NORTH CAROLINA STATE COLLEGE'S WEEKLY NEWSPAPER

Vol. XXXIX, No. 33

State College Station, Raleigh, N. C.

May 26, 1955

## Reactor Dedication Opens New Era

With the dedication of its unique \$650,000 nuclear reactor Monday afternoon, State College ended "a Government monopoly in a very important field" and opened a new era of training and research that may lead to further atomic advancements.

These views were voiced by Dr. Willard F. Libby of Washington, D. C., one of the five members of the powerful U. S. Atomic Energy Commission and a world-renowned educator and scientist, who delivered the chief address during the reactor's dedicatory rites. He was introduced by Dr. Carey H. Bostian, chancellor of State College, who presided over the dedication.

During the solemn dedicatory exercises, State College formally named its nuclear reactor the Burlington Nuclear Laboratories. It is the nation's first college-owned facility of its kind, the first to be used solely for the peacetime development of the atom, and the first to be open, without restriction, to the public.

A gift of \$200,000 from the Burlington Industries Foundation enabled the college to erect its reactor and launched the world's

first nuclear engineering training program leading to B.S., M.S., and Ph.D. degrees.

Governor Hodges, speaking briefly at the dedication, lauded Love as "a great citizen" and said, "He is extremely modest, but extremely capable. He has built quietly and effectively an empire without fanfare or bombast. His organization is among the leaders of the nation in employee and public relations. . ."

The State College nuclear reactor, which began operating on September 5, 1953, was devised and developed in the Physics Department of the college's School of Engineering.

As the nation builds its atomic resources, the number of students enrolled in the State College training program, Dr. Beck reported, is steadily growing. In its first, three years, the program has granted 60 B.S., 47 M.S., and two Ph.D. degrees. A group of 170 students enrolled for the training during the current school year.

## Two Plead Guilty At Judicial Trial

The last two cases, although separate defendants, brought before the Student Judicial Board were identical. Both defendants were charged with the possession of alcoholic beverages in a dormitory room; both pleaded guilty; and both were given the same penalty.

It was ordered by the Judicial Board that each defendant be given a reprimand, a letter be sent to his parents, and if convicted of any offense in connection with alcoholic beverages contrary to the Student Government Constitution and By-Laws during his stay at State College, he be suspended for at least one semester.

## Golden Chain Makes Its Annual Selection

Golden Chain, highest senior honor society, tapped 12 top-ranking juniors.

Dr. Carey H. Bostian, chancellor of State College, was named an honorary member.

The new members, all leaders in extra-curricular activities and in their academic work, assumed the role of student leadership on the campus from the 12 retiring members. The new members are:

Charles Lundy, editor of The Southern Engineer; James H. Frazier, junior representative of the Athletic Council; John R. Combs, president of the Engineers' Council; Eugene Pickler, winner of the Alpha Zeta Scholarship Cup and the I. O. Schaub Scholarship; Samuel R. Harrell, manager of the student radio station, WVWP.

James M. Stewart, Jr., president of the YMCA; Charles Woodall, member of the Judicial Board; Claude Franklin Elliott, president of the Junior Class; Sam Beddingfield, president of the College Union; Billy Dozier, new president of the Senior Class; Ed Yancey, secretary of the Student Government; and Fred Rawicz, vice president of the College Union.

## Ag. Ed. Students

Agriculture Education Students living off-campus or out practicing teaching may pick up their copies of the VO-AG in room 103 Tompkins Hall. This book, published each year, features suggestions to future teachers and includes pictures of each AG-ED Senior.

## Tuition Pre-Payment Plan Now In Effect

In an attempt to speed up registration next year, a new system for paying tuition and fees has been released by J. G. Vann and Wendell Murray of the Business Office.

This pre-payment plan has been adopted, effective with the fall semester of the school year 1955-56, whereby ALL STUDENTS will pay their accounts prior to registration which will eliminate the "Business Office" line at registration.

Briefly, the procedure will be as follows:

- (1) During the summer a statement will be sent to each student, showing the amount of his tuition and fees for the fall semester.
- (2) The student will mail a check to cover his expenses, and a receipt will be mailed to him.
- (3) On registration day ALL STUDENTS must present their receipts before receiving permits to register.

The Statements will be sent to the permanent home address of the students. Any student who wishes to have his statement mailed to a different address should notify the Business Office immediately.

