

Cut System May Be Revised

By Bill Brehm

With the formalities of the roll being taken and the minutes being read completed, President Billy Oliver then swore in Clark Walker and W. T. Bradshaw as members of the Campus Government. Jim Whitner and William Huxter were then brought up by the Chairman of the Investigations Committee, Buck Harris. These men were investigated because they had missed four Council meetings. Bob Sample then moved that Jim Whitner be retained as a member of the Council with two cuts held against him. It was seconded and passed. Bill Brehm then moved that any member of the Council who finds he will not be able to attend a meeting must notify the President of the Campus Government as to the reason for his absence, and who he will send as an alternate. The Council decided to table the matter of William Huxter until he is present at a meeting to defend himself.

Billy Oliver then presented two resolutions to the Council. The first

stated that all organizations appoint a publicity chairman to report on all the organization's functions, which report is to be forwarded to the News Bureau. The second was that the News Bureau be increased by one additional member. The resolutions were passed.

Joe Trogdon, Chairman of the Rules Committee, then gave his report of classroom attendance. Joe presented two systems that the Faculty Council and the Rules Committee had agreed upon.

1st Proposal

Seniors and Juniors—No restriction on the number of cuts
Sophomores—15 cuts (no more than 3 cuts per course)
Freshmen—10 cuts (no more than 3 cuts per course)

The mid-term report will include the total number of cuts and the number of cuts taken in each course. Also attendance will be required for all labs and announced exams.

2nd Proposal

Seniors and Juniors—1 x no. of credit hours
Sophomores—3/4 x no. of credit hours
Freshmen—1/2 x no. of credit hours

Attendance required for all labs and announced exams.

Bob Sample moved and it was seconded that the second proposal be accepted. An amendment was added to the effect that the freshmen and sophomores' cuts be taken from the 2nd proposal, and that the juniors and seniors be given unlimited cuts as was stated in the first proposal. A substitute motion was made to approve the first proposal. A vote was called for, and the first proposal was approved. This will now be sent to the Faculty Council; if passed by them, it will become law.

Bill Odum, Chairman of the Off-Campus Promotions Committee, presented a resolution. He stated that there is going to be a forum of newspaper editors here in Raleigh. (Continued on Page 5)

Variety Show to Open at 8 Tonite

The College Union Theatre Committee will present the annual Student Variety Show tonight at 8:00 p.m. in Pullen Hall auditorium. Everyone is invited to attend.

All acts and actors in the show are students of State College. There will also be some faculty participation.

A coffee hour will be held after the show to allow the audience to meet the artists.

Students and dates will be admitted by registration cards, all others by either College Union membership cards or \$1.50 per person.

"Crystal Palace" On Display In Daniels

An exhibition, entitled "The Crystal Palace," is on display in the galleries of the School of Design on the third floor of Daniels Hall at the college.

It is open to the public without charge and will be on view through Monday, November 30. It is circulated by the Smithsonian Institution of Washington, D. C.

Organized jointly by Smith College Museum of Arts and Massachusetts Institute of Technology, the exhibition is largely based on the original color lithographs by the Dickinson Brothers, London, 1854, which present "Comprehensive Pictures of the Great Exhibition of all Nations of 1851."

In addition to these color plates from the collection of Smith College, the exhibition consists of photographic blow-ups of plans, elevations and details of the famous building by Joseph Paxton, old photographs of the "Crystal Palace" as well as of closely related edifices. The mounted panels in the exhibition are provided with full explanatory captions.

The 1851 Exhibition Building soon received the nickname, "The (Continued on Page 5)

Dec. 5 Named NCS College Day

Bostian Invites High Schoolers, Parents to Visit and View Campus

Chancellor Carey H. Bostian has designated Saturday, Dec. 5, as "North Carolina State College Day" and has invited high school juniors and seniors and their parents to be guests of the college during the observance.

The high school students will assemble in the William Neal Reynolds Coliseum Saturday, Dec. 5, at 11 a.m. and will be welcomed to State College by Chancellor Bostian. They will also receive instructions for campus tours to be held later in the afternoon.

The visitors will be guests of the college at the Davidson-N. C. State basketball game in the Coliseum Saturday night.

Highlights of the afternoon program will be tours of the Schools of Agriculture, Design, Education, Engineering, Forestry, and Textiles and informal talks by college representatives on the work of the

institution and its allied divisions. Accompanying the visiting high school students and their parents on the tours will be professors, other staff members, and State College students who will be on hand throughout the day to assist the visitors whenever possible.

Chancellor Bostian has appointed a seven-man committee, headed by J. J. Stewart, director of student housing, to make preparations for the entertainment of the students and their parents.

Other members of the committee are Roy Clogston, director of athletics; George Obenshain of Bristol, Tenn., editor of The Technician; Billy Barnes Oliver of Selma, president of the Campus Government; Rudolph Pate, director of the College News Bureau; Banks Talley, assistant dean of students; and H. W. (Pop) Taylor, director of alumni affairs.

11 Top Ag Students Become AZ Members

Eleven top-ranking students at North Carolina State College have been chosen as new members of Alpha Zeta, the nation's highest honor society in the field of agriculture.

The list of students inducted into the fraternity's membership was announced by William B. Nesbitt of Edneyville, Henderson County, the chancellor of the college chapter of Alpha Zeta.

The new A Z members are juniors and seniors in the Schools of Agriculture, Education, and Forestry. They are:

Ray Worley, Robbinsville; William Samuel Enloe, Edneyville; Walter Herman Anderson, Marion; James McKnight Hunter, Charlotte; Carl Stanley Sewell, Lumberton; James Hampton Griffin, Dover; Gene Martin Linney, Route 1, Hiddenite; Robert Jordan, Mt. Gilead; Harold James Anderson, Milwaukee, Wis.; Carroll Junior Southards, Bryson City; and Charles Lee Overman, Edenton.

Officers of the State College A Z Chapter this term, in addition to Chancellor Nesbitt, are Richard A. Ledford of Charlotte, censor; Julian P. Goff of Rocky Mount, treasurer; Willard K. Wynn, Jr., of Raleigh, scribe; and Frank D. Taylor of Faison, chronicler.

1953-54 Dean's List Announced

In recognition of outstanding academic achievement, 179 North Carolina State College students have been placed on the "Dean's List" for the 1953-54 school year.

The list, announced Monday by the college's Office of Registration, includes 132 North Carolinians and 47 students from other states and foreign countries.

In order to qualify for the "Dean's List," a State College student must have a "B" average or above in all of his academic work. Qualifying for the list is regarded as one of the highest honors open to students at the college.

Over 200 Students and Faculty Attend Honor Committee Banquet

Over 200 students and faculty members of North Carolina State College attended a banquet of the campus honor committees in the college dining hall last Thursday.

Principal speakers were Dean of Students Fred Weaver of the University of North Carolina in Chapel Hill and Billy Barnes Oliver of Selma, president of the Campus Government at State College.

Aubrey Council of White Oak, chairman of the college's executive honor committee, presided over the meeting and introduced the speakers.

Dean Weaver outlined the factors underlying the development of honor systems at colleges and universities and said such systems provide "the best way to teach the main lesson of the college—the teaching of honesty."

In his talk, Oliver described the organization and functioning of the various honor committees at State College and said both faculty members and students comprise the committees which are seeking to build an attitude of mutual trust among all persons associated with the institution.

