

THE TECHNICIAN

NORTH CAROLINA STATE COLLEGE'S WEEKLY NEWSPAPER

Vol. XXXIX, No. 18

State College Station, Raleigh, N. C.

February 3, 1955

First Sem. Ends; New Blood Arrives

Approximately 200 incoming Freshmen and transfer students joined over 4,000 returning students in registering for the Spring semester in the Coliseum last Monday, the 31st of January.

The new students had been on the campus since the preceding Friday when they arrived to begin the four day orientation program. The program was similar to the one put on for incoming students last Fall and officially started with speeches of welcome by Chancellor Carey H. Bostian and President of the Student Body Doc Cheek Friday night in Pullen Hall. Saturday's agenda included placement and aptitude tests, physical examinations and presentation of information on the various divisions and functions of the college. The new students attended a dinner in the dining hall and then the State-Villanova game Saturday night. Sunday the program included a meeting with religious groups

of the city and the campus at 8:30 Sunday morning and later, church services of their choice. Sunday afternoon they received information on the college's extra curricular activities including the fraternities, student publications, radio station, YMCA and College Union.

On Monday the new students met with their advisors and the Deans of Instruction of their respective schools. To pick up their final pre-registration information.

Mr. N. B. Watts, coordinator of student housing, said the student housing situation is still critical and issued an appeal late last week to Raleigh residents near the campus to list all off-campus housing available for students.

Student Directories Capital Still Needed

A small committee has begun work on investigating the practicability of publishing a new Student Directory. The committee is approaching organizations and groups to see if enough financial backing can be secured to see the book through publication. The cost involved will be limited to publishing as the College Union will furnish the necessary clerical staff to compile the information. However, the CU spent its budgeted appropriations for the directory on the fall's effort and is unable to contribute financially.

The Inter-Dormitory Council and the Inter-Fraternity Council are to be approached as to support as well as the Student Government. Mr. L. L. Ivey of the Student Supply Stores has pledged his support as far as he is able. The Student Supply Stores has contributed substantially in the past to the publication of the directory.

The outcome of the effort to print the directory using the new semester's registration cards with more current information will hinge on support given it by the groups to be approached. Working on this committee are Johnny Keever, John Parker, Baxter Williams, and Carol Libby.

Players Incorporated of Washington At NCS Two Weeks From Now

Players Incorporated of Washington, D. C., will present Moliere's "The Would-Be Gentleman" in Pullen Hall at N. C. State College Friday night, Feb. 18, at 8 p.m.

The dramatic production will be sponsored here by the State College Union's Theater Committee, headed by Fred Rawicz of New York City.

In five seasons of touring the nation, Players Incorporated has given more than 500 performances of Shakespeare's "Much Ado About Nothing," "Othello," "Macbeth," "Twelfth Night," and "Love's Labour's Lost"; George Bernard Shaw's "Arms and the Man," and Moliere's "School for Wives" and "The Miser."

Now, in their sixth annual tour, they are offering two new productions, Shakespeare's "Julius Caesar," and Moliere's comedy, "The Would-Be Gentleman."

All members of the company are

former students of the famous Speech and Drama Department of the Catholic University of America, Washington, D. C., noted for the many Broadway hits which have originated from its University Theater. The department is under the direction of Father Gilbert V. Hartke, O. P., one of the most prominent figures in the American theater today.

From San Antonio, Texas, to Burlington, Vt., the Players have toured major cities and small towns. They have played before seasoned theatergoers and before people who had never before seen a professional production.

The Players still regard their tours of the Far East Command during the Korean War as the high points of their history. Under the auspices of the Department of Defense, they made a six-week circuit of Japan and Korea in 1952 to entertain battle-weary GIs, and another longer tour in 1953.

Dr. Sherwood Eddy

Dr. Sherwood Eddy Luncheon Speaker

Dr. Sherwood Eddy will be the speaker at a Student-Faculty Luncheon in the West Side of the College Cafeteria next Sunday, February 6th, at 12:45 p.m. The occasion is being sponsored by the Baptist Student Union, the Wesley Foundation, the Lutheran Students Association, the Westminster Fellowship, and the YMCA. Reservations may be made by calling at the YMCA information office or by telephoning College Extension 202, or outside number 7184, not later than Friday afternoon, February 4th.

The subject of Dr. Eddy's address will be "The Lost Secret of Life." Following an address on this same subject at Macalester College, St. Paul, Minn., Dean Huntley Dupre wrote to the YMCA Regional Office in Chicago as follows:

(Continued on page 10)

Clemson Game Sat.; Date Admission Free

The Athletic Department came through with a break for all students on the next State home Basketball game. In an announcement through the Athletic Seating Committee late last week they stated that students' dates will be admitted free to the Clemson game this Saturday night, the 5th of February. This is the first time that this new idea has been tried as a possible solution to the problem of high-priced date tickets to other games this season.

The Committee said that students may obtain these free tickets by presenting their student ticket books at Ticket Window No. 4 on Saturday night before the game.

It was further pointed out that this privilege would be extended to students and their dates only. The Athletic Seating Committee urged that all students take advantage of this opportunity as a way of expressing their thanks to the Athletic Department for making this free game possible.

Open House

WVWP will hold open house on Saturday, February 5, from 12 noon until 6 p.m., and again on Sunday night from 6 till midnight. All State students are invited to attend. The station will be on the air during this time, and visitors will have the opportunity to try their hand at announcing and production work.

