Vol. XLIII, No. 39

State College Station, Raleigh, N. C.

Monday, March 9, 1959

Allen Feimster (center), a group leader in the highly successful Orientation Program held last fall, receives a Certificate of Commendation from Jim Hunt, President of the Student Government. Gilbert Alligood, Chairman of the program, looks on, (right). Feimster was one of 93 students who received the Certificates. Photo by Hoey.

## Orientation Leaders Receive Certificates

On Wednesday night, March 4, the Student Government presented certificates of commendation to Orientation Group Leaders who participated in the Student Orientation program last fall.

The 1958 program was termed a success and received compliments from various interested people throughout the state. Some alumni of State College encouraged the Student Government Committee on Orientation to continue a similar program because of the individual attention shown the freshmen.

During the week of orientation, 93 upperclassmen were given groups of between ten and fifteen new students, and they led discussions among the new students on academics, religious life, social life, group living, and co-curricular activities at State College.

Some of the mass assemblies

that usually go with orientation were eliminated, and the waiting lines were greatly reduced. The success of the orientation program can be attributed to the 93 students who came back to school a week early and worked with the new students.

The Student Government has approved the plans of the Orientation Commission to conduct a similar orientation program for 1959, and Thursday night, they passed a resolution to support the Commission in conducting the program.

Applications are now available at the Main Desk of the College Union and in room 206 of Holladay Hall, for those who wish to participate as Group Leaders for 1959.

The Orientation Commission will interview applicants the week of April 6, and letters of notification of acceptance will be mailed on April 13.

## Student United Fund Set For March 9-18

March 9th through the 18th is the time set aside for State College's Student United Fund. This year the fund will support two projects. The money appropriated in the Student Fund will aid students in health centers at Athens and Salonika, Greece, through the World University Service. This money will be used to supply them with food and medical care.

The goal has been set for \$750. \$500 of this will go to the health centers at Athens and Salonika and \$250 will go through the Raleigh United Fund to provide lunches for underprivileged school children.

A soliciting plan has been constructed by the Student United Fund Committee. The

collection plan is as follows: In the dorms, solicitors will contact each person individually and ask for his contributions. These solicitors will be wearing arm-bands. In the fraternities, the members will be solicited by one of their own brothers. Off-campus students may contribute at the College Union main desk, the Cafeteria, and the Student Supply Store.

Fred Houtz, committee chairman, stated that "this is the only drive on the State College campus for money, and that with each person doing his part the drive will not be a hardship on anyone." He also mentioned that the 25¢ is simply the loss of a pack of cigarettes or a milk shake, and he interjected the

## SG Asks Pres. Hunt To Confer With Chancellor: CU Board

By Mike Lea  
The Student Government unanimously passed a resolution concerning the reorganization of the College Union Board of Directors at its March 5th meeting.

This resolution stated that since "what's good for the student is good for the College Union," rather than vice versa, the President of the Student Council is requested to negotiate with the Chancellor ways to reorganize the Board of Directors to fit certain specifications.

These specifications include: the majority of the Board members to be elected by substantial portions of the student body, the secretary of the College Union be made an ex-officio member of the Board, and that only two members of the Board of Chairmen remain on the Board of Directors.

The resolution:

WHEREAS, This Legislature believes that the students of this College are mature enough to seriously practice the art of self government; and

WHEREAS, we believe that, "What's good for the students is good for the College Union," rather than vice versa, and

WHEREAS, the College Union Board of Directors currently has as members eight (8) persons chosen for their positions solely because they work with student money in the Union and not because they have been elected by the students supplying this money; and,

WHEREAS, the College Union Board of Directors by unanimous vote of those not elected by the students with those connected with the College Union, against the vote of the students' representatives not connected with the College Union has refused to reorganize in accordance with student wishes:

THEREFORE, be it resolved that the President of the Student Body is hereby requested to negotiate directly with the Chancellor ways and means of effectuating the reorganization of the Board of Directors to fit the following specifications:

1. A majority of members of the Board be elected by substantial portions of the Student Body other than

the committee of the College Union.

2. The Secretary of the College Union be made an ex-officio non-voting member of the Board of Directors.

3. Only two members of the Board of Chairmen remain on the Board of Directors.

We further request that the President of the Student Body point out to the Chancellor that the Committee Chairmen on the Board of Directors presently initiate financial matters concerning the social program and then defend them before the Board of Directors which makes the final approval and on which they now control one quarter of the vote.

