

By Student Government

New Cut System Study Planned

The cut system, teacher evaluation, and a student leader conference were among the items discussed at a meeting of the Student Government Thursday night.

Certain weaknesses of the new cut system were pointed out. The system this year allows a student to be excused at the discretion of his teacher, and it does not include a family death as a legitimate excuse from class. These, along with other parts of the system, are to be studied by the Welfare Committee.

TEACHER EVALUATION PROGRAMS

The Promotions Committee has been assigned the job of reviewing the teacher evaluation programs carried out by other colleges and by some schools of State College. The SG plans to determine how these evaluations can help both the teacher and student.

Following the next Student Government meeting (Oct. 24) there is to be a student leaders conference held in the College Union Theater. Student affairs and campus improvements will be discussed.

BOARD OF REVIEW

President Hunt's nominees for positions on the Board of Review were accepted by the Legislature. Appointments are: Bob Lynn and Bill Sharp at large; C. F. Kolb, from the faculty; and Aaron Capel from the Legislature.

By a motion from Senator Davis, the matter of campus bells was referred to the Welfare Committee. Planning for Freshman elections was assigned to the Elections Committee.

The Investigations committee was also given the assignment of sampling student opinion on the intercollegiate athletics situation, in cooperation with Dr. Pou's faculty senate committee.

The treasurer reported that the balance on October 10 showed \$750.24 in the Student Government fund and \$2,289.87 in the Student Activities Fund. The receipts from fall registration are not yet complete.

An appropriation of \$63.30 was approved for the State Student Legislature which will be held on Nov. 7-9. Up to \$350 was appropriated to enable the 30 and 3 to sponsor the homecoming parade.

90th N. C. State Fair Begins Tues.; Col. Plans Departmental Exhibits

by Roy Lathrop

This year Raleigh will stage its annual spectacular, known as the North Carolina State Fair, for the 90th year. This year plans for the Fair are more lavish than ever.

Fair Manager J. S. Dorton is advertising the Fair as the "biggest show in the southeast."

The five-day exposition begins Tuesday, October 15, and will continue through Saturday, October 19; a record-breaking attendance is expected during the five days and exhibit space has been increased 10 per cent to take care of demands. One example of the scope of this year's fair is the fact that almost 1,000 head of beef and dairy cattle will be entered for exhibit, a great increase over last year's entries.

The fair-goer will notice a number of improvements this year in both exhibits and physical appearance of the fairgrounds. Concession stands of previous years have been replaced by modern stands of "pole-barn" type construction with angle roofs that are more in harmony with the Arena. Favorites of last year like the Waterfall and the "Village of Yesteryear" will be repeated this year but expanded and improved.

As usual State College will have a significant part in the State Fair with exhibits from many of the major departments; especially busy with preparations are the School of Agriculture and the Ceramics Department. The Ceramics group will demonstrate fire earthenware produced in North Carolina.

Entertainment

Other entertainment is expected to be more varied than ever before. The Folk Festival, a standby from past fairs, will put on three shows daily. The fifth annual State Fair Singing Convention will be held in the State Fair Arena under the direction of Jimmy Chambers, Raleigh's director of public recreation; some 30 groups of performers are expected to take part in this pre-fair attraction which started yesterday at 1:30 p.m.

In addition to the Folk Festival the fair will feature a variety of entertainment attractions including harness racing, auto races and stunts, fireworks displays, TV and radio performers, grandstand acts.

Among the entertainers will be Julius LaRosa, Carmel Quinn (Irish singer of Godfrey Show fame), the Four Lads, George Hamilton, and Brenda Lee. Johnny Long, one of North Carolina's native sons, and his orchestra, will also perform in the Arena.

George Hamid's new outdoor spectacular show "International Revue" will play nightly at 7:30 in front of the State Fair grandstand.

Covering Campus . . .

ARCHERS

The State College Archers will meet in Room 252 of the College Union Wednesday at 7 p.m. All previous members and interested persons are urged to attend the first meeting of the year.

FORESTRY CLUB

A meeting of the Forestry Club will be held Tuesday night at seven in room 159, Kilgore Hall. The program will feature a film on logging techniques. All those who wish to become members are urged to attend.

