MEETING

There will be a meeting of the Technician Business Staff on Wednesday October 14th, at 7 p.m., Room 139 1911 Building.

All interested persons are urged to attend.

New Library To Open By Feb. 28

One of the Most Modern Buildings on the Campus Will House the New D. H. Hill Library, 375,000 Books on Its Shelves

By Willard Wynn

The D. H. Hill Library is going to move this year, probably in January or February. It will move into one of the best planned buildings on the campus and will furnish almost every convenience conceivable to a library.

The entrance to the new building is on the south side. As soon as you walk through the door you will see books of all kinds and descriptions displayed attractively around the lobby. The loan desk and card catalogs will be almost directly across from the entrance. Once you enter the lobby you will walk into the full swing of library activities.

On the right of the lobby is the reference room, and on the left is the big reading room where the periodicals will be kept. On the floor above the reference room is one of the most attractive features of the library. It is the spacious reserve room where students may study any of the books at almost any time they wish. It will have alcoves all around the walls where reserve books of many departments will be imaginatively displayed to make studying much more interesting. Several people may read the individual collections at the same time. Anyone who wishes may smoke and be perfectly comfortable in this room.

And there are other parts of this new library that will be big improvements over the old one. Upstairs there are individual studies for faculty members who wish to use them. These rooms will be equipped with desks, chairs, and lights.

On the Hillsboro Street side are individual booths where the graduate students may study. These carrels together with the lockers are convenient to the stacks so that the students may get any books they wish. The stacks will be on all

four floors with plenty of room left for new books.

The total book capacity will be about 375,000, which is about three times the present amount.

The lighting system will be excellent, and some lights may even have to be turned off for a while. Everything will be especially arranged for comfort and convenience. The total seating capacity will be about 900. The chairs will be of sturdy, comfortable design, and there will be many upholstered seats. There will even be telephones to use. Outside of the building will be a return slot to be used for books if the library is closed.

A photographic lab and visual aids room will be added sometime in the near future.

New Profs. Added to English Dept. Faculty

The English Department at North Carolina State College has added four instructors to its staff for the new school year, Dr. Lodwick Hartley, department head, announced recently.

They are Jack Suberman, Robert Ellis Umphrey, E. A. Wages, Jr., and Porter Williams, Jr.

Suberman, a native of Florida, holds an A.B. from the University of Florida and an M.A. from the University of North Carolina. He is now completing his doctorate at the latter institution.

Umphrey, a native of the state of Washington, has an A.B. in English and in Science from the University of Washington and an M.A. from Columbia University, where he is now completing his doctorate.

Wages, a native of Georgia, has an A.B. from Emory University and an M.A. from the University of Chicago. He is now completing his doctorate at Columbia University.

Porter Williams, Jr., a native of South Carolina, has an A.B. from the University of the South and an M.A. from the University of Virginia. He also has an A.B. from Pembroke College, Cambridge University, where he was a Fulbright Fellow from 1950 to 1952.

(Continued on page 2)

Band Purchases Needed Supplies

Special Allocation, From Book Store Funds, Provides Band With Needed Money

Last spring the Music Department received a special allocation from book store funds. Many long needed supplies have been bought with this money.

It was impossible to buy new uniforms so all white braid and piping on Redcoat Uniforms was replaced.

White leather music pouches and straps for same that dress up the Redcoat Band considerably at football games, and also protects music that is not in immediate use in a given performance were also purchased. The pouches are similar to those used by Service Bands, except they are made of white leather and bear a special silk embroidered insignia patch, similar to those to be awarded to consistently faithful members of the Redcoat (Marching and Concert) Bands.

Also purchased were raincoats for the entire Band, to be carried on trips, and issued only on occasions when unexpected rainy weather is encountered on trips. Several times boys have had to spend several uncomfortable hours in wet uniforms and in some cases their shirts were dyed red. These shirts are the property of the individual, of course. These raincoats came in very handy at Carolina last Saturday as all of you who were there can remember.

There were also an adequate number of special cases bought for storing and transporting the music pouches, raincoats, etc.

Major Kutschinski obtained a much needed percussion cabinet, on wheels, with special drawers, shelves, etc., adequate to hold all drummers traps, cymbals, and other miscellaneous gadgets a percussionist needs during a concert or rehearsal. It can be locked and loaded on a truck for transportation to the place of the concert.

Other articles purchased were a set of fibre drum cases for protection of drums on trips, some special mutes for French horns, trumpets, and trombones, and a generous supply of new music for the Bands and Glee Club.

Bus transportation of the Band to town for the homecoming parade was also paid from the allocation.

The Band now has approximately forty-five members, but Major Kutschinski would like at least sixty and more if possible.

The total cost of all the above articles was \$2,000.01. Pretty good buying, don't you think?

CG Hears Dormitory Service is Poor Due to Cuts in Janitorial Staff

By Bill Brehm

Last Tuesday the Campus Government meeting was brought to order by Vice-President Bob Jordan since President Billy Oliver was not present.

The roll of ex officio freshmen was then read. Three freshmen were found to be present. The Active Roll of the Campus Government was then taken.

Bob Jordan then asked the Council to approve sending a get-well card to Jerry Erdahl. This was passed unanimously.

Bob asked the Campus Government to talk up the Blood Drive which will be held from October 14 to 16. The blood drive will be sponsored by the Military Department.

A representative to the National

Association of Manufacturers was then voted on. Bill Hagler was chosen.

It was then reported to the Council that numerous complaints about the service in the dormitories were being received. Students have complained that bathrooms were not cleaned and that halls and rooms went unswept for as much as four days. It was further brought out that although the number of students in the dormitories was greater than last year the janitorial staff had been cut.

The Council went on record as demanding that service be brought up to the standard prevailing last year and if necessary that the fired janitors be rehired.

Since most of the dormitories have three men to a room, the Cam-

MRS. RALPH CUMMINGS

DAVIS TURNAGE

CU V-Pres. Davis Turnage Helps Plan Ball and Reception for Chancellor

A committee of North Carolina State College students, faculty members, and alumni met at the college last Friday to work out plans for a big reception and dance in honor of Chancellor and Mrs. Carey H. Bostian.

The reception and dance will be held in the William Neal Reynolds Coliseum at the college Saturday, October 24, from 8:30 until 11:30 o'clock.

Mrs. Ralph W. Cummings, president of the State College Woman's Club, and Davis Turnage of Fountain, vice president of the College Union, are co-chairmen for the dance and reception. Mrs. Cummings presided over the committee meeting.

Principal items on the committee's program were the completion of committee organization and the planning of the various activities for the dance and reception.

Mrs. Cummings and Turnage said more than 5,000 persons are expected to attend the event.

Dr. Bostian, a member of the

State College faculty since 1930, assumed his duties as chancellor of the college on September 1. He succeeded Col. J. W. Harrelson, who held the position for about 19 years.

Attending the committee meeting, in addition to Mrs. Cummings and Turnage, were the following persons:

Frank B. Turner of Raleigh, president of the State College Alumni Association and Mrs. Turner; W. Z. Betts, director of the Coliseum; W. H. Hitchcock, Coliseum engineer; H. W. Taylor, executive director of alumni affairs at the college; Carolyn Jessup, social director of the College Union; Banks Talley, assistant dean of students; Jack McDade of Chapel Hill, president of the Inter-dormitory Council; Larry Petty of Gastonia, president of the Inter-fraternity Council; Charles Averro of San Jose, Costa Rica, member of the College Union; and Rudolph Pate, director of the College News Bureau.

Miss Wolfpack Contest Begins

It's against college rules to incite a riot, and it is not everyday that beautiful girls get a chance to be Miss Wolfpack, but the time has arrived to enter that girl.

Last week the Technician printed an article informing the students of the rules concerning entries for the homecoming Miss Wolfpack beauty contest. The information printed was up-to-date, but Blue Key held its first meeting last Monday night, and some changes were made.

