First Campus Government Session Discusses Freshmen, Interest, Trial

The first campus government of the year was opened last Tuesday by President Billy Oliver. The roll of the present Council members was called by Secretary Harry Yarbrough. Harry then read off the names of the Freshmen who were present at the meeting. Billy Oliver greeted them and asked the Council to vote on what status these Freshmen are to have. Billy suggested that the Council make the Freshmen ex-officio members. Bob Jordan put this into a motion, and the motion was passed.

Billy then asked for the Council's vote of thanks for the great job the Freshmen Orientation Committee did under the leadership of Bob Sample. The motion was passed.

The problem of student loans was then presented to the Council by Billy. He asked that the Council vote to have interest rates charged on the loans. Bob Krook so moved. The motion was passed.

The problem of forming committees was then brought up. Since the Council had only 33 men last year most of the members served on two or three committees. Billy Oliver asked the Council if they wished to follow the same procedure, or to allow ex-officio members of the Council to hold offices on the committees. A suggestion to cut down the size of the committees was brought forth by Prof. Ruddell Reed. The problem of who should and who should not be on the committees was tabled to a later meeting in order that the chairmen of the various committees could find out just how many members they would need to serve on their committees.

Billy Oliver then asked the Council to approve the Honor Jury's decision on a trial that was held last week. The motion was made and passed. Billy then stated that a local radio announcer was given misinformation about the case which he used in a widely heard broadcast. Billy stated that the misinformation was on three points: the evidence was overwhelming, the jury was 8 to 1 in favor of a guilty verdict and the case was handled, as it should have been, by the CG Honor Court. He also stated that the action of the announcer in mak-

ing the students name public was contrary to the CG policy and made more trouble for the boy.

A motion was then made and passed that the Faculty Council be asked to find the person or persons guilty of giving the misinformation and reprimand them.

Next on the agenda the Honor Committees. The elections for the Honor Committees are to be held October 5 to 8. These committees are important functions here at State.

A report on the Athletic Seating Committee was then made by Bob Jordan, who stated that there will be no reserved seats for the football games in the student section and that all date tickets will be half price. During basketball season there will be some home games with reserved seats. The other games, however, will be on a non-reserved seat basis. Also, a wife of a student here, at State may now use her husband's ticket. This was an important victory for the Campus Government, since last year the wives had to pay for a regular priced ticket while their husbands stayed home to do homework.

Dave Barrett was commended by Billy Oliver for the fine job he did as Chairman of the Campus Spirit Committee. Everyone agreed that last weekend was very well handled. At the sound of the Tower Bell, Billy adjourned the meeting.

Honor Court Finds Defendent Guilty

Unanimous Decision Convicts Student for Cheating During Spring Term Exams

A student accused of cheating was tried by the Campus Government Honor Court last Tuesday evening.

The student pleaded not guilty. However after a lengthy trial the jury found the student guilty as charged.

Evidence brought forward by the prosecuting attorney included an oral and written statement to the effect that cheating was going on, during a spring final, in that part of the room in which the accused student was sitting. The student also refused to answer, when called from the room, a direct question as to whether he had been cheating. Further evidence presented included a statement by a professor that the defendant had admitted to him later that he had been cheating. The test papers of the defendant and his immediate neighbor during the test were offered as evidence by the prosecuting attorney and were almost identical in their wording on both correct and incorrect answers. A signed statement by the neighbor to the effect that he had not cheated was also presented by the prosecuting attorney.

The jury's sentence was three terms suspension.

The jury was divided, eight for and one against both the conviction and the sentence.

Enter Her Now For Miss Wolfpack of '53

The Blue Key is again sponsoring its annual homecoming Miss Wolfpack contest. It is easy to enter the girl of your choice if you are a student at State.

You get a picture of the girl you wish to enter, one in a bathing suit, one formal and one miscellaneous, along with her name, height, weight, color of hair, and color of eyes, then hand them all in at the "Y" desk. The winner of the contest will be presented at the William and Mary vs State homecoming game on Oct. 31.

If your girl is all you think she is or all you told her she is enter her right away. The deadline is noon Friday, the 23rd of October. All pictures will be returned.

Junior Class To Elect New 'Veep'

Meeting Oct. 6 at Noon in Pullen is Called to Fill Post Vacated by Al Thorne

The Junior Class of State College is to meet in Pullen Hall on Tuesday, October 6 at 12 o'clock noon to elect a vice-president. The office was left vacant when Al Thorne transferred to Duke University. The other class officers are: President, Gene Warren; Secretary, John Parker; and Treasurer, David Bagwell.

The big job facing the vice-president of the Class of '55 is the annual Jr.-Sr. Ring Dance of which he is chairman. To be qualified for the office, a candidate should have had experience with other dances and social affairs and must be able to work with classmates in putting on a memorable "formal."

All candidates for the vacancy must register in Dean Talley's office by 2:30 p.m., Monday, October 5, 1953. Voting will be by a show of hands following campaign speeches.

