Faculty Lauds Colonel Harrelson

Approximately 500 members of the North Carolina State College faculty last Saturday night honored Chancellor J. W. Harrelson as "student, alumnus, teacher, administrator, and builder of State College."

The faculty held a dinner in honor of Chancellor and Mrs. Harrelson and paid tribute to the couple for their service and devotion to the institution.

Dr. Z. P. Metcalf, veteran member of the faculty, outlined the chancellor's record of achievements in an address. Dr. Frank H. Jeter, agricultural editor of the college, was the toastmaster. The invocation was spoken by Dean of Students E. L. Cloyd.

Acting on behalf of the faculty and administrative officers of the college, Dr. Metcalf also presented the chancellor a citation, composed by Dr. A. M. Fountain of the English Department. The citation reads:

"Colonel John William Harrelson 'Student, alumnus, teacher, administrator, and builder of State College;

"Under whose guidance for eighteen years this institution has seen its greatest era of growth in size and service to the people of North Carolina, a growth as great in vision and motive as in scope, as rich in fruition as in the mental grasp that laid hold upon it;

"Whose love of State College has taken him across its constantly widening grounds for nearly half a century, where each succeeding

term brought increased devotion to that seat of learning to which he gave the finest strength of all his finest years;

"Whose accomplishment approaches the wideness of his (Continued on Page 4)

Carnival Coming

The College Union Social Committee will sponsor its annual Carnival Night tonight from 7:30 to 10:30 in Frank Thompson Gym. Games, entertainment, and refreshments will be offered.

Faculty members will be the "barkers" running the booths. Door prizes and high score prizes will be awarded.

'Goodwife' Prospects Sought by C.G.

Each year your Campus Government sponsors the awarding of "Goodwife Diplomas" to the wives of all graduating students. All cost is covered by your Campus Government.

You will be contacted by mail concerning your wife's diploma within the next few days. If we do not contact you or if you know some eligible student whom we do not contact, please notify the Campus Government President or some member of the Promotion's Committee at the Campus Government office as soon as possible.

Freshmen Excused For Testing Tues.

Attendance Compulsory for Frosh at Ford Foundation-Sponsored Testing Program

By action of the Faculty Council classes will be suspended for all students classified as freshmen from 11:00 a.m. to 1:00 p.m. Tuesday, May 19, in order that these students may participate in a testing program sponsored by the Ford Foundation Research Committee of the School of General Studies. The Committee asks the cooperation of all students by observing the following procedures:

1. Attendance is compulsory
2. Be in seat at assigned auditorium no later than 11:10 a.m.
3. Make note of the auditorium to which you are assigned

Schedule of Testing Auditoriums: Tuesday, May 19, 11:10 a.m.

School of Engineering — Last name beginning with A-L (inclusive), Textile Auditorium; Last name beginning with M-S (inclusive), Riddick No. 242; Last name beginning with T-Z (inclusive), Broughton No. 111.

School of Agriculture — Williams No. 251.

School of Design—Withers No. 118.

School of Education—Withers No. 118.

School of Forestry—Withers No. 118.

School of Textiles—Textile Auditorium.

- Name of Tests:
1. "A Test of Critical Thinking"—50 minutes.
 2. "Inventory of Beliefs"—30 minutes.

Jean Jenkins Chosen Top State Coed

Pinning the winner's certificate on the first choice photograph at the recent Union Camera Contest is Miss Jean Jenkins, herself a winner of the Woman's Club top Coed award.

Smithfield Mother Runs Close Second

College Woman's Club Award Goes to Coed Architect in the School of Design

The "Outstanding Coed Award" presented annually by the State College Woman's Club will go this year to Miss Jean Jenkins of Norfolk, Virginia.

Mrs. Barbara Byrd of Smithfield is a close second. Jean is a 4th year student in Architecture and has been on the Dean's list for the last two years. She is secretary of A.I.A. and was chairman of the College Union Gallery Committee.

Jean graduated from Radcliffe College with an A.B. degree prior to entering State.

Barbara Byrd is studying Agricultural-Biological Chemistry and has a grade point average at State of 2.46. Prior to enrolling here she attended Woman's College for 2 years. Mrs. Byrd commutes daily to Smithfield. She is the mother of one child.

Thorne Real Winner

A misprint was found in the election returns printed in the May 1st issue of the *TECHNICIAN*. For vice-president of the rising Junior class the correct vote tally is as follows: Al Thorne 196, Don Joyce 124.

Campus Government Starts New Year

Resolutions and Standing Ovations Mark the Exit of Old Council and Officers: Improved Insurance Plan Increasing Coverage Adopted

OUTLAND COMMENTED

Old Council Clears Agenda Before Releasing Reins: Resolutions Read

Avery Submits Three New Cut Proposals

In Campus Government this week it was figuratively "over and Outland" for the retiring president of C. G. as Vince Outland signed off and Bill Oliver, supported by his entourage of new officers, came on.

Outgoing Outland called for a few committee reports before turning over the Chair to Oliver. Earl Poplin offered his suggestion that the Council accept Pilot Life Insurance Co. as the organization with which student accident insurance policies would be initiated for the coming year. Poplin's suggestion was taken by the Council and approved in the form of a motion. Full details of the transaction will be available next week.

Tom Avery, Chairman of the Elections committee then gave his report and another dealing with cut system recommendations which will be submitted to the advisory committee of Faculty Council in the form of a letter which follows: Advisory Committee Faculty Council

Gentlemen:

Although the present cut system was originally proposed by students at State College, we the members of this year's Campus Government, feel that the system is now unsatisfactory. We do therefore, strongly recommend that the Advisory Committee reconsider the regulations for class attendance now in effect and we would be willing to send representatives of our group to any body studying this important campus problem. In general, the Campus Government, feeling that upper classmen must assume adult responsibility, believes that State College might greatly benefit by the abolition of compulsory attendance for juniors and seniors.

