The Hungry Wolves Were Fed

This is one of the floats which didn't place in the top three. The competition for the prize-winning floats was keen between organizations and dormitories and especially between the fraternities. (Staff Photo by Wall)

35,000 View Homecoming Parade

Between 30,000 and 35,000 persons saw State College's big Homecoming parade as it moved through downtown Raleigh and out to the college campus Saturday.

Led by Lynda Flowe of Charlotte, pretty green-eyed "Miss Wolfpack of 1954," the parade was made up of approximately 40 units, including floats prepared by students, decorated automobiles, bands, and other marching groups. It was sponsored by Thirty and Three, sophomore leadership society, headed by Charles Ipock, Cove City, who served as parade chairman.

The floats, sponsored by the various fraternities, dormitories, and other student organizations, called for a Wolfpack victory over the University of Richmond's Spiders, and many of them pictured the Wolfpack spraying a hapless spider trapped in a net.

Sigma Chi Fraternity's float, showing a big wolf cracking a whip over a spider, was selected as the first-place winner among the fraternity entries. Sigma Pi was second, and Pi Kappa Alpha was third.

First place in the dormitory division went to Tucker Dormitory.

Selective Service College Exams

The Selective Service College Qualification Test (draft deferment test) will be given at North Carolina State College in the Textile auditorium December 9. The last day for filing applications for this test is November 23. An application for the test, a mailing envelope, and a Bulletin of Information may be obtained from any Selective Service Local Board. The Wake County local board is located in the Odd Fellows Building downtown.

To be eligible for the Selective Service Test a student must (1) intend to request deferment as a student, (2) be satisfactorily pursuing a full-time course of instruction, (3) must not previously have taken the qualification test.

Who should take the test? This test is particularly important to those students who are not now deferred by reason of ROTC par-

Bagwell Dormitory placed second, and Becton was third.

The Agricultural Engineering Club's float took first-place honors among the other student organizations. The Ag Club was second, and the Collegiate 4-H Club took third place.

Judges were former Mayor James E. Briggs of the Briggs Hardware Company, G. Akers Moore, Jr., of the Commercial Printing Company, and Wesley Williams, executive secretary of the Raleigh Merchants Bureau.

The Raleigh Merchants Bureau awarded prizes to the three top-ranking fraternity floats, three to the winning dormitory floats, and three prizes to the winning floats representing other student organizations. The Merchants Bureau also awarded a cup to Miss Flowe, who was introduced during the half-time festivities at the football game and was presented her award at that time.

State College's Band wore its bright, new uniforms for the first time during the Homecoming parade. They are gray in color and are trimmed in red and white, with the letters "NCS" on the sleeves.

(Continued on page 4)

ticipation or who are not sure that they will continue to be deferred for this reason.

A student may receive a draft deferment if he takes this test and obtains a satisfactory score (70) or if he ranks in the upper half of his freshman class, upper two-thirds of his sophomore class or upper three-fourths of his junior class. All freshmen and sophomores enrolled in ROTC are automatically exempt from the draft as long as they remain in ROTC.

Although a passing grade is made on the test, the local boards are not required to defer students meeting the criteria.

If you are a freshman and under 20 years of age and plan to continue in ROTC for your sophomore year, you will have another opportunity to take this test in the spring or possibly again next fall.

Yager Wins

Freshman Dan Yager won hands down in the 12-man race for freshman class president yesterday, according to early unofficial returns released last night by elections committee chairman Jim Frazier.

Gathering 84 of 305 ballots cast, Yager found little competition in the exceptionally light vote that saw less than 25 percent of the freshman class voting.

Dave Weinstein's 89 ballots were more than enough to capture the vice-president's post, while Cecil C. Brooks was chosen class secretary in the closest race of the day with a total of 88 votes.

Robert "Bob" Stephenson was high man in the contest for freshman class secretary with 113 votes. Stephenson's tally was tops for a single candidate in yesterday's elections.

Trustees Visit NCS; Confer With Students

The Visiting Committee of the Board of Trustees of the Consolidated University of North Carolina will visit N. C. State College next Tuesday and hold a series of conferences with students and faculty members, Dr. Carey H. Bostian, chancellor of the college, announced Monday.

Headed by Victor S. Bryant of Durham, the committee will assemble in Chancellor Bostian's office in Holladay Hall at State College next Tuesday at 10:30 a.m., will confer with individual faculty members or faculty groups after convening, and will attend a luncheon with representative faculty members in Leazer Dining Hall at 12:30 p.m.

Beginning at 2 p.m., the committee will meet in the College Union Building with individual students and student groups who wish to confer with the committee and will have refreshments with the students in the College Union Building at 5 p.m.

Chairman Bryant has invited anybody connected with State College who desires to appear before the committee to make an appointment for a conference through Chancellor Bostian's office.

Members of the Trustees' Visiting Committee, in addition to Chairman Bryant, are Mrs. Ed M. Anderson, West Jefferson; C. A. Cannon, Kannapolis; James H. Clark, Elizabethtown; Percy B.

(Continued on page 4)

N. C. Student Gov't. Representatives Meet

A 24-man delegation headed by Student President 'Doc' Cheek represented State College at the opening session of the North Carolina Student Legislative Assembly when the group convened at the State Capitol this afternoon.

Governor Luther Hodges welcomed the student legislators to Raleigh.

Legislation scheduled for consideration by the college assembly are bills pertaining to local, state, and national matters. Assembly business is conducted along similar lines as in the regular North Carolina General Assembly.

(Continued on page 4)

Bookstore Headache Dates Back To 1952

President of the Student Body Doc Cheek released some of the old actions on the Bookstore problem Tuesday afternoon. Some of these date as far back as the winter of 1952 when the present discussion was first initiated. At that time George B. "Buck" Pruden was President of the Student Body and much of the material listed below was a result of his action.

The earliest comment available on this present consideration of the Bookstore policy came in August, 1951 in a letter to Chancellor J. W. Harrelson over Charles Hamilton's signature. The question at that time was whether some of the funds from the Supply Stores' profits could be set aside for social and intra-mural facility improvement in and around the dormitories. This problem was worked out satisfactorily by the Board of Trustees very soon after that time and thus does not have

a great deal of bearing on the present problem.

However on January 8, 1952 the "White Paper," an attempt to summarize some of the student problems which lay behind the unrest manifest at that time in the student riots and to recommend some solution for these problems, had this to say about the Stores situation. "Adopt for our Student Supply Stores a policy of 'Service For Students!' The aim should be the maximum benefit for the maximum number of students. The method should be two-fold: (1) Low prices to students so that all are helped financially, and (2) use of profits for purposes that are broad with respect to the numbers and classification of students who will benefit. Remove the profit motive from the administrator. Publish all facts and figures; have students represented in determining the store policies." These were all sound points at the time this resolution was adopted by the Campus Government.

They are still very much in line with what is being attempted at the present time.

On February 25, George Pruden and Paul Foght, then Editor of the Technician, made the following (Continued on page 4)

Mop-Up Complaints Answered By Mgrs.

Mr. L. L. Ivey and Mr. C. L. Chambers, managers of the Student Supply Stores and The Watauga Book Store respectively, released the book price policy of the Book Store again recently to clarify and answer some of the student problems and complaints.

The policy was as follows:

SALES:

1. New Books.
 - a. Sales of new books are made at publishers' list prices.
2. Used Books.
 - a. Sales of used books are made at 25% to 33 1/3% discount from the list prices. However, there are exceptions to this and the range of discounts can vary from 25% to greater than 60% from the list prices.

(Continued on page 4)

Judicial Board Meets Man Found Not Guilty

On Wednesday, November 10, 1954, the Student Judicial Board met and determined the judgment of a student charged with stealing, a violation of the Honor Code. After extensive examination of all the evidence, a reasonable measure of doubt remained and the student was found "not guilty."

When a student is found "not guilty," his record remains unblemished, and he is entitled to all the rights and privileges of a student as guaranteed by the Constitution of Student Government.