This Is State College

By RUDOLPH PATE

(This is the first in a series of articles by Mr. Pate on State College)

Located in the Capital City of Raleigh, N. C., State College first opened its doors October 3, 1889. Its 45 students were greeted by six professors, including the first president, Col. Alexander Q. Holladay.

The college plant consisted of one building, later named Holladay Hall, and a stable.

State College, meek but confident, was ready for business.

Some of the greatest men of their day sadly shook their heads over the futility of it all, loudly predicting a brief but misguided existence for the educational stripling. Even the president of the already venerable University of North Carolina cited the uselessness of giving higher education to "mechanics and farmers."

But State College from the start had a rugged, individual spirit that throughout the years has set it apart from other educational institutions. In the single building, the handful of students slept, ate and studied, and from it they sallied forth daily to work the college's 60-acre farm with the two little mules and one horse that were the college's sole work stock.

Without plumbing, running water or electric lights, the first students buckled down to the task of confounding the prophets of gloom.

From this humble beginning, it has marched straight ahead to become one of the nation's best-known and most highly-respected institutions of higher learning. Its seven major schools, Army and Air Force ROTC Regiments, and research laboratories are the pride of alumni everywhere.

The student body has advanced from the original class of 45 to a post-World War II peak of 5,334. Representatives from all of North Carolina's 100 counties, virtually all other states and American possessions, and from 40 foreign countries compose the present enrollment.

Under the administration of Chancellor J. W. Hargett, North Carolina State College strength- (Continued on Page 8)

Pictured here are the officers of the North Carolina State College Student Wives Club, an organization composed of 116 members and sponsored by the College Woman's Club. The Wives Club plans and sponsors a wide range of social activities and arranges lectures on homemaking and other subjects. It meets monthly in the West Campus Branch of the State College YMCA. Shown above, left to right: Mrs. Erma Wilkinson of Greensboro, ward representative; Mrs. Dorothy Sindelar of Cicero, Ill., ward representative; Mrs. Joan Kiser of Lincolnton, vice president; Mrs. Ruth Pugh of Asheboro, president; Mrs. Marie Anderson of Hickory, secretary; and Mrs. Edna Strother of Oxford, ward representative. Officers absent when the picture was made were Mrs. Nita Wise of Newland, Mrs. Norma De Foor of Portsmouth, Va., Mrs. Louise Blanton of Greensboro, and Mrs. Annel James of Wallace.

Renting Rules For Gold and Welch Dorms Announced

Gold and Welch dormitories will be available for occupancy in the near future.

The following notice concerning rental of rooms in the two dorms has been received by the Technician:

1. WELCH DORMITORY will be available for occupancy on Friday, November 20. Students originally assigned to Welch Dormitory for the Fall Term who desire to change to this dormitory from their present rooms will be given priority through Tuesday, November 24. All changes must be completed and keys exchanged by Tuesday, November 24 or the priority will be cancelled. Beginning on Wednesday, November 25, all spaces not reserved will be reassigned.

2. GOLD DORMITORY will be available for occupancy on Friday, November 27. Students originally assigned to Gold Dormitory for the Fall Term who desire to change to this dormitory from their present rooms will be given priority through Thursday, December 3. All changes must be completed and keys exchanged by Thursday, December 3 or the priority will be cancelled. Beginning Friday, December 4, all spaces not reserved will be reassigned.

3. Students changing rooms should first obtain their room card (Continued on Page 3)

E.E. Frosh Awarded \$1,250 Scholarship

Gordon Matthew Britt of Raleigh, a freshman in electrical engineering at State College, is the winner of a \$1,250 scholarship presented by WBT-WBTV and the Jefferson Standard Foundation of Charlotte.

Selection of Britt to receive the scholarship was announced early this week by the State College Committee on Scholarships and Grants-in-Aid. He is the first N. C. State student to receive this award which was established last March.

A native of Stokes, Pitt County, Britt attended Alliance High School in Alliance, Pamlico County, for two years and was graduated from Pamlico County High School at Bayboro, where he was a leading student in a senior class of 81.

As a high school student, he was highly active in Beta Club and 4-H Club activities. Following his college work, he wants to become an electronics engineer.

Now 17 years old, Britt was the son of the late Mr. and Mrs. Gordon M. Britt. His father was a teacher of vocational agriculture, and his mother was an elementary school teacher.

The scholarship winner was chosen for the award on the bases of his scholastic record in high school, character, and interest in the radio and television industries. He was selected by a Joint Consolidated University Committee, of which Dr. C. G. Brennecke, head (Continued on Page 3)

"Business Week" Features N.C.S.

Business Week, in its current issue, features a four-page, illustrated article on the multi-million dollar research program of North Carolina State College.

The magazine, published by McGraw-Hill Publishing Company, Inc. of New York, outlines research activities in agriculture, engineering, textiles, and industrial psychology now underway at State College.

Illustrated with seven pictures made by Business Week's Staff Photographer Herbert F. Kratovil, the story tells how State College scientists are waging battle against plant and animal diseases, depicts the work aimed at highway safety, and reports on a wide range of research activities geared to the development of new products and the wider use of the State's natural resources.

Highlighting its article with facts about the college's nuclear reactor, the magazine—widely read by management men in business and industry—says State College is receiving increasing support from industry as well as from the State and Federal governments for its research functions and states that the establishment of the reactor was "a marked departure from the usual research trends of state colleges."

Under a headline, "N. C. State Research Takes A Look at the Atom," Business Week reports:

"When North Carolina State College reopened for fall business a few weeks ago, returning students found something even more powerful than the football team: a brand new nuclear reactor. Important research was already popping; the reactor had gone to work Sept 5, flaunting a proud string of firsts. It was the first privately owned reactor, the first open to public view, and the whole project was the first of its type devoted wholly to peacetime atomic research.

"The nuclear project was not just dramatic, it was also a marked departure from the usual research trends of state colleges. Hitherto, North Carolina State, like most similar schools, had devoted its research to projects of specialized interest to the home state and its industries. Thus at NCS current targets include a weevil-proof cotton plant, disease-proof chicken farms.

"The bulk of the school's active research programs concerns textiles and agriculture—the keystones of North Carolina's economy.

"It was no mere whim that turned NCS into the nuclear field. The school was casting about for a way to maintain its position in an increasingly technological society. Till the reactor came along, only a fraction of the school's research had been aimed at technical developments, although about half of its students were in engineering . . ."

John K. Fockler, research editor of Business Week, said North Carolina State College was chosen as the subject of the research article from all of America's colleges and universities because of N. C. State's leadership in such a broad field of research activity and achievement.

Fockler and DeWitt E. Carroll, Business Week's North Carolina correspondent and a staff member of The Greensboro Daily News, spent two days at State College collecting data for the feature. Photographer Kratovil spent one day taking pictures as illustrations for the story.

It would take more than 6 million 100-watt light bulbs to produce light equivalent to that installed in cars and trucks in one year by just one automotive electrical supplier.

"54" Ice Show Breaks Attendance Records

An all-time high in ice show attendance records was set with the eight performances of "Ice Capades of 1954" in the William Neal Reynolds Coliseum at North Carolina State College last week.

