

Golden Chain announces that nominations are now being sought for the twelve rising senior campus leaders who will be tapped into the organization this spring. All nominations should be mailed to BOX 5267, State College Station.

PUBLISHED WEEKLY BY THE STUDENTS OF NORTH CAROLINA STATE COLLEGE

Vol. XXXVIII No. 24

State College Station, Raleigh, N. C.

April 9, 1954

Remember: Nominations for presidents and building managers of the dormitories for 1954-55 must be in to Mr. Stewart in Holliday Hall by April 12.

Class Meetings Set For Nominating SG Reps

Candidates may be nominated for campus offices or may sign up for them at the following places at the times indicated.

On April 13 the following classes will meet for the purpose of nominating candidates for all class offices and the Judicial Board:

Rising seniors in Riddick 242.
Rising sophomores in south parlor of the "Y".

Rising sophomores in Pullen Hall. These meetings will be held at 12 noon.

On April 20 the following classes will meet to nominate candidates for Student Council representatives: School of Agriculture:

Rising seniors in Withers 218.
Rising juniors in Williams 118.
Rising sophs in Scott 212.

School of Design:
Rising seniors in Bks. 22A.
Rising juniors in Bks. 18B.
Rising sophs. in Bks. 19 A.

5th year students in Daniels 406.
School of Education:
Rising seniors in Tompkins 114.
Rising juniors Tompkins 113.
Rising sophs. Tompkins 111B.

School of Engineering:
Rising seniors in Riddick 11.
Rising juniors in Riddick 242.
Rising sophs in auditorium of Bldg.
School of Forestry: The entire

school will meet in the auditorium of Kilgore Hall.

School of Textiles: the entire school will meet in the auditorium of the Textile Building.

All these meetings will be held at 12 noon.

Books will be available in Dean Talley's office where candidates may sign up for the following offices: President, V-president, Secretary and Treasurer of Student Government, Athletic Council representatives (1 junior and 1 senior), College Union Board of Directors (2 students), all offices of the Interfraternity Council, and Head Cheer Leader. The books will close at 12 noon on April 16.

Trustees on Campus to Hear Gripes April 12

On Monday April 12 the visiting committee of the Board of Trustees will be on the campus for the purpose of hearing suggestions, complaints, compliments, etc. Anyone wishing to appear before the committee or submit suggestions to the committee should get in touch with Banks Talley or Billy B. Oliver.

J. C. Smith to Succeed Ussery as BSU Head

J. C. Smith of Hudson, N. C. was recently elected president of the N. C. State College Baptist Student Union for the 1954-55 school year. He will succeed Calvin Ussery who is the present BSU President. Smith is a junior in Civil Engineering and is an honor student on the Dean's List. He has actively participated in campus activities with leading emphasis in religious work.

The BSU is made up of active Baptists enrolled in State College. It emphasizes religious work in and through the local Baptist Churches. On the campus, BSU seeks to promote well-rounded Christian growth through discussion groups, dormitory worship services, inter-racial work, and varied social events.

"Doc" Cheek to Run for Student Government Prexy

Lloyd "Doc" Cheek has announced his candidacy for Student Government President.

"Doc" is a rising senior in Textiles from Gibsonville, North Carolina.

He has held all offices in Owen Dorm and is now serving as Vice-President. He was also Vice-President of the IDC last year. "Doc" is president this year of 30 and 3 and is Business Manager of the Agromeck. He is a member of Sigma Chi Fraternity.

In a statement released to the Technician "Doc" stated:

"I honestly think that we students at "State" have great possibilities while in school, but we must stick together. I have experience in many of the clubs, groups, and activities on our campus which, I

feel, will enable me to represent the student body in the capacity of president.

At times it seems to me that we as students are imposed upon. I have never agreed to this, and if given the chance will, as I have in the past, work diligently for a closely knit college and student body. I want to represent college students in a real college organization.

I have, also, always been open for constructive arguments for and against any program with which I have been connected, and I promise to retain this trait during the coming year."

Guitar Lessons Now Offered at State

A course in classical guitar playing is now available at N. C. State.

Through the efforts of the School of Design Mr. Moon is now accepting pupils for weekly lessons to be given every Sunday at noon in barracks number 22A.

At an interview last Sunday Mr. Moon, who is now in his fifties, revealed that he had been playing the guitar since the age of ten. He also stated that he had no use for the type music usually played by guitarists today. In his opinion public interest in legitimate guitar music is increasing. The classical guitarist does not use a pick in playing his instrument.

Mr. Moon stated that from 6-12 months of practice and weekly lessons would usually make a student a musician as well as a fair guitarist. The lessons cost \$2 each and an instrument can be bought for as little as \$90. Students are taught to read music as well as play the guitar. Any interested persons are cordially invited to attend any of the Sunday practice sessions.

Scabbard & Blade Elects

At a recent meeting of the Scabbard and Blade, national honorary military fraternity, the following officers were elected: W. S. Blalock, Greensboro, N. C., Captain, J. N. Gregg, Ft. Mill, S. C., First Lt., H. H. Baucom, Monroe, N. C., 2nd Lt., J. D. Tapp, Raeford, N. C., First Sgt., and W. M. Kahn, Raleigh, N. C., Public Information Officer.

Coming Events

Friday April 9—7:00 p.m., Dance Lessons, Frank Thompson Gym.
8:00 p.m., Fraternity Plays, Pullen Hall.
Saturday April 10—1:00 p.m., Overnight Hike, Hill Forest. Play by Davidson College Drama Club, Pullen Hall.
Sunday April 11—8:15 p.m., College Union Movie, "People Will Talk," Textile Auditorium.
Monday April 12—8:00 p.m., Dr. Gerard Priestley, "The Near East Resurrection or Insurrection?" Textile Auditorium.
Thursday April 15—8:00 p.m., Dr. John Barden, "Physical-Mathematical Concepts for Advanced Study and Research," Riddick Auditorium.
Friday April 16—8:00 p.m., W. Kerr Scott, Pullen Hall.

Reactor Tour Included in 1954 Engineer's Fair, Now In Progress

The 22nd annual Engineers' Exposition will be presented by students in the School of Engineering at N. C. State College at the college today and tomorrow.

Dr. Carey H. Bostian, chancellor of the college, was the main speaker at opening exercises in Riddick Stadium Friday at noon. Also taking part in the opening ceremonies was the college's Military Band, Drum and Bugle Corps, and the Army and Air Force ROTC precision drill teams.

Latest developments in the field of engineering will be on display in eight departments of the School of Engineering, and students will be on hand to direct tours through these departments.

The exposition, always a colorful event, will be open to the public without charge. Plans are underway to entertain thousands of high school students and other visitors during the two-day show.

