## Building Of The Future?

Shown above is a Geodesic Dome (It looks like a Volkswagen garage to us.) which is on display in the lobby of the College Union. The frame of the dome is made of magnesium and the membrane is made of coated nylon. (Photo by Kjosnes)

## St. Patrick's Bids Ready

Bids for the St. Patrick's Dance which is being sponsored by the Engineers' Council this Saturday evening are now available, announced dance chairman E. J. Poindexter, civil engineering senior and Council vice-president.

"The bids are free," pointed out Poindexter, "and we urge every engineering student to pick up his bids at his engineering department office." The Southerners of Wake Forest will provide music for the dance which will be held in Reynolds Coliseum from 8 to 12 p.m.

During intermission, the

"Outstanding Senior in Engineering" will be announced by Dr. J. Harold Lampe, dean of the School of Engineering.

### Outstanding Seniors

In addition outstanding seniors will be knighted by the Order of St. Patrick, and outstanding freshmen will be named Companions of St. Patrick.

Other chairmen for the spring event are Bob Vogler, invitations; Bill Farmer, decorations; Harvey Lanier and Frank Madren, floor arrangements; John Clark, refreshments; Bob Liguori, entertainment; Lawrence Gurley, banquet; and Jim Ferrell, publicity.

## From AEC

# State Receives Equipment Grant

Setting a new trend in engineering education, the U. S. Atomic Energy Commission Friday announced the awarding of a \$122,800 grant to State College for the procurement of training equipment for the college's expanding nuclear program.

State College had submitted a proposal for the new work to the AEC. Earlier this spring, the AEC awarded N. C. State a grant of \$80,000 for use on the design and construction of its enlarged nuclear reactor, now being planned. The total received this year from the AEC for nuclear facilities at the college amounts to \$202,800.

The grant will go to three departments serving the nuclear training program of State College. They are the Electrical Engineering Department, Mineral Industries Department, and the Physics Department.

Several pieces of valuable equipment as well as highly technical laboratory facilities will be purchased with funds from the grant.

### New Equipment

The Physics Department will buy a one-million volt Van de Graaff generator to be used in its reactor and physics laboratories. It will also purchase equipment for teaching programs in reactor instrumentation and control.

Dr. George B. Hoadley said among the new facilities purchased by the Electrical Engineering Department, under terms of the grant, will be electronic computing equipment for the study of reactor control and response and measuring and sensing equipment for use in the study of nuclear particles released in the process of nuclear fission.

He also said the grant will be used to buy equipment to simulate a reactor so that students can experiment with atomic energy and have the possibility of making mistakes in their manipulations without serious physical damage which would result from work with actual reactors — if these reactors did not have safety controls.

# 300 Unit Housing Project Plans Now Being Pushed

As a result of the recent decision by the Board of Higher Education to limit the number of married housing units to be built at State to 300, rather than the originally proposed 500 units, the college administration is making plans to

construct the 300 units as soon as possible.

Though the plans and costs are still in the formulative stage, it has been estimated that the 300 units will cost approximately \$2,129,000 to build, equip, and furnish.

Being planned for the 300 units are 120 efficiency units, 150 one-bedroom units, and 30 two-bedroom units. The number of children of married students now attending State was used as a basis of the above apportionment between efficiency, one-, and two-bedroom units.

### Expected Rentals

Estimates also have been given on the expected rentals of the new housing units. The efficiency apartments will probably rent for \$40 to \$50 per month; the one-bedroom units, \$60-70; and the two bedroom

units, \$80-85. The rentals have been based on an average construction cost (also estimated) of \$12 per square foot.

When asked when construction would begin on the new housing, Dean of Students J. J. Stewart said an optimistic figure would be next fall.

Stewart also said that it is hoped that some built-in furniture will be in the new apartments. It is hoped that all the units will have stoves and refrigerators furnished and that the efficiency units will have fold-away beds furnished.

## Survey Show Students Prefer Free Telephones

In a recent letter to The Technician, N. B. Watts gave a report of a recent telephone survey.

Watts, Director of Student Housing, said that he has been asked many times if his office could set up toll-free telephones in each dormitory room. Several out-of-state colleges have such a system now, and the cost to the individual student at these colleges is \$10.00 per semester.

### Survey

The dormitory managers were asked recently to make a survey of the dormitory occupants to determine how they felt about paying \$10.00 per semester for a toll-free telephone in each room. 71.6% of the occupants of all dormitories were contacted; 23.9% favored the system, but many of these were seniors who would not benefit directly from this system. However, 76.1% were not in favor of the idea.

