

THE TECHNICIAN

NORTH CAROLINA STATE COLLEGE'S STUDENT NEWSPAPER

Vol. XLI, No. 25-26

State College Station, Raleigh, N. C.

April 11, 1957

Covering Campus...

YMCA Sponsors Speaker
Dr. John Dillenberged, Assoc. Prof. of Theology at Harvard Divinity School, will be present at a special meeting with students, Thurs., 6 p.m. Room A, the Cafeteria. Topic: "Heart and Mind in Christian Understanding." Reservations (85c) can be made by calling the YMCA.

Lost and Found
The annual Lost and Found sale will be conducted Saturday morning at 7 p.m. on the College Union Terrace. All unclaimed articles in the campus lost and found will be sold at auction. Students who have lost personal belongings during the year are urged to come by and claim them before the sale.

Tuxedo Rentals
Tuxedos will be available to students who plan to attend the Senior-Senior Dance on May 4. Anyone who is interested should write to Varsity Men's Wear for measurements on April 25, 26, 27. Rates: Dinner jacket and pants with all accessories—\$1.25; Shoes—\$1.25.

Caps and Gowns
Any graduate or undergraduate student who has not been measured for a cap and gown should report to 13 Holladay Hall no later than April 12. Orders will be taken after the above date.

See COVERING CAMPUS, page 8)

Final Candidates And Voting Listed

Following is a list of the candidates and voting in the final student government election yesterday. Names followed by asterisks are winners.

STUDENT GOVERNMENT OFFICERS	
President	
George C. Cochran	1177
Fred Houtz	1428*
BOARD OF DIRECTORS OF COLLEGE UNION	
Junior Representative	
Jim May	1120*
Bob Dawson	994
Sophomore Representatives	
Galen E. Chambers	1100*
James C. Barbot	932
ATHLETIC COUNCIL	
Senior Representatives	
Bob Kennel	1477*
Bucky Waters	656
John Heinbockel	159
ATHLETIC AWARDS	
Bob Seitz	1817*
John Seuchan	663
SENIOR CLASS OFFICERS	
President	
Jim Peden, Jr.	359*
Guy Townsend	246
Vice-President	
Neil Birch	301*
Teddy Allen	268
SENIORS TO THE JUDICIAL BOARD	
B. H. Barnette, Jr.	373*
Heywood Houtz	248*
Edgar Smith	226
Charles Hutchins	230
JUNIOR CLASS OFFICERS	
President	
Mac Lupold	301
Sammy Yow	321*
Vice-President	
Arron Capel	324*
Craven Poole	274
Treasurer	
Eddie Barringer	302*
Ralph Boswell	256
Members of the Judicial Board	
Larry Harris	393*
Bob Beasley	281*
Bruce T. Hainley	186

Houtz Wins S.G. Presidency; Fair Starting Tomorrow

Student Government members Burton Robinson, Jim Lazenby, Leon Henderson, left to right, first row, and Erid Smart, Waring Boys, Jim Prim, Scoofer Jordan and Ken Steppe, total the final ballots last night as the annual spring student government elections came to a close. Photo by Barbot

Students Eligible for Polio Shots

All students are eligible for free, however the cost of the polio vaccine, \$1.00, is charged the students for each shot. The charge is payable when the shot is given. Students under 21 years of age must present written permission from their parents before immunization can be given.

Pres. Friday Speaks At Fair's Opening

President William C. Friday of the Consolidated University of North Carolina will be the principal speaker at the formal opening of the 25th annual Engineers' Fair at State College Friday at 1 p.m.

The opening exercises, to be held in front of the Burlington Nuclear Laboratories Building in the central section of the State campus, will signal the beginning of the two-day exposition, which is expected to attract thousands of North Carolinians.

Free to Public

All events in the fair will be open to the public free of charge.

President Friday will be introduced by Dr. J. R. Lampe, dean of State College's School of Engineering. Also participating in the program will be William D. (Bill) Wilkinson of Greensboro, president of the Engineers' Council, sponsor of the fair.

Engineering students at the college have been busy for the past several weeks preparing exhibits and demonstrations for the exposition, which will feature the recent progress of industry and engineering.

Exhibits by All Departments

Student engineers from each degree-granting department of the School of Engineering will arrange exhibits explaining the various fields of engineering. Among these represented will be mechanical, aeronautical, nuclear, geological, electrical, chemical, civil, industrial, metallurgical, construction and ceramic engineering, as well as engineering physics, furniture manufacturing and management

(See FAIR, page 5)

Houtz Tops Cochran In Run-off Voting

Fred Houtz, Textiles Senior from Elizabeth City, overcame the numerical plurality established by George Cochran in the primary to move into the office of President of State's Student Body.

Piling up a total of 1428 votes to Cochran's 1177, Houtz had a clear-cut victory as Cochran

Fred Houtz

lost votes from his previous total of 1212.

Houtz released the following statement last night:

"I am deeply grateful that I have been chosen to represent you, the students of North Carolina State College, as President of the Student Government. "The Presidency carries with it a great responsibility, of which I am seriously aware. I will work diligently and remain faithful to my principles in order to insure that the student government operates with the

(See HOUTZ, page 5)

Parents' Week-end Begins Friday Night; Sponsored By Golden Chain

"Parents' Week-end" here at State will begin tomorrow night under the sponsorship of Golden Chain, the college's senior honor society.