Any student who is interested in paying through a scholarship, grant-in-aid, or by part payments should either write or contact Dr. Lyle B. Rogers, Financial Aid Officer, 9 Holladay Hall.

## WVWP Finances

FINANCIAL REPORT—JULY 1, 1954 TO JULY 1, 1955

RECEIPTS:	
Brought Forward	\$ 844.27
Student Fees	2,101.49
Advertising Revenue	452.35
Other Collections	98.12
<b>TOTAL RECEIPTS</b>	<b>3,496.23</b>
Local Advertising Due	\$ 488.00
Na. Advertising Due	350.00
<b>TOTAL ADVERTISING DUE</b>	<b>838.00</b>
<b>TOTAL ASSETS</b>	<b>4,334.23</b>
EXPENDITURES:	
Fees and Subscriptions (Publications Board and IBS)	\$ 214.60
Salaries	
Station Manager and Bus. Manager	900.00
Executive Sec. Bd. of Publications	249.33
<b>(Continued on page 8)</b>	

## Book Exchange

The A.Z. Book Exchange will be open Friday, May 27, Monday May 30, and Tuesday May 31. This will be the last chance to pick up books and money this year.

Ed Yancey, Exchange Manager, urged students to remember that all books that go out of date and all money left in the exchange at the end of the Spring Semester will become property of A.Z.

## Student Legislature Clears Agenda

The Student Legislature met Monday and cleared the agenda for the remainder of the 1954-55 school year. Among the old business was the election of two delegates from the Student Legislature to represent State on the Consolidated University Student Council. The two men elected were John Lane and Joe Hall.

Jim Frazier reported that record votes were recorded for both the Freshmen elections of last November and the recent General Campus elections. Of the Freshmen class, 48% voted in the Freshmen elections; and in the General Campus elections, 50.1% voted in the primary and 50.4% in the secondary. As far as can be established, this is a record for State College. A standing round of applause was given Jim Frazier for the excellent work he has done with the Student elections this year. Jim also presented recommendations from the Elections Committee for changes in next year's election rules and procedures. Since some of these recommendations will require Constitutional changes, they were left to the Legislature for next year.

Resolution 20.1 concerning Off Campus Parking was again brought before the Legislature. The resolution read: In order to improve facilities for off-campus parking, be it resolved: That old cross-ties be obtained from Seaboard Railroad and used to mark off parking places in Tompkins parking lot. M & O to do the work and money appropriated from Student traffic fines. Be it recommended to Campus and Traffic Committee—that Tompkins parking lot be extended fifty feet West and an entrance made on that end, marking the East end for an exit and

having one way traffic in the lot.

An amendment to the resolution was made by Jim Frazier stating that the resolution be accepted but that any reference to additional cross-ties be omitted. The amendment and amended resolution passed.

On May 9, 1955, the Student Legislature passed a recommendation that it appropriate \$450 to send four delegates to the United States National Student Association this summer. A resolution was brought forth at this last meeting stating: Whereas there is a surplus of funds for the Student Government banquet and; whereas five men, giving us one alternate who is paying his own travel expense, are going to USNSA and; whereas expenses for the trip will amount to about \$650; Therefore be it resolved by the NCS Student Government Legislature that one hundred dollars (\$100) be added to the fund for USNSA boosting the amount to \$550.00. The resolution did not pass the Legislature as it felt that an alternate was not necessary since he did not have a vote.

Resolution 17.3 concerning the Student Directory for next year was again brought before the

(Continued on page 8)

## Dozier Makes Appeal

To All Undergraduates

"Every student, from Senior to Freshman, deeply appreciated the action of the Administration when Seniors were given the option of taking final exams. There is no doubt that the graduating Seniors of this year will leave State College with a more pleasant memory of their school days. It will not be pleasant because they were exempt from having to put out the extra work their last week of college. But it will be a happy memory of a graduation ceremony worthy of the occasion which culminates four years of hard work, heartache, laughter and tears and loss of sleep. The college years, though happy ones, are hard ones and deserve a fitting celebration at their close.

"The Administration and Senior Class officers have worked hard providing a better graduation ceremony this year. Much of the program is new and is only an experiment. The continuance of such a privilege depends on the participation and enthusiasm on the part of the whole student body, especially the graduating Seniors. Every student is urged to attend every function to which he is eligible. For the Seniors, this includes the Chancellor's tea, the dance, the Baccalaureate service, and the individual school graduations. For the undergraduates, their attendance is needed at the Baccalaureate service and the school graduations.