The reason for our thoughts and efforts along these lines are that we feel the following benefits would accompany a change:

- (1) Qualified students have failed to gain membership in honorary societies or in other cases have failed to remain in school because their averages have been

(Continued on Page 2)

Retiring Councilmen Generously Praised

The committee reports complete, Outland delivered the gavel into the hands of Bill Oliver. Bill's first action as President was to read several resolutions concerning the efforts of the retiring Council members. They are as follows:

Whereas Vincent Outland, while serving as President of Campus Government for the school year 1952-53, fulfilled this office in the best interest of the students and in the highest tradition of North Carolina State College, and through his outstanding leadership has at all times fairly and impartially considered all legislation, demonstrated high ethical and moral judgment in all trials, and furthered good will relations between administration, faculty and students; be it therefore resolved that the Campus Government body of the year 1953-54 extends to Vincent our congratulations and appreciation for a job well done, and extends to him our best wishes for future success.

Resolution: Whereas Tommy Ward, while serving as Vice-President of Campus Government for the school year 1952-53, fulfilled this office in the best interest of the students and in the highest tradition of North Carolina State College, and through his outstanding leadership in "Operation Spirit" and Athletic seating committee has substantially improved school spirit and student morale; be it therefore resolved that the Campus Government body of the year 1953-54 extends to Tommy our congratulations and appreciation for a job well done, and extends to him our best wishes for future success.

Resolution: Whereas T. E. Ricks, while serving as Secretary of Campus Government for the school year 1952-53, fulfilled this office in the best interest of the students and in the highest tradition of North Carolina State College, and through his tenacity for work and his unending loyalty to Campus Government even in the face of sickness at home has enabled Campus Government to obtain many goals during the past

(Continued on Page 2)

RESOLUTIONS—

(Continued from Page 1)
year; be it therefore resolved that the Campus Government body of the year 1953-54 extends to T. E. our congratulations and appreciation for a job well done, and extends to him our best wishes for future success.

Resolution:
Whereas Bob Carlson, while

serving as Treasurer of Campus Government for the school year 1952-53, fulfilled this office in the best interest of the students and in the highest tradition of North Carolina State College, and through his careful scrutiny of the Campus Government funds has seen that those deserving groups have been impartially considered; be it therefore resolved that the Campus Gov-

ernment body of the year 1953-54 extends to Bob our congratulations and appreciation for a job well done, and extends to him our best wishes for future success.

Resolution:
Whereas the Campus Government body for the year 1952-53 have served the students well through carefully considered legislation, having at all times considered the interest of the students and interest of the school; be it therefore resolved that the Campus Government body of the year 1953-54 extends to them our congratulations and appreciation for a job well done, and extends to them our best wishes for future success.

Resolution:
Whereas Bob Horn, though an ex-official member, has actively participated in the meetings and given editorial support in an effort to better acquaint the students with the functions of Campus Government; be it therefore resolved that the Campus Government body of

the year 1953-54 extends to Bob our congratulations and appreciation for a job well done, and extends to him our best wishes for future success.

All of the resolutions were adopted unanimously and were each followed by a round of standing ovations.

Campus Government will meet again next Tuesday at the regular noon time. The retired members have been urged to attend in order to answer any questions which the new members might pose, since the former members were put on an ex-officio status by the new Council.

CUT SYSTEM—

(Continued from Page 1)
lowered due to points lost by way of the present cut system.

(2) Students engaged in extra-curriculars would feel able to devote some crucial time toward matters not directly pertaining to scholastics.

(3) Extra time might be available to prepare for crucial quizzes which time would now be spent attending a class which might have been missed without serious consequences.

(4) Teachers who, at present, do not present their course in an interesting manner might be forced to do so in the future to improve their attendance.

In accordance with this, we present the following systems, feeling sure that at least one of them will be completely acceptable from the student's as well as the faculty's viewpoint. In particular, we feel that any system adopted must incorporate all the following characteristics:

(1) Elimination of every medium whatsoever through which class attendance could assume academic quality, i.e., excessive cuts causing loss of quality points.

(2) Any punishment whatsoever will be under jurisdiction of Campus Government Honor Court until such time as a new Constitution could delegate authority to executive honor committees at the various schools.

(3) Juniors and seniors would be given proportionally greater freedom with respect to class attendance than freshmen and sophomores.

(4) In no case would any group except perhaps freshmen have as few or less unexcused absences than prescribed by the present system.

(5) If a system is adopted wherein all students are given a maximum number of unexcused absences a student under "C" average will abide by freshman cut privileges until such time his average is "C" or better.

(6) Announced quizzes require attendance (announced means a week or more in advance, whereas "pop" quizzes will be made up at a time suitable to both instructor and student.

(7) Unexcused absences from Saturday classes or classes on days before holidays should not merit double cuts or some other form of penalty since they are of no more importance than other classes.

System No. 1

1. No restrictions concerning class attendance will be placed upon Juniors and Seniors.

2. Sophomores will be allowed twelve (12) unexcused absences per term.

3. Freshmen will be allowed eight unexcused absences per term.

System No. 2

1. This system will incorporate the aforementioned general characteristics plus the following concerning number of cuts:

a. Each student, freshman and sophomore will be given a number of unexcused absences equal to the number of credit hours they are taking.

b. Juniors and seniors will be given a number of unexcused absences totaling twice the number of credit hours they are carrying.

c. These totals will have no restrictions as to total cuts in one course, i.e., the total number of cuts allowed could be possibly taken in one course.

System No. 3

This system is the same as No. 2 except:

1. The freshmen and sophomores will be given total number of cuts equal in number to one-half number of credit hours they are taking.

2. Junior and seniors will be given total number of cuts equal to number of credit hours they are taking.

New Officers Of The Future Farmers

Dr. Anderson New Prexy of NCAS

Dr. Donald B. Anderson, associate dean of the Graduate School and head of the Division of Biological Sciences at North Carolina State College, is the new president of the North Carolina Academy of Science.

He was elected to the post at the 50th annual meeting of the academy, which ended at State College last week. Dr. Anderson succeeds Dr. Otto Stuhlman of the University of North Carolina in Chapel Hill.

Other academy officers who were named to serve with Dr. Anderson are Prof. Florence Schaeffer of the Woman's College, University of North Carolina, Greensboro, vice president; and Dr. John A. Yarbrough of Meredith College, secretary-treasurer.

