NORTH CAROLINA STATE COLLEGE'S WEEKLY NEWSPAPER

Vol. XL, No. 19

State College Station, Raleigh, N. C.

February 23, 1956

Covering Campus . . .

In the Daily Tar Heel

The Daily Tar Heel sport page made an accurate prediction the day of the Carolina-Wake Forest Game. The full page headline read: Carolina and Wake Forest to Square Off Tonight. . .

Membership Contest

The joint student branch of the American Institute of Electrical Engineers and the Institute of Radio Engineers is having a membership contest open to all electrical engineering students. Prizes of five dollars, three dollars and two dollars will be given to the first, second and third place winners, respectively. To be eligible for a prize, a student must sign up at least five new members. The winners will be announced at the next AIEE-IRE meeting, February 28. Elections will also be held at this meeting.

SG Meets Tonight

The Student Government will meet tonight at the College Union at 8.

Trial Results

February 8, the Student Judicial Board took action in the case of two students charged with violation of Campus Law and specifically to have cheated on an examination.

The defendants pleaded not guilty to the charge. After consideration of the facts regarding the case one defendant was found not guilty of the prescribed charge. The second defendant was found guilty and received the following penalty: That he be suspended from North Carolina State College until the fall semester, September, 1956.

February 16, eight defendants charged with violation of Campus Law and specifically to have cheated on a final examination came before the Judicial Board. All eight defendants pleaded not guilty to the charge. After an extended coverage of the facts the verdict of not guilty was handed down in each case of the eight accused students.

Senior Class Project To Be Landscaping

Plans for the annual Senior Class project were announced as a result of the Class meeting at noon last Friday in Williams Hall.

After a thorough discussion of several alternatives, the class settled on the overlook in front of the 1911 Building. This decision was contingent on the building plans concerning the Chemistry and 1911 Buildings in the near future. Charles Justus, secretary of the Senior Class, said after the meeting, "If there are no further conflicts, we hope we have the problem settled finally now."

Activities Fee Split On S.G. Slate Tonight

At the Student Government meeting tonight a major issue will be brought up—the split of the Activities Fee that each student pays. At present the fee is being split according to a method devised by the Administration several years ago. It is believed that the Student Government will try to change the present method so that the students will have more choice in the distribution of the funds.

There will be a report on the ensuing N.S.A. Convention which is scheduled to be held at State April 19-21.

(See S.G., page 9)

Parking Situation Relieved At C. U.

The main business that was discussed at the last meeting of the Traffic Committee was what to do with the Textile building parking lot, and how to relieve the parking situation in front of the Student Union.

According to W. E. Smith, School of Textiles representative to the Traffic Committee, the Textiles School parking lot will accommodate sixty cars. At the present time the lot is re-

(See PARKING, page 9)

Justus went on to discuss the plans for the design of the overlook. "The Landscape Architecture school is going to submit seven sets of proposed plans for

(See SENIOR, page 9)

Seniors Beware

It has come to the attention of the Military Department of State College that some of the students at State are unaware of the rule that they must successfully complete the basic ROTC course of either the Army or the Air Force in order to graduate. This is a requirement of the College for all students other than veterans, and must be fulfilled in order that the student may receive a degree.

Although informed of it during their freshman orientation and having it repeated in Military classes, some students fail to believe that two years of ROTC training are a prerequisite for graduation.

Hazing

Picket Points Out IFC Regulations

Following the unfortunate death of an MIT fraternity initiate over the past weekend, President of the State College Inter-Fraternity Council, Henry Pickett, came forward with a statement in answer to questions concerning State's policy on initiations.

Pickett pointed out that State has had a long-standing rule confining fraternity initiations to the respective chapter houses. He continued, "Only last year one of the State fraternities was fined for violation of this rule by causing a public nuisance in the downtown section of Raleigh. We have opposed this sort of initiation for many years. In fact, a number of fraternities have removed all types of haz-

Six Students Begin Move From NYA To Vetville

Sonny Santoli is helping Bob Becker, second married students who are moving out of the from left, move from the old NYA housing units into Vetville in the midst of a raging controversy.

Vetville Housing Situation Students Express Opinions

By Terry Lathrop

Vets On Waiting List Bypassed By Admin.

By Derle Hagwood
Interest and indignation are the responses of the students on the Vetville waiting list when asked how they feel about the current squabble of moving the displaced NYA occupants into Vetville.

According to Bob Lane, president of the State College Veterans' Association, it doesn't make any difference at all who lives in Vetville so long as they await their turn. E. B. Austin, a student on the waiting list, expresses his opinion this way; "I've been on the waiting list one and a half years, but now I'm pretty well satisfied and not planning to move, but if I were, I would be plenty mad. However, the NYA occupants have to live somewhere."

When asked how he felt about the committee which the Vetville Council sanctioned to solicit outside help, Bob Lane said: "I'm not in favor of it. I think it should be handled through the Campus Organizations. It isn't right to show our 'dirty linen' to Raleigh and the rest of the State." The reply of Allen F. Myers, another member of the waiting list interviewed by the Technician, was, "I think

Military Ball

March 10! That's the date that Elliott Lawrence will play for the Military Ball in the Coliseum and for a concert from 2 until 5 p.m.

Tickets are four dollars and may be obtained from members of the Arnold Air Society, Scabbard and Blade or Pershing Rifles Drill team members.

Blue Key Honor Fraternity Initiates Seventeen Men

Thirteen top campus leaders were initiated into Blue Key National Honor Fraternity last Thursday night.

Oscar Woodruff, "Y" director, was the speaker for the evening.

New Blue Key members are: Kenneth Reece Barker, Samuel T. Beddingfield, William H. Foushee, Robert Meredith Gunn, Carlton Franklin Ipeck, John Haywood Lane, Jr., Charles James Law, Jr., John Young Lomax, James Martin Nolan, Fred Manfred Rawicz, Erastus Edwin (Ed) Rose, Ernest Kohn Sherrill, and Tully Baxter Williams.

(See NOLAN, page 6)

Did Anyone Notice?

Carolina has just scored; so evidently, these fans sitting in section M and L, Row AAAAA (absolutely the front row and not available to State College students on a first come, first serve basis) must be Carolina fans (Fans, not students since it is doubtful that the 10-year-old in the background is a Carolina student.)

The Line That Dogmatism Helped Make

Above is only part of the long, long line that formed at the Coliseum ticket window early Wednesday morning, February 15. The line was lengthy for the better part of the day. Just before

this picture was taken it had been raining and the line is wound around under the overhang out of the rain. Many students asked the question, "Why weren't there two windows open?"

EDITORIAL COMMENT:

"First Come, First Served"

On Wednesday morning, February 15, students began forming a line at the Coliseum box office at 5:45 a.m. to pick up tickets for the Carolina-State game and the Wake Forest-State game.

