CG Grants Funds To 8 Campus Groups

By Bill Brehm

The Campus Government meeting was opened this week with Harry Yarbrough's calling the roll and President Billy Oliver presiding. Billy then announced that Chancellor Bostian has asked the Campus Government to send a representative to the Faculty Council meetings.

Chancellor Bostian then spoke to the Council. He stated that he is trying to bring the students and the faculty closer together. He said that he will back the Campus Government with his full support. He then distributed the membership certificates to the members of the Campus Government.

Mr. King of the Y.M.C.A. then spoke to the Council. He asked the Council to attend the Y.M.C.A. dinner, which will be given next Sunday, October 18 at 12:45, to hear Col. Francis Miller speak.

The Student Activity Fees were then discussed.

The Student Union was allotted \$101.13
The Blue Key was allotted 500.00
The Golden Chain was allotted 300.00
The Inter-Dormitory Council was allotted 1,350.00
The Y.M.C.A. asked for \$500.00 to publish the Student Directory. The money was granted. The Band asked for \$800.00, stating that this money is needed for uniforms and

music. The money was allocated. Operation Spirit presented its request for \$200.00. With this money the Committee hopes to continue its program for raising campus spirit. Billy Oliver then asked for \$500.00 to be given to the Honor Council for operating expenses. After much discussion the money was appropriated.

The next Campus Government meeting will be held next Tuesday. At this time the Campus Government budget will be presented and voted upon.

At the sound of the bell, the meeting was adjourned.

College Union Events

OCTOBER 16-23

Sunday Oct. 18

3:00 P.M. Record Concert.
Peele Hall Lounge.
8:15 P.M. Movie: "Arsenic and Old Lace" with Cary Grant.

Wednesday Oct. 21

7:00 P.M. Bridge Lessons.
Field House.
7:30 P.M. Chess Tournament.

Thursday Oct. 22

Deadline for Photography Contest entries.

Friday Oct. 23

7:00-10:00 P.M. Dance Lessons.
Frank Thompson Gym.
8:00 P.M. Dr. Franz Polgar, Hypnotist. Dates free with College Union members.

Poor Ticket Sales Change Ball Plans

New Society to Receive Charter

Society of American Military Engineers Will Get Under Way at Chez Gourmet Oct. 20

The North Carolina State College Student Chapter of the Society of American Military Engineers will receive their charter at a meeting to be held on October 20, at 6:30 p.m.

The meeting is to be held at the Chez Gourmet, and Mr. Burton J. Bell, National Vice-President of the Society of American Engineers, will present the charter.

Among the invited guests who will attend are Colonel Raymond L. Hill, District Engineer-Wilmington, Chancellor Carey H. Bostian, Dean J. H. Lampe, and Colonel Richard R. Middlebrooks, PMS&T.

Membership in the student chapter is open to all students who are

taking ROTC, or who are pursuing a course of instruction leading to an engineering degree. Membership costs \$2.50 per year which includes a year's subscription to the Military Engineer, the magazine of the National Society.

Union Variety Show Only One Month Off

The College Union Theatre Committee will present its annual Student Variety Show on November 20.

As in past years, fraternities, dormitory groups, and all student organizations are urged to participate.

Sign up in the College Union Office at your earliest convenience. Remember, any skit, short play, combo, quartet, or the like is acceptable. Don't get left! The sooner you sign up, the better.

Chess Tournament Set for October 21

The College Union Games Committee will sponsor a campus wide Chess Tournament Wednesday, October 21 at 7:30 P.M. in the Y.M.C.A.

All students interested in entering the tournament are requested to be at the Y.M.C.A. at 7:20. Pairings will be made at this time. No entries will be accepted later than 7:30.

Prizes will be awarded to the winner and runner-up. This is a great opportunity to test your chess playing ability so come out and join in the fun.

Ag Club Host to Dancing Girls

A large crowd turned out Tuesday night at 7:00 p.m. to the Ag Club meeting held in the YMCA auditorium. We give credit to the good looking girls in the program for the large turn out.

Girls along with some boys from the United Arts Institute gave a program of dancing and singing. The girls danced to the taste of State College students.

The Forestry Club has challenged the Ag Club to a touch football game. This challenge has been called and a team is being organized to beat the Foresters.

Johnny Beck announced that the Dairy Judging team took fourth place in the mid-south contest at Memphis, Tenn. Out of 33 teams they placed 18th in the national intercollegiate Dairy Judging contest.

Drawing Equip. Lost

One Engineering Drawing book and one metal kit containing drawing equipment has been lost. Would the finder please contact John J. Hamm, Jr., at No. 11, Y.M.C.A.

Pep Rally Tonight At 7 in Quadrangle

The "Operation Spirit" committee of the Campus Government will hold a pep rally tonight at 7:00 p.m. in the Becton, Berry, Bagwell quadrangle.

The spirit committee, under the chairmanship of Bob Jordan is expanding both its staff and operations at the present time.

The staff size is being increased by bringing in a representative from each floor of each dorm and from each fraternity.

The committee has many plans for events and gimmicks aimed at arousing school spirit at State.

They are hoping to have a big crowd at the rally tonight which precedes the IDC dance beginning at eight in the Coliseum.

Enrollment Figure Released by Mayer

The total enrollment at North Carolina State College during the fall term stands at 4,057 students, Registrar W. L. Mayer reported today.

This year's enrollment is 123 more than last fall's figure. There are 52 women and 4,005 men enrolled at the college this term. Veterans of the Korean conflict number 437 as compared with 139 last fall.

(Continued on page 4)

The Inter-Dormitory Council will hold its annual IDC Ball tonight in the Frank Thompson Gym at 8:00. The dance was moved to the gym because of the slack ticket sale. Semi-formal dress will be the attire for this occasion. The sponsors for the Ball are: (center picture) Jean Christianson of Columbus, Ohio—escort-Jack McDade from Chapel Hill; (top row; left to right) Mary Stone of Shelby—escort-Edie Criner from Winston-Salem; Carolyn Winterling of Charlotte—escort-Al Parker from Charlotte; Zelda Stansburg of Raleigh—escort-Roany Thomas from Altavista, Va.; Rae Wilson of Raleigh—escort-Jack Alston from Concord; (left center) Kay Ryals of Benson—escort-Lloyd Cheek from Gibsonville; (right center) LaVerne Crumpler of Clinton—escort-Bert Weeks from Clinton; (bottom row) Kathleen Mathews of Raleigh—escort-George Lourigan from Kenosha, Wis.; Nancy Barger of Kannapolis—escort-Jerry Armstrong from Kannapolis; and Selvia Harnick of Carteret, N. J.—escort-Herb Kaplan from Carteret, N. J.

Famous Hypnotist Polgar to Present Show in Pullen on October 23 at 8 p.m.

No greater confidence in his own ability could be demonstrated than the recent offer by Dr. Franz Polgar to an audience at the Detroit Town Hall Forum. "Hide my check for giving this performance," Dr. Polgar told the startled gathering. "Go ahead—hide it. I'll go outside and anyone who wishes may accompany me. If I can't find the check when I come back, you can keep it and tonight is all for fun."

They hid the check under the hat of a woman seated in the center of the vast throng in the hall. Polgar simply asked for a volunteer known to the audience to give him mental directions. Then he hurried down the aisle, arrived at the woman and her hat—never having seen either before in his life—and produced the check. It took him about four minutes to complete the job of locating one woman in 2,000 to find his pay for the evening.

