S. G. Suggests Priorities For Rooms In New Dorm

At the March 13 Student Government meeting, the college administration's proposal relative to priority on rooms in the new dorm next fall was approved by the Senate, but with a few amendments. Instead of drawing lots for the rooms as was suggested, the bill was amended

Symphonic Band Begins (N. C.) Tour

The North Carolina State College symphonic band left early this morning to begin its 1958 concert tour. The band will be gone for three days during which it will perform concerts in six North Carolina cities. Today there will be a morning concert in Clinton, an afternoon and evening concert in Goldsboro.

Tomorrow the band will give a morning concert in Lumberton and travel to Fairmount for afternoon and evening performances. Wednesday morning a concert will be given in Concord, and a final afternoon performance will conclude the tour.

\$10 for the phones, the matter was postponed indefinitely.

The Rules Committee, which has been engaged for some time in the matter of revising the Student Government Constitution, reported that at a special call meeting of the Student Government next week copies of the revised Constitution will be presented to the Senate for approval.

SG Banquet

Plans have been arranged for the annual Student Government Banquet which has been set for May 16. President Friday has been invited to speak before the members of the Student Government at the banquet.

CU Elections

The Investigations Committee of the Senate has been assigned to investigate the matter of elections for College Union officers and Board of Directors.

Senator Ray announced that the election books will be open for nominations for offices March 17 through March 25.

to read that during the week suggested for sign-ups, rising Seniors and graduate students were to have the first two days, rising Juniors the next two, and the last day for rising Sophomores.

The Technician contacted Dean N. E. Watts, Director of Housing, to see if a final decision by the administration to uphold the SG's decision on dorm priority had been made. Watts stated that "a final administrative decision concerning priority on the West Campus Dorms has not been reached."

Dorm Phones

Senator Carlton reported that funds are not currently available for free telephone service in the present dorms. Since it is doubtful that a majority of the students are willing to pay

From General Assembly

Campus Improvements Asked

By Roy Lathrop
Next year's meeting of the North Carolina General Assembly will see a long list of requests from State College for needed permanent improvements.

The improvements requested are those needed prior to the 1963-64 academic year; it is necessary to obtain appropriations several years in advance so that planning and contracting can be scheduled accordingly.

Among the improvements requested are funds for a new cafeteria; it is generally believed that the present building housing the Cafeteria is not worth a large investment for repairs.

Walks, Streets

Another important need on the list is expansion of utilities, walks, streets, parking areas, and renovations and special re-

pairs to present buildings. Buildings under consideration for renovation are Peele Hall (for administrative offices), Frank Thompson Gymnasium (for Department of Rural and Industrial Recreation), Tompkins Hall (for General Studies and Education), an additional floor on Brooks Hall (Architecture), enlargement of Paper and Pulp Laboratory Building, and general renovation of all dormitories.

Dorms and Infirmary

Under the category of "Housing and other Student Facilities" are requests for dormitory space for 2,000 more students, and an "Infirmary - Student Health Center of 100 beds. The present infirmary would probably be reconverted to dormitory space.

New buildings being requested include: classroom facilities

for General Studies and Education (80,000 sq. ft.); engineering laboratories, offices, and classrooms (400,000 sq. ft., now has approximately 400,000 sq. ft.); a Minerals Research Laboratory at Asheville; a General Forestry Building; chemistry laboratories and classrooms totaling 60,000 sq. ft.; and an Agricultural Administration Building of 40,000 sq. ft.

Air Conditioning

Also, an appropriation is being requested to air condition the auditoriums in Withers and Williams Halls.

It is to be understood that this list includes items that are to be requested in the General Assembly next year; all these items may not be acted upon, but the list is for those improvements that are needed by 1963 as dictated by the long range planning for State College.

Fraternity Men Begin 'Greek Week' Today

By Billy Evans

The eighteen social fraternities at State began "Greek Week" today and will end it Saturday with an innovation to the event this year—a field day. Plans for the annual "Greek Week" activities at State include a canned food drive, exchange suppers, a banquet, and a field day.

The annual event is sponsored in an attempt to better relations between fraternity men and between the fraternity system and the public.

Door to door collections in Raleigh are planned on Wednesday and Thursday nights to collect food which will be given to the local welfare department for distribution to needy families.

