PULLEN SOCIETY OPENS; FRESHMEN RUSH IN

On last Friday night, September 15, Pullen Literary Society held its first regular meeting and opened its doors to new members. The hall was crowded, yet one could recognize scattered throughout the audience men who have worked diligently for three long years and are back to see that nothing stands in the way of success for Pullen this year. Junior and Sophomores were also present in big numbers and all evidenced a determination to make this the most successful year the Society has ever had.

Upon an invitation to all students to attend the Society Friday night, quite a number of freshmen were present and sought membership.

The meeting was presided over by the president, I. L. Langley, who after welcoming the new and old members, briefly outlined the work he hopes to accomplish this fall. He then introduced L. A. Brothers, a sophomore member, who, in a convincing way, told why he intended to work for Pullen again this year. He said he realized the value of public speaking, and the wonderful opportunity one had in Pullen.

Dr. W. C. Riddick, president of the College, was next introduced and delivered the address of the evening. In a strong and appealing manner he urged every one to take advantage of the opportunities offered by the Society, pointing out to them time after time the limitation placed on college men who were unable to speak in public. "You are training for leaders, he says, "and not mere workers," and in order to be a leader you must be able to impart your knowledge to others. There are instances where men without a knowledge of public speaking reached high positions in life, but such cases are the exception and not the rule," he said. "You do not have to be orators, but 'talkers,'" he continued. Learn to express yourself clearly and convincingly.

On a motion made by M. L. Tatum Friday night, September 22, was set as the date of initiation. It was also voted that there should be no more initiations until after Christmas, the idea being to devote as much time as possible to Society work.

Our character is our will, for what we will we are.—Manning.

I look on that man as happy who, when there is a question of success, looks into his work for a reply, not into the market, not into opinion, not into patronage.—Emerson.

Wisdom is knowing what to do next. Skill is knowing how to do it, and virtue is doing it.—Jordan.

DR. SUMMEY LEAVES FOR TEXAS

Students and friends of State College regret to learn of the resignation of Dr. Geo. Summey, Jr., who for nine years has been associated with this College. Dr. Summey leaves his professorship here for the head of the Department of English in Texas A. and M., College Station, Tex.

Dr. Summey was associated with The News and Observer from 1908 until 1913. During this time he held the positions of State College correspondent, cub reporter, proof reader, and managing editor of the *North Carolina Review*.

At State he has risen from an instructor to the professorship.

N. C. State is sorry to lose you, Doctor, but we wish you and Mrs. Summey a prosperous and happy future in your new home.

THE TOMPKINS TEXTILE SOCIETY MEETS

The Tompkins Textile Society held its first meeting on Tuesday night last, with a good attendance. At this meeting plans were made for the programs of the Society during the coming term, and a Program Committee appointed. Short talks were made by Professor Nelson, Mr. Prentis, Mr. McKenzie, Mr. Hart and Mr. Lane.

The matter of initiation of new men was then discussed, and it was unanimously decided to take in all candidates next Tuesday night. Sophomores and Second-year, Two-year Textiles are eligible for membership, and are hereby cordially invited to come next Tuesday night at 7 o'clock and join in the fun, and into the Society at the same time. Any Seniors and Juniors who do not belong now should also come and join with us. C. L.

The power men possess to annoy me I give them.—Emerson.

STUDENT GOVERNMENT

A Worthy and Successful Institution at State College

As the college year began so did the Student Government Association take up its work. Last year was the first year that Student Government was practiced at N. C. State College, and we are happy to say that it was a grand success. The manner in

D. B. VAN SANT

which the men handled the workings of the government won the respect and admiration of every State College man, and the members of the faculty as well.

David B. Van Sant is the president of the Student Government for this year and the student body can be assured that in him they have a man who will stand for the right thing under all circumstances. Van Sant is a native of Chestertown, Md., but by his loyal service to N. C. State College he has won his way into the hearts of his fellow students here. Van Sant is out for the football squad and it is likely that we shall hear from him again from another angle in the near future.

C. E. SOCIETY

Holds Annual Initiation; Society Materially Strengthened

The Civil Engineering Society of N. C. State College held its annual initiation Wednesday night in the engineering building, at which time three Seniors, five Juniors and nine Sophomores were taken into the Society. The new men received a warm reception at the hands of the Initiation Committee and were received into membership in formal style.

After the initiation, a business meeting was held and the new men given an opportunity to express themselves, which they did in very amusing ways. A Program Committee was appointed consisting of Bell, Greenlee, Morris, Barber and Roberson. The officers of the Society are: H. L. Fisher, President, and A. S. Gay, Secretary.

LEAZARD SOCIETY MEETS

Society Gets Enthusiastic Start For Year's Work

Leazar Literary Society held its first regular meeting Friday night, September 15. Practically all of last year's members were back and many of them had friends whom they brought as visitors, and who are expected to become members at the next meeting. President Smith, in a short talk that was excellently worded, thanked the members for their presence, and voiced the opinion that this is going to be one of the most successful years of the Society. He emphasized the importance of the spirit of labor that is necessary to every successful undertaking. He also suggested important changes in the usual method of procedure, which through long use has, like many other good things, worn itself out. His ideas and suggestions, if carried out, will be of great benefit to the Society in increased interest on the part of the members.

A great number of new names were brought before the Society for membership. Most of these were new men, of course, but several old men, some of whom had been members in the past, and some who had merely been putting it off from time to time, came and gave their names as candidates for membership. The men seeking membership were spoken directly to by President Smith, who thanked them for their presence, and for the interest evidenced by their application for membership. Many more applicants are expected to appear at the time of the first initiation, which has been set for next Friday night, September 22, for the initial rites of membership. Later initiations will be held if needed, on the last meeting of each month.