The academy decided to hold its next meeting at East Carolina College in Greenville in May, 1954.

Dr. Anderson, the academy's new president, joined the North Carolina State College faculty in 1925 after having earned B.S., B.A., M.A., and Ph.D. degree at the Ohio State University. He is an internationally-known teacher, writer, scientist, and educational administrator.

In 1951, he was chosen to receive the "Oliver Max Gardner Award" as the faculty member of the Consolidated University of North Carolina who "during the past year

has made the greatest contribution to the human race."

To Restore Its Lost Luster To The Golden Chain, Add A Little Tarnish Remover

A tense moment, as an old "link" taps his successor after having twice encircled the group which seated itself on the lawn just south of Holladay Hall last May. Most of those seated came in response to invitations sent by Golden Chain.

Golden Chain is an organization which was founded in May, 1926, ostensibly to "promote better citizenship and leadership on the campus." Each year, in May, twelve juniors who are considered the outstanding members of their class, are added to the Chain at a tapping ceremony held on the lawn fronting Holladay Hall.

To be sure many of the links who have become a part of the Chain were every bit deserving of the honor which was bestowed upon them. That is all well and good, but it is our observation that too many others have not been as deserving as they might have been, or as deserving as some other individuals. To emphasize this point we submit the record of a student whom we considered sure-fire Chain material two years ago. It is thought to be one of the best records ever established at the College. The student's name has been withheld for obvious reasons, nevertheless, this is an official record:

At only 21, Blank has completed the work for two bachelor of science degrees from State College. He will receive the B.S. degree in nuclear engineering, and has also finished the requirements for a bachelor's degree in electrical engineering.

He recently invented a device which reduces the time for making certain difficult atomic calculations from six hours by hand to four minutes with the machine. The instrument looks like a radio set stripped of its cabinet.

Blank's invention of this device, together with his outstanding academic record and other achievements, won for him undergraduate membership on the State College Chapter of the Society of the Sigma Xi, America's highest honor society in the general sciences. He is the first undergraduate to become a member of the State College chapter.

Since entering State College in September, 1948, Blank has been named to the all-campus intramural horse shoe team and has accomplished such other varied feats as winning the election for permanent president of the Class of 1952, which will leave the campus following the graduation program, Sunday, June 8.

A 1948 graduate of Reidsville High School, young Blank was chosen as the most out-

standing ROTC student at State College this year, winning the American Legion medal presented annually by the North Carolina Department of the American Legion. He was a cadet lieutenant colonel in the Air Force ROTC this year.

He has the highest average of any student enrolled in nuclear engineering at the College. He has taken as many as 27 hours of school work a term and has made all A's in this work.

Topping off his academic work at State College was his recent selection to receive a National Science Foundation Fellowship. With a year's deferment from military service, he soon plans to enroll at the University of California in Berkeley, where he will begin work for a master's degree in nuclear physics and may later work on his Ph.D. degree there if not called to active duty in the Air Force.

Among his honors at State College were his selection as a freshman companion in Order of St. Patrick, engineering honor group; business manager of *The Wataugan*, campus humor magazine; chairman of the nuclear engineering departmental honor committee; vice-president and president of the Order of Thirty and Three, sophomore leadership society; and co-chairman of the Engineers' Exposition for the Physics Department.

He is a member of the college student chapters of Phi Eta Sigma, national honorary freshman fraternity; the American Institute of Electrical Engineers; the Institute of Radio Engineers; the American Institute of Physics; the Arnold Air Society, honorary society for Air Force officers; the Cadet Officers Association; Scabbard and Blade; Sigma Chi Fraternity; the Board of Student Publications; and the College Union forum committee.

In addition, he was secretary of the Senior Class, member of Tau Beta Pi, vice-president of Phi Kappa Phi, Sigma Chi's scholarship chairman, the outstanding senior engineering student as chosen by the Engineers' Council, recipient of Phi Kappa Phi's gold medal for the highest scholastic average in his junior class, and was chairman of the World Student Service Fund drive. He was also a dormitory counselor.

Well, with a record like that you'd figure the guy couldn't miss the Chain. We have news for you; he did.

One might easily suspect, noting the date of its founding, that Chain "fathers" paved the way for the New Deal administration, for successive links have certainly had no inhibitions about spending the student taxpayer's money. Since when did the process of promoting leadership involve going to Campus Government each year to request a dole of several hundred dollars. This year \$200 was allotted. The money was spent on a banquet at which the Golden Chain members presided as sponsors when, in effect, the tax-paying students were the real sponsors. The members of Golden Chain did nothing on their own initiative to raise the money which was spent in the name of "promoting leadership." Part of the money was also spent on a page for the *Agromeck* on which the Links are pictured. The money came from the \$1.00 Activities Fee for which every student is assessed. The Golden Chain members, like their predecessors, made no effort to secure funds by themselves to pay for their page in the *Agromeck*. We think that they should.

We furthermore think that the price tag on Golden Chain is too high, much too high. Bestowing the honor upon the deserving is one thing, but having them feel obliged to lower the line of the "loot" in the Campus Government coffers is another. Surely the honor aspect of the selections can be preserved without the general student body having to pay through its financially exploited nose.

One does not promote leadership to any appreciable degree by holding costly banquets for people who have already assumed positions of leadership. That, to our way of thinking, is putting the cart before the horse. The place to start promoting leadership is among the potential leaders at the freshman and sophomore levels.

Thus the time factor enters the picture. Is there merit, we ask, in selecting the new Links at the end of their junior year? We doubt it. What guarantee does anyone have that the individuals who have been taken into the fold as rising seniors in May will continue to maintain their golden luster? It is our long-standing observation that many Links have ceased to maintain the high standings which they achieved previous to their having been tapped. They have repeatedly rested with full weight on their laurels during the senior year only to coast into graduation without having made any further constructive contributions to the general welfare of either their fellow students or the College. This being the case, we suggest that perhaps the best time to select the new Links is at the end of their senior year. Then, their record is complete. This would eliminate the possibility of selecting Links who are no more deserving than an actress who has been presented the Academy Award on the basis of the reviews of her latest picture before the judges had actually seen it.