Treasurer Larry Baxter re-

ported that there is \$1,195.50 in the Student Government Fund and \$2,536.24 in the Student Activities Fund.

President Jim Hunt reported that the New Dorm had been named Bragaw, that the Chancellor was pleased with the fee report, and that Ron Enders, president of the Freshman Class, is to attend the liaison meeting with the Chancellor. He also reported on the Board of Trustees meeting which he and Roy Lathrop, editor of The Technician, had attended.

Resolutions approving the appropriation of \$150 to the IDC and the adoption of the Freshman Orientation Program that was used last fall were passed by the Body.

### Before Apollo Club

## WC Head To Speak

Dr. Gordon W. Blackwell will be the speaker at the weekly meeting of the Apollo Club, Thursday evening, at 5:45. The Chancellor of Woman's College of the University of North Carolina is recognized as a specialist in community organization as well as a man gifted in administration and teaching, research and action, scholarship and human relations. As an authority on Sociology and Social Science, Dr. Blackwell will speak on "The Changing South."

Prior to becoming the Chancellor of the Woman's College in Greensboro, he headed the Department of Sociology at

Furman University. He later became director of The Institute for Research in Social Science at Chapel Hill. Dr. Blackwell received his Masters and Ph.D. degrees from Harvard University.

This is the third in the Spring series of Apollo meetings entitled "Man and the Moral Problem," and the Club prides itself in having such capable men to participate in its programs. To further reach the State College Community, Dr. Blackwell will meet with a faculty group at 10 Friday Morning, and with the YMCA Cabaret at 12 noon Friday.

## State College Quietly Observes 72nd Anniversary of Founding

State College quietly observed the 72nd anniversary of its founding Saturday, March 7.

The bill creating State College was ratified by the General Assembly March 7, 1887. The first students were admitted on October 3, 1889, after the construction of the first building, later named Holladay Hall.

No formal exercises were held in observance of the anniversary. In 1957, the General Assembly held an informal joint session in the William N. Reynolds Coliseum and staged a mock enactment of the law establishing the college as a feature of the 70th birthday program.

In a statement issued last Friday, Dr. Carey H. Bostian, chancellor of the college, said:

"During the 72 years since its founding, North Carolina State College has demonstrated the value of scientific and technological education and research—factors that have advanced the economic and social development of North Carolina.

"Through its vast teaching, research, and extension programs, State College each year enriches the lives of virtually all of the State's more than four million citizens.

"With today's emphasis on science and technology, I foresee for State College an even greater role in agricultural and in-

dustrial progress. As the Land Grant College, it is North Carolina's principal center of science and technology."

From an humble beginning and original enrollment of 72 students, State College has steadily advanced to become one of the nation's top-ranking centers of higher learning and research.

A total of 6,072 students registered at State College during the current academic year. They represent all of the State's 100 counties, 44 other states, the District of Columbia, three United States possessions, and 40 foreign countries.

The institution is a full-fledged member of the National Association of Land-Grant-Colleges and State Universities.

State College is composed of seven schools, various institutes and divisions, the Agricultural Experiment Station with test farms in 16 different localities in the State, and the Agricultural Extension Service which has employees in all of the State's 100 counties.

Undergraduate training is offered in the College's 50 departments, many of which are world-renowned for their work in the realm of technology. Graduate instruction is provided through the respective schools in 57 fields leading to the master's degree and in 23 fields leading to the doctor of philosophy degree.

## Campus Crier

Danforth Chapel will hold services on Wednesday, 12:40 to 1:00 p.m. The speaker will be the Reverend Walser Allen, Chaplain to Moravian students. Music will be presented by the Danforth Chapel Choir.

The Men's Glee Club of North Carolina State College will present a concert in the Haywood Building at the State Hospital here Friday at 3:30 p.m. Nels Leonard, Jr., director of the Glee Club, will be in charge of the program.

The Courtship and Marriage Committee of the N. C. State College YMCA is sponsoring a lecture, by Reverend Roderick Reinecke Thursday, March 12, at 8:00 p.m. in the faculty club room of the E. S. King Religious Center. Mr. Reinecke's lecture will be entitled "Misled (The Meaning of Sexuality)".