John Lomax, President of Golden Chain, said yesterday that an invitation has been extended to the parents of all of State's 5,575 students to attend.

The parents were also all sent copies of *The Technician* that came out last week in which the deans of the various schools invited the parents to see the

various schools on the campus. The Interfraternity Council and Interdormitory Council are cooperating with Golden Chain by opening many dorms and fraternity houses to the parents.

All classrooms will be open to the parents who wish to sit in on classes. Tours of the six major schools comprising the institution, the college classrooms, and the several research and teaching facilities is scheduled for Saturday afternoon at 2:00 p.m.

Parents will register for the various portions of the program on Saturday from 9:00 a.m. until 2 p.m. in the lounge of the College Union.

On Saturday, parents will have an opportunity to visit the annual Engineers' Fair. This will be held in the various buildings of the Engineering School Broughton, Daniels, Mann, Riddick, Nuclear, Park Shops, Page, and the Diesel Building. Students will be on hand to explain the various exhibits.

From 4:00 to 5:00 a tea will be held in the College Union for parents, students, and faculty members. The tea is sponsored by Blue Key Honor Fraternity.

The College Union's annual "Carnival Night" program will be given as a special feature of "Parents Week-end" at 7:00 p.m. Saturday.

The schedule for Sunday includes worship services at the various Raleigh churches and a buffet luncheon in the College Union at 12:30.

PLAN 'PARENTS' WEEKEND' AT N. C. STATE—Key figures in sponsoring the annual "Parents' Week-end" to be held at North Carolina State College Friday through Sunday (April 12-14) are shown here looking at trophies to be given to groups participating in various events of the three-day observance. Seated, left to right: John Lomax, president of Golden Chain, sponsor of the event; Prof. A. C. Hayes, Golden Chain adviser; Paul Pickenheim, and James M. Nolan, student body president. Standing, left to right: Terry Lathrop, editor of the Technician; Charles W. YMCAs president; Ed Rose, William D. Wilkinson, president of the Engineers' Council; Jim Mathers, president of the College Union; and Rev. Roberts C. Lasator, director of the Baptist Student Union at the college.

ENGINEERS' FAIR EXHIBITS—Among the hundreds of exhibits which will be on display at the 25th annual Engineers' Fair at State College on Friday and Saturday are the V-8 and jet engines shown here. Looking over the two engines are Lewis Ballard of Mooresville (left), co-chairman of the fair; and Everett Billingsley of Hamlet, president, college chapter, American Society of Mechanical Engineers. All exhibits and demonstrations in the fair will be open to the public without charge. The exhibit halls will be open Friday from 1 until 9 p.m. and Saturday from 10 a.m. until 5 p.m. (Photo by Allan Robison.)

The Fair

The Engineers' Fair this weekend marks the display of the skill and knowledge of State College's largest school . . . that of Engineering.

The School of Engineering has come a very, very long way since State College opened its doors to students back in the latter part of the last century.

From a curriculum which was based primarily on Civil Engineering of a surveying and structural nature and the very rudiments of what is today mechanical engineering, it has become a diversified school specializing its graduates for everything from heating and air conditioning to nuclear theory and aircraft design.

It has taken a prominent place among the engineering schools in the country in supplying the engineers so desperately needed for modern technology.

It is equipped with facilities whose value run into millions of dollars and it has a large, highly trained and capable staff.

This weekend it puts on display the results of the united ingenuities and intelligences of its students and faculty in a display which promises to be more interesting, novel and educational than that of any previous fair.

We would like to congratulate Saint Patricks wards. They face a challenging future, and will bear much of the responsibility for the health, safety, and comfort of our nation.

We hope their fair will be an unrivaled success.

Just A Note

There certainly has been a drop in "letters to the editor". Looks like the "open forum" will be neglected again for a while.

And, for one more try, it was supposed to be 60% (per cent), sixty, you know, not 6009 or per cent!

The Wolf

After the campus elections last week some of my boys were talking down in the C. U. about the various campaigns. Specifically, they were distressed about the mud-slinging tactics used in one of the more important political races. It is bad to throw mud at someone, but just what is the major purpose of college life? In my humble opinion, it's to educate the individual, and a man can and must be educated in many ways before he may be considered learned. Campus politics serve an admirable purpose in that they prepare the student for just the type of thing that he will face when he is "out on his own." Politics, like business, is a vicious game, and even the little unimportant bit of mud-slinging we on campus saw last week has its place in society. Let's face it guys! Life is pretty rough all the way round.

my remarks about harmonic motion might be taken the wrong way. Being a wolf, I am not too bright, and so I don't know what they could mean by "wrong way." Hare is exactly what I meant: I like to watch the pretty girls dance! Period! Dat what de baw say. He lack de seum dance! Yowzzah!

Conversation on second floor Winston: "Those purple flowers on that tree are beautiful, y know?" "Yeh . . . makes me wanna g fishin' this afternoon, but I got that damn lab." "They sure are pretty flowers. Ya know, I was thinking the other day. You just can't have these colors an' stuff unless somebody put 'em there. I mean something's got to have made 'em." "I'll tell ya one thing. He didn't graduate from here, I bet. Let's get a coke."