The Technician's Thirty-Fifth Year

THE TECHNICIAN'S 35th Birthday went practically unnoticed Tuesday with the rush of beginning the new semester. The first TECHNICIAN was published on February 1, 1920 and the Editor was M. F. Trice with J. Guy Stuart working as Business Manager. The paper was published semi-monthly on 8 x 12 paper and the first several issues were limited to four pages.

The big news in the first issue was that enrollment had reached the impressive figure of 1,030 and that an extensive building program was underway. A dissecting laboratory for the Veterinary Department, two farm cottages, an Animal Husbandry Building, an Agricultural Extension Building were being built and \$20,000 was being spent on improvements to Pullen Hall. The Department of Architecture was in the process of organizing and \$25,000 had been spent on equipment to make the Textile Department "easily the

best textile school in the South and equal to any in the country."

Another headline is devoted to the Watauga fire and the story carries the very exacting description of the discovery of the fire, the fighting of the fire and the scene of the \$1,000 damage done to the dormitory. Trinity's (Duke) basketball team had just defeated the Techs, as State's team was called then. State came back, though, and defeated Davidson 30-10. State at the time of the TECHNICIAN's birth was playing colleges such as Guilford which it beat by a score of 45-25.

The first issue contained several stories of a literary nature such as essays and poems plus several gossip items. Jokes were used as filler and some were pretty good at that. Incidentally, prior to publication, a contest was held to select a name for the new publication. Some of the names considered were: *The Technique, Snips and Cuts, Student News, Red and White, Pine Tops, State College News, N. C. Tech.*, and since State is a technical school and the athletic teams were called the Techs, *The Technician* won out.

Design School Prof Writes For Colliers

Sam Rosenberg, associate professor of design in the School of Design at State College, is the author of an illustrated feature on Dr. Albert Schweitzer, medical missionary at Lambarene, French Equatorial Africa, in the current issue of *Colliers*.

A frequent contributor of *Colliers* and other national magazines, Rosenberg interviewed Dr. Schweitzer last July while the noted philosopher, organist, and medical authority was spending some time at his home in Gunsbach in his native Alsace, France.

(Continued on page 10)

Movie To Be Shown

The State College Christian Fellowship is pleased to bring to this campus "The Prior Claim," a film by the Moody Institute of Science. This film emphasizes that man has "prior claim" in nothing—wherever he may delve, he sees that the Creator has been there first.

It will be shown Tuesday, February 8th, at 7:15 p.m. in the Y.M.C.A. auditorium.

You are invited—bring your friends.

THE ICEMAN COMETH—Three Verville couples gather around Old Man Winter's wandering boy for a fun-making photo during his hour of glory at the beginning of exam week. Shown above, left to right, around this frozen custard Frankenstein are Dick Hardy, Gloria DeMarra, Dot Hardy, Jack DeMarra, and Jennings and Betty Wall, all of Verville. (Staff Photo by Wall)

EDITORIAL COMMENT:

Monday's Registration

Monday's registration leaves some question as to the effectiveness of State College's method of registration. All day Monday students had to sit around or stand in line for several hours which brought everyone's nerves to an edge. Students were lucky to complete registration in three hours or more.

The idea behind the new set-up was the limiting use of the Coliseum imposed by the basketball schedule. It was a physical impossibility to take up the court and seats for registration and get them back in place again between Saturday and Tuesday nights' games. Frank Thompson Gymnasium is limited in space and there is some doubt that it can actually stand the continued strain of registrations.

There seemed to be little bother in getting signed for classes. In fact there seemed to be the least confusion along this line that there has been in recent years. With the aid of guides and the map, things went fairly smoothly until everyone got fouled up at the bottleneck.

The bottleneck was at the cashier counter even though there were five cashiers working. A casual glance might lay the blame on

the employees handing out the bills but this doesn't seem to be the case as they had to hold back on the bills several times to keep the business office relatively uncrowded. It seems that the backlog built up to startling proportions during the lunch hour when three of the cashiers took off at the same time.

What was the trouble? Were the cashiers inefficient or were they understaffed? It sure looked as though at least two more would have added to the ease of registration. The long lines that formed as a result of this slowness possibly suggests that a change is in order. A number of schools mail bills out before the semester is to begin which allows students to pay for the next semester ahead of time, avoiding the bottleneck that State experienced Monday.

At any rate, this registration was one of the worst and except for this one bottleneck things could have been smooth. A thorough study of this registration, of those of the past, and of those of some other schools could possibly bring about a plan for a better way of registering and paying. At least some improvement might result of such an analysis.

Semester vs Quarter System

Several State men were talking about the semester system over a cup of coffee Sunday afternoon in the College Union Snack Bar. There may be some students here who are satisfied with the system but all those in the group were immensely rawed up. Freshmen cannot compare the quarter and semester systems through experience and so the unrest is mainly concerned with upperclassmen. One grievance that is largely limited to freshmen, though, is that if they fail to make a "C" average during the first semester they cannot be initiated into a social fraternity during the year, whereas on the quarter system they were given another chance with grades being taken in the spring.

The semester system was rammed down the throats of students without their approval but surely if the system was found to be to the detriment of the college, then the administration would consider a change. The present situation may be temporary in nature but a Student Government Committee, if formed, may find some interesting views and facts while making an investigation.