"A memorable graduation, including exemption from final exams, is certainly desired by every student. Therefore it is the duty of every undergraduate to remind every Senior and every other undergraduate to participate in this year's exercises if he wants them to be continued until his own graduation."

Next year's graduation depends on your participation.

Billy Dozier  
President, Rising Senior Class

## Colonel W. J. Jowdy Finishes NCS Stay

Colonel William J. Jowdy, Captain Nimrod McNair, T/Sgt. Clifford Morgan and S/Sgt. Jasper Russell are completing their tour of duty with the Department of Air Science at State College with the completion of this school year.

Colonel Jowdy has been selected for attendance at the Army War College at Carlisle Barracks, Pennsylvania. He will depart for his new assignment during the month of June. Captain McNair will enter B-17 Medium-Bomber Jet training and will depart from State College approximately July 1st. The first phase of his training will be at Waco, Texas.

T/Sgt. Morgan and S/Sgt. Russell have not received their Reassignment orders.

## K. D. Raab Appointed Registration Head

Appointment of Kenneth D. Raab, a member of the State College faculty since 1946, as director of admissions and registration at the college, effective June 1, was announced today by Dr. Carey H. Bostian, chancellor of the institution, and Dean of Student Affairs J. J. Stewart, Jr.

Chancellor Bostian and Dean Stewart also announced that Dr. (Continued on page 4)

## "Y" Cabinet Members Installed At Meeting

At a dinner meeting held in Room A of the College Cafeteria on May 18th, the following students were installed as Y.M.C.A. Cabinet members for the year 1955-1956: Floyd Elliott, William Lawton Miller, Rufus Myers, C. Edwin Vick, Jr., William M. Turner, Robert B. Butler, William J. Jasper, Franklin Boyd, William C. Davis, Joseph Dixon, Lee Cash, Scott Key, Bernard McLawhorn, Richard Westmoreland, Billy G. Johnson, K. C. Lanier, Joseph H. Williams, Carlyle Teague, Kirby Hinson, Carl Peters, James Limer, Clifford McCachren, Richard C. White, Charles Webb, Talmage Wiggins, Ralph Gurganus, Ralph Siewers, Paul Essex, Joe Webb Hamrick, Lynn Pyler.

In accepting membership on the Cabinet, these students subscribed to the purpose of the Y.M.C.A., which is:

"In the fellowship of the Christian Church, we seek to understand the will of God through worship, study and action, and we strive to realize it both in personal living and in working towards a Christian society. We seek to lead students to faith in God through Jesus Christ; we seek to lead them into membership and service in the Christian Church; we seek to promote their growth in Christian faith, especially through the study of the Bible and prayer; and we seek to influence them to devote themselves in united effort with all Christians in making the will of Christ effective in human society and extending the kingdom of God throughout the world."

They further promise to endeavor to cultivate the spiritual life, to endeavor to live daily so as to exemplify the teachings of Jesus Christ and to attend all Cabinet meetings.

## EDITORIAL COMMENT:

# The Completion of Vol XXXIX

The past year has certainly been an interesting as any year could be. Such campus issues as the Student Directory, College Union Air Conditioning, and the traffic problem have been the subject of debates and editorials and have made life just a little more interesting. These issues coupled with the opening of the new College Union Building and the new D. H. Hill Library have furnished editorial material that has made writing easy. These issues have made 1954-55 a school year to remember.

Actually it's hard to separate events into years. It seems that so many events flow into each other that they are no longer distinguishable by years. When we registered as a freshman the campus was completely torn up. The new agriculture buildings weren't completed and the library and CU were only plans. Yet, all are finished and landscaped, and it seems like they have been there for ages.

Not only has the campus changed physically; there have been other changes. Two years ago it was the Campus Government and now it is the Student Government. The Judicial Board, the Legislature have all developed into effective bodies of which students can be proud. Developing these bodies have been some outstanding students who like Billy Oliver, "Doc" Cheek and dozens of others have given their time selflessly to make student life better. Their work hasn't been appreciated by all students (and faculty members), but those who have kept their eyes open have seen the changes and respect these people for their ideas and services.