Exchange Suppers

During the week fraternity men will be participating in exchange suppers. Each fraternity will be sending its members to the other seventeen fraternities during the week for the evening meal.

A banquet for all fraternity men, their dates, and special guests is planned for Friday night in the College Cafeteria.

Award For Most Food

An award will be presented during the banquet to the fraternity collecting the most canned food. Also planned for presentation are the Interfrater-

nity Council scholarship trophy to the fraternity with the highest scholastic average for the last college year and the Sigma Pi scholarship trophy to the fraternity whose pledge had the highest scholastic average.

Keys will be presented to the fraternity presidents, IFC representatives, and IFC officers.

Entertainment for the banquet will be furnished by members of the fraternities.

Fraternity men will be participating in a field day Saturday afternoon.

The field day will consist of competition between fraternities in such events as tug of war, egg throwing, wheel barrow races and sack races between girl friends. A different type of stock car race is being planned—one in which the cars will move only if they are pushed by the fraternities' members.

Committee chairmen for "Greek Week" are:

Sherrill Brinkley, Montie Hicks, Jerry Church, Earl Thompson, and Ben Kittrell.

On Saturday

Nuckolls Is Named Top State Engineer

Edward W. Nuckolls, a senior in engineering from Hendersonville, was named "Outstanding Senior in Engineering" at State last Saturday night out of a class of 425 engineering seniors.

Announcement of the award was made during the intermission of the annual St. Patrick's Dance at the Coliseum last weekend by Dean of Engineering J. Harold Lampe.

In making the presentation of an engraved pocket watch, Dean Lampe told Nuckolls that he has "distinguished himself as a gentleman and as a scholar, in addition to making outstanding contributions as a leader in both student and community activities."

Nuckolls, who is President of the Engineers' Council, a member of Golden Chain, Blue Key, and other honor fraternities on campus, has an average of 8.81.

Kappa Phi Kappa Holds Initiation For 31 Men

Thirty-one students have been initiated into Kappa Phi Kappa, national professional honorary education fraternity.

In addition to high scholarship, members were chosen on the basis of leadership, character, and in advancing education.

Kappa Phi Kappa initiates are: Paul L. Balonick, Lehman W. Barnes, Jr., Billy Joe Boles, Chester R. Boyd, Jr., Kirby D. Brock, Robert C. Bunch, Howard F. Burns, J. W. Busick, John T. Campbell, Jr., John W. Crivley, Fred Eargle, Ted A. Edwards, Thomas R. Fulghum.

James D. Gregson, Jr., Thomas J. Guerrieri, John H. Hurst

III, Isaac A. Jones, Jr., Zack F. Ladd, James A. Lewis, Jr., Joseph J. Maccaroni, Stuart B. Moore, Tom A. Morgan, Walter B. Nobel, Jr., Albert C. Purvis, Lawrence D. Reese, Augustas D. Scott, Allen V. Sbermer, Thomas Sugg, Byron S. Taylor, Frank B. Trotman, and Elwood J. Walker.

Earl Lemons served as Pledge Master during Pledge Week.

The officers of Kappa Phi Kappa are: President, Ben Browning; Vice-president, Bob Brisson; Secretary, Ben Kittrell; Expansion Secretary, Clifton Woodlief; Treasurer, Jeff Weavil, and faculty adviser, Professor Thomas Ira Hines.

Carnival Night To Be In April

Scheduled to be the "largest of the year" at the College Union, the annual Carnival Night activities on April 18 and 19 this year are being planned in conjunction with Parents' Weekend, the Engineers' Fair and Consolidated University Day.

Beginning with a kick-off dance and a few of the Carnival attractions Friday night at 7 p.m., the event is to get into full swing Saturday at 1 p.m.

Booths Asked

Campus organizations have been urged to start making plans to enter a booth for the night's activities. The entering organization will keep 90% of the booth's profits. In addition, loving cups will be presented to the organizations sponsoring the booths that are most profitable, best decorated and most original.

WC Booths

Along with the campus booths, Woman's College is scheduled to enter 12 booths, and is planning to bring a 14-piece dance band to play for part of the Consolidated University Day dance Saturday night, plus 15 to 18 busloads of girls.