Watch The Girls Go By

Pictured above is one of the floats entered in last Saturday's Homecoming parade which started at the Raleigh Memorial Auditorium and proceeded up Fayetteville Street and out Hillsboro Street to the Memorial Tower. (Staff photo by Wall)

EDITORIAL COMMENT:

Talk Of the Campus

The new student directory published by the College Union was a disappointment to most of State's students. For the past several years this service has been provided by the YMCA but under the new setup, the College Union assumed the responsibility. The YMCA published the directory with financial assistance from the College Union, the Student Government and the Student Supply Stores. The book was complete, was distributed campus wide and was very successful.

The new directory lacks hometown addresses, curriculums, is memographed instead of printed and is available in extremely limited copies. The College Union was advised not to publish the directory at all since so many students move after completing registration. This moving about is true enough but majority of students stay put. What is more the hometown addresses are a fine thing to have so that students may contact each other when they aren't in school. This feature was eliminated to get the book out quicker, but this dropped one of the book's greatest values. Even with the cut in number of directories published and the limiting of features, the book still cost the surprisingly high figure of \$500.

The Student Government last year helped finance the directory and no doubt would have this year had the body been approached but the CU chose to hoe its row alone. The

campus does not go down Hillsboro Street and duck in to exclude the new building. The CU is a part of the campus and student affairs and it would have been better if the organization had gotten outside help if a better publication would have resulted.

The argument for the limited number of copies is the availability of the directory service at the main desk. This is all well and good but the directory is faster than the desk service and much more convenient and although the desk service may be more up to date, the information remains there and there is no way to carry information out of town or get the information when the service is closed. Seniors graduating are particularly interested in having their classmates hometown addresses.

The campus seems to be of the opinion that the service has become a vital asset to the college and that the directory should be more complete and it should be made more available. If the College Union continues to publish a directory, financial aid from outside should be sought, if necessary, to publish a book more in keeping with the needs of State College.

What do you as a student feel about this? Do you think that enough money should be scraped together to publish a new directory? The Technician would like to hear your opinion.

City Attitude

During the past several years the relations between State College and the city of Raleigh have steadily progressed upward along an incline. Of course there remain a few old die-hards who still look at State like it were some advanced-stage cancer in the west end of the town. But, there has been considerable more cooperation between the city and the college than in the past although it would be naive to believe that relations are perfect.

It seemed for sometime that the town belittled everything the college did. Students who made an outstanding record for themselves were given little attention but let one get in trouble and pow!, the papers played it up big. This attitude is still true to a certain extent but not to the degree that it once was. Witness the fine cooperation of The Raleigh Merchants Bureau in selling 1,800 tickets to the Florida State game and the way they have given assistance in purchasing prizes for various contests. Local dealers and individuals have loaned late-modeled cars to be used in State College parades. It's not hard to tell that there are quite a few college supporters in town.

State College brings considerable revenue into Raleigh and causes quite a bit of attention to be focused on the town and school. Students spend a sizable sum on clothes, food, entertainment and in other ways which tend to bolster the town's income. The value of the college is just being realized by the town.

Some rather unfortunate incidents in the past gave the college the reputation of being a haven of rough-necks. These things leave a bad taste and it takes many times more effort to overcome the hardset opinions formed. Only State students can give the school the reputation that it deserves.

When civic organizations invite State men down for their dinner meetings, as some are doing now, it makes a student wonder if things are getting just a little better. It seems that they are. Both students and town-people will have to make a bigger effort in order to further relations, but the move should start on campus.

Letters To The Editor:

The Technician welcomes letters or comments, whether on editorials or of other campus interests. They do not necessarily represent the opinion of any staff member and each must be signed in ink.

To the Editor:

What's the deal? Is Miss Wolfpack of 1954 actually a fourteen year old kid—a ninth grader at Charlotte's Harding High School? If so, I think it shows exceedingly bad discrimination on the part of the boys who elected her. She is, no doubt, a pretty girl and would be an ideal "Miss Lamb's Pack," but since when did State College boys have to rob the cradle?

H. G. Conrad & Joe Taylor
Class of 1957

Editor's Note:

Yes, Lynda Flowe is rather young to be a college homecoming queen. She is a freshman in high school and is 15 years old and will be 16 in February. However, there was no age limit specified in the contest rules and you have to admit she is a very attractive girl. The boys who you are charging with "exceedingly bad discrimination" had no way of knowing anything about the entrants. The girls are numbered and voted on by numbers with no other identification.

This is a situation which was never thought of as majority of college men date older girls. This is a good point to bring up when contest rules are discussed next year but at the present the best thing to do is to let it go and keep in mind that pictures don't tell the whole story.

FILTER TIP CIGARETTE

Only a Penny or Two More than Cigarettes Without Filters

WE'D LIKE YOU TO MEET -

... Thomas I. Hines, Head of the Rural and Industrial Recreation Department in the School of Education. Mr. Hines is one of the men that you don't hear very much about on campus but who has a great interest in student affairs.

He is chairman of the sub-committee on student scholarships and grants in aids, and he takes a great interest in his work. He is also on the Curriculum Change Committee and the committee on Graduate Studies. Mr. Hines is a past president of the North Carolina Recreation Society and is now serving as the Director of Certification in the same organization. This is a very responsible position because everyone in the field of recreation will have to be certified before they are able to find employment in this field, and this is the man that does it.

Mr. Hines received his B.S. degree from North Carolina State College and then went over to our sister institution, Carolina, and received his Masters. He is a member of the Tip Off Club and takes a very active interest in the athletic events here at State.

Away from school he is the "master" of a home which includes two lively children. He takes particular interest in golf, is an avid bridge player, and could sit in the movies for hours on end. This is his only relaxation from a hectic and rough day at the office.

Mr. Hines also tries to place his students in the best possible position for them. He has a real interest in his students and this man is making a terrific name for himself and the college in the field of recreation.

Design Dean

Dean Henry L. Kamphoefner of the School of Design at N. C. State College spoke at a meeting of the Durham Art Guild at the Guild Center in Durham Tuesday at 8 o'clock. His topic was "Six Schools of Modern Architecture."

... one of the outstanding seniors as evidenced by his tapping into Golden Chain, James Thorne. Jim is enrolled in the Ceramics curriculum and he takes a terrific interest in his studies and work in that department. He is now President of the American Ceramic Society and Treasurer of Keramos Professional Fraternity.

Jim has been on the Agromeck staff for four years and is now an associate editor. He has been chairman of the College Union Photography Committee and has also served on the House Committee.

Photography seems to be his main interest outside of the classroom. You can see him practically any drill period running around with his trusty camera doing his duty as Regimental PIO.

Jim has been rewarded for his work to the school by being initiated into Blue Key, Junior Honorary Society, and Golden Chain, Senior Honorary Society, which take only the twelve top men in the class.

Thorne is a conscientious student and he should be congratulated on the fine work that he has done thus far. A man of his making should go a long way in the big, mysterious world.

AIEE Meet Friday

The annual fall meeting of the North Carolina Section of the American Institute of Electrical Engineers will be held at North Carolina State College Friday, Nov. 19, with an expected attendance of between 200 and 250 persons from throughout the State.

Delegates will register in the Riddick Engineering Laboratories Building at the college Friday at 1:15 p.m. and will open their program with an address of welcome by Dean J. Harold Lampe of State College's School of Engineering at 2 p.m.

"The Next Decade in Power" will be the subject of a talk by A. S. Griswold, assistant to the president of the Detroit Edison Company. Two Duke University engineering seniors, Charles E. Seagar and Edward V. Stephenson, will deliver a paper on the subject, "Fluid Mapping of Electric and Magnetic Fields."

Fadum Appointed

Dr. Ralph E. Fadum, head of civil engineering at N. C. State College, is a new member of the Board of Consultants for the Snow, Ice, and Permafrost Research Establishment of the U. S. Army Corps of Engineers.

