

W. B. Troutman Chosen Regimental Honor Cadet

Cadet Master Sergeant William B. Troutman of Route 3, Statesville, has been chosen the regimental honor cadet of the Army ROTC at North Carolina State College, it was announced yesterday.

The runners up for the high honor were Cadet Master Sergeant Phares S. Nye of Shannon, Robeson County, and Cadet Sergeant First Class James D. Hackett of Rockville Center, N. Y.

The selection was based on the students' military bearing and appearance, attention to and performance of duty, attitude toward drills, participation in extra ROTC activities, work habits, and extra-curricular activities.

Troutman, son of Mr. and Mrs. G. B. Troutman of Route 3, Statesville, is platoon sergeant of third

platoon "C" Company, and honor cadet of the first battalion and the regiment. He is a sophomore in the School of Textiles at State College.

Nye, son of Mr. and Mrs. George B. Nye of Shannon, is first sergeant of "I" Company and honor cadet of the third battalion. He is a sophomore in civil engineering.

Hackett, son of Mr. and Mrs. James J. Hackett of 321 North Forest Ave., Rockville Center, N. Y., is sergeant of the third platoon of "E" Company, and honor cadet of the second battalion. He is a sophomore in textiles.

Shuttle Inn Is Scene Of Wildlife Banquet

By Jerry Armstrong

The Shuttle Inn played host to the Leopold Wildlife Society last Friday when the club held its winter banquet with guest speaker from the State College Psychology Department, Dr. K. L. Barkley. Members of the society, faculty members of the Zoology Department, and guests were present for the affair at 7:30 in the evening.

Don Baker, society president, opened the banquet with the introduction of the guests and the faculty members and their wives. Dr. F. S. Barkalow, Jr., gave the invocation and the business at hand turned to the "chicken." The menu consisted of a half-fry of chicken, cream potatoes with giblet gravy, string beans, hot rolls, coffee, and three-flavored ice cream for dessert.

VWVP To Carry ACC Tournament Games

The student station, VWVP, will carry the First Annual Atlantic Coast Conference Basketball Tournament games, which takes place at the William Neal Reynolds Coliseum from March 4 to March 6. The announcer will be Carl Hinrichs, and Dave Sontag will be present at half time to give the highlights of the games.

YMCA Seeks Student Officer Suggestions

The nominations committee for the 1954 Spring elections has been appointed by the President of the YMCA, Roy E. Congleton. The committee is made up of graduating senior members of the YMCA Cabinet, the YMCA Staff, and a member of the board of directors of the Y.

The purpose of the nominations committee is to select the candidates for the offices of President, Vice President, Secretary, and Treasurer of the YMCA for the school year 1954-55. The committee will accept suggestions for candidates from the student body between March 5 and March 19. All suggestions should be sent to Wm. Francis Pressley, Chairman Nominations Committee, c/o YMCA.

The candidates will be nominated after March 19 and will be elected in the general campus election during the Spring Term.

CG To Seek Changes In Exam Prof Rules

The Campus Government today called upon the Faculty Council to select a committee from the administration and faculty to meet with the Executive Honor Committee Chairmen with a view toward removing the classroom restrictions placed upon the instructors administering exams.

YDC Meet March 10

The March 3 meeting of the State College Young Democrats Club has been moved to March 10. The meeting will be held in Room 242 Riddick at 8:00 p.m. The speaker will be Secretary of State Thad Eure.

GLASSES . . .

A pair of eye glasses were left in a car by some State College student who received a ride from Charlotte to Pittsboro on Sunday night, February 21. The owner may claim the glasses at 611 Club Blvd., Durham, N. C. or by telephoning 8-3159 in Durham.

Newly-elected officers of the Agricultural Club at North Carolina State College are shown above. They are in charge of a wide range of extra-curricular activities sponsored by the club. Top row, left to right: Francis Pressley of Stony Point, president; Jim Hilton of Ames, Iowa, reporter; and James Hunter of Charlotte, vice-president. Bottom row, left to right: John Fuquay of Snow Camp, Barnwarming chairman; Larry Hester of Roxboro, secretary; and Bob Maxwell of Brown Summit, treasurer.

Johnny Long To Play For Military Ball, Selection Pleases Students

By Bob Cone

The general opinion of the military students of N. C. State College is that they are very well pleased that the band committee signed Johnny Long and his orchestra for the Military Ball on April 3, 1954. Signing Long checked off another item from the list of goals which is hoped will lead to the best Military Ball in the history of our school and one of the most colorful dances ever to be staged in the coliseum.

Long whose orchestra is so well known over college campuses throughout the U. S. and so much in demand through the New England circle indicates he is happy to go south and provide some good southern rhythm for the Ball. Johnny Long so our brothers of Chapel Hill tell us is the fellow that wrote

the snappy tune "All the way Choo-Choo."

Reports from Charlie Overman and his decoration committee indicate that if everything progresses as expected the coliseum will have a near face lifting.

Jack Harvin, and Jean Neal, co-chairmen of the sales committee, report that ticket sales are good and they urge that all students obtain their tickets early so that the budget for the Ball may be completed. Harvin also reminds the Army ROTC cadets that all units which have 50 per cent ticket sales to the Ball will be excused from the last three drill days this term.

Jackie Daughtry, chairman of the Ball said that non-military students, faculty, members of the national guard, and reserve units along with other citizens who wish to attend may purchase their tickets at Room 154 in the coliseum.

WILDLIFE BANQUET—

(Continued from Page 1)

The highlight of the banquet came when Charlie Pitts introduced

the guest speaker, Dr. Barkley. Dr. Barkley arose took out his Italian watch called "Dago" and said his topic was, "A Defense of the Col-

lege Professor." His talk proved to be one of the many interesting experience he has had as a college professor. One of the most outstanding topics was his seventeen years as a counselor at Woman's College and his many incidents with the members of the fairer sex. He completed his talk with the showing of some humorous slides showing one artist's conception of the five categories of college professors.

