Last Year's Carnival Night

Here a group of students play Bingo at one of the many booths in last year's Carnival Night at the College Union. This booth won the first prize last year and made over \$100. This year, Carnival Night begins at 8:00 p.m. tomorrow with the annual dance in the C.U. Ballroom. Some booths will be open during the dance, with all booths opening at 1:00 p.m. Saturday.

With Kick-off Dance

CU Carnival Opens On Friday Night

This year the annual College Union Carnival will be held in conjunction with Consolidated University Day. As a result, there will be 15 bus-loads of girls from Woman's College here on Saturday.

The festivities begin at 8:00 p.m. Friday, April 18, with the informal Carnival kick-off dance. Some of the Carnival booths will be in operation during the dance.

The seven Carnival Queen finalists will be presented at 9:30 Friday night. There are approximately 25 contestants for the Carnival Queen contest.

The Carnival Queen will be officially presented at 9:30 p.m. Saturday in the CU ballroom. Her court will consist of the six other finalists.

The carnival will re-open at 1 p.m. Saturday. Most of the booths will be in operation by this time. There will be approximately 40 booths this year and 12 of these will be sponsored by WC. The University of North Carolina will sponsor one booth.

A German band, which will be made up of N. C. State College Band members, will tour the buildings during the Carnival. The CU Film Committee will add to the laughter and gaiety of the Carnival as they will be the Carnival clowns.

The Carnival and Consolidated University Day Dance will begin at 7:00 p.m. Saturday. "The Lamplighters," a band made up of N. C. State students, will furnish the music for the dance.

The Mary Foust dormitory of WC will present "Exotic Hawaii," a side-show, from 3:00 to 10:30 p.m. Each show will last 20 minutes, and will be performed by members of the School of Dancing at WC.

Several business concerns in the Raleigh area have donated

gifts to the Carnival Committee to be used as door prizes. Some of the gifts are shirts, meal tickets, movie tickets, "college refreshment" tickets, and many more. The following are the business concerns that donated the gifts: Ken Ben 5&10, Norman's, Varsity Men's Store, Top Hat Grill, State House, Proctor's, American Tobacco Co., Man-Mur Bowling Lanes, Theim's Record Shop, The Profile, The Village Theatre, The State Theatre, The Ambassador Theatre, The Music Bar, Weatherman's, Boylan-Pearce, and Jean's of Raleigh.

Weekend Schedule

Friday, April 18

2 p.m.—Gov. Hodges to open Eng.'s Fair
(Open until 9 p.m. Friday and 5 p.m. Sat.)

7:30 p.m.—Carnival Night Dance in CU

Saturday, April 19

9 a.m.—Parent's Registration in CU.
Coffee hour in CU

9 a.m.-5 p.m.—Engineers' Fair

1 p.m.—Carnival Night officially opens in CU Dormitory and fraternity open house

2 p.m.—Duke vs. State baseball (ball field behind Coliseum)

2 p.m.—Informal tea in YMCA Lounge
(Sponsored by Blue Key social fraternity)

Sunday, April 20

11 a.m.—Special service in Danforth Chapel in YMCA

2 p.m.—Interfraternity Sing in CU Ballroom

Interfraternity Sing At 2 p.m. on Sunday

A wide range of musical organizations will perform during the seventh annual Interfraternity Sing in the North Carolina State College Union Building Sunday at 2 p.m.

Tau Chapter of Pi Kappa Phi social fraternity will sponsor the Sing, one of the events planned for the "Parents' Weekend" beginning Friday at the college.

Singing groups from the 18 social fraternities will be competing for the cup which is awarded each year to the winner.

During the program both the Meredith College Triple Trio and the State College Glee Club Quartet will perform.

Jimmy Capps, conductor of Radio Station WPTF's popular "Our Best to You" program, will act as master of ceremonies for the Sing, which will be open to the public.

The Interfraternity Sing last year was recorded by the nationwide facilities of "Monitor."

Knox Running For Veep

Bob Hutchins, campaign manager for Eddie Knox, today announced that Eddie is a candidate for Vice-President of the Student Government.

In the announcement Bob stated that the office of Vice-President calls for experience and ability in presiding over meet-

Saied Enters Sen. Pres. Race

Tommy Saied, a junior in Civil Engineering, has entered the race for Senior Class President.

Saied, a member of the American Society of Civil Engineers, has been an Interfraternity Council representative for the past semester. He is a member of Pi Kappa Phi social fraternity and has served as chairman of various standing committees in his fraternity. He is a member of the Arnold Air Society and was temporary Cadet Wing Commander of the AFROT's annual Junior ROTC last month.

Concerning his candidacy, Saied has this to say: "I think a group such as the Senior Class at N. C. State is capable of accomplishing things never before thought of in the past. If by some means, yet undiscovered, the class could unite to become more active and become closer associated, the capabilities and efficiency of the Senior Class would reach an unbelievable high.

When this is done, such matters as diplomas, the Senior gift to the school, and other activities presenting problems, could be solved easier and more quickly. All of this may sound familiar, but there is a way to reach the majority of the student's interest and I am certain that through my sincere interest and determination, I can find the solution. In conclusion, I wish to see the Seniors of 1959 get the credit, prestige, and recognition they undoubtedly deserve."

'58 Parent's Weekend Will Open Tomorrow

The annual "Parents' Weekend" will open tomorrow at 2 p.m. when Governor Hodges will formally open the Engineer's Fair in the Coliseum.

All engineering classes will be dismissed between 2 and 3 p.m.

In addition to the fair, there is also planned the CU Carnival Night, Consolidated University Day, a tea, the State-Duke baseball game, a special service at Danforth Chapel, the IFC

sing, dormitory and fraternity open house, and two informal dances at the CU.

"Parents' Weekend" is being sponsored by Golden Chain, senior honorary society. "The primary purpose of the weekend," according to society president Jim Peden of Raleigh, "is to acquaint the parents with the life of the students at State."

Parents will register Saturday morning from 10-12 p.m.

on the ground floor of the College Union.

The Engineer's Fair, a two-day event sponsored by the Engineer's Council, will be open to visitors from 1 p.m. to 9 p.m. Friday and from 9 a.m. to 5 p.m. Saturday. Displays will be in the Coliseum and in all Engineering classroom buildings.

A dance in the CU Friday night will begin Carnival Night festivities which will officially begin at 1 p.m. Saturday. Numerous booths will be open for business for students and visitors.

The Consolidated University Day Dance will be held Saturday night with music furnished by a 14-piece orchestra from Woman's College. Carnival Night Queen will be crowned at 9:30 during the dance.

