

# THE TECHNICIAN

NORTH CAROLINA STATE COLLEGE'S WEEKLY NEWSPAPER  
Vol. XL, No. 18 State College Station, Raleigh, N. C. February 16, 1956

## Covering Campus...

**Blue Key**  
The State College Blue Key Fraternity will initiate its new members into the honor chapter at the Blue Key Initiation Banquet scheduled for Thursday night at 7:00 p.m., February 16, 1956, at Warren's Restaurant.

**Senior Class Meet**  
There will be a meeting of the Senior Class Friday, February 17, at 12 p.m. in the main auditorium of Williams Hall. The class gift and graduation will be the main business.

**Saneley Speaks**  
The Games Club of State College will have its next monthly meeting on Tuesday, February 14 at 8 p.m. in Rooms 248-250 of the Union Building. Richard Saneley, Director of the Raleigh Little Theater, will be guest speaker for the evening.

**Pou Elected**  
Dr. J. W. Pou, head of the Animal Industry Department at North Carolina State College, was elected secretary of the Southern Division of the American Dairy Science Association for the next year at the organization's annual meeting in Atlanta, Ga., this week. Membership in the division includes college and industry workers in the dairy field from 13 Southern states.

**ETC**  
Sign at the entrance of the "Good Design" exhibit now at the CU: Please do not touch or sit on pottery or furniture.

## Board Releases Trial Verdicts

On February 7, 1956 the Student Judicial Board dealt with a case concerning ungentlemanly conduct. The defendant was charged with the violation of Campus Law and specifically to have conducted himself in a manner unbecoming a gentleman.

The accused pleaded guilty and the Judicial Board handed down the following penalty: That the accused be placed on probation for the remainder of the semester; a letter be sent home to the violator's parents explaining the violation and penalty; and if convicted by the Student Judicial Board for any similar offense in the future that the accused be suspended from North Carolina State College.

## Sen. Wayne Morse At UNC Tonight

Senator Wayne Morse, liberal senator from Oregon, will speak at the University of North Carolina, tonight. Prior to his speech Senator Morse will be honored at a banquet. Guests are also invited to attend a reception following the senators talk.

Senator Morse is being sponsored by the Carolina Forum Committee. His speech will begin at 8 p.m. in Hill Hall. He is expected to speak on either foreign policy or the 1956 election.

## Student Legislature

# S.G. Takes Stand In Housing Dispute

## CU Day Is Success; CUSC Meets

The Consolidated University Student Council briefly mentioned deconsolidation at its meeting in Chapel Hill Saturday prior to the starting of the functions of CU day. A revision of the CUSC constitution has not yet been completed by a committee of the Carolina delegation, and the subject of deconsolidation was tossed around for a few minutes before a motion to postpone discussion and a decision on the issue passed.

was reported by several State students as "a terrific talent show". They added that anyone who missed it "really missed a great program." CU day wound up with a dance in Cobb dormitory basement from 7:30 to 11 p.m.

GM's Toast of the Campus"

## TEXTILE:

# Open House Begins Saturday

The annual "Open House" program of the School of Textiles will begin in the Nelson Textile Building next Saturday (February 18) at 10 a.m. and will end at 4 p.m.

This was announced this week by William B. Troutman of Route 3, Statesville, general chairman of the "Open House" event.

Sponsored by students in the college's world-famous School of Textiles, the "Open House" exercises are designed to give the

visitors a look at the complex operations of the school, depicting all the steps in the conversion of fibers and fabrics. Sponsors said they also plan to show textile mill executives a cross-section of the training program provided for a graduate of the School of Textiles during his four years of study there. In addition, high school seniors will be acquainted with the training opportunities offered in (See TEXTILE, page 12)

# Military Ball Band Changed

The Military Ball Association, composed of the Arnold Air Society, Scabbard and Blade, and the Pershing Rifles, announced a change in the plans for the annual Military Ball during the past week.

Ralph Flanagan, whose band had been scheduled to provide the music for the occasion, contacted the Association's Dance Committee to cancel his contract. He explained that he had received a thirteen week television contract and took advantage of a clause in his contract with the school which allowed him to be released up to thirty days before the dance for movies or television.

The Military Ball Committee immediately announced that negotiations were being made with Elliott Lawrence's agent in New York. They stated that in all probability, Lawrence would fill in the vacancy left by Flanagan. Lawrence's band has been one of the outstanding dance bands (See MILITARY, page 9)

## Deichmann Unable To Address Meeting

Major General M. K. Deichmann, Commanding General of Headquarters, AFROTC who was scheduled to address a State-wide meeting of Arnold Air Society members in the State College Union Building, Thursday, February 16, at 7:30 p.m. has informed State College Air Force officials that he is being replaced by his Deputy Commander, Brigadier General J. C. Crosthwaite.

Major General Deichmann was unexpectedly called to the United States Air Force Academy for an Educational Conference to be held during the period of his scheduled visit here. No other changes have been announced for the day long program.

## Vetville Residents At Meeting Nolan - "No Comment On Papers"

At the last meeting of the Student Legislature a heated discussion on the Vetville-NYA housing problem took place, the

changing of the date of campus elections was voted to be referred to the student body, devotionals in the Danforth Chapel were requested, and a Board of Review was appointed.

## Election Change Referendum Set

The Student Legislature has called for a special referendum Tuesday, February 25 to decide the proposed resolution that the voting date for election of next year's student government officials be moved up from the fourth Wednesday in April to Tuesday, April 10.

Other business consisted of installing new legislators, a report on the National Student Association regional meeting, and the reports from the several Student Government committees.

It is the feeling of the legislature that the election date should be moved up in order to give the new officers more time to learn their respective duties. The second Tuesday was the suggested change. The constitution states that any such change would have to be subject to a campus-wide referendum.

The Vetville-NYA housing dispute was opened by President Jim Nolan, who read three documents to the body. After reading each he stated, "I will not comment."

The election committee announced that the referendum would be held on Tuesday, February 25. Polls will be located at the College Union, YMCA, Burlington-Owen Snack Bar, and the Becton-Bagwell-Berry Snack Bar. Polls will be open from 1-6 in the afternoon. All students are eligible and encouraged to vote.

The first document, which came from the office of N. B. Watts contained the essence of the dispute. It said that the NYA housing project will be abandoned since the grading which building of new intramural fields necessitates will disrupt the water and sewer line serving the students living in the NYA area. It went on to say that replacement of these facilities would mean the installation of a \$2,300 sewer line. "Considering this cost and the condition of the buildings at the NYA Center," the document stated, "the decision was made and approved by the Administration to abandon the NYA project and advertise the buildings for sale. Another factor considered was that this area will be needed for academic expansion in a very short time."

## POOP On Book Exchange

"The A-Z Book Exchange would like to thank the many students who bought and sold books through the Exchange. Almost two thousand books were handled this term, and the small charge of ten cents per book will help go towards the two One Hundred Dollar Scholarships that are given to worthy students.

The second document which Nolan read was a letter from Walter Lane, President of the N. C. State Veterans Association to Chancellor Bostian asking him to reconsider the placement of the six families in NYA to Vetville. In his letter he stated that the waiting list for Vetville was already extremely long; that "no precedent was set when Westhaven was abolished in 1953 and the students then living there were moved into (See S.G., page 9)

## CU Television Show

Miss Margaret Williams, Head of the College Union Hobby Shop and Photography Laboratory, is shown explaining the parts of the Hobby Shop to the TV audience during the hour-long show from the Union last Friday night.

EDITORIAL COMMENT:

How Many Wrongs Make A Right?

Vetville, since its opening in 1947, has been restricted to married veterans except in 1952 when Westhaven, a trailer camp that was located east of Dan Allen Drive behind Owen dormitory, was abolished the residents were allowed to move to Vetville regardless of their status (veteran or non-veteran). At that time, however, there were vacant apartments in Vetville and no waiting list.

The Athletic Department has under its jurisdiction 12 units in the old NYA center on Western Boulevard—living in these units are married athletes, most of whom are not veterans, and at least one married student living in the NYA units is not an athlete—only a friend of one of the coaches.