Coliseum Scene Of Annual IDC Dance

Dorms Sponsor Affair Which is Open to All Students and Their Dates, Tickets on Sale Now, Jim Johnson's Band to Furnish Music

By Jerry Armstrong

The Inter-Dormitory Council has announced plans for their annual IDC Semi-Formal Ball to be held in the William Neal Reynolds Coliseum Friday, October 16, from 8:00 p.m. until midnight. Every member of the student body is cordially invited to the dance and a large number of couples is expected to be present for this major social event sponsored by the dormitories.

Music will be provided by one of the outstanding bands in this section—Jim Johnson from Chapel Hill.

Jack MaDade, Inter-Dormitory Council president, said today that from all indications this would be the biggest IDC Ball since its origin.

Tickets will be on sale throughout the campus and can be obtained from any member of the Inter-Dormitory Council and the officers and representatives of the dormitories. There will be only one ticket sold for both stag and couples for the price of \$1.00.

The primary purpose of the In-

ter-Dormitory Council, one of the major student campus organizations, is for the planning of the social, recreational, and athletic programs for the student residents in the dormitories. Another of its prime goals is the maintaining of a friendly and competitive spirit among the students.

The appointed committeemen for the ball are: Invitation Committee—Lloyd Cheek; Figures and Sponsors Committee—Roany Thomas; Arrangements Committee—Al Parker and Eddie Criner; Decorations Committee—Brad Wiggins and Charles Threvathan; Publicity Committee—Jerry Armstrong and George Lourigan, and Bids Committee—Herb Kaplan and Al Parker. Eddie Criner of Winston-Salem is the head of the dance committee this year in becoming the new IDC social and recreational director. The publicity department will be headed by Jerry Armstrong from Kannapolis. Athletic director head for the campus will be a native from Clinton, Bert Weeks.

Any information concerning the IDC can be obtained at 107 Berry.

CUSC Holds First Meeting

This year's first meeting of the Consolidated University Student Council was held last Saturday morning in Chapel Hill.

State's Bill Hagler, president of the SUCS presided at the meeting which was attended by full delegations from State, Women's College and Carolina.

Ed McCurry, who was chairman of the CU Day activities committee was the first speaker. He outlined plans for the day and designated work to be done by everyone at the reception after the game.

The president of each school of the Consolidated University then gave a short talk explaining the legislative, judiciary and executive setup at his school. Bob Gorham is resident at Carolina, Emily Butner at WC and Billy Oliver at State.

Gordon Gray, president of the CU then gave a short talk suggesting four areas in which the CUSC could work to advantage: a name for the Council other than Greater

University or Consolidated University, neither of which seemed appropriate to him, means whereby more personal contact between the CU administration and the students might be had, improvement of the atmosphere of consolidation on all three campus and improved communication between CUSC and the CU administration.

Anne Ford, president of the WC College Union then outlined the facilities now available for accommodating men students, in Greensboro to date WC girls. These facilities included rooms in Elliot Hall and other places on the WC campus.

A report by Wade Matthews of Carolina on the possibility of reduced rates for hospitalized students at the new hospital was the final report given at the meeting.

The meeting was adjourned at noon.

The Council members then went to a luncheon in the Planetarium to which they were invited by the Board of Trustees.

Grand Ball and Reception in Coliseum To Honor Chancellor, Mrs. Bostian

North Carolina State College Students, faculty members, alumni, and friends will honor Chancellor and Mrs. Carey H. Bostian with a grand ball and reception in the William Neal Reynolds Coliseum Saturday night, October 24, from 8:30 until 11:30 o'clock.

Plans for the event were announced by Mrs. Ralph W. Cummings, president of the State College Woman's Club, and Davis Turnage of Fountain, vice president of the College Union, who are serving as co-chairmen for the ball and reception.

Dr. Bostian, a member of the State College faculty since 1930, assumed his duties on September 1. All of the major organizations

at State College have joined hands to give the reception and ball in honor of the new chief administrative officer of the college and Mrs. Bostian.

Mrs. Cummings said several thousand persons are expected to attend the program. Among those in attendance, in addition to students, faculty members, and alumni of State College, will be officials and trustees of neighboring institutions of higher learning in North Carolina.

Appointment of a number of reception and ball committees will be announced in a few days, Mrs. Cummings stated. Banks Talley, assistant dean of students, is assisting with arrangements.

Theater Committee Will Present Central Prison Varieties

The College Union Theater Committee will present the Central Prison Varieties tonight at 8 p.m. in Pullen Hall.

The show is a combination minstrel show and hillbilly jamboree. It has been given many times all over the State.

Last year the show was given on campus and was well received by an overflow audience in the "Y" auditorium.

The varieties members are all from Central Prison.

Admission for students will be by registration cards with dates admitted free. Faculty and staff members will be admitted by CU membership cards. Others will be charged \$1.50.

Student Directory At "Y" Information Desk

A typewritten copy of the student directory will soon be available at the information desk of the "Y."

This directory will be available from 8:30 a.m. to 10 p.m. every day until printed copies are ready for distribution. The printed copies will be distributed free, one to each dormitory room.

Radio Club To Meet October 6

The N. C. State College Amateur Radio Club will hold its first meetings next Tuesday Oct. 6 at 7:30 p.m. in room 6, Winston Hall.