It will end with the traditional St. Patrick's dance Saturday night when top-ranking engineering students will be inducted into the Order of St. Patrick. A queen, chosen from eight departmental sponsors, will be crowned during the dance.

James E. Barlow of Lenoir is the exposition chairman. His top assistants are Frank Pittman of Winston-Salem, high school chairman; William J. Alston of Concord, arrangements chairman; and Joseph M. Ferguson of Raleigh, publicity chairman.

Departmental chairmen who are in charge of the preparation of fair-exhibits are R. L. Ball, Lenoir, chemical engineering; T. M. Lynam, Morganton, civil engineering; W. W. Johnson, Miami, Fla., industrial engineering; R. M. Lumley, Winston-Salem, electrical engineering; W. H. Duhling, Jr., Hickory, geological engineering; C. C. Cardwell, Newport News, Va., nuclear engineering; H. C. Croom, Wilson, ceramic engineering; E. N. Hedgepeth, Rocky Mount, and J. B. Walker, Raleigh, Mechanical Engineering.

The exposition is the special project of the Engineers' Council whose officers this year are Floyd Bennet of Valdese, president; Alex Carlyle of Wendell, vice president; Ted Haggai of Binghamton, N. Y., secretary; and Pat Taylor of Goldsboro, treasurer.

Among the exhibits will be a

(Continued on page 5)

To Speak On Campus April 16

The first of a series of two addresses involving two of the major candidates for the Democratic Senatorial nomination from North Carolina will be given in Pullen Hall, Friday, April 16, at 8:00 P.M., by former governor of North Carolina and an alumnus of State College, W. Kerr Scott.

Although the exact subject of Mr. Scott's address cannot be announced in advance, the speech will be on a major national issue; through press and radio coverage, it will be given to the entire state.

Following the address, there will be a coffee hour in Peele Lounge at which students, faculty, and others attending will have a chance to meet the Senate hopeful.

The second of the series will be given May 12 in Pullen Hall at 8:30 P.M. by the present Senator, Alton Lennon.

Both addresses will be sponsored jointly by the College Union Forum Committee and the State College Young Democrats Club. They will be open to the student body and general public without admission charge.

10 Pt. Platform Offered By SG Hopeful Barrett

Dave Barret, candidate for Student Government will campaign on the platform which follows:

- (1) Try to make students feel more that they are a part of the Student Government—better orientation of new and old students to the work of the Student Government.
- (2) Work toward improving condition of campus. Strive for more and better landscaping and walks and less mud.
- (3) Promote the Honor System through the Judicial Board.
- (4) Through operation spirit and other means try to further improve school spirit.
- (5) Promote better relations between the students and the citizens of Raleigh and of the state.
- (6) Promote better faculty-student relations.
- (7) Try to streamline the activities of the Student Government under its new constitution for

more efficient operation; stimulate work by committees.

- (8) Cooperate with all organizations on this campus which are making a sincere effort to improve our school.
- (9) Try to stimulate the activities of the Consolidated University Student Council to make it a more rigorous force in student life.
- (10) Cooperate in every way with the administration of this college in its efforts to make State College an ever better educational institution.

Further Statement

"The above points are general principals which will guide me in my work next year. I feel that I have the experience to carry these principals through and make the Student Government an organization of which the students will be proud. If you as a student feel that this is what you want in your student Government, then I would appreciate your support in my campaign."

"Female" Report Is Denounced In Talk

Dr. Alfred Kinsey's widely-publicized book on "Sexual Behavior in the Human Female" is "both unscientific and dangerous in its implications and assumptions."

This conviction was expressed here last week by Roy E. Dickerson of Cincinnati, Ohio, executive secretary of the Cincinnati Social Hygiene Society and a faculty member at the University of Cincinnati, in an address at North Carolina State College.

In a talk entitled "Fact and Fiction in the Kinsey Report," Dickerson charged that Kinsey's book offers "neither trustworthy statistics nor sound reasoning" to back up its assumptions of widespread infidelity among married women and extensive pre-marital sexual relations.

Furthermore, Dickerson declared that Kinsey's work may lead young people "to disastrous consequences for themselves and others." He spoke in the State College YMCA auditorium under sponsorship of five religious groups at N. C. State and one religious organizations at Meredith College.

Dickerson stated that Kinsey's study is not representative of American women as a whole, that its findings come from a "lopsided" sample and are distorted, and that 10 states furnished 69 per cent of the sample. He added:

"Actually the study represents not American females as a whole, but one out of about every 8,000 females, living mostly in New York, Pennsylvania, Indiana, Illinois and California, mostly single and with some college education, who were ready—and apparently often eager—to 'tell all,' perhaps as a means of dramatizing themselves."

In his opening remarks, Dickerson asserted:

"Always there are some young people—and others as well—who knowingly or unknowingly are standing so close to the edge of the steep cliff of dangerous sex-behavior that it would take little to cause them to step over the precipice and plunge them down to disastrous consequences for themselves and others."

Billy May Orchestra To Play for "Finals"

Sam Donahue, with the famous Billy May Orchestra, brings this exciting dance band to the I. F. C. Spring Finals on May 14 and 15. An informal dance will be held on Friday night in the Gym and on Saturday night the formal dance will be held in the Coliseum.

An acclaimed organization, the band will provide clean and fresh, popular music; the firm, secure beat that delights dancers.

Making a complete departure from the current trends of vocal specialities, copying and employing "gimmicks" the band is rapidly winning the campaign to bring good dance music to ballrooms of the nation.

Sam Donahue, a gifted musician and fine arranger, was born in Detroit and received his musical education in the Motor City. He has played with such leading bands as

Epsilon Pi Tau Plans For Annual Ceremony

The North Carolina State College Chapter of Epsilon Pi Tau, national honorary fraternity in industrial arts and vocational education, will hold its annual initiation ceremony and banquet Saturday, April 10.

The initiation rites will be conducted in the College YMCA Saturday at 4:30 p.m., and the banquet will follow at Warren's Restaurant at 6:30 p.m.

Dr. John R. Ludington of Washington, D. C., specialist in industrial arts for the U. S. Office of Education and a former faculty member at N. C. State, will be the chief speaker at the banquet. His topic will be "New Horizons in Industrial Arts."

Those who will be installed as new members this year are Henry I. Rahn, instructor, Tri-City High School, Spray; Ronald C. Gyles, instructor, Gaston Technical Institute, Gastonia; and five State College students enrolled in industrial arts—David C. Brown, Raleigh; Druid L. Crofts, Route 1, Lexington; John K. Lancaster, Fayetteville; Gene H. Phillips, Kannapolis; and Bobby Joe Stephenson, Route 1, Angier.