There will be one more meeting after this prior to the annual lectures by Mrs. Ethel Nash. Those who attend these lectures before the series will be assured of a seat at the series. There will be only a limited number who can be seated at Mrs. Nash's lectures.

The N. C. State Chapter of the Order of DeMolay will have its weekly meeting Tuesday, March 10. The main topic of discussion will be a party on March 21. All DeMolays on campus are invited to attend. If unable to be at the meeting, tickets can be obtained from any member of the chapter.

There is to be a Barbecue Luncheon with plates TO GO

on Wednesday, March 11th from 11:30 a.m. to 1:30 p.m. This luncheon, sponsored by States Mates, is open to everyone.

There is to be a Fashion Show sponsored by the States Mates in the College Union at 8:00 p.m. on Monday, March 9th. All members of States Mates are urged to attend as the meetings are drawing to a close for this year.

The Forestry Club will meet Tuesday at 7:00 p.m. The program will feature Professor Wyman, who will tell us what every forester should know, "The Proven Facts About Paul Bunyan." There will be illustrations, exhibits and brain wracking formulas to prove that everything he tells is the truth.

The 304th Special Forces Detachment USAR is now being organized at Fayetteville, N. C. Special Forces are small, highly trained units which operate behind enemy lines or on raiding parties.

Meetings will be held on Monday nights from 8:00 to 10:00 p.m. Men without prior service will be considered. Call George Thomason (Det S-1) at TE 3-6375 from 1:00 to 4:00 p.m. Monday, Tuesday, and Thursday.

There will be a panel discussion on the problems concerning the Middle East at the College Union on March 10, Tuesday, at 8 p.m. The panel discussion will be led by Dr. Reitzer of the History and Political Science Department. The topic will be "Arab Nationalism vs. Communism."

## EDITORIAL COMMENT

### Dig Deep!

Today is the first day of the Student United Fund drive. The motto is "Students Help Students." Let's make that motto meaningful.

The goal is not a high one for this large campus. The goal for individual fraternities, dormitories, etc., will be made known to those concerned, and it is based twenty-five cents per person.

We would like to make this point . . . considering the amount of money each one of us throws away, either carelessly or unknowingly, we can afford to give more than our goal. Why not surprise everyone, including ourselves, by doubling that goal . . . why not prove that State students do not have to fall necessarily into that category known as selfish adolescents.

We plan to publish the progress of the drive as it progresses, with first results coming out this Thursday. We will show both the individual goals and the collections as of Wednesday, March 11, and in that way we will all know how one group compares to another . . . don't let your organization be embarrassed.

We are expecting a good drive, and have confidence in its success . . . especially since the pressure is off the chairman of the drive. His wife gave birth to a bouncing baby girl yesterday.

—RL

## I. F. C. Nominations

### Greeks On Campus

By Bill Marley

The IFC executive committee met Sunday night to make up a slate of nominations for officers to be presented to the IFC this coming Wednesday. As I mentioned last week these men are chosen from a group of past and present committeemen. The slate will be presented to the council for a vote. If this slate is approved it will automatically be placed on the ballot along with those nominations made from the floor.

The slate of nominations compiled by the IFC executive committee is as follows: for President, Bob Davis, Pi Kappa Alpha; and Lenny Lavitt, Sigma Alpha Mu; for Vice-President, Gary Schultz, Kappa Alpha; for Secretary, Frank Davis, Sigma Phi Epsilon; and Bob Meadows, Kappa Alpha; for Treasurer, Alan Altman, Sigma Alpha Mu; and Pete Moffitt, Pi Kappa Alpha.

As a reminder further nominations from the floor will be in order at the Wednesday meeting.

A follow-up on the Stan Ken-

ton-June Christy concert the Saturday afternoon of Spring Greeks: Kidd Brewer has verbally agreed to let us use his "back-yard," under and I repeat under certain stipulations which will be brought out at the IFC meeting.

I wonder if what's good for the College Union (our very own CU) is good for fraternity men (?).

## Technicalities . . .

By Steve Daves

The sometimes-editorial difference of opinion between the *Daily Tar Heel* of Carolina and our own *Technician* can be just as inevitable and expected as the constant difference of opinion between the two schools themselves.