Coliseum Director W. Z. Betts, announcing the total figures on attendance last week said 52,378 per- (Continued on Page 3)

APO Holds Social For New Pledges

The Iota Lambda Chapter of Alpha Phi Omega is having a social Saturday for the S. K. Ballenger Pledge Class, who pledged last Thursday at the regular chapter meeting. The name of the pledge class is in honor of Prof. S. T. Ballenger who has been faculty advisor since the chapter was organized.

The Pledges are as follows: (Continued on Page 3)

"HOW GOES IT?" dials New York— and a building in Illinois answers

Shell Oil Co. wanted a small brick building in Illinois to be able to teletype automatically to a dispatcher in Radio City—more than 800 miles away. The building in Dennison, Ill., is one of four pumping stations on an important oil line. For efficiency, all these stations were to be controlled from New York. Bell System engineers were asked to help.

Now the New York dispatcher operates these stations by using an ordinary telephone dial. By dialing a number, he can make a pumping station automatically report back its meter readings by

teletype! He also dials numbers to open and shut valves, start and stop pumps, and summon an attendant. It's done through Bell System facilities.

These remote-control installations represent salesmanship, research and engineering skill on the part of many Bell System people. That's the reason there are rewarding opportunities in many lines for college people in the telephone company. Why not check soon with your Placement Officer on your chances to start with the Bell System after graduation?

Air Force R.O.T.C. Reports Record Class

The Air Force ROTC Unit at North Carolina State College this term has a record-breaking enrollment of 924 cadets, including 70 seniors, Col. William J. Jowdy, professor of air science and tactics and commandant of the Air Force ROTC program at the college, announced recently.

While State College's Air Force cadet enrollment has increased, there has been a drop in the enrollment figure for the entire country. This year's total enrollment for the nation stands at 125,000 in 207 colleges and universities as compared with 140,000 last year.

The total enrollment figures came from Brig. Gen. M. K. Deichelmann, commandant of the Air Force ROTC.

General Deichelmann said the total enrollment consists of 52,718 freshmen, some 40,000 sophomores, over 13,000 juniors and 17,800 seniors. Approximately 2,100 seniors will be commissioned second lieutenants prior to May 1. More than 8,000 cadets will receive commissions on June 1.

Veterans Elect New Officers

The organization of the new N. C. S. Veteran's Association is well under way. The second meeting was held on November 4th. There was an attendance of 92 veterans.

The forming of the constitution was discussed and officers for the current year were elected. A committee of eight met on November 10th to complete the writing of the constitution and by-laws.

Interesting programs are being planned for succeeding meetings.

There are over 800 veterans on the campus and it is the goal of the association to have every one an active member.

The new officers of the association are: president, John Combs, Leaksville; vice president, Bert Kalet, Winston-Salem; secretary, Reese Davis, Candler; treasurer, Kesler Askew, Jr., Enfield; and sergeant at arms, Charles Hannah, Canton. Bob Oliver was chosen as advisor.

Sports Interest Leads 2 to 1

Tom Memory, chairman of the Campus Government Welfare Committee, recently released the statistics which his committee collected from the student questionnaires which were distributed to all students earlier this year.

Students expressing interest in sports outnumbered those interested in any other single area by 2 to 1. The total number was 445 and their names were turned over to Mr. Roy Clogston, Director of Athletics.

Interest in religious groups, publications and College Union activities was indicated by 219, 210 and 206 students respectively.

The names of the students interested in publications were released to Mr. Lindsey Whichard and Miss Caroline Jessup was given the College Union names. All students who professed an interest in religious groups were referred to the "Y."

Campus Government President Billy Oliver was given the names of students interested in that organization. They numbered 116.

Major Kutchinski was given the names of the 133 students who gave music as their major interest.

SCOUTS—

(Continued from Page 2)

L. R. Gurley, Goldsboro; T. D. Watson, Moncure; D. G. Baker, Concord; W. R. Ballard, Asheville; D. M. Beaman, Dudley; C. C. Beumer, Enka; A. G. Bullard, Cary; R. B. Bunting, Washington, D. C.; W. B. Dozier, Raleigh; T. L. Hershey, Burlington; N. E. Hill, Crossville; W. E. Ogburn, Winston-Salem; A. G. Leggett, Washington; J. R. Puckett, Mt. Olive; C. C. Rice, Asheville; B. L. Williams, Raleigh.

The chapter also wishes to announce that it is conducting the W.S.S.S.F. (W.U.F.) and United Fund Drive on campus in December. The total collection will be divided giving W.U.F. 90 per cent and United 10 per cent. This is the only campus-wide drive for money to be held on campus this year.

ICE SHOW—

(Continued from Page 2)

Sons attended the show during its five-day stand here.

Totals by performances showed 7,009 Tuesday night, 7,548 Wednesday night, 7,576 Thursday night, 7,511 Friday matinee, 7,319 Friday night, 7,748 Saturday matinee, and 7,667 Saturday night.

The ice show fans came from 400 different towns in North Carolina, 50 in Virginia, and 30 in South Carolina.

Next big event slated for the Coliseum is the Harlem Globetrotters tomorrow night, and Occaneechee Council Boy Scout Circus Saturday night, Nov. 28.

BRITT—

(Continued from Page 2)

of the State College Electrical Engineering Department, was chairman.

Britt has worked for the Taylor Radio Company of Raleigh and has his own radio and repair shop.

The scholarship which Britt won is a part of a \$5,000 scholarship program set up last March by the Jefferson Standard Foundation for radio and television students at State College and the University of North Carolina at Chapel Hill. Valued at \$1,250 each and awarded annually, the awards are known as the WBT-WBT Scholarships of the Jefferson Standard Foundation.

ROOM RENT—

(Continued from Page 2)

from their dormitory manager and take it to the dormitory office and exchange keys.

Rules governing payment of room rent for the winter term in other dorms are as follows:

1. Room rent for the winter term will be due and payable in the Business Office, Holladay Hall between December 1 and December 10. Those students whose room rent is paid by scholarship or by other special funds are required to notify the Dormitory Office before December 10 if they desire to reserve their room for the Winter Term. Rooms not reserved during this period will be available for reassignment.

2. Students who do not reserve rooms for the Winter Term must vacate their room and turn in keys by December 19. Key deposits will be cancelled after this date. Where rooms are not reserved and are not vacated as required, room rent will be charged at the rate of 75c per day for the period between terms and until the room is vacated and keys turned in.

3. Room changes for the Winter Term may be made beginning December 14. Those desiring to change rooms should first obtain their room card from their Dormitory Manager and take it to the Dormitory Office. All such changes must be completed and keys exchanged by December 19 or the re-

quest for change will be cancelled.

Room change fee of \$1.00 will be charged on each room change except when moving from a three-man room to a two-man room in which case no change fee will be charged.

4. Refunds on three-man rooms: Occupants of three-man rooms as of November 1 will be given \$5 credit on their Winter Term room rent. Those students moving out of the dormitories for the Winter Term who are eligible for a refund because of occupying a three-man room will be refunded \$5 at the end of the Fall Term by applying to the Dormitory Office, Room 4, Holladay Hall.

"Marry Me Again"

EDITORIAL COMMENT:

THE EDITOR SAYS:

We Want A Greener Campus

Last Monday the campus engineer had a work crew carefully landscape and seed the area in front of Patterson Hall. After the job was completed a string fence was erected around the area, not to force students to walk around it, this was deemed unnecessary, but simply as a reminder to any daydreaming scholars who might not notice what had been done.