Because of the disruption of the utilities to the NYA units as a result of planned construction of playing fields, the Athletic Department has asked that the administration allow the occupants of the NYA group to move into Vetville immediately, although there are 272 married veterans on the waiting list for an apartment in Vetville at present.

N. B. Watts, as spokesman for the administration, declared that the College has a "moral obligation" to the married students living in the NYA center to provide them with housing. What about the moral obligation to the 272 students on the waiting list. The College told the 272 that by placing their names on the waiting list they would move up the list and when their turn came up and a vacancy occurred they could obtain an apartment in Vetville.

Part of the 272 married veterans who are on the list are living in apartments off campus where the rent is four or five times greater than in Vetville. Other married students are living in dorms while their wives are living back home—waiting for their turn to take a vacancy

in Vetville since they feel that they can't afford to pay higher-rent.

Then there are the uncounted non-veterans who are married and haven't ever had a chance even to place their names on a waiting list for an apartment in Vetville—yet here are five or six married students who are not veterans . . . who did not have to wait many months to obtain the apartment they are now living in . . . but the Athletic Department is asking the administration to put these people ahead of the 272 veterans on the waiting list and give them a privilege that other married non-veterans do not have—the privilege of living in a low rent apartment in Vetville.

It isn't exactly according to Hoyle to deprive the NYA occupants of a place to live, but there are apartments available at the same rate of rent that part of the 272 are paying while waiting for their turn for an apartment in Vetville. It isn't according to Hoyle either for anyone to jump to the head of a line especially when in doing so it is depriving others, who were in line first, of the opportunity that the line-jumpers-in are seeking.

Since the Athletic Department obtained permission from the administration to repair twelve units at their expense for their use and since there are only six of them occupied, there evidently have been vacancies in the NYA units this year. Why weren't other married students informed of the vacancies so they could take advantage of them?

The reasons above tip the scales of justice to those who have been patiently waiting and qualify under the present regulations.

Everyone should be in agreement on one point—North Carolina State College needs more and better housing facilities for married students.

L.C.D.

Poor Public Relations

The publicity that State College and its officials received last week could have been avoided if a statement—brief, concise, and to the point—had been issued to the press soon after the Judicial Board had rendered its verdict.

The lack of such a statement led the Raleigh papers to printing speculation, heresay, and rumors about the case that turned out to be false.

Article VII, Section 3 of the Constitution of The Student Government of North Carolina State College says: . . . The verdict in each case tried shall be made public. Release to the public of any other information concerning the trial shall be at the discretion of the Chairman of The Student Judicial Board.

We interpret it that this section gives the Chairman of the Judicial Board the power to release any information to the public or to confirm, if he so desires, any information that may leak out. The Chairman of the Judicial Board was not contacted for information in the case.

A public figure such as a State College basketball star cannot be expected to quit playing basketball during the middle of the season without a logical explanation to the newspapers and the public.

Well known names are news whether the news happens to be good or bad, unfortunately. To avoid days of speculation by daily newspapers on what really happened a frank statement that so and so had dropped out of school would probably satisfy the sports writers.

Rumors have spread around the campus that members of the Judicial Board were the ones who disclosed the information to the papers. We don't think that it was necessarily a Judicial Board member who let the information out—there were many other people who were connected with the case at the trial, and no doubt they told other people.

The Judicial Board is to be commended for the difficult decision which only they could make.

L.C.D.

Another Bell Needed

To the expression "Go West Young Man, Go West" we would like to add, "But be sure you have a watch!"

The student who frequents the west end of the State College campus, whether he be in Forestry, Textiles, or Agriculture, knows that there is a pressing need for a bell on that end of our campus. Very seldom do either the students or teachers on the west end of the campus hear the bell on top of the Chemistry Building, which is the nearest one to them.

Such a bell could be placed atop the Agricultural Engineering Building. From there it could be heard not only on the campus but also in Vetville. Our campus has, in the last few years, quite evidently grown in a westward direction—a bell at this end of the campus is badly needed.

J.D.B.

Letters to Editor

To The Editor: The Office of Registration sincerely appreciates the very fine cooperation from students and staff alike for the February 2 registration. The Office of Registration is especially indebted to the Veterans Association Guides who voluntarily gave their time to render invaluable assistance. Suggestions will be appreciated. F. H. Spain, Jr.

1941

The Interfraternity council's mid-winter dance is being held this week.

One hundred South American students are going to visit the State Campus this week.

The freshman "Y" club was host to a delegation of girls from Woman's college. The girls presented a program and then were taken on a tour of the campus. The visit will be returned by the State frosh in the spring.

Paul "Dud" Kaley, editor of the 1941 Agromeck, has been chosen senior of the week.

Sid Ingram broke his Southern Conference back stroke record for the third time this season last week. He covered the 150 yard distance in 1.41:8 in State's 49-26 victory over Washington and Lee.

1946

The board of trustees of the Greater University have approved appropriations for new dorms at the schools in the Greater University. State will get dorms with 400 rooms.

The total enrollment for the winter term for State College is now 2,119.

Last week State's Red Terrors downed the Wake Forest cage team 34-30.

Early this week Carolina's White Phantoms whipped State, 55-44. This week marks the end of the basketball season. State is presently eighth in the conference.

1951

The annual Mid-Winters Dance sponsored by the IFC will be

**CHEMISTRY:** Radioactive tracers determine effectiveness of solvent extraction in purification of germanium tetrachloride... later processed into metal.

**PHYSICS:** X-rays of metals show specific pattern for each material. They are used to identify impurities. Here a sample is positioned for careful analysis.

**METALLURGY:** Rolling uranium strip for fabrication into fuel elements. Strip will be cut to length and further processed before going to reactive coolant.

**What do CHEMISTS PHYSICISTS and METALLURGISTS do at SYLVANIA?**

*Sylvania is one of the important names in electronics, America's dynamic \$10 billion-plus industry. Where do physicists, chemists and metallurgists fit in? Let's look at the record:*

Working as a team, these Sylvania scientists pool their individual contributions to create new products. For example:

**IN CHEMISTRY:** Development of phosphors, semi-conductors, kinetics of gaseous reactions, ultra-pure materials;

**IN PHYSICS:** Physical optics, electroluminescence, mass spectroscopy, electron emission phenomena;

**IN METALLURGY:** Powder metallurgy and the investigation of pure metals and semi-conductors.

From research such as this have come Sylvania's stacked ceramic tube, the pill-sized germanium transistor, traveling wave tubes, panelescent lighting, atomic reactor fuel elements, advanced weapons systems, and others.

Many Sylvania developments are still unreleased. The public hears of them tomorrow... the Sylvania team developed them yesterday.

Upon graduation, you can take part in these exciting discoveries at Sylvania... working and exchanging ideas with top men in your chosen field... as a valued team member, learning by doing.

Assignments are as varied as your choice of 40 geographic locations. And advancement comes naturally at Sylvania... ask the men who work there.

Find out about YOUR opportunity as a Chemist, Metallurgist or Physicist at Sylvania... today.

- Chemical Engineers
- Ceramic Engineers
- Glass Technologists
- Industrial Engineers

Why not make an appointment now through your College Placement Office... to discuss your career with the Sylvania representative when he visits your campus.

# SPORTS

SPEC HAWKINS

Ronnie Shavlik, State's All-American basketball star and star swimmers Bob Mattson and Dick Fadgen have been nominated for the 18th annual Teague Award. This award goes each year to the outstanding male amateur athlete in the Carolinas . . . voting will take place in the near future.

**SWIMMING:** State's powerful and once-beaten swim team downed Virginia last week 50-34 as they smashed seven pool records in the ACC battle . . . the Pack took first in all but one of 10 events. . . .

The return swimming match between State and Carolina will be held Feb. 25 at Frank Thompson pool. The Tar Heels, coached by Ralph Casey, beat the Wolfpack, coached by Willis Casey, for the first time since 1952 last month. But Dick Fadgen is eligible now and will strengthen the Pack considerably. His presence should make the meet a nip and tuck affair. . . .