It is our contention that the methods by which new Links have been selected for the Chain leave much to be desired. This statement is made even as the present Links prepare to select their successors. The times then are propitious. We have knowingly geared this editorial to the time that is growing near when the names of the new Links will become known. We have already had indications that the selections will not be made on the basis of the standards set in the past. This is gratifying news, for Golden Chain has lost face in the last several years. It no longer enjoys the respect of the general student body as the foremost honorary

FACULTY—

(Continued from Page 1)

dreams; whose horizons have kept their growth beyond each new enlargement;

Whose keenness of mind engendered its own contagion among those he taught; whose logic of decision has served as guide to those of lesser certainty in administration; whose respect for others has been returned with usury of good will;

"Whose high moral principles have made themselves a tradition firmly interwoven amid the things we do and see and say here; whose sense of personal dignity has been both felt and followed by all with whom he labored;

"To such a friend and guide in times of peace, to such defender in the years of strife, we, his colleagues, co-workers in the common good, present this token of our esteem, loyalty, and lasting devotion."

organization on the campus. The Gold on the Chain has become tarnished, and we long to see it shine again. That is what motivates this writing.

We look forward to the day when Links will not have to be put on probation for lack of participation in the meetings as two were this year. We look forward to the day when people who genuinely deserve to become Links will not be by-passed in favor of individuals whose superficial qualifications blind the selectors to the real worth of others.

This year there are links from four of the college's six schools represented on the Chain. Does it not seem odd that there is no individual from the School of Education or from the School of Textiles who could meet the Chain's standards? We suspect that there must be. We furthermore suspect that the reason that these individuals have not been recognized has something to do with the method of selection.

The number of people who can become Links (12) is also not arbitrary enough. Who is to say that there will be 12 people of Golden Chain stature in the rising senior class every year. Sometimes there may be more than 12, sometimes less. Perhaps a standard of not less than 10 or more than 16, if it were set, would prove more flexible and therefore more satisfactory.

What would be more satisfactory? Perhaps the answer lies in the adoption of a point system which would eliminate the prejudices inseparable from human judgment. We have already had sufficient indication that the honor involved in the selections seems to indicate that a man is honor bound to nominate his cohorts rather than the better qualified man.

We trust that the selections which will be made very shortly will reflect our thinking on this matter.

SUPPORT OUR ADVERTISERS

TRIPLE THREAT MAN!

The Brains of the Team

Teamwork can work miracles. In a football game the man who sparks these miracles is the quarterback. He's the man who calls the signals. There's a man who-calls the signals for an Air Force flying team, too! They call him an Aircraft Observer.

Do YOU have what it takes to become an Aircraft Observer? It isn't easy. It's tough. You have to be a MAN to qualify as an Aircraft Observer. But when you are one, brother, you're SOMEBODY! The success or failure of a mission involving over a million dollars worth of flight equipment depends on you.

THE AIRCRAFT OBSERVER IS THE SOMEBODY WHO:

- As *Bombardment Officer*, is number one man on a bombing run, the man who controls the plane in the target area!
- As *Navigation Officer*, is the pilot's guiding hand on every flight!
- As *Radar Officer*, is master of a new science and operator of the device that sees beyond human sight!
- As *Aircraft Performance Engineer Officer*, is the one who "keeps the plane flying", the man who knows his plane in-

side and out, who keeps it fit for the skies and sees that it stays there!

If YOU can accept a challenge like this, you'll take your place beside the best—you'll find your future in the clouds!

TO BE QUALIFIED you must be single, a citizen, between 19 and 26½ years old, have had at least 2 years of college and be in tip top physical shape. If this describes you, then YOU, too, can qualify. Today!

HERE'S WHAT YOU'LL GET! The world's best training. Good food and plenty of it. Uniforms, flight clothes, equipment. Medical and dental care. Free insurance. Flight training in Uncle Sam's greatest aircraft.

AND THEN, AFTER GRADUATION, you'll win your silver wings, and earn more than \$5000 a year as an Air Force Lieutenant. You'll enjoy an adventurous, exciting career with a hand-picked crew of real men. You'll be THE BRAINS OF THE TEAM, A TRIPLE THREAT MAN... as a Bombardment Officer, as a Navigation Officer, as a Radar Officer, as an Aircraft Performance Engineer.

★ THE SOONER YOU APPLY, THE SOONER YOU FLY! ★

GET THE DETAILS: Visit your nearest Air Force Base or Air Force Recruiting Officer. Or write to Director of Training, Headquarters, USAF, Washington 25, D.C., Attention: Aviation Cadet Branch. If you are in a school that has an Air Force ROTC program, see your Professor of Air Science and Tactics.

★ New Aircraft Observer Cadet Training Classes Begin Every Two Weeks ★

★ AIRCRAFT OBSERVER PROGRAM ★

Economics-War tie To be Club Subject

Harrell Will be Guest Speaker at Discussion Club Meeting in Peele May 19

The Discussion Club will meet Tuesday night, May 19, at 8:00 p.m. in the Peele Lounge. Topic for discussion will be: "Economics—The Cause of War?", with Professor Harrell of the economics department as guest speaker and leader of the discussion.

The Discussion Club meets every two weeks and the meeting Tuesday night will be the last meeting for the school year. All interested members of the faculty and student body are invited to attend and take part in the discussion.

The Club is sponsored by the College Union Forum Committee. The Union Social Committee will provide refreshments.

Nuclear Experts to Speak in Riddick

Final 3 Speakers of Special Lecture Program Will Speak On May 18, 22, 27

The final three speakers on the special lecture program now being presented by the chemical and nuclear engineering departments are as follows: Mr. Edward E. Beauchamp, chemical engineer in the Oak Ridge Isotopes Division will speak May 18 on the subject "Packaging, Handling & Transportation," Mr. Robert P. Milford, chemical engineer, Process Design Section will speak May 22 on "Fluid and Solid Handling Techniques," Mr. Ira R. Higgins, Chemical Development Section who will speak May 27 on "Ion Exchange Operations."