The major change that differs from last year is that all students are eligible to enter a contestant. Last year each organization selected one girl's picture from its members and submitted it as the organi-

zation's contestant. This year all entries will be judged and the selection of Miss Wolfpack will be made by Blue Key.

To enter the contest, you get a picture of the girl you wish to enter, one formal and one miscellaneous, along with her name, height, weight, color of hair, and color of eyes. Please print this information on the back of the picture and then take it to the "Y" information desk. If you have a picture of your girl in a bathing suit, bring it along too.

The deadline is noon Friday, the 23rd of October, and winner of the contest will be presented at the William and Mary homecoming game on October 31.

All pictures will be returned.

ASEE To Meet

The Southeastern Section of the American Society for Engineering Education will meet in the School of Engineering at North Carolina State College March 25-27, Dr. J. H. Lampe, dean of engineering at the college, announced early this week.

Delegates from throughout the South are expected to attend the three-day session, which will be highlighted with the presentation of technical papers outlining significant research projects new underway in the region.

Unitarians Meet Wednesday at Pullen

The Unitarian Fellowship of Raleigh will meet Wednesday evening, October 7, at 8 o'clock in Room 109 Riddick Hall at State College.

The program will be in charge of Mr. Howard Wilson who will present a set of slides on the topic "From Authority to Freedom" based on the history of the Unitarian movement.

The public is invited.

Elections Mark Junior Meeting

Richard Reed was elected vice-president of the Junior Class of State College on Tuesday, October 6. The election was conducted during a called class meeting.

Candidates for the office were: Reed, Billy Howard, Hayne Baucom, Douglas Greene, and David Sontag. Elliot Kabbash and Tom McDaniel registered but withdrew to support Reed and Baucom respectively.

Reports from committee chairmen indicated that plans are being formed for the annual Jr.-Sr. Ring Dance which will be held next spring. The committee Chairmen are: Building, Banks Leonard; Ceremony, Frank Clinard; Decorations, John Parker; Finance, David Bagwell; and Music, John Gregg.

Frank Clinard has been appointed as Ring Committee chairman and will be responsible for guiding the committee in the selecting of Class Rings.

The office that Reed is to fill was vacated when Al Thorne transferred to Duke University. Reed is from the School of Textiles and hails from Schuylkill Haven, Pennsylvania. Other class officers are: President, Gene Warren; Treasurer, David Bagwell; and Secretary, John Parker.

DR. WILLIAM L. BOYD

Livestock Disease Study Being Held

Prominent Scientist to Make Study Here; Retired University of Minnesota, Veterinarian to Spend 6 Months at State

Dr. Willard Lee Boyd, immediate past president of the American Veterinary Medical Association, is making a six-month study of North Carolina dairy cattle and livestock disease problems in the Animal Industry Department at North Carolina State College.

Announcement of Dr. Boyd's work was made recently by Dr. J. W. Pou, head of State College Animal Industry Department, who said college authorities believe the study may lead to further progress in the control and eradication of animal diseases in the State.

Dr. Boyd, who retired June 30 as director of the School of Veterinary Medicine at the University of Minnesota, is regarded as one of the nation's top-level authorities in veterinary science.

In his announcement, Dr. Pou said the visiting veterinarian "will make recommendations concerning the development of the research program in the animal disease field at State College" following his study.

An animal disease diagnostic laboratory, now under construction on the State College campus, will provide additional facilities to cope with the State's livestock disease problems upon its erection. This laboratory is a joint project of the State Department of Agriculture and the School of Agriculture at State College.

Dr. Pou indicated that Dr. Boyd's recommendations will be helpful in the development of the laboratory's program of work.

Dr. Boyd was appointed instructor in the Division of Veterinary Medicine, University of Minnesota in 1911, was appointed assistant professor in 1913, was made full professor in 1918, and was appointed chief of the Division of Veterinary Medicine in 1940. In 1945, he received the coveted Borden award for his outstanding leadership in dairy cattle disease

research. When the School of Veterinary Medicine was established at the University of Minnesota in 1947, Dr. Boyd was named its director.

His work at the university has been in the fields of research and education. Research conducted by Dr. Boyd and his associates covers a wide range of problems affecting animal health. He himself has specialized in brucellosis, sterility and breeding problems. He is the author of numerous scientific reports on veterinary medicine. His honors include membership in several veterinary medical associations and fraternal organizations.

Among the scientific papers which he has written are "Notable Contributions on Sterility and Other Breeding Diseases," "Bovine Brucellosis," and "Nutritional Diseases and Their Effect on Dairy Cattle Reproduction and Similar Conditions."

Dr. Boyd was elected president of the American Veterinary Medical Association in June 1952. He is a member of the Minnesota State Veterinary Medical Society, Minnesota State Livestock Sanitary Board, Minnesota Academy of Science, Minnesota Stallion Registration Board, the Conference of Research Workers in Animal Diseases in North America, and is associate editor of the *Cornell Veterinarian*.

Dr. Boyd is also an honorary member of the Wisconsin Veterinary Medical Association and the Eastern Iowa Veterinary Medical Association. He is a past president of the Minnesota State Veterinary Medical Society and a past member of the State Veterinary Examining Board.

ENGLISH PROFS.—

(Continued from page 1)

Missing from the staff this year are Dr. John W. McCullough, who is on leave for study at the University of Michigan under a Ford Foundation Grant; Dr. J. A. Winterbottom, who has accepted a position with the Testing Service in Princeton, New Jersey; and R. F. Bauerle, who is teaching at Ohio Wesleyan College.

CAMPUS GOVT.—

(Continued from page 1)

pus Government is wondering where this extra \$35.00 has gone.

Bill Brehm asked that something be done about the railroad crossings. He stated that the college has tried to stop the students from using any paths but the few that have been made by the college. This problem was turned over to Tom Memory who is chairman of the Welfare Committee. He stated that he would look into all the changes that are and will be made.

The ex officio Freshmen members of the Campus Government were then assigned to serve on different committees of the Campus Government.

Bob Krook then presented the Budget for the year. This will be voted on next meeting.

At the sound of the bell, the meeting was adjourned.

Processing Manager Appointed By the Textile School

G. Dent Mangum, Jr., has been appointed manager of the processing research division, Department of Textile Research, in the School of Textiles, North Carolina State College, Raleigh, it was announced recently by William A. Newell, research coordinator in the School.

Mangum was Textile Engineer for the Technical Department, Utilization Research Division, of the National Cotton Council of America, Washington, D. C. He assumed his new duties on October 1.

Mangum succeeded Ivan Y. T. Feng, who joined Celanese Corporation of America in an executive-training capacity.

Mangum is a native of Raleigh, N. C., and is a graduate of the School of Textiles, N. C. State College. He is active on Committee D-13 on textile materials, American Society for Testing Materials, on the executive committee of the Textile Division, American Society for Quality Control, and in the Washington section of the American Association of Textile Chemists and Colorists. He is a member of Delta Kappa Phi Textile Fraternity.

Ag Economics Club Begins Fall Activities

On Thursday night October 1 the Ag. Economics Club began its activities for the fall term in Room 203-B Patterson Hall.

The new members were introduced and the faculty adviser, Dr. Pierce, commented briefly on the background of each new member.

The main discussions were first, the exhibit at the N. C. State Fair and second, the future programs and meetings of the Club among which the Club will sponsor a "get-together" meeting of all students and faculty of the Department.

A brief talk by Dr. Pierce about the past activities and role which the Ag. Economics Club played in this campus concluded the program. Lloyd Bostian was elected president of the Club, replacing Sam Taylor who has been called in military service.

Meetings of the Club will be held regularly every 1st and 3rd Thursday of each month. Any student interested in Ag. Economics is welcomed to the meetings.