Ronnie Shavlik, State's All-America center, picked up another honor recently when he was picked by professional scout Sonny Hertzberg as one of the nation's five best bets to make the pro ranks. The 6-8 senior will be graduated in June and will play AAU or professional ball. . . .

**BASEBALL:** A real fight looms for the catching job on Coach Vic Sorrell's Wolfpack baseball team. The contestants will be Eddie West and Bob Kennel, both of football fame.

North Carolina State varsity club recently added thirteen new members to its rolls according to president Jim Frazier.

They are: **FOOTBALL:** Dick DeAngelis, Jim Oddo, Anthony Guerrieri, Dick Christy, Jay Beacon, Francis Tokar, Dick Hunter and Julius Compton. **SOCCER:** Bill Richmond, George Williams, Jim Walch, and Jack Routh. **TRACK:** Jim Miller.

## "Dons Wouldn't Be Undefeated If Played Big Four Twice"—Case

"If San Francisco had to play each of the Big Four schools twice during the season, I'll bet the Dons wouldn't be undefeated."

Everett Case, who might be described as the man who caused it all, was talking about the rat race in the Big Four, the hub of Dixie's hotbed of basketball.

"I have never seen such rivalry in my 36 years of basketball," Case commented. "People in other areas just don't know what it means when two of the Big Four teams meet. Here we are, all striving for national recognition, yet knocking each other out of the limelight."

The veteran North Carolina State coach never uttered truer words. Going into the Dixie Classic, one of the nation's top holiday tournaments, State was ranked second in the national poll, Carolina was fourth and Duke sixth. Wake Forest, the other member of North Carolina's "Big Four" wasn't ranked because of three early season losses.

That's just a sample of the topsy-turvy, dog-eat-dog rivalry. The situation as the tournament nears looks like this: State, ranked fourth in the nation, has won 19 and lost two. These losses coming from Caro-

(See DONS, page 6)

## BELL AIRCRAFT IS WORTH A Second Look!

Yes, and a third look too! If you're interested in a future offering advancement, professional recognition and continuing challenge . . . our representative is the man to see. With world-wide recognition for outstanding advances in aircraft, missiles, electronics and a diversity of other projects . . . you'll find the Bell engineering team offers unlimited opportunity for building a great engineering career.

# Pack Meets Md. & Carolina

Lean Ronnie Shavlik, the Atlantic Coast Conference's top choice for All-America, leads North Carolina State against Maryland in a league game in Reynolds Coliseum Saturday night.

The 6-8 senior from Denver, Col., who was recommended unanimously by the ACC sports writers for All-America recognition, turned in a magnificent performance Tuesday night as State beat Duke 90-81 and climbed into a tie for first place.

The Wolfpack is 9-2 in loop play and 19-2 for the season. Maryland is 13-6 for the year and stands at 6-5 in the conference. State defeated the Terps 73-64 earlier in the year at College Park as Shavlik hit for 22 points.

The sensational pivotman now is only 43 points shy of the school's three-year scoring record of 1,711 points held by Sam Ranzino. Shavlik has tallied 417 points this year.

Coach Everett Case is expecting a close, hard-fought game with the Terps. "They'll be after us," the veteran Wolfpack coach said, "and we're going to have to watch our step. Maryland has some mighty good players in (Bob) Kessler, (John) Sandbower, and (Bob) O'Brien."

The Terps have been getting help from the bench with the improved play of Nick Davis and John Nacinek, both sophomores, but State will be out to stop the long set shots of O'Brien, who scored 22 points in a losing cause in the first meeting of the teams.

Guard Vic Molodet, another choice for All-America, has upped his scoring average to 17

points per game to rank second behind Shavlik. He has hit for 338 points this season.

Case will start either Pond or Dickman at forward along with DiNardo, Shavlik at center, Molodet and Maglio at the guards.

the KA's Jerry Young took high scoring honors with 17 points. PEP 77, TKE 33 — Three starters hit in the 20's as the PEP's completely outclassed the TKE's 77-33 for an important win. Canton with 26 and Berman and Rosenbaum with 20 each led the scoring attack. Don Farley scored 18 for the TKE's.

Sigma Nu 42, AGR 32 — Defending champions Sigma Nu remained undefeated as they handed the AGR's their second loss 42-32. Lou Agnew and Hal Mowery tallied 15 and 12 to take scoring honors. Rogers for the AGR's scored 16.

T. Chi 44, PEP 23 — The T. Chi's kept their championship hopes alive as they handed the PEP's a 44-23 setback in an important contest for both squads. Buckner's 16 led the winners while Saffer and Berman collected 9 and 8 for the losers.

PKA 31, Farm House 19 — The PKA's remained in the ranks of the unbeaten as they had little trouble downing the Farm House 31-19 for their third straight win. John Goodman ripped the nets for 16 points to lead the Pika's scoring. Seats for the F. House scored 9.

Sigma Chi 40, TKE 24 — The Sig's breezed past the TKE's 40-24 last week to chalk up their second win of the season. Lancaster and Brooks hit for 9 and 8 points to take scoring honors while Ron Farley scored 10 for the TKE's.

PKP 40, SAM 27 — Don Hitchcock scored 8 points to lead the undefeated PKP's to an important 40-27 win over the SAM's. It was win number three for the strong PKP squad while the (See FRAT INTRAMURALS, page 5)

## Baby 'Pack Dump Duke Fresh. 85-75

State's Baby Wolfpack dumped Duke's freshman 85-75 for their 10th win of the season against only four losses. It was the second time this year the Pack has beaten the Duke frosh. Coach Lee Terrill's lads need only to beat Carolina and Wake Forest's frosh next week to wrap up the Big Four freshman crown.

Pint-sized Lou Pucillo took scoring honors with 27 points followed by Bob MacGillivray with 26 and John Richter with 20.

State's frosh have beaten some of the top service teams in the nation while their only loss to college opposition was to Carolina's freshman squad by three points. They also have lost to Camp Lejeune, Fort Lee and Camp Gordon.

The Baby Wolfpack have copied six in a row.

## Frat Intramurals

First round action in the fraternity basketball leagues came to a close last week as the 16-teams reached the halfway point.

SAE 45, KA 37 — With Boswell and Hanley scoring 10 and 9 points the SAE's swept past the KA's 45-37 last week. But

# Wolfpack Gains Revenge Over Duke 90-81; Down S C 95-68

## '56 Wolfpack Football Schedule Adds Dayton, Clemson, Md

North Carolina State College will play a 10-game football schedule in 1956 which includes six Atlantic Coast Conference contests.

The Wolfpack will meet every team in the ACC with the exception of Virginia. Inter-sectional games will be with Penn State, Virginia Tech, Dayton and Florida State.

Newcomers to the schedule are Penn State, South Carolina, Dayton, Clemson and Maryland. Missing are West Virginia, William and Mary, Villanova, Boston University and Furman.

Ironically, no team which State defeated last year appears on the new schedule. The Wolfpack compiled a 4-5-1 record with wins over Villanova, Furman, Boston University and William and Mary.

"We are fortunate in lining up such an attractive card," Clogston said. "We have strengthened the schedule considerably by adding such teams as Penn State, Dayton and Maryland along with teams in our own conference, who are always tough."

State will have four home games which will be played in Riddick Stadium. They are with Florida State, South Carolina, Clemson and Maryland. The Clemson and FSU contests are at night while South Carolina has been designated as Homecoming.

Away games are with North Carolina at Chapel Hill, Wake Forest in Winston-Salem, Duke at Durham, Virginia Tech at Norfolk, Va., Dayton at Dayton, Ohio, and Penn State at University Park, Pa.

The complete schedule: (conference games marked with \*)

Date	Opponent	Place
Sept. 22	*North Carolina	Chapel Hill
Sept. 29	Virginia Tech	Norfolk
Oct. 6	*Clemson (night)	Raleigh
Oct. 13	Florida S. (night)	Raleigh
Oct. 20	Dayton	Dayton, Ohio
Oct. 27	*Duke	Durham
Nov. 3	*Wake Forest	Winston-Salem
Nov. 10	*South Car. (Homecoming)	Raleigh
Nov. 17	Penn State	University Park, Pa.
Nov. 22	*Maryland	Raleigh

### 70 State Gridders Begin Spring Drills

RALEIGH—It was like old home week for approximately 70 North Carolina State football players who answered Coach Earle Edwards call to 20 days of spring practice last Saturday.