By 7 a.m. there were 50 or more students in line—by 8 a.m. there were 150 and by 9 a.m. it was indeed a lengthy line. These students had undoubtedly read on their ticket books where it said "first come, first served." Students who had waited two hours the Wednesday before thought the same thing, but the ones who were there first and received tickets on row A in the side section on the east side were surprised when they took their seats. A row of chairs had been placed in front of the guard rail. Actually row A turned out to be the second row. The student who was first in line that morning had this to say, "I don't understand it. I was first in line, yet there were people sitting in a row in front of me. What gives with the ticket office?"

The ticket office manager certainly has been here long enough to know from experience that the first day students may pick up tickets there will be a long line. Things would be much better on such days if two ticket windows were open. One ticket window would start giving out tickets from the center west side, and the other ticket window start from the center west side. The operation of two windows would only be necessary for the first day at the minimum and two days at the maximum. Graham Campbell at the ticket office will probably reply to this suggestion, "Look Buster, we don't have the personnel to do anything like that." Asinine!!! We remind him of the availability of student wives for a couple of days of part time work. It doesn't take a genius to hand out tickets.

Furthermore, the box office officials take pleasure in deliberately misinterpreting policies, as much as possible, that the administration makes for them. Specifically, the business of picking up a ticket for a date on a student book.

The box office operates on bankers hours. Since probably 75% of State students have 8 a.m. classes (unfortunately) they haven't a chance to get a ticket except in the end zone—that is if the tickets are given out first come, first served.

LEAZAR

"A Feather In Its Cap"

The innovation at the cafeteria of selling sweet milk in quarts for 25c is certainly worthy of favorable comment. Harry Stewart is to be commended on this one step in the right direction. We hope that more are forthcoming.

Entered as second class matter, February 15, 1920, at the Post Office at Raleigh, North Carolina, under the act of March 3, 1879. Published every Thursday for the students of North Carolina State College except during holidays and exam periods. Subscription rate is \$1.50 per school year.

"Don't Pay Any Attention to Them. They're Only Students!"

A Question

Raleigh, in its bid for the Presbyterian College, offered the Presbyterians \$500,000 worth of financial backing and a choice of sites for the college.

The Presbyterians turned Raleigh down, along with many other cities and towns, but Raleigh still has five colleges that it can support so they might grow larger. Many of the others who were turned down do not have that opportunity.

There are 272 married couples on the waiting list for low rent apartments in Verville at the present time. The 272 are married veterans only—no one knows exactly how many married students there are who are not veterans. Yet, the college has only 200 or so apartments for married students. The administration has plans for housing for married couples but financial backing is the main difficulty—the legislature refuses to appropriate funds for such a project. Therefore, money must be borrowed.

The question that we raise is why don't the gentlemen who offered the financial backing to the Presbyterians offer it to State College to finance additional housing. Not a gift, but financial backing for the construction to be paid back from the rent from the units.

An increase in enrollment at State College due to more single students or married students means a boost to the economy of Raleigh during the school year. Anyone who doesn't believe that the colleges in Raleigh add to its economy should take a tour, during the summer months when school is not in session, of some of the businesses that students support, and compare it with the school months.

The larger State College becomes—and the other colleges in Raleigh—the greater the possibility of large summer sessions which would make the boost in economy due to colleges more of a year-around thing.

No matter where the financial backing comes from, State College is in dire need of more and better housing for married students. —L.C.D.

A Homely Philosopher Comments
On Rules & Monstrosities

To The Editor:

Sir: I had a comment to make to you but it has plumb slipped my mind for the moment. By the way, I was settin in Atomic Fishin class the other day (I ain't doin too well in that particular course) and between dozin spells I was a-thinkin. Don't you reckon it would be a mess if they wasn't some law to keep them little doojiggers from just poppin off energy whenever they took a likin to. Atoms just poppin off willy nilly could make a feller plumb nervous an all like that, ya know? Same's true in breedin (I'm doin alot better in that class of Genetics, thank you—we do some of that down on the farm), I say the same's true. I usta think back there on the farm what a gosh-awful situation it'd be if my rabbit, Mr. Pink Ears (he's white), would-ever mate a elephant or a bear. We could always throw

extra cats and rabbits in the Catawba but can't you see yourself tryin to drown thirteen long eared grizzly bears—or worse still, sixteen tons of hoppin pachyderm. Bout as bad as you kin get in cross breedin is a mule.

Like I say this life could really be a monstrosity if it wasn't fer somebody inventin some rules along the line—atoms bustin, jumpin elephants, amphibious cows an that sort of thing. Somebody really had it between the ears when he figgered all this out. More power to him.

Sincerely,
Diogenes Dullard

P.S. Oh, yes, now I remember what it was I was going to write about. That board ought to be more careful enforcing them rules. They could wreck the morale of our basketball team.

Chemistry Dept. Bungles
103 Chemistry Roostering

I, among literally dozens of other Freshmen students, recently got a "raw" deal in the halls of Withers a few days ago. We were not permitted to take Chemistry 103 obviously due to the ignorance and lack of foresight of the policy making clique of the Chemistry Department. Of course State is crowded. But the inefficiency and bungling of a most important department of the school is, in my opinion, shocking. "Sorry no room; come back next year."

Salem College To Give Concert in C. U. Friday

The Salem College Choral Ensemble will present a program in the College Union Ballroom on Friday, February 24, at 8:00 p.m.

The group of 50 lovely girls will present a varied program ranging from early church music of the sixteenth century, madrigals, folk songs and spirituals to modern music. The Music Committee, sponsors for this appearance, expect this to be a very enjoyable program. For all who might be interested the pianist for the group is the May Queen of Salem College, and several of her court atten-

dants are in the Choral Ensemble. The Ensemble received high praise from Sir Roger Makin, British Ambassador, who was entertained at Salem College last week.

Special features of the group include piano, violin, harp, and vocal solos.

Students will be given an opportunity to meet the performers at an informal coffee hour after the show.

All students, faculty-staff members, and their guests will be admitted free. Admission for non-College Union members is \$1.00.

Outing Trip is February 25

Now that spring is in the air, the College Union Outing Committee is moving outdoors on week-ends. This Saturday, all students are invited to pack up their sleeping bags and join the fun. Bring your dates if you like. The committee will have a faculty member and his wife as chaperones. If your girl has difficulty in obtaining permission from her school to attend this trip, call the College Union Activities office and the staff will try to help you.

The camping trip will be within a forty mile radius of Raleigh and will leave the Col-

lege at 1:00 p.m. Saturday, February 25. Meet in front of the College Union building. There will be a very small cost for food and transportation.

All students who are interested, please sign up at the College Union main desk by Friday. We furnish pots, pans, plates, silverware, tent to dress in, tarpaulins, and buy the food. Everyone who goes lends a hand with setting up camp and cooking. Bring sleeping gear, warm clothing, a rain coat (if the forecast is doubtful), and toilet articles. Some of the braver ones bring bathing suits.