Upperclassmen may have their pictures taken for the Agromeck according to the following schedule:

Sophomores—Oct. 15-18
Juniors—Oct. 21-25
Seniors—Oct. 28-Nov. 1
Graduates and special students—Nov. 4-6

Photos will be taken in 105 Pullen and in the Infirmary. Coats, tie, and white shirt are required.

Identification Cards

Special arrangements have been made to furnish Identification Cards to students who neglected to get their pictures taken during registration. A camera for the purpose has been ordered and a photographer will be available in Room 12, Holladay Hall, from 7 to 9 p.m., Thursday, Oct. 17.

The cost per student for this special service must be borne by the student involved and will amount to \$2.00 per student. This charge must be paid when the picture is taken.

Spelling Clinic Add. To Night Classes

By Peggy Chears

Think!

Do you have trouble with your spelling?

Do you know when to double the consonants and when to change the y's to i's and add es's?

If the ability to spell is holding you back or hindering you in your school work or in your job, State College has just what you want and need—a spelling clinic.

Another in the current series of Extension Division evening classes, the clinic will meet from 8 until 10 p.m. each Thursday night, beginning October 17.

The 10-week, no-credit courses will meet in Room 10 of Winston Hall at State College. The fee is \$7.50.

The clinic will diagnose the causes of the chief errors of poor spellers. Students will study the rules of spelling and will have practice in proofreading.

Those interested in enrolling may register by writing the Extension Division, State College, Raleigh, or by visiting Room 117 in the 1911 Building on campus.

Colleges Hit By Flu

Epidemic Stage Not Reached Here

Flu epidemics have hit Meredith, Shaw, and Peace colleges in varying degrees of intensity; however, flu at St. Mary's and here at State College has not yet claimed enough patients to be considered of epidemic proportions.

The State Infirmary has approximately 28 patients in bed at the present time and has a record of 74 admittances in the last five days. Doctors at the various institutions have not as yet labeled it "Asian Flu" since there has not been sufficient time to analyze virus samples.

At Meredith, Peace, and Shaw the infirmaries are all filled and patients from near Raleigh are being sent home to make spaces for those who live further away.

NO SHOTS AVAILABLE

At Meredith and Peace colleges, a few flu shots have been made available, but due to the small supply the shots have been administered on a waiting

Diploma Style Selected For Next Five Years

The Committee for Selection of a new College Diploma met for the fifth time last Wednesday afternoon and made a final decision on the style and size of the diploma to be awarded graduates of State College for the next five years.

The Committee, which was appointed last April 12 by the Chancellor, was at that time requested to recommend to the Chancellor a diploma to be awarded graduates of State during a five-year period beginning with commencement for the first semester of 1957-58.

Recommended by the committee for adoption for the five-year period was the small diploma used by the College for the last three years, enlarged approximately one-quarter inch in each dimension to fit a leather holder.

Also included in the recommendation was that the embossed seal on the diploma be changed to gold and that the lettering and the seal on the leather holder match in style and size those on the diploma. This lettering on the holder shall be in gold, shall be centered, and in the approximate position as on the diploma itself. Ribbons holding the diploma in the case shall be white.

The motion that the above recommendations be presented to the Chancellor was made by Jim Hunt and was seconded by Dean H. L. Kamphoefner. The motion passed, but Senior Class President, Jim Peden, abstained from the vote.

Peden had presented the committee a recommendation from the Senior Class Diploma Committee which asked that the

new diploma be styled in print and layout after the Michigan State diploma. The Michigan State diploma is approximately the same size as the diploma which has been recommended, but is printed in Old English type. The Senior Class Diploma Committee recommendation was turned down.

Graduation Fee Increase

It was moved by Jim Peden and seconded by Hunt, that the graduation fee be increased by \$2.00 this year to cover the cost of the diploma and cover. (The present commencement fee is \$7.)

The Committee unanimously endorsed a resolution thanking John Peterson for the design work he did at the request of the committee (Peterson submitted the proposed design of the diploma which was adopted), and requested that the Chairman of the Committee write him expressing the Committee's gratitude for his work.

MEMBERS OF COMMITTEE

Members of the committee included: Dean John W. Shirley, Dean Henry L. Kamphoefner, and Dr. W. W. Austin from the Faculty; and Fred Houtz (replaced by Jim Hunt), Jim Peden, Jr., Sammy Yow, and Eddie Knox from the student body.

Absent from the last meeting of the committee were Sammy Yow and Dr. Austin.