It may just be idle talk but it won't come as a surprise if it does happen that the all men's average comes out lower, considerably lower, than in the past. Men who previously had no trouble making high grades while under the quarter arrangement had a lot of trouble this fall. This may be because the school has jacked up its academic standards. This may also be because students who were use to the quarter system let things slide too long, seeing exams as too far off to worry. However, most students blame the apparent general drop in morale and grades on the system and not higher standards. Christmas Holidays are being blamed also for breaking many students' train of thoughts and habits of study.

Letters To The Editor:

To The Editor:

What's with the S. G. on our air-conditioning for the College Union building? Never before have I heard of such ramrod tactics and misrepresentation of the student body! Should we allow these "political playboys" with their fancy titles of "senators" to jeopardize our welfare when we know our College Union represents an immense operation for our benefit?

These frustrated "senators" got on the floor and raved how they had polled the student opinion on air-conditioning, but they didn't ask me, nor anyone else—they made the idiotic decision to kill it themselves, and apparently for their own prestige.

The S. G. flatly denied us a cool place to study and relax in the hot months of the school year over the nominal fee of fifty cents per semester; less than it costs to see a movie uptown! Is it justice? It certainly isn't progress.

Sure, there were some S. G. members who tried to represent the true facts and the student feeling, but were they recognized on the floor of the legislature? HELL NO! Give us a referendum!!!

Wayne Mashburn
Sr. Ag. Education

Dear Sir:

Here is a little poem about the basketball team which I thought you might like for the Technician.

Hail To The Wolfpack
The Wolfpack loyal, brave, and true
Wish to tip their hats to you—
Their basketball team of which they're proud
Let's stop and see who's in the crowd.

There's Davie Gotkin, a coaches dream
He's the Captain of the team
Molodet is in there too
Making the opponents mighty blue.

There's Dwyer and Shavlik looking down
To watch the little boys running round
DiNardo, Maglio, and Hafer
Are signing autographs with a "Sheaffer."

There's Dickman, Pond, and Bobby Seitz
Tinkering with the Coliseum lights
From this little picture it would seem
N. C. State has a whiz of a team.

But who's the fellow sitting down?
With eyes that wander all around
Oh, can't you guess? He is our ace
Why heavens galore! There sits Coach Case

Basketball

N. C. State's second loss to Villanova last week cost the Pack three places in the AP weekly rating as they slipped from 3rd to 6th. The first 10 teams in the nation: Kentucky, San Francisco, LaSalle, Duquesne, Utah, N. C. State, George Washington, UCLA, Marquette, and Illinois. Maryland 12th and Villanova 17th. . . . Villanova is the only team in the country that holds a edge in wins over teams coached by Everett Case. The two teams have met 12 times and the Wildcats have walked off with 8 victories.

Soccer

Carlos Aquerreutta, State's fine soccer player was voted to the first team All Southern selection. Scaggs, Escobar, Norris, and Baxter received honorable mention. Scaggs, Norris, and Aquerreutta won berths on the ACC All-Conference team.

Sporttalk: Hats off to the boys from Georgia Tech who handed Kentucky a 75-69 setback for the second time this year. These have been the Wildcats only two losses. . . . Look for San Francisco to take over the No. 1 spot! . . . This Saturday State's track squad will enter the V.M.I. Relays at Lexington, Virginia. . . . The Pack has four remaining home games all on Saturday night with Clemson, S. C., Maryland, and George Washington plus Duke on a Tuesday.

Frat Intramurals

Basketball

Six basketball games were played the week before exams in the fraternity leagues.

Sigma Chi-78, PKP-13—A strong Sigma Chi basketball team completely outclassed a undermanned PKP squad as they swept to a crushing 78-13 victory. Gene Cocks and Bill Lancaster tallied 19 points each for the Sigs.

P K A - 36, K A - 30—Defending champs PKA ran into rough competition as they edged passed the KA's 36-30. Robertson with 9 and Perry with 7 led the Pika's scoring. Hall, falled 12 and Barnette and Turner 8 each for the KA's.

SPE-42, AGR-23—Behind the 18-point scoring effort of Dan Smiley the SPE's had little trouble handing the AGR's a 42-23 setback last week. McIllewan and Ipoek were the standouts for the AGR's.

Sigma Nu-38, Kappa Sig-32—The Sigma Nu's were forced to

Athlete of Week

BOBBY JONES—winner of the 880-yard handicap run in the Washington Evening Star Invitational Games Jan. 22nd. . . . Time: 1:58.3 . . . the ACC conference mark is 1:59.7. . . . Bob had to spot one runner 15 yards and the other 20. . . . He returned to State this year after tour of duty with Uncle Sam. . . . Great future ahead!

Hillsboro St.

State Loses To Villanova 107-96, Drop To Sixth In Nation; Edge Va. 98-91; Host To Clemson Saturday Nite

Shavlik's 49 Points Sets Coliseum Record

Coach Case's Wolfpack of State College, fresh from their 18th win of the season, shouldn't have to much trouble in coping their 19th Saturday night when they play host to Clemson College in an Atlantic Coast Conference scrap.

State, ranked sixth in the nation this week, will be led by All-American Ronnie Shavlik and Guard Vic Molodet as they attempt to produce a win something like the 112-72 handed the Tigers in early December.

However, Clemson sports the second highest scorer in the ACC in the form of guard Bill Yarborough who has a good 30 point average in their first 12 games.