Rain and a muddy field greeted the candidates but it was old stuff to the Wolfpack gridders, who played 6 out of 10 games on a wet field last season.

Included in the group were 19 lettermen. The team is working out four days a week and will wind up the drill with the annual Red-White game March 17 in Riddick Stadium.

Three problems face Coach Edwards: finding a quarterback, improving the defense, and grooming a host of crack sophomore linemen to replace four starters in the front wall.

### Vets Corner

By Fred Joseph

The Vet Club Social will be held at Gresham's Lake Saturday afternoon at 2 P.M. Everyone is requested to meet at the Coliseum at 1:45 P.M. Saturday so that the Vet's without cars will be able to get to the Social.

The March 8 meeting of the club will be a supper meeting at Finch's Restaurant. Dr. Lancaster, a Nuclear physicist, will be the guest speaker.

### Jack Kramer Brings Pro Tennis Tour To Coliseum Tonight

RALEIGH, N. C.—Five of the greatest figures in tennis will participate in a feature of the 1956 International Professional Tennis Tour in the William Neal Reynolds Coliseum at North Carolina State College tonight at 8:30 p.m.

Promoter Jack Kramer will stage matches between Tony Trabert, world amateur champion; and Pancho Gonzales, world professional champion; and between Rex Hartwig, considered one of the world's leading amateur doubles players; and Francisco (Pancho) Segura, the reigning Ecuadorian.

With bossman Kramer confining his duties to the sidelines, the diminutive Segura has taken over the mantle as the "dean" of the Hartwig, the professional tour.

Segura is scheduled to meet Hartwig, the Australian Davis Cup star, in a preliminary singles match for the pro net program.

The veteran player from Ecuador has been a professional star since 1947. On the other hand, the other members of the troupe are relative newcomers.

Pancho Gonzales turned professional in 1949, while Tony Trabert and Hartwig made the plunge in 1955.

Since 1947, Segura has played in five tours, losing only to Kramer. The 34-year-old Los Angeles pro beat Dinny Falls, Frankie Parker and Ken McGregor.

In addition, Segura has been especially impressive in the United States Pro Tournament at Cleveland. He won the title in 1950 and 1952, was runner-up in 1951. Tickets will be on sale at the coliseum tonight.

### The Dorm Corner

#### Gall and Powell High Scorers For Becton

The Becton team was led to victory by the high scoring of Gall and Powell who both scored 18 points. Whitley scored the third highest with 13. Prescott and Keels scored 10 for Alexander No. 2 but could not stop Becton No. 1. Crow, Gall, and Whitley were the defensive greats for Becton. The final score was 67 to 31. This victory made Becton No. 1 the section leader with three wins, and no losses.

#### Bagwell No. 1 Wins Over Becton No. 2

Adams led Bagwell with eight field goals and seven foul shots while Hobson (11) and Roach (9) were also scoring high. Williamson (12) and Phillips (11) were the offensive leaders for Becton No. 2. The final score was 46 to 38 in favor of Bagwell.

#### Turner Led Owen to Victory

Turner of Owen No. 2 led offensively with ten points while Johnson and Ivey were strong defensive players for Owen also. Morocco and Cackwich played good ball for Alexander but it wasn't quite good enough to win. The half-time score was 17 to 7 and the final was 33 to 27, both in favor of Owen. Owen tied Bagwell for section leader. Owen won over Bagwell No. 2 45-28. Odem scoring for Bagwell.

#### Lazzo, Emmert and Henson For Tucker

In a close race for high scorer Lazzo (12), Emmert (12) and (See DORM CORNER, page 6)

North Carolina State's nationally ranked Wolfpack moved into a tie for first place in the ACC cage race as they downed Duke University Tuesday night 90-81 before 12,000 fans.

For the Wolfpack it was their 19th win against only two losses and avenged an earlier setback to the Blue Devils several weeks ago. The Pack sports a 9-2 conference mark.

State took the lead from the early minutes of the contest and at one time commanded a 17 point lead as they left the court at half-time sporting a 47-35 margin. However midway in the second half Duke caught on fire and pulled to within three points of the Pack with minutes remaining, but a series of fouls put the game on ice for State. All-American Ron Shavlik scored 25 points followed by Phil DiNardo with 19 and Vic Molodet, 18. Ronnie Mayer was high scorer for the night with 26.

#### South Carolina

State's Wolfpack, after a slow start, ran away from South Carolina in the final 20 minutes for

a 95-68 Atlantic Coast Conference victory. With All-American Ronnie Shavlik pouring in 27 points and doing his usual tremendous job under the boards, the Wolfpack was still walking away when the final gun sounded on its eighth conference win.

In racking up its sixth straight win, State could manage only a 36-30 intermission margin. But when the three-quarter mark rolled around, the Gamecocks were suffering from a 19-point deficit, and they never could recover.

#### Grabs 34 Rebounds

Shavlik, who paced the scoring for the Wolfpack, was even greater under the boards. He

came down with 34 rebounds only nine less than the South Carolina total, and missed tying his own conference mark by two. State's 6-8 pivot man hit on 11 of 24 from the floor and dropped in five of eight from the free throw line for his 27 points.

### Frat Intramurals

(Continued from page 4) SAM's sport a 2-1 mark. Giddens' 10 points was tops for the losers.

PKT 22, Sigma Pi 21—George Ellis led the PKT's to a thrilling one-point 22-21 victory over the Sigma Pi's as he tossed in 14 points. It was the PKT's first win of the season. Pickett with 8 led the Sigma Pi attack.

SPE 43, LCA 34—The SPE's ground out a 43-34 win over the Lambda Chi's with Dan Smiley scoring 10 points for the victors. Smathers with 9 and Hayworth with 8 were tops for the Chi's.

# THE FASTEST-GROWING ALUMINUM PRODUCER is looking for men who want to grow

THERE ARE several good reasons why Kaiser Aluminum & Chemical Corporation has come to be regarded as the company for young men who want to grow.

An important reason is the fact that Kaiser Aluminum is the nation's fastest-growing major producer of aluminum. We now produce close to 30% of all the primary aluminum made in this country.

And we recently announced a new expansion program—the greatest single expansion in the history of the aluminum industry—that will soon make Kaiser Aluminum the second largest producer in the United States.

We are expanding rapidly because the future uses for

this modern metal are almost unlimited.

As a result, we are looking for exceptional young men who want unlimited opportunities for advancement and self-improvement.

As we expand, ambitious young men of ability at Kaiser Aluminum will rapidly advance to responsible positions in management, planning, production supervision, technical and sales supervision.

But our rapid expansion is only one of the reasons why your opportunities are great at Kaiser Aluminum. The complete story is told in the 23-page booklet, "Your Opportunity with Kaiser Aluminum." Get your copy at your college placement office now.

WHEN YOU VISIT YOUR PLACEMENT OFFICE, BE SURE TO MAKE AN APPOINTMENT FOR AN INTERVIEW WITH OUR REPRESENTATIVE WHO WILL BE ON YOUR CAMPUS ON

Wednesday, March 7

# Kaiser Aluminum

America's fastest growing major producer of aluminum

If your course of study includes one of these major fields, we would like to discuss with you an unusual opportunity for advancement within our expanding organization:

- ENGINEERING—mechanical, chemical, electrical, metallurgical, ceramic.
- ACCOUNTING
- BUSINESS ADMINISTRATION—marketing, industrial sales.
- PURCHASING & TRAFFIC
- INDUSTRIAL RELATIONS

FOR YOUR COPY of this interesting, informative booklet, see your college placement office.

# Carib Singers Here Friday, Feb 17

The costumes worn by the Massie Patterson Carib Singers, who will appear in Pullen Hall on Friday, Feb. 17 at 8:00 p.m., are completely authentic. They are all designed by Massie Patterson, who was born and reared in the West Indies. Living there, making concert tours there, appearing in most of the Islands, she is thoroughly acquainted with the various styles.

