Traffic Resolution Declared Unconstitutional Bostian's Statement Closes Moreland Case

Covering Campus...

Photographer Wanted

The Military Ball Association needs a good photographer to operate the photography concession at the Military Ball on March 23. A percentage of the income from this concession will go to the Military Ball Association. Anyone interested contact David Kersey in 103 Welch, telephone TE 2-9119.

Scholarship Rule

Beginning this semester a student must pass at least six semester hours of work his first semester in attendance at State College, and at least eight semester hours each semester thereafter, in order to be eligible to register the succeeding semester, exclusive of summer sessions. Non-credit courses may be counted toward meeting this requirement.

AIEE-IRE Meeting

A meeting of the AIEE-IRE Joint Student Branch will be held on Tuesday night at 7:30. Elections will be held and refreshments will be served. The Student Branch is offering a \$5.00 prize for an Electrical Engineering Dept. decal, suitable for affixing to automobile windshields. Entries must be submitted, with contestant's name and address, prior to March 9, to the E. E. Dept. office in 320 Daniels or mailed to Box 4772, State College Station. This contest is open to everyone, and there is no limit on the number of entries per contestant.

DeMolay

All members of the State College Chapter of the Order of DeMolay are urged to be present at a meeting in the College Union at 8:15 p.m. Tuesday.

Commissions

Veterans interested in obtaining commissions as Second Lieutenants in the U. S. Army Reserve are requested to contact Col. Basil I. Mishtow, Army DTC, Room 154, Coliseum, for information on requirements and procedures to follow.

Graduate Students

A meeting of the Council of the Graduate Student Association will be held on Monday, March 4 at 7 p.m. in rooms 8-250 at the C. U.

Job Opportunity

Wanted: Couple without children to operate apartments at each this summer. For further information contact Student Financial Aid Office, 206 Holladay Hall.

Rooms

Approximately 45 vacancies in 2-man dormitory rooms. Students in 3-man rooms should contact the Dormitory Office, 4 Holladay Hall, for reassignment to a 2-man room. No room change fee will be charged.

All Charges Against Athletic Dept. Denied, No Dismissals Planned

State College Chancellor Carey H. Bostian summarized the events concerning the Jackie Moreland recruiting case and announced his decisions regarding college personnel involved in a report to Consolidated University President William C. Friday released last night.

The report reviewed all action taken by the NCAA the Atlantic Coast Conference and the college, and reviewed much of the evidence presented by the members of the college staff in their own behalf. It included facsimiles of correspondence between Bostian and NCAA and ACC officials and copies of sworn statements regarding the case by State College Coach Vic Bubas, Assistant Athletic Director Willis Casey, Wolfpack Club official Harry Stewart, and Moreland.

Charges made against the college were spelled out and included six separate charges. The NCAA charged that representatives of the College had offered Moreland (1) gifts of \$200 per year for clothing, (2) an annual gift of \$1000 as long as he attended State, (3) an expense paid trip to State for his girlfriend, (4) a seven-year medical education for the girl at the institution of her choice, (5) \$80 to be used for transportation to State to enroll at the College, and (6) a five-year scholarship at State. Each of the charges was refuted in notarized statements included in the report, most particularly the transportation and five-year scholarship charges on which the ACC had based its findings earlier.

In the report Bostian said,

"In an affidavit signed January 25, 1957, Mr. Moreland denied in detail each specific charge which had been made against State College by the NCAA and the ACC." He continued, "Detailed and specific documents denying each of the charges are on file in my office, furnished by Messrs. Bubas, Casey and Stewart."

Bostian explained that the money given to Moreland by Laughlin (a Louisiana resident, not officially connected with the college) was given without the knowledge of Bubas, Casey and Stewart, and was given for the purpose of coming to State to take entrance examinations, not for enrollment. He said further that State Athletic Director Roy Clogston had cleared the gift of \$80 with ACC Commissioner Jim Weaver's office before school started this year, and that having followed suggestions made by Weaver at (See STATEMENT, Page 6)

Announcement

The Technician is pleased to announce the addition to its staff of John Haywood Lane, III, who arrived in this city via Rex Hospital on Friday, February 22, at 7:29 p.m.

