

Sigma Chi House Burgled By Sae's

The Sigma Chi fraternity house at 2514 Clark Ave. was broken into early Sunday morning. Two screens were slashed and entrance made through a basement window even though every door in the house was unlocked.

A large hollow cross in the shape of the Sigma Chi fraternity pin was stolen as well as a smaller replica of the same pin and another model of the fraternity pledge button. Nothing else was taken.

Officers of Sigma Alpha Epsilon fraternity located at 2414 Hillsboro St. have acknowledged that members of their fraternity committed the burglary and have apologized to Sigma Chi for the action.

The big cross was hung on a statue in Capitol Square early Sunday morning. This action was

observed by a passerby who notified the police. The police investigated but arrived on the scene too late to catch any of the 10 or 15 persons reported to have been helping with the cross hanging.

The burglary of their house was reported by Sigma Chi Sunday afternoon. Police say the break-in could be classified as first degree burglary which is punishable in North Carolina by death.

SAE has offered to repair all damage done to the house and property of Sigma Chi. They expressed the hope that formal charges would be dropped.

Sigma Chi spokesmen state that if suitable action regarding this matter is taken by the Interfraternity Council the charges would be dropped.

SAE rushing privileges were lifted earlier last week for infractions of the rushing rules set up by the IFC. The fraternity may do no rushing or pledging from November 31, 1953 to October 31, 1954.

Girls - Girls - Girls

Approximately 75 girls from Greensboro College, Flora MacDonald and Stratford will arrive on campus Saturday, October 24, at 6:00 p.m.

We will need boys to meet the girls at Pullen Hall and escort them to the Cafeteria for dinner, Dutch style, at 6:30. You will go through the line and take your tray to Room A or to the Grill Room.

Following dinner, there will be a "get acquainted" party at Frank Thompson Gymnasium at 7:30. Girls from Rex, State Hospital, Peace, St. Mary's and Meredith will also be present for this party.

After the "get acquainted" party, all will go to the William Neal Reynolds Coliseum for the reception and dance in honor of our new Chancellor, Dr. Carey Bostian.

Picture Fee Can Be Reduced to \$2

Agromeck Editor Says The Reduced Rate Will Result If 3,000 Student Pics Are Taken

If 3000 students have their Agromeck pictures made the picture fee will be reduced to \$2.00.

This announcement has been released by Dave Sontag, editor of the "54" Agromeck.

All students are urged to come in immediately and have their pictures made.

The Waller and Smith photographer will be working in the publications building from 9 to 12 and 1 to 5 every day from now until Wednesday.

There will be a meeting of the Agromeck staff on October 27th in the Publications building at 7:30 p.m.

CU 'Term Dance' Set for Oct. 30

The "Term Dance" will take place at the Frank Thompson Gym on the 30th of October from 8 to 11 p.m.

This dance is sponsored by the College Union Dance Committee and Social Committee.

The program theme is "Autumn Serenade." Music will be furnished by Charlie Brown's five-piece band.

Refreshments will be served and some girls will be available for stags. However, the CU suggests that all students planning to attend the dance try to bring a date since the actual number of girls at the dance may be small.

It is requested that everyone come dressed in coat and tie. Admission is free upon showing registration card.

Unitarians To Meet

The Unitarian Fellowship of Raleigh met Wednesday evening, Oct. 21, at 8 o'clock in room 109, Riddick Hall at State College. Reverend L. C. Prater, minister of the Universalists Churches at Kinston and Outlaw Bridge, spoke on the "Andover Joint Conference of the Universalists and Unitarians."

Parking Lot Shrinks In Summer Heat

The Owen-Tucker parking lot underwent a shrinkage during the summer. Thirty-six feet on the dormitory side of the lot was sliced off when the line of posts was moved toward the road. About eight feet of this lost area is taken up by a second walkway, and the rest of it is still in undeveloped red clay.

The parking lot now is 69 feet wide. If the posts on the dorm side were moved back to where they were last spring, the lot would be 105 feet wide. The driveway between the two rows of cars in the lot is 36 feet wide. If the posts were moved back, this area would be doubled.

In other words, with the line of posts back nearer the dorms the aisle between car rows would be 72 feet. It is possible that a third row of cars could be set up down the middle of this enlarged aisle and still leave two separate driveways each 27 feet wide. This might

Chancellor's Ball Sponsors

Sponsors of a dance and reception to be given in honor of Chancellor and Mrs. Carey H. Bostian of North Carolina State College are pictured here. The dance and reception will be held in the William Neal Reynolds Coliseum at the college Saturday night, Oct. 24, from 8:30 until 11:30 o'clock. Dick Gable and his orchestra will provide the music. The sponsors, with their escorts listed, are shown above. Top row, left to right: Mrs. Billy Barnes Oliver of Selma and Raleigh with her husband, who is president of the State College Campus Government; and Miss Gray Proctor of Marion with Larry Petty of Gastonia, president of the Interfraternity Council. Bottom row, left to right: Miss Nan Williams of Farmville with Davis Turnage of Fountain, vice president of the College Union and co-chairman of the dance and reception; and Miss Jean Christian of Columbus, Ohio, with Jack McDade of Chapel Hill, president of the State College Interdormitory Council. The dance and reception are open to all students, faculty members, alumni, and friends of State College. At least 5,000 persons are expected to attend.

Chancellor's Ball Plans Completed; Program Includes UAI Dancing Girls

Plans are almost complete for the reception and dance to be presented in honor of Chancellor and Mrs. Carey H. Bostian of North Carolina State College here tomorrow night.

The dance and reception will be held in the William Neal Reynolds Coliseum at the college Saturday night from 8:30 until 11:30 o'clock. An attendance of at least 5,000 is expected.

Mrs. Ralph W. Cummings, president of the State College Woman's Club, and Davis Turnage of Fountain, vice president of the College Union, are serving as co-chairmen of the event. They have announced the addition of a number of features to the program.

The United Arts Institute of Raleigh, headed by Mrs. Ann McLean, will present several dance numbers during the dance intermission.

Fred Fletcher, manager of Radio

Station WRAL in Raleigh and a State College alumnus, will be the master of ceremonies during the intermission.

Music for the dance will be provided by Dick Gable and his orchestra of Raleigh.

Refreshments will be served by members of the State College Woman's Club.

Students, faculty members, alumni, and friends of State College have joined hands to honor Dr. and Mrs. Bostian. A member of the N. C. State faculty since 1930, Dr. Bostian became chancellor of the college Sept. 1, succeeding Col. J. W. Harrelson.

Mrs. Cummings said all students, faculty members, alumni, and friends of State College are invited to the event. Officials and trustees of neighboring institutions of higher learning also are invited, she said.

United Fund Drive and State Student Legislature Are Discussed at CG Meet

The Campus Government meeting was called to order last Tuesday by Billy Oliver. The minutes having been read and approved, Dave Barrett was sworn in as a member of the Campus Government as a representative of the Honor Council.

Billy brought up the United Fund Drive. He asked the Council to approve the United Fund. He stated that we have a choice of either one Fund Drive or two. The United Fund and the World Student Service Fund are the two drives. Mr. King of the Y.M.C.A. spoke to the Council about this drive. He asked that the students decide whether there should be one drive all under the United Fund, or two—the United Fund and the W.S.S.F. Mr. King did suggest though, that the Council only hold one drive under the United Fund Drive, if under one drive the matter of distributing the funds should be settled by a committee appointed by the Council. Mr. King also asked the Council's opinion about the separate drive held in the Coliseum for the W.S.S.F. He went on to explain the function of the World Student Service Fund. He stated that this fund is an international fund. The money is distributed by the countries that have good schools to the countries that need money for educational purposes. The money collected here at State will go to Indonesia to help the college in that country. Bob Sample moved that the Council approve one drive under the name of the United Fund drive. The motion passed. It was then moved that the President appoint a committee to handle the funds received, and to appropriate these funds. The motion passed. The committee will report its decisions for approval to the Council.