Not wishing to fall into a typical, sardonic pattern, we nevertheless think that *Tar Heel* editor Curtis Gans' recent editorial policy concerning the currently controversial appropriations for North Carolina education is somewhat immature. And nearsighted. And hypocritical. And just a bit foolish.

For, Mr. Gans, in your brilliant crusading before the State Legislature, you have frequently stated that the University at Chapel Hill is by far the most important branch of the Consolidated University . . . and that Chapel Hill should be given preference over State and W.C. in the appropriations . . . we quote:

"State is a unique institution . . . Woman's College has unique needs, and Carolina has, above all, unique needs and claims which must be presented . . .

from a point of view that the University at Chapel Hill is THE UNIVERSITY in the state system . . . the day may well come when the General Assembly looks on each (segment of) the University with equal favor, so that it will hold back on Carolina until the others catch up, making a statewide system of third rate Universities."

You said more, Mr. Gans, but we don't particularly want to incite riots on our campus.

We agree with you entirely that the General Assembly has been blind and negligent in regarding the Consolidated University for reasons purely political, but we must realize that our dedicated legislators are somewhat limited by a special factor that might best be called *hindsight*. Nevertheless, we don't find quite compatible your relative evaluation of State and Carolina. True, Carolina is a larger and older institution, and we believe that greater appropriations proportional to enrollment and program might be justified.

But as far as Carolina being the institution, qualified for special consideration by some obscure merits which you haven't revealed . . . well, we just don't see . . .

The question of which is more valuable to the state of North Carolina—State or Carolina—is purely partisan and academic and can hardly be argued intelligently with inadequate perspective. So let's keep things on a fairly equal basis, shall we?

And you might devote your yellow pages to something that our General Assembly would heed . . . something immediate, pressing, mandatory . . . like asparagus parity or whether or not Governor Hodges should go to Japan to seek new textile industry for North Carolina . . .

It would seem more intelligent to request everything we all need . . . and not penalize any institution to satisfy another.

have any interest in. When one does not like something, how can he be expected to put forth the effort to obtain the degree of perfection required by these research themes?

A. D. Stuart, Jr.

## Here's Arnold . . .

## . . . By Bill Johnson

## College Union

The present controversy involving the College Union is not new. Similar problems have been batted around for the past several years . . . only this year we'd like to see these problems batted to the ground, overcome, and buried.

The Student Government has made a powerful statement concerning just how the College Union should best serve the students. And the Chancellor has said on many occasions that he considers the Student Government as the supreme governing body for students . . . and that it is altogether proper for S.G. to alter C.U. structure if the need arises.

We have consistently hoped that changes could be effected through the students themselves . . . adjustments to change are more easily made in that way.

## Letters to the Editor

To the Editor:

A matter which has recently become a great concern to me, and I feel should be a great concern to every other on-campus student, deals with the punishment of students convicted of campus code violations. It impresses me that the Campus Code Board is a farce! The board has authority to make only one major decision: whether or not a student should be dismissed from school for a breach of the campus code. Once this decision has been made, the matter is placed in the hands of the director of student housing, N. B. Watts.

I do not feel that the Campus Code Board is responsible for this situation. They arrive at their decisions fairly and with due consideration of the evidence before them. (I could suggest, however, that more of the members of the board make more of an effort to attend trials. I know of a recent case where a student was made to reappear before the board for three weeks in succession before enough of the members were present to constitute a quorum. Needless to say, this puts quite a strain on the defendant and any witnesses he might bring on his behalf—a strain which should be quite unnecessary.)

However, it can be said that the Campus Code Board is doing its job fairly and with reasonable efficiency. Its authority rests in the hands of no one member, which is fortunate for the defendant . . . or is the defendant so fortunate? For all decisions resulting from a breach of campus code, the matter is placed in the hands of N. B. Watts. It is Mr. Watts' final decision that really affects the student.

control must be exercised to prevent misbehavior on campus. However, I feel that any punishment for any offense should be handled with some understanding of the circumstances. Mr. Watts obviously makes no real effort to understand the offending student or the circumstances of his offense. He is the man with the power, and I can assume you that he uses it. His complete disregard for the students certainly does not help him gain the respectful cooperation of the students of the college. On the contrary, it breeds contempt and defiance. I have been told in addition that Mr. Watts apparently makes little effort to help clear up complaints submitted to him by students, including dormitory officials. I feel that this is a matter which is in bad need of correction, or at least investigation. The power which is placed in the hands of this man enables him to place himself in a position of dictatorship over the dormitory students, and a dictatorship inevitably breeds discontent. I feel that we, the students of this college, should make an effort to see that we are treated with the fairness and justice that we have every right to expect. Let's see what we can do.