The young man, son of The Technician's Business Manager, is physically described as red and weighing 8 lbs., 3 ozs.

He is now in residence at Rex Hospital with his mother, Mrs. Carolyn Warlick Lane, but expects to take up permanent residence at the home of his parents on Pollock Place sometime this week.

On a meeting last Thursday night, the Student Judicial Board declared unconstitutional the resolution passed by the Student Legislature the previous week regarding traffic tickets and fines.

The act was labeled unconstitutional because of its use of the Judicial Board in handling cases which are violations of rules of the college but are not part of either the Campus Code or the Honor Code.

The following is the complete statement of the finding and the Board's reasons for its finding.

At a meeting on February 21, 1957, in compliance with the Constitution and its By-Laws, the Student Judicial Board ruled on the constitutionality of the recent Student Government legislation regarding campus traffic law violators. The legislation provided for the referring of certain traffic cases to the Judicial Board. This legislation

was declared unconstitutional in its entirety under the Constitution and By-Laws of the Student Government of North Carolina State College.

The opinion and remarks of the Judicial Board are cited below.

Article VII, Section 4, "Powers and Duties" enumerates and explains the powers and duties of the Judicial Board. The paragraph which was contradicted reads:

(a) The Student Judicial Board shall have power to try all violators of the Honor Code (System) and recommend appropriate disciplinary measures.

The Honor System, as clarified this year, is defined by two (2) specific codes: The Honor Code and the Campus Code. Traffic offenses obviously are not violations of either code; neither the Honor Code, which applies to offenses of lying, cheating, and stealing, nor the Campus Code, which applies to

ungentlemanly conduct, are involved.

In ruling this legislation unconstitutional, the Judicial Board is fulfilling paragraph (b), under Section 4 (Powers and Duties), which reads:

(b) The Student Judicial Board shall have jurisdiction in all cases involving the constitutionality of any act of the Student Government.

When exercising this power, the Judicial Board must, of course, interpret the Constitution as it is written. This was done. However, it may be advisable to offer a further opinion and state why paragraph (a) under Article VII, Section 4 of the Constitution reads as it does.

The Judicial Board believes that the authors of the Constitution were justified and far-sighted in limiting the jurisdiction of the Judicial Board to violations of our present Honor System. Many other institutions have found it essential that various administrative functions not be confused with the principles of their Honor Systems. When the Honor System becomes a tool of those who find it convenient to incorporate into the Honor System other extraneous purposes, the entire Honor System is weakened and "watered down." The University of Virginia, for example, found it best to include under their Honor System only violations that correspond to our Honor Code violations (Lying, cheating and stealing), and established a council to try only those violations. If the Honor System includes anything but its vital principles, the students to whom it belongs fail to fully respect its strength and meaning.

Let us not render our Honor System ineffective because of the ease with which other numerous functions may be dispatched through the Honor System. The Honor System is not a means of control, but rather a system under which the students of State College may develop the strength of character and ethics that are so vital to a successful college education.

Dinner Planned for Physics Faculty

The American Institute of Physics is having as its guests, at an informal dinner tomorrow evening, the members of the Physics faculty and their wives. Bob Hutchins, Secretary of the AIP, who is handling the arrangements for the occasion believes this dinner is unique in honoring the entire faculty of a department at State. He said that this is the Physics Major's way of showing their appreciation to a department that is probably the most maligned department in engineering. The dinner will be held in the College Union at 6:30 p.m.