Persons present for the banquet were: Dr. F. S. Barkalow, Jr., and Mrs. Barkalow, Dr. Quay, Dr. Hassler and Mrs. Hassler, Don Baker, Charlie Pitts, Jerry Armstrong, Bob Lewis, James Burns, Raymond Murphy, Cape Carnes, Alva Harris,

Richard Bell, 1950 Design Grad and Rome Prize Winner Joins Stresau

Richard Bell of Manteo, a 1950 graduate of the School of Design at North Carolina State College and the 1952-53 winner of the Rome Prize of Landscape Architecture, is now a member of the staff of Frederick Stresau, landscape

architect of Fort Lauderdale, Fla., friends here learned recently.

Bell spent the last two years traveling in India, the Near East, and Europe under the terms of the Rome Prize.

A native of Elizabeth City, Bell is the son of Mr. and Mrs. Alexander Q. Bell of Manteo. His father, in collaboration with Playwright Paul Green, designed The Lost Colony Theatre at Manteo.

BORDEN—

(Continued from Page 1)

Expressing appreciation for the establishment of the award at N. C. State, Dr. D. W. Colvard, dean of agriculture at the college, and Dr. Roy L. Lovvorn, director of instruction in the School of Agriculture, both said they were pleased to be in a position to honor seniors in the school for outstanding scholastic performance.

Dean Colvard said, "I think it is particularly pleasing that the award will be made on the basis of scholastic record and that it is clear recognition of academic achievement."

Reynolds Professors of Agriculture Named: Drs. Metcalf and Peterson

Two faculty members in the School of Agriculture at North Carolina State College Dr. Zeno Payne Metcalf and Dr. Walter John Peterson—have been named "William Neal Reynolds Professors of Agriculture" at the institution.

In making the announcement, Chancellor Carey H. Bostian and Dr. D. W. Colvard, dean of the college's School of Agriculture, said the promotion of the two professors was made in accordance with a benefaction given to State College by the late Winston-Salem tobacco manufacturer and philanthropist.

The action has been approved by President Gordon Gray of the Consolidated University of North Carolina and the executive committee of the Board of Trustees.

A member of the State College faculty since 1912, Dr. Metcalf is an internationally-known scholar and scientist. He is now professor of zoology and entomology, having served as director of instruction in the School of Agriculture, 1923-44, and as director of graduate studies, 1940-50.

Dr. Peterson, also a widely-known educator and scientist, joined the State College faculty in 1942 as professor and head of the Nutrition Section, Animal Industry Department. In 1949, he became head of the Chemistry Department. He is also chairman of the State College faculty.

Appointment as a "William Neal Reynolds Professor of Agriculture" is recognized as the highest honor open to faculty members in the School of Agriculture at State College.

The endowment creating the distinguished professorships was established by William Neal Reynolds in 1950 through the contribution of 10,000 shares of class B stock in the R. J. Reynolds Tobacco Company, valued roughly at \$340,000 on the current market. Earnings of this stock will be used to carry out the aims of Mr. Reynolds' benefaction.

College officials have described the Reynolds' gift as "probably the greatest single program to come to State College's School of Agriculture since its founding" and said the endowment would enable the college to retain and attract eminent teachers and scientists for work in the School of Agriculture.

The endowment is designed to strengthen training and research programs in the various fields of agriculture and to lift rural living standards in North Carolina. (Continued on Page 7)

Assistant Prof of Ag Engi. Appointed

Appointment of Blaine Frank Parker as assistant professor of agricultural engineering at North Carolina State College, effective March 24, was announced Tuesday by Chancellor Carey H. Bostian.

Chancellor Bostian also announced that a leave of absence has been granted to Dr. Lee R. Martin, associate professor of agricultural economics, for 18 months beginning March 17 in order that he may participate in an economics mission to Pakistan.

The chancellor also reported the resignations of Thomas Leigh Copley, research professor of agronomy, and Thomas Gibson Toon,

research assistant professor of agricultural economics.

The faculty changes have been approved by President Gordon Gray of the Consolidated University of North Carolina, and the executive committee of the Board of Trustees.

A native of Gaston County, Parker will replace N. C. Teter, who resigned his position at the college to accept an assignment with the U. S. Department of Agriculture at Holland, Va.

Prof. G. W. Giles, head of the Department of Agricultural Engineering at State College, said Parker will be in charge of teaching and research in farm structures at the institution.

Professor Parker received his B.S. and M.S. degrees from the

Virginia Polytechnic Institute and is now a candidate for a Ph.D. degree at Michigan State College.

He served in the U. S. Army Air Corps during World War II; worked for the Bureau of Plant Industry of the U. S. Department of Agriculture at Blacksburg, Va., in 1947; was connected with the Tennessee Valley Authority, 1948-49; and was an instructor at VPI, 1950-52.

EDITORIAL COMMENT:

THE EDITOR SAYS:

A marked decrease has been noted lately in the activities of campus gendarme Burnette. This has given rise to much comment particularly among those students having cars on campus. Favorite theory advanced to explain the phenomenon is that McCree Smith and officer Burnette have had a change of heart—that some unknown, presumably pleasant development in their professional or personal lives has had a mellowing effect on their natures.

We think it more likely they have settled on this course of action as being the one most likely to bring to successful conclusion a battle they have long been waging to have student autos banned from the campus. They may have concluded that student drivers, if left unmolested, would so abuse the campus traffic laws, that the Faculty Council, in

justifiable wrath at having their reserved parking spaces constantly occupied by student autos, would insist that students not be allowed to have cars on campus.

The faculty are certainly due the minor privilege of reserved parking space and, considering the fact that no provisions have ever been made, in State Legislature appropriations, for student parking facilities, student parking space is adequate if unpaved. Students may at times have to walk short distances since parking lots are not adjacent to every campus building but they are or should be better able to do so than the average faculty member.

We suggest that student drivers in the future honor all Campus traffic rules. Having been forewarned they can only blame themselves if their cars are taken from them.

CG Constitution Changes Explained By Barrett

From time to time, various articles have appeared in this newspaper concerning the new constitution of Campus Government. For several years Campus Government has been working to perfect this document. Now only two steps remain before this new constitution will go into effect. First it must receive the approval of Gordon Gray, president of the Consolidated University. It appears certain that this approval will be obtained. Then it must be approved by a two-thirds majority of the students voting in a referendum. The purpose of this article is to acquaint you, the student, with the main changes in the constitution, so that you will be able to vote wisely in the referendum, which is to be held March 30.