Anyone interested in joining the club is cordially invited to attend. It is not necessary that they be licensed radio amateurs.

Max Goslen, W4RWL, of Winston-Salem is president of the club.

Mann New Head In Construction

Appointment of Carroll Lamb Mann, Jr., professor of civil engineering and head of the construction curriculum at North Carolina State College, was announced recently by Dr. J. H. Lampe, dean of engineering at the college, and Dr. Ralph E. Fadum, head of the civil engineering department.

The construction curriculum leads to a B.S. degree and is a four year program administered by the department of civil engineering. This curriculum was established in 1949 and is supported by the Carolinas Branch of the Associated General Contractors of America through the North Carolina Engineering Foundation.

Dean Lampe said the construction program is aimed at a general preparation for career in any phase of construction and will prepare graduates for highway, bridge, waterway, and sewage construction. It is, he said, designed to lay foundations for future work as owners, managers, or executives in the construction industry.

In welcoming Mann to the Engineering School faculty Dean Lampe said:

"Carroll Mann, Jr., brings to our staff a view point of North Carolina's needs in engineering education. He is excellently qualified in training and experience to teach and inspire our student as they look forward to engineering careers in our state and nation. In addition it is most appropriate and good to again have another Mann following in the footsteps of his imminent father, Prof. C. L. Mann."

Dr. Fadum said of Mann:

"We feel fortunate indeed to add to our staff one who has such a distinguished record of engineering service, one who has contributed so much to the activities of our engineering professional societies and one who has given so generously of his time to the public welfare."

Mann, a native of Raleigh and a State College graduate, comes from private business to the field of education with a marked distinction of an engineering family and a State College family. His father, C. L. Mann, Sr., graduate and professor emeritus of civil engineering at the college, is a former head of the department, and his son, C. L. Mann, III, is a sophomore in civil engineering at State College.

Mann was graduated from Hugh Morson High School in Raleigh, received his B.S. degree in civil engineering from State College in 1932, and his C.E. degree from Princeton University in 1933.

His professional and industrial career affords him a background of varied experience in construction work. From 1933 to 1940 he was employed in an engineering capacity in North Carolina by the N. C. State Highway Commission, U. S. Forest Service, U. S. Corps of Engineers, N. C. Department of Conservation and Development and the Raleigh Housing Authority.

From 1940 to 1945 he served his country in active military duty and rose from the rank of 1st Lt. to Lt. Col. in the U. S. Corps of Engineers. He was stationed at Ft. Bragg during the majority of this time and saw service from the initial expansion of Ft. Bragg in 1940 to the position of Post Engineer in charge of maintenance in 1945 for a post of approximately 80,000 capacity, including Pope Air Field.

Since 1945 he has been self employed as a partner of the firm of Mann and McLawhorn Engineers and Architects of Greensboro. His work with the first extended over many construction projects on buildings, sewage plants, swimming pools, railroad bridges, and municipal airports.

Mann is the author of several Conservation and Development bulletins and technical papers.

His professional and honorary affiliations include membership in the American Society of Civil Engineers, Professional Engineers of North Carolina, North Carolina Society of Engineers, and Greensboro Engineers Club of which he was a charter member and president. He is a member of Tau Beta Pi, Theta Tau, Phi Kappa Phi, and Sigma Xi.

He is now president of the North Carolina Society of Engineers and a past president of the N. C. Section of the American Society of Civil Engineers. Since 1951 he has been inspector-engineer of the Atlantic and North Carolina Railroad Co. Non-professional organizations in which he holds membership are: Greensboro Rotary Club, Men's Club of Trinity Episcopal Church, Greensboro Country Club, and Greensboro Chamber of Commerce.

Mann will make his home in Raleigh with his wife, the former Mary-Jayne Hitchins of Schenectady, N. Y., and their three children.

Wake 'State' Club To Meet Oct. 3

The Wake County State College Club will hold a special meeting at the college on Saturday, October 3, the 64th anniversary of the founding of State College.

Plans for the meeting were announced recently by Dallas T. Daily of Raleigh, president of the club, who urged all former students of the college now living in Wake County to attend.

There are approximately 1,400 alumni of the institution now residing in the county.

Highlights of the gathering will be an inspection of the nuclear reactor in the college's School of Engineering, a dinner in the college dining hall, and talks by Chancellor Carey H. Bostian, former Chancellor J. W. Harrelson, Dr. J. H. Lampe, dean of engineering, and Dr. Clifford K. Beck, head of the college's Physics Department.

In addition, a program of entertainment will be given by Harry Stewart, director of the college dining hall, who will serve as master of ceremonies for the evening program.

President Daily said there will be an assembly of alumni in the Riddick Engineering Laboratories Building October 3 at 5 p.m., tour of the nuclear reactor at 5:45 p.m., and the fall alumni dinner at 6:30 p.m.

Raleigh. If the band membership could be increased to 100 they would probably attend all games.

The biggest needs at present are for clarinetists, drummers, and tuba players.

