

Campus Eyesore And Its Neighbor

Another view of the campus "eyesore" pictured in last Thursday's Technician is shown here. On one side of the building can be seen a similarly unattractive sawmill. See page 2 for a Letter to the Editor on the "eyesore".

During Flu Epidemic

Administration Requests Work Load Reduction For Students

by Roy Lathrop

Many students have asked what the administration and faculty at State are doing to relieve the student's academic burden if he has been sick with the flu and has missed many of his classes as a result. Recent information received by the Technician will answer some of these questions.

First, the college has gone to an extra expense in providing additional facilities for flu

patients. Last week alone cost the college \$2,000 for extra nurses. And the use of the Mayview Rest Home cost the college \$7.50 per person per day, or, when full, the bill was \$400 per day. These expenses are being met by the college—though no funds are available for this type of emergency—at no extra charge to the students.

Missing Classes

Secondly, the problem of getting behind in studies has been

partially met by the Administration. Following are excerpts from a memorandum sent to all Department Heads by John W. Shirley, Dean of the Faculty:

"One of the most distressing features of the wide-spread illness among our students is the mental anguish and fear which missing classes is causing. Undoubtedly, the fear of getting behind in their work is keeping many students going to classes when their own health should take them to the infirmary. Other students in the infirmary are upset over missing classes and quizzes to the extent that they are not able to relax and recover as they should. There is much danger that some of the students who have gone home to recover will feel that they cannot return and make up the work they have missed.

"Under the circumstances, it would be only humane to slacken the tempo academically at this time, and to be more liberal than usual in permitting the students to have time to make up their work. It might

justments in tempo and rigor of work which will not work too great an injustice on either the teacher or the student."

Coaching Classes

The preceding memorandum was issued on October 25, and several departments have already set up coaching classes. The math department has set up special meetings for those students presently failing mathematics 101, the first one to be held on Thursday, November 7, at 12:00 noon in 242 Riddick.

In addition, the Administrative Council has ruled that students who have missed a considerable number of classes due to illness may apply to drop a course in order to help them catch up with their work in other subjects. A drop of this kind can be effected if approved by your advisor and Dean or Director of Instruction for your school.

It is felt that the epidemic has passed its peak; only 31 patients are in the infirmary at this time. However, doctors warn that many cases will continue to occur through January and February, and that many more students besides those in the infirmary have gone home to recover.

Jazz Concert Follows Saturday's Game

As a part of the home coming festivities for next weekend, Kai Winding and his septet will introduce the State College Campus to the "Trombone Sound" at an "after-the-game" jazz concert beginning at 4:30 in the College Union Ballroom Saturday.

At one time featuring no less than eight trombones, the group is now one with four trombones and three rhythm; and when the boys put down the trombones and come up with four tromboniums, the music begins to flow.

Now recording for Columbia Records, Kai Winding is being sponsored by the College Union Music Committee, Bill Barksdale of Raleigh, chairman, and the event will be open to the public without charge.

Covering Campus . . .

Homecoming Game Tickets

Students may pick up their ticket and one date ticket (\$1.00) at the Coliseum Box Office between the hours of 8:30 a.m. and 4:30 p.m. through Thursday upon presentation of ID cards.

(Continued on page 4)

Stamm To Speak

Dr. Alfred J. Stamm, subject matter specialist of the U. S. Forest Products Laboratory, Madison, Wis., will deliver a public lecture in the auditorium of the Riddick Engineering Laboratories Building tonight (Monday) at 8 o'clock.

Student Opinion Sought

Flu Vs. Lessons

In an attempt to poll student opinion, we invite all students to check one of the boxes below.

During the period when flu cases were at their height—the past 10 days to 2 weeks—my professors, in view of the Chancellor's suggestion and in view of the number of students suffering from the flu:

- Lightened up considerably on the work load in their classes.
- Lightened up somewhat on the tests, homework, etc.
- Continued to cover material and make assignments as if there were no flu problem at all.

Please tear out the above and mail to THE TECHNICIAN, BOX 5698, College Station, Raleigh, N. C.

Homecoming Parade Features Forty Units

State College will observe its annual Homecoming program Saturday, November 9, sponsors have announced.