With the Greeks

By DICK RUDIKOFF

By Dick Rudikoff

This is the height of rush week and all the fraternities are busily engaged with the job on hand, that of getting, rushees. The fraternity houses have been bustling with activity all this week and the functions planned for this weekend will terminate rush week with a bang.

Lambda Chi Alpha, Alpha Gamma Rho, Phi Epsilon Pi, Sigma Phi Epsilon, Sigma Pi, and Tau Kappa Epsilon all have Big rush parties planned for Friday and Saturday nights.

Sigma Alpha Mu has a television party with refreshments being served on Friday night, and a Gala party on Saturday night. There will be unescorted girls on Saturday night and all prospective rushees are invited stag or drag.

Saturday at the Sigma Chi house promises to be an eventful day. A combo has been engaged for the afternoon followed by a buffet supper. After the football game the combo will again entertain at the fraternity house.

Buddy Klein and his Statesmen the football game. After the game

will supply the music at the Delta Sig house this Friday night for their rush party. There will also be a party on Saturday night.

Kappa Alpha is having a banquet Friday night. On Saturday a picnic is planned with a dance that night.

Kappa Sigma is having a dance on Friday night, and buffet supper and party on Saturday night.

Truby Upchurch will be the scene of a Pi Kappa Alpha party on Friday night. Girls will be no problem since the Saint Mary's girls will be there in force. On Saturday night there will be a buffet supper and a party after the game.

On Friday night the Three Ducees will be present at the Sigma Nu house. This combo is certain to make their party a success. On Saturday night the fraternity is taking its prospective rushees to there will be open house at the fraternity house.

Pi Kappa Phi is having a party at Truby Upchurch's on Friday night and an open house on Saturday night.

Dr. Newton Ertia, jolly physics professor, says

"You'll lose your gravity with Jockey brand Shorts!"

In one of his periods of child-like good humor, Dr. Ertia told his class recently, "Why Mass around with substitutes for comfort? Relativity speaking, Jockey offers more comfort features than any other brand. Just Quantum, one by one!"

Enjoy the smooth, snug fit that is exclusively Jockey's!

Yes, Jockey brand Shorts are tailored to fit . . . and have four exclusive features that insure extra comfort:

13 separately contoured pieces are carefully crafted into one smooth-fitting garment.

Newly-developed heat resistant rubber in waistband outlasts other leading brands by 40%.

No sag or bind around the legs.

Unique Jockey no-gap front opening.

Jockey Shorts

Jockey T-Shirts

all underwear gives you coverage but

Two-Day Animal Nutrition Conference

Latest developments in the field of livestock feeds will be outlined at the annual Animal Nutrition Conference to be held at North Carolina State College December 10 and 11.

The two-day meeting, which is expected to attract delegates from several states, will be sponsored jointly by the State Department of Agriculture, the School of Agriculture at North Carolina State College, and the North Carolina Feed Manufacturers Association.

John L. Reitzel, assistant to the State commissioner of agriculture, will be chairman of the morning session on Thursday, December 10, while Dr. J. W. Pou, head of the State College Animal Industry Department, will serve as chairman of the afternoon meeting on December 10. Chairman of the December 11 session will be Clyde L. Fore, Siler City Mills, Inc., Siler City.

Dr. Carey H. Bostian, chancellor of State College, will welcome the delegates to the college campus in an address at the opening session of the conference. The response will be made by W. Frank Redding, Jr., of Asheboro, president of the North Carolina Feed Manufacturers Association and an official of the Southern Crown Milling Company of Asheboro.

"Looking into the Future" will be the subject of a talk by Dr. D. W. Colvard, dean of the School of Agriculture, State College, who will speak Thursday, December 10.

Dr. J. S. Hughes, in charge of animal nutrition, Kansas State College, will speak December 10 on the topic, "Use of Hormones in Livestock Production."

Another Thursday speaker will be Dr. S. B. Tove, Animal Industry Department, North Carolina State College, who will discuss "The Role of Fat in Animal Feeds."

Speaking on the afternoon program on December 10 will be Dr. D. V. Catron, in charge of swine nutrition, Iowa State College; and Dr. W. W. Carvens, director, Feed Research and Nutrition, McMillen Feed Mills, Decatur, Ind.

Dr. Catron will talk on the subject, "What It Takes to Make a Good Pig Starter." The topic of Dr. Carvens' address will be "Laying Mashers."

Speakers for Friday, December 11, will be Dr. W. R. Murley, Animal Industry Department, North Carolina State College, whose talk will be entitled, "Progress in the Feeding of Dairy Calves;" Dr. S. E. Smith, professor of animal husbandry, Cornell University, who will discuss "Some Phases of Mineral Metabolism in Ruminants;" and Dr. C. W. Barber, Department of Poultry Science, North Carolina State College, who will conduct a question and answer period on poultry diseases.

Record Concert Sunday, Oct. 11

The College Union Music Committee will present a Tchaikovsky concert by recording. Among other selections, his symphonies number 4 and 6 and his 1812 Overture will be heard.

Of Tchaikovsky's six symphonies, the Fourth is the only one thoroughly annotated by the composer. Tchaikovsky poured out his soul to Mme. Nadejda Filaretovna von Meck, the patroness he never knew except through letters. Dedicated "To My Best Friend," by whom we recognize as Mme. Von Meck, the Fourth Symphony reveals a new and richer scope of writings by the famed musician.

By the time Tchaikovsky wrote his 1812 Overture, he had traveled a considerable distance to recognition and musical immortality. This Overture was written in a hotel room which was located next to an Italian Cavalry Regiment. From the bugles which sounded during the

Ruby and Bobby Maxson, brother and sister skating team, known to their millions of ice show fans as, "The Maxsons," are just one of the 20 big skating speciality acts and 10 big productions in the all new "Ice Capades of 1954," which will appear in the William Neal Reynolds Coliseum at North Carolina State College Nov. 3-7.

Bank Officer Heads Gift Group

LeRoy Martin of Raleigh, trust officer of the Wachovia Bank and Trust Company, has been named chairman of the Special Gifts Committee of the North Carolina State College Development Council.

Announcement of Martin's appointment to head the 26-man committee was made last week by L. L. Ray, director of the Development Council and assistant to the chancellor of State College.

night the composer derived his famous trumpet fanfare which opens the Overture. The melodies which follow are simple and folk-like in character and is enlivened by a spirited tarentella. The survival of this Overture seems to rest on his stirring, easily accessible tunes and his brilliant orchestration.

Many composers like to feel that Tchaikovsky was in one of his frequent melancholy moods when he worked on his sixth symphony. The symphony received its initial performance by the Imperial Russian Musical Society in 1893 with Tchaikovsky conducting. This proved to be his last symphony, for on November 1, 1893, despite the warnings of his friends, he drank a glass of unboiled water. Five days later he died during a cholera epidemic.

This concert will be heard Sunday October 11, at 3 p.m. in the Peele Hall Lounge. Refreshments will be served and everyone is cordially invited to an hour and a half of easy listening.

A native of Yadkin County, Martin is an alumnus of Wake Forest College and has long been prominent in the business and civic life of the State.

The committee which Martin heads will seek and accept special gifts made for the advancement of the various programs sponsored by the State College Development Council, an organization dedicated to the long-range progress of the college.

Other members of the committee who will serve with Chairman Martin:

L. Y. Ballentine, Raleigh; Wade Barber, Pittsboro; Edwin Gill, Raleigh; Dr. Ralph Brinley, Winston-Salem; James H. Culpepper, Norfolk, Va.; N. K. Dickerson, Jr., Monroe; A. C. Edwards, Hookerton; Jesse A. Helms, Raleigh; Dr. L. J. Herring, Wilson; Allen Hobbs, Charlotte; Joe N. Howard, Greensboro; L. D. Isenhour, Colon; J. Lloyd Langdon, Raleigh.