At the four previous meetings, the committee had unanimously agreed that (1) the diplomas be presented, if possible, in a case "similar to that used at Purdue" (a leather case) and (2) that if this were done, the diploma should be approximately the size and shape of the smaller diploma issued during the past several years.

At the third meeting, on June 29, it was decided that Dr. Lodwick Hartley, Head of the English Department, would be asked to properly word the new diploma and that John Peterson, fifth year design student, would

(See DIPLOMAS, page 3)

Barlow Awarded \$300 Scholarship

Wayne S. Barlow of Lenoir, N. C., has received a \$300 scholarship in the pulp and paper program at State College, C. E. Libby, professor of pulp and paper technology at the college, announced today.

Awarded in alternate years to a senior in the pulp and paper curriculum at State College by the Allied Paper Salesmen's Association of New York State, the award goes in other years to a senior in the New York State College of Forestry.

Barlow entered State College in the spring semester of 1955 in the forest management curriculum, but shortly he began working in pulp and paper. As a senior this year, he will work on laboratory problems in the newly completed and equipped Reuben B. Robertson Pulp and Paper Laboratory on the college campus.

From New York Architect

Contribution Given Design Publication

A nationally-known New York architect has made a \$750 contribution to the Student Publications of the School of Design at State College.

Dean Henry L. Kamphoefner of the college's School of Design said the donor is Wallace K. Harrison of the architectural firm of Harrison and Abramovitz, one of America's most noted firms.

Harrison and his firm are the architects for the United Nations Center and the Alcoa Building in Pittsburgh and one of three architects for New York's Rockefeller Center.

In a letter accompanying his

check, Harrison said the Student Publications in the School of Design is "one of the most important publications in this area."

Now going into its eighth year, the student journal, Dean Kamphoefner said, is one of the most continuous student publications in the field of architecture in the entire country.

The magazine, which began publication in 1950, devoted its first issue to the work of the late Matthew Nowicki, former head of the Department of Architecture in the State College School of Design, who was a key figure in the design of the State Fair Arena, the Carolina Country Club here, and many famous structures in several parts of the world. The magazine devoted to Nowicki's work is now a collectors' item, selling for as high as \$25 to \$30 a copy.

The current co-editors are Henry H. Wenzies of Winston-Salem and Eugene I. Lowry of Kingsport, Tenn., students in the State College School of Design.

The magazine is supported by a \$4.00 student fee, subscriptions, patron memberships, and proceeds from the annual School of Design Art Auction.

Design School Host At CU Coffee Hour

A coffee hour, co-sponsored by the College Union Hospitality Committee, and the American Institute of Architects (AIA) will be held on October 15 in the School of Design. The time will be from 5 until 6 o'clock. All students are invited to attend.

The coffee-hours, which are a weekly feature of the Hospitality Committee, are planned to give the student body a chance to meet faculty and staff members with whom they would ordinarily not come in contact.

Representatives Did Not Truly Represent

Last Wednesday afternoon, three students and two faculty members made a decision which will affect every person who is graduated from State College for the next five years—several thousand men.

The decision is final. The committee is now non-existent, as it disbanded after its meeting last Wednesday. A year long dispute has thus been ended.

The diploma and leather case will probably be very attractive. The way the new diploma was selected, however, is anything but attractive.

We do not disapprove of the diploma selected, but we intensely dislike and strongly denounce the method used in the selection.

The students appointed to the committee were the three class presidents and the Student Government president. These men were elected last spring by students for the sole purpose of representing students.

We charge that these students representatives, with the notable exception of the Senior Class President, failed to do the job that they had been entrusted to do—represent the views and opinions of the majority of the students. Indeed, one student representative did not even attend the committee meeting last week.

Though, theoretically, the students have no choice in their diplomas—they are granted, as stated on the diploma, by the Faculty—Chancellor Bostian very admirably, and in the interest of the students, appointed four students to the seven-man committee.

This gave the students, also theoretically, the power to propose the diploma of their own choosing. The student body, however, did not get a chance to make the choice, because their representatives did not represent.

The only truly representative student opinion was, in fact, thrown out by the committee. Senior Class President Jim Peden had set up a Senior Class Diploma Committee. It had met twice before Wednesday and had drawn up a recommendation which was presented to the Chancellor's Diploma Committee.