Highlights of the program will include a football game between the College of William and Mary and N. C. State in Riddick Stadium at 1:30 p.m.; a parade through downtown Raleigh and to the college campus starting at 10 a.m.; the selection of a Homecoming queen; and the annual Homecoming dance in the College Union from 8 p.m. until midnight.

Music for the Homecoming

Dance will be furnished by the Lamplighters, rather than the Duke Ambassadors as reported in last Thursday's Technician. Headed by Jess Barbour, the Lamplighters are all State students and are fourteen pieces strong.

The Order of 30 and 3, headed by Bill Kay of Red Springs, and Blue Key, headed by Rudy Johnstone of Spartanburg, S. C., will sponsor the parade and queen contest, respectively. The Monogram Club, headed by Jim Walsh of Claymont, Del., will sponsor the dance.

Awards will be presented to the winning floats in the parade by the Raleigh Merchants Bureau.

Forty Unit Parade

Approximately 40 units will comprise the big parade, which will begin moving from Raleigh's Memorial Auditorium Saturday at 10 a.m. The parade will proceed down Fayetteville Street to the State Capitol to Hillsboro Street, and down Hillsboro Street to Memorial Tower on the State College campus.

Dormitories, fraternities, and other student organizations will enter floats in the parade. The first and second place winners in each category will receive trophies and plaques, respectively.

Marching in the parade will be the State College Band, the college's Drum and Bugle Corps, the Pershing Rifle Society, and the Marching Airmen.

Six high school bands also will take part in the parade. They are the Cary, Elizabeth City, Fuquay Springs, Goldsboro, Raleigh, and Roanoke Rapids High School Bands.

During the halftime ceremonies at the game, the Homecoming queen will be introduced, and awards will be presented to the organizations having the winning floats in the parade.

"Open House" will be observed in the new Alumni Memorial Building from 9 a.m. until 1 p.m. and from 4 to 6 p.m.

Notice

Thursday's issue of The Technician will be edited by Billy Evans, Managing Editor.

All notices and material for the Thursday paper should be given Evans by the regular deadline, 8:00 Tuesday night. He may be reached at TE-29132 or at The Technician.

Dance Honors Football Team

State College's football team were guests at the Salute to Football dance held Saturday night in the College Union Ballroom. Shown above is a couple enjoying the music.

Freshmen to Attend Political Rally Friday

A political rally, sponsored by the Student Government Elections Committee in cooperation with the Freshman Orientation Committee, will be held November 7, 1957 at 6:45 p.m. through 7:45 p.m.

The meeting will take place in the coliseum and attendance of all freshmen is mandatory.

A program, consisting of freshman presidential candidates, stump speeches, introduction of all other candidates, and an explanation of the voting system, will follow. The TECHNICIAN will print a list of these individuals in the near future.

Campaign Rules For Freshmen

1. No election campaign may exceed twenty-five dollars (\$25.00)
2. No candidate may campaign in such a way as to disturb classes
3. Notices must not be tacked, nailed or taped up to structures, posts, or trees. Only string may be used in posting campaign material.
4. No campaigning will take place within fifty feet of the polls.
5. A candidate is held responsible for the action of his supporters.
6. Each candidate must remove his posters within twenty-four hours after the final election.
7. There will be no run-off elections. High man wins.
8. Each candidate must submit to the Chairman of the Elections Committee an itemized list of all campaign expenditures within twenty-four (24) hours after the election. You may leave this statement in Dean Talley's office, 206 Holladay Hall.

EDITORIAL COMMENT

Instructors' Cooperation

On the front page of this issue we have printed a questionnaire which we ask all students to fill in and return to **The Technician**.

We plan to tabulate the results and present them next week. Your cooperation is asked in what should prove to be a very interesting student opinion poll.

The purpose of the poll is simply to determine if any change has been noticed in the amount of assigned work, tests, or material covered. The poll is not being conducted to collect gripes about individual instructors. Answers to the questions should be considered with all your instructors in mind.

Many students may not have heard of the Chancellor's suggestion to reduce the work load. If you are one of these students, then perhaps you can judge with a less biased opinion as to whether or not the work load has been reduced, since students who knew of the request may have been expecting a larger reduction (if there was any reduction) than the instructors made.

The poll will be more effective if as many students answer the poll as read **The Technician**. It's usefulness may seem obscure now, but in the event of future epidemics as serious as the one recently experienced, and whose effects are still being felt on the campus, the poll now being taken may serve as a guide in future action along the same line.

