Which Way Is The Right Way?

Proving that you can't believe all you see, these cars are not heading the wrong way on the one-way street in front of the YMCA. The one-way sign originally changed the

direction from south to north, away from the railroad tracks. Wednesday the sign was again returned to its original position of routing traffic from north to south.

Phi Kappa Phi Commends Last Year's Top Freshmen Scholars

204 members of the 1956-57 Freshman Class have been commended by Phi Kappa Phi, the highest scholastic honorary fraternity in technical schools and the equivalent of Phi Beta Kappa in liberal arts schools, for outstanding scholarship.

The Honor society has awarded each of the students an individual certificate recognizing his achievement.

1956-57 Freshmen receiving the certificates were:

David Winfield Abee, Robert Douglas Adams, Charles Lamar Aderholdt, Michael Alfred Alexander, Michael Rives Alford, George Lewis Allen, Jr., John Davis Alston, Samuel Millard Baggett, Wallace Riddick Baker, Norman Earl Banks, and Jesse Otho Barbour, Jr.

Donald Lee Basinger, Robert Leon Beadles, Carroll Reid Bingham, William Arthur Bisette, John Henry Bitting, Jr., Charles Lewis Bittinger, Jr., Roy Baxter Blake, Jr., George Gordon Blankard, Dan Hathaway Boone, Willie Charles Bowen, Zane Grey Bowles.

David Lee Bramlett, and Joel Vincent Brawley, Jr.

Stephen Hunt Brown, Larry James, Jr., Richard Stephen Bynitsky, Shakespeare Harris Caldwell, Jr., Johnny Allen Caudle, Roy Lunsford Champion, Jr., Ernest George Charles, Robert Lewis Cowardin, Henry David Cranfill, James Uriah Crowder, Jr., Samuel Franklin Culberson, William Kemp Culbreth, Jr., Robert Andrew Draughn, Jimmie Solomon Daughtry, Max Ray Davis, Robert Lee Davis, Jr., James Francis Deal, III, Everett Coleman Drake, Jr., William Carl Drake, John Walter Dulin, and Seth Lyman Eckard.

Ralph Goldston Edwards, Jr., Troy Dean Ellington, John Walter Etchison, Herkwood Malcolm Farmer, Avery David Pary, Jr., Henry Lee Fisher, Jr., Richard Conrad Fluck, Gaylord Howard French, Jr., John David Fulton, William Ray Garwood, Thomas Haywood Goodin, Jr., John Michael Goodman, Charles Buddy Goodwin.

Roger Allen Gregg, Frederick Grieger, Harry Clinton Grimmer, Walter Clyde Harkins, Roy Lee Harrington, Jerry Sanders Harris, Boyce Wayne Harwell, John Reid Hauser, Thomas Robert Hay, Jr., and Leon Henderson, Jr.

Herbert Carlisle Henley, Jr., Edwards Reid Hinson, Jr., Robert Lewis Hoffman, Irwin Richard Holmes, Jr., Walter Van Buren Holmes, Freddie Eugene Hopkins, Marvin Eugene Howell, Phillip

Leroy Hughes, Robert Hughes Hunt, Thomas Montague Hunt, Jr., Andrew John Manning Hutchings, John Hicks Johnson and Malcolm David Jones.

Alfred Wilmer Jordan, Charles Lee Jordan, III, Donald Max Joyce, William Bartle Kahl, Robert Gebe Keever, Virgil Leonidas Kelly, Bobby Gray Kiger, James Allen King, James Michael Kinlaw, Louis Ray Kirchner, Roman Kolodij, Theodore Phineas Konkle, Stephen Stanislaus Koszewski, Jr., Thomas Wayne Krimminger, Robert Roger Lackney, Luther Louis Landin, Jr., Leonard Emanuel Lavitt and Benjamin Elias Lemons.

Fred Oscar Little, Jr., Stanley Stephen Luczycki, Carroll Dean Lytle, Robert Douglas McBrayer, Christopher Richard McDonald, Daniel Rhee McIntyre, William Monroe McLaurine, III, John Hugh McNeill, Stanley Richard Mackay, William Howard Marley, Thomas Field Marrow, III, Robert Eugene Martin, Mildred Diane (Miss) Massey, William Marcus Massey, Jr. and Darrell Vance Menseer.