Changes have occurred in the administration. Perhaps the most outstanding events have been the retirement of Colonel Harrelson with Chancellor Bostian taking over and the big revamping program that took place last spring. Dr. Bostian appointed J. J. Stewart as Dean of Student Affairs, and this event alone was one of the most important changes affecting students. Dr. Bostian, Dean Stewart, Banks Talley and N. B. Watts have been the men that students have had to depend on, and these men have been dependable friends.

And here we pause to honor the memory of a man for whom much of the new State College stands as a monument. The loss of Chancellor-Emeritus Harrelson was a loss that hit at the heart of the College. Under his leadership State doubled in size and in facilities. Perhaps this is a period that will serve as a criterion for all progressive movements of the future.

Getting back to some of the more pleasant subjects, thanks to Don Joyce and Johnny Puckett, the *Agromeck* and *Technician* are going to finish the year in the black. Last year saw a \$6,500 deficit for the yearbook and paper. Most of these sums were represented by uncollected accounts, and thanks to the two business managers, plus the help of Banks Talley and Lindsay Whichard, most of this money has been collected. Puckett has been responsible for better management of the paper, and it's through his hard work that a change from red to black has been effected.

An eternal student gripe was removed from the campus this spring, the profit-sharing contract that the Student Supply Store manager had worked under. Under the insistence of the Student Government he

was hired with a straight salary just like any other college employee. At the same time that this occurred, it was brought home to the College that it is fortunate to be able to retain L. L. Ivey. He was recognized nationally with an honor reserved for the top S.S.S. managers only.

A student gripe not removed from the scene, however, is the semester system. Faculty members and students are divided among themselves as to how the change has helped the college. A majority of the students seem to dislike the system and wish the quarter system could be returned. The semester system was forced on students. Perhaps this is one cause of the unrest but more than that it has left a bad taste, caused by inherent features of the semester system.

Alumni returning to State find it hard to believe that an unlimited cut program is a reality and that Seniors will graduate this weekend with underclassmen still on campus. They find it hard to believe that student-faculty relations have been bettered. Even though there is a lot to be desired, things are better all over the campus.

A change closest to home will be changes that will occur in the layout and management of the *Technician*. It is these yearly changes that mean variety and progress for the paper. From all indications, L. C. Draughon will make a capable leader for the staff that puts out the weekly next year. This year's staff has been responsible for the paper. Without these men giving their loyalty, talents and service, the editor would never have seen thirty-three issues published. Without the staff, suggestions from friends, letters agreeing and condemning stands that have been taken, no progress would have been made.

Sure, the paper could have had a better year and things could have been different but looking back over the past four years, and this year in particular, it's been a lot of fun and a pleasure to be a little part of State College. The pleasure of completing this volume, number 39, is a feeling very rare, filled with joy as well as regret.

—J.W.P.

## Letters To The Editor:

### AN OPEN LETTER TO NORTH CAROLINA STATE COLLEGE

Four years is a short period in a life span, but it is sufficient time to form a deep attachment for an educational institution. My four years as Professor of Air Science at North Carolina State College have been pleasant and rewarding ones, and I am proud to have been part of this institution even on a temporary basis.

During the last four years the Air Force ROTC program has kept pace with the growth and progress shown by the college as a whole. The enrollment in Air Force ROTC has increased from 668 students to 985 students, and a completely new Air Force ROTC curriculum has been well integrated into the frame work of the established educational system of the college. The problems have been many, and the progress could not have been accomplished without the un-failing cooperation and sympathy of everyone connected with North Carolina State College.

I wish to express my appreciation to the Faculty, to the Administrative Staff, and to the students of this great institution for their help, and say that I will carry pleasant memories of North Carolina State College wherever I go.

Thank you all very much and Good Bye.

WILLIAM J. JOWDY  
Colonel, USAF  
Professor of Air Science

In a world of music where there are as many different styles of piano playing as there are pianists, we find that there is an audience, however large or small it might be, that is always ready to listen to a certain style or a particular pianist. Some people like the soft, dreamy music of George Shearing; some prefer the fast, jumpy music of Crazy Otto; and others like the all-famous Dixieland style, whom ever the pianist might be. Regardless of the type of pianists people prefer, we find that there is a large audience always ready to hear the smooth and sophisticated piano-playing of Carmen Cavallaro. If you are familiar with the style of Mr. C., you have probably already figured that the New York-born pianist was trained for a concert career. A close friend of the family hearing him pick out tunes on a toy piano at the age of three, urged that the youngster's musical talents be developed immediately. His parents were receptive to the idea and so, from the age of five years on, Carmen was sent to study at various conservatories. After finishing his courses, he traveled extensively to advance his studies. Subsequently he played at all the leading capitals of Europe.