Despite the precautions and within a very few hours tracks were visible in large numbers over part of the ground. This despite the fact that not ten feet away a path had been

left open for those too feeble to walk the additional 100 feet or so around the corner.

We think the students who pulled this boner are lazy to the point of shiftlessness. Their lack of interest in the appearance of their school, the area on which they spend so much of their time, is unbelievable.

We think they are a small minority of the student body. We hope the campus engineer thinks so too, else he may become, understandably, bitter about having to work which we think needs to be done.

CLAUDE RAINS

Noted Actor's Show Free to Students

Actor Claude Rains will present a program of dramatic readings with musical accompaniment in Memorial Auditorium at 8 p.m. next Tuesday, November 24.

Rains is being sponsored by the College Union Theatre Committee and all students are admitted free. Buses will be available between 7 and 8 p.m. to carry students from the dormitories to Memorial Auditorium.

Speaking "Great Words to Great Music," Mr. Rains is to offer a varied program of classical favorites from Chaucer to today's T. S. Elliot. One of the highlights of the program is the reciting of Tennyson's "Enoch Arden" to music especially written by Richard Strauss for dramatic presentation. Strauss

wrote this music for "Enoch Arden" thirty years ago for the great German actor, Max Heinrich, who performed it with great success all over Europe. Mr. Rains has appeared twice with the Philadelphia Orchestra in Aaron Copland's "Lincoln Portrait" with Eugene Ormandy conducting.

Among the other numbers to be presented by Claude Rains are a modern edited version of Chaucer's Prologue to "Wife of Bath," scenes from Shakespeare's "Richard II" and "Julius Caesar," a poem by Robert Hillyer, T. S. Elliot's "Journey of the Magi" and "Builders of America" with words by Edward Shenton and music by Harl McDonald.

Sports Staff Is Criticised

In a letter received by the editor last Tuesday the sports staff of the Technician was roundly criticised for giving too little space to State athletics and too much to national events. There was a certain amount of truth in the allegations made and the criticisms were partly justified.

We don't like to make excuses. However, the Technician is beset with staff problems, as are most organizations on campus which need members who will consistently, regularly do a certain amount of work for the organization.

For the most part, the members of the student body at State College are unwilling to forego their movies, bull sessions and sack time for even one night a week to work at something other than their studies. The members of our sports staff are among the minute minority who are willing to make this sacrifice.

The criticisms contained in the letter have been passed on to the sports editor and his staff. The members of the sports staff have been and are now, doing their best and should show continued improvement throughout the year.

Music and Movie Reviews

Sunday Concert To Be Devoted To Brahms "All About Eve" Is CU Movie Nov. 22

For the weekly Sunday afternoon record concert, the Music Committee of the College Union has decided to feature a program by Brahms. The selections to be heard are: Symphony No. 4 in E minor, Op. 98; Symphony No. 1 in C minor, Op. 68; Academic Festival Overture, Op. 80; Tragic Overture, Op. 81; and Hungarian Dances (No. 17 in F-sharp minor, No. 1 in G minor, No. 3 in F major, and No. 10 in F major).

Brahms worked on the Fourth Symphony for two years, completing it in the Summer of 1885 when he was 52 years old. As was usual with him, Brahms introduced it to his friends with playfully deprecatory remarks, calling it a "choral work without text" and "a couple of entr'actes."

In the spring of 1879 Brahms, who was not a university man, had been given the degree of Doctor of Philosophy by the University of Breslau. The rollicking Academic Festival Overture is an honor conferred upon Breslau University by Brahms. It was first performed at the University of Breslau in January of 1881. Brahms conducted while, as John N. Burk says, "the Herr Rektor and members of the philosophical faculty sat in serried ranks, presumably gowned, in the front rows."

If you have Sunday afternoon free and like to listen to good music, stop by the Peele Hall Lounge this Sunday, November 22, at 3 p.m., and listen to this Brahms concert.

"All About Eve," the story of a ruthless young actress' rise to stardom, is the College Union movie committee offering this week.

The cast is studded with fine actors and actresses, well-known for their dramatic roles. Bette Davis, one of Eve's victims is very convincing in her portrayal of Eve's employer. Tallulah Bankhead is volatile and uninhibited, a great stage personality whose bitter anxiety over encroaching old age blights her career and love affair with a young director, who is portrayed by Gary Merrill.

The movie will be shown in the Textile auditorium and will begin at 8:15 p.m. Admission is by registration card.

EE. Seniors Attend Recent AIEE Meet

J. Baxter Campbell of Charlotte, a senior in electrical engineering at State College, presented a paper on the "Nuclear Reactor at North Carolina State College" at the annual fall meeting of the North Carolina Section of the American Institute of Electrical Engineers at Duke Power Company's Bucks Plant near Salisbury last Friday.

The entire senior class of 42 students and five professors in electrical engineering at the college attended a business session of the organization and inspected electrical equipment at the plant.

Foreign Student Census Makes Interesting Reading

There were 33,671 foreign students from 128 different independent nations, dependent areas, and trust territories studying in the United States last year. It is the largest total of foreign students ever in the U. S. at one time. This fact is reported in Education for One World, the census of foreign students published today by the Institute of International Education, 1 East 67th Street, New York City.

The 38-page booklet presents a brief survey of America's foreign student population, who they are, where they come from, what they study, where they study, and who supports them. Tables and charts point up this basic data and individual examples highlight the statistics.

For the census, students completed questionnaires giving their country, field of study, academic institution, and source of financial support. Of the 2,720 colleges, universities, and professional schools polled, 1,149 reported at least one foreign student enrolled. A "foreign student" was defined as a citizen of a country other than the United States who is studying or training in a higher educational institution in the United States, and who plans to return to his home country when his studies are completed.

Where do foreign students come from? One-third of those in the U.S. call Asia or the Near East home, while one-quarter come from Europe, one-quarter from Latin America, and one-seventh from Canada. The remainder of citizens of Africa and Oceania. Nearly half of the students come from eleven countries: Canada, China, Colombia, Germany, Great Britain, Greece, India, Iran, Japan, Mexico, and the Philippines. This diversity in origin draws attention to the fact that there can be no "typical" foreign student.

What do they study? Humanities are the most popular subjects of study for foreign students. Over

twenty per cent are studying liberal arts, languages, literature, religion, philosophy, and art. Almost as many are in the field of engineering. Other fields in order of importance are the physical and natural sciences, the social sciences, medicine, business administration, education, and agriculture.

Engineering has the greatest attraction for students from Asia, being chosen by about twenty-two per cent of them. Another fifteen per cent study humanities. The reverse is true of students from Europe and Canada, who can get their technical studies at home; twenty-five per cent of these students register for courses in the humanities. Latin American enrollment is about equally divided between humanities and engineering. The distribution by field is more even in Africa, indicating the many and varied needs of that continent. The physical and social sciences are most popular with these students.

How old are they? The average foreign student is older than his American counterpart. He often has several years of practical experience behind him when he undertakes American study. The exception is the Latin American who often comes north for his entire undergraduate training.

Do many foreign women study here? One out of every four students polled in the census was a woman. The largest percentage of women students was found among Europeans. The smallest was among the Africans, where the few existing educational opportunities are likely to be filled by men.

Where do they study? Every region of the U. S. plays host to foreign students. In general, their distribution follows the general population pattern, with large numbers of the visitors on the West Coast and in the Northeast. Over half of the educational institutions surveyed reported some foreign students enrolled.