Booth chairmen should leave their names with the Union Activities as soon as possible.

Only organizations entering booths are eligible to enter a contestant for Carnival Night Queen. The contest for queen will be held March 10-April 10.

Carnival Night Chairman is Bob Adams, of Winston-Salem.

YMCA Open House Thursday, Friday

The college YMCA will hold an open house for all students, faculty members, and staff members of State College on Thursday and Friday afternoons of this week from 4-6:00 p.m. Refreshments will be served.

The open house will be held in the recently renovated North Parlor of the "Y". The Parlor was finished early this month. The renovation was made possible by an appropriation from the Legislature last session.

All students, whether "Y" members or not, are invited to the open house.

The hostess at the new parlor is Mrs. W. H. Baird. The architect was James A. Scovill, who is with Leif Valand Co. of Raleigh. Contractor was William C. Vick Co.

The new parlor is available for use by any college organization for social or business meetings. The parlor can be reserved for such meetings by calling the "Y".

Shown are some of the buildings and grounds that need improvement or replacement. Top row (l. to r.) are the Cafeteria, Clark Infirmary, and one of our muddy

walkways; bottom row presents a lovely landscape scene, an unpaved parking lot, and some buildings that shouldn't be there. Photo by Kjosnes.

Hollow Halls

Appearing on the front page of this issue is an article pointing out the various improvements to be asked for State College from the North Carolina General Assembly.

None of us will question the need of these improvements; but we do raise the issue of "First things First", and strength and quality of our teaching staff at State should come before an expanded physical plant.

Not so long ago the General Assembly voted to raise the salaries of all state teachers; however, the raise granted to North Carolina teachers was only a token amount when compared to the real need. We at State, as in every educational institution, are becoming increasingly aware of the shortage of well-qualified and interested teachers; but if we are to place any blame for this shortage, let's be careful where we point our accusing fingers.

First of all, let's see how many of us would want to go to work in the teaching profession or any profession at the salaries now being paid to our instructors. It is not an uncommon occurrence for some State graduates to start at a higher salary than is being paid some of the teachers who helped them get their degree; such a situation is as unfair as it is humiliating to our staff.

In view of these circumstances, how can we the students and administration of State College expect good men to leave job opportunities elsewhere to come and teach at a drastic reduction in salary? How can we expect the proverbial "zeal for giving knowledge" to compensate our professors sufficiently to overcome the need for more material, monetary reward which at present is so small? How can this college ever hope to approach M.I.T. standards by simply expanding our size without expanding the number and quality of our teaching staff, which can only be done by offering greater rewards?

Governor Hodges is known far and wide for his very energetic efforts to bring industry to North Carolina; and most of us can readily see the need of such action. However, Governor Hodges and his administration are overlooking a vital opportunity; industry and business will not be nearly so impressed with the size of our educational systems as they will be impressed with its quality . . . and we are not increasing the quality of education merely by doubling our classroom space.

Sure, we do need more facilities, equipment, etc., etc., etc. . . . but first let's fill what we have with men who can teach us well because they are well paid.

—RL

Power Corrupts ?

Current issues of other colleges frequently give us insight into problems of our own. Recently, a protest group at Womans College in Greensboro went to their Student Government and Chancellor with what we consider a real complaint; it seems that the Judicial Board at W.C. rather over-stepped its power by instigating an unannounced search of dormitories, whereby many sinful and wicked things were uncovered in the girls' rooms (like empty liquor bottles, a copy of Mother Goose Tales, and Stalin's Reflections from the Grave).

The point raised by the protest group was one of their "rights" and the rights of their Judy Board; evidently the judicious wisewomen don't believe our Founding Fathers had much on the ball when they put in the Bill of Rights that persons shall be secure from unwarranted search. We hope W.C.'s Student Government will reconsider their action.

But this serves to point out that any governing body that incorporates its own judicial system can at times become a bit over-ambitious with its power. And when any such group starts to abuse its privileges, someone in a position of higher authority may be forced to step in.