Don't forget to sign up by Friday.

John Buckner
Outing Committee, chrmn.

Ahmed M. Ibrahim To Give Film Talk

The College Union Library committee is sponsoring a book talk on Tuesday, Feb. 28 in the College Union.

Ahmed Mohamed Ibrahim will present his films taken in Egypt. He will give a brief explanatory talk.

A sensitive girl named O'Neal Went up in a big ferris wheel, But when half way around, She looked at the ground; It cost her an eighty-cent meal.

WILBUR JUST WOKE UP TO THE FACT THAT HE'S IN CLASS!

From the Files 1941 Whats New With The C.U.

The Joint Appropriations Committee overwhelmingly voted to recommend an increase of over half a million dollars to the Greater University. State would receive approximately \$475,000 a year.

Members of the Golden Chain are planning a tour of twenty-two North Carolina high schools. They will try to impress on the high school students the necessity of higher education.

Lee Roy "Shorty" Barnes of Oxford was selected senior of the week.

A loss to Duke early in the week killed State's hope of going to the Southern Conference Tourney. The Red Terrors wind up their season this week with games against V.M.I. and South Carolina.

Baseball mentor, Doc Newton has issued the initial call for baseball players.

The college orchestra is giving a concert at the end of this week. Several prominent Raleigh musicians will join the band for the program.

1946

Charles K. McAdams of Mebane, a 1942 honor graduate of State, will assume his duties as assistant secretary of the college YMCA.

The IFC is presenting the annual Mid-Winters week-end. Bruce "Bubbles" Becker and his famous NBC orchestra will be featured.

Dr. Milton Burton, Professor of chemistry on leave from the University of Notre Dame, will give a lecture to the student body. Dr. Burton, at present working at Oak Ridge, Tenn., will speak on atomic energy.

State's Red Terrors ended the season with a 5-7 record following a win over Davidson.

SPORTS

SPEC HAWKINS

Ronnie Shavlik, State's All-American, needs only 6 points against Wake Forest Saturday to set a new school three-year scoring record. Going into the final game of the regular season, the 6-8 star has 1,706 points to his credit. . . . The record is 1,711 set by former All-American Sammy Ranzino from 1948-51. . . . Shavlik scored 544 as a sophomore, 707 as a junior and has 456 at present. . . . He is averaging 20 points and 20 rebounds per game. . . .

World Premiere of Cage Picture: The world premiere of the Paramount movie short on the State basketball team, entitled "Carolina Court Champs," is set for the Ambassador Theater in Raleigh, starting Feb. 26.

Oscar Morgan of Paramount Pictures said that 30 prints of the movie have been sent to North Carolina cities and will be shown this month. The feature runs approximately ten minutes. It was filmed at the beginning of the season and is the first basketball movie Paramount has made in over ten years.

Vic Molodet, rapidly becoming an All-American prospect, is currently among the nation's leading free throw shooters. . . . the pint-sized guard has hit 16 in a row and early in the season ran his streak to 27 before finally missing. . . . before the Duke game was No. 1 in the country. . . .

Swimming: State's tank squad will host unbeaten Tar Heels of the University Saturday afternoon at Frank Thompson pool. . . . The Pack has lost only one match that being a 43-37 decision to Carolina last semester. . . . but Dick Fagen is back with the Pack so expect a real battle. . . .

ACC Tournament Pairings: Pairing for the ACC cage tourney are established like this: The 1st place team meets the 8th; 2nd the 7th; 3rd the 6th; and the 4th the 5th. . . . If the Pack cops their final game they will be tied for first with Duke or Carolina. . . . since State is the defending champs they get the top spot. . . . from all indications the upcoming tournament will be the best in the south in a decade or two. . . .

-John Maglio-

John Maglio is one of the main reasons State's cage team is sporting a 20-3 record and a recent win over the University of N. Carolina.

A six-footer from Bryn Mawr, Pa., Maglio teams with Vic Molodet to give State two of the fastest and sharpest shooting guards in the country. . . .

Maglio personally added 23 points to play a big role in the Pack's 79-73 win over Carolina. . . .

His favorite shot is a one-hander from back of the foul circle, but his most spectacular point-getter is a driving layup which he seldom misses. . . .

Fans marvel at Maglio's ability to drive through the defense and get off his shot, usually with players hanging all over his arms. . . .

Maglio has but one fault on the hardwood. Because of a foul hit he picked up in high school,

he is often called for walking with the ball. "Sometimes I move both feet when I fake and start to move," he explains, "and I'm finding it hard to stop. They didn't call it in high school." . . .

Wolfpack Cagers End Regular Season Against W. F. Saturday in Coliseum; Four Tied For 1st In ACC

North Carolina State brings down the curtain on regular season play in Reynolds Coliseum here Saturday night against Wake Forest. The game will begin at 8:15 following a preliminary clash between freshman teams of the two schools.

The Wolfpack will carry a 20-3 record against the always-tough Deacons, who are 17-7 for the year. Both are tied for the lead in the Atlantic Coast Conference with 10-3 marks in loop play.

A capacity crowd is expected for the third match of the year between the two rivals. State has won both of the previous games. The Wolfpack won 90-81 at Winston-Salem and 70-58 in the semi-final round of the Dixie Classic.

Saturday night's game looms as one of the best of the season between Big Four foes. Wake Forest has come up with one of the hottest teams in the ACC and has won nine of its last ten games. The Deacons walloped Maryland 76-60 after the Terps had defeated State two days before.

The Wolfpack is looking for a real battle. "I don't think we'll meet a better coached team than Wake Forest," State coach Everett Case declared. "The Deacons will be tough as nails."

The Dorm Corner

Bradshaw and Hapwood led Tucker No. 1 to Victory—The Tucker No. 1 team was led to victory over Alexander No. 1 by the fine offensive playing of Hapwood (13) and Casteen (11), and defensively by Bradshaw (10) and Hurst (8). Although Tucker got off to a poor start they led at the half 18 to 12, and

Division No. 2
PKA, KA—PKA's, the only remaining unbeaten club, ran their record to 4 in a row as they downed the KA's. The Pika's in the win wrapped up the division crown and a playoff berth.

F. House-34, SAE-26—The Farm House knocked the SAE's out of a possible playoff berth with a 34-26 victory which gives the SAE's a 2-2 record in Division 2. Younts led the attack with 11 points as the F. House captured its first win of the season.

Division No. 3
SAM-51, LCA-37—The SAM's kept their championship hopes alive as they defeated the Lambda Chi's 51-37 for their 3rd win against one loss. Steiger tallied 16 and Giddens 14 for the winners while Royster's 13 was high for the winless Chi's.