The officers for the fall term are: President, R. E. Smith; Vice-President, Carl Bridges; Secretary, F. B. Mewborn; Treasurer, E. W. Bridges; Censor, D. E. Stewart; Critic, A. M. Fountain; Chaplain, R. H. Scott. These men compose what is believed to be the strongest staff of officers the Society has had in several years, and because of their leadership, the Society feels that great progress will be made in the year's work.

Happiness is the natural and the normal; it is one of the concomitants of righteousness, which means living in right relations with the laws of our being and the laws of the universe about us. No clear-thinking man or woman can be an apostle of despair.—Ralph Waldo Trine.

"Would you marry a widower, Maude?"

"No, I prefer to tame my husband myself."—Judge.

EDITORIAL

Funny how these new freshman caps relieve the monotony of the campus color scheme, isn't it?

What's in a name? Ever noticed that a sociology professor never speaks to anyone he meets on the campus?

No, this is not an officers' training camp. You see the Juniors and Seniors have their new uniforms, that's all.

"The reason so many women think their place is not in the home is because so many men think it is in the kitchen.—Approved by the Co-ed.

In this week's issue, the Literary Digest carries in its scientific column a long discussion headed "Why We Laugh." Probably they have never seen a freshman buying radiator tickets at reduced prices.

The simultaneous openings of our sister institutions, Meredith, Peace, and St. Mary's last week caused a general exodus of State College boys down to the station to meet all incoming trains. Every loyal son of State was there. Girls, we are downright glad to have you back again.

In the "Big Brother" arrangement recently put forward by the members of the Promotion Force, the Y. M. C. A. has paved the way for real service to the new men. We hope that they will feel just as free to tell their troubles to these make-believe brothers as they would be to their real brothers at home. After all, we are just one big family, anyway.

Last week marked the opening of the Literary Societies for their fall term's work. Every one connected with them feels that they are about to begin one of their most successful years, as the large attendance showed the interest that is being taken in this kind of work. Too great emphasis cannot be placed upon the importance of the training that is to be gained by an active part in a good literary society, and here especially, where those things are not given prominence in the classroom, it cannot reasonably be overlooked.

Our friend (?), The News and Observer, has already begun its annual football prophecy, and needless to say, it is in the same direction that it has been in ever since relations were resumed between us and the University. However, we have heard the prophecies so much and seen them fail to materialize so often, that we are beginning to doubt N. and O.'s ability as a judge of football. We admit that things look "gloomy" here—yes, very gloomy, but we're not saying for whom.

The Military Department has made a distinct acquisition in getting Captain Lee as instructor for the Seniors. Those who attended the training camp at Anniston, Alabama, last summer already know of Captain Lee and his methods, and know that he is thoroughly business like through and through. He is thoroughly trained for his duties as Senior instructor, not only because of his service in other similar units, but also because of his long training and service in the National Army. Because of his leadership, the Seniors feel that they are really going to accomplish something this year, and that the usually wearisome subject of Tactics is going to be made entertaining and instructive.

There has recently been occasion for drastic action here on the part of the Student Council, and as is usually the case, the president and his co-workers have come in for generous criticism from several quarters. But we feel that when the honor of the College is at stake, no action that is preventative in its nature is too drastic for immediate use. We of The Technician feel that the Council is the representative of the student body, chosen by the student body, and that any action that it sees fit to make should have the support of the students. Student Council, The Technician is right behind you.

To hear the sound of the pikskin as the toe of some member of the "Wolfpack" meets it in midair one would think that light artillery had made its appearance on Riddick Field. The boys are showing fine form already, although the weather is still much too hot for the gruelling practice. Coaches Hartsell and Van Brocklin are not giving them any rest, but are fast shaping them into the fastest team in the State. And Coach Sammy Homewood, our own star of former years, is about to start the freshman training, and judging from the amount and appearance of the material that has reported to him, he will have some worthy wolflets to turn over to the "Wolfpack" next fall.

SENIOR CLASS BUILDS SECTION OF BLEACHERS—JUNIORS ALSO TAKING STEPS TOWARD SIMILAR MOVEMENT

The new section of bleachers that have recently made their appearance on Riddick Field were constructed by the members of the Senior Class, and will be left by them as a gift to the College. They are a full-size section, thirty feet long, and add a very considerable quantity to the seating capacity of our concrete bleachers, which now is almost the length of one side of the athletic field.

A class can leave nothing as a memorial to its own College days that would be a more useful, and at the same time, attractive and enduring gift than a section of bleachers. If the classes had made this a custom when the first section was built, we would now have at least two sides of the athletic field enveloped.

The Junior Class has already begun active steps toward a similar gift of the College next year. The boys are beginning to realize that a donation of this kind is not a gift at all, as it will come directly back to them in the added prestige that it gives to the College in the impression it makes on visiting athletic teams, and in the casual glance of the observant visitor. So, fellows, let's keep the good thing pushed along.

BIBLE STUDY RALLY

On last Wednesday night there was a big Bible Study Rally held in Pullen Hall. Captain Price was there with his band and started off the evening with some real snappy music. Shorty Cummings then made a few remarks about the success of the Bible study work last year and the prospects for this year. And following in sequence came Willie Mock's explanation of the procedure of the work. He stated that the course would begin on Wednesday night, September 27 and would close on Wednesday, December 13. No classes being held on any of the intervening holidays.

Dr. Ellis, who is to lead the course, explained the nature of the course and stated that the text-book he is going to use, namely, "Jesus and His Cause," would be extremely interesting. He also expressed an earnest desire for all of the students to take a part in this course.

Prof. Heck made a short talk, in which he said that Dr. Cole, who is the biggest man at Chicago University, were asked to prepare a talk on the biggest subject he could think of, took this subject, "The Teachings of Jesus."