This agency, which is concerned with studies of snow, ice, and permafrost, is composed of five members including representatives from Yale, Dartmouth, Northwestern, the University of Chicago, and North Carolina State College.

TRUSTEES—

(Continued from page 1)

Ferebee, Andrews; Mrs. R. S. Ferguson, Taylorsville; O. Max Gardner, Jr., Shelby; R. L. Harris, Roxboro; John D. Larkins, Trenton; Mrs. B. C. Parker, Albemarle; William Saunders, Aberdeen; and D. Libby Ward, New Bern.

MOP-UP—

(Continued from page 1)

PURCHASES:

1. New Books.
 - a. Purchases of new books are made from sources of supply at the regular book dealer's discount.
2. Used Books.
 - a. Purchases of used books are made from:
 - (1) Wholesale book jobbers at book dealer's discount.
 - (2) Students.

PURCHASES FROM STUDENTS

1. Books are purchased from student customers at 50% to 75% discount from the new price.
 - a. 50% of the new price of a book is paid to the customer when the book is to be used within the next two succeeding terms.
 - b. 25% of the new price of a book is paid to the customer when the book has been discontinued as an officially adopted text.
2. In the operation of the above policy variations in it evolve from an analysis of the following factors which determine the value or price to be paid for a used book:
 - a. Condition of the book.
 - b. Availability and demand.
 - c. Edition of the book.
 - d. Status of adoption by the department.
 - e. Status of revision by the publisher.
 - f. Current opinion of the book by the professor or staff.

Risk.

- (1) Curriculum change.
- (2) Departmental change in personnel.
- (3) Resignation, retirement or death of professor.
- (4) Enrollment changes. (Elective or required course failing to develop.)

Mr. Ivey commented that when a student has what he thinks is a complaint he should very carefully consider the policy as it is stated above. He pointed particularly to the seven factors at the bottom of the policy, stating that these are the things which are considered other than the percentages listed at the top. He said that there are very few exceptions to the policy as stated and these are never made unless there is a specific reason. "We can give any student a definite reason for any action taken in regard to any completed specific transaction at the Bookstore."

Mr. Chambers brought up the point, with which Mr. Ivey concurred, that there had never been, to his knowledge, a student in the office with a complaint which had not been answered to the student's complete satisfaction.

They both said in a very frank and straight-forward manner that they would welcome any student at any time to discuss with them a problem which that student felt was just.

BOOKSTORE—

(Continued from page 1)

conclusion in a letter to Gordon Gray.

"As students, and as elected representatives of the student body we feel that the charges of mismanagement and poor administration that have been brought to our attention are worthy of investigation. We would request that you suggest to the Board of Trustees the appointment of a committee to investigate the operations of the Stores and the advisability of continuing the present contract under which the Stores are operated. Such a report could be returned to the Board at its Spring meeting. We would further suggest that this committee be so composed as to take advantage of such professional advice as might be available from members of the Department of Industrial Engineering."

In a letter included in a report by Controller W. D. Charnichael and Assistant-Controller J. G.

Vann to Mr. Gray and the Trustees on February 27, 1952 and signed by them, the following paragraph appears:

"It is felt, furthermore, that the general policies and operation of the store should be administered by a Board of Governors, appointed by the Administration from the College staff and Student Body. (Our suggestion is that this board be composed of four faculty members and three students, one from each of the sophomore, junior and senior classes; and, that the Manager of the Store be a non-Voting member of this board.)"

This letter, though it appeared in the report in 1952, was written in 1943—and there is still no board. Practically the same recommendation was made to the Visiting Committee of the Board of Trustees when they were on the Campus in the Spring of 1954. Finally on March 10 of the same year George Pruden sent the following suggestion to Mr. Charnichael in a report on the situation:

PURPOSES OF THE ADVISORY BOARD FOR THE STUDENT SUPPLY STORES

1. To receive annual audits and operating statements from the Student Supply Stores and see to it that these audits and statements are made public to all students through the TECHNICIAN or other such distribution.
2. To study and hear complaints from students every two weeks on the operation and policies of the Student Supply Stores.
3. To meet with the Manager of the Stores to present complaints and problems raised by the students and other members of the Board at least once a month and at other times at the request of this Board.
4. To discuss, in turn, with the Assistant Controller and the Controller any difficulties or problems not corrected.

These suggestions accompanied, as is evident, plans for the establishment of such a Board. They were accompanied by several more suggestions as to the method of electing members of this Board

Athlete of Week

This week's awards comes from State's undefeated freshman cross country team—"FROGGY BARBOUR—set a new State freshman cross country record last week in the State Meet by covering the distance in 14.01—has been a big factor in State's undefeated freshman team—in certain prospect material for next year's varsity—

VARSITY MEN'S WEAR

Congratulates

"Froggy" Barbour

... for his fine performance on Freshman Cross Country Team. The Varsity invites him to come by and select a shirt of his choice, compliments of the store.

We invite all N. C. State students to make Varsity Men's Wear their headquarters for the finest in men's clothing and furnishing.

varsity
MEN'S WEAR

Hillsboro St.

and as to their general policies and methods.

All this is history. It is what has been done before along the same lines that the Campus Government is so active along now. Clear indisputable facts are needed before any concrete plans can be made or before any definite action can be taken. There have been very few actual student complaints in writing. This makes it extremely difficult for either party to come to grip with the problem. Specific examples of the so-often mentioned abuses are needed if there is to be any progress.

HOMECOMING—

(Continued from page 1)

Other bands in the parade were the Henderson Junior High School Band, the University of Richmond Band, and the N. C. State Drum and Bugle Corps. Among the other marching units were the Air Force Drill Team and the Pershing Rifle Society, representing the Air Force and Army ROTC units at the college, respectively.

In addition to its Homecoming celebration yesterday, State College also observed Dad's Day under the auspices of Golden Chain, senior honor society, headed by Dave Barrett.

Blue Key, junior honor society, headed by H. Robert Krook, Jr., sponsored the beauty contest in which "Miss Wolfpack" was chosen.

Miss Flowe, winner of the beauty contest, was sponsored by Phi Kappa Tau Fraternity and was escorted by Tommy Hoose of Charlotte, a freshman at the college. Miss Flowe's attendants were Miss Mary Lib Delbridge of Spring

Hope, sponsored by Sigma Alpha Epsilon Fraternity and escorted by Saunders Blalock and Miss Peggy Eakes of Raleigh, sponsored by Pi Kappa Phi Fraternity and escorted by Robert W. Sloan. They were the runners-up in the contest.

Following the ball game, there was a reception in honor of the parents of students attending State College in the main ballroom of the College Union. The Monogram Club, headed by Bill Teer of Hillsboro, presented its annual Homecoming dance in the College Union, with Jimmy Johnson and his orchestra providing the music.

N. C. STUDENT GOV'T—

(Continued from page 1)

State College students attending the meeting include: John Gregg, Jim Lewis, L. C. Draughon, John Combs, Bill Euchner, Ernest Faust, Jim Stewart, Joel Parker, Charlie Martin, Frank Minter, George Jernigan, Roger Hill, William Garbrant, Al Parker, Doring Dahl, Ed Rose and Ann Willis. Alternates are: Jim Frazier, Bill Reavis, Dick-ey Harris, Ben Gary, Ed Yancey and Bert Kalet.

Men have to kiss women—it's the only way they can get them to shut up!

Her dress reminds me of a barbed wire fence—you can see through it, but it still protects the property.