—RL

Fraternity Line

Group Purchases, Girls' Rules, Greek Week

By Oscar Grant

The meeting which will be held for fraternity kitchen managers Thursday night will be a significant one in the struggle which has been going on this year to secure a method of group purchasing for State's eighteen fraternity kitchens. At this meeting, kitchen managers will most likely award a contract to one of the local dairies which submitted the lowest bid for milk business of the "18". The significant thing about this contract will not be so much the savings which will result, but rather the fact that it represents the first in what is hoped to be a long series of steps which must be taken before a comprehensive and complete group purchase plan will be an actuality.

At present, a number of different proposals to expand group purchasing are being studied, and some of these will be discussed at the meeting Thursday night. Regardless of which of these plans is finally adopted, fraternity men can rest assured that the end result will be a savings which

will be large enough to have a substantial effect on each individual pocketbook.

Weekend Permission

Perhaps another good break is forthcoming in the struggle at the local girls schools to obtain the same rules in Raleigh which apply to these girls when they are visiting Chapel Hill, Duke, and other colleges outside Raleigh. At present, there is a petition in the Student Legislature at St. Mary's to allow these girls to take weekends in Raleigh as they do when they go outside of Raleigh. Providing this petition passes the St. Mary's Legislature, it will then go to Dr. Stone, president of the college for final approval. This writer does not give the petition much chance at this point. Past experience has proven that most of the proposals to change existing rules at this school "get the ax" at this point.

However, if enough students persist on matters of this nature, eventually the resulting pressure will force conservative administrators to change their thinking on such matters. . . .

Greek Week

As can be seen from the article on Greek Week in this

paper, fraternity men have a great deal to look forward to during this year's event. Just another example of what a fine job your I.F.C. is doing this year. This event will also prove to be an example of the hard work which must be done to make such an event successful, which, in turn, is another reason why all of us should continue to co-operate with the I.F.C.

Notice - Elections

All students who intend to run for campus offices in the April elections are reminded that the election books are now open in Holladay Hall.

new policies into effect. "The AFROTC has long been recognized as a principal source of officers for the active duty Air Force. It may be that in the future other programs for attracting college graduates to the Air Force may be adopted, but I feel sure that the AFROTC will continue to be of great importance to the Air Force."

And Colonel Merriam, of the Army ROTC says, "Though the Army ROTC program is under constant study and revision for the purpose of improvement and of keeping it current, we at present know of no changes, actual or contemplated, which amount to 'drastically reducing or even eliminating' the Army ROTC program."

"Concerning the statement to the effect that ROTC is failing to produce a sufficient number of high caliber officers (also in the LOOK article), the ROTC produced over 100,000 officers who served in all capacities from 2nd Lt. to general in WW II. Of the 26,750 Army Lieutenants called to active duty during the Korean conflict, 18,650, or 70%, were ROTC graduates. Approximately one half of the yearly regular Army officer procurement is from ROTC sources. . . .

"Concerning Department of Defense support of the ROTC program the most recent announcement of policy available to us is contained in a bulletin dated January 6, 1958, which reprinted a portion of a letter from Mr. Donald A. Quarles, Deputy Secretary of Defense, to Mr. John Hannah, President of Michigan State University, which stated: 'I hope that the remarks of the members of the policy council served to assure you and your colleagues that there has been no diminution of the Department's support of the ROTC programs.'"

WHAT TO WEAR ON THE SATELLITE

SCENE: It is almost zero hour at Los Bismuth. On stage are Capt. Carruthers, the man in charge of the launching of the satellite, and Manfred Faustus Sport, the man who will ride the satellite.
Carr: Well, Sport, this is it.
Sport: Real gas, Cap. I'm almost flying already. How do I look?
Carr: You could wear cat-gut and lemon-peels, and who would be the wiser?
Sport: Wake up, Cap. What about that crowd at Mt. Palomar with that big, spooky telescope? Got to look spiffy for them.
Carr: That shirt's a beaut. But, where's the rest of your luggage?
Sport: Who needs more? This shirt is a Van Heusen Vantage

shirt. It's one of those all cotton, drip-dry numbers that never needs ironing.
Carr: What a discovery! But how will you wash it up there?
Sport: In the rain, man, in the rain.
Carr: And how will you dry it?
Sport: In the sun, man, in the sun.
Carr: Well, it's zero minus one. Sport, you'll be gone forever. (SOUND OF WHOOSH-ING). He's gone.
EPILOGUE: The scene is the observatory at Mt. Palomar.
Scientist: Man, he's real gone. Just look at that Van Heusen Vantage shirt.
Yes, in outer space, or right here on terra firma, no drip-dry discovery ranks with Van Heusen Vantage shirts. The tariff? Only \$5.