Someone mentioned to me that

Letters To The Editor:

Letters to the Editor must be signed. If it is requested that the name be withheld for a good reason, the letter will be printed and the name withheld. Letters WILL NOT be printed unless they are signed.

To the Editor:

Would you please be kind enough to forward the following information to your readers in any manner or style you consider proper;

At the beginning of the current academic year (1956-57) we formed a WRITING CLUB here at State under the auspices of the Library Committee of the College Union. That is, a meeting place has been secured in the College Union Building where all interested in creative writing meet regularly. Under the guidance of a faculty advisor, we discuss and criticize our own works that range from plots and short stories to poems. Presently, our meetings are charmed by the presence of Professor Richard Walser of the State College English Department—the worthy North Carolina anthologist. We would be

proud to have some of the "hidden talent" of State to come to our meetings which are held in an informal manner — coffee served. Furthermore we are anxious to see that no "flower is born to blush unseen."

We have been considering the possibility of publishing a literary magazine wherein selected articles of the WRITING CLUB will be included from time to time. Be sure to come and help us—and yourself. Our next two meetings will be the first and fifteenth of May in Room 256 of the College Union.

Zafar Hassan
President
Writing Club

And Elsewhere

At the University of Oklahoma, Oklahoma Daily editor John Campbell printed the following letter from a reader:

Dear Editor:

From your editorials I gather that:

1. You're against compulsory ROTC.
2. You're against the draft.
3. You're against parking meters.
4. You're against campus police.
5. You're against closing the old golf course to spooners.
6. You're against bicycle riders.

What a complete hardhead you must be!

Replied the Editor:

Dear Sir:

From your letter I gather that:

1. You're in favor of coercive volunteering.
2. You like being drafted.
3. You're in favor of picking pockets already empty.
4. Your father is a cop.
5. You're against love.
6. You can't afford a car.

You're a hardhead. (All this sound rather familiar).

"Thinking Machine" Takes AIEE Prize for Leonard W. Cotton

Leonard Wayne Cotton, President of Syme Dormitory and a senior in Electrical Engineering, won first prize with his student paper at the American Institute of Electrical Engineers Student Paper Presentation Conference in Jackson, Mississippi, this week.

Cotton presented a paper entitled "The Link Circuit Computer", and accompanied his presentation with an example of the computer, a "thinking machine" that plays Tic-Tac-Toe against human opponents. The "thinking machine" was featured in the Electrical Engineering department's Engineer's Fair display last year.

Professor E. W. Winkler of State's E.E. department, presided over sessions of the meeting in Jackson.

Second place went to James Hugh of Duke for his paper "The Electronic Analog Computer for Educational Use" and third prize to Robert A. English of Georgia Tech for his paper, "Attenuation and Attenuation by Error in the 3cm. Band". Cotton's victory in the South-

ern States District of the AIEE entitles him to a trip to the international meeting in Montreal, Canada, this summer where he will compete against winners from other districts.

In the paper Cotton explained the history of computing machines and told how the Link Circuit Computer was developed.

"The industrial revolution freed man's muscles from physical drudgery," he wrote. "Computers are now freeing his mind from repetitive mechanical functions. As a result more time can be spent in creative thinking."

Cotton noted that an electronic brain has been taught to play checkers. Remington Rand's electronic brain, UNIVAC, recently ground out an alphabetical index to the Revised Standard Version of the Holy Bible.

"The last concordance to a protestant Bible was published in 1894," Cotton observed. "It had taken James Strong 30 years to index the King James Version. UNIVAC took 1,200 to 1,300 hours to make the new index."

Cotton said that although the

"Link Circuit Computer" is confined to simple games like tic-tac-toe, the computer's principles could be used to solve more intricate problems.

The machine is composed of such simple materials as plywood, nails, wire, bolts, soldering lugs, and a small motor and reduction gear set. It is about the size of a medium brief case and operates on 110-volt house current.

Cotton said he built the computer in four tries.

He admitted that the machine could be defeated when "man-made" errors were introduced into its circuits.

"But when the circuits are in a certain position it is impossible to best it," he said. "Hundreds of people have tried it and they have all failed."

He said that although the machine's game playing can be speeded up, it is now equipped with a slow speed motor for psychological reasons. It puts more pressure on a human player when he sees the computer "slowly and deliberately" choosing a move.

WEATHERMAN'S JEWELERS

Ed Gearhart asks:

What does Du Pont mean by "on-the-job" training?

Denton Harris answers:

Training is pretty much full-time at Du Pont, Ed. The main objective is to train men to reach their full capabilities as soon as possible. So we give the new man responsibility the day he arrives, and increase it as opportunities are available and he's ready for more responsibility.

That's the basic, guiding policy. But Du Pont has many departments. And training has many facets.

In some plants, the college graduate being trained for supervision is moved

through all areas of the production cycle. In others, where the technical phases are more involved, he may spend time in a laboratory or development group before moving on to production.

It works the same way in sales. The graduate may first learn the laboratory side of the products he's going to sell. Or he may start right out on learning selling techniques. That all depends on the products and markets involved.