How long do they stay? Foreign students often stay in the United States longer than a single year. If finances, visa requirements, and study plans allow, many students stay until a degree or special project is finished. Of those polled, forty-six per cent arrived in 1952. Over one quarter, twenty-eight per cent, began American studies at some time before 1952. Twenty-six (Continued on Page 8)

LSU Press Releases Prof. Lambert's Tome

The Louisiana State University Press has recently released a book written by Mr. J. R. Lambert, Jr., associate professor of social studies at North Carolina State.

The book is titled "Arthur Pue Gorman" and is a biography of one of Maryland's most distinguished statesmen.

C. G. Passes New Bill

By BILL BREHM

Below are some excerpts of the Report submitted to the Campus Government by Billy Oliver last week. This report, "The Joint Student-Faculty Council Committee on the Conduct of Examinations," was approved by the Council and by the Faculty Council.

As soon as the Campus Government convenes Tuesday most of this report will be put in the form of by-laws and voted upon. If these by-laws pass the Council they will then be sent to the Faculty Council again, this time to be approved as law. When this report is put into the form of law, the Honor Councils of the different schools of State College will be able to act. Up to this time nothing has been really set as to who should punish an individual caught cheating. In past years some instructors took it upon themselves to fail the boy suspected of cheating. When and if these laws are passed, it will mean that all boys accused of cheating will be given a fair trial.

"Factual Background"

Article I, Section 1 of the By-Laws declares it the individual responsibility of students, faculty members, and administrative officers to warn any member of any of these groups whose conduct is unbecoming to a gentleman and a scholar or is in violation of the letter or spirit of the Campus Government and Honor System. Section 2 sets forth a procedure to be followed in case the violation is disregarded or in case the violation is of a serious or flagrant nature. This procedure is as follows:

... the student, faculty member or administrative officer observing the offense shall report the same to a member of the Departmental or School Honor Committees, or to a member of THE COUNCIL. The report should be made in writing and the name of the offender, the general nature of the offense, the names of witnesses, the date, time, place, and general circumstances should be listed. The report shall be transmitted promptly by the committee or council member to the President of THE COUNCIL, who without delay will set the established machinery of Campus Government in operation to investigate, prefer formal charges, and hold trial in accordance with the procedures established in Constitution and By-Laws of the State College Campus Government and Honor System.

"Policy considerations and recommendations."

On this campus there exists a wide diversity of practices on the part of faculty members in the administration of examinations. These practices vary all the way from outright proctoring to total absence from the examination room. Your committee disapproves this diversity of practices. It believes that either all instructors should remain in the examination room or that, after distributing the examination and answering such questions as may be raised in the first ten minutes, all should withdraw. Of the two alternatives, your committee regards the first as more suited to the local situation, and it therefore recommends that all instructors remain in the examination room from the time the examination begins until the last student has turned in his paper. Several considerations prompt this recommendation. First, the existing regulations assume that the instructor should be in the examination room. Second, his presence is desirable so that he may answer legitimate questions raised by students. Some instructors believe that it is possible that some effective teaching may be done in handling such questions. Third, the student body has not yet been willing to pledge itself to the assumption of full responsibility for enforcing the honor system. Many students still do not regard it as cricket to warn fellow students or to report their violations. A vote on this issue taken a few years ago resulted in the defeat of a proposal for full student control. Only a reversal of this stand and the individual pledging of every student to observe the rules would justify the faculty in abandoning the examination room wholly to students.

"Should discretionary powers be restored to faculty members?" Your committee recognizes that many faculty members would prefer to have the right to use the power to flunk as a means for disposing of cases of dishonesty. This is certainly the less difficult course. Although your committee agrees that a student should receive no credit for work on which he has cheated, it believes that... the giving of an "F" in cases of clear cheating is an inadequate penalty when it is allowed to conclude the case, for cases tried by the Campus Government court are far more seriously punished when conviction is secured. This is demonstrated by the following rule (modifying Article 4 of the By-Laws) adopted by the Campus Government on April 1, 1952.

- The giving or receiving of aid on quizzes and examinations is a serious offense and verdict upon trial by the Council shall be:
 1. Guilty or
 2. Not Guilty
 - a. A verdict of guilty requires a sentence of either:
 - (1) Suspension from school for 1, 2, or 3 terms upon discretion of the Council.
 - (2) Dismissal, never to re-enroll at North Carolina State College.
 - (3) A second conviction shall result in permanent dismissal from North Carolina State College.

Furthermore, where the grade of "F" is given by a faculty member, it may work an injustice to the student accused of cheating

but who is in fact innocent, for there is now no provision for appeal from the instructor's decision.

MAJOR EXAMINATIONS.

Your committee is therefore of the opinion that, in cases of cheating involving major examinations (hour tests, mid-term tests, or final examinations), the instructor shall withhold the accused's grade altogether and, through his department head, submit the case properly documented to the Executive Honor Committee of the School in which the student is enrolled. If this committee shall decide that the evidence warrants trial, it shall report the matter to the Council through the President of the Campus Government. If the committee regards the case as too weak to justify such reference, it shall so report in writ-

ing to the instructor, through his department head, to the President of the Campus Government, to the Dean or Director of Instruction of the student's school, and to the Dean of Students. All papers in the case shall be returned to the instructor. He shall record the grade on the examination, and, in cases involving final examinations, report the student's course grade to the Registrar. The student involved shall be warned in writing by the Dean of Students that his conduct has been subject to question, and the Dean of Students shall maintain a record of the case to which reference may be made in the future by any instructor who subsequently has reason to question the same student's conduct in examinations or quizzes at any level.

"Conclusion.—If adopted, the recommendations of your committee should be reduced to a clear cut statement as rules and should be given immediate and general publicity in the future no changes in these rules, or any others that may be adopted, should be made without consultation between the Campus Government and the Faculty Council.

"Service Comes First"

A quick-witted college student decided to add a new sport shirt to his wardrobe. Although broke, he was unconcerned. He walked into the local sportswear shop and said, "Let me see your smartest checked sport shirts."

The clerk showed him several Van Heusen FIELDWOOD CHECK Sport Shirts. "These are the finest I've got," he beamed. "The fabric is 55% wool and 45% rayon—for kitten's-ear softness and long, long wear. They can be laundered in lukewarm water. And you can choose from a wide selection of small and medium-size checks... and only \$7.95 apiece."

"Just what I was looking for," said the student. "I'll take this one with the medium-size checks."

The clerk wrapped the shirt and handed it to him. "That will be \$7.95," he said.

"On second thought, I'll take that one with the small checks," said the student.

The obliging clerk unwrapped the first shirt, wrapped the second one and handed it to the student, who turned to leave. "Just a minute," cried the clerk. "You forgot to pay for it."

"I gave you the other shirt for it," answered the youth.

"But you didn't pay for the other shirt," continued the clerk.

"Naturally! I didn't buy that one!"

West Virginia Grid Squad Faces State

The giants from the Mountains of West Virginia, Coach Art Lewis' West Virginia University football squad, will be expected to roar like the behemoths of some pre-historic age Saturday when they face N. C. State's much-beleagured Wolfpack in Riddick Stadium.

The giants ran into David with a slingshot last week in the person of Coach Rex Enright's University of South Carolina Gamecocks and came off second best with a 20-14 defeat. It was the first loss of the season for the Mountaineers, who had visions of Sugar Bowls dancing through their heads.