After the Clemson battle the Wolfpack travels to Virginia next Tuesday night, then over to William and Mary the next night and returning home to face South Carolina in the Coliseum next Saturday.

Virginia

The Pack had their hands full Tuesday night before they finally downed an inspired Virginia squad

98-91. Vic Molodets excellent floor play and 34-point scoring effort provided the spark that gave State the win. However, the Cavaliers have somewhat of an all-american themselves in Buzz Wilkenson as he tallied 38-points for the night.

Villanova Loss

Coach Case's squad suffered their fourth loss of the season and the second to Villanova as the Wildcats downed the Pack 107-96 despite the record-breaking performance of Ronnie Shavlik.

Shavlik Great

Shavlik poured in 49 points during the course of the evening to break the Coliseum record of 47 set by State's former all-american Sam Ranzino and Penn's Ernie Beck.

The Pack's towering center also hauled in 35 rebounds to top the old mark by 11. But the sharp-shooting of the Cats proved to much for State and thus suffered loss number 4.

An aviation cadet was listening to a lecture on the use and operation of the parachute. "And what if I pull that string and the thing doesn't open?" he asked. "That," replied the instructor, "is what is known as jumping to a conclusion."

Big-Four Host Baseball Tourney in April

Plans for conducting the first annual North Carolina Intercollegiate Baseball Tournament at Durham, April 7-8-9 were revealed today by Willis R. Casey, assistant athletic director of N. C. State College, who has been named as business manager of the affair.

The tournament, which will be patterned after the Dixie Classic basketball tournament, will have four intersectional teams, Rollins, Ohio University, Yale University and Notre Dame to oppose North Carolina's Big Four schools—Duke, North Carolina, Wake Forest and N. C. State.

The baseball coaches at the Big Four institutions, Walter Rabb of North Carolina, Taylor Sanford of Wake Forest, Ace Parker of Duke and Vic Sorrell of N. C. State are members of the tournament committee with Casey handling all preparations and business of the event.

Plans call for the tournament to be run-off in three days with a total of 12-games. Doubleheaders will be played at two parks in Durham each day, opening on Thursday, April 7 at Durham Athletic Park in downtown Durham and at the Coombs Stadium on the Duke University campus. A Big Four team will oppose an intersectional squad in each of the first round contests and pairings will be announced at a later date, Casey said. Games will begin at 1:30 p.m. with the second game of the doubleheader scheduled at 3:45 p.m.

Casey, in making the initial announcement, said the committee felt very fortunate in securing the four outstanding intersectional teams for this first tournament. Casey said that Rollins had gone to the semi-finals of the NCAA (Continued to col. 4)

RONNIE SHAVLIK, State College's candidate for All-American honors last week against the Wildcats of Villanova set a new Reynolds Coliseum scoring record as he poured 49 points through the nets . . . at half time he had 25. . . . The Pack's junior center also hauled down 35 rebounds to top the old mark by 11 . . . leads Wolfpack in scoring and rebounding.

tournament last year and expected another strong team and that the appearance of Notre Dame would mark the first time that institution had appeared in this area for a baseball game. Ohio University and Yale have made annual visits to this area and the caliber of their play is well-known, Casey pointed out.

Following the Dixie Classic pattern each team will play three games, win or lose with a champion being crowned in both the winner's and consolation brackets.

Casey said that the Big Four schools would act as joint hosts to the tournament, which is hoped will become an annual affair.

A college senior entered a professor's office one morning and said: "Last night, professor, your daughter accepted my proposal of marriage. Fully realizing the importance of the step, I have called upon you to see you and to inquire if there is any insanity in your family."

The professor looked up over his glasses and surveyed the young man in silence for a moment, then sadly nodding his head, remarked, "Yes, yes, there must be."

FRAT INTRAMURALS— (Continued from page 4)

come from behind several times as they downed a strong Kappa Sig squad 38-32 and grabbed a very important win. Charlie Honeycutt poured in 15 points for the victors and John Kaiser tallied 12 for the losers.

Lambda Chi 27, Farm House 25

—The Lambda Chi's sank a field goal in the closing minutes to edge pass the Farm House 27-25 and gained their first win of the season. Duffet and Inman with 10 and 7 points respectively led the Chi's.

PEP-32, PKT-32—The PEP's and PKT's battled to a 32-32 tie at the end of the regulation game but due to a misunderstanding on the rules, the overtime will be played at a later date.

Table Tennis

Only one of eight scheduled table tennis matches were played last week with the rest resulting in forfeits or neither team showing up. Sigma Nu defeated the PKT's 3-0 in the only match played with the PKA's, PEP's, Sigma Chi, and SAE's gaining wins by forfeits.

WINSTON tastes good— like a cigarette should!

WINSTON'S GOT
REAL FLAVOR!

AND IT'S SO
EASY-DRAWING!

■ Now there's a filter cigarette college smokers will really enjoy! It's new Winston and it brings flavor back to filter smoking!

You'll really enjoy Winston's full, rich, tobacco flavor. And you will really appreciate

Winston's finer filter. It's unique, it's different, it filters so effectively! Winstons are easy-drawing, too, for full flavor enjoyment.

Try a pack of Winstons! They taste good—like a cigarette should!

Smoke **WINSTON** the *easy-drawing* filter cigarette!

WED LIKE YOU TO MEET -

Hilding Robert "Bob" Krook, President of our campus chapter of Blue Key and one of the most active men on the State College campus.

