables carry the images between cities and across the country.

Our part in TV transmission is only one among dozens of activities that keep us in the front line of modern communications. They are all reasons, we believe, why college people should find out what the Bell System has to offer in the way of opportunities.

Why don't you ask your college placement office about it?

BELL TELEPHONE SYSTEM

A Message to Engineers from Walter Tydon*

"A secure future, exceptional opportunities for advancement, and a high starting salary await you at FAIRCHILD, if you are one of the men we are looking for. We have openings right now for qualified engineers and designers in all phases of aircraft manufacturing; we need top-notch men to help us in our long-range military program: turning out the famous C-119 for the U. S. Air Forces.

"FAIRCHILD provides paid vacations and liberal health and life insurance coverage. We work a 5-day, 40-hour week.

"If you feel you are one of the men we are looking for, write me. Your inquiry will be held in strictest confidence, of course."

Walter Tydon

*Walter Tydon, widely known aviation engineer and aircraft designer and veteran of 25 years in aviation, is Chief Engineer of Fairchild's Aircraft Division.

FAIRCHILD Aircraft Division
HAGERSTOWN, MARYLAND

CAMPUS SPORTS—

(Continued from Page 7)

ing tennis season. This year the team is not too crowded, so if any of you students are undecided as to whether or not to go out for the team, do so by all means.

Baseball may seem to most people to be in the far off future but to members of last year's team it is just around the corner. Some of the pitchers are already starting to toss the old ball around a little.

For the "gripping" part it is well on its way to another successful season as some of the boys seem to be in fine shape. But if some of this didn't go on boys wouldn't be boys.

Summing up it seems from here that this is going to be another very successful season in the world of sports. Also one or two things I forgot to mention are—be sure and see the State Track Team in action in their first cross-country meet

tomorrow at 4 o'clock behind the Coliseum on the cross-country course; also there is going to be a very interesting football game at 8 o'clock in Riddick Stadium between the Wolfpack and the Wildcats of Davidson. The swimming team is starting to try to get in shape for another year as Southern Conference Champs—so watch their team this year. The State Soccer Team will play its first game of the season here at State on October 24 at 3:30.

DAVIDSON—

(Continued from Page 6)

Harvey Yeates and John Zubaty were also standouts in the incident last week. Other key men include Bagonis, Barkouskie, Urgovitch, Davis, Frankos, Paroli, Nixon, Micklen, Swanger and Spritz.

It was just three years ago that Davidson upset the Pack, 20-14, in a game played in Charlotte. Last year State walloped the Cats, 31-0, in one of State's better games. The State offense is expected to begin clicking tomorrow and the Pack is picked to outscore the Davidson attack.

VIEWS AND PREVIEWS—

(Continued from Page 6)

honors. The Technician ran stories on several of the local stars last spring and had planned to run a special feature on Lewis in the last edition. The story was not printed and I'd like to offer my apologies to him and his team-mates. The team will greatly miss him next spring.

The State College Sports Publicity Director, Ed Storey, has been of great help to the Sport Staff this fall and is due many thanks. He's a great guy and deserves much credit that he seldom gets.

Freshman Jerry Armstrong is the new assistant on the sports staff. He shows the ability and interest of becoming the future Sports Editor, which might be sometime soon. I regret that I won't be around much longer, but I just hope that you enjoy this page half as much as I do writing it.

TRACK TEAM—

(Continued from Page 6)

During Coach Fitzgibbons three years of coaching the track team here at State has a very impressive record. He in his three years as head coach here has placed his team in one of the first three places in the Southern Conference every year—in first place in 1951—in second place in 1949 and in 1950 he ended the season in third place.

Coach Fitzgibbons has extended to any student a personal invitation to come out for track, because he says that the more men you have to choose from the better team you have.

Staff Members Needed

Anyone interested in writing sports is urged to join the staff. The present staff is only composed of two members and is in need of two or three more.

Students interested are requested to come by THE TECHNICIAN office in the south wing of the 1911 Building Tuesday night at 7 p.m.

BOTH regular and king-size Chesterfields are premium quality cigarettes and come in the smart white pack.

BOTH contain only those proven ingredients that make Chesterfields the best possible smoke: the world's best tobaccos, pure, more costly moistening agents (to keep them tasty and fresh), the best cigarette paper that money can buy—nothing else.

BOTH are much milder with an extraordinarily good taste and, from the report of a well-known research organization—no unpleasant after-taste.

BOTH are exactly the same in all respects. There is absolutely no difference except that king-size Chesterfield is larger—contains considerably more of the same tobaccos—enough more to give you a 21% longer smoke, yet costs very little more.