Dr. Polgar will present a two-hour show at Pullen Hall on Friday Oct. 23 at 8:00 p.m., under the sponsorship of the College Union Theater Committee. Polgar's "Miracles of the Mind" have been a treat to all kinds of audiences throughout the world—students, professors, adults and children alike. Without doubt, this is one of the greatest of all audience participation shows.

Usually Polgar's program is divided into three major parts: telepathy, memory feats and hypnosis—the latter being the most important part of the show. It is during this portion that Polgar uses volunteers to demonstrate some basic facts on the subject of hypnosis. His feats of memory are no less astounding. "No person is born with an exceptional memory; most people are just too lazy to exercise their memory powers," says Polgar. Ladies spend hours

on end at the hairdresser's; people enjoy all forms of physical culture, development of the body, just as well. "Why not," Polgar argues, "devote some time to developing our mental powers?"

Polgar can meet a hundred people all at once and know and remember and associate all names with their respective owners thereafter. Discipline and training, he'll tell you, made the difference between remembering and not remembering. At a recent convention, he memorized the names of over 200 people together with all their room numbers. "Just tell me your name and I'll tell you your room number—or the other way around, if you will." He made good his challenge innumerable times. Then someone called out Room 128. Polgar actually seemed stumped. He frankly admitted that he did not know. The questioner, the hotel's manager, filled the hall with laughter as he replied: "Well, sir, it's your room number."

Polgar is not always correct, and he'll be the first to tell you so. But he has proven always able to entertain. He's a great showman and has a stage presence worthy of some of our best performers.

Students will be admitted by registration cards. Dates will be admitted free. Faculty and staff membership cards will be honored. Otherwise the admission will be \$1.50 per person.

Development Council Has First 53-54 Meet

The Development Council of North Carolina State College held its first meeting of the current school year in Tompkins Hall at the college today at 2 p.m.

Governor William B. Umstead, who has expressed interest in the council's work toward the fuller economic development of the State, has tentatively planned to attend the session.

Reporting on the work of the college's School of Education was Dr. J. Bryant Kirkland, dean of the school. Reports also were made by various council committees and by the foundations supporting the various research and teaching programs of State College.

In a message to the Development Council members, Chairman Floyd appealed to the members "to join with the new Chancellor (Dr. C. H. Bostian) and the various schools and departments in helping State College render its maximum service to North Carolina and its people."

The council was created May 8, 1952, and is dedicated to the long-range advancement of State College.

C. A. Dillon of Raleigh is vice

Night Classes Begin at State

North Carolina State College this week will begin a series of 19 night classes, arranged for the special benefit of the residents of Raleigh and vicinity.

Director Edward W. Ruggles of the college's Extension Division, reporting the completion of plans to hold the courses, said recently the classes "will be offered for professional advancement, vocational training, personal enjoyment, and hobby selection."

Classes will run for three hours chairman. Other council members are:

Graham Anthony, Hartford, Conn.; Leslie Boney, Wilmington; M. E. Campbell, State College; W. J. Carter, Greensboro; David Clark, Charlotte; George S. Coble, Lexington; D. W. Colvard, State College; H. L. Kamphoefner, State College; J. B. Kirkland, State College; Mose Kiser, Greensboro; J. H. Lampe, State College; Guy Lane, Ramseur; LeRoy Martin, Raleigh; Edwin Pate, Laurinburg; Thomas Pearsall, Rocky Mount; R. J. Preston, State College; J. W. Shirley, State College; C. W. Tilson, Durham.

each and will meet once each week for a 10-week period.

Ruggles said a number of students already have registered for the courses and explained that others may enroll by attending the first class meetings this week. Details about the classes may be obtained by contacting the Extension Division, 1911 Building, State College.

The class schedule for the week:

Monday at 7 p.m.—Industrial arts for adults, Room 8, Tompkins Hall; pottery making, Ceramic Engineering Building; reading the short story, Room 103, Pullen Hall; elementary German, Room 212, Peele Hall; marriage and family living, Room 12, Peele Hall; improvement of reading, Room 113, Tompkins Hall.

Tuesday at 7 p.m.—Industrial arts for adults, Room 8, Tompkins

Hall; North Carolina literature, Room 1, Pullen Hall; parties and pressure groups in American politics, Room 12, Peele Hall; elementary French, Room 212, Peele Hall; psychology of personality and adjustment, Room 113, Tompkins Hall; drawing and blueprint reading, Room 212, Page Hall.

Wednesday at 7 p.m.—Industrial arts for adults, Room 8, Tompkins Hall; group leadership for club officers, Room 114, Tompkins Hall; television for the serviceman, Room 322, Daniels Hall.

Thursday at 7 p.m.—Home interior decoration, Room 111-B, Tompkins Hall; elementary Spanish or elementary Italian, Room 212, Peele Hall; comparative religion, Room 12, Peele Hall; and social problems or criminology, Room 201-A, Peele Hall.

Move over, Famous Towers

The world's most famous towers are, left to right, the Eiffel Tower, the Tower of London and the Leaning Tower of Pisa.

But in America, the tower-come-lately (extreme right) may rapidly become as familiar as the old landmarks of Europe. It is one of the Bell System's radio-relay stations which speed telephone calls and television programs coast to coast.

In May, 1948, these towers connected only five Eastern cities. Five years later the TV network included 95 towns and more are being added all the time.

Being the first network of its kind in the world, the planning, research, engineering and construction requirements are providing real opportunities for the kind of people who like to pioneer.

If working on new developments appeals to you, check with your Placement Officer for the details on employment with the Bell System. There are positions open for electrical, mechanical and civil engineers, as well as business administration and arts and science graduates.

BELL TELEPHONE SYSTEM

Marshall Scholarships Now Available For Study in Great Britain; College Grads Eligible for Two-Year Stay

The British Government has announced the foundation at British universities of 12 scholarships to be competed for annually by United States graduate students. The awards will express the United Kingdom's gratitude for the generous and far-sighted Program for European Recovery. They will be known as Marshall Scholarships.

CONDITIONS OF AWARD

The awards will be made to students of either sex, who must be citizens of the United States. Candidates must be under 28 years of age in the year in which the award will be taken up, and must be graduates of a degree-granting college or university of the United States, accredited by the appropriate United State regional board.

TENURE

The Scholarships will be tenable at any university in the United Kingdom. The awards will be made for two years in the first instance, but may be extended for a third year.

VALUE OF SCHOLARSHIPS

The value of a Marshall Scholarship will be £550 a year. Individual scholarships may be raised to £600 a year, since the cost of living at British universities may vary. A married man's scholarship will be increased by £200 a year.

Marshall Scholarships will not be subject to United Kingdom income tax.

Marshall Scholars will receive their transportation to and from their university in the United Kingdom.

SELECTION OF CANDIDATES

In appointing Marshall Scholars, the selectors will look for distinction of intellect and character as evidenced both by scholastic attainment and by other activities and achievements. Preference will be given to candidates who combine high academic ability with the capacity to play an active part in the United Kingdom university to which they go.