Dave Barrett made the motion that the Coliseum be asked not to collect W.S.S.F. funds. Mr. Reed made the sub-motion that the question as to whether the Coliseum would make collections be referred to the committee of the United Fund drive.

Harold Anderson, Chairman of the Promotions Committee, then presented his report to the Council. Harold then asked the Council to approve his report. The request passed.

Tom Memory, Chairman of the Student Welfare Committee, then gave his report. He brought up the subject of the railroad crossings. Tom Memory asked the Council to accept his report. Bob Sample made a substitute motion that the Council would like to have more underpasses and no grade crossings. Tom Memory asked the Campus Government to go on record as urging completion of the design of the project, and asked that the Council go on record for more money from the Legislature for completion of this project. The motion passed.

Joe Saltz then presented his report on the State Student Legislature. He suggested that the Council form the State College Legislature to work with the State Student Legislature. Joe then read the constitution that was drawn up for the State College Legislature. The motion was made to ratify this constitution. Mr. Reed made a substitute motion that the article in the constitution which asked for an appeal to the Campus Government for finances be repealed. The original motion was passed and Mr. Reed's substitute motion was not passed, however, since there was not a quorum present, the vote was not official.

Deadline On Variety Show Entries Near

The College Union Theatre Committee invites you to participate in the annual Student Variety Show. Several parties have already entered, and with your participation this can be the best show yet.

Last year there was quite a variety of presentations. Among other things a pantomime, comedy, musical, western, and piano recital were presented, with everyone enjoying the consequences, the actors included.

This year, as last, four trophies will be presented to the winners. Note that these are permanent trophies—once you win them, you keep them. So you see that you have nothing to lose, and as the old saying goes, everything to gain. Recognition, honor, publicity—not to mention the whale of fun—all are yours almost for the asking.

Drop by the College Union Office (135-1911 Building) TODAY and sign up for the show. Hurry! The deadline for entries is not far off.

Discussion Club To Discuss Hypnotism

The Student Discussion Group, which was so popular with those who attended last year, will hold its second meeting next Tuesday, October 27, at 8 p.m., in Peele Hall lounge.

The speaker for the evening will be Prof. Carter of the Psychology Department, who will hold forth on: "Hypnotism and Suggestibility."

The practice of the Group is to restrict the speaker to a 15 or 20 minute introduction of the problem (Continued on page 4)

N. C. State Students to Present "A Century of Progress" at Fair

The poultry booth depicting progress in the State's expanding poultry industry since 1853 Monday took first-place honors in the annual "Students' Ag Fair," which is being presented this week by North Carolina State College students as a feature of the State Fair.

John Crawford of Earl, a student in State College's School of Agriculture, was chairman of the committee of students working on the booth.

The winning exhibitors were awarded a trophy and blue ribbon.

Students in the Agronomy Department captured second place with their booth showing a century's progress in the State's multi-billion dollar tobacco industry. "The Tobacco Road to Progress" was the theme of their exhibit.

Charles A. Fulp of Winston-Salem was chairman of the agronomy booth.

Third place in the student exposition went to the horticulture booth prepared by a committee of students working under the direction of William B. Nesbitt of Edneyville. The agricultural economics booth was fourth and was arranged under the direction of Larry C. Reater of Hurdle Mills and James G. Hilton of Ames, Iowa.

Officers of the "Students' Ag Fair" this year who are coordinating the exhibits of 10 departments in the college's School of Agriculture and School of Education are Johnnie K. Beck, Route 2, Lexington, chairman; William A. Mericka, Route 2, Brown Summit, vice chairman; William S. Enlee, Route 1, Hendersonville, secretary-treasurer; and Jackie S. Daughtry, Route 3, Mount Olive, publicity chairman.

"A Century of Progress" is the theme of exhibits and demonstrations presented by State College students at the State Fair.

Scores of the college students worked on the exhibits, which review 100 years of achievement in 10 major fields of agriculture.

More than 70 students prepared the booths for the student exposition. In addition, 30 members of the State College Animal Industry Club are showing dairy cattle and sheep from the college farms.

An additional student feature of the fair—requiring the work of 35 more students—is a pottery demonstration in which students from the State College Industrial Arts Department turn out examples of products that can be made at a potter's wheel.

Headed by David Brown of Raleigh, the industrial arts students are presenting displays and demonstrations in art metal work, electricity, wood carving, plastics, and leatherwork.

In helping to observe the 100th anniversary of the State Fair, State College students are carrying out a tradition as old as the college

itself. N. C. State students always have been closely allied with the fair. In the exposition's early history, the fairgrounds were adjacent to the college campus and major football games were scheduled as a part of the fair program.

Other departmental chairmen are:

O. Gerald Young, Mars Hill, animal industry; Charles L. Overman, Edenton, agricultural engineering; Carl F. Ipock, Cove City, agricultural education; Francis L. Pless, Canton, rural sociology; Carl S. Yelverton, Raleigh, wildlife conservation; and Clifton R. Ammons, Lillington, agricultural chemistry.

Judges of the student agricultural exhibits yesterday were Betty Hight of Raleigh, Lewis Clarks of the State College School of Design faculty, and Clyde Auman of West End.

Ag Club Fair Exhibits

For the last two years the State Fair has paid the Agronomy Club to set up seven booths in the Educational Exhibits Building at the Fair.

Each booth represents a different crop. There is one booth for each of the following crops: peanuts, small grains, forage crops, tobacco, cotton, soybeans, and corn.

Audubon Screen Tour Thursday

The College Union Outing Committee will present one of a series of Audubon Screen Lectures, Thursday October 29 at 8:00 P.M. in the Textile Auditorium. Mr. Walter H. Shackleton will be the speaker as he presents an all color movie on Nature and Wildlife in the Bluegrass State. Upon retiring from business in 1946, he settled on a 200 acre tract of land in "Sleepy Hollow," a land of Kentucky lakes, swamps, upland marshes and deep woods. There he began his work in photography of animals and nature. His efforts resulted in the absorbing color film, "Oddities in Nature."

Today, in retirement, he makes extensive studies on wildlife, many of which have been published in Kentucky natural science magazines,—in addition to his comprehensive color photography.

Each booth has a student chairman, a faculty advisor, and several students in the department to help set up the exhibit. The aim of each group is to have an exhibit that everyone can understand, and also one by which all farmers may profit. Simplicity and educational value are the main points stressed. Judges are required for these booths and prizes are given for first, second, and third places.

Mr. Shackleton's movie and theme will be "Rhapsody in Bluegrass." He will take his audience on a colorful carpet tour of the bluegrass state.

Kentucky's scenic contrasts—from lowlands of the west, through the famous bluegrass region, to the mountain gorges of the Appalachians in the east, taking time, enroute, to find out interesting things about the wildlife that abounds within the state.

Owls; tiny termite-eating ring-necked snakes hatching from their eggs; a rare example of albinism in the blueheaded bullfrog; raccoons and flying squirrels; old stone fences, ancient spring houses and mansions that are gems of ancient architecture—these are the outdoor harmonies that make up Walter Shackleton's "Rhapsody in Bluegrass."

A fast moving, lively film, full of wildlife lore, portraying unusual features of seemingly commonplace subjects. A program to arouse intelligent interest in nature.

There is no admission charge for this event and the public is cordially invited to attend.

Animal Industry Club Will Meet At Polk

The Animal Industry Club met Thursday, October 15, at 7:00 p.m. in 109 Polk Hall.

Tom McDaniel gave a report on the possibility of the A. I. Club serving the breeders at the annual Beef Conference on December 10-11. This report was voted on and passed.

Henry Ramseur said the A.I. Club would have a Milk Bar and he asked for boys to work in it.

Gerald Young gave the plans for the booth at the State Fair. He also asked for men to come out and help.