The loss to South Carolina makes State's task Saturday all the tougher. No one doubts that West Virginia will be keyed up for the encounter with the Wolfpack with the idea of trying to regain some of the prestige they lost in the South Carolina defeat. The odds likely will favor West Virginia by at least five touchdowns.

State, losers seven times this season, is not given much chance of turning back the Mountaineers. In losing 40-6 to Pittsburgh last week the Wolfpack also lost the services of End Harry Lodge, who suffered a torn ligament in his right knee. Lodge, who has been a

55-minute regular in every game this year, is out for the rest of the season.

Add to State's troubles the fact that several other squad members are not in good physical shape and it's not hard to figure why West Virginia is the prohibitive favorite. Quarterback Eddie West, who has been one of the Atlantic Coast's leading ground gainers all year, was carried from the field of battle at Pittsburgh last week with a knee injury and he is not expected to see more than limited service against West Virginia.

Despite the job facing them, State hopes to give a good account of itself against the superior West Virginians. Halfback Bill Teer, who gained 78 yards in 17 tries against Pitt, and Fullback Don Langston, a leading ground gainer all season, will be ready for 60 minute service with Carl Wyles, a senior, due to assist West with quarterback duties. Paul Smith will go at a halfback spot to round out the starting Wolfpack backfield.

A crowd of nearly 10,000 persons may turn out to see the first game between State and West Virginia since 1911.

Wolfpack Harriers Win State Crown

The N. C. State cross country team completely dominated the field in winning its fifth straight North Carolina title Monday. State took five of the first eight places. Carolina and Duke finished second and third respectively.

In a preliminary freshman race, Carolina won followed by Duke and State with Davidson finishing fourth.

Record smasher, Buzz Sawyer, Senior and Captain for the Wolfpack squad broke his own course record in the main event along with teammate Joe Shockley of Laurens, S. C. They tied for first, knocking six seconds from the old mark with a winning time of 20:50.

1. Sawyer (NCS) and Shockley (NCS) tie, 20:50 (new course record, old record set by Sawyer of State. 3. Barden (UNC) 21:12. 4. Miller (NCS) 21:22. 5. Barbee (NCS) 22:01. 6. Higgins (UNC) 21:48. 7. Haughton (UNC) 21:51. 8. Asse (NCS) 22:01. 9. Winslow (NCS) 22:11. 10. Hanner (Duke) 22:12. 11. Wright (UNC) 22:14. 12. Marx (UNC) 22:19. 13. Rogers (Duke) 22:40. 14. Jones (NCS) 22:53. 15. New Contest Winners To Get Chesterfields

The last football prediction contest sponsored by the Technician was won by Rives Taylor, Jr., of Becton Dormitory. Taylor called the correct winners on nine out of the ten games listed. This was better than any of the other entrants was able to achieve. Charlie Shackelford of 204 Bagwell called the correct turn on eight of the contests. A few other persons had the same total of winners as Shackelford but his entry was closest in forecasting the total amount of points which the ten winning teams would score.

The prizes will be forwarded to these boys in the next few days. They will receive free cartons of Chesterfield cigarettes as a reward for their efforts.

The Technician staff wishes to extend its thanks to all the students who took the trouble to enter these weekly football contests. Prediction contests similar to these will probably be tried during the basketball season.

- (UNC) 15:33. 8. Griffin (UNC) 15:34. 9. Armstrong (UNC) 15:34. 10. Harrington (UNC) 15:34. 11. Mitchell (NCS) 15:42. 12. Fisher (UNC) 15:57. 13. Peyton (Duke) 16:03. 14. Parrish (Duke) 16:10. 15. THE Dorm Corner

By Jerry Armstrong

This week ended most of the sectional playoffs in football and volleyball and next week the play-off games will begin to determine the championship teams of each sport. Last week's bowling league matches proved to be some matches as all the teams in each section began to fight for the league lead.

In a mud-fought game the Becton No. 1 team tightened their defense and took their fifth straight game and the championship crown of Section No. 2 by a close margin of 6-0 from the Symies of No. 1 team. It was a pass play from Warren to "Red" Peterson covering 55 yards that proved to be the lone marker to cross "beaulahland" for the Becks. Fletcher Murray, Mack Gay, and Doug Whitley were the standouts for the Becton team. Captain Joe Bray also added his "two cents worth" for the boys from "Trueloveville."

A combination of two pass plays proved to be the necessary factors for Tucker No. 1 to take their game from Alexander No. 1, 13-0. Bill Williams gathered in "the mail" from passer, Vargo, in the first scoring play for Tucker to put them in the lead 6-0. A leaping catch of a pass by Bernie Yurin was good for the second score of the game, as he took the ball in the end zone. Other standouts of the game for Tucker were: Roy Lambert, James Ownley, Norman Brickhouse, Eddie Davis, and Ken Moon.

In last week's corner I made a mistake about the game played between Owen No. 1 and Bagwell No. 1. This game should have been between Owen No. 2 and Bagwell No. 1. So the correct score should have been a forfeit game won by Bagwell No. 1 over Owen No. 2 instead of Owen No. 1. This week Owen No. 1 took a very decisive win over Tucker No. 2 by the margin of 14-0. Vaughan did the passing and Ussery the receiving for Owen as that combination scored all the markers of the contest.

Vetville proved to be too much of a foe for the Causby boys from Syme No. 2 as the Vets took a 6-0 decision. Barnhardt proved to be the leader for the losers.

Becton No. 2 added another championship team to their dorm with the winning of the deciding game in section 3 over the Berry "Huskies," 20-0. Becton jumped off to an early lead and was never slowed down during the course of the game.

Turlington No. 2 bounced back after their first game last week to take the best two out of three matches, 16-14, 15-10, and 15-3, over Syme No. 1. No outstanding players for either team—the win was brought about by team play.

Syme No. 2 showed too much power for Tucker No. 1 as they gained two straight wins by the scores of 15-7 and 15-13. Team victory.

Berry's "Huskies" took their next to the last game of the season last week from Bagwell No. 2 by 15-7 and 15-2. This enables the "Huskies" to tangle with the "Big Boys" from Syme No. 2 for the championship crown of section 2. Van "the Man" Stanfield played his usual consistent game for Berry and was ably aided by "Stilts" Hartis, "Spike" Larson, "Runt" Kurd, "Steady" Steve Godfrey, and "Tank" Jones. Larson was one of the standouts for the victors in one of the games as he served seven straight points.

Tucker No. 1 came from behind in the second match to take their win from Bagwell No. 2 by the scores of 15-11 and 15-8. Bill Williams played an outstanding game for Tucker.

Owen No. 1 took their game by via of a forfeit over Turlington No. 1.

Another forfeit game was won by the Bagwell No. 1 "Dragnets"

Basketball Seats Now On Sale

Public sale of season basketball tickets for N. C. State's 18 home appearances in the William Neal Reynolds Coliseum was opened on Monday, Nov. 9, it was announced by Roy B. Clogston, director of athletics.

The State home schedule which will feature seven inter-sectional games, four Atlantic Coast Conference games and five Southern Conference opponents, is regarded as the finest array of basketball talent ever to appear in Raleigh.

In addition to 16 regular season games, State will make two additional appearances in a holiday doubleheader attraction against Bevo Francis and the Rio Grande, Ohio team and the Olympic champions Peoria Caterpillars on Dec. 22 and 23.