SPE-36, PKP-30—Dan Smiley added 14 points to lead the SPE's to a thrilling 36-30 upset victory over unbeaten PKP's last week to leave them with an outside chance of gaining the crown. They sport a 2-2 record while the PKP's have a 3-1 mark. Spieed's 10 was high for the PKP's.

Division No. 4
PEP-35, Sigma Chi-25—The PEP's dealt a serious blow to (See FRAT INTRAMURALS, page 6)

Frat Intramurals

All 16 teams saw action last week, with two big upsets taking place and two teams clinching their division championships.

Division No. 1
Sigma Nu-43, Sigma Pi-13—With Lou Agnew pouring in 23 points, Sigma Nu outclassed Sigma Pi 43-13 to remain undefeated and clinch their division championship. Bill Allin had 10.

PKT-36, AGR-33—The PKT's handed the AGR's their 3rd loss of the season 36-33 in a close battle. Rhodes and Ellis with 12 and 10 points led the winners while Rogers had 14 for the AGR's.

Specialists in microwave, servomechanism, circuitry, etc. are highly important to these operations. Other departments require electronic, electro-mechanical, mechanical, structural, propulsion, and aeronautical development engineers. Many opportunities exist in these departments which cater to the entire aircraft industry in the fields of simulated trainers, lighter-than-air, radar, radomes, airplane wheels and brakes, fuel cells, airframes, fuselages, canopies, laminates, large aperture antennas for ground-based and air-borne radar, and many other projects.

Opportunities Are Unlimited At Goodyear Aircraft where new ultra-modern facilities are being built in preparation for expansion of our activities. Here is where you can get general or specialized experience in keeping with your capabilities and future plans.

'Pack Beats UNC In Thriller 79-73; Maryland Pulls Upset State Host To Annual ACC Indoor Games At 'Cow Palace'

RALEIGH—North Carolina State had to rely upon a famous Wolfpack trait—the full court press—and accuracy at the free throw line to come from behind in the last two minutes to defeat arch rival North Carolina 79-73.

A standing room crowd of 12,600 saw the Wolfpack take the lead at 69-68 on a set shot by Lou Dickman with 1:48 left to play. Dickman, and guards John Maglio and Vic Molodet popped in the points from the free throw line as the Tar Heels fouled going after the ball.

It was the 20th win of the season against three losses for State. The teams are now tied for first place in the Atlantic Coast Conference with identical 10-3 records.

Lenne Rosenbluth, high-scoring Tar Heel forward, bucketed 28 points to lead the Tar Heels assault while Molodet had 24 for the Wolfpack.

The teams had battled to a 33-33 tie at the half but Carolina jumped into the lead shortly after intermission. Trailing by nine points at 66-57 with 5:13 left to play, Coach Everett Case ordered a full-court press.

Molodet hit to close the gap to one point, at 68-67, and then Dickman hit a set shot and a lay-up as State pulled away.

Maryland, paced by a 27-point scoring effort of Bob Kessler

swept to a 71-62 upset victory over North Carolina State before 10,000 fans Saturday night in the coliseum.

It was the Wolfpack's third loss of the season against 19 wins and broke a 24-game winning streak at home.

The Pack commanded a 32-29 half-time lead, but the visitors stormed back after intermission to take the lead and held it for good with six minutes left to play.

All-American Ronnie Shavlik paced the Pack's attack with 27 points.

The trainer put his performing dogs through their routine for the theatrical booking agent, who appeared slightly bored.

At the conclusion of the act the little dog piped up, "Okay, bub, are we booked?"

The agent sat up excitedly. "Hey," he cried, "is that dog actually talking?"

"Naw," replied the trainer wearily, "he can't talk. The big dog's a ventriloquist."

The world is full of hypocrites who never fooled anyone.

Polls include games through last Saturday only.

Track teams from the Big Four held a practice meet last Saturday in preparation for Friday's third annual Atlantic Coast Conference Indoor Games, and pronounced the "Cow Palace" in shape for the big affair.

All eight ACC schools will be represented in the conference division along with 13 major colleges who will participate in the non-conference division. In addition, scholastic and freshmen groups will compete.

The games get underway at 1:30 Friday afternoon with qualifying for the finals, which start at 7 o'clock. Only two finals—the broad jump and the shot put—will be run off during the afternoon.

A large crowd is expected for the finals. The State Fair Arena, one of the showplaces of North Carolina, has a seating capacity of over 5,000 and is ideally suited for track.

Tickets for the event are on sale at the Reynolds Coliseum box office and will be on sale at the Arena the day of the meet. Its title. Other defending champions are Duke in the freshman

division, VMI in the non-conference. The University of North Carolina, last year's team champion, rules a slight favorite to retain conference division, and Washington and Lee High School of Arlington, Va., in the scholastic division.

Dave Sime, the sensational sophomore from Duke, will be the crowds favorite by virtue of his recent achievements in track meets in Washington, New York and Philadelphia. The red-headed speedster set a new indoor record for the 100-yard dash when he covered the distance in 9.5. He will take part in the 60-yard dash, the high and low hurdles and the broad jump.

Taking part in the non-conference division are teams from Georgia, Georgia Tech, Florida State, Navy, Alabama, VMI, VPI, and William and Mary.

won the game 48 to 29. Johnson (11) and Hennings played an excellent game for Alexander.

Kennel and Williamson Battle for Victory — In a game that went into the second overtime period Owen No. 1 finally beat Becton No. 2 by two points. Kennel hit nine field goals and three fouls for 21 points on the Owen team. Williamson (11) was the high scorer for the Becton No. 2 team with nine foul shots accounting for most of his points. The final score was Owen 39 and Becton 37.

Gall Scores Twenty-nine Points — In a fairly one-sided contest the Becton No. 1 team beat the Vets from Vetville by 72 to 18. Gall (29), Crow (14) and Powell (14) were the outstanding offensive players for Becton. On the "Vets" team Deal and Stone were playing their damndest but could not (See DORM CORNER, page 6)

A Campus-to-Career Case History

Cliff Downer (right), A.B. in Mathematics, '49, M.S. in Civil Engineering, '50, Harvard, on the site of a building construction project.

"Projects you can sink your teeth into"

Clifford J. Downer started his telephone career in the building engineering department of The Southern New England Telephone Company. At present he is working with the Bell System's manufacturing unit, Western Electric, helping to build facilities for housing a Continental Air Defense project. His assignment: a key liaison job in supervising a subcontractor's work on a several million dollar construction operation.

"One of the most interesting features of my present job," says Cliff, "is making decisions on the spot. For example, drawings showed where bedrock for footings would be reached. Excavations revealed a poor grade of rock. How much further

down do we go? A hundred workers and tons of equipment are waiting for the decision.

"There's a lot of future for a civil engineer in the telephone business. New and smaller types of telephone equipment will probably change our ideas about how telephone buildings should be built. It's fascinating work, all right. And broadening, too, because it's leading me to other engineering fields.