The Wolfpack will take on the Duke Blue Devils here at 2 p.m. Saturday.

Following the ball game, Blue Key Honor Fraternity will sponsor a tea in the new lounge of the YMCA. (The tea was formerly to be held in the College Union, but the location has been changed to the YMCA.)

Dormitories and fraternity houses will observe open house Saturday afternoon. The Rev. Oscar B. Woolbridge, Jr., coordinator of religious affairs, will be in charge of a worship service for parents and students Sunday at 11 a.m. in the new Danforth Chapel in the YMCA Building.

The annual Interfraternity Sing, sponsored by Pi Kappa Phi social fraternity, in the CU Ballroom at 2 p.m. Sunday will conclude the weekend.

Elections Committee Issues Reminder

The following statement has been handed The Technician by Nick Ray, Chairman of the Elections Committee for publication.

"The Elections Committee wishes to re-emphasize the responsibility of each candidate for the actions of his supporters. A candidate may be disqualified if a supporter or candidate is found removing another's campaign material.

"If it is necessary for a candidate to tear down another's publicity to win, it is in the best interest of the students of State College that he not be elected to represent these students.

Kay Seeking Vice-Pres.

Bill Kay, a rising senior in Civil Engineering, has thrown his hat into the ring for Student Government Vice President.

Kay has served for the past two years in the Legislature as Senator from the School of Engineering. This past year he has been active as president of the

Order of Thirty and Three.

Kay had this to say about the office of Vice President: "I feel that my past experience in Student Government and campus organizations makes me the best qualified candidate for Vice President of Student Government. I have received experience in the administration of committees in Thirty and Three that I feel will be invaluable in the Student Government Legislature.

"My platform includes the following points: first, I intend to help the Legislature have its most successful year through close supervision of its committees; second, I stand for a wise and intelligent use of parliamentary procedure in the Legislature in order to conduct the most efficient and successful meetings possible. Third, I intend to take steps to set up a filing system in the Government in order to have the proceedings of the Legislature recorded in a more convenient form than just chronologically in the minutes, a need that is long overdue meeting.

"Finally, I intend to see that student opinion is reflected in all business of the S.G., and I will strive to develop a closer cooperation between the students, the Administration, and your Student Government."

Capel Is Seeking Senior Pres.

Aaron Capel, a rising senior in the School of Textiles, is running for the office of President of the Senior Class.

Capel, in his three years at State, has been active in a large cross-section of campus life; among his activities are the following:

For three years, Senator in Student Government from the School of Textiles. Vice-president of the Junior Class

Member of Blue Key Member of Thirty and Three Council, Tompkins Textile Chairman, Student Government Investigations Committee.

In announcing his candidacy for President of the Senior Class, Capel gave a statement to The Technician which is as follows:

"In running for President of the Senior Class, I wish to present to you a platform that I can fulfill if I am elected. In past years, the Senior Class has

been asked by its officers to pay class dues in order that the seniors might present the school with a class gift. If I am elected there will be no class dues.

"As Vice-president of the Junior Class I have prepared mimeographed copies of the Junior class budget. This budget, approved by your class Treasurer, shows that at the

(See CAPEL, page 10)

Banquet Set For Monday

The annual Leadership Banquet sponsored by the YMCA will be held Monday night. The purpose of the banquet is to give campus leaders and candidates for office an opportunity to meet and discuss campus affairs.

The speaker for this year's banquet will be Thad Eure, Secretary of State of North Carolina. Secretary Eure is a graduate of the University of North Carolina and the University Law School.

It is a tradition for candidates seeking office to attend this banquet.

The banquet will be held at 7 p.m. on Monday, April 21, in Room 256-58 of the College Union. Reservations can be made at the YMCA through Friday, April 18, for \$1.50.

To Vote or Not To Vote

Every year at this time, State College blossoms out with posters and high-sounding words of promise, and State, along with every other college in the U. S., tries to "get out the vote!"

It seems to us that some new approach should be devised to make the whole student body more aware of election importance. In the past, campus leaders have worn themselves out while spouting trite phrases like "It is your privilege and duty to vote!" and "Every student owes it to himself and his college to have a say in who governs his campus. . . ."

No matter how sincere these leaders have been, or how basically true their words, somehow all the urging falls flat into unhearing or uncaring ears. Last year, only a little more than half of us bothered to stop for a few minutes at one of the polls to vote.

Well, what can we add to our predecessors who have tried so hard to convince the student body that campus elections are something more than petty politics? Should today's campus leaders beg, should they threaten, should they simply give it up for a lost cause? The solution may lie in the answer to the question, "Why should we, the students, consider it important to vote in campus politics . . . why is it worth the trouble?"

Our only answer is this: "We should vote because we are responsible for committing the winners to a whole lot of work and a whole lot of responsibility."

Those persons whose names appear on the ballots are only asking us, the students, to give them the privilege of working late at night to revise a constitution, of spending long hours trying to get better prices on date tickets, of taking the time and trouble to improve our cafeteria and housing and school spirit and parking and educational standards and . . . well, you know the rest if you just think a minute, and you know the list is long and varied.

Tuesday, April 22, is election day at State. None of us can possibly go anywhere on campus without passing a poll. And this year, as in all others, we will again see if its worth a few minutes of your time to decide upon your leaders for 1958-59. We can hope that the outcome will not be so repetitious this year.

—RL

Chance To Help

We want to make a correction to a statement that appeared in the last issue; the last day to submit applications as a group leader in next year's freshman orientation is not Monday, April 27, but rather falls on Saturday, April 19.

This is a fine opportunity for every one of us that wants to do something really important for our school.

It has been reasoned by supporters of the new plan that out of the more than 300 candidates now running for office, there will be at least 100 who will be interested in serving the campus in the capacity of group leader next fall. Win or lose in the elections they will have a chance to be really useful.

Dick Ribakove and his committee on orientation merit a great deal of appreciation for the organizational work they have done to perfect this new plan; let's show our appreciation by giving it full support.

—RL

"YA MEAN IT WAS AN 'OPEN BOOK' TEST??—AN ALL THIS TIME I THOUGHT I WAS CHEATING!!"

Campus Cosmo

Reactors Are Not Enough!

by Chuck Lombard
A U.S.C. co-ed complained in a letter to the editor of the *Gamecock* that U.S.C. administrators were considering filling up the theater on campus with old mattresses.

The co-ed thought the administration should support culture on her campus and not drive the arts into a corner.

Well, I'm sorry for her, but we have our own problem here at State—we don't even have a theater. Let us face the facts; Pullen Hall is a totally inadequate wreck and there is no other stage on campus.