The same on-the-job principle applies to new men in specialized fields of research, development or design... including daily contacts with supervision, frequent lectures, discussions and conferences. Periodic changes in assignment, too.

It's carefully planned, individualized training, Ed. We've found it's the most effective way to broaden a man quickly. Du Pont is a growing organization. And men with leadership potential are always in demand.

Denton B. Harris joined Du Pont's Engineering Research Laboratory in June, 1952, after completing work for an M.S. in civil engineering at the University of Massachusetts. He's currently working on an unusual project—a broad study of the philosophy of design. The objective is to learn more about people's design preferences, and the trends behind new concepts in industrial design. This new assignment came after Denton gained several years of experience in various kinds of civil engineering at Du Pont.

Are you interested in research work? About 2000 Du Pont scientists and some 3500 other employees are now engaged in research. Laboratory facilities of the highest quality are available at the Du Pont Experimental Station near Wilmington, and elsewhere throughout the country. Full information about research work at Du Pont is given in "Du Pont Research." Write for your copy of this free booklet to E. I. du Pont de Nemours & Co. (Inc.), 2507C Nemours Building, Wilmington, Delaware.

Caro. Cinder Squad Tops Pack's Varsity & Fresh. With Ease

North Carolina had little trouble with N. C. State in a dual track meet, featured by a special mile run here.

The Tar Heel varsity and freshman teams won handily 97-34, and 93 2-3 to 37 1-3 and Hungary's Lazlo Tobori ran a 4:06.6 mile to beat Carolina's Jim Beatty and Dave Scurlock.

Ward Sims, UNC freshman, was the outstanding individual of the day, winning the high hurdles and the broad jump and tying for first in the pole vault.

The only other double winner was Carolina's freshman Charlie Cotton, who won the discus and shot put, and Lydon DeBorde, who won both varsity hurdles events.

The summaries:

Mile run—1. Watley (C); 2. Kahn (C); 3. Gressa (S); time—4:25.0; 440-yard run—1. Matthews (S); 2. Sylvester (C); 3. MacFiddin (C); time—50.2; shotput—1. Kemper (C); 2. Jones (C); 3. Palandrani (S). Distance—44 feet, 9 1/2 inches; 100-yard dash—1. Varnum (C); 2. McMullen (C); 3. DeCantis (C); time, 10.3.
High jump—1. Phillips (S); 2. Bryant (C); 3. Lyons (C). Height—6 feet; high hurdles—1. DeBorde (C); 2. Miketa (S); 3. Sowers (C). Time—15.5; special mile run—1. Fabori (Hungary); 2. Beatty (C); 3. Scurlock (C). Time 4:06.6; javelin—1. Oakley (C); 2. Thorpe (S); 3. Payne (C). Distance—148 feet, 4 inches; 800-yard run—1. Kahn (C); 2. Williams (C); 3. Gressa (S). Time—1:50.0. Broad jump—1. Brawley (C); 2. Rosemond (C); 3. Millar (S). Distance—21 feet, 7 1/2 inches.
220-yard run—1. Moss (C); 2. Matthews (S); 3. Varnum (C). Time—22.1; discus—1. Roth (C); 2. Jones (C); 3. Palandrani (S). Distance 124 feet, 2 inches; two-mile run—1. Walker (S); 2. Watley (C); 3. Reeves (C). Time—10:00.3; low hurdles—1. DeBorde (C); 2. Lyons (C); 3. Miketa (S). Time—25.4; pole vault—1. Tie between Davis (C) and Allen (S); 3. Griffin (C). Height: 11 feet, 6 inches; mile relay—1. Won by Carolina (Moss, Sylvester, McFaddin, Scurlock). Time—3:24.

Pack Diamond Squad Leads ACC With 2-0 Record; Travel to Clemson & S. C. Tomorrow for Con. Battle

Conference	STANDINGS		All Games	
	W	L	W	L
N. C. State	2	0	2	1
Carolina	1	1	9	4
So. Carolina	3	2	4	4
Duke	2	2	8	4
Wake Forest	1	1	2	4
Virginia	1	2	2	3
Clemson	1	2	2	5
Maryland	0	3	2	5

State College's varsity diamond crew will be seeking its third straight Atlantic Coast Conference win tomorrow afternoon when they meet the Clemson-Tigers at Clemson, S. C.

The following afternoon, the Pack journeys to Columbia to tangle with the Gamecocks of the Univ. of S. Carolina in another ACC battle.

Coach Vic Sorrell's lads, who sport a perfect 2-0 conference record, will be out to strengthen their hold on the No. spot in the conference at the expenses of their friends to the South.

State holds impressive wins over Carolina 12-0, and Wake Forest 9-4, with their only loss thus far coming from a strong Delaware squad.

State will call on the hitting power of center fielder Dick Hunter, 1st sacker Eddie Wyant, and left fielder Don Hafer to lengthen their conference lead. Coach Vic Sorrell said today that he would probably call on pitchers Rodger Hagwood and Jim Walch to share the mound chores.

The Wolfpack will return home on April 18 when they meet Virginia in the first of four straight home contests.

Choose Westinghouse for a rewarding future

You are making a tough decision... "where shall I start my career... which company offers me the best future?"