James Allen Merricks, Charles Herbert Miller, Henry Eugene Miller, Jr., John Aubrey Miller, Edgar Larry Mizell, Larry King Monteith, Melvin Lewis Moody, Paul Stewart Moody, Thomas Christopher Morena, Merritt Leslie Murray, James Orval Mutton, Cecil Leon Neal, Jr., Ralph Melvin Nelson, Jr., Arthur Edward Nivison, James Peter Osgering, William Lewis O'Quinn, Gordon Norman Owen, Jr., William Melvin Paris, Jr., and Glenn Wayne Patterson, Robert Gaston Pearce, Jr., Robert Martindale Pilch, Robert Eugene Pless, Richard Van Poe, Larry Edward Pond, Gordon Joseph Poole, Lee Tanya Quick, William Newyn Rankin, III, Neil Eugene Reeling, James Robert Reittinger, Rolfe Reusing, Teddy Lee Robinson, John Riley Ross, Jr., Forrest David Rudisill, Norman Arnold Russell, James Donald Samuels, Harvey Ralston Saunders, Jerry Albert Sawyer, Sandra (Miss) Schaub, and Donald Owen Schoonmaker.*

Gary Charles Schultz, Jesse Hobson Scott, Jr., Charles Wallace Selden, III, Edwin Arthur Shearin, William Ford Shenherd, Charles Edward Siewert, Harvey William Sigmon, Jerry Alan Smith, Larry Baxter Smith, Larry Eugene Smith, William Clay Smith, Woodley Kendall Smith, Eugene Yates Sorrell, Jr. and Robert Allen Spencer.

Thomas Richard Stadler, David Warren Stillings, James Caldonian Stephenson, Kenneth Edward Stepe, Harold Bennett Stovall, Michael Albert Stovall, Albert Clinton Sutton, Jr., James Tins Swicegood, Graham Merriott Talbot, Richard Donald Tall, Charles Allen Tanner, III, George Carlisle Oscar Taylor, James Lee Taylor, and Marvin Edward Taylor, Jr.*

Earl Ryan Thompson, Oscar Everett Trimlett, Jr., Jack Boyd Turner, Edgar Meason Underwood, III, Kennel Duane West, James Franklin Walker, Robert Warren Watson, Harry Lee Watson, III, James Elwyn Watson, Jr., Jack Carroll Weaver, Samuel Alvin Weaver, Robert Clinton Webber, and John Marshall Welch, Jr.

George Washington Westinghouse, Jack Edward White, James Speed Wilkins, John Robert Williamson, Fredrick Eugene Wilson, Larry Franklin Wilson, Thomas Lee Wilson, Thomas Tahn Wood, and Phillip Pershing Yarborough.

* No longer in school.

By Late Summer

College Union Building Plans Air Conditioning

Installation of air-conditioning in the College Union Building should increase student use of the building in the warm months not only for extra-curricular purposes but also for studying, reports Jerry Erdahl, College Union Director.

He stated yesterday that installation should be completed by late summer or early fall for the modern structure which opened for student use in 1954.

Installation of air-conditioning was originally slated to be completed by April 1, revealed Erdahl. The project was delayed due to priority given other college programs by the College Budget Bureau.

The project will be open for bidding by next week, according to present plans, said Erdahl. Twenty days will be allowed for receiving bids. After negotiations have been completed, an additional eight to eleven weeks will be necessary for ordering equipment. It is expected that actual installation will be completed in sixty days.

In the design of the building air-conditioning ducts and space for the equipment was provided, stated Erdahl, thus cutting costs to around 1/4 of the cost if the

additional work had to be done at the present time.

Present plans call for a 150 ton unit costing between \$40,000 and \$55,000. Space is allotted for a potential capacity of 180 tons.

Cost of the air-conditioning and its installation, emphasized Erdahl, is being borne entirely by profits made by the College Union since its opening.

An average profit of \$17,000 per year has been realized from

the Union's operation. This has been placed in a Reserve Fund which is designed to be used for purchasing equipment as needed.

Erdahl reports that profit made by the Union comes chiefly from food service operations. All food service units, including the State Room, snack bar, luncheonette, and banquet service, have been operating in the black since their opening in 1954, said Erdahl.

Annual IFC 'Greek Week' Includes Church, Banquet

The annual Interfraternity Council "Greek Week" will begin next week with a number of the fraternities attending churches this Sunday as a group.

Church attendance, it was brought out at the IFC meeting yesterday, will help illustrate one of the purposes of "Greek Week"—the creation of better relations between fraternity men and between the fraternity system and the public.

Exchange suppers will be held during the week by the fraternities.

Members of the eighteen fraternities will visit other fraternities for the evening meal.

A door to door collection is planned for Wednesday and Thursday nights to collect food which will be given to the local welfare department for distribution to needy families.