In Martinique, the costumes are reputed to be copied from dresses worn by Empress Josephine, before she left the island and married Napoleon. They are called "Douillette" and are still worn throughout the French West Indies, Trinidad and Tobago. In the Barbados, they wear spotless white with no special name, but sometimes called "Bajan" costumes. The market women often have their own wear, which shows Spanish influence, known as "Marchande". In Haiti and Jamaica, the African motif is quite marked.

The primitive musical instruments were also varied. The Syncopation of drum and chant originated in the African Congo. The "Bamboo-Tambo" is made of different lengths and thicknesses of bamboo producing different tones, and was often com-

bined into bands. The "Claves" were short solid sticks, beaten together to produce a sharp rhythmic clicking. The "Timbales", "Bongo" and Conga" are drums, while the Cuban "Tres" is a kind of guitar, which is also true of the "Quatro". Maracas, guards imitating castanets, whistles, cowbells, a bottle and spoon, washboards, etc., are also used to make musical sounds.

The dances came from African, Spanish and French sources. From Haiti come the "Nago" and "Yanvalou", voodoo dances; from the Virgin Islands, the "Bamboola"; Trinidad, "Shango"; Martinique, "Belane", Trinidad and Martinique; "Callenda"; and Cuba, "Naminga", all showing strong African influence.

The Massie Patterson Carib Singers have a truly authentic program of Caribbean folk music. Their appearance has been under the most distinguished sponsorships such as the Pan American Women's Association at the New School of Social Research, the March of Dimes at the Waldorf Astoria Ballroom and the Jamaica Tourist Board at the Hotel McAlpin Ballroom. When you see this show, you will understand why it's so popular.

## DORM CORNER

(Continued from page 5)

Henson (11) all scored in the two digits which was enough to gain victory for Tucker. Safriet and Gaddy were the outstanding offensive players for Turlington No. 2. The final score was 48 to 33.

**Stadium "Studs" Beat the Vets**  
Jernigan (14) and Pryor (10) were the leading scorers for the "Studs" with Williams (9) and Ballard (9) close behind. Deal and Stone led the "Vets" from a half-time score of 16 to 26 to a final score of 41 to 48 with the final score in favor of the "Studs."

**Stanfield Scores Twenty Points**  
Stanfield and Hurst (12) were the outstanding players on the Berry-Watauga team, when they matched forces with the team from Welch-Gold-Fourth. The Welch-Gold-Fourth team was led by Jones with 14 points. The final score was 50 to 24. Berry became the section leader with three wins and no losses by winning this game.

**Owen Wins Third Victory**  
Owen No. 1 led section 3 for the first half of intramural basketball. Kennel (13) was the high scorer with Godley (10) and Jenkins (10) tie for second.

The Turlington No. 1 team was led by Gandie with 18 points and Kiser (11) assisting. Owen played a great game with eight different players in the game at one time or another and they finally won 58 to 46.

## DONS

(Continued from page 4)

lina and Duke, yet they have beat both of these rivals once and Wake Forest twice; Duke beat Wake Forest in the Classic, Carolina and State but have since lost to Wake Forest twice, State, and Carolina; Carolina beat Duke in the Classic but have lost to each of the Big Four once; and Wake Forest has stopped Duke twice and Carolina once, but State has beaten them twice and Duke once. Both State's and Carolina's only losses have come in the Big Four, while Duke has lost to only Kentucky outside of the conference.

"No team in the Big Four is positive of a good season," Case remarked. "As long as we play each other, there will be plenty of upsets. It's a healthy situation but sometimes I wonder if it's fair. While we knock each other out of contention other teams with less competition are climbing to the top."

# State Grad Joins Air Force Staff

Captain Quenton M. Lewis a 1948 graduate of N. C. State College has recently joined the staff of Colonel James F. Risher, Jr., Commandant of the Department of Air Science at State College, according to an announcement released today. Captain Lewis has been assigned as an Assistant Professor of Air Science and will assume his duties beginning with the Spring semester. Captain Lewis was commissioned as a Second Lieutenant and awarded his wings as a pilot on 14 January 1943, and was subsequently assigned to the Mediterranean Theater of Operations where he completed fifty combat missions as a B-25 pilot. Rotated to the States in June 1944, he attended the Aircraft Maintenance Officers' course at Chanute Field, Illinois, and upon graduation served as an aircraft maintenance officer until separated from the Air Corps in September 1945. He entered N. C. State College immediately upon release and was

graduated in 1948 with a B. S. degree in Textile Management. He taught for a year at Mountain High School, Pamlico County, and was recalled to active duty with the Air Force upon the outbreak of hostilities in Korea in 1950. Subsequent to his recall and prior to his assignment to the European Command in December 1952, he attended the Squadron Officer Course of the Air University and the G-97 Transition School at Kelley Air Force Base, Texas.

From 1952 until his return to the States in December of 1955, Captain Lewis was assigned to the 317th Troop Carrier Wing at Munich, Germany where he saw duty as a flight commander and pilot of C-119 type aircraft. Captain Lewis' home is Marshallberg, N. C.

Duke University's varsity wrestling team handed State College a close 19-13 setback last Saturday to remain undefeated and go into a tie in the ACC standings.

# Hear At State

by Sidney Pureblood, Jr.

The views and opinions of this column do not necessarily represent those of THE TECHNICIAN.

It is good to be back hear at State—the semester break and a short stay at the French Riviera was just about what the doctor ordered. Anyone interested in taking a trip to the Riviera when I return, please let me know before next weekend... we can dream can't we. (I'll take Myrtle Beach over the Riviera any day.)

The Golden Chain has sent letters to all of the parents of State students inviting them to an Annual Dad's Day on February 18. We commend this organization for this work. Things like this certainly help the name of the college. The Textile Open House and fashion show are on this same day, so many of our parents will be able to see what happens in the Textile School, as well as seeing the campus.

The new Danforth Chapel in the YMCA is holding ten-minute devotionals every day at 5:15 p.m. These devotionals, which are interdenominational, are be-

ing led by Mr. Oscar Woodridge. It is good to see that this school is offering spiritual as well as mental training for its students.

The married people at State certainly do have a big problem concerning housing. Do you know that there are 272 married men on the waiting list of Vetville right now? Some of these men are living in dormitories while their wives are living alone somewhere else. And now the college is contemplating moving six married couples out of their homes on Dan Allen Drive in order to build athletic fields. These people were told when they moved in that they could occupy these homes until they graduated. The Administration now wants to move these six families into Vetville. The City Council of Vetville, however, is opposed to such a move since they have 272 people already waiting for housing in Vetville.

The Student Government last week voted to go along with the

Vetville Council and to tell the Administration that they thought that these six couples should not be moved into Vetville before those on the waiting list. The Legislature also decided that the Administration should "assume responsibility for the six students living in NYA (the housing project on Dan Allen Drive) and provide housing for them...."

Along this same line of thought isn't it about time that some sort of housing project was built here at State to house married students? There are hundreds of married men attending this college. If a married student is lucky to get an apartment off-campus, then he can't find a place to park when he comes to class—but that is another problem.... Certainly a lot of thought should go into this problem of housing for married students. This is not a problem which will come up in a few years, it is one which is staring us in the face right now; the Administration should open their eyes and do something about it immediately. State is growing faster than ever before—our facilities must keep up with this rapid growth.

# Drum And Bugle Search For "Bugle"

The Army ROTC Drum and Bugle Corps of North Carolina State College is searching for an Army Sergeant by the name of Bugle. They believe this is necessary in order to have an assistant to their newly appointed advisor—an Army Major by the name of Drum. With advisors named Drum and Bugle to a Drum and Bugle Corps, the Drum and Bugle Corps believe they could beat everything, including drums; and they

wouldn't be blowing their own bugle—pardon horn. Not having a sergeant named Bugle, the Drum and Bugle Corps has, however, just about convinced their present sergeant advisor, Sergeant First Class Robert N. Heuser, to change his name to Bugle—which is what the cadets call him.