Your whole career can be affected by your decision, so choose carefully. We sincerely believe you will make a wise decision in choosing Westinghouse, a company where big and exciting things are happening. Here you can work with men who are outstanding leaders in fields such as:

- ATOMIC POWER
- AUTOMATION
- JET-AGE METALS
- LARGE POWER EQUIPMENT
- RADAR
- SEMICONDUCTORS
- ELECTRONICS
- CHEMISTRY
- ... and dozens of others.

You will have an opportunity to work with a company that is having spectacular growth in many fields... giving your room to grow.

We help you apply your training to industry. You can pick a career in the industry of your choice... in the type of work you prefer, and in plants, sales offices and laboratories from the Atlantic to the Pacific. And, you can study for advanced degrees at Company expense. These are just a few of the many reasons why you should choose Westinghouse.

Possible design for homogeneous reactor vessel

highest possible degree of proficiency and providing you with the rights and benefits to which you are entitled.

"The interest in the election has been keen and widespread. However, the election is only the very beginning of the incoming government. We must all continue throughout the year to wholeheartedly support our student government. The officers you have elected are representatives, and accordingly are concerned with the promotion of student interests, both of the individual and of the group. Your active participation in the student government should be carried out through them. Be able to rightfully say that the student government is yours. Again, I am grateful for the assurance you have given me, and I will do my utmost to see that the student government serves each and every student completely and faithfully."

Other winners in general posts included Jim May over Bob Dawson for Junior Representative to the College Union

Board of Directors and Galen Chambers over James Barbot for Sophomore representative.

Rising Senior Bob Kennel lapped the field in election for the Senior post on the Athletic Council, winning over Bucky Waters and John Heinbockel.

Bob Seitz was an easy three-to-one victor over John Szuchan for the Alumni Athletic Award.

In class office elections, Jim Peden, Jr., defeated Guy Townsend for the Presidency of the Senior Class while Neil Birch downed Teddy Allen by a narrow margin for the Vice-Presidency of the Class. B. H. Barnette and Heywood Houtz eased into positions on the Judicial Board as representatives of the Senior Class, defeating Edgar Smith and Charles Hutchins by narrow margins.

Sammy Yow downed Mac Lupold for the Presidency of the Junior Class and Arron Capel defeated Craven Poole for the Vice-Presidency. Eddie Barringer had a close victory over Ralph Boswell for Treasurer of the Junior Class, and Larry Harris and Bob Beasley downed Bruce Hainley and Ray Mor-

The annual interfraternity sing of State College, sponsored by Pi Kappa Phi Fraternity, will be held in the main ballroom of the College Union Building Sunday at 3 p.m.

Final plans for the event were announced yesterday by M. H. Morton, Jr., of Albemarle, senior in architecture, who said the program is being given in conjunction with the annual "Parents' Weekend". The sing will be open to the public without charge.

Several fraternity musical groups, including glee clubs and quartets, will compete in the sing. The master of ceremonies will be Jimmy Capps, conductor of Radio Station WPTF's popular records show, "Our Best to You."

During the judging, a special musical program will be given by the Triple Trio of Meredith College and the North Carolina State College Glee Club.

Banks C. Talley, Jr., coordinator of student activities at State College, will present a plaque to the winning group.

gan for the Junior seats on the Judicial Board.

FAIR
(Continued from page 1)

and heating and air conditioning.

Visitors to the Fair will find students available to guide them through the engineering buildings where displays will be set up.

Co-Chairmen

Co-chairmen responsible for coordinating the exhibits will be L. F. Ballard, nuclear engineering junior from Mooresville; and Carl D. Parker, electrical engineering junior from Cordova.

Who rates what for performance and smoother riding in the low-priced three? Chevrolet has laid the answer and the proof on the line!

First, Chevrolet won the Auto Decathlon over every car in its field, and over the higher priced cars that were tested, too. This rugged ten-way test (right, below) showed Chevrolet was the champ in handling ease, braking, acceleration, passing ability, smooth-

ness of ride and other driving qualities you want in a car.

Then, Chevy won the Pure Oil Performance Trophy at Daytona (left, below) as "best performing U. S. automobile."

It's quite a feeling to know that you are driving a car that performs so well, responds so beautifully and is so finely built. You feel proud, of course. But you also enjoy a surer, smoother, steadier way of going, a keen

cat-quick response of power, and the easiest handling you've ever experienced behind a wheel. Just try this Chevrolet (V8 or Six) and see!

Chevy showed it's still the champ... at Daytona... and in the Decathlon!

ENTER CHEVROLET'S \$275,000 "LUCKY TRAVELER" CONTEST!

ROTC Cadets Visit Redstone

Officials of Redstone Arsenal, the U. S. Army's Guided Missile Base at Huntsville, Alabama, invited nine of North Carolina State College's top-ranking Army ROTC cadets to tour that installation during the period April 4-7.

General T. F. Hickey, Commanding General of the Third U. C. Army made one of the planes from his Headquarters available to fly the cadets to and from Redstone. During the tour the State students observed

a wide range of the research and development work on the Army's powerful guided missiles. They also visited the Army Ordnance Guided Missile School located at Huntsville.