Dr. Carl C. Taylor made the address of the evening on "Why College Students Should Study the Bible." He began his address with a challenge that 50 per cent of what we are when we finish college will have come through our activities outside of the classroom. This being true, it is the purpose of the Y. M. C. A. to try to keep students in a mental, physical, and spiritual equilibrium so they will be well rounded. "Do not become book-worms," he continued, "or pigeon-hole yourselves up, but take part in all phases of college life, because while in this environment is the best time to register your religious and other convictions. You should study the Bible first of all because it affords us the best interpretation of Jesus of all books written. And no man can be a success in life without a knowledge of God, the knowing and following of whom is the most fundamental thing in life. It is the greatest book ever written, about the greatest man that has ever lived, and it has yielded the greatest of all influences upon the world. If you were not even interested in religion, you should study the Bible in order to better understand your own life and the world in which you live." In conclusion, he said, "There is not a course on the campus that would be harder for you to pass an examination on than the Bible, yet it is the most important book you possess. So why not put the same pep in your Bible classes as you do in your other work?"

After this address there was a canvass made in the dormitories and the total enrollment for membership was over four hundred.

**E. S. KING, GENERAL SECRETARY
Y. M. C. A.**

Three years ago Mr. King came to State as General Secretary of the Y. M. C. A. after serving in that capacity at Auburn and the University of South Carolina. During these three years he has given his loyal service to State College and State College men.

Through the summer months of this year he took regular work in the Southern College of the Young Men's Christian Association in order that he might be better able to serve throughout this school year.

Because of his loyalty to conviction and sincerity of interests Mr. King has won a place in the lives of all who know him. He has at heart the best interest of every individual and merits the confidence and support of every citizen of our College community.

Mr. King is at the "Y" building every day and will be glad to talk with you.

Be sure you call on him.

E. E. SOCIETY MEETS

The first meeting of the N. C. S. Student Branch of the A. I. E. E. was held last Friday night. Little business was transacted due to the small attendance.

Of interest to the prospective members from the Junior Class is the setting of the Annual Initiation for September 21 and 22. D. E. Allen's claim to be a human insulator was discussed and the proper motion made as to his initiation.

The prospect of a Tesla exhibit at the Fair was discussed and Pakula and Glenn were appointed to look after the financial outlay for such an exhibit.

It was definitely decided not to have the Electrical Show during the Fair, as has been suggested, although a larger crowd would be in Raleigh, other attractions would draw all the crowd.

After this week regular meetings will be held. Let's go, Seniors and new members who survive the initiation.

OLD DOMINION CLUB

Officers Elected at First Annual Meeting

The Old Dominion Club held its first meeting of the season at the "Y" on Wednesday, September 20. The meeting was short and snappy. Means were discussed for keeping alive the spirit of good fellowship and fraternalism which has always characterized the relations between Virginians at State College.

Realizing that the nearest way to a man's heart is via his stomach, the Club decided to welcome the candidates for initiation into its fold with a big feed preceded by a program of special interest to the prospective members. A strong, prosperous organization for the present scholastic year was assured by the election of the following officers:

President, J. L. Ferguson; Vice-President, C. H. Culpepper; Secretary and Treasurer, J. H. Robertson.

HARRY HARTSELL, HEAD COACH

November 23, 1916

At last the dream of the students, the alumni, and close friends of the college has been realized. A. & E. has an athletic director. Harry Hartsell, '12, former All Southern halfback, has been secured as head coach for football, basketball, baseball, and track. Hartsell has been conceded to be one of the most brilliant athletes ever produced in this section of the South. While at A. and E. he starred at all four branches of athletics, and received the distinction of being one of the brainiest and most popular athletes who ever wore the Red and White uniform. During the past four seasons he has played professional baseball, being manager of the Norfolk (Virginia) League club the past

season. His election was very pleasing to the alumni. Hartsell was given the position over applicants from football coaches from all sections of the country.

GREETINGS, MR. HAVERHILL!

As a new man, we bid you welcome. Here's hoping you find our crowd a congenial group and at least a bit studious. The place of high esteem in which we held Dr. Summey is open to you.

SPLINTERS FROM THE NORTH CAROLINA PINE

A freshman was vainly looking for Patterson Hall, when he met an upper classman, and said plaintively, "Mister, please tell me if this is the third house on the left."

Dan Stewart (to boy in California Fruit Store): "Say, here's a quarter for you."

Boy: "Yes, sir. Do you wish me to reserve a table for you?"

Stewart: "No, I'm broke, so when I come in here in a few minutes with some girls, tell us that every table is taken."

Country Freshman (seizing traffic cop): "Look out there, man! Don't you know you'll get run over?"

"Why is Smith getting a divorce? I thought they said that he married a girl that had a sweet temper and plenty of money."

"Yes? Well, Smith says that it is a case of mistaken identity."

Bus Lentz: "Forty dollars for eight pictures?"

Photographer: "Yes, that's the price."

Lentz: "What is there about them to cost so much?"

Photographer: "Well, you see, they favor you, and still they don't look like you. Forty dollars, please."

A freshman, in sending home his bill or registration expense, wrote: "Dear Dad: I am sending my college bill." To which his father answered: "Here's the money, but don't buy any more colleges at this price. We can't afford it."

Pat Sullivan: "Stapp, why in the world don't you get up? The whistle has blown and it is broad daylight."

Julian Stapp: "I reckon I'll have to, but derned if I ever liked this daylight saving, anyway."

Julie Baum (to his girl, on telephone): "Sorry, I couldn't get down to see you yesterday afternoon. I had a class."

His Girl: "Yes, I saw her. Some class."

Schoolmaster (thrashing student): "What are you laughing at?"

Irish lad (between blows): "Begorra, you're licking the wrong boy."

A colored man in Alabama gave a justice of the peace a big fat 'possum as a wedding fee. Meeting the groom a year after, the justice said: "Well, Joe, how do you like married life?"

"Well, suh," was the reply, "all I kin say is, I wish I'd at dat 'possum." —Country Gentleman.

Feminine voice on phone: "Is that you, dear?"