He returned to America intending to continue his concert career, but two things made him change his course. First, he was extremely fond of, and impressed with, the modern idiom of music, from ballad to boogie-woogie. It was stimulating and he found that its interpretation came easily and naturally. Secondly, the lucrative opportunities in this field, for a versatile pianist, were most attractive. He made the leap and landed solidly in the extreme favor of popular music enthusiasts.

There is no doubt that his training in the classics and his ability to play from memory the most difficult music aided him immeasurably and contributed a color and scintillating glitter that caught on at once and made him highly successful in his new field. Carmen emphasized

## Robert Bedford Wins \$500 G E Award

Robert E. Bedford, junior in nuclear engineering, has been awarded a \$500 "General Electric Engineering Award" for the academic year 1955-56.

The award is one of 10 given each year by General Electric to selected engineering students enrolled in Southeastern colleges. An additional grant of \$250 will be made to the institutions of the recipients.

Bedford was selected for the scholarship on the basis of his high scholastic average, personal traits, and extra-curricular activities. He is a member of Tau Beta Pi, honorary engineering fraternity; Sigma Pi Sigma, honorary physics society; the State College Engineers' Council, and the American Institute of Physics.

In announcing the award winner, Dean Lampe said, "General Electric is to be commended for its leadership in the promotion and support of engineering education throughout the country. Bedford is a deserving young man who certainly has the ability and ambition necessary to make a successful career in engineering."

## Chem. Dept. Head Receives Award

Dr. Walter J. Peterson, head of State College's Chemistry Department, was presented a Centennial Award in recognition of his professional achievements during the Science and Arts Symposium at Michigan State College recently.

A graduate of Michigan State, Dr. Peterson has been a member of the State faculty since May, 1942, and was named head of the Chemistry Department in 1949. He was

## MUSICAL MOBILES—

(Continued from page 2)

a delicate phrasing interspersed with bits of flushing technique, unexpected changes of pace, and a beautiful tone that made his interpretations so appealing and so unique.

Connoisseurs have always agreed that Carmen's style is entirely different from that of any other player of popular music. Carmen himself has imitated no one in forming his style, which explains why the public so quickly recognized and acclaimed its freshness and distinction.

Some of the numbers recorded by Carmen are "Dancing In The Dark," "Lover," "Cocktails For Two," "Smoke Gets In Your Eyes," "Some Enchanted Evening," "So Far," "If I Loved You," and "Alone Together." Although they are pretty old, they are probably the best numbers he recorded.

appointed a "William Neal Reynolds Professor of Agriculture" in 1954 as one of the top educators in the college's School of Agriculture.

The award, which was presented to Dr. Peterson at Michigan State College, was given for his "outstanding achievements and contributions" to the field of science and education, according to Dr. Milton E. Muehler, dean of Michigan State's School of Science and Arts. The presentation was made in connection with the Michigan State's centennial anniversary.

Dr. Peterson, who is chairman of State's Faculty Senate and a past president of the college chapters of Sigma Xi and Phi Kappa Phi, was the guest of honor at a dinner in the Kellogg Center at Michigan State following last night's award presentation.

Since joining the State College faculty, Dr. Peterson has been an active figure in the functions of the college and in the civic and religious life of Raleigh. He is a former faculty member at Kansas State and was a chemist with the DuPont Cellophane Company, 1930-31.

WE appreciate your business during the past year.  
We will be looking forward to seeing you next year, so  
come out and bring a Freshman with you.

## From The Editor

Another school year has come to a close at N. C. State and as far as sports were concerned it was a great year. There is not a single sport at State College that didn't compile a record that the school and its students couldn't be proud of. . . . Basketball as usual was the bright spot in the picture. . . . Coach Edward's football squad left high hopes in the minds of State's gridiron fans for the coming fall season. . . . The swimming team went undefeated and took the ACC crown for the second year. . . . But the real gem in the Wolfpack's athletics were the so called little sports . . . the sports where individuals work, practice, and train day in and day out and receive little or no recognition . . . the sport where the boy is out their 99 per cent of the time because he loves the sport. . . . State's little sports were far from little as far as their records were concerned: Cross country—undefeated, 4-0; wrestling—Big Four Champs, 4-0; Rifle team—State Champions, 4-0; and then there are the teams who's records were not quite as impressive but who's members tried just as hard and long—track, golf, tennis, and soccer. . . .