What's buzzin', Cousin?

A sophomore at a midwestern college was bothered by buzzing in his ears and headaches. He went to doctor after doctor ... had his appendix and tonsils removed ... his teeth pulled. But nothing helped. Finally, the doctors gave up and told him he had only 6 months to live.

The young fellow decided to "live it up" for his last 6 months. First, he went to his college sportswear shop for the smartest sport shirts money could buy. Naturally, he chose Van Heusen's VAN GAB.

"VAN GAB is completely washable," beamed the salesman. "See the saddle-stitched trim about the collar and pockets. Feel the silky texture of the fabric. And only \$5.95. With a 15 neck like yours, I suggest a Medium size."

"Don't waste my time," snapped the fellow. "Give me one of each of the 18 smart solid colors. Size 14."

"But sir," gasped the salesman, "your neck is much larger than a 14. You need at least a 15."

"I've worn a 14 all my life, and I don't feel like changing now," replied the youngster, greatly annoyed.

"Okay," muttered the salesman. "But I warn you, that tight collar will give you buzzing in the ears and headaches!"

CU Sunday Movie Huston's 'Treasure'

The "Treasure of Sierra Madre" is not essentially a western, as the name might imply, nor is it a comedy. Rather it is a human drama, down to earth, hitting with all the impact director John Huston can muster.

The story is a sardonic, intensely realistic tale of three Americans in the mid-twenties striking off into the depths of Mexico's mountains in search of gold. They are constantly harried by bandits, jungle

Indians and even have to deal with a shrewd Texan. The story is told with intelligence, humor, and suspense.

Rated high among the products of well-known director Huston, this picture stars Humphrey Bogart, Walter Huston and Tim Holt as the adventure-seeking prospectors. A galaxy of fierce Indians and bandits round out the cast.

Recent crowds have been very good for the CU movies and it is hoped the trend will continue. Starting time is 8:15 p.m. in the Textile auditorium.

EDITORIAL COMMENT:

THE EDITOR SAYS:

Don't Fence Me In

Plans are now being made and money is available for a fence to be erected along the railroad tracks which cross the campus.

The money was appropriated at the last session of the legislature for the specific purpose of erecting the fence and installing warning signals at two pedestrian crossings. In addition the areas between tracks at the two crossings were to be filled with asphalt to give a smooth walkway unlikely to trip or trap anyone using the crossing.

The plans are being drawn up by the Campus Engineer's office and may be finished sometime in the future.

The reasons given for erecting the fence were as follows: to eliminate or reduce the danger of students being killed or injured by trains and to lessen train noise. The danger to students would supposedly be reduced by the smooth crossways which would prevent their tripping over rails or catching their feet in switches and by the lights and bells which will blink and ring respectively when a train is approaching the crossing. Vines will be trained to grow on the fence and this is supposed to reduce train noise.

We think both reasons are absurd and that furthermore the fence should not be put up at all.

We are all for eliminating any safety hazards on the campus and agree that the railroad is a hazard (two students have been killed by trains in the last 50 years). But we do not think the projected fence plans will eliminate the hazard. To begin with, while the two crossings will be furnished with warning devices students won't necessarily heed them. After the average student has waited five minutes for a stalled train to move on he is finished waiting and will go under or around the train, signals notwithstanding. Furthermore if it seems shorter the average student will walk along the tracks from one crossing to the next. And

even though the crossings are to have warning devices the trains will continue to sound their horns which are certainly as loud, even at half a mile, as the bells are likely to be.

Which brings us to a consideration of noise and the effect thereon of vine covered fences. The noise of diesel locomotive motors and horns is certainly a nuisance and we are also all for reducing this noise. But we seriously doubt that any great reduction of noise will result from the 14 foot vine covered fence. In fact more noise, in the form of crossing warning bells, is being added to the already overburdened ears of the students.

Future hopes are for underpasses (no consideration appears to have been given to overpasses although they present fewer construction problems than underpasses) which would eliminate train hornblowing as well as the grade crossings with their bells. But it may be ten years or even more before these hopes become realities.

In the meantime we think a better plan would be to fill in the tracks with asphalt at all points where any large number of students regularly cross the tracks. The two projected crossings are at Frank Thompson gym and behind Riddick building. But students cross the tracks regularly at least two other points (the fence would eliminate these crossings and force many students to take round about paths to class).

Also we think trees planted along the tracks would do as good a job of muffling the sounds of the trains as the fence and would certainly present a more pleasing appearance.

The erection of this fence would make even more obvious the split nature of our campus.

In closing, we see no point in spending \$85,000 for something which is useless, unnecessary and unsightly even if it means losing this amount of money altogether.

Colonel Harrelson Accepts Task of Heading D. H. Hill Library Archives

Col. J. W. Harrelson, former chancellor of North Carolina State College, has been designated to head the archive collection in the D. H. Hill Library at the college. Chancellor Carey H. Bostian and President Gordon Gray announced early this week.

In making the announcement, Dr. Bostian said Colonel Harrelson who has long been interested in the improvement of the college library, has accepted an assignment on a part-time basis to organize the institution's archive materials, to prepare an inventory of them, and to compile a catalog of the archives.

The appointment was effective October 1. Colonel Harrelson retired as chancellor of State College on September 1 after 19 years of service as head of the institution. He was connected with the college approximately 48 years prior to his retirement and is a former director of the State Department of Conservation and Development.

"We are very pleased," Dr. Bostian said, "that Colonel Harrelson has accepted our request to do this special work for the college. He has been connected with the college throughout all of its history, except the first 16 years, and there is no one better qualified to as-

sume this important assignment of organizing our archive materials. Through his long association with the institution, he has perhaps a better acquaintance with the history of the college than any other person."

Dr. Bostian said Colonel Harrelson's salary will come from funds contributed especially for this work. He will occupy an office in the new Library Building, now nearing completion at State College.

In his new duties at the college, Colonel Harrelson, Dr. Bostian said, will make "more usable a vast accumulation of materials relating to the history of State College." A room in the new Library Building will be set aside for the purpose of housing the college archives.

Commenting on the development, Harlan C. Brown, librarian at State College, said:

"The faculty and staff of the college have long felt the need for the project assigned to Colonel Harrelson, and organization and cataloging of the materials accumulated over the many years of the college's history will make available the resources now preserved, and will invite the contribution of other materials to add to the collection."

Ag Econ. Club Has Student-Faculty Meet

The Ag. Economics Club met for the third time this year, in a "student-Faculty get together" meeting, last Thursday night. The meeting was conducted on an informal basis under the direction of Dr. James, Head of the Department and Chairman, Jim Holton. This meeting marked a new experience in the Department in the sense that for the first time members of the teaching staff, Extension personnel, graduate and undergraduate students got together to talk over mutual problems and swap ideas.

The meeting was opened with the introduction of those present and having each person comment briefly on their education, experiences, and present work. Matters discussed included the new curriculum in Ag. Economics and the many employment opportunities for Agricultural Economics graduates. Also the Departmental exhibit at the State Fair was discussed and ideas were presented by members of the staff and students for preparation of the exhibit.

Dr. Pierce, Faculty advisor for the Departmental Honor Committee and recently elected Faculty Representative from the School of Agriculture to the Student Govern-

Ball Chairmen
Are Announced

Committee chairmen for the dance and reception to be given in honor of Chancellor Carey H. Bostian of North Carolina State College and Mrs. Bostian on October 24 were announced Tuesday by Mrs. Ralph W. Cummings, president of the State College Woman's Club, and Davis Turnage of Fountain, vice president of the College Union.

Mrs. Cummings and Turnage are co-chairmen of the event, which is expected to attract at least 5,000 persons. The dance and reception will be held in the William Neal Reynolds Coliseum Saturday, Oc-

tober 24, from 8:30 to 11:30 p.m.