Vote For 100% Representation And BOB LANE Representative From School of Engineering

the blue and green freshman

(and the pancakes)

"He's cute," said one coed to another.
 "Umm, hmm, but he's crazy," replied Coed Two.
 "Crazy how?" asked the first.
 "Well, for one thing, look how he dresses. He has a whole wardrobe of those perfectly stunning Van Heusen Vanahue shirts . . . you know the beautiful colored ones with the wonderful collar styles, those short ones and button-downs and spreads and everything?"
 "He must be loaded," commented No. 1. "He's really cute."
 "Silly. You don't have to be rich to own Vanahue Shirts. They may look like custom shirts, but they only cost \$3.95."
 "So what's so crazy?"
 "Look at him," replied No. 2. He's got on that lovely green Vanahue with a blue suit."
 "I don't care. He's cute."
 "But he could wear almost any of his others . . . the pink, the yellow, the blue, or even the vintage. It's only because he's nuts."
 Shortly thereafter, our No. 1 girl met the freshman in question at the drug store. With astonishing tact, she said: "My girl friend thinks you're nuts."
 "So does my room-mate," he replied sadly.
 "Why?"
 "Just because I like pancakes."
 "I love pancakes," she answered.
 "You do? Well, gee, come over to the fraternity house. I've got *trunks* of 'em."
 "You're cute," she said.
MORAL: Women are nuts.

Annual Forestry Conference Friday

The three major advisory committees of the School of Forestry at State College will hold their annual conferences at the college Friday.

A number of the nation's key leaders in the pulp and paper, forest management, and wood utilization industries from throughout the country will attend the sessions, which have been arranged by Dean Richard J. Preston of the college's School of Forestry and his associates on the faculty.

The pulp and paper technology policy and technical advisory committees will meet in the new College Union Building Friday at 11 a.m., with Rueben B. Robertson, Sr., chairman of the board of the Champion Paper and Fibre, Canton, presiding. Representatives from most of the 14 major pulp and paper companies supporting the teaching and research program of the State College School of Forestry will attend.

Representatives of pulp and lumber companies and from Federal and State agencies are expected to attend the forest management advisory committee meeting, which will get underway in Kilgore Hall at 11 a.m. Friday.

The wood utilization committee consisting of four sub-committees

representing the lumber, hardwood dimension, gluing and pulpwood, and products merchandising and building materials industries, will hold its meeting in Kilgore Hall, starting Friday at 10 a.m.

The committees will hold separate morning and afternoon sessions, will attend a joint luncheon meeting in the College Union Building at 12:30 p.m., and will attend a joint dinner meeting in Leazar Dining Hall at 6 p.m.

In announcing plans for the meetings, Dean Preston said the committees "will consider problems and policies facing the School of Forestry and will give special attention to the need for attracting increasing numbers of qualified young men into the forestry profession which offers many more jobs for college graduates than the School of Forestry can now fill."

State Professor Speaks at Meeting

Dr. Allen R. Solem, assistant professor of psychology and director of the Bureau of Industrial Psychology Service at N. C. State College, will participate in the fall program of the North Carolina-Virginia Chapter of the American Society of Training Directors in Chapel Hill Saturday.

Lester Zerfoss, assistant director of industrial relations for the American Enka Corporation, is president of the Chapter.

Dr. Solem, a graduate of the University of Minnesota and Wayne University in Detroit, Michigan, received his Ph. D. degree from the University of Michigan in 1952. In addition to his academic work, all of which centered around industrial psychology, he has had considerable experience in the selection of supervisory and production employees in industry, in industrial counseling and as a training specialist in government. He is currently interested and engaged in research in leadership and management consulting in human relations for various North Carolina industries.

At the Chapel Hill meeting, Dr. Solem discussed and demonstrated the use of role-playing techniques in leadership training.

Military Engineers To Meet Tonight

The State College student chapter of the Society of American Military Engineers will hold its first meeting of the school year tonight at 7:00 p.m. in room 129 in the Coliseum.

S.A.M.E. received its charter at State on October 20, 1953. The objects of the society are: to advance knowledge of the science of military engineering; to preserve the memory of services rendered by the engineering profession throughout the wars in which the United States has been engaged; to encourage, foster, and develop relations of helpful interest between the engineering profession in civil life and that in the military service.

Membership is open to any student in ROTC or any student in Engineering, whether in ROTC or not. Programs for coming meeting are planned, including an expense free trip to the new ammunition point at Southport, the new home of the 82nd, and other programs of general interest to ROTC students and engineers.

Interested students are invited to attend the meeting tonight to obtain more information on the organization which is a nationally recognized society.

Arnold Air Society

The James J. England squadron of the Arnold Air Society will formally initiate 25 new members into the organization tonight. The society is composed of students in advanced ROTC and was founded in an effort to bring drill field leaders together in a closer union. Col. W. J. Jowdy will speak to the group following the candlelight ceremony.

Above is a picture taken in the early fall of some bags of cement put down considerably over a year ago in the fond hope that they would turn into a stone wall. They border the walk between the Mines Bureau and Williams Hall. This is

about the biggest waste of cement that could possibly be thought of and is one of the messiest scenes on campus.

This scene is almost as smart looking as the crossties in front of the lower dorm area although these posts serve a purpose and the cement bags as yet have served no purpose.

She stood on the hilltop and pondered;

We sat in the glade with a grin. For the sun was just over the hilltop,

And the gown that she wore was thin.

Dr. Sirkir, Physicist Speaks To Meeting

Dr. S. C. Sirkir, visiting physicist at N. C. State College from Calcutta, India, spoke to State College Physics Department faculty and students Tuesday afternoon at 3 o'clock in the Reactor Observation Room. His topic was "Origin of New Raman Lines in Organic Crystals."

Dr. Sirkir, who is a member of the Indian Association of Cultivation of Science, is in the United States gathering information on nuclear reactors to use in the construction of a research reactor in his country.

AF ROTC Announces

AF ROTC Rifle Team
Practice firing for the AFROTC Rifle Team is now in progress. Any AFROTC cadet desiring to try-out may contact M/Sgt. Neal or T/Sgt. Hagerty in the Air Force Supply in the basement of Frank Thompson Gymnasium. Qualification firing will commence after the Thanksgiving holidays.

AF ROTC Cadet Newspaper
Any AFROTC cadet interested in becoming a member of the staff of the proposed cadet newspaper are encouraged to contact Lt. Jack Hedgepeth in Room 137 in the Coliseum. Experienced help is needed.

Brenda: "Yes, I wrote a confession story once."
Cobina: "Was it sold, kid?"
Brenda: "No, honey, but the editor came all the way from New York to meet me."

C. E. Schooley Speaks To AIEE's Friday

C. E. Schooley (above), chief engineer of the Southern Bell Telephone and Telegraph Company in Atlanta, Ga., will be the principal speaker at the dinner session of the North Carolina Section of the American Institute of Electrical Engineers at North Carolina State College in Raleigh tomorrow night at 7 p.m. Schooley's topic will be "The Next Decade in Communications." The dinner session will conclude the AIEE's annual fall meeting, which will open at State College tomorrow at 2 p.m. with an attendance of between 200 and 250 engineers from throughout the State.

Dr. Olin T. Brinkley Presents Lectures To Faculty Groups

Winding up a series of three lectures before faculty luncheon groups at North Carolina State College, Dr. Olin T. Brinkley, professor of Christian sociology and ethics at the Southeastern Baptist Theological Seminary in Wake Forest, cited an imposing task facing the South's religious leaders.

The speaker was introduced by Dr. Carey H. Bostian, chancellor of State College. Presiding over the program was General Secretary Edward S. King of the College YMCA, and the invocation was spoken by the Rev. James H. Overton, Jr., director of the Wesley Foundation at N. C. State.

In his opening remarks, Dr. Brinkley, widely-known Baptist theologian, author, and teacher, expressed appreciation for what he termed "a rising tide of leadership characterized by creative intelligence, moral integrity, and religious faith."

Declaring that spiritual growth in the Southern states is dependent on the maintenance of this type of leadership, Dr. Brinkley then outlined the role of the region's Christian leaders in these words:

"It is the task of religious leaders in the South to encourage a study of religion and an affirmative attitude toward religious faith, to articulate the moral imperatives set forth in the Bible, to explicate the ethical issues confronting the religious conscience in this generation, to clarify the role of the church in the community, and to maintain a vital relation between worship and work."