"It looks to me as if there are real challenges ahead — projects you can sink your teeth into. Besides, I'm convinced the telephone business recognizes and regards personal industriousness and drive."

Interesting career opportunities of all kinds are also offered by other Bell Telephone Companies and Western Electric Company, Bell Telephone Laboratories and Sandia Corporation. Your placement officer has more information about these companies.

FOR COLLEGE MEN ONLY... INCLUDING R.O.T.C.

The Life Insurance Policy That Provides Cash When It's Needed!

the BENEFACTOR College Life's Famous Policy Exclusively for College Men

- ▶ There will be many times when you, like everyone else, will need cash. And if you're the owner of a BENEFACTOR Life Insurance Policy, you'll have the cash you need! When you retire, for instance! The BENEFACTOR will pay you the full amount of your policy, or a monthly income. If you should die prior to retirement, your family will enjoy the same cash payment choices!
- ▶ In addition, cash loan values are available to meet emergencies, such as family

- illnesses... or to take advantage of opportunities, such as investing in, or starting your own business. But that's not all! You may expect yearly cash dividends from savings and profits-made possible because College Life sells exclusively to college men.
- ▶ Yes, the BENEFACTOR has been planned to serve you and yours all your life and afterwards, too. Learn all about this unique protection today. See your College Life representative.

ONLY COLLEGE LIFE GIVES YOU *all* 7 OF THESE IMPORTANT BENEFITS

1. Monthly Income if You are Ill or Injured—Protects your greatest asset—your future earning power.
2. Pays Double for Accidental Death—Broadest protection obtainable.
3. Cash When It's Needed—At retirement, or to your beneficiary. Cash or loan values are available for emergencies or to take advantage of business opportunities.
4. Cash Dividends—Savings and profits, resulting from specialization, passed along as dividends.
5. Low Cost—Because we sell only to college men... a specialized, preferred risk.
6. Reduced Premium Deposits First 5 Years—Make it easier to own adequate protection while you are getting started.
7. Unqualified Safety—All reserves actually on deposit with the State of Indiana.

BEST'S—Leading Insurance Authority Says: "The College Life Insurance Company of America is conservatively and capably managed, has reputable backing and has made substantial progress since organization... The results achieved by the company have been very favorable... We recommend this company."

NOLAN

(Continued from page 1)

crans be allowed to live in "Vet"-ville.

When the above-mentioned letter was read to the Vetville Council, the Council immediately voiced their disapproval. This disapproval did not seem to be based so much on the idea of "Vetville for veterans", but came more as a result of the fact that there is now a waiting list of 272 for Vetville apartments.

At the meeting of the Student Government held Feb. 9, the legislature passed a motion favoring the recommendation of the Council, that Vetville be retained for veterans and the people who have so patiently remained on the waiting list. The legislature passed a second motion recommending that the College assume all responsibility for placement of the six NYA residents in an area outside Vetville.

This is the heart of the problem. What type of housing can be provided for these six without using space already available on campus?

The Chancellor and the Administration came to the apparent conclusion that the only way to solve the problem was to

over-ride the Vetville Council and the Student Government by placing the six in Vetville accommodations.

When interviewed concerning the problem, Jim Nolan made the following statement. "As a former Mayor of Vetville, as a resident of Vetville, and as one who sweated out the waiting list, I have tried to avoid expressing my personal opinion on the matter. But since it has been cussed and discussed so thoroughly, I feel that as President of the student body, it is my duty to make my position clear. I attended a liaison meeting with the Chancellor at which time I presented the resolutions of the Vetville Council and the legislature. I was, of course, disappointed at the decision reached. However I feel sure that none of the members of the administration would take any action which they did not believe was for the best of the college in general or the student body as a whole.

It is unfortunate that the issue was brought up in outside papers. The misrepresentation of both sides of the issue has been especially trying. The Administration has been as guilty of giving out "colored" reports

as have any of the students concerned. The Administration's reply to a letter sent by the N. C. State Veteran's Association, concerning the housing affair, was in very poor taste. On the other hand, employment of outside legal aid by a student group has only added to the confusion.

The S.G. resolutions brought about some very important results in spite of the fact that their recommendations were not followed. They have caused the Administration to establish a badly needed policy which will preclude the recurrence of the situation.

Engineer's Fair Set For April 20-21

The annual Engineer's Fair was set for April 20 and 21 at the last meeting of the Engineer's Council last week.

The chairman for this year's fair is John Lomax, business manager of student station WVWP. John Arwood is assistant chairman; Terry Hershey will be in charge of arrangements, and Wade Parker is busy revising the rules for the fair.

Commercial exhibits will be allowed this year for the first time, although they will not be judged.

1) The policy of consigning housing space to any single department has been discontinued.

2) The Student Government has been asked to set up a system for assigning space and priorities in the new housing project when it is built.

FRAT INTRAMURALS

(Continued from page 4)

The Sig's championship hopes as they handed them a 35-25 upset setback. It was the Sig's second loss against two wins. The PEP's have a 2-2 mark also.

Kappa Sigma-50, TKE-27—A strong Kappa Sig squad kept their championship hopes alive with an important 50-27 rout of the TKE's. Kiser with 14 and Blackwell with 12 led the victors, while Farley with 17 took honors for the TKE's.

Undeclared Theta Chi was idle last week.

Handball

First round action got underway in the handball competition as eight teams advanced to the quarter-finals and eight teams were eliminated.

Sigma Chi over TKE—3-0; Farm House over AGR—2-1; SAE over K. Sigma—3-0; Sigma Nu over L. Chi—2-1; PEP over Sigma Pi—2-1. PKA and KA won forfeits over T. Chi and SPE respectfully.

Quarter-finals scheduled for last night had SAM vs Sigma Chi; F. House vs SAE; Sigma Nu vs PKA and PEP vs KA.

Swimming

Results of the fraternity swim preliminaries will appear next issue. All athletic directors have a copy of those who qualified.

Hear At State

by Sidney Fureblood, Jr.

The views and opinions of this column do not necessarily represent those of THE TECHNICIAN.

The Editorial that appeared in The Technician last week concerning the need for a bell on the west end of the campus expressed the opinions of this writer exactly. It was so parallel to my thoughts, in fact, that the author of it and this column might well be one and the same. Along this same line of

thought, there is certainly a definite need for such a bell at the other end of the campus, and it is my intention to bring before the Student Government tonight a resolution to this effect.

Vetville—NYA Dispute

Well, it looks like the Administration went ahead in spite of the views of both the students and the town council of Vetville. The Administration decided to go ahead and move the six fam-

ilies from the NYA housing center to Vetville. The 272 families waiting for Vetville housing are still waiting. I wonder if this controversy will open the eyes of a few to the need for additional housing quarters for married students on this campus.