It is in these sports that the true sport of intercollegiate athletics dwells and it is to these lads we tip our hat and say—well done boys!

As sports editor of the school paper I have tried each week to publish as much information as possible that would appeal to the majority of the student body. Due to the limited space this was quite a job to accomplish without stepping on someones toes. . . . If this was ever done, I am sorry—we all live and learn by our mistakes. Naturally some things got left out or were overlooked which in most cases was unavoidable.

Any suggestions for next's years paper will be greatly appreciated. They can be mailed to me in care of the Technician, so see what you can come up with. Have a great summer and we'll see you in the fall. —S.H.

## Track Squad Ends '55 Season; Shea Sets Rec.

N. C. State's track season came to a close this past Saturday as Coach Derr's cindermen took fifth in the first Carolina AAU meet since 1946.

Mike Shea, State's outstanding two miler, set a new record of 14:41 minutes in the first three mile race ever run in the AAU, winning by half a lap. Out of sixteen events a total of ten new records were set. Dave Sime, who seems to be following in the shoes of Duke's Joel Shankel, ran a 9.6 in the hundred and a 21.3 in the 220 yard dash.

Others who placed in the meet for State were Gwynn, Scott, Mikata, and Patterson running second, third, fourth, and fifth respectively in the 440 high hurdles. State also took a fourth in the mile relay.

The point totals: Camp Lejeune 83½, N. C. A and T 28½, UNC 27, State 22, N. C. College 18, Wake Forest 7.

Coach Derr and his able assistants, Jim Little and Bill Jordan, must be complimented on their untiring efforts to bring track back to its former level. The interest in track has grown three-fold during the past year and with their help State will soon have a track team comparable to the best. It will be interesting to see what track stars develop in the forthcoming years.

Bill Allin

## RAAB—

(Continued from page 1)

Frank H. Spain, Jr., a native of Vance County and a 1948 graduate of State College, has been promoted to the post of assistant director of admissions and registration. Spain has been assistant director of admissions since 1950, but his new position will include more responsibilities.

Raab, who has been a faculty member in the college's Department of History and Political Science since 1946, will replace W. L. Mayer, who has retired after 32 years of service at State College.

## J. F. Miller Resigns From Intramural Dept. After 31 Years Of Service To N. C. State's Athletic Program—

Mr. John F. Miller, after giving over 31 years of his life to the development of N. C. State's athletic program and to intramurals in particular, has announced his retirement from active service. However, Mr. Miller will return for one year to serve with the department as a visiting lecturer.

In 1924 John Miller came to N. C. State to head the newly authorized department of Physical education and Intercollegiate athletics. State had just finished building Frank Thompson Gymnasium, the finish in the South at that time.

One of his main endeavors was to increase the scope of activities at the college. He organized the first college course in P. E. in which credit was given, the intramural program was inaugurated for the student body. This program soon became a standard for the rest of the state to follow. Many colleges and universities have used his plans for intramurals. He was greatly instrumental in seeing that the intercollegiate athletics were taken out from the physical education department and made a division of their own.

In short, John Miller has given the best years of his life to the athletic and intramural programs of State College. There is no one person in the history of the college who has done more for sports than he.

So to you Mr. Miller, the students of State College say thanks for all you have done and wish you all the happiness in the world in the remaining years ahead.

S.H.

A young couple registered at a hotel and were shown to their room. The new bride was very concerned when she saw the twin beds in the room.

"What's the matter, darling?" asked the groom.

"Why," she answered, "I certainly thought we were going to get a room to ourselves."

## Honors And Awards Presentation Tonight

Tonight at 7:00 the annual honors and awards night for the intramural program will be held at the tower. The fraternities and dormitories who took the three top positions in the final standing will be awarded their respective trophies as well as the all-campus selections for the year, and the annual individual awards.

In case of rain the program will be held in the gym. Everyone who is supposed to receive an award is urged to be there. The following fraternity athletes have been nominated for the following awards. The final selection will not be announced until tonight.

Best All-around Athlete—Cocke and McKeever, Sig Chi; Buckanan, PKA; Honeycutt, Sig Nu; and Giddens, SAM.