I keep hearing the old story about how we engineers should become cultured as part of our education. We hear how our value to society will lie as much in our being "full men" as in our dexterity with a slide rule.

Well, the only Bernard Shaw I ever knew came out of a book until I drove 24 miles to Chapel Hill to see "Back to Methu-

lah." I could say the same thing about Greek tragedy until I saw "Media" at Meredith, where they have less than 600 girls . . . but a good auditorium.

We have somewhat less than 6000 men to be "educated" here at State . . . but no auditorium for a concert, ballet, or staged show.

The technical man is by necessity an intelligent breed. The State College student need not be and is not any less intellectual than any other college man. But he needs art to appreciate art.

If we State men are to improve our school, improve ourselves, we must have the tools to do it with, and must work to get them.

Our administrators are themselves cultured men. It is their duty to practice what they preach about education and to achieve for us the facilities necessary for a full education. Reactors are not enough!

Letters To The Editor

Jim Peden For Bill Kay As S. G. Veep

To the Editor:

I would like to take this opportunity to bring to each student the name of a candidate for Vice-President of the Student Government—Bill Kay. Bill has asked me to write a letter of recommendation for him, and I am pleased to endorse a candidate such as Bill for one of the most important jobs on the campus.

I have checked with several

senior representatives now serving in the Senate and with other campus leaders and they say that Bill's work on the Senate and elsewhere has been of the highest type. Bill has a sincere conscientious attitude towards all that he undertakes. Concerning the Senate, he seems to have an even more sincere drive to get various bills brought up in a straightforward manner, and passed on in an efficient way. I would like to urge each of

WAY OUT . . . by John Cocke

Editor's Note: This is a new column scheduled to appear regularly in every Thursday's issue. As in other Technician columns, the views herein expressed are not necessarily those of The Technician staff as a whole.

We happened to be walking past the departmental office of the Kindergarten Games Department of the School of Recreation a few days ago, when we heard voices coming through a slightly opened door.

Dr. J. Cornfitter Jones, Departmental Head, was discussing something with Mr. Ernest A. Falstaff, one of his subordinate instructors. We tiptoed up a little closer, hoping perhaps to hear a few pertinent words about our next quiz; we could see from a reflection in one of the windows that Dr. Jones was holding what looked like a letter, apparently explaining it to Mr. Falstaff. Their conversation went as follows:

Dr. Jones: "Ernest, I don't like to say this, but you are really going about it in an idiotic manner. This letter here from the administration says that we absolutely must raise our teaching standards, or they will merge us with the Grammar School Games Department."

Mr. Falstaff: "Oh horrors! I hadn't realized it was that pressing!"

Dr. Jones: "Yes, I thought I had explained that to you."

Mr. Falstaff: "Well, you mentioned it, and I thought I was making some progress. I've been making all the examinations rougher and have nearly doubled my homework assignments. What else could I have done?"

Dr. Jones: "Change their content and emphasis for one thing. You are not disciplining your students' minds correctly. They should be made to learn huge masses of disconnected facts; this conditions their thinking capacities to a high degree."

Mr. Falstaff: "Well, I guess that's one approach. But . . ."

Dr. Jones: "It's the only approach! And another point: merely making quizzes rougher

doesn't do much good. How did you actually change them?"

Mr. Falstaff: "Well, for one thing, Dr. Jones, I made them longer and constructed them so that a more thorough knowledge of the general, basic principles was necessary to pass them satisfactorily."

Dr. Jones: "But you didn't actually make them more confusing, now did you? You haven't even been wording the questions so that a number of different interpretations was possible. That's always better than requiring them to know the subject matter more deeply."

Mr. Falstaff: "But Dr. Jones, that's not fair to the students. I can't see that confusing and frustrating them accomplishes anything."

Dr. Jones: "I see, Falstaff, that you haven't been thinking about this very deeply. Tell me, what is our basic purpose as educators?"

Mr. Falstaff: "Hm . . . I would say primarily to make our students able to contribute more to human progress. To make them better able to care for themselves and their families as adults, thus producing happier, more cultured individuals."

Dr. Jones: "Exactly. And we can't do that if we give them the impression that there's anything fair or just about the outside world. We must prepare them to face the continuous frustrations and disappointments of life rather than leading them to believe that any real interest in their work or any happiness is possible."

Mr. Falstaff: "That's one way of looking at it. But don't you think . . ."

Dr. Jones: "No argument now, Falstaff. I won't have you contradicting our policies. You think about it for a while, and you'll come to the real truth of the matter. Life is a dirty, nasty game; and we must see to it that our feeble-minded pupils gain some feeling for this before we push them out into the whirlpool. Come, let's get some lunch."

Here we turned and went away, thankful for the brilliant foresight of our modern educators and full of wonder for their deep understanding of our problems.

A Letter

Turn About Is Fair Play

Department of English October, Any Year
Dear Coach Musselman:

Remembering our discussions of your football men who are having troubles in English, I have decided to ask you, in turn, for help.

We feel that Paul Spindles, one of our most promising scholars, has a chance for a Rhodes Scholarship, which would be a great thing for him and for our college. Paul has the academic record for this award but we find that the aspirant is also required to have other excellences, and ideally should have a good record in athletics. Paul is weak.

He tries hard, but he has trouble in athletics.

We propose that you give some special consideration to Paul as a varsity player, putting him, if possible, in the backfield of the football team. In this way, we can show a better college record to the committee deciding on the Rhodes Scholarships. We realize that Paul will be a problem on the field, but—as you have often said—co-operation between our department and yours is highly desirable and we do expect Paul to try hard, of course. During intervals of study we shall coach him as much as we can. His work in English Club and on the debate team will force him to miss many practices, but we intend to see that he carries an old football around to bounce (or whatever one does with a football) during intervals in his work. We expect Paul to show entire good will in his work for you, and though he will not be able to begin football practice till late in the season, he will finish the season with good attendance.

Benjamin Plotinus
Chairman,
English Department
—By Professor William E. Stafford, College English,
April 1955.

Sincerely yours,
Jim Peden, Jr.
President of Senior
Class

Scholarship Available

A Douglas Aircraft Company scholarship has been made available to a rising senior in the School of Engineering at North Carolina State College for the 1958-59 academic year, Dr. J. Harold Lampe, dean of engineering, announced Wednesday. The Douglas Aircraft Company is offering an award of \$750 to a senior student in aeronautical, electrical, or mechanical engineering.

Dean Lampe explained that application for the scholarship should be made through the offices of the respective departments. Final selections will be made by the Scholarship and Standards Committee at the School of Engineering.

Wolfpack Club Has This Asset!