Basketball Tickets

As far as getting tickets to a basketball game around here, the students get the worst deal of anyone. Those who don't attend State just walk up to the box office inside the Coliseum and purchase their tickets. But the students, who also have to pay for their tickets, must stand in a long line to get their tickets—and then their seats are inferior to those obtained by people who don't go to school here.

It seems that some system could be worked out whereby the students would get a little better deal. By all rights, the students should get the best deal. They pay for student books long before other people who attend the games pay for their tickets. Why, then, shouldn't those who pay first get the best seats? In most places, it is "first come, first served." But right now, even if you are the first person in line on the day that the box office starts to give out tickets, you don't get the best seat.

Open House

The Textile School was very successful with its Open House again this year. The Open House was held last Saturday and larger crowds attended than ever before. The Textile School termed the Open House a "Huge Success."

The students over at Carolina seemed to like Les Brown and his orchestra this week-end at Germans. He will be at State in April, so we have a good week-end (or should we say another good week-end) to look forward to.

The Game

The basketball team really came through last Tuesday night. Some say that we were lucky; others say Carolina got cocky; still others say we can play better under pressure than any team in the country. Whatever the reason, Case and his boys really came through when the chips were down in that game.

State's Mates

State's Mates will meet Tuesday night, March 6, at 8 p.m. in the College Union Building. Program for the meeting will be highlight of the year, a fashion show sponsored by Virginia Crabtree, Inc., Cameron Village.

All student wives, their husbands, and guests are invited.

LIST

(Continued from page 1)
It's a dirty deal, and I'm boiling about it. I don't see what an outside lawyer can accomplish, but any method the administration can be persuaded to change its mind is all right with me."

It is the opinion of some people that the Athletic Department should be obligated to find housing for the athletes that are being forced to move. Preston D. Johnson said: "It's the responsibility of the college to find the athletes houses, and I think it should be left up to the Athletic Department. It's not right to give the families in question preference over the rest of the families on the waiting list, and if it will do any good, I am completely in favor of getting an outside lawyer."

Regardless of the way the administration sees fit to decide, however, the Veteran's Association wishes to make one point clear, "This is not a fight between the Veteran's and athletes, nor between veterans and non-veterans. The Association is not opposed to married veterans living in Vetville. But as long as the waiting list controls admissions to Vetville, let it apply to everybody."

Mr. Thurmon Nance To Speak Feb. 29

Mr. Thurmon Nance, of Stanford University, will talk on the subject "How to be Successful in Independent Business" at the College Union Theater at 1 o'clock on Wednesday, February 29.

Mr. Nance is well known for his interesting talks on this and similar subjects. All students are invited to attend.

The program is under the sponsorship of Professor Edwin Padgett of the college's English department and his class in public address.

Seniors Note

Cap and gown measurements for all students graduating in May will be taken in the College Union Cloakroom on the following dates:

Tuesday, February 28 — 12 noon—6 p.m.

Wednesday, February 29—10 a.m.—9 p.m.

Thursday, March 1—8 a.m.—1 p.m.

Invitations will sell for 75 cents per dozen payable when ordered and may be ordered at the same time and place.

Sigma Pi Fraternity Holds Dance, Ban.

On February 25, Sigma Pi Fraternity of State College will hold its annual Orchid Ball, celebrating the 58th anniversary of Founders' Day. A banquet will be held at 6:30 p.m. in the Scandia Room in Scandia Village. The banquet and dance will be formal, and each date will receive a lavender orchid in accordance with the fraternity's colors. Mrs. Eleanor Rodman has been chosen as the Sigma Pi Sweetheart.

During the banquet a short speech on the history of the chapter will be made by Robert A. Prichard. The principal speaker is to be Professor E. Sigurd Johnson of the North Carolina State Engineering School. Professor Johnson is the Professor of Furniture Manufacturing and Management in the Department of Industrial Engineering. He is a member of the Executive Board of Wood Industries Division of the American Society of Mechanical Engineers, and Chairman of the Finishing Committee of the Forest Products Research Society.

STUDENT GOVERNMENT

(Continued from page 1)

A discussion will undoubtedly be held to consider the best time for the campus elections this year. The campus referendum, which is to be held soon, will also enter the discussion.

Committee reports, as usual, will also be heard at the meeting tonight.

The Technician takes this opportunity to remind the students that all Student Government meetings are open to the student body. Though each school has elected a representative, any individual from any school is also welcome to attend the meeting. The meeting tonight will be held in the College Union.

FRATERNITY

(Continued from page 1)

ing from their initiations at both our request and the request of their national offices. The accident at MIT was terrible, but we hope that the incident will not be construed as typical of fraternities everywhere."

Banks C. Talley, Coordinator of Student Activities, stated Tuesday night that he was "extremely proud of the enlightened attitude State's fraternities have taken. We haven't had an incident at State since the end of World War II and that is a record of which we all may be proud. Most of the fraternities have adopted "help weeks" of constructive projects for the local chapters or community which have replaced the traditional "Hell weeks."

PARKING

(Continued from page 1)

served for guests and conferences and, consequently, it is not being fully utilized. A proposal was put before the committee to open the textile lot to students, faculty and staff on a first come, first served basis. This proposal was unanimously defeated on the grounds that it was impractical.

After hearing a letter from Chancellor Bostian requesting more complete and definite marking of the no parking zone in front of the Student Union, the committee decided to make the carriage-way one way going east; with an ostentatiously marked loading zone directly in front of the Union Building, and to allow parking on the south side of the carriage-way.

Other business at the meeting was a letter from K. O. Beatty of the Chemical Engineering Department commending the committee on its good work. Also, there was a letter from Professor Briggs requesting angle parking on E. Broughton Street in front of Daniels Hall. No action was taken on this request.

SENIOR

(Continued from page 1)

the overlook and these will be used in the final determination."

A repeat motion was passed that the larger diplomas be awarded this year. However, according to Justus, there is opposition to the change in a high level in the administration and the question is out of the control of either the class or the Office of Student Affairs. He said that it was still hoped that something could be done before graduation.

The "B" average exemption from exams for the seniors was brought up with recommendation for a change to a "C" average. It was decided to put off action on the question with the hope that next year's class would effect the change.

The concert the afternoon following the Junior-Senior was confirmed. It will be held on the lawn behind the College Union, May 5. The State College Band will present the music.

TEAMWORK + NEW IDEAS = CRUSADER

THE development of a new airplane such as the Crusader, the World's Fastest Navy Fighter, cannot be credited to any one engineer. Each engineer, however, is invaluable because this truly new high-performance airplane is only the final result of the creative thought and teamwork of a large number of engineers.

The individual ideas of each engineer are most important. In aircraft design, the time lag between discovery and the utilization of knowledge is extremely short, shorter perhaps than in any other major industry. The solutions to the most stimulating problems which arise in the industry are frequently dependent upon the daily utilization of new ideas and new knowledge.