The committee chairmen follow: Refreshments—Mrs. Roy Carter of the College Woman's Club; arrangements and decorations—Larry Petty of Gastonia, President of the Interfraternity Council and Banks C. Talley, Jr., assistant dean of students.

Entertainment—Roy Congleton of Chadbourne, president of the College YMCA; social—Carolyn Jessup, social director of the College Union; hospitality—H. W. (Pop) Taylor, director of alumni affairs, and Coliseum Director W. Z. Betts; invitations—Frank Turner of Raleigh, president of the State College Alumni Association, and Mrs. Turner; publicity—Jack McDade of Chapel Hill, president of the Inter-dormitory Council, and Rudolph Pate, director of the College News Bureau.

Officers of the "Students' Ag Fair," which will be presented by North Carolina State College students as a feature of the State Fair in Raleigh, Oct. 20-24, are shown above. The student exposition will consist of 10 booths depicting the progress of agricultural technology during the past 100 years. Top row, left to right: Johnnie Beck, Route 2, Lexington, chairman; and William A. Mericka, Route 2, Brown Summit, vice chairman. Bottom row, left to right: Jackie S. Daughtry, Route 3, Mount Olive, publicity chairman; and William S. Enloe, Route 1, Hendersonville, secretary-treasurer.

Branch General
Is Explained

The Military Science Curriculum at N. C. State College has for many years dealt with training students as junior officers in the specific combat arms and technical service branches of the Army. There have been five technical service branches at the college from which students may choose. However, after the 1953-54 school year, there will be no specific combat arm or technical service branch at N. C. State College. Branch General instruction has taken over the military program.

What is Branch General? Branch General is the new method of training R.O.T.C. cadets for future service in our armed forces. It does not confine one's knowledge to one branch only, but gives an overall knowledge of work carried on in the Army and concentrates on the Fundamentals of Military leadership. Its purpose is to train junior officers to best fill the needs of the branches of the Army at the time of their assignment.

During their senior year Cadets will state their preference for assignment at graduation to any of the 15 arms and services of the Army. Recommended assignments will be made by a group of Army

(Continued on page 10)

DISCUSSION—

(Continued from page 1)

so that most of the time can be devoted to a general discussion based on questions and comments from the audience.

Last year some of the topics discussed were "Modern Art," "The Theory of Communism," and "What We Know About the Planets." This year the students will again cooperate in selecting the topics, and anything from religion and ethics to science and politics is open to them.

Everyone interested in testing his opinions and increasing his knowledge in matters of general interest is cordially invited to attend.

Waltner Returns From Stockholm

Dr. Arthur W. Waltner, associate professor of nuclear engineering at North Carolina State College, has returned to his post at the college after a year's leave of absence with the Atomic Energy Company of Stockholm, Sweden.

Dr. Waltner during his absence exchanged jobs with Prof. Pelle Isberg of the Swedish Atomic Energy Company, who taught at State College while Dr. Waltner did atomic research work for the Swedish firm. The Atomic Energy Company of Sweden is a private agency with the government owning its major stock.

Both Dr. Waltner and Professor Isberg are experts in nuclear engineering and have contributed to the two nuclear development programs with which they are associated in Sweden and the United States, respectively.

In Sweden, Dr. Waltner worked with Professor G. von Dardel, head of the nuclear physics division of the Swedish Atomic Energy Company. They have written a preliminary report of their work, which

was published in a recent issue of "Physical Review," the official organ of the American Physical Society. Dr. Waltner and Dr. von Dardel will complete an article by correspondence during the winter months under the title, "Determination of the Neutron-Proton Capture Cross Section."

A member of the State College faculty since 1948, Dr. Waltner was previously on the staff of the Physics Department of the University of North Carolina, where he obtained his doctoral degree. He has been a North Carolina resident since 1943. He is a member of the American Physical Society, American Association of Physics Teachers, Elisha Mitchell Scientific Society, and Sigma Xi.

Dr. Waltner was accompanied to Sweden by his wife and two daughters. Before returning to this country, the Waltner family this summer visited in Denmark, Germany, Austria, Switzerland, France, and England. During the winter months, they visited Norway.

Schoenborn Attends AICE Meet In NYC

Dr. E. W. Schoenborn, head of the department of chemical engineering at North Carolina State College, took part in a meeting of the research committee of the American Institute of Chemical Engineers in New York City Oct. 13-14.

The meeting reviewed the progress of three research projects sponsored by A. I. Ch. E. at State College, the University of Delaware, and the University of Michigan.

Dr. Schoenborn is technical director of a \$23,000 project recently awarded State College by A. I. Ch. E. The contract was signed on a one year basis but is expected to run four or five years. The project is part of a long range research program in distillation recently initiated by the American Institute of Chemical Engineers.

Confusion Galore All Over Three—let us say—professors sat talking in a railway station.

They were so engrossed in their conversation that their train arrived without their knowing it.

However, as it started to pull out, they noticed it and raced for the rear observation car platform. After a spirited dash two of them caught the train; the third turned back dejectedly.

"Too bad," sympathized the station agent, "your two friends are going away on a nice trip but you are left behind."

Public Relations Comm. Meets

The Public Relations Committee of the North Carolina State College Development Council met at the Guilford Dairy on West Market Street in Greensboro last Tuesday.

The Public Relations Committee is headed by Mose Kiser of Greensboro, manager of the Guilford Dairy Cooperative. Other committee members are Herbert E. O'Keefe of Raleigh, Sunday editor of *The News and Observer*; Charles Crutchfield of Charlotte, executive vice president and general manager of the Jefferson Standard Broadcasting Company, WBT and WBT-TV; John Gordon of Raleigh, Southern advertising director of *The Progressive Farmer*; and John S. Patterson of Greensboro, public relations director, Carter Fabrics Division, J. P. Stevens and Company.

Various committee reports were made during the meeting. Chairman Kiser presided and led the discussions.

The Public Relations Committee is one of several committees working with the State College Development Council in planning and coordinating the long-range advancement of State College.

City, Charles Scott's Band (University of Richmond), and Ed Gerlach's Band (University of Houston).

The winners were selected on the basis of private recordings submitted to the judges: Bandleaders Stan Kenton, Ray Anthony and Billy May; Alan W. Livingston, Vice-President of Capitol Records; George Simon and Barry Ulanov, editors of *Metronome Magazine*.

College Band Record Sells Commercially

A commercial record by an undergraduate college dance band went on sale late this summer in record stores in all parts of the country.

The record, "Cream Puff" and "September In The Rain," was made for Capitol by the Los Angeles City College "Collegians," winners of a contest sponsored by *Metronome Magazine* to find "the best college dance band in the land."

Making a popular record under a major label was a prize in the contest, in which runner-ups included Fred Dale's Band (Indiana Univer-

16 Graduate Students from U.S. and Abroad Receive \$1,200 Scholarships

Graduate fellowships totaling \$19,200 have been granted to 16 students in the School of Engineering at North Carolina State College it was announced recently by Dr. J. H. Lampe, dean of engineering at the college.

The fellowships, valued at \$1,200 each, are awarded for one academic year of graduate study and part-time employment in teaching and research.

Holders of the fellowships will teach basic courses in chemical, civil, electrical, geological, and mechanical engineering, and will also carry out basic research in their chosen fields of engineering.

Through the fellowship program two years are required for a graduate to obtain a master's or a professional degree and while he is earning his degree he is also adding to the teaching staff of the School of Engineering where he can devote more individual attention to undergraduate students.

Dean Lampe named the new recipients of the fellowships according to departments as:

Chemical Engineering: F. B. Jones of Raleigh, who is a 1953 graduate of State College, has served in the Army Air Force, and has been employed by civil service, E. I. DuPont de Nemours and Stahl-Rider, Inc., of Raleigh. He is a member of Tau Beta Pi, Gamma

Sigma Epsilon, and Phi Eta Sigma. C. T. Foster, Jr., of Burlington, who is a graduate of State College, has served in the U. S. Army ordnance and is a member of Tau Beta Pi and Gamma Sigma Epsilon.