Wolfpack Varsity Tops Former Greats, 14-13

UNC's Brennan Named To Look All-America

Pete Brennan, North Carolina, was named today to the 1958 Look Magazine Basketball All America, picked by the United States Basketball Writers Association.

"North Carolina's Brennan has carried perhaps a heavier individual load than any other All America," declares the All America report in the current issue of Look.

The nation's ten top hoop stars, as selected by the 500-member Basketball Writers Association for Look, are:

Elgin Baylor, 6'6", Seattle; Bob Boozer, 6'8", Kansas State; Pete Brennan, 6'6", North Carolina; Wilt Chamberlain, 7', Kansas; Archie Dees, 6'8", Indiana; Mike Farmer, 6'7", San Francisco; Don Hennon, 5'8 1/2", Pittsburgh; Bailey Howell, 6'7", Mississippi State; Oscar Robertson, 6'5", Cincinnati; and Guy Rodgers, 6', Temple.

Temple Center Named To North All-Star Squad

Two more players have been added to the North squad for the first annual North-South basketball game to be played in Reynolds Coliseum here March 28.

Tink Van Patton, 6-8 pivot-man from Temple, and high-scoring Rudy Finderson of Brandeis have been selected for the all-star contest, according to an announcement by promoter Gene Shue.

Van Patton, a senior from Chester, Pa., has been an important factor in Temple's success this year teaming with Guy Rodgers, Jay Norman, Bill Kennedy and Mel Bordsky to give the Owls one of the nation's top teams.

Finderson, High Scorer

Finderson is the leading scorer for Brandeis with a 27-point average per game. Adding his scoring punch to the North squad gives Coach Joe Lapchick one of the most potent all-star teams ever assembled.

Other North players, announced earlier, are Jack Paar, Kansas State; Johnny Lee, Yale; George Kline, Minnesota; Hal Greer, Marshall; Jack Quiggle, Michigan State; Don Ohl, Illinois; Tom Garberina, LaSalle; Arlene Boekhorn, Dayton; and Wayne Embry, Miami of Ohio.

No Word From Baylor

Shue said he has not heard from Elgin Baylor of Seattle. Baylor told Shue earlier that he would play for the North if he decided to quit college and turn professional.

One more spot remains to be filled on Coach Everett Case's South squad. Shue said he expects to fill the vacancy within

State football fans got their first look at the 1958 edition of the Wolfpack gridders Saturday as they upended a strong outfit of Old Timers, 14-13, on the track field before a crowd of 1,500.

From the play of the Wolfpack regulars, the defending ACC champs will again give conference coaches many sleepless nights come time for the football season this fall. Coach Earle Edwards, top man for the Pack, was pleased with the work of the Pack throughout the off-season practices.

The game itself was a close contest with a hard tackle behind the goal line of the Old Timers giving the Varsity a one and final point edge. Coach Edwards summarized the game by stating that both teams gave a fine showing and the principal point of the game was to have some fun.

The varsity took the lead midway the first quarter when Ken Trowbridge flagged a pass from QB Ernie Driscoll to score. The TD was set up by End Finley Reed, who recovered a loose ball fumbled by Alex Webster who couldn't handle a wide pitchout. Ron Podwick's PAT failed.

After stopping a Varsity drive to the 30, the Old Timers took the offensive, scoring their first TD in the third quarter. Eddie West took command, tossing a long pass down the middle which was snagged by George Marinkov. Dick Christy's conversion was blocked by guard Frank Morocco.

The next few days. "I'm looking for a big man," the promoter said, "so the South will have plenty of height to go along with its well-balanced scoring attack."

Tickets for the cage attraction are on sale at the Coliseum box office. Reserved seats are priced at \$3., \$2.50 and \$2.

The Old Timers sustained their spark and recovered a wild pass from center on the Varsity's 17. On the third try, Dick Christy scored on a pass from QB Tom Katich, and kicked the extra point.