The band practices two hours each week. Music practice is in the band room of Frank Thompson gym and drill practice is in the stadium.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Beclaws He Flunked The Finger-Nail Test

"Go jump in the lake," squalled Sheedy's mermaid with baited breath, "You look simply crabby with that messy hair. Better get your hooks into Wildroot Cream-Oil, America's favorite hair tonic. Keeps hair combed with no trace of greasiness. Removes loose, ugly dandruff. Relieves annoying dryness. Contains lanolin. Non-alcoholic. I shall never see you again until you start using it." Paul crabbed 29¢ and bought Wildroot Cream-Oil. Now he's the crab-apple of her eye. So water you waiting for? Hurry and get a bottle or handy tube at any toilet goods counter. And nets time you visit your barber, ask for Wildroot Cream-Oil on your hair. Then you'll be the best catch on campus.

Short Courses In I.E. At Gastonia

Registration for North Carolina State College extension courses in industrial management and planning at Gastonia will be accepted by J. I. Mason of the Gaston Technical Institute until October 6 and 8.

The courses offered will be "Motion and Time Study," with classes beginning October 6, and Industrial Relations whose classes begin October 8. Registration can be made until the first class meeting.

Offered for the first time in Gastonia, this program is designed to meet the urgent need of North Carolina industries for practical instruction and training courses in supervision and production technology. It is sponsored by the School of Engineering and Division of College Extension at State College.

Basic studies are offered in industrial management with a choice of two subsequent programs in industrial engineering or personnel management. The courses run for 10 weeks with three hour classes each week. A certificate is awarded at the end of the course.

The program is open to persons with at least six months plant experience who are anxious to learn

the latest developments in engineering management principles and practices.

Similar courses are offered in Greensboro and High Point.

The teaching staff includes: Mr. Henderson, R. D. Furlong, R. W. Llewellyn, and Ruddell Reed, Jr., all of the department of industrial engineering; D. J. Moffie, head of the department of psychology; A. R. Solem of the department of psychology, J. C. MacLachlan, industrial engineer for R. J. Reynolds Tobacco Company, Winston-Salem; and Dr. H. A. Lynch, president of Herbert Lynch and Association of Charlotte.

Further information can be obtained by writing: Division of College Extension, North Carolina State College, Raleigh.

Ag School Has 11 New Profs

Dr. Colvard Announces Appointment of Group Which Includes Natives of Nine Different States, Three Are Tar Heels

Appointment of 11 new faculty members in the School of Agriculture at North Carolina State College was announced early this week by Dr. D. W. Colvard, dean of the school.

The new teachers were listed by Dr. Colvard as follows:

Samuel L. Tisdale, associate professor of agronomy; William D. Toussaint, assistant professor of agricultural economics; Alfred F. Borg, associate professor of bacteriology; David D. Mason, professor of experimental statistics; James Hadley Dietz, research assistant professor of horticulture.

Quentin W. Lindsey, research associate professor of agricultural economics; Robert L. Rabb, research assistant professor of entomology; Clifford Hildreth, professor of agricultural economics; J. C. Williamson, Jr., assistant professor of agricultural economics; Columbus Clark Cockerham, associate professor of experimental statistics; and Daniel Goodman Horvitz, associate professor of experimental statistics.

A native of Tampa, Fla., Dr. Tisdale is a former member of the State College faculty and replaces Dr. E. T. York, Jr., who was recently appointed head of the Agronomy Department. Dr. Tisdale holds a B.S. degree from Alabama Polytechnic Institute and a Ph.D. degree from Purdue University. After leaving State College in 1949, he became an agronomist for the Tennessee Valley Authority in Knoxville, Tenn.

Professor Toussaint is a native of Amidon, N. D., and earned his B.S. degree at North Dakota Agri-

cultural College, his M.S. degree at Iowa State College, and did further advanced study at Iowa State. He is a former teaching and research fellow and research associate at Iowa State.

Dr. Mason, a native of Abingdon, Va., received his B.A. degree at King College in Bristol, Va., his M.S. at Virginia Polytechnic Institute, and his Ph.D. degree from North Carolina State College. He also has studied at Ohio State. Prior to accepting the State College appointment, he was principal statistician in charge of the Biometry Service Division, U. S. Department of Agriculture, Beltsville, Md. He replaces Prof. R. J. Monroe at State College.

A native of Ames, Iowa, Dr. Dietz succeeds Prof. Norman A. Vanasse in the Department of Horticulture. He holds a B.S. degree from Oregon State College and B.S. and Ph.D. degrees from the University of Massachusetts. He also studied at Iowa State and Colorado State. He is a former instructor at the University of Florida and was a chemist with the Florida Citrus Company at Lakeland, Fla.

Professor Lindsey was born at Stockville, Neb., and was educated at the University of Nebraska, Colorado College, and Harvard University. He earned B.S. and M.A. degrees from the University of Nebraska, he has been project leader in agricultural economics for the Southeast Regional Land Tenure Committee in Raleigh since 1950.