Major Vernon B. Drum appointed to replace Major Isadore A. Gergaro who is scheduled for overseas assignment is a native of Charlotte, N. C.

# A Challenging Career in Food Distribution

## Attractive Salary-Rapid Advancement

The GRAND UNION CO. offers the college graduate outstanding opportunities for personal development in an industry that has remarkable growth potential.

For 83 years the GRAND UNION CO. has been pioneering new and better ways of merchandising and distributing food to the consumer. Today GRAND UNION operates hundreds of large modern supermarkets from Virginia to Canada and is opening new stores at a rate that will double our present sales volume in the next five years.

A GRAND UNION Personnel Representative will be on your campus soon to interview interested Seniors. Those who qualify will be invited to visit our headquarters in East Paterson, New Jersey. The men that are employed will participate in a formal 18 months Management Training Program that is rigorous but rewarding.

All personnel benefits including a retirement plan, medical - hospital - surgical insurance, group life insurance, profit sharing plan, stock option plan.

Contact your college placement office for interview appointment.

NORTH CAROLINA STATE COLLEGE

175 COOKBOOKS SOLD

### Loan Fund Benefits

The women at State College, as reported in the December 8 edition of *The Technician*, are attempting to raise \$1,000 for The Student Government Loan Fund through the sale of cookbooks. Mrs. Richard Myers has said that 175 of these books have been sold and that the goal of \$1,000 pledged is within sight.

The name of the book is *Foods That Rate* at N. C. State.

These books are now on sale at the Book Store. The Ways and Means Committee of the State College Woman's Club has expressed their appreciation for the help extended by both *The Technician* and WVWP in "Operation Campus."

The Woman's Club was organized at State College in 1919 by the wives of the Faculty and Staff and the women employees.

### Help State Win Bridge Contest

The College Union Games Committee is sponsoring the play of the National Intercollegiate Bridge Tournament beginning February 19.

This Tournament is an annual contest in duplicate contract bridge in which men and women undergraduates at schools throughout the country compete for national and campus titles and trophies. All groups entering play the same set of hands and scores are compiled at the national headquarters. The entire tournament will be

### Watson To Speak

W. H. Watson, principal of J. W. Ligon School, a Negro junior-senior high school in Raleigh, will speak at a dinner meeting in the Grill Room of the college cafeteria Monday night at 6 p.m.

Mr. Watson will speak on "The Other Side of the Integration Question." After his talk the meeting will be turned over to an open-forum discussion.

played at State College Union. The four individual campus champions will have their names inscribed on a plaque to be presented to the college.

### N. C. State Student Affairs Bulletin

Dropping a course without receiving a grade of F—February 24, Friday, is the last day for dropping a course without receiving a grade of F.

Notice to occupants of three-man rooms—(1) Prior to Spring Term registration, it was necessary to assign a third man to many rooms. Due to the fact that many students have moved off-campus or have withdrawn from college, there are a number of vacancies in two-man rooms. Therefore, those students still in three-man rooms should move to a two-man room as soon as convenient. There will be no transfer fee charged for such change. (2) There will be no refund of room rent for the Spring Semester to those students in three-man rooms as long as vacancies exist in two-man rooms. (3) A list of vacant rooms and single vacancies in two-man rooms is posted at the Dormitory Office, 4 Holladay Hall.

Harvard Law School National Scholarships — For students

whose homes are far from New England, in the tradition of having students from all areas of the United States. Stipends ranging up to \$1600.00 per year, depending upon financial need. Renewable. For application forms write to Director of Admissions, Harvard Law School, Cambridge 38, Massachusetts.

Jobs — Student Financial Aid Office, 9 Holladay Hall. Students who wish to be kept on the active list for part-time jobs, should put their new class schedule on our job cards. Unless they do so, we will have to assume that they are not interested in jobs at this time.

### Newman Club News

By William Hanrahan

On Sunday, January 22, the Newman Club held one of their communion breakfasts. Following the breakfast, Dr. Kulash presented the audience of sixty-five with a lecture on the benefits of regular church attendance.

Jerra Lynn Tyler, typical campus beauty queen, compares her dimensions with those of the "average" American woman, as depicted by Henry Dreyfuss, famed industrial designer, in his book, "Designing for People." Jerra Lynne, who's this year's Helen of Troy at the University of Southern California, predicts that Designer Dreyfuss' "average" would win no beauty contests.

Vetville" since crowded conditions did not, at that time, exist; and that in June there will be several buildings torn down in Vetville to allow for the new dormitory that is to be built.

The third document was a resolution passed unanimously by the town council of Vetville stating several reasons why that body was opposed to the College moving the six families into Vetville. Included in these reasons were; the fact that there are 272 persons on the waiting list of Vetville at the present time, and that it is the responsibility of the Athletic Department (which moved the students into NYA) to find housing other than the Vetville housing area.

Lengthy discussion ensued by the Legislature. Finally, it was resolved, seconded, and passed that the Student Government endorse the resolution of the Vetville town council. Immediately there followed another resolution, proposed by David Barnhardt, that "the College assume the responsibility of providing housing for the six families in NYA, whether this be accomplished by building a \$2,300 sewer line or by constructing new housing units." This resolution passed by a large majority.

A resolution was proposed concerning the changing of the date of campus elections. The resolution by John Lively proposed that the Constitution read so that elections be held "prior to the last Tuesday in April at a date to be announced by the Student Government." The motion passed and, since a change in the Constitution requires a two-thirds majority of those voting in a campus-wide election, a referendum will be held in the near future.

Bob Kennel proposed that the

Student Government make a formal request to YMCA director Oscar Wooldridge that the YMCA conduct daily ten-minute devotionals for the students. These services would be held each week day at 5:15 p.m. in the recently built \$40,000 Danforth Chapel. The resolution was passed unanimously.

A Board of Review, as provided for in Article VIII of the Constitution, was elected. Lindsey Witchard was voted faculty adviser, James McCormick and James Stewart to represent the student body, and Dow Perry from the Student Government. These men will be on the Board until their term expires at the end of the present school year.

Earl Davis and L. C. Draughton were duly installed as legislators by Vice-president Bob Gunn.

A report was made on the N.S.A. regional convention. The meeting will be held at State on April 19, 20, and 21.

The Investigations Committee reported that the experiment with the trash cans has proved "very successful," and that others will be placed on the campus soon.

The Welfare Committee stated that plans and specifications on paving of parking areas are now complete and that work will begin on February 28.

**BALL**

(Continued from page 1)

in the country for the past few years. Henry Pickett, Chairman of the dance Committee said, "We are delighted at the prospect of Lawrence filling in. We understand that he plays a really fine dance."

The Military Ball Weekend will begin in the afternoon of March 10 with a concert from

**COLISEUM**

**A Monument And A Symbol**

BY DERLE HAGWOOD

"A monument to sportmanship"—"symbol of the New South"—that is what has been said about the William Neal Reynolds Coliseum here at State College. To say that the Coliseum is a monument to sportmanship and a symbol of the "New South" cannot be denied, but to express it in terms of the average State College Student, the Coliseum is simply "the greatest."

Conceived as a result of an annual Farm and Home week, which was rained out, the Coli-

seum was begun in 1941. Construction was stopped during World War II and wasn't resumed until 1947. In December of 1949, eight years after its beginning, the Coliseum was officially opened with a basketball game between North Carolina State College and Washington and Lee University. In April, 1950, the formal dedication was held, officially naming the giant building, The William Neal Reynolds Coliseum.

Owned and operated by the college, the Coliseum is a non-profit, self-supporting organization. Mr. W. Z. Betts, Director of the Coliseum, and his staff, work under the regular college administration. Public utilities such as water, electricity, and sewer connections for the mammoth building are furnished by the college and serviced by the M & O Department, but actual upkeep of the building must be financed by

the Coliseum, and is in no way connected with the college.