Pretty Miss Barbara Morris, who is one of the secretaries of the Wolfpack Club down at the Coliseum looks at the red and white wolf which is painted on her office door.

Maybe she is wondering where the Wolfpack Club is going to get the \$31,000 it still owes the Print Shop, since the long-standing debt has not yet been settled.

Prof. Wins Fellowship

Dr. Abraham Holtzman, a faculty member in the Department of History and Political Science, has been named one of 86 winners of faculty fellowships for the 1958 Summer Institute of Gerontology. (Gerontology is the scientific study of the phenomena of old age.)

His selection was announced by the Inter-University Council of the Institute of Social Gerontology, headquartered at the University of Michigan.

The fellowships are for \$500 each, plus travel and living expenses, to attend a four-week institute at the University of Connecticut during August.

The summer institute is designed to increase the number of university and college faculty in the psychological and social sciences prepared to offer instruction and carry on research dealing with the phenomena of aging in American society. The summer institute is the culmination of the over-all program of the Institute for Social Gerontology to advance the scientific study of the psychological, economic and sociological aspects of aging.

The fellows were selected from a total of 136 applicants, representing 90 universities and colleges located in 39 states and the District of Columbia.

Dr. Holtzman has been a member of the North Carolina State College faculty since September, 1955.

JOCKEY SHORTS By Coopers

varsity MEN'S WEAR

"Jockey brand underwear made me Phi Beta Kappal"

"'Amazing scholarship,' said the Dean. 'Cheating!' cried my fellow students. But I knew the real reason for my becoming an honor student. My tailored-to-fit Jockey brand briefs were so comfortable that naturally I found it easy to study better and get straight A's."

"'If your brand is Jockey, you won't need any ponies,' I tell my friends. It's true, too. You see, Jockey—and only Jockey brand—uses thirteen separate pieces to provide a perfectly smooth fit. You feel better—and you study better—when you wear comfortable Jockey briefs."

Jockey briefs are the most copied underwear in the world. Be sure you get genuine Jockey brand—they're tailored to fit.

Sticklers!

WHAT IS THE BEST PRESENT YOU CAN GIVE A FRIEND WHO'S GOING TO EUROPE?
(SEE PARAGRAPH AT RIGHT)

BON VOYAGE presents? You might give a substantial checking account in the Left Bank of Paris. A deck of cards for playing London Bridge. Or walking shoes in which to Rome Italy. Better yet, give Luckies—and make your present a *Partin' Carton!* A Lucky, after all, is the best-tasting cigarette anywhere. In Paris you hear, "Un Luckee? C'est merveilleux!" (That's French!) Roughly translated, it means: it's all fine, light, good-tasting tobacco, toasted to taste even better. (That's advertising!) Just light up a Lucky and see for yourself! (Now, that's smart!)

Stuck for dough?
START
STICKLING! MAKE \$25

We'll pay \$25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

Sharpe Seeks IFC Post

Bill Sharpe, President of Theta Chi Fraternity, has been nominated by the IFC Executive Board as a candidate for Secretary of the Interfraternity Council.

Bill has served as treasurer and historian of Theta Chi in the past, and this year he was chairman of the rush and social committees. Bill has also served on the Judicial Board of Review. He was on the IFC's sec-

retary's office committee his sophomore year and on the Four Freshmen Concert Committee this January, and he has been the IFC representative from Theta Chi this year.

Bill had the following statement for *The Technician*:

"In the past year I have been associated with growth and progress in my own fraternity. The IFC has made much progress this year, but it must continue improving in order to further strengthen the position of fraternities at State. Due to my own fraternity and with the IFC, I feel that I am well qualified to serve fraternities in the position of Secretary of the Interfraternity Council."

Bill Sharpe

Moore Running For Jr. Office

Jim Moore, a candidate for the office of Treasurer of the Junior class, has announced his platform for the office.

In his announcement, Moore said, "I believe one thing that could be improved upon is the policy of informing the class on the way that their money is spent. I do not know where my dues go and I feel that many others of us are in the same situation. I think a periodic statement in *The Technician* would help this state of affairs."

"Also a weak point in the monetary affairs of most organizations is the collection of dues, I propose, to the best of my ability, to improve in the methods of collection so that the Class of 1960, by having more money with which to work, will be the best class on campus."

Moore is a member of Sigma Chi social fraternity where he has gained knowledge in handling financial affairs while serving as Assistant Treasurer. He is a rising Junior in the School of Textiles.

Gilmore Is Seeking Senior Vice-Pres.

"In announcing my candidacy for Vice President of the Senior Class, I do not choose to make vague promises which would be impossible to keep, but instead to promise and assure you of determination and enthusiasm in making this, 'the

Tom Gilmore

class of '59', a Senior class that each of us will be proud to say that we were a part of."

Tom is a junior in Horticulture and a member of Farm House and Alpha Zeta Fraternities. He is currently serving as Vice President of Ag Club and Horticulture Club and Treasurer of YDC. A member of Student Government, he has served on the Welfare Committee this past year. He is also on the Agriculturist Staff, IFC Representative and on the Interim Council of North Carolina Student Legislature.

"I am extremely interested in the office of Vice President; and if elected, the interest of the class will be my prime objection as I pledge my wholehearted

Campaign Reminder On Notices

The Administration and Elections Committee has issued the following announcement as a reminder to all men running for office in the ensuing campus elections.

"Candidates for elective offices go to quite a bit of expense to have posters and other material printed for their campaigns. It is not the desire of any dormitory officer to favor or oppose a candidate by removing his

interest and work to that cause. I urge each of you to vote as you see fit on April 22 and 29."

printed posters from places in the college dormitories. However, no notice or poster of any kind is permitted in a college dormitory at any place other than a bulletin board.

"The dormitory bulletin boards are limited in size, and priority is given to official college bulletins and notices. Any dormitory officer who sees any type of notice at a place other than on a bulletin board is required to remove it. Only official college notices are permitted to be circulated to individual rooms of students."

GRADUATE
THEN FLY

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for

an important career in the new Age of Space.

As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised immediately of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.

MAIL THIS COUPON TODAY
Aviation Cadet Information, Dept. C-81
Box 7608, Washington 4, D. C.

Please send me details on my opportunities as an Aviation Cadet in the U. S. Air Force. I am a U. S. citizen, between the ages of 19 and 26 and a resident of the U. S. or possessions. I am interested in ☐ Pilot ☐ Navigator training.

Sprinkle Throws Hat In Ring For Senior Class Vice-Presidency

John Sprinkle has announced his candidacy for Vice President of the rising Senior Class.