Jim Hackney

Editor's Note:

We are not aware that Mr. Watts, Director of Student Housing, has control of final decisions of the Campus Code Board . . . at least legally. However, there have been instances when members of the administration have made it quite clear that the decision of the Board must concur with their own predetermined decision . . . and there is a possibility that Mr. Watts has so interjected his wishes concerning dormitory

Unless the administration can trust the Board to make wise decisions, we would agree with Mr. Hackney that the Board is a farce.

To the Editor:

The time in which students in English 112 are faced with the task of writing research themes, better known as term papers, has arrived. Many students in English 112 are interested in technical and scientific subjects. Naturally, when the time comes to choose a topic for a term paper, most students will choose a subject of a technical or scientific nature. But what do the English instructors tell their English 112 students? No papers are to be written on scientific or technical topics!

This statement has caused much consternation among the students as to what topic to write on. So the instructors calmly tell the students that a subject from the fields of social studies, arts, and English will make an excellent topic for a paper.

Since the topic of the paper is supposed to be one that the student is interested in, it seems that many students will be forced to write a paper on a topic that they do not like or

# AFROTC Evolved From ROTC

THE TECHNICIAN  
March 9, 1959

3

The birth of the Air Force ROTC is not as new as the United States Air Force. It is an outgrowth of the Army ROTC Program, whose roots extend deep into the colonial history of the United States.

The genesis of the ROTC originated in 1819 when Capt. Allen Partridge, a former superintendent of the United States Military Academy, founded the American Literary, Scientific and Military Academy at Northfield, Vermont. The name was later changed to Norwich University, and it was chartered in 1834. Capt. Partridge resigned his commission in 1819, in order to effect his ideals of broader military training for civilians. Norwich University, the pioneer in the field of military training in civilian institutions was followed by Virginia Military Institute in 1828, the Citadel in 1842 and many others before 1862.

On 2 July 1862, the government recognized the necessity for military training at civilian institutions by passing the Morrill Act. This Act donated lands and monies for colleges when the leading object would be practical instruction in agriculture and the mechanical arts, including military tactics. The Act merely required the colleges to teach military science, and implied that all male students were required to take military training. In 1934, the supreme court decided that compulsory military training under the Morrill Act would be left in the hands of the State and Institution to favor or disfavor.

Between the years 1870 and 1880, the government increased the amount of aid granted to colleges and universities instructing in military science.

Under Section 40 of the National Defense Act of 1916, the Reserve Officers Training Corps was established. Section 47a,

48b and 47c authorized the establishment and operation of ROTC Camps, appointment of graduates and pay and commutation of subsistence for ROTC students. Further amendments

regular Air Force commission as a 2nd Lieut. at State in 1950.

The AFROTC Cadet Corps grew steadily, and during the school year 1953-54 there was a total average of 895 cadets in

36½ hours.

A cadet during four years in the AFROTC at State, is given 240 hours of leadership laboratory training, which includes drill movements, ceremonies, military courtesy, dress and appearance and related leadership subjects.

On the educational side, he receives classroom instruction as a basic cadet (first two years) in the foundation of air power to include the survey of elements of this power, basic aeronautical science and the development of aerial warfare, with emphasis on principles of combat, employment of forces, and changing weapons system.

During the last two years, an advanced cadet is given classroom instruction dealing with Air Force development of leadership doctrines, staff organization and functions, instruction problem solving techniques and the military justice system; as well as the study of global courses with stress placed on weather, navigation, geography and international relations. This four year educational course covers 360 class-room hours.

In addition, cadets between their junior and senior years,

(cont. on page 4)

The N. C. State AFROTC in full formation.

to this act were made in 1922, 1934, 1940 and 1945.

In June 1916, an Army ROTC unit was established at N. C. State College making it compulsory for physically qualified male students to take two years (freshman and sophomore) of military science to include some air science. According to Dean I. O. Schaub, State was a military school from 1899 to about 1908 and cadets wore Confederate gray uniforms.

This was continued (Army ROTC) until July, 1949, at which time the Air Force ROTC unit was organized at State College as a separate agency from the Army.