Dr. F. P. Pike of the chemical engineering department is in charge of arrangements for the lecture series which is open to the public.

The lectures are held in Room 11 Riddick Building at 3 p.m. on the dates designated.

The Fudge Factor

Gather round me students and fellow sufferers. I want to tell you about a wonderful thing. Something that will get you the answers that you want. In Physics, Mathematics, Thermo and assorted subjects. It is the fudge factor.

What is the fudge factor? It is hard to define. It is a constant which has varying dimensions; one that can be adopted to fit any equation or any hypothesis. In modern physics it is sometimes called the neutrino or the neutretto. It explains many things which are otherwise unexplainable. It is used by many Professors and can be adapted to student use. It is a handy thing to have around when delving into matters which cannot be reached with our common sense or with our limited perceptive and receptive organs. Furthermore, you don't have to look in a book of tables to get it, though you often find it there nestled among empirical formulae and explaining observations otherwise unexplainable. You can use your own ingenuity and derive it in its desired form. Try it.

Philo.

Falbaum New Prexy Of College ASHVE

Norman Falbaum, rising senior in heating and air conditioning engineering at the North Carolina State College School of Engineering, was elected president of the American Society of Heating and Ventilating Engineers student chapter at the college at an annual election meeting on May 5.

Falbaum, retiring vice president, will be succeeded by Alvah D. Ehrman, rising junior from Ham-burg, N. Y.

Other incoming officers include: Jack L. Flowers, rising junior from Winston-Salem, secretary; Fred O. Drummond, rising senior from Kannapolis, treasurer; and James

Notre Dame Testing Expert Finds Many Freshmen Pick Wrong Courses

More than one-third of the students entering college today are selecting the wrong course of study due to an overestimation of their own aptitudes and abilities or because of parental influence, according to Edward R. Quinn, director of

the department of testing and guidance at the University of Notre Dame.

"We find this particularly true of students planning to enter the colleges of engineering and science," Quinn explained, "since many freshmen mistake an interest in mechanical tinkering for engineering aptitude and because of the glamour presently associated with the science and engineering professions

C. Deal, rising junior from New-ton, reporter.

Retiring president is Cauble James, of Gaffney, S. C.

by students, parents, and high school teachers."

Notre Dame's testing department administers a battery of group tests to all incoming freshmen for purposes of placement and guidance. The results of the tests, indicating the potentialities and capacities of the student, are reported to the heads of the academic departments.

"When a student is clearly not adapted to the course he has chosen, we bring the results of the tests to his attention, but make no specific recommendation until he has tried the work for at least a semester," Quinn indicated. It is then up to the student, and his parents, to decide if he should change his course.

The department of testing and guidance was established in 1945 to cooperate with the Veterans' Administration in classifying the post-World War II influx of college students. Since then, the department has become an integral part of the University and has increased its services to the student each year. In addition to helping students select the right course and the right job, the department employs flash meters and reading-rate accelerators to increase the reading and studying ability of students.

Don't you want to try a cigarette with a record like this?

1. THE QUALITY CONTRAST between Chesterfield and other leading cigarettes is a revealing story. Recent chemical analyses give an index of good quality for the country's six leading cigarette brands.

The index of good quality table—a ratio of high sugar to low nicotine—shows Chesterfield quality highest

... 15% higher than its nearest competitor and Chesterfield quality 31% higher than the average of the five other leading brands.

YEARS AHEAD OF THEM ALL!

2. First to Give You Premium Quality in Regular and King-size . . . much milder with an extraordinarily good taste—and for your pocketbook, Chesterfield is today's best cigarette buy.

3. A Report Never Before Made About a Cigarette.

For well over a year a medical specialist has been giving a group of Chesterfield smokers regular examinations every two months. He reports . . . *no adverse effects to nose, throat and sinuses from smoking Chesterfield.*

Talk on Alaska At SAME Meet

McCullough of CE Gives Illustrated Lecture, Major Rice to Speak on May 20

The Society of American Military Engineers held a regular meeting last Thursday.

Mr. C. R. McCullough of the Civil Engineering Department gave an illustrated talk on a recent trip which he made to Alaska.

The next meeting was set for 7:30 p.m., May 20 at which time all members will sign the formal charter application of the Society.

Major Richard Rice, Commander of the 3150th Engineer Reserve School, ORC located in Raleigh will be the speaker at this meeting.

College Orchestra to Play in Pullen May 17

Program to Include Mozart's Symphony No. 35, Works of Liszt Foote and Massenet, Time is 4 p.m.

The State College Orchestra will present its final concert of the current school year in Pullen Hall Sunday May 17 at 4 o'clock.

The program will include the Symphony in D major, No. 35 by Mozart, Suite for String Orchestra by Arthur Foote, Massenet's "Scenes Pittoresques" and Liszt's "Rakoczy March."

The College Union Social Committee will serve refreshments in Peele Hall Lounge after the concert to those who wish to meet the musicians.

Spring Dance May 16 In Frank Thompson

The College Union Dance and Social Committee announces the Spring Festival Dance to be held in the Frank Thompson Gymnasium on Saturday, May 16 at eight o'clock p.m. Girls will be coming from Meredith College, Peace College, Greensboro College and others.

The Greensboro College girls will arrive by bus at 5:30 p.m. Saturday in front of Peele Hall. Meet one of these girls and take her to the College cafeteria for dinner, Dutch style, and then to the dance.

Admission to the dance will be by registration card. Coats and ties will be required.

MORALS—

(Continued from Column 1) night date, with 2 a.m. being a not very close second. Students were asked: In your opinion, at what hour on a Saturday night should a coed be required to get back to her dormitory?

The answers:

By midnight or before . . .	14%
By 1 a.m.	45%
By 2 a.m.	24%
After 2 a.m.	8%
No opinion	4%
Other	5%

With the men, 2 a.m. is just as popular an hour as 1 a.m., both choices getting 33 per cent of the

male vote. But the girls are 54 per cent in favor of 1 a.m. and only 17 per cent in favor of 2 a.m.