Probably the greatest single change in the constitution is that there will be an expanded representation from the schools. That is, student government representatives will still be chosen from the four classes in each school, but instead of there being only one representative for each class as it is now there will also be one additional representative for each two hundred students in that class. This means for example, that a class within a certain school which has, for instance, four hundred students will have a total of three student government representatives instead of only one as they do now. This expanded representation will make the students feel more as if they are truly represented and are a part of the student government. Further, having more representatives will enable the president of the student government to make committee appointments without assigning one man to as many as three committees, as he must do now, with only the comparatively limited number of men available.

The second major change to be found in the new constitution is that in the future the vice-president will preside over meetings of the Student Council instead of the president. It has been found by experience that having the president to preside at meetings is unwise for two reasons—1) he is overworked already, and 2) he is thereby put in the position of having to be an impartial presiding officer and at the same time trying to carry through the program which he outlined in his campaign. Thus, the change will allow the president to act as a free executive officer of the government working with the administration on various committees and presenting his program vigorously to the Council, while the vice-president is placed in charge of carrying on

the meetings of the Council as an impartial chairman.

Another change to be found in the new constitution is the separation of the judicial branch of the student government from the executive and legislative branches. This is accomplished by the establishment of a Judicial Board, composed of ten men elected in the spring campus elections. This Judicial Board will have complete responsibility for all judicial matters, and no member of the Board may be a member of either of the other two branches of the student government.

Since one of the main duties of the Judicial Board will be the responsibility for the honor system and for trying honor violations, some attention should be given to this phase of the Board's activities. Briefly, honor trials will be conducted in an informal manner with the object of merely getting at the facts of the case without too many legal technicalities being involved. The Board will have a Chairman, elected by its own members, who will guide the progress of the trial. A two-thirds majority vote, taken by secret ballot, will be necessary for a conviction. The Judicial Board will also have responsibility for conducting a continuous honor system orientation throughout the year.

The last major change found in the new constitution is that the new government will be called the Student Government, not the Campus Government. This, however, is not a change in name only; it is a basic change in the idea of our government. There will no longer be faculty members in any branch of the Student Government as there are now in the Campus Government. It will be composed entirely of students, and will succeed or fail on our efforts. This puts a greater responsibility on the shoulders of the students, but I believe that the students, will take this opportunity and make the most of it.

These are the major proposed changes that you will be called upon to vote for or against in the coming referendum. I believe that these changes are basically sound, and that the students here will realize this and pass the new constitution by a wide majority.

You will receive a copy of the new constitution during registration next term. Having read it, I'm sure that you will agree with me that these changes give the students something to look forward to in our Student Government next year and in the years to follow.

Dave H. Barrett

Design School and Profs Commended

Duncan Robert Stuart, associate professor of painting and design in the School of Design at North Carolina State College, is described as "one of the most exciting stars on the national art horizon" in the current issue of "Art in America," a national magazine published in Springfield, Mass.

In an issue devoted to "Americans With a Future," the magazine has a two-page feature on Professor Stuart, including reproductions of three of his paintings.

The magazine also pays a tribute to Dean Henry L. Kamphoefner and the School of Design at State College. The school, according to the magazine, "is beginning to revolutionize Southern art and thought" and is "among the most energetic and experimental in the nation."

Stuart, a native of Des Moines, Iowa, joined the State College faculty in 1948. His paintings have won him many honors and have been exhibited throughout the United States. He has participated in several major art forums and art festivals.

Prior to joining the N. C. State faculty, he was technical director of the Farragut Playhouse at Rye Beach, N. H., and the Spotlight Productions at New Haven, Conn., and is a former faculty member at the Universities of Oklahoma and Michigan.

Commenting on Stuart's work as a painter, "Art in America" says:

"Stuart's painting is primarily exciting and lively. With a hot and pulsating beat to his color, the artist explores a world of form, movement and texture. Close association with 'Bucky' Fuller in the technical research associated with the development of the Dy-

Wolfpack Capers

By John Parker

Friends—just a pause to wish you luck on your finals. I allow as how I'm doing everything possible to stay in school what with all the balls that are coming up next quarter. The Military Ball is April 3, the Jr.-Sr. is April 24, and I think Spring Finals is to be May 14-15.

Speaking of fun, I guess you had a hellacious time at the Engineer's Ball and Mid-Winters. What a weekend! The Arnold Air Society had a formal banquet and dance Friday night and take it from me, a rare time was had by all. Another night to remember. I'll hush before somebody thinks I live for parties—well, is there something else?

Pet Peave Dept.: People who knock out the lights in the pedestrian tunnel under the railroad. Have you ever walked down the middle in the dark? There's a railing there. Well, ask me. Someday I'd like to settle down and become a family man.

From the looks of the campus Sunday, somebody thought it was Christmas and decorated the bushes and trees with long strands of creamy-white paper. Moral of this story is be prepared for emergencies; keep a spare roll.

Here's an idea for you if your girl can't knit you argyles. Get her to make you some underwear. Booty Ham—got some shorts for Valentine with a big red arrow

through a heart embroidered on the seat. Also had "Gwinn loves Booty" written on it. How romantic!

Wonder if the college can be sued by the restaurants on Hillsboro Street for fertilizing the grass over by the new library? That odor was enough to make anybody lose their appetite.

Did you see the sign on Tucker last week? Naughty boys!

The Junior Class is known to have some party-poopers in it. So far just enough class dues have been collected to put on the dance. All that's needed now is a band. Minor detail, we can always use a big name-band-on records. All additional dues go for an orchestra so come on and let's pitch a ball.

Hope everybody pulls through. See you around next quarter. Toolie ooh and ustayohso so berr.

Humor Talk Given

Dean E. L. Cloyd was guest speaker at the Agronomy club's regular bi-weekly meeting Thursday, January 25 at 7:00 p.m. in Williams Hall. Dean Cloyd gave a very interesting talk on "humor" which was enjoyed by everyone, after which refreshments were served.

The Agricultural Economics Club held its last official meeting for the winter term at 208 Patterson Hall. There was a full attendance of the club members which contributed to a fruitful discussion of business matters and problems of interest to the group.