The graduating engineer considering his first career decision may choose whether he will enter this field of work — the design of airplanes and missiles — that progresses hand in hand with new discoveries in all facets of science and engineering, or choose a less aggressive industry. Of course, it follows logically that greater and more rapid advancement opportunities lie in a field that does not stagnate, in a field that is bounded by the creative imagination of man alone. At Chance Vought, aircraft design draws capable engineers to positions of greater responsibility in developing new ideas and supervising the additional technical manpower needed to "practicalize" the ideas. Starting salaries are commensurate with education and experience for particular specialization and are also competitive with other industries as well as other companies. Advancement, as one would

expect, is based upon demonstrated performance, not seniority.

The future of the aircraft industry is equal to, if not brighter than, that of other industries. The complexity of modern aircraft and missiles, the investigation of new fields of knowledge as aircraft fly higher and faster, the possibilities of man's further use of science and engineering for conquest of the air in the second half of the 20th century, all emphasize the challenge and opportunity to the young graduate.

We urge the graduating engineer to investigate these opportunities at Chance Vought. He will find a stable, 38-year-old aircraft designer and builder with young ideas, a designer and builder noted for advancing the state-of-the-art of aircraft and guided missile design. He will discover that Chance Vought offers career opportunities, not merely impressive titles, and that he will join an engineering organization that thinks and operates as a team rather than as a random collection of individual engineers.

We have the usual fringe benefits including an excellent graduate study program, group insurance, retirement income plan, paid vacation, sick leave, moving allowance, and numerous paid holidays.

We invite you to discuss your opportunities at Chance Vought with

J. G. Bacsik

who will interview

B.S., M.S. or Ph.D. graduates

of the class of '56

**Forestry Club
Plans "Brawl"**

The Forestry Club held its regular Tuesday night meeting February 14th.

Further discussion of the proposed amendments to the constitution was postponed until a later meeting so that members could attend the Duke-State basketball game.

The date of the Logger's Brawl was set for Saturday, March 17th. Pierre Boulogne, was made chairman of the planning committee for the event. The Logger's Brawl is one of the two major social events the Forestry Club sponsors each year. Now is the time to get your date!

Jack Kelly, program chairman, showed a very interesting film on the copperage industry in the United States. Those present were particularly interested in the manufacture of legs that hold those "certain other liquids". Refreshments were served following the movie.

A joint meeting was to be held Monday, February 20th, with the Duke Forestry Club at Duke.

LITTLE MAN ON CAMPUS

By Dick Bibler

"SPLENDID INTERVIEW—HE'S ECCENTRIC, BUT NOT A CONSERVATIVE. HE'LL MAKE A FINE ADDITION TO THE FACULTY."

**State's AFROTC
Gains Officer**

Captain Guy P. McSweeney, a former jet-fighter and jet-reconnaissance pilot with one-hundred Korean Combat Missions to his credit, has been assigned to the N. C. State Air Force ROTC Detachment, according to an announcement released today by Colonel James F. Risher, Jr. Professor of Air Science. A native of Beaufort, South Carolina and a graduate of The Citadel, he has been assigned as an Assistant Professor of Air Science and will assume his duties beginning with the Spring Semester. He will be instructing in the field of Military Aspects of World Political Geography.

Captain McSweeney is himself an Air Force ROTC graduate having been Commissioned as a Second Lieutenant upon graduation from the Citadel in 1950. He was subsequently assigned to the Air Training Command and was awarded his wings at Williams AFB, Arizona in March 1952. A period of Combat training in F-80's and F-84G's at Luke AFB, Arizona was completed in July 1952 and the Korean assignment followed. Returning to the states in March 1953, he was stationed at Shaw Air Force Base, S. C. with the 17th Tactical Recon Squadron as an Instructor Pilot in RF-80's, T-33's and RF-84F's until his assignment to State College.

ANSWER THESE QUESTIONS**

Determining the direction of your career will take more than a "slip-stick". You'll need facts on how to use your engineering education to the best advantage.

Our representatives can give you these facts on a career with Bell Aircraft... show you the many benefits of associating with the foremost engineering development team in the country.

Pioneers of aviation progress, Bell engineers continually introduce revolutionary concepts... most recently in the rocket powered

X1A and X2 research aircraft, the jet-powered VTOL (Vertical Take-off and Landing) and the GAM-63 Rascal missile. Here is an unrivaled opportunity in a diversified program for career engineers.

NOTICE: Opportunity

for technical graduates with **Goodyear**

Representatives of The Goodyear Tire & Rubber Company will be here on the date shown below to interview Seniors who will receive B.S. or advanced degrees in the following fields of technical study:

There's a career for YOU at Goodyear in any of the following fields:

- PLANT ENGINEERING
- MACHINE DESIGN
- PROCESS DEVELOPMENT
- RESEARCH
- FACTORY MANAGEMENT
- TECHNICAL SALES
- PRODUCTION DEVELOPMENT

Contact your student placement office now—plan now to have a personal interview!

Goodyear representative will be here on
March 1st & 2nd

THE GOODYEAR TIRE & RUBBER COMPANY

Your Bachelor Degree can earn career opportunities in these technical areas:—

ELECTRONIC ENGINEERS

ELECTRONICS

Guidance Systems.
Instrumentation
Telemetering

SERVOMECHANISMS

Electronic Design
Analogue Simulation

TESTING

Missile Acceptance Testing
Test Equipment Design

- Flight Test
- Instrumentation
- Installation
- Service & Training

MECHANICAL ENGINEERS

Rocket Development
Research Laboratories
Servomechanisms Hydraulic and Valve Development
Structural Test

MATHEMATICIANS and PHYSICISTS

Dynamics Analysis
Aerodynamics
Electronic Development
Servomechanisms Development
Rockets Research

To holders of a Master or PhD Degree, Bell offers exceptional opportunities in advanced research on a variety of projects.

Our representative will be on campus:

Furniture Manufacturers To Hold Regional Conference Feb. 24-25

A regional conference, covering cost reduction and production standards in the furniture industry, will be held at North Carolina State College February 24-25, college officials announced recently.

Sponsored by the Southern Furniture Manufacturers' Association, the two-day course will be offered by the furniture manufacturing and management program of the State College School of Engineering and the college's Extension Division.

Six faculty members of the college and five off-campus speakers include Joseph Camak, Jerry Cox, Harry B. Hunger-

ford, E. H. Lane, Jr., and Don Morgan.

The conference is designed for the benefit of plant managers, superintendents, and operating executives of the furniture industry. Covered in the program will be the relationships of production scheduling, planning, wage incentives, payroll systems, and production standards.

Highlighting the conference will be a dinner meeting on Friday, February 24. Dr. J. H. Lampe, dean of the college's School of Engineering, will preside. Lane will be the featured speaker, discussing the topic, "Management's View of Production Standards."