John is a Junior in Electrical Engineering from Winston-Salem and is a member of the Delta Sigma Phi Fraternity. He has worked with the campus radio station for three years and has been Sales Director during the past year. Other offices held are Corresponding Sec. of Thirty & Three, Editor of his social fraternity, and ISO on the AFROTC Wing Staff where he is in charge of getting the Air Force Annual published. Some of the honor societies of which he is a member are Tau Beta Pi, Eta Kappa Nu, Phi Kappa Phi, and Thirty and Three.

In a statement released to *The Technician*, Sprinkle said: "The Senior Class officers hold extremely important positions on campus and should be fully qualified to know a lot about their class and to make decisions that benefit the interests of the class as a whole. I feel that my experience in working with various societies and groups on campus has qualified

me for the capabilities demanded of a Senior Class officer.

"I do not wish to make any radical statements concerning reformation; but promise that if I am elected, I will diligently pursue the duties of the office to the best of my ability and judgment. The interests of the class will be first and foremost."

Prof. Plans Shakespearean Research

A research grant for summer study at the Shakespeare Institute, held at Stratford-on-Avon has been awarded to Prof. Porter Williams, Jr., of the English Department at North Carolina State College.

He will sail for England early in July for two months of travel and research in the relationship of Shakespeare and Elizabethan Virginia.

Williams, an assistant professor of English, holds degrees from the University of the South and the University of Charleston. For two years, he held a Fulbright Fellowship at Pembroke College, Cambridge University. He has taught at the University of the South and at the College of Charleston.

In The West—Modernistic 800-Man Dormitory Rises Rapidly

The new 800-man dormitory which is presently under construction at State is scheduled to be ready for occupancy next fall. Students desiring to live in the dormitory next year should apply to the Dormitory Office in Holaday Hall. (Photo by Kjosnes)

INTRAMURALS

The intramural office has announced the 1958 fraternity golf schedule. The finals are set to be played on May 7th at the Raleigh Golf Association course.

Each fraternity that enters a team (which is to consist of four players), will receive 20 points for entrance, 2 points per game won, and 35 points for 1st place.

If any team desires to switch the date of play or place they must get the agreement of all teams concerned in the match.

Other students who want to participate in the intramural golf may sign up for the Open League Golf. He must turn in a score card by April 16th and pairings may be picked up Tuesday, April 22nd at the Frank Thompson Gym.

Trophies will be given to the winner and runner-up. Three members will be selected to represent N. C. State in golf on the Big Four Intramural Sports Day.

Handball Finalists:

The Handball standouts have been selected. Peter Oggerino of the PEP's placed 1st, Bill Gardner of the SAE's won 2nd, and Ralph Boswell and Charles Jordan, also from the SAE's, took 3rd.

In the Dormitory race Turlington 2 gave the 1st and 2nd place winners, Usam Al-Banna and Earl Salisbury, respectively. Bill Nickam and David Parker received 3rd place.

Swimming Finalists:

Sigma Chi took 1st place in the intra-swimming race. They were ably represented by Van Giersch, who took 2nd place in individual honors. The Kappa Sigmas, who won second place, were well represented by Billy Duke, who took 3rd place. Richard Elam was the individual standout, placing 1st. The Sigma Chis also won the Medley Relay.

In the Dorm race, Owen 1 came in first and Syme 2nd.

State Golfers Lose To Cava. 23½-3½

The Wolfpack golf team was not quite up to par Tuesday afternoon as they dropped a match to the Cavaliers of the University of Virginia, 23½ to 3½, at Charlottesville.

Cavalier Paul Haner, a sophomore, had high medal score with a 74. One of the West Raleigh brigade, Al Harris, tied Virginia's Jordan Ball for second high honors with a 75.

Paul Sackett, Virginia, downed George Allen, 3-0; Bill Metzger, Virginia, topped Henry Clegg, 3-0; Virginia took best ball, 3-0.

State man Pete Patton downed Glenn Mitchell, 2-1; Haner topped Jay Beacon, 3-0; and Virginia took best ball, 2½-½.

The Wolfpack, playing very good ball after they were in a five run hole, came back to tie the Clemson Tigers yesterday and then go down to defeat in the ninth inning, 6-5, at the State diamond.

The loss by the West Raleigh brigade was their first in eight games thus far this season. Their conference record now stands at 3-1.

Surprisingly enough, all of the Tiger runs were unearned. In the first inning, which was the big frame in which the Tigers scored five runs, an error on the first baseman, Jim Lancaster, led to all the scoring. The first man for the Tigers, left-fielder Bailey Hendley, tied off to center.

The next man up, Tig third baseman Larry Bagwell, grounded to second baseman Derris Bradshaw, but it was this throw that Lancaster dropped. The next Tiger popped up but five

singles and a walk put across slugger Don Hafer and Casteen scored. Third baseman Glenn Sparrow and shortstop Scotty Hurst then banged consecutive singles which scored Hafer.

With men on first and second, Wright bunted and Sparrow scored when Tiger hurler Harold Stowe threw wild to third. Three quick outs ended the inning for the Wolfpack.

The Tigers scored the winning run in the ninth when Hendley, after getting to second on an error by Hurst, tore across on a single by Larry Bagwell.

This afternoon the Wolfpack will meet the Tar Heels of UNC in an ACC contest at the Hill.

Hunter, Top Freshman Athlete 3 Years Back

Just three years ago this month, the Monogram Club of North Carolina State College voted Dick Hunter the most outstanding freshman athlete here at State College.

Since that time, "Spook", as he is called by his team-mates, has taken a back seat to no one in the sports in which he has participated. His accomplishments since that award have completely justified the actions of the Club.

In the article which was in *The Technician* at the time of the presentation of the award, there was a summary of Hunter's accomplishments during his freshman year.

In five games of the freshman football schedule that year, Dick scored six touchdowns and booted one extra point, thus accounting for thirty-seven points.

In the Red-White tilt of 1955, Hunter completed three of four passes and intercepted two while helping his "White" team to victory over the Reds by a score of 40-35.

Hunter also proved his proficiency in the baseball field that year as he batted .386 for the freshman team and slammed out several home runs.

It is inspiring to see a man in any field of endeavor start off a career on such a promising note and have the power to complete it in the same way. It is even more note-worthy, though, when the man is one of our own—the incomparable Dick Hunter!

Shown above is Dick "Spook" Hunter as he slams out a foul in the first inning of yesterday's game with the Tigers of Clemson College. State dropped the tilt, its first loss of the year, by a score of 6-5.

DON'T
WORRY
ABOUT A
THING!