—WEF

Freshman Candidates

Stories concerning freshman candidates for class offices will appear beginning in Thursday's **Technician**. Freshmen contributing articles either on themselves or other freshmen who are running for offices are asked to contribute their articles in the form of statements with important biographical material included whenever possible. Statements are preferred over the "letter to all freshmen" type of article.

Freshmen are also reminded that they should be certain to state in their articles what office they are running for. Stories leaving out this information will not be printed.

The Technician reserves the right to reject any material submitted due to unsuitability of material or space limitations in a particular issue.

ROY LATHROP

Powers That Be

A story on page 1 of this issue quotes from a memo to the faculty from their Dean, saying in effect that professors should let up on work awhile and help us catch up. The memo is quite clear enough for anyone to understand, but it is evident that there is an almost infinite distance between the desk of the Dean and the desks of the faculty. The distance is so great that in many cases the message just didn't get through.

There are a few cases of honest effort by the Department Heads and faculty to help us.

But there is a huge number of faculty that haven't even heard of the request, and very few of those that have heard have done anything significant about it.

What does it take to convince the faculty that we really are desperately in need of assistance, that we cannot hope to keep up with our regular work after missing perhaps a week of classes?

But it takes a dramatic situation such as this to remind us that frequently one would have a hard time finding any real

Letters To The Editor :

Students Explain Use of "Eyesore"

To the Editor:

Perhaps you do not realize that the 'campus eyesore' you pictured in the Oct. 31 edition of **The Technician** is a laboratory in which many thousands of dollars worth of equipment are housed for student training and research in forestry.

unified cooperation between the three major groups at State—administration, faculty, and students. The big power here is not the administration as far as the student is concerned but rather it is the faculty which determines our academic success in greater degree.

Dean Shirley expressed a great desire to help us and show everybody that the student is of primary importance at an educational institution. Unfortunately, the Dean of Faculty does not have the power to enforce the administration's policies and ideas—in most important cases, all he can do is "suggest", and the faculty acts according to their own whims. Guess who stands an even chance of losing in this little, unbelievable game.

I guess you propose also to tear down the two saw mills

Completely outclassing a never-say-die Demon Deacon squad from Wake Forest, the tough N. C. State Wolfpack got their fifth win and their seventh contest without a defeat thus far this season as they downed the Deacs, 19-0, before 10,000 faithful State followers here last Saturday.

After the Pack had won their first four games of the year, they were tied on successive weekends by Miami and Duke before they got the chance to show their stuff by toppling the Deacons.

For the seventh straight time, Captain Dick Hunter, pint-sized left halfback, correct-

ly called the pre-game coin toss so that the Pack would receive, and for all State fans in the know nothing remained but the score.

Wake Forest, by not being able to strike paydirt, became the fourth victim to be shut out by State this season. Other teams unable to penetrate the rugged defense of the West Raleigh boys to a point of scoring were the Tarheels of North Carolina, Florida State, and the Miami Hurricanes.

As usual, State's defense played exceptionally well by allowing Wake only 132 yards on the ground and 33 through the air. State's punting was nothing to be sneered at either as they punted six times for an average of 52.5, which is phenomenal for a college or professional team.

All of State's scoring came in

the last three quarters of the game with one touchdown being scored in each period. The honors were done by three halfbacks while a guard kicked the only extra point.

State's first scoring drive began late in the first quarter. After Wake back, Jim Dalrymple, kicked to the Deacon 46, the Pack second string backfield carried the ball to the 32 with HB Ken Trowbridge and FB Wally Prince doing the work.

At this time, State's first unit re-entered the play and all-America candidate, halfback Dick Christy, took the ball three successive plays to the Wake Forest nine. After three plays had netted only six yards, the

Coach Smaltz Impressed As Wolflets Terminate Fine Season

The Wolflets ended a fine season with Wake Forest at High Point College Friday only to meet defeat 20-7. This game with the Baby Deacons marked the second annual game sponsored by the High Point Optimist Club.

Coach Bill Smaltz, on the bus after the Wake Forest encounter, assured his boys that it was a good season and reminded them of the future.