Cadets who made this trip were all Distinguished Military Students. They were Paul G. Braxton, Siler City, N. C.; John W. Copeland, Durham, N. C.; Wilbur K. Greer, Old Fort, N. C.; August A. DeHertogh, Lemont, Ill.; Nathan J. Pond, Jr., Montclair, N. J.; Willie A. Mayo, Jr.,

Fayetteville, N. C.; John M. Lowe, Delmar, Delaware; James L. Lowe, Jr., Elkin, N. C.; and Charles S. Davis, Jr., Charlotte, N. C. These students were accompanied by Lt. Col. Joseph A. McCulloch and Colonel Richard R. Middlebrooks, PMST at State College.

January was cancelled because of bad weather before the students' departure by plane from Raleigh-Durham Airport.

Pershing Rifles Win In National Contest

The Pershing Rifle Society won fourth place in the intercollegiate fancy drill competition held as a part of the National Cherry Blossom Festival in Washington, D. C., last week.

The drill unit is commanded by Cadet Major Richard C. White of Danville, Va.

Other State College Army ROTC units participating in the Cherry Blossom Festival were the Drum and Bugle Corps, commanded by Cadet Major Ernest L. Ross of Cleveland, Tenn.; and the second platoon of Company "L", commanded by Claude W. Moss of Rural Hall.

Warner L. Wells Will Address Phi Kappa Phi Group Monday

Dr. Warner Lee Wells of the School of Medicine at the University of North Carolina, translator and editor of "Hiroshima Diary" and winner of the 1957 O. Max Gardner Award, will be the main speaker at the annual initiation dinner of the North Carolina State College Chapter of Phi Kappa Phi in the College Union Building Monday, April 15, at 6:30 p.m.

Top-ranking juniors and seniors and three faculty members of State College will be inducted into the membership of Phi Kappa Phi during the program.

Dr. R. C. Bullock of the college's Mathematics Department is the chapter president.

Phi Kappa Phi is a national scholastic honor society and has chapters at America's major technological institutions. It is equivalent to Phi Beta Kappa at liberal arts colleges.

Engineers' Fair Officers

Top officers of the 25th annual Engineers' Fair, which will be presented at North Carolina State College Friday and Saturday (April 12 and 13), are pictured above. Top row, left to right: Lewis Ballard of Mooresville and Carl D. Parker of Cordova, co-chairmen of the fair. Bottom row, left to right: Henry K. Hamilton of Greensboro, arrangements chairman; Hugh Carson of Danville, Va., publicity chairman; and Charles T. Andrews of Greensboro, program chairman. The two-day exposition will feature exhibits in all departments of the college's School of Engineering and will be open to the public free of charge.

ESSO RESEARCH works wonders with oil

Smoother, quieter flight

You're aloft, in a Viscount, but you'd scarcely know it. So free from vibration—you can balance a house of cards . . . and noise seems left behind. Such comfort and speed is made possible by new, jet-prop engines—engines that operate exclusively with a special synthetic lubricant developed by Esso Research. In these and hundreds of ways—ESSO RESEARCH works wonders with oil!

Deans Conclude State Meeting

Approximately 325 delegates representing colleges and universities from throughout the country attended the annual banquet meeting of the National Association of Student Personnel Administrators in the main ballroom of the North Carolina State College Union Building Tuesday at 6:30 o'clock.

The banquet program was a highlight of the association's 39th annual meeting, which opened at the Washington Duke Hotel in Durham Sunday and ended there Wednesday.

Dean Emeritus Scott H. Goodnight of the University of Wisconsin made the main banquet address at the State College meeting. The toastmaster was Dean Frank C. Baldwin of Cornell University, the association president. Dean Arno Nowotny of the University of Texas was the banquet chairman.

Dean Goodnight, the banquet speaker, was the host at the association's first meeting in 1919. He also served as the association's 10th president in 1928.

The delegates held two general sessions in Durham Tuesday before departing for State College at 4 p.m. They returned to Durham following the banquet session.

State College served as host institution for the national meeting. However, most of the sessions were held in Durham, because the General Assembly is meeting here and hotel space is at a premium.

Dean of Students Edward L. Cloyd of State College was the host dean at this year's meeting. Dean Cloyd was the association's president in 1948.

WHAT'S NEW
WITH THE
C. U.

By Harvey Horowitz
This week's presentation is
Weekend Movie.

"Here Comes Mr. Jordan," starring Robert Montgomery, Claude Rains, Evelyn Keyes, James Gleason, and Edward Horton. One of the great comedies of all time. Due to Carnival Night, there will be no showing on Saturday, but the film will be shown on Sunday as usual. Carnival Night Dance.

The College Union Dance Committee will sponsor an informal dance Friday at 8:00 p.m. in the C.U. Ballroom. Coats and ties will be required for men. This dance is the kick-off for the annual Carnival Night, and candidates for Carnival Queen will be presented during the intermission. Music will be furnished by Jim Crisp and his quintet. Girls from Averett College, Louisburg College and all local schools will be here for

Design School Award Named

Recipients of the 1957 design prizes offered by the North Carolina Brick and Tile Service, Inc., of Greensboro were announced today by Dean Henry L. Kamphoefner, head of North Carolina State College's School of Design.