Following the dinner, the AIP will hold a meeting in the C.U. theater at 8:00 p.m. The guest speaker at this meeting will be Mr. Ernest E. Loft from the Glenn L. Martin Company of Baltimore, Maryland. Mr. Loft is a graduate of Marquette University and was employed by the National Security Agency until 1955 when he joined the Martin Company. Until recently,

State's Republicans Plan Special Skit

North Carolina's Republican Congressman, Charles Raper Jonas, is scheduled to be the principal speaker at the combined Victory and Lincoln Day Dinner on March 2nd in the Virginia Dare Ballroom at the Sir Walter Hotel.

A special feature of the evening will be a skit, with members of the State College Young Republicans taking part. Ed Nuckolls, president of the College Club, will act as the Narrator.

There will be a special admission charge for students, and tickets may be obtained from any member of the College YR Club. It is requested that early reservations be made in order to receive accommodations.

he was a group engineer in the analysis unit on Project Vanguard the project to launch the first earth satellite. He is now head of the analog computation unit of Martin Company's simulation section.

2,6195 Scholastic Average Gives F-H First Place In Fraternity Averages

College officials released Saturday the averages for State College fraternities for the fall semester. In the release they also included a comparison of the All-fraternity average and the All-men's average with the averages of the individual fraternities.

The All-fraternity average, at 2.2910 was almost 0.30 points higher than the All-men's average of 2.0640. Only one fraternity, Sigma Pi, failed to surpass the All-men's average.

The individual averages were:

Farmhouse	2.6195 (1)
Sigma Alpha Mu	2.4491 (2)
Kappa Alpha	2.4335 (3)
Sigma Alpha Epsilon	2.4175 (4)
Sigma Nu	2.4111 (5)
Alpha Gamma Rho	2.3779 (6)
Theta Chi	2.3750 (7)
Tau Kappa Epsilon	2.3046 (8)
Sigma Phi Epsilon	2.3010 (9)
Sigma Chi	2.2988 (10)
All Frat. Avg. 1st Semester	2.2910
Phi Kappa Tau	2.2038 (11)
Kappa Sigma	2.1843 (12)
Phi Epsilon Pi	2.1738 (13)
Pi Kappa Phi	2.1623 (14)
Pi Kappa Alpha	2.1374 (15)

Lambda Chi Alpha	2.0723 (16)
All Men's Avg. 1st Semes.	2.0640
Sigma Pi	2.0469 (17)

While the Air Force ROTC struggled through Squadron competition last Thursday, the Army ROTC battled with similar competition on a platoon level. Results weren't compiled by Sunday, but apparently a "good time" was had by all.

Photos by Barbot and Bellis

EDITORIAL COMMENT:

The End - - - - - Or Is It ?

If statements made by State College officials in Chancellor Bostian's report to President Friday last Friday are correct (and they certainly must be if no evidence to the contrary is presented), State College is getting what could be, colloquially, "one of the rawest deals" to date.

All charges made by the NCAA and ACC are either totally refuted or are explained to a fine degree. The question of the travel money is particularly galling, as certainly the "O.K." received by Roy Clogston at the beginning of the Fall should dismiss the possibility of its use as a charge against State . . . yet, not only is it cited by the NCAA as a violation, but also by the very ACC which had previously cleared the gift throws it back.

In all cases the charges seemed to be based on very tenuous comments in a general discussion . . . certainly if Bubas' testimony is acceptable, there can not be even an inferred promise of a five year scholarship used in recruiting Moreland.

We are concerned with the results of this case for several reasons. Certainly it dirties the reputation of State College to have the charges leveled at the school, acted upon, and concluded, without so much as a chance at rebuttal. It leaves State's athletic program hampered beyond belief. It hurts the reputation of State officials . . . they have been as much as called liars by the ACC and NCAA. They have been convicted of perjury without a courtroom.

But most of all, it seems to us that justice has not been, in any sense of the word, done. Without revealing any of its evidence for public view, the ACC and NCAA have judged State thoroughly guilty and have burdened them with terrific penalties. We cannot find one shred of democratic procedure in any of this procedure . . . it leaves one wondering a little if the evidence exists at all.