METHOD OF SELECTION
Short lists of recommended candidates will be drawn up by four regional committees, each composed of the British Consul-General for the region and five United States citizens. For this purpose the United States will be divided into four regions comprising the following states:

SOUTHERN REGION

Virginia
North Carolina
South Carolina
Georgia
Florida
Tennessee
Alabama
Mississippi
Louisiana
Texas
Oklahoma
Arkansas
Kentucky

Regional Center: British Consulate-General

National Bank of Commerce Building
210 Baroque Street
New Orleans 12, La.
Telephone, Canal 5152

It is intended that three Scholarships should be awarded every year in each of the four regions.

The lists drawn up by the regional committees will be submitted to an Advisory Council of distinguished Americans who will assist the British Ambassador in Washington in the selection of candidates. The final selections will be reviewed by the Marshall Aid Commemoration Commission

which has been established in London.

APPLICATIONS

It is intended that the first scholars should begin their studies at British universities in the fall of 1954. Applications for 1954 must be in the hands of the appropriate regional committee by November 1, 1953. Successful candidates will be notified of their appointments in the Spring of 1954.

Candidates may apply either in respect of the region in which they live, or in respect of any region in which they may have received at least two years of college training.

HOW TO APPLY

Prospective candidates should write to the British Consul-General for the region for which application is to be made, at the address given above. Explanatory documents and the appropriate application forms will be available from these Consulates-General shortly.

Candidates should not write for information on the Marshall Scholarships to the United Kingdom.

FURTHER INFORMATION

The full text of the administrative arrangements for the scholarships is given in the British Government's White Paper Proposed Arrangements for the Administration of the Marshall Scholarship Scheme (Cmd. 8846), available from Sales Section, British Information Services, New York, price 15 cents. Copies of the White Paper will shortly be available for inspection at British Consulates in the United States.

For every motor vehicle registered in North Carolina a decade ago there are almost two today, according to recent Motor Vehicle Department tabulations.

Lovvorn Speaks to NCS 4-H Club Group

The North Carolina State College Collegiate 4-H Club held its organizational meeting Wednesday night, October 7, in the College Cafeteria, Room A. Dr. Roy L. Lovvorn, Director of Instruction for the School of Agriculture, presented some thoughtful ideas on "Opportunities in Agriculture" to the 50 members present.

Glenn Byrd, president, presided over the business session which included acceptance of plans to construct a float to be entered in the Homecoming Parade. Morris Woodall, Charles Woodall, Gerald Bolick and Harold Langdon are in charge of committees to make arrangements and construct the float. The club voted to accept the invitation of the Woman's College 4-H Club to meet with them at Greensboro on November 14. The meeting will include supper and entertainment in the Woman's College Union Building provided by the girls.

The North Carolina State College 4-H Club meets every first and third Wednesday night at 6:00 o'clock as a dinner meeting in the cafeteria dining room A. The purpose of the club is to foster fellowship among 4-H Club members at college, to promote leadership and better citizenship, and to acquaint the members with agricultural leaders and with the agricultural extension work. Any former 4-H member is invited to attend the next meeting October 21.

BSA Frat to Meet

An open meeting of the Alpha Phi Omega, National Service Fraternity, Iota Lambda Chapter will be held October 22, at 7:00 in Riddick Hall, room 242. All Scouts and ex-scouts who are interested in continuing their scouting work at State College are invited to attend.

Requirements of Membership are as follows:

1. Previous training in Scouting.
2. Desire to render service on campus.
3. Satisfactory scholastic standing.

The principles of the A.P.O. are Service, Fellowship and Friendship.

Musician: Let's see, didn't I get my last haircut here?"

Barber: I doubt it, sir, as we've been in business only two years.

Latest highway commission figures show that North Carolina has a total of 72,000 miles of highway.

More than two thirds of the bright leaf tobacco produced in the United States is grown in North Carolina.

EDITORIAL COMMENT:

The High Cost of "Classic" Tickets

It appears that two items are required of anyone wishing to buy Dixie Classic tickets in a desirable section of the Coliseum. The first item, as might be expected, is nine dollars. The second is evidence of membership in the Wolfpack Club.

Several instances have been reported to the Technician of persons trying to buy tickets to the Classic and being told to come back later, presumably after all Wolfpack Club members had taken their pick of the best seats. Either that or leave their money and receive tickets later for unspecified seats.

Just why the members of this private club should receive special consideration at a state function being held in a state building we do not know. True the Wolfpack Club gives large amounts of money, donated by its members, to various campus funds used to promote athletics. But every tax paying citizen of North Carolina, whether

a member of the Club or not also helps support State College and its athletic teams. Since each pays his proportionate share of taxes they should receive equal treatment at the box office.

A mass exodus from the ranks of the Club would probably result if this preferential treatment were discontinued which would clear up one point that has been worrying us, to wit are these generous persons interested in promoting athletics or are they simply concerned with getting good seats to their favorite sports events.

We think a man interested enough in the Classic to try to get a ticket at this early date should have one, the best which has not already been sold to someone else. If the existing arrangement between the Coliseum management and the Wolfpack Club prevents this then the arrangement ought to be abolished.

Campus Government Does It Again

The action of the Campus Government in appropriating \$500 to the Honor Council to promote the Councils development is a further indication of the CG's determination to make the honor system a living institution on the campus.

Part of the money will finance a banquet for all honor council members. At this banquet they will have an opportunity to get acquainted and will get a complete explanation of the honor system and their function in it.

They will also hear speeches by several students and faculty members who are enthusiastically interested in the system.

The remainder of the money will be used to carry out ideas of departmental committees designed to improve the honor system.

We congratulate the Council for making this money available to the committees and wish the committees luck and success during the coming year.

It's In The Book

Can the Motor Vehicles Department suspend a person's driving license for failing to dim his lights when approaching other cars? J. C. Oxford

The Motor Vehicle Manual says no, but certainly common sense and courtesy, to say nothing of safety, demands that we dim our lights when meeting oncoming traffic. It's also a mark of courtesy to depress your headlights when following or overtaking another vehicle.

I know there is some rule about yielding the right-of-way to fire trucks, police and ambulances. But is there a specific law requiring drivers to pull over and stop? N. R., High Point

Absolutely, the Motor Vehicle Manual is very definite about this. It states that all drivers, upon hearing a siren, shall pull well to the right and stop and remain so until the emergency vehicle has passed. However, if an officer directs you to move you must, of course, obey him.

Post Korea Vets Level Headed Men

VA Announces Very Few Vets Make Course Changes, Many Use Free Service

Only a small percentage of post-Korean veterans enrolled in GI Bill training have taken advantage of the right to make a change of course in the 14 months in which the Korean GI Bill has been in operation, Veterans Administration said.

The total number of veterans who have enrolled for GI training under this bill has been about 220,000. Of this number, 3,700 have applied to make a change in their course, or about one and one-half per cent.

According to VA, this figure indicates that the post-Korean veterans who are entering training generally have a clear picture of their educational aims, to prepare them for a definite vocational goal.

Under the terms of the Korean GI Bill, a veteran may make only one change of course.

VA reported at the same time that post-Korean veterans are making good use of the VA vocational counseling centers, at the rate of

Serious Accident Chance is 1 in 15

National Safety Council Is Working Constantly to Improve the Odds

Statistically, your chances each year of having an accident serious enough to cause a disabling injury are about 1 in 15. But 12,000 safety leaders meeting in Chicago Oct. 19 will spend five days studying ways to give you better odds.

These safety people—men and women from all parts of the world—will assemble for the 41st National Safety Council Congress and Exposition, the annual convention of the National Safety Council. It is the world's largest safety event and one of the country's largest conventions.