This recommendation, though, was blasted by the motion made by Jim Hunt—a representative who could not possibly have represented his students, because it was not until just prior to the meeting that he was fully briefed on the diploma situation.

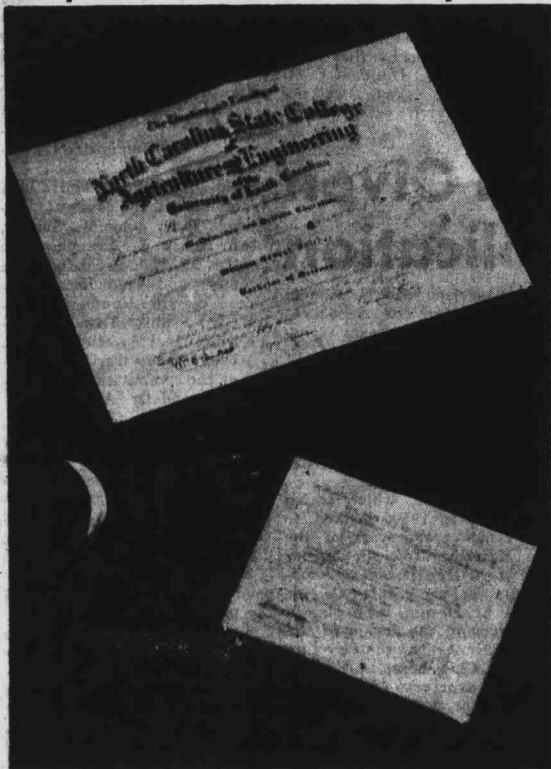

Before marking this whole mess off as experience, there are several questions for which the students should be given answers. First, why were the students not informed that the diploma change was undergoing discussion and that a decision had to be made on it by October 15? Had they been informed—and **The Technician** would have gladly helped get this information before the students, had we known it ourselves—the students would have been able to express their views on the diploma change before the final decision was made.

Second, why was the fact that a decisive majority of the Senior Class last year asked for a diploma entirely different from the one recently recommended, and wanted it bad enough to pay \$1.00 extra and make a special trip to Holladay Hall to get it, not taken into consideration as a strong indication of student opinion?

Finally, why did only one student on the committee—Senior Class President Peden—make a real effort to find out the views of those he represented?

—DB

Comparison of Old and New Diplomas

The large diploma at the top is the old-style diploma which has Old-English lettering. The lower diploma is approximately the same size as the one recommended last week by the Committee for the Selection of a new College Diploma.

From The Charlotte Observer

On The Grass, Human Values

From The Charlotte Observer

The new chancellor of the University of North Carolina was struggling with a scraggly front lawn one day when a neighbor sauntered over to suggest that the grass would grow faster if the kids would stay off it for a while.

"Right now I'm raising children," replied William Brantley Aycock. "When I get through raising children, then I'll start raising grass!"

Chancellor Aycock, who was installed Saturday in the top campus administrative job at UNC, has a long list of qualifications but his strong sense of proper values is one of the most important.

He recognized some of the most important values of a great university like UNC in his acceptance speech Saturday when he talked of teacher and student freedom in the realm of ideas, of broad liberal arts knowledge in a highly specialized world.

In an era where science is increasingly important, the challenge to a university is heightened. As Chancellor Aycock pointed out, while the Soviets train scientists who produce satellites, our universities must develop scientists who produce satellites and who are good and thoughtful citizens, too.

The chancellor knows his val-

ues. The human element is crucial. If we make a satellite but cannot learn to control it for mankind's good, then we are in for dark days ahead.

State Stuns Seminoles, 7-0

First Downs	NCS 20	FSU 13
Rushing Yardage	260	110
Passing Yardage	117	106
Passes	12-6	23-12
Passes Intercepted By	3	0
Punts	5-34	6-47
Fumbles Lost	3	0
Yards Penalized	40	44

Although it started out with what looked like the recapitulation of the Maryland game of two weeks ago, the Wolfpack had a struggle supreme before they finally downed the hard-driving forces of Florida State, 7-0, before a partisan crowd of 16,200 in Tallahassee Saturday night.

State was unstoppable as long as they weren't within seeing distance of the F. S. U. goal, but as they came near, fumbling always entered the picture. In four major drives, besides the scoring drive, the Pack was stopped by fumbles on three of them and downs on the other.