Dean Watts had this to say: "As I have pointed out before, only the students who make more than 100 calls per semester would save money, for he can make this number of calls on a pay phone for \$10.00. The pay telephones provide all occupants with free incoming calls. As objectionable as pay telephones are to some students, this system costs only those students who want to use it for outgoing calls."

(This paper will carry a further discussion of this problem in Thursday's issue, in the weekly column IQGAD.)

## Traffic Flow Changed On University Drive

The erection of the traffic light at the intersection of Dunn and Pullen Roads (Bagwell Dorm Corner) has often caused cars to block the street just north of the railroad bridge. This is the only exit for cars on University Drive and the street from the Fieldhouse of Pullen Road.

The administration has approved the recommendation of the College Traffic Committee to reverse the direction of the traffic flow on University Drive (street in front of Syme Dormitory and YMCA) to solve this problem.

In the next day or so, the traffic flow on the street in front of Syme Dormitory and the YMCA Building will be changed to permit movement only northward.

# Administration Takes No Action On Debts

No action has yet been taken by the administration on the \$26,000 debt of the Wolfpack Club or the \$5,000 debt of the Athletic Department. Both organizations are in debt to the College Print Shop by the amounts stated above.

Last week the Publications Board asked that "appropriate action to be taken by the administration to amortize the debts." In addition, *The Technician* carried a lengthy editorial asking for action, and pointing out that the large sums of money owed the Print Shop are for work done as far back as 1949.

Under the agreement by which the Board of Trustees set the Print Shop up, the Publications Board, the Alumni Association, and the Wolfpack Club are to share equally in any dividends distributed by the Print Shop. No dividends have yet been distributed, however, as the Print Shop has been paying back the money which was lent to it

five years ago by the Escheates Fund to buy the Print Shop Building.

## Cafeteria Offers A Better Special

College Cafeteria Manager A. G. Sutherland, Jr., announced last week that the Cafeteria is beginning a new "special" this week.

The price of the new special will be the same as previously—\$50.

Beginning today, included in the special will be a choice of two meats, a choice of any two vegetables being served, bread, and a choice of coffee, tea, or fruit drink.

The improved "special" is being offered in another attempt to increase the volume of business done by the Cafeteria, Mr. Sutherland said.

## Fire At SPE House Is Welcomed By Boys

In special ceremonies last Saturday, Sigma Phi Epsilon Fraternity burned the mortgage on their house. The mortgage burning was followed by a buffet dinner and an informal dance at the fraternity house. State alumni officers, other alumni, and the present members of the fraternity were on hand for the ceremonies. The mortgage which has been fully paid was originally for

\$15,000. The title to the property is held by the Sigma Phi Epsilon Corporation which was chartered on May 5, 1948. Before buying their present house on Clark Avenue, fraternity members rented a house on Chamberlain Avenue. Money for the purchase and remodeling of the house was raised by solicitation and contributions.

(Photos by Kjosnes)

# Education Board Answer

Last Thursday the Board of Higher Education replied to the recent charges made against it by the Board of Trustees.

In the reply, the Education Board called the cost estimates on the 500-unit married housing project at State "unrealistic." They said that they did not believe that the full 500 units "could have been constructed, equipped, and furnished for the estimated \$3,000,000.

This is a direct slap at the ability of both the administrators at State and the administrators of the Consolidated University. The cost figures, incidentally, were arrived at after lengthy consultation with three contractors, an architect, and two engineers—and were studied and accepted by a government economist.

The Board of Higher Education, evidently, feels that its judgement of costs is better than the professional and qualified judgement of people whose business it is to estimate, design, and construct new buildings.

The ability of the board to estimate costs is further questioned when one considers that they based their cost estimate for the 300 units on the fact that the total cost of the project would decrease proportionally when they reduced the number of units from 500 to 300.

It seems as though they failed to consider that the fixed costs (such as access roads, sewerage, power lines, etc.) would raise the per unit cost of every unit if only 300 were built.

The Board of Higher Education estimated the cost of the 300 units at \$1,800,000. The estimate which has been given the administration for the 300-unit project, however, is approximately \$2,129,000! The "measured opinion" of the Board of Education, in this case, was "off" by nearly one third of a million dollars. . . .

In another part of the reply by the board last week, it was stated that the question of whether or not the state should provide housing for married students is a major policy decision which should be made by the Legislature.