A native of Lenoir, N. C., Dr. Rabb attended Mars Hill College, the University of North Carolina, Ohio State, and North Carolina

State College. He holds B.S., M.S., and Ph.D. degrees from N. C. State. He formerly was employed by General Mills and by State College, where he has worked as a teaching assistant, research assistant, assistant to the extension entomologist, and research instructor.

Dr. Hildreth was born at McPherson, Kan., and earned M.S. and Ph.D. degrees at Iowa State. He formerly taught at Iowa State and the University of Chicago. He served in the U. S. Navy from 1943-46. He succeeds Dr. G. W. Forster, a veteran member of the State College faculty who has retired as professor of agricultural economics and head of the Department of Agricultural Economics.

A native of Bethel, N. C., Professor Williamson succeeds Walter P. Cotton. He earned B.S. and M.S. degrees from North Carolina State College and attended the University of Chicago from 1951-53. He formerly was employed by the Manning Supply Company of Bethel, in farm management research for the Tennessee Valley Authority, and as a research assistant at the University of Chicago.

Dr. Cockerham is a native of Mountain Park, N. C., and holds a B.S. degree from N. C. State and the M.S. and Ph.D. degrees from Iowa State. He also studied at the University of North Carolina. He formerly worked as a part-time agent in animal husbandry at both N. C. State and Iowa State and was an assistant professor at the University of North Carolina during the last academic year.

Dr. Horvitz was born at New Bedford, Mass., and was educated at Massachusetts State College, where he received his B.S. degree; and at Iowa State, where he was awarded his Ph.D. degree. He is a former instructor at Massachusetts State and Iowa State and was an assistant professor at the University of Pittsburgh before joining the N. C. State faculty.

Dr. Borg, a native of Pateros, Wash., succeeds the late Dr. Ivan D. Shunk. He attended Washington State College and earned his B.S.,

Staff Changes In Ag. Engr. Department Announced

A staff addition and a change in status for another faculty member in the Department of Agricultural Engineering at North Carolina State College were announced during the summer by Prof. G. W. Giles, department head.

Professor Giles said Dr. Henry D. Bowen has been appointed assistant professor of agricultural engineering and additional duties have been assigned to Dr. F. J. Hassler, research associate professor of agricultural engineering.

Dr. Bowen replaces Prof. I. L. Williams, who resigned his State College post to become head of the Agricultural Engineering Department at Texas Tech.

Dr. Bowen came to N. C. State from Michigan State College, where he has earned a B.S. and a M.S. degree in Agricultural Engineering and has completed all of the requirements for a Ph.D. degree.

"He is known," Professor Giles said, "for his fundamental research work in developing the electrostatic principle of dusting—an experimental process at the present time, but one that promises to increase significantly the amount of dust adhering to plants.

"Such work offers one of the better approaches to the control of plant pests at lower costs. Dr. Bowen will be in charge of the

M.S. and Ph.D. degrees from the University of Washington. He was formerly employed by the Washington State Department of Fisheries and has been assistant professor of bacteriology at the University of Illinois since 1949.

power and machinery instructional program for students enrolled in work leading to B.S. degrees in agricultural engineering and will handle a number of courses in farm machinery. He will also be in charge of research work in cotton mechanization."

Both the instructional program in farm machinery and the research work in cotton mechanization are considered to be among the great needs in North Carolina's rapidly developing mechanization progress.

Dr. Hassler's present duties consist of conducting fundamental research work in tobacco at the Oxford Branch of the Agricultural Experiment Station.

His added duties will be to take charge of the graduate instruction in the Department of Agricultural Engineering. Dr. Hassler will spend each Monday in the Department of Agricultural Engineering at State College. The remainder of the time he will spend in Oxford working on the tobacco curing research program.

The present graduate program in the department consists of work leading to M.S. degrees and professional degrees. Future plans, however, call for the development of a strong program for work leading to Ph.D. degrees, Professor Giles stated.

Recent Honor Court Action Is An Indicator of Fresh Spirit in CG

The Campus Government Honor Court seems at last on the road to being something other than a farce.

For once that body has returned a guilty verdict, on the strength of what appears conclusive evidence, on a student accused of cheating during a final exam. They have also passed sentence on that student other than the lightest required by their Constitution.

The Honor System is a good thing for the school only if a majority of the students are wholeheartedly behind it and take seriously their pledge to uphold its rules.

The student who is unwilling to uphold the rules makes a farce of the system. And a farcial system is worse than none at all.

An honor system either is in effect or is not. Either students accept the responsibility of mutual trust between themselves and their teachers or admit they haven't conviction enough or self respect enough to accept this responsibility and let their teachers know they will have to keep them honest by whatever means necessary.

A teacher in the latter case could at least respect his students for their honesty in admitting their weakness but when they have an honor system but do not try to make it work then he has no reason for having anything but contempt for them.

The student suffers also because, while he is supposedly on his honor, he knows he would not, for instance, report a fellow student seen cheating. He cannot be proud of his hypocrisy in the matter and his self respect suffers.

We can all profit by following the example of the Honor Court members and witnesses and, by keeping our pledge to support its rules, infuse new life and spirit into this college institution.

CG Money Available For Campus Groups

The Campus Government would like to know which campus organizations want money from the CG Activities Fee Fund.