The odds against accidental death and injury have improved steadily since the formation of the safety movement in 1913. If the 1913 accident death rate had prevailed through the next 40 years, the toll of accident dead would have been swelled by a half million more victims.

Twenty hotels will be used to house the 12,000 delegates attending the 41st Congress—and every available meeting room, private dining room and ballroom of seven of Chicago's biggest Loop hotels will be used for 200 meetings, crowded into five days. More than 600 speakers and panel participants will appear on the program, and a convention staff of 300 members of the National Safety Council's headquarters staff will be required to run the Congress.

At a women's reception featuring the Congress program Oct. 20 the annual Carol Lane Awards will be presented to four American women and four women's or parents' clubs for outstanding contributions to traffic safety during the preceding year. The awards are administered by the Council through a grant by the Shell Oil Company.

An exposition in connection with the Congress will occupy all exhibit space in the Conrad Hilton hotel.

more than 3,000 visits per month. Counseling is optional for GI Bill trainees and is compulsory for veterans who are to receive vocational rehabilitation under the terms of Public Law 16, to overcome a service-connected handicap.

SPECTACULAR PRECISION is rhythmically displayed by the Ice Cadets and Ice Capets in "Little Foxes," just one of the 10 great productions and 20 starring acts in the all new ICE CAPADES OF 1954, as another of the sensational ice spectacles brought to life this season by Producer John H. Harris at the Coliseum, Nov. 3-7.

Beethoven Program to be Offered By CU Music Comm. Sunday in Peele

A group of Beethoven's most famous works will be presented by the College Union Music Committee this Sunday at 3 p.m. in Peele Hall lounge. Beethoven's Seventh Symphony, The Twelve Contradances and his Emperor Concerto will be played.

Beethoven's Seventh Symphony was premiered in 1813 at a concert held in the great hall of the University of Vienna for the benefit of Austrian and Bavarian soldiers wounded in the battle against Napoleon at Hanau. The concert was an unqualified success, in fact, it had to be repeated four days later, and the second movement, the famed Allegretto, had to be repeated at both Concerts. The main section of the first movement is a rollicking Vivace while the finale gives vent to Beethoven's rough, unbuttoned, humor.

Howard Barlow conducts the CBS Symphony Orchestra in playing the Twelve Contradances. The Contradances are a product of Beethoven, the craftsman, who in the course of his everyday labors, would toss off marches or dances for his publisher to make money, or for a special occasion.

The word Contra-Dance in itself means an English Country Dance. These light and airy dances make one of Beethoven's greatest compositions.

When Beethoven wrote his Fifth Concerto he was at the height of his power as a creative artist. During this concerto's premiere a French officer called it "an Emperor among Concertos," and the title has stuck to this day. The majestic opening theme gives the listener a feeling of limitless space. The Piano writing is in grand style, while another miraculous moment is the wonderful transition passage from the Adagio into the final Rondo movement.

This concerto has the tendency to give the orchestra more to say in the work as a whole. This is truly a magnificent recording by the Philadelphia Orchestra under the direction of Eugene Ormandy.

This concert will be heard in the Peele Hall Lounge.

The high fidelity record player will be used during this concert. All students and faculty members are invited to attend. Refreshments will be served.

Ag School and Industrial Arts Dept. To Have Big Exhibits at State Fair

"A Century of Progress" will be the theme of exhibits and demonstrations to be presented by North Carolina State College students at the North Carolina State Fair October 20-24.

Scores of the college students this week are completing their work on the exhibits, which will review 100 years of achievement in 10 major fields of agriculture. These exhibits will comprise the "Students' Ag Fair," an annual feature of the State Fair.

More than 70 students are preparing 10 booths for the student exposition. In addition, 30 members of the State College Animal Industry Club will show dairy cattle and sheep from the college farms.

An additional student feature of the fair—requiring the work of 35 more students—will be a pottery demonstration in which students from the State College Industrial Arts Department will turn out examples of products that can be made at a potter's wheel. This demonstration attracted the attention of thousands of fair patrons last year.

Headed by David Brown of Raleigh, the industrial arts students will give displays and demonstrations in art metal work, electricity, wood carving, plastics, and leatherwork.

In helping to observe the 100th anniversary of the State Fair, State College students will be carrying out a tradition as old as the college itself. N. C. State students always have been closely allied with the fair. In the exposition's early history, the fairgrounds were adjacent to the college campus and major football games were sched-

uled as a part of the fair program.

Officers of the "Students' Ag Fair" this year who are coordinating the exhibits of 10 departments in the college's School of Agriculture and School of Education are Johnnie K. Beck, Route 2, Lexington, chairman; William A. Mericka, Route 2, Brown Summit, vice chairman; William S. Enloe, Route 1, Hendersonville, secretary-treasurer; and Jackie S. Daughtry, Route 3, Mount Olive, publicity chairman.

Departmental chairman are: Charles A. Fulp, Winston-Salem, agronomy; G. Gerald Young, Mars Hills, animal industry; Charles L. Overman, Edenton, agricultural engineering; Carl F. Ipock, Cove City, agricultural education; John Crawford Earl, Poultry; William B. Nesbitt, Edneyville, horticulture; Francis L. Pless, Canton, rural sociology; Carl S. Yelverton, Raleigh, wildlife conservation; Larry C. Hester, Hurdle Mills, and James G. Hilton, Ames, Iowa, agricultural economics; and Clifton R. Ammons, Lillington, agricultural chemistry.

ENROLLMENT—

(Continued from page 1)

While the number of Korean veterans showed an increase, the total of veterans of World War II dropped from 466 last fall to 230 this term.

A breakdown of the enrollment by classes shows 1,512 freshmen, 935 sophomores, 551 juniors, and 659 seniors. In addition, there are 272 graduate students, 39 seeking professional degrees, and 87 special or non-classified students.

Nearly half of the students currently enrolled at State College are studying in the college's world-famous School of Engineering, which alone has 1,926 students. Freshmen studying engineering number 837 out of the total of 1,512 freshmen.

The total number of students registered in the other schools comprising the college follows:

School of Agriculture, 772; School of Design, 222; School of Education, 390; School of Forestry, 183; and School of Textiles, 475.

In the freshman class of 1,512 students, there are 1,115 new freshmen who enrolled for the first time this year as compared with 1,099 new freshmen last fall.

Represented for National Advertising by NATIONAL ADVERTISING SERVICE, INC., College Publishers. Representative, 420 Madison Avenue, New York, N. Y.

Entered as second class matter, February 10, 1920, at the post office at Raleigh, North Carolina, under the act of March 3, 1879.

New Course Open

Special classes in vocabulary development and rapid reading were started last Tuesday in Tompkins 111-B.

Harvard Reading Films and a Tachistoscope, a device which exposes slides at exposures up to 1/100 of a second, will be used in teaching the course.

The class is open to any State college student. A fee of \$2.00 will be charged for the use of texts and mimeographed materials.

The class meets at 12 noon.

Dr. Murray Speaks In Chicago, Ill.

Dr. Raymond L. Murray, atomic scientist and professor of nuclear engineering in the School of Engineering at North Carolina State College, delivered a talk on the design of nuclear power reactors at a reactor information meeting sponsored by the Atomic Energy Commission at Argonne National Laboratory in Chicago, Ill., last week.