Due to the fact that State funds were appropriated for its construction, and that it belongs to the State, the Coliseum is, consequently, paid for. Of its total cost of \$2,461,741.18, the State appropriated \$1,250,000. Mrs. Mary R. Babcock donated \$152,018.16, and the balance came from transfer of funds, etc. Like any other State College Function, the Coliseum must let the Business Office handle its financial administrations. All receipts and revenues of the Coliseum are turned over to the Business Office, from which the operating costs are drawn.

Prior to the opening of the Municipal Coliseum in Charlotte, the William Neal Reynolds project was the largest structure of its kind in the South. Of Modern classic design, the huge building covers a total area of 1 1/4 acres, and

has a seating capacity of 12,500 for basketball games. The seating capacity ranges from 10,000 for ice shows, to 15,000 for conventions.

Aside from basketball, the ice rink is probably the Coliseum's largest "house filler". With over 12 miles of piping in its floor, the coliseum has ice making equipment that can produce 380,000 lbs. of ice every 24 hours. The intricate lighting system that makes an ice show possible, also enables State College to have the best lighted basketball arena in the nation. That is what experts on the subject say.

With facilities for accommodating events that range from Freshman class meetings to the Boston Pops, versatility would sum up the Coliseum in one word. It has facilities to accommodate virtually any form of public entertainment, except, possibly, an air show.

2:00 until 5:00 p.m. The concert will be followed during the evening by the Military Ball itself, to be held in the William Neal Reynolds Coliseum from 8:00 p.m. until 12:00 midnight.

Tickets may be obtained from members of the Arnold Air Society, Scabbard and Blade or the Pershing Rifles for four dollars. They will remain on sale until shortly before the dance.

Sales Engineering

Atomic Energy Generation & Application

Product Engng. & Research

Industrial Engineering

**Step Into the Expanding Field of Instrumentation**

**Automatic control**—automation—data reduction; call it what you will, it is all Instrumentation, and it offers some of the broadest and most satisfying careers available to today's engineers and scientists.

Atomic energy, iron and steel, aircraft and automobiles, chemicals and chinaware, petroleum and electric power are only a few of the many industries which need instruments. This need creates permanent opportunities in many of our operations, including research and development, product engineering, industrial engineering, production, inspection, market development and customer contacts.

The products with which you would be concerned include automatic, high-precision instruments for controlling, recording and indicating temperature, chemical concentration, radiation phenomena, frequency and load and many other conditions. For heat-treaters we make furnaces and process equipment. For the worker in science—whether student or researcher—we make both automatic and manual laboratory-type instruments, with which you may already be familiar.

The Company has about 3000 people—is one of the biggest in its field, yet is compact enough for you to be able to "follow the score". Its reputation for progressiveness in industrial relations, and for quality of product, is world wide. There are branches in 18 U.S. cities, and manufacturing affiliates or agents in all other industrial countries where American firms may operate.

Charles J. Minich of L&N will be on the campus sometime during the next week, with information which he will cordially share about our very modern opportunities and rewards for engineers and scientists. Your placement bureau will arrange an appointment with Mr. Minich, at your request.

Scholarships Awarded

# 'Talent For Service' Dinner Tonight

Donors and recipients of North Carolina State College's unique "Talent for Service" scholarship awards for 1955 will be honored at a dinner meeting in the State College Union Building Thursday at 6 p.m.

The scholarship program, sponsored by the college's Development Council, is designed to help top-ranking graduates of the State's high schools continue their education.

The 23 winners of the 1955-56 awards, along with the donors, will be honored at the dinner session. The awards usually amount to \$500 per year for four years or a total of \$2,000 each.

Since the "Talent for Service" Scholarships were established two years ago by the Development Council, over \$100,000 in awards have been presented to a total of 49 students from every part of the State.

L. T. Weeks of Raleigh, chairman of the 1955 scholarship fund committee, will preside over the Thursday meeting. Welcoming remarks will be made by Dr. Carey H. Bostian, chancellor of State College.

Also speaking informally will be Acting President William C. Friday of the Consolidated University of North Carolina.

Bobby Seay of Bryson City, who is studying electrical engineering at State College under a "Talent for Service" Scholarship, will speak for the recipients.

A report on the screening program for the 1956 awards and other phases of the student financial aid program at the college will be given by Dr. Ralph E. Fudum, head of the college's Civil Engineering Department and chairman of the college's Scholarship and Student Aid Committee.

Presentation of certificates to the donors will be made by LeRoy Martin of Raleigh, chairman of the Special Fund Committee of the State College Development Council.

Officials of the Development Council said the council decided to launch the scholarship plan in 1954 when it learned that less than one-third of the high-ranking graduates of the State's high schools attends college and that less than one-half of the technical personnel needed by the State's industry and agriculture is being trained in North Carolina. At the same time, there are from five to six jobs on the average open to each graduate of State College.

## Officers Elected In Ani. Industry Club

Johnny Winston, a senior at North Carolina State College, has been elected president of the college's Animal Industry Club for the spring semester, club officials announced yesterday.

Other new officers are William Wilder, vice president; Roger Hyatt, secretary; Bryon Hodgkin, treasurer; John Fulk,

Everyone is invited to go on this outing and you may bring a date. The exact location of the trip has not been decided as yet but it will be within 10 to 15 miles of Raleigh. If you are interested, the Outing Committee urges you to sign up or call the College Union Main Desk.

## 416 Register For Evening Classes

A record-breaking total of 416 persons registered for a new series of 21 evening classes at North Carolina State College last week, Director Edward W. Ruggles of the college's Extension Division announced yesterday.

Many of the classes, Ruggles said, have been filled to capacity. Several however, will admit additional students at the class meetings this week.

One of the non-credit courses which will admit more students this week is "Work Simplification for the Home"—a course designed to help housewives budget their time and money. The class will meet in Room 322 of the Riddick Engineering Laboratories Building Thursday between 8 and 9 p.m.

Others with vacancies include blueprint reading, public speaking, engineering mathematics, elementary French, German, and Spanish, introduction to psychology, improvement in reading, social psychology, delinquency in crime, contemporary family life, and welding.

Complete details on the courses may be obtained by telephoning or visiting the Extension Division, North Carolina State College, Raleigh.

Ruggles said the total enrollment in the night classes is between 225 and 250 per cent greater this year than at the same time last year.

## CU Outing Com. Plan Overnight Trip

The College Union Outing Committee with John Buckner as chairman is planning another overnight outing trip for February 25th. The group will leave some time Saturday and return Sunday afternoon.

OUR AUTHENTIC SPRING COLLEGE HALL FASHION Sport Jackets and Suits Are Here!

Our spring styles are in a class by themselves, you'll find a very extensive collection of the best of the "Ivy Look" in our College Hall Clothes.

LITTLE MAN ON CAMPUS

By Dick Bibler

"NOW! HOW'S TH' CHOW TODAY?"

# Chancellor Bostian Appointed To U. S. Postal Advisory Council

Dr. Carey H. Bostian, chancellor of North Carolina State College, has been appointed a member of a seven-man Advisory Council on postal matters to the U. S. Senate.

Dr. Bostian's appointment, along with the appointment of the six other members, was announced yesterday in Washington by Senator Olin D. Johnston (D., S.C.), chairman of the Senate Post Office and Civil Service Commission.

Other members of the council are Albert M. Anderson, executive vice president, Reuben H. Donnelley Corporation, Chicago, Ill.; William C. Doherty, president, National Association of Letter Carriers, Washington, D. C.; Walter D. Fuller, chairman of the Board, Curtis Publishing Company, Philadelphia, Pa.; Dr. Pendleton Gaines, president, Wofford College, Spartanburg, S. C.; Lovick Pierce, publishing agent, Methodist Publishing House, Nash-

ville, Tenn.; and Gene Robb, publisher, Albany Times, Albany, N. Y.

The group, Senator Johnston said, will undertake an extensive study of all Post Office Department operations, including methods of transportation and mail handling, use of personnel, installations and facilities, accounting and general administrative detail, as well as existing rate structures for the various classes of mail.

"A perennial question before the Congress during the past decade has been that of postal costs and operations and the deficit—alleged or otherwise—that is incurred by the Department annually in its handling of the mail," Johnston declared.