Tom Johnson: "Yes, this is me. Who is that?"

"Rastus, why do colored girls always have their hair cut short?"

"I doan know, suh, Boss, lessen hit's to keep anybody from pullin' de wool over dey eyes."

If put to the pinch, an ounce of loyalty is worth a pound of cleverness.

A REQUEST OF EACH STATE COLLEGE STUDENT

Fellows, there are many requests presented to us daily, each of which is considered from various viewpoints, but there is one request that each of us can and should be glad to answer in the affirmative. By doing so we not only help others but help ourselves in that it will enable us to get out a better paper, which will give us a still higher rank among the colleges of the South.

When we think of financing our college paper, The Technician, we are inclined to say: Ah, well, that's no job at all, but in reality we need your most sincere co-operation and support. There are many ways in which we may give support and, too, the different abilities, many of which lie dormant on our campus, might well be used if the possessor of these abilities would only give them a chance. You may support The Technician by giving us your subscription, if you have not already done so; by writing an article occasionally for its columns; or, by speaking a good word for our paper, the last two of which will cost you nothing and the first but little.

The things mentioned above are very necessary, but now for a duty that I fear some of us are apt to overlook. We appreciate the kind reception given us by the citizens of Raleigh at all times and too, we appreciate equally as much their co-operation given in all our activities. In The Technician, you will see weekly very reliable ad columns; but, perhaps, there are few of you who can appreciate their value to us as a student body as does the writer. This logically leads to the last of the requests of this article which is: when you are thinking of making a purchase or of having work done, no matter what the nature, you will find your booster's names appearing in the ad columns of The Technician. Will you not give them the first chance to fill your needs? They rightfully expect our trade when we are buying the thing that they advertise with us.

Fellow student, don't look at the above as a trivial matter and one that does not concern you. It means greater things for all concerned. Let's pull together and thereby realize the greatest possible net gain from the little that we, as individuals, have invested. **BUSINESS MANAGER.**

HAPPENINGS IN 1916

November 23, 1916
President Riddick to be
Formally Inducted Into
Office February 22

February 22d was set as the date for the inauguration of Prof. W. C. Riddick as president, at a meeting of the faculty committee on arrangements, held for the discussion of a tentative program and speakers for the event. One of the principal reasons for selecting this date was that, being a holiday, more of the alumni and friends of the College will be able to leave their businesses to pay respect to the new executive.

While none of the speakers for the occasion have been announced, several have already been decided upon and other details are being mapped out. Capt. H. H. Broadhurst has been named as chief marshal, and will be in charge of the academic procession and seating at the exercise, Dr. G. A.

Roberts was made chairman of a committee on music; Prof. J. P. Pillsbury, committee on decoration; Prof. C. L. Mann, committee to receive guests; Prof. W. H. Browne, committee on entertainment of guests; Prof. H. E. Satterfield, committee on inaugural luncheon; Prof. Thomas Nelson, committee on athletic events; Dr. T. P. Harrison, committee on reception; Prof. J. W. Harrelson, committee on dance. Further plans will be announced from time to time as they are decided upon.

THE 1923 AGROMECK

The work on the 1923 Agromeck is getting along nicely. The editorial and business staffs have been organized and are ready for work when the proper time comes.

The editorial staff is a representative bunch of men from the class: F. B. Looper, G. T. Bostic, H. H. Tate, I. A. Clay, S. W. Mendenhall, H. N. Kelly, J. H. Gill and J. E. Teague. On the business managerial staff we have: W. L. West, Jr., D. B. Van Sant, R. B. Lee, C. B. Williams, D. T. Memory, T. F. Bostian, and J. K. Blum.

The Junior Class has elected as Junior assistant editors: F. S. Trantham and W. S. Morris, and for Junior assistant business managers: J. L. McNamara and H. L. Medford. J. C. Clifford, Jr., was elected Sophomore representative on the staff.

The art editor, F. W. Kittrell, has as his assistant, A. F. Orr. Kittrell has some men for the drawing work, and would be glad to see some others who have good talent for drawing, to help out some with the cartoons. He rooms in 335-1911.

T. R. Causey and J. L. Andrews are going to do the kodak work for us again this year.

We expect the photographer down to make the individual pictures and a great many of the groups sometime next month. The exact date has not been definitely set yet, but will be decided upon within a short time. We want to give the photographer plenty of time to make good pictures for us.

I am glad to note that the different societies and clubs are organizing and taking in the new men. I hope all the clubs who have not done so will meet and perfect their organizations, and be ready to have all their members turn out for the pictures. It makes a much better showing in the book when all the members are in the group. And just a word to the new men, get your "mug" in every picture you belong to be in. You will regret it when the book comes out if you do not. **C. S. L.**

BAND PROSPECTS GOOD

The N. C. State Band has reorganized with 36 men, 18 of which are new. The new men seem to be good musicians now and after a few weeks under the direction of Capt. P. W. Price they will be among the best musicians of the State.

Not only will N. C. State keep the record of having the best band in the State, but also one of the best in the South.

A number of trips have already been planned for the coming year and more are expected. **H. B. S., '24.**

On Thursday night, September 14, the Biology Club held its first meeting. As no program had been planned, the meeting was devoted to a discussion of plans for the year.

Mr. J. M. McGorgan, President of the Club, in his opening address unfolded his plans for the Club. He said, "We must all pull together to make the Biology Club the most efficient organization of its kind on the State College Campus."

The officers of the Club are: J. M. McGorgan, President; R. H. Scott, Vice-President, and C. L. Waldorf, Secretary-Treasurer.

FOOTBALL

Have you ever raised chickens? I mean the feather kind. If you have you know what advantage it would be to be able to determine the sex of the chicken before it is hatched. Some people say it can be done, but that doesn't concern this article. The man who tries to predict the outcome of a team on athletics finds himself in the same predicament as the man who tries to determine the number of young pullets and frying size cockerels he will have four months after he sets his hen.