GREYHOUND

THE Dorm Corner

By Jerry Armstrong

The underdogs of Tucker No. 1 pulled the upset of the season this week when they took two straight matches from Becton No. 2 in the play-off of the dormitory table tennis championship tournament. Becton No. 2 had previously defeated the Tucker team, but couldn't seem to stop the "red hot" lads from Tucker. The first round of the championship tournament in basketball also started this week between the teams of Becton No. 1, Tucker No. 2, Bagwell No. 1, and Alexander No. 1. Handball finished the season in another dramatic climax with Becton No. 1 champions. Berry won the bowling championship crown.

Basketball

The tie that occurred in section 1 between the teams of Berry and Alexander No. 1 was played off last week with Alexander winning the game by a slim margin despite the last minute rally that the "Huskies" managed to stage. This put Alexander the champs of section 1 and in the first game of the playoff tournament they meet the Becton No. 1 team, who broke up the last minute efforts of the Alexs and took the victory by the score of 54-46. A close battle was the theme of the entirety of this game between Becton No. 1 and Alexander No. 1. Becton found this team to be the only one so far this season that has given them any sign of defeat. The Bects had to fight right down to the sound of the whistle to take the victory and did this with the spark of key pivot-man Don Langston, who was the outstanding "board man" and high man for the game with 23 points.

In another first rounder, the Bagwell No. 1 team found the going too much of a steep climb in their quest for victory over the Tucker No. 2 team and the "Dragnets" went down to defeat, 64-55. Traywick and Hapward collected 21 and 13 points respectively for the winners and high man for the losers was Glenn Scott with 15 points. This was Tucker's six straight win against no defeats.

Handball

Becton No. 1 took on the opposition during the season and went into the championship playoff tournament without a defeat and they took the tournament without much difficulty to become the campus dormitory champs. The championship playoff game between the Champs and the boys from Bagwell No. 1 proved to be of little trouble to them as they took both the singles, Don Langston of Becton won over Joe Pearson of Bagwell by two matches to none and Carl Wyles waltzed away with his two straight matches over his opponent from Bagwell, Hawkins. The doubles team of Becton, Overton and Murray, also proved to be the masters of the situation as they took the Bagwell team, Sanderson and Hughes, in two consecutive matches.

Table Tennis

This playoff meet proved to be one of sheer determination and praise for the "fighting quartet" from Tucker No. 1 as they, after already having lost a previous match to Becton No. 2, came back in a stirring climax to take two straight matches and the dormitory championship. Most of this praise should go to the singles players of Tucker, who won two straight matches from their foes to give them the team victory when the doubles team had some trouble with their game and lost both of their matches to the Becton team.

The singles team of Tucker consisted of Forsythe and Fox and they took their matches from the threesomes from Becton of Alvarez, Frajhof, and Theodoridis. The doubles team of Tucker was Decoursey and Browning against the com-

(Continued on Page 6)

Gets Out National Frat Roster

The North Carolina State College Chapter of Keramos, the national professional ceramic engineering fraternity, was in charge of the publication of a "Roster of Keramos Fraternity," which recently was published by Industrial Publications, Inc., of Chicago.

The 66-page roster contains a brief history of the fraternity, a list of the past presidents and present officers, and the names of the fraternity's National Membership now amounting to more than 2,000 ceramic engineers.

Keramos, founded at Ohio State University in 1902, was the first professional fraternity in the field of the physical sciences and is one of the leading organizations of its kind today.

Dr. A. F. Graves-Walker, former head of the Ceramic Engineering Department at North Carolina State College and now a faculty member at the University of Florida, has been a key figure in the activities of Keramos for many years and compiled a national history of the fraternity in 1952.

Officers of the State College Chapter of Keramos, who are conducting a wide range of extra-curricular projects, are Robert W. Kendrick of Roanoke Rapids, president; John R. Hart of Raleigh, vice president; David W. Kane of Raleigh, treasurer; David E. Nixon of Charlotte, secretary; and Floyd R. Bennett of Valdes, herald.

Dr. W. W. Kriegel, head of the

4-H Club Business

Discussed At Parley

The collegiate 4-H Club meeting was held Wednesday, February 17, at 6:00 p.m. in room A of the College Cafeteria.

The main item of business was the completion of plans for entering the Woman's College 4-H

Club debutation. The girls are to arrive 5:30 p.m., Saturday, March 6. State College 4-H Club members are to meet the girls at the college YMCA and then go to the Community Center on Western Boulevard. Supper will be served and there will be games and square dancing. All 4-H members are invited.

THE DU PONT DIGEST

What do YOU look for in an employer?

Undoubtedly, you'll want most of the following characteristics:

1. Job satisfaction—the chance to do work you really enjoy.
2. Recognition—the assurance that good work will be noticed, appreciated, and properly rewarded.
3. Opportunities for advancement—a growing company can provide them.
4. Security—the knowledge that a company is both stable and progressive.
5. Pride—a feeling that your company is respected by the public and produces goods which contribute to a better way of life.
6. Good companionship—a factor which contributes greatly to happiness on the job.
7. Good pay—not in salary alone, but also in terms of vacation plans, pensions, and other benefits.
8. Safe working conditions.

How can you obtain this kind of information in advance?

One of the best ways is to discuss the matter with an acquaintance already working for the company you are considering. You will also find it helpful to consult your college placement officer, your professors and company representatives visiting your campus.

The selection of an employer is one of the most important decisions you'll make. It justifies considerable thought and effort.

SOON AVAILABLE for student ASME chapters and other college groups, a 16-mm. sound colormovie—"Mechanical Engineering at Du Pont." For further information, send post card to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware.

SWIMMING

In probably as great a single athletic accomplishment as has ever been achieved here at State College, the Wolfpack swimming team won eleven out of twelve first places in the annual A.C.C. swimming championships here at the Frank Thompson Pool on Friday and Saturday of last week. State's seven man team dominated the meet from the very start of the contest.

Led by their great All-American Bob Mattson, the Wolfpack walked away with the first A.C.C. title. Mattson broke the old pool and Southern Conference record for the 220-yard freestyle by doing the distance in 2:11.3. He also came back the next day to dominate his specialty, the 150 yard individual medley. The State star took the lead right from the start in this event and was never headed. He loafed home in the very good time of 1:35.1 for this distance.

State's Tommy Dunlap also broke one record as he breezed home ahead of the field in the 100-yard backstroke in the great time of 60.6 seconds. Tommy was also a double winner in this meet having won the 200 yard title for himself and his school on the previous day of competition.