Perhaps, as Chancellor Bostian says, this will conclude the Moreland Case. Certainly in many ways this would be a blessing. It has consumed much valuable time and effort in the past few months and has caused grievous neglect of other activities at State. But we think that something should be done. This effort should not be in vain. The ACC and NCAA should straighten out their investigation procedure and prevent any repetition of this affair . . . this would be the least they could do. But we think and hope that there must be some alley of action remaining. If State is innocent, and their testimony indicates that they are, they should not be hanged.

All facts lead us toward one conclusion . . . that State has been made a "goat" . . . an example . . . and that no lengths have been spared to find or bloat evidence against State. If the NCAA seeks to establish its power in this manner . . . well, we don't think too much of it. Perhaps the pressure in the Pacific Coast Conference got to be too much.

Maybe this is the end . . . but in many ways, we would like to see State College cleared. Is there no single thing which can be done?

Fraternities at State

A majority of the fraternities on campus were disappointed at the turnout for second semester rushing; many people who are now in fraternities, either as pledges or brothers, have often wondered why other students here at State haven't become interested in one of the seventeen fraternities. It is hard for those in fraternities to understand the objections raised by those who are not. Let's look at some of these objections and see how well they stand up.

Many people are opposed to social fraternities on the grounds that they are immoral—that the parties at the different houses are mostly "wild" and often come close to being orgies. Where these people who base their opposition on moral grounds get their mis-information is somewhat of a mystery; true, we too have heard rumors that the parties at some of the larger liberal arts colleges up North (no offense intended, yankees) get pretty loose at times. But one thing is sure—the people who come to State are not the same type as those found in the more exclusive colleges—people who come to State know they have a big job to do here, and most of us have neither the money or the time to indulge ourselves in wild parties.

Another doubt in non-fraternity men's minds concerns the amount of money it takes to belong; too many sincerely believe that the boys in these social fraternities are from wealthy families—that a rushee is partly judged by what his father does for a living and how much money he makes. Nothing could be farther from the truth—you will find that 95 per cent of fraternity members come from average, hard-working families who are being pinched financially to get their boys through college—and it is a rare thing to hear family finances discussed among the members of a fraternity at State. At some of the fraternities at Carolina, the same statement cannot be made—maybe this is where some of the mis-information is coming from. But more important still is the fact that a social fraternity need not be any more expensive to the student after the payment of the initiation fee, which averages \$70. True, most of the Houses have a social fee and a house fee for maintenance purposes—but the money paid for these items is well used; a tremendous saving can be made by boys who bring their dates to the House for a party or to watch television,

etc.—instead of taking them to a show and then getting something to eat. The money for those parties, etc., comes out of the fee paid at the beginning of the month. And you can spend as much or as little time as you want in fraternity activities—you are not pressured into anything.

There is not space here to enumerate the advantages of a fraternity—you will have to talk at length to the members in order to get the real meaning of belonging to one of these groups. But let it be enough to say that there is a fraternity here at State for almost every type of student—and it is never too late to join. Rushing is a year-round affair and we hope you will take advantage of the great opportunity before you. To a great many, the education received on the north side of Hillsboro is every bit as important as that received on the south side.

CASUAL WEAR

From the Files

One year ago—Feb. 23, 1956

In trials recently of students accused of cheating on examinations, the Judicial Board found one innocent of the charges and the other guilty with a penalty of being suspended from State until the 1956 fall semester being imposed on him.

Selected as the Senior Class project is landscaping of the overlook in front of the 1911 Building.

Thirteen top campus leaders have been initiated into Blue Key National Honor Fraternity.

General campus opinion concerning the moving of several families into Vetville over a long waiting list due to tearing down of their homes in the NYA housing project is that it is unfair to move the families into Vetville but that the College should be responsible for finding facilities for the ones affected.

Four teams are currently tied for first place in the ACC. State ends its regular season Saturday against Wake Forest in the Coliseum.

State will be host for the annual ACC indoor games in the Cow Palace.