Bob entered State in the Fall of 1951 and soon reached a place of prominence at the School of Textiles where he is enrolled in the Textile Manufacturing Option. In his sophomore year, Bob was a member of the Thompkins Textile Council and was one of the School's representatives to Campus Government. He continued his activity last year, serving as Treasurer of Student Government and as a member of the Consolidated University Student Council.

Bob is the son of Mr. and Mrs. Hilding R. Krook of Philadelphia where he was born twenty-one years ago. He attended William Penn Charter School there before coming to State.

Bob has received many honors while he has been here at State. He is a member of the S.A.E. Fraternity and has been honored by election to Golden Chain, Phi Psi, Scabbard and Blade and Blue Key as pointed out above. This year he has been elected to head the Textile School Open House.

State should be proud to have a student of Bob's caliber on the campus and he deserves congratulations for his fine work.

Dean Malcolm E. Campbell of the School of Textiles, one of the most important people behind the growth and present high rank of the Textile School of North Carolina State College. It would be hard indeed to find a man who could equal the record of Dean Campbell in service and leadership.

Born in New Bedford, Mass., he attended the New Bedford Textile Institute and received his B.S. degree there. He then went to Clemson College in South Carolina to continue his studies and received a degree from that institution also. After teaching at Clemson from 1923 to 1926, Dean Campbell was made Senior Cotton Technologist in the US Department of Agriculture.

Dean Campbell has done much traveling in his work, visiting six European countries while on an inspection trip of textile research laboratories for the U. S. Government. Only last year he was sent as leader to the American Technical Cotton Mission to Pakistan, Japan and India.

Dean Campbell's many honors include an offer to serve as a research and educational advisor by the government of Brazil. He has been awarded the Certificate of Merit by the U. S. Cotton Spinner-Breeder Conference in 1950, and the certificate of appreciation of the Army Department in 1951. He was also elected President of the National Council of Textile School Deans in 1946.

Travel photography is Dean Campbell's favorite hobby and he has many fine examples of this hobby in the form of a remarkable collection of photographs from all over the globe.

To the students, above all, Dean Campbell is a true friend. One needs only to drop by his office for a friendly "bull session" or to discuss some problem to see that Dean Campbell is a man of whom State College can well be proud.

To Be Awarded CE \$2,000 Scholarship

Two scholarships in ceramic engineering, valued at \$2,000 each, will be available at North Carolina State College next fall under the "Talent for Service" Scholarship Program.

This was reported by Dr. E. T. York, Jr., chairman of the State College Committee on Scholarships and Grants-in-Aid, and H. B. Foster of Greensboro, general manager of the Brick and Tile Service, Inc., donor of the awards.

They said that high school seniors who are interested in the scholarships may make application for the wards by writing to Dr. Lyle B. Rogers, Student Aid Office, Holladay Hall, North Carolina State College, Raleigh.

High school seniors who already have applied for "Talent for Service" scholarships and who expressed a preference in their application for ceramic engineering will also be considered for the Brick and Tile Service scholarships.

Foster said the Brick and Tile Service, an organization of 20 North Carolina brick and tile manufacturers, is offering the scholarship awards to encourage talented high school students to continue their education.

Meantime, Dr. W. W. Kriegel, professor-in-charge of ceramic engineering in the State College Department of Mineral Industries, said that there is "a great demand" for N. C. State ceramic engineering graduates and that they face the attractive possibility of having at least five jobs each on the average with starting salaries ranging from \$355 to \$425 per month.

The Brick and Tile Service established a scholarship program at State College two years ago but has just decided to participate in the "Talent for Service" scholarship plan, sponsored by the college's Development Council.

Present holders of Brick and Tile Service Scholarships at State College are Johnny Freeman, Hendersonville, and Thomas Anderson, Durham, sophomores at the college; and Eugene Herman, Hickory, and John Belk, Oxford, freshmen.

Nuclear E. Junior Wins Scholarship

Albert Sidney Roberts, Jr., of Washington, N. C., a sophomore in nuclear engineering at N. C. State College, has been chosen as the 1955 winner of the "William Richardson Davie Scholarship" at the college.

Announcement of the selection of Roberts for the scholarship award, valued at \$100 in cash, was made today by Dr. Lyle B. Rogers, student aid officer and secretary of the State College Committee on Scholarships and Grants-in-Aid.

Dr. Rogers said that Roberts, son of Mrs. A. S. Roberts and the late Mr. Roberts, has "an excellent scholastic record." He is also a member of Phi Eta Sigma, freshman honor society; is a Companion of St. Patrick, honorary engineer-

LITTLE MAN ON CAMPUS

by Dick Biber

"One big advantage in having to take this course over is that I know when I'm supposed to laugh."

ing order; and received the freshman certificate of merit from Phi Kappa Phi, national honorary scholastic fraternity.

Roberts last year received an award as the outstanding freshman in nuclear engineering.

He is a member of the college chapters of the American Institute of Physics and Pi Kappa Alpha, social fraternity. He is currently playing in a dance band to help finance his college education.

"The William Richardson Davie Scholarship" was established at North Carolina State College by the North Carolina Society of the Cincinnati, of which James S. Ficklen of Greenville is treasurer. The society presents a \$100 award each year to the State College student chosen by the college's Committee on Scholarships and Grants-in-Aid.