A banquet for all fraternity men, their dates, and special guests is planned for Friday night in the College Cafeteria.

Fraternity men will be participating in a field day Saturday afternoon.

St. Patricks Dance To Be Held Sat.

The Engineers' Council, student government organization for the School of Engineering at State College, will present their annual St. Patrick's Dance Saturday from 8 p.m. until midnight in Reynolds Coliseum.

The spring social function, which is named after the patron saint of engineers, will be attended by engineering students, faculty, and guests. Music will be provided by the Southerners of Wake Forest College.

Outstanding Senior

The highlight of the intermission program will be the award made to the "Outstanding Senior in Engineering," whose name will be announced by Dr. J. Harold Lampe, dean of engineering. The dean will present the winner with an engraved pocket watch.

Also at intermission the Order of St. Patrick, engineering leadership fraternity, will knight other outstanding engineering seniors chosen on the basis of scholarship and leadership. The Society will also name outstanding freshman engineers Companions of St. Patrick.

In addition, sponsors for the dance will be presented at this time. (See picture page 3)

Golden Chain Meets Monday In Union

There will be no meeting of the Golden Chain on Friday, as announced. The meeting will be held Monday, March 17, at 12:00 noon at the College Union. Parent's Week-end will be discussed.

To Print Shop

Chancellor Moves On Wolfpack Debt

The college administration has moved this week to settle the \$26,000 debt of the Wolfpack Club. The money is owed the College Print Shop.

Chancellor Bostian told *The Technician* yesterday that "our need for a definite agreement with the people who use the Print Shop is long overdue."

It was announced that a plan has been worked out to settle the debt, but the plan will have to be submitted to and accepted by the Alumni Association, the Wolfpack Club, and the Publications Board—the three groups that own the Print Shop—before it is official.

The Chancellor continued by saying, "We could have made them (the Wolfpack Club) pay the money owed if we had wanted to, but we wouldn't have had as good an athletic program as we've now got."

It was brought out by *The Technician* last week that the Wolfpack Club owed \$26,049.66 to the Print Shop for work done over the past seven years. In addition, it was reported that an additional \$5,166.52 was owed the Print Shop by the Athletic Department.

Print Shop Accounts

The figures quoted were obtained from a list of outstanding accounts of the Print Shop on December 31, 1957. Though the Print Shop record show that

the money is owed by both the Wolfpack Club and the Athletic Department, it was learned yesterday in a meeting with the Chancellor and the Business Manager that there was some error in billing and that the entire debt, which amounts to over \$30,000, is owed by the Wolfpack Club alone.

Since 1952 the Print Shop has been owned by the Publications Board, the Alumni Association, and the Wolfpack Club—with each group owning an equal share.

Plan Being Prepared

Though the plan to settle the debt has not yet been made public by the administration, Mr. Vann, State Business Manager, said that he has been working on the plan this week, and it will be presented to all three groups as soon as possible for their consideration.

It was stated that it is hoped that the plan could be made definite and be announced before the end of the week. A special meeting of the Publications Board will probably be held tonight to discuss the matter.

CONCERT POSTPONED

The Band concert listed on the CU calendar for Friday night has been postponed because of the Symphonic Band tour next week.

Graduate Student Wins Theological Fellowship

A Rockefeller Brothers Theological Fellowship for the 1958-59 college year has been awarded to a graduate student at State College.

William Herschel Hunt, who started work toward a master's degree in forest genetics at State College last fall, will have college and living expenses for himself and his wife paid while he studies at the Graduate School of Theology of Oberlin College, Oberlin, Ohio, for his Bachelor of Divinity degree.

A native of Glen Ellyn, Ill., Hunt received his B.S. degree in forest utilization from Colorado State University in 1957.

He is married to the former Joyce Elaine Anderson of Valentine, Neb., who also has a B.S. from Colorado State University in biological science. She is now employed as a technician in entomology at State College.

The couple serve as host and hostess for Bagwell Dormitory. Hunt is a student assistant in the college YMCA.

Fifty Awarded

Hunt received one of approximately 50 fellowships awarded each year to graduates of accredited colleges and universities. The fellowships are awarded to both men and women, married or single, who are not presently planning on seminary or graduate theological work, but who would like to consider the ordained ministry in any of its recognized categories, especially the parish ministry.

The one year award is made on the basis of a "trial year" during which the recipients seek to determine whether or not the ministry should be his or her lifetime vocation.