"Heterogeneous Reactor Calculations" was the subject of Dr. Murray's talk. He was one of 75 speakers, all of whom were top atomic authorities.

Union Presents Comedy Sunday

This is a facsimile of a Broadway comedy about two Brooklyn spinners who make a hobby of dosing old men with arsenic. Raymond Massey and Peter Lorre present two interesting figures in the movie as murder is made an innocently delightful subject. Cary Grant plays the part of a rambunctious, woman-hating New York critic.

The original Broadway play has been expanded upon very little except to interject even more humor into an already hilarious plot. The dear old ladies' nephews namely John Alexander, Massey, and Grant strain to convulse the audience with laughter while Josephine Hull and Jean Adair, the two old ladies, carry out their ghostly plan.

An enjoyable evening of mirth and merriment is promised all who attend this movie Sunday evening, at 8:15, in the Textile Auditorium. Please co-operate with us by refraining from smoking in the auditorium.

College Union Plans Overnight Hike Nov. 7

The Overnight Hike to Hanging Rock State Park, originally scheduled for October 24, has been postponed until November 7.

The approximate cost of this trip will be \$3.50 per person. Each person planning to go on this trip is expected to furnish their own sleeping bag and meet in front of Winston Hall at 1:00 P.M.

Sign up in the College Union Office, 1911 Building by 12 noon the day before the trip.

This trip is being sponsored by the College Union Outing Committee.

VARSITY

The overall purpose of the meeting, Dr. Murray said, "is to review the power reactor plans now in existence and pass on such information to individuals vitally concerned with this phase of nuclear energy."

Approximately 500 representatives were present from nation's atomic energy installations, industries interested in the commercial use of atomic energy, and companies building submarine and aircraft reactors for the government. AEC laboratories at Brookhaven, Los Alamos, and Oak Ridge were among those sending delegates.

Dr. Murray, who has served as a consultant on reactor design to the Monsanto Chemical Company and the Oak Ridge National Laboratory, says that his talk grew out of work with two other nuclear scientists. He has worked with Dr. A. C. Menius, Jr., also a professor of nuclear engineering at State College, on the design of a power reactor for the Monsanto Chemical Company. Dr. Murray also attributes a source of his information to a 1953 master's thesis by Maj. Ivan C. Atkinson, a former State College student who is now associated with the nuclear aircraft development in the U. S. Air Force at Dayton, Ohio.

Infirmiry Reports Colds Prevalent Illness

The number of students reporting to the College Infirmiry for treatment of colds so far this fall has been about the same as in past years.

There have been 35 cases this fall requiring hospitalization which indicates that serious colds are not particularly prevalent.

Infirmiry personnel say they prefer preventing illness rather than treating it and request that students report for treatment when symptoms first appear.

The infirmiry is open 24 hours a day and Doctor Coombs is available every day from 9 to 10 a.m.

Professor Stevenson Represents A.I.E.E.

W. D. Stevenson, Jr., professor of electrical engineering at North Carolina State College participated at the annual meeting of the executive committee of District Four of the American Institute of Electrical Engineers in Atlanta, Ga., Monday, Oct. 12.

Professor Stevenson goes in the capacity of chairman of the Committee on Student Affairs of the A. I. E. E. District Four which includes all of the Southeastern states.

He will be in charge of the overall planning for the annual convention of all southeastern student branches of A. I. E. E. meeting at State College for the first time April 21-24.

Brand-new national survey shows college students prefer Luckies

Last year a survey was made in leading colleges throughout the country which showed that smokers in those colleges preferred Luckies to any other cigarette. This year another nation-wide survey was made—a representative survey of *all* students in regular colleges coast to coast. Based on thousands of actual student interviews—this survey shows that, as last year, Luckies lead again—lead over all other brands, regular or king-size—and by a wide margin! The reason: Luckies taste better.

P. S. Once again we're buying student jingles! \$25.00 goes to every student whose Lucky Strike jingle is accepted for our advertising. So hurry! Send yours in right away to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

the Technician SPORTS

Through The Keyhole

LEONARD A. BINDER Sports Editor

As everyone who follows sports is aware, the baseball season has finally drawn to its conclusion; and "King Football" is once more upon the national sports scene. At this point in the campaign it becomes apparent that the nations perennial football powers are again in the thick of the fight for sectional as well as national honors.

In the East, Holy Cross and Syracuse who were both strong last year are once more on the top rung of the Eastern powerhouses. In the Ivy League Princeton and Yale have both showed strength in all departments of play. The traditional contest between these two teams later on in the season should decide the league champion. Among the other independents, West Point is again building its forces which were so depleted by the scandal at that institution a few years back. The Kaydets have shown good strength this year and the Duke Blue Devils will have their hands full in New York come this Saturday.

In the South, Georgia Tech, although tied by Florida a few weeks back, still looks to be the best in the Southeastern Conference. Alabama, a pre season favorite to give the Yellow Jackets a run for their money, has not as yet lived up to pre season form. Little Auburn University has shown surprising strength in the conference this season.

In the A.C.C. Duke and Maryland both have unblemished records to date. Duke has only given up four touchdowns in the process of running over South Carolina, Wake Forest, Tennessee, and Purdue. Sparked by the superlative play of "second string quarterback" Jerry Barger, the Devils are right in the thick of the fight for national honors this year. It looks as if the game with Georgia Tech in three weeks is going to be the big one for both sides this season. Maryland is also sporting a perfect slate so far. The game that the Terrapins play this week with North Carolina looms as the top game of the week here in Dixie. The Tar Heels gained a lot of respect in pig-skin circles last week by coming from behind to down a good Deacon team in the fourth quarter. The unblemished slate of the Tar Heels has gone almost unnoticed so far this season and a win over Maryland would vault the Carolinians right to the top of the conference football picture.

As of now, Michigan and Michigan State both look to be the class of a strong and evenly matched Big Ten Conference. However both Illinois and Ohio State cannot be counted out of title contention as of yet. Among the independents, Notre Dame is again the class of not only the district but also the land. The Irish are undefeated and will probably stay that way. It will take a mighty good club to come out of a game on the long end of the score with Frank Leahy's team.

Texas and Oklahoma again seem to be the class of the wild Southwest. However the Rice Owls and the Baylor Bears look mighty potent also. Rice has to play both Texas and Baylor before the end of the season so no one can expect a typically unpredictable year from the place where unpredictable happenings occur every Saturday afternoon.

On the coast, it looks like a three way battle for championship honors between California, U.C.L.A. and Southern California. All of these powerhouses are having top notch years with each possessing bevy of good backs and husky linemen. When these three eleven clash with each other on Saturday hence, anything can happen and probably will. From the conference leaders of the Pacific Coast and Big Ten will once again come this year's participants in the Rose Bowl. This incentive is never lacking when Coast schools get together.

State Grid Record Deceiving

With a single victory in the three games played thus far the season's record of the North Carolina State College Wolfpack does seem impressive to the casual observer. In the season's opener at Chapel Hill the Tarheels of the University of North Carolina topped the Wolfpack 29 to 7. Next the Colonels of George Washington University took the State team on and sent them home from Alexandria, Va. with a 20 to 7 defeat. State hit the victory column for the first time by winning over the Wildcats of Davidson in Riddick Stadium, running up a 27 to 7 margin.