D and B Corps Boasts 50 Cadets

By Bob Avent

Anyone who is on the State College campus around 12 o'clock on ROTC drill days, no doubt sees and hears the Army ROTC Drum and Bugle Corps. This sharp group of 50 cadets marches, drums, and does complicated movements.

Under the command of Cadet Major Charles W. Bogle this year's corps is better than any before it. Cadet Major Bogle supervises the corps' drill under the watchful eye of Major Isadore Gargaro, the D and B's adviser. All the men in the ranks are either MS I or MS II students. The Drum and Bugle Corps marches in five columns and eleven ranks. There is at least one sergeant in each rank who has the responsibility of keeping the rank dressed right.

The first rank of the corps consist of the tenor drummers, then there are three ranks of snare drummers with the two base drummers and a symbal player in the fourth rank. The remainder of the corps is composed of bugles. There are four base buglers on the last rank. Some surprise may be registered by some people in the near future when the buglers play fifes instead of the usual bugles.

Every year at the State football games the Drum and Bugle Corps entertains the spectators with such movements as in place halt, double to the rear with a slight hesitation, and "queer" to the rear. This, however, is only part of the D and B's duties. It is also their duty to take the place of the band in regimental reviews when the band is being used somewhere else. They fill in for the band in practice parades and in some actual parades.

The Drum and Bugle Corps participates in the State College Homecoming Parade, the Raleigh Christmas Parade, and the Fire

Prevention Week Parade. They also go to each spring to march in the Azalea Festival Parade.

Every cadet in the Drum and Bugle Corps is proud of the corps and is proud to be a member of it. More merits are given in this outfit each year than in any other outfit at the College. It is easy to tell that real esprit de corps exists in the D and B.

16 Classes Offered By Extension Division

N. C. State College's Extension Division will make final arrangements this week for the opening of a new series of 16 evening classes beginning Monday, Feb. 7.

Director Edward W. Ruggles said early this week that the residents of Raleigh and vicinity who may wish to take the courses may register this week by visiting the Extension Division's headquarters in the 1911 Building at the college or by telephone.

Those who fail to register this week may enroll during the first class meetings. Details of the class schedules may be obtained by contacting the Extension Division.

Most classes will meet from 7 to 10 p.m. one night a week for 15 weeks.

The schedule includes classes in

industrial arts, English, history, modern languages, psychology, economics, human behavior, penology, photography, art, home interior decoration, principles of accounting, American Literature, and welding.

Among the classes to be offered will be those giving college credit, vocational courses, and hobby courses. Ruggles explained that the courses are planned in line with popular demand and the needs of the students.

State College professors will teach the classes, except in instances in which specialists not available at the college are needed.

A record-breaking number of 25 evening classes conducted last fall drew an attendance of 248 persons.

"Pardon me, sir, do you know the way to the post-office?"

"No, I'm sorry, I don't."

"Well, it's two blocks up and one to the right."

"Billy, get your little brother's hat out of that mud puddle."

"I can't, Ma, he's got it strapped too tight under his chin."

SQUARE CIRCLE

By Dixon

Teacher won't tell: But on a final exam a certain co-ed defined polarized light as "the kind used in refrigerators."

Snow madness: Just after a recent snowfall an industrial engineering senior was seen to climb through the open arch at the north end of 1911 Building's second floor and walk deliberately across the porch to the roof's eave. Then, while a couple of female bystanders watched from below in horror, he twice as deliberately retraced his steps back to the open arch, leaving only a single set of "going away" prints in the new snow. Character then spent spare moments in a parked car watching people leaving the upper floors doing a double-take on the mysterious footprints.

Well, spank my little hands: Student inadvertently misspelled instructor's name when he filled out a laboratory report cover sheet. Otherwise, report was near perfect. Report was down-graded to B with this comment, "naughty-naughty!"

Integral statistics: Of an estimated 200 new students expected to attend Sunday's orientation less than 100 appeared. Among those conspicuously absent were all the NEW co-eds.

Silver lining: Despite all the confusion and snafu concentrated in the registration line at the Coliseum last Monday, many, many students are most grateful for the new registration system. It gives them time to get back to school before last semester's grades are received at home.

YMCA SPONSORING—

leaders. The names of the leaders, the day, the hour, and the place of meeting is given below.

Group I—Leader: DR. R. FREDERICK WEST, A.B., B.D., Ph.D., Pastor Hillyer Memorial Christian Church; champion tennis player. Place: Scial Room, Becton Dormitory

Day and Hour: Fridays, 7-8 p.m. Dates: February 4, 11, 18 & 25. Theme: WHAT MAY I BELIEVE?

1. What May I Believe About God?

2. What May I Believe About the Bible?
3. What May I Believe About Christ?
4. What May I Believe About the Church and the Christian Life?

Group II—Leader: ROBERTS C. LASATER, A.B., B.D., Efficient Director of B.S.U. at N. C. State; Experienced Discussion Group Leader.

Place: Social Room of Tucker Dormitory
Day and Hour: Wednesdays, 7:30-8:30 p.m.

Dates February 2, 9, 16 and 23
Theme: BASIC CHRISTIAN IDEAS

1. The Christian Idea of the Bible
2. The Christian Idea of God
3. The Christian Idea of the Church
4. The Christian Idea of the Good Life

Group III—DR. L. E. M. FREEMAN, A.B., Furman, M.A., Harvard, Th.D., Baptist Theological Seminary, Louisville, Ky., Head of Dept. of Religion at Meredith College for 39 years; hobbies—gardening and carpentry work.