Though the board is empowered to decide this themselves, they have decided to pass this decision back to the Legislature.

We ask several questions, which possibly will be considered foolish by the Board of Higher Education but which must be answered.

Why not provide housing for married students, especially when such housing is self-liquidating and is not costing the state a penny? Since married students now constitute a large percentage of the college students, why not provide for them the same as for other students? (Will the next step be to require married students to furnish their own classroom desks?) Finally, are married students any less valuable to the state or country than unmarried students?

These questions, and many similar to these, must be answered before any "major policy decision" on this question can be made.

—DB

Little Man On Campus

By Dick Bibler

"YES, I FIND IT EASIER TO GET DATES NOW THAT I HAVE A CAR."

Fraternity Line

# Meredith Girls vs. Chaperons

by Oscar Grant

At last there has been a break in the long-sought-after permission for Meredith College girls to visit State fraternity houses without chaperons. Officials announced that Meredith girls can now visit houses on any Sunday afternoon. While this decision is a long way from being able to bring these girls into houses

any time during weekends without chaperons, it does represent a change in the rather conservative policy which the Meredith administration has tended to follow in the past.

Certainly this privilege will be quickly taken away if any of State's fraternity men abuse this privilege, and this writer is among those that would hate to see that happen. . . .

There is still no news on fraternity row. IFC president George Howard has come up with an idea that should help if the members of the "18" would take time to do it. At present, there are state officials who are not convinced that the proposed housing would be in the best interests of the state. Should a group of letters come pouring into President Friday's office from parents of some 800 State College fraternity men demanding that the Greater University take action to provide their sons with better housing, these officials would feel obliged to take the necessary action to make fraternity row a reality. . . .

The official slate of IFC officers for the coming election will be drawn up in the near future by the IFC executive council. So far, not too many men have shown an interest in running.

## Bumps... Or Ditches

Last week a Raleigh policeman who was chasing a motorist on Dan Allen Drive hit a big hole in the road and went over the handlebars of his motorcycle.

We don't know whether he caught whoever he was after, but we'll bet that that particular policeman now realizes that we aren't just kidding when we say that the roads on our campus are in bad need of new paving.

## Letters To The Editor

# Two Opinions On State College Justice

Many State College students have been, are, and will be castigated severely by one of our most revered of organizations on campus. Some say that this group represents and delivers justice in matters of infractions made against our impregnable "honor system"—and I use the term loosely. Others say that this bright and beaming board

is a replica of any court in our American judicial system. Still, some others say that it is unbiased, fair, discreet, and above all, jurispudent.

How one student or students can set themselves up so high, so sublime, and so invulnerable, to actually smear another's future on a thin thread of evidence, is beyond my comprehension. I consider myself too unqualified, too human, and too imperfect to judge, instantaneously, the actions of another contemporary, especially when they could have been my own. In past and present cases of "honor" violations, the "victims" had the axe dropped by sheer implication and prejudice; and when they were found guilty they were dealt a severe and lasting penalty by their peers.

It is not the case of a basketball championship, or a football championship, but rather it is the case of human beings and human destinies. And we, the glorious students, who vote so credulously, so apathetically, and so blindly, will sit on our brains and let ourselves or our friends be exposed and sometimes subjugated, to an unnecessary evil—one of unconstitutionality, one of flagrant prejudice, and of abominable, caste snobbery.

In the years that I have been at State College, I have always taken student elections for granted, never examining the candidates' records and platforms; and I am to blame along with thousands of others for allowing such a situation such as our respectable panel of "gods" to develop. Let this be a warning for the future: either elect true representatives of your stu-

From News And Observer

## Decision Was Wise

Chancellor Carey H. Bostian of N. C. State College has made a wise decision in declining to reverse the decision to suspend Whitey Bell, captain of the basketball team.

Bell has stood well on the campus and elsewhere and he is entitled to much sympathy.

However, there are circumstances about the case which Chancellor Bostian could not ignore even though his action risked the displeasure of those who were anxious to see Bell declared eligible for the tournament which begins today. In the first place, any pertinent evidence in behalf of Bell should have been presented before his suspension, not afterward. In the second place a decision of this kind should not be reversed lightly as it involves repudiation of those who made the original decision. In the third place, a reversal on the eve of the tournament would have been construed, rightly or wrongly, as yielding to clamor.

Here's hoping State's team will rally to the occasion as it did in the first game after Bell's dismissal.