Bardeen Talk To Be On Conductors

A discussion of electronic semi-conductors will be the subject of a lecture by Dr. John Bardeen, professor of physics at the University of Illinois, at the Riddick Engineering Laboratories Building at North Carolina State College April 15.

Dr. Bardeen's talk, "Semiconductor Electronics," will be the second in a series of five engineering lectures on the general theme, "Physical-Mathematical Concepts for Advanced Study and Research," that have been initiated at the College's School of Engineering this spring.

Dr. Bardeen, famous in the field of solid-state physics in both experimental and theoretical aspects, was awarded the Oliver E. Buckley Solid-State Physics Prize in 1954. He has been a Junior Fellow in the Society of Fellows at Harvard and has been associated with Bell Telephone Laboratories. His theory of superconductivity is now almost universally accepted.

Dr. J. H. Lampe, dean of engineering at the college, said in announcing the establishment of the lecture series:

Raleigh Chamber Music Guild Elects Kamphoefner as President for '54-55

Henry L. Kamphoefner, dean of the School of Design at North Carolina State College, has been re-elected as president of the Raleigh Chamber Music Guild for another year.

Kamphoefner, who has headed the college's School of Design since its founding in June, 1948, has been active in the city's civic and cultural activities since his arrival here.

Other officers who were re-elected to serve with President Kamphoefner during the 1954-55 concert series of the Guild are:

Mrs. Nelly P. Staudt, first vice president; Mrs. Lillian Parker Wallace, second vice president; John Lambert, recording secretary; Phyllis Weyner, corresponding secretary; and Joseph Wynn, treasurer.

Newly-elected directors of the Guild are Charles Kahn, Doris Freeman, Doris Peterson, Paul Bredenberg, Wilhelm F. Gauster, Harlan C. Brown, Lucy Cherry Crisp, Mabel Morrison, and William S. Quant.

Committee chairmen will be John Shirley, program, Gerald Erdahl, membership; Mrs. George Gullette, hospitality; and George Poland, publicity.

President Kamphoefner announced recently that plans for the 1954-55 concert series of the Chamber Music Guild are well underway. He said that the Budapest tet have been booked for return Quartet and New Art Wind Quintet engagements in Raleigh. The Budapest Quartet will perform on January 29, and the New Art Wind Quintet will appear February 26.

Scheduled for its first appearance in Raleigh is the Quintetto

Boccherini of Italy, which will give a concert November 20. Tentative plans have been made to present the North Carolina Chamber Music Ensemble, under the direction of Edgar Alden of Chapel Hill, in a concert on October 23.

Commenting on the new series of programs, President Kamphoefner said:

"The officers and directors of the Raleigh Chamber Music Guild, in planning the 10th annual concert series, expect to offer another outstanding group of artists and musicians, bringing the highest quality of chamber music obtainable to the Raleigh community. Concerts will be held in the Meredith College Auditorium."

'CONDUCTORS' TALK—

(Continued from page 2)

"Mathematics and physics have made noteworthy, scientific contributions over the years, but especially in the span of the last ten to fifteen years have these contributions had great influence and continued correlation with engineering. To give emphasis to this fact and to give recognition to a

few of the men who have had a real part in such effort, this present series of lectures is dedicated."

Arrangements for the lectures are being handled by Dr. J. W. Cell, professor of mathematics, and Dr. Arthur C. Menius, Jr., professor of physics.

FINALS—

(Continued from page 2)

Gene Krupa, Harry James, Tommy Dorsey and Benny Goodman, besides having his own orchestra. He is acknowledged as one of the most exciting tenor sax stars in the country. With this background and talent it was only natural that Billy May should choose personable Sam Donahue to lead his orchestra. April Ames will appear as vocalist with the band.

KINSEY REPORT—

(Continued from page 2)

"Much of the contents of Kinsey's 'Sexual Behavior in the Human Female,' as well as the publicity given it, is likely to cause this misstep by stamping two completely false impressions upon the minds of youthful and other credulous readers.

"One false impression is that infidelity is widespread among married women and commonly

causes little or no regret or domestic discord. The other is that pre-marital sexual relations and extremes of petting are even more widespread, and actually constitute good preparation for marriage.

"Nothing could be further from the truth. . ."

Touching on the subject of spiritual values, Dickerson declared: "Any study of sex behavior which serves as a guide to human conduct must face the question of values. Even if it could be granted that the Kinsey study fully satisfied all the criteria of science, it could only answer the questions of all scientific study—how much, how many. But science never presumes to determine value. This comes from a fundamental matter that goes beyond treating man as a biologic animal to considering

him as a human personality with mind, reason and conscience.

"Endowed much higher than the animals, man has developed ethics, religion and philosophy. Herein is determined the value and rightness of acts, not in the measured frequencies of animal behavior. For man, created spiritually in the image and likeness of the Divine, must reflect and express Him. This true man can render to the Caesar of science the things that are Caesar's, but out of science or a materialistic weltar will not come the ethical, the right, the Divine.

"The conclusion must be drawn that Kinsey's approach is both unscientific and dangerous in its implications and assumptions. It is still true that marriage must be prepared for, but Kinsey has shed little if any new light on the subject."

IT'S ALL A MATTER OF TASTE

When students burn the midnight oil while cramming for a test, The smooth, fresh smokes they reach for most Are Luckies...always best!

Marilyn Sergeant University of Arizona

When you come right down to it, you smoke for one simple reason . . . enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco . . . light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better . . . always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

If cleaner, fresher, smoother taste is that which you would prize, There is but one solution, friend, Buy Luckies if you're wise!

William Haupt Holy Cross College

The latest college survey shows That Luckies lead again—They're tops with all the smart coeds, As well as with the men!

Eleanor C. Bernhard University of Delaware

Where's your jingle?

It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

Psychology Contest To Seek Best Essay

An award of fifty dollars (\$50.00) as a cash prize will be made in the spring of 1954 to the undergraduate student at North Carolina State College who writes the best essay in the field of Psychology.

A student may select any phase of Psychology he chooses to write about and may come from any school or be in any undergraduate class at North Carolina State College during the 1953-1954 calendar year. The following criteria will be used in judging the essays: the originality of the essay, comprehension of the material presented, scholarly application, interest in Psychology, reasoning and mechanics employed in presenting the essay.

The award is given annually through the generosity and interest of Mrs. D. S. (Lelia Hayworth) Coltrane. The winner of the first award was Jerry Hendrick, student in the School of Design, while last year's award went to Stedman H. Carr, junior in Animal Industry. Essays must be submitted to the Chairman of the Essay Award Committee by May 1, 1954. Additional information may be obtained from committee members or your Psychology instructor.