The only score of Saturday night's battle came with eight seconds remaining in the first half. Third-string State quarterback Ernie Driscoll, standing on the F. S. U. 46, hit left-half Dick Christy on the 25, and then Dick, after evading two would-be tacklers, scampered all the way for the score. Dick Hunter kicked the point after touchdown, thus giving him eight conversions out of nine attempts on the season.

Probably the primary reason for the Seminoles' tough stand was halfback Bobby Renn who thrice punted within the State 10 yard line. Henderson-born

Renn's best two kicks rolled dead on the Pack 4-yard and one-foot line.

As far as statistics were concerned, State played, by far, their best game of the year. In first downs, State made twenty, whereas the previous high was sixteen against Carolina in the opener. Also against the Tarheels, State rushed for 252 yards. In Saturday night's game, State gained 260 on the ground.

The Wolfpack hit the century mark for the first time this season in passing yardage with 117. This came close to doubling the previous high in the Maryland game, which saw 64 yards through the air.

In the Florida State game, the Pack completed six passes, bettering by one the number completed in the game with the Terps.

Saturday night's victory enabled the Red Men to tie a

Freshmen Defeat Tarbabies 33-19, In First Annual Shrine Bowl Game

The Baby Wolfpack won its second straight game of the season Saturday night as it downed the Tarbabies of North Carolina, 33-19, in the first annual Sudan Temple Shrine Bowl game. The Pack, who scored in the first three periods, held the Blue Boys down to nothing until the fourth quarter when the State third team came in.

State's score came on a blocked kick by tackle Bert Wilder, a pass from Ron Wojcicki to Larry Gill, and runs by Jim D'Antonio, Mike Delnegro, and Wojcicki. The conversions were by Gilleskie, who made two, and

one by Wojcicki.

Cross-Country Takes Split

In the first cross-country meet of the year for the Wolfpack, the State team split a dual meet, downing South Carolina, 21-42, while losing to the Clemson Tigers, 25-11.

The highlight of the day was performed by Arnold Latham of USC, who set a new course record by running the four-mile distance in 22 minutes.

DIPLOMAS

(Continued from page 1)
be asked to submit a proposed design. An increase in the graduation fee was also decided on at this meeting.

At the meeting on August 3, the fourth meeting, it was recommended that the College Print Shop print the diplomas on parchment, and that there be an increase of \$1.00 in all graduation fees.

At the meeting last Wednesday, the final recommendations of the committee were made and the committee was disbanded.

COVERING CAMPUS
(Continued from page 1)
STATE'S MATES

The first meeting of student wives will be held tonight at eight o'clock in the College Union Ballroom. The wives will be welcomed by Chancellor Carey H. Bostian. Dean of Student Affairs, J. J. Stewart, will speak on the "Place Student Wives Have on Campus." The meeting will adjourn for a social hour at which time there will be awarding of door prizes.

AMERICAN SOCIETY OF METALS

The American Society of Metals will meet Tuesday at 7:30 p.m. in room 103 Page Hall. Plans will be discussed for a banquet and other events scheduled for the semester.

DUKE GAME TICKETS

Due to the appearance of the

Ice Capades in the Coliseum on Friday, Oct. 25, students will have to pick up their reserved seat tickets for the Duke game between 8:30 a.m., Oct. 21, and 4:30 p.m., Oct. 24. Guest tickets limited to two.

TRUSTEES' VISITING COMMITTEE

The Visiting Committee of the Board of Trustees will be at State College most of the day on November 5. Groups of students wishing to make reports and discuss items with the Visiting Committee should make arrangements with Dean J. J. Stewart by November 1. Each group appearing before the committee is requested to provide 12 copies of summaries of reports.

INFIRMARY VISITING

Since a number of students in

the Infirmary have contagious influenza, visiting by other students could be dangerous. Students should not visit their friends in the Infirmary unless given permission by the nurse in charge.

COEDS

Since women students pay no Student Health Fee, they are not entitled to treatment at the Infirmary except in an emergency. They should consult a private physician.

HARVEST BALL

The Harvest Ball, featuring the Duke Ambassadors, will be held in the C. U. Ballroom on Saturday, October 26 from 8 'til 12 p.m. Advance tickets are on sale at the Union Main Desk for \$1.00 per couple. The dance is informal.