The chances are all against him that his dope would come out right. A light team which might run rings around a much heavier team on a dry field might lose disastrously on a wet and soggy field. But still, people like to read pre-season dope, because it *might* come out right. This isn't supposed to be a prophecy but it is what I think might be the outcome of the season for the North Carolina State "Wolfpack" as things now look.

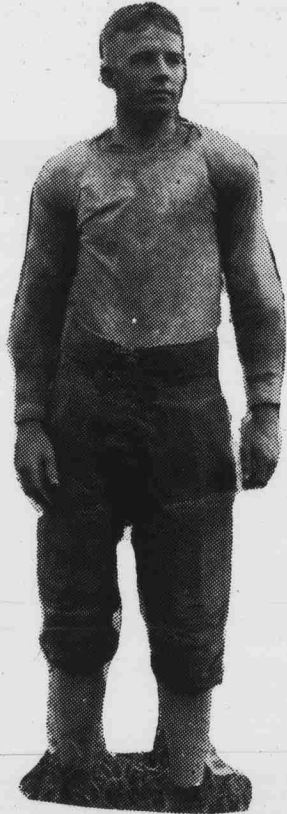

State should easily win from the two light teams, Randolph-Macon and Roanoke, of Virginia. Randolph-Macon will play the "Wolfpack" at Raleigh September 30. Last year they furnished a fairly stiff opposition to the Tech. team in the opening game.

This year they are minus the aid of Randolph, who was the individual star of their 1921 team. During the entire season they suffered serious setbacks at the hands of other Virginia teams, and unless they receive new strength in material this year they should furnish only a stiff practice game for the "Wolfpack."

On October 7 the team invades Virginia to play Washington and Lee. This game marks the resumption of athletic relations between the two institutions. Washington and Lee, who used to furnish us our regular opposition on Thanksgiving Day, always puts out well-balanced and well-coached teams, but last year their playing was erratic. Losing to Rutgers, West Virginia and Center, they defeated the strong V. P. I. aggregation. The 1922 team will be minus a large number of veterans and as it marks the beginning of the one year rule at the University, the team will probably not be up to the standard of some of the previous teams. The game will, however, be hard fought and will be one of the classics of the 1922 S. I. C. season. State should win by reason of her opponent's evident weakness in the back field and her own line of defense.

Roanoke, who furnishes the next opposition, will present a well-balanced team of veterans from last year, practically all of her letter men returning. She will probably have one of the best teams among the smaller colleges of Virginia. State should come out victor in this game, but should not run up any high score, even if it is possible, due to the fact that it precedes the Carolina game only five days.

Carolina, on Thursday of Fair week, will furnish the supreme test of the

T. N. PARK

Tom has won fame by the clever use of his toe and his hard plunging. He is a consistent man in the backfield, and it is very likely that he will be in the regular line-up again this year.

"Wolfpack." Carolina, who returns practically the entire team of 1921, will furnish a well-balanced, well-developed and well-coached team of veterans. The game, as in the three years previous, will probably determine the State championship, but this fact is entirely lost due to the intense but friendly rivalry between the two teams, to which a victory means more than a State championship; it means a victory over the opposing State institution. To predict a victory in this game would be foolish. It will go to the best team on Riddick Field on October 19.

On the last Saturday of October the team goes to Norfolk to meet the Flying Squadron of V. M. I. on neutral ground. V. M. I., who two years ago was the undisputed South Atlantic champion suffered a severe loss that year due to graduation. Six of their first strong letter men failed to return to college, but with such a coach as B. B. Clarkson, a former V. M. I. star, they should be able to form a very creditable team around Captain Harrison at guard. State will probably be on the big end of the score when the final whistle blows, due to her defense against the pass.

On November 4 the "Wolfpack" meets the "Wildcats" of Davidson, in Raleigh. Davidson seems to have a way of upsetting the dope. Starting

out last season with a defeat by Wake Forest, the first in the history of their football relations, she ended up by holding both State and Carolina to no decision tie games. Practically the entire team returns and Coach Gray should turn out the usual scrappy and aggressive team. State will win this game, due to a heavier team and a more experienced backfield.

On Armistice Day we meet our ancient rival, V. P. I., in Norfolk. Last year we lost to them by a 7 to 3 score, and due to the fact that the entire team, with the exception of Hess, will return to college, they should have an exceptional team this year. Last year we lost due to the fact that we were weak on the offensive and on breaking up the forward pass. But if things turn out right, we will be exceptionally strong on both of these, and should annex another victory on November 11.

The last time we played Georgia Tech. was in 1918, when we suffered a severe defeat in their hands at Atlanta. It is not likely that State will defeat the "Golden Tornado" at Atlanta, although they lose eight letter men including Judy Harlan.

Wake Forest at Wake Forest. The result will not be a disappointment to State supporters, but Wake Forest al-

ways play their best against State, and it will be a good game. It always is.

On Turkey Day we play the second of a series of games with the University of Maryland. Last year they held us to a tie game and this year will see another close hard fought struggle. Coach Byrd is an excellent coach and with the material he has should turn out an excellent team, which will be rated high in this section. State will have the edge in the backfield and an equally strong line, and the game should be a fitting climax to the 1922 season for the State College "Wolfpack."

Wonder why Duls ran for the door in Chick Doak's grocery store when a lady asked for Pillsbury's—Flour?

There are two good rules which ought to be written on every heart. Never believe anything bad about anybody unless you positively know it is true; never even tell that, unless you feel that it is absolutely necessary and that God is listening while you tell it.—Henry Van Dyke.

MILITARY

THE NEW UNIFORMS

The new uniforms are here, and they are good-looking, too. They are not costing us but one buck, either, since our Uncle Samuel helps us to the tune of \$30, provided we remain in school for this session. On the whole, they seem to be of first class material and well tailored. If yours fits a little tight, that is all right. It should, because a uniform looks ever so much better when it fits you snugly, and that is the way they are supposed to be made.