Sophomore Fred Ruppenthal, who was sensational for the Wolfpack all through the season, came through with still another outstanding feat by winning the 440-yard freestyle to give State possession of the William Thompson Memorial Trophy. The speedy soph from York, Pennsylvania covered the distance in 4:55.5. In doing this, Fred finished two full laps ahead of his nearest rival in the six man field.

The only upset of the day occurred in the 100-yard freestyle as Bill Coggins of the University of Virginia won by a touch over State captain Don Sonia. The time for this event was 53.8. Senior Paul Arata won both breaststroke races of the meet. He won both the 100 and the 200 yard events on successive days.

The other schools in this meet such as Carolina, Duke, Virginia, Clemson and South Carolina were almost forgotten as the home team piled up first place after first place. North Carolina saved some badly needed prestige by winning the one-meter board diving event as Hussey of Carolina bested Bates of Virginia to win the John A. Feuchlenberg Trophy.

In the 400-yard relay, which was held the first day of the meet, the Wolfpack quartet of Ruppenthal, James, Mattson, and Sonia won over U. N. C. in the very good time of 3:34.9. Captain Don Sonia came through with another first place for his team as he won the 50-yard freestyle. Walske of Duke and Middleton of South Carolina finished in that order behind the winner.

At the conclusion of the meet, State College was presented the Atlantic Coast Conference championship trophy by Athletic Director Roy C. Clogston who is chairman of the conference swimming committee.

Willis Casey, the young and talented coach of the first annual A.C.C. swim champs, deserves a lot of credit for his outstanding job of coaching this small but talented team to an undefeated season as well as to the conference championship. The team and its coach is a great credit to the school. This year's swimming squad has shown its heels to every opponent this season and should be just as talented and potent come next year.

bined forces from Becton of Hilmy, Frajhof, and Theodoridis.

Bowling

Berry Dormitory took the bowling championship this week in a dramatic finale by coming from behind in the playoff series to take two consecutive matches from the

Bagwell No. 1 "Dragnets." Berry won the first game of the final round by a very close margin of pins, but found the chargers from Bagwell determined to win as they took the second game to even the series at one game all. The final championship game was a "hair-raiser" as it went down to the last frame before the "Huskies" came out on top.

State Swimmers Cop A. C. C. Title in Romp

State Wolflets End Excellent Season

Last Saturday evening, the North Carolina State College freshman basketball team routed the University of Richmond yearling quintet by the score of 87-54. The victory was the eighteenth of the year for the Wolflets of head coach Vic Bubas. The only adverse decision for the team came at the hands of the Tar Heel freshmen in an overtime contest which was played at Chapel Hill. This one point loss was avenged by the State team as they bested the Carolinians by a convincing margin in a return game played at the Coliseum last month.

State played without the services of their high scoring guard John Maglio. However, it made little difference in this contest as the Wolfpack frosh jumped to a fourteen point half time lead and were never threatened seriously after that. Forwards Nick Pond and Cliff Hafer were tied for high scoring honors in this contest with eighteen points each. Center Bob Seitz and guard Bob Giddens had sixteen and fourteen points for the winners. Atkins and Stewart were the leaders in the point getting for the Richmond squad as

they poured fourteen and twelve through the hoop for their side.

The squad this year has really done an outstanding job. They have bested some of the best service teams in the country this season as well as having won the Big Four championship against probably the toughest frosh opposition that the Big Four schools have ever put on the floor.

Too much credit cannot be given to head coach Vic Bubas for the success of this year's quintet. His great leadership and coaching have made the difference in the success or failure of the squad. One could not help but notice the constant improvement of the Wolflets from game to game. They really played as a team throughout the season even though two starters were out with injuries a great deal of the time. With the fine hoop background that these boys have acquired as members of the freshman team this season, they cannot help but be assets to the varsity come the next few years.

Score by periods:
Richmond Frosh 22 12 6 14—54
State Frosh 27 21 16 23—87
Richmond Frosh State Frosh
Atkins 14 Pond 18
Morton 9 Hafer 18
Stewart 12 Seitz 16
Ireland 8 Giddens 14
Bratsans 5 Crow 2
Richmond Frosh subs: Anderson, Burkholder 6, Archer.
State Frosh subs: Adams 4, Gall 6, Johnson, Rose 7, Ivey, Smiley 2.

Shankle Stars In A.C.C. Indoor Meet

The first annual Atlantic Coast Conference Indoor Games were held at the University of North Carolina field house last week.

The Terrapins of the University of Maryland walked off with the team trophy for the winner of the meet by beating the homestanding Tar Heels by twenty points. There were many individual performances worth noting in both the conference and non-conference divisions.

Probably the most amazing of all was the record breaking 6.2 sixty yard dash time turned in by Jeff Newton of the Tar Heels. This broke the old mark for this event by one tenth of a second. The record was held since 1933 by Earl Widmyer of Maryland who also tied this same mark in 1934.

In the half mile run, Waggner and Faass of Maryland ran one, two, to notch eight points for their team in this one event alone. In the non-conference 880 yard run the Navy won every place but second and Czaja, the winner, broke the meet record for this event by running a 1:57.3 half. In the conference pole vault, Schwarz of Maryland won the event with a new record leap of thirteen feet three inches.

Joel Shankle, the great individual star of the Duke Blue Devils, came in second in this event. He, however, won three events in this meet including the 70-yard low and high hurdles as well as the broad jump. Shankle tied with Ray Quilen of the University of Virginia for first in the high jump with a leap of 6 feet 1 inch. This gave the possible 1956 Olympic star a grand total of 22 points for the night which turned out to be over twice the total amassed by his mates during the entire contest.

In the Freshman division, the Tar Babies of U.N.C. nosed out the Maryland Frosh 16-14 to capture meet honors.

Dorm Awards Made

By Jerry Armstrong

The Inter-Dormitory Council of North Carolina State College made its annual presentation of awards last week to a member of the College Physical Education Department and two dormitory students, who had contributed most to the intramural program for the 1953 season, at the halftime of the North Carolina State-University of North Carolina basketball game held in the Reynolds Coliseum.