Civil Engineering: Billy Rose of Wilson, who is a 1953 graduate of State College and is a member of Chi Epsilon.

Electrical Engineering: Sin Ben Jen of Taipei, Tawan (present capital of Free China in Formosa), (Continued on Page 6)

Oct. 31 Is Closing Date For Fulbright Scholarship Applications

October 31, 1953, is the closing date of the competitions for United States Government educational exchange grants for graduate study abroad, it was announced today by Kenneth Holland, President of the Institute of International Education, 1 East 67th Street, New York City. One month remains in which to apply for awards under the Fulbright and Buenos Aires Convention Programs for the 1954-55 academic year. An exception is the program for Australia and New Zealand, for which October 15 was the closing date.

Scholarship application blanks are available at the Institute or in the offices of Fulbright advisers on college and university campuses. A brochure describing the overseas study awards may be obtained from the Institute.

The programs under the Fulbright Act and the Buenos Aires Convention (for the Promotion of Inter-American Cultural Relations) are part of the international educational exchange activities of the Department of State. They will give almost 1,000 American citizens the chance to study abroad during the 1954-55 academic year. Since the establishment of the Fulbright Program in 1947, over 2,700 American students have gone abroad under its auspices, and 974 have accepted grants for the current academic year. Under the older Buenos Aires Convention Program sixteen Latin American countries have each offered awards to one or two Americans a year since the program's inception in 1937.

Countries where U. S. graduate students may study under the Fulbright Program are Australia, Austria, Belgium and Luxembourg, Burma, Denmark, Egypt, Finland, France, Germany, Greece, India, Iraq, Italy, Japan, the Netherlands, New Zealand, Norway, Pakistan, the Philippines, Thailand, the Union of South Africa, and the United Kingdom. Special provision is made in the program for Germany for twenty-five grants to American graduate students who will serve as English language assistants in secondary schools. The countries participating in the Buenos Aires Convention Program are Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, and Venezuela.

Eligibility requirements for these foreign study fellowships are:

- (1) United States citizenship,
- (2) A College degree or its equivalent at the time the award is to be taken up,
- (3) Knowledge of the language of the country sufficient to carry on the proposed study, and
- (4) Good health.

Final selection of Fulbright grantees is made by the Board of Foreign Scholarships appointed by the President of the United States. The Institute of International Education, central private agency in the U. S. administering programs for the exchange of students, teachers, and specialists, is the agency designated by the Board of Foreign Scholarships and the Department of State to screen applications. Under the Buenos Aires Convention, the Institute makes the preliminary recommendation of candidates, with the cooperating countries making the final selection of candidates for study within their borders.

Fulbright awards are made entirely in the currencies of participating countries abroad. The Fulbright Act authorizes the use of certain foreign currencies and credits acquired through the sale of war surplus property abroad for educational exchanges. The awards cover transportation, expenses of a language refresher or orientation course abroad, tuition, books, and maintenance for one academic year. Awards under the Buenos Aires Convention include transportation provided by the United States Government, and tuition and main-

tenance allowances provided by the host governments.

Preliminary selections for other Fulbright awards, those for teaching, lecturing, or advanced research abroad, are made by the American Council on Education, the U. S. Office of Education, and the Conference Board of Associated Research Councils.

Waste Conference To Be Held At State

The operating committee of the third annual Municipal and Industrial Waste Conference met in the Riddick Engineering Laboratories Building at North Carolina State College last Tuesday afternoon.

Professor Nelson L. Nemerow of the State College School of Engineering, committee chairman, said that plans were laid for the forthcoming regional conference, which will be held at State College next spring.

A report on the second annual conference was also presented at the meeting.

Principal aim of the Southern

Babcock of CE Attends Recent Meet

W. F. Babcock, professor of civil engineering at North Carolina State College, took part in the annual meeting of the North Carolina

Municipal and Industrial Waste Conference, Professor Nemerow said, "is to bring together officials of industry, municipalities and other governmental agencies in the Southeastern part of the United States for the purpose of discussing similar problems in industrial wastes and the control of them."

The conference is held each year under the joint sponsorship of Duke University, North Carolina State College, and the University of North Carolina and has the support of the North Carolina Sewage and Industrial Waste Association.

Southern states participating in the event are Georgia, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia.

Representatives who were present for the committee meeting included Professors Nemerow, Richard Bright, and Charles Smallwood of State College; E. T. Chantlett, Marion Cranstrom, and D. A. Okun of the University of North Carolina; and Wesley Williams, acting head of the Department of Civil Engineering at Duke University.

League of Municipalities in Asheville early this week.

Professor Babcock, who is a coordinator for the league, presided at a committee meeting on public works. The committee mapped plans for a public works conference to be held at State College in the spring.

He also presented a talk in connection with a panel discussion on municipal street programs in North Carolina.

the Technician SPORTS

Through The Keyhole

LEONARD A. BINDER Sports Editor

In this year of one platoon football, a different type of player will be selected for All-American honors come the end of this season's play. The players must be offensive as well as defensive standouts. Unlike previous years gone by, two teams will no longer be picked but a combination of outstanding linemen and backs who have played both offensive and defensive football for their respective elevens will be in the running for the honors.

The Duke University eleven has three outstanding linemen who could play first string on any team in the land. They are Howard Pitt, Ed Meadows, and Bob Burrows. In the backfield, Worth Lutz and Red Smith rate with the best in the south. Meadows possesses the best chance of any of the previous men named to achieve All-America claim. The big tackle has been a standout in every one of the Blue Devil games so far this season. Although Lutz has been on the sidelines most of the year because of a bad knee, his natural grid potential is so potent that as long as he is in uniform, the opposition has considerable cause to worry. Burrows, a hard charging guard in the forward wall, is a vastly under-rated performer. He is fast and agile and is a real heads-up football player. Pitt is a tall and rangy end who can catch a forward pass as well as anyone in the country. He is a good faker and therefore gets behind the opposing safety man a good many times during a game. On defense, Pitt is a tough man to move out of the way on an end run. He is also an adequate blocker as well as a good hard tackler.

Carolina has two outstanding candidates for sectional as well as national honors. Ken Yarborough, a big rugged end, is one of the best defensive flankers in the conference. Although he is not quite the offensive threat that Pitt is, Yarborough is nevertheless every bit as valuable an end as is the aforementioned Mr. Pitt. Another Tarheel standout is halfback Ken Keller. This fleet back has been outstanding in just about every department for George Barclay's team this year. He was the hero of both the State and Wake Forest games and he possesses the natural ability to be a standout for the Tar Heels for the remainder of his college career.

Johnny Mapp of V.M.I. and Jimmy Thacker of Davidson are two crack running backs from the so called smaller institutions of the south. Both these boys would be an asset to any college team and their ability deserves a mention.

Mighty Maryland has a bevy of players who are standouts no matter when they enter the game. The team is sparked by quarterback Bernie Faloney. A problem was naturally posed at that position when everybody's All-American Jack Scarbath graduated last June. However, Faloney has made everyone forget about Scarbath and the Terrapins, under his expert play calling and direction, are headed for an undefeated season and therefore a now guaranteed Orange Bowl bid. And the outstanding back playing for Maryland is Chet Hanulak. A 165 pound senior from Hackensack, New Jersey, Hanulak is the break away runner that Maryland needs so badly to make their split-T attack work.

The Wolfpack is not without their share of good football talent. Don Langston and Eddie West are quickly developing into as good a two-some as one will find anywhere in the A.C.C. West is improving by leaps and bounds in every game and when this boy gets to be a senior, the opposition might well be playing against the most adept tailback in the land. Langston is at this moment as hard hitting a fullback as there is in the south. Don should really get all the acclaim that is due him for he is really one fine football player.