Let's keep these uniforms neat and clean, fellows, in order that we can make a good showing when the inspecting officers come around, or when we have exhibition drills and parades. You feel a lot better in a uniform when you know you don't look like you are wearing a tow sack, especially when there are girls on the campus. The Seniors will need their uniforms for different occasions after they graduate, in case they accept commissions in the Reserve Corps, and the Juniors can use theirs again next year to wear with their "Sam Browns."

Our old 40.50's look like overalls beside these new uniforms.

OUR FRESHMAN ARMY

Along about drill hour every drill day Riddick Field is always live with our Freshman Army. It is a pretty big bunch of red-capped men, too, when you get them all together. Last Monday, when I saw them drilling, I thought I was back in Alabama again, and the Red Army was attacking Bain Gap, but I soon changed my mind when the commander gave "About Face," without adding "Retreat." They seem to be catching on to the mysteries of the I. D. R. pretty fast, and we are expecting a well-drilled outfit before long.

Colonel Gregory is starting the new men out right, and with a little work every man should be able to make a good showing by the time we begin our parades and ceremonies.

GENERAL PERSHING TO VISIT STATE FAIR

That Gen. John J. Pershing, General of the Armies, is coming to Raleigh to the State Fair on October 18 seems an assured fact. This will undoubtedly be the biggest military occasion Raleigh has had since the War. No definite plans have as yet been made for the General's visit, but this promises to be a big day for the College, the Fair and the City of Raleigh.

Neither is it known what part the State College Regiment will take in the exercises, but the mere fact that General Pershing is coming should make the new men "put out" and try to absorb as much military knowledge and practice as they can for the next month.

According to economics—Tramp: a man of low economic status.

MILITARY ESSAY PRIZE CONTEST

A substantial cash prize will be offered this year by the Military Department for the best essay on some military subject. The contest is open to all R. O. T. C. students. Captain Wysor is now working out definite plans for this contest, and will announce them in these columns at a later date. A second prize will also be offered.

For anybody who can write at all, this is a good chance to use your talent and ability to good mental as well as financial advantage.

ORDERS

North Carolina

State College of Agriculture and Engineering
Raleigh, N. C., Sept. 14, 1922.
General Orders No. 1.

1. General Orders No. 10, January 4, 1922, Uniform Regulations, will apply to all R. O. T. C. students at this institution.

2. Upon the approval of the President the following appointments as Officers in the R. O. T. C. Regiment for the Academic Year 1922-23 are announced. They will be obeyed and respected accordingly.

To be Lieutenant-Colonel: C. B. Williams.

Regimental Staff: Captain R-1, D. B. Van Sant. Captain R-2, C. S. Leigh. Captain R-3, W. L. West, Jr. Captain R-4, T. F. Bostian.

To be Majors: First Battalion, C. H. Warren. Second Battalion, T. L. Stallings. Third Battalion, W. R. Anderson.

To be Captains: Company "A," G. T. Bostic. Company "B," J. B. Stepp. Company "C," R. H. Broome, Jr. Company "D," L. E. Teague. Company "E," W. D. Yarboro. Company "F," J. S. Whitener. Company "G," R. W. Underwood. Company "H," E. W. Harris. Company "I," J. L. Shuping.

Band: E. T. Kearns, Jr.; B. F. Norris, Jr.

3. All Second-year Advanced Course students are appointed Provisional Second Lieutenants and will be assigned to companies by the Regimental Commander, who will report to this office when assignment has been made. Permanent First Lieutenants and Second Lieutenants will be selected from the Provisional Second Lieutenants from time to time upon demonstration of the necessary qualifications.

By order of the P. M. S. and T.:
N. L. SIMMONDS,
Executor Officer.

Got It Bac on Him

A rather hard professor, who was being asked a question which he could not answer, replied: "Any fool can ask questions which a wise man can't answer."

Well, professor, is that the reason I flunked on the last exam.?

NOTES

The State College Rifle Team will miss Captain H. E. Fischer who has been assigned to the Infantry Officers School at Fort Benning, Ga. Captain Fischer certainly put State College to the forefront by his coaching and work with the Rifle Team. Captain Fischer was assistant Rifle Marksmanship Instructor for the R. O. T. C. at Camp McClellan the past summer.

We are glad to welcome to the "Hill" Captain William C. Lee, who has been assigned to duty with the R. O. T. C. unit here. He is not a total stranger to us by any means. Most of the Seniors saw something of him at Camp McClellan, since he was on duty with the R. O. T. C. camp there.

Neither is he a stranger to State College. He attended school here during the session of 1916-1917, leaving to go to the First Officers' Training Camp, where he was commissioned. Captain Lee served overseas for eighteen months with the 3d and 81st divisions during the War. He comes to us from the Officers' Infantry School at Fort Benning, and Camp McClellan.

Captain Lee starred on the 1916 Football Team as fullback, receiving his letter. He says he expects to give some of his time to athletics as soon as he gets settled down in his work in the Military Department.

"How times have changed," sighed an old man. "I went to a social gathering last night and the women talked politics, while the men changed recipes."

Say, Brewer, we missed you at church last Sunday. Why?

We agree with Pigeon Love and the ground between the dormitory and the orchard is rough.

Welcome is that visitor who appreciates the value of another's time.

The blessed work of helping the world does not wait to be done by perfect men.—Eliot.

Father's Voice: "Maude, started for home yet?"

Clever Young Man: "I've reached third, sir."

Father's Voice: "Well, steal, you bushy, steal!"—The American Legion Weekly.

POET'S CORNER

Do you ever feel tired and lonely?
Do you ever feel trifling and blue?
Do you ever feel like dying
When it seems there is nothing else
to do?