His topic at the student dinner was "Religious Faith in a Community of Learning." He was introduced at the student dinner by John Wade Fuquay of Snow Camp, president of the Young Men's Christian Association at State College.

Dr. Brinkley's talks at the college were sponsored by the Baptist Student Union, the Wesley Foundation, the Westminster Fellowship, the Lutheran Student Association, and the YMCA, all of State College.

Kamphoefner Attends Architecture Meeting

Dean Henry L. Kamphoefner of the School of Design at North Carolina State College attended a two-day meeting of the Commission on Architecture in the Department of Worship and the Arts of the National Council of the Churches of Christ in the U. S. A. in New York City yesterday and today.

Dean Kamphoefner is one of 18 members of the commission, whose membership is composed of designers, architects, ministers, and representatives of other professions.

The commission is working to encourage the improvement in the design of ecclesiastical structures throughout the United States as a special function of the National Council of the Churches of Christ in the U. S. A.

The N. C. State dean is co-author of "Churches and Temples," a recent book published by Reinhold Publishing Company of New York and prominently reviewed by a number of the nation's newspapers and periodicals, including The Saturday Review of Literature.

DuPont Co. Awards Fiber Research Work

The Du Pont Company has awarded a major project in textile fiber research to the School of Textiles, North Carolina State College.

In a two-year study, the college's Department of Textile Research will develop comparative data on Du Pont's five man-made fibers for the engineering of fabrics in specific end uses.

The research project will be supervised by John F. de Bordenave and Donald J. Bringardner of the Customer Section, Du Pont Company's Textile Fibers Department. William T. Waters of the Department of Textile Research, North Carolina State College, will conduct the program under the direction of J. F. Bogdan, director of Processing Research at the college.

Principal Speaker

L. L. Ray, assistant to the chancellor and director of foundations at N. C. State College, was the principal speaker at the monthly meeting of the East Carolina Engineers Club at the Wilma Country Club in Tarboro Wednesday night.

Ray discussed State College's development program as it is related to the State's agricultural and industrial growth.

Speaks To AICE

Joseph La Motte, assistant process control supervisor with the E. I. du Pont de Nemours and Company, Kinston, addressed the N. C. State College Chapter of the American Institute of Chemical Engineers in Room 11 of the Riddick Engineering Laboratories Building Tuesday. His topic was "Being Prepared for Industry."

New members were initiated during the meeting, according to Bill Edwards of Mars Hill, chapter president.

CAMPUS HEADLINES

A recent edition of the University of Mississippi's *Mississippian* proclaimed: "Dormant Desires Revealed At Party For Delta Gammas." Whatcha' might call a sleeper.

Over at Chapel Hill the Daily Tar Heel let out the word that: "Student Legislature Votes To Look Into University Housing." Come down out of those trees, men, it's legal now.

University of Maryland's *Diamondback* front-paged the following banner: "Terrapins, Mularkey Win Again." Big Jim musta' talked somebody out of another one.

The *Carolinian* at Woman's College just announced that: "Student Legislators Debate Elections, Freshman Half Vote." Now that's really a split ticket.

Down at Mississippi State College the *Reflector* says: "Library Announces Friday Night Hours." Friday night has always been ours and we didn't find that out in any library.

Wake Forest's *Old Gold and Black* announced: "Theater To Give 'Salesman.'" We knew they came a dime-a-dozen, but not as give-aways.

High School Day Plans Announced

State College will observe "High School Day" Saturday, December 4, when it will be host to high school juniors and seniors from throughout the State.

A student-faculty committee appointed by Chancellor Carey H. Bostian is now drafting plans for the entertainment of the college's visitors, who will be guests of honor at the N. C. State-Temple University intersectional basketball game in the William Neal Reynolds Coliseum December 4 at 8:15 p.m.

The high school students will assemble for a special program that day at 1 p.m. and will later tour the college's big campus. A group of 290 State College students representing the institution's seven major schools will be on hand to serve as guides throughout the afternoon, and key professors will be present in the laboratories and classrooms to provide any informa-

tion which the visitors might desire.

Among the college facilities which the visiting students will see on the tour will be the Coliseum, the Southeast's largest building of its type; the Burlington Laboratory, the world's first college-owned nuclear reactor; and the College Union Building, one of the nation's most modern facilities of its kind.

Also on the tour the visitors will see the teaching, research, and extension facilities of the School of Agriculture, Engineering, Textiles, Design, Forestry, Education, and General Studies, with 48 departments where over 4,200 students are now being taught and where 365 research projects are currently underway.

Heading the "High School Day" Committee is H. W. (Pop) Taylor, director of alumni affairs, who is being assisted by C. W. Hart, vice chairman; Roy B. Clogston, Rudolph Pate, Banks Talley, Carolyn Jessup, and Carol Libby, faculty members.

Students serving on the committee are Lloyd M. (Doc) Cheek of Gibsonville, president of the Student Government; William H. Eucher, Raleigh, Richard P. Harris, New London; Robert Knight, Asheville; William T. Huxster, Gary, Indiana; C. D. Blanchard, Burlington; George Jernigan, Dunn; Daniel Bowen, Wilmington; Stephen Tolce, Hewlett, N. Y.; and Joseph E. Settle, Jacksonville.

James B. Walker received his B.S. in mechanical engineering from North Carolina State College in June 1954, and he's presently working for his M.S. at the same college. By asking pertinent questions, Jim is making sure that the position he finally accepts will be the right one for a fellow with his training.

Jim Walker asks:

Can a mechanical engineer make real progress in a chemical firm?

H. M. Pickering, Jr., received a B.S. in M.E. and E.E. from the Univ. of Minn. in 1940. He gained valuable technical experience at Hanford Works, in Richland, Washington, and in Du Pont's Fabrics and Finishes Plant at Parlin, N. J. Today he is Works Engineer for Du Pont's Seaford, Del., plant, where nylon comes from.

"Pick" Pickering answers:

Well, Jim, that's what the lawyers call a leading question, and the answer leads right into my bailiwick. I came to Du Pont in 1940, after taking a combined mechanical and electrical engineering course. So I had what you might call a double reason for wondering about my future with a chemical firm.

I soon learned that the success of a large-scale chemical process is vitally dependent upon mechanical equipment. And the success of this mechanical equipment—especially for a new process—depends on (1) Research, (2) Development, (3) Plant Engineering, and (4) close Supervision. The net result is that a mechanical engineer at Du Pont can progress

along any one of these four broad highways to a top-level position.

My own Du Pont experience includes mechanical engineering work in fields as varied as atomic energy, fabrics and finishes, and nylon manufacture. Every one of these brought with it a new set of challenging problems in construction, instrumentation, and power supply; and every one provided the sort of opportunities a man gets in a pioneering industry.

So, to answer your question, Jim, a mechanical engineer certainly has plenty of chances to get somewhere with a chemical company like Du Pont!

Want to know more about working with Du Pont? Send for a free copy of "Mechanical Engineers at Du Pont." This 24-page booklet describes in detail the four broad categories of jobs mentioned by "Pick" Pickering. Typical pioneering problems in each of these four categories are outlined. This booklet briefs a young mechanical engineer on how some of the newest and most challenging problems in his field were solved. Write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Bldg., Wilmington, Del.

SQUARE CIRCLE

By Dixon

Wolfpack romeos have found that the traffic parking problem doesn't end with sundown and the campus limits. More frustrating than the college constable is the busy little old man down in Pullen Park working the night watch out of recreation.

Sign of the times? Poster at the entrance of Stadium dormitory, "The Home of the Stadium Studs."

Another way to skin a cat: College Union dining room rule regarding tips left by customers require all funds be placed in box at cashier's stand. Money is used to help worthy students through school. Regular CU patrons now dodge the dodge by leaving packages of cigarettes on the tables for the hired help.

Who won department: Twenty per cent of the student body sitting in the west Riddick stands missed "Mighty Mite's" 82-yard scoot-back against Richmond just because a high-chested and low-vested gal took this moment to make her grand appearance at section 23.