The Air Force organization consisted of 321 cadets, whose commandant was Major Jerome C. Eichholz. Cadet Carl W. Ballard, World War II veteran, was the first student to receive a

corps. This figure rose to a high peak of 1,077 cadets during this school year.

Through the years at State, the AFROTC Cadet Corps has been extremely active in extra curricular activities by participating with the Army ROTC in the growth and furtherance of the Scabbard and Blade Society, the Pershing Rifles and the Drum and Bugle Corps. The AFROTC organized its own Arnold Air Society Chapter, Color Guard and Rifle Team; and, many cadets have become members of the college band each year.

Another highlight in the growth of the State AFROTC Program was the establishment in 1955 of a flight instruction program for qualified senior cadets, whereby, successful graduates receive a Private Pilots Certificate. This training cover

N. C. State

## Student Affairs Bulletin

**Selective Service College Qualification Test** — Students who wish to take the examination, scheduled for April 30, 1959, should obtain an application form and bulletin of information now from the nearest Selective Service local board. Applications must be postmarked by midnight April 9.

A score of 70 or better on this test provides a basis for draft deferment now or later. A college student may be deferred on other bases including: ROTC participation; statutory deferment to complete any one academic year; and by attaining the required academic standing in his class as follows:

Freshman year—upper one-half; Sophomore year—upper two-thirds; Junior year—upper three-fourths.

However, it is quite appropriate for a student to take the test even though he does expect to qualify for deferment on some other basis throughout his college career. Unforeseen changes

in his status may cause the test results to be useful. A below passing score has no prejudicial effect on other deferment considerations.

For further information consult a local draft board or Dr. Johns or Dr. Rogers in the Student Affairs Division, 206 and 201 Holladay Hall respectively.

**Ringing Brothers Barnum & Bailey Circus**—March 20-21, 1959—Students may purchase a ticket to the Friday matinee, 3:30 p.m., performance of the circus at half the regular price (3.00-2.50-2.00-1.50). Purchase may be made at the Coliseum Box Office upon presentation of your ID card and athletic ticket between the hours of 8:30 a.m. and 4:30 p.m.

**Bowling Classes in Physical Education**—Due to the fire at Man-Mur Bowling Alley all physical education bowling classes will meet in the band room of the Gymnasium on Monday and Tuesday (March 9 and 10).

## Scoring big with slick ideas

like the Electronic Secretary\* answering unit,

product of America's second largest telephone system

Your phone is always "tended" when an Electronic Secretary unit is on your "line." For it answers calls in your absence and takes messages as well!

Here's how it works. When your phone rings, a recorded voice informs the caller that you are out—and invites him to leave his name, number and any information he wishes you to have.

When you return—or when you phone in—all calls are repeated to you word for word. Result: no more "missed" messages, no more lost business, no more worrying about leaving the phone unattended any hour of the day or night.

This is just one of many ways Gen Tel is adding new dimensions to telephone communication. We know that, in an America which is expanding fast on all fronts, it is imperative to expand both telephone service and telephone versatility.

And we're meeting the challenge by developing new products and better methods for bringing more and more people together.

# Wolfpack . . . ACC Champs Again!

## State Routs Tarheels By 80-56 To Capture Conference Title

Coach Everett Case sent his State College Wolfpack into the ACC championship game for the eleventh time in his thirteen years as coach here . . . and he emerged victor again as the Pack won its tenth title in thirteen seasons.

Saving its best for the last game, the Wolfpack literally ran all over the Tarheels in their 80-56 victory in the finals of the ACC tourney. A capacity crowd of 12,400 watched the Pack, beaten twice by Carolina during the regular season, lead all the way.

By halftime State had built up a 35-27 lead, and then burned the nets with a sizzling 62 per cent of its shots in the second half. The closest the Tarheels got to the fired-up Pack was in the second half when a spirited rally cut the State lead to two points, 42-40.

Outscoring the 'Heels in the second half, 45 points to 29, the Wolfpack handed the Carolina team its worst beating of the season.

Little Lou Pucillo, State's flashy playmaker, led the Pack to its victory, playing his best tourney game. He scored 23 points, high for both teams.

Carolina, which goes to New York Tuesday night to represent the ACC in the Eastern Regionals Playoffs, made a game of it for the first 30 minutes. Then, trailing by 54-49, the Tarheels began losing ground and couldn't keep up with the fast moving Wolfpack.