Best Athletic Director—Perry, PKA; Honeycutt, Sigma Nu; Dillard, Sig Chi; and Ritter or Oremland, SAM.

Most Participation—Honeycutt or Mowery, Sigma Nu; Buckanan, PKA; Cocke, Sigma Chi; Giddens, SAM.

The J. F. Miller Award will also be made for the first time. This annual award is presented to the person who has contributed greatest to the intramural program in 4 years.

## Varsity Congratulates Howie Greenberg

... for his performance on the Varsity Tennis Team. The Varsity Men's Wear invites him to come by and select a shirt of his choice, compliments of the store.

We invite all N. C. State students to make Varsity Men's Wear their headquarters for the finest in men's clothing and furnishing.

## Frat Intramurals

Sigma Chi Fraternity continued their domination of fraternity intramurals as they walked off with the first place trophy for the sixth straight time. The Sig's, who were fourth at the end of the winter session, didn't take a single first place in any of the major sports, but due to their strong showings in all the activities they were able to take the coveted crown.

PKA claimed the second place position followed closely by the SAE's. The SAM's who took the softball crown, finished fourth and and Sigma Nu fifth.

Point summary: Sigma Chi-1139, PKA-1068, SAE-1041, SAM-983, and Sigma Nu-976. The remainder of the fraternities fell below the 500 pt. total.

## Softball Champions

A strong SAM softball team proved to be the dark horse in the softball play-offs as they crushed the Sigma Chi's 10-2 to remain undefeated and take the championship. While Segura was holding the Sig's to 4 hits, the SAM's were blasting out 14 of their own, with Levine, Giddens, and Weiss all having a perfect day at the plate.

The SAM's had eliminated defending champions SAE's earlier in the week while the Sig's were downing the PKA's.

## Tennis

Sigma Chi and the PKT's were still battling for the tennis crown with each team having lost one match.

## Badminton

Sigma Chi defeated the PKA's 3-0 to cop the badminton championship undefeated. The Pika's took second, Sigma Nu third, and SAE's fourth.

I thought that I should never see,  
A beerless university,  
A campus without scotch or gin,  
An lacking wanton woman's sin.  
A college without demon rum,  
To change each freshman to a bum,  
A place of higher education,  
Where parties have sex segregation,  
Where gambling, vice, and sin  
And drink,  
And wild, lewd parties are extinct.  
Bums are made by girls and beer,  
But they try to save us here.

## Part-Time Employ. Summer School

Scores of State College students are looking for part-time employment in Raleigh during the college's summer session.

This was reported Tuesday by Dr. Lyle B. Rogers, the college's Student Aid Officer, who said that "a good many college men are having trouble finding summer jobs" and appealed to Raleigh merchants, business men, and housewives having part-time and odd jobs which college students might do to contact his office at State College.

Dr. Rogers added, "There is a huge number of college and high school young people suddenly released to compete for the work available. And employers are naturally reluctant to hire on a temporary, summer basis. On the other hand, some employers see the possibility of recruiting from among summer help eventually permanent, college trained workers of high quality. And others simply value the services of college boys, if only for a three-month period."

"The State College Financial Aid Office urges individuals to consider using these students. Many have valuable skills. For example, one sophomore, studying agricultural engineering, has farm, filling station, grocery and hardware store experience. A junior in civil Engineering is skilled as a draftsman, carpenter or painter. Besides those available for full-time work for the entire summer there are, as during the regular school year, students seeking part-time work and odd jobs in Raleigh while attending the summer session. The summer session this year lasts until August 12.

"In general, these students are dependable, industrious and highly deserving. An employer is almost sure to be pleased with the service any one of them can give."

## Phi Kappa Phi Annual Banquet

New officers were installed, and six alumni members were inducted during the annual banquet session of the N. C. State College Chapter of Phi Kappa Phi, national honorary scholastic society, at the college Union during the past weekend.

Dr. W. E. Colwell, assistant director of the college's Agricultural Experiment Station in charge of tobacco research, was installed as the chapter president, replacing Prof. Arthur C. Hayes of the School of Textiles.

## CAMPUS HEADLINES

Just a few days ago the Furman University *Hornet* reported that their: "Honor men have fete; elect king." Well, that's a new way of choosing honor students. Wonder if the new king is called *Honorable Flatfoot*, 12½D.