J. Con Lanier, Greenville; R. Walker Martin, Raleigh; J. Gregory Poole, Raleigh; W. Trent Ragland, Jr., Raleigh; W. Frank Redding, Asheboro; Fred S. Royster, Henderson; J. B. Slack, Raleigh; Colin G. Spencer, Carthage; John P. Stedman, Lumberton; Jerry B. Vaden, Raleigh; L. T. Weeks, Raleigh; F. Carter Williams, Raleigh; and Frank C. Williams, Roanoke Rapids.

"Private Brown" barked the top Sargeant, "what's the first thing you do when cleaning-your rifle?"
"Look at the serial number."
"Yeah? An' why, may I ask?"
"To be sure I don't clean someone else's rifle, sarge."

College Union to Present Varied Program During the Coming Year

The North Carolina State College Union will sponsor the presentation of 11 major entertainments and 32 movies during the 1953-54 school year.

The year's entertainment schedule, biggest in the history of the College Union, was announced by David Phillips of Mount Olive, president, and Jack Uhler, acting director.

Among the leading events to be presented will be a program by Claude Rains, noted Hollywood and Broadway actor, and a concert by Gustave Haenschen and his "American Album of Familiar Music." Rains will appear Nov. 24. The concert is set for Dec. 11.

Other artists and lecturers who will give major entertainment events in the schedule:

Dr. Franz Polgar, hypnotist, Oct. 23; Players Incorporated who will present "Othello" Feb. 26; Willie Ley, well-known lecturer on rockets, space ships, man-made satellites, and interplanetary travel, Nov. 6; Golden Gate Quartet, April 2; Dr. Gerald Priestley, the United Nations Economic, Social, and Cultural Organization, April 12.

Ralph Lapp, War Department General Staff adviser, Dec. 4; Barter Theatre which will present "Mr. Pim Passes by," April 23; Louis Fischer, author and lecturer, April 30; Max Gene Nohl, Hollywood showman and film producer, Feb. 5; and Nelson and Neal, pianists, May 7.

Phillips and Uhler said the schedule will be expanded with the addition of other attractions later this year.

All features in the College Union's program are open to all State College students and faculty members who are members of the organization. Others who wish to attend the events will be charged admission fees.

TAKE OUT SERVICE FOR
The Home, Parties and Picnics

ONCE there was a ghost named Leroy, who lived in a haunted cottage near a large Eastern university. Every Friday night, at exactly seven o'clock, he'd slide under the door of Baskerville Hall (the main dorm), and give the students all the answers to next week's quizzes.

This was quite a set up. No studying, no cramming . . . and straight A's all term long. But then, one Friday, the hour came and went. No Leroy! And the following week, all the Baskerville Boys got an F on every quiz!

The Friday after that, all of Baskerville Hall waited . . . and waited. But still no Leroy! In high dudgeon, they set out to find him. Creeping into Leroy's haunted cottage . . . the Baskerville Boys found him moaning and groaning. "What's the matter, Leroy?" they asked.

Leroy wiped a ghostly tear from his ghostly eye. "The weather's so hot, every time I put on a shirt the collar curls and wilts. I haven't been out for two weeks!"

In high glee, the Baskerville Boys hurried to the local Van Heusen dealer and bought a dozen Van Heusen Century Shirts with the revolutionary soft collar that won't wrinkle ever. Regular collars, spread collars. \$3.95 for whites, \$4.95 for colors. "A very good investment," they thought.

Leroy was delighted. He rewarded the boys with all the answers to the following week's quizzes. Two months later, all the boys from Baskerville Hall had flunked out. Leroy's good-looking Van Heusen Century Shirts made him so popular with the co-eds, that he didn't have time for quizzes or answers.

EDITORIAL COMMENT:

THANKS DUE CG SEATING COMMITTEE

The Campus Government Athletic Seating Committee which worked so hard last year and achieved so much deserves a vote of thanks from the entire student body.

Complaints have been numerous during past years especially concerning seating at sports events and the inability of wives to use athletic books their husbands had paid for.

That they will no longer be heard is directly attributable to the work of Bob Jordan, Tommy Ward, Vince Outland, and Bob Krook of last year's Campus Government.

While we are on the subject of hard working CG members we will mention the three members of the Freshmen Orientation Committee who did such a wonderful job this year. These Campus Government actives are Bob Sample, chairman of the committee, Buck Harris and Dave Barrett.

NEW PLAN FOR COLLEGE ATHLETES

The reprint on this page of a news article from the Daily Tar Heel contains several suggestions regarding athletes which rate serious consideration.

The bill which the Phi assembly debated would allow athletes to receive monetary aid from their colleges, attend school five years and take fewer courses during active seasons. It would also place them under control of an NCAA commission.

Allowing athletes to accept monetary help from their colleges would simply be a matter of recognizing a situation which already exists but is called by other names. It would allow a closer accounting of athletic costs by the public, by student bodies and by college administrations and would eliminate the confusion which now exists about the meaning of the word scholarships.

The second and third points need to be considered together since the implementing of one would make the other necessary. If student athletes were allowed to carry very light loads during their active seasons and normal loads during the rest of the year it would be necessary for them to go to school five years to get a degree which under normal circumstances would require four.

However under this arrangement they would have an opportunity to acquire an education which would be of some use to them after their four years of athletic glory were finished. Many would be able to master curriculums which under the present set-up require more time than they have to devote to them.

Since colleges are supposed to be institutions of higher learning rather than annexes to stadia or backgrounds for sports events and since this system might improve the education received by athletes it deserves serious consideration.

However, student athletes should be under the control of the administrations of their schools just as other students are since their education rather than their athletic ability is the prime consideration.

It's in the Book

Does crashing railroad warning signals mean the same as crashing red lights in town?

M. O. H. Cary

Indeed it does, the Motor Vehicle Manual says that when a railroad grade crossing is protected by a clearly visible warning signal it shall be unlawful for a driver to fail to bring his car to a stop before crossing. And railroad crossing accidents involving motor vehicles are nearly always fatal records of the Department of Motor Vehicles show.

Speeding Carries Tougher Penalties

Speeding violations in North Carolina are now subject to more stringent penalties.

A 30 day suspension of the operator's license is mandatory under provisions of a bill passed by the 1953 General Assembly in cases where drivers are convicted of exceeding the stated speed limit by more than 15 miles per hour.

This means that driving in excess of 50 miles per hour in a school bus, 70 miles per hour in a passenger car, or 60 mph in a truck would subject the driver to temporary loss of his license upon conviction.

The Department of Motor Vehicles defined a truck as "one ton or over."

Any of the speeding violations occurring together with reckless driving will call for a mandatory 60 day suspension of driving privileges. And a second offense occurring within one year of the original violation will also result in a 60 day suspension upon conviction, the commissioner added.

Scheidt requested that court clerks indicate on the suspension notice furnished by the Department of Motor Vehicles the type vehicle involved in the violation.

Shutterbug Contest Set for Oct. 25

Cash Prizes to be Awarded Winners in Four Classes Deadline on Entries Oct. 25

The second annual College Union Photography Contest will take place beginning Oct. 22nd. Any student at State College is eligible to enter a photograph or photographs.

There are four classes of pictures: Landscape, Portrait, Still Life and news events. Cash prizes will be awarded the first and second place winners in each class.

Any photograph, regardless of the date it was taken, will be eligible.

Entries must be submitted to the College Union office, room 134, 1911 building on or before Oct. 22.

The photographs will be on display for several days. Judging will take place Sunday October 25.

Discussion Group To Meet Oct. 13

The Student Discussion Group, which was so popular with those who attended last year, will hold its opening meeting this coming Tuesday, October 13, at 8 p.m., in Peele Hall lounge.

The speaker for the evening will be Mr. Henry Rosenberg of the English Department, who will hold forth on the question: "Which is Sick: Contemporary Society or Contemporary Art."