When asked if this victory was the best game of the season, Coach Case said, "It's hard to say," but then added, "It was the most rewarding."

Coach Case stated, "You might say we saved our best game 'til the last." And he certainly was right. In the opening game of the tourney, the Wolfpack played its worst game. That night, it took an overtime for the State squad to pull a 75-72 win out of the clutches of a determined South Carolina team.

At the end of regulation time, the score stood 68-68, and it

wouldn't have been that if Bob MacGillivray hadn't stolen the ball with 26 seconds to play and made good on a driving layup. This brought the Pack within one point of the Gamecocks, and in the act of shooting, "Mac" was fouled. With 3 seconds remaining, he stepped to the foul line and calmly dunked his free-throw to send the game into the extra period.

In the overtime, the Pack pulled away from the South Carolina squad and won, 75-72. After this opening contest, Coach Case said, "We were lucky to get out with that one."

The Wolfpack's next game was against the Cavaliers of Virginia, Friday night. This one turned out a little better as the State boys took it 66-63.

Then, in the finals it was like seeing a different team. Everything was clicking . . . the defense was excellent, the shooting better, and the individuals certainly lived up to their praise.

Even though the Wolfpack is now the ACC champion, it will not be allowed to represent the conference in the NCAA playoffs in Madison Square Garden next week, due to its probationary status.

## Pucillo, Richter Share Top Player Honors In Tourney

The N. C. State Wolfpack placed three players on the All-Tournament team, selected by the host of sportswriters covering the ACC Tourney. The remaining two members of the first team came from Carolina and Virginia.

In the ballot for the outstanding players and top performers during the tourney, two Wolfpack players ended up in a tie for the top position . . . Pucillo and Richter. Both received the same number of votes for the top performer of the tourney.

The first and second teams of the All-Tournament selection follow:

### All-Tournament FIRST TEAM

Lou Pucillo . . . N. C. State  
John Richter . . . N. C. State  
George Stepanovich . . . N. C. State  
Lee Shaffer . . . Carolina  
Paul Adkins . . . Virginia

### SECOND TEAM

Bob MacGillivray . . . N. C. State  
Doug Moe . . . Carolina  
York Larose . . . Carolina  
Howard Hurt . . . Duke  
Carroll Youngkin . . . Duke

### AFROTC

(Cont. from page 3)

are sent to an Air Force Base in the summer for 28 days of on-the-job training. Regular periods for recreation (athletics, dancing, etc.) are followed. Short base visitations, usually by aircraft, are also made periodically each year for basic cadets, in order to acquaint them with how an Air Force Base operates.

Through the decade at State, many graduates of the college, who successfully completed the AFROTC Program, are now serving as commissioned officers in the United States Air Force; or, are becoming leaders in industry.

The State College AFROTC organization is commanded by Col. Robert C. Paul, Professor of Air Science.

## Coach Case . . . "The Greatest Season I've Had at State"

"If we should win tonight, this will be the greatest season I ever had." So said Coach Case as he sent his Wolfpack onto the floor in its championship game with the Tarheels of Carolina . . . and they did win!

Coach Case said his team showed signs of greatness as they trounced the Tarheels by a score of 80-56 in the finals of the ACC Tourney Saturday night. "They saved their best till last. They showed signs of greatness. This group has got everything, and more, out of themselves. It won the Dixie Classic, tied Carolina for the regular season championship, and then won the tournament title."

Looking back over the season and recalling the teams encountered by his team, Coach Case observed, "This is the greatest season I've had at State."

When asked about the Wolfpack's victory over the Carolina squad, Case said, "We played extremely well and I didn't think it would be by this margin. We wanted it pretty darn bad."

Asked if he thought Carolina wanted a victory badly, Case replied, "I don't know. I can't answer it for them."

Speaking of the individual players, Coach Case could find nothing but praise for Lou Pucillo. He called Lou's performance one of his greatest ever . . . Lou scored 23 points (high for both teams).

Coach Frank McGuire of the defeated Tarheels had a few comments to make on the game. "We were beaten by a better team tonight. We lost the game while our regulars were in there."