Maryland Is Grid Standout in Early Action in A.A.C.

By MIKE JACOBUS

Maryland's conquest of the Carolina Tarheels and Duke's loss to the Black Knights of the Hudson in the Polo Grounds in New York has taken some of the excitement out of the Atlantic Coast Conference standings. The Terrapins of Maryland are the only unbeaten, untied team remaining in the group. Duke is unbeaten in conference play but last week's defeat by Army has taken its toll and knocked the Blue Devils down a few rungs in national prestige. The Duke-Army tussle was close all the way, as are most big upsets, and the game ended with "Million Dollar" Lutz, Duke QB, being stopped on the Army "One Inch Line." It was a difficult play for the officials to call and when they did Duke was dropped from the lists of the mighty. Jim Tatum's Maryland ball club spluttered and stammered through the first half and fans wondered if perhaps an upset was in the making. One hundred yards was gained by Maryland via gifts in the form of penalties against the Tarheels. It has been speculated that this is some sort of collegiate record. Fumbles also slowed the action during the first half. In the second half the Terrapins put on the power and showed the 32,000 assembled fans why they are ranked third in the nation, just behind Notre Dame and Michigan State. The final score was 26 to 0.

The losses by Carolina and Duke take some of the luster off of their respective records. If at the end of the season there are more than three or four major teams in the nation it will come as a big surprise to those closely associated with the game. It is not only unlikely but very difficult for a team to play nine or ten games and win them all.

The ACC has signed a tow year agreement with the Orange Bowl Committee and with the Big Seven Conference. Until 1956 the ACC will have no legitimate champion, until all the schools are able to schedule each other and so until that time the representative will be voted on by the members of the Conference. Maryland seems to be the best and will undoubtedly get the nod. At this time it seems as if Oklahoma is the big team in the Big Seven.

In other games this week Wake (Continued on column 5)

THE Dorm Corner

By JERRY ARMSTRONG

Volleyball took over the dorm intramural spotlight last week as the teams which are contending for this year's championship crowds showed some of their power. Berry, Bagwell No. 1, and Owen continued to march in the football scene and to round out the program Owen took a tennis match from Owen.

Gridiron

Berry marked up their second win of the season from Becton No. 2 by via of a forfeit (the Becks just didn't show up).

Owen also had a "fire to the wire" game with Tucker No. 2, but some timely strategy gave them the victory (guess what? another forfeit).

The "fired up" Bagwell "Drag-nets" didn't fool around in their game with Turlington No. 2, as the score found the Turlins on the short end of a 16-0 battle. In the first period a pass from Ed Hill to Ed Sanderson accounted for the first tally and a duplication of the airways added the extra point. Buddy Gibbs was given credit for the scoring of a safety and this ran the score to 9-0. A pass play in the third period again proved to be a successful move and this time a Hill to Graig completion was good for a score. The point after touchdown was made and wound up the scoring for the game at 16-0. This was Bagwell's second win against no losses.

Vetville came up with quite a passing attack in their battle with Syme and they went on to wrap up the game 12-0. Barnhardt was one of the main threats on the Syme team, but he couldn't seem to get his team to rally for a score.

Fraternity

Elliot of Pi Kappa Alpha displayed great timing by his interception of a pass thrown by Gaier of Sigma Alpha Mu in the last seven seconds of their football game. There wasn't an opposing player near him as he scampered for the goal line and the winning touchdown. The final score was seven to nothing.

It was Tommy Lassitter who kept the Pika's moving with his fine running and passing. The team was constantly threatening and if not for the fine Sammy defense with Epstein and Steiger showing the way the game would have been decided sooner.

Kappa Alpha bested the Farm House 13-0. It was quarterback Sonny Hines who proved the deciding factor with his two touchdown passes to Hall and Roberts. A key man for the Farm House in the backfield was Taylor who ran well all afternoon.

Volleyball: In the volleyball circuit, Sigma Chi, P.K.A., and Kappa Alpha all were victorious in games played the past week. Sigma Chi rolled over P.K.P. by the lopsided scores of 15-1 and 15-10 P.K.A. crushed T.K.E. 15-4 and 15-2. Kappa Alpha won two close victories over Kappa Sig 15-12 and 15-13.

A.C.C. CONT'D—

Forest won over N. C. State by a 20 to 7 margin. The Deacons should be a tough team to beat during the last half of the season and might even win them all. South Carolina and Clemson were idle as they awaited their clash on Big Thursday in Columbia.

Saturday's games include N. C. State at Duke, Wake Forest at Richmond, and North Carolina U. puts its power against Georgia at Athens, Ga.

GALA GRID CONTEST AT RIDDICK TOMORROW NIGHT

Game To Be An Exciting One

The Sixth Annual Orphanage Bowl Game of Sudan Temple will be played here in Riddick Stadium at State College on Saturday evening, October 24th between the Oxford Orphanage and the Methodist Orphanage of Raleigh.

Kick-off time will be eight o'clock. The Orphanage Bowl Game was started six years ago by Sudan Temple with all proceeds going to the two schools. As a result of the first five games the schools have received \$24,382.50 each. The 1952 game was the most successful with the schools getting \$10,000.00 each. Oxford will be the favored club this fall and will be seeking its third straight win over the Methodist. The Raleigh team captured the first three games, but Oxford won in 1951 and 1952.

Besides being the most colorful high school game played in Eastern North Carolina each year it also attracts the largest high school crowd in the east as it has developed into a real football battle between the two schools. It is the game to win above all others on their respective schedules and the teams give the best they have.

The game this fall is expected to excel those of the past. The competition on the field between the rival teams will be at its best. The largest crowd ever to see the game is assured. The pageantry and color will excel anything ever seen at a football game in this section.

Noble Herbert Ruffin of Raleigh, general chairman, reports the greatest interest in the six-year history of the game. He says more advanced tickets have been sold than ever before. The Shriners are being assisted this year with ticket sales by laymen of the Methodist Church.

"We are confident this is going to be our greatest game and we are delighted because the Shriners stage the game for the benefit of the hundreds of fine kinds at the two orphanages," declared Noble Ruffin.

Ten high school bands will be on hand to help the uniformed units of the Temple stage a colorful pageant in the Stadium starting at seven o'clock. The bands will also take part in half-time activities. The school bands will be from Durham, Elizabeth City, Ahoskie, Oxford, Cary, Creedmoor, Raleigh, Goldsboro, Johnston County and New Bern.

"It is going to be a big night for the kids of the Methodist and Oxford Orphanages and for the thousands of Shriners and football fans who will be on hand to witness the keenly contested game and pageant," Chairman Ruffin said.

I.D.C. Expresses Its Thanks to All

By JERRY ARMSTRONG

The Inter-Dormitory Council and the members of the IDC Ball Committee would like to express their sincerest appreciation to all the students and other people who were responsible for the making of the IDC Ball such a success. A reported two hundred and fifty couples were present for the affair and all in all it was a success in spite of the location being changed.

Many questions and few answers have arisen over the reasons for the dance being moved to the Frank Thompson Gym. The main reason for the dance being moved was the slack ticket sale. Most people are aware of the financial expense encountered when renting the Coliseum for a dance. In consideration of this expense the Inter-Dormitory Council, at the middle of the week before the dance on Friday, could see no possible solution except to move the dance to the gym or risk the possible loss of several hundred dollars, because of the poor ticket sale.

Frats Compete In Volleyball

Volleyball

Tucker's No. 2 boys had their hands full with Becton No. 1, but came out on top to take the best two-out-of-three matches, 5-15, 17-15, and 15-8. Becton took the first game without much difficulty, but found the going a "little rugged" the last two games. In the second game the Tucks fell behind 15-14, but finally rallied three consecutive points to take the match. This win gave the Tucker boys a 1-1 record.