Place: Conference Room of YMCA
Day and Hour: Thursdays, 7-8 p.m.
Dates: February 3, 10, 17 and 24

Frat. Discrimination Tabu At U. of Colo.

Several of the nation's colleges and universities are forcing a program to end discrimination on social fraternities. The idea is aimed at groups which discriminate because of race or creed. The idea that has been pushed seems to be one that is in opposition to the fraternal orders' desire to have only men of common background and heritage. Most fraternity men feel that such a forced program will destroy the basic ideas of fraternities. The following paragraphs from an Intercollegiate Press release sketches the situation at Boulder, Colorado.

The Faculty Senate of the University of Colorado recently recommended to the Board of Regents that it adopt the SOSL (student organizations and social life) policy on discrimination in fraternal organizations instead of the con-

Theme: TOWARD UNDERSTANDING THE BIBLE

1. The Nature of the Bible
2. The Bible Idea of God
3. Jesus, the Bible's Central Figure
4. Jesus' Idea of The Good Life

troversial Austin (Regent H. Vance Austin) anti-discrimination bill.

The SOSL recommendations are also designed to end discrimination in fraternal organizations on this campus, but they differ from the Austin motions in these respects: in the SOSL policy there is no deadline for ending discrimination, nor is there a provision for notifying potential pledges about the discrimination policies, if any, of their prospective fraternal organization. It does, however, include a clause exempting religious groups, which is not part of the Austin motion.

President Ward Darley, stressing the fact that there was no debate on whether or not discrimination should be permitted to exist but on the means toward ending it, said, "Our objective is to eliminate discrimination in the University community. The fundamental question we have here is whether a terminal date will help or hinder in reaching a true solution to this problem."

At the faculty senate meeting proponents of the terminal date said that it was necessary so that the so-called educational process would not drag on endlessly. Opponents of the terminal date said (Continued on page 3)

A STUDENT'S BEST FRIEND is Lucky Strike. At any rate, the greatest, up-to-date college survey shows that college smokers prefer Luckies to all other brands—and by a wide margin. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Luckies taste better anywhere, any time, as illustrated in the Droodle

above, titled: Skier enjoying Lucky while whooshing under bridge. Next time you make tracks to a cigarette counter, Be Happy—Go Lucky. Enjoy the better-tasting cigarette... Lucky Strike.

NCS Founder of Gaston Tech. Inst.

by Peggy Cheers

The expanding industrial South is realizing the truth in the statement—"The United States is becoming technically thread-bare." Present figures reveal that five or more technicians are need for every engineer in industry.

Pioneering in founding a technical institute program for the Southeast was North Carolina State College.

Two main factors contributing to the establishing of the technical institute:

(1) The crowded condition at N. C. State College during the summer of 1947.

(2) A foundation, created by the late Joseph P. Knapp, a New York publisher who had been interested in eastern North Carolina for many years, gave \$20,000 to N. C. State College for the establishment of a technical institute.

The first location chosen for the school was Morehead City. The State Department of Conservation and Development presented State College a track of land and buildings. Here the technical program was established by the State College Extension Division under the auspices of the college's School of Engineering in 1947.

The school was operated in Morehead City for five years under the direction of James I. Mason. During this period, students entered the institute from cities throughout North Carolina, Pennsylvania, New York, Virginia, Louisiana, New Jersey, West Virginia, Maryland, California, India, and Egypt.

The problem still wasn't solved. The technical school was being operated in a coastal town while the principal industry where technicians were needed was centered in the piedmont section of the State.

Gaston County made a bid for a technical institute. In 1952, a group of farsighted businessmen, led a successful drive to raise \$50,000 for the purchase of a site and construction of suitable buildings. The Morehead school came to Gastonia and became the Gaston Technical Institute.

Usable equipment was shipped from Morehead City. The main building was remodeled to include a large reception room, offices, classrooms, a modern library with more than 1,000 volumes, laboratories, a student bookstore, and a snack bar.

Mason, who had been director of the Morehead school, became director of the Gaston Technical Institute. His teaching faculty was increased to 10. And the first session of the Gaston Technical Institute began.

A high school diploma or its equivalent in experience is the entrance requirement of the school. The school operates 3 terms each year—fall, winter, and spring—and offers four one-year terminal technical courses—electrical, radio and television, automotive, and mechanical technology.

Sixty-four students enrolled this year in technical courses, and 120

in the vocational ones. These 184 students have come from 78 different towns, mostly in North Carolina. Other states represented in the past year were Kansas, South Carolina, and Virginia and one South American city—Lima, Peru.

Local interest in the school remains high. Business concerns in Gastonia and near-by Charlotte have donated equipment, and a scholarship has been established.

On behalf of the Charlotte branch of the Ford Motor Company, J. G. Henderson, administrative assistant, presented the school with a 1954 V-8 engine along with a Fordomatic transmission, radiator, standard truck transmission, passenger rear axle assembly and power steering assembly. Prior to this donation, the Chrysler Motor Company gave the school an engine for demonstration and training purposes.

The school's most recent donation came from Akers Motor Lines,

Inc., of Gastonia. John M. Akers, vice president and general manager of the trucking concern, presented a Mack Diesel engine to the Institute for use in its training program. Akers commented that several of his maintenance workers are graduates of the school.