Dr. Combs Elected President of Board

Dr. Joseph J. Combs of Raleigh, North Carolina State College physician, has been inaugurated president of the Federation of State Medical Boards of the United States at the final session in Chicago February 14 of the 52nd annual Congress on Medical Education and Licensure.

Dr. Combs is secretary and treasurer of the North Carolina Board of Medical Examiners, a position he has held since 1950. In 1954 he was a member of the executive committee of the national federation.

The federation is composed of officers of the state medical boards of the United States and its territories. Among its principal objectives is the interstate endorsement of medical licen-

sure in the interest of protection and promotion of public health and the promotion of uniformity of administration of medical practice acts.

The North Carolina Board of Medical Examiners ranks high in the Federation, having reciprocal relations with all state medical boards except Florida, which state has no reciprocal relations.

Other members of the North Carolina Board of Medical Examiners in addition to Dr. Combs are Dr. L. R. Doffermyre of Dunn, who is president, Dr. Amos N. Johnson of Garland, Dr. Newsom P. Battle of Rocky Mount, Dr. G. Westbrook Murphy of Asheville, Dr. Clyde R. Hedrick of Lenoir, and Dr. Heyward C. Thompson of Shelby.

Teachers To Learn How To Drive in Summer Session

For the third straight year, the School of Education at North Carolina State College will offer driver education courses for public school teachers during the college's summer school session June 4-July 13.

This was announced yesterday by Dr. J. Bryant Kirkland, dean of the School of Education, who said the instruction will be provided for teachers who are going to teach driving skills in the State's high schools.

By taking the courses, he said, teachers may earn academ-

ic credit for certificate renewal or toward an advanced degree.

Dean Kirkland said he had been informed by John Nee, adviser in safety education for the State Department of Public Instruction, that additional teachers who are trained in driver education will be needed in the public schools next fall.

Teachers who are interested in the courses may get complete details by contacting Dean J. Bryant Kirkland, School of Education, North Carolina State College, Raleigh.

J. Paul Sheedy* Was An Udder Failure Till Wildroot Cream-Oil Gave Him Confidence

The boys were having a bull session in Sheedy's room. "It's no yoke," beamed Sheedy. "Heifer-y girl I ask for a date turns me down flat." Then Sheedy's roommate spoke up: "There's good moos tonight J. Paul. Try some of my Wildroot Cream-Oil on those cowlicks." Sheedy did and now he's the cream of the campus. Wildroot keeps his hair handsome and healthy looking the way Nature intended... neat but not greasy. Contains the heart of Lanolin, the very best part of Nature's finest hair and scalp conditioner. Get Wildroot Cream-Oil, America's largest selling hair tonic. In bottles or unbreakable tubes. Gives you confidence... you look your best. There's no udder hair tonic like it.

131 So. Harris Hill Rd., Williamsville, N. Y.

Wildroot Cream-Oil gives you confidence

Get a record-breaking run for your money!

Only Chevrolet puts you in charge of the dynamite action and sure-fire handling qualities it takes to break the Pikes Peak record! Better try it before you buy any car at any price.

Almost everybody likes a real road car. And nowadays you no longer have to pay a king's ransom to own one. They're going at Chevrolet prices! For the new Chevrolet is one of the few truly great road cars being built today!

It has to be to hold the stock car record for the Pikes Peak climb. It has to have cannonball acceleration (horsepower now ranges up to 225!) and nailed-down stability on turns—plus lots of other built-in qualities that make for more driving pleasure and safety on the road. Come on in and try a record-breaking Chevrolet!

The Bel Air Sport Sedan—one of 19 new Chevrolet beauties. All have directional signals as standard equipment.

**BOEING
AIRPLANE COMPANY**

**WILL CONDUCT PERSONAL INTERVIEWS
ON CAMPUS
MARCH 8 AND 9
GROUP MEETING MARCH 7**

Boeing has many positions open for graduating and graduate students. These opportunities are in all branches of Engineering (AE, CE, EE, ME and related fields). Also needed are Physicists and Mathematicians with advanced degrees.

Fields of activity include Design, Research and Production. Your choice of location: Seattle, Washington or Wichita, Kansas.

Personal interviews will cover the details of openings, the nature of assignments, Company projects currently in work, and miscellaneous information about the Company.

Come and learn about the excellent opportunities with an outstanding Engineering organization—designers and builders of the B-47 and B-52 Multi-Jet Bombers; America's first Jet Transport, the 707; and the Bomarc IM-99 Pilotless Aircraft.

For time and place of group meeting and for personal interview appointments—consult your

L. C. "Craven"

At The State-Carolina Game

A State student dressed as the typical Carolina student: a yellow tie, striped shirt (silk red stripes at that), a half-fifth of bourbon (simulated, we hope), golf clubs, and "Chapel Still" monogrammed on his back. . . . A row of rabid Carolina supporters sitting downstairs on the east side on the front row . . . didn't even take off their hats so those State students in back of them in row A could see. . . . Two wore gaudy green sweaters. . . . Another was 10-years-old. . . . Others were middle age. . . . The question of the week—

What time did they get in line to get such select seats???

Hats off to Phil DiNardo, Ron Shavlik, Vic Molodet, John Maglio and Lou Dickman for really pulling a game out of the fire and providing some breath-taking, anxious moments.

Frank McGuire and "Rosie" Rosenbluth were the two coolest people in the Coliseum—bar none. . . . Rosenbluth was impressive in every way imaginable except rebounds—Shavlik pulled down three times as many.

Small tot, not over 4, was

chanting "Poor Carolina" as she was walking with her parents to their automobile.

Cars were parked everywhere and anywhere. . . . Prof. Babcock should agree that there were about as many cars on campus Tuesday night as there are students enrolled at State College.

The conduct of the crowd was marvelous—quiet during most of the free throws for both teams . . . and a noticeable absence of booing.

The tension was unbearable . . . certainly a game to remember.

**A Challenging Career
in
Food Distribution**

**Attractive Salary-
Rapid Advancement**

The GRAND UNION CO. offers the college graduate outstanding opportunities for personal development in an industry that has remarkable growth potential.

For 83 years the GRAND UNION CO. has been pioneering new and better ways of merchandising and distributing food to the consumer. Today GRAND UNION operates hundreds of large modern supermarkets from Virginia to Canada and is opening new stores at a rate that will double our present sales volume in the next five years.

A GRAND UNION Personnel Representative will be on your campus soon to interview interested Seniors. Those who qualify will be invited to visit our headquarters in East Paterson, New Jersey. The men that are employed will participate in a formal 18 months Management Training Program that is rigorous but rewarding.

All personnel benefits including a retirement plan, medical - hospital - surgical insurance, group life insurance, profit sharing plan, stock option plan.

Contact your college placement office for interview appointment.