Organizations which plan to request funds for Agromeck pictures or other expenses should see Bob Krook, CG vice-president, at the CG office in the Publications Building.

Candle-lit Campus

It appears that we are entering another year during which we will have to feel our way around a candle-lit campus.

Candles are beautiful on the dinner table and fun on birthday cakes and in both instances furnish sufficient light for the activities in progress. They are not, however, the proper means for lighting a college campus over which all or part of 5,000 students may be walking after dark.

Yet the campus street lights now and for the last three years, to the writers knowledge, have furnished about as much light per post as a good sized candle.

We think it is about time something was done about this actually dangerous situation.

That it is quite a job to get about on the campus after dark will be agreed on by anyone who has tried it.

It is true the lighting is good on

Yea, It's On Mr. Smith

Dunn Avenue and at a few other isolated spots on campus but of what help is that to a student walking from Watauga dormitory to Riddick or from Owen, Tucker, Turlington or Alexander to Hillsboro street if he wishes to save walking an extra half mile as any sensible person will. There is one case on record now of a student who sustained a broken leg on the latter walk. This student

was forced to pay all the expenses attendant on such an accident out of his own pocket.

Money is available for campus lighting.

We suggest the administration try to do something about this problem immediately and suggest that night walking students take out the new Pilot accident insurance.

Only \$4.50? Fantastic!

Walking away from the ruins of his flying saucer, the tiny creature opened his emergency kit. Peering into it with his middle eye, he beheld a stack of

greenbacks, packs of chewing gum, and a sheet of instructions which read: "In this kit you will find everything you need to live as a college student. All college men wear clothes and chew gum. Buy clothes, chew gum constantly...and good luck!"

Scratching his left antenna with his lower left hand, he tore off half of a five dollar bill, popped it into his mouth, and scuttled into a nearby college shop. "Let's see your finest shirt," he squeaked.

The trembling clerk handed him a Van Heusen Oxfordian. "Gleeps, that's really a mimsy!", screeched the little fellow, feeling the luxurious Oxford fabric. "How much is it?"

"Only \$4.50," quavered the clerk. "I have them in the smartest new colors...and white to boot. Plus roll collars, button-downs and new short collars."

"Only \$4.50? Fantastic!", piped the creature. "I'll take one of each!"

Carefully he counted out twenty sticks of gum and laid them on the counter. "Keep the change," he chortled, putting the shirts under his middle arm. And munching merrily on a crisp ten dollar bill, he waddled out.

A.I.P. Meeting Is Big Success

On Tuesday night, September 29, the American Institute of Physics had its first meeting in the Nuclear Reactor building.

About one hundred nuclear engineering students were present to hear a short but extremely interesting talk by Dr. A. C. Menius and Dr. R. Murray concerning the operation of the Reactor.

Following the lecture, Drs. Menius and Murray conducted a tour of the Reactor. The control rods, the monitors, the sampling devices and the alarm system were explained.

The highlight came when the Reactor was operated. An actual demonstration ensued which held the attention of the group.

Mr. Joe Lunholm, Harold Lamonds, Aaron Saunders, Dr. Whitecker, and Dr. Cranfield assisted in the demonstration experiment.

A.P.O. Frat Plans to Make Map for Blind

The Iota Lambda chapter of the Alpha Phi Omega national service fraternity held their first meeting last night. Alpha Phi Omega is a fraternity of active and former members of the Boy Scouts of America.

Gus Plakikas, the new president, presided.

The group selected as their fall project the construction of a map of the N. C. School for the Blind campus. This map will be so constructed that blind students can use it to learn their campus.

An open meeting will be held October 22. All interested scouts and ex-scouts are cordially invited to attend.

Glee Club, Orch. Begin Practice

The Glee Club and Orchestra began practice this week, but many students who signed up for either the Glee Club or Orchestra have not appeared for practice. Major Kutschinski urges all of these persons to attend next week.

The Glee Club meets every Monday, Tuesday, and Wednesday night from 7:00 to 8:00 p.m. The Orchestra meets every Tuesday night at 8:00 p.m. Both meet in the auditorium of Pullen Hall. Membership in the Orchestra is open to the faculty, their wives, students, and their wives. Major Kutschinski would like to see all persons who are eligible and interested.

Definite plans have been made for a joint program with the Carolina Girls Glee Club. This will be later this quarter. The Glee Club will also give an independent concert before Christmas. In the spring they will participate in the Choir Festival at Memorial Auditorium here in Raleigh.

Major Kutschinski would be very happy to have many more members in both the Glee Club and the Orchestra.

SS Boards Have SSCQT Forms

Applications for the November 19, 1953 and the April 22, 1954 administrations of the College Qualification Test are now available at Selective Service System local boards throughout the country.

Eligible students who intend to take this test on either date should apply at once to the nearest Selective Service local board for an application and a bulletin of information.

Following instructions in the bulletin, the student should fill out his application and mail it immediately in the envelope provided to SELECTIVE SERVICE EXAMINING SECTION, Educational Testing Service, P. O. Box 586, Princeton, New Jersey. Applications for the November 19 test must be postmarked no later than midnight, November 2, 1953.