Pi Kappa Phi guys got a low-volt jolt last week when a brother applied for a copy of his birth certificate at the Department of Vital Statistics and learned for the first time in his 21-year young years that his legal moniker is "Baby Boy—."

N. C. State vs West Virginia

Coach Earle Edwards' upset-minded Wolfpack of State College, fresh from a surprising 14-6 Homecoming victory over the University of Richmond, will journey to Morgantown, W. Va. to take on the powerful newly-crowned Southern Conference champions, the Mountaineers of West Virginia University.

The once-beaten, nationally ranked Mountaineers, coached by Art Lewis, recently copped the Southern Conference crown for the second year in a row. However, the Wolfpack showed local fans the type of football they are capable of playing last week when they knocked their favored visitors from Virginia for a loss. But West Virginia has only one defeat on its records this season at the hands of a strong Pittsburgh team and they still have their eyes on a New Year's Day bowl engagement.

The contest marks only the third time the two teams have met, with West Virginia taking both games, the last one a 59-0 pasting last year. The game will close out State's 1954 season with probably a 2-8 record. But you never can tell, especially in football. . . .

(Continued on page 9)

Soccer Team Defeats UNC 3-0; Ends Season

N. C. State's soccer team closed out its 1954 season in a final show of strength last Tuesday afternoon in the rain, as they handed a strong University of North Carolina squad a 3-0 pasting.

Carlos Aurreurreta, an offensive standout all year, scored two of the goals, one in the first quarter and followed closely by another in the second. Sophomore Joaquin Escobar tallied the final mark late in the second period.

The win gives Coach Eric De-Groat's boys a season record against college opposition of three wins, two losses, and three ties. Victories have come at the hands, of Duke, Carolina, and Frostburg, ties with Maryland, Virginia, and Washington & Lee and the only two losses with Big Four rivals, Duke and Carolina.

Defensive standouts for the season would include Sherrill, Baxter, Gillian, and Aurreurreta, while on offense Norris, Escobar, Yarbar, and Scaggs.

Pack Ends Season Against W. Virginia

Mountaineers Again SC Champs; Lost One; Pack Upsets Spiders

N. C. State's Wolfpack winds up its 1954 season Saturday afternoon at 1:30 p.m. at Morgantown, W. Va. against the powerful West Virginia University Mountaineers, already crowned champions of the Southern Conference for the second straight year.

State hasn't won in its own Atlantic Coast circuit this year, but has picked on a pair of Southern Conference teams for its only two wins of the year, a 26-0 triumph over William and Mary and a 14-6 upset over Richmond last week.

West Virginia would like to fatten its current 7-1 mark on the Wolfpack and thus increase its chances of a second straight post-season bowl invitation. Last year after pasting the Wolfpack 59-0,

West Virginia went on to the Sugar Bowl.

State isn't being given much of a chance against West Virginia, but the Wolfpack is a far cry from the team that was beaten so badly a year ago, while the Mountaineers are rated just as tough. State is expected to make the score a little closer, but everyone figures that the Mounties can still just about call the final score.

But the idea of conceding the victory to West Virginia before the final whistle isn't in the mind of a single State player. In fact there's a feeling on the Wolfpack squad that the game should be a close fight.

The Wolfpack will put its hopes against West Virginia in one of the finest runners in the Atlantic Coast Conference, little George Marinkov, a 5-6 halfback who has

State's Cross Country Teams End Season With Undefeated Records

Coach Paul Derr's varsity and freshman cross country squad ended their 1954 season last week both with perfect undefeated records in dual and triangular meets. The varsity now has a current string of eighteen dual and triangular victories in a row. The only mark against the Wolfpack varsity squad was the second place spot they took in the State meet behind Carolina.

The strong freshman squad, behind "Froggy" Barbour who set a new state record for freshmen last week when he covered the course in the record time of 14.01, crushed all opposition during the year and served notice of how strong State's varsity squads will be in future years.

PACK vs. WEST VA.

(Continued from page 8)

averaged 4.5 yards per try on 92 tries so far this season. Marinkov is a national leader in kickoff returns and last week raced 82 yards to set up State's second score against Richmond.

In the line State will be heavily outweighed against the bigger Mountaineers, but the Wolfpack has some good talent in its forward wall that includes three players on the Atlantic Coast Conference, All-America check-list, Guards Mike Nardone and Al D'Angelo and End Harry Lodge.

Frat Intramurals

The SAE's, Sigma Nu, Sigma Chi, and SAM's have gained play-off berths with SAE, PKA, Sig Nu, and Chi's starts tonight.

Sigma Nu-6, Ka-0—Brilliant punt return of 70 yards for the only TD. Charlie Honeycutt's brilliant 70-yard punt return in the second period for a TD gave the Sigma Nu's an important 6-0 victory over the KA and assured them of a Play-off spot. Green and Wilson in the line and Loy in the backfield also stood out for the winners. Hall played his usually fine game for the KA's.

SAM-12, PKA-0 — Gaier's two touchdown proved to be the winning factor for the SAM's as they clinched a play-off position by defeating the PKA's 12-0. Perry played outstanding ball for the PKA's.

SPE-12, PEP-6—The SPE's, last week's victory over the SAE's, made it two in a row this time against the PEP's 12-6. Brink tallied one TD on a pass and Cockran ran the other over from 12 yards out. Greenburg scored the lone mark for the PEP's.

SAE-33, PKP-0 — Defending champs SAE's warmed up for the coming play-offs by handing the PKP's a 33-0 setback in a game called at half-time by agreement. Chambers, Burton and Stuart led the scoring parade.

Sigma Chi-60, AGR-0—The Sigma Chi's served notice that they are out to win the championship as they completely crushed the AGR's 60-0. Coker, McClude, Johnson, and Myers did most of the damage. The Chi's also gained a forfeit over the TKE's.

VOLLEYBALL

PKA over KA—The Pikas behind Scott and Bailey beat the KA's 15-13 and 15-7.

Sigma Chi over L. Chi—Shaw and Coker led the Sigma Chi's over the L. Chi's 15-8 and 15-9.

SPE over Sig Pi—Behind the spiking of Smiley the SPE's downed the Sig Pi's 15-9 and 15-4.

Sigma Nu over Farm House—Sigma Nu dropped the first game 8-15 but stormed back to take the second two 15-1 and 15-7.

TRACK

A strong SAE track squad rolled up 22 points and walked off with the fraternity intramural track meet last week. Kappa Sig's place second with 17 points, PKA third with 16½ and Sigma Nu fourth with 14.

were able to win 15-6 and 15-3. McSwain and Ferguson were the strong players for Welch but the whole team deserves credit. Alexander No. 2 was led by Holt and Bryant.

Bagwell No. 2 and Becton No. 2 both won by forfeit. Bagwell No. 2 was to have played Owen No. 2 and Becton No. 2's opponent was Tucker No. 2.

In Track

Tucker No. 2 Was Closely Followed By Becton No. 1—Final results of track meet showed that Tucker No. 2 was the winner with 29½ pts. Becton No. 1 second, 23½. Next was Bagwell No. 1 with 10 points which gave them third place. The fourth place was a three way tie with 8 points apiece, Tucker No. 1, Turlington No. 2 and Becton No. 2. The others to place were Owen No. 2 (with 4½), Turlington No. 1 (with 2) and Syme No. 2 (with 1).

Two old records were broken for dorm intramurals. Christy for Tucker No. 2 broad jumped 20 ft. 9 in. to break the old record of 19 ft. 11 in. The ¼ mile was also ran in record time by Miller of Tucker No. 2 in 3 min. 52.9 sec.

State Beats Favored Spiders, 14-6

Before 7,500 Homecoming Day fans, a scrappy State Wolfpack turned the table on favored Richmond Saturday afternoon and upset them 14-6.