With a little bit of imagination it is possible to see State winning all three of the contests played this fall. In the Carolina game if the Wolfpack had played the entire game as they did the third quarter the score could have been reversed. At the end of the half in the GW contest the score was 0 to 0 with the Wolfpack knocking at the double stripe. George Washington got lucky in the second half and scored three times on long passes good for over 40 yards. State fought hard in the closing minutes of the game but GW was able to hold and keep their victory intact. State played the Davidson game in fine style. The opening moments

of the game were ragged and the Wildcats jumped off to a 7 to 0 lead. State came back and scored and went on to wrap up the game with a sustained attack. The spread formation was used by the squad for the first time and was very successful.

Statistics show that North Carolina State has outplayed their opponents in every department except final score. Firstdowns, yards gained in the air, and rushing have shown the Pack to be the better team. Eddie West is being hailed as one of the finest quarterbacks in the Atlantic Coast Conference. Don Langston has already built up the reputation of being one of the best fullbacks in the South. The spirit of the line has been excellent and as they become more experienced the caliber of their play will improve.

That old cry of "Wait til next year" has no place for this team. There are still a lot of games remaining on the schedule this year and the showing the Wolfpack has made so far there is no reason that they should not be the surprise of the year. There are no more breathers between now and the end of the season with games coming up with teams such as, Duke, this week rated 8th in the nation, Army, Pitt, who held Oklahoma to a 7-7 tie, powerful West Virginia, the team that topped Pitt, and Florida State.

Prizes Awarded In Football Contest

The makers of Chesterfield cigarettes are with the cooperation of the Technician going to sponsor a weekly football prediction contest. This contest is open to anyone who is a regular student at North Carolina State College. The top ten games of the south will be listed weekly with space provided for checking the probable winners. So as not to have any ties, the entrants are requested to predict the total points which the ten winning teams on their entry will score for that particular week.

Two cartons of Chesterfields will be awarded to the winner, with one going to the runnerup. Technician writers and affiliates are not allowed entrance in the contest. The first list of games appears below.

Oct. 24, 1953

Duke	N. C. S.
Davidson	Furman
North Carolina	Georgia
Virginia	Vanderbilt
Wake Forest	Richmond
Georgia Tech	Notre Dame
Miami	Maryland
Florida	L.S.U.
Villanova	Kentucky
Alabama	Miss. State

Total Points:

The deadline for all entries is Wednesday night before the Saturday of the game. Mail all entries to:

Hard Fought Games Played by Frats

By Dick Rudikoff

Sigma Alpha Epsilon threw a powerful offense up against a Sigma Pi team featuring a Trogden to Feroe pass combination which was good for the winning margin of 14 to 0. Trogden also showed good running skill while his teammate Robinson proved to be a stalwart on defense. Playing with thin reserves Sigma Pi turned in a good performance headed by Sunderland. S.A.E. scored once in the first period and once in the fourth.

In a closely fought battle, Sigma Nu won by the narrow margin of 6 to 0 over the Farmhouse. Buckman scored the lone touchdown in the game. Individual stars in the game were Green and Wilson on the line and Buckman and Honeycutt in the backfield for Sigma Nu, and Weatherly and Porter on the line and Taylor in the backfield for the Farmhouse club.

Sigma Chi romped to victory at the expense of Pi Kappa Tau 32 to 0. Shaw of Sigma Chi played brilliantly as he scored two touchdowns and threw a pass for another. Cocke also played a fine game as he scored two touchdowns and Abernethy played a lot of football at end. Lawrence and Huffness played well in the losing cause.

Volleyball

After losing the opening game 15 to 9 Phi Epsilon Pi came back to take Sigma Nu 15 to 7 and 15 to 6. For P.E.P. Arkin, Smigel, Greenberg, Saffer, Calderon, and Goldenberg made up the team. For Sigma Nu it was Fisher, Crummer, Blackard, Agnew, Buckman, and Barnhill.

Sigma Alpha Mu disposed of Sigma Alpha Epsilon in two contests 15 to 7 and 15 to 13. Cooper, Gaier, MacLair, Hilton, Weiss, and Steiger composed the S.A.M. team. For S.A.E. Feroe, Blalock, Stewart, Howey, and Jordan started.

"Found"

A pen and pencil set was found in the Textile auditorium after a Freshman testing session held three weeks ago. If the owner will come to 123 Tompkins and identify the set it will be returned.

THE Dorm Corner

By Jerry Armstrong

The fall dormitory intramurals jumped into high gear this week with the entrance of tennis and volleyball. Almost all the dorms got into the volleyball competition, but some of the teams didn't get to participate in tennis matches. Also some "down to the wire" grid-iron contests were on tap last week as Berry, Turlington No. 2, Bagwell, No. 1 Alexander, and Vetville posted shutout games.

Passes played the major role in the Alexander-Syme No. 2 game, as the Alexs boys took the contest 13 to 0. A pass from Jack Sutton to McGalliard scored the first TD and late in the fourth quarter Margotta intercepted a pass and ran up to Syme's one-foot line, from where the last score was pushed over. West and Caster were the standouts for the Alexander team, which has yet to be scored on.

Bagwell No. 1 ran into some tough competition from Tucker No. 1, but capitalized on a pass play and a safety to gain a 9 to 0 victory. Ed Hill passed to Graig Barnhardt for the only touchdown and added the extra point by a completed pass to Ed Sanderson. In the fourth quarter the hard charging line of Bagwell trapped a Tucker backfield man in the end zone for the safety. Buddy Gibbs, Jason Collier, Adcock, and Seamon were the standouts for the Bagwell lads.

Theron Graham's interception of a pass was the lone mark of victory as he scored the six points which gave the Turlington No. 2 team a 6 to 0 victory over Alexander No. 1. The game was a perfect defensive maneuver except for the pass interception. Safriet, Warr, Belverio, and Reavis were some of the defensive leaders.

The outstanding game of the week was the Berry-Bagwell No. 2, as the Berry "Huskies" powered to a 27-0 win. Ed Horbelt passed to Bert Weeks for the first score, and it climaxed a 50-yard drive from the opening kickoff. Late in the first period Sonny Santoli gathered in a pass interception and raced for 45 yards for the second tally. In the second period Sonny "Hawk Eye" Santoli again took a pass away from the Bagwell receivers to set up the third touchdown. John Kirkman, Berry's All-Campus guard, midway in the third period broke through the Bagwell offensive line to block an attempted punt and score a safety. Two penalties late in the closing minutes pushed the "Huskies" from their drive to

Orange Bowl Pact Pending for 1954

There was nothing official reported from the meeting of the representatives of the Big Seven and the Atlantic Coast Conference this week in Durham but all indications point to a tie up between two powerful groups to play each other in the Orange Bowl classic in Miami. The delay in making the official announcement seems to stem from the necessity of the announcement coming from the Orange Bowl Committee in Miami. Final details will have to be ironed out by each conference concerning who and how often a school may play but that does not concern the agreement as a whole. The arrangement will probably be similar to the system used by the Big Ten and the Pacific Coast Conference in regard to the Rose Bowl.

Bagwell's 35-yard to their own 45, but then quarterback McDade took to the ground and made a 25-yard run around his end. The big surprise then came when McDade gave the "go sign" to Ed Horbelt to spring the "ole rassle-dassel" play. The play was good for the last tally as Jim Peeler hauled in the "mail."

Becton took a hard fought game from Owen No. 2 with a forfeit.