According to Educational Testing Service, which prepares and administers the College Qualification Test for the Selective Service System, it will be greatly to the student's advantage to file his application at once, regardless of the testing date he selects. The results will be reported to the student's

Ag Club Holds First Meeting of Fall Term, Freshmen Welcomed

Tuesday night 7:00 p.m., 118 Withers Hall a new year in Ag Club activities began with the president, Henry Ramseur, calling the first meeting to order.

A large crowd including many new freshmen attended.

Three outstanding men in the Ag School were introduced and each gave a short talk. They were Dr. D. W. Colvard, newly appointed Dean of the School of Agriculture; Dr. R. L. Lovvorn, newly appointed Director of Instruction of the School of Agriculture; and Dr. Arthur Kelman, Faculty Advisor for the Ag Club.

A smoker concluded the program and ice cream was served for refreshments.

All freshmen were invited by president Ramseur to attend regularly on Tuesday nights at 7:00 p.m. in 118 Withers Hall. Everyone is looking forward to a new and wonderful year in Ag Club activities.

Selective Service local board of jurisdiction for use in considering his deferment as a student.

Conference— (Continued from page 6)

Carolina, with its victory over State under its belt, will play the Washington and Lee Generals this week at home. This will probably be an easy game for the Tar Heels who must take on the likes of Duke, Tennessee, and Maryland before the season is completed.

Wake Forest has not looked too impressive so far this season. The Deacons are still looking for their initial win of the young season, having dropped their first two contests. However, the team is much better than the record indicates and they should get rolling shortly. The Demon Deacons will be a tough

Tennis Players Note

Tennis coach John Kenfield will hold a meeting Tuesday at 6:30 in Frank Thompson Gym.

All varsity tennis players and freshmen interested in joining the team should attend.

team to beat in November and the traditional games with State and Carolina should be honeys.

The race for the title should be close right down to the final game of the year with an important post season bowl invitation probably going to the eventual champion!

TWICE AS MANY AWARDS THIS YEAR

MAKE \$25!

WRITE A LUCKY STRIKE JINGLE based on the fact that LUCKIES TASTE BETTER!*

From well-known towns to parts unknown,
Most any place you go —
It's Lucky Strike for better taste
With people in the know!

Easiest \$25 you ever made. Sit right down and write a 4-line jingle based on the fact that *Luckies taste better*. That's all there is to it. More awards than ever before!

My meals, folks say, are flavorful —
They're seasoned perfectly.
For better taste, it's Luckies, though,
That win the cheers — not me!

Read the jingles on this page. Write original ones just like them—or better! Write as many as you want. There's no limit to the number of awards you can receive. If we pick one of your jingles, we'll pay you \$25 for the right to use it, together with your name, in Lucky Strike advertising.

Remember: Read all the rules and tips carefully. To be on the safe side, clip them out and keep them handy. Act now. Get started today.

CLIP OUT THIS INFORMATION

RULES

1. Write your Lucky Strike jingle on a plain piece of paper or post card and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N.Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on any qualities of Luckies. "Luckies taste better," is only one. (See "Tips.")
3. Every student of any college, university or post-graduate school may submit jingles.
4. You may submit as many jingles as you like. Remember, you are eligible to receive more than one \$25 award.

*TIPS

To earn an award you are not limited to "Luckies taste better." Use any other sales points on Lucky Strike, such as the following:
L.S./M.F.T.
Lucky Strike Means Fine Tobacco
Luckies taste cleaner, fresher, smoother
So round, so firm, so fully packed
So free and easy on the draw
Be Happy—Go Lucky
Buy Luckies by the carton
Luckies give you deep-down smoking enjoyment

the Technician SPORTS

Through The Keyhole

LEONARD A. BINDER Sports Editor

The first weeks of football have now been completed in the newest conference in the United States. The Atlantic Coast Conference, like every loop in the country, is in the midst of experimenting with the most radical change the game has seen in the past few years, the return to one platoon football.

It is indeed too early to try to form any concrete opinion concerning the good and bad points of this rule. However this reporter is in favor of this change for a multitude of reasons.

First, I believe that the return to one platoon football has finally given the small colleges a chance to compete on a more even footing with their so called large college rivals. This in itself will tend to revive interest in the game as well as to stimulate participation in the sport by a larger segment of the colleges in the country. Because of this new rule, a team with a squad of thirty-three men will be able to hold its own with a corresponding team of say fifty-five players which is about the amount that the leading football powers of the country put forth every year. This of course will lead to many upsets as well as much closer contests between the

different teams throughout the land.

Everyone will probably attest to the statement that football is one of the leading sports in the country as far as fan appeal goes. However, it was the resentment of the fans to wholesale rush of substitutions that dashed onto the field every time the pigskin changed, that more than anything else prompted the football rules committee to change the rule. Now the average fan can keep track of the players without too much difficulty which cannot help but add to his enjoyment of the game.

This idea of bringing the game back to the level of the average fan cannot be overlooked. After all, he is the person who pays to see his favorites play, and if he is in accord with the rule change then this change must be given at least a fair trial.