Third year design students in the classes of Professors J. E.

Adams and Stephan Buzas entered the competition which was centered on the problem of designing a non-denominational Chapel for North Carolina State College.

Winners and their awards were: Joe Hoskins of Fayetteville, first, \$75; Donald Chandler of Durham, second, \$50; Warren Vaughan of Richmond, Va., third, \$25; John Bankett of Salisbury, fourth, \$12.50; and David Hall of New York City, fifth, \$12.50.

Dean Kamphoefner said one of the main purposes of the contest was to stimulate design in a material indigenous of the region. As North Carolina produces about 10 per cent of all the brick made in the nation, the use of this material helps design students develop a feeling for materials available in the area, he added.

the dance.
Picnic

The Outing Committee has canceled its picnic with W. C. because of their spring vacation. Instead, college girls from Raleigh have been asked to join in on a picnic to Neuse River Beach on Sunday, April 14. The outing will leave from the Union at 1:00 p.m. Bring your date or wife or come stag. Sign up at the C.U. Main Desk by Friday at noon.

"What I probably like most about this job," says Tom, "is that you're never tied down to one desk and the same routine. There's always a new problem . . . a new approach needed . . . new people to meet and work with."

But first, what does a Systems Analyst do? "Briefly, we study a customer's present system—payroll, inventory control, billing or whatever—and convert it to a mechanized system using either conventional IBM business machines or IBM's high-speed electronic computers."

Tom works out of the IBM Baltimore Office with some of America's

Studying customer's present system

biggest companies as his customers. Graduated from Johns Hopkins in August, '55, with a B.S.I.E., he came immediately to IBM. During his training period, Tom studied IBM's Punched Card and Electronic Data Processing Machines. He learned their uses, their applications, and was instructed in the theories and methods of data processing.

Diversified Assignments

A leading aircraft company was Tom's first major assignment. "My job there," he explains, "was to analyze the application of IBM's latest electronic computer—the 70: to regulate the flow of materials and machines used to fill Government contracts."

Then came a short, but highly satisfying assignment. At the Bellwood Quartermaster Corps, Tom set up a "SOAP" system (System for Optimum Automatic Programming) de-

"What's It Like to be A SYSTEMS ANALYST AT IBM?"

Two years ago, college senior Thomas Wheeler asked himself this question. Today, a Systems Analyst in IBM's Data Processing Division, Tom reviews his experience and gives some pointers that may be helpful to you in taking the first, most important step in your business career.

defined by Tom as "converting the flow of instructions and information into the most efficient operation for an IBM magnetic drum computer. Bellwood," Tom points out, "is the Inventory Control Center for all

A problem in inventory control

Quartermaster centers in the country. The new system will achieve balanced supply and demand of material throughout the entire U. S.—will save money for the Government—and relieve many men from the drudgery of details."

For the past six months, Tom has been working with the Statistical Services Division of Headquarters Air Research & Development Com-

Explaining IBM's 705 electronic computer

mand. "We are designing and implementing a system to link eleven reporting centers to Headquarters by wire transmission," Tom reports. "Data transmitted to Headquarters by this system will be coordinated and then processed by an IBM 650 electronic computer."

Why Tom chose IBM

How does a senior like Tom, who was interviewed by at least twenty companies while in college, select his future employer? "In my case," Tom says, "the choice was easy. IBM offered the best opportunities. I knew IBM sales were about doubling every five years—and when I considered the tremendous growth potential of the electronic computer field—I had no trouble making up my mind.

"Besides, I was impressed by the caliber of IBM personnel. They had a broader outlook and an approach to

At the control panel of IBM's 650

business which I can best describe as professional.

"My future? It looks good—very good. I've already received two generous raises in less than two years, and at the rate IBM and the electronic computer field are expanding, my future is both assured—and rewarding!"

IBM hopes this message will help to give you some idea of what it's like to be a Systems Analyst in the Data Processing Division. There are equal opportunities for E.E.'s, I.E.'s, M.E.'s, physicists, mathematicians, Liberal Arts majors, and Business Administration graduates in IBM's many divisions—Research, Product Development, Manufacturing Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of College Relations, P. H. Bradley, will be happy to answer your questions. Just write him at IBM, Room 11904, 590 Madison Ave., New York 22, N. Y.

Initiates Twelve

Initiation was held last night by Sigma Tau Sigma, State's textile honor fraternity. Twelve juniors from the School of Textiles were taken into the fraternity.

The new initiates were: Lester A. Carpenter from Rockingham, N. C.; J. David Barnhardt of Charlotte, N. C.; Stanley B. Berman, Englewood, N. J.; Ifkhar Afzal, Karachi, Pakistan; Harris L. Johnson, Asheboro, N. C.; Sanford L. Levine, Brooklyn, N. Y.; Jimmy L. Poteat, Yanceyville, N. C.; Donald M. Reiter, Queens, N. Y.; John E. Thomas, Jr., Raleigh, N. C.; Harold A. Wagner, Coolemece, N. C.; Olin E. Wilson, Raleigh, N. C.; and J. C. Yancey, Newton, N. C.

Sigma Tau Sigma, as the textile honor fraternity, strives to instill in textile students a desire for higher scholastic attainments. Members taken in during their junior year must have a 3.0 (B) average or better.