Another 17 per cent of the girls would just as soon be returned to their dormitories by midnight or before; eleven per cent of the men feel the same way about it.

Many of the students are careful to qualify their answers with an "except on special occasions," or "unless there's a big dance."

A sophomore in Education at MacMurray College for Women, Jacksonville, Ill., things "it depends a lot on the size of the town and what there is for the students to do."

But a male junior at the University of the South, Sewanee, Tenn., is more specific. "After 2 a.m.," he says, "way after."

"No public man can be a little crooked. There is no no-man's land between honesty and dishonesty."
—Herbert Hoover.

Poll Shows School Men Highly Moral

Dorm Drinking Frowned on By College Students Sat. Dates Should End by 1 a.m.

(ACP)—Collegiate morals are higher than the popular stereotype suggests as indicated from results of the ACP National Poll of Student Opinion.

The vast majority of students are: (1) Against drinking in dormitories, and (2) Against staying out too late with their dates. Women are more "strict" about these matters than men.

Students were asked their opinions on dormitory drinking rules. Here are the results:

Should be allowed	16%
Should not be allowed	75%
No opinion	6%
Other	3%

Only 12 per cent of the women are for dormitory drinking; 82 per cent are against it. "I don't believe in drinking, period," exclaims a sophomore coed from Geneva College, Pa.

A freshman in Engineering at Southeastern Missouri State College thinks dormitory drinking should be allowed, because it "would keep them out of trouble in taverns."

And a business student at Richmond Professional Institute, Va., declares, "The more restrictions that are imposed, the more people will want to break them. College students should be treated like adults."

One a.m. appears to be the most popular hour for getting a girl back to her dormitory after a Saturday—

JERRY ARMSTRONG, Sports Editor

The Coming Year Holds Some Surprises

Next year holds lots of mysteries and questions on the situation of the athletics at State. All kinds of questions are being asked and some are trying to be answered in a common sort of way. One of the biggest questions is what the results of the new conference will be and what effect will it manage to place upon the Pack. The biggest blank seems to be the football team and what are they going to do this fall about keeping up with the basketball team.

Some people seem to think the new conference will give the Pack even less chance of having a winning team. Others differ and maintain the fact that a new conference is just what the team needs to give the needed spark to kindle a new fire on the scoreboard. Another big white spot is the new platoon system which goes into effect next fall. Jim Tatum commented on this by saying, "the pressure is all on the defense and we're going to have a lot of wild scoring games." If this holds true maybe State can get on the forward end of the tally and produce the kind of team the fans want to see in Riddick.

Around and Back

Just for the records last week a husky Parry O'Brien of the University of Southern California bettered the world 16-pound shotput record with a heave of 59 feet and three-fourths inch in the 27th annual West Coast Relays. The official world record was 58 feet and ten and one-half inches, set in 1950 by Yale's Jim Fuchs.

Coach Kenfield's "hard luck" tennis team seems to be getting harder all the time. They finished the season with one more win than defeats with the aid of some timely matches at the close of the season.

In case there is some doubt in your mind for the Blue Devils from Duke playing in the Southern Conference tournament instead of the Clemson Tigers the reason is this. The Conference rules state that a team must finish their regular season's play three days prior to the first day of the tournament and because the Tigers played a game after this assigned time the game played did not count on the pairings for the tournament. To give a better example of this the standings below indicate the actual way the conference ended as far as the tournament is concerned.

CONFERENCE STANDINGS

NORTHERN DIVISION

	Conference Games				All Games			
	W	L	Pct.	R	Op	W	L	Pct.
George Washington	8	2	.800	82	35	14	4	.778

Netters Take Win

State's tennis team dropped one doubles match yesterday as it defeated East Carolina College, 8-1.

The summaries:

Aksel (S) defeated Cameron, 6-2, 9-7.
Greenberg (S) defeated Hal-

low, 6-2, 6-2.
Duffett (S) defeated Muse, 4-6, 6-2, 6-0.

Gough (S) defeated Bruton, 6-2, 6-2.

Garman (S) defeated Foscue, 6-3, 3-6, 6-1.

Cashion (S) defeated Browning, 6-3, 6-3.

(Continued in Column 5)

Coach Sorrell's 1953 Men of the Diamond

The fifth team in the Southern Conference from left to right: 1st row—Coach Sorrell, Carl Wiles, Eddie Horbelt, Eddie Morris, Dick McGillis, John Fuscoe, Jack Yvars, and Trainer "Red" McIntosh. 2nd row—Assistant Manager Doug Greene, L. A. Green, Tom Miles, Sonny Santoli, Bob "Footsie" Gardner, Jack Turney, Johnny Yvars, and Art Weinbordt. 3rd row—Manager Ronald Brinson, Russell Frazier, Tommy Hargrove, Jim Meadlock, Horace Tuck, Dudley Whitley, Jim Hardison, and Joe Barringer.

Cindermen Lose Their Final Outdoor Meet

Coach Fitzgibbon's outdoor track team found a wild pack of Wildcats waiting for them when they journeyed to Davidson last week to close the season. The Cats paced by Frank Mitchener and Roy White defeated the State cindermen 84-47.

Mitchener won the 100 and 220-yard dashes, and ran a leg on the winning relay team, to compile 11½ points to top individual scorers. White was next with 11 points, winning the high hurdles and broad jump and placing third in the low hurdles.

Davidson won 12 first places in one of their best performances in recent years.

State's star distance runner, Buzz Sawyer, copped nine points to lead his team. He won the two mile run and tied with teammate Clyde Garrison for first place in the mile run. The two hit the tape together, holding hands, to give the Wolfpack its best score of the day.

The summary:

Shot put—1. Lazenby (D); 2. Petree (D); 3. Petersen (D). 38 ft., 9¼ in.

High jump—1. Yoder (NCS); 2. Dickman (NCS); 3. Huffaker (D). 6 ft., 2 in.

Mile run—1. Garrison and Sawyer (NCS) (tie); 3. Russell (D). 4:51.2.