"At the same time Congress is asked to decide the issue of how much of postal operations should be carried by the Government as a service to the people and how much should be defrayed by the users of the mail."

## Rifle Team Ready For Tournament

The N. C. State College Air Force ROTC Rifle Team, after completing several successful "Postal" machines during the fall semester, is busily preparing for the annual North Carolina ROTC Invitational Rifle Tournament which will be held at the Greensboro Rifle Range on February 25, 1956. The team meet will be a "Shoulder to Shoulder" affair.

Competing teams from N. C. State College, University of North Carolina, Duke, A & T College of N. C. and Wake For-

est will represent Air Force, Army, Navy, and Marine Corps ROTC units from their respective schools.

Members of the N. C. State AFROTC Team are: John M. Lake, Carl M. Penny, Robert S. Warnick, Thomas Dixon, Thomas Hoose, and Thomas Bost.

Coaches, Captain Jim Osborn and M/Sgt. John Neal, feel that this year's AFROTC triggermen are the best group to represent the Air Force from State College in recent years.

## Jet Engines Tested in World's Most Complete Privately Owned Turbine Laboratory

Located on the bank of the Connecticut River at East Hartford is a singular development facility—the Andrew Willgoos Turbine Laboratory. Here, behind windowless, thick concrete walls, many types of engineers find a never-ending challenge in the development and testing of advanced aircraft engines.

Test methods used by Pratt & Whitney Aircraft in their unique laboratory are highly complex. Tests are conducted on full-scale experimental engines at simulated altitudes up to 76,000 feet. Extremely high speed airflow, with pressure and temperature accurately controlled; duplicates speeds as high as Mach 2.75. To reproduce such prodigious flight conditions, extraordinary equipment had to be devised. For example, a 21,500-hp driving dynamometer supplies the enormous power needed to test jet engine compressors over a range of speeds from 800 rpm to 16,000 rpm.

The time lapse between development and production of new engines is reduced considerably by the advanced facilities of the Willgoos Laboratory. An outstanding example of results achieved through concentrated engineering effort and complete research support is the Pratt & Whitney Aircraft J-57 turbojet. Today the unchallenged leader in its field, the J-57 is merely the forerunner of greater aircraft engines that will power the preeminent military and commercial aircraft of the future.

Engineers in control room of one of eleven test cells at Willgoos Laboratory record important characteristics of gas turbine engines in operation.

Andrew Willgoos Turbine Laboratory where jet engines and their components are explored. Cooling water from the Connecticut River can be pumped through a maze of conduits at the rate of 160,000 gallons per minute — 3½ times the consumption of a city of half a million people.

B-45 flying test-bed is shown here with an experimental jet engine suspended directly beneath the bomb bay. Its regular engines are idled while in-flight performance of the turbojet is observed and recorded. The perfect complement to the complex ground-testing facilities of the Willgoos Laboratory, the flying test-bed is another vital factor in reducing engine development time.

Giant refrigeration units from which conditioned air is piped to test cells are located in the large central section of Willgoos Laboratory.

### Good Design Show

"What pretty pottery" is probably what the people above are saying as they inspect some of the pottery pieces at the "Good Design" show in the College Union.

The show is the result of extensive planning on the part of the College Union Gallery Committee, headed by John Peterson. This is the first in a series of yearly exhibitions to stimulate interest among North Carolinians regarding quality design in our State.

## IFC In Favor Of De-Consolidation

The inter-fraternity council at State College went on record as being in favor of "de-consolidation" of the Greater University of North Carolina last week at a meeting of the council.

Members of the council expressed the feeling that deconsolidation would be to the advantage of all three units of the University, especially State College and wanted to go on record

as expressing these views. The vote was unanimous.

Other business of the IFC concerned the progress of fraternity row. Talks are underway with Wachovia Bank and the Durham Life Insurance Company for a group loan for the project. Also problems of design and construction were discussed. It is hoped the actual construction can begin in the early fall.

## Pre-Easter Services Held In State's New Danforth Chapel

The first in a series of Pre-Easter services was held Wednesday noon in State's new Danforth Chapel located in the south wing of the YMCA building. The Rev. Neal McGlamery, Director of Wesley Foundation, was guest speaker. The Sigma Chi fraternity provided special music.

provided by the Sigma Chi fraternity, Meredith, St. Mary's, Peace, the Sigma Alpha Epsilon fraternity, and N. C. State College. Dick Stallings of State will play the organ.

Students, faculty, and all other college personnel are cordially invited to attend these mid-day meditation periods during this season of Lent.

### TEXTILE

(Continued from page 1)

the State College School of Textiles and the employment opportunities open in the State's huge textile industry.

Terry Pearce, 26-year-old Zebulon native who is now a secretary in Raleigh, has been chosen as the "Open House" queen. A brunette, Miss Pearce will reign over the fashion shows and other features of the program. Her attendants will be Jan Porter of Winston-Salem, a senior at Peace College, and Flora McIver of New Orleans, La., a senior at Saint Mary's College.

Judges of the contest to select the queen were Dean Malcolm E. Campbell of the School of Textiles; G. H. Dunlap, director of the Placement Bureau in the School of Textiles; and Mrs. Walton Dennis, a member of the School of Textiles Staff.

The "Open House" will feature fashion shows Saturday at 11 a.m. and at 2:30 p.m. Ivey-Taylor Company will provide the outfits for the models who will be supplied by the Star Modeling Agency of Raleigh.

## Forestry Club Elects Officers; Plan Dance

The first Forestry Club meeting of the spring semester was held Tuesday, February 7th at which time elections were held. The following men were elected to serve during the spring semester: President, Paul J. Pickenheim; Vice-President, Ralph Gurganus; Secretary, John H. DeCoste; Treasurer, John Liveley; Assistant Program Chairman, Al Brown; and Sergeant at Arms, Chris Tabor. The Assistant Program Chairman for the Fall Semester, Jack Kelly, automatically became program chairman. Jack promises some very interesting programs in the future.

Discussed at the meeting were new amendments to the Clubs constitution. One proposed amendment would change the meetings from every week to twice a month. It is hoped this will increase the attendance at future meetings.

Plans are being made for the Logger's Ball, to be held in the latter part of March.

### WHODUNIT?

## Carelessness Consumes Time

By Terry Lathrop

J. McCree Smith, Director of Maintenance and Operations, released a memorandum this week noting a varied list of incidents of vandalism on the State campus during the last week of January.

The list, though many of the items by themselves are small, made an appalling total. The incidents varied from torn-down street marker posts and fences to acts of petty thievery, including the theft of a lamp from an office in Peele Hall.

Smith pointed out that this list was compiled from the daily reports of the two security officers who patrol, and are responsible for, the entire campus. These men make one or two rounds each night, check the occupancy of buildings to be sure that only college students and personnel are in them at night, and keeps tabs on people using the campus during the weekends.

Smith commented, "Much of this, in fact nearly all of it, is useless, childish maliciousness. If people pulled up a shrub they would at least have the satisfaction of gaining a shrub, but when they kick a pole or lean on a fence they damage things with absolutely no personal gain."

"It is surprising," he continued, "to consider the amount of time that we must devote to repairing things like this. They are not in the usual run of deterioration of campus property, but constitute unexpected effort which must be diverted from constructive projects aimed toward the betterment of the campus."

Smith was quick to point out that he by no means laid the entire blame for the incidents on the students. He said that he was fully aware that a large amount of the damage was done by people casually crossing the

campus, hoodlums who were out to do some act of destruction with no regard for anyone, or thoughtless members of the crowds who flock to the campus for events such as the basketball games.

He concluded his comment on the report by saying, "I know it isn't all student carelessness. They probably, at the outside, might account for twenty-five per cent of it. However, they are the people who are on this campus the most. They could do themselves and their school a real service if they would take pride in its appearance and help us put a stop to the carelessness and vandalism. Citizenship is an overworked word, but it could be made to work in a graphic manner if everyone would go a little bit out of their way to help stop the trouble, whether its source be a fellow student, a casual campus visitor or a malicious vandal."