VETVILLE AND TRAILER INTRAMURALS

Students living in Vetville and in trailers are urged to take part in dormitory intramural activities. You have a team (Vetville-Parks) entered in football, volleyball, and bowling. See your athletic director, P. B. Johnson, Apt. 5, Vetville, TE 4-3903.

DANFORTH GRADUATE FELLOWSHIPS

Danforth Graduate Fellowships are available for men students who intend to prepare for college teaching. See Dr. Kingston Johns, Jr., at 207 Holladay Hall. Read your school bulletin board for more details.

ROTARY FOUNDATION FELLOWSHIPS

Apply through the Rotary

Club in your home city before Nov. 15 for Rotary Foundation Fellowships for graduate study abroad.

FULBRIGHT

Application deadline for Fulbright Fellowships is Nov. 1. Inquire at 201 Holladay Hall.

COAST GUARD OFFICER CANDIDATE CLASSES

For further information about Coast Guard Officer Candidate Classes inquire at 201 Holladay Hall.

ASHAE MEETING

The ASHAE will meet Tuesday at 7 p.m. in the second floor lounge in Riddick. All heating and air conditioning students are invited to attend.

JOB FACTS FROM DU PONT

BETTER THINGS FOR BETTER LIVING THROUGH CHEMISTRY

DU PONT SIZE, GROWTH PRESENT VARIED CHOICE OF JOB LOCATIONS TO QUALIFIED TECHNICAL MEN

Building Program, Expansion Create Many Opportunities at Company Plants and Labs

BENEFIT PROGRAM MEANS ADDED INCOME

by John Reid
Du Pont Representative

Don't forget the "extras" of an employee benefit program when you compare the job offers and salaries of different companies. At Du Pont, these extras mean added income that doesn't always meet the eye. They include life insurance, group hospitalization and surgical coverage, accident and health insurance, pension plan and paid vacation.

In addition, the Company sponsors a thrift plan. For every dollar you invest in U. S. Savings Bonds, the Company sets aside 25 cents for the purchase of common stock in your name. Roughly 65 per cent of our 90,000 employees are now participating in this plan.

If you have specific questions on Du Pont benefits, just send them to me. I'll be happy to try to answer them. E. I. du Pont de Nemours & Co., Inc., Room 2504-A Nemours Bldg., Wilmington 98, Del.

Engineers and scientists of all kinds work in 75 DuPont plants and 98 laboratories scattered over 26 states. Where you're assigned depends on your qualifications and the openings in the kind of work you want.

Geographical Spread

Right now, most of the Du Pont units are located east of the Mississippi, but there are plants in Texas, Colorado and on the Pacific Coast, too. And new building is under way in Kansas, Tennessee, Virginia and North Carolina.

Du Pont headquarters and many of the Company's labs and some of its plants are situated in and around Wilmington, Del., an attractive residential area within convenient traveling range of Philadelphia, New York and Washington.

Community Life

Wherever you're assigned, you'll find that the Du Pont Company and its people are interesting, compan-

ionable and active in the life of the community.

As you move ahead, as you grow in your job, you may move to another plant or laboratory—a possibility that adds to the variety and interest of your job.

METALLURGISTS PLAY VITAL ROLE AT DU PONT

Opportunities in metallurgy at Du Pont include research into the nature and properties of elements; development and supervision of pilot plant work; and the actual production of titanium metal and high-purity elemental silicon.

Other Du Pont metallurgists study problems relating to plant processing equipment. Some, for example, carry out research on intergranular corrosion or investigate failure relationships encountered in high-pressure operations.

These projects offer an interesting career to graduating metallurgists.

SEND FOR FREE BOOKLET

Booklets packed with information about Du Pont are yours for the asking. Subjects: mechanical, civil, metallurgical, chemical, electrical, instrumentation engineers at Du Pont; technical sales, research

and development. Just name the subject that interests you and send your name, school and address to E. I. du Pont de Nemours & Co., Inc., Room 2504-A Nemours Building, Wilmington 98, Del.

Super Sub!

It's been said that the atomic submarine "Nautilus" stays submerged so long that it only surfaces to let the crew re-enlist.

Perhaps for this reason, the Navy has taken valuable space aboard the "Nautilus" for the only soft-drink vending machine in the entire submarine fleet.

Naturally (or you wouldn't hear about it from us) it's a Coca-Cola machine. And not unexpectedly, re-enlistments are quite respectable.

Enough lot, those submariners. Great drink, Coke!