The Pack netted on a TD on a pass from West to Gall and then little George Marinkov scampered 82-yards on a kick off to set up the final TD. It was a great day for Coach Edward's Wolfpack and for State fans.

THE SUMMARY

SPORTS SIDELINES—

(Continued from page 8)

Harlem Globetrotters

The world-famous Harlem Globetrotters, featuring the antics and playing of Reece (Goose) Tatum, will return to the Coliseum at State College on Saturday, November 27, at 8 p.m. for a big basketball doubleheader. In previous appearances, the Globetrotters have been highly popular with the fans and are now in their 28th season, which includes a recent trip to Europe, South America, and Australia.

Freshman Football

State's powerful and only once-beaten freshman football squad will close out its 1954 5-game schedule when they meet the University of Miami Freshmen at Key West, Florida on November 26.

Coach Bill Smaltz's team holds wins over Clemson, 14-13, Wake Forest, 14-6, and South Carolina 34-21. The only loss came at the hands of Duke by the slim margin of 38-32.

State's multiple-offense touch-down parade is led by Dick Hunter, former high school All-American with five TD's, several of which were long punt returns for scores. Hunter also leads the rushing department with 51 carries and a total of 420 yards gained, and carries a 8.4 average into the Miami game.

With boys like Hunter, Dick Christy, Tony Guerriri, Tom Katich, John Collar, and Julius Compton State's football hopes for the future is on the up swing.

Station will close on Wednesday for Thanksgiving Holidays

Chemistry Head Elected Chairman

Dr. Walter J. Peterson, head of the Chemistry Department of N. C. State College, was elected first chairman of the newly-created Faculty Senate of the college at an organization meeting of the new body.

The senate also named Prof. William N. Hicks, head of the college's Department of Philosophy and Religion as its secretary. Election of a vice chairman is scheduled for the senate's next meeting on Tuesday, Nov. 9, at 2 p.m.

Establishment of the Faculty Senate was recommended by the Faculty Committee on College Government, headed by Prof. Charles I. Foster, in a report dated May 4, 1954, and was approved by the General faculty at a meeting on June 5, 1954.

Major proposals of the committee's report as approved by a vote of the general faculty included:

- "1. The creation of a Faculty Senate to act for and be responsible of the general faculty.
- "2. The creation of a liaison committee.

"3. The change in name of the present Faculty Council to the Administrative Council, with changes in its membership and functions."

On Sept. 22, the college's old Faculty Council was dissolved and replaced by an Administrative Council in the first step of a major administrative reorganization of the college. The action taken yesterday in the organization of the Faculty Senate was the second major step toward the completion of the plan outlined by the Faculty Committee on College Government.

The Faculty Senate, in the words of the committee, "will consider two types of problems: (1) general matters of policy relating to academic activities and functions of the college; (2) matters of policy and procedure relating to the general welfare of the faculty."

A girl I like is Mary Farr, When she says "stop" she means the car.

She had received his gift of flowers with rapture.

"Oh! they are lovely," she said, "and there is even a little dew on them still."

"Er-r-a yes, there is," he stammered, "but I'll pay it soon."

Agronomy Club

At its last regular meeting, the Agronomy Club heard Dr. E. T. York speak on "Diverted Acres." He commended the Agronomy Club's booth in the Ag Fair that also had the theme of "Diverted Acres." The booth placed second.

During the business session the placings of the Agronomy Fair were released. They were as follows: Jim Stewart with Tobacco, first place; Billy Caldwell with Forage Crops, second place; Jen Carland with Small Grains, third place; Jerry Grimes with Peanuts, fourth place; Reginald Stroud with Cotton, fifth place; Richard Mann with Soybeans, sixth place; and David Hopkins with Corn, seventh place.

AIA Meeting

A. G. Odell, Jr. of Charlotte, president of the N. C. Chapter of the American Institute of Architects, was the featured speaker at the regular meeting of the student chapter of the A. I. A., Tuesday, November 9, in Riddick Auditorium. He showed slides and discussed his work, including the current Charlotte coliseum.

A special invitation to the program was given to members of the Raleigh Council of Architects. Edward Waugh, President of the Council, introduced Odell.

Hart Speaks to AIEE

At their last bi-monthly meeting which was held on November 2, the North Carolina State College Student Chapter of the American Institute of Industrial Engineers had as their guest speaker the new head of the I.E. Department, Prof. C. D. Hart.

Prof. Hart told of many of his experiences, and in reality gave an idea of what future engineers may well expect from their industrial employment.

Prof. Hart is by no means a new face on our campus. He has taught at this college on 2 previous occasions. Prior to his first trip to N. C. State, he was one of the leading engineers for Western Electric.

He retired from this industry after 40 years service. Since that time he has not only taught, but he has also done consulting work.

Prof. Hart is one of the most widely traveled men at State College. His work has taken him to Japan, England, Norway and Argentina.

Foreign Students

The Inter-Varsity Christian Fellowship invites the foreign students of N. C. State College to a Thanksgiving house party. Excellent accommodations have been secured at Saluda Inn, Saluda, North Carolina.

Foreign students from all over the Southeastern United States have been invited to this scenic spot in the Carolina Blue Ridge Mountains for Thanksgiving holidays. An interesting program of tours, hikes, films and discussions has been arranged. The party begins with Thanksgiving dinner at 5:00 p.m. on November 25 and closes with the noon meal November 28.

For additional information contact Herb Schafer in 220 Owen Dormitory.

What makes a Lucky taste better?

"IT'S TOASTED" to taste better!

BUTTERFLY SKIPPING ROPE

FIFTY-DOLLAR BOY SCOUT KNIFE

GHOST WITH CINDER IN HIS EYE

College smokers from coast to coast prefer Luckies to any other brand. Luckies lead, and by a wide margin, according to the latest, biggest college survey. Once again, the No. 1 reason: Luckies taste better. They taste better because Lucky Strike is the cigarette of fine tobacco . . . and "It's Toasted" to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco to make it taste even better. This explains the Doodle below, which is: Eskimo seminar enjoying Luckies in badly built classroom. Like all real cool people, Eskimos know Luckies taste better. So, get the better-tasting cigarette . . . Lucky Strike.

LUCKIES TASTE BETTER Cleaner, Fresher, Smoother!

ALPHABET BLOCKS FOR ILLITERATES

DEPRESSED FLEA COMMITTING SUICIDE

TIC-TAC-TOE KIT

"What's this?" asks ROGER PRICE* For solution see paragraph above.

GOT A LUCKY DROODLE?

If you've got a Lucky Doodle in your noodle, send it in. We pay \$25 for all we use, and also for many we don't use. Send as many as you like with your descriptive titles to: Lucky Doodle, P. O. Box 67, New York 46, N. Y.

Fall Concert Nov. 21

The State College Symphony Orchestra will present its Fall Concert in Pullen Hall Sunday (November 21) at four o'clock.

Featured as soloist will be Lorin Krusberg, who will play a difficult Strauss horn concerto. Krusberg, a graduate student majoring in Plant Pathology, has exceptional ability on the French Horn, his ten years of experience including four years as first horn in the University of Delaware Concert Band, and a year's professional experience with the Delaware Symphonette, as well as with smaller chamber music groups.

The program announced by Christian Kutschinski, Conductor, will include the first movement of Beethoven's Symphony Number 3, ("Eroica"); Rossini's "Semiramide" Overture; Procession of the Grail, from Wagner's music drama "Parsifal"; and Elgar's "Pomp and Circumstance" March no. 1.

The concert is sponsored by Mu Beta Psi, honorary music fraternity, of which Eddie Avent is president. All students, faculty and staff members and their friends are cordially invited to attend and enjoy an hour or so of "live" music produced right here on the campus.

Engineers Needed

The U. S. Civil Service Commission announces that there is a continuing need in the Federal service for Engineering Draftsmen in positions paying from \$2,750 to \$5,940 a year.