McGuire had stated the night before that he would not hesitate to use reserves in the game if his regulars didn't show up well, and he did play his subs

that the Tarheels failed to play their best game in hopes of saving themselves for the upcoming NCAA playoffs, McGuire said, "I don't want to hear anybody say we didn't try. Our boys played their hearts out. They wanted to win in the worst way."

## HUSBANDS, ANYONE?

It has been alleged that coeds go to college for the sole purpose of finding husbands. This is, of course, an infamous canard, and I give fair warning that, small and spongy as I am, anybody who says such a dastardly thing when I am around had better be prepared for a sound thrashing!

Girls go to college for precisely the same reasons as men do: to broaden their horizons, to lengthen their vistas, to drink at the fount of wisdom. But if, by pure chance, while a girl is engaged in these meritorious pursuits, a likely looking husband should pop into view, why, what's wrong with that? Eh? What's wrong with that?

The question now arises, what should a girl look for in a husband? A great deal has been written on this subject. Some say character is most important, some say background, some say appearance, some say education. All are wrong.

The most important thing—bar none—in a husband is health. Though he be handsome as Apollo and rich as Croesus, what good is he if he just lies around all day accumulating bedsores?

*The most important thing in a husband is health*

The very first thing to do upon meeting a man is to make sure he is sound of wind and limb. Before he has a chance to sweet-talk you, slap a thermometer in his mouth, roll back his eyelids, yank out his tongue, rap his patella, palpate his thorax, ask him to straighten out a horseshoe with his teeth. If he fails these simple tests, phone for an ambulance and go on to the next prospect.

If, however, he turns out to be physically fit, proceed to the second most important requirement in a husband. I refer to a sense of humor.

A man who can't take a joke is a man to be avoided. There are several simple tests to find out whether your prospect can take a joke or not. You can, for example, slash his tires. Or burn his "Mad" comics. Or steal his switchblade. Or turn loose his pet raccoon. Or shave his head.

After each of these good-natured pranks, laugh gaily and shout "April Fool!" If he replies, "But this is February nineteenth," or something equally churlish, cross him off your list and give thanks you found out in time.

But if he laughs silverly and calls you "Little minx!" put him to the next test. Find out whether he is kindly.

The quickest way to ascertain his kindness is, of course, to look at the cigarette he smokes. Is it mild? Is it clement? Is it humane? Does it minister tenderly to the psyche? Does it coddle the synapses? Is it a good companion? Is it genial? Is it bright and friendly and full of dulcet pleasure from cockcrow till the heart of darkness?

Is it, in short, Philip Morris?

If Philip Morris it be, then clasp the man to your bosom with hoops of steel, for you may be sure that he is kindly as a summer breeze, kindly as a mother's kiss, kindly to his very marrow.

And now, having found a man who is kindly and healthy and blessed with a sense of humor, the only thing that remains is to make sure he will always earn a handsome living. That, fortunately, is easy. Just enroll him in engineering. © 1959, Max Shulman

For after smokers the Philip Morris Company makes Marlboro, the cigarette with better "makin's." New improved filter and good rich flavor. Soft pack or flip-top box. A lot to like!

## Former Head of Agronomy Department Named Director of Ag Extension Service

Dr. E. T. York, Jr., former head of the Agronomy Department at State College, has been named director of the Agricultural Extension Service at the Alabama Polytechnic Institute, Auburn.

His appointment, which will become effective May 1, has been approved by the Auburn Board of Trustees, an announcement from the Alabama school said Thursday.

A native of Alabama, Dr. York joined the North Carolina State College faculty in 1949 and was promoted to head of the Agronomy Department in 1953.

Widely known throughout the State, Dr. York owned and operated a 430-acre crop and livestock farm in North Carolina during his seven years of service on the faculty at State College.

At the age of 32, he was made head of the college's Agronomy Department.

INTERVIEWS

March 12

They said it couldn't  
be done...  
They said nobody  
could do it...  
but —

L&M is  
**Low**  
in tar

with  
**More**  
taste to it

Don't settle for one without the other

"L&M is kindest to your taste," says TV's George Gobel. "There are two mighty good reasons why I think you'll go for 'em. They're truly low in tar, with more exciting taste than you'll find in any other cigarette."

LOW TAR: L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly low in tar.

MORE TASTE: L&M's rich mixture of slow burning tobaccos brings you more exciting taste than any other cigarette.

LIVE MODERN CHANGE TO MODERN L&M