State Host to Nat'l Delta Kappa Phi Meet

Congressman Harold D. Cooley of Nashville and William A. (Bill) Newell, research coordinator in the School of Textiles at North Carolina State College, were the principal speakers here at the national convention of Delta Kappa Phi, the

EDITORIAL COMMENT:

Golden Chain Makes Wise Decision

The decision of Golden Chain to allow the student body to nominate the student leaders who are to be accepted into the organization is a wise one. It should eliminate the criticism which was leveled at them last year for over-looking what many considered the top leader in the engineering school. Such oversights are

bound to occur when twelve men representing every school on campus attempt to pick the twelve top leaders in the school to succeed them.

Every student on campus should take this opportunity to honor the man he considers most likely to be a leader next year.

Wataugan Needs Student Support Now!

We hope that efforts now being made to revive the WATAUGAN will be successful. There may be a need on the campus for a magazine which can serve as an outlet for student humorists, authors, playwrights and poets.

Contributions for the first issue are now being accepted in Dean Talley's office and we hope there will be hundreds of them. However if no contributions are received we think the WATAUGAN should be buried again be-

cause without them it would have to be produced strictly as a humor magazine.

We have nothing against humor magazines but they seem to tend to become mediocre BALLYHOO'S using jokes from other magazines and continually testing to see how dirty (but not necessarily funny) the jokes have to be before the administration will complain.

We don't think such a magazine would be either a credit to State College or of interest to the average student.

In Spring -- The Grass Grows Too

The twine fences around the grass plots at the upper end of Riddick are the best examples of "eyesores" we have seen in a long time. The grass plot down by the Armory is just the opposite—a beautiful sight to behold.

We suggest that every student make a trip down that way and have a look. It is hard to imagine the entire campus looking like that

plot but if we would all walk on the sidewalks for a few months such might result. Many walks on campus are too narrow for the volume of traffic they carry and need to be widened but we could all walk a little slower and be a little later to class for one quarter anyway. If doing so resulted in a campus adorned like said plot it would be worth it.

Wolfpack Capers

By John Parker

Did you have fun during the holidays All five days? I'm bitter! That's not long enough to unpack. 'Course now, most State students had to come back to school to rest up from holidays.

From what I hear (and saw) it took more than rain to dampen the spirit (spirits?) of State men at the Azalea Festival. Wrightsville Beach was jumping with familiar faces. The parties and open-houses were great. You missed something if you didn't go. Heard there was a definite run on a few scattered stores in Wilmington, meaning nothing of course.

Before I forget it, Alex Anthony wants everyone to know that he's in Arnold Air Society. Afterthought: in good standing! His name was left out of the local paper when the members were listed; also, the Technician and it

wasn't called at the parade Friday during presentation of awards. He's not very "POed."

From what's been said, the Military Ball was alright. Didn't get to it, due to things beyond my control, but judging by the walk of some I saw that did go and some of the female women that were here, I'd say it was okay.

The "Collegians" from E.C.C. are going to play for the Jr.-Sr. Ring Dance. The Engineers' Ball seemed to be enough recommendation for those concerned. Anyway, most everybody had rather have music they can dance to than a big name playing jump or "You Are My Sunshine." Remember Mid-Winters and Sonny Dunham? No comment from seniors about not having a big name please. You should hear a certain "Rippling Rythm" by a particular band. Cut!!

Elections are coming up. What are you running for? Dave Barrett and Doc Cheek are running for CG president, John Gregg and Jim Thorpe for Agromeck Editor, John

Tester for CU president, Johnny Puckett for Technician Bus. Mgr., Dony Joyce for Agromeck Bus. Mgr., and I'm running for editor of the Technician. Several more have announced that they are candidates for something-or-other but I don't know who as of yet. You can have a lot of fun campaigning even if you lose. You've got a good chance so why don't you try?

Have you noticed any juniors with their arms in a sling? Class Rings are coming in and boy are they heavy. The first time I try to salute at drill I'll probably conk myself on the forehead. Some 444 juniors ordered rings so look out for an egotistical bunch of boys.

You'd think we had a bunch of Co-Eds on campus judging by the new flood lights that have been put up. Seriously though, everybody is glad to see them and the streets signs too.

Some of you might be interested in hearing from Frankie McArver, the boy in the Drum and Bugle Corps who was in the head-on-collision. He pulled through a blood clot and 3 concussions and I believe I heard he'd gone home. His nose and face are yet to be looked after though.

See you around week-after-next and if you hear anything scandalous or get any hot poop, let me know. Have fun!

Frats To Present One-Act Plays Tonight In Pullen

The College Union Theater Committee will present three one-act plays this evening staged and produced by students of State College. Sigma Chi will perform THE BYRONIC by Carl Edwin Varney, Alpha Gamma Rho will perform MOON UP by Robert Arthur, and Pi Kappa Phi will perform HEAT LIGHTNING by Robert F. Carroll. Tomorrow evening the Davidson College "Red and Black" Masquers will perform the three-act play, THE HASTY HEART by John Patrick. This play is perhaps the from the pen of Patrick. It enjoyed

most successful play ever to come a long run on Broadway in 1945, and since has become a "standard" for little theater and college groups. Performances both tonight, April 9, and tomorrow night, April 10, will begin at 8:00 p.m. in Pullen Hall. Admission will be by either Student Registration Card of Faculty-Staff College Union Membership Card. Dates admitted free. Otherwise, admission will be \$1.50 per person. There will be an After-the Show Coffee Hour in Peele Hall Lounge each evening sponsored by the College Union Social Committee.

Judicial Board Chairman Blount Outlines New Trial Procedure

By Sam Blount, Temporary Chairman of Student Judicial Board
Lately, many of us were asked to vote on the ratification of the new Constitution. Many of us did not know exactly what it was; a few of us probably did not even care, but most of us would like to know what we are getting into.

We now have a new system of government, namely, Student Government as apart from the old type of Campus Government consisting of students and a few faculty members. Under the new form of government, the judicial department is set apart from the rest of the Student Council. This new department exists in the form of ten men familiar with the laws of the Constitution and seeing that every person involved in any violation of the Constitution or any of its component parts will have a fair and just trial. Such has not been the case in the past. Students having to appear before the old court were,

in many cases, misused, made examples of, and even some students went free from crimes against us, the student body.

This kind of situation is intolerable. Our Constitution is to protect us, for it guarantees to every student accused of any violation of the Constitution:

- 1—The presumption of innocence until guilt is proven.
- 2—The right of a fair and just trial.
- 3—The right of the accused to face his accuser during the trial.
- 4—The privilege of assistance by a student or faculty member of his own choice.

It shall be the duty of every man on this board to uphold all these guarantees, again something that has not been done in the past.

The Student Judicial Board members are elected by the student (Continued on page 5)

Want lower golf scores consistently?

ASK ANY GOLFER WHO OWNS A SET OF SYNCHRO-DYNED CLUBS!