The other Tucker No. 1 team didn't have the troubles their dormmates had as they took two straight from Bagwell. One of the main reasons for their success was the terrific playing of Bernie Yurin, Mark Pernick, Bill Williams, and Ramey Armesteinberg. This gives Tucker No. 1 boys a 1-1 record so far.

A tall Syme No. 2 team overpowered and surprised the Berry

"Huskies." The game started with both teams matching point for point. Then, Fisher, one of the big spikers for Syme, powered one for the tie breaking point and added another to win the game, 16-14. A combination of the "Big Boys," Fisher and Causby, proved to be too much for the Berrymen in the second game also and Syme went on to take the match—winning the last game 15-10. Stanfield and Godfrey were the standouts for Berry.

Owen No. 1 won their games with the largest margins of the week by downing Turlington No. 1, 15-4 and 15-2. Crow, Croom, Vaughan, Ussery, Becker, and Purdee formed a winning combination for Owen. Owen's record now stands at two wins to no defeats.

Pro Grid Roundup

"Professional football is headed for its best financial year," according to Bert Bell, commissioner of the play for pay leagues. Along with this cheerful statement comes the prediction that every club in the circuit will lose at least three games. This shows that the commissioner feels that there is a great deal of balance throughout the league. Bell pointed out that this meant no reflection on the

Cleveland Browns who as yet are undefeated.

Bell noted that at this time there are only four clubs operating in the black. He would not name them but the AP guesses that they include the Detroit Lions, New York Giants, Washington Redskins, and the Los Angeles Rams. This writer wonders how the Cleveland Browns can be omitted and why the faltering Chicago Bears, once known as the "Monsters of the Midway" are also left off the list of \$ making teams.

THE DU PONT DIGEST

Research

provides broad opportunities
for chemists, physicists
and engineers cooperating
on many problems.

For one thing, much Du Pont research is fundamental, aimed at advancing scientific knowledge regardless of specific commercial objectives. However, such research often suggests new products... each with its own challenging technical problems which must be solved before commercial production can begin. Solving these problems offers another great field of work for teams of engineers and scientists.

"Teflon" tetrafluoroethylene resin is an example of this well integrated teamwork.

Howard E. Holmquist, Ph.D. in Org. Chem., Univ. of Minn. '51, is shown at work on a problem in synthetic organic chemistry.

Doing chemical engineering research on a plate in a distillation tower are: C. M. Gamel, Jr., S.M.Ch.E., M.I.T. '48; and J. B. Jones, M.S.Ch.E., Univ. of Mich. '46.

During research on refrigerants, the polymer was discovered and work was begun to make it useful. The new plastic had a remarkable combination of properties; temperature resistance beyond the range of any previous plastic, excellent electrical characteristics, and the highest degree of chemical inertness of any commercial plastic.

In fact, "Teflon" was almost too unusual. Although it melts, it is too viscous to flow like other plastics. It does not dissolve—even in aqua regia. There was no method for molding it or for making it into thin coatings.

The problem of molding was solved with the help of techniques used in powder metallurgy. "Teflon" is now molded by cold pressing, followed by sintering or "fusing" at about 360°C.

Research workers have available modern apparatus, such as the infrared spectrometer being used here by Vaughan C. Chambers, Ph.D. Arg. Chem., M.I.T. '50.

For coatings, previous research suggested dispersions—minute particles suspended in a liquid. After much study, a team of technical men learned how to suspend particles of "Teflon" about 1/125,000 of an inch in diameter. Then a commercial scale process was devised. This development made possible thin coatings of "Teflon" and also a process for extruding the material.

Meanwhile, another group discovered how to successfully formulate the new plastic into "Teflon" tetrafluoroethylene resin finishes and wire enamels.

The development of "Teflon" illustrates the close teamwork that is the basis of research at Du Pont. But this teamwork doesn't end with research. Bringing the product to commercial reality requires development and design work by chemists and both chemical and mechanical engineers. Next month's Digest will feature information on the opportunities Du Pont offers men interested in this phase of making "better things for better living... through chemistry."

ASK FOR "Chemical Engineers at Du Pont." New illustrated booklet describes initial assignments, training and paths of promotion. Just send post card to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware. Also available: Du Pont and the College Graduate and Mechanical Engineers at Du Pont.

BEAT THE BLUE DEVILS!!!

B.S.U. Plans for New Home

The Baptist Student Union, one of the major Religious organizations on the campus, is led by a BSU full time Chaplain, Rev. R. C. Lasater. The Union organized at State about 29 years ago, its main object being to make mature Christians. The BSU now sponsors and plans many functions, both on and off the campus.

They work with the local Baptist churches by planning the programs for the college students attending these churches. On Sunday a college student going to one of these churches would follow this program: 9:00 a.m. doughnuts and coffee followed by Sunday School and then at 11:00 Morning Worship. That evening the Baptist Training Union meets for supper at 6:00 followed by a worship hour and then to finish the day a fellowship or recreation hour. The girls from the local girl's colleges attend this same program.

On campus the BSU has many weekly programs. They are, super discussions, bible studies, BSU choir, dormitory devotions, worship clinic and Cell Group meetings, plus social activities throughout the year.

The Worship clinic is a training program for the student leaders of church activities.

The Cell Group is a group of boys who devote a half hour every day to some sort of religious studies and meet once a week to discuss what they have studied. Their unusual name comes from old France when groups of people would hide in cells to study and worship God, so they would not be found and persecuted.

Some time this Fall the BSU plans to complete and dedicate their BSU Camp, located just out of Raleigh. On the camp there is a meeting building which is being built by the members of BSU. The building when fully completed will hold about 100 people.

The Unions plans for the future are: Dorm. bull sessions, and to move to a new location, which will be in the building located between the State Life Insurance Building and the A&P Store. The entire building will be used by the BSU. It will be financed by the B.S.C. of N. C.

B.S.U. activities are open to students of any religious affiliation.

Agronomy Club To Have Fair Booth

On Thursday, Oct. 8, at 7 p.m., the Agronomy Club meeting was held in William Hall.

The Club determined that the Agronomy booths at the Fair are to be judged as follows: General appearance, 25 per cent; clearness of idea, 30 per cent; guessing contest, 10 per cent; and educational value, 35 per cent.

Dr. Mann expressed his appreciation and that of the staff for the past performance of the Honor Council of the Agronomy Club. The Agronomy Club is credited with first putting into action a functional Departmental Honor Council. The newly elected members of the Council are Bill Collins, chairman; Charlie Fulp, Willard Wynn, James Adams, Donald Hudson, and Dr. Mann, the faculty advisor.

Delegates were elected to attend the National Agronomy Society at Dallas, Texas. Bill Collins and Gene Warren were elected as delegates and Hope Shackelford as an alternate.

Gene Warren volunteered his services as photographer. It was moved, seconded, and passed that Gene Warren be reimbursed for the expenses of pictures taken for the Agronomy Club.

The club voted to have a page in the Agromeck which would include a picture of a young lady to be designated as Miss Agronomy.

After the business meeting, the Club enjoyed an interesting program by Dr. Lovvorn. He lectured and showed slides connected with his travels while he was head of the Weed Investigation Program of the U.S.D.A.

Refreshments were served after the program.

All Agronomy students are invited to attend the next meeting.

I.F.C. Punishes S.A.E. Frat. for Dirty Rushing

Sigma Alpha Epsilon by an infraction of the rushing and pledging rules lost its eligibility to rush or pledge for one year starting this November first. It was discovered by the Interfraternity Council Investigating Committee that the S.A.E.'s had had several prospective rushees eating at their fraternity house on two occasions. This was considered a planned function and definitely not in accordance with the rules since it happened during visiting days. By a vote of 12 to 4 of the I.F.C. the penalty was invoked.