The Varsity's second TD came in the fourth quarter when Er-

nie Driscoll connected with an end zone TD pass to end Finley Reed. Their try for the point missed, leaving them behind 13-12, thereby setting the stage for the final rally when Joe Mazutis tackled Christy, and recovered his fumble in the end zone for the 14-13 win.

State All-American Dick Christy clears the way for quarterback Tom Katich (arrow) as the "Old Timers" gain against the State Varsity in Saturday's game. The Varsity proved too much for the former greats as they won, 14-13.

INTRAMURALS

In the Intramural picture this week, the Swimming Meet Finals will be held Thursday night, March 20, at 8:00 p.m. The preliminaries which were held this past Wednesday night proved to be the best witnessed at State College in the past few years, and the Finals should be quite a show.

The diving will begin at 7:00, followed at 8:00 by the swimming heats. The schedule of events and participants will be listed in the March 20 issue of *The Technician*, and all Dormitories and Fraternities are urged to attend and cheer their teams on.

Table Tennis and Handball will be going into the finals this week, as both the Fraternity

and Dormitory championships will be decided Tuesday night when S.P.E. meets the winner of the Sigma Chi-Delta Sig meet, and Turl. 2 meets the winner of the Beet. 1-Beet. 2 match in table tennis.

Student Affairs Bulletin**

CAMPUS ELECTIONS—The Elections Committee announces nominations for campus offices open Mon., March 17, and close Tues., March 25. Nominations book is in 206 Holladay Hall, and may be signed by a candidate and his co-signer any time between 9 a.m. and 5 p.m. The Elections Committee urges all interested and qualified persons to run for office. Also, if you know someone who would make a good officer, recommend that he run.

STUDENT EMPLOYMENT OFFICE, 207 Holladay Hall, has a list of yard, garden, and house jobs for afternoons and weekends. The best time to get these jobs is on Wed., Thurs., and Fri. Many can be arranged as permanent weekly work paying as much as \$5.00 to \$10.00 or more depending upon the number of hours available. **THE COLLEGE UNION** also has a number of job opportunities for students interested in working as waiters in State Room and at banquets. This is steady employment for rest of semester. Interested stu-

dents should contact Student Employment Office, 207 Holladay Hall.

ANNUAL INSPECTION ARMY ROTC—Inspectors from Third U. S. Army will conduct the annual inspection of the Army ROTC Dept. at N. C. State on March 20-21. Formal inspection of cadet corps will be held 11 a.m. to 1 p.m., Thurs., March 20. Army ROTC cadets and members of the NCSA Band will be excused from conflicting classes during this period. No other part of the inspection will interfere with regularly scheduled academic work.

FOREIGN STUDENTS—Just a reminder regarding the visit to Colonial Stores on Tues., March 18. Bus leaves College Union, 3 p.m. Report for trip even though your card was not sent in. **DR. JOHN F. VICTORY**, Exec. Secty. for Natl. Advisory Committee for Aeronautics, will speak in C. U. Ballroom, Tues., March 18, 8 p.m. **DISMISSAL OF CLASSES — FALL SEMESTER, 1958**—As a result of Student Gov't. recommendations and in ac-

cordance with Faculty Senate action of Jan. 21, 1958, the College administration announces that all classes will be dismissed next fall as follows: 11 a.m., Sat., Sept. 26, Carolina Game—10 a.m., Sat., Nov. 1, Homecoming (VPE).

AWARDS FOR GRADUATE STUDY IN IRELAND—Deadline, April 15, 1958. Some information available at 201 Holladay Hall. Obtain applications from Institute of International Education, 1 East 67th Street, New York 21, New York.

STUDENT-FACULTY INTRAMURAL TOURNAMENT in Table Tennis and Handball. Entries now being accepted for: Table Tennis—singles and doubles; Handball—singles and doubles. Deadline for entries March 20. More details Intramural Office, ext. 218.

ESSO RESEARCH works wonders with oil

New toys that play for keeps—because of oil

Why do some toys last longer nowadays? Certainly children haven't changed. What has changed is the material many toys are made of—a plastic that's tougher, more flexible and color-fixed because the color is part of the plastic. Esso Research developed from oil an essential material from which this new plastic is made. In products for your children, and your car, **ESSO RESEARCH** works wonders with oil.