At last, all cotton drip-dry shirts are a reality! Van Heusen has achieved this triumph in the new Vantage shirt which is 100% cotton, drip-dries in a jiffy, and needs no ironing! At only \$5, it's the all-around shirt for college men, and also has a few special uses which you might possibly overlook.

You're expelled from school. Since you have no money, you're forced to walk home (you live in Lovelyville, 1,357 miles away). The Van Heusen Vantage shirt is perfect for this situation. First, you can wash it in the many brooks you pass as you trudge along the open road . . . and, as you catch a quick wink in a hollow log, it will drip-dry and be neat and snappy for the next lap of your trek. Second, because Vantage is all cotton, it looks so smart that you begin to feel well-educated. People will say, "there goes a cultured chap."

You're water boy on the football team. Ideal spot for Van Heusen Vantage shirts. We

ask you, what does a water boy have most of? Precisely . . . and after you hang-dry them from the goal post . . . you can wear them heroically like a quarterback.

You owe the laundry \$342.45. Let us say you owe the laundry \$342.45 and are ashamed to show your face there, and even feel terror when you smell the disinfectant floating out of the Laundromat. A set-up for Vantage! Since it drip-dries, and needs no ironing, you need never enter the laundry again. And because it's all cotton, it's so elegant-looking, you can pass the laundry with equanimity. The owner, seeing you stroll by in your Vantage, will say to himself, "No sense dunning Morgan for that dough. He's so rich, he's bound to pay me soon."

In Vantage, you inspire confidence. In Vantage, you're set for every college occasion. At better stores everywhere, or write to Phillips-Van Heusen Corp., 417 Fifth Avenue, New York 16, New York.

MEN'S WEAR

Hillsboro at State College

Count Basie To Play For Freshman-Soph.

Count Basie and his world famous orchestra will appear at the William Neal Reynolds Coliseum on May 3 to play for the Freshman-Sophomore Dance.

Basie's orchestra features Joe Williams, who was acclaimed as one of the fastest rising young singers. Also featured will be Sonny Payne on the drums. Payne has been recognized by many of the leading music magazines.

Bids and tickets for the dance can be picked up in the downstairs lobby of the College Union on Wednesday, Thursday, and Friday of next week. Students must present their I.D. cards to obtain their bids.

A special discount on tuxedo rental will be available to students who are planning to attend the dance. A special agreement has been made with Hunnycutt's Clothing Store on Hillsboro Street to offer a 15% discount.

Freshmen and Sophomores who wish to obtain this discount should mail their names and addresses to Sophomore Treasur-

er, 130 Hawthorne Road, Raleigh, N. C., before April 26.

The rentals, including the 15% discount, are as follows: Coat, Trousers, and Waist Band—\$6.40; White coat—\$4.25; a complete outfit including a coat, pants, waistband, tie, studs, and shirt—\$9.35.

The names of the students who mail in their requests will be given to Hunnycutt's, and these students will be given the discounts if they visit the store before May 1 for fittings.

One of the officers of the Freshman Class released the following statement: "This appears to be the highlight of the social scene at State. This dance has been hailed on the campus throughout the years, and this year we hope that the applause will be heard throughout the campus."

Campaign Notices

Deadline for campaign notices for publication in next Monday's Technician is 8:30 p.m. Sunday.

The Technician will print as many articles as space permits. The paper reserves the right to edit articles if necessary.

St. Pat. Order Initiates 45

The Technician erroneously reported in the last issue that only six seniors were knighted into the Order of Saint Patrick. Forty-five seniors have been initiated into the society. Nine freshmen were also inducted into the Order of Saint Patrick of St. Patrick in the formal initiation rites.

Seniors tapped as "Knights of St. Patrick" for their leadership in engineering activities were:

Larry A. Royster, Durham; Jimmy I. Macgillivray, Rocky Mount; Richard B. Davis, Raleigh; Marvin A. Dixon, Kinston; James M. Davis, Jr., Rocky Mount; Bruce Richmond, Hillsboro; Jerry A. Royster, Lenoir; William A. Graham, Charlotte; William F. Bradley, Aurora, N. C.; Carl E. Parker, Raleigh; Charles R. Hutchins, Raleigh; K. J. Caswell, Lumberton; William E. Smith, Goldsboro; Lewis F. Ballard, Mooresville; Robert R. Liguori, Southington, Conn.; Robert P. Kennel, New Bern.

Don L. Denton, Morganton; Preston B. Johnson, Benson; Carl D. Parker, Rockingham; James W. Harrill, Raleigh; Charles T. Andrews, Greensboro; James R. Pearson, Jr., Apex; Ralph Teasley, Durham; Theo C. Pilkington, Durham; Martin B. King, Hamlet; William V. Coley, Jr., Wilmington; John Neil Birch, Raleigh; Joe A. Nuckolls, Hendersonville; John J. Duplessis, Richmond, Va.; Rex A. Phillips, Grifton; Barry Choate, Pine Level; James C. Ferrell, Durham; Lawrence R. Gurley, Goldsboro; Edward Nuckolls, Hendersonville; Basil W. Turbyfill, Hickory; Edward B. Austin, Gastonia; John A. Norville, Brevard; James D. Moss, Gastonia; John C. Hopkins, Charlotte; Bob W. Bowie, Galax, Va.; Harvey R. Joyner, Elm City; E. J. Poindexter, Tarboro; Ostia Self, Siler City; Benjamin T. Smith, Raleigh; and Donald Bridges, Shelby.

The freshmen who were honored are: Walter Lackey, Jr., Fallston; Harry W. Winstead, Jr., Wooddale; Charles W. Greene, Canton; John A. Edmondson, Gainesville, Ga.; James R. Currie, Mamaroneck, New York; William J. Privott, Jr., Tyner; Barbara Louise Snyder, Charlotte; Burl Brady, Salisbury; and James Wesley York, Jr., Raleigh.

School of Design To Establish Department of Product Design

Beginning July 1, North Carolina will take another long-range step to improve the appearance of its manufactured products in local, national, and world markets.

With a \$36,000 appropriation from the 1957 General Assembly, the School of Design at North Carolina State College is already busy with preliminary preparations to establish a new Department of Product Design.

Students enrolled in the department will be trained to design industrial products.

Working in collaboration with engineering and the assembly-line process, graduates of the new course will design furniture, textiles, ceramics, utensils, appliances, automobiles, and the packaging of industrial and agricultural products.

The new program of instruction ties in with the State's emphasis upon industrial development and is expected to improve the merchandising of products now being manufactured in North Carolina.

It will also add a new dimension to North Carolina's unique "Research Triangle."

In the new design work at State College, both appearance and function of the package will be considered.