Sigma Tau Sigma also presents a Scholarship Cup each year to the Senior in textiles with the highest scholastic average.

Fun For Everyone At Carnival Night

'Around the World' Planned for Union

"Around the World in Eighty Minutes" will be presented by the Raleigh International Club on Tuesday, April 16, at 8 p.m. in the College Union Ballroom. The program is sponsored by the C. U. Forum Committee and is open to all students.

Program

Representatives of Egypt, Holland, Panama, Pakistan, India, Japan and other countries will put on a program of dance, music and other cultural pursuits representative of their homelands. The dances will be particularly colorful, featuring native costuming.

The event will be followed by a coffee hour.

The annual College Union Carnival Night to be held Saturday, beginning at 1 o'clock in the afternoon and running through the evening, is shaping up to be the biggest yet. Over 18 campus organizations are planning to enter booths to make money for their treasuries.

Featured this year at the carnival for the first time will be a "Dime-a-Dance" sponsored by Averett College girls. Also new this year are a booth by Sigma Nu Fraternity to guess where the mouse will go, called "Mickey Finds a Hole," the cry "Ring the Girls' Legs," from the Demolay booth, and many others.

The Arnold Air Society is taking over the theater this year for a hilarious minstrel entitled "Rastus and His Cousins."

In addition, many of the old favorites will be back from last year, including the States Mates Cake Walk, the Theta Tau Pen-

ny Toss and the Tucker Dorr Target Shoot.

The Raleigh merchants have been generous in donating door prizes that will be given at frequent intervals throughout the evening. These include cap ties, shirts, pipes, tobacco and theater, bowling and golf passes.

A reciprocating trophy will be awarded to the organization sponsoring the carnival queen and trophies will be awarded to the most profitable booth, the best decorated booth and the most original booth idea.

Carnival Night is featured a part of the Parent's Weekend program. The Carnival is sponsored by the College Union Social Committee and headed this year by Bill Barksdale. Members of the committee in charge of the program include Clarence Rowell, James Barbot, George Colton, Beverly Little, Thurma Slone and Ralph Hart.

Civil Engineering students Bob Moore and Bill Watson prepare a model of a highway interchange for display during the annual Engineers' Fair beginning tomorrow in all departments of the School of Engineering. Photo by Barbot

Schedule for Parent's Weekend

Friday, April 12

- 7:00 Opening of Carnival Night at College Union
- 8:00-12:00 Carnival Night Dance at College Union

Saturday, April 13

- 9:00-2:00 Registration for Parents at College Union
- 9:00-5:00 Engineers' Fair
- 1:00 Welcome to the Parents by Chancellor Carey H. Bostian at Textile Auditorium
- 2:00 Campus Tours
- 4:00-5:00 Parent's Tea sponsored by Blue Key Honor Fraternity at the College Union
- 7:00-11:00 Carnival Night

Sunday, April 14

- 11:00 Church services at Raleigh churches
- 12:30-2:00 Buffet Lunch at College Union
- 3:00 Interfraternity Council Sing sponsored by Pi Kappa Phi Fraternity at College Union

COVERING CAMPUS

(Continued from page 1)

Graduate Students

A copy of the constitution of Graduate Student Association may be picked up at Graduate School office. Vote for or against acceptance of this constitution on Apr. 10, College Union.

Lutherans

All Lutheran Students and dates are invited to attend a joint picnic with Lutheran Students Associations from Duke and W. C. on Sun., April 7. Everyone interested meet at Holy Trinity Lutheran Church, 2:30 p.m., for transportation to Umstead State Park. There will be no charge.

Room Reservations

Fall semester dormitory room reservation period ends Sat., Apr. 13. Rooms not reserved will be reassigned to other students beginning Mon., April 15.

Kick-off Dance

The Carnival Night kick-off dance has added a special attraction to its intermission. Besides the presentation of the candidates for queen, Dr. Fredrick Smith will direct the Rex Hospital Nurses' Glee Club in a 15 minute program of contemporary music.

WHAT'S A SOUTHWESTERN WHO NEVER HAS A MATCH? (SEE PARAGRAPH BELOW)

THIS HOMBRE lives in a Dallas palace. He's got oceans of oil, carloads of cattle—and plenty of Luckies, too. But if he's always begging for a match at light-up time, this affable gent becomes a Vexin' Texan! Give him credit for knowing his brands, though: a Lucky tastes like a million bucks—two million, in Texas! That's because a Lucky is all cigarette . . . nothing but fine, mild, good-tasting tobacco that's TOASTED to taste even better. Try a Lucky right now. Reckon you'll say it's the best-tasting cigarette you ever smoked!

STUCK FOR DOGS? START STICKS! MAKE \$2

Luckies Taste Better

"IT'S TOASTED" TO TASTE BETTER . . . CLEANER, FRESHER, SMOOTHER!

We'll pay \$25 for every Sticker—and for hundreds more never get used! So start Stickers now! So easy you can think in seconds! Stickers are simple with two-word rhyming answers. Words must have the same number of syllables. (Don't do drawing!) 'em all with your name, college and class to Happy Joe, Box 67A, Mount Vernon, N.Y.