The practice of the Group is to restrict the speaker to a fifteen or twenty minute introduction of the problem so that most of the time can be devoted to a general discussion based on questions and comments from the audience.

Last year some of the topics discussed were "Modern Art," "The Theory of Communism," and "What

Research Contracts Here Total \$66,000

Research contracts, totaling \$66,406.36, have been renewed in the School of Engineering at North Carolina State College.

This announcement came Monday from Prof. N. W. Conner, head of the college's Department of Engineering Research, who said the research work is financed by agencies of the U. S. government and private industry.

The projects are underway in the various branches of engineering under the overall direction of the Department of Engineering Research. The renewals were made on a one-year contract basis.

Three of the renewed contracts involve projects in the Chemical Engineering Department.

A project, entitled "Liquid-liquid Extraction," has been renewed by the Atomic Energy Commission. This study was begun in 1951 and is designed "to improve liquid-liquid extraction processes by bettering the rate of extraction through the application of controlled agitation," College scientists said. Dr. F. P. Pike, professor of chemical engineering, is technical director of the project. Dr. G. E. P. Box, a visiting professor in the Institute of Statistics at State College, is a statistical consultant.

The AEC has also renewed its project contract for the study of the "Method for Measuring Thermal Properties of Poor Conductors." This work, which was started

in 1951, is under the technical direction of Dr. K. O. Beatty, Jr., professor of chemical engineering. The contract is for the development of a new type of thermal property measurement apparatus.

Wright Air Development Center has indicated an intention to renew its contract for a second year for the "Investigation of a Radioactive Tracer Technique in a Study of Wall-Adjacent Velocities in a Flowing Fluid." This project is also under the technical direction of Dr. Beatty. The study involves an entirely new radiotracer technique for measuring velocity distribution in flowing fluids.

The National Institute of Health has given the go ahead signal for a second year's work of a project in the Civil Engineering Department. Its a study on the "Mechanism of Absorption by Activated Sludge," a basic research inquiry. Charles E. Smallwood, associate professor of sanitary engineering, is the technical director.

"The Evaluation of Domestic Heating Fuels" is the subject of a research study, which was begun at State College in 1946, and has been extended for another year by the Texas Company. Dr. W. W. Austin, associate professor of mechanical engineering, is technical director of this project that compares and evaluates Texas Company heating fuels used in household consumption.

Alumni, Friends Donate \$16,500

Members of all Classes '93-'53 From 38 States Contribute to 52-53 Fund

A group of 2,033 alumni and friends of North Carolina State College contributed \$16,416.78 to the 1952-53 Alumni Fund.

This was reported by Frank B. Turner of Raleigh, president of the Alumni Association, and Guy F. Lane of Ramseur, Chairman of the Alumni Fund Committee.

Chairman Lane reported that the average contribution amounted to \$8.02 and that donations came from throughout North Carolina, from 36 other states and the District of Columbia, and from 13 alumni now living in foreign countries.

The 1952-53 period is the first year that the State College Alumni Association has operated on an annual giving plan. Previously, the association assessed dues, which amounted to \$5.00 per member during the past few years.

Members of all classes from 1893 to 1953 contributed to the Alumni Fund.

In a letter to alumni, Chairman Lane commented, "Our college has entered upon its greatest period of service, but it can be even greater tomorrow with the participation of more alumni in the activities of the Alumni Fund and the Alumni Association."

CUTTING THE RED TAPE

The job applicant, struggling with the complicated form, came to the line "In case of accident notify—"

Without a moment's hesitation the applicant wrote: "Anybody in sight."

We Know about the Planets." This year the students will again cooperate in selecting the topics, and anything from religion and ethics to science and politics is open to them.

Everyone interested in testing his opinions and increasing his knowledge in matters of general interest is cordially invited to attend.

Pershing Rifles Are Select Group

Precision Drill Team Made Up of Top ROTC Sophomores to Perform at Game

The group of marching riflemen that you will see performing at half time of the State-Davidson football game next Saturday night is State College's bid for a precision drill team second to none.

Since the beginning of the Pershing Rifles in our school last year, a great deal of work has been done to plan, practice, and perform this exhibition and others that you will see during the year.

The active members of the Pershing Rifles unit are the outstanding sophomores in the Army ROTC Corps. These members were selected on the basis of character, military bearing, integrity, scholarship, and an outstanding ability to drill.

Each member of this unit must be a leader because each member must commend himself and depend upon his own commands in order to operate in these precision movements. Therefore, not only do these students learn to drill as a precision team, but they are preparing themselves to be better leaders in the advanced Army ROTC program by gaining an earlier knowledge of coordinated drill.

Cadet members of the Pershing Rifles wear a blue and white four-groger to signify membership in the organization. It is a symbol of honor, pride, and leadership.

Sports Deal At State Best Yet

Wives Can Now Use Husbands Athletic Book, Better Seats Available to Students

The athletic policy this year on football and basketball seating is the best in many years.

For the first time wives may use their student husband's athletic books.

In addition any student may purchase one date ticket at half price.

These concessions resulted from the hard work of the Campus Government Athletic Seating Committee. This committee, headed by Bob Jordan and including Bob Krook and Bob Sample worked all last year to get a better deal for the student body regarding seating at the home games. They were ably assisted by Bobby Ward and Vincent Outland, president of CG last year.

As a result of their work there will be no reserved seats at any home football games and the student section will straddle the 50 yard line, an unprecedented situation in college football circles. Seats are obtained on a first come, first served basis and none may be saved.

Ten home basketball games will also be on a no reserved seat basis while six do require tickets and have reserved seats.

The long standing complaint of married students that their wives could not use their athletic books even though they were home studying will no longer be heard.

Athletes Subject of Carolina Phi Debate

COLLEGE SPORTS Reprinted from The Daily Tar Heel By John Bijur

Last night the Phi Assembly debated a bill which would enable athletes to not only compete in sports, but obtain an education as well.

The bill had four articles. The first was that all athletes be allowed to receive monetary aid from their college. Secondly, that they be allowed to spend five years in college. Thirdly, that they take fewer courses during their active seasons; and finally all such athletes be under the strict control of a commission set up by the NCAA.

The proponents of the bill asserted the world is entering into a new society in which specialization plays an important part. Football players should be considered as a law student—a specialist in his own field.

The opponents declared that the university's first objective is the improvement of the mind and then that of the body. Athletics should thus form man's mind, not his body.

"Education makes a people easy to lead but difficult to drive; easy to govern but impossible to enslave." —LORD BROUGHAM

Engineering Faculty Increases By Eight

Announcement of eight new additions to the faculty of the School of Engineering at North Carolina State College was made recently by Dr. J. H. Lampe, dean of engineering at the college.

The new staff members, all of whom have assumed their duties, are R. A. McAllister, assistant professor of chemical engineering; W. H. Ailor, Jr., special lecturer in diesel engineering; C. N. Anderson, instructor in mathematics; J. N. Bond, instructor in mathematics.

M. R. Damron, Jr., instructor in mechanical engineering; J. H. Barrett, assistant professor of physics; W. D. Whitehead, Jr., assistant professor of physics; and F. R. Crownfield, Jr., instructor in physics.

Four of the new appointees—McAllister, Damron, Ailor, and Anderson—are alumni of State College.

The appointments have been approved by President Gordon Gray of the Consolidated University of North Carolina, Chancellor Carey H. Bostian of State College, and the executive committee of the board of trustees.

Dr. McAllister has spent four years as research engineer with the Engineering Experiment Station at Georgia Tech. He received his bachelor of chemical engineering degree from North Carolina State College, his master of science degree from the University of Wisconsin, and his Ph. D. degree from Georgia Tech. He is the author of a number of reports dealing with research for the Chemical Warfare Corps, U. S. Army, and the U. S. Navy Bureau of Ships. He is a member of the American Institute of Chemical Engineers.