Hundreds of unsolicited testimonials from amateur golfers tell the same story on Spalding Synchro-Dyned woods and irons — golf's more fun now and a lower-scoring game, too!

You'll see why the first time you play these advance-design clubs. Your shots are easier to control, your swing is freer, your timing more uniform — because every wood, every iron has the identical contact feel!

Have your Spalding dealer fit you now.

Joint Parade Honors Outstanding Cadets

The combined Army and Air Force ROTC units at N. C. State College staged a formal parade and review in honor of the new members of the Arnold Air Society and Scabbard and Blade Monday April 5th.

Approximately 2,000 cadets marched in the parade. Chancellor Carey H. Bostian of State College presented awards to each new member of the honorary Army and Air Force organizations.

The new members were chosen for the honor on the basis of their academic and military records at the college. The 10 new members of Scabbard and Blade, the honorary Army society are:

H. H. Baucom, Monroe; W. S. Blalock, Greensboro; J. E. Cashwell, Route 1, Parkersburg; M. R. Cooper, Elizabeth City; Dale Gregg, Lenoir; John Gregg, Fort Mill, S. C.; S. P. Jones, Shelby; W. M. Kahn, Raleigh; Thomas Memory, Wagram; J. D. Tapp, Jr., Raeford.

The list of 37 new members of the Arnold Air Society includes: Hoyle Reece Allen, Oakboro; Alex E. Anthony, Jr., Laurinburg; Robert L. Biggs, Raleigh; Louis J. Brunetti, Greenvale, N. Y.; Donnell O. Bullock, Jr., Rocky Mount; Edwin S. Crow, Goldsboro; Moncie Lee Daniels, Manteo; James C. Deal, Newton; Ernest S. Dean, Raleigh; Joseph B. Ferebee, Mocksville; John Wade Fuquay, Snow Camp; James I. Gilliam, North Wilkesboro; Douglas R. Greene, Lattimore; Jerry S. Grimes, Rocky Mount.

Joseph P. Hester, High Point; Peter S. Jacobsen, Charlotte; Richard W. Johnson, Germanton; Charles N. Kirk, East Bend; Billy Ray Matthews, Angier; Edgar C. Mills, Jr., Polkton; Frederick M. Moore, Kinston; John W. Parker, Goldsboro; Thomas C. Parker, Jr., Saluda; Frank D. Parrott, Kinston; John D. Pearman, Goldsboro; Dallas Pope, Lillington.

Van W. Respass, Pantego; Carl O. Roberts, Jr., Raleigh; David S. Sartin, Providence; Carl B. Sawyer, Northwest, Va.; Paul S. Smigell, Philadelphia, Pa.; George A. Speight, Mt. Airy; Joseph R.

W. C. Friday Speaks At Leadership Meet

William C. Friday, assistant to the president of the Consolidated University of North Carolina, was the principal speaker at the annual Leadership Banquet of the N. C. State College YMCA in the college dining hall last night at 7 o'clock.

A 1941 honor graduate of State College, Friday was president of his class at the college, a member of Golden Chain, and was active in a wide range of extra-curricular affairs. He was graduated from the Law School of the University of Chapel Hill in 1948 and was assistant dean of students there following his graduation.

He assumed his present duties April 16, 1951.

Roy E. Congleton of Chadbourne, president of the State College YMCA, was the banquet toastmaster. Top officers of all the campus organizations and other leading students attended the event.

Stephenson, Saluda; Joe Donald Stove, Cramerton; Clarence Bill Weatherly, Jr., Durham; Alva E. Williams, Jr., Durham; Richard S. Wimbish, Chapel Hill.

BLOUNT—

(Continued from page 4) body, and it will be our duty to see that these men are persons of the highest caliber and will carry out their duties conscientiously, with dignity, and without fail.

The Student Judicial Board itself will be one of the most important groups on campus, for its powers are many and far-reaching. This Board is to have jurisdiction in all cases involving offenses against the Student Body or members of the Student Body. It has the power of interpreting any part of the Constitution and has jurisdiction in all cases involving the constitutionality of any act of the Student Council.

Trials by this group under the new system will be informal, roundtable discussions with no "student lawyers" fighting against one another and trying to "snow" a jury. Each and every accused person will, under these new circumstances, obtain as fair a trial as can be had anywhere.

With the full cooperation of every student at N. C. State College, we can have the best and most just kind of government that exists in any school anywhere. Most of us were issued new Constitutions at registration, and, for those who did not have the chance, pick one up at the Dean of Students Office.

Read it. Be concerned about and learn the things that we do not have to put up with. After all, it is our own government.

EXPOSITION—

(Continued from page 1)

demonstration of city planning in Raleigh, exact models of building construction, an historical geological study of underwater volcanoes, model advancements in communications, commercial methods of in the glazing and enameling of clay products, and unit operations of modern chemical production plants.

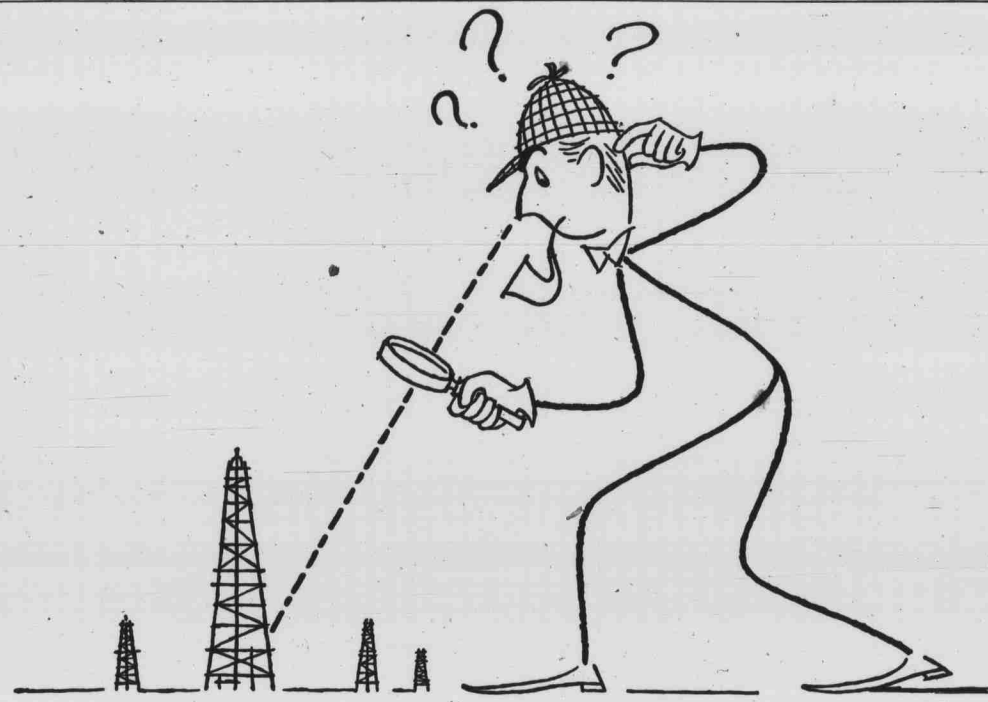

In addition, the college's world-famed nuclear reactor will be shown for the first time at the Engineers' Exposition. There will also be exhibits relating to aeronautical work, heating and air conditioning, industrial safety, time

and motion studies, and other projects.