A gold engraved trophy was presented to each of three receiving the honors. The first to receive a trophy was the member of the Physical Education Department who contributed the most to the intramural athletics and this went to Jimmy Edwards. Next came the presentation of the trophy to the most outstanding athletic director of a dormitory on campus. Jimmy Causby, a sophomore from Syme Dormitory, received this award for his work with the athletic teams in his dormitory and for his wholehearted support by being a player on almost every team from the dorm. The last award went to the boy who had contributed most to the intramural program by participation in all the sports and being a leader in the planning and guidance of each of the different sports. Tommy Trulove, athletic director of Becton, received this award because he participated in almost all of the different sports for Becton and also served on the advisory board for intramural athletics.

All A.C.C. Choice

NCAA Playoff Tilt Here

First round playoffs in the National Collegiate Athletic Association basketball tournament will be held on Tuesday night, March 9 at the William Neal Reynolds Coliseum with the champions of the Southern Conference and Atlantic Coast Conference facing each other in a single game at 8:15 p.m.

Announcement of the selection of Raleigh as the site for the playoffs was made recently by A. C. (Dutch) Lonborg, Athletic Director of the University of Kansas, chairman of the site selection committee.

Ticket sales for the playoffs will begin Thursday, March 4 at the Atlantic Coast Conference tournament in Raleigh. Tickets are priced at \$1.50 and \$2.50 for the single game.

While the selection of the two competing teams will not be determined until after the Atlantic Coast and Southern Conference complete their tournament at Raleigh and Morgantown, W. Va., indications point to a pair of great clubs coming into the NCAA first-round clash. George Washington, Furman and West Virginia are the favored clubs in the Southern playoffs and Duke, Wake Forest, Maryland and N. C. State are all rated at a 50-50 chance of winning the Atlantic Coast.

The winner of the March 9th game will go directly from Raleigh to Philadelphia, Pa. where they'll meet the winner of a playoff game at Buffalo, N. Y. The regional game at Philadelphia will be held at the University of Pennsylvania Palestra.

REYNOLDS PROFESSORS—

(Continued from Page 3)
The gift is one of many benefactions made to North Carolina State College by the Reynolds family of Winston-Salem. The institution's 12,000-seat Coliseum—largest building of its type in the South—bears the name of the late William Neal Reynolds, whose niece, the late Mrs. Charles Babcock of Winston-Salem, donated the initial fund toward the erection of the imposing structure. Several research and education-

al projects at the college have been made possible by R. J. Reynolds, Jr., former Mayor of Winston-Salem and an alumnus who studied with N. C. State's Class of 1927. Commenting on the appointment of Drs. Metcalf and Peterson as "William Neal Reynolds Professors," Dr. Colvard praised both men for their professional achievements and for their devotion to the objectives of State College. "Dr. Metcalf," he said, "has been a most productive scholar in terms

of publications and has a long record of service in academic and administrative assignments with this institution." Lauding Dr. Peterson for establishing "high academic standards in the Chemistry Department," Dean Colvard said Dr. Peterson "is recognized by his associates as a very thorough scholar and has set a high standard of research performance." In addition to his various administrative and academic duties at State College, Dr. Metcalf has set himself the man-sized task of writing 42 books on the insects of the world—the most exhaustive study ever undertaken in this field of science.

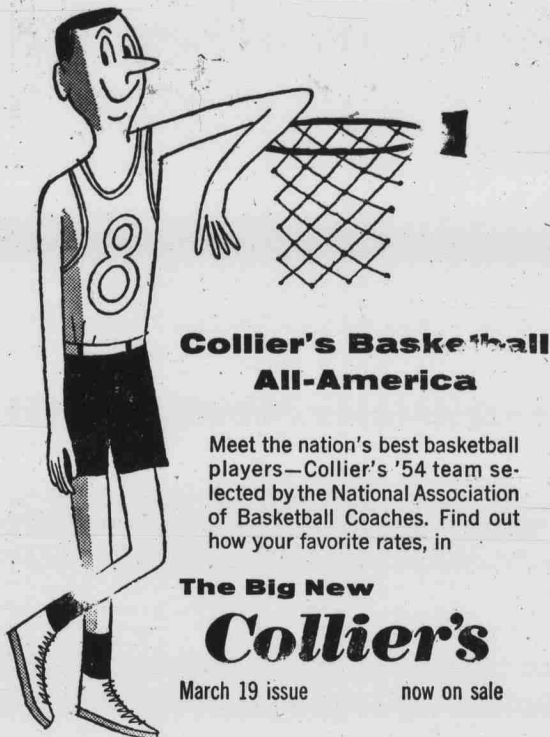

Dr. Metcalf is now working on the 13th book in the series and estimates he will complete the 42nd volume within the next six years. The volumes range in length from 100 to 1,200 pages and constitute a catalog of all the world's scientific literature on insects. He has served as president of both the Entomological Society of America and the Ecological Society of America. Dean Colvard said his record of service with professional societies is probably unsurpassed among biologists in the South.

Active in civic and scientific affairs, he is a former president of the North Carolina Academy of Science and a past president of the Raleigh Kiwanis Club. He is also (Continued on Page 8)

Calton, and Ben Wilson. Dr. Goode, coach of the Livestock Judging Team, presented keys to Gerald Balick, Jackie Daughtry, Henry Ramsuer, Clyde Connor, Henry Rush, and Devere Martin. Francis Pressly, President of Ag Club, urged that all boys graduating this term and who are eligible for a certificate to hand in their points to Bob Maxwell as soon as possible. He also urged all members to be sure and attend the meeting next week when the final elections will be held. Being no further business, the meeting was adjourned until next Tuesday at 7:00 p.m. in Withers Hall.

STUART—

(Continued from Page 4)
maian theory apparently has only liberated the artist's taste for expressing the intangible thoughts of man, as contrasted with the factual mold of science. "A phenomenon of all painting today seems to be its delight in the exploration of pure color. Stuart, and his pupils too, exploit color to the limit. His painting combines the intellectual and the sensuous approaches in a dynamic manner which makes Duncan Stuart one of the most exciting stars on the national art horizon. One is impatient for the Stuart of tomorrow."