EDITORIAL COMMENT

Problems Of The Cafeteria . . . And How Students Can Help

The College Cafeteria announced earlier this week that a new "Special" is now being offered students. Though Donald Abernathy's Letter To The Editor, which appeared in *The Technician* in February, may have somewhat prompted the improved "Special," the main reason for the change was an attempt to increase the volume of business done by the Cafeteria.

At the beginning of the year the Cafeteria management announced that \$5.00 books of meal tickets would be sold this year for \$4.50. Late last semester, the Cafeteria announced that Sunday breakfast would no longer be served. Now, the "Special" has been improved to give a wider choice to the student.

All of these changes have been made because of the decline in volume of the Cafeteria. Still, however, the number of people eating at the Cafeteria is not great enough for it to operate efficiently and profitably.

The trouble, however, does not lie with the Cafeteria management. Mr. Sutherland has welcomed student opinion and criticism; he has worked with the Student Government; and he is trying in every way to give as good and as much food to his customers as he can without losing money.

The price of a book of meal tickets, for example, makes it possible for students to eat the \$5.00 "Special" each day for \$.45 if he buys the meal tickets.

The trouble stems from the ruling of the Legislature last session which required the director of any self-sustaining operation to pay for a salary increase to employees through increased receipts.

Because of the ruling, the prices at the Cafeteria were increased last fall to provide these increased receipts. With the price increases, however, came a lower volume of business.

Needless to say, the Cafeteria is not the most delightful place in the city to eat, nor is the atmosphere of the place comparable to that of Hofbrau's or the Steak House. And when a group of students get in their car to go eat, it is just as easy for them to drive somewhere off campus for a meal . . . and a lot easier to find a place to park when they get there.

The Legislature is being asked this session to appropriate money for a new cafeteria at State. If such an appropriation were obtained, the new cafeteria would probably be built between the new dormitory and Tucker . . . and would have parking facilities available.

What can the students do to help? First, you can try the Cafeteria again . . . see if the new Special meal is not better than before. Second, and most important, you can do your share in urging the Legislature to appropriate the needed money.

The next time you go home or write your parents, ask them to get in touch with their legislator and urge him to vote for the appropriation when it comes up. Or, read this editorial out and put it in with your next letter.

State College has students from every county in North Carolina. If every legislator from every county were contacted by a number of his constituents, our chances of receiving an appropriation for a new Cafeteria would be greatly enhanced.

This is definitely a matter in which every student can participate. Won't you help by mentioning it to your parents? —DB

\$1,440 In Four Years

Pay Of 'Amateur' Athletes

From Intercollegiate Press
Quit quibbling about amateur athletes in college, says University of New Mexico LOBO in this editorial.

We quote from the Denver Post. "Seven members of a faculty committee at Ohio State University called on the rest of the faculty to ask them up in recommending to the administration that it should honestly be admitted that policies on amateurism in college athletics should be scuttled."

Here is what a non-resident athlete with a full scholarship ried gets at UNM:

Tuition—\$210
Room & Board—\$670
Books and Fees—\$75 (approximately)

Optimal job—\$15 a month
This totals \$1090 a year, plus incidentals such as Sunday meals at University expense and vacation meals while in training. So the athlete at New Mexico gets \$1100 in cash and services a year. That means \$4400 for his college career. That's a lot of money for an amateur.

It must also be realized that UNM is pretty clean in its athletic doings. When some of the major colleges get socked by NCAA, the count must be above \$4400 for four years. We got "socked" by the NCAA at State last year, but . . .

Oh! No, No . . . not here. This is not to say that there should not be athletic scholarships. But the University has 100 scholarships in operation now. Multiply that by \$1100 and add \$2,500,000 for the new gym, and then add full-time coaching salaries and then figure this total for one year, and one becomes impressed with UNM's financial concern for athletics.

But we wish only to quibble over semantics. There is no "amateurism" in college athletics. Just as a student on an academic scholarship may properly be called a professional student, so an athlete is professional, for he receives payment for his ability.

So let us be done with the term "amateurism". There are professional athletes at New Mexico and thousands more across the country. They are a collegiate economic class.

But, lest the veterans and married students, and others scraping through from semester to semester, become enraged at this apparent injustice, let us remind them that it is their own fault. Next time they're born, let them make sure they come into this world six feet six inches in height or 235 pounds in weight. That's the way to get some of the free money.

Campus Cosmo.

Weakness Of State's Judicial System Told

We men at State are very privileged to be governed, in fact as well as in theory, so largely by ourselves. However, it is no privilege to be governed badly. The time honored insurance for good government is keen competition for office and a constant flow of new men with new ideas into the governing body.