## INTRAMURALS

**BASKETBALL**  
Basketball in intramurals wraps up its season this week on Tuesday, March 11. The Delta Sigs play the SPE's, who are running a close race with Sigma Chi in total points for the fraternity intramural championship.

In the dormitory league, Tucker 1 faces Ber Wat and in the open league the Hot Rods face the winner of the Beet 1-Kremlins game for the intramural basketball crown.

**TABLE TENNIS**  
The SAM's, defending champions, seek another stab at victory. The SAM's will meet the PEP's at 8:00 Monday night. Sigma Chi, who placed second

last year, will encounter Sigma Pi at 7:00 and the Delta Sigs will battle the SPE's at 9:00 Monday, while in dormitory play Turl 1 takes on Beet 2 at 6:00 Monday.

Tuesday night, the winner of Turl 1-Beet 2 will play Beet 1 at 7:00 and the winner of the SAM-PEP game will play the winner of the Sigma Pi-Sigma Chi tilt.

**SWIMMING**  
The swimming meet preliminaries are set for Monday and Wednesday of this week. The dormitory start Monday at 8:00 and the fraternity starts Wednesday. Kappa Sigma and Becton 1 took last year's first place honors.

## Maryland Downs North Carolina For ACC Crown

Last Saturday night, the Maryland Terrapins gained the right to represent the Atlantic Coast Conference in the NCAA tournament, beginning this Tuesday, by downing the defending champions, the Tar Heels of North Carolina, 86-74, before a packed house at the Coliseum.

By accomplishing this feat, the Terrapins became the first team to ever win the ACC title who was not a member of the Big Four. In the previous seasons, the Wolfpack of N.C. State College has taken three titles, while the Heels have eked out one.

The Terps were never in any real trouble after they caught the Tar Heels early in the second half. Trailing after the first period was over by a 34-27 score, Maryland staged a brilliant rally, and with 12:19 left to play, Nick Davis hit from the corner to send the Terps out in front, 43-42.

For the next few minutes, the lead exchanged hands several times, and with about seven minutes left, the score was all tied up to 54-54. Then, after a basket exchange, the Terps started to pull away, their lead constantly being strengthened by free throw opportunities arising from the fouling of the desperate Tar Heels.

Leading the new ACC champs in scoring was Charlie McNeil with 21 points. Closely behind him was reserve guard Bill Murphy with 19 markers.

Maryland's first foe in the NCAA regional playoffs will be the Eagles of Boston College, who finished the regular season with a 16-5 mark.

Shown above is the big boy for the Terrapins of Maryland in their victory over the Tar Heels of Carolina in the final game of the ACC tournament. Charlie McNeil pushes in two of his 21 points over the hand of Pete Brennan.  
(Photo by Kjoshes)

## Gridders End Practice With Old Timers Game

As a climax to the spring and Virginia Tech in the Stadium. The Wolfpack of N. C. State will meet a team composed of former greats this Saturday afternoon in Riddick Stadium.

The team opposing the '58 edition of the Wolfpack will be composed mostly of the players who just completed their eligibility this past season. But there will also be some real "Old Timers" here for the game in the persons of Alex Webster, Eddie West, George Marinkov, and John Szuchan.

As originally planned, the "Old Timers" squad would have also included such stars as Bill Barnes of Wake Forest and Buck Weaver of the Army; but ACC commissioner Jim Weaver ruled that such a game would have to be included on the Wolfpack schedule for 1958.

Already scheduled for next season's play is a 10-game lineup. The Wolfpack will meet Carolina, Virginia, Wake Forest, William and Mary, Duke, Mississippi Southern, and South Carolina away, while they will entertain Maryland, Clemson

APRIL 3 is the deadline for applications to The College Survey, Box 625, Charlottesville, Va. \$2. fee will be returned if no assurance of summer employment is received from their placement office. Guidance in camp, resort, maritime, and government employment.

## Pucillo, All-Tournament

# Pack Downed In Second Round

N. C. State College's Wolfpack, playing against odds too great, were subdued in the semi-final round of the Atlantic Coast Conference Basketball Tournament by the Tar Heels of North Carolina, 64-58, Friday night in the Coliseum.

The Pack gained admission to this bracket by knocking off the Gamecocks of South Carolina, 66-61, in the opening round of play Thursday afternoon.

**Final Mark of 18-6**  
By this split of two games, the Wolfpack finished the season with a mark of 18-6, bettering last year's record of 15-11.