Ag Club Candidates Announced

The weekly meeting of Ag Club was held last Tuesday night at 7:00 p.m. in Withers Hall. The major business was the Primary Elections for officers in the spring term. The nominees are as follows: President, Glenn Byrd and Bill Mericka; Vice-President, Reese Allen and Bob Jenkins; Secretary, Banks Leonard and Shep Moore; Reporter, Charles Weatherly and John Richardson. The 1954 Ag Fair nominees were Bill Sparrow and Willard Wynn for Chairman, David Sartin and Al Williams for Vice-Chairman, James Walker and Albert McCracken for Secretary-Treasurer, and Jackie Koone and Eugene Gray for Publicity Chairman. Eugene Pickler and Bill Enloe were nominated for Editor of the *Agriculturist* and Herman Porter and Hope Shackelford for Business Manager of the *Agriculturist*. Dickie Harris, Chairman of the 1954 Livestock Day, announced that this year's event would be held on May 8 with a banquet being held that night. He urged all boys who plan to participate to please notify him at the first meeting next term.

Bill Mericka introduced the coaches of this year's judging teams. The various coaches presented the keys to the members of the judging teams. Dr. Murly, coach of the Dairy Judging Team, presented keys to Francis Pressly, John Fuquay, Sam Sain, and Johnny Beck. Dr. Warren, coach of the Dairy Products Judging Team, presented keys to James Hunter, Fred Landreth, Richard Ledford, and Buck Harris. Dr. Brown, coach of the Meats Judging Team, presented keys to Jimmy Sweet, Bob Cooper, Bill Little, Bill

a fellow of the American Association for the Advancement of Science.

In 1948, Dr. Metcalf accepted an invitation to participate in the Eighth International Congress of

Entomology at Stockholm, Sweden, and the 18th International Congress of Zoology at Paris, France.

Prior to joining the State College staff in 1912, Dr. Metcalf was a faculty member at Ohio State University and the University of Michigan. He was a visit-

ing professor at Duke University, 1935-36. He is a native of Lakeville, Ohio.

He and Mrs. Metcalf reside at 315 Forest Road, Raleigh.

Since joining the State College faculty in 1942, Dr. Peterson has been an active figure in the functions of the college and in the civic and religious life of Raleigh. He is a former faculty member at Kansas State and was a chemist with the DuPont Cellophane Company, 1930-31.

A native of Michigan, he earned B.S. and M.S. degrees from Michigan State College and a Ph.D. degree from the University of Iowa.

He is the author of more than 60 scientific publications, including work on carotene of forage plants, nutritional diseases of animals, phosphorous and calcium requirements of poultry, swine, and cattle.

In addition to his present position as chairman of the State College faculty, Dr. Peterson has served on various other faculty assignments. He was chairman of the committee on the appraisal of the Ph.D. program in the Animal Industry Department, the School of Agriculture curriculum committee, and assisted in the appraisal of the

MEET YOURSELF— 10 YEARS FROM NOW

Ever wonder what you'll be like when the class of '54 holds its 10th reunion? If you started to work for one of the Bell System companies after graduation, here's a pretty good idea.

INTERESTING, RESPONSIBLE WORK. Perhaps a Development Engineer with Bell Laboratories, exploring the application of fundamental new electronic inventions to telephone communications. Or a Transmission Engineer, helping to provide the telephone needs of an entire state. Or a Supervisor in the Traffic Department, responsible for the speed and quality of local and long distance service in several cities and for the personnel relations of a large number of employees.

WE MAKE SURE THERE ARE PLACES TO GO: The number of college men hired is related to the number of administrative and technical positions expected to be available in the next 10 or 15 years. It is our policy to fill these positions from within our organization.

ENGINEERING AND TECHNICAL GRADUATES are among our particular needs. The specific degree is not as important as the total effect of your college training.

NO MATTER WHAT YOUR MILITARY STATUS, contact your Placement Officer soon for details on the opportunities for employment with the Bell System.

**BELL TELEPHONE SYSTEM****PROF. H. C. BIRD****GEORGE G. THOMAS**

Harold C. Bird of Durham (left above), professor emeritus of civil engineering at Duke University, and George G. Thomas of Wilmington (right), engineer of bridges for the Atlantic Coast Line Railroad Company, were awarded life membership certificates by the American Society of Civil Engineers in exercises at North Carolina State College this afternoon (Friday, Feb. 19). The presentation of the certificates was made at the annual winter meeting of the North Carolina Section of the ASCE.

(Story on Page 9, Column 1)

chemistry program at A. & T. College in Greensboro.

He has also been active in PTA and Community Chest work in Raleigh and teaches a Sunday School class in his church. He and

Mrs. Peterson have two children—John, 17, and Mary, 14, and reside at 1121 Harvey Street, Raleigh.

Dr. Peterson is a member of the North Carolina Academy of Science, American Association for the Advancement of Science and the American Chemical Society. He is listed in "American Men of Science," "Who's Who in Chemistry," "Who's Who in the South," and "Who's Who Among Men of America." For three years, he was chairman of the Southern Experiment Station Nutritionists.

His honor society affiliations include membership Sigma Pi, Phi Sigma, Phi Lambda Upsilon, and Phi Kappa Phi. He is presently the president of the State College Chapter of Phi Kappa Phi.

2910 Hillsboro

"We Clean
Clothes Clean"

THE COXSRAIN WHO WANTED TO BE A NUDIST

The coxswain of a leading university crew didn't like to be tossed in the water after a victory. He didn't like it so much the crew started tossing him in the water any old time they saw him near it.

He complained bitterly that it was ruining all his sportshirts. He liked nice sportshirts, but all he owned had either shrunk or streaked or spotted. He was not a happy coxswain. With no more sportshirts, he contemplated joining a nudist colony.

He told the whole wretched tale to the Dean of Men.

The Dean said, "You like really good sportshirts, eh? Something like a fine gabardine?"

"Uh huh," the coxswain beamed.

"Try this—take \$5.95 down to the nearest men's store and get a Van Heusen Van Gab. It's the best-looking gabardine sportshirt you've ever owned and it's completely washable—any kind of water. What's more, it's got real pick-stitching on the collar, pockets and cuffs... it's got a Sportown collar that looks as smart with a tie as without. Van Heusen really knows how to make 'em."

Said coxswain is now sportshirt king of the campus. Owns Van Gabs in all smart non-fade colors. Called best-natured coxswain on east coast. Doesn't wait to be dunked by crew. Jumps in, Van Gab and all.