Richmond Professional Institute's *Proscript* had this bit of double talk over a front page story recently: "Science prof. gives paper at meet." Maybe a carbon copy stuck to the original.

The staid and gray *Chronicle* published at Duke University announced: "Chem group agrees to by-laws." There ain't *NOTHIN'* money can't buy nowadays.

And last but not least comes the word from the University of Virginia's *Cavalier Daily* that: "Architects get green light on medical center." Betcha' a great big red one would draw a lot more business.

## State Band President

Edward Avent, III, of Raleigh is the newly-elected president of the State College Band, Richard Wimbish, the retiring president, announced yesterday.

Other officers who will be in charge of the band's wide range of activities including concerts, performances at athletic events, and appearances at parades throughout the State during the 1955-56 academic year are:

Winfield H. Farthing, vice president; James M. Thurman, secretary-treasurer; William D. Moxley, Jr., alumni and corresponding secretary; Milton R. Gorham, business manager; and James W. Harrill, public relations officer.

Major Christian D. Kutschinski, director of music at State College, is the band's director.

Did you hear about the mountaineer who put a silencer on his shotgun because his daughter wanted a quiet wedding?

Monday, May 30—

Exhibit of Japanese Prints in the College Union Gallery ends.

### Outdoor Movie

The C. U. Film Committee is showing an Out-Door Movie on the Upper Terrace of the College Union Building this Saturday, May 28th. The Film is "Mutiny on the Bounty" with Charles Laughton and Clark Gable. The show starts at 7:45 or dark. Lets all come out and take advantage of the natural air conditioning and a fine movie. Seven and nine o'clock shows have been cancelled.

## YMCA Start City Wide Clothing Drive

N. C. State College's YMCA and other campus religious groups will make a city-wide canvass for old clothes to be distributed to needy families abroad, began Wednesday and ended Friday.

Plans for the clothing campaign were announced yesterday by General Secretary Edward S. King of the College "Y", who said the clothing donated during the drive will be turned over to the American Friends Service Committee for distribution to foreign families in need.

King said Raleigh residents who may wish to contribute clothes may call the College YMCA, which will send for the goods and have them processed for shipment.

Clothing needed, King said, include such items as underwear, coats, trousers, shirts, jackets, suits, blouses, shirts, dresses, socks,

# Truck Driving School

Featured in the May issue of Commercial Car Journal, an automotive trade journal, is an illustrated article on State College's unique Truck Driver Training School, the oldest college-conducted unit of its kind in the nation.

Bart Rawson, editor of the magazine, wrote the story following a visit to the campus.

The article entitled, "Truck Drivers Go to College," deals with the

four-week training course which has turned out more than 2,000 truck drivers.

Rawson reviews the history of the school and tells about the training given.

The school is conducted by the State College Extension Division under the auspices of the Council of Safety Supervisors, N. C. Motor Carriers Assn.

## AMBITIOUS STUDENT

credits success to Jockey brand underwear

"Next to my pearly white teeth, Jockey shorts are my greatest asset," says Brownie J. Lapsitter, professional favorite. "I always sit as close to the professor as possible, so I can't afford to squirm around. Thanks to Jockey shorts, I can maintain a rigid expression of unvarying interest for hours at a time."

You don't have to be a professional enthusiast to enjoy that casual at-ease appearance that comes from wearing Jockey shorts! Better drop into your dealer's soon ... buy a supply of Jockey shorts and T-shirts ... and feel as good as you look!

### Stan Kenton At Wrightsville Beach

When the Azalea Festival Committee brings Stan Kenton to Lumina, at Wrightsville Beach June 4, it brings the band which has been rated tops for five consecutive years by DOWNBEAT MAGAZINE. This musical aggregation has always proved a tremendous hit with State College students.

Tickets are priced at \$2.50 each at the gate, and \$2.00 advance. Advance sale tickets may be obtained by writing to the Wilmington Chamber of Commerce and enclosing ten cents for handling and mailing charges.

Since State will be out June 2,

the Azalea Festival Committee felt that June 4 was the ideal time to stage a dance catering to college students. After a long nine months grind at school, the Stan Kenton dance at Wrightsville Beach should prove to be the necessary relaxing pause to start a refreshing summer vacation. Already many groups have indicated that they are planning house parties that week-end in order to "catch" this dance. What could be more fun than Stan Kenton and a houseparty the same week-end. The Committee has decided that if the students show enough interest this year they will make this dance an annual affair.