Representatives of the U. S. Navy will be on hand to provide a continuous showing of a color motion picture dealing with the work of the Potomac Naval Command—a new feature of the exposition.

Case of the dry "oil" well

Not at all unusual, you say? But this well was *purposefully* drilled that way! In fact, precautions were taken to see that the well wouldn't contact oil-bearing sands. It was to be a vital part of an elaborate waste-disposal system built into one of Du Pont's new plants near Victoria, Texas. It is an example of the unusual engineering problems which Du Pont technical men encounter.

The "well" itself is almost a mile deep—4900 feet, to be exact. Waste fluids from the plant are forced down this well, to be absorbed by non-oil-bearing sands—far below the level of any surface water. Piping near ground level is in the form of concentric shells, and fresh water is delivered to the annular opening around the waste pipe. Furthermore, the water pressure is higher than that of the fluids in the

waste section. In this way, any leakage in the pipe system causes fresh water to enter the surrounding sands (or the inside waste system) and prevents objectionable materials from reaching the sands at surface levels.

Other interesting procedures are used throughout Du Pont's many plants to guard against river pollution. For example, scientists were asked to make a complete marine-life census on one river before a plant was built nearby. The company wanted to be certain that no waste would be discharged which would challenge the natural pattern of marine life.

Throughout the Du Pont Company, wherever there is a need for the services of technical men, there are varied and interesting problems that present a challenge to engineering skill and imagination.

Now available for student ASME chapters and other college groups, a 16-mm. sound color movie—"Mechanical Engineering at Du Pont." For further information, send post card to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Bldg., Wilmington 98, Delaware.

This and That

As usual, the game between the College All Stars and the Globetrotters held at the Coliseum last week was a tremendous success. The fans really were treated to some fine basketball as the Trotters had to play their best ball all the way in order to beat the All Stars.

The word around Raleigh is that the Wolfpack baseball team should not be judged by their poor start this season. This is a good club which needs only some good pitching and some clutch hitting in order to be at the top of the heap come the end of the season. The other A.C.C. teams are all looking for a few reliable pitchers. Hurlers seem to be at a premium as of now, and the team that finally gets a string of well pitched games will be mighty tough to beat.

Spring practice has already started for the State grid squad. The team, as probably everyone around these parts knows, has a brand new coaching staff headed by Earle Edwards. So far, it is too early to really get any kind of an idea as to the strong points or the weaknesses of the squad. However, the spirit has been very good and the boys out on the practice field have really been giving it all they have. This kind of attitude cannot help but be an important stepping stone which may lead to a good football year for the school as well as for the host of loyal Wolfpack fans in and around this area. Nobody is expecting miracles from this year's team. Everyone is well aware that it takes a combination of many factors to produce a winning grid team. Two important ones are time and material. Many people close to the athletic situation here at State College sincerely believe these two items must be present in order to win. The results of their efforts will probably start to bear fruit sooner than most people realize.

In the next few weeks some mighty good tennis will be played here at State College. The State varsity netters will meet each of the Big Four teams here at State. The matches with Duke and with U.N.C. will probably produce the best tennis that will be seen around these parts this year. If any of the student body have never seen a college tennis match, they really are in for a treat if they can make it down to the varsity courts behind the dorms for either of these matches. The tennis team, as do all the varsity teams here at State, needs your support. What's more they deserve all the rooting and cheering that the student body can possibly give to them. If the spirit on the campus is high, the athletic teams cannot help but be aided by this fact, and better records will result in most every sport played here at State. Remember, this is your school and these are your teams; so, let's each and every one of us make it our business to give the athletes all the support possible.

Speech to Feature "Near East" Problems

S. E. Gerard Priestly, distinguished authority on international and human relations, will speak here at North Carolina State College in the Textile Auditorium on April 12 at 8:00 p.m. His topic will be "The Near East—Resurrection or Insurrection?"

Dr. Priestly, as an authority on

world affairs, has rubbed shoulders with people of 37 countries, including not only the nations of the North Atlantic Treaty Organization but also the people now behind the Iron Curtain. He is especially interested in the fight against illiteracy, disease, hunger and poverty in the underdeveloped areas of the world and in the problems of land reform. He speaks

(Continued on page 7)

State Rips U. N. C. 10-1!

By Leonard A. Binder

Last Tuesday, the Wolfpack of North Carolina State College won their initial baseball victory of the season by besting the Tar Heels of Carolina by a score of 10-1.

The Wolfpack had been on the short end of the score in all three of their previous contests so far this season, but almost from the start of Tuesday's game it was apparent to all the team was not to be denied the fruits of victory.

Young Yvars pitched his finest game in his short college career in this contest as he limited the slugging Tar Heel batters a mere seven hits. The Valhalla New York right hander really had his stuff as he overpowered the Carolina hitters from start to finish.

Perhaps the best hitting performance of recent years here at State College was turned in by Jack Turney, the great Pack second sacker. Jack got three hits for the Pack including a single triple and grand slam homer. These hits accounted for six runs batted in for the Wolfpack. A good days work in any mans league! Turney also handled four chances in the field without an error.

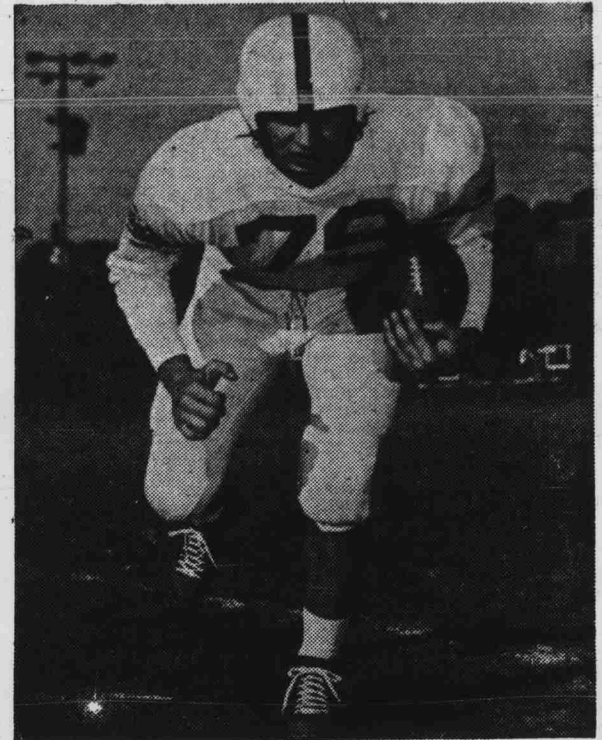

The Tar Heels started the scoring in the game as Connie Gravitte, the star center fielder, connected for a homer as he cracked a long drive which easily cleared the left field fence. However, this lead was short lived.