NOTES FROM WOLFPACK

Bob Cole, sharp-eyed forward for the State frosh, has scored 30, 37, 31, 30, and 30 points in the Wolflets last five games. His average for the season is a nifty 25 per game.

Bob Seitz has missed only two free throws in State's last five games, connecting on 18 out of 20. He has made 92 of 105 for an 88.5 percentage this year.

Lou Pucillo, the Wolfpack's bantamweight cage star, is getting national recognition. The United Press is considering the 5-foot-9 dribbling ace for their "Small-America" team. Cagers have to be less than 5-feet-10 to qualify.

The Raleigh City League basketball race is keeping several present and former athletes busy this winter. Stars of the local circuit are Lou Dickman, Phil DiNardo, and John Maglio of basketball fame; Ronnie Gall, ex-grinder; and baseballers Russ Casteen, Danny Casteen and Derris Bradshaw. Freshman football and Johnny Johnson is another athlete who keeps in shape by playing City League basketball.

Villanova, LaSalle and Louisville are the only teams that hold a series edge over North Carolina State's basketball team. The Wildcats own an 8-6 mark over State, while LaSalle and Louisville are both 4-3.

(See NOTES FROM WOLFPACK, Page 5)

Pack Tops Villanova

Behind the 20-point scoring effort of guard Whitey Bell, N. C. State rebounded from two losses in a row to drop Villanova 78-64 in an intersectional clash Saturday night.

The Pack, playing without the guidance of Coach Everett Case who was home in bed with the flu, rolled to any early lead and were never in much danger.

State closes out its regular season against Wake Forest Saturday in the Coliseum.

The State All-Stars have a busy schedule coming up with eight games on tap between now and March 12. The ex-collegians will in:

Feb. 24—Norfolk vs. Chesapeake Athletic Club

Feb. 25—Jamesville vs. Jamesville All-Stars

Feb. 26—Rocky Mount vs. Rocky Mount All-Stars

Feb. 28—Raleigh vs. Darrell Floyd All-Stars

Mar. 1 Roanoke Rapids vs. Roanoke Rapids All-Stars

Mar. 4—Spring Hope vs. Spring Hope All-Stars

Mar. 5—Conway vs. Conway All-Stars

Mar. 12—South Boston, Va., vs. South Boston All-Stars

A Campus-to-Career Case History

Ken Boekeloo (center foreground) at the scene of a cable installation project in Detroit.

Ten years along in his telephone career

After graduation in 1947 from Kalamazoo College with a B.A. in Physics and Mathematics, Ken Boekeloo joined Michigan Bell Telephone Company as a trainee.

Today, ten years later, Ken is a Division Plant Superintendent in Detroit. Eight district supervisors report to him, and they supervise some 1700 people. Ken is responsible for the installation and maintenance of plant facilities valued at \$135,000,000 including more than 500,000 telephones.

A big jump in ten years? Here's

Ken Boekeloo is one of many young men who are finding rewarding careers in Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about all Bell System Companies.

BELL TELEPHONE
SYSTEM

what Ken Boekeloo says about it:

"The way the telephone business is growing, you can advance just as fast, and just as far, as you're able. ... And all along the way, from the student period through each assignment, the training and experience you get really prepare you for advancement.

"If you like to make contributions and take responsibility, and if you value the opportunities a growing business can offer, then the telephone company's the place to look for a career."

JUNE GRADUATES

*A General Motors Representative
will be on hand to answer your questions
about job opportunities with GM*

MARCH 11 AND 12

Our College Representatives speak for all of our many decentralized divisions throughout the country.

They are familiar with career opportunities throughout the entire organization, including staff and divisional operations,

and can answer your questions fully.

We cordially invite June graduates, and those graduating this summer, to arrange an appointment through your College Placement Office on one of the above listed dates.