Graduates of the Gaston Technical Institute have found good pay-

ing jobs in industry. Graduates have secured employment with all the large power companies of the state, the telephone companies, radio and television stations, municipalities, and numerous private concerns.

What began in Gastonia as a local project has become a State-wide endeavor, another of North

Carolina's first. The industries and the citizens of the State are benefiting from the State College Extension Division's pioneering technical institute.

"Have you read Webster's Dictionary?"
"No, I'll wait until they make it into a movie."

What young people are doing at General Electric

Young manufacturing expert pioneers in automation at General Electric

In 1964, our greatest shortage may be working people. This country's demand for electrical goods will be 100% greater than it is today. But there will be only 11% more workmen. How can production per man be boosted enough to close the gap?

For one answer, 31-year-old P. H. Alspach, Manager of Manufacturing Development at G.E., is exploring automation.

Automation: Continuous Automatic Production

Automation is a way of manufacturing based on the continuous-flow concept. Products will be made, inspected, assembled, tested, and packaged by a series of integrated machines in one uninterrupted flow. As industry evolves toward greater automation, more workmen will become skilled machine specialists or maintenance experts able to control complete systems.

Phil Alspach and the men under him now draft layouts for automatic systems, tackle the engineering problems involved, design automation equipment, and even build some.

23,000 College Graduates at G.E.

This is a big and important job. Alspach was readied for it in a careful, step-by-step program of development. Like Alspach, each of G.E.'s 23,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

PHIL ALSPACH joined G.E. shortly after graduation from Tulane (B.S. in M.E., '44), has completed G.E.'s Engineering Program, Class of 1945, and its Creative Engineering Course, 1949.

Harnett School Supt. To Head Ag Group

G. T. Proffitt of Lillington, superintendent of Harnett County Schools, has been elected chairman of the advisory committee of the N. C. State College Department of Agricultural Education.

His election to the post was announced by Dr. J. Bryant Kirkland, dean of the State College School of Education, following a committee meeting at the college.

A. C. Edwards of Hookerton, Greene County representative in the General Assembly, was named vice chairman of the committee, and Dr. Gerald B. James, faculty member in the college's Agricultural Education Department, was elected secretary.

DR. EDDY—

(Continued from page 1)

"Sherwood Eddy was with us for Chapel on last Thursday, November 18, speaking in the two successive and identical chapels to our 1200 students. He shook up our students as they haven't been shaken in years. He did this by his fusion of personal religion with the social gospel. This great modern prophet was in his old time fervor and form. He shocked and antagonized many by the illustration (viz. the Dixon Yates deal) he used as evidences of injustice and exploitation of the poor. They said such "partisanship" was out of place in the pulpit. You never heard such vigorous discussion on the campus afterwards."

"In my judgment Sherwood Eddy should be used as widely as possible in our Colleges as long as his strength will permit. I know of no other modern Amos doing what he has long done and which he is still doing in the colleges."

"Dr. Eddy is a graduate of Yale University in Civil Engineering. He became interested in Christian work thru the influence of Dwight L. Moody and shortly after graduation went out to India as a missionary under the International Committee of the YMCA. Later he was put in charge of all the YMCA work in Asia. He has spoken in hundreds of colleges in many parts of the world. For 25 years he has taken a traveling seminar to Europe to study conditions on that continent. He is the author of 36 books, the last one of which is his autobiography entitled "Eighty Adventurous Years," will be off the press this month. He is now working on number thirty-eight which will bear the title "How To Live."

Dr. Eddy has visited N. C. State several times over a period of thirty years. Earl T. Dicks, who was president of the YMCA in 1950, declared that the address Dr. Eddy gave at a Student-Faculty Luncheon that year was the greatest address he had ever heard.

CAMPUS HEADLINES

Just before exams the *Daily Tar Heel* over at Chapel Hill informed the world that: "Three Seniors Get Moreheads." *On a campus of multi-heads a few multi-heads shouldn't be out of place.*

A recent edition of the Richmond Professional Institute's *Prospect* claims there is a: "New Course Offered To Secretaries." *Yes, but can a good girl follow it faithfully.*

The new year's first issue of *The Twig* from Meredith College had this front page head spanned across three columns: "Exams Loom; Six to Graduate." *Almost makes you think the finals were fixed.*

The Carolinian at Woman's College just carried an interesting item with this two-column head: "Panel Discussion Reveals Relation Of Artist To Times." *Meaning in this particular instance, undoubtedly, now is NOT the time for young females to draw pictures of undraped males for college publications.*

Mississippi State College's *Reflector* announced coming examinations this way: "Students To Be Pitted Against Professors in 'Duel To Death.'" *On most campuses this could be laughingly referred to as "the battle of wits" and be about 50 per cent correct both ways.*

DESIGN SCHOOL—

(Continued from page 1)

Professor Rosenberg's article deals mostly with the large volume of letters which Dr. Schweitzer receives both at Gunsbach and Lambarene. He illustrates the article with two pictures of Dr. Schweitzer which Rosenberg made in color. The N. C. State professor said Dr. Schweitzer stayed up one

night from 12 midnight until 4 a.m. to grant him an interview and to reply to questions.

Rosenberg whose pictures have been widely published by Major national magazines in this country and overseas is currently conducting a TV course on photography over WUNC-TV each Monday evening at 7:45 o'clock.

Pizzas Are A Specialty At

GINO'S

Serving All Italian Foods

Pizzas to take out