The first game of the freshman gridironers with the V.P.I. Baby Gobblers, considered their roughest game of the season, initiated their win column and brought recognition to this fine group. It was a tough game with the Wolflets pulling it out of

the bag with a final period tally to take a 19-13 victory.

In the highlight of the season and a Shrine Bowl sponsored game, the Wolflets took on their arch rivals of Carolina handing them a 33-19 loss. This was followed by a win over Virginia 20-7 in a second half comeback and a victory over Duke 34-13, but in their third venture from home, catering to injuries and the flu the Wolflet eleven met with their first defeat.

This loss, however, did not mar the fine record of the team who gained the slogan, "the finest freshman team N. C. State ever had."

Standouts of the season for the freshman were many, however, Jim D'Antonio, Claude Gibson, and Bob Wolfer sparked the Wolflet scoring attack.

Elvis is still singing JAILHOUSE ROCK at the VILLAGE and since the movie opened several days ago, the tune has become number one in the Raleigh music polls. The late Judy Tyler, formerly the princess on "Howdy Doodie", does very well in this film according to critics.

Wake

BEAST OF PARADISE ISLE and CREATURES OF THE JUNGLE are being screened at the WAKE. The double feature science-fictions are grade-B type pictures. They are the type that are made quickly and cheaply, but directed towards small kids. Perhaps, you feel like a kid and will want to see them.

GAME

(Continued from page 3)

Pack pulled what was perhaps the slickest play of the afternoon.

On fourth down QB Tom Katich lined the team up in what looked like a field goal formation. Katich faked the kick and

Hunter, who was holding the ball, picked it up and slipped around the Wake Forest left end for the tally before the awestruck Deacon forces could gather their wits. The point-after-touchdown try by Hunter was broken up by Wake Forest guard Bruce Smathers.

After the halftime ceremonies were over, State roared back to make two insurance tallies. After a punt exchange, the Deacons found themselves in a kicking situation again. This they did, but the Pack's left HB Hunter could not hold onto the ball after calling for the fair catch, and a Wake man pounced on it.

On the first play from scrimmage, Deacon HB Pete Barham fumbled and State tackle Darrell Dess got the skin on the Wake 21. On five plays State had driven to the three and from there, Pony Twin Christy bulldozed over for the score. Hunter's try for the PAT was wide, and the score remained, 12-0.

The last tally for the Pack came in the fourth period against a tiring Wake defense. State got the ball on their own 47, and, led by reserves, they drove all the way. The climax of the series was a 16 yard scoring run by Ron Podwika. Guard John Lawrence made good the extra point try, which made the score 19-0.

The only dull spot of the afternoon for State was that they

attempted eight passes and were unable to complete one. The closest miss of the day was in the first quarter when End Don Miketa could not hold onto one of Katich's throws.

Next weekend the Pack will meet the Indians of William and Mary in a Homecoming Day game, while the Deacs will again try to break into the win column when they entertain VPI in a non-ACC tilt.

"I'm in a business
nobody dreamed of
three years ago"

"In a company that develops new ideas by the thousands," says 30-year-old William K. Cordier, manager of General Electric's Man-Made Diamond pilot plant, "a young man's career progress need not be limited by his particular field. In my five years with General Electric, I've gained valuable experience in several different fields, and each assignment has helped me to move ahead. Right now, I have an exciting job. I run the world's first diamond-making plant — a business nobody dreamed of three years ago."

Diamond Making a Reality

The job Bill Cordier holds is an important one, created because General Electric has the scientific and technical resources needed to seek out new knowledge and swiftly translate it into products that people want and need. In 1955, the company announced a major scientific breakthrough — the production of real diamonds in the laboratory. Today, little more than two years later, General Electric is making and selling quantities of these diamonds for civilian and defense use.

Achieving Three-Way Progress

General Electric's ability to take on and solve big problems — in research and development as well as every phase of production — is constantly creating challenging new opportunities for the 29,000 college graduates at the company. As we see it, by providing a healthy climate for a young man's self-development in whatever area he may choose, we encourage not only his own progress, but that of the company and the nation as well.

Educational Relations, General Electric
Company, Schenectady 5, New York

WILLIAM K. CORDIER received his B.S. in Mechanical Engineering from Purdue University (1949). He joined General Electric's Metallurgical Products Department in 1952.

Progress Is Our Most Important Product

GENERAL  ELECTRIC