Season tickets for the 16-home games are priced at \$27.20 and \$14.40. The holiday doubleheader tickets, which are separate from the regular season games, are priced at \$2.50, \$1.75 and \$1.00 for each night of play.

The regular season slate includes inter-sectional games against LaSalle of Philadelphia, St. John's of Brooklyn, Villanova, Eastern Kentucky, Penn State, Pennsylvania, and the Phillips Oilers of Bartlesville, Okla. Atlantic Conference teams to appear in the Coliseum include, Duke, Wake Forest, Clemson and North Carolina and Southern Conference teams on the schedule are Furman, Davidson, William and Mary, Virginia Tech and George Washington.

Orders will also be accepted, beginning Monday, Nov. 9, for Dixie Classic Tournament tickets. The Classic opens on Monday, Dec. 28 and concludes on Wednesday, Dec. 30. A total of 12 games will be played in the tournament with teams entered from Tulane, Navy, Oregon State and Seton Hall to oppose Duke, N. C. State, Wake Forest and North Carolina.

Dixie Classic tickets are priced at \$9.00 and \$6.00 in season books covering the entire tournament. Only season books will be sold and no individual session tickets will be available until after season book sales are concluded.

Athletic Director Clogston said that the 1953-54 season likely will break all attendance records at the Coliseum. Tickets have been available to members of the Wolfpack Club, N. C. State College Student Aid Association since Oct. 20 and big sales are reported.

over the boys from Alexander No. 2.

Berry continued to remain undefeated by taking their third straight match by the scores of 500-457 and 470-451 over Tucker No. 2. High men for Berry were Weeks, Armstrong, and Symre; and Lee, Cartner, and Hardesty for the losers.

Bagwell No. 1 romped over Turlington No. 2 in three straight matches by the scores of 510-485, 477-441, and 481-453. Barnhardt and Pearson were high for the Bogs, and Husley for the losers.

Three of the closest matches last week were between Bagwell No. 2 and Becton No. 2. Becton managed to take the best two out of three matches by the scores of 466-457 and 476-444. Stencil was high man for Becton and Stubbs for the losers.

Syme No. 1 proved to be too

Frats Have Busy Week In Athletics

by DICK RUDIKOFF

The fraternity football winners in each league became a reality in the clincher games many of the fraternities played this week. Sigma Alpha Epsilon ended out a perfect football season in regular play by whipping their only possible contender, Sigma Phi Epsilon 9 to 0. It was the same trouble that all the other fraternities that faced S.A.E. had, just too much Trogden. That's the boy that has been leading the offense for S. A. E. There are two sides to every story so let's not forget Briley who starred on defense for the S.A.E.s.

Pi Kappa Alpha scored an early touchdown on an intercepted pass by Tommy Lassiter who galloped 55 yards for the score and maintained this edge throughout the entire contest despite the valiant efforts of an aroused Sigma Alpha Mu team. Though making substantial gain behind the passing of Jerry Gaier, the Sammys could not offset the 6 to 0 defeat. Other standouts of the game were Broome for P.K.A. and Weiss and Cooper for S.A.M. The win gave P.K.A. possession of the section 3 title.

Sigma Nu lost their first game of the season 6 to 0 to Lambda Chi Alpha but still clinched their league title as their nearest rival lost. It was a difficult defeat for the Sigma Nu boys to swallow, as they virtually played the Lambda Chi men into the ground registering 6 first downs to their opposition's 2. However this is what makes football so exciting and in the last quarter a Malmquist to Fennie pass clicked for a touchdown and Sigma Nu went down in an upset victory for Lambda Chi.

A 75 yard run by Turney of Kappa Sigma highlighted a 19 to 0 victory for Kappa Sigma over Pi Kappa Phi. Kappa Sigma finally broke into the win column after 3 straight defeats. Blattie and Thackston scored the other touchdowns for Kappa Sig.

Broome and Williard spiked Pi Kappa Alpha to 15 to 6 and 15 to 5 wins over Sigma Alpha Epsilon. With Lassiter setting the ball up to the big men P.K.A. had little trouble from the opposition. Top players for the S.A.E.s were Briley and Jordan.

Sigma Chi only had to go through the motions as they easily defeated Kappa Sigma 15 to 4 and 15 to 4. It was a combined group effort of the team which proved decisive.

After losing the first game 15 to 8, a competitive Farm House team rallied their forces to defeat Lambda Chi Alpha 15 to 5 and 15 to 7. Taylor, Gray, Porter, and Glass proved to be the big men for the Farm House while McCallan of Lambda Chi looked good in the losing effort.

With Mowery the set-up man and Agnew the spiker, Sigma Nu romped to victory 15 to 3 and 15 to 7 over Pi Kappa Tau. The efforts of Finley and Hoffman went to no avail for the losers.

powerful for the boys from Owen No. 1 as they took all three matches by the scores of 431-430, 505-498, 469-404. Gaither and Wilkins, Marshall, and Crabb were high men for Syme and Meeks and Moore for the losers.

Becton No. 1 took their match on forfeit from the men from Vetville.

Hoop Foes Begin Practice Early

About 20 men are expected to report Monday for the beginning of basketball practice at Wake Forest College, the 1952-53 Southern Conference cage champions.

Up against the toughest schedule faced by a Deacon quintet, Coach Murray Greason will send his team through one-a-day drills until Dec. 1 when the Deacons open their season against VPI at Winston-Salem.

Last year's team won Greason the honor of Southern Conference coach of the year. Other than taking the Conference crown, that group won third place in the Eastern Regional NCAA playoffs, third place in the Dixie Classic and was the highest scoring Wake Forest team of all time with an average of 78.5 per game.

Again this year Greason and Assistant Coach Horace "Bones" McKinney will be building their hopes around Dickie Hemric, a gangling junior center who was the sixth ranking scorer in the nation last year with an average of 25.1 points per game.

One of the toughest problems facing Greason will be finding a replacement for Jack Williams, who teamed up with Hemric last year to form the second best one-two punch in the U. S. Williams, who averaged 20.2 per game, has been called into the Army.

The Deacons have a strong nucleus held over from last year, though, in Billy Lyles, the team's third scorer, Al DePorter, Maurice George, and Ray Lipstas. A big question mark is John Kotecki, who played good ball for the Deacons several years ago. A junior, he is returning from service.

Others expected for practice Monday include: Tom Preston, Lowell "Lefty" Davis, John DeVos, Billy Livengood, Frank McRea, Graham Phillips, Robert Weatherpoon, Lee Abbott and Norm Roberts.

The Deacons rugged, 27-game schedule includes two tournaments, 16 Atlantic Coast Conference games and top inter-sectional battles with Kentucky, Seton Hall and St. Joseph's College.

Duke University's varsity basketball team, which began fall workouts Monday under Coach Harold Bradley, will play a 26-game schedule during the 1953-54 season, it was announced here today by Athletic Director E. M. Cameron.

The schedule includes two invitational tournaments in December, in which Duke will play a total of five games. It will play two in the first annual Kentucky Invitational at Lexington on Dec. 21-22 against Kentucky, LaSalle and UCLA. In the Dixie Classic at Raleigh on Dec. 28-30, it will play three, opening against Oregon State. Besides the Big Four teams and Oregon State, three other clubs will be entered, Navy, Tulane and Seton Hall.