Ailor received his B.S. degree from the University of Tampa, Fla., and his bachelor's degree in chemical engineering from North Carolina State College. He has been active duty with the U. S. Navy. He has also been a chemist for the Atlantic Coastline Railroad Company. He is a member of the American Institute of Chemical Engineers, U. S. Naval Institute, and American Society of Spectroscopy.

Anderson received his bachelor's degree in electrical engineering and his master's degree in engineering mathematics from North Carolina State College. He has been a teaching fellow at State College and an instructor at the Martin Branch, University of Tennessee, where he was a member of the Tennessee State Teachers Association.

A graduate of Virginia Poly-

CU Movie Sunday In Textile Auditorium

In "Mr. Smith Goes to Washington," this Sunday's College Union movie, James Stewart plays the part of a crusading Western Senator. Stewart, his head crammed more with American ideals than experience, is the youthful organizer of his state's Boy Rangers.

To proud Jeff Smith, as he is called in the movie, the capital dome is a blazing symbol of democracy and Paine, his state's senior senator is its white-haired prophet.

The story typifies the hustle and bustle of political life in Washington and presents interesting character studies of such wily individuals as Thomas Mitchell, Harry Casey and Edward Arnold. The film is climaxed by an exasperating twenty-three hour filibuster by young Jeff.

All in all the movie promises an enjoyable evening's entertainment. The movie will be shown at 8:15 in the Textile Auditorium. Admission is free, all you need is your registration card, dates free.

technic Institute, Bond received his M. A. degree at Wake Forest College. He has had teaching experience at the Virginia Episcopal School, Lynchburg, Va., St. Christopher School, Richmond, Va., North Carolina State College, and Wake Forest College. He is a member of Pi Nu Epsilon, national honorary fraternity.

Damron received his bachelor's degree in civil engineering at State College and served with the U. S. Corps of Engineers in Korea for two years. He is a member of Theta Tau, Phi Kappa Phi, and Chi Epsilon fraternities.

Dr. Barrett received his B. S., M. A., and Ph. D. degrees in physics from Rice Institute, Houston, Texas. He has also had a post-doctoral fellowship to M. I. T. He has served with the U. S. Navy, has been employed by Sun Oil Company and has been a student at Los Alamos Laboratory in New Mexico. He is a member of the American Physical Society.

Dr. Whitehead received his B. S. degree in chemistry, and his M. S. and Ph. D. degrees in physics from the University of Virginia. He has been a research assistant at the University of Virginia and a physicist at the Bristol Research Foundation. He is a member of the American Physical Society and Sigma Xi.

Dr. Crownfield received his A.B. degree in physics from Harvard and his M. S. and Ph. D. degrees from Lehigh University. He has been a physical scientist with the National Bureau of Standards and has taught at Lehigh and the University of Akron at Akron, Ohio. He is a member of the American Physical Society and Sigma Xi.

Cash income from tobacco exceeds that from all other commodities combined produced in the State of North Carolina.

Swimming Pool Filled With Pullen Water

The swimming pool in the basement of Frank Thompson Gymnasium was finally filled last Friday after several weeks of being empty.

Mr. Paul H. Derr, head of the Physical Education Department, at an interview Friday afternoon, said that after negotiating with the Pullen Park Board and the City Council about the water in Pullen Park Pool the Park Board and City Council agreed to let State College have the water.

The water was tested by a Raleigh health officer and also by Dr. Combs, the college physician, to see if it was okay to be used in the State College pool. Both physicians okayed the water.

When Mr. Deer found that he could use the water he went to the School of Agriculture to see if he could use one of the irrigation pumps and enough pipe to get the water up to the pool. He was granted permission to use the pump and pipe and also offered any help he could use.

Mr. Derr took his staff out to the farm and loaded the pipe on a truck. Then they came back and spread the pipe from the Pullen Park Pool to the rear of the gym. The pipeline was spread between one-fourth and one-half mile.

Efforts had been made earlier to secure water for the pool, but none had come through until someone discovered the water in Pullen Park pool. The City Council once refused water for the pool, but they allowed several hundred thousand gallons for lawn watering in the city.

Mr. Derr said it was very urgent to get the water in the pool because there are seven hours of instruction scheduled each day. He expressed his gratitude to everyone who helped in any way to fill the pool.

Classes were scheduled to start on Monday, October 5.

Brown Is Author of Industrial Booklet

Prof. T. C. Brown of the School of Engineering at State College is the author of a new publication issued by the college's Department of Engineering Research.

A broad range of weather information, having direct application to the State's industrial development, is recorded in the bulletin. The publication is illustrated with maps and tables, each containing significant data.

"The data included in this bulletin," Professor Brown said, "should be useful to everyone interested in heating, air-conditioning, building, construction, contracting, and especially architects, engineers, manufacturers and purchasers who may be concerned with the design, installation, maintenance or scale of heating and air-conditioning equip-

ment within the State of North Carolina.

"The air-conditioning industry has made great strides and has experienced a rapid growth during recent years. Some of the installations of heating plants and air-conditioning units have been based upon 'guess work,' and 'rule or thumb' methods. This bulletin is offered as a guide to help improve this situation."

Copies of the bulletin may be obtained by writing to the Department of Engineering Research, North Carolina State College, Raleigh. There is a charge of 50 cents per copy to cover the printing costs.

Through The Keyhole

LEONARD A. BINDER Sports Editor

Many people who only have a casual interest in baseball are nevertheless amazed at the uncanny success of the New York Yankees. The men of Casey Stengel have just completed capturing their fifth straight pennant; a feat which has never been accomplished in all baseball history.

The winning of these five straight pennants is not the whole story of the manner in which the Yankees have dominated their league since 1920. Since the signing of a young Boston Red Sox pitcher by the name of Babe Ruth, the Yanks have been virtually unbeatable. During the twenties, the so called "murderous row" of the New Yorkers struck fear into the hearts of the opposition. However, as the years progressed new players came onto the scene; but the story was always the same. The Yanks kept on winning pennant after pennant.

In the late thirties a youth of Italian extraction named Joseph Di Maggio came into Yankee Stadium from the Pacific Coast League. He told the manager that he was a centerfielder and except for the war years Joe never budged from that position. He led the Yanks to seven pennants during the forties, and once again the cry of "break up the Yanks" was resounding throughout the American League.

With the subsequent retirement of Di Maggio it was thought that the invincible spell that the Yanks cast over their opposition would finally cease. However players such as Mickey Mantle, Larry Berra, Phil Rizzuto, and Allie Reynolds, just to mention a few, have continued to cast the same spell over their opponents that the Babe and Joe Di Maggio did.

A lot of so-called baseball experts attribute the unparalleled success of the New York club to Lady Luck. This, of course, is ridiculous. The Yanks have won five straight worlds championships. It is a human impossibility for any team to have gotten all the breaks for such an extended length of time. The only intelligent conclusion that one can arrive at is that they make the breaks. This is accomplished by putting the pressure on their opposition by making their opponents make mistakes which they would not ordinarily do. This domination of all the other clubs in the circuit by the New Yorkers had led to a lessening of interest in the national pastime by some of the fans outside of the Eastern part of the country.

However, it is up to the rest of the clubs in the American League to put an end to the Yankee domination of the game. From this corner it looks as if the owners had better get to work fast or else people will begin to get the impression that the Yanks are the only team in the American League.

"Will you please tell me," asked the inquisitive rooster, "what you are doing in the basement?"

"If it's any of your business," replied the hen coldly, "I'm laying in a supply of coal."

Wolfpack Gridder Line Standout

TACKLE KEN URGOVITCH
N. C. State

Duke and Maryland Lead New Atlantic Conference Loop

Maryland, Duke, and the University of North Carolina are on top of the heap in the Atlantic Coast Conference after last week's games. In conference play the Blue Devils lead with a pair of victories, while the Terrapins and the Tar Heels have one win apiece. The remaining teams, including the Wolfpack of N. C. State, have each lost a single game.