ASCE Awards Life Membership to Prof Emeritus at Annual Winter Meet

Harold C. Bird of Durham, professor emeritus of civil engineering at Duke University, and George G. Thomas of Wilmington, engineer of bridges for the Atlantic Coast Line Railroad Company, were awarded life membership certificates by the American Society of Civil Engineers in exercises at North Carolina State College.

The presentation of the certificates was made at the annual winter meeting of the North Carolina Section of the ASCE. Edward B. Rice of Raleigh, president of the North Carolina ASCE Section, presided over the meeting.

Approximately 100 persons from throughout the State, including civil engineering students from Duke University and State College, attended the meeting.

Principal speakers were Dr. D. V. Terrell, dean of engineering at the University of Kentucky and president of the American Society of

Civil Engineers, and Commander M. L. Rutter, USN, who is attached to the Marine Corps Air Station at Cherry Point.

Rutter discussed the construction and training program of the Marine Corps Air Station at Cherry Point. The topic of Dean Terrell's remarks was "The Civil Engineer."

Officers of the section, in addition to President Rice, are Dr. Ralph E. Fadum of State College, vice president; Channing B. Brown of Charlotte, vice president; L. E. Wooten, Sr., of Raleigh, program chairman; and James F. Pou of State College, secretary-treasurer.

Professor Bird and Thomas, who received life membership certificates, are veteran civil engineers and have long been active in professional affairs.

A native of Bethel, Conn., Professor Bird is a former Yale University faculty member, has been

State Man's Article In Ceramic Bulletin

Dr. William C. Bell of the Department of Engineering Research at North Carolina State College describes the revolutionary changes taking place in this region's brick-making industry in an article in the current issue of the American Ceramic Society's Bulletin.

Red clays, the traditional raw material used in making brick, have been almost totally replaced by slate, shale, and schist, according to Professor Bell.

Technological innovations in every step of the manufacturing process from the mining of raw materials to the shipment of the finished brick are described in the paper entitled, "Recent Developments in the Building Brick Industry of the Southeastern United States."

These improvements, he points out, have served the dual purpose of reducing production costs and increasing quality in the industry. Another significant change is the decreasing demand for manual labor and increasing need for technical skills, he says.

Publication of a paper by the American Ceramic Society in either of its scientific magazines constitutes a mark recognition for its author since the Society's "Bulletin" and "Journal" are the principal sources of technical information in the non-metallic minerals field.

Dr. Bell, a native of Greensboro, received his education at N. C. State and Ohio State and has been a member of the N. C. State staff since 1947.

Notice

We want two agents to represent us on a commission basis on the State College Campus. These men will have to have a general knowledge of, and close contact with the fellow students. Write, giving years at State, and other qualifications. L. T. Hobbs, 421 W. Peace St., Raleigh, N. C.

Design Dean Helps Church Art Group

Dean Henry L. Kamphoefner of the School of Design at North Carolina State College has been appointed to the Commission on Architecture of the Department of Worship and the Arts of the National Council of the Churches of Christ in the United States of America.

The Department of Worship and the Arts, M. P. Halverson, executive director of the council said in a letter to Dean Kamphoefner, "was created by the National Council of Churches, which includes most of the major Protestant and Eastern Orthodox denominations in the United States, to foster communication between people in the arts and the churches."

Dean Kamphoefner, who has headed State College's School of Design since its was established in 1948, is one of three authors of a book, "Churches and Temples," recently published by Reinhold Publishing Company of New York.

In writing the dean about his new assignment with the National Churches of Christ, Halverson said:

"We hope not only that the level

Scholarships To "State" To Be Given To Every State High School

High school and county committees in all of the State's 100 counties are now at work on the new "Talent for Service" scholarship program of North Carolina State College.

In reporting this today, Dr. E. T. York, Jr., chairman of the college's Committee on Scholarships and Grants-in-Aid, said the new scholarship program, sponsored by the Development Council of State College, is designed to make available a number of additional \$500 and \$1,000 scholarships at the college.

High school committees, Dr. York stated, are now receiving, processing, and screening applications. These committees have been requested to select at least one student applicant for each high school, regardless of the size of the graduating class, or one for each 40 seniors or major fraction thereof in the larger schools.

High school committees, Dr. York reported, have been asked to submit the names of their successful applicants to the chairman of the "Talent for Service" Scholarship Committee in their county by March 10.

County committees have been requested to submit the applications of selected students to the district committees by April 10. The district committees have been requested to submit the applications of the applicants chosen in the district competitions to the Committee on Scholarships and Grant-in-Aid at State College by May 10.

State College, Dr. York emphasized, is anxious to make its facilities available to all worthy students who would like to study here and has asked the various committees to send the applications of all candidates, who are not recommended for "Talent for Service" scholarships, directly to the State College so that they, too, may be considered for other scholastic awards.

All applicants who are not successful in obtaining "Talent for Service" scholarships will automatically be considered for all other types of financial aid now available at State College. This financial aid includes other scholarships, grants-in-aid, tuition loans, and self-help employment.

Application forms for the "Talent for Service" scholarships have been distributed to the State's high schools by the chairmen of the "Talent for Service" scholarship committees in the various counties.

High school seniors who expect to graduate this spring and other high school graduates who have not yet entered college are eligible for these scholarships.

E. Y. Floyd of Raleigh, chairman of the Development Council, said the council decided to sponsor the scholarship plan when it learned that less than one-third of the high-ranking graduates of the State's high schools attends college and that less than one-half of the technical personnel needed by the State's industry and agriculture is being trained and supplied in North Carolina today.

The college, Chairman Floyd said, is establishing the new scholarships "as an incentive for many more promising high school graduates to continue their education."

of the arts in the churches will be raised but that religious meanings in the arts will be perceived and religious support be given to the arts in our common life. We believe that through the work of this department and the commissions there may be a renewed sense of responsibility on the part of the churches to contemporary culture."

Dean Kamphoefner was educated at the University of Illinois, where he earned his bachelor of science degree in architecture in

June, 1930, and at Columbia University, where he received the Master of Architecture in 1931.

He joined the faculty of the University of Oklahoma in September, 1937, as assistant professor of architecture and was promoted to full professorship in 1940. He served as acting director of that University's School of Architecture, from 1942-44. Later he was appointed coordinator of campus planning at the University. He was a visiting professor at the University of Michigan in the summer of 1947.