Our Student Government is founded on the same three bodies as the Federal Government. These bodies are the familiar legislative, executive, and judicial. Everyone knows generally the duties of these groups. However, I will attempt to enumerate some facts about the positions on these bodies and about their election, for the enlightenment of the average State man who is interested in the continuance of good student government here.

Three Branches
The executive body is comprised of a president, vice president, secretary and treasurer. These men are paid by the student body salaries of 35, 25, 20, and 15 dollars a month respectively. These positions are filled once a year by campus-wide election.

The legislative body consists of a senate. Each senator is elected to represent 200 men of his class and school; approximately 50 senators are chosen each year during campus elections.

Our judicial body is known as the Judicial Board. This group is comprised of ten men—four seniors, three juniors, and three sophomores. Only seven of the ten positions on the Board are elected annually by campus-wide elections; each year two rising seniors and one rising

junior are held over by the Board for the coming year.

(Note: though the Student Government elections are held in April, anyone who wished to run for office must sign the election book between March 17-25.)

One very important project of the Student Government at present is the work being done by the Senate Investigations Committee. They are considering the amending of our Constitution to more clearly define the laws which bind Student Government action. Part of the amending which is expected to occur will change our judiciary setup!

The Bell Case
The controversy over the Bell case has obviated a basic weakness in our present judicial system.

This weakness is: the same man hear an appeal as found the man guilty in the first place. No one is qualified to judge the Judicial Board's action on the Bell case except the Chancellor, who is supposedly the only other person with the facts. But a lot of the second guessing and censure directed toward the Judicial Board probably would not have occurred had another impartial group reviewed Bell's appeal.

Our National Law recognizes the right of appeal to a new body as necessary for safeguarding justice. When we have at least a two-body court at State then we will have a fundamentally safer system for deciding innocence or guilt. Just as important, we should then have a Judicial system that will more nearly hold the confidence of the student body.

IDGAD

ROY LATHROP

Many people have been asking recently, "Why can't the pay phones in the dormitories be replaced by free phones, and add the few cents cost per student to the activity fee?" Here are the answers to that question.

First of all, the telephone company will not install telephones to be used at the regular residential rate; instead, they insist that they must charge by the number of calls made through any phone . . . the rate would be \$.10 per call for the first 75 calls, and \$.05 per call for all after that. More people would be using the phones more frequently if they were free, and so this system would prove to be even more expensive than the present setup.

One possibility that has been investigated is expanding the present switchboard facilities of the college to take care of phones in the dormitories. However, this would involve a great expense . . . both for the new switchboard equipment and also for the many new trunk lines that would have to be installed.

It has been pointed out that any system of free phones would benefit only those making

a lot of calls each night, since many of us make very few calls during the week . . . we would all be paying the same fee, but not all would get the same service.

Perhaps the biggest objection to toll-free phones is the matter of long distance calls. It would be almost impossible for the phone company or the college to trace calls to the person making them, because anybody on or off campus could walk into the dorm and give a false name.

Some people have argued that Carolina has free phones so why can't we . . . the reason is that Carolina owns their telephone system in Chapel Hill, and can give the students fair rates.

All of us hope that somebody can think of a practical substitution for pay telephones. It gets pretty tiresome wasting dimes calling Meredith's switchboard only to find the line is busy . . . even though the operator will hold your call until the line is free, sometimes the wait is too long and not worth that time after all.

If any of you have any suggestions, I'm sure everybody will be interested to hear them. It's not that the administration is not willing to help . . . they just don't know what to do about the situation. Write me in care of *The Technician* . . . or call on Sunday, Tuesday, or Wednesday nights . . . if you have any dimes left.

St. Patrick's Dance Sponsors

The Engineers' Council, student government organization for the School of Engineering is having their annual St. Patrick's Dance Saturday evening, March 15, in the William Neal Reynolds Coliseum. Sponsors for the social event, which is named after the patron saint of engineers, are pictured above. Top row, left to right: Mrs. Betty Jo Nuckolls with Edward W. Nuckolls of Hendersonville, council president; Mrs. Betty Ann Poindexter with Everett J. Poindexter of Tarboro, council vice president and dance committee chairman; Mrs. Margaret Madren with Paul L. Madren of Elon College, council treasurer; Miss Carolyn Barrington of Fayetteville with Lewis Ballard of Mooresville, council secretary. Bottom row, left to right: Mrs. Bettie Williams Liguori with Robert R. Liguori of Southington, Connecticut, entertainment chairman; Miss Jo Ann Mansfield of Burlington with Frank Madren of Elon College, floor arrangements chairman; Mrs. Jo Ann Ferrell and Jim Ferrell of Durham, publicity chairman; Miss Mary Alice Martin of Winston-Salem with Robert A. Vogler of Winston-Salem, invitations chairman; and Miss Mary Lou Hults of Goldsboro with Lawrence R. Gurley of Goldsboro, banquet chairman.