No written test is required. To qualify, applicants must have had appropriate education or experience or both. Education above high school level leading to a bachelor's degree with a major in architecture, engineering, forestry, geology, landscape architecture, mathematics, or physics, which included at least 1 year of college-level mathematics and 1 year of college level drafting, may be qualifying for positions paying up to \$3,410 a year. Applications will be accepted from students who expect to complete the required courses within 6 months of the date of applying.

Further information and application forms may be secured from the U. S. Civil Service Commission, Washington 25, D. C., and from many post offices throughout the country.

Two flies met in a bugle and went off on their first toot together.

C.E. Head Appointed

Dr. Ralph E. Fadum, head of the Department of Civil Engineering at N. C. State College, has been appointed a member of the advisory panel on general sciences of the U. S. Department of Defense.

Chief objective of the panel, composed of 20 leading civilian consultants, is to study the nation's military research and development projects in an effort designed to achieve the best use of America's scientific and industrial resources.

Serving as panel chairman is Dr. A. F. Spilhaus, dean of the Institute of Technology, University of Minnesota.

WHO ARE
INDUSTRY'S
TOP
YOUNG
SCIENTISTS?

Ten men between the ages of 26 and 40 were featured in a recent national magazine article which presented a portrait of the young scientist in America today. These particular men are a sample of the most brilliant young scientific minds in industry.

It's interesting to note that three of the ten are with Bell Telephone Laboratories, three with General Electric and one each with four other companies.

The variety of opportunity in research and other phases of telephone work has always attracted an unusually high percentage of the nation's best young men.

Consult your Placement Officer about opportunities with Bell Laboratories . . . also with the Bell Telephone Companies, Western Electric and Sandia Corporation. Your Placement Officer will be glad to give you details.

THREE OF THE TEN ARE AT BELL TELEPHONE LABORATORIES—

Mathematician Claude Shannon won fame for his Communication Theory

Physical Chemist William Baker introduced new concepts that have improved synthetic rubber and fibers

Physicist Herring is known for his understanding of the quantum mechanics of the solid state

BELL TELEPHONE SYSTEM

WHAT'S NEW WITH THE C. U.

The group composed of fifty-two beautiful young women will present a program of Christmas and seasonal selections, plus an exciting musical review of the football "game of the week." There will be a musical interlude with selections on the piano, harp, and violin. A dance group is also featured in the ensemble.

An outstanding collection of Photographic art will be exhibited in the College Union gallery, beginning November 16. The exhibit is composed of over 50 photographs entered in the College Union Photography Contest which ended on November 16.

The photographs will be judged on Sunday, November 21 at 4:00 o'clock. Come early and out-guess the judges! Refreshments will be served.

A faculty-student bridge tournament will be held on Thursday, November 18 at 7:30 P.M., in room 256 in the College Union building. All those interested should sign up at the College Union Games Desk. Prizes will be awarded to the winners.

A ceramic demonstration will be held in the College Union Hobby Shop on Thursday, November 18 from 7:00 til 11:00 P.M.

The Salem College Choral Ensemble will present a musical program in the College Union Ballroom, November 19, at 8:00 p.m.

Nov. 18-Nov. 24

November 18— 7:30 P.M.— Faculty - Student Bridge tournament. Union Building.

7:30 P.M.—Social Dance lessons for beginners. Union Ballroom.

November 19— Deadline for entries in Art Contest. Oil, water-color, ink-pencil, and general categories.

8:00 P.M.—Salem College Choral Ensemble. Union Ballroom. Admission \$1.00 for non-C.U. members. Dates free. Coffee hour after concert. Union Reception Room.

8:30 P.M.—State College Faculty Dance Club. Union Building.

November 20— 8:30 P. M.—Cabaret Date Dance. Union Snack Bar.

1:00-11:30 P.M. — Movie. "All the King's Men" with Broderick Crawford. Union Theatre.

November 21— 2:00 P.M.—Record Concert. Music Room.

1:00, 3:00, 8:15 P.M.—Movie. "All the King's Men" with Broderick Crawford. Union Theatre.

November 23— 7:30 P.M.—Poster making demonstration. Union Hobby Shop.

8:30 P. M.—Football movie. N.C. State vs. West Virginia. Commentary by coaches. Union Theatre.

Something really new has been added to the College Union. This helpful medium can be found at the main desk. It is a travel bureau designed to help you. This up-to-date system consists of information on planes, buses, and trains in and out of Raleigh. You can also find some very useful North Carolina road maps there. If you have a car and want a rider for your trip home, come in and sign-up in the rider's book; then when a fellow student needs a ride he can look it over and contact you. It works the other way too, for a rider can sign-up and wait for a driver to call him.

This bureau is something you are all invited to make use of in the future. We hope it will help you to save time and trouble.

Eduardo Mosquera, after wins over W. O. Allen, Jr., George Crossland, and Bynum Crook, is the new campus chess champion. Other participants in the single elimination type tournament which took place at the College Union, October 20-22, were Edgar Smith, D. B. Theodoridis, Thomas James, and Bobby Ellis. The winner, Mosquera, and the runner-up, Crook, will receive watch key fobs and will have their names engraved on a plaque which will be placed in the College Union games room.

Notice

The TECHNICIAN was NOT sponsoring any candidate for any of the freshman class offices. Freshmen have not been on campus long enough to show what they can and will do and therefore, for this particular election, the TECHNICIAN will steer clear of partiality.

The candidate who was featured in last week's paper approached a reporter at the home of the staff member and requested coverage. Had any other candidate seen a staff member or had come by the TECHNICIAN office, he would have been afforded the same privilege.

The TECHNICIAN will print as much political matter for campus elections as is feasible. It is suggested that students avail themselves of this means of publicity by contacting the TECHNICIAN as the paper does not have the staff to contact all those concerned.

For 100% Representation Vote For BOB LANE Representative From School of Engineering

Filmom's Diana Lynn: "I think the Miracle Tip is the most modern filter... and L&M the best-tasting filter cigarette."

David Wayne, Stage & Screen: "L&Ms have the best filter of them all. Miracle Tip is right! There's nothing like it."

N. C. State Student Affairs Bulletin

Improve Your Reading — A new class in Reading Improvement has been scheduled for Friday, at 11:00, 111-B Tompkins Hall - Prof. Paul Rust. This course will help you improve your speed, comprehension and vocabulary. A fee of \$3.00 will be charged for the tests and materials. This is a non-college credit course.

Student Addresses — All students who have not correctly filled out a card for the locator file at the College Union (that is, not giving a dormitory BOX NUMBER and STREET ADDRESS for the off-campus students) are requested to do this immediately. This information is urgently needed.

Selective Service Tests—November 23rd is the last date to register for College Qualification Tests to be given on our campus December 9, 1954. Application blanks must be

secured from Draft Board, located in Odd Fellows Building, Raleigh. Should you take the test? See article on Page 1 of this issue of the Technician.

Cosmopolitan Club — Breakfast, Thursday morning, November 25th. Prof. J. Lewis Allison will speak on the "Meaning of Thanksgiving". Fairmont Fellowship Center.

November 26th — Trip to Chesterfield Plant, Durham, and Duke University. Bus will leave at 9:30 a.m. If you plan to be in Raleigh for the Thanksgiving recess and would like an invitation to an American home, please sign up for this or these other events at Student Personnel Office, Room 10, Holladay Hall.

Have you ever noticed that practically all those ads which promise to raise your income from \$25 a week to \$20,000 a year invariably appear in fiction magazines?

No filter compares with

L&M'S MIRACLE TIP

for Quality or Effectiveness

Isn't it time you tried the cigarette that is sweeping the country... breaking record after record... winning more smokers in less time than any cigarette ever did! Why such success for L&M? It's the filter that counts, and L&M has the best. You get much more flavor, much less nicotine... a light and mild smoke... because only L&M's Miracle Tip gives you the effective filtration you need. Enjoy L&M's king size or regular... both at the same low price. Like thousands, you'll say—"They're just what the doctor ordered."

More Flavor Less Nicotine

Best Filter Cigarette!