The "Ole Vets" turned back the boys from Turlington by a 13-0 margin. A long pass and a climaxing play score provided the Vetville team with the victory.

Volleyball

Berry took their first match from Tucker No. 1 by scores of 15-7, and 15-11. Stanfield and Godfrey were the sparks for the Berry team.

Syme No. 2 and Bagwell No. 1 won their matches on forfeits from Bagwell No. 2 and Owen No. 2 respectively.

Vetville gained their first victory of the season in downing Alexander No. 2, 15-10 and 15-12. Norman Norris was the standout for the Vets.

It was the King twins and some outstanding spiking by Temple that gave Becton No. 2 a 15-5 and 15-8 wins over Turlington No. 2.

Marvin Crow, Ronnie Crow, Ken Vaughan, Carl Yosevy, Don Purdy, and Herman Crooin combined to down Tucker No. 2 by the scores of 15-5 and 15-7. The boys from Owen No. 1 were the complete show on offense and didn't get into trouble at any time.

In tennis Alexander No. 2 defeated Turlington No. 2 in the only match last week. Bobby Wood and Ralph Sewers were beaten in the singles for Turlington and Bob Lewis and Joe Stephenson played the doubles for Alexander.

"Means Top Quality"

Plan For TV Channel Granted Greater U.

With the granting of a Construction Permit for North Carolina's first non-commercial television station by the Federal Communications Commission, State College, The Woman's College, and the University at Chapel Hill have launched a vast new enterprise in educational service to the people of North Carolina—WUNC-TV, Channel 4.

Television from the Consolidated University will not take the air until the fall of 1954, but already the three institutions are beginning to ready themselves for what many believe to be the most significant development in education since the invention of the printing press.

More than a million dollars has been donated to provide the requisite equipment and operational funds for WUNC-TV. "The foresightedness and farsightedness of some of North Carolina's leading citizens and business organizations have made this significant educational service possible. Through the efforts of our three faculties, we shall be able to take education to the people of North Carolina in a way which has never before been possible," said Gordon Gray, President of the Consolidated University.

"Our first debt of gratitude is owed to the Jefferson Standard Foundation which made possible all of our early conferences and experiments in television and now is contributing to the equipment and operational fund; our second debt is to other North Carolina broadcasters who counseled with us and encouraged us to build a television station; and finally, we are indebted to those generous citizens and organizations who are making the construction of WUNC-TV and its first two years of telecasting, particularly The Burlington Mills Foundation, Mr. and Mrs. John Motley Morehead and The Fund for Adult Education."

Donors to the project are: The Burlington Mills Foundation, which is giving \$200,000; Mr. and Mrs. John Motley Morehead, \$200,000; The Fund for Adult Education (established by the Ford Foundation), \$100,000; and The Abel Caleb Lineberger Memorial Fund, Jefferson Standard Foundation, Mrs. Nathalie L. Bernard, Mr. and Mrs. Joseph McKinley Bryan, Mr. and Mrs. Charles A. Cannon, Mr. and Mrs. James Wilbert Carter, Mr. and Mrs. Benjamin Cone, Drexel Furniture Company, John Sprunt Hill, George Watts Hill, J. A. Jones Construction Company, William Rand Kenan, Jr., Mr. and Mrs. James Spencer Love, Mr. and Mrs. Walker Martin, Mr. and Mrs. James Edward Millis, William Muirhead Company, A. A. Shuford Foundation, The Z. Smith Reynolds Foundation, Mr. and Mrs. H. Smith Richardson, Wachovia Bank and Trust Company, The Carolina Steel and Iron Company, each of whom is giving a substantial contribution.

The University's move into educational television was made only after considerable study. Last June,

shortly after the Federal Communications Commission made educational channels available, 150 deans and directors of the three faculties met in Chapel Hill for a 2-day conference. To give the present picture of television, a group of experts—including the chairman of the Federal Communications Commission and the President of the American Council on Education—was called in to address the conference and to serve as consultants for the smaller groups.

The conference concluded that television presented a challenge and an opportunity; that it was "desirable for the University to own and operate a station;" and that there "was an excellent availability of (program) resources" in the University.

Recommendation was made that an All-University Advisory Council be appointed to make a detailed study and specific recommendations. This was made.

Under the direction of the TV Council, as it came to be known, a series of experimental television programs was undertaken and a 92-page study prepared. On the basis of this study, conferences with North Carolina broadcasters, consultation with the presidents of national networks, and the advice of Governor Umstead's Commission on Educational Television, the present plan of action was adopted.

Facilities will include complete studios on the State College campus, The Woman's College Campus, and at the University in Chapel Hill. In addition, a mobile unit will produce on-the-spot telecasts from experimental farms, legislative halls, sports fields, special events spots, and other educational resource areas of the State. The originating units will beam programs by microwave relay to a 100-kw transmitter (maximum permissible power) located near Pittsboro, very close to the geographical center of the State. The antenna will be mounted on a 1,000-foot tower, the highest man-made structure in the State.

It is anticipated that a good picture will be receivable over a radius of about a hundred miles from this transmitter tower. Since the channel allocated to the University is Channel 4, VHF, WUNC-TV programs can be received on all television sets presently in use, without the expense of adding a converter.

Approximately 2,250,000 people live in the area which engineers believe will be effectively covered by WUNC-TV. To insure reception of WUNC-TV programs in areas not reached by the station itself, the University will have kinescope recording (recording on film) facilities and a complete film-processing laboratory. Commercial television stations will be free to carry these filmed programs all over the state.

A motorist is a person who, after seeing a wreck, drives carefully for several blocks.

ports a greater demand for State College engineering graduates, which, it says, stems from the national shortage of engineers and from the nation's sweeping industrial expansion.

A total of 197 industrial firms sent representatives to State College during the past year in search of engineering graduates. This figure is more than four times the number visiting the college in 1949-50 and represents a 70 per cent increase over 1951-52.

The article said 39 per cent of N. C. State's 1953 engineering seniors accepted employment in North Carolina. Sixty-seven per cent remained in the South. The military services took 37 per cent of the entire class, the report states.

Dutch Architect Spoke at Riddick

Willem Dudok, the world-renowned Dutch architect and town planner, spoke in the Riddick Auditorium at North Carolina State College, Wednesday night, Oct. 14, at 8 o'clock.

Dudok who arrived in the United States Sept. 28 is now on a two and one half month's lecture tour of leading American architectural colleges, under sponsorship of the American Institute of Architects.

Dudok's lecture at State College was illustrated and was entitled "To Live and To Build."

A native of Amsterdam, Dudok is internationally known as a pioneer in the modern movement in Holland and a leader of his profession for over 30 years. His principal works are in Hilversum, a small town not far from Amsterdam which began a period of rapid growth prior to World War I. Dudok's first buildings were executed there for the town of Hilversum, and he has been its city architect since 1928. Among his works are the Town Hall, public baths, an electric draining mill, many schools, an abattoir, and a number of country homes for private clients.

Throughout the years Dudok has maintained an extensive private practice as architect and town planner. In addition Hilversum, he is responsible for the city plans of Wassenaar, Zwolle and the town and reconstruction plans for the Hague and Velsen-Ijmuiden. He designed the Exchange in Rotterdam, town halls for the Hague, Amsterdam, and Velsen in Holland, and for Curacao in the Dutch West Indies.