Duke topped Tennessee at Knoxville by a 21 to 7 count, on three scores in the second quarter. UNC took advantage of five Washington and Lee fumbles and ran up the lopsided score of 39 to 0. Maryland, in the lone conference game this week trounced Clemson 20 to 0. The Cavaliers of Virginia were held scoreless for the first time in 63 games by a surprisingly strong South Carolina team and dropped a 19 to 0 decision. Wake Forest also defeated a strong Villanova ball club. The score in that game was 18 to 12. The State College Wolfpack dropped a heartbreaker to George Washington 20 to 7, in a close hard-fought game.

Next Saturday's games again include only one conference encounter. This is the battle between UNC and the Deacons of Wake Forest. In a major intersectional tilts, Duke meets a strong Big Ten outfit in Purdue, and Jim Tatum's Terrapin powerhouse runs into a Georgia team smarting from a two point loss to the Texas Aggies last week. Davidson meets N. C. State in the home opener for State, Clemson travels to Miami, Fla. and Furman opposes South Carolina.

With a bowl agreement pending between the Atlantic Coast Conference and the strong Big Seven association, the conference champion-

ship will be a mighty big plum for one of the schools to pluck. In preseason predictions both Maryland and Duke were rated among the top twenty teams in the nation. Both have lived up to their forecasted strength. But, these two teams do not meet this season and so perhaps this year there will be no mythical champion of the ACC. Maryland rated third in the polls last week and Duke was tenth. Perhaps this is not a proper indication of the relative strength of the two teams but as of the moment it is the only way to distinguish the better of the two powerful squads.

Any one or all of the ACC schools are capable of becoming a giant killer, including the Wolfpack of State College. This young season has already turned in its share of spectacular upsets and there is no reason that there should not be a couple in the Atlantic Coast Conference. Let's look for the North Carolina State team to pull the upset of the year and topple the highly rated Duke Blue Devils on Saturday, October 24th in Durham.

Pigskin Preview

By Len Binder

- Duke over Purdue
- Texas over Oklahoma
- State over Davidson
- Penn. over California
- Florida over Furman
- Wake Forest over Carolina
- Maryland over Georgia
- Clemson over South Carolina
- Army over Dartmouth

Frats Start Sports; PKA Bests PYP in First Grid Scrap

P.K.A. TROUNCES P.K.P.

Pi Kappa Alpha started the season off right by beating Pi Kappa Phi 34 to 0. The Pikas jumped to a thirteen point advantage at the first quarter and they continued to roll up the score throughout the game. Tom Lasitter put on a one man show in the offensive column of the game. He scored two touchdowns, passed for the other three, and passed for two of the extra points after touchdowns. On the defensive side R. A. Jones was a P.K.A. standout. The men that saw action during the game were:

P.K.A.	P.K.P.
M. Lasitter back	Anderson back
T. Lasitter back	Avent back
Crosby back	Alexander back
Kennedy back	Dixon back
Smith back	Anthony back
McAlister back	Barnette end
Betts back	Goldner end
Alford end	Jenkins end
Weisiger end	Doby line
Perry line	MacDaniel line
Jones line	Williams line
Elliot line	
Hargett line	

There were several other games scheduled during the week but due to rushing and other difficulties this was the only game able to be played.

All the fraternities are urged to get their player on the eligibility list in sports by next week.

- Minnesota over Northwestern
- Ohio State over Illinois
- Navy over Cornell
- Georgia over Tulane
- Mississippi over Vanderbilt
- Mississippi State over Auburn
- Kansas State over Iowa State
- S.M.U. over Missouri

State Opens Home Season Tomorrow

Wolfpack Opposes Davidson Both Clubs Seeking First Win in Grid Competition

Davidson and N. C. State will both be seeking their first victories of the current gridiron campaign when the two teams clash at 8 p.m. Saturday night in Riddick Stadium.

The Wildcats bowed before Georgia Tech, 57-0 and Richmond 16-0 in their first two starts, while State dropped its opener, 29-7 to the University of North Carolina and were beaten, 20-7 by George Washington's Colonials on last Saturday.

Despite their two defeats, most observers credit Coach Horace Hendrickson's Wolfpack as an improved team this season. In two games they've run up nearly 500 offensive yards and held the first down edge over both Carolina and George Washington.

Quarterback Eddie West, who went the full 60 minutes against George Washington, is speedily becoming an outstanding passer and runner. He connected on 12 of 26 pitches against the Colonials for 189-yards and engineered the State ground offense that piled up another 100-yards. West will again be at the helm of State's split-T attack against Davidson and is a cinch to be a thorn in the side of the Wildcats.

Davidson will have a 26-letterman squad to toss against State with an all-veteran backfield headed by Halfbacks Jimmy Thacker and Harley Smith. The other probable starters are LeRoy Fargason at fullback and Johnny Gray at quarterback.

State likely will be without the services of two regular ends, Paul Smith and Co-Captain John Thompson for the Davidson game. Both men were injured two weeks ago against Carolina. Smith with a kidney concussion and Thompson with a dislocated elbow. Neither man is scheduled to return to action until Oct. 17 against Wake Forest. Halfback John Zubaty, who missed the George Washington game, because of chronic headaches, may also be out of the Davidson encounter.

Although State may rule as a slight favorite over Davidson, this year's game, the 45th in the series, may be one of the closest in the history of the long rivalry. Davidson has the edge in experience with 26 lettermen to State's 14 and the Wildcats had an open date in their schedule last week and are expected to be near full strength for their battle with the Wolfpack.

Kickoff time is 8 p.m. in Riddick Stadium with the Raleigh Merchants Bureau observing "Booster's Night" for the contest.

THE Dorm Corner

Dormitory football made its debut last week with six teams battling away on Doak Field. The first football games were all well represented by members of the dormitories and this attendance is necessary in every dorm intramural athletic event.

Mr. J. F. Miller, Intramural Sports Director, announced that he was well pleased with the large attendance at the football games, but was disappointed at the lack of players at the start of the tennis program this week. He said he hoped the athletic directors of each dorm could improve this situation by appointing a tennis manager for their dorm to assist them in this sport.

The football games were dominated by high scoring and long runs. Alexander Dorm won its first game with Verville, 6-0, by virtue of a pass play from McGalliard to Hawkins. The pass covered about thirty yards and was raced over for the score by Hawkins from the Verville 20-yard line.

States Home Opener Against Davidson

Becton No. 1-35 Tucker No. 2-6 Doug "Choo Choo" Whitley turned the Becton No. 1 and Tucker No. 2 game into a lopsided 35-6 game, as he scored three touchdowns for the Becton lads. S. Robinson also was "on fire" for Becton with his three touchdowns passes and was aided by two scores by "Monk" Gardner.

Syme No. 2-22 Turlington No. 1-0 Syme No. 2 showed some surprise power and outstanding scoring ability in their game by "white-washing" the Turlington No. 1 boys 22-0. Wheat was the backbone of the Syme offensive attack with his amazing scoring maneuvers.

In 1942 North Carolina had 842 fatalities and 3,790 injuries resulting from accidents on streets and highways, whereas in 1952 there were 1,115 deaths and 15,409 injuries. Pedestrian victims in the fatal accident category in 1942 numbered 205, as compared to 248 in 1952.

The Davidson team which will engage the Wolfpack at Riddick Stadium Saturday night has high hopes of emerging from the football doldrums. Most of this enthusiasm stems from the fact that the Wildcats are coached by William Dole.

When this gentleman took over the football reigns of the toothless Wildcats last year, not much hope was accorded the chances of the team. The 1952 team only won two games, but when one realizes that this was done with a squad of only thirty-three men of which the majority were freshmen even the most critical adherents of the Wildcats had to admit that the season was at least a partial success.