As was stated at the outset, no conclusion can be reached this early in the season as to whether this rule will be retained for more than the 1953-54 season. However, this season should tell the tale as to whether this rule will stay on the books. At any rate it should make for some very exciting and interesting football during this current season.

Gridders Travel To Play Colonials

If N. C. State's Wolfpack is to believe scouting reports this week, they'll face another rough opponent when they travel to Alexandria, Va. Saturday to meet George Washington's Colonials.

End Coach Tim Timerario, who watched the Colonials edge out a 14-13 decision from Virginia Military last week, rates George Washington "a better team than last year." The Colonials whipped State 39-0 in the season opener last season.

Timerario, after viewing pictures of State's 29-7 loss last week to North Carolina commented, "George Washington is certainly on a par with Carolina and if we make the same mistakes against them that we made against Carolina, we'll be beaten just as badly."

State's job this week has been made doubly hard by the loss of two key players with injuries sustained against the Tar Heels. End Paul Smith, a senior from Charleston, W. Va., sustained a severe kidney injury that may keep him sidelined for three weeks and End John Thompson, a senior from Kenmore, N. Y., sustained a dislocated elbow that probably will keep him out of the George Washington scrap.

But despite the pessimistic outlook, there are some bright factors in the Wolfpack camp. Coach Horace Hendrickson indicated he was pleased with the effort of his team last week and he believes that the elimination of several crucial errors, State's performance against Carolina last week might have been much better.

State will count strongly this week on its starting backfield combination which rolled up 154 yards rushing against Carolina. Fullback

FULLBACK DON LANGSTON
N. C. State

Don Langston accounted for 58 yards on 11 tries for a 5.3 yard average, while Quarterback Eddie West, and Halfback Colbert Micklem and Chris Frauenhofer accounted for a majority of the remaining ground gained.

George Washington's all-veteran backfield with Halfback Len Ciemierniecki as the top star, will have an

experience edge over State. The Colonials also have the experience edge up front with 12 monogram winners in the line, compared to just six lettermen for State.

The contest will be played in the George Washington High School Stadium at Alexandria, Va. Kickoff time is 2:30 p.m. and plenty of tickets are still available.

Atlantic Coast Football Roundup

The new Atlantic Coast Conference has started off in excellent fashion during this year of one platoon football. Most of the league games have been close and very keenly contested. As was expected by most of the football experts, the Duke University Blue Devils have shown that they possess the powerful team that everyone knew they had. The men from Durham have won both their games so far this year. Under the leadership of their great triple-threat tailback, Worth Lutz, they have scored impressive victories over Wake Forest and South Carolina. The team is priming for its traditional encounter with Tennessee which should go a long way in determining the kind of a season the Devils are going to have as far as national ranking is concerned.

Maryland, of course, must be reckoned with as an Atlantic Conference title contender. The men of Jim Tatum have a deep and balanced club this season and they can hold their own with virtually any gridiron outfit in the land this year. Having bested Missouri and Washington and Lee in their first two games, the Terps are looking ahead to an important clash which occurs later on in the season. The game with Carolina will probably go a long way in deciding the eventual Atlantic Coast champion. This game will be played at Chapel Hill and if the Tar Heels play the brand of ball that they played against the Wolfpack last week, the Carolinians will prove mighty hard to beat.

Open Letter To State Student Body

As every university man knows, the important schools of every nation have on their campuses one tailor and one haberdasher who is their own in every sense. He is dedicated to an ideal identical with your own, and is furthermore a specialist in his own particular field—the exclusiveness of his campus, clothing-wise. His prices must fit the majority purse at his own university, and his wares must suit the climate and be created to fit the stamp of our own university gentlemen.

At Raleigh it is Milton who has so established himself among the student body. At Milton's Clothing Cupboard we have earned the confidence of the men. For through the years we have searched out and found the materials and the tailors most suitable to your needs and taste; we have discovered the mills and looms at home and abroad where individual yarns famous for wear and distinction can be blended to our own requirements; and we have gathered within our walls the fullest assortment of finished head-to-toe clothing necessary to a State man.

From England, for example, we have had especially made to our specifications cashmere sweaters, flannel and worsted flannel trousers, tweed and shetland jacketings, and full-fashioned wool socks. Yet so careful are we to uncover those little known (to America, that is) manufacturers, and so large is our consumption, that all of these items are priced for you well within a student's budget—much less than could be managed by even the largest exclusive department store, for instance.

Then, far from the immense, highly-priced clothing centers of our country, we have found the tailors to cut and make our imported suiting into the kind of finished clothing our men take pride in: conservative, natural jackets and narrow slenderly cut trousers; solidly made, fully leather lined shoes of finest Horween shell cordovan leathers, and imported Buckskins 'dirtied' to our own specifications; shirts whose rolled and button-down collars feel to you as though each one were tailored to your own throat.

Credit? The fact that you're presently enrolled at State authorizes you to open a charge account. Though, if you are under 21, a signature from home won't hurt.

Come in anytime and browse to your heart's content. See these unusual clothes that have made Milton's the style leader in campus circles.