It was in the opening frame of the tournament that little guard Lou Pucillo played one of the best games of his career. The wizard of the court pumped in 14 out of 18 field goals for 77.8%, and 5 out of 6 from the charity line for 33 points, which made the difference.

Besides being the best effort

of the game, it was the highest scoring exhibited by a Pack player during this season. Earlier this year, Lou hit 29 against Virginia's Cavaliers.

Without Pucillo, it would have been a very bad day for State. The only other player to hit in the double digits was Bob MacGillivray, who swapped in 10 points. High man for the Gamecocks was Mike Callahan with 21.

**Pack Unable to Catch Up**  
On Friday night, the West Raleigh crew could not stay up with the Tar Heels long enough to make it count. From the end of the first half, they were always from 4-6 points behind and never were able to close the gap.

Again Pucillo was high scorer with 17 points. Following him was MacGillivray with 13 and Don Englehardt with 12.

Brennan Hits for 23  
High for Carolina was their tall forward Pete Brennan with

23 points. That meeting was the fourth for the two teams this season, with Carolina taking three and State one.

### VARSITY Congratulates DICK FADGEN Varsity Basketball Team

# CU Deadline For Applications Is March 14

Applications are now being received for College Union officers and committee chairmen for the coming school year.

Deadline for submitting the application forms, which may be obtained from the Union Activities Office, is noon Friday, March 14. Completed applications should be turned in to the Social Director at the Union.

The offices of president, vice-president and secretary of the College Union, as well as chairman of one of the 17 standing committees, are to be filled for the 1958-1959 school year.

All applicants will be interviewed by the College Union Board of Directors beginning on March 17, and all positions will be filled by the Board. The office of president will be

filled by campus election, following the Board's approval.

A grade-point average of 2.0 is required of all applicants.

### Student Found Guilty In Retrial

On March 4, the Board of Review found that vital new evidence had come to light since the trial of a student who was found guilty of cheating on a final examination. The student was granted a retrial.

After being informed of the retrial, the student expressed a desire to have the trial held as early as possible, hence he waived the forty-eight hour notice which is normally considered due notice. He was then found guilty of cheating on a final examination, and he was suspended from State College.

EXPELLED?

DON'T WORRY ABOUT A THING!

At last, all cotton drip-dry shirts are a reality! Van Heusen has achieved this triumph in the new Vantage shirt which is 100% cotton, drip-dries in a jiffy, and needs no ironing! At only \$5, it's the all-around shirt for college men, and also has a few special uses which you might possibly overlook.

You're expelled from school. Since you have no money, you're forced to walk home (you live in Lovelyville, 1,357 miles away). The Van Heusen Vantage shirt is perfect for this situation. First, you can wash it in the many brooks you pass as you trudge along the open road . . . and, as you catch a quick wink in a hollow log, it will drip-dry and be neat and snappy for the next lap of your trek. Second, because Vantage is all cotton, it looks so smart that you begin to feel well-educated. People will say, "there goes a cultured chap."

You're water boy on the football team. Ideal spot for Van Heusen Vantage shirts. We

ask you, what does a water boy have most of? Precisely . . . and after you hang-dry them from the goal post . . . you can wear them heroically like a quarterback.

You owe the laundry \$342.45. Let us say you owe the laundry \$342.45 and are ashamed to show your face there, and even feel terror when the smell of the disinfectant floating out of the Laundromat. A set-up for Vantage! Since it drip-dries, and needs no ironing, you need never enter the laundry again. And because it's all cotton, it's so elegant-looking, you can pass the laundry with equanimity. The owner, seeing you stroll by in your Vantage, will say to himself, "No sense dunning Morgan for that dough. He's so rich, he's bound to pay me soon."

In Vantage, you inspire confidence. In Vantage, you're set for every college occasion. At better stores everywhere, or write to Phillips-Van Heusen Corp., 417 Fifth Avenue, New York 16, New York.

You'll be sittin' on top of the world when you change to L&M

Smokes cleaner

Tastes best

Light into that

Live Modern flavor

Only L&M gives you this filter fact—the patent number on every pack . . . your guarantee of a more effective filter on today's L&M.

A blend of premium quality cigarette tobaccos including special aromatic types. The Miracle Tip. U.S. Pat. No. 2,802,671

Free up . . . freshen up your taste!

Put yourself behind the pleasure end of an L&M. Get the flavor, the full rich taste of the Southland's finest cigarette tobaccos. The patented Miracle Tip is pure white inside, pure white outside, as a filter should be for cleaner, better smoking.