Coach Dole is a graduate of the University of West Virginia. His athletic career at that particular institution was hampered by an injury, but this did not stop him from receiving his degree in 1932.

As head coach Bill Dole moves into his second year of rebuilding at Davidson. The soft-spoken mentor finds to his delight that he has twenty-six returning veterans on hand plus a couple of returning service men who should bolster their attack in this season of one platoon football.

Since both teams are looking for

their initial wins of the season, the contest should be an exciting one from start to finish. The game is at State so everybody should be on hand to cheer on the fighting Wolfpack in their home opener against the Davidson Wildcats.

Frosh Hoop Tryouts

All freshman students here at State College who are interested in having a tryout for the freshman basketball team, should be sure to contact Vic Bubas, freshman coach, in room 120 of the William Neal Reynolds Coliseum. Applications must be filled by Oct. 15. Tryouts will begin November 1.

TWICE AS MANY AWARDS THIS YEAR

MAKE \$25!

WRITE A LUCKY STRIKE JINGLE based on the fact that LUCKIES TASTE BETTER!*

From well-known towns to parts unknown,
 Most any place you go —
 It's Lucky Strike for better taste
 With people in the know!

Easiest \$25 you ever made. Sit right down and write a 4-line jingle based on the fact that *Luckies taste better*. That's all there is to it. More awards than ever before!

My meals, folks say, are flavorful —
 They're seasoned perfectly.
 For better taste, it's Luckies, though,
 That win the cheers — not me!

Read the jingles on this page. Write original ones just like them—or better! Write as many as you want. There's no limit to the number of awards you can receive. If we pick one of your jingles, we'll pay you \$25 for the right to use it, together with your name, in Lucky Strike advertising.

Remember: Read all the rules and tips carefully. To be on the safe side, clip them out and keep them handy. Act now. Get started today.

RULES

1. Write your Lucky Strike jingle on a plain piece of paper or post card and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N.Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on any qualities of Luckies. "Luckies taste better," is only one. (See "Tips.")
3. Every student of any college, university or post-graduate school may submit jingles.
4. You may submit as many jingles as you like. Remember, you are eligible to receive more than one \$25 award.

***TIPS**

To earn an award you are *not* limited to "Luckies taste better." Use any other sales points on Lucky Strike, such as the following:
 L.S./M.F.T.
 Lucky Strike Means Fine Tobacco
 Luckies taste cleaner, fresher, smoother
 So round, so firm, so fully packed
 So free and easy on the draw
 Be Happy—Go Lucky
 Buy Luckies by the carton
 Luckies give you deep-down smoking enjoyment

COPR., THE AMERICAN TOBACCO COMPANY

YMCA Sponsors United Nations Week

The week of October 18-24 is celebrated annually throughout the United States as United Nations Week. The past three years North Carolina State College has had a part in the annual celebration, usually an address at a dinner meeting of student leaders and an assembly in Pullen Hall.

This year the Y.M.C.A. is sponsoring a luncheon meeting at 12:45 p.m. on Sunday, October 18th, in the westside of the College Cafeteria, with Col. Francis Pickens Miller of Charlottesville, Virginia as the feature speaker. Invitations are being extended to the students and faculties of Peace, St. Mary's, Meredith and N. C. State to attend; also to interested Raleigh citizens. Reservations must be made by noon of the 17th, and the price is one dollar.

This project comes under the direction of the Y.M.C.A. Committee on Nation and World, of which Newell Joe Saltz, Jr. is chairman. The committee consider themselves fortunate in securing Col. Miller as the speaker for the occasion. On the 18th of last April he was on campus and spoke at a faculty luncheon on "Can We Save Our Freedom" and at a student dinner meeting on "Leadership."

The Y.M.C.A. cordially invites students, faculty, staff, Raleigh citizens, both men and women to attend this United Nations luncheon. Make reservations by calling telephone 7184 or 4-5211, extension 202.

YMCA Appoints Staff Member

Dr. Harold P. Hamilton of Durham has been appointed assistant secretary of the North Carolina State College Y.M.C.A., replacing the Rev. E. W. Rogers, who resigned.

The appointment of Dr. Hamilton was announced last week by Edward E. King, general secretary of the College Y.M.C.A., who said the Rev. Mr. Rogers resigned to accept a pastorate appointment with the North Carolina Conference of the Methodist Church.

A native of High Point, Dr. Hamilton attended Henderson and Wiley Schools in Salisbury and was graduated in 1941 from the Boyden High School in Salisbury.

During World War II, he served with the 84th Infantry Division of the U. S. Army, and saw action in the European Theatre of operations.

Dr. Hamilton began his undergraduate studies at Lehigh University in 1943, and received the A.B. degree from High Point College in June, 1947. He entered Duke University's Divinity School the same year, and was awarded the B.D. degree in 1950.

This past June, Dr. Hamilton completed all requirements for the Ph.D. degree in the Graduate School of Arts and Sciences at Duke University. He is presently residing at 2306 Erwin Road, Durham.

The new staff member is married to the former Agnes Kametz of Bethlehem, Pa., and they have one daughter, Dawn Elizabeth, 7.

Business of A.I. Club Aired at First Meeting

The Animal Industry Club had a large turnout for its first meeting of this year on Thursday, October 1.

President Don Taylor presided over the meeting. Jimmy Sweet read the minutes of the last meeting.

The main business for the evening was the election of circulation manager of the "Meat and Milk," and the election of an activity chairman. Tom McDaniel and Henry

Fleming respectively were elected to the two offices.

There was some discussion on getting the "show cows" fitted for the State Fair. Henry Ramsetr reported that the A.I. Club would not have the "Dairy Bar" at the State Fair this year.

The officers of the A.I. Club for the fall term are:

- President Don Taylor
- Vice-President Richard Harris
- Secretary Jimmy Sweet
- Treasurer Bill Sparrow
- Reporter Archie Faires
- Historian David Sartin

Ag Club Held Regular Meeting Tues. Night..

The Ag Club held its regular meeting Tuesday night at 7:00 p.m. in 118 Withers Hall. A large

crowd was present for the business and a very interesting and educational program by Dr. Allison.

Dr. Allison's program was on his trip to Iraq. He described many of their customs and problems in Agriculture. He showed a collection of slides to illustrate his talk.

The budget for the 1953-54 school year was approved by the club.

November 6 with November 13 as an alternate date was selected for the Fall term social. The social is to be held in the Arena at the fair grounds.

All students in Animal Industry are cordially invited to attend our next meeting on October 15th, at 7:00 p.m. in 110 Polk.

Activities Chairman Henry Fleming Custodian Hubert Cartner Fair Booth Chairman Gerald Yount Faculty Advisor Dr. R. B. Redfern

Union Variety Show The College Union Theater Committee will present its annual Student Variety Show on November 20 in Pullen Hall.

Fraternalities, dormitory groups, and other student organizations will take part in the show as they have done in the past several years.

All those groups that wish to participate should sign up at the C. U. office as soon as possible. Any kind of skit or short play will be acceptable.

As many groups as possible can participate. There is no limit.

SMOKERS BY THE THOUSANDS NOW CHANGING TO CHESTERFIELD the ONLY cigarette ever to give you...

1
PROOF
of **LOW NICOTINE**
HIGHEST QUALITY

The country's six leading cigarette brands were analyzed—chemically—and Chesterfield was found **low in nicotine—highest in quality.**

2
A PROVEN RECORD
with smokers

Again and again, over a full year and a half a group of Chesterfield smokers have been given thorough medical examinations . . . the doctor's reports are a matter of record. "No adverse effects to the nose, throat and sinuses from smoking Chesterfields." A responsible independent research laboratory supervises this continuing program.

CHESTERFIELD BEST FOR YOU