UNC Research Director To Speak Here Tonight

A public lecture is planned for Riddick Auditorium beginning at 8 p.m. tonight.

Rabbi Plans Monday Consultation Visits

Rabbi E. M. Rosenzweig, director of the B'Nai B'rith Hillel foundation in North Carolina, will be on the campus each Monday afternoon for consultation.

He will be available to the students for aid on any kind of questions, needs, or concerns important to them.

Rabbi Rosenzweig will be in the College Union each Monday from 2 to 5 p.m. In the case of special need he will be available for consultations in the evening.

In a talk sponsored by the State College Chapter of Sigma Xi, America's highest society in the general sciences, Dr. Bryce S. DeWitt of the University of North Carolina will discuss "The Nature of the Gravitational Field."

Dr. DeWitt is now Director of Research of the North Carolina Institute of Field Physics at Chapel Hill.

From 1952 to 1955, he was Theoretical Physicist at the Radiation Laboratory of the University of California.

Dr. DeWitt joined the staff of the UNC Physics Dept. in 1956.

Sophomore R.O.T.C. Students:

MAJOR IN LEADERSHIP

with the Advanced ARMY R.O.T.C. course

If you are a sophomore Army R.O.T.C. student, there are three important reasons why you should accept the challenge of applying for the Advanced R.O.T.C. course. As an advanced R.O.T.C. student, you will:

1. Learn to Lead

With R.O.T.C. you can actually take a course in Leadership—a course that will prepare you to think on your feet for an executive position, whether in military or civilian life. In addition, you will get practical experience in command responsibilities.

2. Attain Officer's Rank

As an R.O.T.C. graduate, you will fulfill your military obligation as an Army officer. You will not only enjoy the rank, pay and privileges of an Army officer, but will also have the satisfaction of serving your country in an important capacity.

3. Receive Extra Income

With the Advanced R.O.T.C. course, you will qualify for a subsistence allowance which comes to around \$535 for the two-year course. You will also be paid \$117 for your six-week summer camp training and receive a travel allowance of five cents per mile to and from the camp.

Cafeteria Adds Selection To Special

This week marked the beginning of an innovation to the Cafeteria's established special meals. Students now have a choice of any two vegetables being served, a choice of two meats, bread, and a choice of coffee, tea, or fruit drink. (Photo by Kjosnes.)

Time For Showing International Films Changed To Tonight

Four movies presenting the diverse cultures and affairs of Asia, Middle East, and Europe will be shown in the Union Theater tonight at 8 p.m.

The International Committee of the College Union is showing the films to contribute to the growth of world understanding.

Titles of the movies planned for showing are:

"University of the World," "Yugoslavia Today," "Power to Mexico," and "Gut," a Hungarian film.

The films were originally scheduled to be shown last night.

Forestry Society Names New Memes.

Eleven students have been initiated into membership in X Sigma Pi, forestry honor society.

The new members were selected on the basis of outstanding scholarship, leadership potential in their field, and interest in an activity in college affairs.

New undergraduate member are: Wayne Barlow, Thomas Erkins, Edward Gibbons, Charles O'Quinn, William Schulz, Bruce Sumner, John Thompson, and John West.

Also initiated were graduate students Thomas Price, James Roberts, and Lloyd Swift.

Viscose Corporation Program Aids State

State College is one of 78 colleges and universities which will benefit during the next college year from the aid-to-education program of American Viscose Corporation.

American Viscose Corporation's program is designed to aid educational institutions in their over-all programs and to encourage the study of science and engineering.

The recipients of the scholarships and fellowships provided by the Corporation are selected by the schools on the basis of scholastic merit and need.

Scholarships

In previous programs, scholarships, valued at \$500 each, have been awarded for undergraduates who are majoring in chemistry, physics, engineering, textiles, and business administration.

Fellowships for graduate work, ranging from \$1,700 to \$2,800 have been established in the fields of chemistry, chemical engineering and cellulose chemistry.

A Campus-to-Career Case History

Roy Vaughn (left) discusses a central office power installation with Switchman R.F. Heider.