Industrial design, Dean Kamphoefner of the School of

Design reported, was born during the "Great Depression" starting in 1929 when industries were keenly concerned in stepping up sales and meeting stiffer competition.

Top designers now make "tremendous salaries," said Dean Kamphoefner, who recalled that the director of design in one of the nation's big automobile companies is said to receive \$150,000 a year.

State College is now seeking a leading designer to head its new Department of Product Design. A faculty committee has narrowed the field of candidates for the post from 22 to four.

Announcement of the selection of the department head, Dean Kamphoefner stated, is expected to be made within the next few weeks.

With strong departments already operating in the fields of textiles, furniture manufacturing, and industrial engineering, State College is a "natural" for the location of a Department of Product Design.

Dean Kamphoefner said that these departments, along with the two existing Departments of Architecture and Landscape Architecture, will provide strong support to the new training program.

The first students will be enrolled in the Department of Product Design this fall. Sev-

eral prospective students already have made inquiries about the new course.

N. C. State will be the second institution of higher learning in the Southeast to enter the industrial design field. Georgia Tech has previously set up a department. Other leading departments have been created at the Rhode Island School of Design, Pratt Institute in New York, and Syracuse University.

Hundreds of Exhibits To Be At Engineers' Fair

Career-minded high school students throughout North Carolina can take a good look at the engineering profession tomorrow and Saturday during the Engineers' Fair at State College.

The college's School of Engineering will present under the sponsorship of its student government group, the Engineers' Council, the 26th annual exposition designed to show the scope of current engineering activity.

The Fair, whose theme is "Engineering in North Carolina," will be officially opened tomorrow afternoon at 2 p.m. with exercises to be held in Reynolds Coliseum. Governor Hodges will deliver the opening address.

Lampe To Welcome Visitors

Visitors to the Fair will be welcomed by Dr. J. Harold Lampe, dean of engineering. Presiding at the opening will be Edward W. Nuckolls of Hendersonville, president of the Engineers' Council.

Exhibit halls will remain open until 9 p.m. tomorrow and will be open Saturday from 9 a.m. to 5 p.m.

"We hope that every high school student in the State will come to the campus to tour our Fair," said Carl D. Parker of Cordova, chairman of the two-day event. "This is a good opportunity for our visitors to see what an engineering education offers."

Latest Developments

Chairman Parker pointed out that there will be many spectacular and surprising demonstrations covering the latest developments in technology.

In addition, industrial plants throughout North Carolina will also bring to the campus exhibits of products they manufacture.

Other chairmen for the Engineers' Fair are William R. Foss of Cary, co-chairman; Ray Briggs of Raleigh, program chairman; Robert R. Liguori, of Southington, Conn., publicity chairman; Frank Madren of Elon College, arrangements chairman; and E. J. Poinexter of Tarboro, formal opening chairman.

Engineering Senior Will Receive Award

The first annual Hamilton Award will be presented to a senior in the School of Engineering at the formal opening of the Engineers' Fair at North Carolina State College tomorrow at 2 p.m.

The announcement was made today by Dr. J. Harold Lampe, dean of engineering, who said that the award has been established at the college by the Hamilton Watch Company to encourage the development of a broader background and perspective among technically-trained students.

The award, an engraved Hamilton watch accompanied by a letter of commendation, will go to the engineering senior who most successfully combined proficiency in his major field of study with notable achievements in the social sciences and humanities.

The award presentation by Dean Lampe will be one of the highlights of the Fair's opening program whose main speaker will be Governor Hodges.

The Engineers' Fair is a two-day event open to the public.

What does this fruit have to do with this cigarette filter?

THE VICEROY FILTER IS MADE FROM A PURE, NATURAL MATERIAL FOUND IN ALL FRUIT

—and it gives you Maximum Filtration for the Smoothest Smoke!

• From the same soft, pure material found in the rich pulp of nature's healthful fruits, modern filter scientists have created the greatest cigarette filter ever designed . . . the Viceroy filter. For the Viceroy filter gives you the *maximum filtration* for the smoothest smoke of *any* cigarette. More taste, too . . . the pure, natural taste of rich, mellow tobaccos. Yes, Viceroy gives you *more* of what you change to a filter for!

New crush-proof
flip-open box or
famous familiar pack.

PURE, NATURAL FILTER...
PURE, NATURAL TASTE

Presidential Candidates Give Platforms

The two men seeking the office of President of the Student Government, Jim Hunt and George Thomason, have released their campaign platforms to *The Technician*.

Hunt issued this statement concerning his platform. "I wish to particularly emphasize four points in my platform:

(1) I pledge that Student Government will follow up and insure that all permanent walks on our campus are paved. This work is to begin any day now and should be completed before the fall semester.

(2) As President I shall establish an Academic Advisory Committee. Often students gripe that they have to put in too much time on a course for the hours of credit received. This committee will collect these complaints, study them, and if they are deemed justified compile and present them to the Chancellor. Other complaints concerning courses and instructors would also be compiled by this committee and receive proper attention.

(3) I favor a change in the procedure for electing the President of the College Union. At present the C.U. Board of Directors selects two students to run for the position. The winner is President and the loser becomes Vice-President. Essentially the students have no choice. I favor an amendment to the C.U. Constitution to change this procedure.

(4) A Student Government Legislative Committee this year secured a discount on movie tickets for State students at two city theaters. I pledge continued efforts along these lines to secure all economic advantages possible for our students.

Hunt's platform also lists the following:

Traffic:

1. A continued active Student Government Traffic Committee.
2. Every effort to retain the right for Freshmen and Sophomores to have cars on campus.
3. Develop all parking facilities possible.
4. Every effort to have Dunn Avenue either repaved or adequately repaired (including the part leading up to Vetville).

Cafeteria:

1. An active Cafeteria Advisory Committee.
2. Efforts to see that the quality of food and service is improved.

Athletics:

1. Strong executive action in representing the student body on the Athletic Council.
2. Every effort to secure date tickets as cheaply as possible.
3. Full exploration of the possibility of having dates admitted free to afternoon basketball games (as was done with the Maryland game this year).

College Union:

1. A study of C.U. fee expenditures by Student Government in order to get student opinion on where this money should go.
2. Efforts to insure that outside groups use of the C.U. is not interfering with student use.
3. Efforts to have the C.U. utilized more fully by students.

Class Attendance Regulations:

1. A class attendance policy that more effectively places the responsibility for class attendance on the students.

National Student Association:

1. A more extensive use of NSA in general in return for the over \$900 we spend on it annually.
2. The creation of a campus NSA committee.
3. Increased participation in NSA by student leaders.