State came right back with four runs in their half of the second frame on singles by Barringer and Jack Yvars and a walk to Luther Greene. This set the stage for the bases clearing homer by Turney. After this blow, the game was as good as over as the Wolfpack added insult to injury by really laying it on their cousins from Chapel Hill. Carl Wyles, the scrappy backstop of the Pack came through with three hits while Barringer contributed two singles to the Wolfpack cause.

For the Carolinians, Williams and Gravitte got two hits to account for half of the Tar Heel batting total. The losing hurler in this game was Charlie Aycock who was pounded for four hits and four runs in only three innings of work on the mound. Morgan and Hanna completed the hurling chores for the Tar Heels and both these pitchers were solved for runs and hits by the hot Wolfpack batters.

All in all, it was a good day for the men of Vic Sorrell. The team has shown a lot of improvement in the short time the season has been in full swing. If any of the other pitchers can duplicate the good hurling done by Jack Yvars, the Pack will be pretty hard to contend with on the ball field.

THE Dorm Corner

By Jerry Armstrong

The cry of "play ball" was heard this week as softball jumped into the spotlight of the Spring intramural sports program. Most all of the dorms had their first game of the season except for several teams that played on Thursday of last week. Horseshoes will make their debut on Thursday, April 15, badminton on Tuesday, April 13, and

the first track meet will be announced at a later time.

One correction to last week's edition was an error on the number of athletic points for the intramural sports program. Bagwell No. 1 is leading in points with 768, second is Becton No. 1 with 752, third is Becton No. 2 with 578, and fourth is Berry with 506.

Softball

Two games were played last Thursday, April 1, with Becton No. 2 and Verville winning their games over Bagwell No. 2 and Alexander No. 2 respectively.

Verville "cracked out" a solid (Continued on page 7)

Ag Club Hears Report On Livestock Day

The weekly meeting of the Ag Club was held at 7:00 p.m., April 6, 1954, in 118 Withers Hall.

During the meeting, Dave Barrett made a short talk to the club about his campaign for the presidency of the Student Government. He placed emphasis on strengthening the Student Government and on building the campus Honor System.

Richard Harris gave a report on Livestock Day for 1954. He said that plenty of animals were still available and urged that the club members come out and fit them for showing on May 8.

Following the business meeting, a program of string music was presented by Rudolph Whaley and his band. Concluding the meeting, a movie of the Student Livestock Day of 1952 was shown.

Notice

We want two agents to represent us on a commission basis on the State College Campus. These men will have to have a general knowledge of, and close contact with the fellow students. Write, giving years at State, and other qualifications. L. T. Hobbs, 421 W. Peace St., Raleigh, N. C.

Dr. Green Speaks to Ag. Economics Club

The Agricultural Economics Club held its first meeting of the Spring Quarter on April 1, 1954 in 208 Patterson Hall. President Lloyd Bostian introduced new members. Dr. Pierce, faculty advisor to the club, introduced the speaker, Dr. J. W. Green.

Dr. Green of the Department of Rural Sociology spoke on what Rural Sociology and Agricultural Economics have in common in the solution of problems of rural people. Dr. Green brought out the fact that the economist and sociologist could be of great benefit to each other by combining their knowledge when working on research problems. A general discussion followed the talk in which Dr. Freund contributed to the discussion.

A picnic was scheduled for May 7 and Larry Hester was appointed chairman of the committee to make the plans for the picnic. The faculty, graduate students and wives and children are invited.

A program featuring Bob Parker, exchange student to Ireland, is scheduled for April 15 and any one interested is invited to attend this meeting.

Dr. Murray Speaks on Research Reactors

Dr. Raymond L. Murray, professor of physics in the School of Engineering at N. C. State College, made a talk recently on "Research Reactors" at the Case Institute of Technology in Cleveland, Ohio.

He spoke before a seminar of the Engineering School at Case Institute. Dr. Murray was introduced by Dr. Elmer Hutchisson, dean of the faculty and editor of the "Journal of Applied Physics."

Dr. Murray reviewed nuclear reactor types used in research and their particular installation. He also described reactors suitable for universities, the integration of educational and research uses and typical experimental projects.

Dr. Murray is deputy director of N. C. State's famous reactor and was a member of the engineering team that designed and built it.

Space in New CU Bldg. Now Being Allotted

The College Union is preparing to allot space in the new CU Building to campus organizations. If you have not placed with the Dean of Student's Office the name of your organization and the President's name, the College Union will be unable to contact you in regards to space available for meeting in the building for events and to be listed on next year's Master Calendar.

PRIESTLY—

(Continued from page 6)
out of the depth of his own personal experiences in Eastern and Southern Europe, the Near East and Latin America. As a scholar and world traveler he brings to his audience an intimate knowledge and objective picture of the world we live in.

Admission will be by College Union or Student Membership Registration Cards, otherwise \$1.50. Wives and dates will be free.

DORM CORNER—

(Continued from page 6)
forfeit game over Alexander No. 2 to win their first game of the season. The second contest was one of high scoring and a muddy field with Beeton No. 2 taking a 10-4 decision from the boys from Bagwell No. 2. Bill Teague, Paul O'Hara, and Bill King were the outstanding players for Beeton.

Monday's games were played in fine weather conditions and most of the games were, as good if not better, than the "ole man sunshine."

The Bagwell No. 1 "Dragnets" got off to a slow start in a game of many mistakes, in which they made the most of them, and came out on the bottom of the score as Owen No. 2 rolled to a 10-5 victory. Lyda led the victors by scoring three runs and Glenn Scott paced the losers with his hitting.

Tucker No. 1 took a forfeit from the "team that wasn't there" from Syme No. 1.

Berry exploded in their first game by taking a 10-0 decision

from the "good sports" of Welch-Gold-Fourth. Bert Weeks, Berry's mound ace, was in fine form, as he retired the batters in order, and only missed a "no-hitter" by one single in the second inning by second sacker, Jack Alston, of the "triple alliance." Berry's batsmen were hot as Jones collected a triple and a double, Stanfield added a triple and a single, Weeks rapped out two singles, and Armstrong added a homerun and a single.