"I like (and get) 'start-to-finish' engineering assignments"

"When it comes to making a job interesting, I think the assignments a man gets are more important than the size of the project he's working on," says Roy Vaughn of Illinois Bell Telephone Company. "I found that out soon after I graduated. My first job was with an organization where the projects were big, but the individual engineering assignments lacked variety and scope.

"After this experience I looked over power engineering opportunities in a number of companies. I joined Illinois Bell because it promised the most interesting and challenging work. That was three years ago. My work with IBT has everything that I was looking for.

"My job is to engineer the power requirements for telephone central offices.

The work never gets routine. One job may be for a new building, the next for expanding existing plant. And power needs vary tremendously from little rural dial offices serving a few hundred telephones, to big metropolitan telephone plants serving hundreds of thousands.

"But what I like best is that I generally handle the job from start to finish. I determine the operational and emergency power requirements of the facilities to be served, and order the equipment needed. And I'm usually on hand during installation to see the job through.

"Not only does this kind of engineering assignment keep work interesting, but I find it is helping me become a better manager. And that improves my chances for advancement."

Roy L. Vaughn, Jr., graduated from Illinois Institute of Technology in 1954 with a B.S. in E.E. degree. He is one of many young men who are finding interesting and rewarding careers in the Bell Telephone Companies. Find out about career opportunities for you. Talk with the Bell interviewer when he visits your campus, and read the Bell Telephone booklet on file in your Placement Office.

"Old Timers" Game Saturday Marks End Of Spring Drills

The annual off-season preview of North Carolina State's varsity football team will be staged here Saturday afternoon when Coach Earle Edwards sends his varsity against a team of former Wolfpack stars.

The game is set for 2 o'clock on the practice field behind Reynolds Coliseum. The contest is sponsored by the college Monogram Club and the public is invited to attend at 50¢ per head.

The game climaxes spring practice for State's defending

Atlantic Coast Conference champions.

"I am anxious to see the varsity in action against the Old Timers," Coach Edwards said. "I think we accomplished quite a bit during spring practice. Saturday's game should answer a lot of questions."

The varsity will start Bob Pepe and Jim Crain at ends, Kelly Minyard and Larry Dixon at tackles, Bill Rearick and Joe Rodri at guards and Paul Balonick at center.

The backfield will have Ernie Driscoll at quarterback, Ken Trowbridge and Ron Podwika at halfbacks and Arnold Nelson at fullback. Don Hafer, number one fullback last year, is on the baseball team and will not be available.

The Old Timers, coached by Bill Smaltz, will include some of the Wolfpack's top stars of the past, including Alex Webster and Dick Christy.

Smaltz said a definite starting lineup hasn't been picked but he listed the squad as it now stands.

Ends—John Collar, Don Miketa and Jay Beacon.

Tackles—John Szuchan, Vince Bagonis, Paul Gibson, Darrell Dess, Dick DeAngelis, Tom Guerrieri, Bob Paroli, John Wagoner.

Guards—Ed Hordubay, Julius Compton.

Centers—Jim Oddo, Dick Tonn.

Quarterbacks—Eddie West, Tom Katich.

Left halfbacks—Alex Webster, George Marinkov.

Right halfbacks—Dick Christy, Steve Vitek.

Fullbacks—Tony Guerrieri, Wally Prince.

Proceeds from the game will be used by the Monogram Club to buy new furniture for the club room. Tickets can be secured from any member of the Monogram Club.

ACC Writers Name Case Top Conference Coach

By BOB LINDER

Coach Everett Case, the silver-haired mentor of N. C. State's famed Wolfpack, has been named Atlantic Coast Conference "Coach of the Year" by league sports writers.

Coach Case, the old master of basketball himself, who

brought to Dixie its first big league basketball, has been cited as "Coach of the Year" three times in the past five years. This tribute was paid to the 57 year-old cage mentor in 1954, again in 1955, and again this year.

The head coach and strategist of the Wolfpack was so honored as a result of his outstanding job of leading his Wolfpack squad through an overly rough season and emerging in the thick of battle. At the outset of the season, Coach Case admitted any chance for a winning season was very slim, but at the end, his squad stood tall and could reflect on a bright season.

Under the fine leadership of Coach Case, the Wolfpack compiled the best overall season won-lost record in the ACC, winning 17 while losing only 5. Finishing second in the ACC race, the Pack went into the ACC Tournament with high hopes. Due to the loss of Whitey Bell, it was rough going for the Wolfpack in the tourney, and they lost a close battle to Carolina.

Leading the conference race for several weeks, State was considered the team to beat until the loss of Bell gave Coach Case and his Wolfpack a big upset.