Blood Drive Rousing Success

State College's blood drive was an overwhelming success. The quota set for the three-day drive was surpassed so much that the Blood Mobile ran out of donor bottles on the third and last day.

The Red Cross and local officials would like to express their appreciation to Col. R. Middlebrooks, Col. Jowdy, Lt. Perkins of the Army and Air Force ROTC and Naval Reserve Center respectively, and to the wives of ROTC members who volunteered their time to the drive. To the donors they wish to extend a special thanks, for without you the Drive would not have been a success.

The blood collected here will be sent to Charlotte to be processed, after which it will be used as needed in national emergencies and the making of gamma globulin serum.

Raleigh Presbyterian To Hold Barbecue

The Westminster Fellowship of West Raleigh Presbyterian Church is sponsoring its quarterly barbecue and Brunswick stew at the

Church Fellowship Hall on November 4, 1953 from 5:30 to 7:30 p.m.

Everyone is invited to come over and enjoy all the barbecue and/or Brunswick stew he can eat for only \$1.00.

Tickets will be on sale on the State campus prior to the date of the supper, or they may be purchased at the door.

CALENDARS

There are still a number of College Union Calendars available for faculty, staff and students.

All students who did not receive a Calendar are requested to come by the College Union Office 135, 1911 Building and get one.

Faculty and staff members are requested to call Extension 378 if they desire a calendar for their office. These will be distributed by Campus Mail.

Here are two points to remember when you buy a new car! . . .

Chevrolet BUYER-BENEFITS are the Soundest

The thrilling "Two-Ten" 4-door sedan. With 3 great new series, Chevrolet offers the widest choice of model in its field.

Chevrolet PRICES are the Lowest of any line in its field!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Look at Chevrolet! You'll see that it brings you big-car styling, smoothly rounded Fisher Body beauty, and a rich, roomy, colorful interior with Safety Plate Glass all around in sedans and coupes. Features ordinarily found only in higher-priced cars.

Drive a Chevrolet! You'll be equally impressed by the outstanding pick-up and power as well as the smoothness and quietness of its advanced high-compression Valve-in-Head engine.

Test Chevrolet's handling-ease and riding-ease! You'll find that this car alone combines the greater comfort and convenience of Powerglide automatic driving,* Power Steering* and the Knee-Action Ride—just as it alone gives the protection of Jumbo-Drum Brakes, largest in Chevrolet's field.

And here's the best news of all. Chevrolet offers all these fine-car advantages at the lowest prices and with exceptional economy. Come in, see and drive this car, at your earliest convenience!

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models. Power Steering available on all models.

SEE YOUR CHEVROLET DEALER FOR ALL YOUR AUTOMOTIVE NEEDS!

Conveniently listed under "Automobiles" in your local classified telephone directory

Baptist Students Begin Program

Baptist students on 35 college campuses throughout North Carolina are cooperating this year in a program to provide food for hungry people over the world. The State College phase of this program is being initiated this week by the State College Baptist Student Union.

The program is being promoted under the word LISTEN. This word, adopted by the statewide officers of BSU, stands for the slogan, Love, Impels Sacrifice Toward Every Need. The aim of the project is to encourage each of the 15,000 Baptist students in North Carolina to give a penny a day or a meal a month to help provide food where it is needed.

To implement the project, a leaflet explaining the program and special "Listen" bags for saving the money will be distributed to the Baptist students.

Each month the money will be collected by representatives of the BSU and sent to the statewide BSU offices here in Raleigh. From this office it will be forwarded immediately to points of need. In most

instances the money will be sent through recognized existing agencies, such as CARE, CROP, American Friends Service Committee, HELP, and the Foreign Mission Board. Through this plan at least 99 per cent of the money given will be used for direct aid.

This program will continue throughout the school year. It will replace the missions and scholarship drives which have been conducted among Baptist students for the past several years.

The last of two worship clinics sponsored by the Baptist Student Union will be conducted by Rev. Beverly Asbury in the Faculty room of the YMCA at 7:00 p.m., Thursday, October 29. The clinic is planned for those who have responsibilities for planning and conducting inspiring and meaningful worship services in Sunday Schools, fellowship groups, and dorm devotional groups.

Mr. Asbury, pastor of the Baptist Church in Zebulon, is a graduate of Yale Divinity School. He has made a hobby of collecting worship programs and materials. He will discuss the guiding principles in the leadership of worship and the practical use of worship materials and aids.

Ag-Ed Seniors Are Practice Teaching

This term is different for thirty-five students in Agricultural Education at State College. These prospective teachers of vocational agriculture are learning to teach by teaching. They are spending full time at high schools in eleven counties as student teachers.

They will teach classes for high school boys, young and adult farmers. Farm visits will be made to the homes of all boys in their classes. They will participate in school activities as a regular teacher. These seniors are under supervision of the local teacher of vocational agriculture, assisted by a member of the Agricultural Education staff at State College.

There are two or three student teachers at each high school. They are given below together with the school.

Apex—R. W. Goode, W. L. Bartak; *Creedmoor*—J. N. Banner, R. E. Strother; *Coats*—L. G. Partin, W. H. Anderson, M. D. Belk;

The clinic will last one hour. Any interested students are invited.

Fuquay Springs—J. C. Sellers, A. L. Willets, J. W. Knox; *Dunn*—R. E. Worley, C. J. Southards; *Lillington*—J. E. Steelman, J. F. Hockaday; *Stedman*—R. O. Edwards, D. A. Adams; *Bailey*—G. E. Byrd, B. G. Dean; *Mauzy*—M. E. Thigpen, W. W. Mercer; *South Edgecombe*—F. E. Raper, H. P. Weaver; *Princeton*—W. A. Ballance, C. C. Armstrong; *Pittsboro*—H. G. Lovin, D. L. Anderson; *Stovall*—E. C. Pasour, J. H. Bollinger; *Bladenboro*—C. E. Bullock, G. L. Lutz; *Fair Bluff*—W. S. Buffkin, R. K. Melvin; *Hallsboro*—J. V. Evans, H. E. Hall.

R.O.T.C.—

(Continued from page 4)
Officers and college officials from N. C. State College.

Assignment will be based upon Cadet preference, curriculum, academic advancement, and leadership potential. Final branch assignment will be made by the Department of Army in Washington.

AGRICULTURAL CLUB—

(Continued from page 4)

ment, explained the duties and responsibilities of the Honor Committee.

Story-telling by members of the group, including a recount of the experiences of some of the foreign students when they first arrived in the U. S. provided a lot of laughs and generated a friendly spirit among the entire group—the kind of spirit that promotes good relationships between the faculty and students.

Members of the Ag. Econ. Club think this is a worthwhile project and invite other students to join them.

several years.

Students may register by contacting the Extension Division, 1911 Building, State College, or by attending the first class session.

NCS Night School To Offer Russian

The Extension Division of North Carolina State College has added a course in elementary Russian to its present series of Raleigh night classes, Assistant Director Eugene Starnes announced Tuesday.

Starnes said the first class meeting will be held in Room 211 of Peele Hall Tuesday night, October 20, at 7 o'clock. The class will be taught by Prof. V. A. Pikner, who has been in charge of similar courses at the college for the past

CHOICE OF YOUNG AMERICA FOR THE FIFTH STRAIGHT YEAR —

CHESTERFIELD

IS THE LARGEST SELLING CIGARETTE
IN AMERICA'S COLLEGES...

by a 1953 survey audit of actual sales in more than 800 college co-ops and campus stores from coast to coast. Yes, for the fifth straight year Chesterfield is the college favorite.

CHESTERFIELD IS THE ONLY
CIGARETTE EVER TO GIVE YOU PROOF
OF LOW NICOTINE, HIGHEST QUALITY

The country's six leading brands were analyzed—chemically—and Chesterfield was found low in nicotine—highest in quality.

This scene reproduced from Chesterfield's famous "center spread" line-up pages in college football programs from coast to coast.