440 yard dash—1. Shipley (D); Cook (NCS); 3. Howell (D). :52.0.

100 yard dash—1. Mitchener (D); 2. Hefner (NCS); 3. Bethune (NCS). :09.8.

Discus Throw—1. Gilley (D); 2. Petersen (D); 3. Petree (D). 129 ft., 2 in.

120 high hurdles—1. White (D); 2. Greene (NCS); 3. Robbins (D). :16.0.

880 yard run—1. Henry (D); 2. Garrison (NCS); 3. Spangler (D). 1:59.9.

220 yard dash—1. Mitchener (D); 2. Bethune (NCS); 3. Koontz (D). 22.2.

Two mile run — 1. Sawyer (NCS); 2. Sparks (D); 3. Miller (NCS). 9:41.5.

Javelin—1. Hoover (D); 2. Glass (NCS); 3. Petre (D). 145 ft., ½ in.

220 low hurdles—1. Robinson (D); 2. Morris (D); 3. White (D). :27.1.

Pole vault—1. Poston (D); 2. Logan and Feroe (NCS) (tie). 11 ft., 4 in.

Broad jump—1. White (D); 2.

Do You Know?

A familiar question at any athletic event is what is the name of the team? You have probably been asked this many times and wished at the time you knew. Well, here is the chance of a lifetime. In the column below are a list of the names of well known teams in this area and around the nation. Try and see how many you can name. The answers are in reverse order in the right hand column.

School Nickname

Arkansas	Gobblers
Army	Bulldogs
Auburn	Badgers
Baylor	Wildcats
Boston College	Rams
Brigham Young	Long Horns
California	Owls
Chattanooga	Mustangs
The Citadel	Gamecocks
Clemson	Broncos
Columbia	Spiders
Davidson	Owls
Duke	Tigers
Florida	Panthers
Fordham	Nittany Lions
Georgia	Beavers
Georgia Tech	Buckeyes

L.S.U.	Wildcats
Maryland	Wolfpack
Michigan	Goats
Minnesota	Buffaloes
Montana	Gophers
Navy	Wolverines
N. C. State	Terrapins
Northwestern	Tigers
Ohio State	Yellowjackets
Oregon State	Bulldogs
Penn State	Rams
Pittsburgh	Gators
Princeton	Blue Devils
Rice	Wildcats
Richmond	Lions
Santa Clara	Tigers
South Carolina	Bulldogs
Sou. Methodist	Moccasins
Temple	Golden Bears
Texas	Cougars
Univ. of N. C.	Eagles
Villanova	Bears
Wisconsin	Plainsmen
Yale	Mules
V.P.I.	Razorbacks

(Continued from Column 2)

Aksel and Gough (S) defeated

Hallow and Cameron, 6-2, 6-2.

Foscue and Bruton (ECC) defeated

Collar and Coppersmith, 6-4, 1-6, 6-2.

Duffett and Cashion (S) defeated

Maynard and Browning, 6-4, 6-1.

Frat Intramurals

By DICK RUDIHOFF

In softball the regular season play is drawing to a close. Sigma Chi has clinched their division championship and most of the other divisions will be decided this week.

On April 30, Sigma Nu staved off a last minute rally by Kappa Alpha and won 7 to 5. Speight and Goss spearheaded the Sigma Nu attack while Hall for Kappa Alpha started in a losing cause.

Harris of Pi Kappa Phi pitched his team to a 7 to 4 over Phi Epsilon Pi. Holding P.E.P. to 4 hits, his teammates virtually walked around the bases with 12 walks.

Pitcher Jerry Gaier belted a double in the bottom part of the last inning to knock in the tying and winning runs as Sigma Alpha Mu edged out Phi Kappa Tau 5 to 4. It was the Sammy's fourth win without a setback.

Lambda Chi Alpha put across 10 runs in the first inning as they beat Sigma Alpha Epsilon 13 to 10. A total of 15 walks were given up by Straughn, the S.A.E. pitcher, who just couldn't seem to find the plate.

Alpha Gamma Rho broke a 5 to 5 deadlock with 4 runs in the last inning to go on to win.

Strange and Blanton combined their pitching and hitting talents to pace Sigma Phi Epsilon to a 3 to 2 win over Pi Kappa Alpha. Blanton knocked out 3 straight singles in the contest.

Fraternity badminton has gone down to the semi-final stage. The four teams that are remaining are Sigma Alpha Epsilon, Kappa Alpha, Pi Kappa Alpha, and Sigma Nu.

Fraternity tennis is also in the semifinal stage. Sigma Chi, Pi Kappa Alpha, Pi Kappa Phi, and Sigma Alpha Mu are the remaining teams.

A long face and broad mind are rarely found under the same hat. —Optimist.

With the Greeks

By DICK RUDIHOFF

By DICK RUDIHOFF

Delta Sigma Phi is holding its annual "Sailors Ball" this weekend. The affair will take place at Truby Upchurch Lake and there will be a barbecue supper. Elections were also held for fraternity officers. Lewis Brunette was elected president, Bill Perry vice president, Cecil Madden treasurer, and Frank Saville secretary.

Lambda Chi Alpha held its traditional Crescent Ball at the Tar Heel Club last weekend. The music was furnished by Harold Bert and his orchestra. The fraternity held its Inter Zeta basketball tournament on last Wednesday night. State, Wake Forest, and Carolina participated with Carolina coming out on top of the three. Don Macrini, Richard Murphy, and Jim Weir became new pledges for the fraternity. A bridge tournament is being sponsored by this fraternity on the night of May 20. All boys who belong to social fraternities are cordially invited to attend.

The White Rose Ball is being held by Sigma Nu Fraternity. It

promises to be a gala affair. Rushing functions on May 13 and 15. Sigma Alpha Epsilon initiated 8 new boys into the fraternity. They are Carl Maurer, Tom Nemery, Greer Park, Sid Briley, Richard Rogers, Jim Ingram, Graham Farmer, and Joe Svier. A party followed the initiations.