Do you ever get all out of order?
And everything seems uphill?
The note from the girl gets shorter,
O, what an awful "Pill."

Do you ever take a walk in the night-
time
And gaze at the heavens above?
If you do you are in the wrong line,
boys,
Because you are head over heels in
love. —Walton.

ONE-WAY TRAFFIC

There is only one road to the town of
success;
The name of the road is "Work."
It has room for only honest guests,
Traffic's blocked to those who shirk.

The road is open all hours of the day;
It heads neither time nor date;
And now is your time to start on your
way,
For tomorrow will be too late.

Nearly all of the way is an uphill
road;
It will seem like a tough old fight;
But once on your way, just bear up
your load
And keep going with all of your
might.

You will pass through many towns
each day,
Such as Failure, Gloom, and Des-
pair.
At each of these stations just keep on
on your way,
For "Work" does not tarry there.

After you have entered the town of
"Success,"
Though your load may have been
hard to bear;
Once inside you will find both comfort
and rest,
Just be thankful you started from
there. —Selected.

A WANDERER

Like a cloud on the crest of a moun-
tain,
Drifting to a lonely glen,
In search of peace and quietness,
Returning I know not when.

Like a lost boat on the ocean,
Sailing before the tide;
With an unknown destination,
And the sea breeze as a guide.

Like the smoke curls from the chim-
ney,
Tinting the morning sun,
Rising above this old earth
Into a great beyond.

Like the wild rose petal
Lost by the wayside trail,
The dew no longer kisses
Those cheeks so gloomy and pale.
Like the setting sun's vermilion,
Piercing the alpine forest;
Exchanging a world of darkness
For a land of pleasure and zest.

Like the timid wandering goldfinch,
Drifting from tree to tree;
But never wholly contented
Wherever he happens to be.

At last, like the parching flower,
In need of refreshing rain;
Alike, my heart is burning,
Until I see you again. —Cline.

This corner's here for you to use,
My dear, poetic guys,
With rhyme and meter speak your
views,
And put the fellows wise.

Perhaps you wander after class
Afar o'er dusty trails;
Perhaps vain hopes your brain harass,
Or love your heart assails.

You'd fain compose iambic verse
With faultless rhythm and rhyme;
So, fellows, write for bad or worse,
Right now's the chosen time. —Zippy Mack, '23.

BOOST HER ALONG

If you think your college's the best,
Tell 'em so!
If you'd have it lead the rest,
Help it grow.
When there's anything to do,
Let the others count on you,
You'll feel bully when it's through
Don't you know?
If you're used to giving knocks,
Change your style;

Throw bouquets instead of rocks
For a while;
Let the other person roast,
Shun him as you would a ghost,
Meet his hammer with a boast,
And a smile.

When a stranger from afar
Comes along,
Tell him who and what we are—
Make it strong.

Needn't flatter, never bluff,
Tell the truth, for that's enough,
Join the boosters—they're the stuff.
We belong. —Exchange.

There was once a young Senior, named
Bub,
Who, while taking his annual scrub,
Exclaimed in his wrath,
"This will be my last bath."
So he sraightway demolished the tub!

Tit: "Do you think I can make her
happy?"
Bit: "Well, she'll always have some-
thing to laugh at."

First Villager: "Hello, Aaron! Hear
you got married. What kind of match
did you make?"

Second Villager: "Well, neighbor, I
didn't do so well as I expected; but to
tell you the truth, I don't think she
did either."—Selected.

The Charlotte Observer

**A Carolina Newspaper For Carolina People — Constructive,
Clean and Reliable**

Gives to its readers the worthwhile news of the Carolinas, the nation, and the world, hot off the wires, fairly and accurately reported by its corps of special correspondents and the Associated Press, greatest news gathering agency in the world, supplemented by the Universal Service report and Newspaper Enterprise Association.

A paper produced by an organization that keeps constantly in mind the needs and desires of Carolina people and seeks to give them just what they want in general news, sports, market news, social news, fraternal order news and views, and numerous special articles and features for the benefit and entertainment of the whole family, including daily and Sunday comics.

A few of the many features that make The Charlotte Observer the ideal newspaper of the Carolinas are:

Editorials by able writers.
The only complete **Fraternal Order Section** published in the South.

Weekly Articles by Frank H. Simonds, the world's greatest authority on international politics.

Weekly Bible Talks by America's Great Commoner, William Jennings Bryan.

Forward Observation Post—A weekly story of the World War, by Kale Burgess.

Weekly Book Reviews, by William Thornton Whitsett, President of Whitsett Institute.

The History of the South's Famous Songs, by Henry E. Harman.

Potash and Perlmutter, a weekly story by Montague Glass.

A department of **Radio News**, edited by the world's best authorities on the subject.

The Woman's Page; a section containing general household hints and recipes for the housewife.

One-minute Interviews, a page containing expressions and exchanges of views of the subscribers.

Pithy Paragraphs, a page full of laughs and chuckles. Prizes are offered each day for the wittiest sayings submitted by the subscribers.

Society of the Carolinas, a section featuring the social events of the two Carolinas.

The most complete and detailed report of **Sports** published in the state.

A **Colored Comic Section** on Sunday and several daily comic features, including the well-known "Bringing Up Father," by George McManus.

Fiction, Scientific Writings, and other feature articles.

A **Church Directory**, weekly Sunday school lessons, **Real Estate Page**, etc.

Special attention is called to the **Made-in-Carolina Section**, the object of which is to encourage, advance, and promote the industrial, commercial, civic, and social interests of the states of North and South Carolina.

ACTIVITIES OF THE STATE COLLEGE AGRICULTURE CLUB

Last Tuesday night at the regular meeting of the "Ag. Club" a very timely and interesting program was rendered. Each of those who were on the program demonstrated the fact that they had put some thought into the subject given them, and expressed it in an enthusiastic way.