Turlington No. 1 blasted into the team from Alexander No. 1 with something of a "field day in Fenway Park" to take a one-sided contest 10-0. Harris collected a single and three runs, Edwards a triple and a run, and Jones a double and two runs for the victors. The battery for Turlington proved to be a familiar sight with Whitey Bell on the mound and State's big skillful basketball center, Ronnie Shavlik taking on the catching duties. Bell proved he could do something else with great skill, besides hitting that "ole bucket," as he pitched a no-hitter except for a single by one of his cage teammates, Lou Dickman.

I would like to remind all the athletic directors of the dormitories that the more game reports I receive from them the better I can represent their teams in the Corner every week. All that is necessary is for you to write out a short summary of the contest telling what sport was played, what date it was played on, who you played, who won the contest and the score, and some of the outstanding factors of the game and prominent players. You just give this report to the janitor in your dormitory by Monday morning of each week and he will deliver it to my room simply by telling him you would like it delivered to 107 Berry.

COOLEY—

(Continued from page 3)
world's oldest professional textile fraternity.

Approximately 110 delegates attended the national gathering at State College. The Delta Kappa

Phi chapter at N. C. State is the host organization.

Newell spoke in the college's School of Textiles Building and Congressman Cooley addressed a banquet meeting at the Village Restaurant.

Delegates from the fraternity chapters at Lowell Textile Institute in Lowell, Mass., the Philadelphia Textile Institute, the New Bedford Textile Institute in New Bedford, Mass., Georgia Tech in Atlanta, Ga., and N. C. State were present for the convention.

Attending in addition, were alumni delegates from New York City, Charlotte, Philadelphia, New Bedford, and Atlanta.

Officers of the host chapter at N. C. State are Charles B. Tucker, Albemarle, consul; Wayne West, Fayetteville, pro consul; Rolf Spoerry, Switzerland, annotator; Van Winfree, Jr., Fayetteville, custodian; Donel Kelley, Raleigh, scribe; and John W. Smith, Leaksville, sergeant-at-arms.

National officers of Delta Kappa Phi are A. Ward France of Wyncote, Pa., supreme consul; Prof. Henry A. Rutherford of North Carolina State College, supreme pro consul; Clifford M. Cilpin, Jr., of Philadelphia, supreme annotator; and Stanley Pikalow, Jr., of Jenkintown, Pa., supreme custodian.

School of Engr. Starts Series of Lectures

The School of Engineering at North Carolina State College is sponsoring a series of lectures on "Physical-Mathematical Concepts for Advanced Study and Research."

Speakers in the series and the dates of the lectures include Dr. John Barden, professor of physics, University of Illinois, April 15; Dr. L. A. Pipes, professor of engineering, University of California, April 27; J. H. Waddell, Industrial and Photographic Division, Wollensak Optical Company, May 3; and Dr. J. A. Wheeler, professor of physics, Princeton University, May 14.

The lectures are open to the public.

Garden Club of N. C. Offers Scholarships

The Garden Club of North Carolina, Inc., recently announced the availability of two scholarships for undergraduate study in Landscape Architecture at North Carolina State College.

The scholarships, valued at \$250 each, are open to any North Carolina resident boy or girl who has graduated from an accredited high school or an approved preparatory school within the last five years. Candidates for graduation from high school in June 1954 and Korean War Veterans are also eligible.

Application blanks may be secured from the Dean of the School of Design at State College, Raleigh. Applications may be submitted until Saturday, May 1.

Judged on the basis of scholastic record, need, personality, and evidence of ability to pursue college study in the field of Landscape Architecture, these selections will be made by Garden Club and State College faculty members.

Announcement of the winners will be made at the State Garden Club meeting in Asheville in May.

Hayes Writes About Silk For Big Book

Prof. Arthur C. Hayes of the School of Textiles at North Carolina State College has made a major contribution to Volume 12 of the Encyclopedia of Chemical Technology, soon to be published by Interscience Encyclopedia, Inc., of Brooklyn, N. Y.

The veteran N. C. State faculty member wrote the encyclopedia's entire section on silk—a subject in which he is an authority. His article, illustrated with charts and tables, will fill about 10 pages of the big publication.

Professor Hayes was requested to write the article last spring. He accepted the assignment and completed the exhaustive manuscript several weeks ago. He received and checked the galley proof early this month and expects to see his material in print soon.

The article covers the historical background of silk and includes a comprehensive account on sericulture, the growth and cultivation of silk worms.

It also describes a wide variety of other subjects relating to silk. Among these are silk processing, spinning, weaving, knitting, dye-

ing, printing, finishing, weighting, marketing, uses, production, consumption, and physical qualities.

Of significance to silk marketing is Professor Hayes' report on silk grades and specifications, which will be featured in the encyclopedia's silk section.

Before joining the N. C. State faculty in September, 1936, Professor Hayes worked for two years in the textile department of the Kwangtung Provincial Sericulture Bureau at Canton, China. He is now an associate professor in the Department of Textile Chemistry and Dyeing at State College.

Design School Takes Part In Va. Meet

Dean Henry L. Kamphoefner and Prof. Roy Gussow of the School of Design at N. C. State College will take leading parts in the Southeastern regional meeting of the Association of the Collegiate Schools of Architecture at Virginia Tech in Blacksburg, Va., which started Thursday.

Dean Kamphoefner will preside over today's session of the conference, and Gussow will be chair-

Y.D.C. Meeting

At the regular meeting of the Y.D.C. on Wednesday, Judge William Hatch delivered a speech to the club for Kerr Scott, democratic candidate for the U. S. Senate.

On April 21st a representative of Senator Alton Lennon will address the group.

man of a panel discussion on first year design courses.

Others from State College's School of Design who will attend the meeting include Professors Eduardo Catalano, Duncan Stuart, and George Matsumoto.

THIS IS IT!
L&M FILTERS ARE JUST WHAT THE DOCTOR ORDERED

I smoked filter tip cigarettes for years before I tried L&M's. They have a far better flavor than any other brand of filters I have ever smoked. Read the facts below and try L&M's yourself. You'll like them too.

Barbara Stanwyck

America's Highest Quality and Best Filter Tip Cigarette . . .

1. Effective Filtration, from the Miracle Product—Alpha Cellulose. Exclusive to L&M Filters, and entirely pure and harmless to health.
2. Selective Filtration—the L&M non-mineral filter selects and removes the heavy particles, leaving you a light and mild smoke.
3. Much Less Nicotine—the L&M Filter* removes one-third of the smoke, leaves you all the satisfaction.
4. Much More Flavor and Aroma. At last a filter tip cigarette with plenty of good taste. Reason—L&M Filters' premium quality tobaccos; a blend which includes special aromatic types.