Pi Kappa Phi men are rehearsing for the annual fraternity sing which will be held on May 22. A large fraternity participation is hoped for. Election for fraternity officers was held last week. Dick Dickson became president, Alex Anthony treasurer, and Ken Sledge secretary. The 25 annual Rose Ball is being held this weekend. The affair will include crowning a queen. There will be a cocktail party on Saturday afternoon, a banquet on Saturday night at the Village Restaurant, and a picnic on Sunday afternoon.

Sigma Pi is holding a party at Greshams Lake this Saturday night. Truby Upchurch Lake will be the scene of a Sigma Phi Epsilon party this weekend.

Summer Jobs Will Require Cards

The following information from Mr. John Ingle of the Raleigh Social Security Office may be of interest to any students planning to work this summer in commerce, industry, hotels or camps.

Students holding such jobs will be required to have social security cards. There is no charge for a card and no minimum age requirement. Application blanks are available at office or social security office.

It takes several days to get a card so students should apply for their cards a week, at least, before they plan to start working.

State 'Arts' Men Attend Detroit Meet

Representatives from North Carolina State College and East Carolina College have returned after attending the annual meetings of the American Industrial Arts Association and the American Council on Industrial Arts Teacher Education in Detroit, Mich.

Dr. Ivan Hostetler, head of the State College Industrial Arts Department, was elected to a two-year term as treasurer of the council. Gene Phillips of Kannapolis, a State College student, was chairman of one of the sessions and made a talk during the meeting.

ACADEMY—

(Continued from Page 3)

Approximately 400 scientists from at least 30 of the State's colleges and universities and from a number of public institutions and agencies attended the two-day academy meeting at State College.

The Academy adopted a resolution opposing the establishment of any air base or air installation which would, in any way, impair the usefulness of the Crabtree State Park, except in the event of a national emergency.

The U. S. Air Force has had under advisement for several months a plan to establish an air base at the Raleigh-Durham airport, which is located near the Crabtree State Park.

Sets the Pace in Golf

There's a Spalding golf ball for every game and pocket-book. See your golf professional or dealer.

Ted Haggai is Winner of \$500 GE Award, One of 70 Honored in Nation

Theodore F. Haggai of Hendersonville, a rising senior in the School of Engineering at North Carolina State College, was recently awarded a \$500 scholarship by the General Electric Company.

The presentation was made by Alvin J. Hill, manager of GE's Raleigh apparatus office, at a meeting of the State College student chapter of the American Institute of Electrical Engineers.

Haggai is one of 70 students in the nation and one of ten in the Southeast to receive the scholarship sponsored by the General Electric Company. The award was based on scholarship, leadership, extra-curricular activities, and financial need.

Haggai, who scholastically is in the upper 25 per cent of his class, is a World War II veteran with 26 months service in the Pacific. He is the son of a Baptist minister, the Rev. W. A. Haggai, and Mrs. Haggai now of Binghamton, N. Y., and has two brothers who are Baptist ministers.

He holds membership in Tau Beta Pi, Eta Kappa Nu, and the YMCA. Highly active in extra-

curricular activities, he is vice chairman of the American Institute of Electrical Engineers at State College and secretary of the Engineers' Council, highest organization in the College's School of Engineering.

While a hospital maintenance man in Brocton, Mass., he designed an inexpensive suction pump. He has owned a radio service shop and worked for North American Aviation Corporation. As a hobby, he has also done stunt parachute jumping.

Ag Club Meeting Features Folk Dancers

The Ag Club moved into the YMCA auditorium for last Tuesday night's meeting where the Meredith Folk Dance Group staged their show. Their program consisted of several dances from foreign countries complete with costume, music, and style.

The primary election of officers for next fall will come up at the May 19 meeting. There ought to be a big turnout and some good politics.

Big TV Show In Coliseum Soon

Homer and Jethro, Lanny Ross, to Appear in Person, Half Price for Students

The biggest television event in North Carolina history will be presented here May 21-23 when the first Raleigh-Durham TV Fair is scheduled in the William Neal Reynolds Coliseum at North Carolina State College.

Continuous entertainment has been planned throughout the TV Fair. The hours that the fair will be open include Thursday, May 21, from 7 to 11 p.m.; Friday, May 22, from 3 to 11 p.m.; and Saturday, May 23, from 2 to 11 p.m.

A 20-minute show each hour will be shown through a closed television circuit in the Coliseum. Among the television, radio, and stage stars who will perform in person for these shows will be Homer and Jethro, famed stars of the Breakfast Club, National Barn Dance, and Victor Records; Lanny Ross, singing star of the movies, the Mutual Broadcasting System, and records; Hal LeRoy, famous Hollywood dancing artist; the Dinning Sisters, Capitol recording, radio, and television performers; and Mrs. Hank Williams, wife of the late hillbilly star.

In addition, local entertainment talent will be on hand to give other shows on the closed circuit system. These shows may be seen on the scores of television screens to be set up in booths throughout the Coliseum. The principal purpose of the showing will be to demonstrate

To Brighten Your Rooms, Rita Moreno

Tired of staring at a blank wall? We'll bet you are. We'll also bet that you'd welcome some relief even if it isn't comic. We give you, then, this pic of Rita Moreno to stare at. You won't mind if she gazes intently back, will you?

CERAMIC SOCIETY TRUSTEE

DR. WILLIAM W. KRIEDEL
Dr. W. W. Kriegel, above, head of the Department of Ceramic Engineering in North Carolina State College's School of Engineering, recently was elected to a three-year term as a national trustee of the American Ceramic Society, an organization composed of ceramic manufacturers, educators, and professional engineers from throughout the United States. His election to the post is regarded as recognition of North Carolina's advancement in ceramic manufacturing and of State College's work as a top-level center of training and research in this industrial field. A State College faculty member since 1939, Dr. Kriegel has been head of the Ceramic Engineering Department since 1946. He is a native of Seattle, Wash., and holds degrees from the University of Washington and the Montana School of Mines. Last Sunday he rounded out a year's service as president of the Ceramic Educational Council, a key division of the American Ceramic Society.

NO WAR CLAUSES

N. C. State students are eligible to apply for up to \$10,000 life insurance without a war clause.