Honor System:

1. Full executive support for the honor system and the judicial department.
2. Close working with the faculty and administration to make our system effective.
3. Better student orientation to the system.

Housing:

1. Full executive effort to see that the loan for the Fraternity Row project is secured and the project begun.
2. Constant efforts to secure additional married student housing.
3. Efforts to insure that the three man per room situation is alleviated as much as possible (the new 800-man dormitory will help this situation considerably).

Thomason's Platform

Thomason has given his ideas on the office of President of the Student Government as follows:

I think that most students realize that campaign platforms follow the definite cycle of promising solutions to campus problems. The specific planks of one's platform, then, are guided by the problems then current in a school.

For example, many of the problems discussed by last year's candidates for the office

CAPEL FOR PRES.

(Continued from page 1)

end of this school year our class will have \$523.00 in the treasury. This is an ample amount for our Senior Class gift without any additional dues.

"After consulting with members of the administration, I am able to promise sidewalk paving soon. The administration has given sufficient funds to M&O to pave these sidewalks. All that is needed is for the students to push the project, so I will, if elected, do everything in my power to start the campus paving immediately.

"I am for a small, old-English script diploma. The administration is backing the small block print diploma. The contracts for producing our diplomas for the next five years will be signed this summer. I propose to present the administration with a petition signed by the students asking for Old-English script diplomas, as this is the desire of the class. Any action to change the diploma for the next five years must be done this school year.

of President are the same as those which face us this year: registration, housing (for married, unmarried, and fraternity students), admission policy to athletic events, allocation and paving of more parking areas, and improved medical care and eating facilities. Many problems have not disappeared, and, undoubtedly, others will arise in the months to come.

"Therefore, I believe the most sincere platform a candidate can offer actually is to mean to give interest, initiative, and industry to the working out of all campus issues, new or old, to the fullest interest of the student. I think interest should be two-fold.

First, sincere interest in becoming President—realizing the time, energy, and work the office should involve. The other side of interest is, I believe, a genuine interest in what the students believe should be either improved, removed, or begun at their school.

"Initiative is, of course, energy and aptitude displayed in the initiation of action. This means recognizing that, for the large part, the campus leaders with whom the President will

work will be newly elected to their positions. Initiative, then, is having confidence in these men to perform their jobs, with initiation from the President which would allow for their individual expression.

"Industry is realizing that long walks are made up of many little steps. Large or basic problems are solved, or improved, in the same way, with determination and perseverance in working for a solution added.

"I should like to tell the students at State that I am sincerely interested both in becoming President and in hearing their problems; and that I believe I have the ability of initiating action through enthusiasm, a new outlook, and respect for those with whom I would work. Finally, I also feel I can promise the students an application of industry, for which the office of President of Student Government calls."

Lecture Series Starts Tuesday

North Carolina State College will begin its 1958 spring faculty lectures on religion next Tuesday (April 22).

Three members of the State College faculty will speak during the lecture series which will be sponsored by the College YMCA.

The Rev. Oscar B. Woolbridge, Jr., is coordinator of religious affairs at the college.

Topic for the lectures will be "An Appraisal of Values in the University."

The lectures will be held in the Grill Room of the College Cafeteria at 12:30 each day during the series.

fraternity, State Secretary of the FFA, member of the YMCA cabinet, Student Toastmasters Club, Ag Club, Ag Education Club, and many others.

In directing a statement to the State College Students, Eddie Knox said, "The Legislature is your governing body. It is made up of your elected representatives. If elected to this office I will work diligently in directing the Legislature to see that its work is executed fairly and with your best interests in mind."

Moore Seeks Ath. Council Seat

Jim Moore, present sports editor of *The Technician*, has recently announced that he will be a candidate for the junior seat on the Athletic Council.

In making public his candidacy for this office, Moore said, "I feel that I have gained much experience this past year in the work that I have done with the Athletic Department and the Intramural office. I think that, since I will be sports editor of *The Technician* again next year, I will be in a very advantageous position to speak for the students at Council meetings and then relay back to the students the policies set by the Council."

Moore is a rising junior in the School of Textiles and a member of Sigma Chi social fraternity.

SCIENCE MADE SIMPLE: No. 3

Once again the makers of Marlboro Cigarettes, bless their tattooed hearts, have consented to let me use this space, normally intended for levity, to bring you a brief lesson in science.

They are generous, openhanded men, the makers of Marlboro, hearty, ruddy, and full of the joy of living, as anyone can tell who has sampled their wares. In Marlboro you will find no stinting, no stinginess. Marlboro's pleasures are rich, manifold, and bountiful. You get a lot to like with a Marlboro—filter, flavor, flip-top box, and, in some models, power steering.

The science that we take up today is called astronomy, from the Greek words *astro* meaning "sore" and *nomos* meaning "back". Sore backs were the occupational disease of the early Greek astronomers, and no wonder! They used to spend every blessed night lying on the damp ground and looking up at the sky, and if there's a better way to get a sore back, I'd like to hear about it. Especially in the moist Mediterranean area, where Greece is generally considered to be.

Lumbago and related disorders kept astronomy from becoming very popular until Galileo, an unemployed muleteer of Pamplona, fashioned a homemade telescope in 1924 out of three Social Security cards and an ordinary ice cube. What schoolboy does not know that stirring story—how Galileo stepped up to his telescope, how he looked heavenward, how his face filled with wonder, how he stepped back and whispered the words heard round the world: "Let them eat cake!"

Well sir, you can imagine what happened then! William Jennings Bryan snatched Nell Gwynne from the shadow of the guillotine at Oslo; Chancellor Bismarck brought in four gushers in a single afternoon; Enos Slaughter was signed by the Hanseatic League; Crete was declared off limits to Wellington's army; and William Faulkner won the Davis Cup for his immortal Penrod and Sam.

But after a while things calmed down and astronomers began the staggering task of naming all the heavenly bodies. First man to name a star was Sigafos of Mt. Wilson, and the name he chose was Betelgeuse, after his dear wife, Betelgeuse Sigafos, prom queen at Michigan State from 1919 to 1931.

Then the Major Brothers of Yerkes Observatory named stars after their wives, Ursa and Canis, and Witnick of Harvard named one after his wife, Big Dipper, and soon all the stars were named.

Astronomers then turned to the question: is there life on other planets? The answer was a flat, unequivocal no. Spectroscopic studies proved without a doubt that the atmosphere on the other planets was far too harsh to permit the culture of the fine tobaccos that go into Marlboro Cigarettes... And who can live without Marlboro?

This celestial column—like the author's more earthy ones—is brought to you by the makers of Marlboro: the filter cigarette with the long white ash. And in all the solar system you won't find a better smoke.