In Paris, Dudok designed the Dutch Students' Home at the Cité Universitaire, and in Calcutta India, a cinema and several stores. His varied practice also includes: the Head Office of the Royal Dutch Steel Works in Ijmuiden, a monument on the Zuidersea dike, workmen's housing and, most recently, a country home for the Princess Fatemeh Khanoum.

In his long career, Dudok has won many honors. He is an Officer of the Order of Oranje-Nassau, a Knight of the Order of the Netherlands Lion, an Officer of the Order of the Crown of Belgium. He holds the Gold Medal of the Royal Institute of British Architects (1935) and the Gold Medals of the Hague and Hilversum, both awarded in

1949. He is also an Honorary Corresponding Member of the professional architectural societies in France, Belgium, Portugal and of The American Institute of Architects. He is a member of the Académie Royale de Belgique and of the Koninklijke Vlaamsche Academie.

In addition to his talk at N. C. State, Dudok will lecture at Harvard, Columbia University, Prince-

ton, the Illinois Institute of Technology in Chicago, Texas Technological College in Lubbock, Texas, and 22 other universities throughout the East and Midwest.

Dudok's lectures concern his own practice and experience as an architect and town planner "with ample illustrations of buildings and designs, showing how I found my own way throughout the years."

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

"Go bury your head in the sand," shrieked Sheedy's chick. You'll never put a wing on my finger until you start using Wildroot Cream-Oil on that messy hair. It's America's favorite hair tonic. Keeps hair combed without any trace of greasiness. Removes goose, ugly dandruff. Relieves annoying dryness. Helps you pass the Finger-Nail Test." Paul looked so good the very fuzz time he used Wildroot Cream-Oil, his pigeon egged him on until he proposed. So why don't you buy a bottle or tube today at any toilet goods counter. And necks time you have a haircut, ask for Wildroot Cream-Oil on your hair. Then no gal will ever give you the bird.

*of 131 So. Harris Hill Rd., Williamsville, N. Y.

Wildroot Company, Inc., Buffalo 11, N. Y.

Oops, Wrong Number!

A college student decided to add several new shirts to his wardrobe. So one Saturday afternoon, he strolled into the local haberdashery store. "Let me see a few of those Van Heusen Pan-Am Pique Shirts the whole campus is raving about," he said.

"No wonder everyone is raving about Pan-Am Piques," said the clerk, laying several on the counter. "They're smart, comfortable, and come in Van Heusen's sensational new short collar styles. What's more, I have a complete line of smart new collegiate colors—as well as white. And they're only \$3.95."

"I've never seen a smarter shirt," admitted the student. "I'll take one in each color. And can I open a charge account?"

"Certainly," replied the clerk. "What is your name?"

"Size Six-and-Seven-Eighths Jones," replied the student.

"Size Six-and-Seven-Eighths Jones? What kind of a name is that?" asked the puzzled clerk.

"Well, when I was born my folks didn't know what to call me," he explained. "So they put a lot of names in a hat, and by mistake my near-sighted father pulled out the size ticket!"

BERT WEEKS

EDIE CRINER

JERRY ARMSTRONG

The new officers for the Inter-Dormitory Council have already taken over their posts for this year and are now in the process of putting on the annual IDC Ball in the William Neal Reynolds Coliseum at 8:00 tonight (semi-formal). The officers for 1953-54 are: (upper left) President—Jack McDade a senior from Chapel Hill, N. C.; (upper right) Athletic Director—Bert Weeks a junior from Clinton, N. C.; (lower left) Social Director—Edie Criner a junior from Winston-Salem, N. C.; (lower right) Publicity Director—Jerry Armstrong a sophomore from Kannapolis, N. C.

Forestry Mag Runs Feature on NCS School

A recent issue of The Forestry Bulletin, a quarterly publication of the Industrial Department of the Seaboard Air Line Railroad Company, Norfolk, Va., describes the faculty, training programs, and facilities of the School of Forestry at North Carolina State College.

The Bulletin which has a circulation of 14,500, is distributed throughout the United States to key libraries, research centers, the U. S. Department of Agriculture, professional and business leaders, and to agricultural and forestry workers in many parts of the nation.

Illustrated with 15 photographs of North Carolina State College staff members and physical facilities, the publication outlines the courses of study offered in the School of Forestry, tells of the research, teaching, and extension work, and reports on the college's forests, totaling 82,000 acres and including the 78,000-acre Hofmann Forest.

It also depicts the School of Forestry's classrooms, laboratories, and library facilities in Kilgore Hall, which was recently completed at a cost of \$850,000.

Pictured on the cover are former Chancellor J. W. Harrelson of North Carolina State College, Dr. James H. Hilton, former dean of agriculture at N. C. State and now president of Iowa State, and Walter R. Langley, Jr., of Greenville, president of the Forestry Club at the college. They are shown entering Kilgore Hall.

In the feature article on the school, Robert N. Hoskins, editor of the Bulletin and in charge of forestry development for the Seaboard Railroad, writes:

"The School of Forestry at North Carolina State College is the second oldest forestry school in the South.

The school is fully accredited by the Society of American Foresters and is one of six forestry schools working co-operatively under the Southern Regional Education Board. Curricula leading to degrees are offered in the fields of Forest Management, Wood Technology, Pulp and Paper Technology, and Lumber Products Manufacturing and Merchandising."

Editor Hoskins said the article on State College is the first in a series of key institutions in the South. Another school will be featured next year.

Prof. Henderson to Attend SAM Meet

Prof. David E. Henderson, head of the Department of Industrial Engineering at North Carolina State College, will participate in a meeting of the Greensboro chapter of the Society for Advancement of Management in Greensboro Wednesday. Professor Henderson is a national director of the Greensboro SAM chapter.

Edgar B. Warren Receives Aero Fund

Edgar B. Warren, Jr., of Winston-Salem, has been awarded the Luther W. Cartwright, Jr., Memorial Scholarship in aeronautical engineering in the School of Engineering at North Carolina State College, Dr. J. H. Lampe, dean of engineering, announced recently.

The scholarship, valued at \$200, was established in 1943 in memory of Luther W. Cartwright, Jr., a State College alumnus who gave his life in the service of his country. It was created at the college by Cartwright's parents, Lieutenant Commander and Mrs. Luther W. Cartwright of St. Petersburg, Fla. The scholarship is presented annually to a junior or senior in aeronautical or electrical or mechanical engineering at the college.

Warren, son of Mr. and Mrs. E. B. Warren of Winston-Salem, is a junior in aeronautical engineering at State College. He was recommended for the award by his department head.

Dean Lampe expressed the belief that the award "will serve as an inspiration to Edgar Warren to continue his aeronautical engineering education and at the same time improve his abilities."

Info on Korea Vets Payments Released

The following notice concerning Korean veteran's subsistence payments was received from W. L. Mayer, Director of Registration.

Korean Veterans who were in attendance as veterans at this institution prior to this September and therefore registered on September 22 or thereafter need not come to the Registration Office to sign for September subsistence until November 2, 3, or 4. September and October payments will be combined for this group.

Korean Veterans who are attending this institution for the first time and who were required to come to the campus before Sunday, September 20, should report to the Registration Office on October 1, 2, or 3 to sign for September subsistence.

Attention All Vets: New Group Forming

All Veterans of World War II and the Korean War who are interested in forming THEIR OWN ORGANIZATION meet at 7:30 Wednesday night, Oct. 21, 1953 in the auditorium of the YMCA.