GM Positions now Available in:

ELECTRICAL ENGINEERING • MECHANICAL ENGINEERING
METALLURGICAL ENGINEERING • CHEMICAL ENGINEERING
AERONAUTICAL ENGINEERING • INDUSTRIAL ENGINEERING

CHEMISTRY • PHYSICS • CERAMICS

STATEMENT

(Continued from Page 1)

that time, had been left with the impression that the gift was within Conference and NCAA rules.

In clearing the "five-year" scholarship charge, Bostian said that following his enrollment at State, Moreland learned from another State athlete that he had received a grant to finish his studies during a fifth year here at State. When Moreland questioned Coach Bubas concerning this aid, he was told by Bubas that there was precedent for this practice and that, as he had been told, it was now being done. Bubas stated later that Moreland had not attempted to extract a promise from him about the fifth year aid, but had said that he expected to complete his studies and graduate in four years.

Concerning the NCAA report that Moreland, on January 10, repudiated the signed statements he had earlier made at State, Bostian said, "I have a standing request with both organizations (the NCAA and

ACC) that any time and any place they wish to conduct a full, complete and open hearing in this case in which the witnesses confront each other with whatever story they have at that time, the officials at State College will do all in their power to cooperate. Up to now these two organizations have not been interested in making a sensible effort to resolve the disputes of fact; in this case I am no longer interested in receiving their 'latest repudiation' and this latest move is consistent with the pattern heretofore followed."

Bostian concluded the statement with two decisions: that State, having no evidence to the contrary, consider Messrs. Bubas, Casey and Stewart innocent of the charges leveled at them, and that State consider the Moreland case closed and begin to operate its athletic facilities under the penalties placed on them by the NCAA and ACC.

He also suggested that the ACC and NCAA review their methods of handling cases such as the Moreland case and estab-

lish a definite, open method of investigation, instead of limiting the investigation to what amounts to "an essential and completely justified preliminary investigation" of the sort employed in this instance. He expressed the hope that since

State had been deprived of their voice and vote in the NCAA for the next four years, that some other member would bring the matter to the floor of the group, and explained that State's own representatives to the ACC intended to do so at the ACC.

THE FASTEST-GROWING ALUMINUM PRODUCER

is looking for men who want to grow

For young men who have ability and are anxious to assume responsibilities, a career with Kaiser Aluminum & Chemical Corporation offers an unusual opportunity.

Kaiser Aluminum is a young but stable corporation, among the nation's largest producers of primary aluminum, with 23 plants and facilities in operation or under construction.

Since entering the aluminum business 10 years ago, Kaiser Aluminum has continually expanded its facilities for making primary metal as well as fabricated products.

Yet, to keep pace with the unlimited future markets for aluminum, more expansion will be necessary. This will require not only more physical plants but more

people who can step into management positions.

As a result, we are looking for exceptional young men who want unlimited opportunities for advancement and self-improvement.

As we expand, ambitious young men of ability at Kaiser Aluminum will rapidly advance to responsible positions in management, planning, production supervision, technical and sales supervision.

But our rapid expansion is only one of the reasons why your opportunities are great at Kaiser Aluminum. The complete story is told in the 32-page booklet, "Your Opportunity with Kaiser Aluminum." Get your copy at your college placement office now.

WHEN YOU VISIT YOUR PLACEMENT OFFICE, BE SURE TO MAKE AN APPOINTMENT FOR AN INTERVIEW WITH OUR REPRESENTATIVE WHO WILL BE ON YOUR CAMPUS ON WEDNESDAY, MARCH 13, 1957

Kaiser Aluminum

America's fastest growing major producer of aluminum

If your course of study includes one of these major fields, we would like to discuss with you an unusual opportunity for advancement within our expanding organization:

- ENGINEERING—mechanical, chemical, electrical, metallurgical, ceramic.
- ACCOUNTING
- BUSINESS ADMINISTRATION—marketing, industrial sales.
- PURCHASING & TRAFFIC
- INDUSTRIAL RELATIONS

FOR YOUR COPY of this interesting, informative booklet, see your college placement office.