Mr. G. H. Becton spoke on the subject, "What an Agricultural Student Should Expect the State Fair to Mean to Him." He said, "We should in a general way, take in everything that is to be seen there, but should examine carefully, and ask questions about anything we are especially interested in." The freshmen were told of the many ways to accomplish an entrance to the Fair grounds. Some pay seventy-five cents, some have a pass, some get in by helping someone who has an exhibit on, and some get in by other methods. But Mr. Becton's advice was to pay your six bits and go in at the gate.

"The Rating of State College Dairy in the Southeast, and its Influence in North Carolina," was discussed by W. H. Ritchie. There are only six gold medal Jersey cows in the United States owned by State colleges. Three of those belong to the N. C. State College herd. In April, 1921, this herd had five cows to make the 50-lb test. During that month Emminets' Nina made an average of 63 lbs. (7.3 gallons) of milk per day. Hers is one of the best records a Jersey cow ever made.

The rating of this herd and the work of College authorities and students were responsible for the organizing of the Jersey Cattle Club of North Carolina.

C. J. Ritch on "The Influence State College is wielding on Agriculture in North Carolina," based his remarks on four main points. He referred to the great work that was being done by the distribution of publications put out by the State and United States departments of agriculture. These bulletins contain real knowledge of farming any carry this information to all parts of the State. The practical two-year courses and the six-week course for farmers, are doing a great work through those who want to be practical farmers or do not have time and means to take a four-year course. These courses give men good practical knowledge of farming in a systematic way.

From the four-year group of men come the State workers, county agents, and vocational teachers, whose influence goes out to untold numbers of people.

The last speaker, C. H. Warren, told of his and "Kid" Anderson's trip to Ogle Meadow last summer. We were advised that if we ever had an opportunity to visit this mountain to take advantage of it. It is one of the cold-

est places and affords one of the best sceneries to be found in Western North Carolina.

There were about 100 members present at the meeting, and the best spirit is being shown in the club that the present Senior Class has witnessed in its four years stay here.

A few words were said about our College Fair. "Little David" Gray will sponsor a tent show. He has had considerable experience in the West, and with those who are interested in helping Professor Gray, we are expecting a good show.

"Red" Kearns, with his "Ag. Jazz Band" will be one of the best attractions.

"Bob" Keys and Sam Mendenhall are known by all old men for their part last year, and we expect more of them this year.

Every department will have a chance to put on a side show. The best one will get a prize of \$15. Let each department bring out its best talent.

TIT-BITS and RANDOM WITS

By Britt

"I think I will drop in on the boys," said the miner, as he fell down the shaft.—*Froth.*

Professor: "What do you know about Fielding?"

Freshman: "I was always pitcher on the prep school team when I played."—*Selected.*

A sock a day will keep the mosquitoes away.—*Britt.*

Teacher: "What is the highest form of animal life?"

Fresh Meat: "A giraffe."—*Selected.*

Little Freshman Belle: "O, thanks, these are so pretty; and there is still some dew on them, isn't there?"

Big Senior Flopper: "Why er-r-yes, but I'm going to pay that Saturday."—*Selected.*

History Lecturer: "an any of you tell me what makes the tower of Pisa lean?"

Corpulent Lady: "I don't know, or I would take some myself."—*London Opinion.*

Young Bride: "I wish I had married a man who could paint the beauty of nature."

Tactful Husband: "My dearest, you'd soon get tired of posing."—*London Mail.*

Inconsiderate: "Now, look here, Johnson, this man is doing double the work you do."

Johnson: "That's what I been telling him, sir, but he won't stop."

Has anyone here seen petrolatum? Yes, kerosene him, but he hasn't benzine since.

AS IT IS

By Jas.

Why is a man like a tack?
Because he can go only as far as his head will let him.

You have heard the remark, "That man speaks what he thinks. But had you realized that that was parctically true of everybody?"—*Jas.*

There is a lot of difference between a common man and a commoner.—*Jas.*

A man is rarely better and seldom as good as the kind of girl he calls on.—*Jas.*

There isn't much difference between sight and vision except when you call a woman one when you mean the other.—*Fayette Advertiser.*

Just because a crank can start something he thinks he is the source of horsepower.—*Baltimore Sun.*

"Success brings poise," says a magazine writer. Especially avoiddupois.—*Cleveland News.*

A country is not made the number of square miles it contains but by the number of square men it contains.—*Dayton News.*

"A lot of eloquence," said Uncle Reuben, "ain't no more good than hollerin' 'Come seven' in a crap game."—*Washington Star.*

Editor: "We can't accept this poem. It isn't verse at all, merely an escape of gas."

Spring Poet: "Ah! I see—something wrong with the meter."—*The Medley.*

How to Get the Most Out of An Education

What is your aim in life? To be a business executive, an expert in some trade, a leader in some profession?

There is much to learn from the men who have reached the top in your chosen field. For example: Should you ask them what kind of a note book they use, you will invariably find that it is a book that fits the pocket. These men have found that they need a note book that they can carry with them all the time.

You need a pocket size book for the same reason—so that you can carry it all the time and never miss a chance of recording facts which may be of tremendous value to you.

The note book used more largely than any other is the LEXAFX looseleaf style which takes pages 6 3/4 x 3 3/4. Men like Edison use this book because it has been found to be the handiest, and on account of the large variety of blank forms and printed data sheets available to fit it.

You will find the LEXAFX note book equally desirable in school or college for the same reasons that makes it appeal to Mr. Edison and other leaders, with the added reason that by starting to use this practical note book now you can go right on using it when you leave school and continue to make convenient use of the notes which you made at school.

Besides, with a LEXAFX note book you can carry with you at all times certain of the printed data sheets containing fundamental tables and formulas to which frequent reference must be made.

The LEXAFX note book is the link that ties up your school work with the practical work of the world. Start using it now and make your education pay bigger dividends.