To Coach Everett Case, the supporters of the State College Wolfpack and the basketball fans throughout the state of North Carolina, owe a tremendous "vote of thanks" and a

hearty "well-done" for the championship teams he has turned out in his 12 years of coaching at N. C. State and for making North Carolina "the basketball capital of the South".

Student-Faculty Intramural Tournament in Table Tennis and Handball. Entries are now being accepted for singles and doubles in both sports. Deadline for entries is March 20. For additional information, call Art Hoch at Extension 218.

MY CLOSEST SHAVE by Elgin Ciampi
Skin Diver, Shark Expert, Author

"My closest shave happened under water while baiting sharks to photograph," says shark expert Elgin Ciampi. "My speared bait-fish hid in a hole, pouring clouds of blood around me. Smelling blood, a 7-foot man-eater, unable to find the bait, rushed me. I dodged and started taking pictures. I kept the camera between us while the shark circled hungrily for five full minutes. Then my air supply ran short, so I used psychology: I lunged at the shark with my camera. Startled, he shot away—and so did I!"

For YOUR Close Shaves, try new Colgate Instant Shave in the handy pushbutton can. There's no easier way to shave, no matter what razor you use. A great shave buy for the tough-beard guy!

Internationally Known Photographer
To Speak In College Union Friday

Donald Sultner Welles, internationally recognized color photographer, will speak and show color studies on Italy, Germany and the United States Friday night at 7 p.m. at the College Union.

Saturday, Welles will take any interested amateur photographers on a field trip, probably to the Duke Gardens, leaving the Union at 1 p.m.

Welles has recently returned from Austria, Germany and Italy where he took over 3,000 new color photographs to be used in his lectures in this country.

During the past spring, he spoke for the U. S. Government on "The American Scene" in all parts of the western zone of Germany. He was the only color photographer ever to be sponsored by our government.

FOR BETTER OR FOR WORSE

The first thought that comes into our minds upon entering college is, of course, marriage. But how many of us go about seeking mates, as I like to call them, in a truly scientific manner? Not many, you may be sure.

So let us today make a scientific survey of the two principal causes of marriage—personality need and propinquity.

Personality need means that we choose mates because they possess certain qualities that complete and fulfill our own personalities. Take, for example, the case of Alanson Duck.

As a freshman Alanson made a fine scholastic record, played varsity scrabble, and was president of his class. One would think that Alanson was a totally fulfilled man. But he was not. There was something lacking in his life, something vague and indefinable that was needed to make his personality complete.

Then one day Alanson discovered what it was. As he was walking out of his class in Flemish pottery, a fetching coed named Grace Ek offered him a handsome red and white pack and said, "Marlboro?"

"Yes!" he cried, for all at once he knew what he had been needing to round out his personality—the hearty fulfillment of Marlboro Cigarettes, the soul-repairing mildness of their fine tobacco, the easy draw of their unparalleled filter, the ease and convenience of their crushproof flip-top box. "Yes, I will take a Marlboro!" cried Alanson. "And I will also take you to wife if you will have me!"

"La!" she exclaimed, throwing her apron over her face. But after a while she removed it and they were married. Today they live happily in Baffin Land where Alanson is with an otter-glazing firm and Grace is a bookie.

Propinquity, the second principal cause of marriage, simply means closeness. Put a boy and a girl close together for a sustained period of time and their proximity will certainly ripen into love and their love into marriage. A perfect example is the case of Fafnir Sigafous.

While a freshman at Louisiana State University, Fafnir was required to crawl through the Big Inch pipeline as part of his fraternity initiation. He entered the pipe at Baton Rouge and, alone and joyless, he proceeded to crawl north.

As he passed Lafayette, Indiana, he was agreeably surprised to be joined by a comely girl named Mary Alice Isinglass, a Purdue freshman, who, oddly enough, had to crawl through the Big Inch as part of her sorority initiation.

When they reached the Vermont border they were cold steady

Chatting amiably as they crawled through Ohio, Pennsylvania, and New York State, Fafnir and Mary Alice discovered they had much in common—like a mutual affection for licorice, bobsledding, and the nonsense verse of Arnold Toynbee. When they reached the Vermont border they were going steady, and when they emerged from the pipe at Boothbay Harbor, Maine, they were engaged.

After a good hot bath they were married and today they live in Klamath Falls, Oregon, where Fafnir is in the weights and measures department and Mary Alice is in the roofing game. They have three children, all named Norman. © 1958, Max Shulman

Propinquity is sure to mean love when you put yourself close to a pack of Marlboros, made for your pleasure by the sponsors of this column.