Eleven of the 21 games to be played outside the two tourneys will be played in Duke Indoor Stadium, beginning with the Dec. 2 opener with Furman University, one of the favorites for the Southern Conference title, led by All-America Frank Selvy, who was the national scoring leader in 1952-53.

Each member of the new Atlantic Coast Conference will be met at least once, except Clemson.

Absent from the schedule of last year are Temple, Virginia Military and New York University. Four new clubs have been added, including Maryland, Virginia, Furman and VPI. All of the new clubs have been met within the past five years.

Coach Harold Bradley, in his fourth year at the helm of the Blue Devils, will have a veteran club led by co-captains Bernie Janicki and Rudy D'Emilio. Back

from the 1952-53 outfit which won 18 and lost eight are seniors Marv Decker, Fred Shabel and Rudy Lacy, juniors Charlie Driesell, Herky Lamley and Hal Turner and sophomores Joe Belmont and Ronnie Mayer. All but Turner are let-termen.

Best of the newcomers include 6-9 transfer student Marty Doherty of Pelham, N. Y., 6-5 Don Tobin of Avalon, Pa., 6-7 Even "Junior" Morgan of Asheboro, and six-foot guard Don Sims of Elizabeth, N. J., all played with the

freshman club last year except Doherty, who was ineligible.

Only losses are Bill Reigel, the second high scorer with 425 points and a 16.3 average last season, and 6-4 forward Don Cashman. Both are currently in the service.

The schedule: Dec. 2 Furman, here; 5—Tennessee, here; 7—Vanderbilt at Nashville, Tenn.; 12—William and Mary, here; 15—Davidson, here; 19—West Virginia, at Morgantown, W. Va.; 21-22—Kentucky Invitational at

Lexington, Ky.; 28-29-30—Dixie Classic at Raleigh.

Jan 2—Virginia, here; 4—South Carolina at Columbia, S. C.; 6—VPI, here; 9—N. C. State, here; 12—Wake Forest at Wake Forest; 16—McCrary Hosiers at Asheboro; 30—Navy at Annapolis, Md.

Feb. 4—North Carolina, here; 6—George Washington, here; 9—N. C. State at Raleigh; 13—VPI at Wytheville, Va.; 16—Maryland at

College Park, Md.; 20—North Carolina at Chapel Hill; 23—South Carolina, here; 26—Wake Forest, here.

Many automotive roller bearing parts are ground to tolerances of 2/10,000ths of an inch, then sorted into groups with variations of only 5/100,000ths of an inch before assembly.

J. Paul Sheedy* Switched to Wildroot Cream-Oil
Because He Flunked The Finger-Nail Test

"Your hair's no yoke" bellowed Sheedy's gal. "Those cowlicks look awful. Why not take the bull by the horns and get yourself some Wildroot Cream-Oil, America's favorite hair tonic? Keeps hair combed without greasiness. Makes you look cud-dly. Removes loose, ugly dandruff. Relieves annoying dryness. Contains Lanolin. Non-alcoholic. I won't cow-tow 'til you start using it heiferly day." Paul was utterly stunned, so he bought some Wildroot Cream-Oil for just 29¢. He told his girl the good moos and now they're hitched for life. So just steer yourself down to any toilet goods counter for a bottle or handy tube. And remember to ox your barber for Wildroot Cream-Oil too. You'll be the cream of the campus—and that's no bull.

"Trotters" Show to Feature Comedy Acts

Four acts of vaudeville entertainment will be part of the program in the Coliseum tomorrow evening, when the Harlem Globetrotters play the Washington Generals.

In the opening game of the evening, the Philadelphia Warriors will be opposed by the Baltimore Bullets.

As usual, the vaudeville acts will be first class. Each is making a first appearance this year as part of the Globetrotter entertainment presentation.

Heading the bill are the Rudenkos, Igor and George, considered among the best juggling teams in the world. They toss hoops, balls and dumbbells and finish their act by juggling flaming torches at great speed.

Jerry Simms, brilliant young accordionist, is another of the outstanding acts. A graduate of the University of California at Los Angeles, Jerry was in the Navy

during the war and performed all over the world as an entertainer for the armed services. Since being discharged, he has played many of the leading hotels throughout the country.

Abé Saperstein, owner-coach of the Globetrotters, who arranges the entertainment program each year, has a "soft spot" for trampoline artists and this year he is presenting for the first time an exciting new team. They are the Garners, a boy and girl combination, each of whom won national honors in inter-collegiate competition.

Rounding out the program is Melino and Hollis, a pair of comedy acrobats. During the summers, they travel all over the world with outdoor circuses. Their breath-taking acrobatics always prove an exciting part of the evening's show.

Tickets for the basketball double-header and entertainment program are on sale at the Coliseum Box Office, State College, Raleigh.

FURRINERS

(Continued from Page 4) per cent did not answer this question.

Who pays the bill? Schools and

campus groups, private organizations, business corporations, the U. S. and foreign governments all contribute to the financial support of foreign students in the United States. Although sixty per cent of the students listed their own or their families' funds as one source of income, many of them reported support from more than one source. Sixty-six per cent were fully or partially supported by private organizations or colleges. Sixteen per cent received funds from their own proportion of this public or government support has been granted to students from Africa and Europe. While private agencies have assisted more students than have public, it is probable that the financial value of government support has been greater.

THIS IS STATE COLLEGE

(Continued from Page 1) ened its faculty, liberalized student-faculty relationships, broadened its educational, research and extension functions, and increased its far-reaching services to the people of the Southeastern States.

Among its 72 modern buildings is the 12,400 seat William Neal

Reynolds Coliseum, where North Carolina State's famed basketball team plays host to many of America's leading quintets. Sports writers have labeled the Coliseum "the South's basketball capital."

Completed is a Nuclear Reactor, first of its kind to be built outside the restricted confines of the Atomic Energy Commission. Authorities say the Reactor will add to the College's prestige as a scientific mecca, which has made a distinct contribution to the Southland's growing economic and industrial life.

Today North Carolina State College's multi-million-dollar physical plant and its 63-year record of achievement stand as a living monument to the far-visioned individ-

uals who, roughly 70 years ago, aroused the State with their inspired crusade for education in the basic and applied sciences.

CAMPUS GOVERNMENT

(Continued from Page 5) The success of the program outlined above will depend upon the sincere and purposeful cooperation of the students, the faculty, and the Campus Government. The Campus Government should make every effort to strengthen and improve its judicial procedures so that faculty members may feel justified in placing the greater dependence thereon that this report recommends.

CHOICE OF YOUNG AMERICA FOR THE FIFTH STRAIGHT YEAR —

CHESTERFIELD
 IS THE LARGEST SELLING CIGARETTE
 IN AMERICA'S COLLEGES ...

by a 1953 survey audit of actual sales in more than 800 college co-ops and campus stores from coast to coast. Yes, for the fifth straight year Chesterfield is the college favorite.

CHESTERFIELD IS THE ONLY¹
CIGARETTE EVER TO GIVE YOU PROOF
OF LOW NICOTINE, HIGHEST QUALITY

The country's six leading brands were analyzed—chemically—and Chesterfield was found low in nicotine—highest in quality.

← This scene reproduced from Chesterfield's famous "center spread" line-up pages in college football programs from coast to coast.

CHESTERFIELD BEST FOR YOU
